VOLUME 45 FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, JULY 28, 1938. NUMBER 24

## Majority Primary August 27 To Decide Six State Races

### Five Candidates Given Majorities For State Honors

#### County Portion Of Ballot Expected To Have Three Precinct Contests

Apparently democratic voters of the State of Texas have made clean-cut decisions in only 5 of 11 state-wide races, and the remaining 6 will be determined on Saturday, August 27. This is based on figures furnished up to this mid-week by the Texas Election Bureau.

But in Floyd county only three races, none of them county-wide, are to be determined yet. They are: The commissioners race in Precinct 4, where J. N. Nelson and C. M. Lyles will battle for favor on August 27.

The public weathers race in Precincts 1 and 4 between Harold Terry and W. L. Finley, run-off favored.

And justice of the peace of Precinct No. 2, where D. C. Lowe, incumbent, is due to go on the ticket with O. T. Prickett. Lowe had a heavy lead in that race in the first primary.

Official tabulations will not be made for several days but at this time it appears that the following will be in the run-off on August 27 for state honors:

For lieutenant governor: Pierce Brooks of Dallas county, and Coke R. Stephenson of Kimble county;

For commissioner of the general land office: Wm. H. McDonald of Eastland county, and Bascom Giles of Travis county;

For attorney general: Gerald C. Mann of Dallas county and Walter Woodul of Harris county;

For railroad commissioner: C. V. Terrell of Wise county and G. A. Jerry Sadler of Gregg county;

For associate justice of the supreme court: Richard Critz of Williamson county, and W. H. Davidson of Jefferson county;

For judge of the court of criminal appeals, unexpired term: Harry N. Graves of Williamson county and James A. Stephens of Knox county.

Already named by clear majorities, unofficially shown are:

For governor: W. Lee O'Daniel, of Tarrant county, with a majority of probably 30,000 votes over all opponents;

For comptroller of public accounts: George H. Sheppard of Nolan county, with a majority over two opponents of about 2 to 1;

For state treasurer: Charley Lockhart of Travis county, with a strong majority over two opponents;

For state superintendent of public instruction: L. A. Woods, whose majority over two opponents was indicated Wednesday at about 15,000; and

For commissioner of agriculture: L. E. McDonald of Ellis county.

#### County Vote Strong

The vote in Floyd county appears to have been within about 5 per cent of the total possible vote, counting all overs and unders. Nearly 3,100 votes were cast in the county. An estimated 31,124 could have cast ballots.

### Nine-Mo. Affiliated School Voted Friday By So. Plains Board

The school board at South Plains last Friday voted to have a nine-month affiliated school for the school year of 1938-39 up to and including the ninth grade.

Pupils of the tenth and eleventh grades will be sent to the Lockney high school under an arrangement with the school there, South Plains furnishing the school bus for transportation.

### Choosing Eligible 4-H Club Boys To Attend Lake Meet

County Agricultural Agent D. F. Bredthauer and local sponsors are now visiting 4-H club projects and going over record books to find 4-H members who will be eligible to attend the three-day encampment and short course at Silver Falls lake.

The encampment is arranged for August 11, 12 and 13, and will take care of 200 boys from the south plains area. Floyd county has a quota of 10 boys assigned.

Mr. Bredthauer this week advised all members who are interested in attending the encampment to contact their local leader or the county agent at once.

## \$150,000 PWA Grant, Loan Asked

### Ayres Home Monday After Filing Application With PWA at Fort Worth

City of Floydada's application for a loan and grant for the construction of a light and power plant and transmission lines was filed last week-end with the Public Works Administration at Fort Worth, Ben P. Ayres, city attorney, representing the city in the formal application. Ayres returned home Friday. The application was filed after conferences of the city attorney, city engineer Carl Cox of Amarillo, and City Secretary S. E. Duncan, the latter furnishing details of the city's fiscal affairs and Cox the engineering specifications.

According to the city's request now on file a loan of approximately \$82,500 would be made and a grant of approximately \$67,500. The city asks for an interest rate not to exceed 6 per cent but hopes to obtain a rate of 4 per cent or thereabout on the loan.

The security authorized in the special election in May of 1936 by taxpayers of Floydada would be pledged for the loan, namely, the revenues from the light and power system and not to exceed \$400 per month of the revenues from the waterworks system of the city.

### HOME BURNS WHILE FAMILY IS IN TOWN ATTENDING ELECTION RETURNS PARTY

While D. W. Burke plowed in the back of his field and the rest of the family was in town attending the election parties, their home burned with practically all of the personal effects of the family, as well as household goods.

