Whirlwinds Play In Class A With Plainview Friday

Plainview Bulldogs Favored Over Floydada Whirlwinds In Night Game

"On to Plainview" is the cry echoed from the Whirlwinds as they practice on Wester Field this week. The defeat suffered by the Slaton Tige, at the hands of the Whirlwinds put pepper and ginger into the Floydada boys as nothing else could.

Although outweighed from start to finish by the Plainview eleven and considered a slow, inexperienced team the Whirlwinds are planning to keep the Bulldogs attack in hand and do a little scoring of their own.

Last week Plainview was squashed 27 to 0 by the Quannah Indians who ran rough-shod over them. According to scouts the Plainview line are the weakest link but the ends are exceptionally strong, as no Quannah end-arounds worked. The Bulldog line backer-uppers were able to bat down most of the Indian flat zone passes but the long looping ones dealt them all kinds of misery.

If Coach Odell Winter's boys pick up where they left off in the first quarter of the Slaton game the Bulldogs are going to be run down chasing passes over the home lot. And if the percentage of completions is near the same the Whirlwinds will score, plenty.

The Whirlwind subs and second stringers got their taste of fire in the second period of the Slaton-Floydada game. That will help when the reserves are called upon. The Bulldogs will be whipped into shape and the weaknesses will be (See Whirlwinds, back page)

Program at Aiken To Feature Talks Of Cotton Expert

4-H Club Members Will Compete for Prizes in Good Cotton Display

Inspect New Gin

Barbecue at Noon to be Followed by Tour of Farm Inspection

The 4-H Club show and gathering of one-variety cotton growers at Aiken tomorrow will feature addresses by cotton and other plant experts, the morning session being given over principally to discussions of various phases of cotton growing, marketing and handling.

Competition will be keen, it is certain in the 4-H Club boys display of cotton, in which \$5 will be paid for the best display of 20 bolls of cotton, \$3 for the second best, \$2 for the third best, and 50 cents each for all others. F. C. Lietche, of the Extension Service Staff, A. & M. College, will judge the entries.

A barbecue at noon will be followed by a tour of inspection of seven or more cotton farms in the area, where cotton under irrigation is now opening. The Lockview Farms, Joe Jennings farms, and farms of W. D. Colston, Becton Potts, F. L. Brown, D. D. Tate and others will be visited on this tour of some twelve miles.

F. C. Lietche will open the formal program with a discussion of the much-talked of cotton loan and subsidy plan now being put into effect and how the cotton grower may obtain best results out of his cotton.

He will be followed, according to the program outlined, by H. M. Bainer, of the Santa Fe agricultural department, with a discussion of wheat demonstration plots.

One of the interesting and practical talks of the morning will be made by B. Rhine, plant breeder for the Lockview Farms, who will tell of experiences in the growth of cotton under irrigation.

Afternoon Program

At 1 o'clock A. E. Miller, extension agronomist, will discuss the one-variety cotton plan for communities and what has been done in Texas with the plan. Similarly D. P. Killough's address on experiment station records with different varieties of cotton in this section is expected to interest the farmers present. Mr. Killough is cotton breeder at the Texas Agricultural Experiment Station.

What the federal government is trying to do to get cotton of the south on a better paying basis will be discussed by Roy F. Saunders, of the Bureau of Plant Industry, Washington, D. C.

One of the interesting things in connection with the inspection of the new gin at Aiken will be the cotton drying system that has been installed by Ed Whitfill, owner. This is the first dryer to be installed in a gin in this section of the state.

County Agent D. F. Bredthauer expects to spend much of his time tomorrow at the Aiken show, he said, and aid in carrying out the program of agriculture betterment.

Committee Plans For Many Entries From All Sections Of County

Silverton Judges

Cut Flowers in Two Divisions Ferns, Pot Plants, Included in Competition

A few more varieties of flowers which may be entered in the Flower Show September 24 and 25 have been added this week by the committee and the prizes in each division have been announced.

Mrs. Bob Tinnell, Miss Lizzy Gregg and Mrs. Ira Shaffer, of Silverton, have been selected to judge the flowers entered in the show.

The flower show is sponsored by the Garden Club with Mrs. B. K. Barker, chairman of the committee. Others serving on the Flower Show committee are, Mrs. O. P. Rutledge, Mrs. C. M. Thacker, Mrs. J. D. McBrinn, Mrs. E. L. Angus, Mrs. George Smith and Mrs. Fred Brown.

The show will be held in the Barrow Building on the northwest corner of the square. Judging will be done Friday afternoon and displays will remain in the building until late Saturday afternoon.

Other committees have been appointed Flower Display; Mrs. George Hulse, Mrs. J. B. Jenkins and Mrs. Bill Daily; Food Market; Mrs. John Maxwell, Mrs. Roy Snodgrass and Mrs. A. E. Guthrie; Commercial Displays, Park Florist and Hollums Floydada Florist.

Mrs. W. S. Goen of Park Florist is to give a grand prize to individual winning the greatest number of blue ribbons or first prizes. This prize will be an attractive pot plant.

The list after final revision and the prize for each entry is given as follows:

Cotton Pickers Needed As Floyd County Crop Enjoys Sunshine and Dry Weather

Floyd County Gins Turn Out About Seventy Bales During Week

Floyd County cotton growers could not have ordered better cotton growing and maturing weather than has been vouchsafed them in the past week, and should some kindly providence drop about a thousand cotton harvesters down in the county during the next ten days it would be an ideal arrangement, indeed.

All this, of course, predicted on the basis of continued clear, pretty weather.

This is the consensus of opinion among cotton growers over the entire section, it seems. Farmer after farmer reports his cotton as coming along nicely, although some say it is opening slowly. But there is enough cotton open right now to take up practically all the slack in the local labor market and business really will pick up in the cotton fields in ten days.

Gradual Increase

That there is a gradual increase in the number of fields where pickers are working and that the harvest is advancing at about the same rate all over the county, was indicated late yesterday by reports from ginners, which showed between 60 and 75 bales turned out, and that thirty or forty bales will be ginned today.

Ginners guess three weeks will elapse before the movement of the crop gets going in a big way, and those who are studying the labor situation estimate it will be that long before an ample supply of laborers will be available. A sprinkling of families from down-state, where cotton gathering is now practically complete, had begun to show up as early as the first of this week. While there is a small percent of the cotton open there seems to be no doubt that if more pickers were available there would be more coming to the gins at this time. One farmer said he could house and get work for fifty or more pickers this week if he could get them.

Must Gather Carefully

Staple and grade are going to be more important to the grower this year than for several years past. Badly gathered cotton that is not a good length is going to have hard sledding on the market, there seems to be no doubt.

Yield estimates for the county as a whole vary greatly, and generally a forecast is based on an early or late frost. A late fall with colder weather closing in slowly will mean five thousand to ten thousand more bales in the total yield than if an early hard freeze hits. Remas also would cut total yields considerably. Estimates made for this newspaper, with few if any forecasts willing to be quoted, put the total yield for the season in the county all the way from 22,000 bales to 35,000.

New Legion Officers Installed Last Week By McDermett Post

In ceremonies last Thursday night, new officials of McDermett Post, American Legion, were formally inducted into office. J. M. Willson, committeeman of the Nineteenth District, officiating. Officers, elected were installed as follows: B. Nichols, post commander, J. C. Gilliam, first vice commander, E. L. Cornelius, second vice commander, E. C. Thomas, adjutant, T. P. Collins finance officer, Walter Collins, chaplain, Bill Johnson, sergeant at arms.

Meeting dates of the Legion are the first and third Monday nights of each month at 8 o'clock. "The new officers will appreciate it if the members will keep the dates in mind and assure a good attendance at all meetings," the new post commander said. Mr. Nichols is also interested in getting the Women's Auxiliary active once more.

ADD IMPROVEMENT TO HOME

Mr. and Mrs. W. A. Shaw have recently completed an addition of two rooms to their home on West Virginia street. The rooms are to be used as a new kitchen and a bedroom.

Floyd County Has 'Most Creditable Exhibit' At Fair

Floyd County had the "Most creditable exhibit" at the Tri-State Fair in Amarillo, so judged and announced late yesterday by the fair management.

This is the word D. F. Bredthauer, county agent, had from the fair authorities by telephone. Bredthauer placed the exhibit Saturday night, making an all-night stretch of it to complete his exhibit and have it in place Sunday morning at 6 o'clock, the first in the exhibit hall of county displays to be finished.

Jennings Wins, Too

Joe Jennings, of Lockney, was a winner with his prize Pepper Cotton in the competition at Amarillo. His entry of 3 pounds of cotton placed first in the show. Herman King, Lockney, won first prize field pumpkin. B. F. Colston's sugar beets placed fourth.

The exhibit placed in the agricultural hall also won several other smaller prizes which were not detailed.

Will Chart Water Level for Owners In Oil Test Block

Oil States Exploration Company To Make Information Available Here

Scores of holes punched in the earth to an exploratory depth of 185 to 215 feet in a block of 23,000 acres south and east of Floydada, covering portions of Floyd and Crosby Counties, will furnish valuable information to residents who may be interested in the depth to water in that area.

The information will be made available in the form of a chart and presented to the Floydada Chamber of Commerce for its files. F. P. Merry, of the Oil States Exploration Company, said this week. Levels at which water sands are being picked up in the hundreds of holes punched into the earth in the exploration company's seismograph tests will be told by this chart, which will be filed permanently for reference by the business men's organization.

"Meanwhile any land owners in the area who want immediate information on water depth on their lands can obtain this information at our offices second floor of the Kirk & Sons Building," Mr. Merry said. Twelve to sixteen holes are being punched for practically every section of land in the area, the "wells" going to the red bed where the dynamite blasts are set off, below caliche deposits. One to two stratas of water are passed through in every hole dug.

