FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, MARCH 24, 1938.

NUMBER 6

Sixty-Fivers Want State Wide Set Up

Letters To All Sections Of State Invite Similar Groups To Form

Puckett President

Ant Officials Who "Will Not Dodge Plain Intent Of Constitution"

Floyd County sixty-fivers are ready to put all their effort behind their declared plan of getting the aged in Texas. They so declared in their meeting in the district court room here Saturday afternoon, when a crowd from all portions of the county that practically filled the spacious auditorium, formed the Floyd County Old People's Good Government Association, deploring the attitude of the state that refuses to look upon its aged as "bills" but instead upon paupers to be treated as such, and indicated their intention of carrying the fight all parts of the State of Texas. H. P. Puckett was elected permanent chairman of the association and W. W. Deen secretary, with A. L. Barton, J. N. Johnston, W. J. Myrland, N. T. A. Byars and J. H. Shurt as directors.

Floyd County Old People's Good Government Association will hold its next meeting on Saturday of this week at the district court room in Floydada on call of the president. Further discussions of the "unreasonable and unfair rules and regulations of the state to many worthy and eligible" persons will be had, and a report given on the progress in the intervening week of the association's efforts. The hour for the meeting is 2 p. m.

"We want a real and honest administration of the laws of this state and one that does not dodge the plain intent of the constitution," Mr. Puckett, chairman of the association said. He called attention to the fact that the law-makers and office-holders readily found means by which to pay their increases in salaries. "But what about the old folks who spent their lives making Texas what it is today?" he asked.

State Meeting Vindicated
By-laws and rules adopted include, in addition to the usual officers and directors, a provision that the organization "support such men for office as will pledge themselves to support measures that strictly conform to the expressed will of a majority." (See Sixty-Fivers, back page)

Montgomery Number 1 Drilling At 4,090 Feet

Still 1,000 feet short of the original depth the Blanco test, Montgomery No. 1, continued drilling operations this week with little or no delay. The bit was cutting at 4,090 feet late Wednesday afternoon. The depth when the "jinx" struck was 5,062 feet. Hope was expressed that no further delay would be encountered.

MISS RUBY HARRISON ON ALL-COLLEGE B. B. TEAM AT T. S. C. W.
Victorious over all opponents, the basketball team of which Miss Ruby Harrison of Floydada is a member recently won the all-college title at Texas State College for Women. A freshman majoring in home economics, she is the daughter of Mr. and Mrs. J. M. Harrison.

Cotton Quota For Floyd County Is Announced By AAA

Cotton quota for Floyd County and other counties in this area were announced Friday by the state agriculture adjustment administration headquarters at Texas A. & M. College. Floyd County was placed in District 1, North, with a quota of 50,474 acres. Briscoe was given a 23,740 acre quota, Hale, 68,925 acres, and Gwisher 8,077 acres. Lubbock County, in District 1, South, was allotted 159,322 acres. Crosby, 93,296. Motley County, in District 2 received a quota of 44,926 acres. Apportionment of acreage within the county will begin soon it is expected although no exact statement has been made on the question.

Floyd County Landowners Form Game Management Demonstration on Caprock

Teeth Saves Son

When 2-year-old John Shaon fell into a 25-foot well at his farm home near Fulton, Mo., his mother, Mrs. James L. Shaon, 22, jumped in after him. Disabling her arm in the fall, she managed to hold him above the water line by hanging on to his overalls with her teeth, until an aged relative summoned help half an hour later. Mother and son are shown standing on the well covering after the rescue.

New Homes, Farm Betterments Mark First Half Of '38

Building Materials Trade Enjoys Boom Business In Floyd County

Scores of Floyd County homes have been re-built or remodeled in Floyd County in the period since early last fall and a check of building trades activities in Floydada this week indicates that the activity is gaining momentum rather than seeing a let-up.

In fact, the survey shows that not only are old homes being remodeled, re-roofed, re-painted, but that numerous new homes also are under construction. Some of the new homes now under construction in the county are the following:

E. C. Hayden of Campbell; J. M. Harrison, of Lakeview; W. N. Norman, Dougherty; L. A. Caliborne, Sterley; re-modeling and making addition; Floyd Trowbridge, Harmony; R. E. Young, South Plains; A. S. Mize, Cedar; Robt. Hinsley, Dougherty; Robt. Muncy, south of Floydada; Menard Field, two rent homes, South Plains; Jno. A. Lloyd, south of Floydada, re-building; Clarence Guffee, re-building.

In Floydada four new homes have just been completed and this week construction is under way on the new home of Mr. and Mrs. J. C. Covington in south Floydada. Construction of the residence-type building for M. B. Martin on South Third Street, which will house a self-serve laundry, will be finished this week, it is expected. Three churches have been remodeled and re-roofed in the county during the recent weeks. They are the McCoy Baptist Church, the Carr's Chapel M. E. Church and the Aiken M. E. Church.

AUTOMOBILE REGISTRATIONS AHEAD OF THOSE IN 1937

Reports from the tax assessors' office indicate that automobile registrations for 1938 are slightly ahead of the registrations for the same date in 1937. Tags have been issued for the past week in Lockney and no check has been made on the number sold so figures given are inaccurate.

According to available figures 695 passenger, 121 farm, and 128 commercial tags have been issued in Floyd County for 1938.

ALEXANDERS LEAVE TODAY FOR THREE-WEEK TRIP

Mr. and Mrs. C. Alexander are leaving today for a trip of some three weeks down-state, planning to spend several days at Hillsboro, their former home, visiting and looking after business. Later they will go to the Rio Grande Valley and other points in South Texas before their return home.

J. A. Taylor Of Quitaque Elected President Of Organization

A game management demonstration comprising 42,832 acres of land has been organized by some 24 Floyd County land owners, it was announced this week. A definite wild life program has been adopted to replenish the land in the preserve, which is located along the rim of the Caprock in the northeast section of the county, where years ago there was an abundant supply of wild life.

Officers of this organization are J. A. Taylor, Quitaque, president; Carl Daniels, South Plains, vice-president and J. C. Bolding, Floydada, secretary-treasurer. The deputy game warden for this area are Troy Taylor, Quitaque; W. M. Randolph, Lockney, and Joe W. Smith, Crosbyton.

In making a preliminary survey of the present existing game in this area it was found that we have 1910 Blue Quail; 1540 Bob White; 14,200 Doves, 394 coyotes, 220 raccoons; 1-355 skunks; 119 badgers, 4250 ducks; 200 bryant; 161 opossums and the streams were estimated to have 2800 fish, ranging from 1/2 pound and up.

From this survey it was noted that the predatory animals were far too many and measures are being taken to eradicate these animals as fast as possible.

The streams such as Quitaque Creek and Blanco Canyon with other small streams will be stocked to cropping and perch. A demonstration will be started to introduce beaver along the isolated places of these streams. Several more pheasant demonstrations will be started this year. It is interesting to note a demonstration of this kind. It was started some two years ago by John Lewis, Floydada. Occasional you can catch a glimpse of these beautiful birds scampering through the underbrush. This demonstration has proven it possible to raise pheasants in this area. Prairie chicken demonstrations will also be introduced. A short time ago a consignment of wild turkey was brought in for demonstration purposes. Six owners have made application to purchase quail at the demonstration.

This demonstration has not the idea to boycott hunting all together it is only trying to encourage more and better hunting and to preserve some of the wild life, which once roamed this area in abundance. (See Game Preserve, back page)

Mrs. C. R. McCollum Died Early Saturday

Prolonged Illness Takes 40-Year Resident of Lockney; Funeral Held Sunday

An illness of several months early Saturday morning resulted in the death of Mrs. C. R. McCollum, of Lockney, a resident of Floyd County since 1898, at the age of 76 years. Funeral rites were held Sunday afternoon from the McCollum home in Lockney at which Elder J. E. Black, of Plainview officiated. Interment was made in Lockney Cemetery.

Surviving are her husband, five sons and three daughters. The sons are Geo. T. and A. R. Meriwether, of Lockney, the latter mayor of the city; Alvin McCollum, Kress, C. B. McCollum, Amarillo, and Dr. C. J. McCollum, postmaster at Lockney. Surviving daughters are Mrs. Louetta Tanner of Clayton, New Mexico, Mrs. Daisy Hadley, Lockney, Mrs. Maud Whitley, Pasadena, California. A sister, Mrs. Mary Blackwell of Lockney also survives. All the children were at home for the last rites except the daughters living in California and New Mexico.

A deceased son, James Meriwether, was once mayor of Lockney and three other sons, Claude, Newton and Phelix McCollum, and a daughter, Mrs. Victoria Martin, of Plainview, also preceded their mother in death.

Mr. and Mrs. McCollum and their family moved to Floyd County in 1898. Last fall the couple observed their fiftieth anniversary. A native Texan Mrs. McCollum, whose maiden name was Mattie Hill was the daughter of a former sergeant-at-arms of the House of Representatives at Washington, D. C.

Four sons, A. R. and Geo. T. Meriwether and O. R. and C. J. McCollum, served as pallbearers at the funeral rites. Flower attendants were Zorah and Catherine Meriwether, Effie Sherman, Melba Eiland, Louetta Black, Martha Meriwether, Lucille Hadley, Alva Jo McCollum, Evelyn Beth, McCollum, Kessie, Ila Ruth and Ruby Doris Yates. Descendants of Mrs. McCollum include several grandchildren, great grandchildren and one great grandchild.

Expanding WPA Program For County

Road Work In Precincts One And Two and Sanitary Project Soon

Widen Roadways

W. E. Burke, District Supervisor, Anticipates All Will Have Jobs

Plans are being made to meet the broadening demand for jobs in Floyd County, with the cessation of temporary employment that for many months had relieved WPA rolls of a large per cent of able-bodied men.

Tom W. Deen, county judge, last week announced receipt of advices from W. E. Burke, district supervisor of WPA work, that the sanitary project would be resumed in this county on April 1, and suggesting that landowners who want work done by the sanitary crew contact the lumber yard with which they usually do their trading or leave orders temporarily at the office of the county judge.

Broaden Lake Fills

The sanitary project will provide employment, it is thought, for a number of persons who are not physically able to take employment on roads.

With the completion of work on Blanco Canyon hill of Highway 207 scheduled for April 1, A. S. Cummings, commissioner of Precinct One, said an additional program of road work in the precinct has been set up, which, with the work going on in Precinct No. 2, will absorb practically all WPA labor in the county and provide jobs for several weeks. Approval has been given by the District WPA office to the work of widening the roadbeds on three lakes in the vicinity of Floydada, two of them immediately south, two and three miles respectively, while the third will be done first according to present plans.

These two jobs will be followed by a road widening program on the Sand Hill road, on which a lake crossing will be widened also. A stone and mortar protecting wall on each side with an elaborate set of drainage ditches to turn water from the roadway, is being completed on the north hill of Blanco Canyon with the WPA labor available, when the last work on that project will have been finished and the route given to the highway department for continued maintenance.

In Precinct Two

In Precinct Two similar projects are under way. Probably the biggest of these is a road widening job east and west for seven miles on the road immediately south of Providence school, 100-foot right-of-way is being provided by the landholders and Commissioner Harris is supervising a job of making an excellent dirt road.

Northeast near Sterley and southwest of Lockney are the other two projects that have official approval and will be given attention before the project is finished. Supervisor Burke, of the district office, said recently he had been very well pleased with the type of projects sponsored in this county.

Robert Warren Has Narrow Escape From Gas Asphyxiation

Robert Warren, 14-year-old son of Mr. and Mrs. Homer Warren, suffered a narrow escape from gas asphyxiation Saturday morning while taking a bath.

According to information Robert went to his bath about 11 o'clock, his mother could hear him singing for awhile but after a time she noticed that he was silent. After calling once and receiving no answer, she became alarmed and went to investigate and found her son unconscious. In some manner the stopper had been kicked or pulled out and the water had escaped preventing any possibility of drowning.

NEW FOREMAN

Vernie Elliott, formerly connected with Triangle Garage, has assumed the position of shop foreman for Bishop Motor Company, it was announced this week by J. B. Bishop. Bishop said that Elliott had a great deal of experience with Ford automobiles and power plants. The job was left open last week when Frank Keith, former shop foreman, found employment with another company.

First Events Of County Interscholastic League Meet Scheduled Saturday

Scholastic, Track and Field Events Scheduled For April 1 and 2

Preceded by play-offs between schools of the county this week-end in play ground ball and tennis, Floyd County's annual interscholastic league meet will be held on Thursday night, March 31, Friday, April 1, and Saturday, April 2.

J. W. Jones, superintendent of Lockney Schools, who is director general of the meet, announced the program the latter part of last week, which follows the general arrangement as to events of former meets. Gradually widening scope of the interscholastic league's activities have made necessary the completion of basketball play earlier in the year and playground ball and tennis, formerly played during the meet in recent years is being scheduled ahead of the regular features to give contestants in these sports an opportunity to complete their schedules. Similarly choral singing and declamations in high school divisions have been scheduled again this year on Thursday night, preceding the beginning of the regular Friday and Saturday contests.

Following is the program as released by Mr. Jones:
Saturday, March 26
Play Ground Ball — High School Ground.
Tennis—High School Grounds.
Thursday Night, March 31, 7:45 p.m.
City Auditorium.
Choral Singing.
Class A High School Declamations in the following order: Junior Girls; Junior Boys; Senior Girls; Senior Boys.
Friday, April 1
Grammar School
8:30—General Registration, room 101.
9:00—High School Spelling, room 206.
9:00—6th and 7th Grade Spelling. (See Interscholastics, back page)

Funeral Services For Jewell Muriel Mooney Held Tues. Afternoon

Funeral services were held Tuesday afternoon at the First Methodist Church for Jewell Muriel Mooney, 16-year-old daughter of Mr. O. R. Mooney and Junior student in Floydada High School. The Rev. Jno. E. Eldridge officiated at the rites.

Miss Mooney was born in Oglesby, Texas in Coryell County Jan. 1, 1922 later moving to Floyd County with her parents. She died Feb. 21, 1938 in a Plainview sanitarium after a brief illness. She was a member of the First Methodist Church, having joined that organization in 1931.

She is survived by her father and step-mother, Mr. and Mrs. O. R. Mooney, and Rex Mooney of Los Banos, Calif.; Robert Lee Mooney, Bird Terrell Mooney, and Joe Beth Mooney, all of Floydada; two uncles, W. C. Mooney and Carl Mooney, both of Floydada; two grandmothers, Mrs. N. E. Mooney of Oglesby and Mrs. J. W. Draper of Waco.