Origin of the fire was a mystery. When Mr. Burke saw the blaze from his field he had no way of getting to the house quickly enough to save anything, and neighbors who came in also arrived too late. A telephone call to the local fire department was regretfully declined. Statute does not permit the department to take its equipment from the immediate environs of the town, fire department officials said.

The Burke family live on the R. G. Lewis farm 9 miles west of Floydada.

## Farmers and Business Men Demand Change in Freight Rates That Discriminate

### Charge Hawley-Smoot Bill Reason For Enforced Retirement of Land Here

Charging that the Hawley-Smoot tariff bill is directly chargeable with the fact that more than 100,000 acres of Floyd county land has had to be retired from cultivation in the past five years and urging that discriminatory freight rates against United States citizens are helping to ruin American agriculture, farmers and business men of Floyd county, in their session at the district court room in Floydada Saturday, sent wires to Secretary of State Cordell Hull and to the Interstate Commerce commission voicing their opinions in no uncertain terms.

In their wire to the Interstate Commerce commission, the citizens said:

"According to Honorable Marvin Jones in a speech in the house, the freight rates on two plows shipped from Indianapolis, Ind., to Galveston, Texas, in the same car, one to be sold to our competitors in other lands carries a freight rate of 44 cents and the other to be sold to a Texas farmer has a rate of \$1.04.

"Is this true? If so, we 250 farmers and business men of Floyd county, Texas, demand that this be changed immediately."

### Paralyzed World Trade

To Secretary of State Cordell Hull and the tariff commission the farmers and business men were none the less emphatic. They said:

"The Hawley-Smoot tariff that paralyzed world trade and forced farmers and business men of Floyd county land out of production and 7000 people out of work was passed in a few days without our knowledge.

"We sincerely congratulate you for the wonderful work your commission has done in completing trade agreements with sixteen countries, however we expect to have to retire further land in this county next season because of the probable four hundred millions of surplus wheat we will have.

"We appreciate the difficulties involved in making these trade agreements; the care that must be exercised to avoid mistakes, but our (See Farmers Demand, back page)

### Home From Long Trip To File Suit On Land

A Vermont insurance company is defendant in the suit.

### SANITARY PROJECT STILL OFFERS AID TO CITIZENS FOR BETTER EQUIPMENT

Better equipment for home sanitation where sewage disposal is not available is offered to citizens of Floyd county through the WPA sanitary project, R. M. Teague, solicitor, reminds this week.

In addition to the better sanitation facilities offered, the work thus made possible gives employment to several men on the WPA rolls. Teague said, 15 to 21 men are kept busy.

### Red Cross Asks \$165 From Floyd Disaster Relief

Floyd county is asked for \$165 by the American Red Cross to relieve suffering and distress in the hill country of Texas.

Disaster has hit San Saba, McCulloch, Menard and other counties along the Colorado river and its tributaries. 970 families are affected, 127 homes destroyed, 650 homes damaged.

Charles Bedford, treasurer of the local chapter, in the absence of Geo. A. Linder, county chairman, and Walter Travis, vice-chairman, is asking Floyd county people to raise a quota of \$165 for relief immediately.

\$100.00 is needed quickly, Wm. M. Baxter, Jr., southwestern division chairman, of St. Louis, wired the chapter here Tuesday.

"Your chapter should make an immediate and vigorous appeal to secure quota of \$165," Baxter says in his telegram.

Donations may be left with Mr. Bedford, the treasurer. Also donations are authorized to be received by The Hesperian which will receive and receipt for all moneys turned in. Use the blank below:

The need is immediate, and fund are urgently asked to be made up before the end of the week, Mr. Bedford said.

## Democratic Convention on Saturday

### Meeting At 3 O'Clock Expected To Name O'Daniel Men Delegates

County convention of the Democrats of Floyd county were called this week to meet at 3 o'clock Saturday afternoon in the county court room to name delegates to the state convention, by Homer Steen, county chairman.

The meeting will follow a session of the executive committee beginning at 9 o'clock Saturday morning when the results of the election last Saturday will be tabulated and the results certified to the state committee and local authorities. Several hours will be consumed in this clerical work on the part of the committee.

Precinct chairmen and other democrats are urged by the chairman to be present.

"Although the convention is expected to be a formality in its general aspects, my belief is that the convention should name a delegate or delegates to the state convention instructed to give the newly-nominated governor support in whatever policies he may formulate," the chairman said. "This is the usual courtesy shown an incoming nominee for the governorship."

