

"By Helping Business You Help Yourself"

The Floyd County Plainsman

FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, JUNE 22, 1944

NUMBER 15

Daltis D. Rea Appointed Field Worker

Following an announcement by Chas. S. Gardiner, Merit Supervisor, at Austin, Miss. Rea has been appointed as Field Worker for the State Department of Public Health in Montague County. Rea took the Merit System examination for this position May 6, and was selected by the Merit System Council for Field Workers. Rea is spending three months at Fort Worth where she is receiving special training before being assigned to Montague County to her regular assignment. Rea has been employed in the State Schools here for a number of years as history teacher.

Car Ceiling Goes Into Effect July 10th

Regulations pertaining to the ceiling prices that go into effect July 10 will be discussed in meetings of the Price Administration Office of Price Administration meetings to be held with representatives throughout the district. Meetings will be held July 10 and will serve to bring about better cooperation and understanding. J. B. [Name] district price executive, is replacing of ceilings on used cars affect all sales of used cars by individuals or dealers. There are listed for 23 makes and 10,000 models of passenger cars, 12,000 dealers, whose name and on manufacturers' dealers, have received a copy of regulation and a sample copy of certificate of transfer. These passenger cars are part of national transportation system especially in rural areas, the [Name] was necessary, Mooney

General Fund Deficit Decreases

The state general fund's deficit is \$1,703,543 today, a decrease of \$20,796,540 in one year, according to a report released at [Name] early this week. The deficit was announced in [Name] with a call for payment of \$4,470 in general fund war bonds those dated through last [Name]. The new call number [Name].

Graduate Nurses for Navy and Essential Civilian Service Will be Turned Out by University of Texas John Sealy School of Nursing in June

On the graduation exercises, a class of approximately 40 nurses will begin their [Name] at the college.

Special Training For 2-Year College Students is Offered

Galveston, June 22.—A chance to aid in the rehabilitation of the nation's wounded fighters will be offered to scientifically-trained Texans with two years of college work by the University of Texas School of Medicine, when a special class in physical therapy is opened here June 26. Dr. Chauncey D. Leake, vice-president and dean, has announced. Only civilian school of its kind in the South to receive the endorsement of the American Medical Association for this training, the University program will provide technicians for the acutely understaffed military hospitals. The nine-month course here will include laboratory and class-work together with actual clinical practice in the John Sealy Hospitals at the Medical School. Registration for the work begins June 26, classes open June 23.

Vacationists Are Warned Against Contamination

Austin, June 22.—One of the most important factors contributing to the well-being of summer vacationists is a safe and healthful water supply. Contaminated water is the annual cause of much sickness and many fatalities. Water from sources not known to be safe should never be used to supply vacation needs. Dr. Geo. W. Cox, State Health Officer, stated this week that most municipal water supplies in Texas are periodically inspected and samples submitted to the State Health Laboratory for examination. He advised that it is always best, when in doubt, to endeavor to secure water from a municipal supply. "Families away from home on picnics, excursions, or vacation trips," Dr. Cox said, "should either ascertain that their water supply is safe or they should make it safe for human consumption. Water can be rendered safe by boiling for 15 minutes or by the addition of chlorine. A few drops of ordinary chlorine laundry bleaches can be added to a gallon of clear water and if the water is allowed to stand for 15 minutes it may be used for drinking." If drinking water is obtained from a private well, Dr. Cox advised vacationists to look for these protective features: a well-site protected from flooding with good drainage, and a concrete platform surrounding the pump. The pump itself should be securely mounted on the platform, should have a rod that enters the top through packing, and should have a turned-down spout. Contaminated water is usually found in well with open wood platforms, pits underneath the pump, openings where the pump rod enters the pump, and in pumps that require priming to operate.

