FLOYDADA, FLOYD COUNTY, TEXAS, THURSDAY, OCTOBER 16, 1941

NUMBER 36

## Non-Jury Cases In Dist. Court This Week

Non-jury cases and the grinding of the grand jury had right-of-way in the opening days of October in District Court for Floyd county. District Judge Alton B. Chapman is presiding and District Attorney John Hamilton of Madador is among the officers of the court here.

Empanelled Monday morning the grand jury was having many witnesses come before it Monday afternoon and Tuesday, indicating misdemeanor investigations under way. G. C. Collins is foreman of the grand jury, the other members of the body being Z. C. Cummings, Ewald Quebe, Carl Smith, J. V. Greer, W. N. Goode, L. G. Withers, L. C. McDonald, J. B. Smitherman, H. R. Hartman, Roy E. Smith, Sim Reeves.

Bailiffs are E. T. Hanks, N. E. Tyler, J. A. Fawver and Carl Rodgers.

It was indicated this week that non-jury cases ready for trial would be disposed of and that next week would see a lull in activities. In the week following the suit of Lockney Independent School district against Dorsey Baker is expected to go to trial on October 27. This suit is expected to require several days for trial with the state and county and the City of Lockney represented as intervenors.

A restraining order granted S. W. Hughes, of Brady, recently against Fred N. Clark as sheriff has been set for hearing on November 3. The order temporarily restrained the sheriff from executing an order of sale under tax foreclosure for the State of Texas and County of Floyd. On November 7 suit for foreclosure of the First National company of Lockney against J. S. Drennan will be heard. Cases disposed of this week include the following:

**Judgments of the Court**

Ebel Edith Roy vs. James Elmer Roy, decree of divorce granted plaintiff.

Mary L. Davis vs. A. B. Davis, decree of divorce together with custody of minor child.

Oneca Hurley vs. J. D. Hurley, decree of divorce granted.

Virginia Hammonds vs. Fred Edna Hammonds, decree of divorce granted.

Clyde Smith vs. Josephine Smith, decree of divorce and custody of minor children granted plaintiff.

First National company of Lockney vs. Albert J. Byars, judgment by default on foreclosure of note.

No petit jury had been summoned for next week when court recessed yesterday.

## Kind Weatherman

The weatherman was kind to Floyd county farmers this week, comparatively speaking, for although the north plains, lower panhandle, and all portions of country east and south had big rains, this particular area had dished out to it only one-tenth of an inch since Friday. Also in that time there were two bright, sunny days. And many thousand bundles of feed were above the caprock was in Crosby and in Brisco and Swisher counties. Plainview has had a half inch of rain. Spur 1 1/2 inches. Here 6 hundredths of an inch fell Tuesday and 3-hundredths Wednesday. Low temperature for the week Friday morning 42 degrees. This morning the low was 46 degrees. High for the week was on Monday when the 94-degree mark was reached.

## COUNTY HOME DEM. CHORUS MEETING SATURDAY AFTERNOON AT 2:30

The Floyd County Home Demonstration chorus will have its regular meeting for practice Saturday afternoon at the First Methodist church in Floydada. The hour for the meeting is 2:30 o'clock.

## Marine Corps Recruiters Here Monday

Two "Leatherneck" recruiting sergeants will be located in the post office building, Floydada, on Monday and Tuesday of next week, for the purpose of interviewing, examining and accepting applicants, who are unmarried and between 17 and 30 years of age for the U. S. Marine Corps. It was announced this week. Accepted applicants will be furnished transportation to Oklahoma City for final enlistment and transfer to the Marine Corps base at San Diego.

The recruiting sergeants are authorized to accept an unlimited number of men for both the four year and the "duration of the national emergency" enlistments.

## Once It Was Wheat—

Now It's Milk and Eggs—In 1918 wheat headed the list of farm products needed for national defense purposes. In today's emergency, however, the emphasis is on foods such as milk and eggs. There is plenty of wheat on hand—in fact, nearly a two years' supply is stored in the nation's Ever-Normal Granary. The U. S. Department of Agriculture urges that farmers, in planning for next year, hold down production of surplus crops such as wheat and at the same time expand production of defense foods needed today.

## Tires, Wheels Recovered This Week Held By Sheriff Who Asks Identification By Owners

Sheriff Fred N. Clark is seeking the owners of four automobile tires and wheels, which are admittedly stolen and have been recovered by him.

No identification of the particular tire and wheels have been given him by any automobile owners, but when proper identification is made he will be glad to restore them to their owners.

The property is being held at his office, the sheriff said yesterday.

During a period of some weeks a thief or thieves have been taking tires, wheels, gasoline and parts from automobiles, parked around town, some of them in private garages.

Two local youths, one living in Floydada and one in Lockney, are being held on charges in connection with the tires and wheels recovered this week, it was indicated. Four other boys are implicated in charges filed, two of them in connection with burglaries of Dixie Tavern and Huff's food store at Lockney.

## Mrs. Felty Died Sunday Morning At Lockney

Death has struck three times in as many months in the Felty family at Lockney. This time it is Mrs. Marvin Felty, 19, who died Sunday morning at 10 o'clock at her home in Lockney, seven hours after the birth of a son. The baby, Vincent Forrest, July Ezra Felty, father of Marvin Felty, was killed in a truck-automobile accident in Oklahoma. Just a few weeks ago A. J. Felty of the Irick community, a son of Ezra Felty, died.

Novella Frances Felty (nee Miller) was born September 28, 1922 and on June 22, 1940, became the bride of Marvin Felty.

Surviving are her parents, Mr. and Mrs. W. W. Miller of Lockney, a grandfather, J. E. Norris of Crowell, a great grandmother, Mrs. S. E. Norris of Hamilton, Texas, and her husband, Marvin Felty.

Funeral services were held at the Assembly of God church in Lockney at 3 o'clock Tuesday afternoon. Rev. C. A. Strickland, assisted by Rev. Eddie Strickland, officiated. Burial was made in the Lockney cemetery with the Roy G. Wood Funeral home of Plainview in charge of the arrangements.

## Whirlwinds Play Sat. Against Phillips High

### Club Will Travel To Oil Field For Non-Conference Tilt

Coaches Murray and Kelley will take their Floydada High School Whirlwinds all the way to Phillips Saturday for their game of this week, and expect there to find a fast, sturdy team of youngsters who play a helter skelter sort of game with a fair record against good Class A teams. Beaten by McLean early in the season the Black Hawks took Chillicothe in District 5-A by a score of 7 to 0.

The game will be played Saturday night because of a class AA game Friday night at close-by Borger.