Pallbearers were Elmer Biggs, Adolph Burgett, W. C. Boren, C. W. Denson, Malvin Jarboe, and Edward Wester, all schoolmates of Miss Mooney.

Flower attendants were Misses Winifred Hodge, Edna Mae Griffin, Jaunita Luttrell, Frances Daniels, Nittie Craft, and Frances Williams, schoolgirl companions of Miss Mooney. Out-of-town friends and relatives present for the services were Mr. and Mrs. John King and family of Oglesby, Mrs. Dovie Brown of Fort Worth, and Elmo Montgomery of Oglesby.

Favor AAA

Farmer John Sutton, of Fulton County, Ga., scratched his head and wondered if he had marked his X in the right square in the cotton marketing quota referendum in which a majority of 2,000,000 farmers voted to apply federal marketing quotas to the cotton and tobacco sales for 1938. The vote was conducted in 20 states by the Agricultural Adjustment Administration.

County, District Trustees Will Be Named On April 2

Three County and Many Common School District Trustees To Be Elected

Preparations are being made by officials for the annual school trustee vote in Floyd County school districts, falling this year on Saturday, April 2.

With one or more trustees to be elected in every common and consolidated district in the county, two at Floydada and three at Lockney, there are additionally three county trustees to be named.

A successor for J. W. Howard as trustee-at-large must be named, and a successor for Ed Durham in Commissioners Precinct No. 3 and R. C. Smith in Commissioners Precinct No. 4, all of whose terms expire.

In Floydada district terms of M. L. Probasco and Wilson Kimble expire, the hold-over trustees being Mal Jarboe, J. B. Turner, W. G. Collins, Dr. C. M. Thacker and Robt. Medlen.

In Lockney district the terms of John Hodel, R. T. Spence and Hugh Carroll will expire, hold-overs being Robt. Smith, Jr., A. P. Barker, S. G. Miller, and R. E. Patterson.

Box Supper Dates Set By Liberty, Starkey This Week And Next

Box suppers and candidate speaking dates have been set by Liberty school district and by Starkey school district, it was announced the first of this week.

The Liberty date, announced by Miss Mattie Taylor, is for tomorrow, (Friday) night, March 25, to which everyone is invited. Candidates will be given an opportunity to make their announcements.

On Thursday night of next week the Starkey date is set, at Starkey school house. The date is March 31. Candidates are expected to be present and present their claims for office at the box supper.

Floyd County Promised Military Type Horse

A stallion of the government army type will be located in Floyd County for the first time in a number of years, according to plans made last week, when Marvin Shurbet, on one of the Stringer farms was promised one of the horses, which will be here for this season.

The horse will be used for breeding polo and racing stock, Shurbet said. With the placing of a horse on a farm the government, according to Mr. Shurbet, agrees to take any horses at a set price which meet specifications for the requirements of the army.

Tenth PTA Conference Plans Ready

Fourteenth District Texas Congress Parents Teachers To Gather Here

April 8-9

Committees In Floydada And Lockney Plan For Big Attendance

Two weeks in advance of the coming on April 8-9 of the tenth conference Fourteenth District, Texas Congress of Parents and Teachers to Floydada, local plans have been completed for the entertainment of the guests and the stage all set for the convention.

Conferences last week between Mrs. W. R. Weaver, of Spur, district president, Mrs. Walton Hale, president of the local P. T. A., and committee women, resulted in the completion of the formal program and its distribution throughout the district to organization presidents and district leaders.

Theme of the convention is to be "New Frontiers in Education," and the Saturday morning session on April 9 will see seven of the leading educational leaders in this section in a symposium on Modern trends in education.

Plans for three luncheons and for other entertainment have been made. At high noon Friday a chuck wagon feed courtesy of Lions and Rotary clubs of Floydada will be the feature with Mesdames Roy Snodgrass, A. B. Keim, B. K. Barker, Cecil Hagood, J. C. Wester, Claude Martin as hostesses.

Friday evening at 6 o'clock the visitors will journey to Lockney where a buffet supper will be served in the high school gymnasium, courtesy of the Lockney Parent-Teacher Association, with Mesdames Frey, Whitfill, Wilbanks, McCollum, Woodburn, Barker, Ford, Floyd, Barker, Maggard and Campbell as official hostesses.

Music is stressed in the entertainment program throughout, and Friday night's program when Dr. Thos. H. Taylor addresses the assembly at Floydada High school auditorium, three mother singer or— (See P. T. A., back page)

Washington Report Gives Floyd County 32,705 Bales In '37

According to the final cotton production report for the 1937 crop announced in Washington this week Floyd County raised 32,705 bales of cotton on a total acreage of 89,000 acres or 36 bales per acre.

Lubbock County led all Texas counties with a production of 162,448 bales on 225,000 acres of land or 72 bales per acre.

Production in other counties surrounding Floyd was Briscoe, 11,474 bales on 32,000 acres; Crosby, 88,189 bales on 120,000 acres; Dickens, 37,290 bales on 75,000 acres; Hale, 49,522 bales on 85,000 acres, and Motley, 24,507 bales on 55,000 acres.

ON HUNTING, FISHING TRIP

Tate Jones and O. G. Glassmoyer are in Louisiana this week where they are on a fishing and hunting trip. They left Saturday and will spend most of their time in the vicinity of Many.

Operators License Must Be Secured On Out-of-State Cars

Drivers of automobiles bearing license of other states, such as Oklahoma, New Mexico, or Kansas but which are regularly operated on Texas highways in Texas must have operators, or drivers license issued in Texas, Jack Reeves of the Texas Drivers License bureau announced Tuesday morning.

There are a number of residents, Reeves said, in Floyd County and nearby counties who moved from other state here, but who have out-of-state tags on their cars. These persons are warned to get Texas drivers license as soon as possible because such a license is required if the automobile is regularly operated in Texas. Persons who have lost or misplaced their license may receive duplicates from the bureau if they will make application to the inspectors which are here each Tuesday morning, Reeves said. It is a violation of the state law to drive without a license even if one has been obtained.

DIVERSIFICATION MADE DIFFICULT

One of the shortcomings of the farm aid plans that have been in operation and of the one being put into operation now, is that diversification of effort on the farm is discouraged.

How organization gets things done is illustrated in this particular. Dairy farmers of the north and middle west have seen to it that their interests are protected in this new law.

ANSWER THE ELDERS THIS

The many excellent men who man our governmental departments in Austin and elsewhere do not have a very satisfactory answer to the ironic suggestion of the aged in Texas that ample means were found to pay the increases in salaries voted the governor and other officials.

Of the things that stick in the craws of the elders one is that they are not classed as "folks" but as paupers to be dealt with as paupers.

IF WINTER COMES

The railways and the railway brotherhoods sowed a wind and now the whirlwind is being reaped. Destitute railways—more than 30 per cent of them in receivership—are imploring financial help of any kind.

Trying to escape constantly increasing freight rates and reduced service that went with and immediately followed the war, business big and little including farmers, were responsible for the position the truck has taken in the transportation field.

SPRINGTIME ON THE FARM

10 cents each to 30 cents a dozen in Floydada, resulted in cattle in Floydada this morning on the market ready to sell in the morning.

We are ready to believe the railways are not misrepresenting facts. They are going broke if some change is not effected. But the change that should be made for the good of all is to remove the hobbies instead of putting on more hobbies.

Important-minded men in Washington and elsewhere by the thousands, of whom you've never heard but whose salaries you pay and whose bureaucratic orders have helped to ruin the railroads, would pooh-pooh this idea.

SPRING IS HERE

Spring is here officially. It arrived on the wings of time Monday morning, and wheat men especially, gardeners and orchardists incidentally, are hoping the elements take cognizance of the calendar and act accordingly.

The weather fixers and those who go by the signs have their predictions crossed. Early April should see a heavy freeze mixed with some other kind of weather says one.

MR. ALFRED NOT TO RUN

Mr. Alfred has in mind not to run for the third term for governor. He announced this Saturday night in a radio talk, which indicated that for one thing many "unjust criticisms" have gotten under his hide.

NO MORE FIGHT

(Cal Huffman in Eagle Pass Daily Guide) When I pick up one of these rapid, watery little sheets, mine included, which come under the general classification of the country press, I mourn for the fearless journalism which has gone glimmering into the past.

No wonder the highly-touted power of the press came in on a flat tire in the last big presidential campaign! How can we decide elections if we don't say anything about the issue or the candidates except what comes to us in frank envelopes or paid over the counter?

Our editorials, if there are any, are wanted for courage—we're afraid to take a stand for fear of being on the losing side. We take our public, like the mule, to the trough of editorial opinion and then can't make him drink because there's nothing to invite interest.

Maybe life has become so complex we editors can't figure it out for our readers. But the fundamentals are still there: politicians thirst for power, whether for good purposes or bad. In either case, democracy loses. Better to have poor government and a free people than a powerful government and an enslaved people.

God helps those that help themselves—the government doesn't.

As A Farm Woman Thinks

NOTE: WILL SPIES

Wasn't yesterday, Sunday a beautiful day? Of course the wind got a little high but the sun did not show. Our young preacher, Bro. Woodrow Williams, preached such a fine sermon on faith, and he sang the sweet old hymn, "My Faith Looks Up to Thee."

Grandma Littlefield and Aunt Polly as we call her looked mighty sweet to me at church yesterday. Love and friendliness shown from her sweet face. Her beautiful christian life makes us think of sweet flowers giving beauty and fragrance to the world, and of a lighted candle in a tiny window on the plain, lighting a way for a cheering light to the tired traveler.

Last week the postman brought me so many nice letters. One from a woman in New York, state "Milk cows," she writes, "will here for \$100 to \$150 a team of horses sold for \$400 to \$500. We are only getting 40 cents a bushel for potatoes, our main crop."

Mrs. John Lettrel wrote an interesting letter from Okla. California, a letter from my sister and one from my boy, another from my husband's sister in Los Angeles, California. "Why don't you come out and visit us this summer," she writes. "And for once in your life, see something!"

From a Call to Holy China. "The best organized relief camps in China twice daily serve a mixture of rice and ground soy bean together with turnip or cabbage soup to which has been added bean oil. Ninety cents will buy this food for one person for a month. On many camps a soup paste is given to the starving people."

Oh, let us pray and work for peace. Peace, first in our own hearts, in our own homes and neighborhoods, peace in our country and nation.

Do children ever play, "Little white house on the hill," any more? Oh, "Well over the river," and who remembers saving coupons from Arbuckle's coffee? The premiums took three weeks to come from New York, was it not?

Walter Newell tells the amusing story of the early days. "Cowboys were named with a herd of cattle. It was a very cold night and the boys had turned about sleeping in the saddle house. "If there's a cook was lying in the floor and a cowboy came in the cold house," he said, "Boss, put some of that coal here."

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

ISSUE OF MARCH 2, 1924

The Floyd County School Fair and Interscholastic Meet will be held in Lockney Friday and Saturday, April 4 and 5, and plans of the county fair directors are to have it one of the biggest and best the county has ever held.

The Floydada Concert Band will be giving public concerts soon, director Theo. Colburn told the members of the Chamber of Commerce at their meeting Friday night. The membership is working hard, the instrumentation is good and things generally are now favorable toward the band.

P. C. Harmon reported for the committee having work of making improvement on the Floydada Cemetery Chapel that the plans outlined by his committee had met with the approval of the citizenship apparently and the funds necessary to make the improvements contemplated had almost been raised.

R. C. Henry resigned this week as agent at this point for the Gulf Refining Company and E. E. Randsom has been appointed as the agent for the company here. Mr. Randsom has disposed of his interest in the P. & B. Electric Company to E. O. Pose, his former partner, and will devote all his time to the Gulf interest.

Among the new homes started or under construction this week in Floydada is that of John A. Holman, who has started a residence on lots at the corner of Mississippi and Second. J. E. Bartley is also building a home on West Crockett Street which is nearing completion.

WASHINGTON LETTER BY SPECIAL CORRESPONDENT

WASHINGTON — The old war between public power and private utilities has broken out again, with the TVA project as the scene of the latest battle.

Personalities make the war more colorful than ever. Most active among proponents of public power is Senator George Norris, popularly referred to as the father of TVA. He is the only one most anxious to see that his body is not too severely speckled.

Arthur E. Morgan, chairman of the TVA, is the most responsible for bringing on the present feud. His charges of dishonesty and mismanagement on the part of fellow directors Morgan and Littlefield — so far unsubstantiated — were responsible for the present unfavorable publicity. Some most violently antipathetic to the project have gone so far as to compare the allegedly mismanaged TVA to the Tweed Ring scandal.

The split among the directors first came to public notice in the summer of 1928, when Chairman Morgan told President Roosevelt that he would resign if Littlefield was reappointed. Littlefield was reappointed, but the only action Morgan took was to become more strident in his condemnation of the other two directors through magazine articles and public statements.

This is one of my favorite poems. The Little Town of Texas. The little town of Texas, The little town of Texas, The little town of Texas, The little town of Texas.

The little town of Texas, The little town of Texas, The little town of Texas, The little town of Texas.

The little town of Texas, The little town of Texas, The little town of Texas, The little town of Texas.

The little town of Texas, The little town of Texas, The little town of Texas, The little town of Texas.

Don't worry about what you are thinking about you, for you are not thinking about you, for you are not thinking about you.

The American people believe in a space a space, but they do not prove they are willing to use it any.—Wellington Leader.

The best way to judge a person is to observe how he judges others.

U. S. 'Empire' Now Includes 2 Pacific Fly-Specks Taken Under Britain's Nose

ABOUT 1800 miles southwest of Hawaii the Canton and Enderbury, two fly-specks of islands in the Phoenix group discovered by American whalers in the first years of the 19th century but long passed over by the world for all practical purposes.

Then, strangely enough, an eclipse of the sun spotlighted them for a brief time last year, before they again sank into obscurity. Now, suddenly, they have once more been thrust onto the front pages of newspapers as two tiny pawns in the diplomatic game of chess.

Both the United States and Great Britain want the two fly-specks in the Pacific ocean. The United States wants them badly.

CANTON was the scene of the U. S. Navy-National Geographic expedition to observe the June 2, 1937, eclipse of the sun. Hardly had the Americans made themselves as comfortable as possible on the barren little coral atoll when a British sloop, the Wellington, arrived on the scene and reminded them they were trespassing on British territory since the two islands had been incorporated within the administrative area of the Gilbert and Ellice Islands by an Order in Council March 12, 1937.