So far as officially reported to date there were no precinct conventions held in the county on Saturday last.

## Election Parties Draw Big Crowds Saturday

Many hundred people, possible as many as 2,000, gathered Saturday night at the Hesperian election party to get returns on state and county balloting, and stayed until a late hour. Nearly a thousand were still on hand at 12 o'clock midnight when the late returns gave O'Daniel a lead indicating he might be a majority nominee.

Texas Election Bureau which heretofore has crowded the local receivers on state-wide races, apparently was bogged down and bulletins here were nearly an hour late.

The party staged on California street by business men there, The Plainsman and the Palace Theatre, and the Brown-Williams Sound System, also drew good crowds. The returns were flashed on a screen opposite the theatre and were announced by way of loud speaker. The Plainsman issued bulletins on the progress of the vote, the effort being supported by several business men who had advertisements in the bulletins.

The Hesperian Sunday morning issued an 8-page extra which had complete returns on all local races, the state vote so far as reported by the Texas Election Bureau, and on races in most of the neighboring counties.

### COUNTY SCHOOL BOARD MEETING SET FOR MONDAY

### DEPUTY SHERIFF HOLLUMS HOME FOLLOWING OPERATION

## Old Settlers Meet At Memorial Park August 11 and 12

Thirteenth annual re-union of West Texas old settlers will be held on August 11 and 12. Placards are out announcing the event and preparations are being made on the ground by R. B. Smith at the Hank Smith Memorial park.

Meetings are held annually at the park, where a hundred acres or more have been dedicated by Smith in memory of his father and mother, Mr. and Mrs. Hank Smith who were the first white settlers to undertake a residence in this region.

The rock house which the pioneer built for a residence still stands and is occupied as a home by R. B. Smith and family. Geo. W. Smith, another son, is general manager of the meeting this year. Glad Snodgrass, of Floydada, is president.

Editorial

THE O'DANIEL VICTORY

The Ohio Irishman who came to Texas a few years ago and along this spring surprisingly found himself a candidate for the governor of the State of Texas, has demonstrated the Irish can do anything they try.

People of the state just naturally like his style, his way of saying things, his homely philosophy, and the way he puts big issues into little words. The folks folks just naturally took W. Lee to their figurative bosoms, and in thousands of Texas and other southwestern homes there were prayers for his success in the race, and prayers now that divine goodness will give him wisdom when he steps into the chair of the governor on January 1.

NOT SO SURPRISING

Only to those who substituted their own desires for the facts was the deluge of votes for Mr. O'Daniel greatly surprising. Even to such as The Hesperian, (this newspaper wanted very much to see Mr. Thompson chosen instead) it was plain that in the kitchen, on the farm, in the work shop, the candidacy of the flour salesman had caught on.

Bubbling over with happiness, the newly nominated governor-elect has been besieged by newspapermen and photographers from everywhere. He has been the toast of many radio programs.

Far be it from us to take one whit from his happiness, from the flush of the victory so justly his. He will be our governor as much as he will that of the most ardent supporter he has had.

RACES THAT ARE DETERMINED

On the face of unofficial returns the people have settled the nominations for governor by choosing Mr. O'Daniel; the nomination for comptroller with Mr. Sheppard. For treasurer there has been re-nominated Mr. Lockhart, for superintendent of public instruction Superintendent L. A. Woods, and the Ellis county McDonald seems to have agriculture commissioner secured up.

SECOND PRIMARY IN AUGUST

Candidates for office, state, county and precinct, whose success in the second primary depends on a heavy vote, will have to do some heavy wood shelling to get results in Floyd county. With all so-called major local races settled, and the governor's business out of the way, there will be little heat, and the interest just so, without an injection of personalities.

There remain to be settled some important races, however. As for instance, the lieutenant governorship, the attorney general, railroad commissioner, land commissioner, supreme court judgeship, the judge of the court of criminal appeals.

The railroad commissioner's job is a more important one than that of governor, although not so flashy, not so eye-filling. The attorney general's office needs great ability that it sometimes does not get, and the supreme court judgeship is a vastly important thing, not to mention the others.

JUST A COUPLE OF 'HAS BEENS'

FROM WHENCE THE ASHES?

Along the edge of the east plains, through Briscoe, Floyd and Dickens counties, where the escarpment in the earth's surface marks the plains from the hill country below, there are surprising thousands of tons of volcanic ashes. Outcroppings found in at least four locations indicate the probable presence of the ash nearly all along the length of some sixty miles.