Murray said this week he would get his boys transported to the game in cars. A bus trip to so distant a point would require too many hours, he thinks. Phillips is approximately 150 miles away.

**Friday an 'Open' Date**

This week was planned before the opening of the season as an "open" date for the Whirlwinds, but when the club failed to get in their season opener with the Slaton Tigers, officials began to look around for a date this week.

The game at Phillips will be non-conference but is expected to be a good lesson for the team in competition against a good brand of double wingback football. Coach W. V. Hale, who left Floydada high early in the season to go to Phillips as assistant coach and teacher, will be one of the few familiar persons the boys will see at Phillips.

Only a handful of local fans will be able to take the half-day and make the long trip to see the youngsters do their football chores.

Approximately the same starting line-up will be used this week-end as started last week, said Coach Murray. His boys all came through the Ralls game with little or no injury. Sparks is still out at end, but otherwise the team has come through the five-week campaign today getting in better condition every day. In addition to daily scrimmage the boys are having to do a lot of running this week.

**Ben Ayres Given Army Discharge Last Week**

P. M. Blair, also riding in the car was treated but was able to go to his home. The car overturned and was badly damaged.

**Primitive Baptists To Meet Saturday And Sunday**

Elders H. G. Richards and A. W. Pyron will be in charge of the meetings. The public is cordially invited to attend these services, is the invitation from the church.

**China Aid Fund Still Shy Of \$150 Goal**

The United China relief fund, goal for which is \$150 in this vicinity, had reached a total of \$45 Tuesday night. Geo. M. Finkner, chairman for Floydada, said yesterday.

Aid of local club leaders is being used. "We are getting along nicely, the response has been satisfactory among those seen," Mr. Finkner said. "However, we need more money and we ask that when you are seen by any of the committeemen you contribute as liberally as you can."

The relief fund will be used, along with other funds assembled in Texas, to relieve war sufferers in China.

**GOOD GOVERNMENT LEAGUE MEETING CALLED FOR SATURDAY AFTERNOON**

A meeting of the Floyd County Good Government league has been called for Saturday afternoon at 2 o'clock, T. G. Black, secretary of the organization, said this week.

Their swine were awarded second and third in the breeder's young herd division, in get of sire and in produce of dam. Their fat barrow placed third. They won a total of \$80.50 for their efforts in showing the swine.

Jason O. Gordon, county agent of Floyd county, was general superintendent of the livestock division of the fair.

## Donathan Small Son Buried Here Yesterday

Death preceded by several months illness brought to a close the life of little De Etta Donathan, Tuesday night, at his home in Amarillo. The little boy was the son of Mr. and Mrs. Richard Donathan, grandson of Mrs. C. D. Hart, and Mr. and Mrs. F. P. Donathan, pioneer residents of Floyd county.

Funeral services were held Wednesday afternoon at 4 o'clock at the First Baptist church with the pastor, Rev. L. A. Doyle assisted by Rev. W. A. Fox of Amarillo and V. J. Lowrance in charge. A Floydada quartette composed of Faye Hart, H. L. Sims, Earl Rainier and C. M. Lyles assisted in the service.

The deceased was born in Floydada November 24, 1934. His family moved to Amarillo in the summer of 1939. One sister Cordelia, age of three, survives.

Harmon Funeral Home attendants made the trip for the body and had in charge of interment in Floydada cemetery. Pall bearers were Cager Carmack, L. G. Withers, Walter Hollums and Cecil Hart.

## EDGAR JONES CONTINUING IN BUSINESS, ADDS FRUIT AND PRODUCE

Edgar Jones of the Jones Market, which has occupied the building at 117 West California street with Williams grocereria, is continuing in business as usual.

W. E. and Vyrion Williams last week closed their grocery and plan to enter another line of endeavor. The Jones market is adding fruits and produce to their market line and will continue their free delivery service, Edgar Jones has announced.

## Grasshopper Infestation Threat To Early Wheat; Insects Lay Eggs Over Wide Plains Area

Grasshopper infestation of Floyd county soils continued as a threat this week to early-planted small grain crops, and many wheat growers are doubtful whether they will plant until after freezing weather or frost has slowed up the insects.

Meanwhile hoppers are laying eggs in fresh plowed land as well as in prairie lands and in fence rows, making a double menace except in cases where the land will be turned again before planting.

Jason O. Gordon, county agent, this week said that the poison bran plant is still in operation at the Floydada station and that farmers who want to carry on poisoning operations can get poison bran here. A few farmers who have been using the bait have been reporting fair to good luck with the hopper horde while others have not been so fortunate, Mr. Gordon said. "One

## Captain Jenkins Reaches Home Shores Again

Captain Dan Jenkins, of the Army Air corps who left the United States on August 19 for the British Isles to spend some weeks as an observer of air combat in England, is safely home again.

No information further than a telegram telling that he had reached America was contained in a message yesterday to his parents here, Mr. and Mrs. J. B. Jenkins. The wire was sent from Washington, D. C., where it is assumed, he was reporting.

At the time of his departure for England by air from the Newfoundland coast, the information was a strict secret and not until his arrival in England were his parents permitted to make it known that he had gone abroad. Slated for the work of observation several days before his final departure he was ill enroute and was confined to his bed on the Newfoundland coast for several days. It is believed he is one of several army air men who have been sent on an observation mission to the scene of the air battles over the English coasts, during recent months.

## Carmack Buys Sole Interest In Produce Business

A deal was consummated this week whereby Cager Carmack assumed the interest of J. V. Jones in the produce business operated under the name of Carmack and Jones.

# EDITORIALS

Reports have it that a considerable percentage of the boys who have served their year and odd months in military training are going to get out sometime this fall, and will be returning to fill the gaps in industry. Most of them, according to present outlook, will find jobs waiting for them. But Selective service officials are anxious to see that all get jobs and are punching the local people in all counties urging that they organize to see that the boys who had to quit their jobs and professions of one kind and another get them back or others equally as good.

Of the men in arms now, nearly fifty per cent are at home on furlough, following their experience in Louisiana maneuvers. After their visits the other 50 per cent will get to come home. The whole business of furloughs is expected to be over. One of the camp rumors is that Texas troops will go to South Carolina for some more training in the field. What kind of a battle the troops who have come out of Louisiana could put up with Hitler's trained men is one of the interesting things the boys speculate about, the consensus of opinion among the boys being that our armies need a bit more "edge" to cope with a similar army trained in Hitler fashion. We are learning though, the privates and corporals say. What the big shots are thinking a newspaperman in Floydada would not have the opportunity of knowing. In our ignorance we imagine that privates of the type that Floyd county has been sending to the training camps have got the situation sized up pretty fairly and can give a sensible opinion in half as many words as a general.

