

Barwise Is Banner Wheat Producer in Floyd This Year

Forty Bushels Per Acre Reported In Area By Elevator

Best Yield Near Floydada Is 17 Bushels Per Acre; Test Near 62 Pounds

Barwise switch in the southwest part of Floyd county gives promise of being the banner wheat producing area of the county this year with rumors and "unconfirmed" reports of 40 and 41 bushels per acre wheat in that area.

The thermometer hit 104 degrees in the shade Wednesday according to West Texas Gas company's register. Tuesday registered only 96 degrees. Crops, where there has been enough moisture to bring them up, are suffering under the high winds and extreme heat and unless rain brings relief soon many communities say their crops will be extremely short. Late wheat reports indicate the crop is ripening too fast.

report it is generally understood that more than one field in that section will hit the 30 bushel mark or go above. The irrigated wheat in that section is probably the best that has been raised there in several years and stands to keep Floyd from being in the hole so far as wheat production is concerned.

Dougherty and Boothe Spur are getting wheat Dougherty formerly 5 cars with Boothe Spur probably the "biggest" little elevator in the world, having shipped only three cars. Floydada has a total of five cars shipped up to Wednesday afternoon.

Barwise is estimated to have some 15 cars already on the way to market.

Cutting is just getting under way near South Plains according to a report this morning. The wheat there is cutting from 4 to 12 bushels per acre and practically all is testing good number one. North and west of South Plains the wheat is considered thin but south and east it is much better. The heavy part of the harvest is expected to be reached in that area the latter part of the week.

Dry land wheat near Floydada is testing near the 60 mark with the tops so far 61 1/2 pounds, which is a far cry from the 64 test of 1937. The best wheat is cutting near 17 bushels and the worst reported is cutting near 6 or 7 bushels.

The elevator men here feel that the harvest will last only about three weeks with the rush probably being over by the latter part of next week. The greater percentage of the wheat will go "number 1" the elevator men believe.

Country Club Elects Same Board Directors

Members of the Floydada Country club last Thursday night re-named in its entirety the personnel of the board of directors who served last year. They are:

Chas. Bedford, J. A. Arwine, Walton Hale, L. T. Bishop, J. C. Gilliam, O. P. Rutledge and Geo. McAllister. Bedford served last year as president and McAllister as secretary of the club. An organization meeting of the directors was due to be held last night.

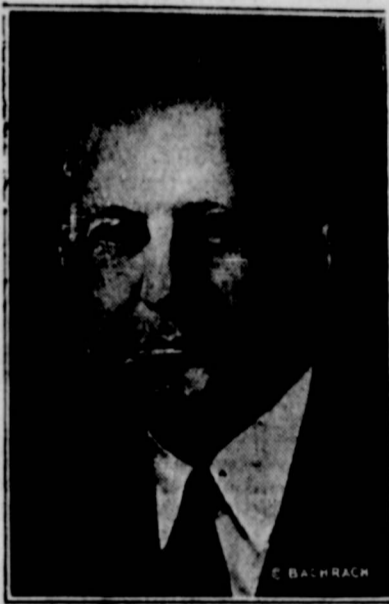

The fiscal affairs of the club are in good condition, it was indicated in the report read out to the members. The meeting was held in the county court room.

Detour Wednesday On Crosby County Unit Highway 207

Maintenance Foreman A. J. Hamilton of the State Highway department yesterday opened up a detour around the 5 and one-half mile construction job through Cone on Highway 207, contract for which was recently let.

In addition to the topping job on the Cone sector the roadway from Ralls north to the unfinished strip also will have a seal coat.

Contract Due Tuesday Contract is due to be let on about 5 miles of Highway 207 north of Floydada from the present pavement end to a point a bit north of the McCormick Service station. Several bidders on the job have visited here this week and gone over the ground.

Installed last week as president of the First Church of Christ, Scientist, in Boston, Massachusetts, was George Shaw Cook, above.

Successful Short Course Predicted For This Summer

Meeting Will Be Divided Into Two Sections Again This Year

COLLEGE STATION, June 13.—A preview of the program for the annual Texas A and M College Farmers' Short Course plus the interest expressed by farm and ranch families, has led H. H. Williamson, director of the Texas Extension Service, to predict that the 1939 session will be one of the most successful in recent years.

As in 1938, the current meeting will be divided into two sections—one on July 5, 6, and 7 for 4-H club boys and girls, and a second one on July 12, 13 and 14 for adults. Division of the Short Course allows the institution to provide sufficient accommodations for the crowds.

The 4-H club program will consist of selection of outstanding club members, talks by representatives to the recent National 4-H Club encampment at Washington, D. C., social activities, and will be climaxed by the colorful ceremony of the gold star awards to the 100 boys and girls selected for this honor.

The theme of the adult program will be land use planning, with farm people taking the major part. Guest speakers will be headlined by A. F. Lever of South Carolina, former congressman who was point author of the Smith-Lever bill on which extension work is based. Walter Jenkins of Houston will again lead the group singing.

Mrs. Bailey Funeral Held Sunday Afternoon

Body Of Lockney Woman Taken To San Antonio First Of Week For Cremation

Funeral services were held in the Main Street Church of Christ of Lockney, Sunday, June 11, at 3 p. m. for Mrs. Anna Lou Bailey, 57, Elder E. B. Black, Plainview minister and Rev. Vernon Shaw, pastor of Floydada Baptist church, officiated. She died at her home in Lockney after an illness of several weeks.

Mrs. Bailey was born March 16, 1882 and had lived in west Texas 41 years. She was a member of the Order of the Eastern Star and had been a member of the Church of Christ for 40 years.

She is survived by her husband, O. C. Bailey, three sisters, Mrs. Mattie Coater of Muskogee, Oklahoma, Mrs. Mary Ward, Wilson, Okla., Mrs. Julia White, Bakerfield, Calif., three brothers, Paul Harris, Hot Springs, Ark., George Harris, Morris, Okla., and Christopher Harris, Bakerfield, Calif.

Pallbearers were Luther Cooper, Will Sims, John Cooper, A. B. Merriweather, Arthur Barton, and Lester Honea. The flower attendants were Meses. E. M. Horton, O. T. Prickett, Laura Backner, Walter Long, Lester Honea. The body was carried to San Antonio for cremation.

LIVING IN NEW HOME

Mr. and Mrs. S. A. Guffee are now living in their new home recently completed 1 mile west of Campbell.

They moved the earlier part of last week.

Mr. and Mrs. C. M. Martin spent Sunday in Plainview as guests of her parents, Mr. and Mrs. A. H. Porter.

District Court To End Term Saturday Without Jury Trial

Three Burglary Cases Closed With Trial; Two More To Be Brought Here

The May term will close its session here this week after one of the busiest times in a number of years, considering the work done by the grand jury. Twenty-one indictments were finally returned after nine days of work extending over a period of four weeks.

For probably the first time in history the court went through a term without a trial demanding a jury. Several cases are yet to come before the court but all are docketed as "non jury."

Some 15 of the cases in which the grand jury returned indictments will be continued over to the next term of court. The state comptroller's office is expected to take considerable interest in the 13 indictments returned in motor fuel tax violations against four Floyd county residents due to the fact that no cases of this nature have come into the courts before and the action here is expected to influence further action over the state.

Three burglary cases were disposed of by the court last week. Clinton Kyle and Lindsay Blain plead guilty to a burglary charge and were sentenced to two years in the state penitentiary. They were indicted for the burglary of Consumers Fuel Assn. earlier in the year.

Lewis Manuel plead guilty to burglary and was given a five year suspended sentence by the court.

Sheriff Fred Clark expects to leave this morning for Chickasha, Oklahoma where the officers are holding two men for burglary. According to Sheriff Fred Clark the men entered a well house near Lockney, taking a half barrel of gas and a battery.

250 4-H Club Boys And Girls Attend Annual Meeting In Lockney

Approximately 250 boys and girls attended a Floyd County 4-H Club Boys' and Girls' rally which met in Lockney at the City auditorium on Monday, June 12, at 10:30 a. m.

An interesting morning's program was brought to order by Clarence Guffee of Sand Hill, who is chairman of the 4-H Boys' club. Group singing was led by Mrs. Harding Jackson of Sand Hill, chairman of the 4-H Sponsors, and Rev. Bowes, pastor of the Presbyterian church at Tulla, made an address on "Perfection."

Following the general program a sectional program for both boys and girls was held and in the program for the girls a clothing parade took place, in which 159 girls participated. Lunch, consisting of fried chicken, potato salad, cookies, and lemonade, was served to the group at 12:30 p. m.

