## One-Variety Plan Nearing Completion

### Lockney Irrigation School Draws Wide Attendance

#### Barbecue Lunch Is Served Both Days To 'Students'

Irrigation Districts Are Well Represented At Annual Affair

In spite of harassing weather conditions Wednesday the Lockney irrigation school can be definitely called a success, with better than 300 registered for the morning session alone.

This morning the session is expected to move into the final day with equally as many registered. Lockney's city auditorium was well filled with farmers, owners, and operators, all interested in almost all phases of irrigation, and the problems irrigation has brought to them.

Attendance figures are almost sure to reach the 1,000 mark for both days, and will mark the most successful attempt this area has made to acquaint the irrigation farmer with water, water conservation, and the practical as well as the theoretical problems of irrigation.

Important figures in agriculture, engineering, farming and well supplies were in attendance. Visitors from the Hereford, Muleshoe, and other irrigation areas were also present to hear opinions.

Discussions yesterday centered around W. R. Stanley, hydraulic engineer, who gave a comprehensive report on the hydrologic survey of this area. D. L. Jones, superintendent Lubbock experiment station, explained seed bed preparation.

Dr. A. W. Young, agronomy professor at Texas Tech, explained the best uses of fertilizer and cover crops. Jones also spoke on "Optimum Dates for Irrigation."

Irrigation farmers furnished funds for the free barbecue feed that was served yesterday, and Lockney business men have "chipped in" for the noon day meal today.

The menu was a fitting one for South Plains folk, especially considering the weather as of yesterday. Red beans, barbecue beef, barbecue ribs, mashed potatoes, onions, pickles, gravy, pie, cake and coffee were (See IRRIGATION, back page)

Featured speaker at the annual Northwest Texas Conference for Education March 14 and 15 at Canyon will be Dr. A. J. Stoddard, above, superintendent of schools in Philadelphia. Dr. Stoddard is one of the best known school administrators in the United States and is in great demand as a speaker at educational meetings.

### Hale Oil Test Promised Soon

#### School Census For 1941 To Be Taken During March

March and April will bring the spotlight of attention to focus upon the schools in Floyd county, Floydada, and Lockney. It is during these two months that the annual school census is taken and the election of trustees for all school districts made.

Texas laws require that the school census be taken each year to determine the number of scholastics for each district and for each county. The state then pays \$22.50 per capita for teacher salaries.

All children from 6 years of age through 17 years of age on September 1, 1941 will be enumerated. Whether or not a child is attending school, if he comes within the age limits designated by the law, he should be listed with the local census taker.

School boards for each district will appoint a census enumerator. On the first Saturday in April (April 6) voters will march to their respective polling places to elect trustees for their school district.

County school trustees must be elected from Precincts 3 and 4 as the terms of E. C. Durham and W. Earl Edwards will expire on May 1.

Floydada and Lockney independent school districts will also hold (See CENSUS, back page)

#### Considerable Holdings Are Located In Southwest Floyd County

Announcement of a deep oil test to soon begin on the A. F. Byrd tract, 3 miles northeast of Petersburg and near the Floyd-Hale county lines, was made last week by the Plainview Herald, following information divulged by confidential sources.

The news report as outlined by the Herald is given below for the benefit of Floyd county readers. At present only a part of the report may be confirmed, but indications are that the 9,000 foot test will begin within a short time, at least before June.

Drilling of a deep oil test in Hale county will start soon. Location is 660 feet from the northeast corner of Section 17, Block K, the A. F. Byrd tract.

The Herald has authentic information that the test will be drilled 9,000 feet or until oil is found in paying quantities at lesser depth.

The Humble oil company will have charge of drilling operations with the drilling contract jointly financed by the Standard Oil company of Texas and the Standoln Oil and Gas company.

The location is approximately three miles due northeast of Petersburg in Hale county, about a quarter of a mile west of the Hale-Floyd county line.

The drilling contract on the Byrd tract was anticipated for development last December and the contract extended for six months.

The test will start immediately, sources advise the Herald, one source yesterday reporting that drilling would start next week, but amending the time today as "soon."

A heavy rotary rig will be moved to the location.

Following intensive exploration, in which major companies spent hundreds of thousands of dollars, there has been a three-way scramble for leases in the area of this (See OIL TEST, back page)

#### Highway 70 Will Be Patched Through Town Limits

Drainage Ditches, Building Up Of Shoulders To Be Included In Job

Surface patching on U. S. Highway No. 70 within the city limits of Floydada is due to be undertaken soon by Section Foreman A. J. Hamilton, under an authorization given him recently by the State Highway department.

Hamilton was notified of the authorization to maintain a total of 2,943 miles of the highway within the city limits between the northwest city limits and the east city limits. Heretofore he has had authorization for only a small part of this mileage.

After the patching job is completed, Hamilton said this week, will come the matter of straightening up drainage ditches, building up shoulders in places and hauling out dirt on shoulders in other places.

"We will appreciate the help of citizens in getting obstructions out of the way," Hamilton said, indicating that the principal obstructions at this time are filling station advertising signs and wrecking yard. All these obstructions which are not voluntarily removed from the right-of-way will have to be moved by workmen of the highway force.

Hamilton has been asking for authority to undertake maintenance of the highway through the city for sometime and only last week was given this authority. He has been unsuccessful to date in getting authorization for maintenance work on State Highway 207 through the city limits.

#### Mama Cow Puts Bee On Rustler

A mama cow proved the undoing of two Crosby county youths who are now lodged in the Cross Bar Hotel, Floydada, charged with cattle theft. It all began when Henry Martin, who lives 7 miles southwest of here, missed a white face calf, and finding evidence on a nearby highway that the calf had been kidnapped, headed for the Lubbock sales ring to prevent any attempted sale. After a 30 minute search at the ring, he discovered a calf he was sure was his, but could not positively identify. A quick dash home for a trailer, and the mama of the white face calf was hauled to the ring. Mama cow quickly identified the calf as her own, and then legal machinery began to grind. Yesterday two youths were in the custody of Sheriff Fred N. Clark.

#### Seven Communities Have Organized Gin Groups

Other Counties Attempting To Meet Standards Of Floyd-Hale Program

Floyd county ginners and cotton farmers are wasting no time in organizing one-variety cotton communities in an effort to secure approval from Washington for the project.

Restrictions and requirements have been considerably raised in the past year and for that reason the project must be expanded to secure government approval and cooperation.

Seven communities in this county have already organized and several others have merely to make the announcement official and turn their lists over to the county agent.

Washington offices have not designated the one-variety cotton areas at present, but agriculture officials here have been advised that the government will cooperate in only about half as many areas as were operated last year, and the areas in which they cooperate must produce approximately 25,000 bales of one-variety cotton.

Under normal conditions and with 100 per cent participation, County Agent D. F. Bredthauer estimated, Floyd-Hale one variety area could meet the requirements.

Bredthauer announced that interest in the new cotton program had grown considerably during the past year and that a number of farmers were requesting a place in the program during 1941.

Not only are individuals becoming interested, the county agent said, but a number of counties have inquired concerning the possibility of being admitted.

"One gratifying point is that our neighboring counties of Swisher, Bristow, and Castro counties are taking steps and setting up their gin group organizations with the hope in mind that they will be invited into the Floyd - Hale program," Bredthauer said.

From the local gin group organization will spring an area organization and one representative from each gin group will become a member of the area group. This body of men composing the area organization will make application to the Washington authorities asking to cooperate in the one variety marketing program for 1941.

This group will list the approved one variety and will guarantee that only one variety cotton will be offered for the program. They will work out the problems of what producers will be eligible to cooperate in this program and also set the length of staple of cotton that will be offered in this program.

This group will also work out and make other recommendations with (See COTTON, back page)

#### Pioneers Will Lay Plans For 51st Celebration

Meeting Called Saturday At 1:30 O'Clock In District Courtroom

The first meeting of committeemen of the Floyd County Pioneers re-union in preparation for observance of the fifty-first anniversary of the county will be held here next Saturday. The date was announced A. T. Swepton, president, after conferring with several members of the association including a number of directors officials and volunteer workers.

The hour set is 1:30 o'clock and the place is the district court room.

The meeting will be a general get together of old timers and will not be confined necessarily to committeemen, said Swepton. "We want to talk things over, find out what the pioneers have in their minds and get ready to undertake whatever we are going to do," said Mr. Swepton.

Last year the pioneers made it an "everybody" celebration on account of the fiftieth anniversary, and many thousands joined in to make it one of the biggest days in the county's history.