Boys in the camps will get their discharges on the basis of their domestic and industrial status and their ages principally. A buck with no dependent folks, unmarried, who had a job on the farm or in the small town, and is now around 21 to 23 years old, is going to be the last to get out. The best we can find out not many of them are interested in a military career as such. They want to "do their part," whatever that may be, and then be done with military life. Mr. Hitler is the man who will have more to say about that than anybody else probably. But Hitler or no Hitler it would seem the United States is committed for a long, long time to a state of better military preparedness than has ever been the country's policy in the past. It is one of the unfortunate facts that goes with mechanized warfare. A man cannot learn it in a few months. Squirrel rifle days and a million men leaping to the defense of their country overnight are of the past. A million American men, we once thought, could reach up over their door facings, fetch down the deer slayers and whip anybody's army. A bitter truth we have had to learn is that this is no longer true.

District judges who met early last month to study the new rules of procedure which have been set up in Texas, for the first time in the state's history had their chance to see each other en masse as it were and size themselves up. Of the more than 120 district judges in Texas probably not more than a dozen had ever been in an assembly together. But in this meeting the whole state was represented,—south, east, north, west—and all intent on one thing, simplifying the procedure of the courts. Of course the higher courts and including the supreme court were well-represented. Some of those who attended came away deeply impressed with the bigness of the new undertaking—reform undertaken by the judges and the members of the bar themselves. Quicker, fairer trials the judiciary confidently anticipates as the principal net result of the new plan, but the big meeting of judges with judges was one of the by-products that was most, most interesting.

For a good many years taxpayers have been told that taxes in the United States are far lower than in England. But now comes a statistician who says that, counting the new income tax statute along with the various kinds of excise and sales taxes which have been in effect, the American taxpayer will pay in 1942 a higher tax than his similarly-situated neighbor in the British isles. While the exact situation, due to the difference in taxing methods, cannot be got at perhaps, a lot of the tax that we pay comes in the form of excise and taxes on sales (like on tobacco and on gasoline) and when the income tax rate in England is compared with the income tax rate in this country, the difference can be figured as coming out of these taxes that are collected at the factory or at the filling station and looked upon mistakenly as a part of the cost of the article instead of cost plus tax.

Grasshoppers are laying many eggs from one end of the panhandle and south plains to the other this month. Eggs by the million are being laid in Floyd county, landowners say. What this means next spring can't be said, of course. If the winter and spring months are favorable to the hopper eggs there'll be a crop of young ones the like of which one has seldom seen. Right now the mature hoppers, fortunately not the jumbo kind, are eating lots of volunteer wheat and are not letting any new tender wheat come to a stand. Presumably they will live into the period of the first frosts and maybe a while longer. Wheat men are taking different slants on the situation. Some are going to plant the first day they can get into the fields, others are going to wait, we hear.

If you meet a man and make a dollar off him, you may have made a deal that was profitable for both. If you meet a person and leave him with the idea that there is a little bit more goodness and decency in the world than he had imagined, you have increased the world's fund of good will. I do not know of any pleasure so lasting as this.—Rev. J. W. Holland.

Taking everything into consideration, now is the time for the Southern farmer to make money with livestock. Chickens are particularly adapted to the South because one can get into the business quickly with a minimum of capital.—D. F. King, Poultry Editor.

**EVERYBODY HAS THE 'HARDEST TIME'**  
With a few notable exceptions, a bout enough to prove the rule, people in every line of endeavor think they have the "hardest time." Newspaper men are not any exception, and having the run of the public prints and sometimes fancy free they get their complaints on paper oftener than other craftsmen or professionals. An old piece of doggerel that has been going the rounds so long it has whiskers reminded us of this. It goes like this:

A newspaperman knocked at the Pearly Gate; His face was scarred and old; He stood before the "man of fate" for admission to the Fold.  
"What have you done?" St. Peter asked, that you should enter here?" I've been a newspaperman, sir" he replied, "For many and many a year."  
The Pearly Gates swung wide, and St. Peter touched the bell, "Come in" he said, "And choose your harp, you've had a taste of hell."  
As a matter of fact a newspaperman who had time to write that creed must have been having a pretty easy time of it,—not much on his mind. To make it apply to your own case substitute farmer, banker, doctor, preacher, or whatever it is you are and you'll think it is a "mighty fine piece of poetry."

### As A Farm Woman Thinks

Nellie Wilt Spikes

For the last several years, I have looked forward to meeting a certain lady. From the day I found a letter on my desk addressed in a clear neat hand, and read its interesting contents, I knew I would like the sender. The other day in Floydada I met this charming woman. She is Mrs. Callie V. Wolfe of Alexandria, La. Still young in view points, still eager for the friendships of young and old. She brought me the only native rock in Louisiana. It is from Clear Creek, a stream that flows from the back waters of that state. Thank you, dear lady.

While the chow-chow simmers and the pear preserves finish cooking, gives a little time to put one's thoughts down on paper, but the worst thing about it is the thoughts seem to be only on the cooking. Today is a lovely day. The strong wind is sweeping the mud and water away. The farmer has taken new heart and is out seeing what he had better do first. There is so much to be done. Sunshine and dry weather will pop open the cotton. Soon the fields will look like long white sacks going down the row by themselves as the pullers are hidden by its full folds.

Big yellow heads of maize will hit the throw boards of moving wagons pulled by horses filling up on every head they can snatch. Heaped bundles will fall from moving binders then set up in straight rows looking like the Indian tepees that once covered the plains.

The McCoy gin has taken on the appearance of a steamboat. The hazy weather, the mirage the battle gray of the gin the tall smoke stack smoking and the shimmering of the horizon make it look as if a ship was steaming up a broad blue river.

Summer has passed. The blue haze on the canyon hills has taken on a tinge of purple. The ash trees in our yard that were so shiny green all summer now wear a dress of cloth of gold. Leaves are beginning to fall and sweep across the green lawn making patterns of gold and brown. Ducks tired from rising and falling on the waves of the lake, sit on the shore oiling their feathers and thinking, if a duck thinks and I believe they can, of how good the farmer's maize will taste at night.

This is dahlia time, chrysanthemum time and cosmos time. As these beautiful flowers are cut and brought in the house, the roses we gathered last spring do not seem the loveliest of flowers as we thought them. The dahlias raised from seed are all in bloom and are as pretty as the ones grown from tubers. Remember next spring to plant a few papers of dahlia seed.