The boys who will represent Floyd county at College Station on July 5-6-7 and winners of the cattle judging contest at the picnic are Emory Cox of Sand Hill, high point man, Harold Jack of Sterley, and Jim Bert Bobbitt of Lone Star.

County Agent D. F. Bredthauer announced that Saturday was the last day for 4-H club boys to make reservation to go to College Station on the chartered bus. The bus will arrive at A & M in time for the Fourth of July celebration which will begin there that day.

Jim Curry Wins First In Meadowbrook Tourney

Jim Curry won first prize in the Meadowbrook flag tourney conducted during the past week at the Meadowbrook golf course south of town. He was followed closely by John E. Smith and Jim Young who copped second and third prizes. Willie Holt finished fourth.

Prizes were awarded to the ten top players. The first four prizes were golf iron, golf bag, half dozen balls, and golf glove.

The ten top players were, besides the first four named above, Marvin Gilbert, Claud Hammond, L. D. Britton, Carol McClung, Odell Writter, and Bill Fowler. Joe Browning won the "bogey" prize.

CAKE SALE SATURDAY

Homebuilders Club will have a cake and pie sale at the McDonald Hardware Saturday beginning at 9 o'clock. Mrs. F. F. Fuqua, Mrs. P. F. Bertrand and Mrs. W. F. Weatherbee will be the committee in charge.

Supervision Of Summer Work Halts

Sixty Girls Are Enrolled In Project Work; Must Be Completed Aug. 31

Miss Fannie Mae Rees completed the supervision of summer projects Friday, Miss Lois Fouts finishing her work a week earlier. However, Miss Rees stated the project work would continue in the homes until August 31.

The girls have made their plans by individual conferences with the teachers and their mothers, and will carry out the plans while the teachers are away.

Over 6 girls enrolled in summer project work. The purpose of project work is for the girls to put into practice some of the things they study during the nine months of school but for the lack of time did not complete their work.

Each girl taking the project work, makes her plan with definite goals which she expects to reach by taking the summer project. One of the goals that is common for a first year foods girl is: "I plan to prepare and serve wholesome, nutritious meals to my family making use of the foods we raise at home. I shall try to organize my work and manage my time in order to have more time for leisure."

This plan would include the garden project as well as planning, preparing and serving meals.

The following girls are taking foods or foods related projects: Helen Woodward, Dora Barber, Bertha Lee Jernigan, Lellifaye Hicks, Cageline Carmack, Elvora Smalley, Bonnie Clark, Verona Miller, Dora Brinkley, Mary Helen Day, Virginia Wightman, Lula Lee Teal; Nadyne Lightfoot, La Nell Harman, Mattie Lee Womack, Bennie Ruth Jackson, Maudine Moore, Elsie Biggs, Mary Denison, Marjorie Duncan, Lois Pelpel, Lavelle Ginn, Volene Hulse, Ireta Jones, Allen McIntyre, Nellie Jo Patterson, Virginia Youkum, Eunice Langley, Anne Jones, Maxine Officer, Ruth Hollums, Pauline Woods, Oletha Strickland, Ida Mae Beedy, Margaret Beedy, Margaret Conner, Eva Marie Lewis, Jean Sims.

There are 21 other girls who are taking clothing or clothing related project work. The teachers will be away until the last week of August, then the girls will bring in the report of their summer project and arrange an exhibit of their sewing, cooking, canning or any other work finished. The reward for the 100 hours spent in supervised home work, is one-half credit, which will count toward graduation from high school. There is no extra expense for the girls except what the project costs and that of course is kept in the home.

George I. Adams Died Monday Night, Austin

Funeral Rites Held Wednesday For Member Of Pioneer Central West Texas Family

George I. Adams, 65, member of a pioneer central West Texas family, died at Austin Monday night of this week after a prolonged illness. He was an auditor in the General Land Office of the State of Texas, for many years.

Funeral rites were held yesterday afternoon and interment made at Meridian, Texas his former home. Among those who attended the last rites were 3 sisters who live here—Mrs. Glad Snodgrass, Mrs. W. S. Moss, and Mrs. T. A. Rogers. Another sister, Mrs. L. A. Dunlap, resides at Meridian. Mrs. Adams, wife of the deceased, died in January.

Two children, Geo. I. Jr., of Austin, and Mrs. Lloyd King, of Amarillo, survive.

L. A. Williams Named Insurance Supervisor Succeeding O. L. Allen

Effective today the Floyd County Agricultural Conservation association with the approval of the Federal Crop Insurance corporation, named L. A. Williams to succeed the late lamented Oscar L. Allen as crop insurance supervisor for Floyd county.

Allen's demise last week after serving in various capacities in the local control office, left the office without the services of one of its capable and faithful workers. Before he could be named as crop insurance supervisor, Williams resigned as chairman of the county committee.

New Committee Chairman

With Williams' change to new duties a vacancy left in the chairmanship of the committee was filled Wednesday by the selection of H. W. Schacht as chairman, and the third member of the committee is Ed Teuton, of Lockney. J. A. Taylor, of Quitaque, is vice-chairman of the committee.

FIFTY CARS LINED UP FOR FRIDAY TRIP

Fifty automobiles are lined up for the swing around the circle on a 200-mile jaunt tomorrow advertising the Gainesville Community circus here on July 3 and 4. It was announced last night by Claude Henderson, secretary of Floydada Chamber of Commerce. Matador, Roaring Springs, Afton Dickens, Spur, Ralls, Crosbyton, Lorenzo and Petersburg are the cities to be visited, Mr. Henderson said.

The noon stop of the caravan, which will include Floydada high school band, will be made at Spur where the big amateur rodeo is to be in progress.

Eastern Star, A. F. & A. M. Royal Arch Chapter, Elect Officials For Year

W. H. Sharp Named Worshipful Master Of Floydada Lodge 1939-40

Masonic bodies of Floydada this last week named the officers who will take their places next fall.

W. H. Sharp was named Worshipful Master for the A. F. & A. M. lodge in their meeting Saturday night. Ike Finley was elected senior warden and Roy Patton, junior warden. Other officers chosen were M. L. Probasco, secretary; G. C. Tubbs, treasurer; and E. S. Randsen, tiler. The appointed officers have not yet been named, but the new master will announce them within a short time.

Eastern Star Officers

The Order of the Eastern Star also named their officers for the new year in a meeting this last week. They are the following: Worthy Matron, Mrs. H. O. Cline; Worthy Patron, Hal Scott; Associate matron, Mrs. Maud Merrick; Associate patron, L. B. Maxey; secretary, Mrs. Leona Bell; treasurer, Mrs. M. L. Probasco; conductress, Mrs. W. O. Tye; associate conductress, Fannie Mae Rees.

Mrs. V. H. Boteler, chaplain; Mrs. Roy Eubank, marshal and Anne Swepston, organist, are to be the new appointed officers for the Order. Five star points were given to Mrs. C. M. Thacker, Mrs. G. C. Tubbs, Mrs. Winnie Hill and Misses Vera Meredith and Christine Swepston.

The R. A. M. elections of the Floydada Chapter No. 227 were held Tuesday night, M. L. Probasco was elected high priest, Claude Patton, king, and B. P. McIntosh, scribe, G. C. Tubbs, treasurer and R. C. Scott, secretary. Appointive officers are C. M. Thacker, C. O. H.; E. W. Henderson, P. S.; V. Andrews, R. A. C.; H. D. Payne, Master Third Veil; L. B. Maxey, Master Second Veil; S. B. McCleskey, Master First Veil, and C. A. Boothe, guard.

Added Revenue Given To Maintenance Fund Floydada School Dist.

Reductions in the outstanding bonded debt of Floydada Independent School district added to the savings effected last year by the board's debt refunding action to obtain reduced interest rates, made it possible last week to allocate more of the district's income to maintenance of the school and less to the debt service.

The board of trustees set the tax rate at \$1 per \$100 valuation as usual. However, in their levy it was ordered that 60 per cent of the funds obtained from taxes go to maintenance and 40 per cent to debt service. For several years the allocating has been 50 per cent for each.

It was pointed out that the additional income for maintenance will be needed, however, to offset a lower total valuation in the district this year.

Allie Mae Tipps New FSA Home Supervisor

Allie Mae Tipps, until recently stationed at Clarksville in Red River county, has succeeded Mary Watson Jones as home supervisor for the Farm Security administration in Floyd and Motley counties. She took over the duties in these counties when Mrs. Jones was assigned to work in Hale county exclusively.