#### DR. HOUGHTON RESUMES HIS OFFICE PRACTICE

Dr. W. M. Houghton, who took an enforced rest for several weeks during the winter at his home in south Floydada, has so greatly improved that he resumed his office practice last week.

He is not strong and still must have his hand on his hip, but spends several hours at his office daily.

#### DOUGHERTY SCHOOL TO PRESENT COMEDY PLAY WED. NIGHT AT SCHOOL BUILDING

A three act play, "Second Story Peggy" will be presented at the Dougherty school auditorium Wednesday night, March 12, at 8:00 o'clock. Miss Helen Ring will play the leading role of Peggy and J. D. Morrison will take the role of Billy Durand.

The entire public is cordially invited to attend as the announcement made here. A small admission charge of 35c per family or 15c per person will be charged at the door.

#### JAMES FRY GIBBS TO ATTEND BATTLE OF FLOWERS FESTIVAL AT SAN ANTONIO

James Fry Gibbs student of John Tarleton college has been chosen as one of the thirty students from the college to attend the Battle of Flowers festival at San Antonio the later part of April.

He is the son of Mrs. Ruby Gibbs of Lubbock and the grandson of Mr. and Mrs. A. R. Hanna.

#### Floydada Garden Club Presents Rotary Program Wed.

Floydada Garden club members presented the Rotary club program Wednesday noon. Mrs. Jeff Welborn, president of the garden club, acted as master of ceremonies.

Mrs. H. G. Barber acted as "Dr. L. Q." and quizzed Rotarians upon practical points of gardening, only occasionally dressing into other fields. Mrs. Barber was assisted in her "quizzing" by Mrs. A. E. Guthrie. Miss Emma Louise Smith gave a humorous monologue on gardening.

Visitors were the Rev. Vernon Shaw, Rev. Guy Newman, Rev. R. A. Renfer, John Stapleton, O. A. Thomas of Amarillo, O. W. Fry of Amarillo, and John Buchanan.

#### Monterey Trip Earned By Ernest Carter

Mr. and Mrs. Ernest Carter are making preparations to leave Floydada Monday for a 10-day trip to Monterey, Old Mexico, on which they will be guests of the Great American Reserve Insurance company of Dallas.

Information that he had earned the trip for himself and wife was given Carter from the general office of the company the first of the week.

During their stay in Monterey Mr. Carter will attend sessions of the officers and agents convention and sight-seeing trips also will be provided as entertainment.

#### DISTRICT RETAIL MERCHANTS ASSOCIATION MEETING TO BE HELD AT PLAINVIEW SUNDAY

A meeting of secretaries and credit managers of the Retail Merchants' Association district 1, is scheduled to meet Sunday from 9 a. m. until 4 p. m. at the Hilton hotel at Plainview.

The program is an interesting one according to Mrs. P. G. Stegall local secretary, speakers that include W. J. Daugherty, of Pampa; J. A. Hazlewood, Amarillo and T. C. Root, Texas Tech., Lubbock.

Several merchants from Floydada are expected to attend.

#### VISIT MOTHER IN OKLAHOMA

W. J. Rhoades and Mrs. J. L. Grigg left Friday for Duncan, Oklahoma to visit their mother, Mrs. D. C. Rhoades, who has been seriously ill. They returned Tuesday with Lindsey Graham who drove them up and back.

#### FLOYDADA AND LOCKNEY FFA BOYS ALSO HAVE NUMBER OF ENTRIES

Interest in the Junior Livestock show scheduled for Tuesday, April 4, is growing in leaps and bounds as 110 entries were listed with County Agent D. F. Bredthauer, H. G. Barber, Floydada agriculture teacher and R. K. McCoy, Lockney agriculture teacher, this week.

Floyd 4-H club boys have jumped into the show with 57 animals entered in the four divisions, divided as follows: 22 dairy calves, 10 beef calves, 8 fat pigs and 17 fat lambs.

Floydada FFA boys have listed entries as 6 beef calves, 5 sheep, 8 hogs and 10 dairy calves.

Lockney FFA boys have listed entries as follows: 10 lambs, 4 beef calves, 8 dairy calves and 2 fat pigs.

Club members listing entries are J. C. Griggs, John Wilson, Ellen Brock, E. M. Norris, Jr., Herman Graham, N. E. Tyler, Ray Cook, Billy Allen, J. T. Bevans;

James Wilson, Dan Moody Krause Kenneth Thornton, Jackie Gene Brock, Jack Davis, Kenneth Ring, A. P. Shugart, Jr., Earl Edwards, Jr. David Battey;

#### BROTHER-IN-LAW OF MRS. J. D. STARKS DIED

Mrs. J. D. Starks and Mrs. Jas. K. Green returned recently from Gouldsboro, Coleman county, where they spent much of the latter part of February at the home of Mrs. Starks' only sister, Mrs. Jno. W. Cox.

Jno. W. Cox, husband of Mrs. Starks' sister, died at his home there on February 19 and was buried on February 20.

He was 82 years of age and had resided in Coleman county for more than 60 years.

#### FUNERAL RITES FOR W. N. PASCHALL, 64 HELD WEDNESDAY

Funeral rites for W. N. Paschall, age 64 years, 6 months and 26 days, were held Wednesday afternoon at 3 o'clock at the First Baptist church by the pastor Rev. Vernon Shaw. Mr. Paschall died at 11 a. m. at his home two hours after a fatal attack, pronounced as heart ailment.

The deceased is survived by his widow Mrs. Ella Paschall, one daughter Mrs. G. E. Knox of Morton; two sons Roy Paschall of Amarillo and Lloyd Paschall of Port Worth. All the children were here for the last rites. Other relatives include three sisters Mrs. Ama Bellev of Vernon; Mrs. T. L. Baker of Vernon; Mrs. Allie Reid of Colorado City, Texas; two brothers Walter M. Paschall of Denton and E. L. Paschall of Bridgeport.

Mr. and Mrs. Paschall came to Floyd county from Wise county in December, 1917, and have made Floydada their home since that time. During his long stay in the county he has been active in the contracting and building industry.

Palbearers were S. T. Harris, Curtis Gilliam, Homer McDonald, Geo. Sherrill, R. C. Patton and Bob Garrett.

Interment was made in the Floydada cemetery directed by the Harmon Funeral home.

#### LANIER, BAKERY SALESMAN

B. C. Lanier has succeeded Francis Wester as salesman with Wester's Quality bakery. He assumed his duties there last week.

#### DR. PITTS STUDYING THIS MONTH AT TULANE U.

Dr. and Mrs. Donald H. Pitts are in New Orleans this week where they plan to spend the month of March. During their stay there Dr. Pitts will take special work in the study of obstetrics and gynecology at the Tulane University School of Medicine.

#### NAMED PROJECT COUNSEL

L. W. Chapman, superintendent of the Floyd County Rural Electric Co-op, announced this week that W. E. Grimes, Floydada attorney, had been selected as project counsel.

Grimes will fill the vacancy left by Ben Ayres who recently enlisted in the United States army.

### Spring Fashion Edition Will Be Presented Next Week

#### Floydada Merchants Present New Spring Styles In One Supplement

Floydada merchants are planning a spring showing of merchandise next week. Although winter will hang on for a few weeks longer, spring is breaking through with new things right here in Floydada stores waiting to bring happiness to winter weary wardrobes and homes waiting to lift you into a brighter frame of mind.

Floydada stores will be bedecked with gay windows, a newer, cleaner appearance and salespeople awaiting to show you the transformations that can be made. They are presenting through the Hesperian a preview of fashions from the kitchen to the front porch, even to the most fastidious for miladies selections.

They are brimming over with smartly designed clothes for yourself, your husband and your children. You'll find it an interesting and profitable experience to visit them and select your new spring outfit. Watch for next week's Spring supplement in the Hesperian.

#### Call Number Nine To Take Six Men From Floyd Co.

Five Volunteers Left Monday For El Paso Induction Camp

Floyd county selective service board received call number 9 this week and six men must be selected to fill it for March 20. This is the largest call for men to date, and indicates that camps and training quarters are being made ready at a rapid pace.

Five men left Monday in answer to call No. 5. They were E. G. Williams, Jr., Charles Roach, Ross Henry, Jr., Jess Pollan, and Glenn Treadwell. They entrained for El Paso and will probably be stationed at Fort Bliss. The Lubbock induction office has been discontinued at this time.

A colored boy must leave this week in answer to call No. 7. He will be inducted into service at Dallas.

Four men must leave Tuesday in answer to call No. 8. They are expected to be Willie B. Hall, Alton Hill, Willie Lorraine Nelson, and Perry Threadgill. Threadgill is a non-registrant volunteer.