How much the ashes will be worth to the owners of the land will depend on how anxious the owners get to dispose of their holdings and how soon the makers of soaps, cleansers, tooth paste, et cetera will be needing these deposits.

It is interesting to speculate on the subject of whence the ashes. Probably the scientists have examined the deposits and know from comparison where they originated. It had to be many, many years ago, at a time when water still covered the land. Perhaps as the water receded they left the heavy burden of ashes they may have carried for years at this convenient spot, while the mountain which spewed them out, dried up and lost its identity when forests gradually overlaid the gaping wound with a coat of green.

THE RIO GRANDE ASLEEP

The Rio Grande is just a narrow thread of a stream this summer. Its upper reaches and tributaries have lacked heavy rainfall, at least heavy enough to more than supply the needs of those hundreds of miles upstream who use its water to irrigate.

Travelers say you can almost step across the stream away down toward its mouth, and the lack of water has been serious in that whole area. The Rio Grande is the Rio Grande still, though. When it gets ready to demonstrate its might, it is a huge, raging thing. Meanwhile it sleeps.

A MOST DELIGHTFUL SEASON

Who of all those who say mean things about the plains weather, can remember a more pleasant summer than we have experienced this year in Floyd county? Hot, somewhat at times, but where not where things grow and flourish?

Day after day of beautiful sunshine, mingled with rains and showers. Remember all the fine days you've had, please, the next time you begin to compare unfavorably your own country's climate with that of some other.

FOREIGN DEVIL

It is easy to suspect the outlander of being a worse man than you are. It is easy to hate the man whom you don't know intimately. It is easy to get into the notion that being a foreigner is some sort of crime.

If you go to China, especially to the remote sections of the country, you become, automatically, a "foreign devil." You are foreign because you weren't born there. You are a devil because you are foreign.—Dallas News.

Only female wasps and hornets can sting; males make no effort to guard the nest.

As A Farm Woman Thinks

Nettie Will Spikes

The table is set for two these days. The children went one by one their separate ways.

When the childhood days were done. How healthy and hungry they used to be!

What romping they used to do! For weeping I can hardly see. To set the table for only two.

Mrs. Bettie Cantrell of Floydada expresses herself in the little poem above which she kindly sent to me after reading about my husband and I being alone. How much she brings to our hearts in the few lines. We see a table set with many plates—children, hungry after their play—we see a woman wiping her eyes as she sits only two plates.

But the extra plates are in the cupboard—Mrs. Cantrell, and at times our children will sit round our table again. And other little boys, with mischievous eyes and hands—pretty little girls with eyes of blue and brown, will fill the empty spaces around our tables and in our hearts.

Thank you dear lady for your poem.

Mr. Spikes and I put on our holiday garb and went to a picnic way down in Dickens county to the old town of the same name to an old settler's reunion. It was odd to walk around among the many old settlers, see them shake hands and wipe tears away at the greeting of old friends, odd that we knew no one, although in days gone by we knew many from the brakes. We felt better when we met Mr. and Mrs. Newsome of Floydada and their fine son.

Then Lum Collett came, but we'll let him tell it. "My wife and I sat one night talking late. After a night's sleep—upon awakening—my sight was gone—total blindness, but I am well."

Oh Mr. Collett, you have so much to think over, your life has been so full. Buffalo hunting when a boy, seeing the wagons loaded with dried hides and the prairies covered with bleaching white bones, riding the bronco over the rich green prairie, swinging the lariat over the fine fat calves.

Gathering the ruby red wild plums and the satiny black grapes, lighting the prairie fires, black soot in your hot sweaty face, fishing for the sun perch and listening to the call of the blue quail and the rustling of the cotton wood trees. Holding a dying cowboy tenderly so that he could drink one

more drink from the cool hillside spring. Meeting old friends and new at the reunions, talking over the past, knowing old friends by their voices as you once knew them by their faces.

And I know that the pictures spread now are not for you—you have priceless beautiful pictures to look at that no vision can dim.

We turned a corner of the old rock courthouse and met Hamp Collett. Now Hamp lived in the brakes but he came to Emma. No he is not an old head of mine. He had no favorites among the girls. At Christmas every girl in Emma was given a remembrance and Hamp passed around the pecans, candy and wax with a free hand alike to the girls.