Small rotary rigs are being used, motor mounted, each rig drilling about two holes per day, the photographic crew following close behind to get their "shots" of the stratas of the earth below. Mr. Merry said he had no idea what story the completed "pictures" would tell the geologist.

Holds Tentative Lease

A crew of thirty-six men are carrying on the work for which the Seismograph Company, of Tulsa, Oklahoma, has the contract with Oil States Exploration Company for the seismograph tests.

Oil States Exploration Company has tentative leases on the land in the big block, which they will exercise or not by November 15. On that date the company must have spudded in a test for oil in order to make the leases effective. What they do will be governed by the story the seismograph tell. The seismograph test now under way was preceded by gravitometer and other tests.

Exhibits To Be Ready By Tomorrow

Ten Communities Signify Their Intention of Having Exhibits Ready

A. E. Miller, Judge

Texas Kidd Shows; Street Dance To Provide Entertainment

At least ten communities have shown their intention of entering the Floyd County Agriculture show that will be held Friday and Saturday here. There is a likelihood that several communities will have exhibits that have not notified officials.

All communities in the county have been invited to the affair and prizes have been offered by the Chamber of Commerce. The prizes are \$10 first, \$7.50 second, \$5.00 for third, and \$5.00 each for all other community entries.

Communities promising to have cultural ready are Sand Hill, Baker, McCoy, Allmon, Center, Aiken, Harmony, Muncy, Dougherty, and Campbell. Lakeview was undecided whether to enter or not.

Booths Ready

R. W. Cothern said Wednesday afternoon that the booths were ready for the exhibits. George Stiles of the Baker community will be on hand supervising the exhibits and to help any way he can.

Each community will be allowed to decorate and arrange their own booth as they like. There are no restrictions except that the booths should be ready by 9 o'clock Friday morning and leave them on exhibit until 5 o'clock Saturday afternoon.

The booths which will be placed in the Barrow building will be at a premium if all of the communities promising to bring exhibits do so. G. L. Sims of Lockney will have an individual exhibit and a number of other communities have given that plan some consideration. Therefore there may be more than one individual exhibit at the show.

McDonalds, Rutledges, Davis' In New Homes

The L. C. McDonalds, the O. P. Rutledges and the Lon M. Davis are in new locations this week, each calling a new place their residence after years of residence in their former locations.

Recently L. C. McDonald purchased the residence in which the Rutledge family made their home at 302 South White Street. The Rutledges in turn buying the house at 319 West Missouri, occupied a number of years by Mr. and Mrs. Davis.

Mr. and Mrs. Davis are making their home on South White Street in the 400 block, where they recently completed a garage and living quarters in which they will reside for the present.

Work Order Made For 207 Contract South from Floyd

Work order has been issued for construction to begin on Highway 207 south of Floydada, G. M. Garrett, district highway engineer, advised this week, but it is his idea the contractor will not get on the job until sometime in October.

Meanwhile WPA labor has been promised sufficient to get the road in shape for the contractor to undertake his work immediately that he gets on the job. Two bad places on the road, one on the north Blanco hill, make travel difficult over it, and the department is especially anxious to get them put in travelable condition at an early date so as to impede traffic as little as possible.

Local business interests who are anxious to compete for business south of the canyon have been watching the highway situation in that direction with some concern. However, a check up indicates that everything is being done by local authorities and the highway department to clear up the condition with indications that something will be done at an early date.

Clifford Golightly Hurt In Car Wreck Saturday Afternoon

Clifford Golightly, 21 year old son of Mrs. R. E. Golightly was badly injured, his right leg broken in the ankle joint and numerous other cuts and bruises received in a car wreck late Saturday afternoon near Abernathy. Two other boys from McLean, one of whom received a broken shoulder, were in the car and the driver of another car, whose name is not known, received a broken back.

The boys were enroute to Lubbock. The accident happened as they were attempting to pass another car meeting the third car head on. The injured were carried to Lubbock where they received first aid. Clifford was able to be brought home Monday but will be confined to his bed for some time.

Latest reports from the more severely injured youth was that he was still alive.

Dr. J. W. E. H. Beck, Health Work Leader, Visits Unit Offices

Dr. J. W. E. H. Beck, of the Texas State Health Department administration, Austin, Texas, whose official title is director of local services, spent one day last week-end here in conference with Dr. H. H. Puckett, district director of Health Unit No. 1. His visit here was a part of his routine of visiting the six new district units in the state, whose work was begun on September 1.

In a brief interview Dr. Beck said he found the work in this district well started, with staff organized and busy, "And everything okay."

Dr. Beck is one of the veterans in the public health service of the state.

MOSQUITOES AND SLEEPING SICKNESS

It is one of the possibilities, from a lay point of view, that the sleeping sickness epidemic among horse stock of the area is due to the mosquito.

One thing at least can be said, namely, that outbreaks of encephalomyelitis among horses has been practically coincident with a heavy increase in mosquitoes in this area.

MULES SEEM IMMUNE

A peculiar thing about the epidemic of sleeping sickness among animals is that mules appear to be immune to it.

It might be we just do not have our eyes open to the situation. Possibly there are mules a plenty with the disease.

THE RIGHT TO BE WRONG

Talk of the constitutional losses we have sustained in the United States reminds that, after all, they are largely of the straw man variety—the kind that looks way ahead and sees a man on a horse.

But that is quite another matter from individual and personal constitutional rights—things reserved in the bill of rights.

DON'T LEVY ANY TAXES

It ought to be worth \$150,000 to the people of Texas for a session of the legislature

that would refuse to levy any more taxes for awhile. The governor—who insists that taxes must be levied to meet a lot of expenditures voted by the legislature and the people—called the legislative session to meet Tuesday.

What we need to do is to look at what we have done. In our enthusiasm for the aged and the blind, the crippled and the judges of our courts and others we have arranged to spend more money than we have.

On the other hand, we also have levied taxes by the tens of millions. The state's tax bill will be so tremendous the average layman cannot conceive of the amount the State of Texas will spend in the fiscal year.

THE GOVERNOR CAN BE WRONG

Governor Allred falls into the error that every man does who has political aspirations, that is, of throwing somewhat of a cloud on the motives of those who have ideas other than his own, even though they may be persons who have supported and still support him.

The governor thought a year ago no more should be levied, but he has changed his mind. He evidently believes that all others should have done so, too.

The governor may be as right as right. We believe, however, that the best thing in the world the State of Texas could do right now would be to find out whether the people can pay the tax bills already levied, before we set up any more.

AGAINST THE SALES TAX

Fortunately, Mr. Allred is against the sales tax. Big Business is supporting it in this state because it would take the bee off their backs and put it on that of the consumer.

It is the angle of waste, of state's nosing into personal and private business affairs, of snoopers and inspectors tramping over the country stopping me and you from attending to business to give him a report, proving that the state has not been cheated out of eleven cents or whatever amount it may be.

Texas, we hope, is against the sales tax. Other states which had to adopt some means of getting funds with which to pay their bills in the depression, are growing restive under this tax.

"Live and let live," was the call of the old, when men pulled apart and when there was a cold chill in the heart of the race.

As A Farm Woman Thinks

Nellie Witt Spikes

Many pleasant sounds come to my ear this lovely September morning, as I sit in the shade of my arbor. It is made of thick vines of the silver lace with its foam of tiny white flowers.

It is hard to work when this beauty calls but I have moved my work, peeling luscious pears, where my eyes can feast on this glory.

I wish you could see the farm woman's store of canned goods. Jars, clear as crystal, reveal tempting things, peaches canned in their own sweet juice, bought from big orchards in the east part of the state.

Watermelon rind preserves, glowing with pale amber beauty. Stores of shiny tin cans holding peas and beans, corn and tomatoes stand in orderly rows on our shelves.

As the farmers made the crops of the fields and are preparing for the rich harvest, they have not neglected to fix the ground and plant the seed for the Lord's harvest.

Busy men, tired from the days work. Mothers with their boys and girls took time to go to the little country churches and hold revival meetings.

Floyd County should be proud of her rural districts. Courageous people men and women of high faith and character live on the county's broad farming acres.

WASHINGTON LETTER

BY SPECIAL CORRESPONDENT

WASHINGTON. — The nation's school children trooped back to classes this year with the question of future government aid for state and local educational programs still undecided.

There are indications that the next session of Congress may deal finally with the problem which was sidetracked by an economy drive in the recently concluded session.

Four years ago the cry "Schools out" went up, and it was evident that many communities could not hope to open their schools again unless help came from Washington.

The government has always assisted the states in a program of public education, at an average cost of \$20,000,000 a year before the depression.

At the last session of Congress, the Harrison-Pletcher-Black bill for placing government aid to education on a permanent basis was introduced and favorably reported by the Senate Education committee.

The measure proposes an original expenditure of \$100,000,000 for grants to states. This appropriation would be increased \$50,000,000 a year for four years, and after that would be stabilized at \$300,000,000 annually.

Criticism of the bill is directed mainly at the population basis proposed for the distribution of federal money. Objectors to this feature maintain that grants to states on the basis of child population, regardless of states' ability to support their own educational programs, would not eliminate the existing inequalities in educational opportunities.

When the bill was shelved, the President asked his special advisory committee on education to prepare a report for him before Congress met again. The committee was organized in September, 1936, to make a survey of vocational education.

Last April, at Mr. Roosevelt's request, the committee put aside its study of vocational education to consider the relations of the federal government to state and local conduct of education.

Several members of the committee are on record in favor of the Harrison-Pletcher-Black bill as it is drafted. Others, opposed to the population basis, will make substitute recommendations.

An official of the National Education Association, which is behind the bill, says, "the population basis is the only one for which the government can use its own figures."

This refers to the 1930 census, as average daily attendance or enrollment. He also says that "the only alternative is to use the figures submitted by the very person who would most benefit by what they get from the government."

