Food And Feed Production Goals Set

Observing Nat'l Retail Grocers Week In Floyd

Floydada food stores this week are observing the sixth annual recurrence of National Retail Grocers week, along with the several hundred thousand other retail food distributors of the nation.

The 130-million grocery consumers are being reminded of the week in every conceivable manner and are being reminded of the part the modern food distributor plays in the life of the communities and the nation at large.

The week marks the 304th anniversary of the establishment of privately owned grocery store in the United States, according to the research department of the National Retail Grocers association.

The underlying theme of the observation has to do with the encouragement of a closer acquaintance and a better personal understanding between the grocers of the country and the consuming public.

"It pays to know your grocer" is the slogan of the week, the implication being that closer personal relations between the consumer and "the man behind the counter" will be mutually beneficial.

The rapid progress of the grocery industry is of recent origin. Actually since 1900 has the cracker barrel type of store been succeeded by the modern, sanitary emporium for the distribution of foods, with all its conveniences and the world-wide market from which every-day needs of the customer are served.

Big Savings On Delinquent Taxes If Paid By Nov. 1

The Assessor-Collector Geo. B. Marshall issues a notice to taxpayers this week in which he points out that on delinquent taxes paid on or before November 1, 1941, no penalty and interest will be collected on 1939 and prior years, 1940 taxes, however will have to be paid in order to get the penalty and interest released on previous years.

The above notice, if heeded, will make delinquent taxpayers a possible 30 to 40 percent saving in some instances.

Defense Guard Practices For Battalion Drill

Texas Defense guard unit of Floydada is staging a spurt of drill the past week and will continue their efforts with the intention of getting recognition as the best drilled company in their battalion.

The Nation Salutes Its Navy On Navy Day

Cruisers of the United States Navy churn the sea into foam while executing a high speed right oblique during fleet maneuvers. They are vessels of 10,000 tons displacement, long cruising radius, high speed, and equipped with 8-inch guns.

Food Stamp Plan Effective In Floyd County Nov. 3

The Food Stamp plan of the Surplus Marketing Administration, U. S. Department of Agriculture, will be put into effect in Floyd county on Monday November 3.

Announcement of the date set for the inception of the plan among eligible families of the county was made this week by Clyde W. Henderson, issuing officer, following receipt of advice from Wynn S. Goode, area supervisor, of Wichita Falls.

Practically every food store in the county will qualify as distributors of foods under the plan, it was indicated this week by Carl Minor, chairman of the committee of the Food industry, named recently by retail food stores of the county.

Headlines in The Hesperian issue of October 29, 1935 and a brief of the story the newspaper ran on that date said:

SEASON'S FIRST FREEZE
Temperature down to 20 Degrees
The season's first freeze came Tuesday night in Floyd county, when a big tumble in the reading of the thermometer brought with it temperature as low as 20 degrees above zero Wednesday morning.

This morning the temperature stood at 30, barely below freezing. Although the skies have been overcast no rain or snow has fallen.

In the week previous (issue of Oct. 22) it is recorded that there were several light frosts during the week preceding October 22, but the freezing point had not been reached.

MASONIC SCHOOL
Fri., Saturday
In Floydada

A school of instruction in the esoteric work of the Masonic Lodge, A. F. & A. M., will be held in the Masonic hall in Floydada beginning in the morning and continuing through Friday night and a portion of Saturday, it was announced this week by lodge officials.

Jim White, of Colorado City, will conduct the school. Mr. White is a member of the state committee on work of the Grand lodge.

Besides several local certificate men who will be examined, other Masons from Plainview, Petersburg, Lockney, Matador and Silvertown probably will attend the school, it was indicated.

R. C. HENRY, JR., RETURNS TO CAMP BOWIE
R. C. Henry, Jr., who has been in Floydada the past several days visiting with his parents, Mr. and Mrs. R. C. Henry, sr., left Wednesday last week for Camp Bowie where he is in the United States Army.

Ginners Ready For Ginning Season 1941

As ginners made preparation and weather of them announcement of their readiness for the ginning season that was to have opened on Monday of this week, showers and general cloudiness Monday and Tuesday was followed by general rains on Wednesday. Result, mark up a blank for a whole week so far as the cotton industry of the county is concerned.

Estimates last week-end indicated that in the whole county 100 bales of cotton would have been gathered and ginned during this week had weather permitted. Several crews were ready to go into fields, gins had employed their crews, completed last-minute adjustments, ready to fire up Monday.

Guesses now run into next week before any picking can be done in this county, although the weatherman has been kinder to this area than to any section in 200 miles or more in any direction, according to reports.

Late yesterday about an inch of rain had fallen this week on cotton fields here. Twenty-hundredths of this fell Monday in Floydada. In some parts of the county field workers, however, did not have to cease their labors until late Tuesday.

Promise of a week-end of less rainfall is in the offing, with cooler weather today or tonight. Gins which have announcements in this issue of The Hesperian include The Lakeview gin, the Newton Gin company at Dougherty, The Scott Gin of Floydada, the South Plains gin at South Plains.