We drove from the little city to the Croton brakes. If you have not driven that way, you have missed something. "Tough" is how it is called. But that does not begin to tell it, deep gorges, that cowboy long ago could not get cattle from, hills covered with huge rocks, red rocks, white gyp rocks, rocks that are flat and almost black. We watched with fascination as the road crew built in the new highway; two huge cranes scooped up rocks from the hills, swung out their long arms of steel and dumped the load into waiting trucks. Men fed the rocks into a mighty crusher whose iron jaws tore each mouthful into gravel. All this that we might glide over a smooth highway.

One red hill that had half of it cut away wore an intricate design on its red side. A design picked out in minute detail with white rock. We wished for a kodak but what would one tiny bit of this majestic spread on each side of the highway mean on a small picture shown to the ones at home?

Why do we long for the sights of the world when beautiful scenes are in sight of us? As I looked, I could envision scenes of the past, see the giant mastodon as he fed on the green hillside. Giant wolves and a specie of camel, now extinct, roamed these brakes. Dainty three-toed horses and the giant lizard. And Indians dressed in war paint and plumed bonnets shot their arrows at the herd of grazing buffalo.

Again we have had a part in making history of Texas. Sitting at a scarred table, given a printed ballot and a short cedar pencil, we settled the candidate question our own way, and when they were counted the minority had to give way—gracefully or ungracefully to the wishes of the majority. We look across the waters to where the sword is settling the questions of the day and give thanks to the little bit of cedar pencil grown and made on our own free soil.

WASHINGTON LETTER BY SPECIAL CORRESPONDENT

WASHINGTON — The month of August introduces a succession of state primaries in the New Deal-unit New Deal battle royal.

Kansas, Missouri, Virginia, and West Virginia nominate congressional and other candidates on Aug. 2. Aug. 4 Tennessee will nominate and virtually elect a senator and governor. And on Aug. 6 Kentuckians will end speculation over whether they want the New Deal's "Dear Alben" Barkley, or Gov. "Happy" Chandler to occupy their chair in the senate.

In Roosevelt's urge and purge trip he skirted the fight for the Democratic senatorial nomination in Missouri, Senator Bennett Champ Clark, New Deal foe, has been conceded the nomination. But former Speaker Willis Meredith of the Missouri legislature, who is "proud to be a Roosevelt rubber stamp," and Joe Davis, a St. Louis lawyer, may poll a big pro-Roosevelt protest vote against Clark.

In Virginia, William E. Dodd, Jr., son of the former ambassador to Germany, has been backed by the New Deal to run against Congressman Howard Smith, one of the members of the House Rules Committee who tried to shelve the wage-hour bill Smith is supported by Senator Byrd's machine.

Kansas Democrats are expected to renominate Senator George McGill, loyal New Dealer, and Democratic Gov. W. A. Huxman. The real contest in Kansas is between Republican ex-Gov. Clyde Reed and Clergyman Gerald Winrod for the senatorial nomination. Reed is a progressive who quarrels with the Landis-Hamilton clique, while Winrod is accused of conducting an anti-Catholic, anti-Jew, anti-Roosevelt campaign.

In Tennessee Senator George L. Berry and Gov. Gordon Browning are teamed up against Attorney General Tom Stewart and Prentice Cooper, a former state senator. Berry and Browning are backed by the state machine; Stewart and Cooper by Ed Crump's Memphis machine.

and the New Deal. Senator Barkley is the favorite in the Kentucky fight, but Chandler is a vigorous campaigner and has the support of a powerful state machine. Roosevelt has given Barkley his generous blessing, and a Chandler victory would be the worst political defeat the president ever suffered.

The efficient four-room cottage above is typical of those approved under the Federal Home Building Service Plan. The floor plan is shown at right.

THE day when the small home builder had to "shop around" for a design for his house is just about ended. So say officials of the Federal Home Loan Bank Board in Washington, who are now making available to the homeseeker of moderate means the largest selection of good small house designs ever offered in the United States.

The plans are being offered through the board's Federal Home Building Service Plan, a far-reaching program of supervised construction which already has been adopted by some 120 savings and loan associations in 42 communities.

THE 300 designs already approved mark a new era for the small home builder, according to Donald H. McNeal, technical director of the Bank Board, who explains that the architectural profession previously had never found the small home field worthwhile.

As deputy general manager of the Home Owners Loan Corporation, a subsidiary of the Bank Board, McNeal saw his agency forced to reconduct nearly half of the million homes it tried to save, in order to make them

RESENTS SLURRING REMARKS ATTRIBUTED TO HESPERIAN: PROUD OF W. LEE O'DANIEL

Floydada, July 24, 1938.