It is expected, however, that early in the 1938 session the President will send a message to Congress creating permanent federal subsidies to keep the nation's schools open in good years and bad alike.

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

ISSUE OF SEPTEMBER 20, 1923

Maury Hopkins left cross country by auto for Oklahoma City this week, where he is making an exhibit at the Oklahoma State Fair opening this week.

The Floydada cotton market was wild Wednesday afternoon, although the primary market showed a remarkable recovery and advance from the losses of a 24-hour period, the local market was one better and "bulled" the market slightly.

The week closing tonight has been one of considerable rainfall over all of Floyd County, reports from every section indicating from 1 1/2 inches to 3 inches or more in the period.

A spiteful little hail and wind storm gathered over the Jonah M. Peak farm Tuesday afternoon and did five to ten bales of cotton damage in all to his cotton and to crops of J. R. Terry, Mrs. S. Carter, W. A. Cates and possibly others in the immediate vicinity.

Geo. A. Linder, chairman of the Home Service Section of the American Red Cross for Floyd County, has been named by the newly elected officers as delegate from this county to the national conference of the organization which will open in Washington, D. C. Monday next week.

Misses Ethel Houghton and Holm left Saturday of last week to enter school at the College of Industrial Arts at Denton.

Mr. and Mrs. B. F. Yearwood and their daughters Rebecca and Bob will leave tonight for Fort Worth where Mr. and Mrs. Yearwood will visit for a week or ten days.

Mr. and Mrs. O. B. Olson spent Monday in Lockney at the home of Mr. and Mrs. K. D. Middleton.

H. E. and W. I. Cannaday, accompanied by J. B. Jenkins, spent last Friday in Paducah, where the first named made a bid for the construction of the new \$80,000 school building of the Paducah School district.

It was at the lawyer's club banquet that an attorney told of wife feeding him canned beans five straight days before he gave up and demanded a change of venue.

Medicine Marshals Forces in Battle Against Infantile Paralysis Epidemic

MEDICAL facilities and knowledge of the United States and Canada have been marshaled to combat a mild epidemic of the dreaded infantile paralysis which annually takes a heavy toll among children just as they return to school.

With 5000 young victims already reported this year, mostly in the middle west, physicians concentrated on perfecting a zinc sulphate spray developed by two members of the Stanford University medical school staff and considered the most effective preventive thus far discovered.

Cooler weather, descending on Canada and northern states, was welcomed by the highly trained specialists enlisted in the battle. Statistics of the United States Public Health Service show that the number of cases declines each year as fall arrives.

Hospitals in cities hardest hit by the disease co-operated with the public health service in experiments to determine whether the spray, properly administered, is effective when used in mass treatment to fight epidemics.

Most notable experiments in that line were conducted in Chicago and Toronto. The health service sent teams composed of a doctor, nurse and clerk into the field to obtain accurate information on results.

MUNICIPAL and state officials took steps to guard against spread of the germ which physicians have found enters through the nose and throat, passes to the olfactory lobe of the brain and lodges in the spinal cord.

Opening of many public and parochial schools was delayed. Ministers asked parents to keep children under 16 from attending church and Sunday School. Wading pools were closed for the season.

Parents were warned to keep children from theaters and other crowded places. In Chicago, radio stations and teachers co-operated to conduct classes over the air.

Dr. Robert Olsson, assistant U. S. surgeon general, believes that the public health service has charted the pattern which the disease follows and that that knowledge will aid in the fight

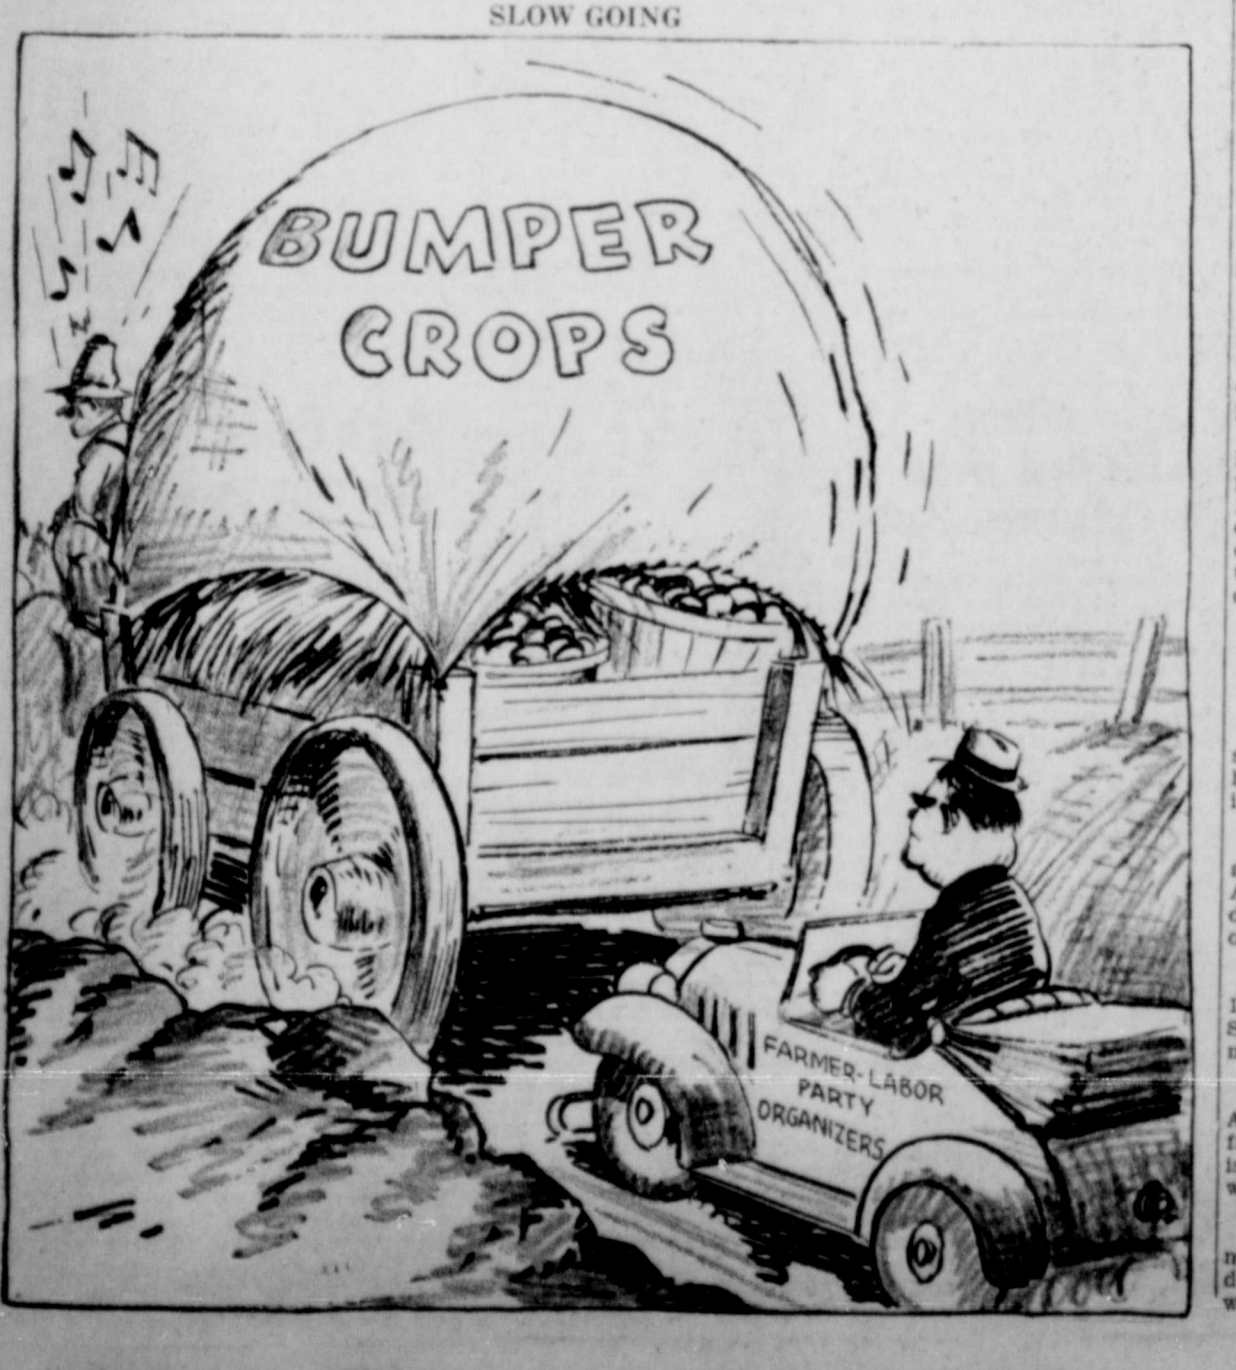

This bright-faced youngster was one of 5000 Toronto children who were administered a zinc sulphate nasal spray in the fight against a mild epidemic of infantile paralysis. The physician is using a special technique, necessary when spraying the germ attacks.

He said the disease prevails at a low incidence rate during the first five months of the year, then starts increasing gradually until it reaches a peak in late August. Recent years in which "mild epidemics" broke out were 1927, 1931 and 1935.

Early methods by which physicians tried to check the spread of infantile paralysis were the use of serum from the blood of persons who suffered from the disease and of vaccines made from the spines of infected monkeys. Both failed.

The solution developed by Bacteriologist Edwin William Schultz and Chemist Louis Phil Gebhardt of Stanford Uni-

Santa Fe Issued New Folder On Panhandle And South Plains Area

Prosperous Farm and City Scenes Shown; Wide Distribution Planned Among Settlers, Investors

The Santa Fe Railway has issued a new folder on the agricultural and industrial resources, history and development of the Panhandle and South Plains of Texas. The folder is illustrated with prosperous farm and city scenes and will be widely distributed among prospective settlers and investors, states M. C. Burdette, general freight and passenger agent.

