## Whiteley Switch Oil Test Is Spudded in Tuesday Morning

The Whiteley switch oil test, nine miles south of Silverton on the north side of Briscoe county, was spudded in by the Phillips crew Tuesday morning at 9:30 o'clock. The test officially known as Monette No. 1 Phillips.

Destined to explore underground for 6,500 feet the test was going down with considerable speed, yesterday with the crew. There are 15 men in the crew.

Few formalities marked the spudding in, and less than a dozen witnesses were present other than the company drilling crew.

Miss Joni Douglas, 7, daughter of Mr. and Mrs. W. W. Douglas, who live about one mile west of the drilling site on the Whiteley estate lands, pulled the clutch that started the rotary bit. As the drill stem started revolving and the bit took the earth witnesses included Mr. and Mrs. W. W. Douglas, Mrs. Irene Ayres of Lamesa, J. L. Francis of Silverton, J. M. Massey of Floydada, and Lee Deavenport of South Plains, together with Big Superintendent Clay Tyler and the drilling crew. Tyler's headquarters are at Oklahoma City, his residence in Louisiana.

The well is located on a structure explored by geophysics crews more than a year ago, which was followed by a leasing campaign in which several thousand acres of land were tied up adjacent to the well.

The well is of importance to a large area of Briscoe and Floyd counties in which no oil tests have ever been made previously. The test is almost exactly nine miles south of Silverton on the Silverton-Floydada highway. Floyd county people who want to see the drilling operations should take Highway 207 north. The site is a few hundred yards west of the highway about a mile and a half north of the county line.

## Company Of CCC Youth Reaches Floydada; New Commander Takes Over Conservation Unit

One hundred and thirty young men comprising the Citizens Conservation Corps company to be stationed here occupied the quarters afforded them in northwest Floydada Monday.

U. G. Knight, company commander, headed the corps and Tuesday he announced they are ready at home.

Commander Knight said yesterday that young men in the camp who can better themselves by getting jobs are being given furloughs of reasonable lengths of time. Fifteen boys already have availed themselves of the opportunity.

## 'Winds Battle Littlefield Fri. Night

The pent-up energies of Floydada High Whirlwinds, being taken out in squad scrimmage this week, will have an ample outlet Friday night when they journey to Littlefield for a non-conference tilt with the Wildcats of north zone District 5-A.

The lads, sorely disappointed over the failure to get to play a home game last Friday night, were mollified considerably by Coach Murray, who told them the game played in water shoe mud deep could not have been a real test. They still anxiously want to get on the firing line, however, and are counting the hours now.

## Long Distance Criticism Hits Deen

Representative Tom W. Deen, who returned home Sunday from Austin after attending the short special session of the legislature, had some interesting mail forwarded from Austin relating to his talk on the floor of the House, asking that body to suggest to Col. Lindbergh that no good purpose could be served by a proposed visit to this state.

The resolution carried by an overwhelming majority. Representative Deen in his talk suggested that Mr. Lindbergh go to Germany and attempt to make some speeches against the government. "Lindbergh ought to be sent back to Germany," he suggested.

"Texans evidently are not much at letterwriting or are used to seeing their lawmakers' speeches in print. Leastwise he had only one letter from this state. But letters came in from North Carolina, Minnesota, Illinois, Pennsylvania, New York, New Jersey, and even tiny Rhode Island. The letter from Rhode Island was a commendation from Cornelius Vanderbilt, jr., which noted: "Congratulations on your courage in the Lindy matter. This country was founded for all people of all creeds, races, colors and beliefs, as you so forcefully stated."

One pro-Lindbergh enthusiast suggested that "instead of sending Lindbergh to Germany, we Americans should send you and the rest of your fellow travelers to Palestine with the rest of the Hebes." This one came from Chicago.

Representative Deen's speech was made in answer to a fellow representative's speech favoring Lindbergh and urging that he be accorded a warm welcome in this state.

## Loans On 1941 Grain Sorghums Set Up By Commodity Credit Corporation, Are Announced

Loans on the 1941 grain sorghum crop are available this year for the first time in Texas. Paul Snodgrass, chairman of the Floyd County AAA committee, has announced.

For No. 1 grade grain sorghum stored in farm structures, the loan rate has been set at 40 cents per bushel while 38 cents will be paid for No. 2 sorghum. On nos. 3 and 4 grades, the prices have been set at 35 cents and 30 cents respectively, and "mixed" grain at 2 cents less per bushel. Grain with moisture content in excess of 13 percent, if stored on farms, and 14 percent if stored in elevators, as well as weevily or smutty grain, will not be eligible for loans, Snodgrass explained.

Warehouse-stored grain will be about 7 cents per bushel less than farm stored grain, the AAA official said, since storage charges will be paid by the CCC on grain sorghum delivered to the Corporation.

As in the case of wheat and barley applications for loans will be handled through the County AAA committee, and may be made to approved landing agencies or the Commodity Credit Corporation. Loans will be available up to January 31, 1942, and all notes will mature on demand or June 30, 1942, the chairman said.

The purpose of this kind of loan, which will be made to producers who complied with acreage allotment provisions, is to aid producers in holding their feed and seed supply and in marketing their surplus in an orderly manner, the AAA committee said. A similar loan has already been announced on barley.

Mrs. C. S. Ray, who died Saturday evening, with her husband had operated a mercantile establishment at Dougherty since 1930, and was active in the social, civic and church life of the east part of the county.

## Jason O. Gordon Will Succeed Bredthauer

Come October 1, Jason O. Gordon, Shackelford county reared, Tech educated and plains trained in county agent's work, will succeed D. F. Bredthauer as county agent of Floyd county.

K. J. Edwards, district Extension Service agent, advised Floyd County Commissioners of his choice to succeed Mr. Bredthauer Tuesday, and Gordon was in Floydada the same day to familiarize himself with the local set-up.

Mr. Bredthauer notified the court of his intention to make a change some 30 days ago and, following assignment by the Extension service, goes to Goliad county of which Goliad is the county seat. His family are already in that city where the son and daughter have entered the public schools.

Mr. Bredthauer comes to Floyd county from Parmer. In the latter county he has served as county agent for the past six years. Prior to that time he was assistant county agent of Lubbock county for two years. He is looked upon as one outstanding student of animal husbandry. For eight years he has been superintendent of the live stock department of the South Plains fair.

Thirty-one years of age, reared in Shackelford county by a father who was a county commissioner and actively associated with the farm program for years, Gordon is married, has a wife and one child, a daughter four months old. Following his graduation at Tech college he immediately entered the county agent service and in Parmer county made an outstanding record. He is, incidentally, a nephew of J. M. Gordon, dean of the agriculture school at Texas Tech.

With many and diverse farm interests Floyd county presents an iron man's job for the county agent, Gordon was told.

D. F. Bredthauer, retiring agent, who has known Gordon for a number of years, highly commended his successor this week as having energy and capability for the job.

## Blanco Bridge Completed By Builders

Blanco bridge on the Floydada-Petersburg road has been finished this week and the builders, Austin Bridge company, are ready to turn it over to the Floyd County Commissioners court.

In the absence this mid-week of Commissioner A. S. Cummings, in whose precinct the bridge is located, it is anticipated the bridge will not be received until Friday or Saturday.

Mr. Cummings has been at Hollis, Oklahoma, with a gravely ill brother, it was said at the court house.

The bridge is a larger and wider bridge than that swept away by repeated storms in early June that sent heavy floods down Blanco canyon from a water shed extending into New Mexico.

Cost to Floyd county was \$4,400.

**BARBER PURCHASE HOME ON TENNESSEE STREET**

Mr. and Mrs. H. G. Barber have purchased the home which belonged to Mr. and Mrs. Delbert Eubank on West Tennessee street. They plan to move to their new home in the near future.

## Company Commander Knight Said Tuesday That Quite a Bit of Work Would Be Done by the Boys on Company Streets, Walks and Recreation Grounds.

The camp is located on ground leased jointly by the city and county for an indefinite period, on a contract made with the army representatives during the spring.

Facilities for lighting, water and sewer are provided by the city and county and minimum rates are in effect for all utilities.

## Dakotan Named Chief Nat'l Legion

Lynn U. Stambaugh was named national commander of the American Legion last week in the closing sessions of the convention in Milwaukee. Stambaugh is a North Dakotan. The Legionnaires previously had voted to hold their next meeting in New Orleans.

Mr. and Mrs. J. M. Willson, who attended the convention as delegates from Texas, reached home Sunday. Mr. Willson is Fifth Division commander of Texas and Mrs. Willson went as a delegate from the 19th district American Legion auxiliary.

## October 6 Date For Hearing On Bond Election

Monday, October 6 is the date set by the Commissioners court for the hearing on the proposed road bond election in Precinct 1. The petition filed two weeks ago asks for the construction of hard-surfaced roads, or in aid thereof, throughout the Precinct including a farm-to-market road from highway 207 to the county line town of Longview.

Bonds in an amount not to exceed \$125,000 would be issued, if the election is called by the court and carries.

Attend Meeting Of County Judges Commissioners

Judge G. C. Tubbs and Commissioners H. J. Nelson, B. E. Cybert and Henry Robertson attended the meeting of the West Texas County Judges and Commissioners Association Friday and Saturday at Mineral Wells. Judge Tubbs said it was a very instructive meeting.

The spring meeting will be held in San Angelo.

## Bill Howard Killed, Wife Is Injured

Bill Howard, son of Judge and Mrs. J. W. Howard was killed, and his wife, the former Miss Thula Elmore was seriously injured in an automobile wreck in which two others were killed last night. The accident happened at Gladewater at 7:30 o'clock. Mr. Howard died at 2:45 in the Gladewater hospital.

Seaton and Orland Howard, brothers of the deceased, left early this morning after receiving the death message. Funeral arrangements are pending, awaiting the condition of Mrs. Howard, the message said.

Mrs. Howard is the daughter of Mr. and Mrs. J. L. Elmore of Abilene, former residents of the Starkey community. Mr. and Mrs. Howard operated a general merchandise store in Starkey community a number of years before moving to Longview, Texas.

Mrs. Howard is in a hospital at Longview.

## Road Bridge Fund Richer By \$14,819

Floyd county's road and bridge fund, in particular that portion of it allocated to construction of farm-to-market roads, is \$14,819 richer this week following the receipt of funds from the Board of County and District Road indebtedness.