Dear Sir: In your paper this morning we read the slurring remarks you make against our W. Lee O'Daniel. "A silver-tongued flour salesman" and other things. Anyway, you made it plain you did not vote for him.

I imagine the ones who were not on the "music wagon" this morning felt left far behind.

We "common people" are proud we are smart enough to elect the man we want. We know it is going to be humiliating for you and the few like you to have this "Hilly Billy" radio crooner for governor. But we love him and like this music. So you that don't will just has to "turn off your radio."

If W. Lee O'Daniel should ever want to run for president we, the common people, will do as much for him as we have this time. Long live our W. Lee O'Daniel.

We are several of your "Used to be" Subscribers.

### Sunday School Lesson

#### SAMSON: STRENGTH AND WEAKNESS

International Sunday school lesson for Sunday, July 31.

Golden text: Be strong in the Lord, and in the power of His might. Ephesians 6:10.

Lesson text: Judges, chapters 13 to 16. Printed text: Judges 14: 5, 6; 15: 11-14; 16: 15-21.

Judges 14: 5, 6—  
5 Then went Samson down, and his father and his mother, to Timnath: and, behold, a young lion roared against him.  
6 And the Spirit of the Lord came mightily upon him, and he rent him as he would have rent a kid, and he had nothing in his hand: but he told not his father or his mother what he had done.  
7 Ch. 15: 11-14—  
11 Then three thousand men of Judah went to the top of the rock Etam, and said to Samson, Knowest thou not that the Philistines are rulers over us? what is this that thou hast done unto us? And he said unto them, As they did unto me, so have I done unto them.  
12 And they said unto him, We are come down to bind thee, that we may deliver thee into the hand of the Philistines. And Samson said unto them, Swear unto me, that ye will not fall upon me yourselves.  
13 And they spake unto him, saying, No; but we will bind thee fast, and deliver thee into their hand; but surely we will not kill thee. And they bound him with two new cords, and brought him up from the rock.  
14 And when he came unto Lehi, the Philistines shouted against him; and the Spirit of the Lord came mightily upon him, and the cords that were upon his arms became as flax that was burnt with fire, and his hands loosed from off his hands.  
15 Ch. 16: 15-21—  
15 And she said unto him, How canst thou say, I love thee, when thine heart is not with me? thou hast mocked me these three times, and hast not told me wherein thy great strength lieth.  
16 And it came to pass, when she praised him daily with her words, and urged him, so that his soul was vexed unto death;  
17 That he told her all his heart, and said unto her, There hath not come a razor upon mine head; for I have been a Nazarite unto God from my mother's womb: if I be shaven, then my strength will go from me, and I shall become weak, and be like any other man.  
18 And when Delilah saw that he had told her all his heart, she sent and called for the lords of the Philistines, saying, Come up this once, for he hath shewed me all his heart. Then the lords of the Philistines came up unto her, and brought money in their hand.  
19 And she made him sleep upon her knees; and she called for a man, and she caused him to shave off the seven locks of his head; and she began to afflict him, and his strength went from him.  
20 And she said, The Philistines be upon thee, Samson. And he awoke out of his sleep, and said, I will go out as at other times before, and shake myself. And he wist not that the Lord was departed from him.  
21 But the Philistines took him, and put out his eyes, and brought him down to Gaza, and bound him with fetters of brass; and he did grind in the prison house.  
Time and Place: The date for Samson's life is not certain, but he

lived sometime between 1150 B. C. and 1110 B. C. The principal cities of this lesson are, Zorah, 14 miles west of Jerusalem; Timnah, on the northern border of Judah; and the Philistine city of Gaza, in the southern end of Judah.

**The Lesson Applied**  
All through history, both sacred and profane, the influence of woman is evident. From the day she appeared in Eden to the present hour, she has played her part in shaping the destiny of men and nations. She has established thrones and national powers, or sometimes caused them to topple and fall. She has led many souls to Christ, and has sent many to eternal death. A godly woman is perhaps the crown of creation; a wicked woman the most effective and powerful weapon Satan can use. When Satan tempts man with all other instruments, and fails, he sends a woman. She does not often fail.

Two weeks ago we studied about Deborah, her wonderful faith and courage that led Israel to a great victory. Today we study the sad story of the downfall of a great man under the influence of a wicked woman.

