NUMBER 23

Choral Club Acclaimed At Meeting

Officials Of County Agricultural And Home Demonstration Clubs Present

Floyd county was well represented at the Short Course held at College Station last week when twenty-three women, County Agent D. F. Bredthauer, Home Demonstration Agent Miss Edith L. Wilson, District Vice-President Mrs. C. A. Caffee, Council Chairman Mrs. S. J. Latta, three 4-H club boys and several 4-H club girls were present.

The Floyd county women left Floydada Wednesday morning arriving at their destination twelve hours later.

The Home Demonstration chorus, with Mrs. W. M. Finkner, director, won a substantial cash prize and acclaim from state officials with their presentation of musical numbers.

The club women of the state were housed in the college dormitories and had meals in the mess hall while there. Tours of inspection were made each day in the special bus in which the trip was made.

On the return trip Saturday they visited the governor's mansion. Some of the members expressed disappointment in not seeing the governor and his family, who were out of town.

Helpful information brought back to club members of the county will include storing fruits and vegetables in freezer lockers, mattress demonstrations, landscaping country homes, uses of electricity on the farm and decorating windows.

Delegates from the county who made the trip include Mrs. Dean Hill, Sunnyside; Mrs. W. H. Nelson, Bakerview; Mrs. Menard Field, South Plains; Mrs. Russell Crawford, Antelope; Mrs. W. Sims, Center; Mrs. Malcolm McNeill, Fairview-Cambridge; Mrs. L. M. Honea, Lockney; Mrs. Herschel Carthel, Starley; Mrs. Clarence Brandes, Providence; Mrs. J. A. Edwards, Pleasant Valley.

Members of the choral club are Mmes. Finkner, A. H. Kreis, J. Sam Hale, Robert Smith, Ott Glassmoyer, Hill, Honea, Field, Brandes; Mmes. Tom Boyd, Marvin Jeter, Lon Blasingame, S. J. Latta, D. D. Shipley, R. B. Gary, A. B. Muncy, and Herman King.

Four Crosbyton women, Mrs. Homer Smith, Mrs. W. C. Baldwin, Mrs. Wesley Hay and Mrs. L. M. Blanton accompanied the Floyd county delegation.

Satisfactory Maneuver Reported By T. N. G. At Echols Encampment

Members of the Texas National Guard troops at Lubbock, Plainview and Amarillo, who spent the weekend in a training encampment at the Echols ranch near Whitefield in Motley county, reported a satisfactory maneuver.

Use of battery fire against improvised moving targets simulating the movement of army tanks was one of the problems studied.

Col. Thos. A. Bay, of Plainview, was commanding officer for the two days of training.

SAND HILL CHURCH OF CHRIST IN REVIVAL

Elder L. W. Hayhurst will start a series of services Saturday at 8:30 p. m. at the Church of Christ at Sand Hill.

The public is cordially invited to attend these services, is the invitation from Mrs. W. M. Knight.

McCleskey Winner Championship In Golf Tournament

John McCleskey won the high honors of the Floydada Country club golf tournament completed Sunday afternoon, when he defeated Dr. A. E. Guthrie in the final play of the championship flight.

In the first flight L. T. Bishop won the decision over J. B. Claiborne for honors in that division on the eighteenth hole, and O. P. Rutledge led in the second flight, defeating Waldo Houghton in the finals. Elton Goen was consolation winner in the first flight.

A. B. Clark led the third flight, with R. F. Stovall the runner-up, and in the fourth flight Homer Steen was winner with Gordon G. Voight the runner-up.

Thirty-nine players were entered in the tournament, which took two weeks to play off.

New Master Installed

J. I. Finley, above, was installed as Worshipful Master of Floydada Lodge A. F. & A. M., Saturday night. He succeeds W. H. Sharp in the long line of Masons who have served the lodge since its establishment in 1891.

C. of C. Key Job Development Says H. E. Strickland

New Secretary Undertakes Work In New Location West Missouri St.

"A service organization dedicated to the non-partisan progress and development of Floydada and Floyd county" is the way Herwin E. Strickland, new secretary, described the Chamber of Commerce in a statement this week after assuming the duties of the office on Monday.

He has been busy there re-organizing the office in the new location in the William building on West Missouri street. Upward of 100 members are now participating in Chamber of Commerce activities. With the membership drive going forward their number is expected to exceed the goal by the end of the week. Teams under the direction of J. G. Wood and R. E. Fry are conducting the drive.

"The Chamber of Commerce is your organization in like manner as your business, state and nation," Strickland's statement continued. "What the Chamber of Commerce accomplishes depends on the suggestions and co-operation the citizens give it.

"In a time when we are devoting a lot of effort to the 'cleaning up of our backyard', when we as a nation are getting ready for any eventuality, we should not lose sight of the fact that the general efficient and profitable operation of this giant machine depends on the efficiency of its integral parts. By that we mean that you can do your part by pitching in and keeping the development going on here in Floyd county."

Potato Digging and Marketing Gathers Momentum to Make More Jobs in County

Floyd county's newest crop is being harvested and marketed. These scenes, with the exception of number 4, were made at the Bellview Potato ranch, a 72 acre farm located three miles west of Floydada. 1. The potato digger in action. Freshly dug spuds can be seen intermingled with soil on the conveyor. 2. Workmen in the field picking up spuds and placing them in baskets like that shown in the close-up (3). 3. The first load of Imperial Triumphs being loaded for market as Glen Hartsell, owner of the truck, oversees the job. 4. Hundreds of sacks of Triumphs in the field give evidence that sackers have been busy following the pickup men, two of whom are shown in scene 6. A side view of the potato digger which is drawn and powered by a tractor at right. 8. Field scene with the digger, pick-up men, and sackers working. Filled sacks are tied, hauled into Floydada to the washer and grader where the spuds are washed, graded, inspected, sacked and shipped.

July 31 Last Day For Scholastics To Be Transferred

Superintendent Guffee Calls Attention Of Parents To School Law

Wednesday, July 31, two weeks hence, is the last day for scholastic transfers and County Superintendent Clarence Guffee is calling the important date to the attention of parents and guardians.

"All children must transfer their children who have finished the highest grade taught in their home district, if they plan for the children to go to school elsewhere," said Superintendent Guffee Tuesday, calling attention to the fact that the highest grade taught in that district will be raised from 50 cents on the \$100 valuation to 75 cents. The district has planned to transfer all their scholastics to the Lockney Independent district and the increased funds will transport their pupils to and from that school.

West Texas Pioneers Committee Busy At Plans For Reunion

R. B. Smith of Lubbock, manager of the West Texas Old Settlers association was in Floydada Saturday making plans for the Reunion that will be held at the Hank Smith Memorial park August 15 and 16.

Arrangement for the carnival have been completed, committees are at work on what they believe will be one of the best programs ever presented at the reunion. Work is underway repairing the shades, grounds and conveniences for the old settlers, Mr. Smith said.

Mrs. J. T. Marr of Lockney, mother of Mrs. Vernon Shaw was injured Friday night in a fall from the concrete step at her home.

In the darkness, she missed the step and falling struck her head on the concrete porch.

She was carried to a Plainview hospital Saturday where an examination showed a slight concussion.

Mrs. Shaw has been spending some time with her mother and reports she is slowly improving.

Lorin Leibfried Is Elected Member Board N. A. L. C.

Lorin Leibfried, city carrier No. 1 of Floydada, was elected member of the state executive board of the Texas State association of N. A. L. C. in the convention of this organization at Waco recently.

Mr. Leibfried will represent District 3 which includes 22 cities in an area from Wichita Falls to Snyder and from Bowie to Dalhart. Delegates from the Texas State association of National association of Letter Carriers, Texas Federation of Post Office Clerks, Texas Federation of Rural Letter Carriers and Auxiliaries, attended the joint state convention on July 5 and 6.

As member of the executive board Mr. Leibfried will be in contact with members of the Texas State association of City Carriers, from this district. He will participate in direction of activities for this group.

EDITORIALS

THE POLITICAL EDITION

This edition of The Hesperian—a political edition—is intended to be informative and educational so far as we can make it so. In it every candidate who is participating is given an opportunity to put his best foot forward. In it we have no enemies to punish, only friends to reward. Few short days and the story will be told for many of them. July 28 several will begin in earnest the real campaign against the single opponent who stands between each and his cherished goal, an office at the hands of the people. Perhaps by reading this edition carefully you may learn something more than you have known of the men who want to serve you—state, county and precinct. Some of the candidates you will not find in this edition. That is not to their discredit. It is merely that they decided not to use this medium at this time. Perhaps another day but not now.

Anyhow, here is our best effort along the political line. It is a compendium of information about the candidates themselves and with the least mud-slinging in it, we bet you, of any newspaper you have ever read on a date less than two weeks before the people go to render the final verdict.

A minute or so of your time to brag on us, —Texans and Americans. As we begin our primary elections to name party nominees we know that in November we shall go to the polls and name the partisans who will have power of government in national, state and county affairs for another period of time. We know also there will be no revolution whichever side may win. We have evolved a system whereby we really get to the fact of what persons the majority of the people want for their officials, through the secret ballot, untrammelled and unafraid. And we admit enough exceptions to prove the rule. Quite unlike the situation in the neighboring Republic of Mexico. War over the election in Mexico seems to be one of the certainties of the near future. The machine gun there takes the place of the ballot box.

The only language that Europe—any of the breed, including those on the English isles—really understands is verboten. The man of might is the one who has the most men and soldiers, the most ammunition and the most ability to make other peoples and nations do his bidding. When we understand that fully, and the histories are full of it but our people do not get the point of view, then we will know that to make use of whatsoever strength is in the English nation or any other nation to protect our own civilization and to go no further than we will have the understanding that is as harmless as a dove but as wise as the serpent.

The persuasive thought of international understanding, of universal peace, of the brotherhood of man, that strikes such a responsive chord in the great heart of America does not have such kindly reception in Europe. The result of environment and hates that have grown up through a thousand centuries and more. Right now it is a Hitler, a Mussolini, a Stalin. Beforehand, and before that, and back into the centuries until the chronology is lost in the mists of time the name was not so important, only the fact that he put his people to burning and plundering. He was once a Norse, at times a Franc, and at times he took the name and form of a Hungarian. Even the forefathers of the present Russians once over-ran the country, killed men, women and children and put fire and sword to the land. They have talked and now talk again the language of the women at the Missionary society, the men at the Rotary club and of the young people who study the ideologies at their church auxiliaries. But they know not of what they speak. And that is why it is so hopeless for America to become embroiled in the mess. That is why it is so tragic that Mr. Wilson and his fourteen points ever went to Europe.

What destruction the modern war brings on, not to mention the loss of lives, one can hardly conceive. Mankind has evolved such monstrous machinery for destruction and it is operated at such huge cost that one can only imagine when the last bit of the bill will have been paid. The present war will be paid for dearly for the next several generations. Although all of the nations now at war have defaulted on their debts made in the last great holocaust they have gotten together credits for the present one. Debts will be and starvation on top of want. We will have to help pay. And even at that the world may be backtracking toward savagery. Or, should some miracle happen so that when the present war shall end, all will take what they have and cancel out all debts, ready to begin a new world all over again, the Europe that was can be rebuilt much more quickly. The hates that are warp and woof of the present conflict do not permit of such a happy ending, however.

Mr. Roosevelt is looking at the European conflict with very matter of fact eyes. He knows that agreed and hate are the makers of the war. Everything short of war he wants to put behind the English because the tight little isles are now our frontier. When the English are licked our frontier will be moved to the eastern shores of Africa, to Greenland, to Brazil. The world is being made over the discovery of two brothers at Kitty Hawk, North Carolina, 33 years ago—discovery that man can fly.

As A Farm Woman Thinks

Nettie Witt Spikes

Everyone talks about the weather, but no one does anything about it, said Mark Twain. It provides a good subject of conversation, and gives us something to have always to grumble about. I asked a colored boy how his folks he worked for were, and he said they was tolerable but getting purty dry-sick.

This is a disease that bothers us all just now, but I have found it does not pay to worry much about West Texas crops till gathering time. A rain makes a lot of difference in a short while and of course we will get that rain!

The garden is growing and still looks fresh. We have had some water, but not enough for it. Dry beans are right good in the spring and winter but green beans we want in summer. None are so good as the ones you gather in your own garden, snap under the shade of a tree and boil with a slice of home cured bacon. This calls for squares of hot corn bread, sliced cucumbers and onions. Then how about a cobbler pie?

If you were not at the home-coming at McCoy yesterday, you missed something fine. One community is noted for one thing, one for another, but McCoy is noted for the churches being the center and chief interest of the community. And this should be the case. Nothing is more important than that the boys and girls should learn to rely on the church, grow up to do the things it teaches, and give to the world men and women of Christian citizenship.