But the American ship refused to move from her anchorage. Thereupon the British sloop sailed around to the other side of the island and landed her crew, who ran up the Union Jack. On the other side flew the Stars and Stripes. Later, the British government requested Washington to have torn down an American marker erected by the eclipse observers. Washington did not reply.

denbury, two such insignificant areas that many at first could not understand why the United States should ever cast longing eyes on them.

President Roosevelt gave no answer. The islands, he declared, are on the air route from the United States to Australia. The United States is interested only in their value to commercial aviation.

But the rest of the world put another interpretation on the move. It saw a connection between the huge expansion of Uncle Sam's navy and the acquisition of a possible naval "ping stone" along the route of communication from America to Hawaii to American Samoa. Canton Island, with its sheltered lagoon, can shelter not only radio stations but airplanes and bombers.

Entrants Rate High In Festival At Lubbock Last Week

Leading feature of the South Music teachers association was attended by local teachers and pupils, was the banquet evening at the Lubbock when awards were presented to the highest ranking students who participated in the festival. Pupils of the required grades are to enter the Tri-state Festival at Dallas this year April 1-2. Winners for the Festival were Pauline Brigham W. T. S. T. (piano); Miss Mary Anderson (S. T. C. Denton); Miss Millie Lohm, Amarillo; Mrs. Lydia Whisenand, Abilene, piano; Mrs. Gladys M. Glenn, Lubbock, and Guy Wood, Wayland, piano; voice, Harry Junior, College, Portales, Mexico, George Oscar Bowen, piano; violin, Robert Axtell, Lubbock Conservatory of Music.

K. C. Thomas with her piano and places they won were Stanley, two solos, blue ribbon, scales, blue ribbon; Nanette, solo, blue ribbon; Nelda Chapman, solos, blue ribbon; Lou Bond, two solos, blue ribbon, scales, blue ribbon, theory, certificate; Katherine Wilkinson, solos, blue ribbon, theory, certificate; Peggy Jo Bishop, solo, blue ribbon.

Wester, Etude, blue ribbon, scales, blue ribbon; Netha Denison, Etude, blue ribbon, Modern, ribbon, scales, red ribbon, theory, certificate; Euna Fawver, blue ribbon, Sonatina, blue ribbon, Modern, blue ribbon; Juana Leibfried, Etude, blue ribbon, Sonatina, blue ribbon, Romantic, red ribbon, scales, ribbon, theory, certificate; Nordenson, Etude, blue ribbon, Classic, blue ribbon, Modern ribbon, scales blue ribbon, theory, certificate;

Louise Tubbs, Etude, blue ribbon, classic, red ribbon, Sonatina, ribbon, Romantic, blue ribbon, ern, red ribbon, Theory, certificate; Sappho Ward, Etude, blue ribbon, Modern, red ribbon, Theory, certificate; Sappho Ward, Etude, ribbon, Classic, blue ribbon, ern, red ribbon, Sonata, red ribbon, Romantic, blue ribbon.

South Plains Gardeners Given Information On Garden Planting Here

In an effort to assist the gardeners of the county before the regular gardening period begins the county agent has collected the following information for the gardeners giving plants suited for this region and causes for poor production.

In many cases the gardener selects his seed for planting by the most decorative pictures on the package or in the seed catalogue, without thought of just how acclimated this seed might be for this locality. In most all cases acclimated varieties can be purchased in bulk at your local merchants and most all of this seed has been collected by reliable seed men.

The county agricultural agent lists the following varieties of vegetables for this section: beans (bush), Refugee and giant stringless; green beans (wax) Pencil Black Wax (dry) Pinto; Broccoli (Italian green sprouting); mustard, tender green, Florida broad leaf; Spinach (Bloomsdale long-standing); Swiss chard (excellent summer planting); Lucullus lettuce; Los Angeles and New York number 12; carrots, On-hart and Nantes sweet; radish, scarlet globe; turnips, Purple Top Globe onion; Yellow Globe Spanish; peppers, Washington; rhubarb, Giant Red Leaf; beets, Crosby-Egyptian; okra, Dwarf Prolific and white velvet; egg-plant, purple beauty; squash, yellow straight neck and ferdinok; cucumber, Snows Pickling and Stay Green; parsley, Moss Curly; parsnip, Hollow Crown; English pea, Alaska and Little Marvel; Tomatoes, Early Anna, June Pink and Porter; sweet corn and Honey Pink; potatoes, Irish Cobbler; Pumpkin, Small sugar; Kohl-rabi, Vienna Type; Field Peas, cream; Cantaloupe, Perfecto.

In this section it has been called to the county agent's attention by gardeners that considerable trouble is confronted each year in regard to blossom-in-not of tomatoes. This is largely due to the plants needing moisture; under ordinary conditions tomatoes growing in soils rich with humus do not have this trouble.

Some growers have planted arborvitae and corn beside the row of tomatoes and have tried to water the tomatoes during the late evening or at night, thereby having the rows of corn or arborvitae to help protect the plants from the hot summer winds.

Some have overcome this difficult by sprinkling the entire vines with water later in the evenings and early in the morning before the sun comes up. This is a problem that will have to be worked out on each garden more or less individually. A heavy application of well-rotted barnyard manure will also have a tendency to overcome this difficulty.

Numerous gardeners have called on the county agricultural agent each season in regard to the English peas which have died and have not produced peas in sufficient quantity. In most of the cases this trouble has been overcome by the use of nitrogen inoculation; for those having trouble with English peas, gardeners might find the use of nitrogen very successful.

F. J. Boerner, left Thursday of last week for Phoenix, Arizona, his home after a visit of several days with relatives here and transacting business.

Judge L. G. Mathews returned home last week from a business trip to Dalmierfeld, Texas.

After Tornado Had Passed

Belleville, Tex., a town of 28,000, received the brunt of the devastating tornado which swept up the Mississippi Valley, as the above photo indicates. Nine in the Illinois town were killed, and 60 buildings were wrecked.

Pleasant Hill News

Motto:—Upward ever, downward never.
Editor-in-chief—Margaret Camden.
Assistant Editor—Vance Woolsey.

Pleasant Hill and Dougherty Ball players have been exchanging games lately. Wednesday Dougherty won with a score of 9 to 5 playing here and Thursday the returned game at Dougherty was won by Pleasant Hill. The score was 4 to 1.

Chapel

The following Chapel program was given Monday morning:

Song by the school; music, Billy Brown; tricks by Mr. McClung.

Honor Roll Students

Students whose names appear on the honor and good citizenship roll for this month are Maxine Thompson, first grade; G. W. Resnick, second grade; Billy Jo Hambricht, Glenn Robertson and Genell Hambricht, third grade; Betty Brown, fourth grade; and James Robertson, sixth grade.

There was no school Friday as the teachers attended a meeting for teachers in Canyon. They returned home Saturday.

Local News

Mrs. Abigail Ehas and children spent Saturday night with Mr. and Mrs. L. V. Woodley and girls. Elton Terry was also a guest in the home of his uncle and aunt.

Mr. and Mrs. Bill Whitehead and Mr. and Mrs. N. O. Osborn and their children from Amarillo, were guests in the home of their parents last week end.

Mr. and Mrs. Henry Willis visited Sunday in the home of Mr. and Mrs. A. T. Pratt.

Mr. and Mrs. Bill Rucker spent Sunday in Floydada with Mr. and Mrs. E. B. Rucker.

M. and Mrs. Frank Jones and family were Sunday guests of Mr. and Mrs. F. B. Eldor.

Guests of the T. J. Cardinal family Sunday were Mr. and Mrs. O. K. Custer, Mr. and Mrs. M. B. Brown, Mr. and Mrs. Truitt McClung, Mrs. Joe R. Evers, Myra Nell and O. G. Evers.

Mr. and Mrs. J. D. Stovold of Electra spent Sunday with their daughter, Mrs. Dennis Murphy and family.

Directions For Growing And Selection Of Roses Given By County Agent

With the present means of transportation there are many kinds of rose plants to be bought by mail order, discarded green house and dormant field grown and all these are supplied at most any price you care to pay, ranging from ten cents to \$2.50 each.

The large plants offered for sale by the bargain counters are often discarded greenhouse rose plants which have been worn out in many cases and are unfit for garden planting. The outgrown budded plants are usually grown two or three seasons from the start of the understock and modern nurserymen prepare the understock in such a way that suckers seldom appear.

As a collector of roses gardens it is well to give it much study as possible and also keep in mind that a well drained place must be had. The rose bed should not be close to vigorous growing bushes or elm trees as these will absorb all of the moisture and flood from the rose bed.

The preparation of the rose bed is easy as the ground should be broken twice the depth of the spade with a considerable amount of rotten manure thoroughly mixed into the bottom half of the bed. In case commercial fertilizer is used be sure to use it in strict accordance with directions furnished. It would be well to remember that the bed should be prepared several weeks before the arrival of the plant so as to give the ground time to settle.

Upon the arrival of the plants from the nursery it is well to plant them at once and in case the weather is too bad it is best to leave them in the package and keep them in a cool shady place. But if the plants must be delayed for more than a week it would be best to undo the package and remove all the straw and packing but leave them tied in the same position as they were at the nursery, then place them lengthwise in a fresh dug furrow and cover them up with soil leaving only a few inches of the tops out. Roses can be left in this condition for several weeks but one should be very careful when planting roses that have been treated in for some time, by this time they have developed some rootlets and are preparing to go into growing and if these rootlets are exposed to the drying winds and hot sun you are taking a great chance in losing plants.

Never plant roses too deep. It is always a good idea that to find the place where the plant was budded or grafted, this usually leaves an offset. A rose should never be planted too shallow. The best method to follow is to find this offset and place the plant in its proper position and let this bud or grafting place be about one inch below the surface of the ground.

A good plan to follow is to hold a plant in one hand in the proper position and carefully fill the whole with dirt with the other, taking care to have the roots distributed in all directions, possible and pack the dirt firmly about the plant so as not to leave many air-ockets. After this the plant should be well watered, enough so that it will soak and settle the dirt firmly about the plant never allowing the ground to crust or bake.

After the rain and watering always cultivate your beds and keep them in a good mulch. Roses need shallow and the bed should be kept fresh from grass and weeds at all times.

Some varieties of roses which have proven rather successful in this area are as follows: Red, Red Radiance, Grandisplum, E. G. Hill, Eldeboland, Two Tons, Tallman, President Hoover—Yellow, Golden Ophele, Rosita, Lady Hillington, Luxemburg—Baby Roses, Cecil Bruner (newheart), Golden Salmon, Gloria Mundi, Ideal—White: Cornigan Louise, White Crochet, Edel—Pink, Pink Radiance, Bessie Brown, Brian Cliff, Grace Noel Crowell, Pink Crochet, Margaret McGreevy, Premier—Pernet, Georges—and Mrs. Charles Bell (salmon radiance).

Readers of the Norfolk Virginian-Pilot were astounded on the morning of December 28, 1937, when they picked up their paper and read: "The problem of aerial navigation without the use of a ballast has been solved at last. Over the sand hills of the North Carolina coast yesterday, near Kitty Hawk, two Glenn men (Owen and Wilbur Wright) proved that they could steer through the air in a flying machine of their own construction, with the power to steer and speed it at will. This, too, in the face of a wind blowing at the registered velocity of 21 miles an hour."

In the lumber trade the unit of measurement is the "board-foot," which equals 1 square foot, 1 inch thick. To find the board-foot in a standard board multiply the length, in feet, by the width, in inches, and divide the result by 12. To get the board-foot in planks or square timbers, multiply the length in feet by the width and then the thickness in inches and divide by 12.

Size No Barrier

Ralph L. Madison's 7 feet 6 inches carrot is handy as he gives little Marty Smith a boost up a palm tree, while playmate Sandy deSelle looks on. Madison, nicknamed Shorty, is children's counselor at a Miami Beach hotel.

NO QUICK CHEMICAL TEST RELIABLE FOR ALL SOILS

No chemical quick test method is suitable as a sole guide for judging crop adaptation and fertilizer requirements of soils in all localities and under all conditions, according to M. S. Anderson and W. M. Noble, of the Bureau of Chemistry and Soils, United States Department of Agriculture. Neither can any one test kit be regarded as the best under all conditions. Each has merit, but all vary in their applicability to particular circumstances. Seven tests kits and several laboratory methods compared on widely diversified soils, varied in their diagnosis of soil constituents and soil needs.

For years agriculturists have sought chemical means of determining the available portion of phosphorus, potassium, and sometimes other elements in the soil. Many methods have been used with varying success. Equipment for carrying out several of these tests has been arranged in compact commercial test kits that may be operated by persons of limited training.

Soil agricultural experiment stations have found quick chemical tests valuable in diagnosing soil needs when the results have been interpreted by trained agronomists. These stations, however, possess more information than the average person would have regarding the responses of various crops grown on different local soils after applications of fertilizers. There is no proof that quick tests will be valuable to a person in a particular locality, but they are thought to be of value under certain circumstances, particularly to one who likes to make practical field or garden experiments.

Soilbores Use Grass Earth. In Java, burly men strew earth taken from a grave about the house they are visiting for the purpose of putting the inmates of the house into a sleep as deep as that of the dead.

Just Arrived
A TRUCK LOAD OF ARKANSAS GOLDEN
Delicious Apples
Last week our Colorado Trucks were delayed due to unusual rains and snows. On account of this delay we have an unusual large amount of—

SCIENTISTS USE BLOWFLIES TO BREED BETTER CARROTS

By putting blowflies to work, plant scientists dodge some of the difficulties of carrot breeding. The method developed by H. A. Jones and S. L. Ensweller for use in onion breeding has been applied to carrots by H. A. Borthwick and S. L. Ensweller of the United States Department of Agriculture. Two methods of blowfly pollination were devised, one for inbreeding the other for out-crossing. Cross-fertilization develops hybrid vigor in carrots, much as it does in corn.

Carrot blossoms—borne in groups called umbels—are so tiny that stamen removal and hand pollination would be difficult and tedious. Breeders long believed that carrots could not be inbred. Research showed, says the 1937 Yearbook of the Department, that the individual bloom is self-sterile only because the pollen matures before the flower is ready for fertilization. Pollen from late blossoms on a plant will fertilize flowers that open early. Thus to inbreed and develop a pure line—strong in vitamin A, for example—breeders cover a whole plant with an insect-tight bag. They then introduce blowflies—reared for the purpose—to transfer pollen from the latter blossoms to those that open early.