There were lots of fine exhibits at the Lubbock fair, but most two grandparents saw was a small boy almost three riding little cars, turning the steering wheel as if a practiced hand going around a rail road track in a car behind a puffing engine or looking at monkey's in a show.

This may not be new to me but it is the first time I have heard it. Diplomacy. The conversation had turned to the subject of fraternal organizations. This went on till one of the ladies, who hadn't been especially interested, became bored with the whole thing. Suppressing a yawn, she remarked, "Well, I don't know anything about the Masons, but I do think their fruit jars are very nice."

### FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

(Issue of October 13, 1927)

W. M. Colville & Son local contractors, began Monday morning paving the intersection of Mississippi and Wall Streets. If good weather continues this week, the paving project will probably be completed by week's end.

Winners of the prizes in the three divisions in the Floyd County Fair were Harmony, in the community division, and the 1922 Study Club in the organization division.

Members of the Mc Dermott Post American Legion of this city had a royal good time Tuesday night when they were guests of the Ray Blackmore Post at Plainview. A mock trial, the feature of the evening's program, proved most entertaining to the many guests present. A. J. Polley of this city assisted the defense council, John Regan was one of the star witnesses, and C. H. Davis and J. E. Dickey were jurors in the case.

Proff that the big railway, gas and other utilities and public service corporations which are spending their millions in Floyd County are not bringing in all the new wealth, is graphically shown by the tax rolls of County Assessor C. M. Meredith recently completed and approved by the Commissioners' Court, the cold figures of the tax rolls showing that on the same basis of valuation as in 1926 the increase in taxable values in the county in the twelve-month period is \$579,880.

Floyd County with an exhibit at the State Fair that was unusually good, scoring practically perfect on many of the points, won fourteenth place with a score only fifty-six points under the winning county, a telegram from Ed Bishop, in charge of the exhibit, to the Hesperian late yesterday indicated.

Know when to speak a word of hope  
Or add a little wholesome cheer.  
That tempered winds may softly blow  
Where little children, thinly clad,  
Sit dreaming when the flame is low  
Of comforts they have never had.  
That through the year which lies ahead  
No heart shall ache, no cheek be wet.  
For any word that I have said  
Or profit I have tried to get."

### LISTENING TO THE CHORUS

It is early forenoon and autumn chill  
Pervades the air, leaves rustle at my feet;  
Belated petunias blossom, their perfume still  
Is upon this crisp November air, and sweet.

I listen to the chorus of meadow larks gay,  
Merry-hearted creatures with breasts of yellow;  
"If you aren't happy, just try," they seem to say,  
While singing in tones rich and melow.

Autumn leaves and sprigs of sere grass foretell  
The approach of winter, deep snows and skies of gray;  
Do not leave us feathered songster, stay and swell  
The chorus; cheer us each and every wintry day!

—Anne Dodson Buck.

### CLOUD PICTURES

Clouds of every color  
(Rainbow colors and more)  
Painting pictures on the sky,  
After the rain is o'er.

"See over there, that monster,  
Huge and black as night,  
Reared up against a mountain  
Of clouds, all snowy white?"

"And there in that downy valley,  
That must be flowers we see;  
For it's gold and pink and violet,  
It's as plain as plain to me."

Oh, happy child-hood hours  
Watching the clouds on high,  
Ever moving, ever changing,  
Painting pictures on the sky.

## Renew Drivers Licenses In Relays

Really No Need To Stampede, Says Head Of Texas State Police

AUSTIN, Oct. 10.—Nearly half the people in Texas are in a stampede for new drivers licenses beginning October 1.

There's really no need to get in a hurry about it, State Police Director Homer Garrison explained today. From October 1 until December 31, old licenses numbered from 1 to 450,000 will be renewed.

From January 1, 1942 until March 31, those numbered from 450,001 to 900,000 will be renewed.

Those numbered from 900,001 to 1,350,000 will be renewed between April 1 and June 30.

Any license numbered from 1,350,000 upward will be renewed between July 1 and November 1.

Here's the procedure for getting your new license:

Obtain an application form from any Highway Patrolman or Drivers License Examiner, or by writing directly to the Department of Public Safety in Austin. The forms also will be available from police and sheriff departments, banks, and other public places.

Either print in ink or use a typewriter to fill out the application, enclose a 50-cent money order or cashier's check with it, and mail it directly to the Department of Public Safety, Austin. The new license, good for two years, will be mailed to you from Austin.

Persons renewing licenses will not have to take an examination unless they have a bad record of traffic violations or collisions.

But if you fail to renew your license in the stipulated time, you will be liable both to arrest for driving without a license and an examination.

Freezer Lockers Becoming More Popular

"Safety deposit boxes" for foods are on the increase. The fourth annual count of frozen food locker plants reported by the Extension Service of the U. S. Department of Agriculture for July, 1941, showed a total of 3,623 plants open in 45 states. Maine, Rhode Island and Nevada are the only states reporting no lockers as yet. The average increase since 1938 has been 785 locker plants a year. Nearly 12 percent of the plants are cooperatives.

Some sections feel that they now have enough locker facilities to meet current patronage needs. In others, notably in California, Texas, Mississippi and Kansas, the rate of construction of new plants has kept rising. The East and Southeast still have the fewest lockers per state. Iowa leads all states, with 475 locker plants.

Individual farm families use frozen food lockers for storing home-grown meats, vegetables, fruits, eggs and other products, prepared and packed so they can be taken out rapidly when wanted. The frozen foods provide greater variety and vitamin-value in the winter diet of these families, says K. F. Warner, Extension meat specialist. Also the family need not spend so much cash for food. Where the farm homemaker used to can most of the foods she carried over for winter use, she now saves herself the trouble of canning by putting surplus supplies in the "safety deposit" food locker.

## Winter Driving More Hazardous; Car Should Be In Good Shape

At its best winter presents many hazards to motorists. Extreme temperatures, dampness, slippery roads and streets all add to the dangers of winter driving.

Because of the fact that this section usually experiences unusually severe winters, motorists in Floydada and surrounding communities are urged to do all they can to reduce winter driving accidents.

Obviously this means the use of extra precautions during the winter months. Darkness closes in early in the day during the winter. Motorists are urged to drive slowly and not take any unnecessary chances. It is vitally important that the car be in perfect condition and completely

under control every minute.

Because extreme temperatures reduce the operating efficiency of any mechanical device it is wise to take every care to see that the car is protected insofar as possible against cold. Batteries should be charged to insure quick starting and to provide for the extra strain a cold motor causes.