The day was hot. I was in town with a large paste board box trying to put it in the back seat of a two door car. The box was a little too large. I pushed and the contrary box would not go in. I looked up. Two boys sitting in a car seemed to be amused by my efforts. My face grew redder than the warmth had made it. I showed that box in the front seat by me and drove away from interested spectators to where I could force that mean old box to go where I wanted it to. Why did I not collapse it? Well I wonder myself.

In the absence of Joe Ellis' mother, his Aunt Wilda and I took him to Floydada. He was like a colt turned out in a new pasture. I carried him, not because I did not want him to walk on his own sturdy legs, but because he could outrun me. He hid in every store, seemed to think it was a game. Pulled down boxes and belts, climbed the steps to the courthouse till I was so nervous for fear he would fall that I took him to new places of interest. Everything was new and pretty to his childish eyes. I came to the conclusion grandmothers should be young so that they could outrun and outplay their grandchildren.

Congratulations to the Floyd County Home Demonstration chorus for winning twenty five dollars at the short course at A & M. It is quite an honor for the Plains country, I think.

I have been too busy to notice the hot weather too much. I found long ago, the more time put in trying to

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

Nine local boys are encamped this week with other members of the Texas National Guard at Palacios. Those in the group leaving last mid-week were Marian Bosley, Roy Scoggins, Ralph Jones, A. D. White, Orville Moore, Lemond Moore, Robert Crum, Floyd Cash, and Buford Terry.

Lieutenant L. G. Mathews, who is an aide in the general headquarters staff of General Hulen, is also at the encampment, which will last for fifteen days. More than 80,000 troops are assembled in the camp for the two weeks period.

Three county home demonstration clubs have voted to send their presidents to the A. & M. Short Course at College Station in August, Miss Blanche Bass has announced. Other clubs may send representatives from the county, she said. Those that have already taken action on the matter are Sand Hill, Blanco and Starkey.

In an effort to meet the unprecedented situation created by the demand for grain cars from all sections of their territory on the plains the Santa Fe has spared no expense much special service being given in order to maintain the flow of grain from the wheat field to seaports, J. F. Anton, in an interview over the telephone told The Hesperian Monday morning.

Contracts have been accepted for all positions on the teaching staffs of Floydada's three schools and the faculty is now complete for the 1936-37 session. R. E. Fry, secretary of the school board announced recently. Twenty-seven teachers will conduct the work during the coming session which begins in September.

keep cool, the warmer one became. Find something interesting to do, or read. The more you think about your comfort, the more uncomfortable you will be. Never spend time reading the thermometer. Time can be better occupied. Do things you have wanted time to do all the busy year. Write letters. Dress up in cool cotton dresses, no matter if you are not looking for company. What am I asking for this advice? It is free and perhaps I had better try it myself.

Poems like the following help me keep my courage in these dark times of war and trouble of many kinds:

His Lamps

His lamps we are,
To shine where He shall say;
And lamps are not for sunny rooms,
Nor for the light of day.
But for dark places of the earth,
Where shame and wrong and crime
have birth;
And for the murky twilight gray,
Where wandering sheep have gone astray
And where the lamp of faith grows dim.
And souls are groping after Him.
And as sometimes a flame we see,
Clear, shining through the night,
So dark we cannot see the lamp—
But only see the light,
So may we shine, His love the flame,
That men may glorify His name.

**"AW-W-RIGHT!
I'LL BITE...WHAT
IS AN OCTANE?"**

"Do I really and truly wanna know? ... Nope! And I betcha you don't, either.

"Bercha all this talk about new gasolines and octanes makes you yawn, too. Whadda us consumers care how many octanes there's in a gasoline?

"What we wanna know is: How many miles to the gallon? ... Yes sirl! And how about knocks on hills and heavy pulls?"

Little man, you're right from start to finish. Be as skeptical as you like about the anti-knock

claims for new gasolines.

But remember, at every Orange and Black 66 Shield, you get at regular price a gasoline which gives you practically the same anti-knock performance for which you previously had to pay two cents extra per gallon.

So judge by results, and we believe you will certainly feel that difference with your first tankful of NEW Phillips 66 Poly Gas. Driver after driver says that it's the greatest self-demonstrating gasoline he has ever used.

WHAT IS MALT?..

and how is it used in making beer and ale?

BARLEY

Answer: Brewers' malt is barley that has had its starches modified. The barley is first permitted to "sprout" by the addition of moisture. At the right instant, the growth is checked by heat and the sprouts are removed.

What remains is malt... the essential base of all good beer and ale.

Every step in the brewing of good beer and ale has been taught by centuries of experience. Today, amazingly expert brewers — using only

the purest ingredients — make beer and ale the mild, tasty, wholesome beverages that they are.

Now the brewing industry is taking action to keep the retailing of beer as wholesome as beer itself. A plan to eliminate abuses is already in effect in a number of states. It is being extended. Ask us for an interesting free booklet.

Floydada Youths Start Aeronautics Study on W. Coast

Group Sent Last Week To Los Angeles For Air Training

Six residents of Floydada left Thursday of last week to begin studies in the Anderson Airplane school.

Those who have already arrived at the school are T. W. Salisbury, Jr., James Asher, J. T. Stovall, Gerald Lackey, Norvill Rainer and Albert Lyles; all of Floydada, and recent high school graduates.

The first group of eligibles whose examinations were successfully passed during May and June were accompanied to the coast by T. W. Salisbury, Sr., father of one of the

youths and an attache of the local post office.

Others who have successfully passed their examinations and are expected to leave for their training periods within two months are W. Gerald Carathers, Fred Farrar Hanks, Malvin Andrew Jarboe, James Coyt Williams and Charles Edgar Neil, Jr., all of Floydada. All local examinations were conducted personally by Colonel J. L. Echols, on his recent visit to Floydada at the invitation of Mr. Salisbury.

T. W. Salisbury, who accompanied the boys to California, is expected home probably this week-end, after spending a brief visit in Long Beach with his brothers, George and Ray.

Betty Jean Solomon and Dorothy Nell and Wayne Hutcherson, of Memphis, came Friday for a visit with their grandmother, Mrs. J. S. Solomon, and other relatives. They returned home with relatives who were in Memphis Thursday to attend the funeral of Mrs. Solomon's sister, Mrs. J. P. Longshore.

McCoy Homecoming At Baptist Church Gets Large Crowd Sunday

MCCOY, July 16.—Mr. and Mrs. James Smith had as their guests last week, Mrs. J. J. Smith and daughter of Waco and Mr. and Mrs. J. A. Rhine of Dallas. Mrs. J. J. Smith is James' mother, and Mrs. Rhine is his sister. They returned to their homes Sunday morning.

Mrs. Tope Pittman has her sister, Mrs. Laura Smith of San Antonio, here for a few weeks visit.

Miss Violet Pittman, who has been attending school at Lubbock, returned to her home Tuesday for the rest of the summer.

Mr. and Mrs. Dalphas Staples came home last Friday. Mr. Staples has been attending school at Lubbock. We are glad to have both our teachers at home again.

Mr. and Mrs. B. L. Ewing were at Aiken on business last Friday.

Miss Imanell Jackson and Bob Louder spent Sunday, July 7, with Imanell's mother, Mrs. J. W. Jackson.

The home coming services at the Baptist church was a day that will long be remembered by all who attended. A large crowd of ex-members and also a great number of people of other denominations were present. There were six charter members present, Marcus Whitlow, Mrs. W. W. Smith, Mrs. Charlie Payne of Crosbyton, Mr. and Mrs. D. H. Payne, Claude Payne and the first pastor Rev. G. W. Tubbs, who helped organize the church. Rev. Tubbs preached at the 11 o'clock hour. His sermon being "The Great Home Coming in Heaven." A great message which was enjoyed by all. Then a splendid sermon by our young preacher Rev. Lurline Treadgill. Later in the day the church ordained Rev. Treadgill to preach. Rev. Tubbs is 77 years of age. Rev. Treadgill is 17.

Rev. U. M. Lollar and daughter, Modell of Shamrock were with us. Rev. Lollar sang a special song, "Sunrise Tomorrow" his rendition of the song was great. Mrs. Sidney Johnston played the accompaniment. Among those present who once held membership here were Mr. and Mrs. Clifford Curry of Olton, Mrs. Charlie Berry of Floydada, Mr. and Mrs. Gilbreath and daughter Irene and boys, J. W. and Billie Dean, Mr. and Mrs. Richard Gilbreath of Providence, Mr. and Mrs. R. C. Day of Goodland, New Mexico, Mr. and Mrs. Paul Carmack of Goodland, New Mexico Mary Lynn Stanley and Eva Marie Lewis of Floydada, Mr. and Mrs. Lon Blasingame of Floydada, Judge and Mrs. G. C. Tubbs of Floydada.

Rev. Lollar brought the Sunday evening service. He was the pastor of this church fourteen years ago. We are always glad to have him come back and visit us. There were a number of others present whose names we did not get. We are glad to have each and every one with us and ask that you come again.

S. W. Ewing received word last week that Aubry son of Claton Weathers, nephew of Mr. Ewing had received another operation in the Plainview hospital. Aubry has spent much of his time in the hospital for some time. We hope he will soon be well again.

Miss Eugenia Hopper Is Delegate To Ceta Glen Camp This Week

STERLEY, July 16.—Miss Eugenia Hopper, daughter of Mr. and Mrs. D. M. Hopper left the first of the week for Ceta Glen camp where she will spend the week. She goes to camp as one of the representatives from the Plainview Presbyterian church.

The Intermediate Conference, opened Monday to continue through Friday.

A lawn party was given at the Sterley school Friday night. Games were played throughout the evening until refreshments of lemonade and sandwiches were served.

Mrs. Bob Reeves and children Bobbie Dean and Joan are visiting relatives in Sterley. They arrived July 7, and plan to stay two weeks. Mrs. Reeves now resides at San Bernardino, California. They are former residents of the Sterley community.

The Sterley Baptist church plans to start a revival meeting July 28.

"SKY PASTURES"

'Way up yonder so high;
Beyond the milky way,
There's a great sky pasture
And Joe rides there today.

Joe, my pard, lay dying,
Upon a grassy knoll;
Where his pinto threw him
Nearby a prairie dog's hole.

The cowboy didn't seem to mind;
He smiled at the serene,
Said he'd soon be riding
In pastures, ever green.

"I'll watch for you," he said,
"From a craig of blue.
The years will roll away
When I again see you."

And as I ride the plains
I feel his presence night;
'Til that roundup on high
To guide me through the years.
Mary Dean Waters.

THE DUGOUT HOME

Oh, lowly home on the prairie,
With your hard packed floor of clay
And earth walls hung with blankets
And treasures from far away.

With only the rudest of comforts;
But bits of beauty, too
A lovely, quilted coverlet,
A bowl of clearest blue.

Within your four rude walls
Were all that a home need hold;
A courageous wife and babes,
Better than Opir's gold.

Beneath your roof, a shelter,
Within your four walls, cheer;
And courage and homely comfort;
All that a man holds dear.

All of the comforts needful
And all of the beauty, too;
First home of the rolling prairie,
Old Dugout, we honor you.

Long Jumps Between Pumps

THE SCOTS, you know, had a grand old war song, "The Campbells Are Coming!" And the correct kilties for any of the Campbell clan from the Argyll region, for instance, would be green with wide blue and black "crossings" or stripings, plus secondary black crossings, plus a yellow and white overcheck. But now if you want to be pure "Scotch" at buying gasoline, the color that means most to your own self is Bronz-z-z . . . Conoco Bronz-z-z. Conoco Bronz-z-z is the Bronz-z-z that gives you long jumps between pumps. And that statement, you can prove, isn't the least bit colored, for Your Mileage Merchant will give you one of the fascinating Conoco Mile-Dials free. This certified instrument reports your own Conoco Bronz-z-z mileage — impartially — accurately — without effort. Ask Your Mileage Merchant.

Would Put Motor Fuel For National Defense Underground

Huge underground tank farms would protect America's reserve supply of motor fuels from bombardment or sabotage, according to the plan put forward in this artist's drawing. The sketch shows the bomb-proof storage far underground with the peaceful countryside above camouflaging it. Below is one of the vast subterranean tank farms protected by anti-aircraft cannon.

SA LOANS PROVIDING RELIEF AT LOW COST

There are at least 500,000 farm families which are in urgent need of rehabilitation loans, but have been unable to get them because of the limited funds available," said Secretary Wallace in a statement to the Senate Civil Liberties Committee. "I believe it would be prudent and economical for the Government to give these people a chance before it is too late.

"It is, of course, far cheaper for us to help these families get reestablished in farming, than it is to provide relief for them in the cities on the highways. From a social standpoint there is no comparison between the two methods.

