Ninety-Four Seniors Named Henderson To Get Diplomas On May 19 Named C-C

Ruth Kreis Will Be **Valedictorian With** Average Of 98.40

Josephine Troutman, Salutatorian, And Robert Scott, Honor Boy

minary plans for graduation at Floydada High school came to the fore this week with the naming of the valedictorian, salutatorian, and honor boy for the class of '39. Ruth Kreis, daughter of Mr. and Mrs. A. H. Kreis of Dougherty, will be valedictorian this year with an average of 98.4 in all high school

Josephine Troutman, daughter of Mr. and Mrs. Noel Troutman of Floydada, was selected as salutatorian with a grade average of 97.25 for her four years in high school. Robert Scott, son of Mr. and Mrs. R. C. Scott, was named honor boy with a grade average of 96.72 for his four years in high school.

porothy Dell Stovall daughter of Mrs. E. F. Stovall, ranked in third place with a grade average of 97 but since only two places are allowed for high girls and third place to the honor boy she must go without official recognition.

Ninety-four Floydada High school seniors are candidates for high school diplomas on May 19 when a pupil talent graduation exercise will be held at the high school auditor-Superintendent A. D. Cumnings announced today.

The entire graduation program will be handled by high school students with the aid of school officials. The trend within the past few years is toward local talent exercises rather than having the program handled by an out-of-town

The list of candidates for high school diplomas includes:

Girls Cothern, Juanice; Davis, Cleo; Daniel, Frances; Donathan, Dovie; Daniel, Mary Kay; Edwards, Ara Sue; Fulkerson, Erma; Finkner, Es-

Bell; Sargent, Iona; Scott, Lena; (See GRADUATES, page 7)

Go To Regional Meet

Editorial

THE DENTAL BILL

Two years ago a dental bill put over on the public while press and public were more or less unaware, started a chain of events that may change the business history of this state.

Following the lead by this closely-knit minority, optometrists and barbers and others are pushing hoped-for and confidently expected laws that will redound to their benefit, and give their ruling majorities a right to tell the dissenters in their ranks what they have to do.

In the case of the dentists' law, The Hesperian pointed to it 2 years ago as a "vicous thing," calculated to undermine the welfare of the commonwealth. We have not had occasion to change opinion since. Governor Allred, somewhat spinelessly, approved the

Now, the common, ordinary practitioner in Floydada and other Floydadas in Texas, is afraid to violate the law by advertising in The Hesperian that he extracts teeth painlessly or any other way, or that he makes a good plate for the toothless, who have become that way by way of pyorrhea, cure for which the dentists have failed to discover.

Be it said for the barbers, who are not supposed to be as smart as their dental or optometric contemporaries, they do intend to have a vote before a price is set.

This kind of foolishness is what your legislator in Austin is worrying with.

HARD, DASHING RAINS DUE

Hard, dashing rains, more than have been common in this area in 10 or 20 years, are due in the southeast and southwest portions of Floyd county, and possibly in all the county, during the next week or two. The 30year cycle indicates the last week of April.

Is your land in shape for this eventuality? If it is not now, we warn you. Particularly we warn southeast Floyd county, northeast Dickens county and southwest Floyd county, and adjacent portions of Crosby and Motley, a portion of Hale county and a portion of Lubbock.

Preparation for these showers may mean the difference between good row crops and ordinary to poor. Hurry is the word. Don't get caught with a lot of flat land. Demonstration instead of explanation means a lot when you go to see the banker.

-0-EXPERIMENT FIELD DAY

R. E. Dickson, down at the Spur Experiment station, has advised that field week this single string of the harp until one would 24-29. Group visits there have increased materially in the past few years. Dickson studies nature and lets her have her

Four groups of cattle that have been on feed 200 days where ensilage has been used, and a lot more pasture studies are in the program this year.

grass and grass production are included in the ideas for your study.

Mr. Dickson and his helpers will have coffee brewing the whole week and if you bring your doughnuts or ginger snaps you can dunk between times on your visit. A half-day or day there thinking may be worth a whole month of worrying spent on your own farm.

OPTIMISM FROM DEPRESSION

A healthful, hopeful outlook for the future in newspaper circles was evident on every hand at a convention of newspapermen in | month.

OUR PUZZLE CORNER

Amarillo last week-end. This outlook was not furnished by the old heads in the profession but by young men and young women-espec- morning. Winter dislikes to leave ially young women-who didn't look back to us, it seems. When we think the old the depression but forward to another day.