Custom Combine Operators to get Operating Gas

Gasoline will be issued to custom combine operators to permit them to operate in the normal manner as an aid in overcoming the shortage of machinery for harvesting this summer's grain crop, the District Office of Price Administration in Lubbock has announced. District officials said that an applicant for gasoline to be used for this purpose should file his application with the Ration Board serving the area where he normally keeps his equipment. He should apply for the estimated amount to cover the entire harvest period. Many operators of custom combines often start in one section and move to various regions as the grain ripens, cutting wheat or oats for farmers along the way. If an operator should run out of gasoline during the trip, he must request additional rations from the same board where he filed his original application, officials stated.

Latin-American Conference in Session Today

Denton, June 22.—Two Denton colleges, North Texas State and Texas State College for Women, will be joint hosts for a Latin-American conference to be held on Thursday, June 22, under the auspices of the Office of the Coordinator of Inter-American Affairs. The general theme of the conference will be the promotion of better relations among the nations of the Pan-American Union, with special emphasis on relations with Latin-Americans in Texas. The program will be under the general supervision of Dr. Anna Powell, professor of history, NTSTC, and Dr. Rebecca Switzer, director of the department of foreign languages, TSCW. Topics listed on the tentative program include "Improving Social and Cultural Relations" and "Improving Economic and Business Relations." Invitations have gone out to all parts of the state for civic leaders, educators, and others interested in Inter-American relations.

A New Congress is Needed Says C. L. Harris

C. L. Harris, candidate for Congress from the 19th district said this week that it is time for the people to go back to that form of self government and of free American Enterprise which made this nation great. "By electing a new set of Congressmen who have no ties among present officials and who can go to Washington with a clean slate and nothing to think about except the welfare of the home district and of the nation as a whole, you may again assume charge of your government. "Congress should rule the nation. Congress is composed of the directly elected representatives of the people and these are the men who should do the telling and the doing in Washington. "I pledge you voters of this district that if I am elected to this place that my district shall come first and that I shall look after the interests of the business men, whether they be farmers, cow men, oil men or whatever." Texas hens are doing their part to meet the wartime food demand—the shell egg equivalent of 1,600 carloads of Texas eggs went to market during April, a 50 percent increase over April, 1943, according to the University of Texas Bureau of Business Research

WHICH ISSUE SHALL I BUY? There Is a Fifth War Loan Security to Meet Every Investment Need

- FOR MAXIMUM SAFETY OF PRINCIPAL**—All issues. There are no safer investments in the world.
- FOR MAXIMUM YIELD**—Series E Savings Bonds (2.9%); Series F Savings Bonds (2.53%); Series G Savings Bonds (2.53%). *If held to maturity.
- FOR CURRENT INCOME**—Series G Savings Bonds, Treasury 2 1/4's of 1965-70, Treasury 2's of 1952-54.
- FOR DEFERRED INCOME**—Series E and F Savings Bonds (for tax purposes income may be deferred or accrued).
- FOR SHORT TERM**—1/4% Certificates of Indebtedness (slightly over 11 months); Treasury 1 1/4% Notes of Series B-1947 (about 2 1/2 years) and Series C Savings Notes (6 months to 3 years).
- FOR MEDIUM TERM**—Series E, 10 years; Treasury 2's of 1952-54 (10 years); Series F and G (12 years).
- FOR LONG TERM**—Treasury 2 1/4's of 1965-70 (26 years).
- FOR MARKETABILITY**—Treasury 2's and 2 1/2's coupon or registered form; 1 1/4% Notes and 1/4% Certificates of Indebtedness, coupon form only.
- FOR BANK LOAN COLLATERAL**—Treasury 1 1/4's, 2's, and 2 1/2's, 1/4% Certificates of Indebtedness, and Series C Savings Notes.
- ESPECIALLY FOR PAYING TAXES**—Series C Savings Notes (acceptable during and after second calendar month after month of purchase at par and accrued interest for Federal income, estate or gift taxes).
- FOR MY ESTATE**—Series G (redeemable at par on death of owner), Treasury 2 1/4's (redeemable at par for estate taxes only on death of owner).
- FOR GIFTS**—Series E (or any other issue depending on needs of the recipient).
- FOR EDUCATION OF CHILDREN**—Series E.
- FOR SELF RETIREMENT PLANS**—Series E.
- FOR INVESTMENT OF BUSINESS RESERVES AND OTHER TEMPORARY FUNDS**—1/4% Certificates of Indebtedness, Treasury 1 1/4% Notes and Series C Savings Notes. The last named are redeemable at par and accrued interest during and after sixth calendar month after month of purchase, except where owner is commercial bank, in which case redemption will be made at par.