Some anti-freeze agent should be kept in the radiator. Brakes should be properly looked after and tires should not be allowed to become smooth and worn. It is sometimes advisable to keep a little less air in the tires during wet weather so that the tire will have more surface rest-

ing on the ground. Proper lubrication is of prime importance. In addition to the oil in the crankcase which should be of winter weight, the grease should be changed to winter weight to make operation of the car easier.

Windshield wipers should be tested and put in condition, fuel, oil and water pumps checked. Graphite to the door locks will protect them against freezing. Winter is almost here. Drive with care and be sure your car is in good condition.

Mrs. Will Williams spent last week-end in Wichita Falls with her sister, Mrs. James Thomas and family.

R. M. Rankin of Waco returned home Monday of last week after spending a week with his son, W. B. Eakin and family.

## RAY M. COLEMAN WRITES FOLKS ABOUT ARMY EXPERIENCES

Ray M. Coleman, son of Mrs. Ola Jester, city, who has been in army maneuvers in Louisiana along with other southwestern soldiery, writes his family here from Camp Polk telling of some of his experiences as follows:

"Well, I have finally got settled again. I have been all over East Texas and Louisiana since I was at Camp Wallace at Galveston. I have been having a big time. We have been out working out problems of our own. We are going to North Carolina the 8th of next month on maneuvers.

"I was glad to hear that they had some good crops out in there this year. I wish I was there.

"I quit driving a truck and started driving a Half-Track. I have three machine guns, one a 50-calibre

and two 30-calibre, and I have one of those tommy guns for my own use. The captain, first lieutenant, top sergeant, radio operator, and two machine gunners ride with me. I drive the leading vehicle for C company.

"When we go to North Carolina I will try to borrow a Kodak and take some pictures and send you.

"Well, it is about 'Chow' time and I am on table waiter duty so I had better get dressed and get over there. Some of the boys have already gone.

"I am going to try to get out of here before Christmas, and if I don't I will be home Christmas. The captain told me he would give me a furlough then."

Ray went into the service on June 13 at El Paso.

# Which Is The Most Economical

## Both of These Pictures Were Taken From The Same Corner In Precinct No. 1

THE PEOPLE of Commissioners' Precinct No. 1 will be called upon to vote on Road Bonds for the Construction and maintenance of hard-surfaced roads on November 8.

This vote will be participated in by the qualified voters who are property taxpayers.

The order of the Commissioners' Court entered last week calls for a sum not to exceed \$125,000 and for an interest rate not to exceed 3½ per cent.

People of the Precinct should give the matter careful consideration and we feel sure they will.

People of the Precinct should seriously consider the matter of Economy and whether the investment would earn a return on the Investment they will make.

Believing that Hard-surfaced roads are a good Investment for any community and that any reasonable sum spent in getting to market and to a trading center is money well-spent, we urge the People to consider the BIG SAVING that would result in the cost of Hauling to and from Market if roads that can be used the year-round are built.

This year has been an unusual one and the cost to the Owners of Automobiles, Trucks, Pick-ups and Tractors has been far, far heavier than the proportionate part of the interest bill on good roads would have been had the roads been in operation.

ANY FARMER who has had to get to town for parts, or for any of the 101 things that a man has to go to town for realizes the damage to his Trucks, et cetera, has been many thousand dollars this year.

But, even in dry years the saving that can be effected with hard-surfaced roads instead of the dirt roads will run a great deal more than the cost of roads that will be in striking distance of every farm in the precinct.

It is true that we will still have some roads that are not paved when this \$125,000 is spent but every mile that is built will put every farmer just that much closer to market and to that much less expense in hauling and in travel.

Good roads in the district, even if they do not get to your door or my door, will cut the average haul of every farmer in the precinct (in time and in cost) at least one-half.

Good roads will increase the value of our farms to us because they will put us closer to market. They will increase the value of our hogs, our cattle, our cream and eggs because good roads will make it possible for us to get to Town the DAY WE NEED TO GO.

In other counties in Texas Farmers are finding the Hard-surfaced roads money-makers—not money losers nor money-wasters. Floyd county farmers who are close to some of the hard-surfaced roads we already have can testify to the same fact.

Consider seriously before you vote against the Good Roads Issue in this county. Vote for Economy in the operation of your Cars, Trucks, Pick-ups and Tractors

(This advertisement favoring the Good Roads Bond Issue in Commissioners Precinct No. 1 sponsored and paid for by R. L. Stringer and others, who believe that Good Roads mean Economy.)

May in the Baker community. Rev. R. T. Breedlove, pastor of the Methodist church, performed the single ring ceremony in the presence of more than a hundred friends and relatives.

Vows were exchanged amid a natural setting of shrubs and garden flowers before an improvised altar with a background of white lattice, entwined with red dahlias, roses and fern. Tall white baskets placed on either side of the altar were filled with yellow, bronze and orchid dahlias. The garden was banked with fall flowers.

Pre-nuptial music included two piano solos, "Ah, Sweet Mystery of Life" (Herbert) and "Indian Love Call" (Primi) played by Miss Virginia Belle Gamble of Lubbock, cousin of the bride, who accompanied Mrs. A. E. Gamble of Lubbock, also a cousin of the bride, who sang "Because" (d'Hardelot) and "At Dawning" (Caldwell). "The Wedding March" from Wagner's "Lohengrin" was played by Miss Gamble as the processional and "To a Wild Rose" (MacDowell) was played softly during the ceremony.

Her finger-tip length veil of bridal illusion fell from a coronet edged in lace and held in place with orange blossoms. She carried a shower bouquet of tube roses arranged with white satin ribbon and tufts of tulle.

For "something borrowed" the bride wore a necklace of real pearls belonging to her cousin, Joy Holloman of Slaton and for "something old" a rose point lace handkerchief that belonged to the late Mrs. W. L. Boerner and carried by the bride's mother at her wedding twenty-eight years ago.

Little Patsy May Holloman of Slaton, cousin of the bride, was ringbearer and carried the band in a lily. She wore a frock of ivory satin.

Mrs. May, the bride's mother, wore a floor length dress of black satin and a corsage of variegated dahlias, tied with orchid ribbon.

**Reception Follows**  
After the ceremony, a reception was held on the lawn. The lace-covered table was centered with a three-tiered wedding cake, topped with bride and groom and wedding bells, and circled with tiny dahlias in pink and white, the bride's chosen colors. The bouquets of the bride and her attendants were placed on the table while the guests were being served.

Mrs. A. N. Gamble of Lubbock, aunt of the bride, wearing a blue lace dress, presided at the punch bowl. After the first slice of cake was cut by Mrs. Cardinal, her aunt, Mrs. W. L. Holloman of Slaton, wearing a black satin gown, served the guests. They were assisted by Mrs. David Flowers of Amarillo and the brides attendants, Mrs. W. B. May of Colorado City, sister-in-law of the bride, presided at the guest book.