Miss Tipps is of a pioneer West Texas family and is thoroughly acquainted with West Texas conditions. It was pointed out by Claude C. Carpenter, FSA supervisor for the county yesterday. She is a sister of Judge O. R. Tipps of Quitaque, former Briscoe county judge.

W. I. NORMAN, III IN DALLAS HOSPITAL

W. I. Norman, who is in Baylor hospital at Dallas, following an operation Monday morning, is reported by attending physicians to be improving. Mr. Norman was taken to Dallas last mid-week by his son, E. L. Norman.

Mrs. Norman and two sons, E. J. of Wellington and J. E. Norman of Canadian are at his bedside. The three sons here, E. L., Lewis and Verner, and daughter, Mrs. Wayne Gound returned home Tuesday night after spending several days at his bedside.

WITHERS CAFE

Work was completed this past week on Withers cafe which has been completely remodeled inside and has been repainted a cool white. The counters have been sanded and finished in clever varnish.

The cafe is air conditioned and L. G. Withers, owner, says that further improvements will be made from time to time. He has lived for many years here and he foresees even better things for Floydada and Floyd county.

The cafe specializes in hamburgers and short orders.

Truckers Help

The boys who operate trucks out of Floydada are doing their part to help put the Gainesville Community circus over. Almost all of the trucks have "Gainesville Community Circus, Floydada, July 3-4" painted on their sides.

It is reported that folks all over the country stop them and ask about the circus wanting to know if the trucker works for the circus and "how good" the circus is. Naturally the truckers take time out to boost the show and tell the folks about the big "to do" that is planned here.

It is this spirit of cooperation that is most likely to make this July 3-4 the most successful in many a year. The truckers are doing their part; the bakery wagons also haul the circus ballroom to every part of the plains. Tomorrow a caravan of "boosters" will leave Floydada to carry the circus message to all of the neighboring towns. "I'll See You In Floydada July 3-4."

Homemaking Girls And Teachers to Go San Antonio Soon

First Time Association Has Ever Met In Texas; Two Girls To Go

Miss Fannie Mae Rees, homemaking teacher of the Floydada High school and Misses Lula Lee Teal and Lavelle Ginn, senior students next year, and Mrs. S. L. Rushing will leave Sunday morning June 18 for the American Home Economics association in San Antonio, which will begin June 18 and last through June 23.

Miss Rees received the credentials for the high school girls last week. These were sent from the association's office in Washington, D. C.

Texas is allowed 61 delegates and Floydada will have two of these. It is the first time in the history of the organization for it to meet in Texas.

Miss Teal and Miss Ginn will attend the program for the high school student clubs which will be composed of students from every state in the United States. Miss Rees will attend the teachers division.

Floydada will be represented in the exhibits from Texas. The newspaper articles written by Dorothy Dell Stovall and the scrapbook which was arranged by Aileen McIntyre will be on display from Monday through Friday.

Brisk Sale Circus Seats Is Reported

July 3 Designated As Floydada Night At Gainesville Community Circus

Campaign for the sale of reserved seats at the Gainesville Community circus to people over the plains and panhandle will get under way beginning today.

Tickets were placed at Lubbock and Plainview Tuesday and a radio campaign advertising the circus will begin today, supplementing a newspaper campaign. Mark Duncan drug at Lubbock and Alexander Drug company at Plainview will have the tickets on sale.

Meanwhile sale of tickets in Floydada has been brisk since Monday. Several business houses have the tickets available and they can be obtained from any of the drug stores, and can be reserved by telephone through the Chamber of Commerce office. T. P. Collins who has general charge of the sale, said yesterday.

Floydada Night July 3

Because they will not want to miss seeing Old Tack and his personal bodyguard, Mayor Ross D. Rogers of Amarillo, Floydada people are being urged to buy their tickets for the night of July 3, the opening performance. On that night also newspapermen from over the area are to be guests of McDermott Post, American Legion. Old Tack (Gene Howe, publisher of the Globe and News of Amarillo) has consented to blow the whistle opening the big show, but insisted that he have the mayor of his town blow a whistle at the same time so Tack wouldn't be too scared. Mayor Rogers and Mr. Howe will be guests of the Legionnaires of Floydada.

"If you want to see and hear Old Tack and the mayor of Amarillo you will have to attend the performance of the night of July 3," Mr. Collins said.

That the attendance at the circus will be big was indicated this week by the reports that began coming in from a wide-spread area this week, where the forthcoming event is the topic of conversation in public places, hotel lobbies and around.

Parity, Conservation Payments To Farmers Continue Steady Flow

\$115,000 out of a probable \$150,000 worth of wheat parity checks for Floyd county wheat growers have been received and distributed in the past 3 weeks from the local Agriculture Conservation association office. D. F. Bredthauer, county agricultural agent said. Checks have been arriving in bundles of about 50 per day. This is on the 1939 wheat crop.

Conservation Checks Too Soil conservation checks also continue to come in for Floyd county producers on the soil conservation program of 1938. Eighty per cent of the payments have been distributed today, representing approximately \$350,000.

Mr. Bredthauer anticipates the soil conservation payment for 1938 will have been cleaned up almost in their entirety by the first of July.

FARMERS HEAR WILLSON AT MEETING SATURDAY

Jim Willson, local lumberman and general chairman of the West Texas Chamber of Commerce freight rate committee, spoke to the Floyd County Farm association Saturday explaining in detail the fight for fair rates for this section of the country.

Assisting County Agent Marshall gave detailed information on the 1940 wheat program and answered questions from the audience. County Agent D. F. Bredthauer discussed the proposed changes in the 1940 soil conservation program.

The organization appointed W. H. Nelson, Herman King, and A. A. Tubbs as committee to draft a letter giving the support of the association of the freight rate fight.

Lions To Install New Officials On Night of July 11

Floydada Lions club will install new officers on Tuesday night, July 11, it was planned at the noon-day luncheon of the organization Tuesday. The first meeting date in July, following their calendar, would hit on July 4 and no meeting will be held that date. The July meeting has been designated as ladies night. Ed Johnson, who with Mrs. Johnson, attended the state meeting of officers of all Texas Lions districts, last week returning Friday, gave an interesting report of that gathering in which District 2-T had a good report. Johnson is chairman of Zone 4 of the district.

## Editorial

### AN INTERESTING EDITION

The Hesperian will have a very interesting edition next week, dealing, somewhat in advance, with the coming of the Gainesville Community circus here on July 3 and 4. All The Hesperian list will be covered and thousands more will also receive the paper.

Perhaps you would like to have a few extras or several of the sections devoted to the circus. If so, tell us this week. We'll do the mailing for you. But don't wait until next week to tell us. Unfortunately we cannot arrange our printing schedule to take care of late orders. The edition will not be a big one as bigness goes but it will tell an interesting story and will be valuable as a prestige builder for Floydada.

### FOR THE VISITORS' SAKE

If you did not join in the general clean up campaign last week you should have done so. If you live in town or country to take off a day or a few days while the signs are right, clean up and spruce up are good for what ails you and your community.

One reason for an unusually clean Floydada right now is that Floydada is to have more visitors—some of them rather important personages—during the next few weeks than we have had in a long time. For the visitors' sake join in the crusade. Clean your premises, if you have not done so. Encourage your neighbors to do as much. It will be worth your while in the prideful way you can welcome a town full of visitors from Gainesville and other points east, north, south and west.

### THEN COMES THE CIRCUS

Comes another week or two and then the big Gainesville Community Circus to Floydada on July 3 and 4. This truly phenomenal organization of plain home folks who make a regular Barnum & Bailey show has been acclaimed from one end of the country to the other.

The banker, the druggist, the mill man and his grocery store friend, the newspaper folk and all have found out at Gainesville they know how to entertain.

By some good fortune they are to be here under the auspices of McDermott Post, American Legion, for three performances. Floydada is due to be host to thousands on these dates. The ground swell is unmistakable. Make your plans that way and you'll not go wrong.

### WHAT TREES WILL DO

If you've lived in Floydada a number of years you have not noticed so much the fine trees which are now growing on its streets and in the backyards of hundreds of homes. But those who have been gone and come back find something about the way we have done, who have stayed in the old home, to be proud of. They say our trees certainly look good, that we have done a good job, that the homes look so much better and more inviting than ten years ago, and a lot of things like that.

A tree sure does things to a residence plot, and trees do to make a residence section more of a good place to live.

To the printer: Here inset our oft-repeated admonition to the folks to take care of their trees this summer. A tree with proper care is a beautiful thing and a joy forever. A sick or dying tree is the most unappreciated thing on any man's street.