For a cross-fertilization, the breeder bags a single umbel. Early ripening of the pollen prevents self-fertilization. Later he chooses a freshly open umbel of the selected pollen parent, introduces it into the bag, and adds blowflies to do the otherwise tedious work of cross-fertilization.

Present Unique Foot Service In New Way Next Wednesday

Dr. Scholl's Scientific Shoes Caravan will demonstrate at Martin Dry Goods Company

They say that truth is stranger than fiction and that old adage may be aptly applied to this story. To shoes that would satisfy the discriminating taste and at the same time fit comfortably has been the despair of shoe manufacturers.

Years ago Dr. Scholl, the well-known Foot Authority, began to work on a line of shoes that would completely solve this knotty problem. When he gave to the foot-impairing public his famous line of Scientific Shoes, his efforts were rewarded with success.

Martin Dry Goods Company who for years been headquarters for Dr. Scholl's Foot Comfort Appliances and Remedies, has arranged with Dr. Scholl to demonstrate his Scientific Shoes at the Martin Dry Goods Company Store on Wednesday, March 30.

Dr. Scholl's Foot Shoe Experts will bring with them advances showings of the complete line of Dr. Scholl's new styles. There will be 622 fittings to meet the most fastidious tastes of all types of feet, in sizes for men from 6 to 14; for women from 5 to 13; in widths from AAAA to E.

Unless one has made an intensive study of the feet, one would never know how many different kinds of feet there are. Here is a woman with a short, stubby foot; the next is a man with a long, slim foot with a narrow heel; the next customer has a high arch and, his hand, weak, broken-down arches when there are legions who have

Foot Happiness Caravan Here Wednesday

This traveling unit of Dr. Scholl's Foot Comfort Service, staffed with factory experts of Dr. Wm. M. Scholl, world noted Foot Authority, comes here Wednesday, March 30. These experts will conduct a one day demonstration at the Martin Dry Goods Company, with the complete line of Dr. Scholl's Scientific Shoes, Foot Comfort Appliances and Remedies. This is the most unusual and complete Demonstration of its kind ever held here.

foot troubles; such as, corns, callouses, bunions, crooked, overlapping toes and those who continually run their heels over. In short, many people will tell you "I have the hardest foot in the world to fit". It is in this class, Mr. Martin says, who should be vitally interested in Dr. Scholl's Scientific Shoes.

With this array of shoes there will be included the latest model X-ray Machine, the Podo-graph and Dr. Scholl's Automatic Shoe Sizer. In testing feet and fitting these shoes all guesswork is eliminated.

Dr. Scholl has given the growing feet of children the same careful consideration as he has adults. He claims that many of the foot ailments from which men and women suffer today can be traced back to improperly made or fitted shoes when their feet were in the tender, plastic stage of childhood.

Mr. and Mrs. W. T. Branson received word last week of the serious illness of their daughter, Mrs. Yearly, at her home in Childress.

Sunday School Lesson

International Sunday School lesson for March 27, 1938.

Correcting Wrong Ideas of Religion

Golden Text:—This people have honored me with their lips, but their heart is far from me. Mark 7:6.

Lesson Text:—Mark 7:1-13.

Then came together unto him the Pharisees, and certain of the scribes, which came from Jerusalem.

2 And when they saw some of his disciples eat bread with defiled (that is to say, with unwashed) hands, they found fault.

3 (For the Pharisees, and all the Jews except they wash their hands oft, eat not, holding the tradition of the elders.)

4 And when they come from the market, except they wash, they eat not. And many other things, there be which they have received to hold, as the washing of cups, and pots, brazen vessels, and of tables.)

5 Then the Pharisees and scribes asked, Why walk not thy disciples according to the tradition of the elders, but eat bread with unwashed hands?

6 He answered and said unto them, Well hath Esaias prophesied of you hypocrites, as it is written, This people honoureth me with their lips, but their heart is far from me.

7 Howbeit in vain do they worship me, teaching for doctrines the commandments of men.

8 For laying aside the commandment of God, ye hold the tradition of men, as the washing of pots and cups; and many other such like things ye do.

9 And he said unto them, Full well ye reject the commandment of God, that ye may keep your own tradition.

10 For Moses said, Honour thy Father and thy mother: and, Whoso curseth father or mother, let him die the death:

11 But ye say, If a man shall say to his father or mother, It is Corban, (that is to say, a gift,) by whatsoever thou mightest be profited by me; he shall be free.

12 And ye suffer him no more to do ought for his father or his mother;

13 Making the word of God of none effect through your tradition, which ye have delivered: and many such like things do ye.

Time and Place.—The events of this lesson took place in April A. D. 29, in or near Capernaum.

Righting wrong concepts of religion is the issue involved in this week's lesson.

The more we study the work and teachings of Jesus, the more we must realize that this was very largely what He had to do. He pointed out again and again that He had not come to destroy but to fulfill, and that He was not so much offering a new teaching as endeavoring to bring home to men the realities of

the truth concerning God and man that they had failed to put into practice in daily life and relationships.

What were the wrong ideas of religion that Jesus endeavored to correct? There was first of all, the idea that religion consisted of outward and external things and insistence upon forms and rituals. Even in so important a matter as cleanliness in washing the hands, Jesus intimated that one could attach much more importance to it as a matter of ritual and ceremony than as a matter of actual cleanliness. It is as important not to be censorious toward those who do not follow our particular customs and practices as it is to follow the customs and practices that we approve.

In the second place, Jesus corrected the idea that religion consists of lip praise as a form of worship. It is the religion of the heart that is the real religion. It is in the observance of the Commandments of God, not in bowing down in professed obeisance, that the true worship of God is found.

In the third place, Jesus insisted upon the difference between truth and tradition. The fact that a thing had been long taught and practiced did not make it true. The truth of religion had to be tested by something higher than that.

In the fourth place, Jesus was insistent that the real requirements of religion—that is, the demands of honesty and love—could not be set aside by some formal code or practice. We have learned in our modern world how even good laws can be nullified by non-observance of non-enforcement. A few years ago, the nations joined in a pact against war; yet we have seen how nations that entered into the pact can be engaged in actual war, though by avoidance of the declaration of war they profess—technically, at least—that they are not breaking the pact. Jesus found the same thing in existence in His day in relation to the demands of the Jewish religion. The finest teachings and ideals had been set aside by convenient practice that modified or ignored them.

But Jesus was not content simply to correct wrong ideas of religion. Rather, perhaps, we could say that He corrected wrong ideas of religion by asserting true ideas of religion and by making plain and simple, for will and conscience, the two great commandments concerning love to God and love toward one's neighbor.

J. L. EAVES IS GRATEFUL FOR HELP OF NEIGHBORS ASSISTANCE MONDAY, MAR. 4

J. L. Eaves, this week wishes to express his appreciation for himself and parents to their friends for their help in the preparation of their land, during the illness of A. L. Eaves, the father.

Neighbors completed the listing of his land on Monday, March 4, the ladies bringing dishes of food for the noon meal.

A. L. Eaves, has been ill in a hospital at Santa Anna for the past six weeks.

IT'S HOME TOWN SERVICE...

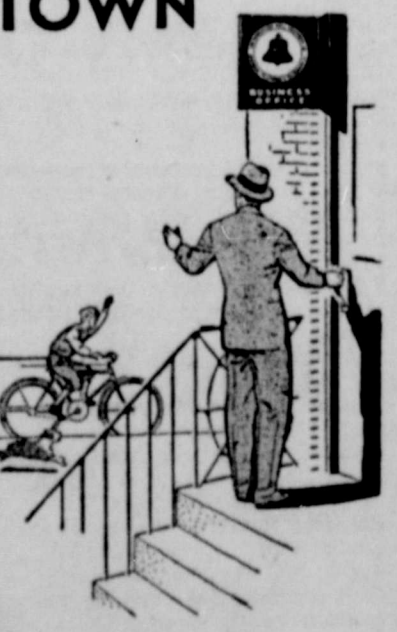

THE best thing about your telephone service is that it's home town service—tailor-made for you at the switchboard by people who live and work here.

Experts can develop better methods of giving you service. Scientists and engineers can contribute new inventions and developments. Western Electric can buy and manufacture economically for the operating companies of the Bell System.

And all of these things can—and do—help tremendously at the job of giving you good telephone service at a fair cost.

Yet not one of them could replace the qualities of friendliness and neighborliness which grow out of the fact that the men and women who operate the telephones here belong to and are part of this community.

Turkeys Lay One Hundred Eggs A Day

Output of Eggs From Area's Largest Producing Plant On Increase

All Contracted

Culled, Selected Turkey Hens In Morckel Laying Pens Here

With the advance of the spring hatching season, the production of eggs from the Morckel turkey hatchery, located one and one-half miles southwest of Floydada on the R. M. S. road, is beginning to climb. The hatchery, which is the largest of its kind in the area, is producing an average of one hundred eggs a day from each of the laying pens. The hatchery is operated by Harry Morckel, who has been successful in raising turkeys for many years. The hatchery is now producing an average of one hundred eggs a day from each of the laying pens. The hatchery is now producing an average of one hundred eggs a day from each of the laying pens.

Local Baptists Attend Two-Day Session Of District 9, Plainview

Today brings to a close the two-day District Nine meeting of the Baptists annual Sunday School, B. T. U. and W. M. S. convention in session with the First Baptist church at Plainview.

The convention opened Wednesday morning with a session under the direction of A. B. Muncy of Lockney, district Sunday School superintendent in charge. Notables among the Baptist denomination appearing on yesterday's programs were G. S. Hopkins of Dallas, state secretary of the Sunday school department, Dr. T. C. Gardner of Dallas, executive secretary, Dr. R. C. Campbell of Dallas, Baptist state secretary and Dr. H. H. Mulrhead, a missionary from Brazil.

Wednesday evening session was a Wayland college and young people's service with Mrs. J. W. Ware, Dimmitt, District young people's leader presiding. Mrs. Phil Maxwell, of Dallas, state young people's leader was the principal speaker. The local church had an unusually large attendance present. Mrs. G. A. Linder was in charge of one division of the W. M. U. conference Wednesday afternoon when their general meetings were held. Mrs. Lon V. Smith and Mrs. Vernon Shaw appeared on this morning's programs. Mrs. Smith speaking on Religious Literature and Mrs. Shaw's subject being Missions. Rev. Vernon Shaw, local pastor with a large number of his membership were in attendance during both days.

HELEN DOZIER Y. W. A. MET WITH MISS SIMS MONDAY

Helen Dozier group of the Y. W. A. met Monday evening with Miss Ina Sims as hostess. Miss Sims, president, presided over the business meeting when plans were made for the group to attend a meeting at Plainview Wednesday evening for a special meeting of young people at the First Baptist church. Mrs. Phil Maxwell, State Baptist Young People Leader, will speak. Miss Faye Newell, personal service chairman, was leader of the Industrial Meeting.

MRS. MYERS CONDUCTS LESSON FOR BAPTIST WMS

Churches over the entire nation and including 10 foreign countries are observing fellowship day, and the meeting tonight will include members of three counties.

WILLIAM FOX TO PREACH SUN. FOR PRIMITIVE BAPTISTS

William Fox will preach at 11 o'clock at the County Court room Sunday, March 27. All members of the Primitive Baptist congregation and visitors are invited to be present.

CAMPBELL W. M. SOCIETY MET WITH MRS. MAY TUESDAY

Campbell Missionary Society of the Methodist Church met Tuesday afternoon with Mrs. G. R. May as hostess. Six members and two visitors enjoyed the interesting lesson from, "Rebuilding Rural America" taught by Mrs. W. H. Bethel. After the regular session a sunshine box was ptekef for Dorsey Bartlett, who is recovering from a recent car accident. Delicious refreshments were served. The meeting adjourned to meet again April 5 in an all day meeting with Mrs. George Stiles.

Mr. and Mrs. Roy Snodgrass and son, Tom Roy, returned Monday from Fort Worth where they had visited for several days with Mrs. Snodgrass' sister, Mrs. T. C. Russell and Mr. Russell and attended the stock show. Miss Nella Frances Faulk accompanied them to Fort Worth after a visit of a week here with her sister, Mrs. Frances Wester and aunt, Mrs. Snodgrass.

Mr. and Mrs. Billie Grundy and son, Doyle, of Dalhart came Sunday for a visit with their parents, Mr. and Mrs. I. R. Grundy and Mr. and Mrs. W. H. Hilton. Mr. Grundy returned home Monday but Mrs. Grundy and son will visit for several weeks. Mr. and Mrs. Gene Collins and sons, Sonnie, Johnnie and Jimmie, were week-end guests in Weatherford. Mrs. Collins' parents, Mr. and Mrs. J. J. Fuller and her sister, Miss Beneva Fuller.

'38 School Census Shows Decrease In Scholastics Here

Ten Less Scholastics This Year, Secretary Of Board Finds

With the preliminaries of the Floydada Independent School District census at an end the rolls show that there are approximately ten less scholastics this year than last, Jim Houston, secretary of the board announced Wednesday. A final check has yet to be made on the school attendance rolls to find any errors that might have been made in the first round. However a pretty close tab was kept as the census was taken and approximately 760 scholastics were recorded for '38 as compared for 1937 to 770 scholastics.

Houston said that a number of families had moved out of the district and in almost every case such families moving had from three to six children of school age. A careful check must be made on the families that have moved and find if they have returned to the district since last census. Some hope had been held that the scholastics in the district had risen since last year but the present check-up blasts almost any hope there might be for an increased school roll for next year. As careful as the census was, the recheck will hardly reveal ten or more scholastics.

Rhythm Band Plays For Rotary Club Wednesday

The Rotary Club was entertained by the Andrews Ward rhythm band at luncheon Wednesday. The band is taught by Mrs. J. N. Johnston, with Miss Bernice Dallinger as pianist. Robert Medlen had charge of the program for the day with Conner Oden speaking to the club on "The International Labor Organization." Visitors were J. W. Jones and Cannon Blout of Lockney.

SAND HILL SCHOOL NEWS

Eighth and Ninth Grade News
We are glad to have Nila Palvadore back in school after having been absent from school because of illness.