Fifty more questionnaires were mailed out this past week, and no doubt more will be mailed out steadily now that calls are coming regularly for more men.

Reports from many of the boys who are now in service indicate that they are well pleased with their assignment, the majority of them being placed where they can follow the training they are best fitted for.

The six men to answer the call for March 20 have not been named at this time by the local board. Their names will probably be known by publication time next week however.

#### DR. H. C. MITCHELL APPOINTED TO SPECIAL WORK IN MINNEAPOLIS, MINN.

In a letter to her parents Mr. and Mrs. W. N. Jones, Mrs. H. C. Mitchell informed her parents of a recent move from San Antonio to Minneapolis, Minnesota, where Dr. Mitchell has been appointed medical officer in the U. S. Veteran's administration. He will take a post graduate course before going to the hospital.

#### Egg Marketing Assn. Holds Regular Meeting

Floyd County Egg Marketing association met Saturday afternoon in the court house in its regular monthly meeting.

Poultry feed and best methods of feeding for maximum results were discussed by Mr. Shropshire, salesman from Amarillo. A. J. Jackson, manager of Plains Co-op, had requested Shropshire to attend the meeting and explain the best use of the feeds which his company will furnish the association members.

New roll for the association has been drawn up and non-participating members dropped. Floyd Piqua, chairman, presided at the meeting.

Ten members of the association were present. Miss Edith Wilson introduced the speaker.

#### Herbert Markley, McDermott Post Speaker Monday Night

Herbert G. Markley, Texas chaplain of the American Legion, visited McDermott Post American Legion Monday night as guest speaker for the regular meeting.

Markley, known in many quarters as the "fighting chaplain" because of his long service "over there," was introduced by Post Commander Harry Morckel to the 50 Legionnaires and guests present.

Captain Markley stressed in his talk that "in time of war the United States should draft everything". He pointed out that it seemed unfair to draft the youth at a dollar per day while industrialists continued to make profits and remain practically free of war time difficulties.

"A war would be quicker and more efficient with a 'draft everything' clause," Markley explained. "The Legion has long been a supporter of drafting all resources and manpower in time of war, pointing out that when war was declared that it became 'everyone's fight'."

Markley saw two years of active service in France with various outfits but principally with the 116th Engineers. At present he is post chaplain at Wink; fifth division chaplain, and also district chaplain.

In a short business session, the legionnaires voted to request the executive committee to sponsor a rodeo on May 28. J. M. Willson, Roy Snodgrass, and T. P. Collins, as a committee, will study arrangements and lay plans for sponsoring the event.

# EDITORIALS

Just how keenly are Floyd county people interested in the study of irrigation was plainly demonstrated yesterday in the irrigation school at the city auditorium in Lockney. Hundreds present studied the talks and illustrations of speakers. These hundreds have practical experience for a background. One thing these people have learned is that forage feeds and alfalfa come as nearly paying off regularly as do cotton, wheat and other staples. What special crops to venture into is being studied seriously. In nearly all other irrigation areas of the country specialty crops that use a high per cent of labor and return a higher yield on the investment have been adopted. Potatoes, sugar beets and some of the vegetables are being tried out experimentally. Generally speaking the growers are feeling their way along, although early production figures have been most promising and the returns satisfactory.

Among other features of the Lease-Lend bill are the following: (1) Does not deprive any citizen of his American liberties; (2) limits the actions of the president to defend the United States; (3) continues the control of the national purse in the hands of the Congress; (4) sets the termination date of the provisions of the bill on June 30, 1943, or sooner if the Congress so desires. Whether the bill commits the United States to war is another matter. Committed or uncommitted, the American way is for the people to get mad enough and then we're in the war anyhow. How effective and how smart the publicity the allies get in the United States is in fact more important than the provisions of the bill in that respect.

One of the big stinks about the national defense program, when it is over and done, may be the manner in which the millions have been wasted on cantonments or camps during the years of Our Lord 1940 and 1941. There may be others but this one has all the earmarks. Why the waste is being permitted, with everybody knowing and seeing it is one of those things. Apparently the people ought to demand of their congressman that a stop be put to it. Likelihood is that most of us are afraid of being called obstructionists and so we just let it go. The Defense Commission, members of the congress and the president must blush, surely, when they think of it.

Not enough calcium in the foods that cattle are eating is said by some authorities to be the reason for cattle dying on the finest kind of wheat pasture. Whether this be true, the fact seems to be established that a calcium treatment, intravenously, has given good results in numerous instances. If you want to see a cattleman "lay his leg down" watch him when he finds a few \$75 cows sick. Business picks up right then. More illness has been among big, fine, fat-looking mother cows than among any other kind of cattle.

Since it is fair to assume that a road tax should be used to build and maintain roads, The Hesperian goes along with those people who think that too heavy inroads have been made on various kinds of automotive taxes including the state and federal gasoline taxes. The very fact that refund is made on gasoline taxes where the fuel is not used on the

highways indicates the reason for its levy, for the upkeep and improvement of the state highway system. It is interesting to note, as pointed out recently in the public prints, that present constitutions of the states do not cover the new practice in public policy of taxing the people for one thing and then spending the proceeds for something else. Constitutions of 11 states in the union are said to have been brought up-to-date in this respect. Texas is not among these.

Believe it or not Floyd county and probably the most of the other high plains panhandle counties need about two weeks of cold weather immediately. Wheat that is stemming in the east half of the county and in the irrigated belt will be damaged by late freezes and needs to be frozen back into a static condition at once.

That Floyd county farmers have been impressed with the general idea of the one-variety cotton program and are going to go along with that idea in a big way is indicated by news of the week to the effect that thousands of acres have been signed up for this spring's planting. Likelihood is that several thousand acres more will be signed up before planting time comes. At Aiken, where the idea was first demonstrated as practicable in this county, the plan is taken for granted, of course.

How to put mesquite trees out of business at the least expense and thus save many millions of acres of Texas grasslands is another interesting study being made by specialists. When the balance of nature was destroyed in West Texas along with the prairie dog, mesquites took advantage of the absence of their enemy, the little prairie rodent, to cover the ground thickly. Many ranches which had been grubbed of some of their mesquites years ago had had the help of prairie dogs during the years to keep the remainder of the crop to a minimum for protection of the stock which grazed the land. Now there are many sections where you couldn't find a cow except by chance. One way being adopted to kill mesquites and their root systems is to bore a downward hole in the butt of the tree with an augur, filling this hole with a chemical that does the rest of the job. That beats grubbing and still leaves the deadened timber for use as fuel as it is needed. A more elaborate and probably more expensive way to rid the land of the mesquite is used in some places where heavy machinery uproots the tree. That, however, sounds like a lot more money spent. Nature always exacts her toll.

Wheat with a permanent root system, called a Russian hybrid—Russian because that's where it's from—is being tried out at the Texas Tech experiment farm. Planted last spring the report says the second year's growth has started without replanting. In some parts of Russia, the report says, the crop has a steady yearly yield from the old stalk. Thoughts of a perennial wheat in West Texas is an interesting speculation. Whether it is adaptable, what would be done about winter weeds, Russian thistles, green bugs, and so forth, is where the experiments have a part of their problem, even though the perennial did well otherwise.

## As A Farm Woman Thinks

Nellie Witt Spikes

March welcomed the Plains with a warm sunny smile, then the very next day she changed her mind, raging and sweeping the dirt into our faces and homes. Today, Monday, she seems undecided just what to do, but I rather think she won't give a warm sunny smile.

Have just received a copy of the Amarillo Fat Stock Show annual. I find my sister's picture in it. I especially liked the writing-up of the Washington correspondent. And as the radio announcers say, to quote, "It seems it's quite proper for people in Washington to count visits, which means Mr. and Mrs. Grover (Hill) have to do a lot of parties of their own."

Grover gets off early, goes by the meat market, gets a dollar and a half's worth of hamburgers, a couple of big onions, some buns, goes home and puts the hamburger in a skillet, then goes to the telephone and calls up the people he wants to come to see him and they have a party. Its got to where now you've got to get Judge Marvin's Jones' or Congressman Gene Worley's permission to even go to one of his parties. But every one in Washington likes Mr. and Mrs. Grover just like we do. They all say Grover is doing a swell job."

In passing, I might say that Grover is our assistant secretary of agriculture who had the inspiration to have made up useless bales of unwanted cotton into good usable mattresses. We take a justifiable pride that Grover's wife is our cousin.