And it is \$5,000 approximately richer than was anticipated. For, whereas the county commissioners had been notified the amount will be somewhat less than \$10,000 the check, when sent by Geo. A. Hight, accountant of the board, was only slightly less than \$15,000.

Before the county legally could be given a check for its proportionate part of the fund it was necessary for the Commissioners to pass a formal order indicating the allocation of the moneys to construction and maintenance of roads.

## Mrs. C. S. Ray Funeral Rites Held Sunday Afternoon Here; Dougherty Woman Died Sat.

Mrs. C. S. Ray died Friday evening at 7 o'clock at her home in Dougherty after an illness of two years. Funeral rites were held here Sunday at 2:30 p. m. at the first Methodist church by Rev. Oscar Bruce. He was assisted by Rev. Berry Baker, pastor of the McAdoo Methodist Church, and Rev. Wm. Culwell, of Anton.

Ruby Wood Brownlow Ray was born July 16, 1901 at Athens in Henderson County. She came to McAdoo with her parents in 1921. She was married to Chester S. Ray at Crosbyton, November 30, 1922.

Mr. and Mrs. Ray moved from Dickens county to Dougherty in the fall of 1930 and have operated a general merchandise and grocery store there since.

The deceased is survived by her husband, and one son, Charles Milton, 16 years of age, her parents, Mr. and Mrs. J. M. Brownlow of Dougherty, a foster daughter, Mrs. Mildred Reese Owens of Dallas, five sisters, and two brothers. They are Mrs. Eula Carmack, Mrs. Clara Cook, Mrs. Jewell McNeese and Price Brownlow, all of Dougherty, and Mrs. Irene Holt and Mrs. Jonnie Sanders of Dallas, and Buck Brownlow of Abilene. C. L. Lloyd, a lifelong friend who has made his home with the Brownlow family is also listed among the survivors.

Funeral services were held at the funeral parlors here by George Fots of McAdoo, J. E. Newton, Bill Norman, Chet Caffee, Maurice Campbell and Clifford Newberry.

## Longhorns Trek To Tahoka Tomorrow

Having whetted their teeth on the Canyon Eagles last week-end and found the taste of victory good, the Lockney Longhorns tomorrow trek to Tahoka, where they will attempt to repeat against the Bulldogs.

Coach Head's charges may find the going a bit rougher on Tahoka field, however, than last Friday. Against Andrews the Tahoka lads counted four times in their game last week, using both line plunges and passes, indicating a good assortment of offensive plays, assuming that Andrews afforded reasonably strong opposition, which they probably did, scoring twice also.

The Longhorns appear to be coming along fast. They are afflicted with the same kind of trouble that the Whirlwinds have, namely a lack of experience under fire. Their backfield showed more than ordinary speed at times against the Eagles last week, and at least three of their linemen will have high ratings by the end of conference play.

Mitchell, a Sterley boy, made the score of the day with an end sweep in which good blocking played a part. He carried the ball from the 30-yard line. The extra point was made passing.

**DEPUTY MAKES FINAL CHECK ON APPLICATIONS FOR STATE AID**

E. H. Boulter, Deputy State Superintendent of schools, of Lubbock, was in Floydada Wednesday to check State Aid applications before they are sent to the State Department of Education, Austin.

## First Bale Here Wednesday, To Gin Out Today

First bale of Floyd county cotton to reach the Floydada market this season was brought to town Wednesday morning by Cecil Purcell of Edgin, and with none of the gins ready to begin operations it was unloaded at the Scott Gin company plant.

Late yesterday Grady Harris, who will be manager of the Scott gin this season, announced the gin would be steamed up this morning and the bale ginned out.

J. C. Wester, president of the Chamber of Commerce, announced that a check for \$15 as a premium for the first bale from that organization would be issued to Mr. Purcell, bagging and ties will be donated by Scott Gin company, Mr. Harris said.

Purcell is a long-time resident of the northeast portion of the county and a frequent business visitor in Floydada.

## Fire Destroys Home Monday Near Cedar

The residence of the J. P. Moss place south of Cedar occupied by Mr. and Mrs. John Noble, former Crosby county residents, was destroyed by fire Monday morning. In the loss was included all the household effects of the family.

Mr. Noble said the only fire in the house was in an oil stove in which they had placed a new Wick. He thought this was the cause of the fire.

Neither he nor Mrs. Noble were in the house at the time.

## October Start For 207 Work Is Promise

Progress on the plans for construction of additional mileage on State Highway No. 207 north and through South Plains has reached the point where it can be said with reasonable certainty the job will start in the month of October.

Allocation of funds for the job was made some months ago on the State Highway sponsored WPA job and Resident Engineer R. T. Roane said plans and specifications are nearing completion.

"Barring unforeseen hindrances we ought to get the job under way in the month of October." How much WPA labor will be available was not known by the engineer, who feels sure that rising costs will not, however, prevent the department from being able to carry out its original plan of building as far as South Plains, "possibly a little farther."

## Lubbock Fair Boosters Due October 2

The good will trip of the Panhandle South Plains fair boosters to Floydada and other cities and towns in this area will be made on Thursday, October 2, an announcement was made this week.

The trippers will be at Plainview at 8:40, at Lockney at 9:30 and will reach Floydada at 10:10, according to the schedule released.

The noon stop will be made at Matador at 11:30, and thence they go to Roaring Springs, Dickens and Spur, arriving at Crosbyton at 4 o'clock. Ralls at 4:30, Lorenzo at 5. Idalou at 5:30 is the last stop on the afternoon leg of the journey.

## Contract For Rural Electric Line Extensions To Be Let October 7, Chapman Says

Bids for the construction of 230 miles of Rural Electric line is scheduled to be let on October 7, by Floyd County R. E. Co-operative according to Superintendent L. W. Chapman. Engineer H. N. Roberts of Lubbock has been selected to have charge of the work.

An appropriation of \$152,000 was received two weeks ago by the local office to build in Floyd, Hale, Crosby, Dickens and Swisher counties. This represents a group that have had their applications signed and memberships paid and in the Washington office since July of this year.

## No Rain, Much Work In Week Since Friday

With lashing windstorms to the east and south in one direction and devastating rains to the west, Floyd county and most of the high plains are enjoying the sixth day of rainless, practically ideal weather this morning.

Last rainfall of considerable note was last Friday when 6-tenths of an inch fell in Floydada, and some parts of the county had no rain on that date. On Wednesday night previous 1.35 inches of rainfall was recorded here.

Farmers are taking advantage to the utmost of the good weather. It was dry enough in every part of the county yesterday to cut feed and dry enough in most of the county to plow wheat land.

High temperature of the week was yesterday when the thermometer registered 88. This morning's cool temperatures ranging in between throughout the week since Friday.

## Troop Charter Re-Affirmed By Lions

Charter of Troop No. 64, Boy Scouts of America, was reaffirmed by the Lions club as sponsors at their meeting Tuesday.

Miss Zelma Elliott favored the club with piano numbers.

## MARRIAGE LICENSES

License to marry was issued on September 16, by County Clerk Emma Louise Smith, to Harold Wood and Juanita Still.

## DEFENSE BOND QUIZ

Q. Do the retail stores receive any fee or percentage for the sale of Stamps?

A. No. The retail stores are offering their facilities as a patriotic service, just as banks, savings and loan associations, and others are giving their help in the sale of Defense Bonds.

Q. How can I form the thrift habit necessary for me to buy many Defense Bonds now, to help the Government?

A. The easiest way is to instruct your employer or banker to hold back a small fraction of your salary or other income. Even 10 cents a day and a dollar on your birthday will mount up in one year to \$37.50, the purchase price of a \$50 Defense Bond. Bigger savings buy bigger bonds.

Note.—To buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the Treasurer of the United States, Washington, D. C. Also Stamps now are on sale at retail stores.

Re-employment of young men who were taken in the draft a year ago and who will be returning home soon are not likely to have difficulty finding their old jobs ready and waiting for them, or if not that, then a better one. The men over 28 years of age who want to be let out of further army service can do so by applying to be released, it is said, and according to information they will not be automatically turned loose but will have to ask for release. According to the figures of the local board if all the 28-year-olds or older were released only 60 men would be returned home. Of the 60 in the service from this county a very considerable percentage are volunteers and therefore not likely to ask for release.

Note that many boys who want to go ahead with their school work in college or university, but are in the draft, are getting the co-operation of their local board and the Selective Service in making their plans. Where a boy appears to be away down the line and some months away from a call to service he is being encouraged to go ahead and get as much school work as possible behind him. Thousands of Texas boys, among them some Floyd county youth, are taking advantage of their good fortune in this respect. Of course, should the emergency become perilous these lads would have to be called out of their classrooms and asked to shoulder a musket. But meanwhile, as Uncle Sam builds his bulwark of man-strength on land and sea, the youngster gets an opportunity to go ahead and do the very best possible by himself. And are they taking it seriously!

Late cotton is in a big race with Jack Frost. If it gets over-run it will be too bad for most of the cotton fields. A few fields are away down the line and will make much good cotton. Late feed, too, is rushing to get under the wire and mature before cold sets in. But frost or no frost, there is more feed in the country than has been in a long time. Plenty of feed, plenty of pasture, plenty of cows on the range and in the milk lot have always meant reasonable prosperity in Floyd county, whether wheat and cotton did good or bad.

## As A Farm Woman Thinks

Nellie Witt Spikes

There are times in ones life when things are dull and prosaic. The new moon ceases to be a gypsy's gold earring and is just a plain old moon lying on its back, holding water; that no one wants and a sweet voice, the wind, usually so confidential in its whisperings of romance and beauty at far corners of the world, is a whining old woman, telling of tragedy and sorrow: the garden, holding yellow gold and ruby red tomatoes, crisp butterbeans and tender string beans in its green lap, becomes a tiresome old place to bend ones aching back and tired arms; the flower garden just another place to weed; the beloved books, pictures, more dusting.

But along comes a fairy god-mother in the guise of a cheerful friend, a letter in the mail box, a flower of just yellow in the window as I come to the house or little white arms round my neck and a sweet voice saying "I love you" and life is a wonderful adventure with no telling what nice things may surprise one around every corner.