"Work relief in the cities costs about \$800 per family per year. Even normal work relief costs from \$350 per year upward. Rehabilitation, counting all losses on loans, the cost of supervision, and every other item of expense, costs only about \$72 a year per family. Relief leaves the families in the end no better able to support themselves than at the beginning. Under the rehabilitation program, most families are able to work themselves into a self-supporting status within a few years.

The doctor rushed out of his study. "Get my bag at once!" he shouted.

"Why, dad," asked the daughter, "what's the matter?"

"Some fellow just phoned he can't live without me!" gasped the doctor, reaching for his hat.

His daughter breathed a sigh of relief.

"Just a moment," she said, quietly. "I think that call was for me!"

Millions in the United States have never known the pangs of acute hunger. Millions in other sections of this world do not know what it means to have all they want to eat every day. This fact alone should make this country a coveted war prize. It should also prompt every one who lives in it to be for it rather than going about flirting with foreignisms whose object is to destroy this government.

One of the most difficult things an editor has to do these days is to get up a column of editorial comment and not have most of it about the war. The war is the big topic just now and there is so many things in connection with it of real news value. It is easier to write paragraphs about the war than it is about mowing the lawn, and tending the garden, and the correct way to rear children.

In the Southeastern states the farm population has doubled since the Civil War, although there is less land under cultivation in those states now than there was in 1860, according to Henry A. Wallace, Secretary of Agriculture.

Teacher (pointing to deer at the zoo), Johnny, what is that?
Johnny—I don't know.
Teacher—What does your mother call your father?
Johnny—Don't tell me that's a funny—

"What am I do matter, Ah ain't you round about lately?" Ah, Ah dun been sick, Ah has y, to days and days Ah wus 'traid to look in de papah, fear Ah would see my name in de died column."

The summer promises a good prospect to the daily press for news. A big war on in Europe, and two major party political conventions on in this country.

Ferguson, Lackey And Taylor Named Soil Supervisors

W. F. Ferguson of Starkey, J. S. Lackey of Cedar and Webb Taylor of Quitaque are the supervisors of the Floyd County Soil Conservation district.

Their election was announced this week out of Temple by V. C. Marshall, administrator of the State Soil Conservation board.

The election was held on June 29 and nine candidates had been named by the representatives of the county's districts. The three named were high men and were declared elected. Formal notice of their election has been given by the administrator.

BID TO STATE FAIR RESULT OF FINE SHOWING AT A & M

Junior Cummings and Carrol Johnston, McCoy 4-H club boys representing Floyd county in the Dairy Demonstration contest at the Farmers' Short Course, College Station, on July 6 to 9, won fourth place with 72 teams competing in this contest, and received a rating of excellent.

The boys presented their demonstration, "The Value of Milk as a Food," to an audience of some 8,000 people. As a result of their fine performance, Junior Cummings and Carrol Johnston were invited by the Holstein-Friesian association of America to give their demonstration at the annual banquet of this association held during the State Fair, Dallas.

D. F. Bredthauer, County Agricultural Agent, states that he is more than pleased with the excellent demonstration these boys gave as each boy is only 12 years of age and his first attempt with this phase of 4-H work.

Junior Cummings, Carrol Johnston and Jim Bert Bobbitt, Lockney 4-H club boy, left Floydada with the Hale county 4-H boys on July 5 and returned on July 10.

The Lockney Chamber of Commerce and Rotary club made it possible for Jim Bert Bobbitt to make this trip while all expenses for Junior Cummings and Carrol Johnston were paid by the Floyd County Texas Agricultural Association, Armour Creamery, Consumers Fuel association, Floydada and the Farmers Grain, Floydada.

Mr. and Mrs. J. M. Daniel and their son, Don, are at Eagle Nest Lake in northern New Mexico this week where they are on a fishing and vacation trip.

Miss Helen Butler, of Amarillo, will return home today, after spending two weeks here with her cousin, Mary Katherine Daniel. Mrs. Butler will drive down for her daughter.

Dorris Cornelius, of Sweetwater, is here for a visit of some weeks with her father, E. L. Cornelius and other relatives.

Mrs. Charles Ryals is convalescing in the Plainview sanitarium this week from an operation for appendicitis on Tuesday.

David R. Shahan of Lipscomb, Texas assumed duties Monday as Assistant Rural Rehabilitation Supervisor in the local office.

Hillbilly: Doc, take a look at my son-in-law. I shot him yesterday and nicked him in the ear.

Doc: Shame on you for shooting at your son-in-law.

H. B.: Huh! He wasn't my son-in-law when I shot him!

Gasoline Theft Nets Three Boys Ten Days Each In County Jail

Three 17-year-old Amarillo youths are in Floyd county jail this week as a result of a theft to which they pled guilty Tuesday morning. The boys were seen about 12 o'clock to be stealing gasoline from the automobile of Deputy Sheriff Walter D. Hollums, 629 West Virginia street, by Mr. and Mrs. J. E. Kile. The boys also made a search of the car but are not known to have taken anything of value from it. Soon after the theft Mr. Kile awakened his officer-neighbor and together they went in search of the youths. The arrest was made downtown. The boys were driving a car of ancient vintage. They told Deputy Sheriff Hollums they had come to town Monday morning.

Sandy, Jr., it seems was in difficulties. In a moment of weakness he had loaned a friend \$500 without benefit of written receipt. In desperation, he consulted his father.

Father (considering): "That's easy, me lad. Write him and say you need the \$1,000 instantly."
Sandy, Jr.: "You mean the \$500?"
Father: "That I do not. You say \$1,000 and he will write back that he only owes you \$500. Then you will have it in writing."

MOBILE CAMPS FOR MIGRANTS

Streamlined transportation methods of the modern circus have helped the Farm Security administration solve a knotty problem. This agency has built several permanent camps for migratory farm workers in areas where there is a heavy demand for seasonal farm laborers during the greater part of the year. These camps provide shelter, health and community facilities for migrant families who would otherwise have to live in unsanitary quarters along the highway and in "jungle" camps.

In certain areas, however, where demand for migrant labor lasts only from four to six weeks permanent labor camps are impractical, and temporary camps are needed—camps that can be used on one place for a short work season and then moved to another site. The problem was to work out some way of quickly transporting shelter and living facilities for approximately 200 families, and then following the concentration of season workers. Taking a leaf from the circus, Farm Security obtained tents for camping and devised special trailers and trucks to move them.

Today, 16 mobile camps are operating in California, Arizona, Washington, Oregon and Idaho. A typical camp includes trailers which house a health clinic, power plant and hot water heating plant, and camp manager's office. Trucks transport the tents. Camp sites selected and developed in advance stand ready. Wooden tent platforms provide sound dry floors for the tents. Ample water is available. Each mobile camp usually includes a community tent for church services and other meetings, a laundry tent, and a shower bath tent or trailer.

The mobile camp sites are located to house short season concentrations of seasonal workers. When the rush season is over in one area the camp is transferred according to a schedule based on advance information as to labor needs.

FLIES MULTIPLY FAST

A female housefly may become a great-grandmother in 60 days. One housefly may lay as many as 2,700 eggs during a lifetime of three months, says F. C. Bishopp, entomologist of the United States Department of Agriculture. Preventive measures against this pest, says Bishopp, include safe disposal of manure, garbage, sewage, decaying grass clippings and other vegetable matter, and use of fly sprays and traps. Flies may travel several miles, so a flyless community calls for neighborhood cooperation.

Mrs. Newedd entered the dining room and proudly placed the turkey on the table.

"There you are, dear, my first turkey!" she exclaimed.

Mr. Newedd gazed with admiration at the bird's shape.

"How beautiful you have stuffed it."

"Stuffed!" she echoed. "But, my dear, this one wasn't hollow."

DROUGHTS AID WEEDS

Drought in the Great Plains since 1934—with extra dry seasons in 1934 and 1936—has contributed to the unusually severe weed problem that has developed, says L. S. Evans of the Federal Bureau of Plant Industry. In droughty periods there is more than the usual moving of feed crops and seed grain, and these often carry weeds to clean farms.

The spread of bindweed or wild-morning glory was aided by the drought because this is one of several weeds that set more seed in dry weather. Also, the deep-rooted perennial weeds have an advantage over cultivated annual crops in dry weather. In normal seasons there is moisture enough for both the crop and the weeds, but when the soil is dry the weeds are the successful competitors for the scanty moisture, crops fail, and weed killing cultivation is often abandoned.

The severity of the weed problem has led to intensified research for control—careful study of the growth of the plants to find out the best time and methods for weakening and killing perennial weeds. In fighting bindweed the investigators have found that cultivation every 14 to 21 days is more successful than cultivation every week or 10 days. This cuts the labor of clean cultivation by at least a third.

Pennant Syrups

are highly nutritious because they are a valuable source of quickly available food-energy. They should be included often in your menus — in cooked foods and as a table syrup.

PENNANT Syrups are rich in Dextrose—which does NOT require the usual digestive process before assimilation by the body. Dextrose is a pure car-bo-hy-drate that rushes directly to muscles and body cells to supply food-energy. Other car-bo-hy-drates in PENNANT Syrups — maltose, dextrine and sucrose — are quickly turned into Dextrose. That is why PENNANT Syrups are a source of quickly available food-energy—a food that is largely pre-digested—a food that belongs in the diet for all ages.

These Syrups are available in four delicious flavors. Each flavor is obtained by a highly perfected process of blending; the heavy sweetness of sugar cane being scientifically modified with less sweet, but equally nutritious corn syrup until the sweetness is just right.

YOUR GROCER CAN SUPPLY PENNANT SYRUP IN ALL FLAVORS. Golden Table Syrup, Crystal White, Sorghum Flavored, and that good Waffle Syrup. You can't buy more delightful Syrup. You can't buy more healthful food. Top Quality, priced low. Try a can from your grocer and you will buy again.

Brisk Absentee Balloting Forecasts Big Vote in Primary

Boundaries Change For Four Boxes

With election day only nine days away machinery of the Democratic primary was in motion this week, with absentee balloting already under way and preparations all made for the distribution of balloting supplies to presiding judges of the 24 precincts.

Several districts are affected by boundary changes among them four Floydada boxes, the Sand Hill box, and the Fairview box. One of the Floydada boxes—No. 24 in the county—is a brand new voting area and the box which has been located at Center—No. 12—is now scheduled to be opened at Fairview. Changes in the Floydada boxes are made to conform to the areas of the four com-

Absentee votes cast up to 4 o'clock Wednesday totaled 93, with practically a week yet to go, forecasting as large or larger per centage of balloting in the county this year as in any recent year. This is contrary to general opinion on the street where the forecast has been for a light vote due to lack of interest.

County Clerk A. B. Clark said absentee voting will close on the night of Wednesday, July 24.

missioners precinct centering at the square in the town.

Electors in Voting Precinct No. 24 will cast ballots for the commissioner in Commissioners Precinct No. 3, where G. C. Hillburn, M. H. Taylor and B. E. Cypert are the aspirants.

In voting Precinct No. 23—south-east Floydada as now bounded the electors will vote for the Commissioner in Commissioners Precinct No. 4, where the candidates are C. M. Lyles, M. A. Barton and H. J. Nelson.

In voting Precinct No. 1, which holds the number formerly given to the whole of Floydada when it was one box the commissioner candidates are out for honors in Commissioners Precinct No. 1. The aspirants in that precinct are W. H. Brock, A. S. Cummings, E. E. Foster, Geo. M. Finkner, and Zant Scott.

New Voting Places
In two Floydada voting precincts new places for the primary election are being provided for both the July and August primaries. In Precinct No. 1 the electors will cast their ballots in a polling place provided on the ground floor in the Brown building on West California street.

The quarters are being provided courtesy of the Brown brothers to the Democratic organization. Another new polling place is in Precinct No. 24. The office of Mrs. O. M. Conway, county treasurer, is being released for the primary days for the use of the officials. Mrs. Conway will office with one of the neighbor officers during the day, giving up her quarters on the first floor of the court house to the election.

With the exception of the change in Precinct No. 12, the former Center voting box, to Fairview school house, there are no other changes in election places in the county.

Below are the names of the presiding judges in the various precincts who will have charge of the election and will attend the "school" for election officials on Thursday afternoon of next week. The "school" will take the form of a round table discussion in which procedure and proper certification, matters of residence, qualification of voters and similar problems common to election day will be discussed.

Brand New For Voters

New ballot boxes are being provided by the county commissioners this year and will be made use of for the first time in the first primary of the Democratic party Saturday, July 27.

The new supply of boxes was made necessary by the gradual wearing out of the old boxes, damage in use and loss. Without the new supplies only one set of ballot boxes could be provided for the two elections within 30 days of each other. Election laws provide that the ballot boxes shall be left unopened for a period of several months after an election is held.