Fourth and Fifth Grade News
Patsy Parkey, David Graham and Dewey Parkey won out in the picture-memory try-out last week and get to go as contestants to the meet. Those who won in the spelling contest for the county meet are Verona Miller, Katherine Robertson and Leland May.

In story telling the winners are Bobbie Dick Mickey, Herman Graham and Dorothy Jean Battey.

The senior declaimers are Addie Brown and Opal Knight.

The junior declaimers are Kenneth Mickey and Mary Helen Mickey.

Sixth and Seventh Grade News
Oleta Palvadore and Richard Morrison are back in school this week after being absent because of illness.

Ina Lee Graham won a prize for being the best speller last week.

Mary Helen Mickey went to the Speech Festival in Amarillo last week, and won a grade of superior.

You'd Be Surprised But—
It smells like tennis shoe season. Ovelen has her hair curled. Floydada High School girls beat Sand Hill girls in a baseball game Monday.

Gossip Column
Verne, what about the bouquet of flowers you had planned to wear to the singing Sunday night? We wonder who it is that goes to Lockney to have a good time?

Play Friday Night
The Cone Dramatic Club will present a three-act comedy drama in the Sand Hill auditorium Friday evening, March 25. This play is under the auspices of the Sand Hill P. T. C. Society.

BAKER WILL PRESENT FARCE COMEDY APRIL 2

"Whose Little Bride Are You?" A farce comedy will be presented on Saturday night, April 2, at the Baker school auditorium.

The characters are Dr. Benjamin Bellows, a retired physician, Herschell Green; Algernon Clawhammer, Leland Hart; Augustus May, G. L. Fawver; Simon Singleton, Rubien Nell; George Lobin, A. J. Roberts; Florence Bellows, Marie Finley; Mrs. Maceckron, Mrs. Ham Smith; Dollie, Mrs. A. J. Roberts; Maggie Brady, Mrs. G. L. Fawver; Mrs. Tobin, Mrs. Jim Hart. There will be no admission charge so come and see a woods full of brides.

Misses Margaret Smith and Fern Finkner are expected home today for the spring holidays from their school work at Texas Wesleyan college, Fort Worth. George Finkner went to Fort Worth Wednesday for his daughter and Margaret, who will visit with her parents, Dr. and Mrs. George V. Smith.

Mr. and Mrs. O. L. Stansell and Pat, returned home Sunday from Fort Worth where they had been attending the stock show. They also visited during the week at Bonham and Leonard with relatives and friends.

Louie Moore of Lubbock was a week-end guest of his brother, Frank L. Moore and family.

Sugar Beet Experiment To Get Under Way Soon Is Hope Of Bredthauer

Sugar Companies Have No Contracts Available To Sugar Beet Experimenters Yet

All farmers who are interested in cooperating with the Floyd County sugar beet experiment which is being conducted by the County Agricultural Agent, D. F. Bredthauer, cooperating with the Santa Fe railroad, should make application with the county agent, or J. L. Suits or D. E. Cox of Lockney.

It will be necessary to know the exact acreage which will be planted to sugar beets in Floyd County in 1938 so a sufficient amount of seed can be procured to take care of the acreage to be seeded by Floyd County farmers. It is hoped that at least fifty acres will be planted this season scattered over the irrigated district so authentic figures may be obtained to substantiate the results which were obtained in 1938 and also to experiment in the actual shipping of quantities to the sugar manufacturing company, and to see what this crop offers in actual dollars and cents as a new money-crop in this area.

It is hoped that this seed will be available for planting by April 15 so it will be necessary for producers to make their intentions known to either of the leaders at once. Anyone wishing information in regard to this movement can secure same by contacting the county agricultural agent's office.

At a later date the sugar company will offer growers a contract price for all beets produced. These contracts are not available at present but are being worked out by the company and will be ready for distribution at the time of planting.

A very agreeable freight rate has been worked out and at present this crop has created much interest in the minds of the sugar beet authorities, but it is the idea of everyone concerned not to go into this movement too strongly until our present experiments have proven themselves more definitely for another season or two and to anyone wishing to cooperate, it is suggested that they secure information as to preparation of the land and cultivation of small acreage, from one to not more than four or five acres per farm.

Farm Families Plan Needs, Devise Ways, Means Of Meeting Them

R R Supervisors Help Balance Production, Health, Income And Expenditures of Loan Clients

Every business man realizes the importance of considering the future needs of his business and how these needs may be met, and the farm and home is no exception to this rule, according to Mary Watson Jones, home management supervisor for the Farm Security Administration in Floyd County.

At this time of year Mrs. Jones and Claude Carpenter rural rehabilitation supervisors for this agency, are busy engaged in helping farm families plan their needs and devising ways to meet them. Each farm family cooperating with the Farm Security Administration is assisted in determining its needs for the next year, which includes the needs for crops, food for the family, clothing, medical attention, schooling, recreation and similar requirements. After the needs are estimated a budget is outlined and the family live within this budget with the aid of the farm and home record book which they keep and the encouragement and help of the county supervisors.

Farmers are taught the value of balanced rations for their livestock. They are encouraged to improve the care and breeding of livestock to insure maximum production. They are advised to plant their field crops in accordance with approved practices for the locality in which they live, not forgetting the importance of soil conservation practices. Another important phase of the FSA's planning program is the storage of surplus food and feeds in good years for use in years when production is below normal. It is here that canned foods and trench silos prove their usefulness.

Home management supervisors work with farm wives in home improvements, family health, production of poultry flocks and gardens to meet the needs of the family's balanced diet and also add to the family's annual income through food preservation and sales of surplus commodities.

In setting up a farm and home plan the rehabilitation supervisor and the home management supervisor for the Department of Agriculture agency know that in order to develop properly balanced plans the family must fully realize the need for keeping expenditures well within their income. This is why the budgets are so necessary and this phase of the program is given careful attention by voluntary county committee working with this federal agency. R. B. Gary is chairman of this committee in Floyd County.

The farm security Administration makes loans to needy and worthy farm families in order to help them get started on a balanced, live-at-home program. Full details of this rural rehabilitation plan can be obtained from either Mr. Carpenter or Mrs. Jones who maintain offices in the Parris Building in Floydada.

WANTED Clean White Rags at Hesperian Office.

Two Light Freezes Are Recorded During Week

With the first day of spring being recorded on Monday of this week, the weatherman for Texas and vicinity saw fit to keep the weather reasonably warm for the last seven days and recorded only two freezing temperatures.

The week's low was recorded Saturday morning when the mercury skidded to the 30 degree mark. The lows for the remainder of the week until yesterday morning were in the upper forties, however Wednesday morning the second freeze of the week was recorded when the mercury fell to 32 degrees.

Sunday was the warmest day when an 82 degree temperature was put on record, Monday followed closely with an 81 degree high.

So far as could be determined the two light freezes caused little or no damage although some ice was seen.

Urnon Borum, student in W. T. S. T. C. at Canyon, spent the week-end visiting with his parents, Mr. and Mrs. J. U. Borum.

Mrs. F. C. Harmon and daughter, Lanell, spent Tuesday in Lubbock.

Mr. and Mrs. J. E. Swinson left Sunday for Dallas where Mrs. Swinson will receive treatment at a clinic.

Mr. and Mrs. C. P. Edwards, Mrs. I. W. Hicks and daughter, Leila-faye, spent Friday in Amarillo.

Mr. and Mrs. Lon M. Davis returned home Saturday from Mineral Wells where they spent the past two weeks resting.

Father And Son Supper Scheduled For Tuesday Night At Andrews Ward

Senator G. H. Nelson Scheduled To Be Main Speaker at Affair Sponsored by FFA

Postponed from February 25 because of wet weather and impassable roads in the county the FFA boys, headed by their sponsor W. A. King have reset their father and son supper date to Tuesday night, March 29.

Something like 150 fathers and sons are expected to be present for the affair at which Senator G. H. Nelson of Lubbock will be the principal speaker. Besides Senator Nelson there will be O. T. Ryan of Lubbock who is area supervisor of vocational agriculture.

Vocational agriculture teachers from surrounding areas are expected to be on hand to help along with the program from time to time, and will be special guests of the FFA boys.

The event is one of the biggest "parties" of the year given by the vocational agriculture classes and will be staged in the gymnasium of Andrews Ward school. The Home Economics girls will lend a helping hand by serving the meal for the boys.

All New—All Modern

Phone 91
Mrs. W. W. Caldwell
Manager

At this time with the hens laying eggs per day, Morckel has what probably the largest turkey egg producing plant in this area and will be filling orders in many parts of the country. With total production contracted, however, to Modern Hatcheries at Clovis, New Mexico, Morckel attempts to fill other orders from any place he and Mrs. Morckel made a trip to the Clovis hatchery and delivered personally at that time 350 eggs. Morckel believes the likelihood is that when the laying season is in full swing his 200 hens will produce between 700 and 800 eggs a week.

The plan seems to be working very satisfactorily at this time. Morckel said, "We would have been unwilling to go into the undertaking without a contract in advance for all the output, and accordingly we are well-pleased with the receipts although we could at times obtain more from hatcheries being large orders and faced with the necessity of filling them at higher prices for eggs." Mr. and Mrs. Morckel are Missionaries who have been living on a plain long enough, however, to become acclimated. Two years ago they began to get into the turkey producing business on a rather large scale, which led to the decision to produce eggs for the hatching market, with the advent of the successful commercially operated hatcheries for turkeys.

Miss Eloise Trussell of Fort Worth the last mid-week for an indefinite visit with her grandmother, Mrs. J. S. Solomon and other relatives.

Mrs. Flavel Hodge of Memphis is visiting her mother, Mrs. Lula Moore and other relatives. She will be here for several days.

Mr. and Mrs. Roy Snodgrass and son, Tom Roy, returned Monday from Fort Worth where they had visited for several days with Mrs. Snodgrass' sister, Mrs. T. C. Russell and Mr. Russell and attended the stock show. Miss Nella Frances Faulk accompanied them to Fort Worth after a visit of a week here with her sister, Mrs. Frances Wester and aunt, Mrs. Snodgrass.

LET THE TERRY Penfiller

Don't put up with the old-fashioned way of filling fountain pens that wastes time, smears ink everywhere and spoils the day for you. Use the Terry Penfiller; it fills your fountain pen automatically... without mess... almost instantly. Simply press the pen's point into Penfiller... and go on writing! Besides, the Penfiller saves money. It flushes your pen clean every time you use it, prevents clogging, makes it write better, saves pen repair bills. Practically spill-proof. It keeps ink clean and prevents evaporation. In many colors, a beautiful addition to your desk. See the Penfiller today, fill your fountain pen too.

Class Sports

Who said the sophomore class was the dullest they had ever seen? They're stepping out in it anyway. The grand party for which all have been looking forward to is to be Friday night, March 25. From rumor we have received, it seems most of them have failed but some are still waiting and hoping. Come on sports we'll show the school we've got pep and plenty of it.

PET NAMES

When we were treatment we were called nicknames by the ones who had passed on before us. At the time we paid little attention to our "pet" names because we knew that those who were applying them had been subject to them since they were a babe, but now that we are sophomores, we realize the pleasure of impressing our inferiors of our superiority and do such at every chance we have.

The sophomores take a part in every activity. We try to cooperate with our fellowmen in every way.

APPRECIATION

To our sponsors, Mr. T. Davis and Mrs. Jones, who have advised and diligently helped us, and to all those who have made this edition of the Hesperian possible, the Sophomores wish to express their thanks and appreciation.

Class Prophecy

The septennial period for the beautiful strains of Lorraine the bridal procession began. The bridemaids (Georgia Lee Sparks, La Nell Harmon, and Jackie Ginn) were beautiful in their pale blue chiffons and preceded the lovely bride adorned in shimmering white satin. She carried a beautiful bouquet of orange blossoms which matched the tiny row of blossoms in her hair. The bride, Lela Mae Hicks, and bridesmaid, M. C. Pugh, met at the altar and Reverend King Puckett united them in holy matrimony.

In less than two hours they left St. Louis for a honeymoon in Hawaii. It is surprising how many of their former Sophomore classmates they chanced to meet.

Lela Mae Hicks, with her parents on a large horse ranch in Kansas. Her visiting friends, Pauline Wood, was the sweetheart of all the young bachelors in those parts. Maurice Hart had married Glimmer Denton and lived on a small farm in Oklahoma trying to make a decent living on love.

Bob and Irene Jones were preparing on a large farm in Texas. The conductor of the train the honeymooners boarded was none other than Jerry Porter who is former schoolmate who is the girl they used to know as Louise Billington. On the same train was a distinguished young man who was an insurance agent and turned out to be our old friend, Eugene Gilliland.

The couple passed through their old home town, Floydada, and saw quite a few old friends. Winston Brown had become the city's most prominent leader, while Lewis Sewell had become manager of the Piggly Wiggly store.

Evelyn Williams now ran the Wilburn Cafe with, of course, the help of her husband, Leroy Denton. The old maid groups were Ophele Gilliland and Pauline Cantrell, Dulon Sergeant married to James Johnson proved a failure and Dulon had to make the living by taking in washings.

George Fry Lader was trying very hard to be a good football coach but due to the fact that he and his wife, the former Jean Sims, were having daily quarrels the prospects didn't look so good.

The Woodward Hotel in Los Angeles, owned and managed by Leland Woodward and his wife who used to be Mary Denton, was where the two young people were to stay. The head waitress was Frances Jo Terrell and assisting her was Margaret McKinney. Margaret had changed her name to Colville. Robert being the owner of a garage next door. The desk clerk of the hotel was T. J. Eason and the bell boy and elevator operator were none other than Warren Johnson and J. F. Poindexter.

Future Homemakers Dye Cloth To Use In Rug Making Tuesday

The Future Homemakers club met Tuesday night for a collecting good time in the home-making department for an industrial meeting. Each girl brought some old hose which were dyed in the course of the evening something to sew on, and an apron to protect her dress. Each girl wore a plain dress, and with the apron left quite domestic.

One of the high points of the evening was when Miss Rees asked each girl if she was ready to dye that dye as some thought. Miss Rees explained that the dye was sent to her for the girls to use. A number of old things were dyed to be used in the making of rugs for the department. The entire material was placed in one group, the rayon and silk in another. As outcome of the meeting, the department will have several new articles. A group of industrious girls are making two foot stools for the teachers room. Each girl seemed busy all the time.

Rehearsals were given in a charming candlelight atmosphere. President Berna McKinney presided at the tea table. It was agreed that this was one of the most enjoyable of the year.

