Practicing up for what evidently lies ahead, Charles Gorrell, Andy of the Amos 'n' Andy radio team, is shown above going through some kitchen calisthenics on a few dishes held by Alyce McLaughlin, whom he will marry Sept. 11.

Practicing up for what evidently lies ahead, Charles Gorrell, Andy of the Amos 'n' Andy radio team, is shown above going through some kitchen calisthenics on a few dishes held by Alyce McLaughlin, whom he will marry Sept. 11.

While Floyd County people have been watching with keen interest the progress of the W. C. Sims test east of Floydada and the O. W. Fry test north west six miles, a less spectacular advance in the area of land to be put under the pump has been made in the area north and northeast of McCoy fourteen miles southwest of Floydada.

L. A. Hartsell, John Tivis and M. W. Whitlow are among the newest farmers to drive drills down to the water bearing sands and surround part or all of their farms with irrigation ditches. The last of these to complete a well was M. W. Whitlow, for whom last week the contractor made a two hour test that fully demonstrated the well on his place is a good one.

Both the Hartsell and Tivis pumps have already been installed. Whitlow's farm is approximately two miles northeast of McCoy and he will have 400 acres available for irrigation from the well. The other farms lie to the west and northwest of Whitlow.

H. P. Puckett was among the first farmers in that immediate area to put down a well, now nearly two years ago. The well has been in operation since that time. The most south and east well in the county is on the Dr. Moore farm about seven miles almost due south of Floydada, where the Vernon man drilled early this spring and got a good water producer.

Mrs. Mike (Grandma) Custer who was recently reported to be very ill at Slaton was brought to her home Wednesday afternoon. She formed the trip fine, according to information, and is expected to recover.

She was taken ill in the home of her son three weeks ago when she was there for a visit. She is suffering from rheumatism of the heart.

Dr. and Mrs. U. S. Marshall and daughter, Melinda, were here for a brief visit the latter part of last week before going to Texas Tech. Dr. Marshall will take up duties as the college physician. They were guests here of his parents, Mr. and Mrs. L. A. Marshall and other relatives.

Dr. Marshall completed his year as an interne at Baylor Hospital in Dallas late in June and during the summer he and his family have been at Weslaco.

Abandonment of the plans for a sheep and mule show, likewise of this week. Inability to properly care for the entries and resulting lack of interest were assigned by Cothern as reasons for this action on the part of the committee. "We appreciate the interest of the horsemen and also of the sheepraisers but find the shows planned in these two divisions impractical, after we went into the situation thoroughly.

Several entertainment features are being planned for the twoday event on September 24 and 25. Cothern said. The committee having charge of the plans are J. G. Deakins, G. L. Kirk, and J. C. Wester.

Registration of the returning members began at 10 o'clock Friday morning and continued until 2:30 o'clock when a jamboree was held at the high school.

Other highlights of the class were the winning of the Polies each year they were in high school and the honors received by the class one act play, "Singapore Spider" which was taken to Abilene after winning contests at Plainview.

Mrs. Smith talks Mrs. Lon V. Smith, sponsor of the class, spoke also at the jamboree session, using Dale Carnegie's book, "How to Win Friends and Influence People" as her subject. Miss Selma Linder read the history of the class that was read at the end of school in 1932.

Meeting for the first time in five years and the first class ever to have a class reunion in Floydada High School, the graduates of 1932 "came back" Friday to renew old acquaintances, talk of old times, and make plans for future meetings.

President Billie Joe Welch, head of the class of sixty-seven that received diplomas that year, presided again over the forty class members that were able to return to their high school.

Superintendent A. D. Cummings spoke to the group, mentioning that the class of '32 started the present football field and also planted the hedge around it.

Completion of the offices for the health unit was effected Tuesday night and yesterday and last night they were being fitted up for occupancy by the health workers.

The department personnel here will include seven persons to begin the work in this section, including in addition to the director, two sanitary engineers, two nurses and other trained workers, who will headquarter here.

Mr. Horn has been with the Massey Wholesale here for the past eleven years, seven years as city salesman and the past four on the territory.

Mrs. Horn has served an equal length of time with Miladies' Specialty Shoppe here.

"We've a lot of Friends in Floydada and the surrounding territory whose association we hate to give up," Mr. Horn said. "But the association with Mr. Stewart appears to be an opportunity to strike out for myself that can't be overlooked."

The Horns came to Floydada from McKinney in Collin County. Mr. Horn has spent practically all of his business life in the grocery trade.

Workmen have been busy for the past several weeks reconditioning the machinery and belts in the gins preparing them for one of the best cotton crops in a number of years.

The peak of the cotton season is not expected to be reached until the middle of October due to the fact that the majority of the cotton in the county is later than usual.

Cotton will be moving pretty steadily by October 1, it is generally believed by those that have studied the cotton situation for a number of years.

The cotton that is expected to be brought in this week is from a patch of early cotton that was bad-ly (See Ginners, back page)

Estimates on this year's cotton crop vary. One guess went as high as 35,000 bales, or the same as the 1932 crop, another man made a guess of 30,000 bales for the season. One ginners made the guess that 21,500 bales would cover the production of this county.

Something like 8,000 bales are expected to be ginned in the Floydada gins alone. In 1933 Floydada gins handled 10,000 bales, the informant said.

Responsibility for the wreck had been definitely placed by the sheriff's department Wednesday morning. The sheriff said, however, "Three accidents within a week is unusual but two of them could have been avoided had the auto- (See Highway Accidents, back page)

Dr. H. H. Puckett will be director general of the Public Health Department, Unit One, administering public health work in the fifty-two counties of northwest Texas instead of Dr. L. R. Walter, who will be stationed at Temple in Bell County.

Dr. Puckett arrived Tuesday night from Willacy County in South Texas as where he has recently made his home, after moving from West Virginia. In that state he had served in public health work for nine years.

Dr. Puckett will be director general of the Public Health Department, Unit One, administering public health work in the fifty-two counties of northwest Texas instead of Dr. L. R. Walter, who will be stationed at Temple in Bell County.

Practicing up for what evidently lies ahead, Charles Gorrell, Andy of the Amos 'n' Andy radio team, is shown above going through some kitchen calisthenics on a few dishes held by Alyce McLaughlin, whom he will marry Sept. 11.

Shown above after her arrival in Washington, Mrs. Dixie Graves became the fourth woman to obtain a seal in the U. S. Senate when Gov. Bibb Graves, her husband, appointed her to the post vacated by Senator Hugo L. Black, recently named to the Supreme Court.

Prizes will be offered for Stalks of Cotton Grown By The 4-H Club

Barbecue Planned

County Agent Bredthauer Plans Irrigated Wheat Demonstration Plot

One of the best one variety cotton meetings in the state will be held at Aiken September 24, if plans go through. A barbecue has been planned for at least 200 persons who are expected to attend the cotton improvement meeting.

Prizes will be offered to adult one variety cotton growers and to 4-H Club members for exhibiting the best stalk of cotton.

F. E. Lichte, Extension Cotton Gin Specialist, A. E. Miller, extension agronomist, D. T. Killough, cotton breeder, Texas Agricultural Experiment Station, Roy F. Saunders, of the Bureau of Plant Industry, and K. J. Edwards, district agent, will be on the program for one variety cotton discussions.

The forenoon will be devoted to the awarding of prizes to the winning stalks of cotton.

Ed Whitfill of Aiken, will have his gin completed at that time for inspection by the growers. The gin has been equipped with all of the latest type of gin equipment and is boasted as one of the best long staple cotton gins in West Texas.

Some of the time during the morning will be taken up with respect to getting wheat on a one variety basis. J. E. McAvoy and the county agricultural agent are working out a plan whereby a few acres of land will be secured near Aiken, located on the highway, which will be used as a community irrigated wheat demonstration plot.

Each farmer will be asked to bring one pound of wheat seed, the same that he is using for seeding his 1938 crop. This wheat will be planted on one row and there are expected to be between sixty and seventy farmers having rows in this (See Aiken Plans, back page)

Mr. and Mrs. R. W. Tucker left Wednesday for Plainview where they will make their home. Tucker was employed as superintendent by the Texas Highway Department and stationed here but received a transfer to the Plainview area.

Tucker's position here will be filled by J. A. Pruitt. He will report this week.

**AFTER THE RACKETEERS**

It is unfortunate that legitimate business must suffer along with the high binders who would do business with the people of the country, but to help eradicate the gentry who prey upon the unsuspecting it is a refreshing thing to see how the post office department is working on lines that are somewhat original and certainly effective to keep fakers and racketeers from swindling lonely people in the remote places and out of touch with the world as it moves along.

A swindle that has been exposed recently is that of victimizing elderly people with poor eyesight. A scheme cleverly devised, the operators are so adept that they actually compel confidence. "Come on" men find the victims and get 25 per cent from the more-advanced in the racket from any additional funds pilched.

The post office department would like to know of instances you may have observed.

**DON'T DO THIS ANY MORE!**

One interesting amendment to the state constitution the people were asked to vote for, and did was one that will apply to one county alone—the county of Harris. This kind of foolishness is what is the matter with our country now. It may be fine that Harris County have something special that does not apply to the rest of the state. We doubt it, but take such for granted. If so, late Harris County have a state and a constitution of their own. The very idea of having the organic law of the land exempt or specially set out some certain county or municipality or area that will have some kind of a provision that does not apply to all!

**WHAT PRICE COTTON?**

The right and wrong of why the price of cotton staple is going down week by week with the appearance of no stopping place will have to be answered by someone else. This writer does not presume to know. The charge is made that the whole south country turned to cotton as a big money crop this year after a few years of reduced acreage and untoward conditions had disposed of a big carry-over. At any rate, a big yield has been made in most of the early cotton producing areas and the later crops are going to be fair to excellent.

Those who have decried the Congress as "mattering little" as to its policies doubtless will change their minds and hope that the administration can and will do something about it. A big cotton crop that does not make any money doesn't put the farm people back on their feet.

**MERELY A DIFFERENCE IN VIEWPOINT**

**As A Farm Woman Thinks**

Nellie Witt Spikes

As I write this column this lovely morning, I feel the presence of my many friends, who have so kindly encouraged me by telling me they look forward to reading what I write. I look forward to meeting you each week, a very pleasant lady, Mrs. Horton of Pan View, told me yesterday. It is a great pleasure to meet the readers of the Hesperian.

One of my treasured keep-sakes is an old time fruit jar of creamy white stone. My grandmother Jones gave it to me. When I look at it I see her old home near the little town of Emma. Children are playing in the attic. Flour sacks hang from the rafters. Dried corn, pinto beans, and black eyed peas fill these clean white sacks. Strings of Okra, hard and brown keep company with garlands of bright red pepper. Stone jars, tightly sealed with dark red sealing wax hold treasures of plum butter, red jelly of canyon plums, black jelly of the wild grape. Peach butter and yellow tomato preserves, clear as honey add to the rich store. But best of all is a five gallon stone jar that has been opened. Childish fingers reach in the jar and the sweetest of sweets is placed in greedy mouths. "Shoe solo Preserves" we called this luscious confection. The thick sweet juice dripped in our mouths. No high priced sweet in my grown up days has been as delicious as this old time preserve.

I am about to forget the sacks of fragrant peaches. Peaches that grandmother fixed and we children spread on the sloping house to dry in the hot summer sun. Fried peach pies and cream! Oh, would some Alladin's lamp, rubbed by my eager hands, take me back again so I could sit at my dear grandmother's feet on a moonlight night and again hear her sweet voice telling me stories. Tales of Indian days in Parker County, when grandmother hid her self and children in an old dry well. Memories of my own red checked mother when she was a little girl like me, I heard, at grandmothers.

We washed our feet in an old brass kettle, after we had eaten our supper of hot mush and cool sweet milk. We had had a busy day. The first thing to be done when we got to grandfathers was to go around the orchard and see all the bird nests. Then there were wild flowers to gather, the red wine cup the white daisy, the dainty bluebells. Even the milking was a pleasure. My uncle, Felix, who was my age, tied off the stubborn calves, that hated to leave the warm sweet milk. Old Crump, Old Dribble, Th. Speck and Baldy. Could those old cow's names ever be forgotten? Hide and seek we played in the bright moonlight, jokes we got on one another. Such as putting red pepper or soap between biscuits. We looked at the stars thru a coat sleeve. "I spy," was a favorite game. We dressed up as ladies in our Aunt Mirtle's best dresses (when she was away, of course.) We laughed and talked after we went to bed till grandfather got tired and called out in his deep clear voice, "You children quile down and go to sleep."

Sweet happy childhood days. We long to be a child again.

As the crowd stood on the side of the water yesterday afternoon and the preachers baptized the new converts, our minds went back to another baptizing scene. Long robes, the men and women standing by the water's edge, wore. The men had long beards. In their eyes shone a new light, a new hope. In the river Jordan's water a man was being baptized. A man, whose teaching of love and peace, the waiting men and women had never before heard. A voice of beauty and Majesty rolled from the heavens, saying, "This is my beloved son, in whom I am well pleased."

It came to the ears of the Christian people again yesterday, this same voice. "These are my beloved children, in whom I am well pleased."

Some dear friends called yesterday while I was away. How disappointed I was. Such pleasant association we could have had, talking over old times and remembering friends who have moved away, some to new homes, some to a Land That Is Brighter Than Day. Come again, next time we hope to be here.

Such a pleasant occurrence has just happened. A car stopped, a lady came in for directions. She was Dr. Potter from Temple and she is the friend of my son and his wife. Glad indeed, I was that she got lost and stopped here for a few happy moments. Life is ever giving pleasures just like this. We never know what happiness is just around the corner or coming in the gate.

"Go one mile north and two east," I started to tell. "But wait, tell me right or left. I do not know north nor south," was the reply. I remembered when I was in the timber, I would ask how to go north or east and was directed by creeks, dead trees and old man so-in-so's place.

Money will not buy all that you need. Enemies come only from those you dislike. Better give inspiration than expiration. Education is often found but never lost. Be kind to your feet, be reverent to your head.

**BITS O' PHILOSOPHY**

Money will not buy all that you need. Enemies come only from those you dislike. Better give inspiration than expiration. Education is often found but never lost. Be kind to your feet, be reverent to your head.

Money will not buy all that you need. Enemies come only from those you dislike. Better give inspiration than expiration. Education is often found but never lost. Be kind to your feet, be reverent to your head.

**KING COTTON AND HIS SUBJECTS**

A good many arguments and guesses about the probable production of cotton in Floyd County this fall. First bale time is almost here, with a few early fields in competition. General run of the crop will not begin going to the gin until the latter part of September, but the "smell of the battle" has all hands eager. There is something about King Cotton.

How late the season, whether the winter approaches with frosts or with freezes first and a lot of things have to do with the probable gross yield in the county. Be sure the big-time buyers are well posted on the situation. Farmers who "fool" the trade fool only themselves and people in the small cities and towns who serve them.

**NOT ENOUGH FEED HERE**

Although practically all feed crops in Floyd County are fair and some of them unusually good, the acreage is so small it is feared the county will not have enough to run it through until another harvest. The wheat acreage was big and the cotton acreage apparently very little if any smaller than for the past four years. But feed planting has been another story. The acreage appears to have been cut in a big way.

Fortunately for the immediate prospect all the neighboring counties have a surplus of forage feeds and there has been a big corn crop raised in the corn belt. Suppose this had not been the case, though, and a good many cotton raisers would have had to spend all their profits for feedstuffs.

**TRENCH SILOS LOOK GOOD**

Around over the country where trench silos are being filled they look mighty good. Farmers say this type of silo is past the experimental stage and that a man with cattle or live stock who does not put in a silo is making a business mistake. Cheap first cost, ease of filling, faultless winter-time handling, practically fool-proof keeping of the grain and juices of the stalk, all argue for the trench silo as against the feed stack.