### ABOUT A MILLION BUSHELS

Our guess is that the Floyd county wheat crop will run about a million bushels. How much of this will sell and how much go into the government loan is a matter for time to tell. The government has announced loan plans that mean most of the Texas crop will go to Galveston or are we wrong about this?

Anyway, after seed are saved there'll be around a million bushels of the 1939 crop to go to town sometime under some condition. Some fields will yield none, some a little, others will do 10 to 20 bushels. Irrigated wheat this year is "going to town," we hear. Those who fired down and put the water on the ground are due to reap a big harvest. Others in proportion.

### A NEW WATER SAND

Proof of a new water sand, unquestionably very thick the up and down way, has been given by the Billy Staniforth irrigation well east of South Plains. Bottomed at 400 feet and still in the sand this well has the greatest potential of any well ever yet drilled in Floyd county, and a way out in a territory thought not in the irrigation area.

True, the cost of getting the water on top of the ground is a bit high right now, but that is beside the question. A way will be found to reduce the bill.

What is interesting now is how much of this water bearing sand is there? How much territory does it cover? What is its source of supply?

Rumor has it that the sand is not "kin" to the sands which furnish the Brazos water shed in west, southwest and northwest Floyd county. Mr. Staniforth's well is news of the utmost importance. Folks will be talking about it a long time after they've forgotten other news that "broke" at the same time.

### THE KING AND QUEEN LAUGHED

As related, Mr. John Nance Garner told the king and queen a joke last week and they laughed as soon as he got through telling it. This will be rather disappointing to many who take it for granted the English catch on after deliberating twenty-four hours.

Mr. Garner would have to brag about his Texas somewhat. The king and queen very graciously listened.

### WHICH?

"I saw them tearing a building down A gang of men in a busy town, With a ho-heave-ho and a lusty yell, They swung a beam and side wall fell.

"I asked the foreman, 'Are these men skilled As the men you'd hire if you had to build?' He laughed and said, 'No indeed, Just common labor is all I need. I can easily wreck in a day or two What builders have taken a year to do.'

"I asked myself as I went my way, Which of these roles have I tried to play, Am I a builder who works with care Measuring life by the rule and square Or am I a wrecker who walks the town Content with the labor of tearing down?"

With virtue and quietness one may conquer the world.—Lao Tsz.

When the fight begins within himself, a man's worth something.—Browning.

### As A Farm Woman Thinks

(By Nellie Witt Spikes)

It is a sad time for writing. My lines may blur with tears as I think of the sudden passing of my friend Lou Ella Lincoln Terry. Sweet as the wild flowers she gathered from the prairies and put in vases of clear water; good as the gold of the sunshine, sparkling on the windows of the neighbors' houses where she played so gayly with the children; pure as the soft summer breezes that fanned her hot brow; happy as the meadow lark that poured forth liquid notes as he rose to the blue sky above; thoughtful kind and considerate of others.

These are her words, spoken when a child, and her life was based on this beautiful plan. "Mother you can even be friends with the colored people by whitening their faces and being neighbors to them."

Following the Master's example by being a neighbor to the ones in need. Lou Ella, we loved you.

It was my good fortune to be present at a Writer's club in Lubbock last week. Mrs. May Frances Michael of Sherman, Texas, told about her writing. She has won fame with her one-act plays "Gentlemen Dick," "The Quitter," "Seige of the Alamo" and "That Was Bobbie." I am very eager to get her book of plays she is having published this fall. I trust Mrs. Michael, to read your "Best seller" some day.

When I looked around the room and saw the other members, I

### FLOYD COUNTY 14 YEARS AGO

(Issue of June 18, 1925)  
Mrs. W. E. Miller, of Sand Hill Home Demonstration club, won first place in the Kitchen Contest in District 3 of Texas in Class Two of the kitchen contest, where the contestant spent over \$25.

Floyd county's wheat harvest this year will be the latest it has known in years. Dry weather in the late winter and early spring set the wheat back some weeks, and whereas the harvest has been in full swing at this season of the year heretofore, not a great deal of harvesting will be done in the county for nearly a week.

Born to Mr. and Mrs. Terrell Loran, city, Monday, June 15, a son. Foundation work was started on a residence on West Missouri street this week, for Jess Covington. Mr. and Mrs. Covington will occupy the place as a home when it is completed.

An interesting experiment is being made by the Commissioners court in transplanting trees. Six trees were taken up from the site of the new jail and moved to other places on the courthouse yard. The trees are some eight inches in diameter. The street corner philosophers are about evenly divided on the question of whether the trees will live and thrive or not do well.

Mrs. Mal Jarboe entertained with a birthday party Tuesday afternoon in honor of her son, Malvin Andrew on the occasion of his fourth birthday. There were about 20 little guests present including Charles Lincoln Schrameck of Pauls Valley, Okla., and Julian Lloyd Center, of Lexington, Oklahoma, who are guests of the honoree.

Sunday afternoon water flowed over the Floydada Country club dam for the first time, when the local showers which fell seemed to center over the club site, west and southwest of it on the watershed to Blanco.

Mr. and Mrs. J. G. Wood and daughter, Jessie Mae, and Mrs. T. P. Guimarin left yesterday for Kansas City to spend some three weeks on a visit with Mrs. H. P. Shrader, daughter of Mrs. Guimarin and sister of Mrs. Wood.

F. C. Harmon and family returned home this mid-week from Duncan, Oklahoma, where they visited with Mr. Harmon's brother, George D. Harmon and family since Thursday of last week.

G. T. Asstler & Son, builders of the new gin at McCoy, sustained a rather heavy loss in a windstorm one night early last week, when their new gin structure was blown to the ground and much rebuilding had to be done. The skeleton of the building was up when the storm came. It was a straight wind but was hard enough to do considerable damage, which has since been repaired.

Work on the new jail building for Floyd county started last week. Pouring concrete for the foundation has been in progress this week. A strip through Floyd county, 6 to 15 miles wide and possibly 25 miles long, was covered by showers Sunday afternoon, which reached the proportions of little water spouts in part of the territory. The section covered by rain was increased Monday afternoon by a rain that fell in the southwest part of the county, amounting to half inch at Sand Hill and more southwest.

Rails and Floydada Baseball teams in a game at Ralls Monday had a hectic session, the Ralls boys scoring enough on hard hitting the first inning to win their game. Seven scores were made by the Ralls boys in this frame.

glanced down at my brown, calloused hands and thought I might have looked more at home in a Gardener's club.  
Mrs. William Blake, a member, gave me two of her lovely poems. She writes under the pen name of Marion Tipton Rowland.

### Thought

Illusive, intangible, soundless medium that controls all human life be it saint or demon. Thought comes at will, and stays at our command. We make them good or bad, thought rules the land.

### Black Soil

Our fathers dug in the rich, black soil. They were happy, carefree, in spite of their toil. Sweat, blisters, backache, and plodding hours. But it tied men up with the earth's great powers. God's earth is a mystery still untold, That feels man's body and saves his soul. It fills a hunger in the life of man. Just plowing and planting the good rich sand.

I am sure you will like these poems as much as I have, and they will be filed away and read again and again. Mrs. Blake lives in Lubbock.

Mrs. Christian Potec paid me a nice compliment by saying she subscribed to the paper to read my column. I met her brother, a Mr. Fuller, who lives in Vernon and enjoyed talking with him.

Seen in a little town. Boys of fourteen or so playing "Hide and Go Seek" around the stores. A dog fight inside the store.

I like to look at Mrs. E. C. King's lovely home and yard as I go to town. Some day I am going to take time to stop and see things better.

Joe Ellis is at the "taking away things" stage. But as soon as we take one thing, he crawls and gets another. He is an explorer and is always seeking something new. He can say a few words when he wants to.

Early one morning this week as I was being in my flower garden, a dove cooed his mournful song. Instantly I was a little girl again, sitting on the treeless banks of the Yellowhouse river with a fishing pole cut from a mesquite tree, in my brown hands. I watched with fascinated eyes the shimmer of the water as a fish puffed at the hook covered with a frog. Was it a big cat or a sun perch? The cork danced up and down. It was before sunrise and the eastern sky was painted with blue the color of my baby brother's eyes, and soft pink like his smooth cheeks.

My hair was tousled from sleeping on a pallet under the stars. My dress was wrinkled also. The smell of frying fish, boiling coffee, and sour dough biscuits came down the creek, together with the fragrance of wild plums in a thicket near by. The silence was broken by the lapping of the water and the sounds at the camp. Mother's sweet voice called the sleeping children to get up, a turtle dove cooed, a coyote barked far away.  
The sun rose and dropped golden sunbeams on the rippling water at my feet. I pulled a fat sun perch from the water and holding it in my hands, carried it with pride to the camp.