Youth will have its day and old heads who home in the frozen north. deplore and view with alarm find themselves out of tune sooner or later. The "depression" has grown a crop of optimists, believe it or church as pioneers and new comers, Mrs. Victoria Asher and son Billy

GOOD YEAR FOR BABIES

The Hesperian predicts that the year of friend, Pink L. Parrish. 1939 will produce one of the nicest baby crops in the history of the county.

You must have noted the latter part of as well as the making of new." He
1938 and the earlier part of 1939 has been a was liberal of his time, of service I received a letter last week with period of baby production here unequalled in recent history. And the remainder of this recent history. And the remainder of this We will miss Pink, yes, we all ton, New Zealand and bearing year, the stork has advised us, will see the call him by his first name, will miss stamps showing snowclad mountain interest in new babies accentuated in a man- him when old timers meet. Miss his ranges, glaciers, caves and thermal ner that is almost unprecedented in local history. Literally scores of matrons, particularly young matrons, have determined on father's day book I find: 12-2-1904 Hot and cold water run beside each 1939 as the year for a baby to be added to Pink Parrish-by saddle and blank- other in the same pools. their families. Perhaps they have seen the et-to shoes and pants. 12-30-1904 Now New Zealand is the home of horoscope which augurs especially happy births that occur in 1939.

The happy augury extends even into 1940, duties of teaching school. and possibly beyond.

A BIT OF ADVICE

For those women who have determined up- Antonio this week. It is written on a 1939 birth date for their offspring we by my husband's sister, Mrs. Lizzie offer this bit of advice:

So far as possible be happy and normal. Give the youngster for whom you have high owns the first school, church and hopes every chance to be normal. Don't worry and don't be self-conscious. Remember that practically every man you meet has for this tri-purpose building was come into the world almost in the same hauled, by the Quakers, from Fort Tribune-Chief. way you will have to bring your child into Worth and Abilene. It was built at the world. Every good man you meet knows this to be true. The other kind of men don't try in 1894, Mr. Ellis bought the If you want to help, and can, count anyhow and you needn't worry about church and moved it to their ranch Why not show it?

CONSIDERABLE CHANGE IN 4 YEARS

The manner in which the old age assistance plan has advanced in Texas from a happy idea to give the old people help and let them continue to live in their homes, to the point that at this day four years later, such a thing is being demanded as their "right" is one of the interesting phenomena of mass

The thoughtless politico has played upon think the simple fact one has arrived at the age of 65 entities him to settle back and let testant who entered from Floyd somebody else pay taxes and support him, county went through the prelimin The lump that comes up in your throat when aries and succeeded holding a place aged mothers and fathers are played up showing and several won the honer tremolo by the silver tongue, does not take of going to Austin to the State into consideration the fact that thousands of Meet. bums and no-accounts, who have never turn-A lot of new things in connection with | ed their hands to be worthy citizens, also get the same size slice as mamma and papa. Rifle Discharge **Fatal To Veigel** Youth Last Friday

Glenn Veigel, 17 of Providence, died at 5:45 o'clock Friday afternoon, in a Plainview hospital from wounds received when he was accidentaly shot at East Mound school house, four miles east of Plainview accident occurred about 2:45 o'clock Friday afternoon.

d

re

;0

sults

The deceased was the son of Mr. and Mrs. Charles Veigel, well known plains family. East Mound, where the accident occurred is in Hale

Deputy Sheriff Ted Andrews, of Hale county who investigated the ecident said students of the East Mound school told him the youth attempted to shoot at a target tossed into the air and when the gun snapped, twice remarked that, it must not be loaded." He apparently started to place the gun in the car when it was discharged and the youth fell to the ground.

Roy Morrison, of Plainview, who had accompanied the youth to the school ground placed him in the ear and rushed him to the Plainveiw hospital. Dr. J. Harvey Hansen, attending physician said the pullet entered the boy's head at his eyebrow and stopped near the skull the back and slightly to the left his head. His condition was too ritical at the time to operate. Besides the parents the deceased survived by a brother Robert

Hereford; a sister Mrs. Melvin Walter, Plainview. Funeral was held at the Baptist church in Plainview at 3 p. m. Sunday. Pallbearers were Ted Boedeker, Harry Call, Fred Weyl, jr., Halmose Quebe, Alton Dammock, Luth-Brandes, Clint Lambert, Bennie

Flower attendants were Doris Hoyle, Alma Williams, Olene Hurt, Carol Dean Wardlow, Georgia Cox, borothy Williams, Eva Lee Brandes, ouise Boedeker, Jewel Faith, Emma Bell Kenedy, Helen Boedeker and Emma Boedeker.