Perhaps something will develop wrong with the trench silo, but such has not been the case yet.

**WE NEED MORE HOUSES**

More houses are needed in Floydada. This states a condition that has grown steadily more factual with the passing of the weeks since early in the year. Several good things have conspired to make this true, resulting in a few new families every week for some weeks until the available spaces are all just about taken, even with families doubling up, renting out rooms and making places for light housekeeping couples.

Whether some rental property would pay, giving excellent quarters to a good many families now desiring them, may be questionable in the minds of those who are in the home-building business. But the need is apparent to the most casual observer.

**WHAT IS A HOME WORTH?**

A home that was worth \$5,000 to live in in 1928 is worth \$5,000 to live in in 1937. Fact is, a home as such, if within the means of the resident to provide, is worth to live in whatever it cost.

About the best investment a working man or a man of small income ever made was in a home. Men of experience, wealthy men who began as poor men, will tell you that.

**WASHINGTON LETTER**

BY SPECIAL CORRESPONDENT

WASHINGTON — Last-minute endorsement of a conference report on housing was admittedly one of the major accomplishments of the first session of the 75th Congress, but housing experts here are accusing Congress of having fumbled the Wagner-Stegall bill in passing it back and forth between the House and Senate.

The bill was bootled about because the Senate wanted to make it possible for the Government Housing Authority to make 95% loans to local authorities, and, the House wanted the loans cut to 85%. The Senate wanted employees of the Authority to be engaged under civil service regulations, and the House didn't. Originally the Senate voted for an administrator and two Authority members, but the House wanted the administrator to have a board of nine advisors.

The bill as passed provides that the federal Authority may lend 90% of the cost of a low-cost housing project, the remaining 10% to be contributed by the local Authority. These loans may be amortized over a period of 60 years.

The community is to borrow from the government for its projects at the going rate of interest plus half of 1%. To help the community keep down rents for low-cost housing projects, the government is authorized to contribute up to 3 1/2% of the total cost of the project in the form of annual subsidies.

The Authority may lend up to \$100,000,000 the first year, not more than 10% of this amount to any one state. The limit on total loans is \$200,000,000 the second, and \$200,000,000 the third years. The limit on total subsidies is \$5,000,000 the first year, \$10,000,000 the second, and \$10,000,000 the third years.

The bill also provides that the government cannot lend money to a local Authority if the housing project it sponsors costs more than \$4000 per family unit. The accepted average is 3 1/2 rooms per family unit in low-cost dwellings, while the accepted average monthly rental for these houses is somewhere near \$5.50 per room. So the community must appeal to the federal Authority for an annual subsidy which will bridge the difference between the cost of each room and the proper rental.

The bill further specifies that the subsidy payment to a local Authority cannot be more than the going rate of interest plus 1% of the original loan. Local Authority borrowers are allowed under this measure to offset the return of subsidy payments they have received, with tax exemptions. There is criticism because local Authorities are not to

be allowed to reduce their capital debt by the same method. Probably the best feature of the bill is that it compels the borrower community to clear as many undesirable family units as it builds with government help.

**FLOYD COUNTY 14 YEARS AGO**  
Shows some taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

ISSUE OF AUGUST 30, 1923

Postmaster J. D. Starks, who in company with V. A. Leonard attended the Texas Postmasters' Association in its annual convention at Del Rio last week, reached home Saturday.

Fire yesterday morning practically destroyed a wash house and tank tower at the residence of W. E. Brown in the South West part of the city, with a damage of some \$300.

The sale of Berry Cash Store stock to D. J. Payne of Hamlin, Texas, was announced this week, by Sam Berry, proprietor of the store, who said crating of the goods preparatory to shipping them to Hamlin had been started. Mr. Payne will re-open the stock of goods at Hamlin upon its arrival there.

Mr. Berry said this morning that he had not matured his plans for the future as yet.

A big part of Floyd County had a lake-filling rain Sunday night and all the county had light showers to heavy rains, supplementing the rains of last week and week before last, so that working stubble land and the preparation of wide row where the rains have been too heavy this week.

Agricultural products are being sought in Floyd County by the secretary of the Floydada Chamber of Commerce who is busy preparing an exhibit to take to the Oklahoma State Fair at Oklahoma City in September and then to the Dallas Fair at Dallas in October. He has already found some excellent wheat, cats, barley and other small grains and has it ready to go to the fairs.

A new kind of "fish" story, one of recent vintage, is told by F. W. Ansley, L. B. Dawson and J. K. Green who, returned Saturday forenoon from Two-Draw Lake, near Post City, where they had been on a two-day fishing trip.

While they had good luck with fishing lines as well as with trot lines, making good catches considering the lateness of the season.

**Editorial Briefs From Other Newspapers**

The man who owns a trailer must have to look up his relatives to find a camping place.—Quannah Tribune.

Lightning is one of the most freakish phenomena of nature. Sometimes it takes the form of a ball many of which are 40 feet in diameter. These fireballs explode with a deafening sound. Some have even entered homes through open windows or chimneys and exploded inside.—Spearman Reporter.

"Nothing worth while was ever accomplished that did not at first seem impossible."—Paducah Post.

Champion rolling pin hurler Mrs. Edward Elliott of Brookport, who tossed the pin 102 feet to win the title.—Wellington Leader.

Some parents are not so much worried about bringing up their children as they are keeping up with them.—Quitaque Post.

**Just In Fun**

We understand there is a movement being sponsored by Hesperian Writers' Local 407 to take the day off should Mlle. Jadwiga Jankowska win the tennis tournament at Forest Hills.

Hot weather story to end all hot weather stories is that told by the Texas farmer who claimed the best was so intense it popped the popcorn in his field.

And who remembers the time when "The Face on the Barbet Floor" was the name of a ballad?

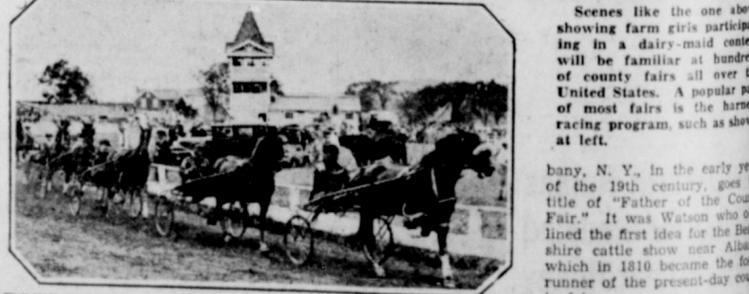

Their big exploit consisted of their "catch" of turtles. Besides the hardback which got away, they ran loose from their lines a total of 12 turtles they aver in the two nights they ran the trot lines.

The Star - Telegram editor and Program director of WBAP has advised Maury Hopkins, secretary of the Chamber of Commerce, that the Floydada Novelty Orchestra have been assigned their date for a return engagement to that station on February 12, Lincoln's birthday.

Elder and Mrs. J. J. Day reached home yesterday from Fort Morgan in the northeast corner of Colorado where he has been visiting several days with C. S. Jones and family. Mrs. Jones is their daughter.

The sun will be in eclipse at Floydada on September 10. On that date the moon will come between the earth and sun and the eclipse will be over 80 per cent here.

**Fairs Show Increase in Popularity With Advent of Educational Motive**

Scenes like the one above, showing farm girls participating in a dairy-maid contest, will be familiar at hundreds of county fairs all over the United States. A popular part of most fairs is the harness racing program, such as shown at left.

PRIZE-WINNING plums, preserves, and out-size pumpkins for attention with beribboned "blueblooms" from the pasture and stable. Pretty dairy maids, showing the folks "how it's done," compete with the shrill-voiced invitations of the midway Barker. Gay-colored ferris wheels, merry-go-rounds, kewpie doll stands, and home-made taffy, pulled for your own benefit—all those things and hundreds of others may be found at the county fair.

The development of the American fair makes an interesting page in history. It reflects the expansion and improvement of farming methods throughout the nation more than any other agency. Yet the survival and actual increase in popularity of the county fair in this fast-moving 20th century appears astonishing. Instead of this rural endeavor waning it is gaining strength.

Today there are approximately 3000 district, state and county fairs in North America, held in practically every state in the Union and in every month of the year. They range from the February carnivals in Florida, to the July fairs in California and western Canada, and the early fall fairs of the east and midwest.

ONE of the outstanding reasons for this increased interest is the desire for education. No longer is the county fair arranged with the sole motive of selling livestock and farm produce, as it was in the early days. That was the original idea of the rural fairs, which, patterned after similar shows in Europe, first made their appearance in the American colonies as early as 1644.

THE spirit of competition turns work into play. The county fair to many people in agricultural counties is a game from which they derive real pleasure. The modern farmer likes his fun as well as anyone, and the increases in attendance, as well as exhibits and the premiums offered indicate his ability to pay for it.

# News Review Of The Week

Tuesday, August 24

**AMARILLO**—There will certainly be a special session of the Texas Legislature, Governor James V. Allred emphatically declared as he stopped briefly here last night en route to Denver. He had not decided "when" the session will be called however.

**WASHINGTON** — President Roosevelt said that he had under advisement the question of whether to call a special session of congress in the fall. At a press conference he said that he did not know whether he would call Congress, back before January or not as he had been advised both ways.

### Japan Begins Offensive

**SHANGHAI**—The full fury of Japan's military might threw China's armies on the defensive to save their two most vital fronts. Japan's bombing planes, big guns and war fleet massed their fire on the shores of the Woosung and Yangtze rivers to cover the landing of more reinforcements.

**GENEVA**—The threat of a major international clash in the Mediterranean arose today after another mysterious attack on a freighter—the 14th within the last three weeks—and Spain's formal protest to the League of Nations that Italy's navy was waging war on Loyalist ships.

### Wednesday, August 25

**OKLAHOMA CITY** — Howard K. Berry, Oklahoma City attorney, said courts will be asked to fix the responsibility of the New London school disaster, when he brings 200 suits for damages on behalf of parents of victims against the Parade Gasoline Co. next week.

**AMARILLO**—Forty million dollars will be spent by WPA agencies on soil problems in the five-state dust bowl area, according to facts brought out yesterday in an interview in Washington between WPA Director Harry Hopkins, his assistant, Aubrey Williams, Congressman Marvin Jones and Carl Hinton of Amarillo.

### Japan Fights On

**SHANGHAI**—Japan struck crushing, vital blows on shore and at sea today that spread the undeclared war virtually to all China and imperiled Chinese defenses.

**BALTIMORE** — Henry H. Grob, who found a fortune in gold coins three years ago and stored it away to care for his old age died last night—at 18.

### Thursday, August 26

**SOUTHAMPTON, N. Y.**—Andrew W. Mellon, secretary of the treasury under three presidents, former ambassador to Great Britain and one of the world's most wealthy men, died peacefully tonight in the home of a daughter, Mrs. David Bruce. Death was due to uremia and bronchial pneumonia.

**TOKYO**—Japan "does not attach much importance" to American and British proposals for ending the undeclared war between Japan and China the Japanese Premier said today.

### British Envoy Shot

**SHANGHAI**—Reckless aerial bullets that struck down the British ambassador extraordinary to China thrust Japan into grave diplomatic relations with the empire of Great Britain. The ambassador was wounded by machine gun bullets from a Japanese war plane.

**WASHINGTON**—Grave developments in the Sino-Japanese conflict kept American diplomats in a state of jumpy anxiety and raised again the question of thrusting the neutrality act into the situation.

### Friday, August 27

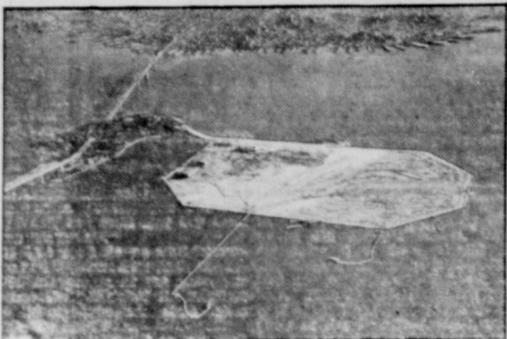

**MILWAUKEE**—Soon after John L. Lewis declared, "We are going to organize Ford workers," the United Automobile workers voted a \$1-a-member special assessment to create a \$400,000 war chest for its campaign to organize 125,000 employees of the Ford Motor Company.

## Man-Made Island Will Be Airport

A mile square, surrounded by a sea-wall and containing 20,000,000 cubic yards of sand, the island in San Francisco bay, bottom picture, is considered to be the largest man-made island in the world. Although it was built principally to serve as the site for San Francisco's 1939 Golden Gate International Exposition, it ultimately will be turned into a \$7,000,000 municipal airport to serve a population of 2,000,000 in surrounding cities. An architect's sketch of the finished airport appears in the top picture. The famous San Francisco-Oakland bridge may be seen in the left background.

### WASHINGTON — President Roosevelt put the finger on alleged tax-dodgers this summer, and Congress wrote a law designed to increase collections more than \$100,000,000 a year by closing tax law loopholes.

### U. S. Demands Rights

**WASHINGTON** — The United States informed both China and Japan that, regardless of their savage conflict, this country intends to maintain all its rights and privileges in the Orient.

**LONDON**—Britain's demands for "full satisfaction" for the shooting of her ambassador to China by Japanese airmen were imparted officially to the Japanese Government today.

### Saturday, August 28

**WASHINGTON** — Senator Burke (D-Nebr.), said today if President Roosevelt tours the country in behalf of his defeated court bill it will be a final indication that he plans to purge the Democratic party or those unwilling to "support anything the President wants."

**PITTSBURG**—Andrew W. Mellon left his entire personal fortune, with the exception of \$1,000,000, to his educational and charitable trust, his attorney, D. D. Shephard, disclosed tonight.

### Bombs Kill 600

**SHANGHAI**—Japan's air bombers carried the war into Nantian, native city of Shanghai, and inflicted 600 civilian casualties in an area which had been relatively unscathed by the two-weeks battle for Shanghai.

**AUSTIN**—Governor James V. Allred put it squarely before the legislature today to provide new revenue at the forthcoming special session.

### Sunday, August 29

**WASHINGTON** — Analysis of the Senate lineup of recent issues showed today that the bulk of opposition to Roosevelt policies came from New England, the Solid South, and the Pacific coast.

**WASHINGTON**—All new merchant ships built with government subsidies will be fireproof and fool-proof as far as modern safety standards can make them, Chairman Joseph P. Kennedy of the Maritime commission said.

### Bombs Kill Hundreds

**SHANGHAI** — Hundreds of Chinese non-combatants were killed today as Japan's great air bombers struck at Shanghai, Nanking and Nanchang.

**SHANGHAI**—American and British insurance underwriters estimated the total war damage to Shanghai since August 13 at \$275,000,000. Foreign losses amounted to fifty million dollars of which half is figured to be American.

Credit Corporation officials announced the government would make loans of nine cents a pound on this year's cotton crop. They also announced plans to pay a subsidy not exceeding three cents a pound to producers complying with next year's production control program.

## Lakeview News

Mr. and Mrs. P. J. Wilkes and son visited in Dallas and Gainesville for the past few weeks. Mrs. Wilkes' sister, Mrs. Pearl Sulivant, of Gainesville returned home with them for a short visit.

Mr. and Mrs. Earl Bishop visited Mr. and Mrs. Holt Bishop-Sunday. Mr. and Mrs. Holt Bishop and children returned last week from a trip in South Texas. While away they visited in Denton, Overton, Goose Creek, and Santa Anna.

Mr. and Mrs. G. L. Baker visited Mr. and Mrs. Weldon McClure of Mt. Blanco Sunday.