The Panhandle and South Plains area, says the booklet in way of introduction, "is a new empire of 400,000 square miles. Fully 70 per cent of the land is adapted to agriculture. Fifty years ago cattle-raising began to find their way into the Panhandle and South Plains—not until about 1900 did settlers begin to make a living from the soil.

The coming of the railroads opened the door for development. What has happened since 1900 borders on the miraculous. Land that once was considered valueless for grazing and nothing more has become wonderfully productive under the plow—agriculture has become an important industry and has built the little cow towns into modern cities.

The Santa Fe built its Southern Cross Line into Panhandle City in 1887—and points with pride to the development that has taken place along its lines. It planned and built a net-work of lines over the Southwest Texas and connected the Gulf of Mexico and the Pacific Coast.—The Panhandle and South Plains have been placed by the Santa Fe in a peculiar advan-

tageous position as to markets." Concerning Floyd County and Floydada the booklet says: Floyd County. Population in 1930, 12,409, in 1920, 9,758, in 1910, 4,638; crop land in 1929, 358,715 acres, in 1919, 242,822 acres, in 1909, 73,265 acres; production in 1929, wheat 2,024,507 bushels, barley 44,672 bushels, oats 34,846 bushels, grain sorghums 344,052 bushels, Indian corn 4,133 bushels, cotton in 1931, 269 bales; chickens 114,616, and eggs 847,236 dozen all cattle in 1929, 19,260 head, milk cows 5,959 head, and on April 1, 1930, hogs 7,935 head, and sheep and lambs 6,689.

Floydada, the county seat of Floyd County, is the center of a rich farming and live stock section. Population in 1930 was 2,637, and in 1920, 1,384. It is a prosperous modern town with water works paved streets, electric light, telephone service, strong bank, live newspaper, many churches, good schools and business, social and fraternal organizations.

Among industries are one flouring mill, three cotton gins, one ice plant, four grain elevators, creamery and other industries.

BILLY NATION Announces Opening Of HOLLYWOOD IDEAL DANCE STUDIO Next Month—Watch for Date.

'Thin Blue Line'

W. H. Toms, above, 92-year-old Civil War veteran from Nevada, Ia., was one of only 200 rapidly diminishing members of the "thin line of blue" who marched again at the 57th annual encampment of the Grand Army of the Republic at Madison Wis.

B. Nations' Students To Have Opportunity To Appear On Screen

Hollywood Ideal Dance Studio Will Open Here Next Month

HOLLYWOOD, Calif.—(Special). Billy Nation the energetic Dance School operator of the Hollywood Ideal Dance Studios of Big Spring, Plainview, Odessa and Lubbock, has just signed a contract with the National Talent Pictures Corporation whereby he was granted the exclusive motion picture franchise covering cities mentioned.

The motion picture franchise guarantees Mr. Nation's schools that one or more of his students each season will be contracted for their appearance in one of the pictures to be produced by the National Talent Pictures Corporation in Hollywood which will be produced for International releases.

The pictures will be all star juvenile pictures in which juveniles of either sex under twenty one will be used.

Mr. Nation has returned to his home in Plainview after completing a trip to New York City and Washington where he attended the convention of the dancing masters of America and from there to Chicago where he spent two days at the Dance Teachers Convention.

While in Hollywood Mr. Nation contracted for two dance directors from the Major Picture Companies who will direct and teach the latest creative dance rhythm in his various studios.

The National Talent Pictures Corporation is headed by Carl Laemmle, Sr., who was founder and president of the Universal Pictures and who recently sold out his holdings in his company to the Capital Company from New York.

Mr. Nation was in Floydada last week making arrangements to open classes in Floydada next month.

Things are expected to pick up in District 4-B this week with the following games scheduled: Silverton at Matador, Lubbock B at Spur, Floydada at Plainview, and Estelline at Quitaque.

The winners should be Matador, Spur, Plainview, and Estelline. Jerry Malin picked Amarillo with the right score last week so I might hit all four but let's hope I miss on Plainview.

The fans that missed that Slaton game really missed seeing a Crowell beaten team come-back. That first quarter aerial attack was a whizz with more hair raising thrills in 15 minutes than has happened in a long time and remember that four pass completions out of five attempts... not bad for a green team.

The stubborn defense put up by the Whirlwinds the last three quarters was what won the game. Slaton made ten first downs in the last three quarters to Floydada's two but they collected only 6 points out of all that marching up and down the field.

A pass interception by Luder stopped a threat in the fourth quarter that looked like a scoring drive and from then on it was exactly five plays, four for the Whirlwinds and one for the Tigers.

It is being rumored around and told that Slaton played their B team. Someone was wrong for the inside dope is that three or four first string Tigers were out with injuries from the Olton game but most of the line and "number 77" in the backfield were first stringers. The others were the first string subs, so the Floydada victory wasn't a fluke.

Those boys were a happy bunch on the bus coming home and all were laying plans to mop up on the Plainview Bulldogs tomorrow night. On to Plainview.

SCRIBES LABEL LIDER 'FLOYDADA FLIER' AT B. U.

WACO, Tex. Sept. 20 — (Sp.)—Malcom Luder of Floydada, one of West Texas' contribution to the 1937 edition of the Baylor university Golden Bear football eleven has been showing rapid progress during the past few days and is making a bid for the backfield position left vacant by the graduation of the famous Lloyd Russell, singing quarterback. Luder, who has been labeled as the "Floydada Flier" by local sport scribes, is meeting opposition in W. J. Wimpee of Kaufman and Milton Evans of Brownwood. Luder will see plenty of action this season and has two more year of eligibility after this year.

GONE BUT NOT FORGOTTEN

A little voice is hushed, a little form is stilled; And hearts which once were glad are now with sorrow filled. God saw a little bud, one very sweet and fair. God needed Lonnie Ray in heaven, and so he took him there. Just a little flower of love that budded here to die. Gone now above, to live with Him on high. Just another darling angel before the heavenly throne. Left all his loved ones, to weep for him alone. Heaven has our treasure, and beneath the dirt the casket peeps. And the lovely flowers blooming where our little darling Lonnie Ray sleeps. He was so pure and sweet, his stay seemed but a day. Until the angel of death came and took our baby away. Just a little darling one beautiful and fair. God needed Lonnie Ray in heaven and so He took him there. The angel band was not complete. God needed Lonnie Ray to fill the vacant seat. Let not us weep dear lonely loved ones, for God's plans are always best. He has taken little Lonnie Ray for a long and happy rest. Death is not so awful if one is prepared to go. It must be very joyful, to leave this old world of sin and woe. Now let us prepare to meet him up in heaven above. To live there forever and rejoice in our Savior's love.

THIS IS US COMING BACK FROM OUR HONEYMOON

Mr. Frank Phillips, President, Phillips Petroleum Company, Bartlesville, Oklahoma.

Dear Sir:

It all started when I got something in my eye while we were riding with the top down.

It hurt and I cried and Harold—that's my husband—flared up and called me a cry-baby.

Oh, he's usually a Dear. But our engine was overheating and puffing steam like a peanut roaster. And such knocking, you never heard in all your life.

Well, I was practically frantic with my eye. I rubbed my good eye. I pulled the lid of my bad eye three times. I really tried everything. But no use.

Suddenly, of all the marvelous things to happen—right there, practically in the wilds of Wisconsin, I saw a gas station. Harold drove in, slammed on the brakes, and yelled to the man, "What have you got for cinders in the eye?"

As polite as could be, the man answered, "There's a big, well-lighted mirror in our rest room. Madam, and water and clean towels." And with that, he started cleaning the fuzzy spots off our windshield.

In a jiffy I had the black speck out, and what a relief! Harold felt so bad about being seen to the man that he bought some gasoline. By the way, he bought some Phillips 66. It was a Phillips 66 station and that's the reason I am writing to you.

Well, you never saw such a change in a car. It ran like mad. Cool as an ice-facial and as quiet as the girl who gave it to you. The motor purred and Harold grinned and says, "The sure runs okey-dokey on Phillips 66. Wonder where that Poly gas has been all your life?"

From then on, he was all smiles the whole trip. Every time we needed gas, we'd wait till we saw a 66 shield.

To make a long story short, from the time we started using Phillips 66 gasoline and motor oil, we had a perfectly marvelous trip.

In fact, we had such a swell honeymoon with Phillips 66 that I simply had to tell someone—and since you are president of the company I thought I'd write to you and you could thank that polite young man up in Wisconsin for starting us using Phillips 66 and oil.

It certainly saved us money and who knows, it may even have saved my husband's nose alimony! But seriously, we certainly are going to use Phillips 66—and nothing else—from now on.

Yours very truly,
(Mrs.) Jane

F. S. The snapshot is us coming back from our honeymoon.

COOK THE MODERN ELECTRIC WAY

Better cooking results is one of the most important reasons for buying any range. It is the BIG reason why we recommend a Westinghouse Electric Range. While you are away, it cooks a complete meal to a perfect goodness that the family will rave about. For example, shrinkage of meat is practically eliminated as the healthful juices are cooked IN and NOT evaporated. The golden brown cakes, pies, and biscuits are always a treat to the eye and the appetite. So, for goodness sake, cook with a Westinghouse Electric Range.

District President Urges Advance Plans for Entertaining P. T. Convention

Courage, Vision, Faith Stressed In Talk Here

"The table will be spread," said Mrs. W. R. Weaver, district president of Spur, as she spoke to the assembly of the first Parent-Teacher Association meeting held Wednesday afternoon at Andrews Ward School. "And it will be our own fault if we do not partake of the feast, when the District Convention is held in Floydada this spring. We are already at work on the program. You should begin now to make your plans for the entertainment of the convention visitors for it will be a greater task than you might think. But it will be the price for the seed that will be sown for the welfare of children should spring forth for many years to come. The District Conference will mean just what you want it to mean."