The peaches are all off the trees and it seemed as the last ones were gathered that the trees bowed and said thank you. We have had a hard busy summer and our limbs have fairly ached with the burden of the fruit. And we have had to make new buds for another year and the leaves and fruit have had to be fed. We have gathered from the air and sent our roots creeping along in the dark for more food. We are very tired. Soon our leaves will fall and we shall rest.

We had such a pleasant visit last night with Mrs. Walter Newell and Mrs. Bob McGuire. Hope they come again.

Mrs. Boydston of Cone and Mrs. Thomas Cannon of San Diego, California, sent me some very pretty rocks for my fence. But they are so unusual that I have them in a cabinet with other small rocks. Thank you, dear ladies for your thoughtfulness of my pleasure.

Another elephant parades on my mantle given by Artie Newell. It is such a quaint elephant. Looks something like a teapot. Artie was very kind to remember my collection and add such an interesting one to it.

Poem for the day:

I Have Known  
By Edna T. Harbour

I cannot say that I have walked with Him,  
I cannot say that I have heard His voice,  
Or seen His face and felt my heart rejoice.

Yet I have known rest after cruel hardship,  
Peace after chaos, laughter after tears,  
Faith after faith was shattered, and contentment

Of middle age after the race of years  
I have known sunshine brightest after darkness,  
Spring's sweet young life after the killing frost,  
Friendships I thought dead alive and genial,  
And life worth living after gravest loss.

I may not feel that I have walked

with Him,  
I cannot say that I have heard His voice,  
Or seen His face and felt my heart rejoice.

Yet I have known rest after cruel hardship,

Or seen His face and felt my heart rejoice.

Yet I have known rest after cruel hardship,  
Peace after chaos, laughter after tears,  
Faith after faith was shattered, and contentment

Of middle age after the race of years  
I have known sunshine brightest after darkness,  
Spring's sweet young life after the killing frost,  
Friendships I thought dead alive and genial,  
And life worth living after gravest loss.

I may not feel that I have walked

with Him,  
I cannot say that I have heard His voice,  
Or seen His face and felt my heart rejoice.

### MY DAD

Just a little verse to read  
When days are long and sad  
I dedicated this poem to you  
My own darling dad.—E. E. Young

He ain't a king nor he ain't a prince  
He ain't president nor a soldier of defense;  
But he's smarter'n anyone we've ever had,  
I know; cause you see, he's my dad.

I guess I've just got the smartest dad  
That anybody ever, ever had;  
And he could be president and rule the land;  
Cause he said he could with just one hand.

And if he was king he'd keep his throne  
And my dad would fight if he had to fight alone;  
And he'd never, never abdicate  
Even for a lady, for ladies are just bait.

My dad is even smarter'n his big boss  
Why if it wasn't for dad there'd be an awful loss,  
And the factory would just hafta close its doors.

## FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

(Issue of September 22, 1927)

Without doubt the biggest thing of its kind ever held in this section of the state was the reunion of old-timers of a dozen counties at the dedication of the 22-acre park site as a memorial to Uncle and Aunt Hank Smith, held Tuesday at Mt. Blanco. It was featured by the attendance of hundreds of old-time residents, 1500 or 2000 persons in all being present and taking part in the big doings.

Hundreds of people of Floydada and neighboring communities visited the Wester Bakery and the new Boothe building on the occasion of the formal opening from 8 to 11 o'clock last Friday evening and enjoyed the inspection of the baking and mixing machinery in operation as well as the refreshments served.

"It is Floyd county, dressed for this special occasion and ready for inspection by the entire State," is the description given by officials to the Floyd County Fair, which opens its doors today for the fourteenth time in the history of the county. "Arrayed in all the splendor of its agricultural products, we believe that this fair is full proof that Floyd county is now, as it always will be, the banner county of the Lone Star state."

Four local men are in Chicago today to attend the Dempsey-Tunney championship fight. They are O. P. Rutledge, Fred Zimmerman, R. Fred Brown and J. I. Hammonds.

The first bale of the 1927 season was turned out by a Floydada gin was brought in Saturday by D. W. Sherrill and ginned by the Farmers Gin company. "A bad start brings a good finish" is a good omen for the F. H. S. whirlwind eleven for their 1927 season. Their first scrimmage game of the season, scheduled with former F. H. S. "all stars" last Friday afternoon ended in a slick muddy defeat of the Whirlwinds. The score was 6 to 0.

Wednesday morning, September 14, Miss Clara Patton and Lee Harry, accompanied by a few friends, drove to Crosbyton, where they were married by Rev. H. M. Reed. The bride is the daughter of Mr. and Mrs. Claud Patton of Lakeview.

Henry Bosley, an active student in Floydada High School for the past three years, was selected president of the Senior class of 1928.

## THE RECORD... Facts That Concern You

## SOME PEOPLE NEVER LEARN... but most of them do!

There are always a few "smart alecks" who want to stand up and rock the boat. But most people try to keep out of trouble.

The same sort of thing happens in the retailing of beer. The great majority of beer retail establishments are clean, law-abiding and wholesome. But occasionally you may find a "smart aleck" retailer who violates the law or permits anti-social conditions.

We of the brewing industry want these anti-social retailers wiped out! Because they imperil your right to drink good beer...and our right to make it.

## Community Fair At Mt. Blanco October 3

The Mount Blanco Home Demonstration Club will sponsor a community fair Friday night, October 3, featuring Foods of Defense, exhibits on production and preparation of foods raised in our community.

Other attractions are a quilt exhibit, largest variety of field and garden, variety of products, and Texas Food standard.

The fair is free and everyone is welcome.

### Sweet Potatoes Large Enough To Eat Now

Many people have sweet potatoes large enough to eat by this time. Wait until the crop is mature before digging them for storage. To test the maturity of sweet potatoes, break a potato in two and note how rapidly the moisture disappears. If the broken surface dries slowly, it is an indication that the potato is not mature. If the broken surface dries quickly the potato is mature and may be placed in storage. Edith L. Wilson, home demonstration agent notes.

Start eating your new sweet potatoes now. Try them fried, sliced and baked in casserole with a small amount of water, bits of butter and amount of sugar; or French fry sweet potatoes to a golden brown, then dust with powdered sugar while they drain on absorbent paper after frying. And don't forget steamed sweet potatoes browned in drippings from baked ham or roast.

#### MOVING TO LUBBOCK

Mr. and Mrs. O. W. Fry, formerly of Floydada, who have been residing in Amarillo during the past year are moving to Lubbock this week where they plan to make their home for several months. Mr. and Mrs. Fry visited in Floydada Wednesday while enroute to their new home.

#### VIEWED BOMBER WRECK

Winfred and Joe Wilson visited the airport at Lubbock Sunday afternoon soon after the bomber crash that took the life of Lieut. Shelby Harper of Lubbock.

The boys viewed the wreckage which they said must have been strewn for more than a block.

#### VISITING PARENTS

John Kimble who is attending the Southern College of Optometry at Memphis, Tennessee, and his sister, Mrs. Don Harris of Jacksonville, came Tuesday to spend a week with their parents, Dr. and Mrs. Wilson Kimble.

#### VISITS SON IN CALIFORNIA

Mr. and Mrs. Frank Hall of the Lakeview community and their daughter, Mrs. Clyde Alexander, and Mr. Alexander of Plainview, returned Monday from a visit with their son, Buck Hall, and Mrs. Hall of Los Angeles, California.

Mrs. Buck Hall accompanied them home and is visiting her sister Mrs. J. E. Evers of Floydada and her parents, Mr. and Mrs. W. H. Harrison of Dougherty.

#### MOVES TO SAN DIEGO

Mr. and Mrs. Clay Anderson left this morning for San Diego, California where Mr. Anderson will be employed at an airplane factory. They were accompanied by Roy L. Anderson who will be employed at the same place. The latter Mr. Anderson has been associated with the Harmon Funeral Home here for some time.

#### EMPLOYED AT LUBBOCK

Miss Gerry Gambin went to Lubbock Sunday where she began work on Monday with Ann Ford's Shoppe, a ladies ready-to-wear store.

#### VISITS ILL BROTHER

C. P. Looper spent Sunday at Plainview with his brother R. D. Looper, who had been quite ill for several days but was somewhat improved Sunday, Mr. Looper said.

The M. C. Muse family returned home Tuesday night from a 10 day trip to California. They were accompanied by Needles, California, by an aunt of Mr. Muse who had been here visiting.

Mrs. W. Stephens had a week end guest her daughter, June Garland of San Antonio. Other guests of Mrs. Stephens for Sunday were Mr. and Mrs. Truman Garland and son, Gad, Mrs. Chester Howard and children, all Burk Burnett, and Mr. and Mrs. Bud Lowry of Canyon.

Mrs. Maggie Haynes returned Saturday from a ten day visit with her son Roy Lee Haynes, and Mrs. Haynes, at San Antonio. She also visited at Breckenridge, Ft. Worth and Dallas.

#### MACHINERY ON THE FARM

I don't think we want to try to block the development and use of machines on the farm. It would be futile anyway. Rather, we must work out means of using the machine for socially desirable ends. We must work with it and master it, otherwise it is a blind force that will enslave us. Haven't we the brains to use the machine—cooperatively perhaps—so that all farmers may share in its benefits? I don't know the answer but I do raise the question, and say it presents a challenge—R. M. Evans, AAA Administrator, U. S. Department of Agriculture.

**More Defense Foods.**—"More milk, more eggs, more pork" is the food-for-defense appeal being made to American farmers by the U. S. Department of Agriculture. Farmers are responding unitedly, the Department says, and are turning huge quantities of food from the AAA Ever-Normal Granary into energy-giving foods. Milk production is highest on record; egg production is higher than in any year except 1930; extra numbers of brood sows are being held over for fall farrowing. Nevertheless, the Department declares, even additional increases in these products must be made to supply the growing home demand and the emergency needs of Great Britain.

### Treating Beans And Peas For The Weevils

If you let the weevil eat your dried beans and peas you won't have the 15 pounds per person per year which is required in an adequate diet, says Edith L. Wilson, home demonstration agent.

The safest way to keep them is to shell or thresh the peas and beans treat them with carbon disulphide. Half-gallon glass jars, gallon syrup buckets, or 25-gallon lard cans make convenient containers for storage. Carbon disulphide should be used as follows:

Half-gallon jar— $\frac{1}{4}$  teaspoonful  
Gallon syrup bucket— $\frac{1}{2}$  teaspoonful  
25-gallon lard can—5 teaspoonful  
50-gallon drum—1 ounce.