For the second primary the balloting boxes will be made up from the supply of boxes already on hand during the past several years.

Be sure to vote in the first primary so you'll get to use one of the new ballot boxes for the first time after it comes from the hands of the makers.

Parachute Troops In "Mad Men"

Presentation Friday-Saturday Timed To Germany's Total War Dead-Line

If Hitler's hordes invade England on Friday of this week, Floydada people will have opportunity to see the huge offensive almost simultaneously with the actual fact. For the Ritz in Floydada will be showing "Mad Men of Europe," Friday and Saturday. The picture was made six months ago but the imagination of the maker was so keenly in line with the events that have transpired that the cinema is almost a replica of what a war of modern invasion is like.

A flaming indictment of modern warfare, a grim recital of roaring bombers raining death upon the millions in a metropolis, this is the story of Columbia's "Mad Men of Europe" which opens Friday at the Ritz theatre. The new film, with Edmund Gwenn and Mary Maguire in the major roles, is said to be a ripped-from-the-headlines story of an empire at bay, of a London which is the target of enemy planes, of parachuting "suicide squads" of spies who trench themselves in the very hearts of the people they plan to destroy.

Timely and spectacular, "Mad Men of Europe" is the story of a placid, peace-loving Englishman to whom war is a remote and distant thing. He does not want to so much as talk of the possibility of its occurrence, until suddenly war breaks in upon him in all its horror.

Unknown to him, an enemy spy has planted in the attic of his own home, a powerful radio transmitter. The espionage agent, pretending friendship with the radio-loving "kid" brother, honestly in love with the Englishman's beautiful daughter, uses the wireless to send a "beam" which guides enemy bombers in their sudden, fog-shrouded descent upon London.

"Suicide squads" cascade to earth, seize the Englishman, his family and his home, in order to defend their radio guide. The vicious brutality directed by the soldiers against the civilians, their desperately ruthless disregard of any humane instincts, is said to be brilliantly presented.

Town Falls To Soldiers Of U S Army

Small Demonstration Unit Takes Over Floydada For 2 Hours Friday P. M.

Citizens of Floydada and Floyd county capitulated to a demonstration unit of the 5th cavalry, United States Army, Friday afternoon from 4 until 6 o'clock without an offensive or offending shot being fired.

Army forces, who "invaded" Floydada in the interest of the government's campaign to enlist 95,000 men in the U. S. Army, were in charge of Lt. Carruson from Ft. Clark. Equipment used in the two hour engagement included one armed motorcycle, three troop and equipment transports, two armored scout cars, a field car and a 23 piece Army band.

Shortly after arriving in Floydada the Army unit staged a parade about the square with the band, directed by A. P. Gsell, leading the way. With 30 and 50 caliber guns blasting the mechanized unit sped through the business section in a demonstration of the mobility and efficiency of the U. S. Army.

Not Preparing For War
Members of the 34 man detachment emphasized the statement that "we are not preparing to enter a war but to prevent a war." It was pointed out that if the United States Army is well-armed, efficiently trained and ready for any eventualities there will be no cause for alarm.

Hundreds of citizens gathered to inspect the guns and equipment demonstrated during the afternoon. Interest was directed toward the new Garand army rifle which makes each infantryman a "machine gunner."

These semi-automatic guns fire eight shots without reloading. A trained U. S. army soldier armed with a Garand rifle is three to five times more efficient than any other soldier in the world.

50 caliber anti-aircraft guns were mounted on top of the scout cars which proceed forty to sixty miles ahead of troops to gather information. These cars, which carry gunners, a radioman and observer, are also equipped with 30 caliber anti-tank machine guns. Bullets from these guns will penetrate 2 inch armor plate tanks. The motorcycle was armed with a Thompson sub-machine gun, commonly known as "Tommy Gun" and in the vernacular of the underworld "Typewriter."

Following the demonstration, Lt. W. T. Robinson, recruiting officer, explained requirements and qualifications necessary for enlistment in the Army. Prospective soldiers must be between the ages of 18 to 30, have no criminal record and be in good health. At the present time there are many positions open in the army for men to operate mechanized equipment, do mechanical work on same, and many other duties.

Funeral Rites Held Monday For Mrs. Jack Fowler, Aged 19 Years

Funeral rites were said at 3 p. m. Monday for Mrs. Hazel Pauline Fowler, 19, at the Chapel. Interment was made in the Floydada cemetery under the direction of the Harmon Funeral home.

Death was due to brain tumor. She died at a Lubbock hospital Sunday morning where she was carried Thursday, but her condition failed to respond to treatment.

The deceased is survived by her husband, one daughter Melba Jo age 2 years, one sister Mrs. Elva Sharp; her parents Mr. and Mrs. J. L. Green, six brothers, Glenn, J. L., Dan, Billy, Jimmie, and Clyde Edward.

Mrs. Fowler came with her parents to Floyd county in 1925. In February, 1938 she was married to Jack Fowler son of Mr. and Mrs. C. S. Fowler northeast of Floydada.

For the past few months Mr. and Mrs. Fowler have been making their home in New Mexico. They returned to her parents at 129 West Crockett street where they had been until she was carried to Lubbock.

Pallbearers were Carl Plumlee, Edgar Smith, James Kimble, Robert Reeves, Carl Lewis and Fred Reeves.

RECORD TRIP TO COAST

Mr. and Mrs. Blondy Finley and Orval Newberry made a business trip to Corpus Christi Saturday night, returning home Monday night. Mrs. Finley said, "We left here Saturday night at 9 o'clock and drove into Corpus before morning but that was too fast to drive."

Mr. and Mrs. Finley moved to their new home on Tennessee street, last week.

Army "Takes Over" Floydada

There was much excitement when the United States army demonstration unit visited Floydada Friday afternoon from 4 until 6 o'clock. Scene 1 shows one of the armored scout cars. Lt. Carruson of Fort Clark is standing on the running board after having bade good-bye to Roy L. Snodgrass, left, veteran of the World War; 2. Grant Drew, who served in the Fifth Cavalry from 1923 to 1926 at Fort Clark, left, and Jess Covington, right, who served in company C, 42nd Battalion U. S. Guards in World War No. 1, are discussing new army equipment with Lt. G. T. Coleman, center, who was with the demonstration unit. 3. One of the armored scout cars heads the parade out of town with guns barking. The soldier manning the front weapon, a 30 calibre anti-tank weapon, is partially obscured by smoke from fire of the front weapon, an anti-aircraft 50 calibre. 4. One of the troop and equipment trucks. 5. Army motorcyclist is shown beside his machine which is equipped with Garand army rifle and Thompson sub-machine gun. 6. The unit departs Floydada as Lt. Coleman yells at the Hesperian reporter to 'send me a copy of the paper.' 7. Lt. W. T. Robinson, recruiting officer, is shown conversing with Gordon Voight and J. G. Pruitt.

High Court Decision Requires City Poll Tax Receipt to Vote

Supt. and Mrs. Travis Home From U. Of Texas

Superintendent and Mrs. Walter Travis returned home the latter part of last week from Austin, where they have been studying in the summer session of the University of Texas.

They plan to continue their summer study at Texas Technological college, commencing daily from their home here, while Mr. Travis also gives business matters in connection with the local school system his attention.

Memphis Delegation In Floydada Tomorrow

A delegation of Memphis boosters for the annual rodeo and fiftieth anniversary celebration of the county's organization will be in Floydada tomorrow, according to announcement out of Memphis this week.

The itinerary in this area will include cities at a distance of a 200-mile circle southwest of Memphis.

BURLESON CHILD AMPUTATES 3 FINGERS IN PUMP JACK

Stanley Burleson, lost three fingers on his right hand Wednesday afternoon in the cogs of a pump jack that was pumping water for cattle on his parents' ranch 20 miles northeast of Floydada. The little fellow was brought to Floydada by his parents and underwent treatment for his injured hand a couple of days at the Floydada Hospital and Clinic.

Mr. and Mrs. Burleson were guests of Roy Snodgrass while in Floydada. They brought the child back to Floydada Wednesday for treatment and he is reported to be getting along fine.

Stanley is the grandson of Doc Burleson, prominent ranchman of Matador and the northeast part of this county.

Petersburg Picnic In Progress Today

An all-day picnic is in progress today at Petersburg, where candidate speaking and a baseball game will feature the day's program and a dance on a large platform will be the feature tonight.

Last year's picnic was largely attended and the affair is being made an annual event.

the city voter other than to have qualified under the law," said Homer Steen, county chairman this week.

"The fact is we are advised it is the law and the remedy of the citizen is in the legislature or in his own city council, where he can seek a change before voting time next year."

Whether indignation will reach the point where a contest will develop is a matter of conjecture. The presumption is that all four of the presiding judges in the city limits will be governed by the high courts' decision.

The present plan of the county committee is to have a complete certified list of all city poll tax receipts in the hands of each of the presiding officers here on election day in addition to the usual certified list of state and county poll taxpayers. The committee is assuming that "overs" will not be affected by the rule since no state and county poll tax receipts are required of persons who were 60 years of age on January 1, 1939, the last date on which a tax levy was based by city and county.

ATTENDED STATE FLORISTS' CONVENTION AT DALLAS

Mr. and Mrs. W. Stan Goen attended the State Florists' convention in Dallas, July 7-11, returning home Friday. Mrs. Goen said, "There were 840 delegates registered a record attendance for the state meeting." During the five days they were given lessons in all phases of the flower business.

The next meeting will be held at San Antonio.

JUDGE CHAPMAN AND FAMILY HOME FROM VACATION TRIP

Judge and Mrs. Alton B. Chapman and their sons returned home this week from a vacation trip, visiting relatives in Falls county, at Houston and spending several days at Mineral Wells for the baths and a rest.

As far south and east as he went, the judge said, crops are good to excellent in contrast to the backward crops in Dickens and Floyd counties.

Britton Suffers Light Burns When Fire Damages Barn

L. D. Britton is almost completely recovered from burns sustained Saturday night as he was disconnecting light wires from a pole near the scene of a fire at the J. N. Redd barn on West Mississippi street.

The pole, located in the alley was approximately 30 feet from the burning barn but flames burst through the roof and extended to the light pole. Mr. Britton's wrist was painfully burned.

He was treated at the Floydada hospital.

The Floydada Fire department answered the call to the fire at 8:30 p. m. The loss was estimated as around \$80.

Thursday Is School Day For Judges

Presiding Officers To Hold Round Table Talk Before Primary

Next Thursday afternoon will be "school day" for presiding officers of the democratic primary election and their helpers.

A two or three-hour session of these officials will be held and it will be open to the general public. The time is 2 o'clock Thursday, July 25 and the place the county court room, according to notices being forwarded to presiding judges this week.

The provision for the school in the statute is said to be directory and not mandatory. It was decided upon by the Democratic sub-committee in its June session when the ballot was made up.

Homer Steen, county chairman of the party, will preside at the session. However, the "school" will be wholly informal and is planned to consist more of round table discussion than otherwise. General procedure, duties of election officials, the routine of proper returns and protection of the voter in his right to a secret ballot will take up the time of the session. "Probably no one man can answer all the questions that may arise in the conduct of an election under the Terrell Election law of our state," said Mr. Steen. "However, we can study to make ourselves perfect and the committee feels that such a 'school' would be helpful."

Attendance at the "school" is not required and no provision is made for paying election officials who attend. However, advance indications are that all voting precincts will be represented.

Mrs. D. L. Miller Wife Floyd County Crash Victim Killed

Mrs. D. L. Miller, 69, pioneer resident of Plainview was killed Tuesday when her car in which she was riding alone, overturned. The accident occurred two miles east of Dimmitt on the Plainview-Dimmitt highway.

There were no witnesses to the accident. Officers, after making an examination of the car, believe a blowout to be the cause of the wreck.

Surviving relatives include a son David Miller of Clovis, New Mexico; a daughter Mrs. Donald J. Hoese, Mamaroneck, New York; several brothers and sisters.

Mr. Miller, husband of the deceased was killed instantly February 16, 1939 5 miles east of Floydada in an automobile collision that also claimed the life of H. E. Edwards, Floydada resident.

A Dimmitt truck driver picked up the body of Mrs. Miller and carried it to Dimmitt.

Funeral rites will probably be held at Plainview today, pending the arrival of relatives. Interment will be made in the Plainview cemetery beside her husband.

Fred N. Clark Seeks Re-Election To Job As Sheriff Of County

Fred N. Clark, incumbent in the sheriff's office, is making the race for re-election in the Democratic primary on July 27.

His race for the office is based on his own qualifications and the high type of deputies he has employed during his tenure. An undeniable record of good service and law enforcement has marked his three and a half years in the office. Mr. Clark is spending as much of his time electioneering with the voters as the demands of his office will permit.