Mr. and Mrs. Roy E. Smith spent last week visiting in Roswell, Portales, Clovis, and Carlsbad.

Mr. and Mrs. Barney Wilkes and daughter, Patty Jo, visited Mr. and Mrs. P. J. Wilkes Sunday.

Mr. and Mrs. Harve Thomas have under construction a modern five room stucco house on their farm one mile east of Lakeview.

Ara Sue Edwards is on a vacation trip to Shreveport, La., Arkadelphia, Ark., Dallas, and Fort Worth where she plans to see the Pan American Exposition and Fiesta. She accompanied her aunt, Mrs. G. R. May, Bert Ione Smith, George Reid, and her Grandmother, Mrs. J. C. Edwards.

Jeanne Edwards returned from a ten-day visit with her grandparents, Mr. and Mrs. H. N. Porterfield of Roy, N. M. and her uncle, Fred Porterfield, of Santa Fe.

Riley Teague and Earl Sparks made a business trip to Fort Worth last week.

The Lakeview Needlecraft Club will meet with Mrs. J. M. Harrison Thursday, Sept. 9, at 2 o'clock.

Mr. and Mrs. Don Harrison and Jerry Bob spent Sunday with Mr. and Mrs. Milton Harrison.

Mrs. Hugh Dunn and children are visiting in Wingo this week. Mr. and Mrs. Travis Dunn and Barbara Jean joined them Monday. Mrs. Dunn's parents will celebrate their Golden wedding anniversary Tuesday.

Mr. and Mrs. Joe A. Lloyd and family spent Sunday in Big Springs visiting Mr. Lloyd's sister and family.

Mr. T. W. Hopper attended the Primitive Baptist association in Crosbyton last week end.

Mr. and Mrs. J. M. Harrison and daughters returned from Hot Springs, New Mexico where they have been visiting the last 18 days. Mrs. Harrison's parents will celebrate their Golden wedding anniversary Tuesday.

Mr. and Mrs. John A. Lloyd spent Wednesday in Lubbock.

Billie Joe Welch returned to Tulla Sunday for the opening of the public schools there Monday morning. He will teach there again this year.

M. M. Robinett, Missionary Baptist left Sunday for Whitfield where he will conduct a ten-day revival meeting.

### Monday, August 30

**HOLLYWOOD** — Police and Federal agents hunted an extortionist who threatened to kidnap the 6-year-old adopted daughter of Wallace Berry unless \$10,000 were paid. Private guards patrolled the home where the child and Mrs. Berry remain while Wallace is making a picture.

**CHICAGO** — Infantile paralysis, twice as prevalent this year as in 1936, is centered in the West south central states and middle west, a United Press survey showed. The U. S. public health service reported 3,444 cases for the first 33 weeks this year compared to 1,454 for the corresponding period for last year. Nearly 200 victims died.

### American Liner Bombed

**SHANGHAI**—Bombing of the big American liner, President Hoover, in the China Sea by Chinese planes raised the prospect that United States naval ships may have to be used to carry American women and children from stricken Shanghai.

# Says Cotton Classing To Aid Farmers

Designed to Correct 'Hog Round' System of Cotton Buying

## Early Benefits

Result of Drive For Improvement of Quality of Texas Staple

COLLEGE STATION—The drive for improvement in the quality of Texas cotton will be aided in 1938 by the terms of the cotton classing act, E. A. Miller, agronomist of the Texas Extension Service, believes. The act was passed by the present Congress and signed by the President on April 13 of this year.

Designed to correct the "hog round" system of cotton buying, the act requires that the Department of Agriculture upon request from any group of producers organized to promote the improvement of cotton, determine and make promptly available to the producers the classification of any cotton they produce.

The act, as explained by Miller, provides that the Department of Agriculture shall collect and publish timely information on the market prices of the various classes of cotton. Information on the current prices for grades and staple lengths of cotton will be posted at gins and other public places in cotton growing communities.

When the services provided by the new act are started, samples will be sent to central offices for classing, and Miller indicated that growers should receive their classing reports within four days after ginning.

There are now 51 organized one variety communities, involving approximately 3,000 farmers in the state, according to Miller. He also estimated that some 2,900 Texas 4-H club boys have organized into groups for the production of quality cotton. On the basis of the interpretation of the act, these farmers and club boys will be in a position to take advantage of the service outlined in the cotton classing act.

Mr. and Mrs. Dave Standifer and children from Muleshoe spent the week end visiting Mrs. Standifer's mother Mrs. E. C. Nelson. Weldon Standifer, who has been here the past two weeks returned home with his parents.

# Train Injures Ace

# R. A. Garrett Gains Fame As Fisherman At New Mexico Resort

Local Nimrod, Riding Back Into The Mountains From Red River, Gets Record Catch

R. A. Garrett, all unintentionally, is famous in the New Mexico mountains in the vicinity of Red River, for an unusual catch of trout.

L. G. Stewart, of Wichita Falls, who was with the Garretts a part of the time while on a vacation, declares it is the kind of a fish story that is true. "Garrett won't tell you anything about it but you can put it down as true that he and all the tourists in that part of the valley crowding around him with eyes out on stems, looking at the big catch and wanting to know how he did it."

Garrett, Mr. Stewart relates, rode eleven miles back into the mountains with a Doctor Boucher of Hobart, Oklahoma, to Goose Creek Lake, to get off the beaten path. He came back into camp with twenty-five trout, six of them weighing three pounds each and the others eight to ten inch long. The next day a party of sixteen, including the Stewarts, enjoyed a big fish fry with ample fish for all from the catch made by the Floydada lumberman.

Mr. Stewart was in Floydada Sunday enroute to his home at Wichita Falls and tipped the reporter off to Garrett's sudden rise to fame as a fisherman. The Garrett family expected to return home sometime this week, Mr. Stewart said.

# "UNCLE MIKE" SANDERS HONORED AT REUNION

M. T. Sanders, 85, was the honor guest at a family reunion that was planned and arranged by his grandchildren. The meeting was held at the Roaring Springs Park Thursday, August 19, with 44 present.

"Uncle Mike," as he is known to his friends, said there were thirty-five relatives present for the day. He is the father of two sons G. C. of Roaring Springs and Fred of Gilbert, Arizona. He has ten grandchildren and eight great grandchildren. His wife died in May 1936.

He came to Floyd County with his family in 1909 from Henderson, Rusk County and has made this his home since.

From the reunion he visited in Roaring Springs and Quanah returning home Saturday. "I'm not feeling so well since my return," Uncle Mike said. "I've been around too much, I've got to settle down and rest up," he said.

# N. G. JACKSON FARMING IRRIGATION TRACT NEAR TULLIA IN SWISHER COUNTY

N. G. Jackson, of Tullia, who was in Floydada Saturday on business and renewing old acquaintances, is now farming an irrigation tract northeast of the Swisher County capital, he said while here. "I'm not happy," he said while here.

He completed the well on his land in February and believes he is going to find irrigation farming satisfactory. "I am not going to try to irrigate on a big scale as some of the fellows, probably a hundred to a hundred and forty acres," he said. "It looks like it ought to work out."

Jackson formerly was employed with the Floyd County National Bank here, then became an assistant manager and later a manager with Willson & Son Lumber Company, before taking up farming.

# CONSUMERS FUEL IS PRAISED IN MAGAZINE

The Floydada Consumers Fuel Association was given a double-column picture and a write up in the "Road Runner," house organ of the Danciger Oil and Refining Company of Tulsa, Oklahoma. The company mentioned the fact that the fuel association here sold 1,632,775 gallons of gasoline, kerosene, and distillate for the Danciger last year.

The manager, C. C. Huckabee, is highly praised for his work here and he in turn praises the employees of the plant.

# FORMER M. E. PASTOR PRAISED FOR WORK

Rev. I. A. Smith, pastor of the Methodist Church at Quanah, and former pastor here, has made an enviable record in the church there according to the Quanah Tribune Chief.

In a copy that carried his picture, the story said, "Besides numerous additions to the church, he is responsible for the church being free from debt for the first time in many years."

# ANSWERS TO OUR PUZZLE CORNER

# You've got something there!

"That's what the used-car dealer said to me when I brought in my old Jalopy. The paint and rubber were so so. Upholstery, fair. But the engine? Marvelous! So he paid me way over the Blue-book value, and I've warned the family never to use any oil except Phillips 66 Motor Oil in our brand new bus."

The moral is: To keep your engine in tip-top condition, use the finest oil you can buy. Not the highest-priced oil, but a lubricant like Phillips 66 Motor Oil, which gives you more protection for every penny you pay. Guaranteed 100% pure paraffin base.

# Taster Gives Line-Up On Local Peach Crops

Two Crops On One Tree Unusual

Another good backyard peach "crop," where giant freestone peaches are raised on a little tree is reported and sample submitted for proof by D. I. Bolding. "About two bushels and none to sell," Mr. Bolding said with a grin.

An unusual occurrence of last year when Lorin Leibfried reported two crops of peaches on the same tree, is being repeated this season. Leibfried is just finished the "harvest" of a crop of large peaches and another crop is coming on, as occurred last year, that will be about half the size per peach as the first gathered.

Jno. A. Hollums has had a big tree of fine peaches in his backyard. Their texture and taste is ideal.

A tree full of clingstone peaches that are sharp and bitey to the taste even when dead ripe, has been grown by J. S. Collins. Apparently they have enough acid to jelly. At least the eating of only a piece of one puts the "teeth on edge."

Dave Sherrill, who was born and reared in northwest Arkansas, says he can't understand why there was a peach crop in Floyd County this year. The freezes were plenty hard and late to kill them in the spring but came on nights when the moon shone all night. "It's funny, but the temperature got low enough to kill them," Sherrill says a lot of folks prune

their peach trees wrong. The trees should be pruned to hug the ground. When the seedling comes up (he believes in seedlings) the first bud in the top ought to be pinched out, and every other bud pinched out in the little limbs that sprangle out after that for the first year. Your tree will then make a nice growth close to the ground and the limbs won't break off and ruin the tree the first good crop you have.

Elbertas From Seedlings Will Elbertas grow from the seed? We've all heard they will not, but Elberta taste and Elberta texture and Elberta looks were in the seedling peaches brought to the office Saturday afternoon by Mrs. J. A. Dunlap, of Cedar. Big like they grow down in Texas, sweet and juicy like you want them, the peaches were.

The seeds were planted about six years ago as a sort of experiment. About a bushel of the large peaches were taken from one little tree, some of them ten inches around.

A. L. Bishop, Mrs. Nora Cox and daughter Thomasine, Stokes Bishop of Dallas, and Mr. and Mrs. L. T. Bishop and son spent Sunday in Lubbock where they were guests of Mr. and Mrs. Ray Dickey.

Roy Green, of Ray, Colorado, has been here several days on a visit with his father, J. H. Green, and other relatives.

Mrs. J. M. Parsons, of Weatherly, was here Saturday and Sunday, the guest of Mrs. J. I. Hammonds.

Mrs. C. F. Lincoln and granddaughter Bettie Newell, returned Wednesday from Sweetwater where they visited in the home of Hudson Lincoln and family.

## Elizabeth Hollingsworth, Jim Bandy Wed Tuesday

Miss Elizabeth Hollingsworth and Jim Bandy were united in marriage at eight o'clock Tuesday at the home of the bride's parents, Mr. and Mrs. A. S. Hollingsworth, with the Rev. J. E. Eldridge performing the single ring marriage rites.

The house was decorated with fall flowers in shades of orchid and yellow. Deep yellow gladioli were the predominant flowers, placed in tall baskets throughout the house.

The couple was attended by the bride's brothers, Somer, Jr. and Lewis.

The bride wore a brown and white wool crepe tailored frock with green zipper trim and brown accessories. Her corsage was of deep yellow gladioli. Her going away suit was of navy blue gabardine with matching accessories.

Following the wedding, Mrs. Bandy cut the wedding cake, and punch was served by Misses Elizabeth Hardgrove, Mary Evelyn Davis, and Gloria Hammonds. A lace cloth was laid on the dining table and flowers of the bride's chosen color scheme were used.

Those present for the wedding ceremony and reception includes Mr. and Mrs. Hollingsworth, Mr. and Mrs. John Reagan, Mr. and Mrs. Frank Moore, Mrs. E. L. Angus, Mrs. Fred Brown, Mrs. E. F. Sivall, Misses Gloria Hammonds, Elizabeth Hardgrove, Mary Evelyn Davis, Martha Lee McCleskey, Doris Eileen Banker, and Reid Strickland.

Immediately following the reception, Mr. and Mrs. Bandy left by way of train from Plainview for an extended honeymoon trip. They plan to visit in Hammond, Illinois with Mr. Bandy's mother, Mrs. J. L. Bandy, and go from there to Chicago into Canada, and to Niagara Falls. While in Detroit, they will get a new car and return to Texas in it.

The young couple plan to be gone twelve days, and then will visit with Mr. and Mrs. Hollingsworth for several days before going to their new home in Trinity, Texas. Mr. Bandy is due there September 15, where he will be pharmacist at the Post Office drug store.

Well Known Couple  
Mrs. Bandy has been a resident of Floydada for several years. She was graduated from Floydada High school last year.

Mr. Bandy is a graduate of the Denver Pharmacy school and attended also Illinois State university and West Texas State Teacher's College at Canyon. He is a member of Sigma Chi and Kappa Alpha Phi fraternities. During the past year he has been employed at White Drug company.

Mr. and Mrs. Bandy were accompanied to Plainview by the bride's mother and Mr. and Mrs. John Reagan.

## Autumn Tweed

Smart coats, like the one worn above by Marsha Hunt, destined to slightly resemble dresses, will be one of the fashion features for early fall. Made of gray tweed, the coat is interestingly decorated with square patch pockets and has a chic beltless pockets line. A black felt beret, black suede shoes, and black gloves and bag are ideal accessories.

## Miss Ruth Jenkins Hostess To Bridge Club Thursday

Miss Ruth Jenkins was hostess Thursday evening at her home to members and guests of the Thursday Contract Bridge club at their semi-monthly bridge dinner. Miss Audrey Farris was special guest at the affair.

The dinner preceded the games of bridge and was served on roussoire tables. Summer flowers were used as centerpieces for the tables.

Members present for the occasion included Mesdames Bill Cauley, B. M. Lloyd, Bill Fowler, Lewis Norman, Ernest Carter, L. D. Britton, Fred Nabors, Winfred Cooper, Clinton Pyffe, and Alfred Stewart.

## Barwise Quilting Club Meets Tuesday

The Barwise Quilting club met for an all day quilting. They completed one quilt which was given as a surprise to Mrs. Maggie Tinnin for her birthday.

## Picnic Supper Given By Jack Henrys

Mr. and Mrs. Jack Henry were hosts at an outdoor supper Monday evening at their home on West Virginia street in honor of several out-of-town visitors.

## Mrs. A. P. Horn Is Honored At Surprise Breakfast Shower

Honoring Mrs. A. P. Horn, who is moving to Lubbock Friday, five hostesses entertained with a breakfast and shower Wednesday morning at 6:30 o'clock at the home of Mrs. E. P. Nelson. The early morning affair came as a surprise to the honoree.

Guests were met at the door by Miss Mary Anna Ross and showed to their places by hostesses which included Mesdames Nelson, S. W. Ross, J. A. Arwine, Edd Johnson, and Glad Snodgrass.

The Nelson home was decorated with fall flowers, a combination of golden glow, clematis, and marigolds. The flowers made attractive circular centerpieces for each of the four round tables and were arranged in a large circle surrounding three orange colored tapers on the dining table. The breakfast was served buffet style from the large table.

Following a brief tribute to the honoree by Mrs. Lou F. Smith, gifts were presented in large baskets to Mrs. Horn.