Put the carbon disulphide in a small container on top of the peas before placing on the lid. Let stand 36 hours, open and spread out peas on table top or floor until carbon disulphide fumes have gone. Place back in the container and adjust the lid lightly.

#### FIBER FIGURES

Uses of fibers have been changing in the last half century, according to the U. S. Department of Agriculture, but statistical studies made recently by the Bureau of Agricultural Chemistry and Engineering at its Southern Regional Research Laboratory show that, by and large, cotton has been holding its percentage place fairly well. Cotton has done this in spite of the rise of new products.

Cotton has made up about 70 percent of the mill use of fibers in this country during the fifty-year period, the quantity used shifting up and down with the shifts in the total of all fibers used.

Compared only with other apparel fibers—wool, silk, rayon, and flax—cotton made up 79.3 percent of the total in 1939, somewhat less than the average of 85.6 percent for the period 1920-29. On the other hand, rayon — for some kinds of which cotton is used as a raw material—made up only 1.6 percent of the total from 1920-29, but reached 10.1 percent by 1939.

### HITLER'S SAVAGERY CONTINUES IN POLAND AND YUGOSLAVIA

Adolph Hitler's ruthless purge and enslavement of conquered peoples in Poland and Yugoslavia show no abatement, despite his late successes in selling a collaboration plan to the spineless Vichy government. People of Poland still resist and, as a result, Hitler's plan to exterminate the Polish race has been ordered into effect. Already in a state of slavery, Poland is expected to be weakened further by deliberate cruelties until the race is no longer biologically important. The first steps in annihilating a nation of 34,000,000 persons are now being unfolded.

Not one single agreement made between the Germans and the Poles, following Poland's downfall, has been upheld by the Nazis. Every rule of international law has been violated—not a great surprise—as even the normal attitude of a conquering nation toward the conquered has been ground into the dust. It is the admitted intention of the Germans within ten years to occupy every single Polish farm and property with a German tenant. A vanguard of German colonists, handy tools of the Nazis, have already moved into Polish territory by the thousands. And in turn, Polish laborers have been transported to German war factories, or remain to become chattel servants of the German landlords.

The individual cruelties are countless, German officers, acting overseers of the Polish peasantry, have declared, with German pomp, that they are the masters and well intend to act as masters. Western Poland has already been cleared of Poles and over a million have been driven from their homes where only a minority of Germans dwelled. The deported Poles have been given little time to move and many times they have had to flee on a few minutes' notice, leaving their few belongings behind. In this mass migration the Poles have been allowed only a few days' food for the journey and under no circumstances have those who had money been permitted to carry it with them. These refugees pour by the thousands into what is called the Government General—the area not officially annexed by the Nazis but subject to their control. The refugees have been forced to ride in cold box cars, sealed for the duration of their journey, which sometimes took weeks. Many women and children have frozen to death and those who have survived the evictions have been thrown into a destitute area many times worse than a concentration camp. The sufferings there, though, have been mild compared to the fate of the Poles in the occupied zone.

Polish authorities swear that mass executions in Bromberg have amounted to 10,000 and that 70,000 Polish civilians, including women

and children, are estimated to have died at the hands of the Gestapo in all Poland. These executions have been entirely terroristic and have been carried on without trial.

Wholesale seizure of every small Polish belonging has long since been in force in the occupied zone and the process is getting underway in the Government General. The Nazi decree declares that "personal belongings are exempt from seizure." Behind this systematic theft is more than a desire for property. The Nazis intend to quiet any revolutionary elements which might be found in the Polish professional class. An estimated 400,000 Poles have been sent to Central Asia and Eastern Siberia, where they might at least die a natural death.

The method which has been perfected in Poland is now in store for Yugoslavia. Hitler, Goering and Dr. Ante Pavelic, and Croat traitor, have met at the conference table and have found the Yugoslav Jewish problem solvable.—Scottish Rite News Bureau.

#### RURAL POPULATION OLDER

In connection with farm population reports by the census, the U. S. Department of Agriculture points out as of interest the changing age picture. The 1940 Census shows a materially older population on the farms than the case ten years earlier. The number of children under 20 showed the rather startling decline of approximately 1,400,000 in the decade. On the other hand, the working age group, 20 to 64 years old, increased roughly one million. The upper age group, over 65, increased by approximately 400,000. The presumption, says the Bureau of Agricultural Economics, is that these figures reflect a slowing down of migration away from the farms.

#### A NEIGHBORLY BULLETIN BOARD

Sometimes when the whole family goes away for a Sunday afternoon, neighbors or relatives may call, with no way of letting you know they paid you a visit. We know one housewife who has solved that problem by taking a large slate alongside the front door of her home, with a pencil on a chain beside it. Callers who find no one at home leave their names to let the family know who visited them, and at the same time deliver any special messages. The slate has also proved useful for leaving messages for the children, in case the mother is to be away when they come home from school.

Before putting a plant in a new flower pot, first soak the pot overnight in water, so that the moisture necessary to fill the pores of the pot will not have to be drawn from the soil around the roots.

You'll sleep more comfortably, and your mattress will last longer, too, if you'll turn it over, and end for end, every month or so.

## Processing Food Centers To Be Set Up

COLLEGE STATION, September 25.—Many Texas communities served by REA lines are eligible to benefit from a new governmental program designed to fortify the health of rural families.

The plan will be a cooperative one with REA, the Extension Service, Farm Security Administration and other agencies of the Department of Agriculture participating, according to Mildred Horton, vice director of the Extension Service and chairman of the Texas State Nutrition committee.

Electrically equipped food processing centers will be set up in rural schools or other public buildings on REA lines within the state. The responsibility of the county home demonstration agents and other rural education agents will be to teach adult groups better nutritional practices. Miss Horton explains that these food centers may be equipped with small mills for grinding whole wheat flour and other whole grain cereals or with electrical cooking, refrigeration and dehydration equipment. It is possible that food processed in the centers may be used in community school lunch programs during the year.

The equipment may also be used by low-income families in the community who cannot afford their own equipment for processing grains, fruits, vegetables, and cereals for home use. Purchase of the equipment will be financed through REA.

loans at low interest rates. Of the 800 eligible electrical systems in the country, approximately 70 are in Texas.

## MAN-MADE NEW ECONOMY AID IN THIS OIL

BRINGS RECORD LONG LIFE TO A SINGLE 5-QUART FILL

Daring Death Valley Destruction Test gives you plain proof—CERTIFIED

— and the oils proved NOT the same

Some modern food processing, you know, destroys many of Nature's best life-givers — vitamins that you need for life. But making up the worst loss today are vitamin synthetics... man-made! Similarly, the latest oil refining removes some of Nature's best life-givers. But effectively taking their place today is a new synthetic... a man-made economy aid that you give your engine by changing to

CONOCO N<sup>th</sup> MOTOR OIL— Popular Priced

Know what you're going to get out of it! For in Death Valley's pitiless desert this oil was measured up impartially against 5 other representative big-name oils. Each got the same fair chance to go its limit on one 5-quart fill, without an added drop. Each brand was locked up by the Official Referee, in the crankcase of a new everyday car—all alike. All held the same 57-mile pace, over the same desert, on the same days, in heat that would scare you out of touching the hoods—or fenders! And all were fated to finish the one 5-quart fill—to die of oil-starvation, with engine split open like a loaded cigar.

CONOCO N<sup>th</sup> OIL OIL-PLATES YOUR ENGINE!

Long the keystone of Conoco success, OIL-PLATING comes from another great Conoco synthetic... man-made under the famed Germ Processed oil patent. Magnet-like action bonds OIL-PLATING to inner parts. It can't all quickly drain down—not while you use Conoco N<sup>th</sup>. So OIL-PLATING is on guard against wear in advance!... and helps mileage, as in Death Valley. An OIL-PLATED engine is one more economy you get by changing to new Conoco N<sup>th</sup> oil.

## Savings Stamps Will Be Given By Garden Club As Premiums To Winners In Flower Show

Final plans are given this week by the Floydada Garden club for the fifth annual flower show which will be held Saturday, September 27, at the Bishop Motor company. Serving as the flower show committee from the club are Mrs. O. M. Watson, chairman, Mrs. L. C. McDonald, Mrs. Wilson Kimble, Mrs. Jack Henry, Mrs. W. S. Poole and Mrs. J. C. Barnard. Mrs. L. J. Welborn is president of the club.

Savings stamps will be given as premiums for the first and second best entries. A 25c stamp will be given as first prize and a 10c stamp will be given as second prize. The flowers will be judged at 1 o'clock. No prizes will be given if there are not as many as three entries in any one classification.

Those entering flowers in the show are requested to bring them between the hours of 8 and 9 o'clock and not later than 10 o'clock as it will take a great deal of time to number the exhibits and get them arranged, said Mrs. Watson. They are also reminded to bring their own containers for the display of their flowers and to give careful attention to their arrangement.

It is the plan of the committee to let the flowers remain in place until 8 o'clock in the evening in order that everyone may have an opportunity to visit the show.

All of the women of the county and especially the women of the rural communities and those belonging to the home demonstration clubs are invited to enter their flowers to help make the show a success and an attractive display.

On account of lack of space no pot plants will be exhibited.

Roses, best bouquet of three, first and second place for each color.

Dahlias, Zinnias, Marigolds, best bouquet of not less than three of the large varieties or less than five of the small varieties, first and second place for each variety.

Cosmos, Petunias, Verbenas, Snapdragons, Nasturtiums, Asters, Sweet Peas, Carnations and Salvia, best bouquet of not less than eleven, first and second place.

Geraniums, best bouquet, any color, not less than three, first and second place.

Cannas, any color, first and second place.

Fall blooming Iris, best bouquet, any color, first and second place.

Flowers not listed above will be judged and prizes awarded, providing there are at least three entries.

Miss Juanita Still and Harold Wood of Lockney were married Thursday, September 18 at 7 o'clock p. m. at the Lockney Baptist parsonage with Rev. A. L. Shaw officiating.

Miss Still is the daughter of Mr. and Mrs. R. G. Still of Lockney and has been employed in Electra the past few months. She finished Lockney High school with the class of 1935.