# Grand Jury Calls Halt to Work with 21 Indictments

## Thirteen Indictments Returned For Motor Fuel Tax Law Violations In County

The Floyd county grand jury for the May term of court adjourned last week after nine days of session studying a number of infractions of the law, and returned a total of 21 indictments, 13 of which were directed against violations of the motor fuel tax laws.

The report by John R. Grey, foreman of the jury is given complete below. It voices a stern warning to farmers to watch and guard against motor fuel tax violations.

"We, your grand jury for the May term, 1939 beg to report we have been in session during the past four weeks and have worked nine days. We have carefully investigated all violations of law that have come to our attention and have returned 21 felony indictments and have completed our work and now wish to adjourn for the term.

"In compliance with the courts charge at the beginning of the term, we have gone thoroughly into the apparent violations of the motor fuel tax law due to the ignorance time has been consumed in this investigation.

"We feel that there have been many violations under the motor fuel tax law due to the ignorance and misapprehension of the farmers of this county as to the provisions of this law, and we should like to take advantage of this opportunity to caution the farmers and petroleum dealers of this county to learn what steps should be taken in filing claims for motor fuel tax refunds and in securing tax exemptions.

"Under the law it is necessary that the tax exemption certificate be made out at the time the motor fuel is delivered and not thereafter. The law imposes upon the purchaser the duty of reading the invoice of exemptions and ascertaining its correctness before the purchaser signs the invoice of exemption and if he signs the invoice of exemptions he ought to be certifying that he has read it and knows that the facts contained in the invoice of exemptions are true and correct, so that if the information set out in the invoice of exemptions is not true the purchaser so signing the invoice of exemptions is guilty of falsifying the same, which is a violation of the criminal laws.

"It is a violation of the law for a person to file a claim for refund of taxes on more gasoline than he has purchased. For that reason every

person buying gasoline that he intends to use for tax exempt purposes should keep the manifest that is delivered to them by the dealer at the time the motor fuel is delivered and before sending in the invoice of exemptions should compare the manifest sheets showing the sale of motor fuel with the invoice of exemptions to ascertain whether they have actually bought as much gasoline as they are claiming tax refund upon.

"We have also investigated the unfortunate occurrence which necessitated the officers in taking the life of a man in this county, and our investigation convinces us that the officers were acting in line of duty and under the circumstances had no choice other than to do as they did.

"We wish to express our most sincere appreciation to the peace officers of the county and to the District and County Attorney for their diligent and competent work during this term of court, which has made it possible for us to do our work with greater dispatch and thoroughness.

"We have inspected the court house and jail, and find both in good shape except the rest rooms in the court house which we found in a deplorable condition, especially the ladies' rest rooms. We would like to recommend to the commissioners court that arrangements be made to clean up the rest rooms and keep them clean at all times for the benefit of the citizens of the county."

John R. Grey,  
Foreman of the Grand Jury.

## Vida Battey, Shelby Cook Married Sunday Afternoon

Miss Vida Battey, daughter of Mr. and Mrs. Fred Battey, and Shelby Cook, son of Mrs. T. H. Baker of Amarillo, were married Sunday afternoon at 4 o'clock on the lawn at the home of the bride's parents in the Pleasant Hill community. Rev. Vernon Shaw, pastor of the First Baptist church, officiated.

The double ring ceremony was performed before an arch decorated with fern, rainbow colored asters and blue and pink larkspur at the base, garlanded overhead with feverfew.

Miss Myra Nell Evers, cousin of the bride, played Mendelssohn wedding march as the bridal party approached.

The bride, who was given in marriage by her father, wore a gown of white shadow organza designed with a fitted bodice, sweetheart neckline, puffed sleeves and voluminous skirt over white taffeta. The three quarter illusion veil was caught at the sides with clusters of tiny pink rosebuds. She carried an arm bouquet of pink sweetheart roses. Her something borrowed was a small white beaded purse belonging to her maternal grandmother and her something old was a gold locket which was worn by her mother at her wedding.

Miss Zella Battey, who was her sister's only attendant, wore an aqua silk net gown with white picture hat. She carried a bouquet of pink larkspur and gladioli showered with feverfew and tied with aqua satin. Howard Cook of Amarillo attended his brother as best man.

Mrs. Cook is a graduate of Floydada high school, attended Wayland college at Plainview, Hardin-Simmons university at Abilene and has her degree from W. T. T. C. at Canyon. She was a member of the Phi Kappa Phi at Canyon. For the past year she taught in the Frith school.

Mr. Cook is a graduate of Amarillo high school. He attended W. T. T. C. at Canyon and was a member of Pi Beta Gamma fraternity. The couple left for a wedding trip and on returning here will be at home in the Pleasant Hill community where Mr. Cook will be principal of the school and Mrs. Cook a teacher. The bride's going away dress was of navy blue marquisette with navy and white accessories.

After the wedding a reception was held in the dining room of the home. The table was laid with a lace cloth centered with a three tiered wedding cake topped with a miniature bridal couple, encircled with orchid and pink sweet peas.

Miss Myra Nell Evers presided at the cake and Mrs. J. R. Lawrence, Mr. and Mrs. Lee Harry all of Amarillo, Mrs. A. T. Pratt of Ralls, Mr. and Mrs. W. D. Herring and Mrs. J. T. Kelly of Plainview.

R. D. Hobbs, Amarillo, Julian Edmondson, Matador, Everett Culp, Happy, Howard Cook, Amarillo, R. V. Pratt, Ralls, and Miss Mary Manzer, Canyon, Irene Stewart, Amarillo, and Ruth Pratt, Ralls.

## Mrs. Shaw Hostess Honoring Son On Eighth Birthday

Kenneth Shaw was named honoree at a party given by his mother, Mrs. Vernon Shaw, Saturday afternoon from 6 until 7:30 on the lawn at their home, 420 South Wall Street, in observance of his eighth birthday.

Miss Lucile Marr and Mrs. J. D. Brown assisted Mrs. Shaw in directing games for the children.

A beautiful white birthday cake adorned with white candles in pink holders and with pink ornaments was an attraction to the guests. The honor guest was presented with a number of gifts.

Attending the delightful occasion were Kenneth, honor guest, Bobbie James Cline, Tom Bob Jarboe, Lena Floy Demson, Carrol and Bruce Womack, James Elliott, Woodie Thompson, D. I. Bolding Jr., Patricia Kirk, Nelda Ruth Chapman, John Robert Patton, Lonnie Cates, David Joe and Joyce Lambert.

**J. W. CLONTS HONORED WITH MISCELLANEOUS SHOWER**  
J. W. Clonts was honored with a miscellaneous shower last Saturday by patrons on his route. As he went about his duties delivering the mail to each box he was greeted by the patron in person or found a lovely package in the box addressed to him.

The occasion for the shower was honoring Mr. Clonts following his recent marriage to Miss Ola Hanna and also as a courtesy and appreciation of his services since he has been a carrier on route 1. A number of patrons said his services are as nearly perfect as a carrier's service can be.

Gifts consisted mostly of linens, dishes, groceries and canned fruits.

## Mrs. McNutt Is Honor Guest At Lovely Shower

Mrs. Hershel McNutt, who before her marriage May 21, was Miss Doris Collins, was the honor guest at a lovely miscellaneous shower Tuesday evening at the home of Mrs. R. C. Patton.

## Blondy's Big Bat Is Factor In Lockney's Victory Sunday P. M.

The Lockney Yankees lived up to their namesake's reputation by using hard hitting mixed with some nifty flinging by Robertson to sink the Amarillo Texans 7 to 0.

Blondy Finley, short stop hailing from Floydada, wielded the big bat for the day collecting three for three, one of which was a homer. Robertson was nipped for six blows but put on pressure in the clinches to keep the Yankee's out of danger.

Phillips of Amarillo was checked for 11 hits by the Lockney team.

The game was the first played in the renovated park just east of the city auditorium. A game will be played there Sunday afternoon but the opposition had not been announced today.

## WOODSMEN GO WEST

The westward shift of the lumber industry is reflected in a Forest Service compilation of mill production from 1900 to 1935. Over the entire period the East has supplied more than four-fifths of the American lumber, three-fourths of which was softwoods and one-fourth hardwoods. At present, however, nearly half the lumber cut is from the western soft-woods, which include Douglas fir, ponderosa pine, white pines, hemlock, spruce, and redwood. The Central region has supplied more than 40 percent of the hardwoods. The cut from 1900 to 1935 was more than half the cut for the previous century, but the mill value for the 35 years was considerably greater than half of the 38 billion dollars which was the total estimated mill value of the cut for the 135 years.