CENTER H. D. CLUB

(Mrs. T. L. Collins, Reporter) Center Home Demonstration club met Tuesday afternoon of last week at the home of Mrs. O. G. Mayfield. "Inside story of closets" was our topic for discussion. Miss Grimes, ome demonstration agent, had a niniature model of a clothes closet with her and her entire demonstraion was interesting and helpful. The dairy show is being held in

Plainview this week where the club has milk, butter and cheese entries. The district meet of club women is to be held in Lubbock May 6. Present for the meeting were Miss Grimes, Mrs. W. B. Jordan, Mrs.

VACATION BIBLE SCHOOL FOR MAY 22 TO JUNE 2

that will be profitable to all chil- tice its teaching.

We will have a varied program including supervised play; clean, constructive, delightful so cial life; an exhilarating mental discipline; a helpful environment for overcoming bad and farming good habits; an opportunity to learn how to sing, to pray, to worship, to study the Bible, to put into practice spiritual messages daily imparted to those who attend. Mission stories, habit and patriotic stories. Hand work for both boys and girls will be given. Many other things will be taught all of which will be supervised by our best men and women.

Breath Offends?

Bad breath is sometimes due to bad teeth; often caused by sluggish bowels. To neglect it may invite a host of constipation's other discomforts; headaches, biliousness, loss of energy or appetite. Take spicy, all-vegetable BLACK-DRAUGHT tonight. This intestinal tonic-laxative tones lazy bowel muscles; cleanses gently, promptly, thoroughly by simple directions. Try BLACK-DRAUGHT, the time-tested laxative.

'Stagecoach' **Movie Drama Coming Here**

Dauntless Heroes Of Pioneer Days Dramatized Sun., Mon. At Palace

"Stagecoach." the screen play which Old Tack of the News-Globe at Amarillo raved about is coming to Floydada for a Saturday midnight prevue, Sunday and Monday. Jack Deakins, manager of the show, announced this week.

It is a saga of the dauntless heroes of the mid-west pioneer days dramatized in a most realistic fash-

Wayne playing the top roles, the new frontier drama, "Stagecoach," unfolds a gripping story of pioneer courage-of the brilliant heritage that has descended to young Americans from men who fought and hewed a nation out of a wilderness. It is a saga of brave women who went with them to bring comfort filmed before a backdrop that took sun, wind and rain thousands of years to build and color-Monument Valley, 180 miles from the nearest Arizona railroad.

Louise Platt, George Bancroft, Thomas Mitchell, Tim Holt, Donald Samuel Edmund Hicks, Ralls, Meek, and Berton Churchill, featured in support of the stars, portray the strange group of passengers thrown together with the coach as it proceeds from Tonto, Arizona, to Lordsburg, New Mexico. Wayne portrays the role of Kid Ringo, who has been driven to outlawry by perjurers and is determin ed to kill them. Claire Trevor im personates Dallas, a woman of easy virtue who has been forced out of town by the self-righteous citizenry. Among the others a Virginia born expectant mother, a mysterious gambler, a dipsomaniac-doctor, a blustering bank absconder, a timic While the pounding hoofs carry

them closer and closer to shrieking war cries and blood-hungry tomahawks, these incongruous individuals are absorbed with the purposes and hates that have propelled them into the hazardous journey. Each knew that Geronimo was on the war path. Each knew this meant torture or death if the coach was attacked-yet they went. They travel across a vast panorama of primitive splendor in a solitary stagecoach which careens and rocks behind six galloping horses, with each mile bringing them closer to a

'Heart Of The North' Story Of Royal Canadian Mounted

Technicolor Story Of The Great Northern Outdoors At Palace Saturday

High adventure along one of the world's last frontiers is thrilling depicted in "Heart of the North, picturization in Technicolor of tale of the Royal Canadian Mounted Police which comes to the Pal-

ture "debunks" many a widespread misconception of the operations and daily existence of the Canadian "Mounties," but the actuality, as vividly portrayed in "Heart of the North," turns out to be even more thrilling and certainly more interesting than the popular delusions. This Technicolor production was

done on the same large scale as all of the previous Warner Bros. color pictures and it has a cast liberally sprinkled with outstanding names. The hero is Dick Foran, big, red-

headed star who is most effective in recently captured the hearts of a host of fans in "Broadway Mus-

The country in which the story is laid is that wild stretch which borders the Mackenzie river in the far northwest of Canada just below the Arctic Circle. And the impressive outdoor scenes of the production show this scarcely populated outpost of civilization in technicolor

for the first time. Based upon a novel by William Byron Mowery, the picture plot revolves about the hold-up of the Arctic Queen, a little steamship loaded with trappers' priceless furs and with miners' gold. There's a threecornered romance, too, with Foran torn between the charms of Gale Page, city girl visiting in the Great Northwest and Gloria Dickson, a true daughter of the North. The picture builds to an absorbing cli-

irrigation in the Texas High Plains in 1938, and approximately 200,000 JAMES ASHER WILL SPEND scres of land were irrigated from as compared to about 1,150 wells and 160,000 acres in 1937. This represents an increase during the with Federal Geological survey.