"Filling the Need" was the subject used by Mrs. Weaver as she spoke to the parents and teachers Thursday and she began by saying, "The pertinent question facing us is, where are we going as parents? We think we are interested in our children. Why sometimes when school begins we manage to take them to school or maybe we go into their room never to return again until school starts again, leaving it all up to the teacher to do the best he or she can. Sometimes I think we parents are just plain lazy."

"Children now days are prone to say they do not care anything about what happened 100 or 1500 years ago but history repeats itself and it is only by studying what has happened in the past that we can avoid the pitfalls of the future."

"When we are growing up we are trained and conditioned and it is said that the training a child gets during its first six years will determine its character. That may be true but as they grow older they need reconditioning." And she made the comparison with a highly polished floor, saying it needed reconditioning every now and then. "History equals distance plus variations and variations are the educational upheavals which we are undergoing. What we need is pioneering in character education, stressing again, courage, vision and faith."

"Consider The Needs
"As opportunities increase needs increase. Children want security. We need something to build to and something to build for. Children want the right to earn their living. Education is just that. It is something to build to. We need to raise the standards of the lower communities for at school children come into contact with all elements and it is to our interest to help our less fortunate neighbors. Consider the needs of Floydada."

"Democracy depends upon whether our children want it or something else. The parent-teacher movement is like a candle in the center of a room shining into all the dark corners."

New Officers
At the beginning of the meeting new officers for the year were introduced by the president, Mrs. Walton Hale, who is serving her second term as president of Andrews Ward Parent-Teacher Association. They are: secretary, Mrs. Noel Landers; treasurer, Mrs. A. B. Keim; vice-president, Mrs. A. N. Chiffon For Fall

Charming for fall formal wear is this white chiffon gown banded in silver sequins modeled by Betty Jane Clark at a San Francisco fashion show. Its graceful lines should make it popular with misses and young matrons.

Teachers to the P. T. A. program for the year. He said the school could use lots of good magazines even though they were old copies.

Objects of P. T. A.
Mrs. Noel Landers gave the following objects of Parent-Teacher Association: 1. To promote child welfare in home, school, church and community. 2. To raise the standards of home life. 3. To secure adequate laws for the care and protection of children. 4. To bring into closer relation the home and the school, that parents and teachers may cooperate intelligently in the training of the child. 5. To develop between educators and the general public such united efforts as will secure for every child the highest advantages in physical, mental, moral and spiritual education.

When the room count was made the rooms of Miss Maudie Meredith and Miss Ruby Norton tied for the attendance prize.

BAND MEMBERS AT P. T. A. DEMONSTRATE INSTRUMENTS

At a meeting of the Parent Teachers Meeting held at the Andrews Ward school building Thursday afternoon, an interesting demonstration of band and orchestra instruments was presented.

Mr. Grummish told about the different instruments and solos were played by several of the band members as follows:

Piano, Sappho Ward; violin, Muriel Pagan; clarinet, Olin Watson; saxophone, Doris Collins; trumpet, Mr. Grummish; piano accompaniment, Sappho Ward.

The purpose of the demonstration was to get pupils interested in a beginning band and orchestra in the ward school. Classes on the various instruments will begin as soon as possible.

Parents interested in having their children take band or orchestra work should contact Mr. Grummish.

On The Garden Path AT THE FLOWER SHOW

I saw her there, her hat a rusty black. Her dress much worn, a look about her back. As if she had bent often with a hoe Above a garden walk where flowers grow.

Her wrinkled hands bore traces of her toil. One sensed she was acquainted with the soil. Or had been once. She stood with eyes aglow.

The only drab thing in that splendid show. Scarce breathing-lost in wordless ecstasy Before a mass of bloom, a flowering tree.

A splash of gorgeous red geraniums. A bowl of gold and white chrysanthemums. Gay gladioli climbing up their stem. The shooting starlets of the cyclamen.

She found the ones for sale, a brilliant lot. Each miracle held captive in a pot. She fumbled at her worn purse, paused and thought.

A long computing time before she bought. And then, her worn bill spent, she clasped her prize.

A look of eager gladness in her eyes. The light upon her face so radiant. The room seemed strangely duller when she went.

Scout Troop 58 Reorganization Is Planned Here

Leadership Training Course Is To Be Held In Floydada October 17 and 18

Reorganization of Troop No. 58 of the Boy Scouts was decided at a meeting of the Board of Directors in the office of H. Henderson, Tuesday afternoon.

The organization set-up for the reorganization was completed and plans made for the enrollment of boys in the fall. F. R. Yeakley was selected as master with W. F. Newsome as assistant scout master.

The training course will be conducted by Marvin English, chairman; L. Norman, G. T. Young and Vernon Shaw.

The first meeting of the troop will be held at the Church of Christ on Monday evening 7:30 p. m. Any boy who desires membership in the troop should be present and bring the registration fee of fifty cents, Yeakley's fee of one dollar.

Plans were made for this group to attend the training course October 17 and 18.

Leadership Training Course Is To Be Held Here Oct. 17-18. F. R. Yeakley was selected as chairman of a Leadership Training

course committee to be selected by him. At a meeting held in the Chamber of Commerce office Monday night. The dates of October 17 and 18 were set for the training course which will be an over-night troop camping course. Every man may bring one boy as his guest.

Possibilities of organizing a "cub pack" for boys 9-10 and 11 years old was discussed but it was decided that the organization would be deferred until the scout troops were further advanced.

Finance Campaign Planned
Plans were made at the Monday night meeting for a council wide finance campaign to be held here October 18. J. C. Gilliam was selected as finance chairman and will select the committee that will work with him.

Maiodorant In The Gas Lines Arrives Here Wednesday

Sniffing for gas leaks will be the order of the day for the next few days in Floydada. The melodiorant in the gas promised by the West Texas Gas Company reached the city mains Wednesday afternoon. It was placed in the mains near Plainview Tuesday but did not reach here until the gas ahead of it was used.

Only four leaks had been discovered up to this morning and none of them were serious. In all four cases the leaks had to be found by using soap suds on connections as there was not enough gas escaping to burn.

The melodiorant will be very strong when there is a leak so small that it cannot be found except by careful examination of connections by applying soap suds and watching for bubbles.

This use of a warning odor is expected to prevent accidents to a great extent caused by leaky connections. The burning of the gas destroys the "bad odor and leaves no trace of it in the air. Only the unburned gas will have the smell.

NAZERENE CHURCH ANNOUNCEMENT

PROTECTIVE EQUIPMENT FOR FOOTBALL SQUAD IS BOUGHT WITH LIONS FUND

Business men of the community responded liberally to an appeal last week-end by a committee of the Floydada Lions Club for funds to purchase needed protective equipment for the Floydada High School football squad, a report last week indicated.

\$78 was raised and turned over to the athletic counsel for the purchase of the equipment. Judge L. G. Mathews headed the committee, the other members of which were Clinton Pyffe and Bill Daily.

Study Code of Ethics
Thursday's program hour of the club, in charge of Roy Eubank, was given over to a study of the club's code of ethics. Rev. Vernon Shaw, Judge L. G. Mathews and County Attorney Winfred F. Newsome talked on the code, which was divided into three parts for the purpose. An "auction" of hats preceded the formal program. Spirited bidding followed early sluggish response to the auctioneer's offers when Claude Hammonds, named for the auc-

ioneer, used a big pair of scissors on the first hat or two on which he did not have satisfactory offers.

ON GOING TO SCHOOL

Do you wake up about 8 o'clock or just half wake up and wash your face, swallow your breakfast while you wait for the bus, grab your books, and rush to school? Do you arrive breathless, pant to your first period, take deep long sighs answer no questions, think of the night before, dream of the days to come and build air castles only to let them fall when the bell rings?

This is no way to do! Do you not have to spend hours and hours in school? Think how much better it is to plan your work. First, get up early enough to dress properly and slowly and get plenty of time to get to school. Be ready to start the classes when the bell rings. Keep your mind on the lesson. Try to reason out the teacher's questions—then listen when you answer correctly. The best way to plan for a future is to prepare your self now to be a part in those air castles.

Don't forget what you learned when the bell rings. You might be able to use this knowledge again. Suppose you don't like the subject? Why does Popeye eat his spinach? Because he likes it or to make him strong? Many people think you will grow a little if you will eat a question? Had you rather go to detention than answer it? Hadn't you rather stay before a class than in the afternoon in the same room with the teacher's eyes glued on you?

Which is your preference—passing a six-week exam taking a final exam? Which do you like—minutes or lectures?—Just a matter of opinion, you say. The teacher unfortunately has to be the opinion. They prefer the student who likes.

Why don't I practice what I preach? I am trying to will you! Let's bring up our general average this year.

This new Senior girl comes from North Plains. She has red hair, hazel eyes, and is five feet, four and one half inches tall. Her favorite sport is tennis, favorite study, typing, and her favorite color is blue. She likes P. M. S. real well. She is Mary Jo Horn.

Lena Mae Nelson is from Lakeview. She has light brown hair, dark brown eyes and is five feet, four and one half inches tall. She likes tennis and English. She likes our High School "Ten".

Dorothy Hodges comes from Lakeview too. She has dark brown hair with reddish tint in it. She is 5 ft. 4 1/2 inches, tennis is her favorite sport, and foods is her favorite subject. She likes the color blue, especially and likes high school very "pretty good".

Library assistants to Miss Wolfe were selected this week. Those who wished to help in the library during off periods were asked to submit their names. Qualifications of the various applicants were diligently compared, and then the choice was made. Good grades, number of subjects taken, and ability of student to maintain order, etc. were among the points considered.