Guests at the affair include Mesdames V. Williams, H. O. Pope, A. J. Welch, Wilson Kimble, Lon V. Smith, A. T. Hull, Edd Bond, R. E. Fry, J. C. Gilliam, J. M. Gamblin, A. B. Clark, Roe McCleskey, W. M. Houghton, J. U. Borum, A. B. Keim, T. P. Collins, G. L. Kirk, Billy Stanforth, E. L. Angus, Frank Moore, J. B. Bishop, J. D. McBrien, W. I. Cannaday, O. P. Rutledge, Walton Hale, Paul Conner, F. C. Harmon, Thurmon Bishop, and Walter Travis.

## MR. AND MRS. HORN HONOURED TUESDAY NIGHT

Mr. and Mrs. Horn were also honored Tuesday evening at the home of Mr. and Mrs. Roe McCleskey by members of the City Park Church of Christ.

Games on the lawn were directed by P. R. Yeakley, minister of the church. Following refreshments, the group presented a white leather chair as a going away gift to the honorees.

Mr. and Mrs. Horn plan to leave Floydada Friday for Lubbock where they will make their home.

## Let's Talk About Clothes YOUNG MODERN TEXAS STATE COLLEGE WOMEN

DENTON, Sept. 1—Whoever invented middie blouses and skirts for school girls had the right idea, because that's exactly what college students are stocking up on for this fall—blouses, skirts and sweaters. However, the 1937 workaday costumes are a far cry from those former middies, for color and novelty will invade the campus on a large scale.

As a foundation for everything else in her school day wardrobe, the going-away miss will need a three-piece suit. The skirt can be worn with her sweaters, the jacket is good with other skirts and dresses, the top is fine for early fall and spring weather, and the whole thing together cannot be beat for football games and other occasions where she may encounter stormy weather.

## 1922 Club Has Annual Opening Today at Noon

Today marks the fifteenth annual opening of the 1922 Study club with a luncheon and opening program at the Methodist church. Other clubs, including the 1929 and 1934, have their annual openings within the next week on Thursday, September 9, and Tuesday, September 7, respectively.

Mrs. Glad Snodgrass is to be the principal speaker at the luncheon today. Her subject will be "My Version of Europe as I saw it" and will include incidents of her recent trip abroad. Music will be furnished by Sappho Ward. Mrs. R. E. Fry, president of the club, will preside at the opening session.

The course of study for the year is "Modern Biography" and includes program talks concerning great musicians, writers, political figures, and other prominent persons who have achieved success throughout history.

"Travel Course of the Western Hemisphere" is the chosen course of study of the 1934 club which opens Tuesday. The meeting is to be at 6:45 o'clock at the I. R. Grundy home with Mrs. Virgie Shaw, club president, acting as hostess. A business session will launch the club in their fall work. No special program will be given, Mrs. Shaw announced.

Mrs. J. W. Walker, district president of federated clubs will present the main address at the first meeting of the 1929 club Thursday, Mrs. R. A. Garrett will be hostess to the group, assisted by several members of the organization, at the annual luncheon at 1 o'clock. Music will be furnished by Mesdames Edd Bond, A. D. Cummings, and E. C. Thomas. Mrs. G. L. Kirk, club president, is to preside.

"Modern Novels" is the chosen study course of the 1929 club.

## Noted Missionary Is Guest Speaker Monday At Church

"All things, life, beauty, wealth, and all we have must die; missionary work only never dies, and that is why I am a missionary." Mrs. W. T. Wiley, reared in Denmark and a returned missionary to India for sixteen years, stated at the Woman's Cooperative Missionary society at the Cumberland Presbyterian church Monday afternoon.

Mrs. Wiley now lives in Lubbock and was a guest speaker of the society that afternoon. The attractive Danish woman, in her pleasing Swedish accent, presented in her introduction, a description of the Mohammedan country, their homes and people. She brought a comparison of this with the parables of Jesus, as recorded in St. Luke 15:8-10.

Others who appeared on the program were as follows: Mrs. Jim Wilson, devotional, "Leaving the World for Christ"; Mrs. J. N. Johnston and Miss Myrtice are in duet, "Take Up Thy Cross and Follow Me"; reading, Miss Willene Tyler; Mrs. Edd Bond, song, "Face to Face," accompanied by Miss Sappho Ward; Mrs. N. E. Tyler, benediction.

Mrs. Will Massie was in charge of entertainment of the social hour that followed.

Mrs. Wiley described the Mohammedan or ghost woman's wearing apparel, their customs, and oddities. "In India," she said, "the people are suspicious and hard to reach. This makes our work slow."

## Rotary Anns Honored By Rotary Husbands Wednesday Night

Rotary members were hosts Wednesday evening to their wives, the Rotary Anns, at a picnic and watermelon feast at Wester field.

"The Voice of the Rotary Anns" was the feature of a special program planned by Walter Travis and J. B. Claiborne. Both sane and odd questions were asked the Anns by the host. Other entertainment consisted of games directed by the Rev. J. E. Eldridge.

Invitations to the Anns requested that they bring "a little salt and two forks" for the watermelon feast that was to follow.

Members of the local Rotary club and their Anns include J. A. Arwine and Della, W. Edd Brown and Bernice, D. F. Bredthauer and Ruby, A. D. Cummings and Rose, J. B. Claiborne and Jessie Mae, Lon M. Davis and Maggie, Jack Deakins and Evelyn, J. E. Eldridge and Ethel, A. J. Folley and Blanche, R. E. Fry and Ruby, R. A. Garrett and May, A. E. Guthrie and Sue, Cecil Hagood and Kathleen, Walton Hale and Mary, W. M. Houghton and Howell, Wilson Kimble and Sallie, George L. Kirk and Pauline, W. A. King and Bernice, Robert Medlen and Mary, Carl Minor and Frances, Conner Oden and Bernice, Sam W. Ross and Mary, Glad Snodgrass and Clara, Richard Stovall and Hazel, C. M. Thacker and Mary, Clifford Tubbs and Brownie, Walter Travis and Ruby, J. C. Wester and Sibyl, Virgil Williams and Mayde, N. W. Williams and Corrine, J. M. Willson and Mavis, W. U. White and Monte, R. C. Wakefield and Jeanette, and J. G. Wood and Mattie Mae.

## Ethna Green Marries Kansas Man Saturday

Announcements were received in Floydada this week of the marriage of Miss Ethna Green and Jack Hathaway Vincent in Houston, Saturday, August 28.

Mrs. Vincent, a former resident of Floydada is the daughter of Mr. and James Key Green and the granddaughter of Mrs. J. D. Starks of this city.

The young couple left Houston immediately for San Antonio where they left by way of plane for an extended honeymoon trip in Mexico City and vicinity.

They will be at home at 2800 Huntington street, Topeka, Kansas.

## On The Garden Path

September Suggestions  
If dogwood or other shade-loving plants appear seared by summer sun, carefully transplant them to shade and loose, well mixed leafy soil, keeping roots balled and burlaped. They will recover blooming strength during winter for spring growth.

Study soil and watering problems now, and make autumn plans for rebuilding and improving garden soil. Spring flowering depends on soil fertility, friability, and good air circulation in the soil. Packed soil inhibits plant development, excludes water, and suffocates the plants.

Bulb Planting  
Bulbs planted too soon makes growth which will be damaged by late spring freezing. Bulbs planted in January last year blossomed well with us, but November and December are the best planting months.

## Miss Farris Complimented With Pre-Nuptial Shower

### Social Calendar

TODAY  
The 1922 Study club meets for the first time this year at a luncheon at the Methodist church today at 12:15 o'clock.

The Stitch and Chatter club meets with Mrs. E. W. Moore this afternoon.

The Muncy Needle club meets today with Mrs. R. L. Powell.

FRIDAY  
The Floydada Garden club meets Friday morning at 9:30 o'clock at the home of Mrs. John Maxwell.

The Sunbonnet club meets Friday with Mrs. S. J. Latta.

MONDAY  
Y. W. A. meets Monday at 6:30 o'clock at the home of Miss Effie Mae Shelton.

The Methodist Women's Missionary society and the Hester West circle meet for a joint social Monday at 7 o'clock at the home of Mrs. George V. Smith.

TUESDAY  
The 1934 Study club meets Tuesday afternoon at 6:45 o'clock with Mrs. Virgie Shaw as hostess at the home of Mrs. I. R. Grundy.

THURSDAY  
The 1929 Study club meets Thursday, September 9 at a luncheon at 1 o'clock at the home of Mrs. R. A. Garrett.

The Thursday Contract Bridge club meets Thursday at 7 o'clock at the home of Mrs. B. M. Lloyd.

The Bluebonnet Needle club meets Thursday with Mrs. Layton Dorrell as hostess.

## Floydada Visitors Honored At Supper At Ross Home

Misses Eloise and Golden Lovell Williams of Electra were again honored Monday evening when Miss Mary Anna Ross entertained with an outdoor supper at her home on Houston street.

The supper, served in the backyard, consisted of steak barbecued in the outdoor pit, and other picnic dishes.

Guests other than the Misses Williams, who are nieces of Mr. and Mrs. N. W. Williams of this city, included Mesdames Jean Bain, Emma Louise Smith, and Maxine and Marilyn Fry.

The honorees, who have been visiting in Floydada for several weeks, left Tuesday morning with their parents for a two week's vacation in Colorado, and then will return to their home in Electra. They have been honored at several affairs during their stay in Floydada.

## Buffet Luncheon Is Given Honoring Woody Guthrie

Honoring Woodie Guthrie, who is to leave Floydada soon to attend school at Texas Technological college at Lubbock, Mr. and Mrs. W. H. Hilton entertained with a luncheon at their home on California street Monday at noon.

The covered dish luncheon was served buffet style, and guests preceded Mr. Guthrie with gifts preceding the affair.

Those present for the noon gathering included Mesdames and Messrs. E. M. Cauley, F. O. Conner, J. E. Eubanks, and Ralph Groves; Mesdames Anna Smalley, Sam Thurmon, Billy Grundy, and Evelyn Groves; Messrs. Truett Smalley, G. G. Glover, Claude Hammonds, and Roy Eubanks.

## Officers Elected At Muncy Needle Club Meeting

Officers of the Muncy Needle club for the coming year were elected Thursday afternoon at the home of Mrs. R. E. L. Muncy, and "Pollyanna" secret gifts were revealed at the social gathering following the business session.

New officers elected include Mrs. Earl Smalley, president, who succeeds Mrs. W. E. Grimes; Mrs. Doyce Smalley, vice-president; and Mrs. A. B. Muncy, secretary-treasurer.

After the "Pollyanna" gifts were revealed, new names were drawn. Following this, Mrs. Earl Smalley, Mrs. Edd Muncy, and Mrs. Doyce Smalley entertained with games and puzzles.

Those present for the affair include Mesdames K. W. Southern, R. L. Powell, A. B. Muncy, G. L. Carathers, J. J. Prizzell, Sam Box, A. G. Muse, E. R. Harris, W. E. Grimes, Elmer Carathers, John Hoffman, Bob Muncy, Edd Griffin, Grady Freeman and Stella Griffin.

The club meets Thursday, September 2 with Mrs. R. L. Powell in an all day quilting party. Each member will bring a covered dish.

## Snyder Visitor Is Honored At Outdoor Supper Tuesday

Honoring Miss Louise Withford of Snyder, who has been a guest since Saturday, Mrs. George A. Linder entertained with a back yard picnic supper Tuesday evening.

Guests included Misses Withford, Geraldine Williams of Paragould, Arkansas, Nellie Frances Pugh of Fort Worth, Jerry Hale of Piquette, and Fern Fry; Messrs. M. L. Linder, O. P. Rutledge, F. C. Clyde Spence, Lon Davis Jr., F. C. Harmon, Jr., and John Knab.

Miss Withford returned to her home Wednesday morning.

## Blue Bonnet Club Entertained By Mrs. E. F. Cline

Mrs. E. F. Cline was hostess today, August 26 to members and guests of the Blue Bonnet Needle club. Guests at the afternoon affair were Mesdames A. J. Cline, Hal Drace, Aubrey Pawver, W. M. Dilworth, and Miss Effie Mae Cline.

Members present were Mesdames Oliver Allen, Layton Dorrell, P. I. Roberts, E. S. Price, D. Johnson, Alva Sparks, Elvin Rainer, F. F. Piqua, B. F. McIntosh, Opal Speth, and R. B. Stultz.

Mrs. Layton Dorrell will be hostess September 9 at her home.

Mr. and Mrs. Edwin McReynolds and children of Wichita Falls left Sunday after a visit with Mrs. McReynolds' mother, Mrs. Cella Ross and Mrs. J. C. Dickey. Mrs. McReynolds and her children had been here for two weeks and were met by her husband Saturday.

Mr. and Mrs. Murray Nettles and children came Saturday night for a week end visit with his sister Mrs. T. J. Campbell and family.

E. S. Randerson and R. E. Fry were business visitors in Dallas Monday and Tuesday.

### Wind Hits Here Wednesday Afternoon After Ten-Day Camp

A brown bunch of whirlwinds Wednesday afternoon after a ten-day workout in Ceta Camp preparation for the coming season.

Odell Winter seemed to be pleased as it is possible to be pleased when he is surrounded with few let-downs and many raw recruits.

Admittedly from the best part of the field, but by no means the only such good sample, the stalk has scores of nearly grown to green bolls and many smaller bolls, square and blooms.

### GOOD COTTON AT MOUNT BLANCO IS PROVEN BY SAMPLE STALK DISPLAYED

What a wonderful crop of cotton is growing in the Mt. Blanco community in the edge of Crosby County, is thoroughly attested by a sample being shown this week at the Hesperian office, a stalk from the field of Mrs. Mary Kirk, with "so many bolls you can't count them."

Admittedly from the best part of the field, but by no means the only such good sample, the stalk has scores of nearly grown to green bolls and many smaller bolls, square and blooms.

### ATTEND PLAINVIEW MEETING

Mr. and Mrs. J. S. McLain, Mrs. Montez Wiggins, Mr. and Mrs. R. N. Tyler, Mr. and Mrs. J. T. McLain and children, all of Sand Hill, and Mrs. Lewis Goebel and family of Midland attended the meeting at Plainview Sunday of the Central Plains Holiness Association. The Sunday night service closed the two week's meeting.

The special workers of the association included the Gaddis-Moser evangelistic party.

### MRS. HOWARD UNINJURED IN CAR WRECK SUNDAY

Mrs. Lee Howard in company with her brother Frank Bishop of Tucco escaped with only minor injuries in an accident in which their car turned completely over Sunday evening near Dumas. The two were returning from Plains, Kansas where they had been visiting their sister Mrs. Lawrence Ball and family.

The sheriff of Dumas was attempting to catch a hit and run driver and attempted to go between the Bishop car and a truck.

Mrs. George V. Smith had as her guests Wednesday Mrs. B. F. Jarvis, Mrs. Walter Lawson and children, Sally and Walter, and Miss Joyce Sunnett, all of Plainview; Miss Marjorie Moore of Fort Worth, and Mrs. A. P. Barker and Barry fo Lockney.

### Enrollment Light In CCC Despite Modified Enlistment Rules

Only One Applicant To Date In The Floyd County Welfare Agency

In spite of the fact that the rules of the Citizens Conservation Corps have been greatly modified and Districts 16 and 17 will be allowed to enroll 800 boys only one application has been made to date in Floyd County. Dot Slough of the Floyd County Welfare Agency said.

A call for approximately 11,000 white and 1,200 colored boys to be enrolled into the Civilian Conservation Corps during October has been issued by Adam R. Johnson, Director of the Texas Relief Commission, to the various County Welfare Boards.