Mathews Work In Maneuvers Is Commended

Strongest praise for the organization, type of maintenance and the set-up of 111th Quartermaster regiment, commanded by Major Luke G. Mathews, division maintenance officer, is contained in a citation released from Camp Bowie by Big Gen. Fred L. Walker, division commander of the 36th division, following completion of maneuvers in Louisiana.

For maintaining a record of only six-tenths of one per cent immobility among the 36th division's average of 2,431 motor vehicles operated in the maneuvers, Major Mathews, First Lieutenant Thos. M. Uzzell of Austin, commanding Company E, 111th Q. M., the division 3rd echelon shops, and First Lieutenant Ernest S. Rambo of San Antonio, motor officer for the 14th infantry, were cited for "Praise-worthy acres which may be set as a goal for all motor personnel."

Operated 2,341 Vehicles
"Throughout the period of the recent army maneuvers in Louisiana," it was stated in a general order, "this Division operated and maintained an average of 2,341 motor vehicles. During the first four weeks of the maneuvers period, the daily average percent of vehicles immobilized for repair was .85 of 1 per cent. During the month of September, this exceptionally low average was further decreased to a daily immobility of .6 of 1 per cent."

"An inspector for the Quartermaster General of the Army reported as follows:
"The organization, type of maintenance performed and the entire set-up of Company E, 111th Quartermaster Regiment, is outstanding in its efficiency, as compared with all other light maintenance companies."

Whirlwinds And Dragons To Play Football Here Friday Night, Rain Or Shine, Schools Agree

The Whirlwinds of Floydada High school and the Dragons of Paducah High school will play their conference game on Western field tomorrow night.

This decision was reached in a four-way telephone conversation between superintendents and coaches of the two schools yesterday. While skies wept the school officials agreed there wasn't much logic in trying to postpone a conference game, and the members of the two teams are about of the same mind.

So, as Superintendent Travis put it following the conference, there'll be football in Floydada Friday night.

The time: 8 o'clock.
The place: Western field, under the floodlights.
The teams: Floydada Whirlwinds vs. the Paducah Dragons.
"The boys may have to play in rowboats, but they are ready for it and an attempted postponement might just make matters worse," we've agreed to go ahead with the game, rain or shine." W.

Milk, Eggs, Live Stock Stressed In 'Food For Freedom' Campaign By Floyd USDA Defense Board

Floyd county farmers were asked today to do their part in the "Food-For-Freedom" campaign by increasing their production of milk by 31,733 gallons and eggs by 105,000 dozen in 1942.

Tentative production goals set for the county were announced by the Floyd County USDA Defense Board as follows:
349,058 gallons of milk, increase of 105,000 dozen over 1941;
804,000 dozen eggs, increase of 105,000 dozen over 1941;
10 per cent increase over 1941 in number of hogs for market or to be slaughtered on the farm;
18 per cent increase over 1941 in number of beef cattle, including calves marketed;
6 per cent increase in sheep and lambs marketed;
635 farm family gardens;
900 acres of corn;
8 per cent increase in feed grains.

500 acres vegetables for sale, (excluding Irish and sweet potatoes).
"These goals are minimum rather than maximum goals," Paul Snodgrass, chairman of the county board pointed out. "Perhaps the farmers of the county can produce more than enough to meet the goal. If they can, then that's all to the good. The county USDA Defense Board unanimously approved the goals which were submitted to us by the State USDA Defense Board, and it was the opinion of the committee that the people in Floyd County would far exceed the minimum increase in production as suggested as a county goal."

The principal factors to consider in setting the goals, the board chairman said, are the actual productive capacity and outlets in the county. It is important, he pointed out, that the state board and the Secretary of Agriculture know definitely just how much production of the needed foods can be expected.

To Maintain Fair Prices
"We have been promised that the U. S. Department of Agriculture will use its powers to maintain fair prices for the products needed in the Battle of food," Snodgrass said. "Production of these foods is important—just as important as winning battles on the sea and on the land. I know that Floyd county farmers will do their best in the production of the greatest food crop in American agricultural history."

State Inspector Visits Schools Of Floyd County

Deputy State Superintendent E. H. Boulter Monday and Tuesday of this week inspected 10 of 17 state-aid schools in the county, but due to heavy-roads deferred further inspections until next week.

Schools Boulter visited in company with County Superintendent Clarence Guffee this week included Lone Star, Lockney, Providence, Aiken, Sand Hill, Blanco, Harmony, Allmon, McCoy, Starkey.

Schools yet on the list to be inspected are South Plains, Liberty, Center, Dougherty, Cedar and Edgin. Boulter has succeeded E. Esten Day, who recently resigned.

MR. AND MRS. BURROWS HOME FROM WACO TRIP

Mr. and Mrs. R. A. Burrows and daughter, Mrs. Buck Fornby, returned home Tuesday from Waco, where they have been visiting Mrs. Ernest McNutt and family, a daughter of Mr. and Mrs. Burrows.

They left Saturday and were accompanied as far as Waco by their grandson, Raymond Hamms, who was returning to Ft. Sam Houston. He has been visiting his parents, Mr. and Mrs. Luther Hamms, the past two weeks.