Mr. Wood, the son of Mrs. J. A. Wood of Cereal, Texas, finished Lockney High school in 1934, and since has been farming in the Muncy community where the couple will make their home.

The bride wore a dark green alpaca with black accessories.

## Smith-Cardinal Engagement Is Announced At Tea Tuesday In S. W. Ross Residence

The engagement and approaching marriage of Miss Bert Ione Smith, daughter of Mrs. G. R. May to Fred Cardinal son of T. J. Cardinal, Tuesday at a lovely tea given at the home of Mrs. S. W. Ross 128 West Houston street. Miss Virginia Belle Gamble of Lubbock cousin of the honoree, played piano selections throughout the evening.

Guests called from 4 until 8 o'clock and were invited into rooms prettily decorated with seasonal flowers. In the receiving line were Mrs. Ross, who wore an apricot taffeta with a corsage of white gladioli; Mrs. May in a black satin taffeta with a corsage of tube roses; Mrs. W. L. Holloman, of Slaton, an aunt of the bride-to-be, wore black taffeta evening gown with a corsage of pink roses.

Mrs. Greer Christian was in charge of the guest book. Miss Jennie Lou Harper, Miss Emma Louise Smith, Mrs. Tucker Teutsch, and Mrs. Bob Smith directed the guests to the dining room, where Mrs. A. N. Gamble, of Lubbock, aunt of the honoree, served punch from a crystal service. Mrs. Gamble was assisted in serving by Mrs. A. E. Gamble of Lubbock, Mrs. John Edwards Smith and Miss Reba Copeland all dressed in evening gowns.

Pink and white, the bride-elect's chosen colors, were featured in appointments of the affair. The table was covered with a beautiful lace cloth and centered with pink and white gladioli, entwined with silver wedding bells. White candles in ivory holders cast a soft glow over the setting.

**To Harry Simon**  
The wedding date, October 12, was revealed on white wedding bell folders placed on each refreshment plate. The bells were tied with pink and white ribbon and on the inside written "Polly and Fred, October 12". The wedding will take place at 7 o'clock in the evening at the home of the bride-elect's mother in the Baker community.

**Members Of Gamma Iota Chapter Given Breakfast**

Gamma Iota chapter of Delta Kappa Gamma sorority, a national honorary society for women teachers, was entertained at the First Methodist church of Hale Center by the members from there with a breakfast Saturday morning.

Members from Floydada attending the meeting were Miss Deltis Rea, Walter Travis, Miss Margaret Stuart and Mrs. J. N. Johnston and Mrs. Willie Merle Hattcock of Lockney.

The Iota Chapter will be entertained by the Plainview members with a formal dinner in October at the Hilton hotel.

## Whirlwinds To Play Phillips Hi. Oct. 18

What to do with the open date for Floydada High school Whirlwind football squad, left by the "no game" hiatus of last Friday night, was answered this week by school authorities.

The squad has an open date the week of Friday, October 17, and will journey that week to Phillips on the North plains where they play Phillips High school. However, they will not play Friday but will play on Saturday, October 18. A Friday game would conflict with a Berger (adjacent) game.

It was impossible for Floydada and Slaton school authorities to find a time to play later in the season, and Phillips had similar scheduling difficulties in their area. Floydada authorities did not like the idea of a Saturday date just ahead of their important conference game, the following Friday with Paducah. However it appeared to be their only chance to give the boys a full ten-game season.

Loss of the Slaton date and decision to go to Phillips on the October 18 date means that Floydada will win witness their team playing on the home grounds only three times this season, unless the boys happen to date a championship game after the conference round robin is completed.

### SCOUTS AND LEADERS ATTEND CAMPORAL AT LUBBOCK, FRI--SAT.

Ten boys from Troop 64 attended the annual Council-wide Camporal at Texas Tech's Campus at Lubbock Friday and Saturday. They were accompanied by Paul Wright, assistant Scout master, and L. W. Chapman, Boy Scout chairman from the Lion's club. Saturday night the boys attended the Texas Tech-Abiene Christian college football game.

Boy Scouts making the trip were Marion Parrish, Kenneth Duncan, Ernest Huckabee, Bobby Micey, W. E. Smith and Melvin Hollums.

### CHINQUAPINS, SASSAFRAS ROOT FROM OLE VIRGINNY

Chinquapins and sassafras root from the Blue Ridge mountains of Virginia are being shown—just a bit of a sample and not enough to pass around—in The Hesperian window this week.

They were presented by Mrs. Harper Scoggins, sent her recently from her old home in Virginia by relatives.

### PLAINS CHECK CRICKET INVASIONS

Air warfare is being waged this year in the rough, hilly country where Idaho, Nevada, and Oregon meet, to supplement the ground offensive against Mormon cricket hordes that threaten to march down from the high places and attack crops in cultivated valleys, the U. S. Department of Agriculture says. A new poison bait of sodium fluosulfate and bran, developed by Federal entomologists, is spread from a hopper in the plane as it flies over the crickets.

Mormon crickets hatch in mountainous or hilly land, but when full-grown sometimes form dense bands and march down—this insect cannot fly—to destroy crops in cultivated fields. Spreading poison bait on bands of migrating crickets, together with application of sodium arsenite dust, was so successful last year in the eastern part of cricket territory—Montana, Wyoming, and South Dakota—that farmers there need less help this year from the Federal Government in combating the crickets, the Bureau of Entomology and Plant Quarantine finds.

Scouts determine strategic times and places for the season's offensive warfare against the crickets by locating eggs beds in summer, and by watching spring grounds the following spring. The scouts also watch for traveling bands of crickets. Crews on the ground with power bait spreaders and dusters poison the crickets before they reach crop areas.

### MASTER DIET SIMPLIFIED

Home economists of the U. S. Department of Agriculture have translated the recently established "yardstick of good nutrition" for the United States into a master diet plan.

"The yardstick" set up by a committee of eminent nutritionists defines an adequate diet in scientific terms—of recommended daily allowances for different elements that human beings need. The master diet plan translation gives the same information in terms of different groups of food that need to be represented in the diet every day.

Following the diet plan, say the nutritionists and the vitamins, minerals, and other food essentials listed in the yardstick will take care of themselves.

MILK— $\frac{1}{2}$  to 1 quart every day for a growing child; 1 quart for an expectant or nursing mother; 1 pint for everyone else. Tomatoes, oranges, grapefruit, green cabbage, raw salad, greens—1 or more servings for everyone. Leafy, Green, or Yellow vegetables—1 or more servings. Potatoes, other vegetables, and fruits—2 servings or more a day. Egg—1 a day (or at least 3 or 4 a week.) Lean meat, poultry, fish—1 or more servings a day. Cereals—at least 2 servings of whole-grain products or "enriched" bread. Fats and Sweets—some butter, or fat rich in vitamin A every day, and enough more fats and sweets to satisfy the appetite.

The homemaker may adapt this plan to her own use by choosing the foods in each group that are available, that she can afford, and that her family likes best.

## Local Merchants Show Newest Fall Styles

Time was and not so long ago, all thoughts of sportswear were put away by the average male and confined his fall-thinking entirely to dress and business apparel. Not so today. It hasn't taken men long to find out that practical and comfortable clothes are as much a boon in Fall and Winter as in any other season.

That is why this year more than any other finds men confronted with even a wider assortment of sweaters, shirts, jackets, slacks and coats for Fall casual wear than ever before. It is a known fact that men wear sports clothes, not so much for looks but for comfort as well.

The new sweaters, for example, feature the soft, brushed face fabrics that are as pleasant to the eye as they are to the touch. In sport shirts, it's the restrained plaids in Crown-tested rayon and wool mixtures. And the new utility jacket is a constant delight to the sportsman.

### BIG PEARS LOAD DOWN TREE ON SMITH PLACE

Big pears, 35 of them weighing 12 to 16 ounces each, on one limb probably 40 inches long, were brought to Floydada Wednesday, afternoon by John A. Pawver, from the George W. Smith place in southeast Floyd county.

The tree from which the huge pears were taken is about 15 years old. Limbs are having to be strongly propped to keep from breaking.

### TASTESTING JACKRABBITS AID U. S. GRASS BREEDERS

Western ranches have a long-standing feud with the sky-hopping, long-eared jackrabbits of the Great Plains. Now, however, some of these jackrabbits are actually working in the rancher's interest. At Mandan, N. D., agronomists of the Bureau of Plant Industry Field Station are using jackrabbits to help test new grasses they are breeding to provide better pastures and ranges for the plains region.

Grasses which the jackrabbits like best seem to be the ones cattle also prefer. Seeding large plots to new grasses for ordinary grazing is often impractical, but smaller patches will serve for the rabbits. As preliminary tastesters jackrabbits are giving valuable aid to research men in determining which grasses adapted to the Great Plains will make the most palatable pastures and ranges.

### LABORATORY TEST MADE PRACTICAL

What is the killing power of any specific contact insecticide when sprayed over the backs of a herd of twitching dairy cows stanchioned in a fly-filled barn? To test in the laboratory the actual effectiveness of such livestock sprays under practical farm conditions, scientists of the U. S. Department of Agriculture have developed a spraying method that gives the flies on trial as much change for survival as they would enjoy in the average dairy barn.

Just as in the barn, flies are first sprayed with a definite quantity of the particular insecticide being tested. They are then put in a cabinet through which a current of spray-free air passes, as would be the condition of the flies were lying stunned on the floor of the dairy barn.

By working with cages containing definite numbers—perhaps 50 in each group—records are made of the number affected, the duration of the effects and rates of recovery. The test was developed by Craig Eagleston of the Bureau of Entomology and Plant Quarantine who suggests that similar methods may be followed to obtain further information on the comparative effectiveness of the household sprays as well.

### THANK HARRY STEVENS FOR AMERICA'S HOT DOG

Historians and sports lovers will remember the late Harry Stevens as an important contributor to Americana. For it was he who invented the hot dog, the straw for soda pop, and popularized refreshments at sports events.

The amazing career of Harry Stevens is described by sports writer Bob Considine who traces the life of the immigrant Englishman from a steel worker to one of the nation's important businessmen. Stevens' vast catering enterprise started, Considine says, when he became infuriated at the old-fashioned baseball programs which gave neither the players' names or a box score. He soon took over the concession and made such a success of it that he was asked to operate the service at New York's famed Polo Grounds, and it's still in the hands of Stevens' sons.