This number far exceeds any former enrollment and will give almost all boys in the state an opportunity to enroll if they are unemployed, 17 to 23 years of age, in need, and whose parents or themselves, due to financial limitations, are not in a position to secure or provide comparable training. Full strength of the Texas quota is 16,000 white and 1,700 colored, and due to discharge of enrollees reaching the age of 24 and/or completion of the maximum enrollment of two years, replacements will be necessary.

Heretofore, rules did not allow boys from other than the groups receiving or eligible to receive public assistance to be accepted, but those have now been modified. Such boys who have no dependents say allow two thirds of their pay to remain on deposit of their enrollment, or completion of their amount. Where there are dependents, and allotment will be made each month direct.

Over \$500,000.00 each month is brought to Texas through these allotment checks to dependents, which materially relieves the burden that would otherwise be carried by the communities.

### DR. THACKER WILL ATTEND W. TEXAS DENTAL SOCIETY

Dr. C. M. Thacker will attend the session of the West Texas Dental Society at the Hilton Hotel in Lubbock Friday and Saturday of this week.

Dr. Thacker returned home recently from a vacation trip downstate, during which time he enjoyed a rest.

Mrs. Lillie Britton returned to Floydada Wednesday after a six week's vacation in South Texas. She visited five weeks in Houston with her daughter, Mrs. H. W. Dumas and family, and one week in Granger with her sister, Mrs. J. L. Daniels and family.

Mrs. T. M. Bartley, of Waco, and son Henry, visited for a short time the first of this week with Mrs. Bartley's brother, Jack Henry and Mrs. Henry.

Mr. and Mrs. Leroy McDonald and daughter, of Sweetwater, visited last week-end in Floydada, guests of Mr. and Mrs. O. B. Olson, and Mr. and Mrs. L. C. McDonald.

Mr. and Mrs. S. E. Brewer, Mr. and Mrs. R. L. Trice, and Mr. and Mrs. J. J. Haney spent Tuesday and Wednesday of last week near Justiceburg at an outdoor resort.

Mrs. Georgie Galloway left Sunday for a week's vacation in Oklahoma. She plans to visit her daughter while gone.

Mrs. Roy Sisson and children returned from Levelland this week after spending a week there with Mrs. Sisson's mother.

Miss Elizabeth Anne Hopkins of Miami left Wednesday after a ten day's visit with her sister Mrs. Jack Henry and husband.

### PARASITE CONTROL PAYS WHEN HOGS GO TO MARKET

The value of parasite control methods for swine shows up when the hogs go to market.

As an example, records in the Bureau of Animal Industry of the United States Department of Agriculture show that from 53,000 hogs handled by one of the large packing plants in the South during January 1937, not one kidney was saved for food and 92 percent of the livers went to t a n k a g e.

Kidney worms also were directly or indirectly responsible for the condemnation of 239 carcasses, as well as numerous tenderloins, as unfit for food.

But of 400 hogs raised by 35 vocational agriculture students in Florida and Georgia on clean ground as recommended by the Bureau, 88 percent of the kidneys were free of parasites and 86 percent of the livers were saved for food.

From 21 of the vocational herds, all livers were passed for food and all kidneys and kidney regions were parasite free.

These hogs were raised under the plan developed by the Bureau which calls for removal of vegetation on a strip 4 or 5 feet wide along fence lines and from around the feeders and shelter houses. Under this system, most of the eggs of kidney worms in urine fall on bare ground and are killed by sunlight.

Good results in controlling kidney worms also have been reported to the Department of Agriculture merely by rotating pastures.

These results are typical of others obtained by preventing and controlling internal parasites of swine by modern methods, says H. B. Raf-fensperger, associate veterinarian of the bureau. Details may be obtained from county agents or the State Extension Service.

### Handling 2,000-Pound Aerial Bomb

Possessing enough destructive force to completely demolish a large building, the 2,000-pound aerial bomb above, is delicately handled with a crane as members of the 10th Ordnance Service Company at Langley Field, Va., prepare to instruct men from various units of the air force in the loading of ammunition. Everything from deadly bombs the size of those shown stacked above, to signal flares will receive attention at the Ordnance school.

### S. N. Jones Funeral Due This Afternoon

Father of W. O. and T. P. Jones Succumbed at Electra at 10 O'Clock Tuesday Morning

Funeral services for S. N. Jones, of Electra, 70, will be held this afternoon at 3 o'clock at Electra, Texas, according to plans made late yesterday by members of the family. The father of W. O. Jones, of this city, and T. P. Jones, also former resident, but now of Electra, died on Tuesday morning at 10 o'clock after a prolonged illness. His death was not unexpected.

The W. O. Jones family left Floydada for Electra Tuesday noon and are present for the funeral. Other children of the family also are gathered for the last rites.

In addition to the sons here and at Electra, surviving children include:

S. N. Jones, Jr., of Corpus Christi, W. H. Jones of Los Angeles, California, Homer D. Jones of Dallas, Floyd, Nadine and Nina Jones of the parental home.

### COLONISTS COULD CONTROL EROSION, BUT THEY LACKED COOPERATION AND PLANNING

The problem of soil erosion in this country is not new, nor are present methods for controlling soil erosion new according to a bulletin Early Erosion Control Practices in Virginia, just published by the Department of Agriculture. Efforts were made to prevent and control erosion in Virginia more than 150 years ago. But these efforts failed because each farmer had his own ideas and had to rely on his own resources. There was no concerted community effort, no definite program to carry through the years.

The bulletin, based on early writings of prominent farmers, reports in early farm journals, and the proceeding of Virginia agricultural societies, tells how contour cultivation, a modified system of terracing, and the use of soil-binding vegetation were advocated for holding the soil.

The author, A. R. Hall, of the Soil Conservation Service, points out that George Washington devoted considerable time to gully control on his Mount Vernon farm, and that Thomas Jefferson and T. M. Randolph were conducting experiments in contour cultivation at about the same time. Patrick Henry is said to have remarked soon after the Revolution "since the achievement of our independence, he is the greatest patriot, who stops the most gullies."

The author concludes "the individual efforts of a few, no matter how intelligent these might be, could not solve the widespread erosion problem, and the perfection of these techniques remained for future generations."

The bulletin, Miscellaneous Publication 256, may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 10 cents a copy.

### EROSION CONTROL IS AN AID TO WILDLIFE

A recent survey of wildlife on project areas of the Soil Conservation Service shows that gullies planted to seed-producing herbs and fruit-bearing shrubs, woodlands protected from grazing and fire, and fields strip cropped, give encouragement to wildlife. Farm ponds also attract wildlife and the practice of leaving food patches of small grain standing in fields after harvest is helpful. A considerable increase in the number of game birds on cooperating farms in the erosion control areas during the past 3 years does not necessarily mean a general increase in total wildlife population, according to Ernest G. Holt, in charge of wildlife work for the Service. It results in part from shifts from other farms where conditions are not so satisfactory.

Use the Want Ads. They pay. Read The Want Ads.

### Miss Eugenia French Demonstrated Cooker

The latest methods in the preparation of meals and canning with a pressure cooker were demonstrated Monday and Tuesday to about 73 women by Miss Eugenia French, special representative of Ball Brothers, at Kirk & Sons.

Miss French demonstrated the canning of carrots and beets and prepared a full meal Monday afternoon, describing her procedure and giving reasons for various methods used during the preparation. Tuesday she again prepared a meal, and gave numerous recipes to her audience.

"My major features of the demonstrations are to prove the time and fuel saved by using the cooker," Miss French stated. She also answered any question of the women regarding new methods of meal and canning preparations.

Names were drawn each afternoon with prizes given consisting of flowers, vegetables, and fern crocks.

Miss French expressed her desire to show her appreciation to the women of Floyd county who attended her demonstrations.

### PONDS LOSE HEAVILY FROM SEEPAGE AND EVAPORATION

In planning reservoirs or ponds for livestock water, two points often overlooked are losses from evaporation and seepage, says W. C. Lowdermilk, of the Soil Conservation Service.

Seepage loss may be even greater than evaporation loss, if the dam is not properly constructed. A clay-grit soil, a compact mixture of about one part of clay and two or three parts of sand and gravel is more watertight than pure clay. This soil common in the Great Plains should be present wherever an earthen dam is built.

If a site is to be excavated - a desirable practice because it deepens the pond and reduces evaporation loss in proportion to water capacity - the clay grit should be thick enough so that fissured bed rock beds of sand and gravel will not be exposed. If at all possible, pond over fissured bed rock should be avoided.

Seepage in a new reservoir is reduced by removing the topsoil from the dam site by plowing separated in furrows in the subsoil to obtain a good bond, and by packing the dam during construction. Whenever a good impervious soil is not available, a clay-grit core may be built into the dam. Feeding or bedding livestock on the bottom of the basin when the earth is wet, helps to pack it thoroughly.

As for evaporation losses, the Department of Agriculture has found that in the Great Plains four or five times as much water may evaporate from an acre of water during the summer months as will be used by approximately 200 head of livestock. A depth of double a season's evaporation loss is a general rule in constructing stock reservoirs. Average losses for the summer months for 15 years in the Great Plains averaged from nearly 5 feet in the South to about 3 feet in the north.

Homer R. Robbins, district supervisor the Resettlement Administration made a call on the local RA office Saturday to talk over the needs of the farmers in the three counties served by this office. Farm loans were particularly taken note of.

Miss Tone Gill of Miami is visiting this week with Miss Audrey Parris. She will be a house guest until after the wedding of Miss Parris Saturday.

DIESEL - If you want Diesel training you naturally want the best. You should select a school whose certificate is recognized and means something to your prospective employment. Investigate - then decide for yourself. Hemphill Diesel School, Write E. L. Mangogue, Box 884 Lubbock.

### Floyd County Farmers Attend Field Day At Experiment Station

What was called the most successful field day in the history of the Lubbock experiment sub-station and comparable with last year's record attendance was held Friday at the station east of Lubbock.

A number of farmers from Floyd County were numbered among the 700 from the South Plains that attended the event. The morning was given over to the inspection of plots. Vocational agriculture teachers and county agents acted as guides.

The afternoon session was given over to round table discussions under the shades trees. Superintendent Don L. Jones acted as master of ceremonies. Walter McGregor, entomologist for the station, spoke on cotton insect and pest control and then answered questions from the farmers.

H. M. Bainer was introduced as the man who first distributed kafir for the railroad in this area. He is general agriculture agent for the Santa Fe.

U. G. Randolph, forester, announced that the sale of trees for wind-breaks would begin about the first of the year. He answered many questions concerning disease of trees.

Diseases of sorghums was discussed by Dr. John H. Martin who is in charge of cereal work for the bureau of plant industry. The Floyd county group was headed by County Agent D. F. Bredthauer, Vocational Agriculture Teacher W. A. King, and Assistant County Agent Chapman. Others who went were G. W. deCordova, H. A. Krause.

### RUN-OFF FROM BARE SLOPES AN INVITATION TO FLOODS

Barren slopes are a big flood hazard. Studies by the Department of Agriculture show that run-off from a bare watershed is many times greater than run-off from a watershed covered with forest or other soil-binding vegetation. A half inch of water flowing on a bare slope 12 miles long and 2 miles wide could fill every cellar in a city of four or five thousand homes.

Records of stream flow from 23 small watersheds made by the Appalachian Forest Experiment Station of the Forest Service reveal that during a 12-month period, the average maximum flow from forested watersheds was only 38 cubic feet per second for each square mile. On completely denuded land, the average maximum flow was more than 34 times as much, or 1,304 cubic feet a second per square mile.

Varying types of forest and other vegetative cover were represented in the 23 small watersheds were studies were made and stream measured record. In no case was it found that the run-off from forested watersheds assumed critical flood conditions, whereas the maximum flow from unforested watersheds rose to serious flood proportions in numerous instances.

Mrs. E. E. Hinson returned home the first of the week from Kansas City, where she had been visiting her sister, Mrs. T. W. Whigham for several days. T. W. Whigham, who accompanied her home, returned to Missouri Wednesday.

Mrs. Carl Minor and Carl, Jr., are visiting in Denton this week with her mother and father, Mr. and Mrs. L. H. McMurry.

Mrs. George V. Smith and Margaret spent last week end visiting in Monday with Mr. and Mrs. C. P. Baker.

### Cotton Grows Good; Feed Maturing This Week; Showers Fall

Cotton maturing in fine shape, feed growing inches over night, and the beginning of fine fall weather in evidence as the first two days of September are registered, is the story of the weather and crops in Floyd County this week, with the additional statement that showers around over the county added to the sum total of the precipitation in August on the last day of the month.

The showers slithered across the southwest part of the county, leaving from a quarter to an inch of moisture in an area of perhaps a fourth of the county. Barwise, Harmony, Blanco and Starkey reports give these figures, some crops getting more than others.

About the only thing the cotton men are wondering about now is whether or not the rain will stay away and the winter set in with frosts instead of freezes. Too much rain means lighter yields and sapper bolls slower to open. Too much freeze means fewer bales per farm.

Early feed is being gathered and some farmers who have not made preparations to feed out at home are putting it on the market. Others are filling their silos and still others are waiting for late feed to mature.

Temperatures have averaged mild throughout the week.

### STATE GAS TAXES ON 1,000 MILE TRIP AVERAGE \$2.50

The average motorist taking a vacation trip of 1,000 miles this summer will pay about \$2.50 in State gasoline taxes, according to statistics reported by the Bureau of Public Roads of the United States Department of Agriculture. In return, he has the choice of about 1,000,000 miles of surfaced road, over any part of which he may make his trip. His inclinations may take him to the mountains, the seashore, on a transcontinental trip, or back to the old homestead. Wherever the choice, it is likely that a surfaced road has been built to it and is waiting for his use.

On his trip he will pass numerous road construction jobs and many maintenance crews at work. Much of the construction costs and a major part of the maintenance costs are paid with the motorist's contribution of one-fourth of a cent per mile of travel. This figure is based on the average gasoline tax rate of 3.85 cents per gallon and the assumption of 16 miles of travel to the gallon of gasoline. It does not include the Federal tax of 1 cent per gallon.

Were the early toll roads still in existence; were there enough of them to make a 1,000-mile trip; and were the old rates for coaches applied to automobiles, the motorist would be charged \$25 for his trip.

Mrs. Carl Minor and Carl, Jr., are visiting in Denton this week with her mother and father, Mr. and Mrs. L. H. McMurry.

Mrs. George V. Smith and Margaret spent last week end visiting in Monday with Mr. and Mrs. C. P. Baker.

# NYA Quota Sixteen For This County

### Part-Time School Aid Jobs Are Allocated By State Director Number Reduced County Committee Set-Up Similar to Previous Years Is Planned

J. C. Kellam, Texas Director of the National Youth Administration, has informed County Superintendent Walter Travis of Floydada that the quota of part-time NYA School Aid jobs for Floyd County this year will be sixteen.

The county allocation was made by the State Youth Director, after consulting state school officials and relief and welfare agencies, on the basis of the latest and most reliable figures available on youth population and financial need. The total number of jobs available to Texas this year was only 75 per cent of last year's original quota.

Superintendent Travis has been requested to organize a County Committee from among the school officials of Floyd County for the purpose of making recommendations to the State Youth Director regarding the allocation of jobs to schools within the county. As soon as this recommendation has been made, local schools will be notified and supplied by the County Superintendent with forms necessary for execution of an application for approval for participation in the NYA program.

Local school officials should communicate with the county superintendent to inform him and the County Committee regarding the needs of their school for part-time NYA jobs, Mr. Kellam said.

Youths seeking NYA jobs should apply to the principal or superintendent of their school, since it is the function and responsibility of the local school officials to select those students who shall be given employment.