NEW CANDY WAFERS MADE FROM WHEY

"Wheyfers" are an inexpensive new chocolate-covered confection to satisfy America's sweet tooth recently developed by B. H. Webb and C. F. Hufnagel of the Bureau of Dairy Industry.

Wheyfers are a light, brittle, porous candy made from the whey, which is a waste product in the manufacture of cheddar or Swiss cheese. The new candy is not cooked but is dried hard and crisp. Its unusual light porous quality is the result of whipping air into sweetened condensed whey.

To make the new candy, sweet pasteurized whey and sugar are evaporated to gether under vacuum to a thick smooth consistency, and then whipped until light and fluffy. Chopped nuts and cooked cereal to take away any salty whey taste are

added. Then the mixture is rolled out in a thin layer and dried. Cut in small wafers the candy is dipped in chocolate to keep it from absorbing moisture and becoming sticky, or crystallizing.

Sweetened condensed whey, the chief ingredient of this new candy is cheap and simple to prepare, keeps well, and is easy and convenient to use. It is excellent for making chocolate fudge, caramels, taffy, and various mixtures for the center of chocolates.

ANOTHER SKEPTICAL BANKER AND THE FARMER'S STORY

An Eastern farmer was regaling the village banker with fantastic stories of his prize bull's speed. "Why, that bull starts from one corner of my farm when the limited comes along and beats the train to the other fence every day!" he boasted.

The financier was skeptical. That evening he telephoned that he would be out the next day to see the racing bull perform. By morning, the farmer had decided that it would be more convenient if he were absent when the banker called, so he told his son to explain his absence as best he could.

"Where's your father?" the banker inquired when he drove up to the farm.

"Gone to California," said the boy.

"That's strange," mused the banker. "I was talking to him only yesterday. When will he be back?"

"Tomorrow," said the boy.

"Tomorrow! Why how can he get to California and back in that short time?"

"He rode the bull," said the boy.

Spur Man Candidate For Congress 19th District Of Texas

C. L. Harris, of Spur, for the past two terms a member of the legislature from his district, is seeking promotion to the office of Congressman of the Nineteenth district.

Mr. Harris has a high record of fidelity to duty in the legislature and has made many friends among his constituents as well as in the halls of the capitol at Austin.

THE EDITOR

"Lo, the Poor Editor" from the pen of some unknown writer:

Consider the editor! A child is born unto the wife of a merchant in the town. The physician getteth 15 plunks. The editor writteth a stick and a half and telleth the multitude that the child tippeth the beam at nine pounds. Yea, he lieth even as a centurion. And the proud father giveth him a five-cent cigar. Maybe.

Behold, the young one groweth. And the editor putteth into his paper a swell notice. Yea, a peach of a notice. He telleth of the wisdom of the young woman and of her exceeding comeliness. Like unto the roses of Sharon is she and her gown is played up to beat the band. And the dressmaker getteth two score and four iron men. And the editor getteth a note of thanks from the sweet girl graduate. Maybe.

And the daughter goeth on a journey. And the editor throweth himself on the story of the farewell party. It runneth a column solid. And the fair one remembereth him after with a picture postal that costeth six for a jitney. Maybe.

Behold, she returneth, and the youth of the town fall down and worship. She picketh one and lo, she picketh a lemon. But the editor calleth him one of our promising young men and getteth away with it. And they send unto the editor a bid to the wedding, and behold the bids were printed in a far city.

Flowery and long is the wedding notice which the editor publisheth. The minister getteth 10 bones. The groom standeth the editor off for a 12-month subscription.

All flesh is grass and in time the wife is gathereth unto the soil. The minister getteth his bit. The editor printeth a death notice, two columns of obituary, three lodge notices, a cubit of poetry and a card of thanks. And he forgetteth to read proof on the head and the darned thing cometh out. "Gone to Her Last Roasting Place."

And all that are akin to the deceased jumpeth on the editor with exceeding great jumps. And they pulleth out their ads and cancelleth their subscriptions, and they swingeth the hammer even unto the third and fourth generations.

Canst thou beat it!

Marshall Makes Bid For Office Assessor-Collector Of County

Geo. B. Marshall, presently district clerk of Floyd county, is making a bid for the office of assessor and collector and has been active in the campaign since early in the year, when he threw his hat in the ring.

Rearred in Floydada, he attended Floyd county schools and began his business career in the county, after completing his college work.

During his official life he has served as district clerk four years and now seeks promotion to an office with larger responsibilities.

'THE RUN-AWAY SCRAPE' PRECEDES SAN JACINTO IN THE HISTORY OF TEXAS

AUSTIN, Texas.—In the University of Texas library are graphic accounts of a little-known chapter in Texas history—the state's own small scale version of the refugee now sweeping Europe.

Historians refer to it as the "Runaway Scrape," a pell-mell flight of Texas settlers that began in early March, 1836, with the Alamo's fall, and didn't stop until Houston's retreating army—barely a day's march behind the refugees—turned and defeated Santa Anna at San Jacinto in late April.

Most graphic account, Texas Collection librarians agree, is in the memoirs of Mrs. Dilie Harris, member of a pioneering Texas family. Then 11 years old, she recalled that her family hid their furniture in a hollow near their home, got their moveable things into a cart and then set out for the San Jacinto river, driving oxen with them.

"On the west bank of the flooding river, there were five thousand refugees gathered,—all trying to cross first," she wrote. It was three days before her party got to the far shore and hurried on.

"Our hardships began at the Trinity," she continued, for there it was a four-day struggle against the river and the others trying to get across it, and in addition, measles, sore eyes, whooping cough and every disease that man, woman or child is heir to, broke out among us."

Mrs. Harris' little sister fell ill, and her mother was weak. The wagons had to be taken apart and floated across the river, "ten miles wide at the mouth."

Out of the flooded swamplands, the family stopped at the town of Liberty to rest. There the sister died. The mother got no better.

Again the family fled eastward. A few miles out of Liberty, however, a courier overtook them with news of the Texan victory at San Jacinto, which made it possible for them to return to their homes.

DRYING OF SEED COTTON TURNS PROFIT TO GROWERS

Each cent spent in drying and cleaning cotton in Texas and Oklahoma gins last fall meant a 10 to 25 cent increase in the value of cotton, gin operators have reported to the U. S. Department of Agriculture from good ginning.

In the two states about 250 gins were equipped with dryers last fall. Not counting the outlay for dryers, it cost the ginners about 13 cents a bale on the average to operate a report. The average increase in the value of a conditioned bale was about \$1.20 for dry cotton and about \$3.50 a bale for damp cotton.

The vertical or "tower" driers now made by the gin-machinery manufacturers were developed originally by the engineers and cotton technologists of the U. S. Cotton Ginning Laboratory at Stoneville, Miss. Some ginners have built their own driers from plans worked out at the laboratory.

This season the ginning laboratory is working on low-cost methods of drying cotton that are suitable for small gins, and C. A. Bennett and F. L. Gerdes of the laboratory say that a small-capacity gin can get satisfactory results from simple equipment—an ordinary household hot-air furnace equipped with pipe and fan.

There were about 12,000 gins in the United States last year, and of these nearly 1,100 were equipped with driers.

BOUNCING COINS

Take two coins that look exactly alike. One is genuine, the other is counterfeit. How can you tell them apart? The secret service men tell us we should throw them on a table. The coin that bounces is the real thing.

Life tests men in the same way—by their bounce! The men who do not possess real worth quit. The men of value bounce. Lincoln was defeated many times, yet always bounced back and finally bounced into the White House. Edison failed many times in his effort to invent the incandescent lamp, yet he always bounced back and tried again—and finally he won. In the hall of accomplishment, you'll find inscribed the names of the men who bounced.

Emerson wrote, "What you are, thunders so loud I can't hear what you say." The counterfeit coin looks like the genuine, but it isn't. It won't bounce. A man may talk and look like a winner, but the way he actually lives is the test that counts. Meeting the hard knocks, defeats, and setbacks of life with bounce is the supreme test of character and worth. Be a man with bounce!

A. B. Clark Candidate For Re-Election As Co. Clerk Of County

A. B. (Byron) Clark, born and reared in Floyd county, a scion of one of the pioneer families, is a candidate to succeed himself as county clerk of the county.

A record of good service has marked his tenure in office, and he is asking to be returned to the same

duties in the Democratic primary. He is completing a thorough canvass of the county, which he expects to finish before the final day of the election.

Olin Culberson Is Proposing Simple Plan In Campaign

AUSTIN, July 15.—A simple plan to force the use of dissenting opinions which he contends would in short order end all opportunity for and talk about "influence peddling" in connection with the Texas Railroad Commission was advanced here today by Olin Culberson of Jackson county, candidate for railroad commissioner.

The South Texan, a former Hill county judge, had the backing of six years experience working under the commission on which to base his suggestion. He was head of the commission's gas utilities division, as such reduced gas rates in many Texas cities, was head of the oil production enforcement division and helped drive out the "hot oil" racket.

"The legislature should pass a law requiring that all three members of the commission sign every order although two signatures validate it," Culberson said. "After all, they each draw salaries. As matters now stand, many orders are issued by two without the third ever seeing them. This allows for evasion of responsibility that is wrong and leads to worse things. It provides a loophole through which a sharp-shooting 'influence peddler' can operate with impunity. If all three were forced to sign every order, shortly the practice of writing dissenting opinions to explain signatures would develop.

"This would bring out for publicity and public inspection many occurrences now hidden.

"I also am in favor of making up and rigidly adhering to a calendar of routine events so that the members of the oil, gas and transportation industries would know exactly on what date hearings would be held, orders issued, and the complaint that something had been done behind some fellow's back would no longer be possible. I learned in training that routine is important."

Peek Confident
Having just concluded a mid-campaign trip that in two weeks took him from the Panhandle to the Valley, from far West to deep East Texas, Judge Culberson said he felt he had a pretty good idea of how the railroad commission was going.

"Thanks to the work done by my friends, particularly the volunteer fireman in the small towns and the fireboys of the cities, I will poll a more widespread vote than any of the 18 railroad commission candidates," Culberson said. "It is hard for me to believe at times that friends could be so loyal and fine. I come to town after town without any notice and find that my friends have called on the newspaper editors asking their support, that they have contacted their county chairmen and their precinct judges, that they have put out my literature and my placards not on posts and trees but with permission in places of business in cities and towns.

"I have no other way than this to reach these fine folks to thank them than this. Their number is so large that I cannot even afford postage stamps to correspond with them regularly.

"If Olin Culberson becomes railroad commissioner, it will be through the efforts of just such true Texans and true friends, and to them I pledge that I will transfer my gratitude to them to my work to help all Texas as a railroad commissioner."

Judge Culberson said that his experience and proven ability contributed largely to the success of his friends in securing support for him. "It is pretty generally agreed that now is the time for experience, not experiment," Judge Culberson said.

YOUTH

Youth is not a time of life—it is a state of mind. It is not a matter of ripe cheeks, red lips and supple knees; it is a temper of the will, a quality of the imagination, a vigor of the emotions; it is a freshness of the deep springs of life.

Youth means a temperamental predominance of courage over timidity, of the appetite for adventure over love of ease. This often exists in a man of fifty more than a boy of twenty.

Nobody grows old by merely living a number of years; people grow old only by deserting their ideals. Years wrinkle the skin, but to give up enthusiasm wrinkles the soul. Worry, doubt, self-distrust fear and despair, these are the burdens that bow the head and turn a growing spirit back to dust.

Whether seventy or sixteen, there is in every being's heart a love of wonder, the sweet amazement of the stars and the starlike things and thoughts, the undaunted challenge of events, the unflinching childlike appetite for what next, and the joy and the game of life.

You are as young as you faith, as old as your doubts; as young as your self-confidence, as old as your fears; as young as your hope, as old as your despair.

In the central part of your heart there is a wireless station; so long as it receives messages of beauty, hope, cheer, courage, grandeur and power from the earth, from men and from the Infinite, as long are you young.

When all the wires are down and all the central place of your heart is covered with the snows of pessimism and the ice of cynicism, then are you grown old indeed and may God have mercy on your soul.—Anonymous.

FIND FARM NEEDS VARY IN ELECTRIC EQUIPMENT

Farm requirements in several kinds of electrical—particularly in refrigerators and ranges—differ distinctly and widely from the needs of city people, and this has proved a handicap to buyers on farms, says G. D. Munger, of the Rural Electrification Administration. But the expansion of the market that has resulted from the rapid extension of electric service to rural areas has moved manufacturers to bring out new models for farm use.

