thousands-are ripening on plains lakes, who are in the program realize the inequity where they have been hatching since the of the situation as between themselves and become huge things and apparently there are two or three species. Many ducks are just now past the flopping stage, and there are some few little fellows still to learn to fly. They'll eat up a lot of feed before the feed is all gathered, and this is no fairy story. Perhaps some few fellows may slap some ducks down that snap at them while gathering feed. Such a duck under those circumstances should not be wasted even though taken in self-defense.

A woman whose husband this fall brings in some ducks should be on the alert to clean the ducks and cook them just right for his dinner the next day, just as though she liked to clean and cook ducks. A good duck shooter always will be found to be a good provider. Duck contains many vitamins that contribute to vim, vigor and vitality. And a woman who sees that her husband is wellfed on these wild fowl will be much happier better provided for, than one who is careless in such matters. Wild fowl meat sticks to a man's ribs. It makes him stand the cold winters, the blasts of Old Boreas. He gets out and works longer and harder. He brings in more shoes for the chillern, bigger and better sacks of groceries, better and more stylish coats for the little woman. Cooks your husband's ducks, cook 'em good, and make never a complaint.

One good woman who has never yet let her husband know that she despises to cook ducks, has a man who provides better than the average and always has. She has a recipe she often uses to bake ducks that makes them taste so good he can't help bragging on her a little. She takes the duck, cleans him good of course, then rubs in well a mixture of three teaspoons of sugar and a half teaspoon of ginger. She bakes as usual but without any water, careful not to let duck brown too much on either side. And does he like it!

Cotton stamps became a reality to several Floyd county families the latter part of last week and the first of this. Intended as a reward for voluntarily reduced acres in fleecy staple the stamps will be put to use in the sum of \$30,000, perhaps more, in the county, before the final count is made. Sears & Roebuck and Montgomery Ward have gotten a lot of mail since the stamps hit in neighboring counties, we hear. These two firms are good advertisers. It is said they have well-read advertising catalogues in practicalmany of the outhouses. Very thorough believers in advertising, we would say.

ro wit der to get enough cash money to keep on or moved high off the ground, it appears.

THE BEGORD Facts That Concern You

Ducks by the millions-maybe its just | keeping on. Many of the larger landholders early summer. Some of them have already the man who is operating on small scale. They think something ought to be done about it.

> Railroad men who voted last week to go on strike are confident they will not actually quit work. A law that calls for a "cooling off" period between the time a strike vote is taken and the actual walkout is expected to make for several months of delay. The railway men, of course, are not expecting to have the support and sympathy of farmer people and the people who serve them. Farmers believe the railroad men, while perhaps having worthy enough intentions, have a living standard above that of the farmers they will serve. Of late it has become evident that the shippers must pay not only the higher freight rates that more money for the railway men will call for but also more taxes, to make it possible for the railways to pay the higher wage scales. Railway workers should at least have waited until a few more of the railroads could get out of the hands of the receiver (and off of the Reconstruction Finance corporation's hands) before asking for more money. However, the same men who demanded so much in the twenties that they put the public to thinking up ways to keep from patronizing the railroads and thus put many thousands of railroaders out of jobs, could hardly be expected to have learned anything from their previous unhappy experience.

If you were on the WPA rolls in Texas this month you would have available for your menu: "Surplus foods for the period (September 1 through September 30) Fresh pears, plums, prunes, apples, oranges, and peaches, fresh vegetables (including potatoes) corn meal, shell eggs, raisins, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat, flour, self-rising flour, enriched self-rising flour and whole wheat (Graham) flour." These items are distributed in Floyd county through what is known as the Surplus Commodity office. In most other counties of Texas, all of New Mexico and Arizona, the commodities are purchased with Food stamps through local stores. The commodity office here has been doing one of the biggest foods businesses in the county. A man named Allen who offices in Dallas says whether a county shall or shall not have the foods distributed through the stores. So far he has said nothing except no to officials and foods dealers of this county.

St. Augustine grass is a mighty popular ly every home in the country and even in one for lawns down-state. Building permits totaling \$45,925 were issued from office of City Clerk Burl Bedford during the month of August, the list including five residences one gin and a few smaller improvement

Marking the opening of the 1927 football season at an unusually early date, Green and White will meet Green and White when the pigskin of Floydada and Plainview High schools will meet on the gridiron here Friday afternoon, the second day of the Floyd County Fair. Rivals of long standing, the two teams will meet here with practically raw material to play their first games

Coach Ike Jay of the Floydada High Whirlwinds is attending a conference Thursday at Lubbock. The members of the school teams are working out a schedule for football in this district

Advertisement seen in the files: Mrs. Edd Johnson's primary and kindergarten class will open September 5 at 9:30 o'clock. Tuition \$3.50 a month.

Record totals of enrollment were made this week in the Floydada public schools with 858 students listted during the first week of the new term. An increase of 160 is shown over the number of pupils enrolled at this tme last year.

Taken from the files 14 years ago (issue of September 11, 1913): Public schools opened Monday morning with a total of 244 students in all. This is an increase over last year of 24, which is the greatest increase known in the Floydada schools. The graduating class consists of four students.

Mr. and Mrs. Harper Scoggins and their three little sons Harper, Paul and Merle returned from Canyon last week where they have ben attending school.

Mr. and Mrs. Sam Thurmon and daughters Katie Lee, Mary Louise and Dorothy returned home last mid-week from a four weeks visit in Louisiana and Texas.

Mr. and Mrs. B. P. Woody and little son B. P., jr., left Monday for Temple where they will attend the Medical clinic.