The herd stretched out across the prairie, two thousand head of shaggy yearlings, a living line three miles long. Men with tanned faces under broad brimmed hats, rode swift cow ponies, and kept the nervous fast-walking leaders in line and headed them north.

North to the new town of Amarillo, the town where the whistle of the train, and the bawling of frightened cattle did not drown out the clink of golden dollars as they were stacked higher and higher before poker-faced men, nor the yells of the cowboys enjoying their brief vacation in town.

Prairie dogs, brown and slick, stood upright on their mounds of earth and barked at the herd, as if to hurry them out of their territory; vast numbers of antelope turned and ran, their white tails looking for all the world like swans-down powder puffs.

Early rains had made early grass, green and sweet to the taste of the yearlings that were being pushed on, time enough for them to fill up at evening when they were thrown off of trail. The soft blue sky was a bowl turned over the Llano Estacado, as if to keep out the rest of the world. The sunbeams flirted with the waves of the blue lakes.

kissed them into gold, and danced a merry tune with them.

A patch of yellow daisies was spread on the hillside, blue bells tinkled their tiny bells as if to accompany the music of the field lark. Acres of white daisies were bruised and trodden down by the hoofs of the traveling herd. When the shadows of the moving line lengthened into giant long-legged shadow yearlings on the waving grass, the herd was thrown off trail to drink the soft cool rain water from the lakes and to fill up on tender grass. The cowboys began to come to the shades of their saddles. They squatted on booted heels, ate sour dough biscuits, light and fresh from the camp oven, seared juicy steak from the skillet, filled tin cups with boiling black coffee. The dishes were then stacked on the chuck box table.

The boys on the first watch rode round and round the quiet herd singing snatches of sad plaintive tunes. Looking at the boss' borrowed watch for the time, the second and third watch unrolled their tarps. Soon the yellow moon shone down on sleeping cowboys lying on the prairie in their narrow hard beds. The moon beams turned the tin cups into silver; made a silver trail across the lake, stole the waves from their day time lovers, the sunbeams.

Jeff lay in the moonlight, but he could not sleep. His long, long desire that had been a dream in Old Kaufman, had been fulfilled. His brogan shoes had been replaced by the best shop made boots, J. J. Hammack could make, the tin belled spurs to shop made ones.

Now another dream had come into his heart. A vision of eyes, blue as the spiderwort that opened silken blue petals to the sun. His heart was snared in long braids of soft hair that looked like sorghum molasses pulled in long gleaming strands. In his mind was a picture of a girl in a blue and white-checked gingham dress. Yes he told himself, as he lay still with the cool wind stirring his black hair, this is a new sweet dream.

At last sleep came to the tired cowboy. The yap-yap-yapping of the coyotes, the lonesome howl of the loafer did not awaken him. Brighter than the silver waves, sweeter than the scent of the white plum blossoms, the melody of love was running through Jeff's heart, a melody clearer and sweeter than the golden belled tinkling in the pink-blossoming trees of famed Cibola.

### MY IDEAL HOME

Along by the roadside a little house stood,  
With beautiful scenery that the whole world could see.  
Friendship and honor the people must have owed  
To this little house beside the road.

Oh! So happy were they who dwelt in there,  
And were never too busy to stop for prayer;  
They believed their God was the Giver of all,  
So they thanked him for things large and small.

They told of Christ where ever they would go;  
How He healed the sick and lifted the low.  
How He died on the cross that they might live  
If only their hearts to Him they would give.

When strangers passed by on their weary way,  
They would welcome them and urge them to stay;  
They would hear their stories how they had roamed,  
For unkindness and selfishness did not rule this home.

Dr. W. M. Houghton  
Arwine Drug Co.

Riches of silver and gold they did not crave,  
But a crown from Heaven to wear some day.  
They took what came and ask for no more  
But looked unto Heaven and thanked the Lord.

They always wore a happy smile on their face,  
No matter if they didn't win in the race.  
They would take new courage and try once more,  
For they wanted a home on that beautiful shore.

The children that played about were happy and gay  
And were obedient to their parents in every way;  
They will praise and honor wherever they roam  
This little house that was once their happy home.

Of all the houses we pass by and see,  
Little house do we find one compared to thee?  
Or have the youth built upon the sand,  
Which have no solid foundation to make it stand?

Jesus said that the storms would come one day;  
They would beat and blow and take it away.  
So we must build on faith, hope and love,  
And obey the commandments of our Father above.

## IT'S EASY TO SEE WHY

Phillips 66

# STARTS

cold motors faster

You Don't Have To Be a College Graduate to understand why Phillips 66 Poly Gas starts cold motors faster. It's as simple as ABC.

A. It is a scientific fact that quick starting in cold weather depends directly on the high test (volatility) of the gasoline.

B. It is a scientific fact (revealed by our latest available full-year study of gasolines; June 1, 1939 to May 31, 1940) that:

The HIGH TEST rating (Volatility Number) of Phillips 66 Poly Gas is nearly 50% higher than the average high test rating of 19 premium motor fuels.

C. See for yourself, if Phillips 66 isn't the greatest self-demonstrating cold-weather gasoline you have ever used. You ought to get at least one trial tankful at regular-price because you simply cannot get such high test in any other gasoline at any price.

This extra high test costs you not a single penny extra, since Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.

Drive in and get that trial tankful at the first Orange and Black 66 Shield.

### AS I SEE IT

(By Bill Hams)

#### City Politics Get Hot

With the city election only one month away the race for city secretary and city marshal is beginning to warm up with present incumbents drawing opponents.

A number of persons have approached "As I See It" on the subject of entering the race for one office or another, but because of modesty and other reasons this writer has declined with thanks.

However of late the pressure from various groups has been increasing and in order to get along with my public, "As I See It" will enter the race for "City Limits" and expect to be unopposed.

There are any number of prospective candidates to enter the race, but no doubt "As I See It" will win by a wide margin... if the support and influence of certain groups that have urged my running come through as expected.

#### District 1-AA Changes

Old District 1-AA, the bane of Texas Interscholastic league members, will have three new faces on the sidelines next fall when football gets under way.

Coaching changes have been made at Plainview, Borger, and Pampa. Vern Hilliard, "Catfish" Smith, and Odus Mitchell have all moved out... and it may be that this district will prove to be a "coaches graveyard."

Amarillo told their coach this year that it was a district title "or else." Lubbock will no doubt give their present coach the "or else" this coming fall... and Plainview is expecting Vannoy to pull a district title out of the bag in '41 since Hilliard got the Bulldogs a sniff of the pennant.

Pampa is looking forward to bigger things after several years of "so so" athletics. Borger isn't hiring a former college coach just because they need some one to direct the boys from 2:30 until 6 o'clock on week day afternoons... undoubtedly they also have offered a contract with an "or else" phraseology.

### Baker Singing Class To Meet Friday Night With BCA Club

Baker, March 3.—The B. C. A. club of the Baker community will meet Friday night. An important subject is to be discussed at this time. The Singing class will also meet in connection with the B. C. A. Everyone is urged to be present at these important meetings.

### Lakeview 4-H Club Boys

Lakeview 4-H club boys are planning to beautify the school grounds at Lakeview by setting out new trees.

Mr. Porter, their sponsor, and the boys went to Duck Creek near Spur Saturday and secured more than a hundred salt cedar trees to be used as a windbreak on the west side of the school ground.

The boys have received word from the county agent that they can get Chinese elms from the Lubbock experiment station. They will use these trees to complete the windbreak project and to replace locust trees in front of the building.

The boys are also getting their club animals in trim for the show to be given at Floydada on April 4.

## Betrothal Is Revealed At Tea Saturday

Mrs. Wilson Kimble entertained Saturday afternoon from 4 until 6:30 o'clock at her home, 323 West Missouri street, with a reception to announce the engagement and approaching marriage of her daughter, Miss Mary Anne, to Rev. W. Donald Harris of Jacksonville, son of Dr. and Mrs. J. Will Harris of Dilly.

Members of the house party were Miss Mary Earle Sansom of Plainview, Mrs. Guy Ginn of Hereford, Mrs. W. M. Cauley of Lubbock, Mrs. Hugh D. McCullough of Clarendon and Mrs. J. B. Claiborne of Floydada. Mrs. Kimble and Miss Kimble greeted the guests at the door.

The dining room table was covered with a lace cloth and decorated with a pink and white floral centerpiece and white tapers. White napkins lettered in gold, "Mary Anne and Don, March 22" were given to the 150 guests who called. Crystal service and other pink and white appointments were used to complete the theme.

Tiny pink and white mints in the shape of slippers, wedding rings, and hearts were served with punch and cakes topped with orange blossoms.