## Sunday School Lesson

### GOD REQUIRES SOCIAL JUSTICE

International Sunday School lesson for Sunday September 5, 1937.  
Golden Text.—As ye would that men should do unto you, do ye also to them likewise. Luke 6:31.

Lesson Text.—Leviticus 19:11-18; 23-37. Printed Text.—Leviticus 19:11-18; 23-37.  
9 And when ye reap the harvest of your land, thou shalt not wholly reap the corners of thy field, neither shalt thou gather the gleanings of thy harvest.

10 And thou shalt not glean thy vineyard, neither shalt thou gather every grape of thy vineyard; thou shalt leave them for the poor and stranger: I am the LORD your God.

11 Ye shall not steal, neither deal falsely, neither lie one to another.

12 And ye shall not swear by my name falsely, neither shalt thou profane the name of thy God: I am the LORD.

13 Thou shalt not defraud thy neighbor, neither rob him: the wages of him that is hired shall not abide with thee all night until the morning.

14 Thou shalt not curse the deaf, nor put a stumblingblock before the blind, but shalt fear thy God: I am the LORD.

15 Ye shall do no unrighteousness in judgment; thou shalt not respect the person of the poor, nor honour the person of the mighty; but in righteousness shalt thou judge thy neighbour.

16 Thou shalt not go up and down as a talebearer among thy people; neither shalt thou stand against the blood of thy neighbour: I am the LORD.

17 Thou shalt not hate thy brother in thine heart; thou shalt in any wise rebuke thy neighbor, and not suffer sin upon him.

18 Thou shalt not avenge, nor bear any grudge against the children of thy people, but thou shalt love thy neighbor as thyself: I am the LORD.

19 Thou shalt rise up before the hoary head, and honour the face of the old man, and fear thy God: I am the LORD.

20 And if a stranger sojourn with thee in your land, ye shall not vex him.

21 But the stranger that dwelleth with you shall be unto you as one born among you, and thou shalt love him as thyself; for ye were strangers in the land of Egypt: I am the LORD your God.

22 Ye shall do no unrighteousness in judgment, in measure, in weight, or in measure.

23 Just balances, just weights, a just ephah, and a just hin, shall ye have. I am the LORD your God, which brought you out of the land of Egypt.

24 Therefore shall ye observe all my statutes, and all my judgments, and do them. I am the LORD.

Time and Place.—These words were uttered by the Lord to Moses from the tabernacle of the congregation, located not far from Mt. Sinai, where the Israelites were encamped. The date is B. C. 1497.

Although we have seen that religion is necessary for the true welfare of a nation, it is important to consider the kind of religion a nation needs. As a general and vague thing, religion is not enough.

# Willson and Son Lumber Co. Open New Building In Tulia

The opening of the new Willson and Son Lumber Company warehouse and office building in Tulia was attended by J. M. Willson, general manager Saturday. In the new building, constructed along the lines of the buildings built for the Texas Centennial, officials and employees of the company held open house that day.

The same complete line of lumber and building materials that are carried here are in the new building at Tulia. The company operates a number of lumber yards in this area including locations at Floydada, Vernon, Quitaque, Silverton, Tulia, Dimmitt, and Mangum, Oklahoma.

The Tulia branch is managed by Tom Nichols. The opening event was heralded by a special four-page section in the Tulia Herald August 26 with advertising from merchants and competing lumber dealers in Tulia, and businesses in allied industries.

The building and yard are said to be one of the finest on the plains, being modern in every detail, and being able to supply every demand of the consumer.

If we believe in the wrong things in our religion, zeal will only drive us in the wrong direction. It is necessary that faith should be sound, that vision should be clear, and that goals should be right and true. Here in this lesson we have that clear insistence, which is the glory of the New Testament, upon the sort of religion that a nation needs.

It is, first of all, a religion in which man takes account of his fellowman. The religion of selfishness has no place in a nation's life. Selfishness ruins and destroys nations. So, in the harvest that represented the people's living and continuance, it was established in this religion of Israel that men should not reap wholly for themselves. They must not be greedy and grasping to the disregard of the needs of others, and particularly of the poor.

So the true Israelite was ordered not to reap in the last corner of his field, nor to glean the last fruit from his vineyard. He was to leave there something for the poor and needy, and God was represented as the upholder of this sort of consideration for others.

Then, in a true society, there must be recognition not only of needs, but of rights. Men in a sound society should have a religion that will not permit them to steal from one another, to deal falsely, or to lie to one another. In the true religion of a people, as upheld by Moses, there was no place for oppression. The wages of a hired servant was sacred. In some ancient societies it was the custom to expose to death the old and the handicapped, but in this religion of Israel, there was consideration for the handicapped, the deaf, the blind, the weak and the aged. What a noble conception it is, and how much in contrast with pagan attitudes and practices that persist in our modern world.

The true children of God are not the exploiters of their fellowmen, even though they may amass great wealth and power; the true children of God are those who are concerned first of all about justice and kindness and the helpfulness that the strong can give the weak and the needy.

The religion a nation needs is a religion also of mercy and of magnanimity. Vengeance plays a large part even in our conceptions of justice today, but the justice of God is different, and there is no place for vengeance or for grudge in the life of a people who would be children of God.

Nor was this religion of Israel to be a religion of narrow and self-centered patriotism. Even the stranger was to be well and kindly treated. Just balances, just weights, honesty in all dealings, these are basic in a true religion, and are upon this basis of common honesty is built the larger recognition of all God's laws and His purposes. What a nation we might have if every citizen recognized and practiced such a religion.

## Forest Fire Victim

When a raging forest fire swept over more than 1500 acres of timber in the Shoshone Forest, east of Yellowstone Park in Wyoming Forest Ranger Alford Clayton, above, also a widely known artist, was burned to death. Twelve others were killed and 50 injured.

## Better Understanding Brought About When Viewpoints Studied

E. S. James, Vernon Minister Tells Lions Club Gained Knowledge of People's Needs

How better understanding is gained through a study of the viewpoints of others was illustrated to members of Floydada Lions Club last Thursday by Dr. E. S. James, Vernon minister, here in a revival for the First Baptist Church. The astonishment of Ezekiel is told of in his prophecies when he for seven days went among the captives people at Babel by the river of Chebar, and "sat where they sat." Men of widely varying occupations and interests can gain much when they try to understand their fellows' problems and apply the knowledge they gain, the minister said.

Dr. James also proved to be a delightful jokester. His talk was presented by Urnon Borum, chairman of the program committee for the day. Visitors included L. E. McDonald of the Sweetwater Club, C. D. Hamilton of Plainview, Herwin Strickland and Mike Bernard of Floydada.

## Rev. Tubbs Recovering From Illness; Meeting To Begin Next Sunday

Rev. G. W. Tubbs, who has been ill for three weeks, was recovered sufficiently from an attack of influenza the first of this week that he was able to be out and downtown. However, he is not yet strong and as a result Rev. J. M. Harder, of Ralls, will preach for him in the opening days of the meeting scheduled to begin Sunday morning at 11 o'clock at Sand Hill.

The meeting will be in the school auditorium, Rev. Tubbs said, and is expected to last about ten days.

Mr. and Mrs. Dillard Scott returned home Sunday from Ruidoso, New Mexico, where they spent last week on a vacation trip. They were accompanied by Mr. and Mrs. Delbert Groves, of Matador.

A. H. Kreis returned home Saturday night from Knoxville, Tennessee, where he had been several days on a visit at his former home with relatives.

## Football News In Other Camps

(By Bill Hams)

The football dope bucket for the week is practically empty with nearly all of the high school squads hidden out in the hills tanning the pig skin and learning the whys and wherefores of football from pessimistic coaches.

The Whirlwinds are up in Ceta Canyon along with White Deer, Claude, Ralls, and Plainview. Coach J. V. Hilliard of Plainview had already made it clear that his boys won't scrimmage the Floydada squad at the camp "because the two teams will play in Plainview Sept. 24."

Coach Hilliard will probably keep one eye on the Whirlwinds, when and if he has time, just so he won't be surprised that night of Sept. 24. And also the Plainview boys will probably be scouted by some interested Floydada fan. It's all in fun, this counting business.

**Lockney Issues Call**  
Coach Leo Cooper, who just returned from Canyon where he spent the summer, announced last week that football work would begin Monday of this week at the Lockney High School gymnasium.

Coach Cooper said that Monday morning would be spent in rounding the boys up and work would begin that afternoon. About 30 are expected to report with more arriving when school begins.

**Gleanings**  
The Tulia football team isn't "responding" so well to treatment, according to a report from that section. Mysterious Joe says, "Some of the boys need some American traits." This Joe person in fact raked some of the lettermen, who more than somewhat, saying that "It is possible that those boys

## NOTICE OF INTENTION TO ISSUE ROAD & BRIDGE FUNDING BONDS

Notice is hereby given that on the 18th day of September, 1937, the Commissioners' Court of Floyd County, Texas, will pass an order, authorizing the issuance of Road & Bridge Funding Bonds, of said County in the maximum amount of not exceeding SIXTEEN THOUSAND FOUR HUNDRED SIXTY (\$16,460) DOLLARS, bearing interest at a maximum rate not to exceed 5% per annum, maturing serially in such installments as shall be prescribed by the Commissioners' Court not more than twenty five years from date of said bonds, for the purpose of taking up, cancelling, funding and in lieu of a like amount of interest bearing time warrants, as follows:

Floyd County Road & Bridge Warrants, bearing 6% interest, dated June 14th, 1937, maturing \$300.00 on April 15th, 1938, \$1,000.00 on April 15th, 1939, \$500.00 on April 15th, 1940, \$1,500.00 each on April 15th, 1941 and 1942, and \$2,000.00 on April 15, 1943, and \$8,800.00 Floyd County Road & Bridge Warrants, bearing 6% interest, dated August 14th, 1937, maturing \$1,660.00 on Feb. 15, 1944, \$2,000.00 on Feb. 15th in each of the years from 1945 to 1948, inclusive \$9,660.00

Total, \$16,460.00  
(A more complete description of said indebtedness to be refunded is on file in the office of the County Clerk of Floyd County.)

This Notice is given in accordance with the provisions of Chapter 163, Acts of the Regular Session of the Forty-Second Legislature.

EXECUTED by order of the Commissioners' Court, passed on the 14th day of August, 1937.  
274tc. TOM W. DEEN,  
County Judge, Floyd County, Texas.

## NOTICE TO DEBTORS AND CREDITORS

**THE STATE OF TEXAS,**  
County of Floyd.

To those indebted to, or holding claims against the estate of Cornelia Battey, deceased.

The undersigned having been duly appointed joint executors of the estate of Cornelia Battey, deceased, late of Floyd County, Texas, by Tom W. Deen, Judge of the County Court of said County on the 23rd day of August, A. D. 1937 hereby notify all persons indebted to said estate to come forward and make settlement, and those having claims against the said estate to present them to them within the time prescribed by law at their residence, Floydada, Floyd County, Texas, where they receive their mail, this the 23rd day of August, A. D. 1937.  
284tc. R. M. BATTEY,  
D. S. BATTEY,  
Joint executors of estate of Cornelia Battey, deceased.

## The New Grain Drill with Running-in-Oil Transmission

It's the new Oliver Superior No. 35 Grain Drill—with the most accurate seeding mechanism ever built—and with dozens of new improvements—you'll wish to see at once.  
There's a new All-Steel Cylindrical Hopper—stronger, bigger. There's a new Variable Speed Transmission—fully enclosed—all gears running in oil—and 60 different rates of sowing! There's rear spring pressure in all furrow openers—a new Oliver feature. There's a new... why go on? There's not room here to tell you all about it. Come in and see for yourself.  
Remember, too, that all these new improvements are combined with the Superior Double Run Force Feed—that world-famous mechanism that measures with absolute accuracy as long as there's even a handful of grain in the hopper. Ask us for complete information. There's nothing else like the new "35".

Sunday School has made progress during the past under the leadership of Mr. and the cooperation of his of workers. This new annual year holds for the Sunday school unlimited possibilities.

Family Reunion and Mrs. T. J. Campbell and family, attended a family reunion of the Sanders and Campbell families Thursday, August 19, at Springs. There were 44 and all were kin with the son of one little boy, and the group was related to Uncle Sanders of Floydada. A picnic was served at the noon

present were Mr. and Mrs. Loran Leibfried, Mrs. Lehuana, Evelyn Hicks, Mike Sanders, all of Floydada, Will Hoyle, Mrs. Milton Sanders and children, Mr. and Mrs. Sanders and children, and R. J. Pierce of Roaring

and Mrs. C. W. Campbell, Mr. G. W. Hanson and son, Mr. and Mrs. E. A. Coleman children, Miss Dorothy Cole-

### Where Shells Struck In Shanghai International Settlement

With thousands of lives already lost and more than a billion dollars in damages done, conditions became progressively worse as Japanese and Chinese forces waged their "undeclared war". Above left is a scene showing the business center of Shanghai's international settlement shortly before a huge shell struck was aboard the Augusta that one in a congested area near the three towers, right background, killing hundreds. Bottom right shows others injured when a shell hit the landing party leaving the U. S. cruiser Augusta, standing by in the machine-guns keeping vigilant Whangpoo river to protect those guard from their "nest" near Peip- American sailor was killed and 18 others injured when a shell hit the vessel. Upper right are Japanese gunners keeping vigilant Whangpoo river to protect those guard from their "nest" near Peip-

man, R. T. Miller, all of Stamford, Mrs. Gray of California, Walter Baxter and family of Fairview, Mr. and Mrs. T. J. Campbell, Maurice Campbell and J. D. Morrison, all of Dougherty.

Sails For Alaska Mr. and Mrs. Roy L. Jameson took a ship at Seattle last Monday for Alaska where they will be employed by the government as teacher in the resettlement colony there. The Jamesons were required to carry enough supplies with them to last one year. Mr. Jameson will be remembered as a former teacher in the Dougherty school and is a brother of J. B. Jameson.

Schools Days Here Rev. W. V. O'Kelly talked to the students and patrons of the school at its opening Monday morning on "The Value of Doing Your Best."

Mr. Caldwell will be assisted by Miss Eunice Howell of Paducah, Miss Thelma Crawford and Miss Vivian Caruthers.

Funeral at Morton Mrs. F. T. Emert, in company with her son, John and his wife, attended funeral services in Morton last Wednesday afternoon for Mrs. J. H. Emert who is a sister-in-law of Mrs. F. T. Emert.

Local News Mrs. Lula Hensley of Amarillo spent the latter part of the week with her brother, Rev. W. H. Owens, and Mrs. Owens.

Mr. and Mrs. W. M. Nettles of Meadow spent Saturday night in the Campbell home.

Guests in the Henry Wright home the past week were Mr. and Mrs. Ervie Hinsley and children of O'Dessa, Mr. and Mrs. Paul Wright of Floydada and Rev. and Mrs. Ewell Crawford of Waco.

M. J. White of Bellvue is visiting his daughter, Mrs. J. E. Newton and family. Mr. White, Mrs. Newton, and Mrs. C. S. Ray attended the Jack county reunion in Lubbock Friday.

Mr. and Mrs. J. M. Brownlow have returned from a ten-day vacation trip in Colorado.

V. W. Webb and family moved last week to Amherst where he will work in a filling station.

F. M. Covington and Earl Foster are spending a week in Colorado and New Mexico.

Mr. and Mrs. Geo. Odell of Muleshoe visited during the week with J. C. Carmack and family.

James Badgett and Van Fuqua of Floydada, Maurice Campbell and Virgil Crawford attended the Centennial in Dallas last week.

Guests in the W. H. Owens home Sunday were Mrs. Lula Hensley, Amarillo; Oran Cross and family, Sand Hill; J. H. Owens and family, Fairview; Mr. and Mrs. Milton Carmack; Mr. and Mrs. Robert Owens, and Charles Ray.