The following students were selected: First period—Jewell Hennessee, Vera Lela Stanley, Margarette Leonard, second period: Leeman Norman, Frances Williams; third period: Juanita Luttrell; fourth period: Edna Mae Smith, Edna Mae Griffin, Frances Hamilton; fifth period: Gladys Beckland, Iris Moore; sixth period: Virginia Belle Womack; seventh period: Ina Ruth McCada, Adeline Foster.

The library is in fine condition this year. Thanks to Mrs. Pyffe and Mrs. King who worked during the summer months arranging and labeling books. The books are in good condition, and the library in good form. Now it's up to the students to keep it that way. This week a letter was sent off for new books and magazines that will make our library of greater use to the student body. We are proud of our library, and our new librarians. We are going to do everything we can to make work in the library pleasant as well as enlightening.

Home Ec Girls Study List Of Rules That Should Be Observed At School

Interest in Home Economics has been greatly increased with the study of personal grooming in clothing and good manners in foods. A number of demonstrations were given after each phase of grooming was studied. Some of them were at the home of the girls, hands and nails. The food girls chose a number of rules that should be observed in school by everyone. They are as follows:

1. Be on time.
2. Enter side of room nearest seat.
3. Move quietly.
4. Be attentive.
5. Do not whisper, fix hair, read, or eat.
6. Do not turn to see someone come in.
7. Do not applaud too much.
8. Do not leave until program is over unless it is necessary.
9. In The Hall:
 1. Keep to right.
 2. Avoid collisions.
 3. Push nicely and quickly.
 4. Do not block passage way.
 5. Do not shout to a person.
 6. Do not drop clothing of another at the coat racks.
10. Allow teachers to go first.
 1. Keep halls clean.
 2. In the classroom:
 1. Keep belongings together and neat.
 2. Go to your seat immediately when entering your room.
 3. Do not borrow from a person unless you ask them.
 4. Leave teachers' belongings alone.
 5. Do not abuse text books.
 6. If teacher is not in the room when the bell rings, a student should check roll.
 7. When reciting, stand up and speak clearly.
 8. Do not raise hand until speaker has completed.
 9. Do not make fun of others' mistakes.
 10. Close doors quietly.
 11. Clean shoes before coming in room.
 12. Be loyal to school and school activities.
 13. Do not chew gum at school.
 14. Do not detract the attention of the class.
 15. If you misbehave, errors do not have at him.
 1. If a loser—be a good sport.
 2. Shake hands with opponents after game or debate etc.
 3. Be honest and play fair.
 4. Do not gloat over winning.
 5. Have sympathy for classmates.

Band Notes

New March Books arrived last Friday and band members have taken an added interest in their work. Rehearsals now begin at 1:30 a. m., the extra 30 minutes affords a better opportunity for marching practice and individual work when needed.

The Orchestra will soon have a prominent part in musical activities. The Orchestra is having some difficulty getting music, but like the band, will soon get into full swing. Orchestra rehearsals will be held at 7:15 Monday thru Thursday.

Band Plays For Chapel
The band furnished music for the chapel program last Thursday. It was their first appearance this year. After the musical program Mr. Davis made a number of announcements concerning our school. One to drive slower. There are so many school children hurt each year in our state, that he urged each person who drives a car to be careful so no one here would be hurt. The library assistants were announced. These are high school boys and girls who are juniors and seniors. Mr. Davis mentioned how important it is to make good grades especially during the last year.

The programs for chapel this year will be worked out and each club will be responsible for one program during the year.

LA RUE WILLIAMS HONORED WITH BIRTHDAY DINNER

Mrs. L. A. Williams entertained her daughter, La Rue, Sunday, September 19, with a birthday dinner, at her home in Harmony community. Those enjoying the lovely dinner were: Margaret Hale, Jewell Hennessee, Rada Mae Gary, and the honoree, La Rue Williams.

Sappy Sayings

Genial, how could you not be so much? And because you? We don't even like them.

Chant, or is it Clyde, we admire you for it. Just let us and we'll give you a great museum, I bet.

Edna Grimes says "Oh, don't get anything on me."

Edna says "I'm so careful how you get to school. Sometimes it might be better to walk."

Edna Virginia gives up the ghost? Who says Miss Ade for Miss Cade? all on account of a sure stroke? Edna says are you sure it was a sure stroke?

Kene, you have a hard time figuring out who's youngest, don't you?

Wonder what "they'd do to us if we cut classes like some do?"

The better keep quiet, if you don't want to read everything you see in the paper, blame it on the reporter is best and ponder.

Two junior boys were out hunting for the daisies last Thursday night. But the ones they hoped to find daisies were daisies.

Some people have to go to Guatemala to have fun. Guess who?

I really couldn't determine who wanted to have pep rally the worst last Thursday night. It seemed that everybody wanted to have it. Well, unless something happens we will have pep rally tonight.

Edna, nah, nah Whirlwinds. That was some grand playing at Slaton. Remember, we want some more playing like that, when we play Paintview Friday night.

What football player especially enjoys the words "Our most beloved football captain?"

We are informed that Mr. Stockard's picture is mauling business. It seems that Dora and Mary Frances spent their time taking snap shots.

Miss Copeland, we hear you are quite afflicted about a certain person.

What is this club called Triple "M" between a certain bunch of junior girls. Don't say we can't wrap. Very secretive what?

Oh, so we are getting a stinging tonight at Bobby's shack.

Kay, we hear you just "arr" camp.

Thomazine really stepped out Friday night.

We were really planning to dish out the dirt on James Gibbs but we received a nice little bribe so we will refrain this week anyway.

What four girls head a council meeting Friday afternoon?

The freshmen class is the largest class in school next to the junior class. The larger the better you know.

Did someone say the paper staff had a hot feud on. Gee you are not only kidding. We ought to know speaking from experience.

How could Mr. Stockard just un-motagely up and leave us with broken hearts.

Phillips is one of the most popular kids I ever saw. Bet Adrian couldn't compete.

Well, we see the trio is still up to its ancient tricks. That couldn't have been the sweet strains of "Were Did You Leave Heaven" in the auditorium Monday could it?

Was the purse brown or blue? Leeman, just how big are you, cowboy?

Boys, oh boys, do I dread Home Ec initiation.

Dorothy Dell don't let your "Legs" run away with you.

Why did Bobby, Eggs, and Sappie particularly want to go to Slaton Friday night? Was there someone there, someone wanted to see?

We are wondering where Miss Copeland got all those new freckles and when.

The sun goeth down and ye old scribble goeth out.

Hoping you are the same.

Hit Of The Week

"Don't You Know Or Don't You Care"

Don't you know or don't you care? That I'd follow your heart to heaven knows where? Even though I'm one of many, if dreams really come true I know there won't be any, only we two.

I love you so, you can dance on my heart. I won't let you go. You're my dream of a wonderful future, you're my castle in the air. Don't you know or don't you care?

Biology Class

The biology class of this year really sounds interesting. A flower show to begin with, and later on, field trips. The class plans to visit the flower show in town Friday. There are some fish in the biology lab.

Soon the new equipment will be in accompanied by some white rats which will be used for experiments. Different diets are to be tried on the rats. Here's to the new classes and their teachers.

POST GRADUATES

We have back with us this term a number of last year's graduates. They are taking special courses and subjects that they especially need. Among these post graduates are: Harold Brown, Martha Lee McCleary, Muriel Fagan, Alva Rawlings, Betty Newell, Modelle Haney, and Fredrick Dillard. We are glad to have you and any others whose names might have been overlooked, back with us in our school to help carry on and to make our school a bigger and better success.

J. G. Stockard Resigns As Commercial Head In The High School

Commercial Department Head To Accept Position on Railroad Retirement Board in Washington

Mr. Stockard, head of the commercial department, is leaving us. However, I guess we can't blame him as he is getting a much better position. He is to work for the Railroad Retirement Board in Washington, D. C. This is a Civil Service job which offers a better chance for promotion. It is a permanent job. This seemed to be a rather hard matter for him to decide to go or to stay. He even stated that he had a headache for two days trying to decide the matter.

He deeply regrets to leave Floydville. He says the people are very friendly and he likes High School.

We can't express our appreciation to him in words, but we hope he knows our feelings toward him. Everyone seemed to like him very much and his classes were one of our favorites.

To The Students and Faculty of Floydville High School:

I take this opportunity of expressing my personal appreciation for the courteous cooperation extended to me by each of you during my last employment in your school. It is with extreme regret that I have found it advisable to tender my resignation—to accept a civil service position in Washington, D. C.

On October 4, I shall become an employee of the Railroad Retirement Board in Washington. My resignation shall not be effective until my present position in Washington, D. C.

On October 4, I shall become an employee of the Railroad Retirement Board in Washington. My resignation shall not be effective until my present position in Washington, D. C.

I hope for each of you a most profitable school year.

J. G. Stockard.

F. F. A.

The F. F. A. now has a group of officers in each class. The regular F. F. A. officers will be helped by the two first year class officers. The officers of group number one are Jack Craft, president; Dillon Patterson, vice president; Clarence Woodard, secretary; Truman McGarry, treasurer; Jewel Elm, reporter; Melvin Phillip, humorist; and Jack Smith, watch dog. In the second group Leland Woodward was elected president with Elmer Norval vice-president; M. C. Puga treasurer; LeRoy Channing secretary; Gilmer Deaton, reporter; James Turner, Parliamentarian; Walter Goodjohn, humorist; and Bill Ferguson, watch dog.

The Floydville F. F. A. is planning to go to Lorenzo to initiate the green hands in the Lorenzo chapter and in exchange have the Lorenzo chapter come to Floydville and initiate the Future Farmers of the Floydville chapter. J. D. Strickland is the Vocational-Agriculture Teacher at Lorenzo.