**Will Live at Slaton**  
When the couple left on their wedding trip, the bride was wearing a brown tailored dress of rabbit's hair wool with brown accessories and a pink coat and a corsage of tube roses, tied with silver ribbon. Mrs. Cardinal received her degree from Texas State college for Women at Denton and for the past two years had been employed as a teacher of speech and English in the Floydada High school and had been on her third term when she resigned last month. While in college she was house president of Stoddard hall and president of the Lowry club.

The bridegroom was reared in this county and is the son of T. J. Cardinal. He has just recently completed his student work and will be employed with the Santa Fe railway. The couple will be at home in Slaton in about a month.

# Lockney In Lone Score Over Crosbyton

Crosbyton Shoved Deeper In District 4-A Cellar, Losing 6-0

After Glenn Mitchell, left half, had set the ball up on Crosbyton's 4-yard line, Zimmerman, fullback in a line play through right tackle plunged the distance for the lone score of the game and Lockney's first conference win in district 4-A, and Crosbyton's second defeat 6 to 0. The game was played Friday afternoon at Crosbyton. Winning tally came after repeated thrusts in the last two minutes of play.

Previously it was a see-saw game, the first half being ragged and slow on account of a slippery ball that made costly fumbles and bad snapbacks for both the Chiefs and the Longhorns.

The second half was played principally in Crosbyton end of the field, the Chiefs stopping three Longhorn rushes and kicking out of trouble, only to have their line crossed on the fourth threat.

Injuries were frequent and Cragger, Longhorn quarter who relieved Parrack in the third quarter may be out of the game the rest of the season with a leg injury.

Starting line-ups:

Lockney	Pos.	Crosbyton
Newman	Left End	Shipman
Byars	Left Tackle	B. Smith
Dagley	Left Guard	Curry
Colvin	Center	Hefner
Harper	Right Guard	Stockton
Mc Collum	Right Tackle	Terry

# Good Fur, Fish Year, Jameson Writes Tech

Busy Times, Letter Mailed In May Gets Here Late In September

Lubbock, Oct. 10.—Students who are bored by daily contact with college professors may well envy Roy L. Jameson of Kwigillingok, Alaska. During the past year Jameson who is a teacher in the U. S. Indian Service, has been able to send only one lesson assignment to the Technological college, where he has been enrolled in the extension division.

Jameson, who left Tech in 1937, has just completed a correspondence course in "Insects and Diseases" under O. B. Howell, professor of horticulture. In speaking of the textbook of the course, he writes, "Unfortunately it gives nothing on the control of mosquitoes."

The former Texan, in addition to his position with the Indian Service, also looks after a "covey" of reindeer. Of his work he writes, "The natives had a good fur year and there were plenty of fish last fall. The year has been the busiest we have had since we have been in Alaska and the enrollment in the schools is much larger than ever before. We have had no great amount of sickness in the village." The winter, he states, was not extremely cold or long. "While we had an early freeze in the fall," he continues, "we should have a fairly early break-up this spring. The ice began to break up in the river this week. Navigation should be open in a week or so."

The letter, dated May 17, has just been received by Professor Howell. Because of ice and snow, boats arrive at the port only twice a year. Jameson stated that schools were closed early in order for the people to move out of the village to their seal camps.

"I spent a few days hunting on the ice with the natives," he explains. "We will remain here all summer but all the other inhabitants will leave soon."

Mr. and Mrs. C. O. Spence had as their guests Sunday Mr. and Mrs. Elvis Marley and Mr. and Mrs. J. A. Richardson and children of Crosbyton and Mr. and Mrs. G. L. Snodgrass.

Mr. and Mrs. R. B. Gary left Wednesday for Childress where they will spend several days visiting her sister, Mrs. H. P. Watson. From there they will go to Wellington and visit another sister of Mrs. Gary's, Mrs. Nannie E. Martin, for several days.

Old-Timer Visits Sick Brother-In-Law Here

C. R. Campbell, of Chickasha, Oklahoma, is here for a visit of some weeks with his brother-in-law Wilson Jones, who has been ill for some time and is only slowly recovering at his home on West Houston street.

Jones is the Blanco Kid who in the very early nineties hunted down the wily mustangs that ranged this area in herds.

Campbell is not a stranger to this section himself. As a youngster he lived in Dickens county and recalls that his father, who was Jim Campbell, camped on Red Mud in 1879 and killed a panther there on Christmas day of that year. The Campbells came to this section from Coleman county with Sam Goldston, who later took charge of the Lan C cattle in Lubbock county.

# Lockney in Lone Score Over Crosbyton

Crosbyton Shoved Deeper in District 4-A Cellar, Losing 6-0

After Glenn Mitchell, left half, had set the ball up on Crosbyton's 4-yard line, Zimmerman, fullback in a line play through right tackle plunged the distance for the lone score of the game and Lockney's first conference win in district 4-A, and Crosbyton's second defeat 6 to 0. The game was played Friday afternoon at Crosbyton. Winning tally came after repeated thrusts in the last two minutes of play.

Previously it was a see-saw game, the first half being ragged and slow on account of a slippery ball that made costly fumbles and had snapbacks for both the Chiefs and the Longhorns.

The second half was played principally in Crosbyton end of the field, the Chiefs stopping three Longhorn rushes and kicking out of trouble, only to have their line crossed on the fourth thrust.

Injuries were frequent and Crager, Longhorn quarter who relieved Parack in the third quarter may be out of the game the rest of the season with a leg injury.

Starting line-ups:

Lockney	Pos.	Crosbyton
Newman	Left End	Shipman
Byars	Left Tackle	B. Smith
Dagley	Left Guard	Curry
Colvin	Center	Hefner
Harper	Right Guard	Stockton
McCullum	Right Tackle	Terry

# Good Fur, Fish Year, Jameson Writes Tech

Busy Times, Letter Mailed In May Gets Here Late In September

Lubbock, Oct. 10.—Students who are bored by daily contact with college professors may well envy Roy L. Jameson of Kwigillingok, Alaska. During the past year Jameson who is a teacher in the U. S. Indian Service, has been able to send only one lesson assignment to Texas Technological college, where he has been enrolled in the extension division.

Jameson, who left Tech in 1937, has just completed a correspondence course in "Insects and Diseases" under O. B. Howell, professor of horticulture. In speaking of the textbook of the course, he writes, "Unfortunately it gives nothing on the control of mosquitoes."