## Yankee's To Play The Hubbers At Lockney Sunday Afternoon

The Hub's are coming to play the Yankee's... that is the Lubbock Hubbers (No. 2) team and the Lockney Yankees will meet Sunday afternoon at Lockney in the second home game for the twice defeated Lockney nine.

The Little Hubbers are known as the Blue Brigade around the Hub City but even the rankest outsider there knows that the Lubbock team packs plenty of power and no mean pitching staff.

Not in the least daunted the Lockney boys will probably have Robertson on the mound... and Robertson is undoubtedly the best semi-pro pitcher out in this neck of the woods.

The Blue Brigade line-up is studied with young players on the way to the big leagues, boys who have signed contracts and are being seasoned on the semi-pro outfit, and veteran players, ranging from high school lads, collegians, and old timers.

Left Huckabee will toe the rubber for the Hubbers and is a "fair to middling" pitcher having done some flinging for the Hubbers and for Clovis in the Tex-New Mex league.

Last Sunday the Yankee's scorched the Amarillo Dust Bowlers 7 to 6 and folks said the game beat any game they had seen in the Class D leagues.

FARM GARDENS CUT FOOD COST TO FSA BORROWERS

Farm vegetable gardens are a big help in increasing the living standard of Farm Security Administration borrowers, a recent Nationwide survey shows. Home gardens reduce food expenditures for these farm families \$150 or more, depending on the size of the family. This money is then available for other living expenses or for paying off debts.

The FSA survey shows that these low-income families have on the average increased their net worth from all sources by about \$265, or 37 percent, since obtaining loans.

The families survey more than tripled their production of food for home consumption. They increased their canning of fruits and vegetables from an average of 51 quarts per family annually to 221 quarts. Many were able to meet all vegetable requirements for the entire year with fresh, stored, or canned vegetables supplied by their gardens.

According to FSA's home supervisors, gardens are planned to furnish a good supply of fresh vegetables during the summer months and enough additional so the homemaker may can about 25 quarts of tomatoes and 35 quarts of other vegetables for each member of her family. In addition, 3 to 5 bushels of potatoes and 3 to 4 bushels of vegetables such as carrots, cabbage, beets, rutabagas, and turnips are recommended for storage for each person in the family.

The preferences of the family and their requirements for an adequate year-around diet are carefully measured before the garden is planned.

Mr. and Mrs. W. L. Jeter of St. Vrain, New Mexico, were week-end guests in the L. L. Jeter and B. Nichols homes.

Mr. and Mrs. Gilbert Nichols of Wichita Falls and Harold Davis visited Sunday in the B. Nichols home.

### Be Certain Granary Meets Requirements For Wheat Storage

Strict Maintenance Of Quality And Quantity Demanded For Farm Rental Allowance

COLLEGE STATION, June 12.—Texas farmers who intend to take advantage of the AAA wheat loan for 1939 and who plan to store loan

wheat on the farm, should make certain now that their bins will meet requirements of the program. That is the advice of Charles Thomas, Pampa wheat farmer and member of the Texas Agricultural Conservation committee which makes headquarters at Texas A and M college. Farmers who store 1939 wheat on their farms become eligible for a farm-storage rental allowance of 7 cents a bushel if the wheat they deliver to the Commodity Credit corporation, when the loan matures is of the same grade and quality as when the loan was made.

Counties in which the farm-storage feature of the loan applies are Armstrong, Bailey, Briscoe, Carson, Dallam, Deaf Smith, Donley, Floyd, Gray, Hale, Hansford, Hemphill, Hutchinson, Lipscomb, Lamb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher and Wheeler. Good wheat, properly stored, is the only security a farmer will be required to put up for a loan, Thomas advised. He said farmers will need bins that will hold the wheat without loss of quality; protect it against weather conditions that may cause deterioration; provide protection from thieves, rodents, birds, poultry and insects; permit effective fumigation; provide reasonable safety from fire and wind; and require forcible breaking before entering, after it is sealed. Generally speaking, farm storage of wheat has proven successful. Thomas said a recent reinspection showed that only 24 out of 19,000 bins used to store 1938 loan wheat in 19 states, including Texas and Oklahoma were in such condition that discontinuance of the loans was recommended. There were 89 loans in Texas last year on 230,000 bushels of farm-stored wheat. The government will have paid these farmers around \$16,000 rent for having stored this wheat through fall, winter and spring, Thomas said.

**GIRL SCOUT NEWS**  
The Girls Scouts met Wednesday afternoon, June 7 at the home of Jean Wester. Berl Busby, lieutenant, had several games planned for the entertainment of the members, and the tests were worked on. The next meeting will be held at Miss Busby's home, 510 West Missouri St. on Wednesday, June 14, at 3 p. m. Nature study will be taken up.

**MCCOY H. D. CLUB MEETS**  
At a meeting of the McCoy Home Demonstration club in the home of Mrs. W. W. Smith, June 9, the subject discussed was "The Child's place in the Home." An interesting discussion concerning how desks, chests of drawers and closets for children can be built inexpensively was given by Mrs. R. I. Birdsong. Following this discussion was one concerning the health habits of a child which was given by Mrs. James Smith. Mrs. O. F. Cummings, the council representative to the Home Demonstration meetings at Lubbock and Amarillo reported these meetings to the club; she was assisted by Mrs. R. E. Smith and Miss Smith. During the business session the club voted to send their president, Mrs. R. F. Day, to the Short Course at A. and M. A committee was appointed to furnish entertainment for the "Pie-Ice Cream Party" to be given June 29, on the school grounds. The proceeds will go to send the delegate of the club to A. and M. and the general public is invited to attend. The club will contribute its part to the gift of the former demonstration agent, Miss Ruth Grimes. The time of the meeting was changed from 2 p. m. to 2:30 p. m. Members present at the meeting were Mesdames Autrey Sparks, E. R. Griggs, Hobert Day, O. F. Cummings, L. H. Smith, R. E. Smith, A. S. Johnson, G. H. Tardy, T. J. Day, G. H. Day, James Smith, R. I. Birdsong, W. H. Hurlsey and hostesses Mrs. Smith, Clara and Thelma.

**HARMONY H. D. CLUB**  
Mrs. Chas. Watson was hostess to the Harmony H. D. Club Thursday afternoon June 8. The roll call was answered by "What Farm Paper do you Read." Mrs. Hale gave a short council report. Miss Wilson gave an interesting demonstration on refinishing furniture with paint, varnish, etc. Miss Wilson explained the proper way to use furniture paint and oils after which refreshments of jello salad, cookies and cool-aid were served to the following: Mrs. C. W. Brockett, M. D. Ramsey, Perry Tipton, W. S. Hanna, Floyd Trowbridge, Rheubin Rutherford, Chas. B. Smith, Carrick Snodgrass, J. W. McAdams, M. Carr, Sherwood Ramsey, Wm. Finkner, J. S. **HOMEBUILDERS CLUB MEETS**  
Members of the Homebuilders Club met in the home of Mrs. Raymond Teeple, Friday, June 9. Miss Edith L. Wilson, home demonstration agent, gave a demonstration of paints and varnishes. "If a lot of time is required to refinish a piece of furniture, it should be of good wood, good lines and sound enough to justify time," she told the members. Suggestions were made as to the best procedures to follow in order to obtain the best results and finishes. During the business meeting, plans were made to send a delegate to the A. and M. Short Course, July 5, 6, 7. Mrs. P. F. Bertrand gave a council report. Those present were: Miss Lida Cooper, district agent, Mrs. Morris Mara and Mrs. O. W. Howard all visitors and Mesdames D. D. Shipley, W. F. Weatherbee, P. F. Bertrand, A. W. Dunn, F. J. Heard, R. I. Teeple, Elbert Parks, John Lloyd, C. W. Denison, Floyd Fuqua, Miss Lois Wilson, Mary McCarty and the hostess. **Spinal Column IS CHIROPRACTIC LIMITED?**  
Many people who propose to speak for the scope of spinal adjustment are those whose knowledge of the science is either very limited, or they purposely mislead you. In fact, the only people who are in position to speak of Chiropractic, (the spinal adjustive method) are the Chiropractor himself and those who know, by experience, of the method. All other opinions are bias or incomplete on the subject. We are able to say that Chiropractic methods may be employed successfully in almost any and all types of condition to a decided advantage, both as to results and also to the fact, that it is one of the most economical health methods available. When preconceived opinion has been broken down, the people who have been misguided by "expert" opinion as to how spinal adjustments are "limited" to a "few" things such as cricks, etc., will come into possession of a long delayed health method that will assist them in living longer, healthier and better in every way. Chiropractic adjustments have proven helpful in fevers, paralysis, curvatures, skin diseases, anemia, adjustments as also assisted in normalizing blood chemistry, cleared up kidney conditions (proved by the test tube in urinalysis). These and other worthwhile things are being done daily in the routine work of the average Chiropractic office. Are the above results "limited"? Following subject: "Chiropractic Medicine".