## Oh! Johnny

Wee Bonnie Baker, reviver of Oh Johnny, Oh Johnny, and other popular songs of the past, will be featured with Orrin Tucker's Band at the Cafe Esplanade in the Automobile Building, it has been announced here by George T. Smith of Fort Worth, who will operate the huge dine and dance place.

In addition to Miss Baker and Orrin Tucker, Mr. Smith will present a complete floor show three times daily.

Included in the floor shows at the Cafe Esplanade will be such stellar acts as Buster West and Lucille Page; A. Robbins, "The Banana Man," Hibbard Bird, and La Rue; the Nelson Sisters; Wilfred Da Bois, and Ed Hughes and his pals, and a line of twelve of Sam Rose's girls.

## Auto Mechanics School Opens Mon. Night

The auto mechanics school jointly sponsored by the federal government and Floydada Public schools, will open promptly at 7 o'clock Monday, September 29, W. H. Sharp, instructor, and H. G. Barber, vocational agriculture instructor of Floydada High school, announced this week.

Considerable interest has been evidenced in the school and Mr. Barber announced that at least 18 boys have indicated they will take instruction beginning Monday night. The school requires 15 hours of study and laboratory work each week for 10 weeks, and it has been indicated that other courses may be instituted after the first one gets under way.

Mr. Sharp said classes will be held in the Day & Night garage building opposite the post office. Machinery and equipment will have been installed by opening date and everything ready to go, said Mr. Sharp.

### NEW GRASSES FOR WESTERN RANCHES

To provide better grazing on cattle ranges of the Northern Great Plains, U. S. Department of Agriculture scientists are studying more than 40,000 grass plants each year at the Mandan, N. Dak. Field Station of the Bureau of Plant Industry.

In the grass nursery these plants are tested for palatability, sod-forming and seed-producing habits, disease resistance, behavior under different grazing conditions and other qualities. These grasses represent about 150 species. Ten species are included in an intensive breeding program to develop superior pasture plants adapted for growth in the region.

By selection and breeding, station scientists are producing improved strains and varieties of such native grasses as blue grama, big bluestem, switchgrass, sideoats grama, Western and slender wheatgrass, and needlegrass. Introduced grasses in the breeding program are Russian wild rye, created wheatgrass, and bromegrass. Varieties of created wheatgrass, and bromegrass, and varieties of created wheatgrass developed at Mandan are already proving valuable for spring and fall grazing. Russian wild rye, one of the newer introductions, shows promise as a supplement to created wheatgrass and native grasses for lengthening the pasture season.

Station scientists are experimenting to find combinations of grasses to provide better quality pastures. They are learning which grasses compete most successfully with weeds and other plants for moisture and soil nutrients, which are resistant to disease, stand up well under grazing, and produce good seed which can be harvested satisfactorily with ordinary farm machinery.

### SELECTION BY DIET

"In primitive times, through a process of natural selection and survival, the people chose the best available foods," said Dr. M. L. Wilson of the U. S. Department of Agriculture, addressing the National Nutrition Conference. "Thus nations which did not or could not make a wise choice died out. They were conquered by an enemy from within—by slow or fast starvation. We have the investible advantage of being able to choose wisely—if we will. And in these days of all-out national defense, when the ever-increasing demands for ever-increasing production call for optimum vigor and morale, it behooves us to choose wisely."

Mrs. J. L. Martin and son Owen Martin and wife and son Joe of Gainesville will return home today after a visit of several days with her sons, Mark Martin and family, and L. F. Martin and family.

## Cotton Stamps Issued Daily By A. C. A.

One hundred sixty farmers had been issued Cotton Stamps to the amount of \$5,968 to date including Saturday, Alice A. Hoots, secretary of the Floyd County Agricultural conservation association said yesterday.

Stamps are being issued rapidly and Cotton Parties are being signed daily according to the A. C. A. office.

### FINDS "GOPHERS GULLIES" ON GOPHERLESS ISLAND

Burrowing rodents such as ground squirrels and pocket gophers are sometimes blamed unjustly for starting gullies and causing soil erosion, says a biologist of the U. S. Department of Agriculture. R. M. Bond, of the Soil Conservation Service, believes that some so-called rodent erosion is rodentless. Many farmers believe that when a burrow made by a rodent runs up and down hill, rain water is likely to flow in at the upper end and out at the lower, enlarging the tunnel until the roof caves in and forms a gully.

Bond recently visited Anacapa Island, off southern California, which has no pocket gophers or ground squirrels. There he noticed many examples of what on the mainland might be regarded as rodent gullies. Sheep allowed to run on the island some years ago nearly stripped it of vegetation. In dry weather, long, wide cracks formed in the clayey, bare soil, and some of these, he thinks turned into gullies after heavy rains—instead of closing when the moistened soil expanded. One gully was roofed over for about 30 yards, and others were six feet deep or more and still eroding. In mainland areas with climate and soils similar to those of Anacapa, rodents may have been blamed for some gullies for which they were not responsible—gullies caused by the destruction of vegetation, or other misuses of land by man and domestic animals.

## Doorbell ringing—easy style

There's nothing mysterious about the way advertising works.

It's like the salesmen who go from house to house looking for customers.

Advertising does the same job on a larger scale.

It's quicker—reaches more people—at a lower cost per call.

In other words, it's a time saver, which means it's a money saver as well.

## Ford Preview Attended By J. B. Bishop

J. B. Bishop of the Bishop Motor company left Floydada Monday for Dallas where he attended the preview of the new 1942 models of Ford automobiles. The 1942 showing was the greatest display of Fords it had ever been his pleasure of seeing in one group. Mr. Bishop said.

The preview featured the new Ford Six which is their latest creation, and one of the newest cars I have seen," Mr. Bishop said in commenting about the show.

In addition to the new six the new V-8 was also one of the big attractions along with the new models of trucks, pickups and station wagons. Mr. Bishop has his showrooms in readiness for the new models, which he will have on display the latter part of next week and invites every one in this territory to come in and see the new cars.

He returned from Dallas Wednesday of this week.

## Rally Day Sunday Planned At First Methodist Church

A very interesting program in connection with Rally and Promotion day will be given by the children's division of the Methodist church, under the direction of Mrs. Lee Wilkinson, superintendent of the Children's division.

The exercises will begin promptly at 11 o'clock and will last about twenty-five minutes. The parents of all the children are invited to accompany them and hear their program of songs, readings, etc. The pastor's sermon will be short and in keeping with the day. Homer McDonald will present for the Men's Bible class a copy of the Bible to all the boys and girls graduating in to the Junior department.

The names of teachers in the Children's division are as follows: Beginners: Mrs. W. E. Grimes and Mrs. Jim Clonts. Primary: Mrs. S. W. Ross, Mrs. Claude Hammonds, Mrs. Edd Johnson, Mrs. J. B. Bishop, Junior: Mrs. P. F. Bertrand, Mrs. V. H. Boteler and Mrs. Verne Elliott. Mrs. L. L. Clark has charge of the Nursery, which has recently been redecorated and is being well furnished. All these workers with the children are helping promote Rally and Promotion day activities.

New literature will be on hand for the beginning of the new church school year, and certificates of promotion will be furnished all the children who are promoted to the next class above.

Friends and parents of the children are especially invited to be present and enjoy the day with the little folks and the juniors.

### Church Of The Nazarene

(Mrs. J. F. Bohannon, pastor)

The attendance of last Sunday was good and interest splendid. Special effort is being made to increase the Sunday school enrollment.

The annual church meeting was presided over by our District Superintendent, Rev. John L. Knight of Mineral Wells, the first of the week. Church officials for the coming year were elected. A bright outlook for the coming year is in evidence. We anticipate a good closing out of the present assembly year which year closes the first of November.

Services are as follows: Sunday school at 10 a. m. with Rev. J. F. Bohannon, superintendent. Preaching at 11 a. m. N. Y. P. S. at 7:30 p. m. with Mrs. H. E. Ferguson in charge of the young people. Preaching at 8 p. m. Prayer meeting at 8 p. m. each Wednesday night. Missionary meeting first and third Tuesday of each month. Mrs. D. L. Morse, W. F. M. S. president.

### City Park Church

All regular services next Lord's day as usual time. We are having a good many visitors. Why not you? "Come thou with us, and we will do thee good."

### Methodist Church

(R. T. Breedlove, pastor)

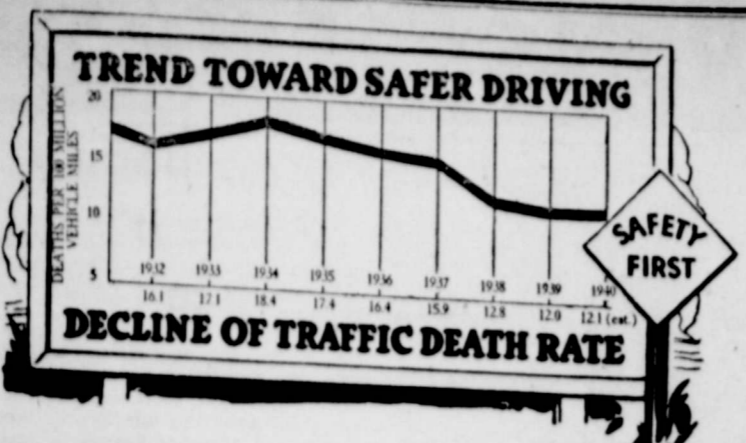

All regular services will be held Sunday, and an invitation is cordially extended to all who care to attend these services to make themselves at home in the church. They will find a real spirit of fellowship awaiting them. Really, the Church of God is the only institution in all the world where all classes (if indeed there are classes) and conditions of men can meet on absolutely equal footing before both God and men. Only the heavenly qualification of penitence, faith, and obedience to God is required, and that any man can have.

Rally and Promotion day will be observed with short exercises by the children of beginner, primary and junior ages will precede the sermon at 11 o'clock, to which all the parents and friends of the children are invited.

The pastor's sermon will be short and in keeping with the day. Dismissal will be before 12 o'clock. "I was glad when they said unto me, let us go unto the house of the Lord." "Come thou with us, and we will do thee good."

Invite your friends and your visitors to church with you next Sunday.

Mr. and Mrs. America can be proud of a marked improvement since 1933 in social trends affecting public safety. Reductions in the rate of automobile traffic fatalities, in deaths from alcoholism and in incidence of crime stand out among the improvements in the period since Prohibition was repealed. Basic statistical reports recently issued by governmental and other authoritative agencies provide the figures for analysis.