**Graduate of Texas Tech**  
Miss Kimble wore a Windsor blue crepe frock with white gardenias and Mrs. Kimble wore a black velvet frock with a corsage of white rosebuds.

The bride-elect is a graduate of Texas Technological college where she was a member of Las Chaparrillas club. She has taught in Littlefield for the past two and one-half years.

Reverend Harris is a graduate of Trinity university and Princeton university. He was pastor of the First Presbyterian church at Littlefield until he went to Jacksonville recently. He is pastor of the Presbyterian church there.

The wedding is to be at 9 o'clock the morning of March 22 at the First Methodist church. Misses Betty Alice Gordon and Nannie Margaret Overton both of Lubbock are to be Miss Kimble's attendants.

**Out-of-town guests included** Mrs. Elmer Sanson of Plainview, Miss Ekidythe Walker of Lubbock; Mrs. E. A. Bills, Miss Laura Virginia Bills, Miss Fenne Holland, Miss Myrtle Woodfin all of Littlefield; Mrs. J. Holt Waldrep of Lubbock; and Mrs. T. W. Whigham of Denton.

**Guests Register**  
Other guests who registered during the evening were Mrs. Tom Shaw, Mrs. C. Sarginer, Mrs. R. M. McCauley, Mrs. Will Walker, Mrs. Lula Slaughter, Mrs. O. B. Olson, Mrs. P. F. Bertrand, Mrs. D. D. ## Parents-Teachers Complete Required Study Group Work

The Parent-Teacher study group which has been directed by Mrs. B. K. Barker, completed the required twelve hours of class work at the meeting held Friday afternoon at Mrs. Barker's home. The group was composed of fourteen members, eleven of whom will receive Parent Education certificates at the district conference at Brownfield, April 26 and 27. Several of the members were not able to be present at all of the meetings.

Those who will receive certificates are Miss Sybil Poteet, Miss Margaret Stuart, Miss Ruby Norton, Miss Rita Rhodes, Mrs. Robert McGuire, Mrs. S. E. Duncan, Mrs. W. Stephens, Mrs. Alva Sparks, Mrs. Elvin B. Rainer, Mrs. B. K. Barker and Mrs. W. O. Tye.

"This World of Ours" was the subject of the course pursued which is designed to acquaint the students with the world in which they live and to assume with youth the full responsibilities of democratic citizenship.

The subject of the concluding program was "Beginning with Children" which is a pre-school study course for parents and teachers who believe the early years are very important ones in the child's life and hence must be wisely guided.

Those taking part on the program were Mrs. Elvin Rainer who discussed "When Do We Eat?" Mrs. Robert McGuire "Sparking Necessary", Miss Sybil Poteet "Whose Fault is It?" Miss Margaret Stuart, "What Shall We Buy for Christmas" and Mrs. B. F. McIntosh who discussed "What Shall We Wear?" Mrs. Barker served tea and cookies to the members and guests as they arrived. Guests for the afternoon other than the members were Mrs. R. A. Renfer, Mrs. Seaton Howard, Miss Sudie Miller, Mrs. G. L. Kirk and Mrs. B. F. McIntosh.

## Hoots Gives Information On Program

### Cotton Stamp Plan Is Explained In Detail To Producers

Pointing out the benefits to be derived by individual farmers from the new supplementary cotton program and the special home food conservation program to be administered by the Agricultural Adjustment Administration, Aleye A. Hoots, administrative officer of the AAA in Floyd county this week began a series of questions and answers articles on the program.

"Now that the war has closed many foreign markets, the need for holding down the already huge surplus of cotton continues to be acute," the AAA official said. "With this reduced outlet for cash crops, it is more necessary than ever that farm people produce more food and feed for home consumption."

The supplementary cotton program puts added emphasis on the efforts to reach the objectives of the national farm program through special payments. A total of \$25,000,000 worth of cotton stamps will be made available by the Surplus Marketing Administration for distribution by the AAA to cooperating farmers. In addition, \$3,000,000 in cash payments will be added to encourage additional food production and storage for home use.

This week's question and answer article seeks to show how to earn the cotton order stamps, which will be issued farmers for voluntarily reducing their cotton acreage. These stamps can be exchanged at local stores for cotton goods and clothing.

### How to Earn Cotton Stamps

1. Q. How will cotton farmers be compensated for making an additional voluntary acreage reduction in 1941?

A. They will receive cotton order stamps, which can be used to purchase cotton goods. These stamp payments are in addition to the regular payments provided for under the 1941 Agricultural Conservation program.

2. Q. Will underplanting of the 1941 cotton allotment affect the farm cotton allotment in future years?

A. No. Underplanting of the cotton acreage allotment on any farm in 1941 will not affect the cotton acreage allotment for that farm in 1942 or subsequent years, except in case no cotton is planted in 1941 on a farm on which no cotton was planted in 1939 or 1940.

3. Q. Does participating in the supplementary cotton program affect payments under other phases of the Triple-A program?

A. No. The supplementary cotton program provides for additional payments and does not affect payments under other phases of the Triple-A program.

4. Q. Who is eligible to participate in the supplementary cotton program?

A. Any farm owner, operator, tenant, or sharecropper entitled to share in the 1941 cotton crop on any farm for which a cotton allotment was established for 1941, provided cotton was grown on that farm in 1940.

5. Q. How may a farmer earn cotton stamps?

A. By planting in 1941 an acreage of cotton less than the 1941 farm cotton acreage allotment of 1940 measured acreage for the farm, whichever is smaller.

6. Q. Is there any exception to this provision?

A. Yes. If the county agricultural conservation committee finds that the acreage of cotton as measured in 1940 was reduced because of drought, flood, hail, insect pests, or any other natural cause beyond the control of the operator, the 1941 cotton allotment shall be used to determine the acreage voluntarily reduced under this program.

7. Q. Is it necessary for every farmer to give advance notice of his intention to participate in this program?

A. Only the operator of a farm on behalf of himself and all other interested in the cotton crop, must sign a prescribed form before June 15, 1941, showing the number of acres he intends to take out of cotton production as well as other pertinent information.

8. Q. What will be the results if the 1941 cotton acreage is reduced by more than the amount set forth in the intentions?

A. Stamp payments will be made only for the amount of reduction set forth in the statement of intentions.

9. Q. What will be the result if the 1941 cotton acreage is reduced by less than the amount set forth in the statement of intentions?

A. Stamp payments will be made only for the amount actually reduced.

10. Q. Will there be any penalty for failure to carry out expressed intentions of acreage reduction?

A. No. The supplementary cotton program is entirely voluntary.

11. Q. What is the basis of payment for voluntary reduction of cotton acreage?

A. A farm payment in cotton stamps will be computed at the rate of ten cents a pound times the normal cotton yield determined for the farm under the 1941 agricultural conservation program times the acreage reduced for stamp payment.

12. Q. How would the cotton stamp plan work in the case of a farm operator with no tenants who planted ten acres of cotton in 1940, has a 10-acre allotment in 1941, and has a normal yield, as determined

## Laleff Continues Sermon Series At Local Church

Former Athlete Michael Laleff of Los Angeles, California, continues his inspiring messages each night at the Assembly of God church.

Rev. Laleff was requested to make talks to the sixth grade class and the geography class at the grammar school. Each one apparently enjoyed his remarks immensely.

The subject of Friday night's sermon will be "What is Wrong with the World Today? Is There a Way Out?" Saturday night Rev. Laleff will bring another prophetic message.

Sunday night the subject will be "Bolshevism, the last 23 years in Russia: Fascism, Nazism vs. Christianity." This message will be illustrated by actual pictures smuggled out of Russia. The public is cordially invited to attend services every night this week.

H. C. Lonis, pastor.

### RETAIL SELLING SCHOOL CLOSED FOLLOWING TWO WEEKS OF STUDY

Enrollment at the retail sales school in Floydada reached a total of 73 last week, closing a two week session on Friday.

The school sponsored by the Extension Service of the University of Texas, was taught by Laura J. Wilson.

Attendance was good and interest among sales people was keen. The fundamentals of every-day selling were studied.

One of the highlights of the closing days of the school was a clinical study of the specialized sales methods of a leading automobile manufacturer, the Chevrolet company, shown courtesy of the Oden Chevrolet company by means of film and projector.

Study of the merchandise to be offered the public as well as study of the needs and desires of the customer were stressed in the school by Miss Wilson.

### SOUTH SIDE SINGING TO MEET SUNDAY AT SOUTH SIDE BAPTIST CHURCH

The South Side singing convention is scheduled to meet Sunday afternoon at the South Side Baptist church at 3 o'clock. All singers are urged to attend.