Samson was a son of promise. God had sent his angel into a home of one of his trusted servants to announce to the woman that she should have a son. He gave her minute instructions concerning the care for both herself and the child.

and the good woman did as her Lord commanded. When her little son was born she called him Samson, which means "sunlike," or "little sun." He had brought sunlight, brightness and joy into her life and her home.

In early life the boy fulfilled all her hopes. In obedience to God's command she kept him strictly a Nazarite, letting his hair grow long, a sign of the Nazarite vow. And in his long hair, or because he had obeyed in having this long hair, lay the remarkable strength of Samson.

In marrying a woman of the Philistines, long-time enemy of Israel, Samson was in a position to learn much about them—to get inside information, which would have been to the disadvantage of Israel. But he was weak in the hands of his wife and gave her information which she used against him and his people. She left him and he returned to his father's home and remained there, judging Israel.

After the death of his wife, Samson again became entangled with a woman of the Philistines, who ultimately caused his downfall and his death. The Philistines knew of his strange strength, and no doubt had a pact with Delilah to entrap him. Had he kept in the path of duty and loyalty, chastity and holiness, we should now have a different story to tell. But he allowed lust and unholiness to overcome him. He was weak enough to fall under the

spell of Delilah, to allow her to tempt him with her unholy power. Had he only prayed to be delivered from temptation, to have strength to flee from her and have gone back to his godly home! But he did not. He drifted more and more into the power of the temptress, and finally revealed to her the secret of his strength. She soothed him to sleep and then called for her people to cut his hair and left him without strength. The enemy put out his eyes, and when his hair had again grown and his strength returned they used him as a slave, or a chief amusement for the people. His weakness had frustrated God's plan and purpose in bringing him into the world. In the very beginning God had a design, a blue print, of his plans and purposes for the world and for men; sin has marred that plan. And even though Jesus has died to restore it—to blot out the scars of sin—we must await his return before all is made right and his kingdom set up in purity and power.

"Even so come, Lord Jesus" (Revelation 22:20).

## WEEKLY RECIPE

Prepared for The Hesperian by Mary Watson Jones, County Home supervisor for the Farm Security Administration.

**Canning Corn**  
No. 1. Whole Grain Style Corn: Simmer in water 4 to 5 minutes. Cut from cob deeply enough to remove most of the kernels. Do not scrape the cob. Add 1 teaspoon of salt and 2 teaspoons of sugar to each quart of corn and half as much boiling water as corn by weight. Heat to boiling and pack into containers at once. Process immediately at 10 pounds pressure at 240 degrees F, pint glass jars 60 minutes, C enamel, No. 2 cans 50 minutes. Cool immediately.

No. 2. Cream Style Corn: Without precooking remove the corn from the cob by shallow cutting through the grain and scraping. Add 1 teaspoon of salt and 2 teaspoons of sugar to each quart, and half as much boiling water as corn by weight. Heat to boiling. Fill into containers at once. Process immediately at 15 pounds pressure 250 degrees F, pint glass jars for 75 minutes and No. 2 C enamel tin cans, 70 minutes. Cool immediately by emerging cans into cool water. Cans are better to use than jars because they help to prevent flat-sour by allowing rapid cooling, and discoloration of the corn.

"One hour from the garden to can," is a good slogan for canning corn.

# Bill McNeill Farm Bought Through FSA

## Tenant Family, Who Have Demonstrated Ability, Get Help On Home

Farm bought east of town through Tenant Purchase division and loan to Mr. and Mrs. Bill O. McNeill was closed Wednesday of this week through the local office of the Farm Security Administration. Mr. McNeill is buying a 220 acre tract of land 10 miles east of town on the Matador highway and three miles north and west of Dougherty. The entire acreage is tillable and considered by local authorities to be as good a soil as can be found in the county. Replacement value of present improvements are estimated at about \$1,800.00. Mr. McNeill plans to build a small dairy barn and grain storage space.

Mr. and Mrs. McNeill have two small children, Troy Lee, a boy of 3 years and a daughter Barbara Nell, 1 year of age. This family has farmed in the county for the past 10 years and have been successful in building a small dairy herd and buying the necessary machinery for farming purposes. He has had some experience in keeping books and it appears from his past record that the rents each year applied on his loan will pay for his farm. In addition to paying for a farm home they expect to produce poultry, meat, cream and vegetables for home use to a total value of \$275.00 annually.

This family expects to move to their new home about the first of next year.

Born to Mr. and Mrs. Wesley Little a daughter Tuesday morning, July 26.