Custom Combine Operators to get Operating Gas

Gasoline will be issued to custom combine operators to permit them to operate in the normal manner as an aid in overcoming the shortage of machinery for harvesting this summer's grain crop, the District Office of Price Administration in Lubbock has announced. District officials said that an applicant for gasoline to be used for this purpose should file his application with the Ration Board serving the area where he normally keeps his equipment. Solid Fuels Heads Give Timely Information

Kansas City, Missouri, June 22, Dr. C. J. Potter, Deputy Solid Fuels Administrator for War, has informed the nation that there is only a thirty day supply of coal above ground, and that the latest estimates of bituminous coal production are more than 38,000,000 tons under this year's requirements. He predicts for the coming winter the greatest coal shortage this country ever faced. In the "Get Ready for Winter" campaign which must be conducted during the warm months in order to assure the best possible fuel conditions next winter, the following message must be got over to the public now: All fuel will be scarce next winter. Act now to keep from going cold then, by doing the following things:

1. Store this summer whatever kind and quantity of fuel your dealer can let you have. If you burn coal, don't wait for some preferred kind that may never be available, or insist on getting more than your fair share.
2. The Government has enlisted your coal dealer to carry out measures to keep you warm next winter. Seek and accept his advice on your coal problems.
3. Protect your home against loss of heat by installing insulation, storm doors and windows, and weatherstripping.
4. Clean your furnace, and place heating equipment in efficient operating condition. Install controls or other heat-saving devices where available. Learn how to get the full amount of heat from your fuel.

ALL-OUT IN FIFTH WAR LOAN DRIVE IS STAND TAKEN BY GLIDER SCHOOL

South Plains Army Air Field, June 22.—Going all-out in the Fifth War Loan Drive, the nation's only advanced glider school is taking a big part in activities to push the sale of war bonds. Besides buying bonds themselves as they never bought them before, military personnel of SPAAF is helping to bring home to people of this area the fact the big push is on by parades, bond shows, band concerts and every possible means. Saturday afternoon at the Lubbock courthouse, the SPAAF military band will play at an "auction" sponsored by the Lubbock county bond committee at which items difficult to obtain these days because of rationing and scarcities will be auctioned off to the highest war bond buyer. Last Saturday afternoon, SPAAF units led a huge war bond parade through the down section of Lubbock. Units from Lubbock Army Air Field, the Texas State Guard and Texas Tech also marched. The SPAAF band has performed in Lamesa and plans to play a future date in Slaton, while a negro band has performed for Lubbock's colored population in a bond rally. Meanwhile, SPAAF's "Winged Command Show," popular radio show broadcast over Lubbock Station KFYO, continues to boost bonds, at the same time presenting outstanding music and personalities at 7:30 o'clock every Monday night. A half-hour show last Monday night started the bond drive in Lubbock county, SPAAF getting the honor because of its great bond record.

Year's Salmon Pack of Alaska 5 Times Territory's First Cost

New York.—Value of the annual salmon pack now under way in Alaska is almost five times the original purchase price from Russia of \$7,200,000, according to W. C. Stolk, vice president of the American Can Company. Negotiations for the territory were completed June 20, 1867, by William Seward, then Secretary of State. Once known as "Seward's Folly," Alaska now contributes to the world's annual food supply the equivalent of 250,000,000 one-pound cans of salmon alone, Stolk said. Machinery designed and developed by engineers of the can company streamlined salmon packing to such an extent, the industry today grosses approximately \$35,000,000 a year, he said. The value of the cans alone has exceeded \$6,000,000 in one year. A fantastic natural phenomenon, the young salmon swim out to sea from the spawning areas and are "lost" for two to five years. Invariably they return to the spawning grounds, usually appearing first at the Shumigan Islands, near the Aleutians. An almost solid mass of salmon 12 miles wide has taken as long as 28 days to pass a given point on the return trip to the spawning grounds.