In completing plans for their projects Hudson Holmes and Leland Woodward have purchased Purebred Chester White pigs.

Several other boys are planning to buy purebred Poland China and Chester White Gilt and Barrows. Those who made plans to feed lambs are Wilson, Bood and Billy Daniel. Plans are being made for the purchase of several other hogs and lambs for feeding purposes. Other projects include poultry, Dairy Calves, Cotton, Milk and Wheat.

Josephine Waller Honored At Weekend Activities

Vera Carter, at her home in the Starkey community gave a party Saturday night, September 18, in honor of Josephine Waller.

Whirlwinds Whip Favored Slaton Tigers 14 to 6

"First Defeat On New Home Field" A Slaton Football Fan Said After Game

The Floydville Whirlwinds opened up on the Slaton Tigers with an aerial attack in the first quarter. Friday night that kicked two scores in nearly five minutes. McClung and Smith headed goal after each touchdown to build the score up to 14 to 0 at the end of the first quarter.

A fierce running attack in the second period kept the Whirlwinds in steady retreat. The Whirlwind team wall, and backfield was smacked with all of this quarter and the Slaton Tigers, aided by the Slaton ball carrying of Alvin Brelby, scored from the 15 yard line. A line smash failed to add the extra point and the scoring was ended for the night.

The last half was a purely defensive battle for Floydville and a long series of first downs without pay for the Tigers. Making no attempt to score via the air the Whirlwinds converting Tiger fumbles in their own territory and after line backs looking it back into Slaton territory.

A determined Slaton scoring drive was tipped late in the fourth quarter when a Tiger forward pass was intercepted by Lader on his own 15 and returned it to the Slaton 20. Five plays later the game ended. Orman, right end for the Whirlwinds scored both touchdowns. One was on a pass from McClung and the other on a pass from Smith, both were caught across the Tiger line.

We've got a school.

We've got a jail.

We've got a team that fights like... Yeah, team fight.

Station	Statistics	Floydville
1	First downs	3
2	Forward passes	2
3	Completions	4
4	Incomplete	1
5	Interceptions	1
6	Punts	3
7	Extra points	4
8	Fumbles	2
9	Recovered	3

Slaton's punts averaged about 20 yards. Floydville's about 15 yards. The touchdowns passes were each used about 25 yards.

The officials were Neddy (Slaton) referee, Davis (Texas A & M) lineadmen, and Oga Cannon, umpire.

The Floydville starting line up was James Wilson and R. E. Colquhoun; halves, W. H. McClung, fullback, George Lader, quarter, S. Hollingsworth and Y. K. Orman, ends; Moody Williams and Lavon Rafter; tackles, L. B. Martin and James Gibbs, guards, and Robert Montgomery, center.

Green Peppers

Last week the Floydville Whirlwinds beat the Slaton Tigers 14 to 6. The three pep leaders, Ira Moore, Virginia Bell Womack, and Marguerite Leonard, were all present. The pep squad did not get to go to the game. Friday afternoon before the boys left for Slaton, the pep squad gave them a send off in front of the high school building.

Friday night the whirlwinds will play the Plainsville Bulldogs. The pep squad is going and intend to put all they have in their yelling. Come on Whirlwinds and do your stuff.

We've got a school.

We've got a jail.

We've got a team that fights like... Yeah, team fight.

School News
The Intermediate room taught by Miss Roy presented the chapel program for Friday. A playlet "The Discovery of America," which was both interesting and historical, was presented. "Dust Covered North Western Texas" was sung by Marshall Langford. The audience sang "America," and "Old Black Joe." This was the first time that the new song books had been used in the chapel program and everyone enjoyed using them. We appreciate the generosity of the Lockney merchants for making it possible for us to have these books. The program for next Friday will be presented by the high school room. Chapel visitors were Mrs. W. M. Sammann, Mrs. Berry Hooten, Mrs. Ed Shearer and Mrs. Wallace. We hope others will form the habit of attending our chapel programs.

The high school rooms organized a club recently which was named the C. W. S. (Correct Speaking and Writing). The purpose of this club is told in the name. The following officers were elected: president, Margaret Horton; vice-president, Aileen Taack; secretary, Warren Graham; program committee, Mildred Shearer, Charles Ziegler, Ruth Feagan. The club will meet once a week during English period.

A Good English Club was organized in the intermediate room. The following officers were elected: president, A. J. Felty, vice-president, Harold Reese; secretary, George Robert Chambers, program committee, Shirley Jo Moreland, Tommie Felty, and Marshall Langford. The club will meet every Wednesday at the second period. We hope we will have some visitors to attend our meetings occasionally.

Challenge Windmills Satisfy

-- A Mill That --

Runs in the Lightest Breeze

-- Outstanding Features --

- BRONZE BEARINGS** are optional at a lower price than Timken Bearings and will give complete satisfaction. They will not crack or break if lubrication fails for, by a special patented process, they contain 25-35% oil reserve.
- OIL BUT ONCE A YEAR.** All mechanical parts are fully enclosed in a protective metal helmet which cannot be penetrated by rain, snow or dust. A few minutes' attention once a year keeps the mill running in tip-top shape.
- SEMI-STEEL CASTINGS** are used for extra strength. They will withstand the strongest winds and add years to the life of the mill. Eliminates constant calls for repair or service men.
- BALL BEARING TURNABLE** allows mill to turn easily upon its axis with even the lightest wind. Made of hardened steel to prevent undue wear. Fits Challenge tower caps on all types and sizes of mills.
- MULTIPLYING SPRING GOVERNOR** has won Challenge the name of "the perfectly governed mill". It automatically controls the mill in the strongest winds and allows it to do a maximum of work in ordinary winds.
- TWO GEARS AND PINIONS**, made of semi-steel for extra strength and running in oil, insure equalized load with differential action. They are strong, sturdy and quiet in operation.
- HEAVY METAL SLATS**, beaded on both ends and near center, give the wheel additional strength and prevent crystallization. They are set at just the right angle to provide maximum power and efficiency.
- WHEEL SECTIONS.** Each section of the wheel is attached to a heavy, flat steel arm. These arms are double and have extra wide spread at their base where they are fastened to the spider and nose piece. 13 inches on the 8, 9 and 10 foot sizes. This makes an extra strong brace for the wheel from both directions.
- On the 6, 8, 9 and 10 foot mills we use a 1/2 in. plunger rod, 2 inch mast pipe and bronze bushing on all vane hinge pins. All mills have adjustable strokes. Compare these features with any other make and you will find why the CHALLENGE is the better buy.

Apple Tree, Twelve Years Old, Bears Big Crop Of 'Delicious'

Geo. F. West, suggests that instead of planting non-fruit bearing trees around the yard and the tank dam on Floyd County farms, it would be better to plant fruit trees. His observation was approved a visit to The Hesperian office last week-end with several big apples taken from a twelve-year-old Starks Delicious tree that grows on his tank dam. He had no idea how many bushels of apples the tree will produce before all the crop is gathered, but the samples were taken from a tubful gathered that morning.

Big orchards of fruit trees in this section may prove disappointing on most farms in this section, but Mr. West said that fruit trees planted around in corners in the backyard and around would prove of considerable satisfaction and the source of much fruit as the years go along, besides furnishing shade.

The apples he brought in were well colored, had the true Delicious shape and were fine large specimens.

no water; who brought thee forth water out of the rock of flint;

16 Who fed thee in the wilderness with manna, which thy fathers knew not, that he might humble thee, and that he might prove thee, to do thee good at thy latter end;

17 And thou say in thine heart, My power and the might of mine hand hath gotten me this wealth.

18 But thou shalt remember the LORD thy God: for it is he that giveth thee power to get wealth, that he may establish his covenant which he sware unto thy fathers, as it is this day.

19 And it shall be, if thou do at all forget the LORD thy God, and walk after other gods, and serve them, and worship them, I testify against you this day that ye shall surely perish.

20 As the nations which the LORD destroyed before your face, so shall ye perish; because ye would not be obedient unto the voice of the LORD your God.

Time and Place—Same as last lesson.

If the lesson appears to be insistent to the point of repetition on the need for religion in a nation's life, we can only point again to the attitude of people today who make this repetition so necessary.

There are solemn words of warning spoken here. Beware, says Moses, of forgetting God and failing to keep His commandments, lest when soul and body are surfeited with ease and prosperity, and the hearts of men are lifted up with a feeling of their self-sufficiency and a forgetfulness of the dangers through which they have been led, destruction come upon them.

The temptation of a people to national pride is very deep. We are apt to say that what we have achieved was through our own might and power. We are apt to become complacent and Pharisaic when we think of the wealth that we have created, and we are apt to forget that these things could never have

been done by ourselves but for the resources of nature and the powers and resources of God.

Moses instructs the people to remember that it is God who gives them power to get wealth, that without God they are nothing, that everything they think, and do, and say, depends upon Him.

How strange it is that men will not heed that solemn warning, so strongly enforced in the experiences of life! When a man has forgotten the pit from which he was digged, he is in danger of falling into the pit again. When a man has become proud of himself and of what he has done, he is in danger of having it all undone.

What men and nations build for themselves does not always make

them great. The nation that is self-satisfied and vainglorious has cut from beneath itself the very foundations of true progress and betterment.

How can we apply these things in our modern America? How can we make real to our people the vivid teaching concerning the things that make a nation great, and the things that in a nation's apparent greatness may bring it down to ruin if truth and righteousness and justice and mercy be forgotten or disregarded?

Moses laid all the emphasis upon human values. He was a far-seeing prophet in setting the social welfare of the people above all considerations of profit or gain. His own unselfish devotion to his peo-

ple to the disregarding of personal interest was to him the very essence of a well-ordered society. We modern America have a great deal to learn from Moses.