### CROPS AND WEATHER

Ideal growing weather for row crops had marked the past week in Floyd county, with ample moisture for all immediate needs in all sections. Rains streaked across parts of the limited dry areas of the county. Around Sterley and around Starkey-McCoy some moisture fell. In portions of the county, as for instance, Fairview, Center and the southeast corner, farmers are needing dry weather to get into the fields and kill the weeds.

Quite a bit of hoeing is having to be done in the area ten miles wide north and south through the approximate center of the county. Rains have been excessive and as late as Monday of this week additional rain fell to add to the problem for this area and for the area in the southeast part of Floyd and the northeast portion of Crosby county.

### CITY OKEYS COMMISSION PLAN FOR HARD SURFACE ON HIGHWAY 207 NORTH

Yesterday afternoon the city council of Floydada gave its formal approval to the state highway commission's plan for paving highway 207 north, so far as the municipality's jurisdiction goes—something like the first mile and a quarter from the present paved area on East Missouri street.

The plans submitted by the district engineer's office are a part of the procedure expected to result in a contract letting in August for \$50,000 worth of work immediately north from Floydada by the state highway commission.

The city proposes, after the area is paved to the limits of the municipality, to maintain the paving and to keep any obstructions off the right-of-way which might hinder the operation of vehicles safely on it.

**NEWTON, Iowa.**—Thirteen community of 12,000 persons operated under the command of National Guard officers tonight after early morning street fighting around the Maytag Washing Machine factory sent one person to a hospital and a score home with cuts and bruises. Principals were C. I. O. union strikers.

**WASHINGTON.**—Helium, though harmless in airships, proved highly explosive tonight, as a governmental issue, blasting a wide breach between Secretary of the Interior Ickes and Commander Charles E. Rosendahl, the navy's famous authority of lighter-than-air craft. Ickes has been refusing to ship helium to Germany to inflate a ship designed to replace the ill-fated Hindenburg, saying he had no assurance that it would not be used for military purposes.

**NEW YORK.**—The 10-ton British "papoose plane" Mercury, completed a flight of 3,042 miles from Ireland, arriving at the transatlantic air terminal yesterday afternoon. The actual flying time for the trip across the Atlantic was 22 hours 28 minutes.

**Morgan Raves On.**—Dr. Arthur E. Morgan charged "misleading and unrepresentative" evidence was prepared but never used in the Tennessee Valley Authority's defense against a suit by 18 power companies at Chattanooga, Dr. Morgan was chairman of the TVA at that time but claims that the other members of the board "disregarded his opinions."

## Conoco Bill's Boys Defeat Hagood 5-4

Conoco Bill Dally's Oilers greased the skids for Hagood's clothiers and let them slip to a 5 to 4 loss Monday night, the second defeat in the league since it was organized.

The Conoco team, nee Bishop motor, was helped along by the six hit flinging of "Hop" Hopkins. Carol McClung started on the hill for Hagoods but was removed in the 4th stanza after giving up three hits and four runs. Stansell took the job there and held the Oilers to two hits and a lone tally.

Hagood's collected two runs in the second inning from a walk and two hits, one a double from E. Burgett's bat, to get the lead. They added another tally in the third and one in the sixth, but failed to hit when it counted most with men on base.

PAY BY CHECK

It is easier to write a check than it is to walk a mile to pay a bill in cash. Checks are safe to mail; cash is not, unless registered. Paying by check shows the business world that you do not "bank in your pocket"—that you maintain a reserve. This improves your credit standing. Receipts for cash payments are often omitted, or they are lost; cancelled checks come with your statement monthly and are proofs of payment. All these, and many other advantages, would be yours with a checking account in this bank.

The burden of every expression of appreciation is this theme. Winners and losers alike have a few words in this issue of The Hesperian, from which you will note this fact.

**Nelson Asks Precinct Four Voters' Support For Co. Commissioner**

To the People of Precinct No. 4:  
With the first primary over, the unofficial returns indicate that I am to be in the run-off for Commissioner of Precinct No. 4 on August 27. I want to thank you for the good vote you gave me on July 23.

I am anxious to be elected to the office. I believe I am qualified, and if you agree with me no one would appreciate your support and influence more than myself.

It is my intention to see all the people in the precinct before the close of the campaign. It will take me sometime to get around to some of you. Meanwhile, please consider me, and be assured if elected I will do my best for Precinct 4 and work with the other members of the court for the best interest of the whole county.

Yours very truly,  
H. J. (Hugh) Nelson