**Telephone Teamwork in Texas**

Some people are surprised to learn that there are 396 telephone companies serving Texas. The Southwestern Bell Telephone Company is the largest, it is true. But there are others—395 of them—which have the important job of providing telephone service in about 830 Texas towns and cities. The Southwestern Bell is glad its lines connect with the lines of these other Texas telephone companies, blanketing the state with a vast network of wires—so that boundaries between companies are not barriers to quick, state-wide telephone service. Through teamwork and friendly co-operation, 396 Texas telephone companies work together to furnish Texas with telephone service that is fast, accurate, and dependable. Long Distance in Texas is cheap. You can telephone 100 miles for 60 cents (3 minute conversation, day rate, station-to-station).

**Paul Writes Personal Letters**  
Lesson Text: II Timothy 1:1-6; Philimon 1-7, 21, 22.

Golden Text: "Give diligence to present thyself approved unto God, a workman that needeth not to be ashamed, handling aright the word of truth." (II Tim. 2:15).

Paul, an apostle of Jesus Christ by the will of God, according to the promise of life which is in Christ Jesus.

2 To Timothy, my dearly beloved son: Grace, mercy, and peace, from God our Father and Christ Jesus our Lord.

3 I thank God, whom I serve from my forefathers with pure conscience, that without ceasing I have remembrance of thee in my prayer night and day.

4 Greatly desiring to see thee, being mindful of thy tears, that I may be filled with joy;

5 When I call to remembrance the unfeigned faith that is in thee, which dwelt first in thy grandmother Lois, and thy mother Eunice; and I am persuaded that in thee also.

6 Wherefore I put thee in remembrance that thou stir up the gift of God, which is in thee by the putting on of my hands.

7 Paul a prisoner of Jesus Christ, and Timothy our brother, unto Philimon our dearly beloved, and fellow-labourer.

2 And to our beloved Apphia, and Archippus our fellowsoldier, and to the church in thy house:

3 Grace to you, and peace, from God our Father and the Lord Jesus Christ.

4 I thank my God, making mention of thee always in my prayers,

5 Hearing of thy love and faith, which thou hast toward the Lord Jesus, and toward all saints;

6 That the communication of thy faith may become effectual by the acknowledging of every good thing which is in you in Christ Jesus.

7 For we have great joy and consolation in thy love, because the bowels of the saints are refreshed by thee, brother.

21 Having confidence in thy obedience I wrote unto thee, knowing that thou wilt also do more than I say.

22 But withal prepare me also a lodging; for I trust that through your prayers I shall be given unto you.

**Introduction**  
It is generally believed that Paul was twice imprisoned at Rome. It is also understood that this epistle to Timothy was not written during his first imprisonment. Paul's martyrdom was at the end of this imprisonment, about the year 66 A. D.

It is further supposed that Paul went from Crete to Rome, and that he was fully conscious of the troubles awaiting him there. But upon hearing of the church's troubles, he thought best to sacrifice himself, thereby hoping to help the church.

He judged that his presence would give comfort, courage and strength. Like the true soldier of Jesus that he was, he braved every danger for the cause of Jesus Christ.

**BAPTIST CONFERENCE HELD**  
Rev. Vernon Shaw, pastor of the First Baptist church of Floydada, attended the Baptist Pastors' conference in Fort Worth, June 5-10.

The theme of the entire conference centered around enlistment and evangelism especially in rural districts. The sponsorship of mission points and mission Sunday schools in out-of-way places was urged in order that all rural districts might have religious meetings scheduled for the summer.

Outstanding and prominent speakers for the conference were Dr. George W. Truett, pastor of First Baptist church, Dallas, and Rev. Hyman Appelman, state evangelist.

Rev. Shaw returned home Friday, June 10.

Mr. and Mrs. M. L. Claiborne of Wink visited the latter part of last week with his brother, J. B. Claiborne and Mrs. Claiborne.

**CENTER, June 13.**—A strong wind has been blowing for several days. A hard hail fell in this community Sunday but it was small, causing little or no damage.

Mr. and Mrs. Tom L. Collins and son, Raymond, and a cousin of Mr. Collins, returned home Monday after an absence of four days in Dallas where Mr. Collins attended a conference of workmen and visited his uncle and family.

Some of our people attended the singing at Floydada Sunday.

Roe Jones is harvesting his wheat crop this week.

The highway crews are cleaning out the bar ditches and getting the roads ready for a rain.

J. B. Jordan and Miss Belmont Bourland went to Levelland Saturday where they were the only attendants at the marriage of O. E. McGaw of Lubbock and Miss Lida Timmons of Levelland. This community will remember Miss Timmons as teacher of a study course here some years ago.

Mrs. A. W. Anderson has been ill the last few days but is improving at this time.

Mrs. Merle Weathers is spending the time with relatives here while the Rev. Weathers is making a trip to Dallas.

Last Thursday the family celebrated the forty-seventh birthday of A. W. Anderson at the home of his son, Roy. Those present were Mr. and Mrs. Bill Anderson and children, Mr. and Mrs. Ausie Watson of Plainview, Mrs. Floyd Anderson and A. W. Anderson and family.

Mr. and Mrs. T. C. Hollums visited Mr. and Mrs. Travis Lightfoot Sunday.

Rev. Martin and Mr. Miller of Starkey were callers in the Jordan home Sunday afternoon.

Mr. and Mrs. Tom Jernigan had as guests Sunday Mrs. W. H. Jernigan, his step-mother, Mr. and Mrs. Jack Jernigan, brother, and Roy Jernigan, brother from Eastland, and Mrs. Hugh Stowe, a sister from Clovis.

Mr. and Mrs. O. G. Mayfield and son spent a few days last week in Crosby county where they attended Crosbyton's anniversary picnic and life home coming at Pansy church on Sunday.

Bob Bradford suffered a severe cut on the head while working on Roe Jones' combine. A whirlwind blew a door to, causing the lacerations.

No matter how persecuted the people of other lands may be and how much they want to come to The Land of the Free there seems to be no place for them here.

It is hard enough to handle "refugees" from hunger, unemployment, old age, blind, and crippled in our own country without taking on boatloads of political refugees from abroad. We can feel sorry for them but we must not let our sympathy get the best of our better judgement...when we learn how to care for our own problems here in our own backyard and do so we can reach out and tackle the problems in the other fellow's yard...until then let's just feel sorry.

Probably at the end of the week Texas will again have turned the Sales Tax (so called pension amendment) back or Texas will know the names of six representatives who have turned "traitor" to their state...six who have willed under fire from a "flour salesman"...six men who were not worthy of their trust.

If the proposed amendment, S. J. R. 12, is defeated again the 56 legislators who block it should get their names on the "honor roll," spelled in bold caps because they will have again saved the state from its own grabbing ways.

The Rev. O'Daniel is going to keep messing with the pension proposition until the U. S. government decides that things are not carried on right in Texas...then the state will be forced to do without that dollar for dollar matching that the government has been doing...then what will our old folks do?

Our old folks need protection from hunger, and the elements but O'Daniel is hurting their cause with every wag of his jaw...We are for the old folks but not a "glorified flour salesman" who accidentally be-

came governor of the finest state in the union.

Hopes are brightening for the "Blanco Lake" which it is hoped will be 40 feet deep and three miles long by this time next year and folks from all over the plains on hand for the grand opening.

A visit to the spot Sunday clears up a number of things...the dam will be about 45 feet high, running from the bottom north rim to the

bottom south rim. On the north side Mother Nature has built a natural spillway and just down the creek on the south rim a little work with a tractor and grader will give a perfect entrance to the site.

The lake would back up within a short distance of the 207 highway canyon crossing, filling a large basin located just below the oil well (Floyd's Polly) giving plenty of room for boating, fishing and other water recreation. The lake would be rim-

med with the towering canyon walls. Blanco Lake would make Buffalo Lake look like a duck pond.