### WOMAN'S COUNCIL JOINS IN MOVE TO BUY BONDS FOR NATIONAL DEFENSE

The Woman's Council of the First Christian Church met at 2 o'clock p. m. Monday at Fellowship Hall. At a business meeting at which Mrs. Harry Morckel, president, presided it was agreed that the Council buy two defense bonds.

The lesson was taught by Mrs. J. C. Wester from the magazine "World Call". She was assisted by Miss Myrtice Meador who discussed "Little Sticks of Dynamite." Discussions were led by Mrs. O. P. Rutledge on "Bowls of Rice," and Mrs. Victoria Asher on "Women and World Highways."

Mrs. Hayes O'Neal of Mineral Wells came Saturday to spend two weeks with her mother Mrs. J. R. Maddox and her sister Mrs. J. G. Deakins.

Bobby Montgomery, son of Mrs. W. M. Dorsey, has enrolled at Hillsboro Junior college.

### Y. W. A. MET MONDAY FOR STUDY OF BIBLE

The Y. W. A. met with Lovelle Ginn for their Bible study Monday evening at 7 o'clock. The study was led by Mrs. Norman.

The Y. W. A. will be responsible for the program given at the Baptist church Wednesday, October 1, which will be the opening date for the Annual Week of Prayer for the Y. W. A. and W. M. S.

Those present for the meeting were Dorothy Nell Swinson, Leona Peck, Alene Warren, Margaret Camden, Maurice Burton, Josephine Britton, Lyndell Mae Glenn, Katherine McDonald, Modena Hartsell, Mary Frances Jones, Neida Fagan, Mrs. J. B. Houston, Mrs. Norman, and the hostess, Lovelle Ginn.

The next meeting will be with Neida Fagan at 7:00 o'clock p. m. Monday, September 29.

Mrs. Hayes O'Neal of Mineral Wells came Saturday to spend two weeks with her mother Mrs. J. R. Maddox and her sister Mrs. J. G. Deakins.

### CARD OF APPRECIATION

The words of sympathy, the beautiful flowers, and the help and kindnesses of friends during the illness and at the death of our wife, mother, daughter and sister, will ever be remembered by us. We want to express our appreciation to each and everyone.

C. S. and Charles Ray, The Brownlow family.

## Band Parents Organized Tues. Night

A meeting was called of the parents of the high school band members on Tuesday of this week.

Primarily, the meeting was arranged to get acquainted with Mr. Raillard, new director, and make plans for the year and forthcoming band trips. However, the group showed great enthusiasm for the band, and organized as a Band-parents Association before adjourning. Officers elected were Mrs. J. A. Arwine, president, and Lorin Leibfried, treasurer.

The organization has set aside the second Tuesday in each month, at 7:30 o'clock as a meeting date, and will meet at the high school building. All parents who are unable to attend the first meeting are urged to attend the next, which will be on October 13.

### Legal Notices

NOTICE OF HEARING ON PETITION TO ISSUE BONDS BY FLOYD COUNTY COMMISSIONERS' PRECINCT NO. ONE THE STATE OF TEXAS  
County of Floyd

TO THE RESIDENT QUALIFIED ELECTORS OF FLOYD COUNTY COMMISSIONERS' PRECINCT NO. ONE WHO OWN TAXABLE PROPERTY IN SAID PRECINCT AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that a hearing will be had at the Court House in the City of Floydada on a petition to the Commissioners' Court on the proposition of issuing the Bonds of said Commissioners' Precinct No. One in an amount not to exceed One Hundred Twenty Five Thousand (\$125,000.00) Dollars, as more particularly set out in order fixing the hearing as follows:

"AN ORDER  
FIXING THE TIME AND PLACE OF HEARING ON THE PETITION FOR THE ISSUANCE OF BONDS BY COMMISSIONERS' PRECINCT NUMBER ONE OF FLOYD COUNTY, TEXAS.

WHEREAS, there came on to be considered the petition of J. M. Willson and 53 other persons, representing themselves to be resident, qualified electors of Floyd County Commissioners' Precinct No. 1, who own taxable property in said Precinct and who have duly rendered the same for taxation, praying that this Court order an election in Commissioners' Precinct No. 1, of Floyd County, Texas, to determine:

"Whether or not the bonds of said Commissioners' Precinct No. One shall be issued in an amount not to exceed One Hundred Twenty Five Thousand (\$125,000.00) Dollars, bearing interest at a rate not to exceed 3 1/2% per annum, payable semi-annually, and maturing at such time as may be fixed by the Commissioners' Court, serially or otherwise, in not to exceed 25 years from the date thereof, for the purpose of construction, maintenance and operation of macadamized, gravel or

paved roads and turpikes or in aid thereof throughout Floyd County Commissioners' Precinct No. One, including a farm to market road from Highway No. 207 to the County line towards Petersburg, Texas; and whether or not ad valorem taxes shall be levied annually on all taxable property in Commissioners' Precinct No. One sufficient to pay the annual interest on said bonds and provide a sinking fund sufficient to pay the bonds at maturity.

WHEREAS, it appears to the Court and is so adjudged that said petition is signed by at least fifty of the qualified electors who own taxable property in Commissioners' Precinct No. 1 of Floyd County, Texas, and who have duly rendered the same for taxation; and

WHEREAS, said Commissioners' Precinct No. 1 of Floyd County, Texas, has heretofore been legally created by order of the Commissioners' Court duly entered on the day of August, 1938, which order is of record in the minutes of the Commissioners' Court in Book 7, pages 355, et seq.

BE IT ORDERED BY THE COMMISSIONERS' COURT OF FLOYD COUNTY, TEXAS:

1. That a hearing shall be had by this Court at the Court House in the City of Floydada, Texas, on said petition on the 6th day of October, 1941, which date is not less than fifteen days nor more than thirty days from the date of this order.

2. The Clerk of said Court shall forthwith issue a notice of time and place of hearing which notice shall inform all persons concerned of the time and place of hearing and of their right to appear at such hearing and contend for or protest the ordering of such bond election.

3. Said notice shall state the amount of bonds proposed to be issued and shall describe the Precinct by its number and shall describe the boundaries thereof as contained in the order establishing the Precinct.

4. The Clerk shall execute said notice, posting true copies thereof at three public places within said Commissioners' Precinct No. 1 of Floyd County, Texas, and one at the Courthouse door of the County. Said notice shall be posted at least ten days prior to the date of hearing. Said notice shall also be published in a newspaper of general circulation in the Precinct if a newspaper is published therein about 10 days prior to such hearing. If no newspaper is published in such Precinct then such notice shall be published in some newspaper in the County if there be one. The duties herein imposed on the Clerk may be performed by the Clerk in person or by a deputy.

5. Said hearing shall be conducted under the provisions of Chapter 16, Acts of the First Called Session of the Thirty Ninth Legislature.

6. The metes and bounds of the Commissioners' Precinct No. 1 of Floyd County, Texas, as created by the Commissioners' Court on the day of August, 1938, are as follows, to-wit:

Rev. Sidney Johnston preached here Sunday. It was the first preaching we have had since our meeting closed.

### Men's Clothing Trends Noted By Martin

J. G. Martin of the Martin Dry-goods has been exceptionally busy this past week with the arrival of his new fall merchandise. The showing of men's suits and new styles in felt hats are exceedingly attractive.

This fall will see a definite return to the regular ribbon band on felt hats, after several years of experiment with extreme novelty types and fabrics, according to Mr. Martin. One exception, the gabardine band, will continue a strong favorite through the fall.

The current trend of men's clothing for fall year seems to lean toward sports and tweed clothing. Also, woolpored, a hardwearing fabric in neutral colors is popular with single-breasted 3 button suits as well as one-button sports jackets.

SALES and SERVICE

**Smart Styling.**—Distinguished styling, characterized by a new massiveness, marks the new 1942 Chevrolet, introduced to the motoring public today. Shown above is the Special De Luxe Sport Sedan, a roomy, luxurious, six-passenger model. A new grille treatment, with integral parking lights, and the smart new elongated front fender, which sweeps back into and opens with the front door, are design highlights. Interior appointments are in the modern mode.

## New Chevrolet To Be Shown Here Friday

New massiveness, contributing to the smartest styling ever designed for the nation's leading sales volume motor car, characterizes the Chevrolet offering for 1942, according to company engineers. The new car is presented in three lines ranging from an economy model that incorporates unusual refinements to a luxury line surpassing all previous presentations in the lowest-price field, they declare.

As in past years, the new car is presented in the Master Deluxe and Special Deluxe series. The Fleetline series, introduced mid-season last year in sedan only, is represented again by sedan, known as the Sportmaster, and the Fleetline six-passenger Acrosedan, said to be one of the most attractively styled models in the entire showing.

Though wheelbase on all models is unchanged from 1941, remaining at 116 inches, stylists have set the over-all length at 195 1/2 inches, creating a long, low, sleek car that combines sweeping lines with a generally rugged appearance. Complete new front-end treatment does much to convey an impression of greater size and increased sturdiness throughout.

**Elongated Front Fenders.** A new, lower, wider, more massive grille gives an impression of bigness, while the blunter, deeper hood, front splash shield, and more widely spaced Sealed Beam headlights contribute to that effect. Greater length is indicated by the elongated front fenders, which flow back into the front doors, swinging with the doors as they are opened. An ingenious touch is the new foot scraper at the front running board step pad.

Because the successful Chevrolet engine developed for 1941 is retained with only minor refinements for the new year, power output remains virtually the same.

Much broader and deeper than before, the new hood extends back to the front edge of the front door, displacing the former cowl side panel and making a cleaner line. Hood side panels are integral with the hood top and are raised with it. Smart simplicity keynotes the hood louvers, which appear to be extensions of the body bolt molding, tapering out from that molding to a projection of about 1 1/2 inches at the hood front.

Headlamps now are 7 1/2 inches farther apart, with a total of 54 inches between them. Flush-type parking lamps have been relocated into the grille proper.

On the trunk, license light and trunk handle have been revised in accord with the theme of massiveness throughout. The trunk handle and its base form a shield with the license lamp on top.

Mechanically, only minor improvements and refinements are apparent with the chassis for all three lines remaining the same.