Rodeo Fans Will Have Opportunity At Amarillo Show

Amarillo, June 22.—Again this year rodeo fans of the Southwest will have fine opportunities to see their favorite arena attraction here during the first four days of July. Again this year the rodeo will be sponsored by The Tri-State Fair with Beutler Brothers as directors, but there will be more specialty acts than ever to provide a well-balanced two and a half hour program with calf roping, bull dogging, bronc riding and bull riding as the main events. Cash prizes of more than \$2,000 have been posted for the coterminants. It is an open show with no one barred except those blacklisted by Cowboys Turtle Association. There will be night shows at 8 o'clock on Saturday, July 1; Monday, July 3 and Tuesday, July 4. There will be two matinees at 2 o'clock on Sunday, July 2, and Tuesday, the Fourth of July. Throw your scrap into the fight.

Limited Quantity Shoes Will be Made Ration-Free

An estimated seven million pairs of shoes will be made available to consumers ration-free under a provision releasing a limited quantity of "odd lot" shoes during the three-week period July 10 through July 29, the Office of Price Administration has announced. Included in this release are men's and women's shoes of all sizes, and youths' and boys' shoes of sizes 1 to 6. Since children's and misses' and little boys' shoes were temporarily ration-free in May, they will not be affected by this action. Dealers who sell shoes ration-free under this measure are required to make specified price reductions.

D. R. Fitzpatrick—St. Louis Post-Dispatch

Denison Dam Power Sale Terms Revealed

Washington.—Terms covering sale of energy from the government's Denison dam on the Red River at Denison, Texas, have been disclosed in the announcement that the Federal Power Commission has approved a power sales agreement between the Southwest Power Administration and the Texas Power and Light Company, Dallas.

The agreement, to remain effective until July 1, 1949, or until six months after the war—which ever is earlier—was "expressly designed to meeting existing war conditions without establishing a permanent policy in respect to the disposition of electric power energy of the government," said FPC.

The rates agreed upon were "not type of project," said the FPC, adding the agreement also should end as soon as a second generating unit is installed. Eventually three more units will give the dam an aggregate 175,000 kilowatt capacity with the remaining initially available 5,000 kilowatt capacity reserved for sale to Southwestern Power Administration customers in Oklahoma. There is a guarantee to Texas power of 10,000,000 kilowatt hours of primary energy a month, plus all available secondary energy not otherwise disposed of.

The company is to pay five mills for primary energy and 2 1-2 mills "on-peak" and one mill "off-peak" for secondary, with a reduction of 2 mills for primary energy under certain conditions. The company is to lower rates to certain classes of customers and certain war customers by an amount estimated by the interior department at approximately \$400,000 a year, FPC said.

Pavement Extends From Del Rio to Burkburnett

Austin, June 22.—If a motorist had the gasoline and tires for it he could travel continuously on pavement without leaving U. S. Highway 277 from Villa Acuna, on the Mexican border, to Burkburnett, on the Oklahoma state line.

The highway department announced closing of a gap north of Del Rio provides continuous pavement from Del Rio via Sonora,

This poster "Fire Away" shows a scene aboard the U. S. Submarine "Dorado." The artist, the celebrated American painter Georges Schreiber, has caught the action during the very tense moment before the passing craft is identified as friend or foe. The painting is authentic in every detail for the artist was actually aboard the Submarine at sea. He ate and slept with the crew. He worked with the men and stood watch with the officers. A short time after leaving the Submarine, it was lost with all hands.

SHE CAN DREAM

of TOMORROW.

He's out there fighting now, but someday... soon we pray... it all will be over and together they can rebuild their home to fulfill her dreams of a modern ALL ELECTRIC KITCHEN!