Mr. and Mrs. C. E. Bartlett spent Sunday with their daughter, Mrs. Otho Sanders and family, and attended Sunday School services at Center.

Born to Mr. and Mrs. Oren Hatley, Wednesday, August 25, a daughter who was named Joy Maxine.

Mr. and Mrs. A. G. Barnett of Wake and Mrs. Bob Steen and son, Billy, of Canyon visited in the Bartlett home Sunday.

Bettie Newell of Floydada spent the week end with Ruth Kreis.

Mr. and Mrs. W. S. Poole spent Sunday with his sister Mrs. Charlie Woodson and family at Memphis.

Mrs. Henry Robins and children of Eldorado, Oklahoma are visiting her brother, J. M. Brownlow, and

Mr. and Mrs. A. G. Muse and family and Mr. and Mrs. John Bolman spent last week end in Bard, New Mexico. They returned by way of Canyon where they visited in the home of Lon Robinson Sunday afternoon.

Mr. and Mrs. A. G. Muse and Mr. and Mrs. Floyd Readhimer and daughter returned home August 23 from a two weeks visit to Gulfport Mississippi, with relatives, and with friends and relatives in New Orleans, Alabama and Arkansas.

Mr. and Mrs. E. F. Cline and James Edward left Tuesday for Ft. Worth. They will return Sunday.

Mr. and Mrs. J. G. Martin and children spent last week-end visiting in Amarillo.

# Holiday Notice

## Monday, September 6, 1937

# Labor Day

This bank will not be open for business on the above date, being legal holiday.

Floydada's New Telephone Building

Floydada's New Telephone Building

## Late Saturday Night...

## Floydada's New Telephone System Goes Into Service

LATE SATURDAY night, when Floydada's telephone traffic ebbs to a low point, the city's new switchboard will be "cut" into service. Sunday morning, when you lift your receiver to place a call, the operator's "Number, please?" will come to you from the new telephone building.

The "cut-over" will be made about midnight when few calls are in progress. Careful advance planning will allow the cut-over to be completed in less than a minute—with no interruption in service.

As the zero hour approaches Saturday night two crews of expert workmen will be on hand... one at the old switchboard in the upstairs quarters at Missouri and Main Streets; the other in the new telephone building on California Street.

When the signal is given, workmen at the old switchboard will pull wires, breaking "heat coils" or fuses, which connect Floydada's telephones to the present switchboard. Operators will leave their positions and remove their headsets.

At the same instant in the new building, other

workmen will pull plugs from the new switchboard, connecting it to each telephone in the city. Operators will take their places, eyes alert for the first glowing light.

Placing the new switchboard in operation will be the last major step in a comprehensive expansion and improvement program started eight months ago to give Floydada one of the most modern and complete telephone systems in the State.

Designed especially for Floydada, the new switchboard combines the latest developments of telephone research. It was manufactured expressly for use here.

A new brick building was erected, outside lines and cables were rearranged, a new business office provided, and the new switchboard and other central office equipment installed.

Employees of the telephone company here are proud of the new system. It will enable them to give Floydada telephone users the best possible telephone service.

W. G. RIDDLE, District Manager

## Jack County Picnic Held Last Friday With Six Hundred Present

Approximately 600 former Jack County residents attended the reunion picnic at Lubbock last Friday, in which 100 women, former Jack County residents, competed in a "prettiest girl" contest. Mrs. Don Hatchett of Lubbock won first place. Included in the entertainment for the day the principal speakers were Ross Edwards, Lubbock Mayor, and Pink L. Parrish, former senator and an ex-resident of Jack county. A picnic lunch at noon and talks of former days by the older members in the afternoon.

Officers for the coming year, elected Friday are Marshall Rhodes, president, Sterling Parrish, vice-president and Mrs. J. K. Wester was re-elected for secretary.

The reunion will be held next year the last Friday in August. J. A. Raley Jr. was the out-going president in charge this year.

Floyd County residents who attended were:

Judge and Mrs. J. W. Howard, Mr. and Mrs. W. H. Hilton, Mr. and Mrs. W. A. Amburn, and grand children

## Sand Hill News

**Auto Collision Injures Four**  
Four persons were injured, one rather seriously, Saturday evening about 8:30 when a car and a light pickup truck collided at the crossroads intersection immediately south of the Mickey store.

The more seriously injured was Arthur Graham, son of Mr. and Mrs. H. H. Graham of this community and driver of the Reo pickup. His machine turned over twice and was completely demolished. Arthur was thrown some 30 feet past the wreckage, and received a skull fracture, a broken collar-bone, two broken ribs, and several misplaced vertebrae in his back. He was taken to the West Texas Hospital at Lubbock after receiving first-aid treatment at the Floydada Sanitarium, and is reported as doing as well as could be expected.

The occupants of the other car involved in the accident were E. T. Williams and Ralph Gee, of Floydada, and Miss Lurene Weems of this community. Williams, who was driving the car, a model A Ford coupe was the most painfully injured of the trio, receiving a fractured left wrist when he was pinned under the wreckage after the car turned over once. Miss Weems received numerous cuts and bruises and Gee was cut about the head. However, all three are recovering this week.

**Locals**  
Mr. and Mrs. Clarence Guffee had as their week-end guests Mr. and Mrs. W. H. Moody, Mr. and Mrs. Henry Kelley and Harold Eugene Moody all of Portales. Mr. and Mrs. Moody are the parents of Mrs. Guffee and Mrs. Kelley is her sister.

Mr. and Mrs. J. E. Mickey and children spent Sunday on an outing in Cota Canyon.

Mr. and Mrs. Wiley Bollman left Thursday for their home at Whittier California, after spending a week here with Mr. and Mrs. Chas. Bollman.

Mr. and Mrs. A. R. Hanna and Miss Ola Hanna made a business trip to Lefors, Tuesday.

R. H. Peel and children, Jimmy and Viola, spent the week-end with relatives near Fort Worth. Mr. Peel's sister, Mrs. Molly Stone and daughter returned home with them.

Mr. and Mrs. Noble Jackson and son, Tom of Tulsa spent Monday here with Mrs. Jackson's parents Mr. and Mrs. A. R. Hanna.

## PHOSPHATE ROCK SUPPLIES LIMITED IN SOME COUNTRIES

"World supplies of phosphate rock are estimated at about 18 billion tons," says Dr. Charles E. Kellogg of the United States Department of Agriculture in discussing policies for the conservation and efficient use of this essential element in fertilizers for cultivated crops.

"More than a third of the known supply of phosphate rock is in the United States," he continued, "another third in the Soviet Union, and most the remainder in Northern Africa. Further exploration in Asia and South America may disclose additional amounts. Europe uses nearly 6 million tons annually and Japan more than a million.

"While the international situation permits these needs can be supplied from the Soviet Union, the United States, and North Africa. Japan, for example, with mandated islands, has an estimated reserve of about 41 million tons. This could not last many years if other sources were unavailable. Central and western Europe would be even more hard pressed if imports were denied."

## Cone School Opening Monday; Enrollment Of A Hundred Pupils

School opened Monday, August 30, with an enrollment of one hundred pupils. In a short opening program Miss Ruth Bartley rendered a reading. Mr. Lawson, superintendent gave a sketch of his life and Mrs. Boydston, president of the school board, gave a short talk.

The teachers are L. B. Lawson, superintendent; Miss Pauline Travis, upper grades; Miss Verna Humber, intermediate grades and Mrs. Edna Phillips, primary.

School started with an enrollment of twenty in the high school. The officers of the ninth grade are D. C. Flurry, president; Lonnie Bethel, vice-president; T. S. Parks, secretary and Loretta Parish, reporter.

Eighth grade officers are Beatrice Watson, president; Mildred Fuller, vice-president and Hansel Nance, secretary.

The third and fourth grades have an enrollment of twenty who are eager to be started in their work. Mrs. Phillips enrolled nineteen pupils. The group selected as their motto, "We are busy bees."

**Locals**  
Mr. and Mrs. T. B. Wilkinson and baby Averill spent Friday and Saturday in Crowell with relatives and friends.

Ellis and Bailey Barbee spent the week end with relatives in Floydada. Miss Edna accompanied them and spent the week end with friends.

## MUCH OF IRRIGATION WATER IS FROM MOUNTAIN SNOWS

Of the more than 19,000,000 irrigated acres in the United States, probably 85 percent of them get water directly from melting snow, says S. H. McCrory, Chief of the Bureau of Agricultural Engineering, United States Department of Agriculture.

The accuracy with which irrigation water supplies from mountain snow are estimated is shown by forecasts over a period of 19 years by Dr. J. E. Church of the Nevada Experiment Station. During this time nearly one-half his 63 forecasts for six large drainage basins in California and Nevada were within 5 percent of correct, about two-thirds were within 10 percent, three-fourths were within 15 percent and no forecast was more than 30 percent off.

Dr. Church is co-operating with the Bureau of Agricultural Engineering, which has general charge of coordinating irrigation water forecasts.

Forecasts of water supplies from mountain snows will be issued this spring for Wyoming, Montana, Colorado, Nebraska, New Mexico, Idaho, Utah, Arizona, Nevada, Oregon, and California. Forecasts are based on measurements taken during the winter and early spring on more than 500 mountain courses. Co-operating with the Bureau of Agricultural Engineering are more than a dozen public and private co-operating agencies, such as the United States Forest Service, the United States Weather Bureau, United States Geological Survey, the National Park Service, irrigation districts, the State engineer offices, and power companies.

## SALT FOR LIVESTOCK

Beef cattle should receive 1/4 to 1/2 ounce of salt per day per 1,000 pounds of their weight, and milk cows a little more. Horses need about 2 ounces per day per 1,000 pounds of weight and sheep one-third ounce per head. While hogs do not require so much, it is important that they get what they need.—Exchange.

## Antelope News

Antelope has much to be thankful for. We have had good rains which have brought up an excellent crop of volunteer wheat as well as a thick stand of weed; tractors are roaring on all sides and farmers are all in a rush, but despite that fact—not a plow moved all day Sunday. We are proud of that.

School opens September 13. Pupils and parents are both anticipating a good year. We will be glad to welcome Mrs. Blanche Rutherford our teacher.

Mr. and Mrs. Poole Visit Dr. Poole  
Mr. and Mrs. W. S. Poole have returned from Oklahoma City where they visited their son, Dr. Warren Poole, who is an intern in St. Anthony Hospital there. He likes his work very much; his busy career there began with a tonsil operation, which he performed on his first day.

Mr. and Mrs. Poole returned by way of Dallas and Fort Worth where they visited the Pan American Exposition and Frontier Fiesta. They think the shows are an improvement over last year.

**Locals**  
N. N. Roe has returned from Mineral Wells where he took a course of the baths. He believes the treatments were very beneficial.

Mrs. J. T. Poole is convalescing in her home since her return from a Lubbock hospital.

Mr. and Mrs. T. J. Boyd had as house guests during the week John L. Tippet, Mrs. P. L. Tippet of Fort Worth, Mr. and Mrs. J. B. Bradley of Longview; Mr. Bradley is the president of the Curox Corporation, and Mrs. Maude Bradley, Ned J. Bradley and J. W. Boyd, all of Lubbock.

Mr. and Mrs. Mack Jackson have returned from a vacation trip to Grand Canyon and other points in Colorado and the West.

Chas. W. Nickles has been attending the ginners convention in Dallas.

Mr. and Mrs. J. T. Poole had as guests Sunday Mr. and Mrs. Will Hunsucker of McAdoo, Mr. and Mrs. C. A. Caffee of Dougherty and Mr. and Mrs. L. G. Norrell and family of Sand Hill community.

Mr. and Mrs. J. P. Bradford and sons, Eual, Sammy and Pat have returned from visiting relatives in Temple and Foreston.

Miss Delzie Bradford spent the week end at home with her parents, Mr. and Mrs. C. L. Bradford of the Baker community.

Mr. and Mrs. Tom Jackson have been at the bedside of Mrs. Ellison, who is ill of paralysis in the sanitarium in Lubbock. Mrs. Ellison is Mrs. Jackson's mother. Her condition is improving.

Mr. and Mrs. R. S. Moore have as house guests this week Mrs. Moore's mother, Mrs. A. J. Suddeth, and Mrs. Edith Shirley and family all of Crosbyton.

The Antelope community offers sympathy to Mr. and Mrs. W. E. Rucker in the recent loss of their brother, John Rucker.

Mr. and Mrs. Bob Robbnet and children, Mr. and Mrs. Carl Lane and daughter and Miss Catherine Pogerson attended the Old Settlers reunion at Roaring Springs last Friday.

Misses Bettye Sue and Sibyl Roe spent the week end in Dougherty with their grandparents Mr. and Mrs. Woody.

Mrs. Virginia Scott had as a guest Sunday John Scott of Post. Miss Catharine Pogerson was a mid-week visitor with her parents, Mr. and Mrs. F. W. Pogerson of Floydada.

## Adult Life Lengthens But Gain Principally Below 45-Age Bracket

**Faulty Living Habits, Stepping Up Life Tempo Factories in Shortened Lives About Forty-Five**

AUSTIN, TEXAS. "Adult life has been lengthened materially during the past thirty-five years. However, the gain largely has been made in the age bracket below the forty-five year limit. The reason for this lies in the great progress made by medical science in preventing infant mortality. Or to express it otherwise, little folks, on the average, will live fifteen or more years longer than was the case prior to 1900. While undoubtedly this is a magnificent achievement, it serves also to indicate that obligation of the middle-aged and older, to be reasonably concerned about their health and life prospects, still entirely is justified," states Dr. Geo. W. Cox, State Health Officer.

"The truth is that the increase in deaths from heart, kidney, and blood vessel conditions not only has been responsible for blocking an extension to life for the average person who has reached the half-way mark but, from a statistical standpoint, to an extent has neutralized the successful inroads that have been made against tuberculosis and some of the other devastating diseases. And it is right here where personal health interest should be more active than it is today.

"Faulty living habits more often are responsible for a prematurely shortened life than is any other single factor. The stepping up of life's tempo and the exacting associations there which too frequently prove so absorbing and time consuming that little, if any, thought is given to the real business of life, which is to get it in terms of health, happiness, and longevity as much as one possibly can.

"The family physician should be the counsellor in this connection. Too often, persons wait until they are ill before taking the doctor into their confidence. And sometimes, it is then too late. Indeed, it should be stressed that sound medical advice on how to keep well and the early professional detection of an unsuspected condition can mean many added years of usefulness.

## SECOND "WHITE BUFFALO" BORN ON U. S. BISON RANGE

An albino buffalo calf, the second to be born on the National Bison Range, near Moose, Mont., is one of more than 50 born so far this year in the herd of more than 375 animals. His sire is the other albino, born 4 years ago. Both are from the same cow.

Two albinos in a herd of less than 400, says the United States Biological Survey, is a rare occurrence. Even when millions of buffalo lived on the Great Plains, a white one was rare. Indians, it is said, looked upon the white buffalo with awe, considered it "big medicine," and for a good skin paid 10 or 15 horses.

The white man also was willing to pay a high price for an albino buffalo skin. One plainsman is reported to have obtained \$1,000 for a white buffalo. Because these animals were so highly prized, naturalists doubt any ever attained full size.

Ebony wood, which is found in the Lower Rio Grande Valley, makes ideal pistol grips according to a letter received by The Texas Planning Board from Smith & Wesson, manufacturers of firearms. The planning board sent some of the wood to Smith & Wesson and a pistol grip was fashioned from it.