Visitors from Dickens and Motley counties are expected to be in attendance.

### JONES' HOME FROM CALIF.

Mr. and Mrs. W. B. Jones and sons Roe and R. T. of Dougherty in company with Mr. Jones' sister Mrs. Annie Hambricht of San Diego left Thursday for California. After a visit with his sister in San Diego they went to Los Angeles where they were guest of Mrs. Jones' son Holman Owen, formerly of Lockney but who is now with the Douglas Aircraft Company.

During Mrs. Jones stay in Los Angeles, Mr. Jones and sons spent some time in Tijuana, Mexico sight-seeing and attending the horse races. Because of flooded highways, the party was unable to reach Oakland where they planned to visit other relatives. They returned home the last of the week.

### AUDIT OF COLLECTOR'S BOOKS

Texas state comptroller's office was represented here by two men, Mr. Browning and Mr. Davis, for the annual check of the 1939 collection accounts of the Floyd County Tax assessors and collectors of office.

Under the 1941 agricultural conservation program of 250 pounds per acre?

A. This farmer, if he wished to participate in the supplementary program, could reduce his cotton plantings by one acre, leaving him a total of 9 acres. For the voluntarily reduced, he would receive cotton order stamps at the rate of 10 cents per pound for the 250-pounds normal yield, or \$25 worth.

13. Q. If this same farmer had planted only 8 acres to cotton in 1940, how much would he have to reduce his acreage to earn his maximum amount of stamps?

A. He would have to plant only 7 acres of cotton in 1941, in order to receive \$25 worth of stamps. (For the maximum stamp payment that can be received by a landlord or tenant, and for the division of stamp payments among landlords and tenants, see Questions 14 and 16.)

14. Q. What is the maximum amount of cotton stamps that may be earned?

A. Each producer may earn a maximum of \$25 worth of cotton stamps on one farm, except that producers interested in more than one farm or an operator of a farm with two or more tenants or sharecroppers may earn up to \$50 worth of stamps. No one may receive more than \$50 in cotton order stamps.

15. Q. What is the minimum stamp payment that will be made?

A. The minimum amount of stamps any eligible producer can receive is 50 cents worth; however no payment will be made to any producer on any farm for which the computed payment for the farm is less than \$5.

16. Q. How are cotton stamp payments to be divided among tenants and landlords?

A. The computed payment for the farm will be divided in the same manner as the payment with respect to the cotton allotment is divided.

17. Q. When will cotton farmers who take part in this program get their cotton stamps?

A. As soon as possible after cotton on the farm has been measured and performance certified by the AAA county committee.

## Formby Chairman Rural Aid Sub-Committee

Austin, Texas, Feb. 28.—A young West Texan who used to walk nearly three miles to a three-teacher country school has been named chairman of the highly important committee in the Texas Senate to handle the \$16,000,000 Rural Aid bill for 1942 and 1943. Senator Marshall Formby of McAdoo, of this senatorial district, is chairman of the five-member sub-committee which will handle the bill in the Senate to dish out about \$8,000,000 per year for the next two-year period.

It is reported that all appropriation bills will be passed out of the Senate almost two months earlier than usual this year. The appropriations for the Judiciary already are ready for passage in the Senate.

Dr. Johnnie Christian of Denton and Mrs. A. B. Robertson and Frank Robertson of Amarillo spent the week-end with their mother Mrs. J. D. Christian.

F. C. Harmon left this morning on a business trip to Austin. He is expected home Friday night.

## Youth Revival Opens At Baptist Church

The youth revival at the First Baptist church opened last night when Rev. Guy Newman preached the first in a series of sermons twice daily through March 16.

"Regardless of the weather, come ahead," urged Rev. Vernon Shaw, pastor of the church yesterday, who said that one of the most interesting features of the meeting will be the evening young people's conference at 7 o'clock. This will be led by Rev. Newman.

Friday night's subject of the evangelist will be "Fourth Down and a yard to go." Another special service which should draw heavy attendance is Father and Son night on Monday night.

Wednesday night of next week will be Junior night and Friday night of next week will be Intermediate night, the meeting closing on the following Sunday night with Family night.

Services are being held twice daily at 10 o'clock a. m. and 8 o'clock p. m. Assisting in the meeting is George Stokes, of Plainview, singer. The meeting follows a religious census completed by the church recently by which a comprehensive study of the religious tendencies of the community is presented, and the information contained made available to all other churches of the city.

### The Methodist Church

(R. T. Breedlove, pastor) Twenty-three young people from the local Methodist church were present Monday night at Union Young People's league gathering at Silvertown, Floydada won the attendance banner having the largest number present.

Meetings are held each Monday night and the union will meet with the Floydada Methodist church for the next meeting.

Lorin Leibfried, counselor, Mrs. Richard Stovall, one of the teachers in the youth's division, and the pastor, accompanied the group of delegates from the senior and intermediate departments.

### Sunday Services

All usual services of the church will be held Sunday. Evening service will begin at 7:15 instead of the usual hour. Subject for the morning sermon by the pastor will be "Highways Back To Canaan." You are cordially invited to be present with your friends. Sunday school is also worthwhile and you have a special invitation to be with us at that time 9:45 a. m.

### SON BORN THURSDAY TO MR. AND MRS. LEWIS HOLLINGSWORTH

Mr. and Mrs. Lewis Hollingsworth of Lubbock are the parents of a son born February 27 at a Lubbock hospital. He has been named James Lewis, Jr. Mother and young son were carried home Saturday.

The little boy is the grandson of Mr. and Mrs. A. S. Hollingsworth, city, and Mrs. Bobbie Shepherd of Shawnee, Oklahoma.

### CARD OF THANKS

To the friends and neighbors of W. T. Clay, we wish to use this means to thank you for your help and consolation during the time of our sorrow at his going.

Mrs. W. T. Clay and family, Brothers C. C. and E. V. Clay.

### MCCOY CHURCH WOMEN ARE HOSTS TO CONE, FLOYDADA SOCIETIES

In observance of "A Week of Prayer" the Woman's Missionary society of the First Baptist church met Monday and Tuesday afternoons at the church and Wednesday attended an all-day meeting at McCoy. Members from the missionary society of Cone were also guests at McCoy. Dinner was served at noon by the McCoy women.

Following the devotional given by Mrs. Shaw, the regular routine of business was disposed of at the meeting Monday. The society voted to entertain the evangelist and singer this year during the revival in the homes of the members.

The society will meet in circles Monday afternoon at 3 o'clock at the church for the mission study.

### BONNIE RAY GIRLS ARE MAKING MAPS OF WORLD

Maps of the world which will be done in cross stitch work were begun by the Bonnie Ray Girls' auxiliary at the meeting Monday afternoon at the First Baptist church. Mrs. Jno. Hoffman and Mrs. R. C. Henry, sponsors, directed the work.

Those attending the meeting were Doniece Cline, Frances Ruth Garrett, Mary Frances Jones, Joy Cardwell, Eugenia Martin, Margaret Connor and Mrs. Hoffman and Mrs. Henry.

A meeting will be held Monday afternoon at 4:15 o'clock at the church for a continuation of the work on the maps.

### CORRECTION

In the February 27 issue of the Floyd County Hesperian, a notice was carried that any farmer whose seeded acres of wheat was over his allotment by more than 3 acres or 3 per cent, whichever is greater, might dispose of same within 15 days after notice was mailed. This article should have been carried as follows:

"Any farmer whose seeded acres of wheat is not over his allotment by more than 3 acres or 3 per cent, whichever is greater, may dispose of same within 15 days after notice is mailed to operator." May we again state that no producer may dispose of excess wheat if the seeded acres is over his allotment by more than 3 acres or 3 per cent.

Aleye A. Hoots, Secretary, Floyd County ACA.

### Calcium Deposit, Old Watches, Other Things

**Interesting Heirlooms In Floydada**

Interest in calcium as a food element lacking in rank wheat has brought to light a deposit of this mineral in a spot close to Floydada this week—a deposit big enough to give all the cattle on the plains all the calcium they need for many years.

It is on the farm of Duncan and Douglas Hollums five miles north of Floydada. There may be several other such deposits in the county. This particular one, however, can be seen. It was unearthed when the road builders recently stripped the earth from above it in a search for caliche. The deposit is known to be calcium from tests made of it. Whether it is in pure enough form to be handled commercially for distribution among cattlemen is to be found out, the Hollums boys hope, when they get a report on it from A. & M. College of Texas.