Southwestern PUBLIC SERVICE Company

America — *This is it!*

He's doing his part . . . We must do our part!

For him the terrifying grand climax of the war is at hand.

The supreme military risk—bloody, costly in American lives.

Our boys know this. They don't have to read the heart-rending headlines or casualty lists to know what is expected of them.

They are in it.

But they are not flinching . . . not holding back.

They will see the grim venture through to the bitter, victorious end.

And if, for your boy, or some boy you know, the price of Victory is death, you can be absolutely certain that he did his part courageously . . . for the cause of Freedom.

For us, too, the terrifying grand climax of the war is at hand.

This supreme, desperate call for American dollars—16 billions of them—is to enable our fighting men to carry through the grim, bloody assault to a successful conclusion and Victory.

Not just American dollars—but the dollars in your pocket—in your savings account.

You must buy War Bonds—now! At least twice as much as you bought last time. If you are already buying Bonds on a pay-roll savings plan, buy EXTRA Bonds during this Drive.

Your Government is counting on you. Your boy—and your neighbor's boy—millions of them—are counting on you. Just as desperately as you are counting on them in this fateful hour.

► **Don't let them down!** Do your part—as they are doing theirs. Dig down, America—dig down deep! While there is still time. This is America's Zero Hour—Civilization's Zero Hour!

And here are 5 MORE reasons for buying EXTRA Bonds in the 5th!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.

Baccalaureate Sermon
 June 25 for U. S. Graduates

June 22.—A nationally-recognized speaker of civic, welfare, and social affairs in the South—William B. Feibelman of New Orleans—will deliver the baccalaureate sermon at the University of Texas graduation, Sunday evening, June 25.

Feibelman, president of the Louisiana Mental Health Commission and the Social Hygiene Association of New Orleans, Rabbi of the Temple B'nai B'rith, has served as a special representative for the American Red Cross and the Boy Scouts of America.

Feibelman is a graduate of the University of Pennsylvania and was ordained in 1926 as a member of the Hebrew Union College in Cincinnati. He has lived in New Orleans since 1936.

Seaman Jones telephoned Feibelman if the coast was clear, and Feibelman suggested he call the New Orleans bureau.

Feibelman always do without any money can't do anything with it.

Jobs Plentiful For College Students This Summer

Austin, June 22.—Students at the University of Texas these days prefer to work for cash instead of room and board, and Student Employment Bureau officials report that students have earned \$200,000 this year in part-time jobs ranging from minding babies to driving trucks.

The old "stand-by job" of collegians—waiting tables for room and board—is going begging, Charles V. Dunham, bureau director, reports, since war has sharply curtailed the number of students working their way through school. Those students who do work nearly all want cash-paying jobs.

Jobs will be plentiful this summer, Dunham says, especially for boys. He warned however that prospective students who want to work this summer should apply as soon as they reach the campus in order to have a wider selection of openings. Summer school at the University starts July 6.

TWO ARE KILLED IN AUTO-TRUCK CRASH AT WALTERS, OKLAHOMA MONDAY

In an automobile-truck crash 17 miles west of Walters, Oklahoma, early Monday morning two Texans were killed instantly and two others were injured, according to word received here.

The dead are Harvey Allen Bates, 21, of route 5 Lubbock; and Ruby Weeks, about 19, of Lockney.

The injured were Miss Weeks' sister, Susie, and Leard Anderson Armes, route 6, Lubbock.

Officers said the truck, towing another truck behind it, was traveling east toward Walters and the convertible coupe, occupied by the four young people, was going west.

The coupe struck the towed truck, blew out a tire and turned over, resting on its top on the roadway.

Armes freed himself from the wreckage but Susie Weeks was under the car for an hour and a half.

The driver of the truck, William Harold McCammon of Walters, was not injured.

The injured were taken to a Grandfield, Oklahoma hospital and the dead to Walters.

Truett Butler and family of Amarillo, spent the week end here visiting relatives.