On the farm a family of a given size usually needs a considerably larger refrigerator than it would in town, because much of the food is laid in on a weekly basis instead of by day-to-day shopping. Popularity of freezing-locker services in rural centers also calls for liberal storage space in the farm refrigerator when the frozen products are withdrawn from central storage. Farmers also make good use of added cold storage at home in keeping cream, butter, eggs, and dressed poultry thoroughly chilled before delivering them to buyers. The premium for quality in such products, says Munger, will often pay a big return on the cost of the larger models of refrigerators needed to keep them in prime condition.

Electric ranges for urban use are ordinarily designed solely for cooking. In farm kitchens the cost of current for summer cooking may be lower than in the city, because the farm uses power for many other purposes and so wins a low kilowatt-hour charge, but in winter, electric cooking may be wasteful because the kitchen range is relied on for part of the heating of the home. Farms frequently need combination ranges to burn coal or wood in winter and to cook electrically in warm weather. Farm homemakers also do more baking on the average and need larger ovens.

Munger finds that manufacturers are responding to the new farm demands and are offering models better adapted and at prices considerably lower this year than ever before.

GUIDANCE IN FARMING BASIS FOR FSA LOANS

A new type of collateral for farm credit is being developed on the basis of "common sense education and planning," says Dr. W. W. Alexander, Farm Security administrator. More than a half million families are operating their farms on FSA loans. These loans usually run about \$300 to \$400. Coupled with the assistance and supervision of the administration county representatives, these loans form a foundation upon which families are building self-sufficiency.

"Most of these borrowers had failed in the past simply because they did not know how to farm efficiently," Doctor Alexander said recently. "Guidance in good farming methods is the best guarantee that they will not fail again; and at the same time it is the best protection for the government's investment in these families. Farm security helps each family to find the answer to its individual problems; and if necessary it loans the family the money needed to solve them.

"When a family comes to the Farm Security county supervisor for help, the first step is to find the cause of the trouble, and the second is to work out a farm-and-home-management plan that will overcome these difficulties and enable the family to get back on its feet.

"In making such a plan, the supervisor goes over the farmer's situation with him in detail—how big his farm is; how fertile; how much equipment he has; how much livestock; how much debt; what cash crops and feed crops he has planted in the past; how many acres he has in garden and food crops. Then they decide what changes can be made to increase the family's income.

"The farmer's wife and a home-management specialist usually work out a similar plan for the home to provide good diet, better clothes, and closer supervision over expenditures."

Doctor Alexander said that a survey of typical borrowers showed these methods are working.

BARN ELECTRIFICATION IS WIRING FOR PROFIT

Wiring the home is almost invariably the first step taken to put electricity to work when a light and power line is extended to a farm. Wiring the barns and providing switches conveniently located, says the Rural Electrification Administration, deserves consideration as the next step—and a definitely profitable step.

Substituting electric lights for oil lighting is a great convenience. It prevents accidents and cuts the fire hazard. It also results in material savings in time. On the basis of the time saved in doing chores and allowing only a low hour rate on this time, it is possible on nearly every farm to show a substantial gain compared with the cost of the current consumed in lighting the barn.

The REA requires that all wiring connected with lines financed with the help of the Administration must be inspected by a competent inspector approved by REA, and that the wiring must meet the requirements of the Board of Underwriters, and also local regulations. These standards insure a low fire hazard, and savings in insurance on barns and out-buildings, says the REA, is likely to be a worth while item on the profit side of rural electrification.

A dictator may get a lot of satisfaction out of thinking he is the head man, but just wait until those dictated to become tired of it and then see how quickly his cream will curdle.

Rutledge In Race For County Judge In Demo Primary

O. P. Rutledge, who is seeking the office of county judge, has served in most every capacity in his community in non-paying jobs, where the work has called for personal sacrifice but is now seeking for the first time a public office.

He has a long record in business and in more recent years has been farming. He was the first International Harvester company dealer in Floydada and has headed other local business enterprises during a residence here dating back past 1920. Should Rutledge be elected he has pledged himself to a conservative attitude toward the county's business and will work with the Commissioners' court in a harmonious plan to that end.

J. J. Spikes and children Mr. and Mrs. Paul Wheeler of Snyder visited relatives at Grand Prairie during the week-end. Little Joe Ellis Wheeler remained for a visit with his grandmother, Mrs. J. J. W. H. Brock Asks Voters Support In Precinct 1 Race

W. H. (Bill) Brock, a resident of Floyd county for sixteen years, is making his first bid for public office. He solicits the vote and influence of the voters for precinct 1 in his campaign for commissioner of this district.

For fourteen years Mr. Brock was a resident of McCoy community but for the past two years he has been farming near Blanco. He believes that he understands the needs of the people whom he will serve if elected as commissioner and that he is capable of transacting the business of the office.

Mr. Brock has attempted to see all of the voters in the precinct personally but, since this perhaps has been impossible, he solicits the vote and influence of all these in the democratic primary on July 27.

C. M. LYLES HAS RESIDED IN COUNTY FOR 27 YEARS; ASKS COMMISSIONER'S JOB

A residence of 27 years in the precinct has thoroughly identified his interests with those of Precinct No. 4 and of Floyd county in the belief of C. M. Lyles, candidate for commissioner. He is making his third campaign for the place.

In 1938 he ran for Commissioner of Precinct No. 4 and had a creditable vote. His previous effort was in 1930 when he was third man in the field of six candidates.

He believes that the county's affairs can be conducted with the same degree of economy that should mark one's personal affairs, and will lend his time and effort to that end, should he be elected, he declares.

SENATOR CONNALLY SENDS GREETINGS, BEST WISHES CITIZENS OF THIS AREA

Greetings from Senator Tom Connally, of Marlin, are contained in this issue of The Hesperian.

Senator Connally has his name on the ballot for the Democratic nomination to succeed himself in his post at Washington. However, he has been tied to his imperative official duties in connection with the war crisis and it has been impossible for him to give any attention to his campaign.

Roy A. Holmes Is Seeking Office Of District Clerk

Roy A. Holmes, candidate for the office of District Clerk has been a resident of Floyd county for the past 22 years. Eleven years of this period of time have been spent in business.

Mr. Holmes, who urges that the voters of Floyd county support him in his campaign, pledges his best effort in transacting the duties of District Clerk if elected.

Qualifications necessary for filling the office, ability, capability are among those attributes which Mr. Holmes possesses. His formal education includes a high school training and two years in college. He is married and has one child, a daughter.

Moore Claims Record In County For Number Of People Dealt With

Frank L. Moore, candidate to succeed himself as assessor and collector of taxes, claims the record of having dealt with more people during the past quarter of a century than any other man or woman in Floyd county. Early after he began work as a grocery salesman here he was made a teller at the First National bank and has been consistently before the public ever since, making his claim a very feasible one. He has, perhaps, the widest acquaintance of any man or woman in the county also.

Moore first moved to the county 32 years ago. He is making an intensive campaign for re-election. He has one son, Joe Dick, and one daughter, Norma Jean.

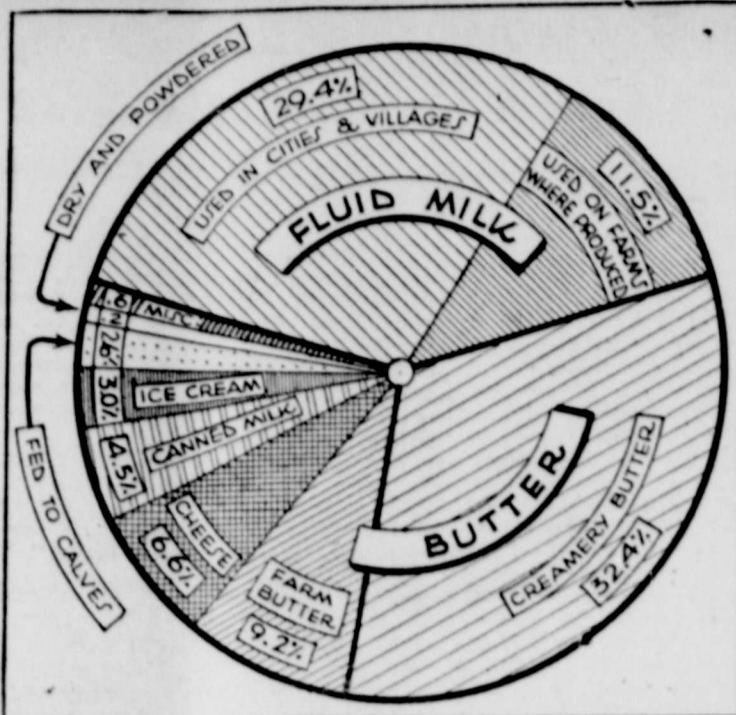

Henry Roberson Here This Week Meeting Voters Of Pre. No. 2

Henry Roberson, candidate for Commissioner of Precinct No. 2, has been spending the first of the week in and around Floydada making the acquaintance of the voters in the new portion of the district whom he has not met, and soliciting their support.

Mr. Roberson has lived in the precinct since 1901, during most of which time he has farmed. At this time he is a resident of the city of Lockney. For four years he carried the mail on the Estelline-Lockney stage route.

He ran for the same office two years ago and got a good vote. He is making a thorough canvass of the precinct. He is for a safe and sane business administration of the county's affairs.

Total War Planned By Cotton Council To Defend Markets

Cotton firms and cotton farmers of Floydada and surrounding area were called on today by President Oscar Johnston of the National Cotton Council for "100 per cent allegiance in cotton's total war for increased consumption."

In a message addressed to local producers throughout the county President Johnston declared that "the raw cotton industry is arming as never before in its history to smash down the blitzkrieg of substitutes, surplus, and foreign competition."

The message came simultaneously with the National Cotton Council's announcement of a "universal service" plan to provide funds with which to carry on the fight during the coming year. The new plan, to go into effect August 1, calls for a defense fund of five cents on every bale of lint and three cents on every ton of seed, mobilized with the help of each of the five primary raw cotton interests.

Under the new plan, arrangements have been perfected enabling the producer to make his nickel-a-bale contribution at the first point of sale, either to the cotton merchant, large or small, or the ginner or warehouseman acting as merchant. This contribution is carried on from merchant to compressor, who remits the accumulated funds to the council when the bale is first compressed, or from merchant to textile mill which remits on uncompressed cotton.

Similarly, contributions on seed, which are made by the ginner and crusher, are assembled and remitted to the war chest by the oil mills.

"For fifty years we cotton farmers have been talking about an organization like the National Cotton Council to defend our markets and find new ones through judicious advertising, intelligent research, and organized opposition to restrictive legislation. At least we have it, and in two years, equipped with modern weapons, it has accomplished more than any of us thought was possible in so short a period."

"Domestic consumption has been brought back virtually to the all-time high, with every indication that a new record can be set in 1941. Plans are ready for a vigorous attack on the acute problem of foreign trade. Council scientists are on the trail of new uses. A united cotton industry has gone to war."

Nickel-a-Bale Contribution To Swell War Chest During Coming Year

Under the new plan, arrangements have been perfected enabling the producer to make his nickel-a-bale contribution at the first point of sale, either to the cotton merchant, large or small, or the ginner or warehouseman acting as merchant. This contribution is carried on from merchant to compressor, who remits the accumulated funds to the council when the bale is first compressed, or from merchant to textile mill which remits on uncompressed cotton.

G. N. Shirey Family Attend Funeral Of Mrs. Pauline Stoval

Several local residents attended the funeral service of Mrs. Pauline Stoval, 27 who died Monday afternoon in a Lubbock hospital 15 minutes after falling from a moving automobile.

Mr. and Mrs. G. N. Shirey, Gilbert Jr., and Mrs. Wayne Finley accompanied by Mr. Shirey's sister Mrs. Sherman Peak and Mr. Peak of Lorenzo attended the last rites at Levelland Tuesday. Mr. Shirey is an uncle of the deceased.

The accident happened four miles south of Lubbock on the Lubbock-Big Spring highway, as she was being carried to a Big Spring hospital. She had previously spent some time in the hospital there and had been on a three-months furlough at the home of her parents Mr. and Mrs. R. L. Shirey of Levelland.

Surviving relatives include her husband of Wichita Falls, a son 6 years of age, a daughter 3 years old, her parents and several brothers and sisters.

Funeral was in charge of Rev. A. A. Brian pastor of the Levelland Baptist church. Interment was made in the Levelland cemetery under the direction of the Davis-Mason Funeral home of Levelland. Mr. and Mrs. Shirey and family returned home Tuesday night.

- ❖ CAPABLE
- ❖ EFFICIENT

For 22 years a resident of Floyd County. A young man seeking his first public office.

May I take this opportunity to thank you for the support that you have given me in the past, for your lasting friendship, your loyalty through thick and thin, your vote, and the pleasure it has been all my life in having known you.