**Watches Many Years Old**

The recent prizes offering of a Lubbock jeweler, seeking to locate the oldest watches in this part of the west, recently brought to light two watches in Floydada that ought to have long chin whiskers. One of these is the property of Fred N. Clark. He inherited the heirloom from an uncle who died a few years ago. The watch has been in the family connection for 118 years. It was made in Geneva, Switzerland and is set with a key and also wound with a key. With black Roman numerals, it has a conventional design carved on the face.

However, the watch that takes the cake is one belonging to Mrs. L. H. Newell. This has an established age of 145 years—made in Liverpool, England. It was owned by one of Mrs. Newell's grandfathers and has been in the family ever since. A notation on the watch in-

dicates that it was cleaned and repaired in 1815, seventeen years after it was made. Mrs. Newell's watch was awarded second place in the prize offering, the first prize watch being one with an established age of 250 years.

**Early Spring Flowers**

Flowers are beginning to bloom on the courthouse yard lending a new beauty and dignity to the courthouse. The yellow jasmine is in full bloom having started opening four weeks ago. The brilliant red berries of the mandarin plants have added a color to the drab dull days of winter.

Red cedar, cypress, japonica, spirea and the showy butterfly bush are among the shrubs that beautify the yards. Soon the courthouse yard will be the pride of every citizen in the county.

An investment of approximately \$300 last year by the commissioner's office is proving a good one. The terracing and new dirt added to the lawn made a thick mat of grass that will soon be a beauty spot in the heart of the city.

The landscaping was planned with a scheme having blooming plants near the windows of the building, the hedge along the walks to protect the flower beds and for a border.

### Matador Woman Tells Lions Of Lionism

Miss Billie Lawrence of Matador made the featured address at the Tuesday noon-day luncheon of the Lions club in Floydada. She was presented by Henry Pipkin of the Matador club, who is district deputy governor for the zone.

### Baptist Association To Sponsor Revival Meetings Here

In co-operation with a statewide evangelistic campaign which is being promoted by Texas Baptists, pastors of the Floyd County Missionary Baptist association have set up an organization through which they plan to sponsor from one to two revival meetings in each church and school house community in the association.

Rev. Aaron Shaw, pastor of First Baptist church, Lockney, has been selected as organizer for the campaign and Rev. W. R. Derr, pastor Ralls First Baptist church has been chosen as the director of publicity.

The association is composed of Briscoe, Crosby, Floyd and Motley counties. It includes 32 churches with a combined membership of more than 5,000.

Any pastorless church or school house community desiring assistance in securing someone to do the preaching in a revival meeting either this spring or summer, should communicate with Rev. Shaw or Rev. Derr.

### C. T. Scott Will Operate Penny Gum Machines At Corpus Christi

Mr. and Mrs. C. T. Scott left last Thursday for Corpus Christi where Mr. Scott will operate 500 penny gum machines which will be distributed in Corpus Christi and South Texas, comprising a territory of 19 counties. The Corpus Christi Crippled Children's hospital will receive 20 per cent of the gross proceeds from the machines.

Mr. Scott has been manager of the Scott Gum company for the past 11 years. His plans in regard to the gin were indefinite when he left. He said "It is quite a while until ginning season and I might want to come back to Floydada by that time. I am not burning any bridges."

However, he and Mrs. Scott were very enthusiastic about their new proposition when they left Floydada with their new trailer house with all modern equipment. "This is what we are going to live in," said Mr. Scott, "to save that \$75.00 a month rent in Corpus Christi."

### MRS. JOHN LLOYD GIVES INSTRUCTIONS FOR MAKING TRAYS

"You may add this unusual tray to your collection of lovely things for a little work and expense," Mrs. John Lloyd told members of the Homebuilders club when they met in her home Friday for a demonstration on tray making.

Trays for serving are popular and indispensable to the modern housewife and below is the necessary materials for making them:

Obtain a piece of ply-wood  $\frac{3}{4}$  inch thick and 21 inches in diameter. Cut circular holes  $\frac{3}{4}$  inch in the board seven-eighths inch from the edge and one and seven-eighths apart around the board. Lace a five eighths inch rope around the board with a strong cord, looping the rope on opposite sides for handles. Lace colored raffia over the rope to cover the cord.

Any appropriate design may be painted in the tray, using colors that will blend with the raffia. The tray should be shellaced to keep the rope from fraying and to make the tray easier to clean, Mrs. Lloyd said.

During the recreation period, Mrs. D. D. Shipley gave a story of the life of George Washington. Mrs. J. D. Eaves directed a quiz game.

Those present for the demonstration were Mrs. Vert Readhimer of Dallas, guest of the club, Mrs. G. W. Smith, Mrs. A. W. Dunn, Mrs. Raymond Teplee, Mrs. W. A. Cates, Mrs. Shipley, Mrs. Eaves, Mrs. T. J. Heard, Mrs. C. B. Smart, Mable Sims, Mrs. P. W. Atterberry, Mrs. Edd Moore, Mrs. John Huey, Mrs. P. F. Fuqua, Mrs. W. F. Weatherbee, Mrs. C. W. Denison;

Mrs. L. A. Williams, Mrs. P. F. Bertrand and Mrs. Lloyd. The next meeting of the club will be with Mrs. Edd Moore, March 14.

W. D. Johnson of Albuquerque, New Mexico, was in Floydada on a brief business visit Tuesday.

## FRESHMAN EDITION

### FOUR STAR FINAL

#### Fish History Is Related From "Way Back"

In checking up on the freshman class, we found many interesting facts of when they started to school in 1933.

Some of them started together in the kindergarten. The following were taught by Mr. Fagan and Mrs. Whigham: Jimmy Laminack, Tom Roy Snodgrass, D. I. Bolding, Eugene Wilkinson and Peggy Jo Bishop.

We found the following members started together in the first grade: Dave Willis, Ethleen Bishop, Kathleen Cardinal, Dean Beck, Lila Mae Jenkins, Ada Belle Snodgrass, Ervin Paul Looney, Melyvin Hollums, Dale King, Juanelle Amburn, Arla Vee Bishop, Loreta Turner and Claudine Redd. Their teachers were Mrs. Johnston and Miss Gibbs.

The following people joined us in the second grade: Irene Wisdom, Willie Marie Jones and Charlene Battey. Miss Vera Meredith was our teacher.

Third grade: Elton Reasoner. We were taught by Miss Smalley and Miss Rutledge.

Fourth grade: Bettye Eakin, and Ora Marie Williams. We were taught by Miss Stovall and Miss Salisbury.

Fifth grade: Marian Parish, Harold Norrell and Melba Ruth Cooper. We were taught by Miss Stuart.

Sixth grade: Bessie Dee Hendricks. We were taught by Misses Hadsell and Weatherford.

Seventh grade: Hazel Brooks and Wynona Johnson. We were taught by Mr. Thomas and Miss Ball.

Eighth grade: Eva Lee Oden, Ruth Webb, Allene Tinney, Laverna Bingham, Avelina Moss, J. B. Jameson, Bobby Barber, Kent Kiker, Junior Cummings, W. H. Eubanks, George Allen and Billy Ruth Wisdom. Our sponsors this year are Miss Hall and Miss Miller.

Out of the 30 boys and 28 girls in the freshman class now, 13 of them started together in the first grade. We have had lots of good times together. We are proud of our class this year.

#### Future Farmers Present Assembly Program

An assembly program, by the Floydada Junior Chapter of Future Farmers, was presented in the Floydada High school auditorium Wednesday morning, March 5.

The opening ceremony, as used in the regular meeting was used by the junior chapter to open the program. David Battey played a "French Harp" solo. A piano solo was played by Kent Kiker. Then Floyd Bradford played the guitar and sang a number. A piano solo, by Clyde Green, French harp solo by W. H. Eubanks. Last number was the F. A. string band, consisting of George Tubbs and Bill Owens.

The program was closed with the regular closing ceremony used by the chapter at meetings.

#### Class Will

We the freshmen of 1940, being of well bodies and sound mind (we hope) do hereby bequeath to the Freshmen class of 1941, the following:

Tom Roy Snodgrass wills his definition seat to Fred Martin. Jack Martin wills his ability to play a flute to Johnnie Collins. D. I. Bolding wills his demerits to Maurine Medlen.

Bettye Eakin wills her dates to Mary Lee Thacker. Melvin Hollums wills his speed to Gene Arwine. Bobby Barber wills his good grades to David Joe Lambert. Elmer Brown wills his brains to Ernestine Fowler.

#### FRESHMEN GOSSIP

Since we have a class history, class poem, class will and so on, I think we ought to have some gossip on the freshmen.