The former Texan, in addition to his position with the Indian Service, also looks after a "covoy" of reindeer. Of his work he writes, "The natives had a good fur year and there were plenty of fish last fall. The year has been the busiest we have had since we have been in Alaska and the enrollment in the schools is much larger than ever before. We have had no great amount of sickness in the village."

The winter, he states, was not extremely cold or long. "While we had an early freeze in the fall," he continues, "we should have a fairly early break-up this spring. The ice began to break up in the river this week. Navigation should be open in a week or so."

The letter, dated May 17, has just been received by Professor Howell. Because of the ice and snow, boats arrive at the port only twice a year. Jameson stated that schools were closed early in order for the people to move out of the village to their seal camps.

"I spent a few days hunting on the ice with the natives," he explains. "We will remain here all summer but all the other inhabitants will leave soon."

Chas. Orvel Spence, son of Mr. and Mrs. C. O. Spence, who is in the Aviation corps and has been stationed at Las Vegas, Nevada, is now rated as an Aviation cadet after spending two weeks in training at Santa Marie, California.

# Whirlwinds Win Conference Try From Ralls

Team Shows Better Brand Of Football; All Subs Get Some Practice

Sparked by the generalship of Joe Rushing in the backfield and Carlton Pawver in the line Floydada High school's Whirlwinds took their first conference game in masterly fashion from the Ralls Jackrabbits last Friday night at Ralls.

The score was 26 to 0 but the "Winds" got the breaks the same way that breaks break against them in their tries with Crowell and Littlefield. The score might have been different had the Jackrabbits been able to get their passing game to click early in the game.

But pass clicking and luck aside the Floydada boys had the edge and early in the first quarter began to demonstrate it.

Better generalship, better pass defense, better offensive line play, better punt returns, better attention to assignments, than had been shown by the Whirlwinds previously was in marked evidence.

The Jackrabbits drew first blood when after kicking off to the "Winds" who failed to make downs and kicked the ball was put in play on the Ralls 40 yard line. In seven plays the ball was carried to Floydada's 31 yard line, but when two passes failed the ball went over there, and the only definite scoring threat of the Jackrabbits for the night was stopped.

After losing seven yards on a fumble, Rushing went around right end for 20 yards, bucked the line for a yard, went off tackle for 4 yards and then passed to Baitley who was downed on the three-yard stripe of Ralls. In one down the ball was bucked over right guard for the first touchdown. The kick for extra point failed.

On the kick off Floydada to the Jackrabbits the latter again found that attempts at runs, line play and passing ineffectual and kicked to Rutledge. Floydada safely on the Ralls 36. Here the little safety gave a demonstration of the kind of returns he made all evening when he ran the ball back to the Ralls 36. Two plays were followed by a pass Rushing to Rutledge on the 17 as the quarter ended.

Opening the second quarter and anxious to get a few more points lead before the Ralls game began to click. Rushing attempted a field goal. No luck, and the ball went over on the Ralls 9-yard stripe general tackle play and the Ralls field general, Titworth, called for a kick that went to their own 38 but was returned by Rutledge to the 18. The Rushing-Rutledge pass combination again set the stage for a score with a pass good for eight yards and in three tries Rushing made the second touchdown and kicked for extra point.

Here the Floydada coach began to feed in substitutions, little George Allen going in for Morrison who had been doing blocking assignments at left half.

Atterbury, Meeks, Titworth and company for Ralls were still unable to make their game work and the ball went over on the 30-yard line. Followed five minutes of see-saw play. A kick out of bounds on the Floydada 15 was followed quickly by a 65-yard quick kick by Rushing that was killed on the Ralls 20 as the half ended.

**Whirlwinds Score Early in Third.** The Whirlwinds scored early in the third quarter. Kicking to Ralls 35 yard line, an end sweep and a line play had gained six yards for the Rabbits when Pawver intercepted a pass on the Ralls 38. Three plays through guard and tackle, a pass Rushing to Furrow from the 26 yard line netted a first down on the 9-yard line. Thence by way of two tackle plays Rushing scored again. The kick was bad.

Warren nipped the next Ralls offensive in the bud when he stopped an end play for a loss, a pass was incomplete and a line buck gained back to the Ralls 42 where Ralls had received the ball after it was kicked out of bounds. Ralls kicked out of bounds on the Floydada 39.

An end sweep, a play through tackle and a pass Rushing to Rutledge on the 32 netted a long first down, but two plays later mixed signals lost 16 yards for the Whirlwinds and Rushing kicked out to the Ralls 12 where the ball went out of bounds. Making no gains on two plays Atterbury kicked to the Ralls 40 but Rutledge returned with good blocking to the 20. Thence Rushing in one play went over the score line on an end sweep standing and passed to Morrison for the extra point.

**All The Winds Get to Play.** The scoring was over but from that point all the Whirlwinds began to have fun. By the beginning of the fourth quarter the coach had most of his regulars under cover and the juniors and sophomores were demonstrating. Allen took over the signal calling. Pyffe took over duties at center. Colville, Conway, Conner, Hinson saw service as did Lyles, Lovell, Trowbridge. Sensing they had won their first game the youngsters of the Whirlwind squad see-sawed back and forth across the field with a Jackrabbit team also freely sprinkled with substitutes, and the game ended with the ball on the Floydada 32 yard line the regulars already under the showers.

This is a wonderful message of God to the servants of Christ, and is intended to be a great help and comfort to the saints during distressful times, which were to come upon the church from the time of John, the last writer of the Bible to the second coming of Christ.

As little as we know about Revelation, it has been the means of God to sustain faith in Christ on earth while he delays his coming. In it the saints are warned over and over again "He that hath an ear, let him hear what the Spirit saith to the churches." Everyone is invited to join us in this unbiased study.

## BUY NOW!

WHY

New, 1942 SERVEL ELECTROLUX models are now available. But why buy now? Read these answers and decide for yourself—

Q. 1. Why not wait until next summer? Why buy now?  
Ans. Will you be able to buy any refrigerator then? No one knows. The defense program demands daily more and more steel, copper, etc.—the very materials required to build a Servel.

Q. 2. Can I get terms to suit my purse, if I wait?  
Ans. No one knows. But—right now, a small down payment puts Servel Electrolux in your home—with 18 long months to pay!

Q. 3. How much tax will I have to pay, if I wait?  
Ans. No one knows. Excise taxes, such as these, can be increased by Congress as required. And defense authorities say "far heavier taxes yet to come."

Q. 4. Is it patriotic to buy now?  
Ans. Buying now may release man-power, machine power, materials, later on, when they are much more badly needed for defense. And protecting the nation's health—your family's health—is a number one requirement for defense.