I am, yours truly,

Frank L. Moore

Candidate for Assessor and Collector of Taxes, Floyd County, Texas

Your Vote and Influence will be Appreciated

Cordial Greetings AND Best Wishes Tom Connally

UNITED STATES SENATOR

W. H. "Bill" BROCK

Candidate for Commissioner Precinct 1

Will greatly appreciate your support in the democratic primary July 27.

A resident of Floyd County Sixteen years, He is seeking his first public office On his merits as a citizen.

Pledges an economical, efficient honest administration of the county's affairs.

(Political Advertisement)

To Voters Of Precinct No. 2 FLOYD COUNTY

This is to remind you that I am anxious to be your commissioner and am in the race subject to the action of the Democratic Primary.

To those who have recently been included in the district I want to say that I have lived in Floyd County since 1901 and have made my home in Precinct No. 2 during all those years.

I feel I am fully qualified for the work that a commissioner has to do, and assure you I will do my best to make you a good commissioner if elected. I realize that it will be necessary for a commissioner in affairs that affect the whole county to work in harmony with other members of the court and this I believe I can do to the end that we will have our county's business transacted on a safe and sane business basis.

Every consideration you can give me will be appreciated.

Geo. M. Finkner Is Successful In Business, Farming

Geo. M. Finkner, who is making his first political race in the campaign for Commissioner of Precinct 1, is a successful farmer and businessman. Coming to Floyd county a quarter of a century ago, Mr. Finkner engaged in farming and after several years in that endeavor moved to Floydada to enter the automobile sales and service business.

Mr. Finkner pledges economy, honesty and efficiency in the administration of the county's affairs if he is elected as commissioner. It is the first time that Mr. Finkner has sought a public office. Mr. Finkner believes that his twenty-five years as a citizen of Floyd county, his record as a farmer and businessman qualifies him for the office he is asking.

Marion Barton Wants Commissioners' Job In Precinct Number 4

M. A. (Marion) Barton, who is asking for the office of commissioner in Precinct No. 4, has had extensive experience in road work in the precinct and prior to the time he moved to Floyd county and in this respect is very well fitted for the office.

He is making a determined race for the office with the intention of contacting all the voters in the precinct. It is his belief he can make the precinct and the county as a whole a good commissioner and if elected will co-operate with other officials to give the people a good administration of their public affairs.

B. NICHOLS CAMPAIGNS FOR CO. CLERK'S OFFICE

B. Nichols is campaigning again this year for the office of county clerk, a position he sought four years ago and in which race he received a gratifying vote, short, however, of a needed majority. Nichols has been employed the past several years as city salesman and on the territory for the Massie Wholesale grocery, but for the past several weeks has devoted his time exclusively to his race for the clerk's office.

"I am qualified for the office and can fill it to the satisfaction of the public," said Mr. Nichols this week. "And if the voters see fit to choose me for the place I will do my best to justify their confidence."

Nichols is married, has two sons and a daughter. He has made his home in Floyd county for the past seventeen years.

NAME OF WALTER D. NEWELL ON BALLOT FOR SURVEYOR

Walter D. Newell, running for his first elective term as County Surveyor of Floyd county, has been engaged as surveyor since the resignation of Geo. A. Lader a year ago.

Prior to that time he had been a deputy under Mr. Lader for approximately 14 years. He appreciates the fact that he is running without opposition and will strive to give the people of the county good service.

His work in the past several years has engaged his time principally in the four counties of Floyd, Briscoe, Motley and Crosby, and his wide knowledge of landmarks and boundaries have been of great value in the work he has done.

Milton Sims Is Candidate Office Of District Clerk

Milton (Buck) Sims, candidate for District Clerk in the July 27th Democratic primary, is a young man who is interested in the welfare of the county. A resident of Floyd county for 24 years, the candidate received his education in Floydada schools and in Texas A & M college.

Sims pledges an efficient, honest, economical administration if elected as District Clerk. His several years business experience, together with his record as a citizen make him worthy of consideration.

Mr. Sims is married and has two daughters.

Robert Fisher Makes Bid For Assessor And Collector's Office

Robert Fisher, candidate for the office of Assessor and Collector has not finished his house to house canvass of the county as yet, he said Tuesday, but is in the midst of it. Meanwhile, he is anxious for the public to consider his candidacy seriously and consider his messages in this newspaper this week as a personal solicitation for this vote and influence in the coming primary.

Fisher is 36 years of age. He has lived in the county since 1928, and has taught school at Liberty, Allmon, Cedar Hill, Fairview communities. In his four years of college training Fisher majored in government, taking a special course in county administration.

He has a wife and a daughter, Amy Lorraine, 4. This is his first time to ask for a public office.

Marshall Formby Asks Election As Senator Of Thirtieth District

Marshall Formby, McAdoo-reared as a boy, is asking the people of the 30th Senatorial district to make him their senator. He is a candidate on the democratic ticket in the forthcoming primary.

With the slogan, "It's time to send a new man to Austin," Formby is waging a fight for the office with the assistance of his old friends and neighbors in Dickens county, in particular those who know him best, around McAdoo.

At present Marshall Formby is county judge of Dickens county. He was a student of Texas Technological college after finishing high school and served last year as president of the West Texas Judges and Commissioners association.

HOPE TO CROSS WILD AND DOMESTIC COTTONS

Cotton breeders are hoping for—and are trying to bring about—a doubling of the chromosomes of some of the wild cottons of the world. American cultivated cottons are 26-chromosome varieties. Nearly all the wild cottons—most of them lintless but related nevertheless to the fiber bearing plants—have 13 chromosomes, with the result that cotton breeders have not been able to get fertile, true bearing strains of hybrids between the wild and the cultivated cottons. The lintless varieties would not be desirable in themselves, but experience with other kinds of plants shows that a seemingly worthless wild relative may contribute valuable properties such as vigor, resistance to diseases and insect attacks, or hardness to cold or drought. Then by the best cultivated varieties it has often proved possible to get a variety combining practically all the desirable qualities of the good market varieties but retaining one or more of the good qualities of the wild plant.

If the comparatively new methods of inducing the double chromosomes—by colchicine treatment, by heat or cold, by X-ray or other devices—can double the chromosomes of the wild cottons, then cotton breeders will have a better chance, says Thomas H. Kearney of the Bureau of Plant Industry, to make these crosses with a reasonable hope for fertility and true-breeding in hybrids, that might be, for example, weevil-proof, or able to thrive in spite of root-rot.

A temperance lecturer ended his speech with: "Some people advocate total abstinence whilst others suggest moderation. But, I ask you my friends, what is the all-important Drink question?" From the back of the hall came the reply: "What'll you have?"

Marshall Formby For State Senator

Marshall Formby, if elected your State Senator, will FIGHT for payment of pensions NOW; raising of truck limit; putting state on cash basis. He favors a fair tax upon the state's natural resources.

If elected your State Senator he will be present to vote when such bills as the race horse and other important bills come up for a vote.

He is making the kind of a race you would want your son to make. Help elect Marshall Formby your State Senator.

A Courteous Hearing

I have visited practically every home in Floyd County in my campaign for the office of County Clerk. A few were not at home or were missed in some other manner. I will try to be around before election day to see you.

I Want To Thank You

For the opportunity of seeing you and putting my case before you.

I am earnestly anxious to serve you as County Clerk. I can make you a Good, Efficient clerk and will do so if you'll give me the opportunity.

If you can conscientiously vote for me in the primary on July 27, 1940, you will confer the greatest favor possible and make my ambition to be county clerk of Floyd County come true. Please keep me in mind when you vote July 27.

Administration Of L. A. Woods Is Complimented

L. A. Woods took over the school affairs of Texas in January, 1933. Financially the public school system at that time was practically bankrupt. The outgoing State Superintendent stated in his biennial report to the Legislature that the system faced a deficit of \$12,800,000. Not any of the per capita for the school year 1932-33 was paid until January, 1933. The teachers were forced to discount their vouchers in order to get their money, and in many instances they were unable to get any cash at all. School bonds became delinquent, and school boards paid high rates of interest on what little money they were able to borrow from the banks.

It is a matter of record that the schools were never in better financial condition than they are today. The per capita apportionment has been raised from \$16.00 to \$22.50; the equalization fund has been increased from \$2,500,000 to nearly \$7,000,000 and the vocational funds have grown in the same ratio. The funds for rehabilitation of adults and crippled children have increased three-fold. Through the increase in school finance we were able to launch a public school program second to none in this country. This progressive educational program has changed the rating of the schools of Texas from 37th to 18th among the states of the union and is able to withstand the onslaughts of the critics. This criticism is having about as much effect on this educational movement as the ripples of the ocean against the Rock of Gibraltar.

It is true that the Legislature has investigated the State Department of Education three times during the past few years. It has also investigated many other state departments. A clean bill of health has resulted each time. The last legislature made no investigation—proving that that body was satisfied with the administration of school affairs. Regardless of what critics have to say, the Texas Legislature, the State Board of Education, and the State Superintendent are in one another's good graces. The same thing is true between the State Auditor and the State Department of Education.

All moneys that have been expended through and by the State Department of Education have been expended according to law. Neither the Legislative Committee nor the State Auditors have been able to find any material mistakes in the operation of the State Department of Education through travel, through the administration of the funds for the crippled children and adults, through the vocational funds, through the rural aid funds, or through the Textbook division.

Mr. and Mrs. R. F. Stovall and sons, Franklin and Robert, and Mrs. Stovall's mother, Mrs. T. C. Tyson, left Saturday for a vacation trip to Corpus Christi. They will visit at Calvert before returning home.

Mr. and Mrs. Olin S. Miller shown listening to the popular KGNC Farm News program in their farm home near Floydada, Texas. Thousands of KGNC listeners will hear a new feature, the opening livestock markets, on the program beginning next week at 6:45 a. m. Joe Field (inset) of the regional Farm Security administration staff at Amarillo, is the regular reporter for the Farm News program presented by KGNC in cooperation with the United States Department of Agriculture and the Extension Service. Each morning he brings to listeners timely agricultural information the weather report, and grain, feedstuff, and wool markets.

Tom W. Deen Has Long Record Public Service

Candidate For The Legislature Was Drafted In Mass Meeting To Make Race In 129th District

A long residence in Floyd county and a long record of faithful service as county treasurer, county clerk and county judge can be chalked up for Tom W. Deen, who is a candidate for the office of Representative of the 129th Legislative District.

With eight counties in which no campaign Deen and a committee of friends who had a part in drafting him for the race have found it a big job to get around to all portions of the district, talking to the people and learning what they have in mind to expect of their representative the next two years. The district is composed of Floyd, Hale,

Briscoe, Swisher, Lamb, Bailey, Parmer and Castro counties, and has a voting strength of nearly 20,000.

Judge Deen came to the plains country from Hamilton county, where he grew to young manhood. In that county, before coming to the plains in 1900, Mr. Deen volunteered for service in the Spanish-American war but was turned down for army service. He taught school in this county after moving to the plains and later was chosen as county treasurer.

He served as county clerk for two six-year periods and later as county judge for two terms.

This spring he was drafted by friends for the race for the legislature in a mass-meeting in Floydada. Salient points in his platform on which he is campaigning include the following:

He is for taxing the natural resources of the country to raise the Social Security tax for the old peo-

ple, the needy blind; He is for raising the truck load limit;

He is for re-districting the state for better representation;

He is for stronger measures to better enforce the liquor laws;

He is against poll tax as a voting requirement.

Mr. and Mrs. Lee Mayhew and son, Arthur Edwin, of San Angelo, came Sunday for a visit with her parents, Mr. and Mrs. A. H. Kreis, and his mother, Mrs. E. B. Mayhew. Mr. Mayhew is a salesman for the Texas Stove company. They will visit at Dallas before returning home.

An Appreciation

From A. J. Folley, Associate Justice of the Court of Civil Appeals, to the people of the Seventh Supreme Judicial District of Texas:

My Selection for the Important Post of Associate Justice two years ago by the people is a fact for which I shall ever be grateful;

And the fact that my name is on the Primary Ballot again this year without opposition on the Democratic Ticket is very Grati-fying I assure you.

It is my hope to be worthy of your trust. Sincerely,

A. J. Folley
Candidate for Re-Election as Associate Justice of the Court of Civil Appeals, Seventh Supreme Judicial District of Texas, at Amarillo.

B. E. Cypert Asks Votes, Support In Campaign For Post

B. E. (Bass) Cypert is asking that the voters in precinct 3 support him in his campaign for commissioner in that district. He has been a resident of Floyd county for 29 years and since 1918 has engaged in farming in the Cedar Hill community.

Mr. Cypert, who served as commissioner from 1936 to 1938, believes that his record as a county official and as a citizen of the county gives him ample qualifications for the position he is seeking.

The candidate has had experience as a commissioner, farmer and businessman.