Chevrolet's time-proved hydraulic brakes now carry a mechanically operated stop-light switch, replacing the former hydraulic-operated device. The new switch eliminates all possibility of fluid leakage resulting from failure of the stop-light switch.

The unique vacuum-powered gear shift originated by Chevrolet and a Chevrolet feature through the past three years, is retained for 1942.

Of particular interest in the broad range of accessories developed specifically for 1942 models, is a new wheel disc, painted white, which creates an effect said to be strikingly similar to that given by white-side-wall tires.

### APPLE GROWN IN FLOYD CO. WEIGHS SIXTEEN OUNCES

An apple that weighed 16 ounces was brought to the Hesperian office Monday afternoon by Mrs. J. L. Montgomery. The fruit grew on a tree at the Montgomery home four miles North and three miles East of town. Two other apples, brought in at the same time, weighed 15 ounces and 8 ounces respectively.

Mrs. Montgomery believes this to be a record in the county, for size and weight. The apple measured 12 1/2 inches and 12 1/4 inches around. It has the shape and coloring of a Delicious variety. The tree was planted by Mr. and Mrs. Montgomery twenty years ago.

"I gathered two bushels of fruit from the tree this morning," Mrs. Montgomery said.

### AN APPRECIATION

We wish to express appreciation to friends who were mindful of our needs during the time of our trouble, the loss of our loving husband, and father R. J. Weems.

Your kindnesses and sympathy will be remembered by the family. Mrs. R. J. Weems and children, Milton Joe Weems, Mrs. Oliver Holmes, Mrs. Laune Gee, Garner Weems.

### UNDERGOES OPERATION

Jno. Edwards Smith underwent an operation for appendicitis Thursday in a Lubbock hospital. He is reported to be doing nicely and expects to be able to be brought home some time this week-end.

His wife and his mother, Mrs. G. R. May, have been with him a great part of the time during the past several days.

### PUNDT IN HOSPITAL

Mr. and Mrs. Polk Goen, R. B. Rosson, and Claude Goen, spent Sunday in Amarillo with Mrs. Polk Goen's brother-in-law, J. F. Pundt of Borger, who is undergoing treatment in the Veteran's hospital.

Mrs. Bill Fowler and daughters returned to Floydada Sunday from Mont Vista, Colorado where they have been the past six weeks. Mr. Fowler has been in Colorado at work on the construction of an R. E. A. line. He returned with his family and remained in Amarillo where he is employed by the Cox Engineering company.

Miss Allie Mae Tipps, Farm Security supervisor of Motley county, Matador, spent the week-end with Mrs. J. A. Burrus. Miss Tipps was transferred from Floyd county to Motley county last fall.

Mrs. Floyd Simpson and sons, Lannie, Tony and David Dale of Eunice, New Mexico, returned home Sunday after spending the week here with her parents, Mr. and Mrs. C. P. Looper.

Mrs. Oscar Brown of Amarillo returned home Sunday after spending several days with Mr. and Mrs. H. K. White. Mr. Brown was a guest in the White home Sunday and accompanied his wife home.

Mrs. Aubra Martin and sons Bobby and Kent of Lubbock returned home Tuesday after spending several days with her parents, Mr. and Mrs. S. E. Duncan.

Miss Evelyn Groves, daughter of Mr. and Mrs. Ralph Groves, went to Wichita Falls last week where she began work on Friday at the White Auto stores.

## Boys Are Taking It, Says Mahon After Trip

WASHINGTON, Sept. 22.—George Mahon, congressman from this district, was back in his Washington office this week after having spent three weeks visiting in various portions of his district.

Early last week while enroute to Washington, he visited army maneuvers in Louisiana where a half million soldiers are engaged in mock warfare for the purpose of increasing the efficiency of our armed forces. Mahon said he saw a few of the enlisted men from the 19th Texas district.

In commenting on the maneuvers, Mahon said that the West Texas boys were measuring up to their full responsibility. "It is not a pleasant task for the boys to face the severe hardships occasioned by the maneuvers," he said, "but I can testify from observation that the boys can really take it. The thing that impressed me most was the physical toughness and the high moral quality of the men. The modern youth does not lack the physical stamina and the hardihood of his predecessors.

"The soldiers are the ones, and about the only ones, who are making real sacrifices for national defense. They deserve 100 percent cooperation from labor and capital and from the people generally."

Mahon is a member of the War Department Appropriations committee, and he visited the maneuvers in company with Army officials and other committee members.

Mr. and Mrs. Harold Berry of Brownfield spent Sunday with his parents, Mr. and Mrs. C. L. Berry.

Mr. and Mrs. John Gamble and daughters Barbara Sue and Patricia Ann of Lubbock, were guests of his sister, Mrs. Virgie Shaw and Mr. Shaw, Sunday.

## Needy Children Applications Being Taken

J. E. Collier, representative of the State Department of Public Welfare last week began taking applications for aid to dependent children, and announced that he will be in his office in the court house Wednesdays to take such applications.

Parents or relatives of dependent children should call at the office in the county courthouse where they can talk with Mr. Collier who will be prepared to explain requirements and assist in filing the application. Children need not be taken to the office since a local worker will visit the homes at a later date to see the children.

For a child to be eligible for aid to dependent children under the laws of Texas, the child:

- Eligibility Requirements**
- (1) Must be a citizen of the United States.
  - (2) Must have resided in Texas at least one year preceding the date of application; or must have been born within the state within one year preceding the date of application provided the child's mother had resided in Texas at least one year preceding the child's birth.
  - (3) Must be under the age of fourteen.
  - (4) Must be deprived of parental support or care by reason of one of the following factors: (a) death of a parent, (b) continued absence from home on the part of a parent, (c) physical or mental incapacity of a parent.
  - (5) Must be living with his father, mother, grandfather, grandmother, brother, sister, step-father, step-mother, step-brother, step-sister, uncle or aunt in a place of residence maintained by one or more such relatives as his or her home.
  - (6) Must be in need. This is defined as not having sufficient in-

come or other resources to provide a reasonable substance compatible with health and decency.

The program is not designed to provide for all needy children but only those whose need comes from being deprived of parental care and support.

Some of the reasons which will qualify a child for state aid are death of a parent, providing the survivor is not remarried, continued absence from the home for such reasons as imprisonment, desertion or abandonment or divorce and the physical or mental incapacity of a parent that restricts occupational activity.

Mr. Collier's office is handling in addition to the needy children applications, also applications for needy blind and for old age assistance. It is his belief that first payments on approved applications for needy children will not be received before November.

### NEW BILL OF RIGHTS FOR A LASTING PEACE

There are eleven basic rights of men in the Declaration of Rights that famed author H. G. Wells offers in a recent article. These, plus the tried and tested institution of a consolidated opposition, "dovetail into the plan of creative political action I am putting before you," he writes.

First is the right to live, "within the measure of these (natural) resources without distinction of race, color, or professed beliefs or opinions, to the nourishments, covering, and medical care needed to realize his (man's) full possibilities."

Second is the right of protection of minors. The third "right" is a duty a man's duty to the community within his belief and capabilities. "To perform no social duty whatsoever is to remain unfranchised and under guardianship."

The next five rights in the declaration are the right to knowledge, freedom of thought and worship, the right to work, the right in personal property, and freedom of movement. "A man may move freely about the world at his own expense so long as by his movement he does not intrude upon the private domain of any other citizen . . . he shall have the right to come and go wherever he chooses."

Personal liberty, so long as one does not forfeit it by illegal actions under the other rights, is another inalienable right under this declaration. So is freedom from violence. And lastly, in man is the right of lawmaking.

"The fount of legislation," concludes Wells, "in a free world is the whole people, and since life flows on constantly to new citizens, no generation can, in whole or in part, surrender or delegate this legislative power which is inalienably inherent in mankind."

### BOOM MISSES RURAL AREAS

We in Farm Security, C. B. Baldwin, the Administrator, told a Congressional committee recently, can best gauge what is happening to the neediest group of farmers through the operations of our rural rehabilitation loan program. Borrowers served by this program are typical of great numbers of farm people. What defense activity does to them and for them is important, since we can infer that it affects from two to three million other low-way. So far, only one inference has been possible: The defense boom has not yet made any substantial inroads into rural poverty. There has been no let-up in the demand for FSA assistance. Standard rural rehabilitation loans by FSA total about the same year as last.

## Kelly Selected As Assistant Coach Here

Assistant Football Coach Ernest Kelly will start duties with the Floydada High school Friday in time to be with the Whirlwinds Friday night in their game with Littlefield. He assumes the duties of Coach W. V. Hale, teacher of commercial law, economics and general science, who resigned last week to accept a position as line coach in the Phillips High school.

Mr. Kelly is a graduate of West Texas Teachers college and played four years football while there. His parents reside in Hale County. Speech Teacher Employed Miss Mary Lucy Shannon of Levelland will start work Monday as Speech and English teacher in the Floydada High school. She takes the place vacated by Miss Bert Ione Smith who resigned Tuesday. Miss Shannon is a graduate from Texas Technological college, Lubbock. She has been employed for the past five years as Speech and English teacher at Clovis, New Mexico. She is a candidate for her Master's degree, having completed all her work with the exception of her thesis.

## MORE WORK FOR SNOW PLOWS

When "summer people" take to skis and toboggans and become week ending "winter people" in the rural areas within motoring distance of eastern cities, they want the road-ploughed clear of snow. This new departure, the U. S. Department of Agriculture notes, tends to cancel one of the gains to local towns recognized as a result of the purchase by city people of small farms for recreational use in hot weather.

Reporting recently on a study of the economic effects of summer home buying in three New Hampshire towns about 100 miles from Boston, John C. Blum, of the Bureau of Agricultural Economics, mentioned that this development had helped maintain or increase property values in the town; had created local employment; had opened a local market for produce; and had helped maintain or increase the tax base and tax revenue without imposing the same demand for local service that continues in towns that have few "summer people." Summer residents pay taxes, but do not ex-

pect the towns to educate their children; they rarely contribute to the "relief" load; and in the past they have not called for snow removal on the roads to homes that are closed during the cold weather. Popularity of winter sports led to much week-ending in summer homes and to some increase in the cost to the towns of keeping roads open.

Mark Martin and L. P. Martin spent the week-end at Gainesville visiting relatives and friends. They made the trip by airplane.