## Health Racketeer Hit In Statement By State Health Officer Cox

**Super-Scientific Gentry Hold Out False Promises and Heartlessly Prey Upon Incapables**

AUSTIN, TEXAS, Sept. 2 — In speaking of health racketeers, Dr. Geo. W. Cox, State Health Officer, said, "There is no meaner method of hittin' below the belt than by holding out false promises to incurables. This fact, however, does not in the least deter the unscrupulous who thus heartlessly prey upon thousands of unfortunates who are in a hopeless stage of illness. Thousands of dollars are extracted annually from individuals whose conditions direct their hopes to the promises made by the super-scientific gentry who claims to have beaten the untiring researches of endowed laboratories to cures for cancer, diabetes, tuberculosis, epilepsy, pellagra, and other serious conditions.

"Unfortunately, it is words rather than deeds that create the miracle. A miracle which, instead of being related to a cure, is entirely associated with the transfer of large sums of money from innocent persons to those whose only interest in

ed in this connection. The action by a reputable physician in this way incipient consumption is discovered and proper treatment of the disease can frequently be secured. The second rule mistrust all high promising ministrs of 'amazing discoveries' that in addition to the persons who become the victims of this type of racketeer, and through self-diagnosis and treatment, postpone a realization of their ailments and incurable stage is reached.

"Two main rules should be followed in this connection. The first is to have an annual physical examination by a reputable physician. This way incipient consumption is discovered and proper treatment of the disease can frequently be secured. The second rule mistrust all high promising ministrs of 'amazing discoveries' that in addition to the persons who become the victims of this type of racketeer, and through self-diagnosis and treatment, postpone a realization of their ailments and incurable stage is reached.

Mr. and Mrs. G. L. Kirk and their guests this week Mr. and Mrs. Miss Mary Kirk of New Mexico and Junior R. of Plainview.

BASEBALL--FOOEY!

### Lions Tussle Donkeys; Floydada Wins Game From Plainview Lions

Burt Holt Only Man Able to Steer Burro Completely Around The Softball Field

Burt Holt of the Floydada Lions Club was the only man out of about thirty who could steer a donkey all the way around the bases in the donkey softball game between Floydada and Plainview Lions Monday night, recording the lone tally of the evening.

The game, a benefit affair, was played at Wester Field under the flood lights. Trying to increase their score the local boys ran in everybody but the bat boys as pinch hitters in the latter innings. The local club had gone to Plainview previously and lost a game there 1 to 0. The game here was postponed from a previous date, when it was rained out.

Of the Plainview Club, Pool, Draper, McBride, McCurdy, Crowell, Swainner, Hopkins and Nisbet played, using Williams, a Floydada man, in the right field.

The base running mules pitched

off the riders or backed from under them with impartiality, while the onlookers howled their delight.

After a division of the receipts of the game with the donkey owners the local club realized \$32.17 net from the game, of which \$16 was put in the park fund of the Garden Club.

### Highway Accidents—

(Continued from page 1)

mobiles been going at a moderate rate of speed. The speed limit within the city limits is 20 miles per hour and 45 on the state highways and if these limits had been observed two of the accidents probably would not have happened.

### EIGHT HURT DURING WEEK END

Eight Floyd County youngsters were injured, two of them seriously, in two week-end highway accidents.

Saturday night, daughter of Mr. and Mrs. Aubrey Hanks, Floydada, is most seriously hurt, her injuries including a concussion of the brain from which she was unconscious from Friday night until Sunday noon, also severe bruises practically all over her body, and a severely lacerated right arm. She was thought to be recovering this week.

Arthur Graham, son of Mr. and Mrs. H. H. Graham, of Sand Hill, was seriously injured in a collision Saturday night. He had a broken collar bone, head injuries and two or three ribs pulled loose.

In the car with Helen Hanks were her sister, Laverne, and two Floydada youths, H. B. Chastain, Jr. and George Quirk. Chastain has a severe cut on his left hip. The other two occupants of the car were shaken and bruised when a tire blew out on the highway near Ralls. They were driving the Chastain family car, H. R. Austin, of Dickens, picked the four up and took them into Ralls, and they were brought to Floydada early Saturday by him.

In the wreck at Sand Hill Saturday night Lurene Weems of that community, suffered head injuries not believed serious, and E. T. Williams and Ralph Gee of Floydada had minor injuries. Williams a sprained wrist and Gee bruises on the face and arms. A car and a pickup collided at the crossing of roads at Sand Hill. Graham was in the pickup. Both car and truck were badly damaged.

### Ginners—

(Continued from page 1)

ly burned from lack of moisture. The exact location of a prospective cotton patch ready for picking could not be discovered because the owners were anxious to make the first Floyd County bale for 1937 and be able to collect the premium that goes with that honor.

None of the cotton men would hazard a guess as to the possible price that would be paid for cotton when the season really got under way. "We will have to leave the price deciding and guessing to the speculators," one man said. No matter what price cotton may bring it is believed that the county and the town will be helped materially because of the bumper wheat crop that preceded it.

The opening of the cotton will probably open up the field of employment to a great extent. The lower section of Texas has experienced a shortage of labor during the cotton season, in some cases the "kidnapping" of cotton pickers was reported.

### Aiken Plans—

(Continued from page 1)

plot. Pure seed will also be secured and planted throughout the plot.

It is planned by McAvoy, chairman of this movement, to have another field day in the spring before harvest when all of the farmers or anyone interested in what will gather on the demonstration plot with the assistance of grain specialists cooperating with the extension service and results of the various demonstrations will be explained by the farmers taking part in the program.

It is planned by the Aiken business men to have two field days each year, one in the fall for cotton and one in the spring for wheat.

Credit must be given Ed Whitfill, Lockview Farm, and J. W. Jennings for the development of Pepper Cotton which has so successfully made Aiken one variety cotton project the best long staple community in the plains territory.

Mrs. J. V. Jones and son Frankie returned last week from Sequoyah, California, where they visited several days with relatives.

### School Opening—

(Continued from page 1)

will be held Monday morning—at 9 o'clock high school, 10:30 Andrews Ward—giving opportunity for all who desire to attend both school opening exercises. Following is the plan for the week-end and for the opening day:

### Teachers Meet Friday

Friday afternoon 1:30 p. m., high school auditorium, meeting of all teachers in the school system; Registration of teachers; Address, "You and your job," Superintendent A. D. Cummings; Comments by principal and teachers; Discussion, teachers retirement act—A. D. Cummings, O. K. Davis; Announcements.

Saturday morning 9 o'clock Andrews Ward teachers assembled at Andrews Ward School for preparation of schedule, et cetera; 9 o'clock high school teachers assembled at high school for preparation of schedule, et cetera.

Monday morning at high school auditorium, 9 o'clock, general assembly and song service.

Invocation; introduction of teachers; Address, "He works best who knows how,"—Superintendent A. D. Cummings; Announcements; Registration of pupils.

### At Andrews Ward

At Andrews Ward 9 o'clock, pupils will meet in their respective rooms for registration; 10:30 assembly A. W. Auditorium; Song service and devotional; Introduction of teachers; Guest speaker to make talks; Announcements. The general public is invited to attend both exercises. Superintendent Cummings announced. Attention is called to the fact that the high school opening exercises are at 9 o'clock and the ward school exercises at 10:30. Patrons are especially urged to see that their children are enrolled the first day of school.

School buses will make their regular runs Monday morning. Mr. Cummings announced, three buses visiting nine communities where high school students are under contract for transportation and tuition. Lon Blasingame, Foster Amburn, and Melvin Blasingame are the contract drivers this year.

M. A. B. A. and B. S. degrees are the rule in the faculty of the school this year, thirteen southwestern schools being represented in the list of degrees held. There are nine new members of the faculty. Following is the complete roster of teachers in the schools, both old and new members, together with the schools from which they graduated:

Teachers in the high school are A. D. Cummings, superintendent, B. A. W. T. S. T. C., O. K. Davis, principal, B. A. Simmons University, Odell Winter, coach, B. A. Simmons; W. A. King, vocational agriculture, B. S. Texas Tech; L. B. Williams, English, B. A. East Texas State Teachers; Fannie Rees, home economics, B. S. W. T. S. T. C.; Daltis Rea, History, B. A. W. T. S. T. C.; Grace Cade, English, B. A. M. A. Texas Tech; Genevieve Wilhite, Spanish and Latin, B. A. M. A. Texas Tech; Sudie Miller, history, B. A. W. T. S. T. C.; and Reba Copeland, mathematics, B. S. Simmons.

New teachers in the high school are J. G. Stockard, Commerce, B. A. M. A. Texas University; Lois Fouts, home economics, B. S. North Texas Teachers College; Elizabeth Wolfe, English, Speech, B. A. Texas College for Women, and Carroll Rummich, music, B. A. Kansas State Teachers College.

Andrews Ward School teachers are J. H. Myers, principal, B. A. Southwestern State Teachers College of Oklahoma; Mrs. J. N. Johnson, first grade; Maude Meredith, second grade, B. A. West Texas Teachers; Vera Meredith, second grade, B. A. West Texas Teachers; Fannie Bolding, health, B. A. Baylor; Alva Weatherford, language, arts, B. A. East Texas Teachers College; Emma Rose Stuart, language, arts, music, B. A. Simmons; and Jane Hughes, arithmetic, B. A. Oklahoma; Agnes Porter, third grade, B. S. N. T. S. T. C.

New teachers in Andrews Ward are Bernice Dallinger, first grade, B. A. T. S. C. W.; Margie Norton, third grade, B. A. Abilene Christian College; Ruby Norton, fourth grade, B. A. Abilene Christian College; and Brady Thomas, assistant coach, health, B. A. Howard Payne College.

All teachers in the grade have been elected subject to assignment, and the above fields may be changed.

### BREAKS LEG

W. T. Branson, of Center, is in the hospital with a broken leg, sustained early this week when he fell from a ladder while painting.

### Wichita Falls Polo Sharpshooters Too Much For Plainview

Wichita Falls poloists, better mounted and sharper-eyed, won both their games here Saturday and Sunday afternoons from the Plainview Club, with scores of 15 to 9, and 16 to 4.

Luther Weeks, Horace Robbins, Jack Robbins, Billy Skidmore and Drew Harding played for the Wichita Club, with Shurbert, Crenshaw, Bradley, Wheeler and Cooper representing the plains leading team. Crenshaw was out the second game with a wrenched knee. The local club held the southwest's best team to fairly even scores in the first half of each game but in late chukkers were out-manuevered by their faster opponents.

The games were sponsored by Floydada Fire Department.

### Oil Test—

(Continued from page 1)

net the terms of their lease will be exercised to begin a test with the drill. When drilling begins—later than November 15—the leases become effective as to both parties. Meanwhile some \$30,000 will have been expended in the seismograph tests, and local business has been feeling the effect of the thirty new workers here, several of whom have families. Merry had an interesting twenty-four hour period finding places for all the workers and their families to sleep Tuesday night and Wednesday. Yesterday he reported all hands had been "bedded down" without having to leave Floydada. However, there were some close calls and it may be that some of the crew will have to go elsewhere to find places of abode while their work is under way here.

"What will be the outcome of our tests here are yet to be learned," Mr. Merry said. "We are spending a lot of money ahead of the spudder to learn where we want to drill, if we do determine to make a test with the tools. Our work now is preliminary."

Oil States Exploration Company has been operating for several years in Texas, Mr. Merry said, explaining that geologic surveys are followed by the seismograph tests, which in turn are followed by the drill where prospects appear to justify.

### SON BORN TUESDAY

A son weighing seven and one half pounds was born Tuesday morning to Mr. and Mrs. Gene Collins. Mrs. Collins and the baby, who has been named James Franklin, are in a Lubbock hospital, but expect to return home late today or Friday.

### Members Listed

32 class members who registered included Selma Llider, Floydada; W. B. Cates, Floydada; Jean Bain, Floydada; Mrs. John Key West, Floydada; Aaron Williams, Floydada; Billie Joe Welch, Tulsa; Mrs. Max Carson, Sweetwater; Mrs. Richard Donathan, Floydada; Urnon Borum, Floydada; Chlotilde Abernathy, Floydada; Mrs. Haskell Redd, Floydada; Layton Dorrell, Floydada; Bruce McLaughlin, McAdoo; Mrs. Shirley Sandefur, Paducah; Dorothy Scott, Floydada; J. D. Nelson, Floydada; Claude Myrl Patton, Floydada; Faye Newell, Floydada.

George Lee Henry, Floydada; Raymond King, Floydada; Marion Head, Floydada; Buck Sims, Floydada; Leo Jackson, Plomot; Louise Conner, Floydada; Bernice Patton, Floydada; Pat Slansell, Floydada; J. D. Moore, Floydada; Mrs. J. D. Cates, Floydada; C. L. McMurray, Floydada; Ersel Matthews, Floydada; and Mr. and Mrs. A. D. Cummings.

"We planned this get-together very informally after our commencement exercises," Miss Lieder stated. "A group of us got together, decided that our class should start the tradition of keeping in touch with each other, and planned to meet during the summer of 1937, five years later."

Mr. and Mrs. Doug Maddox of Plainview visited her sister, Mrs. Troy Griggs and family, Sunday.

### Grads Of '32—

(Continued from page 1)

group consisted of a picnic at the old rock corral in Blanco Canyon. After the outdoor supper, a huge campfire was made, and each person gave a brief resume of what he had been doing during the past five years. President Welch was in charge of the evening gathering, and in a business session, the group voted to retain the old officers and to meet again in 1940. Their plans are to meet every three years. Songs were sung around the campfire before the group disbanded.

Thirty Are Married

Out of the group of sixty-seven, thirty are married, reports from the class register showed. Only one death, that of Waymon Finley in 1934, has occurred. Colleges represented were Texas Technological College, West Texas State Teachers College, Baylor University, Hardin-Simmons University at Waxahatchie, McMurry College, Lippert's Business College, A and M College, and Abilene Christian College.

Other telegrams were received from Truett (Buster) Smalley from Carlsbad, Joe Marshall in the CCC Camp at Lubbock, Pearl Irie in Denison, and several others whose names were not recorded.

Visitors attending the reunion include Mrs. Ralph Walker of Sweetwater; Mrs. W. B. Cates, Mrs. Layton Dorrell, Miss Martha Lee McCleskey, and Ray Chapman, all of Floydada; and F. P. Merry of Abilene.

### Larger Crowds, More Interest As Baptist Meeting Progresses

There had been thirteen additions to the church Tuesday afternoon as a part of the results of the revival in its second week at the City Park conducted by the First Baptist Church.

Bigger crowds added interest have marked the progress of the meeting into its second week, due to climax Sunday night when Dr. E. S. James, pastor of the first church at Vernon, preaches his closing sermon.

### COUNTY AGENT HAS SOME WINTER BARLEY LOCATED

The County Agricultural Agent, D. F. Bredthauer, has just located some winter barley seed which is known as Finley Barley. It is a strain of the Tennessee Barley developed some 18 years ago by the Texas Agricultural Experiment Station at Denton, Texas, and it has become widely known in the North central Texas Area. Under a number of years of testing on the experiment farm at Denton, Texas, Finley is one of the best all around varieties in test run on the station and it is recommended to farmers for a winter barley.

Anyone needing winter barley can secure the names of those having it by calling at the County Agricultural Agent's office.

Inex cards, verticle file folders. Hesperian.

### MISS IMOGENE ROY TO TEACH AT

Miss Imogene Roy, daughter of Mr. and Mrs. J. E. Roy, has been elected as intermediate teacher at the Erick school, which opens Monday. Miss Roy has an excellent school record having been graduation in her grammar school at Plainview last May 26. Other teachers at Erick are Miss Adrian Terrell, from Plainview, primary teacher.

### CLOY LYLES TO PREACH

Cloy Lyles will preach at Fairview at 11 o'clock that evening and 8 o'clock that evening.

## Dollar Day Sales