JUDGE FOLLEY APPRECIATES HIS FLOYD COUNTY FRIENDS

Judge A. J. Folley, associate justice of the Seventh Judicial District of Texas, located in Amarillo, was in Floydada last week on business and renewing acquaintances among friends here. Although serving the past three years in the capacity of justice of the Court of Civil Appeals, Judge Folley has retained his legal residence in this county, and expects to vote an absentee ballot here unless he is able to be here on election day.

His name appears on the ballot this year without opposition as a candidate to succeed himself, an honor and a trust which he deeply appreciates.

A graduate of the Baylor Law school, Judge Folley began the practice of law in Texas at Floydada and was at one time the partner of Judge L. G. Mathews here for a number of years. After serving as district attorney and District Judge of the 110th district he was appointed to the associate justiceship which he now holds and in which capacity he is now serving an unexpired term.

Kenneth and Dorothy Bishop, who have been spending six weeks with Mr. and Mrs. Daily Bishop, of Vernon, returned home Saturday. They were accompanied by Mr. and Mrs. Bishop and children who spent the week-end with their parents, Mr. and Mrs. S. G. Bishop. Carol Ann Bishop remained for a visit with her grandparents and her brother and sister.

A VOTE FOR

Tom W. Deen

For

Representative

of District No. 120

Is A Vote for

The Best Interests of Our Western Counties

Tom Deen was persuaded to make the race by a mass meeting of the citizens who know him best, and by a written endorsement of a hundred or more other citizens.

He has served as county clerk of Floyd county two different times six years each time, and four years as County Judge, and knows the needs of the west.

Tom Deen has done as much or more for the interests of his county as any other man in the county.

- He is for taxing the natural resources of the country to raise our social security tax for our old people.
- He is for raising the truck load limit.
- He is for redistricting the state for better representation.
- He is for stronger measures to better enforce our liquor law.
- He is against poll tax as a voting requirement.
- He is under no obligation to any private or corporate interests and
- He is no lawyer.

Jerry Sadler Is Making Whirlwind Campaign In Race

AUSTIN, July 15.—A whirlwind campaign which will take him into practically every section of Texas, and during which he will make more than 100 speeches, has been started by Jerry Sadler, the anti-sales tax candidate for governor. Sadler is making 30 speeches in Northeast Texas during this week. Next week he will campaign in West Texas, making night talks at Waco, Wichita Falls, Amarillo, Abilene and Fort Worth.

The Sadler Cowboy Stringsters are accompanying the candidate on his tour, as will Jarrin John Kimbrough, All-American Fullback of 1939, and his brother, Jack, who are aiding Sadler in his campaign.

Sadler is seeking the governor's office on a platform proposing taxes on oil, gas and sulphur with which to pay old age pensions and other social security obligations of the state. He proposes to match Teachers' Retirement moneys by strict enforcement and reform of Texas franchise laws.

Sadler is charging in his talks that Governor O'Daniel's transaction tax is a super sales tax, and that although the governor had the largest majority of any governor at the last session of the legislature that it would be impossible for him to have a majority at the next session as "ninety percent of all candidates for the legislature sought the office on anti-sales tax platforms."

Summertime sleeping presents the problem of keeping cool and yet adequately covered. Jean Dickenson, lovely soprano star of the Metropolitan Opera company, has discovered that using two sheets for covering is the most satisfactory solution. Thus three sheets are the only elements in your bed-making. Two top sheets are light and cool, but furnish enough protection for the sleeper against the drafts and chills which often lead to summer colds.

Miss Dickenson chooses the second covering sheet in color — mist-green or marble-pink — giving the effect of covers, protecting the white sheets, and adding an attractive color-note to her room. The first covering sheet is one of the revolutionary new ones with beautifull-hems woven right into the body of the sheet in a border of handsome damask-like stripes instead of the usual folded and stitched hems which only make for extra weight.

Alvin R. Allison Is Waging Vigorous Campaign Here

Waging a vigorous campaign in his race for State Senator, Alvin R. Allison of Levelland, a present State Representative, has carried his record in the last session of the legislature, opened to the citizens of the entire 30th district.

Allison, county judge of Hockley county for two terms, and who is asking a natural promotion from the House of Representatives to the Senate, pledges continued co-operation by voting and working for immediate payment of old-age pensions and other social security measures.

The Levelland legislator also states that he will continue to fight to help raise the truck load limit in Texas, as he did on every occasion in the last Legislature.

It is remembered that Representative Allison in the 46th Legislature was author of the new "hot check law", which is today protecting the honest citizens of all Texas.

Other measures proposed by him that are receiving favorable comment from the people are a publication law that require printed description of tax money disbursements in local newspapers of city, county and state offices and re-introduction of the gasoline tax refund bill so as to pay farmers and ranchers their gas tax refund at time of purchase of fuel for non-road purposes.

and what she had been doing. She answered that she had been at home all day mending the children's clothes.

"And you weren't downtown?" asked he, growing suspicious.

"No; I have not been downtown; why?" she answered.

Taking the pocketbook out of his pocket and laying it beside his plate, he asked if that were not hers.

"By no means!" she said. "I have never seen that pocketbook before!" The minister did not finish his dinner. He had lost his appetite.

GRAVEYARD NOTES TELL OF LOSSES BY EROSION

Even news from the cemeteries helps write the record of damage by sheet erosion, the washing away of topsoil, and the destruction of farm land, according to reports reaching Washington offices concerned with soil conservation.

One small cemetery undisturbed for 50 years now stands a foot and a half above the surface or the surrounding fields, according to observations reported by one of the local AAA committeemen in Perry

county, Arkansas. The cemetery lies in the midst of almost level land—the slope is not more than 2 percent—but after two generations of civilization the topsoil to a depth of 18 inches has washed away in the fields, but has been anchored in the cemetery plot by closely matting roots of sod and sassafras trees.

Nearby in the same county a farmer's plough turned up part of a skeleton. Investigation revealed there had been an old Indian burying ground in the vicinity. As the soil eroded year after year, the plough ran closer to the buried In-

dian and as erosion continued the plough disturbed the remains. The owner had not realized the seriousness of the loss until this incident revealed it, but soil specialists point out that similar losses of the more valuable and fertile topsoil are occurring on many farms, and can be checked only by intelligent conservation of the soil.

Texas produced 48 barrels of oil in 1889, compared with 480,000.00 barrels last year, or ten million times as much.

Clarence Guffee Extends Thanks To County Voters

Clarence Guffee, who is seeking his first full term as county school superintendent, this week joins in extending to the voters of Floyd county his appreciation for the support and co-operation given him during the time he has served in official capacity.

Mr. Guffee, who has had four-teen years experience as a teacher in Floyd county schools, is unopposed in his campaign. He is completing the unexpired term of Walter Travis who resigned to become superintendent of Floydada public schools.

During the time that Mr. Guffee has been in office, the affairs of the county superintendent have been carried on in a systematic, efficient and economical manner.

INFANTILE PARALYSIS, LIKE TYPHOID FEVER, IS LARGELY SUMMER DISEASE

AUSTIN, Texas.—Dr. Geo. W. Cox, State Health officer states that infantile paralysis, like typhoid fever, is largely a summer disease. Although cases may occur during any month of the year, over half the total cases occur during July, August, September and October. Through June 30, fifty-three cases of poliomyelitis (infantile paralysis) had been reported to the State Health department.

Direct contact between persons is the chief factor in the spread of infantile paralysis. Because of the seasonal prevalence of the disease, flies and other insects have been suspected of conveying the virus of germ. Insect transmission has not, however, been demonstrated. Although animals are subject to paralysis, they are seemingly not susceptible to the human type of this paralytic disease. Carriers are difficult to determine; this fact makes advisable the reduction to a minimum of human contact during any outbreak of the disease.

Early symptoms of infantile paralysis comprise headache, fever,

Harper Scoggins Asks Dist. Clerk's Office

Harper Scoggins, of South Plains, aspires to be district clerk of Floyd county, and is presenting his candidacy with a background of 22 years of public service.

Mr. Scoggins first became a resident of Floyd county in 1924, but has been interested in the county's welfare since 1901 when his family acquired property here. In 1925 he became principal of Floydada High school and served in this capacity until 1930. The past year he was principal of the South Plains High school. He holds a bachelor of arts degree from Texas Technological college and feels that his qualifications are such that he could efficiently handle the job if he is selected for it by the people.

He and his family have always been active in civic affairs wherever they have made their home.

He has three sons, all in college age, and two daughters, who are grade students.

vomiting, bowel disorder, drowsiness and irritability, followed by neck or back stiffness. Prompt medical care, early recognition and reporting of cases make possible the use of valuable preventive and control measures.

After the acute stage of the disease has passed and walking is permitted the patient, under no circumstances must the affected part of the body be fatigued. It is thus observed that the secret of successful rehabilitation lies in continuance of professional guidance and large doses of patience.

Children under five are more susceptible to the disease, and all children under twelve should be watched for suspicious symptoms. Your family physician should report all cases to local and state health authorities immediately. When the disease occurs, all cases should be isolated for twenty-one days. All milk should be boiled unless it is pasteurized.

Children should not visit homes where the disease, or symptoms of the disease, exist. Promptness in diagnosis is poliomyelitis is a most important factor in control measures.

Mathews Supports Raising Limit For Trucks On Hiways

Candidate For Legislature Interested In Welfare Of Aged Needy Blind

In his race for representative of the 120th district, Judge L. G. Mathews is stressing the old age pension as an honest obligation of the state, which he believes should be paid by a severance tax on the natural resources of the state.

He also is urging that the truck load limit should be raised to 1400 pounds or more, and will make a fight for this plank in his platform, should he be elected, as well as insist that West Texas should get its proportionate part of public school money that is paid in.

He is for re-districting the state to get proper representation for all sections and particularly so that this section of the state may have equal representation with the remainder of the state in the legislative branches of the government.

Another problem in which he is keenly interested is the proper care of the crippled and blind children, the feeble-minded, and the insane he contends, should be handled as patients under competent care rather than to be herded into jails in the manner of criminals.

Active in the national guard for years before moving to Floyd county, Judge Mathews still retains his membership in that organization and annually attends the training camp for the state's soldiery.

His practice as an attorney has been one of the leading in this judicial district. Neither his law practice nor his service as a member of the Texas National Guard will interfere with his service as representative of the district of eight counties, should he be chosen. The counties of the 120th district are Floyd, Hale, Lamb, Bailey, Farmer, Castro, Swisher and Briscoe.

E. E. Foster Saw Service Overseas During World War

E. E. Foster, who is seeking his first county office as Commissioner of Precinct 1, saw service overseas with the A. E. F. during the World War. He was in the army for two years and spent thirteen months in France with Troop L, 6th U. S. Cavalry.

Mr. Foster has been a resident of Floyd county for twenty-five years and the entire time has been spent in Precinct 1. As a farmer and citizen Mr. Foster realizes the needs of the people in the county and pledges efficiency, honesty and competency in the transaction of the county's business affairs if elected. Mr. Foster has reared a family of three children, two girls and one son, in Floyd county.

H. J. (Hugh) Nelson Asks Consideration Of Voters In Prec. 4

Except that he has had his quota of service on school boards and in similar other community endeavors, H. J. (Hugh) Nelson, of Lakeview, is serving the first term of the first public office he has ever held. Come January 1 he will have completed two years as commissioner of Precinct No. 4.

Mr. Nelson has been in Floyd county 23 years and has lived 23 years on the same farm he bought when he moved to the county.

He is anxious for the voters of Precinct No. 4 to make a thorough investigation of his record as commissioner, with regard to economical administration and in the general supervision of his precinct's road work. It is his belief the records will disclose that he has worked with other members of the county to keep the county's fiscal affairs in good condition and has helped make it possible to reduce the tax levy this year.

If the people of the precinct believe he is entitled to the office for a second term on the basis of the record, he will deeply appreciate their vote and strive to continue a safe and economical administration.

Vote For L. G. MATHEWS For Representative

He is a Veteran of the World War and is still a Soldier and is a strong believer in the individual little business man and farmer, and has always interested himself in them.

He believes the Old Age Pension is an honest obligation and should be paid by a severance tax on our natural resources.

He believes the truck load limit should be raised to 1400 pounds or more. He believes that West Texas should get its proportionate part of the public school money that we pay in.

He believes that the State should be re-districted so that West Texas would have its proper representation and that the cripple and blind children, the feeble minded children and the old insane now confined in our jails should be cared for by increasing the size of our State Institution.

In a crisis such as we are facing at this time L. G. Mathews is a man that we can depend upon and who is honest, sober and moral and has the ability to get things done. He is a fighter.

His service in the Army or National Guard will not interfere with his work in the Legislature.

He is obligated to no organization, corporation or individual.

Respectfully,

- G. C. Collins
- W. Edd Brown