Kent Kiker seemed embarrassed Wednesday at noon. I heard he sat down right beside Frances Keim, mistaking her for someone else, or was he?

In English class, it seems that Paul Woody and Lila Jenkins are getting interested in each other. Charlene Battey is broken hearted since Ervin Paul Looney has moved across the room from her. Yes, there's a cute couple.

What's that I hear about Claudine Redd? She and a boy by the name of Wayne Roberson surely had a nice time Monday.

Another thing! Why did Peggy Jo Bishop turn so red when Buddy Norman stepped inside the room? J. B. Jameson and Juanelle Amburn seem to be doing O. K. Say folks! You may be hearing of wedding bells pretty soon. It came to me that Elton Reasoner proposed

#### Homemakers At Plainview On Saturday

The Homemaking department of Floydada was well represented at the district meeting in Plainview Saturday. Fifty girls and the two sponsors attended the meeting.

The group left about 8:30 a. m. on a school bus. All the shine on the carefully polished shoes, the pressed pleats, and the combed curls were sadly disheveled by the time the girls reached their destination.

After registering, we all were seated by sections in the auditorium. An interesting program was given before noon. At noon, we again got on the bus and went to the park for the picnic which also proved enjoyable. A few of the amateur photographers who had their cameras along were busy getting snap-shots for the club scrapbook.

In the afternoon, all representatives again assembled in the auditorium for an amateur program which proved interesting. We must boast of our numbers and the way they "went over". Maybe you think Martha and Frances didn't get their share of the cheers for they did and rightfully so. Martha sang "You Walk By" and "Down By The Ohio". Frances tap danced two numbers.

After the program, we went to a tea given by the Plainview Homemaking department and looked through the Dept. We received many helpful ideas we may be able to use in our own Dept.

After stopping for cold drinks and ice cream, we started on our journey home again. We sang all the way home—arrived here at 6 p. m. happy and enthusiastic, but tired.

The trips are invaluable as they give us an idea of what other departments are doing; we meet and associate with other girls and enjoy it all very much. It inspires us to work harder and try to do our work better.

to Kathleen Cardinal Tuesday in English class. Why in English? Was he afraid he would forget his speech?

Ethleen Bishop is still making eyes at Elmer Brown. And so is Mable Cooper at Jr. Cummings.

#### Class Officers

**Allene Tinney**  
Allene Tinney is secretary-treasurer of the freshmen class. She is talented and her hobby is singing. She was born in 1923. She has black hair and brown eyes—a fair complexion. She lives in the community of Dougherty. She is a member of the Floydada High Pep club.

**Hazel Brooks**  
Hazel is vice president of the freshmen class. She started to school at Andrews Ward in the seventh grade, from Sand Hill. She has brown eyes and is a dark brunette. She is 16 years of age and is liked by all the students of F. H. S. Her hobby is baseball. Her favorite boy friend is James Burke.

**D. I. Bolding**  
D. I. president of the Freshman class, is 14 years old and was born and reared in Floydada. He has dark hair and blue eyes. His hobby is work. He was president of the seventh grade last year. He has no favorite girl friend.

**THE FRESHMEN SITUATION**  
It seems if the freshmen have been watching the weather pretty closely lately; just as though they were afraid of something. It must be the snow.

We are getting a nice initiation. We are being made to sit with the girls who are in the auditorium during the noon hour. It is the best we have had. The upper classmen think that we don't like it, but that is all they know about it.

It is an old trick to us. Sometimes the upperclassmen are pretty tough on us but most of them are really swell guys (when they are asleep). We wouldn't mind if football players made us wear their jackets because they act as magnets to all of the pretty girls in high school.

It is a lot more fun to be a freshman than some think, but still more fun to be a senior. They get to play football, basketball, etc. We have the strongest freshmen this year because some can eat the freshmen girls cooking in the food lab.

From our own experience, we would like to tell the future freshmen that it isn't so bad after you past the first year in high school.

#### The Old Seer's Class Prophecy On Record

After 20 years in Floydada, I decided to go to New York. While there, as I was walking down the street I met a few old friends of mine. I saw Bettye Eakin, now Mrs. Harold Norrell, working in a dry goods store as cashier. Her husband was the manager of the store. Some other men that worked in the store were: Paul Woody, head of the baby department; J. B. Jameson, working at the music stand.

I got out safe and sound and needed a little refreshment. I went into "Martin's Drug Store." His wife, Irene Wisdom, took charge of the drug store more than Jack. He devoted most of his time to the flute.

Juanelle Amburn was a soda jerk in the drug store. Hazel Brooks, now Mrs. D. I. Bolding is selling rabbits to a meat market for a living.

Ada Belle Snodgrass, an old maid, is keeping boarders in Muncy for a living. Arla Vee Bishop has become a great tap dancer in Petersburg. Charlene Battey is now traveling with the carnival.

Grace Beedy is a comedian on the radio. Claudine Redd and her husband, Leon Hulsey live in Arkansas. He herds turkeys while she keeps boarders.

Allene Tinney now Mrs. Ervin Paul Looney, is looking after seven children while Ervin Paul shines shoes for a living.

Elmer Brown has got a pretty good job. He became a doctor. By the way, his wife, Ruth Webb works in a beauty shop.

Dean Beck was wealthy when he married, but his wife, Kathleen Cardinal spent it all going to the picture show.

I decided I would go the Metropolitan Opera and there heard Peggy Jo Bishop now Mrs. O. W. Harris, sing.

The last hint is that you had better watch out for Hazel Brooks. She and D. I. have been doing O. K.

#### LAND

We have land to Sell and to Lease for Farming, Stock-Farming and Grazing purposes, and about 80 acres up, in Floyd, Briscoe, Hall, Motley and other counties. Also large list of Lots in Floydada.

Cotton—

(Continued from page one)

The hope in mind that the cotton producers of this area will realize the importance of this program and that the program will receive proper cooperation to the extent that the proposed volume will be received.

All of this will be done months in advance of the cotton planting season so that producers will be able to contact their local gin organization and familiarize themselves with the approved variety and take steps accordingly so that the entire area will be planted to a one variety cotton.

Gin groups that have taken steps in organizing for 1941 are Patterson gin, Lockney, F. L. Brown, president; Buck Sams, vice-president; Joe Jennings, secretary-treasurer. Aiken Gin group, Aiken, Herman Stowe, president; Jimmie Jennings, vice-president; Jones Goode, secretary-treasurer.

McCoy Gin group, Floydada, Texas, W. F. Ferguson, president; Leonard Smith, vice-president; Leonard Smith, secretary-treasurer; J. J. Smith, secretary-treasurer.

Floydada Co-op. Gin, Floydada, elected a committee of six men as their executive committee as follows: L. A. Williams, chairman; A. H. Matthews, A. A. Tubbs, Leo Frizzell, Floyd Puqua, and Tate Jones.

Oil Test—

(Continued from page 1)

test. Humble acquired the lease on the Byrd half section last June. Standolin had leased heavily west of the Hale county line and Standard of Texas was the predominant lease holder east of that line in Floyd county.

It is understood that around 18,000 acres, equally held by the three companies, is involved in this drilling block. It is a matter of fact that on February 12 there was recorded in Hale county a transfer from Standolin to Humble of an undivided half interest in 9,372.7 acres of leases in Hale and Floyd counties, the instrument bearing date of November 22, 1940.

Prices obtained for leases within the block to be drilled reputedly ranged from \$1 per acre to \$15 per acre, most of the leases being for ten-year periods. A few tracts, however, are under five-year lease. Almost solidly blocked is an area of approximately 130 sections in Hale and Floyd, under this activity. Roughly this block is described as extending six or six and one-half miles north from the south Hale county line and from a line two miles west of the Plainview-Petersburg road to McCoy, six and one-half miles eastward in Floyd county.

The location of the new test is about fourteen miles west of the Mills Bennett No. 1 T. Montgomery, Floyd county, which was completed about two years ago as a dry hole in granite at 5,954 feet. The way was paved for agreement on drilling the Byrd tract when seven additional tracts were leased about three weeks ago.

Amerada Has Block The Amerada has a block in the Bellview community, seven miles southeast of Plainview and a ten-

tative location has been made about the center of its 11,900-acre block. Sinclair has about 4,000 acres leased, fringing the Amerada block.

For some time local people in the know have observed that Amerada's activities had all the earmarks of an imminent test, but today the consensus of these is that Amerada may await the outcome of the Humble-Standolin-Standard test near Petersburg.

At any rate, a deep oil test, a thing long desired by citizens of the area now is assured, and definitely so, on current advices.