HOPE EXPRESSIONS

Billy Henry—"I don't have my notebook on, Miss Miller."
 King Puckett—"Miss White, what did you send him out for?"
 Evelyn Williams—"I've got to go home and study."
 Margaret McKinney—"Oh! Tomorrow!"
 Joe Chenoweth—"Why don't girls like me?"
 Margaret Beady—"I just made 99 on that Algebra test."
 Carmen Moore—"I've just gained four pounds this week."
 Jane Graham—"Oh! Where's R. E.?"
 Eugene Boren—"Give me some candy, Mary!"
 Leland Woodward—"What do we have in history, Ruth?"
 Robert Colville—"Do you know your Latin, LaNell?"
 Jerry Porter—"Mrs. Puckett, may King go with me?"
 Evelyn Denton—"If that happens I'll have a lousy!"
 LaNell Harmon—"You're crazy!"
 Frances Terrell—"Where's Mary?"
 Louise Billington—"I don't know."
 Joe Chenoweth—"Oh! It ain't so!"

Stable Ambassador to England, Carl Arnold, and his wife who used to be Peggy Carter.

After arriving in Hawaii the newly married couple were given a reception by their friend Carl Minor and his wife, known in school as Jane Clark. Among the guests was the president of Hawaii and first lady, Mr. and Mrs. T. W. Salisbury. T. W. had taken the city little girl who had grown into a beautiful woman, Eunice Langley to wife.

Other guests were Mr. Emmitt Brown and his fiancee, Jane Graham, Emmitt and Jane were not yet married due to the fact that Jane's third divorce was not yet final. Her former husbands, Billy Henry, Carmen Moore, and Arline Rainer, had all divorced her for the same reason—clashing with orchestra leaders and her constant spending of money.

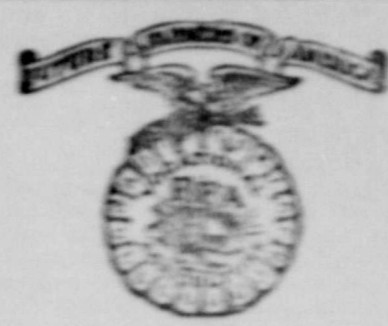

The public schools of Hawaii were fortunate in employing the able history teacher, Lavonne Vandell and Evelyn Daniels. Eugene Boren was an orchestra leader in Hawaii and LaVerne Russell was his star ballad singer while Alice Bell went in for "hot rhythm."

After a honeymoon of glorious days of swimming, dancing, and dreaming the couple started home on a boat whose captain was Pat Collins and William Bertrand was first mate. The excellent food was cooked by Ludene Burney and she ruled not only her kitchen with an iron hand but her husband, Wayne Collins, as well.

The great fish hunter, Dalton Jones, was on the boat trying to catch some fish for his aquarium.

The rich heiress, Margaret Beady, was also aboard and was proposed to fifty times daily by V. P. Switzer but it seems that Margaret was in love with Frank Jones while he sought her secretary, Ruth Feipe.

The famous ice skaters, Anna Jones and Maybelle Davis, were heading for Alaska to make a daring performance at Junior Grace June Hay, the well known school teacher had also started to Alaska to take her new position as teacher.

Three teams from the Floydada chapter consisting of the dairy products judging team, C. W. Denton, Earl Beck, and Leland Woodward. The poultry judging team was James Turner, Bill Ferguson, and Lee Burton. The grain judging team was Carl Currier, Milton Weems, and Wilson Bond, with Mr. King as sponsor, attended the Spur contest held at Spur, Saturday, March 13.

Dairy products judging team of Floydada was the contest, C. W. Denton won, first; Leland Woodward second, Earl Beck third; individually, in better judging, C. W. Denton won first and Earl Beck third in the milk judging contest.

Milton Weems won third, individually in each of the following grain judging, commercial judging, and plant preparation.

Bill Ferguson won second, individually in judging Rhode Island Red chickens. He also won third in judging Barred Plymouth Rocks. The Floydada Chapter was the contest in dairy products judging for which they received the banner.

Class Will

As the year of 1937 and 1938 draws to a close, the members of the Sophomore Class makes their will to members of the Freshman class. The recorded item is as follows:

W. A. Colston with his curly hair to James Turner.
 Peggy Carter leaves to Helen Hanko her temper.
 Frances Jo Terrell will be placed on the volley ball team to Frances Poindexter.
 T. W. Salisbury will his right of being called to the office to David Kirk.
 Arline Rainer hereby wills his height to Joe Arwine.

Jane Clark wills her troubles to Louise Wilson.
 Leland Woodward leaves his knife for fighting purposes to Presley Kenimer.
 King Puckett wills a big horse laugh to Greer McCleskey.
 Margaret McKinney wills her little pug nose to Geneva Connolly.
 Jerry Porter bequeaths his stalling to set to J. L. Nichols.
 Ludene Burney wills her place in algebra class to Nedda Fagan.
 Elsie Biggs leaves to Martha Yearwood, her hair.

Evelyn Daniels wills her figure to Eugenia Martin.
 Mary Denton wills her many laughs to Juliette Bryerton.
 Emmett Brown wills his good times in the band to Kenneth Stubbins.
 Ruth Simpson wills her pretty blond hair to Lee Dale Clark.
 Pauline Cantrell leaves her good history grades to LaVerne Handley.
 Mary Frances McRoberts wills her dedication speech to Arlene Pyffe.
 Louise Billington wills her love for outdoor sports to Edith Shroyer.
 To Helen Woodward, Georgia Lee Sparks leaves her Lockney boy friends.

Dalton Jones wills his place in the Spanish Club to Bruce Foster.
 Jane Graham leaves to Maryrle Duncan, her ability to play baseball.
 Mildred Stovall wills her brown eyes to Marjorie O'Neil.
 Joe Chenoweth wills his "bad" typing ability to Greer McCleskey.
 LaVerne Russell wills her "big ears" to Mary Morrison.
 Dulon Sergeant leaves to Mona Ruth Blackman, her "speaking ability."

Eugene Boren wills his brotherly love to the Green Twins.
 Robert Colville hereby wills his ability to receive "demerits" in the fifth period study hall to David Beck.
 M. C. Pugh wills part of his silliness to Buddy Norman.
 Wayne Collins leaves his good driving to Calvin Hill.
 Wilson Bond wills his good grades to Joe Arwine.

George Fry Lader wills his green and white shoes to "Bo one".
 Frank Jones wills her love for library books to Mary Ann Norris.
 Lela Mae Hicks leaves to Betty Jo McCleskey her kiddish ways.
 Ophele Gilliland wills her ability as a baseball pitcher and captain to Helen Brook.
 Jean Sims wills her temper to Lee Dale Clark.

Geneva Cline wills her height to Vera Lynn Olson.
 Joe Conway leaves his place in detention to Donald Cornelius.
 Ruth Feipe wills her ability to fast to Ada Lou Smith.
 Carl Minor wills his baseball ability to Robert Arnold.
 LaNell Harmon wills her dimples to Mary Ann Norris.
 Billy Brown leaves to Louise Wilson his spanish grades.
 Mary Louise Medlin wills her blushing ways to Martha Yearwood.

SOPH BAND

The sophomores are proud of the members of its class who are active in the band. Those in it are Alice Bell (Saxophone) Eugene Boren (Saxophone), Billy Brown (Clarinet), Emmett Hinson, Arline Rainer, and T. W. Salisbury (Trombone), Mary Frances McRoberts (Alto), and Pat Collins (Cornet).

SOPH GENSSES

The best looking girl—Alice Louise Medlin.
 The most human looking fellow—Carl Minor.
 The best looking boy—Carl Arnold.
 The sleep head—Billie Burke Henry.
 The biggest girl—Mary Frances McRoberts.
 The smartest fellow—Wilson Bond.
 The best athlete—George Fry Lader.
 The lady killer—Emmett Hinson.
 The dapper—Mildred Stovall.
 The dresser—Frank Jones.
 The best excuse maker—Leland Woodward.
 The most amorous—Dulon Sergeant.
 The bluest eyed—Julius Gee.
 The loudest talker—James Johnston.
 The date maker—T. W. Salisbury.
 The biggest fuser—Alice Bell and LaVerne Russell.
 The most ambitious—Jean Sims.
 The loudest dresser—Marjorie Hanko.
 The girl that would make the best wife—Lela Mae Hicks.
 Teachers pet—Lela Mae Ginn.
 The date breaker—George Lee Sparks.
 The most distinguished girl—Lela Mae Hicks.
 The most original—Frances Jo Terrell.
 The nightingale—Ruth Simpson.
 The best mathematician—Irene Jones.
 The most energetic—Evelyn Daniels.
 The best writer—Peggy Carter.
 The smartest—Jerry Porter.
 The biggest flirt—Eugene Boren.
 The skinniest fellow—M. C. Pugh.
 The highest jumper—Arline Rainer.
 The lowest scorer—Student Hinson.
 The most timid—Eunice Langley.
 Miss Leap Year—Jane Graham.
 The most thoughtful—Jane Clark.
 The class hero—Billy Brown.

Floyd Teachers Attend Association Meet March 18-19

The teachers of both schools attended the Northwest Texas Conference of the Texas State Teachers Association in Canyon, Friday and Saturday. The general theme, "Adjusting the Teaching Personnel to the Changing Curriculum," was an interesting theme to our teachers.

One of the best programs was Friday night, at which time Dr. Mayne Southall and Dr. A. J. Stoddard gave inspirational as well as educational talks on the subject "The Changing Curriculum's Challenge to the Teacher" and "The Schools and the American Scene." The teachers seemed to have enjoyed their individual meetings where problems were discussed about the subjects they are now teaching.

Miss Rees said she enjoyed the part where she got to eat as well as the talks. From the reports that each teacher gave they must have had an interesting time.

Hit Of The Week

Two Pretty Girls
 There were ten pretty girls at a village school.
 Pearly ten village bells at a village school.
 Sweet and cute, short and tall.
 And a boy loved them all.
 But you can't marry ten pretty girls.
 There were ten pretty girls and I'll tell you this.
 That the boy's biggest thrill was to work a kiss.
 But it didn't mean a thing.
 Playing like in the ring.
 Cause you can't marry ten pretty girls.
 Now five were blonds, and four brunettes and one was a saucy little redhead.
 The girls grew up, the boy left school.
 And at 21 he wedded the saucy little redhead.
 Now that one pretty girl at the village school.
 Here's what she taught the boy at the village school.
 Kissing girls may be fun for your heart's set on one.
 Cause you can't marry ten pretty girls.

THE TEACHER'S PSALM

The high school student in my care all the days of my life, for his advantage I toil during the day, my sacrifice the rest and quiet of my summer vacation.

Full often he heedeth not my admonitions and explanations; he even doth wound mine own good name with a malicious tongue.

He neglecteth his work during the semester, but he pestereth me with unceasing questions with anxious questions just before the examinations.

He filcheth my soul with anguish because of his flightiness; he rejoiceth me with the candor with which he acknowledgeth his faults.

He disturbeth even my dreams with fear lest he stray from the path of virtue and honor; but by his success my soul is rejoiced exceedingly.

He adorneth the pages of his textbooks with art nor Rhapsodic; he hacketh his desk with his knife.

But he searcheth the fields for biology specimens, he bringeth them generously for mine classroom needs.

Soph Sports

The Sophomore class has participated in many activities this year. In football George Fry Lader returned for his first year. James Johnston was awarded a gold football.

In basketball James Johnston, Carl Arnold, Carl Minor, Wayne Collins represented our class.

We also have several boys going out for spring football.

In the Classroom
 Mrs. Jones—"Did Caesar win that battle?"
 Robert Colville—"Of course, Caesar won the book."

Miss Miller—"In which one of his battles was King Adolphus of Sweden slain?"
 LaNell Harmon—"Gee! All that work for nothing!"

Miss White—"Please follow the work on the board."
 King Puckett—"Where is it going?"

NOTICE OF SALE OF REAL ESTATE

Under Sale of Attachment THE STATE OF TEXAS, County of Floyd.
 Notice is hereby given that by virtue of an Order of Sale issued out of the Honorable District Court of Floyd County, Texas, by the Honorable Gen. B. Marshall, Clerk of said Court on the 4th day of March, A. D. 1938, in the case of S. W. Hughes, Plaintiff, vs. Frank Boerner, Defendant, No. 2854 on the docket of said Court, on a judgment rendered in said Court on the 26th day of January, A. D. 1938, in favor of the said S. W. Hughes and against the said Frank Boerner for the sum of Thirteen Hundred Sixty Seven & 11/100 (\$1367.11) Dollars, with interest thereon from the 26th day of January, A. D. 1938, at the rate of ten per cent per annum, and costs of suit, with a foreclosure of an attachment lien on the following described real estate, to-wit:

Lot No. 7 and 8 in Block No. 129 of the original town of Floydada, Floyd County, Texas, as per plat thereof; and Lot No. 4 in Block No. 71 of the original town of Floydada, Floyd County, Texas, as per plat thereof.

As said attachment lien existed on the 8th day of September, 1937, and on each day since said date on said real estate and levied upon as the property of Frank Boerner and that on the first Tuesday in April, A. D. 1938, the same being the fifth day of April, A. D. 1938, at the Court-house Door of Floyd County, Texas, in the town of Floydada, Texas, between the hours of 10:00 A. M. and 4 P. M., I will offer for sale and sell at public auction, for cash to the highest bidder all the right, title and interest of said Frank Boerner in and to said above described real estate.

Witness my hand, this 5th day of March, A. D. 1938.

FRED N. CLARK,
 Sheriff of Floyd County, Texas.

Floyd County Schools Close For Conference Canyon Fri. And Sat.

Twenty-four Floyd County teachers left their school duties Friday to attend the Northwest Texas Conference for Education which was held at Canyon Friday and Saturday of last week. Schools of the county were closed Friday in order that teachers and educators could attend.

Thirty-three rural teachers, 25 city teachers, and 16 Lockney teachers made up the Floyd County group, headed by County Superintendent Walter Travis.

Principal visiting speakers were L. A. Woods, state superintendent of public instruction; Dr. B. P. Stanger, dean of the school of education at University of Texas; A. J. Stoddard, superintendent of schools at Denver, Colorado, and Dr. Maycie Southall, professor of elementary education at George Embury College for Teachers.