**SO DOES MY MOTOR!**

"No Red Flannel Underwear for me... I dress to match the weather... switch to shorts when winter days are warm... shake the mothballs out of my polo coat when June nights are cold.

"That goes for the gasoline I use, too. I always fill up with Phillips 66 Poly Gas, the modern gasoline that is custom-tailored to fit changes in climate. Am I tickled with the way my motor runs since I discovered this wonderful gasoline?... I'll say.

"And talk about mileage! I read in the ads that Phillips 66 is matched

and re-matched to the weather every month, more accurately than any other motor fuel. So maybe that's the reason. Or maybe it's because Phillips 66 is high test, or because it has those extra power units added by the scientific Poly process.

"All right, forget the reasons, if you like. But try a tankful of this powerful Phillips 66 Poly Gas... and see if your motor doesn't run cooler, quieter, peppier, and faster... and figure up the extra miles you get... all without paying a penny extra."

### Unusual Honor Given Father Of Mrs. Sims

Arcadia, Louisiana, Sets Aside Day To Honor Citizen On His Birthday

Recently at Arcadia, Louisiana, Green Hood, a resident of that section for many years, was given an unusual honor, when the whole community at the instance of the Arcadia Civic club paused to pay their respects to him on his 85th birthday. The event is interesting locally because of the fact that Mr. Hood is the father of Mrs. C. B. Sims of Floydada, and because of the fact that a "good" man made news. Says the Bienville Democrat of Arcadia:

Through its Civic club, Arcadia paused this week to do honor to Mr. Green Hood, of the Sugar Creek community, on his 85th birthday. The club had selected Mr. Hood as the prototype of what a man ought to be—in character, in morals, in efficiency and in citizenship.

We wish that Mr. Hood could write his autobiography. We have a hunch that it would serve as an excellent textbook for the young people of this area. For Mr. Hood's life is an example of the American way. He is a living proof that thrift, character and willingness to work seldom go unrewarded.

It is rarely that a "good" man makes the news—we expect men to conform, to stay in line, to do the right thing. It is the criminal kicking over the traces who usually achieves notoriety. But where are different degrees of morality, and most of us are good in a lazy, lackadaisical way. A really moral, upright man never fails to attract attention. He never fails to influence the youth of his community. By his precept and example he is a tremendous force among his neighbors.

Such is and was Mr. Hood. Not a big farmer, not a big business man, he nevertheless can look back on a life that has been valuable to himself for its fullness, happiness and effectiveness, and valuable to his neighbors for its effect on them and their children.

As a farmer Mr. Hood early practiced soil conservation, crop rotation and a live-at-home program. He sought to raise everything possible on his farm—both for family and stock. Since 1891—nearly half a century—he has not seen the bottom of his barn, due to the feedstuff he had cut and stored from his own farm.

As a business man, Mr. Hood never had a mortgage on his farm. He made a practice of trading in his home area. He became noted for honesty, truthfulness—a good man to do business with.

As a family man and a citizen, Mr. Hood reared children who became worthy members of society; supported church, school and civic improvements, and otherwise fulfilled the duties of a citizen to his country.

We believe that any young man of North Louisiana could take Mr. Hood's life as a pattern to follow, with assured faith that the ambition, ideals and ethics that Mr. Hood practiced would result in an abundant life, in happiness, health and a measure of prosperity.

Chicks should be given grain feed after the first seven to ten days. This should be fed two or three times a day on top of the mash. It is very essential that sufficient mash hopper space be supplied so that the chicks can all eat at one time. As early hatched chicks do not have access to range and direct sunlight or green feed, their ration should be supplemented with one and one-half per cent of straight cod liver oil that contains 85 U. S. P. units of vitamin D per gram and not less than 600 U. S. P. units of vitamins per gram.

### O. L. Allen Funeral Held Monday In Plainview; Rev. Lemons In Charge

Funeral services were conducted Monday afternoon, June 12, at 2 p. m. at the First Baptist church, Plainview, for Oscar L. Allen, 52, with Rev. Virgil Lemons, Hart Baptist pastor, and Rev. Charles Odom, Plainview Baptist minister, officiating. He died in the Plainview hospital early Sunday morning following a week's illness.

Allen, a resident at Sterley for the past three years and prior to moving to Sterley a resident in the Aiken community for 13 years, was born May 26, 1887 in Arkansas. He became connected with administration of the farm program in Floyd county in 1933 and during the past six years had served as allotment committee man, as head of the county committee, and at the time of his death, was federal crop insurance supervisor.

He is survived by his wife and a daughter, Mrs. Hubert Rutherford, Tulsa, his father, John Allen, a brother, Elbert Allen, and two sisters, Mrs. Stewart White, all of Lamessa and Mrs. Alma Lowe, Carlsbad, N. M.

Pallbearers were R. M. Batten, G. B. Johnson, Henry Schacht, L. A. Williams, A. H. Kreis, L. W. Chapman, D. F. Bredthauer and Henry Marshall. Interment was in the Plainview cemetery.

One of Czechoslovakia's strangest exports is mud. The mud is of a very special quality, for it is that of Piestany and other famous spas and contains radium, silica, iron, calcium and other healing minerals. There, at Piestany, the mud, known as "fangoo," can be dried and made into cubes and poultices, without loss of its health-giving qualities. So dehydrated, it is exported all over the world for the treatment of rheumatism, gout, sciatica and other ailments. The greatest springs for the cures at Piestany rise on the bathing island in the River Vah. These well up through fissures in the rock strata, the water having a temperature of about 140 degrees.

Talkative Tillie thinks the sweet girl graduate who depends on flirtation and figure may decide after a few tussles with the croo-el world that hard work and horse sense are much more in demand.

### To Make A Long Tale Short

Little Johnny had a mighty long face when he gazed for the first time at the pinched countenance of his brand new baby brother. "Ge Whiz," he said to his mother, "How much a month do we have to pay for that thing?" You wouldn't have to pay very much a month to own one of our guaranteed, re-conditioned used cars.

### SIMPLE DEVICE ANALYZES MOTORISTS' USE OF ROAD

A black rubber tube laid across the highway and connected at either end with a simple instrument staked at the side of the road forms the basis for analysis of how the motor public behaves in its use of the highways. This special study is being made by the Federal Bureau of Public Roads.

The tube is unobtrusive and looks much like an expansion joint—one of its good features. Most motorists will not see the tube and will not be aware of making a record. Other devices, such as checking by observers, or by motion-picture records, are less useful because they are likely to make drivers self-conscious and cause them to slow down for fear of a speed trap. A record of natural driving on a representative stretch of road is what is wanted.

The tubes are placed to 50-foot intervals on the stretch of road under study—a half mile, perhaps. When an automobile crosses a tube, a wave or puff of air is forced into the roadside instrument and move a diaphragm which causes an electrical contact. The tubes are disconnected at the middle of the road so that a vehicle passing on one side of the road does not register on the instrument on the other side.

Wires run to a recording apparatus in which a strip of paper unrolls under a set of pens. Each passing car leaves a pair of pen strokes—for front and rear wheels. Knowing the spacing of the tubes and the speed of the moving paper it is easy to calculate the speed of any car. The device is particularly useful in studying the passing of slow vehicles by faster ones. On a two-lane highway the pen-marked strip reveals the faster car overtaking the slower; then swinging across the center and registering on both lanes; then running in the left lane, and finally swinging back to the right. Distances and speeds can be calculated exactly, and by tabulating many passages it is possible to compute, for example, how long a straightaway stretch should be to make passing safe and easy. A single tube with the roadside instruments connected to an electric counter makes a convenient and inexpensive device for registering the number of vehicles using a road.

### NOTES ON EGGS

Eggs do not need coldest spot in refrigerator. If eggs are properly cooked, they lose none of their food value. Cook slowly at moderate, even heat. Do not cook soft-boiled eggs over fire. Put them in pan of water that is boiling hot, remove pan from fire and let eggs stand from 8 to 10 minutes. Never leave egg whites after being beaten stiff. They will flatten and not beat up again. To keep yolks and whites intact when poaching or when serving whole, break each one separately into a small dish or saucer before putting into cooking pan.

Where Pearls Come From  
The trade name usually applied to all natural salt-water pearls is "Oriental." Fresh-water pearls usually lack the fine color seen in those from salt water, although one pearl found in a New Jersey creek brought the price of \$10,000 and finally became the property of the Empress Elizabeth. Green-black pearls come from the waters of Tahiti and Mexico. Gray pearls are rare and valuable.

Filing supplies, Hesperian.