FHA LOANS

The Cheapest and Easiest way Ever Arranged For Owning A HOME

The FHA loans are payable in monthly installments, and these monthly payments take care of interest, principal, taxes and insurance.

Interest, Principal, Taxes and Insurance on a \$2000. FHA Loan will cost about \$25.00 on the loan pays out in full in 10 years. For a longer period the monthly payments are less.

Homes that would carry a \$2000 loan are now renting from \$20 to \$25 per month, and rents are on the increase.

Under these conditions it would appear very profitable to many now renting to buy or build a home. FHA Loans made by this bank.

Floyd County Schools Promised 'Cut Back' Items In 36-37 Grant

Floyd County schools are to receive the major part of \$1,771,000 asked for by High School superintendents and the County Superintendent, Walter Travis, when they met the Investigating Committee of the State Legislature in Austin last week, according to information given by Mr. Travis this week.

Mr. Travis asked for \$1,021 additional transportation aid; J. W. Jones, superintendent of Lockney schools asked for \$400.00 High School Tuition aid; and A. D. Cummings, superintendent of Floydada Schools asked for \$350.00 High School Tuition aid. These amounts had been cut back from the grants of 1936-37 but the committee indicated they would pay the amounts or the major part of them by October 1, said Mr. Travis.

Mr. Travis, Mr. Cummings and Mr. Jones were in Austin from Wednesday of last week until Friday.

9-Cent Loan

(Continued from page 1)
cents per pound will be made on cotton classed thirteen-sixteenths inch as to staple and middling or better in grade. Thirteen-sixteenths inch staple under middling in grade is not eligible for a loan. The term "middling or better" the Commodity Credit Corporation states shall include only the following grades of cotton:

White standard and extra white; Middling fair, strict good middling, good middling, strict middling and middling;

Spotted: Good middling, spotted; and strict middling, spotted.

That the agreement between the government agency and the producer of the cotton is a practical guarantee of a minimum of nine cents per pound for cotton that comes within the grade stipulations, seems well agreed among ginners and bankers who have studied the loan plan. The section of the loan agreement which indicates this paragraph 8.

It will be seen from this paragraph that the grower who borrows money under the loan plan will be very strongly obligated to go along with any plan that may be worked out as to cotton production in the country next year.

Money Will Borrow
First indications point to the probability that a very large per cent of the cotton growers in this area will borrow under the plan.

Whirlwinds

The Plainview line will average 174 pounds to the man and the backfield will weigh 159 pounds to the man on an average. That is compared to the Floydada line average of 151 pounds to the man and 146 pound per man average for the backfield. The Whirlwinds will be giving away 23 pounds per man in the line and 13 pounds per man in the backfield.

Vaughn, fullback for the Bulldogs, does the kicking and passing, while Quarterback James, the fastest man on the squad, does the ball carrying. Crossland and Needham and James are the pass receivers. The ends are expected to deal out the greater part of the trouble for the Whirlwinds.

HALLS AND COVINGTONS ENJOY MOUNTAIN TRIP
Mr. and Mrs. R. P. Hall and Mr. and Mrs. F. M. Covington returned Monday from a trip to the Rocky Mountain states of New Mexico, Utah and Colorado, which they thoroughly enjoyed.

Wonderful scenery, good crops, fine peach trees overladen with peaches and a very interesting tour are reported by R. F. Hall of the party.

Jim Willson Gives Instructions In Rotary Wednesday
Jim Willson instructed new Rotary member, D. F. Bredthauer, in Rotary in the regular Rotary Club meeting held Wednesday at noon. The program was in charge of N. W. Williams.

Judge Payne gave a talk on "World Affairs of Today."

The out-of-town visitors present were Alton Chapman of Spur and J. W. Jones of Lockney.

Special guests were Miss Fannie Mae Rees, Miss Weatherford, John H. Myers, and O. E. Davis, all of the Floydada Public Schools.

exhibit which will feature terracing and self-feeders for live stock. This will be an educational exhibit and will not be awarded a prize.

County Agent D. F. Bredthauer has announced that A. E. Miller, extension agronomist from College Station, will be the judge of the exhibits and will award the prizes and premiums. The judging will be held Friday afternoon.

R. W. Cothern, secretary of C. of C. has asked that he be allowed to take the best from the exhibits, here and put it in the Floyd County exhibit which will be moved from the Amarillo Tri-State Fair to the South Plains Fair which will be held in Lubbock next week.

Street Dance Planned
Entertainment for the two day show will be provided for in a big way with Texas Kidd's shows in town. The shows are not the ordinary "rattles" but have a number of good "rides" and shows that are worth the money. The main feature of Texas Kidd's show is a rodeo featuring good riding and in some cases very bad riding when the "bucking" is rough.

The Floydada theatres will provide a variety of good shows both on Friday and Saturday for "them what want to see and be comfortable."

Cothern announces that plans are on foot to throw the biggest "Street Shin-dig" that has been thrown in a long time. Break-down music will be provided and the dancing will be free to all that care to participate whether it is square dancing or modern dancing. "The idea of the street dance is to show everyone a good time," Cothern said.

DISTRICT COURT SESSION OPENED MONDAY IN BRISCOE
Fall term of the 110th Judicial District Court for Briscoe County opened in Silverton Monday of this week with District Judge Alton B. Chapman of Spur, District Attorney John Hamilton of Matador, and Court Reporter R. P. Stovall of Floydada attending.

District Attorney Hamilton said the Briscoe County grand jury recessed Tuesday night without having returned any indictments.

Mr. and Mrs. H. A. Dyer, of Carnegie, Oklahoma, spent the week end with their son, Bill Dyer and family.

School News
School opened last Monday with nine pupils present and a record attendance of parents. Mrs. Blanche Rutherford of Floydada, the new teacher, made a nice talk to pupils and parents. Several of the parents responded with short talks.

A P. T. A. will be organized at an early date. Visitors present for the first day were Mrs. Chester Bean of Burleson, Mr. and Mrs. R. S. Moore, Mrs. W. S. Poole, Mrs. J. P. Bradford and little son, Pat, Mrs. Tom Jackson and little daughter, Esther, Miss Delzie Bradford, and Mrs. Tom J. Boyd and young sons, Tom Brooks and Bill David.

Following is the enrollment by grades in school: Second grade; Sammy Bradford and Junis Robnett; Third grade; Bradley Boyd, Eual Bradford, Betty Sue and Sibyl Roe and Suddeth Moore; Fourth grade, Kenneth Poole; and Fifth grade, J. W. Jackson.

Locals
Young Dr. Warren B. Poole who has been visiting his parents, Mr. and Mrs. W. S. Poole, has returned to Oklahoma City where he is working and studying as interne in the St. Anthony Hospital. He is enthusiastic about his work, particularly some of his most recent operations.

Tom Boyd is in Deaf Smith County looking after wheat interests there.

Miss Catherine Fogerson had as her guests Sunday her mother, Mrs. F. W. Fogerson, Miss Eunice Fogerson and Cap Felton, all of Floydada.

F. M. Dougherty, who has recently returned from his home in Tucson, Arizona, is looking after wheat interests in this and adjoining communities.

Mr. and Mrs. Chester Bean and daughter, Annie Sue, who have been visiting in the home of his sister, Mrs. W. S. Poole, have returned to their home in Burleson Texas.

J. W. Jackson, Tom Jackson and Mr. and Mrs. Mack Jackson are wheat farming in Deaf Smith County.

Visitors in the Tom J. Boyd home last week were John L. Tippet of Ft. Worth, J. W. Boyd and Donald Davis of Lubbock.

R. L. Graves of Hereford was in our community on business Monday. He reported the birth of a son, Mrs. Graves and baby, in the Hereford Hospital, are doing nicely.

W. S. Poole and Frank Dougherty made a business trip to Hockley County Tuesday.

Mr. and Mrs. W. E. Rucker and family have moved to the Pleasant Hill Community. Although that isn't far away, we regret losing them from our community.

Mr. and Mrs. Bob Robnett and children, Junis and Louise, and Miss Catharine Fogerson were Matador visitors Sunday.

Mrs. Virginia Scott has returned from visiting relatives and friends in Floreola.

Several of the young men of our community are engaged in wheat sowing in Deaf Smith County. Among them are Claude and Tiny Woody, Dick Smith, Charlie Crews, Talmadge Lynch and Willard Edwards.

Mrs. C. A. Caffee of Dougherty was a visitor in our community Wednesday.

exhibit which will feature terracing and self-feeders for live stock. This will be an educational exhibit and will not be awarded a prize.

County Agent D. F. Bredthauer has announced that A. E. Miller, extension agronomist from College Station, will be the judge of the exhibits and will award the prizes and premiums. The judging will be held Friday afternoon.

R. W. Cothern, secretary of C. of C. has asked that he be allowed to take the best from the exhibits, here and put it in the Floyd County exhibit which will be moved from the Amarillo Tri-State Fair to the South Plains Fair which will be held in Lubbock next week.

The Floydada theatres will provide a variety of good shows both on Friday and Saturday for "them what want to see and be comfortable."

Cothern announces that plans are on foot to throw the biggest "Street Shin-dig" that has been thrown in a long time. Break-down music will be provided and the dancing will be free to all that care to participate whether it is square dancing or modern dancing. "The idea of the street dance is to show everyone a good time," Cothern said.

DISTRICT COURT SESSION OPENED MONDAY IN BRISCOE
Fall term of the 110th Judicial District Court for Briscoe County opened in Silverton Monday of this week with District Judge Alton B. Chapman of Spur, District Attorney John Hamilton of Matador, and Court Reporter R. P. Stovall of Floydada attending.

District Attorney Hamilton said the Briscoe County grand jury recessed Tuesday night without having returned any indictments.

Mr. and Mrs. H. A. Dyer, of Carnegie, Oklahoma, spent the week end with their son, Bill Dyer and family.