These studies are supported funds appropriated by the State Legislature and by allocations of money to match these funds, the State and Federal confiscal year ending July 1, 1939. The lodging. full or part time of two to four geologists and engineers is being devoted to the High Plains work.

In addition to inventories of wells tures of the High Plains that are tail. related to the occurrence of the ground water. The rise and fall of water levels is being observed in approximately 750 wells, which are measured monthly or at other regular intervals. Replenishment of the ground-water supplies and the natural discharge from the underreservoirs are also being Replenishment occurs by direct penetration of rainfall and by seepage from streams and depression ponds on the High Plains themselves; and the natural discharge occurs through springs and seeps, most of which are located at the eastern edge of the High Plains. The investigation shows that irrigation from wells in this region was started about 30 years ago. In 1914 there were about 140 irrigation wells in the Texas High Plains, most of which were located in the icinities of Plainview, Hereford, and Muleshoe. Well irrigation deed during the World War and aratively inactive immediately after war, during the years of more than average rainfall. Interest was revived during the period of several dry years beginning with 1937, and by 1934 the number of rrigation wells had risen to about The rate of development, which had been relatively slow to

1934, increased materially in 1935.

It was accelerated to some extent in 1936 and became still more rapid

in 1937, but the rate of increase de-

erially in the areas where large withdrawals of ground water have been made. In parts of one of the leavily pumped districts the static water levels in wells have dropped maverage of about seven feet since 1914, and an average of about 3 1/2 feet since 1934. In parts of two other districts the loss since 1934 as averaged about two feet. In one large area embracing about 1,000 square miles in which 550 pumping plants were operated in 1938, there was an average net decline of eighttenths of a foot between January-March 1938 and January-March 1939, as disclosed by periodic measurements on 125 observation wells. In various other areas of more recent and less intensive development there has been comparatively little change in static water levels during the two years of the present in-

The investigation includes a study the natural discharge of ground This occurs principally through springs and seeps, most of are located under the cap rock along the eastern edge of the Springs and seeps issue in reat numbers at the foot of the esment along the contact bethe water-earing High Plains and gravels and the underlyng relatively impermeable Triassic Most of the springs are small but some of them have a flow anging upward from 25 gallons a The total discharge from and seeps in the 75-mile of the cap rock between Mountain Fork of the Brariver and Quitaque creek ats to about 12,000 gallons a e, according to measurements estimates made during the and winter of 1938 in connection th the investigation.

The localities in which these appear are among the mos in Texas. Spring-fed 10 to 25 feet in he very frequently. in the Triassic and

playground of the region, and steps have already been taken to develop of them into State parks. Ground Water Reports

The chief purpose of the High Plains investigation is to obtain the facts regarding the extent and limpublished by the Texas State Board report have been distributed to college, high school, and public libraries, chambers of commerce, and individual property owners in the High Texas State Board of Water En- Plains. Additional copies will be gneers in a release last week de-gneers in a release last week de-dared that the level of the water dared that the level of the water dared that the level of Tevas Highway Building Austra, 300 State clared that the level of Texas Highway Building, Austin, Texas. A has shown a material decrease and second progress report showing the has shown a material decrease and results of the ground water and April 1939 is to be released during About 1,500 wells were pumped for the spring of 1939.

How the plus of OIL-PLATING brings you more than an oil-change

TOU KNOW right off that the fresh oil I needed in your crankcase today, isn't to lubricate the crankcase. Either your oil is in the bearings and up to the cylinder head every turn of your engine, or your lubrication isn't 100%.

Now what's the chance for any of the general run of oils to stay up while you've parked the car, for instance? Just about as much chance as there is for a geyser to stay up all by itself! Then every time you start, don't pistons get up to the top before oil gets up from the crankcase? You kill that risk by changing now to OIL-PLATING.