GOOD WILL TOUR APPEARED AT BAKER TUESDAY NIGHT, MARCH 22

G. N. Shirey accompanied by the high school orchestra and their instructor, Carroll Grumish, made their first appearance of the season at the Baker school auditorium Tuesday night.

County Judge Tom W. Deen, accompanied them and gave a talk on the subject, "Advantages of Boys and Girls in America, over Boys and Girls in other Nations."

Liberty News

Editor: Glenna Brewer.
Assistant Editor: Dorothy Brewster.
Sports Editor: J. W. Dillard.
Reporters: Gloria Box and Bobbie Sue Langley.

School News
School was dismissed Friday for the teachers' meeting at Canyon. The mothers of the Choral Singing class spent Wednesday making suits for the pupils in the Choral class.

The Liberty school presented Reta Joy McCormick with a gift box Monday evening. The gifts were from each pupil. Reta Joy has been absent from school some time and we hope for her a speedy recovery. Little Ruben Whitfill has a very painful accident last week when he received a badly lacerated cheek. He is back in school again after a two days absence.

Locals
Mr. and Mrs. C. B. Davis and family visited Mr. and Mrs. Paul Box Sunday.

Mr. and Mrs. A. J. Huckabee and Mr. and Mrs. C. C. Huckabee visited the W. A. Huckabee family Sunday. Otis and Branell Moore and James Eldon Wigington visited J. W. Dillard Sunday.

T. M. Noland spent Sunday in Floydada with Mr. and Mrs. J. C. Warren.
Mr. and Mrs. John Dunlap and sons returned home Wednesday after spending the winter in California.

Little Charlene McCormick who has been ill with tonsillitis is reported better at this time.
Miss Mattie Taylor attended the teachers meeting held in Canyon last week end.

Mr. and Mrs. Collis Rowland spent Saturday night with T. M. Noland.

Mrs. John Dunlap left Saturday for a visit with relatives at Belton.

Mrs. Frank Tatum entertained a group of ladies of this community with a quilting Thursday afternoon. Otis Huckabee attended the teachers meeting at Canyon, Friday.

Mr. and Mrs. Rene Yeary and son Jackie and Marion Yeary spent Saturday night and Sunday visiting relatives near Spur.

Box Supper
A box supper will be held at the school house in this community Friday night, March 25. Candidates are invited to attend.

The Bellview Dramatic club will present a play, "The Phantom Belle" here Friday night, March 25. This is a mystery play and is coming to us highly recommended by those who have already seen it presented.

The Irick boys' and girls' baseball teams were defeated at Aiken by the Aiken teams Wednesday, March 16. The boys' and girls' tennis teams in doubles played also, the Irick boys being defeated by the Aiken boys after the games had first been tied and then the tie played off. The Irick girls were winners of their sets.

Local News
Mr. and Mrs. Everett Rice of Tulsa visited Mr. and Mrs. Roscoe Moreland Sunday.

Mr. and Mrs. Tom Horton and baby of Snyder, Texas, Mr. and Mrs. C. E. Miles of Plainview and Mr. and Mrs. S. D. Mills of Sand Hill spent Sunday in the home of Mr. and Mrs. Eli Horton.

Mr. and Mrs. S. P. Millard visited in the home of Mr. and Mrs. J. B. Burdett of Sand Hill Sunday afternoon.

Mr. and Mrs. Lee Bennett spent Sunday in the home of his parents Mr. and Mrs. O. L. Bennett of Providence.

Mr. and Mrs. W. H. Shearer of Plainview visited in the home of Mr. and Mrs. E. J. Shearer Sunday.

Mr. and Mrs. Pascal Caldwell and family, Mr. and Mrs. Jess Wilson of the East Mound community, Mr. Johnnie Neal and Claud Caldwell of the Cotton Center community spent Sunday in the S. D. Caldwell home.

Marjorie and Joyce Bennett spent Sunday in the home of M. and Mrs. Guynes.

Miss Iola Billington spent Saturday and Sunday with Imogene Millard.

The Young People's Sunday School class enjoyed a social at the home of Mr. and Mrs. Everett Wallace Friday night. The entire class of 34 members was present in addition to several other guests. Refreshments of ice cream and cake were served to the "Reds" to the "Blues."

Mr. and Mrs. Asa Sanderson and family spent Sunday in the home of Mr. and Mrs. Walter Shaddix.

Those visiting in the Geo. Graham home Sunday afternoon were Mr. and Mrs. A. L. Peagan and children, Mr. and Mrs. Hop Robertson and family, Sid Brown, T. J. Penberton, Jimmie Brown, Dock Hampton and Asa Sanderson.

Miss Evelyn Roy of Floydada spent Sunday with her sister Miss Imogene Roy.

H. A. Wallace and son of East Mound spent Sunday in the home of Mr. and Mrs. Everett Wallace.

We are glad to report that Mrs. W. M. Sammann who has been ill for several weeks is improving. We hope that she will be entirely recovered in a very short time.

NEW FUNGICIDE NOT ONLY CONTROLS "BROWN PATCH" BUT COLORS GRASS GREEN

Scientists have combined the practical with the esthetic in a new fungicide for the control of brown patch, a disease of lawn and golf courses. The fungicide not only controls the disease but dyes the grass any desired shade of green.

The United States Golf Association, through its greens workers, cooperated with the Department in the research work, which was under the direction of Dr. John Monteth, Jr.

The base of the fungicide is malachite green dye. The first solutions while effective as a fungicide—were an odd shade of blue that did not fit into the color scheme of any greensward. The scientists then found they could match any grass with the proper shade of green by adding about half-and-half of the malachite green and auramine O, a yellow dye, together with about 2 percent of crystal violet, a red dye. This mixture is just as effective as a fungicide as the original dye.

A half ounce of the mixture, costing about 10 cents, diluted with 2 to 5 gallons of water is sufficient to spray 1,000 square feet of turf. The fungicide keeps the grass green from 3 days to 3 weeks, depending on the weather. A rain before the fungicide has time to dry washes it off quickly. Too, the color will not stand up as long in hot summer weather as in the winter.

Greens keepers on golf courses have used the fungicide and found that it does not harm healthy grass, and improves both the color of uneven greens and the temper of crochety members who blame their poor putting on the uneven color of the putting greens. It also has been used on football gridirons and baseball fields.

The fungicide may be applied with an ordinary knapsack spray, or larger equipment if available.

Ready For Race

Joseph King, proprietor of a tourist camp near Houston, Texas, waves a one-armed greeting to an imaginary audience as he practices for his coming primary campaign to have himself elected governor. King, shown standing before the modernized, shingled-roof log cabin he built himself, believes Texas should be governed by a "man of the people." He lost his other arm in an accident.

BUTTER USED BY ROMANS IN TREATING AFFLICTED

Butter has not always been used for nourishment. The Greeks and Romans used it most largely for medical purposes. Describing the making of butter in the Second century, one authority claimed that it was more satisfactory when used externally. As late as the Seventeenth century butter was sold by apothecaries in Spain for use as an ointment. It is rumored that the good looks of many of the Spanish beauties was due to the use of butter as cosmetic, just as Cleopatra is said to have bathed in milk.

Concerning the part which butter played in commerce in the early days, the Wisconsin department of agriculture and markets makes the following statement:

"Little is known of the part which butter played as an article of commerce in ancient times. However, an early historian states that in the first centuries butter was shipped from India to ports of the Red sea. In the Twelfth century Scandinavian butter was an article of over-sea commerce. The Germans sent ships to Bergen, in Norway, and exchanged their cargoes of wine for butter and dried fish. It is interesting to note that the Scandinavian king considered this practice injurious to his people, and in 1186 compelled the Germans to withdraw their trade.

"Toward the end of the Thirteenth century among the enumerated wares of commerce imported from 34 countries into Belgium, Norway was the only one which included butter. In the Fourteenth century butter formed an article of export from Sweden. It may be fairly inferred that buttermaking in north and middle Europe, if not indeed in all Europe, was introduced from Scandinavia."

DRUMS LONG IN USE

In some form or other the drum was known to the earliest civilizations and to almost every nation. Excavations at Thebes disclosed an ancient Egyptian drum while early sculptures show the drum's use for martial purposes.

HAIR NETS USED BY WOMEN OF EGYPT 1,600 YEARS AGO

Hair nets were used by women in Egypt some 1,600 years ago. This may be confirmed from an exhibit in the hall of Egyptian archeology at Field Museum of Natural History where a net of Roman type, estimated to have been made between the Third and Fifth centuries A. D. is shown in a collection of ancient textiles.

No attempt was made at the invisible achieved in later hairnets however—this net is a heavy knitted ornamental cap-like item in bright red wool. According to museum archeologists, the hair was swathed in linen veils until the head was about twice its natural size and then this net was stretched over the already wrapped and covered crowning glory of the wearer. It was fastened by tying strings attached to it.

Displayed with it are a bonnet and cap, both of linen, with plaid designs. In the bonnet, which resembles in cut what could be termed a sunbonnet, there are embroidered lines in dark brown silk criss-crossing the tan linen. It is edged with blue striped lined. The cap is interwoven with lines of blue silk. Both bonnet and cap consist of two halves stitched together, each half being lined with a coarser linen than that which showed when worn.

THE TAX OF A CONNECTICUT YANKEE

The magazine, Life, in a recent issue, illustrated the place taxes take in the daily life of Mark J. Lacey of New Britain, Connecticut, a public spirited citizen who volunteered to be the "guinea pig" for an experiment.

Mr. Lacey is president of a hardware and tool manufacturing company which has 1,100 stockholders and 800 employees. His salary is \$27,000 a year. In addition to being one of the 2,000,000 citizen who pay a personal Federal income tax, he is one of the 3.5 per cent of that group who earn over \$10,000 a year and pay 86 percent of the total income tax. He is typical of that group of business men who keep the wheels turning in industry to employ the bulk of the nation's industrial wage earners.

Here is the way Life pictures him paying his principal annual taxes: Personal Federal income tax, \$2,086. Tax on his home, \$565. On each of 1,825 packs of cigarettes, a Federal tax of 6 cents a pack, \$110. Liquor for business entertaining, though temperate himself, 58 cents a quart Federal tax, \$174. One-cent a gallon Federal tax on gas, \$26. Theatre admission tax, \$45. Club dues tax, \$40. Toilet preparation tax \$30.

In the fiscal year 1937, his company earned \$170,000 taxable income paid \$58,000 in direct Federal taxes, and local and state taxes of \$29,000, or a total of \$87,000. While his company's sales rose 26 per cent over 1936, its taxes rose 88 per cent.

Life further pictured where some of Mr. Lacey's tax money went: Government employees got \$387 of it; WPA relievers, 567; war veterans, \$185; social security, \$30 which Mr. Lacey pays on himself, and an additional \$32 for social security deficit; public work, \$283; Federal road funds, \$90; national defense, \$308. He paid \$142 into the \$450,000,000 pot for the farmers. The public debt has increased to such a point—\$37,000,000,000—that Mr. Lacey pays \$300 for interest alone on it.

It would look like the government and all the people had a direct interest in encouraging industry in the nation, both large and small, if for no other reason than to have sources able to pay the stragglers tax burdens of government today—Exchange.

FIRST ACT OF CONGRESS

Owing to the lack of a quorum and the delay in organizing the new federal government, no bills were passed by the house and senate for nearly three months. The first law enacted was "an act to regulate the time and manner of administering certain oaths," and it was approved by President Washington on June 1, 1789. The second bill passed by both houses was "an act for laying a duty on goods, ware, and merchandise imported into the United States." This bill was approved by Washington on July 4 of the same year.

JOHN STAPLETON TELLS LIONS SUCCESS STORY OF SCIENCE VS. TUBERCULOSIS

John Stapleton, attorney, who recently began practice in Floydada, told members of the Lions Club Tuesday a success story in the fight of science against tuberculosis, and predicted an even more successful fight during the next twenty years against a disease which at one time in history was the greatest single contributing factor to the nation's mortality rate.

Possibility of the resumption of softball play in Floydada this summer was indicated in a brief discussion led by T. W. Quirk at the club meeting. If members of the club and others interested are successful in their plans, the athletic fund of the high school could be made to benefit materially from proceeds of the games. It was indicated, Mr. Quirk, E. C. Carter and Bill Daily are a committee who will report on progress next week.

Lewis I. Norman presented the program, President Frank L. Moore Presided.

MRS. W. C. CATES HOME FROM HOSPITAL MONDAY

Mrs. W. C. Cates was brought home Monday from a Lubbock hospital where she had been for the past ten days for treatments. While there she was given two blood transfusions. She is feeling improved since coming home.

HOG NUMBERS INCREASE LITTLE OVER 1937

The number of hogs on farms on January 1 is estimated by the Bureau of Agricultural Economics at 44,418,000 head. This is 1,470,000 head of 3.3 per cent larger than a year earlier and the largest number since January 1, 1934. The number was still much below that of any year in the 30-year period before 1935. Nearly all the increase occurred in the Corn Belt States with numbers little changed in other areas. The value per head of \$11.21 on January 1 was 68 cents lower than a year earlier and the total value of \$498,025,000 was about \$12,500,000 less.

FLOYDADA, TEXAS

News Review Of The Week

Monday, March 14

LONDON — Tiny Czechoslovakia, a marooned island of democracy in Central Europe, was the center of international interest tonight as worried diplomats around the world turned anxious eyes upon a power-guzzling Nazi march through Austria. France stood behind the mighty steel and concrete Maginot line with every gun manned and reassembled her files that the Czechs could depend upon her as an ally.

WASHINGTON — The United States will look to Germany to assume Austria's obligations to this country and to guarantee American rights in Austria, informed students of diplomatic affairs said today.

Defense Bill Debated

WASHINGTON — Adolf Hitler's seizure of Austria was basis of arguments both for and against the administration's billion-dollar naval expansion program in the House today.

LONDON — Sir Samuel Hoare, the home secretary, tonight called for a million volunteer air raid precaution workers as part of Britain's answer to the threat of military Pan-Germanism in Central Europe.

BRUSSELS — Germany seemed convinced that it would be an "easy" job to take the three-million Germans in Czechoslovakia under its wing. The Czechs have in the meantime armed to the teeth to prevent such "easy" seizure of their population and territory.

Tuesday, March 15

LONDON — Great Britain and France both studied counter-measures tonight to a possible Italian-German secret military alliance involving Nazi-Fascist bargain over Austria and the Mediterranean. Both countries watching with obvious dissatisfaction the possible insurgent drive sweep the Loyalist forces nearer defeat with German-Italian arms and men.