Q. 5. Is Servel a good investment at a time like this?  
Ans. Food prices are going up! We probably haven't seen anything yet. The higher they go, the more Servel Electrolux will save in your home. Remember—it's always summer in your kitchen! At present food prices we can show how an average family may save up to \$8.60 per month!

Q. 6. How long can I expect such savings?  
Ans. Servel, the Gas Refrigerator, is backed by an iron-clad 10-YEAR GUARANTEE on its entire refrigerating system—at no extra cost—still the ONLY one that is. Because there are NO MOVING PARTS in its freezing system. Nothing to wear, to cause costly repairs, to grow inefficient and costly to operate. In West Texas today, there are hundreds of Servel Electrolux refrigerators that have been giving faithful, trouble-free, refrigeration for 10, 12, 14 years—without one cent for service or repairs. Over and over again, they have paid for themselves. Yours can, too. Come in and pick out your 1942 Servel today.

#### EDITORIAL

Yea, team! fight! fight!

Joyfully the school songs rang out in the Ralls stadium Friday night. The walls resounded to the wild clamor of the pep squad as they loyally boosted the "Winds" on to victory.

And well they might be unusually jubilant, for never have the boys made such unusual and outstanding plays as they did that night.

The student body pep squad responded as it never had before. Many of the students were there and they were all enthusiastic. As the players on both teams made brilliant play after brilliant play the songs and yells of both schools blazed the school spirit.

This is the kind of spirit that should be displayed at all the school activities. This is the kind of spirit that had always been a special characteristic of F. H. S. and we know now, always will.

Come on, Pep Squad! Let's have more of this splendid spirit!

#### JUNIOR CLASS BEGINS WORK ON CARNIVAL

#### FOODS II CLASS TAKES FIELD TRIP

The Food II class took a field trip to make a study of food prices. This study was to help the girls notice prices and quality when they were shopping for groceries. They visited Hale & McEwen and Piggy Wiggy. Here they got food prices and studied these prices according to quality of foods.

"The girls felt as if they were playing hockey," said Miss Hall, "although we were studying."

## Best Pep Rally Of School Year Thursday Night By Band, Pep Leaders And Student Body

The band stepped out with new formations in the best pep rally of the year last Thursday night.

The meeting place was at the usual "Martin's Corner." From there the band led with the student body following down the street. At the southwest corner of the square the band did a spiral formation. From there they continued on to the southeast corner of the square.

The band and student group continued on to the northeast corner where a big bonfire was lighted. The material for the bonfire had been accumulated after school Thursday afternoon.

While the fire was a blaze, the pep leaders led the student body and the band in some lusty yells. The on-lookers put in some hearty yells. The band played several numbers. Just as the fire died the band played and the students sang "Hail, Floydada High School."

From there the band took formation and did "put-your-little-foot" to the northwest corner of the square and they did a wavy part of the way back to the southwest corner. The usual snake dance, with plenty of pep, was done back to the Martin corner.

## Carroll Johnsons Swine Given Honors At South Plains Fair; Numerous FFA Boys Attend

Nosey Reporter

My, my, boys and girls, isn't it a shame I can't miss one week without finding out everything. I never fail to tell all I know.

Heien Jones and Harold Bertrand make a cut couple! How do you like these Thursday nights, Harold? Whose lipstick was that Leon West had on his cheek Friday afternoon?

Better watch out Cubert. It may be you on Thursday nights that takes Faye Nell around, but who is it on Sunday afternoon?

We wonder what interest Troy Cummings has in a certain Ralls girl.

What certain little blue Ford is that that Sophie McLain has been riding around in lately?

Martha Jo! Was that trouble you were having on the bus or fun?

When will Evelyn and Dorothy stop picking on out-of-town boys?

Watch your step, Wayland. Things aren't as smooth as they might seem.

They say Randy is doing pretty well for himself; but what about Johnny.

Who is it that can make Dorothy Tyler's heart do acrobatics? We know.

Florence, do you find Neil Cardinal in the way or very useful when working up English note books?

It doesn't seem to bother Sammie Lee much because Wayne Bingham lives at Plainview. He seems to make it down here often enough anyway.

I don't see why N. E. Tyler has to be so timid. There are so many cute girls that like to hear him sing.

Flo Ella Jackson saw the show through twice Thursday night, simply waiting for someone to get off work and take her home.

I guess Fred Lloyd beat Jo Wilson's time after all with Betty Peck. You never see Joe walking home with her anymore.

I don't know what girl was the cause but R. T. surely was love sick the other afternoon.

Don't Maudene and George have a swell time on Sunday afternoons? Better watch out Maudene. From the way I hear it, you're not the only girl that thinks George is cute.

Well, folks, that's all I have nosed into this time, but look out for me in the halls and read up on the latest next week.

The Grand champion Chester white sow in the senior division was exhibited at the Panhandle South Plains fair at Lubbock this past week by Carroll Johnson.

Carroll's herd won several places. Among them the first place senior gilt; second and third in produce of dam, a second and third in get of sire; and second and third in the young herd class and first place on his 16 pig litter under two months.

Carroll's herd consisted of thirteen head of hogs and 16 pigs. His winnings amounted to \$80.50.

Carroll had many calls for breeding gits while he was at the fair, but does not wish to dispose of any of them at present. However he plans to dispose of his pigs in March.

Forty-four Floydada Future Farmers attended the Panhandle South Plains fair at Lubbock last Thursday.

The group left the high school by bus at 9 o'clock and reached the fair-grounds at 10:20. The boys met back at the bus at 2:15.

The boys visited the school exhibits where Floydada chapter was displaying an educational booth on Food for National Defense. Next the swine barn was visited where the boys saw for the first time Carroll Johnson's grand champion Chester White sow and her litter of 15 pigs; then the group visited the livestock barns, from there they visited the commercial exhibits. Then the boys went to the midway where soon most of the boys were relieved of their money by side-shows, games of chance and thrill rides.

#### SOPHOMORES PRESENT PLAY IN ASSEMBLY

The sophomore class presented "Call Hector" at the assembly period Wednesday morning. The play was a one act comedy, which gave the hilarious experiences of a "Mother's pet" trying to be at two places at once—the doctor's office and the football field.

Marion Parish, the pampered son, who proved to be the high school football hero; D. I. Bolding, Marion's substitute; Jack Martin, the doctor; Irene Wisdom, the mother; and Claudine Redd, the nurse.

This play was given during the Fallies last spring, but due to inclement weather, few people saw its presentation. The play was too good to be lost; therefore the sophomores gave it again for the enjoyment of the student body, and to boost the spirit of football.