Germ Processed oil—patented—makes OIL-PLATING stay on inner engine surfaces throughout all your stops, starts and runs this Summer. Your Germ Processed oil keeps a steady hold on the "Full" mark, too, as you'll see-by changing today to Your Mileage Merchant. Continental Oil Company

Influenza And Pneumonia The anticipated let-up in the influenza and pneumonia contagion which became apparent in more than ordinary numbers of patients 2 months ago, has not occurred, according to reports from physicians. As a matter of fact reports early this week indicated scores of persons suffering or just recovering from the maladies, every community in the area apparently furnishing a generous quota of sick persons. Numbers of these have been treated in local hospitals.

on the following persons at Floydada Hospital & Clinic the past week nier, tonsilectomy and Devota Ed- leading roles. wards. Of this number all are reported to be improving.

Others who have received medical Graduates treatment the past week are Billy Tye, J. S. Lackey, Mrs. W. A. King, Mrs. J. V. Jones, who is convalescing from a recent operation;

Coffee Brewing At Spur For All Comers, R. E. Dickson Announces

Note: Farmers claim they have learned a great deal from the iments in feeding and grass growing at Spur the past few years. nouncement of the forthcoming feld week at Spur this spring is pere given in R. E. Dickson's [mangerl own language.)

Group visits to the Spur station have increased materially in recent ears, and many are of the opinion that they have a much better opportunity to study the experimental work in small groups than they have at the larger field days. This year e are experimenting with a field week instead of the regular field lay. There will be no set hours for arrival and no set speeches. Every effort will be made to discuss the problems of most interest to the visitors. In addition to the men working at the station, representatives of the School of Agriculture at Texas Tech and specialists from the Soil Conservation service and various branches of A. & M. college will be on hand to participate in the group

Four groups of cattle are now finishing a 200-day feeding experiment roups of smaller animals are being headed for the September mar-

Considerable progress has been made in pasture studies during the past year, so that even those who visit the station regularly each year will find new things of interest pertaining to grass and grass produc-

30 years we are more likely to have hard, dashing rains the last week in April than any other week in the year. We are dry-very dry-at the present time, and for the benefit of the visitors as well as ourselves we hope the rain-maker fills our water traps and causes the syrup-pan terrace system to flow at full capacity. In fact, we would welcome

Coffee will be kept brewing for the entire week, and visitors who bring their own doughnuts and ginger snaps will find the dunking fine from Monday morning, April 24, until Saturday night, April 29.

Any Housewife Will Tell You

- That the days of the big rambling kitchen that made housewives march many a needless mile while preparing meals are gone . . . compactness is demanded and provided today; the result is reduced floor space and greatly increased convenience.
- Wherever space is at a premium the Table-High water heater, with its white porcelain enamel top, is the logical choice for automatic hot water service. It offers the housewife 4.6 square feet of handy extra working area that will immediately win her admiration.
- The modern gas ranges on display will also help reduce space in your kitchen. These new models are built in a wide variety of sizes to meet every kitchen demand . . . yet they are all economical, efficient, and easy to buy.
- I Let gas modernize your kitchen with a modern GAS range, Automatic Water heater and economical GAS Refrigerator.

Born to Mr. and Mrs. Arthur Womack of Sand Hill on April 19,

GROWERS IN NORTH TURN TO SEEDLINGS GROWN IN SOUTH

For years large commercial vege-table growers in the North have sought a means of obtaining seedling plants of cabbage, tomatoes. eggplant, pepper, and other vegetables at a lower cost. Such plants must be early, hardy, and comparaively free from disease. While greenhouse and cold-frame production is effective, it is relatively costly and there is always a possibility of rapid spread of disease under glass.

As a result of increasing northern demand and improved rapid transportation by both train and truck, growers have turned to the use of field-grown seedlings from the sou-thern States. These plants are both early and hardy since the seasons allow ample opportunity for growth before the time for transplanting in the North. The largest acreage devoted to such production plant specialists of the United States Department of Agriculture, although there are some extensive plantings of certain seedling crops in Florida, Mississippi, Arkansas, and

acres of seedlings in Georgia is devoted to tomatoes and cabbage with onions, eggplant and pepper as les-ser crops. Most of the plants go to produce the canning crop in such States as Maryland, New Jersey, Indianna, Illnois, Ohio, and Pennsyl-

When southern-grown plants are used so extensively in the North, the problem of disease control is important. A constantly increaseing effort is being made to secure seed free from disease, and seed treatment is considred essential, particularly with tomatoes, since it almost completely controls such seed-borne disease as bacterial canker and bacterial leaf spots and is partically effective in the case of others.

The Department of Agricuture and the State experiment stations are cooperating with southern plant grow-ers in studies of the problems of suc-cessful seedling plant production.