PARIS — French military officials held an emergency conference tonight to meet what they considered threatening changes in Spain and German-Austria. War vessels were sent to Biscaya to protect French interests as rumors began circulating that the government there was tottering.

TVA Peace On

WASHINGTON — An investigation of TVA by a joint congressional committee including representatives from both House and Senate, seemed today to be the most likely product of the current agitation about the agency.

WASHINGTON — The United States continued today its "agony" policy by continuing to treat Austria as an independent nation, despite the obvious trade benefits and the steel and concrete Maginot line in Germany. According to President Roosevelt the United States knows nothing definite about the armistice of Austria by Germany.

Wednesday, March 16
LONDON — Great Britain today through the House of Commons squarely rebuffed Adolf Hitler. She and France were particularly active in a soldier's war of war fears that involved most countries of central Europe.

VIENNA — Austria's Nazi masters swept away the last traces of her sovereignty today with the effectivity of a new brown. Customs, immigration, mail, censorship, Nazi organizations appeared and with it worry, rumor, demoralization, and sober second thought, but no less real than the control of theaters, food, artillery, blasted Caspe into money, schools, police and hospitals.

HENDAYE, France — Insurgent troops today in an effort to dislodge Spanish government troops menacing the left flank of the insurgent army marching toward the sea.

CHICAGO — A federal court jury tonight condemned John Henry Sandford to die in the electric chair for the \$50,000 ransom kidnaping of Charles S. Ross, Chicago manufacturer. The jury was out one hour and 15 minutes in deliberation.

STARS AND BARS ON U. S. COINS

For the first time in the history of this nation the Stars and Bars of the Confederacy appear on a United States minted half dollar. A replica of the Confederate flag appears on the commemorative half dollar issued by the U. S. government to commemorate the 75th anniversary of the Battle of Gettysburg and the final rout of the surviving remnants of the war between the states. The coins, limited to an issue of 50,000, will sell for \$1.50 each. They are available through the Pennsylvania State Commission, Gettysburg, Pennsylvania.

Thursday, March 17
BARCELONA — Relentless insurgent bombers struck at Barcelona again tonight in the tenth of a series of raids which already have taken 400 lives within 24 hours. It was also believed that at least 1,000 were seriously wounded by the falling bombs.

LONDON — Britain's cabinet and dominant conservative party split wide open today over Prime Minister Chamberlain's capricious foreign policy. The result piled an internal crisis on top of a nation already deeply alarmed over the dynamic-laden European situation.

Search for Kidnaper

BALLINGER — West Texas officers pressed their search tonight for the kidnaper of S. D. Barlow, Lubbock resident who escaped his abductor by leaping from an automobile traveling at a high rate of speed. The kidnaper had been picked up by Barlow about 30 miles from Lubbock.

BERLIN — German-Austrian union today loomed as the burden of the declaration Adolf Hitler will make tomorrow night to the Reichstag. Dissolution of the present Reich and the calling of new elections was taken for granted. Tension between Poland and Lithuania was considered diminished.

Friday, March 18

WARSZAWA, Poland — The danger of war between Poland and Lithuania hung over Europe tonight even more ominously than ever. Peace depended on Lithuania's acceptance of a Polish ultimatum that will expire tomorrow. Poland has an army 15 times as strong as that of Lithuania and victory appears certain for her if war should result.

HENDAYE, France — Spanish insurgents hammered their wedge deeper into government-held territory today in the drive for the Mediterranean seaboard. Motorized columns were reported approaching within five miles of Cabelona bound.

Insurgents reported little resistance from government forces.

Adolf Hitler Speaks
BERLIN — Adolf Hitler tonight held up Austria's fate as an implied warning to Czechoslovakia. He asked the Reichstag for another four years that he might complete the tasks ahead.

Hitler thanked Mussolini again for his approval of the Austrian conquest and pledged that Italy's frontiers remain inviolate so far as Germany was concerned.

LONDON — Herbert Hoover said today that he did not believe an European war was at all probable in the immediate future. He stated that he meant a "general war" but would not elaborate on his statement saying that he preferred not to discuss European politics in Europe.

SATURDAY, MARCH 19

NEW YORK — Big American oil interests, surprised by the unexpected Mexican seizure of expropriation, today began planning a legal and diplomatic battle to regain control of their property as their next step in their long controversy with the Mexican government and Mexican labor.

AUSTIN — Governor James V. Aldred announced tonight he would retire from office at the end of his present term and enter the private practice of law in Austin. The governor made what he considered the "momentous decision" in an "eagerly waiting state" from the governor's mansion by radio.

War Clouds Break

KAUNAS, Lithuania — Lithuania surrendered in advance today to the Polish bayonets on her border, pending eagerly to Poland's ultimatum to prevent blood spilling. The Lithuanians are certain to keep the Poles in mind for later reckoning and this incident will continue to be a sore spot in Europe.

NEWARK — Stanley Thomas Jansky, charged with extortion in connection with the kidnaping of 15-year-old Peter Levine, was reported today to have told G-men that he knew who committed the crime and that the child was dead. The Federal Bureau of Investigation tonight accused Jansky of writing an extortion letter demanding \$25,000 ransom.

Sunday, March 20

MEXICO CITY — United States Ambassador Joseph Daniels today asserted "no information" is that the majority of the Mexicans are with President Cardenas' backing expropriation of the \$400,000,000 foreign-owned oil industry. All legal steps would have to be taken before any diplomatic help could be expected the consul asserted.

WASHINGTON — Whatever happens when President Roosevelt's ultimatum to Chairman Arthur E. Morgan of the Tennessee Valley Authority expires Monday afternoon, press observers are convinced an intensive congressional investigation of the TVA's internal strife will begin.

No War, Hope

LONDON — The war clouds and dust that billowed so alarmingly last week have eased back beyond the horizon. How soon they will appear to obscure the peace of the nations can only be guessed. In Spain revolt continues with defeat starting at the Loyalists. In China war continues as the Japs push deeper in to China. Germany threatens the Czechs with division. The powder keg still smokes with the top of waiting a spark.

WASHINGTON — Army and navy officers will study plans here next week, the War Department announced today, to put more than two-million men under arms within four months of a declaration of war.

Writing Staff, Hesperian.

P. A. Tannahill, 82 Years Old Buried At Lockney Monday

Funeral services for Porter A. Tannahill, 82 years of age, were held at 10:30 a. m. March 21 at the Baptist Church at Lockney, with the pastor A. L. Shaw officiating. Death came at 1 o'clock Sunday afternoon after an illness of several weeks.

The deceased is survived by one brother, E. L. Tannahill, two sisters, Mrs. W. M. McOber and Mrs. E. E. Whitted, of Fort Worth; thirty three nieces and nephews, three nephews and one great niece who are children of the late G. E. Tannahill of Lockney.

Burial was made in the Lockney cemetery with the Crager Funeral Home in charge.

POETRY IN SCHOOLS

Since our schools have become concerned of the value of poetry to a child and teach so much of poetry from its many angles and sides, it seems a timely topic.

The successful man is the man who meets crises. Poetry develops some emotional feelings, feelings develop character and character is the man in the main.

Poetry is the artistic utterance of life. Its rhythmic beats are pulsatile and natural. Its tone, high and low, strong and weak, the words flow.

Poetry is one of the best means of keeping the mind busy. Poetry to read and commit to memory, poetry to see as we contact life, poetry to construct, after all the builder is greatest.

The artistic value of poetry has held sway for many years. It portrays the broadness of life. In poetry you find that for which you look: humor, pathos, pity, hope, emotion, duty, daring, passion, special days, appetite, politeness and those of pure philosophy and beauty.

With the help of poetry in its any good phases, especially that

of causing one to think and build beautiful and noble thoughts, our school children should be able to overcome crisis in a more forceful manner and be better citizens of tomorrow.—Lillie Littrell Looney.

MAYOR F. H. LA GUARDIA WILL SPEAK AT CHAMBER OF COMMERCE CONVENTION

WICHITA FALLS, Tex., March 21—Mayor Fiorello H. LaGuardia, of New York City, scheduled to be a principal speaker before the twentieth annual West Texas Chamber of Commerce Convention, in Wichita Falls, on April 25, 26 and 27, will address the general assembly on Tuesday afternoon, April 26.

Mayor LaGuardia, chief executive of America's No. 1 city, is one of the most colorful figures in public life in our country today. His address before the WTCC Convention here in Wichita Falls will be one of the most popular programs, and should attract national attention, Mr. Bridwell said.

Mrs. J. W. Chapman, Miss Chapman, Ray, Neida, Ruth and June Chapman were in Lockney Thursday attending the musical.

Are You GUILTY of neglect . . . ?

Protect your investment, your wheat crop, your home, your car are all investments . . . don't let hail or tornado destroy them without being insured.

HAIL OR TORNADO

Nearly each week we hear of a town or city damaged by tornado . . . homes destroyed . . . lives lost. Insurance will not prevent but it will protect.

Now is the time to get HAIL protection for complete coverage.

A Complete Line of Combines

A SIZE FOR EVERY FARM

The Number 6

A small 6 foot machine for the small farm, power driven from your tractor. A one man combine simple and easy to operate.

The Number 7

A small 8 foot combine, built along the regular lines for small farms and handy in cutting around irrigation ditches and between terraces.

The Number 5A

A 12 foot machine (can be supplied with a 2 foot extension) with large threshing capacity has 24 inch cylinder. This machine will handle the biggest yields easily.

The Number 17

A 16 foot combine (can be furnished with a 2 foot extension) with very large threshing capacity, has 30 inch cylinder, is simple and light for this size machine.

The Number 36

This is a 20 foot combine (Was formerly the Caterpillar Combine) for the big grain grower with the large acreage. The general design of this machine is practically the same as before, it is a wonderful machine.

If you are thinking of buying a combine this year it will pay you to see us before doing so.

THEATRE

BOY, I'M GOING TO MARRY A MOVIE QUEEN, SOMEDAY.

THAT'S NICE. I'M GOING TO MARRY A DUTCHMAN WHEN I GROW UP.

WHAT MAKES YOU THINK YOU WANT TO MARRY A DUTCHMAN?

SO I'LL BE A DUCHESS!

P. T. A.—

(Continued from page 1)

organizations—Lockney, Floydada and Tahoka—will be heard as well as a sextette of local singers. Lockney and Floydada singers in a friendly musical contest will also be presented with Paul Conner as master of ceremonies. Floydada high school concert band will play.

Two original pioneer plays depicting incidents in the lives of Floyd County pioneers will be presented on the Friday night's program that are sure to be interesting. In one of these a granddaughter of the county's first pioneer woman will take the role of her grandmother, and in another two cowboys will have prominent parts in roles they played in real life forty years or more ago.

About 25 counties are embraced in the area of the Fourteenth District.

Birthday Luncheon

Saturday noon a birthday luncheon at Andrews Ward Gymnasium will be given with Misses Hinson, McCleskey, Tye, Martin, Travis and Leifried as hostesses, and a program featuring youthful talent of Floydada in music, rhythm and dancing will be given, and a tree planting ceremony at which early leaders in local and district P. T. A. work will be honored will be held at 1:30 Saturday afternoon.

Local committees on whose shoulders have fallen the work of preparing for the conference are Mrs. Walton Hale, general chairman, Mrs. Robert McGuire, publicity, Mrs. Roy Snodgrass, finance, Mrs. L. T. Bishop, luncheon, Mrs. G. E. Bond, music, Mrs. A. D. Cummings, registration, Mrs. J. A. Arwize, badges, Mrs. B. K. Barker, decoration, J. H. Myers, tree planting, Mrs. A. B. Keim, information, Mrs. A. N. Branton, program, Mrs. John Maxwell, transportation, Mrs. Frank L. Moore, question box, Mrs. A. D. Cummings and Mrs. J. N. Johnston, exhibits, and Misses Marjorie and Ruby Norton, messes.

Pages for the conference will be Gloria Hammonds, Dorothy Dell

Stovall, Robertine McIntyre, Sappho Ward.

Mrs. Hale, general chairman of the convention planning committee, was high in her praise last week for the manner in which all committee workers were helping and co-ordinating their efforts.

'Sixty-Fivers'

(Continued from Page 1)

"The former of the organization envision the holding of a state convention in which the alleged unfairness and cruelties of the present setup will be exposed and which will put state candidates on record as to their attitude in this respect. Dozens of brief talks were made in the meeting, and every corner of the county was represented.

To enlist support from all sections of Texas the secretary of the organization was instructed to write the judge of every county in Texas calling attention to the organization's formation here and attempting to get similar organizations under way in their respective counties.

"We do not want this association to be a short-lived one. We think we know what we want to accomplish and do not intend to let the idea be talked to death or pigeonholed in some desk," President Puckett reiterated this week. "There is no reason why the idea should not catch on all over Texas, and we believe it will." Several of the members enrolled in the association here, including Mr. Puckett, have been and are now engaged in farming and other lines of industry.

Seeking Memberships

In the by-laws and rules adopted by the association Saturday it is made plain that membership in the organization is voluntary, that no fee or stipulated fee must be paid to join or retain membership, that none shall be embarrassed because of lack of funds, but that funds obtained will be given by free will offerings. Several dollars were donated during the meeting to carry out the expressed wishes of the meeting for informing other portions of the state of the activities here.

 ance, for the future generations. These demonstrations are cooperated by the County Agricultural Agent, D. P. Bredthauer, who is constantly collecting information from the many sources and distributing this to the demonstrators. The county agent is conducting a demonstration providing cover and food for the demonstrators.

One hundred and fifty game preserve demonstration signs have been distributed over this area by the County Agricultural Agent, D. P. Bredthauer.

GRANDMOTHER OF HAROLD MERRICK DIED AT HOME IN CLYDE LAST MONDAY

Mrs. J. W. Merrick, 91 grandmother of Harold Merrick died at her home in Clyde Monday morning at 2:30 following a stroke some two weeks ago. Funeral services were conducted at Eula Methodist Church Tuesday afternoon at 2 o'clock and interment made in the Eula cemetery, a rural community out from Clyde.

Deceased is survived by her husband, J. W. Merrick and nine children, also a number of grandchildren.

Mrs. Maud Merrick, a daughter-in-law, and Harold attended the funeral going to Clyde early Tuesday morning and returning home Wednesday.

Wallace King left with his father for Temple the first of the week, where the elder Mr. King will go through a clinic.