Herbert Sims returned saturday from Denver, Colorado where he has been attending school this summer. The 1922 Study Club had the first meeting of the new year, Thursday, September 1, with Mrs. W. C. Grigsby, J. C. Wester and C. M. Wilson, members of the Year-Book committee, joint hostesses for

the beautiful appointed luncheon. The distribution system of the West Texas Gas company, begun 45 days ago in Floydada, was complet-ed Tuesday and given it's final test for leaks Tuesday night by the

COMES TO-Miladies Hats to top every costume smartly, Felts! Suedes! All colors and all head sizes. 1.98 to 6.95 Fall 1.95 to 5.75 Smart, new bags to accent every costume! Envelopes, tophandles, pouches in suedes, leathers, Black, \$1.00

Will the tires you buy be safe when you travel 50 or more?

PHONE 36

FYOU DROVE OVER 350 M.P.H. -like the speed marvels who go fter records on the Bonneville Sait Flats, Utah, your tires would cost around \$200 each and would have to be changed every 12 miles!

A. J. CLINE, Agent

DID YOU KNOW that when your car travels 50 miles per hour a total centrifugal force of more than 2 tons tries to pull the tires apart; that the heat generated inside your tires may go higher than melting asphalt; that for protection against this terrific beating, you need the extra strength and better construction of quality tires?

Your tires may be safe enough at 35 or 40 miles per hour, but how safe are they at 50, 60, 70, 80? Such speeds are often necessary, but they put a terrific strain on tires ... build up the internal heat and pressure that may cause dangerous blowouts in tires built to sell at a low price. When you go 50 or more you can't depend on carelessly chosen tires to protect your family, yourself and your car ... only top-quality tires are vour keys to safety!

GET 3-WAY EXTRA PROTECTION

1. EXTRA BLOWOUT PROTECTION! High-strength cords "safety bonded" in pure later for extra resistance to heat and failures. 2. EXTRA SKID PROTECTION! Trend block units bite through film and GRIP the road the instant brakes are applied.

3. EXTRA-LONG MILEAGE! Thick Tempered Rubber tread is now improved to give it greater resistance to heat and even more mileage.

Down the halls, through the class on the play grounds, everywhere through the body of students who from the institution of Floydada High school, runs the indignant laint, "That teacher simply is I do more reciting than most of the others and she gives me the lowest grades."

In regard to these indignant students, there is usually one or two plausible explanations for their 'sad

mistreatment.' Either nobody recognizes their genius but themselves,

out just what is expected of them and what standards the class should

Perhaps, if the student put forth a little effort, he could establish a relationship between himself and his teacher simply by being more interested in the plans of the teacher and by being more enthusiastic in carrying out these plans.

In order to be on a higher basis with both pupils and teacher, a student should be enthusiastic and do his best in everything that he apaches. Let him prove his worth! His teacher will not know his true unless he proves his value.

On The Inside Looking Out

I'll tell you something that has always puzzled me-it is the people who get so furious when a waiter in a restaurant brings them coffee that isn't boiling and who then sit patiently while it cools.

It is peculiar thing, but the fact remains that although the American eople visit the dentists' office more than any other race there are also more sets of false teeth in use in the United States than in any other country.

Some people accuse the younger generation of being impossible but they most likely mean they are improbable

If the students only knew as much about their studies as they do about each other's business they would practically be walking encyclopedias. Give it a thought:

The wisest person is the one who is dumb and knows it and the dumbest person is the one who is smart and knows it. more

FAMILIAR FACES SEEN IN THE CORRIDORS

beginning of school always brings back ex-students who wish once more to walk down the halls of F. H. S.

Among those who came back this year are Mozelle Edwards, Helen Ring, Helen Powell, Billy Brown, here and it will start at 8:15. ALL-STUDENT BODY PEP SQUAD FOR 1941 Instead of the regular pep squad this year we plan to have a student this year we plan to have a student this year we plan to have a student

nissication in the server of t girls who sign up to games other than those played in Floydada. The night before each football By Miss Rea

The night before each football game there will be a shirt tail parade. In this al students will march behind the band. The sponsors of the pep squad are

Miss Copeland and Miss Smith and leaders are Dorothy Ann Dooley, Josephine Britton, Topsy Dudley, Wayland Hale and Weldon Dubois. The leaders suits will be all white. Coaches, teachers and students expressed the following hopes for this new organization:

Coach Murray thinks it would create more spirit for the football team and that we surely need it. Mr. Travis thought it a great opportunity to increase school spirit, and what ever the students thinks he is for them.

Mr. Linder is very much in favor of it and thinks it a grand idea. Co-sponsors Smith and Copeland said it was a good idea, and would encourage more students to come to fines this year will be five cents a football games if they feel they have a part in them. Dorothy Ann Dooley says Student

ship The wardrobe has been moved from the teacher's room to the clothing room, giving advantage to both rooms

It is the aim of the girls to make the teacher's room comfortable and attractive

The freshman class was organized Friday afternoon at 3:15. The officers elected are Billie Wester, president, Preston Malphurs, viceresident, and Betty Yearwood, secetary and treasurer. The freshman class will be in-

troduced to the school in assembly program Wednesday morning.

When a Child Needs

a Laxative! SYRUP OF BLACK-DRAUGHT

is a tasty liquid that most children will welcome whenever they need a laxative. What's more important, it has the same main ingredient as BLACK-DRAUGHT, its older companion. Perhaps that's why it usually gives a child such refreshing relief from the familiar symptoms which show a laxative is needed. Comes in two sizes: 25c-50c.

Band News

The band is getting into full swing under the direction of our new band-master, Mr. Raillard.

He has arranged sectional practice so that the different instruments may get the practice they need. New music has been ordered and Mr. Raillard intends to have the band in good shape by the first football game, both in marching and play-

There are quite a few new members who make up for the ones we lost this year, but most of them are beginners. The whole band wants to make this an outstanding year.