Mr. Burrows reports that the rainfall is not so great around Waco and that most of the crops have been gathered.

Can Easily Meet County Goals, Gordon Thinks

Floyd county farmers and stock raisers can easily meet the goals set up by the State Defense Board for this county, and formally approved by the county U. S. Department of Agriculture Defense Board Friday, is the belief of Jason O. Gordon, county agent.

Gordon noted that the county committee announced the goals of production set as minimums and said he would not be surprised to see the milk, eggs and hog production next year far exceed the figures set.

The county agent pointed to the natural conditions which favor production of these items and gave it as his belief that promise good markets, coupled with the patriotic appeal for greater effort, would see a tremendous swell in production figures.
Assuming that the estimates made of production this year are correct, it appears the increase in the number of milk cows would not have to be drastic and the same appears to be true as regards poultry and hogs.
The house-to-house canvass due to be made in November will give an invaluable check on the estimates made of present conditions and outlook.

Will Study Food Feed Program In Meeting

All agents and representatives of the Extension service of A & M college, will gather in Lubbock on October 31 to study the 1942 national food and feed program, Jason O. Gordon, county agent of Floyd county, said this week.

Included in the personnel from this county who will attend the sessions will be representatives of the Triple A committee, the Farm Security administration, the Soil Conservation service, Rural Electric cooperative, Production Credit association and the Land Use Planning committee.

CCC Camp, What And Why, Told To Rotarians

The what and the why of Citizens Civilian Conservation Corps, what a camp is, how it is manned, what it does for the members and for the community, was told to members of the Rotary club on its Wednesday program.

Appearing on the program were Camp Commander U. G. Knight, Education Supervisor J. H. Boynton Superintendent George Keathley and Enrollee L. T. Puckett. Conner Oden presented the program.

Earlier Turkey Market This Year, Report

No official date for the opening of the turkey market has been set as yet according to poultry dealers in Floydada. One dealer expressed the opinion that it would be the earliest market yet experienced in West Texas according to reports from poultry journals.

The crop of the nation is reported to be approximately the same as last year. Texas and Oklahoma report a fraction less but the quality of the birds is above last year's crop, government reports indicate.

Damage by grasshoppers to Floyd county crops is not all to be done next spring. The migration of hoppers, which lit in fields of the area four weeks ago by the millions are taking their toll this fall, too. That's what wheat growers, alfalfa raisers tell us, and ravages of the insects are apparent, too, in many fields of feed where the hoppers are cutting off heads of maize at the crook and taking toll of fodder. What to do or what not to do is the question, of course. Farmers would let the hoppers have all the cotton leaves they want and welcome to let sunshine into the cotton bolls and dry them out. Grasshoppers do not appear to care for cotton, even the tender top ones with all the other good provender about.

Having passed the most dangerous frost date on the calendar (October 19) The Hesperian and its rooters for a late frost feel mightily helped up over the probabilities that our date (November 7) will be it. October 9 is the earliest the files of The Hesperian indicate it has ever frosted in this country in recent history, but October 19 is the date that it hits most frequently. We are now ready for the light frosts to begin if the weatherman so disposes, but our date of November 7 is the one on which we want the real frost that gets the job done. And we don't want a hard freeze to clamp down on this cotton. It must have a chance to dry out and open up like we want it to do.

Likelihood is this fall that turkeys will bring a fairly good price (above former years) for those who have been able to bring their fowls through the wet spring, summer and fall. Turkeys are a lot of trouble to raise, trouble to the raiser and trouble lots of time to the neighbors as well. They ought to bring a good price to make the man who raises them any money, if he figures in his time, trouble, gray hairs. The supply is more limited this year than usual, according to reports but no indication has been given by dealers about what prices will be.

Don't forget that the time to begin figuring your income tax is now. By which we mean take care of your bank statements, bring your own set of books up-to-date and get set. Hardly a man who operates a farm in Floyd county, even on a small scale, but that will have to prove that he didn't net the lowest figure in the income brackets. Many workmen, too, will have to prove up. Since the demand for help to make out income reports is going to be so heavy after the first of the year, and you are depending on your banker or your lawyer friend to help you when the time comes, better have your figures ready. A lot of other people are going to be in the waiting line, and who ever it is you have in mind will have some other friends who have him in mind, too. And there will be a deadline and no joking!

Our Southern teachers of vocational agriculture and home economics and their state and regional leaders are pronounced the most active and progressive in America—as I happen to know from being chairman of the Federal Board of Vocational Education.—Dr. Clarence Poe.

Uncle Sam's Department of Agriculture is planning to put the pressure on to get more eggs, more milk and more hogs for the Britishers produced in the United States. An unbalanced status of agriculture has resulted in the farmers' or in the department's operations of the past 12 years, or perhaps it is not the farmer nor the department, but world conditions. At any rate it is now too much wheat, too much cotton, not enough milk and eggs and hog meat and fats. Our own guess is that all that has to happen to make eggs, butterfat, hog meat and hog fat plentiful has already happened. The price now shows a profit on all these items. Farmers will raise the hogs, the eggs and make the cows pour out the cream as long as it looks like there is going to be a profit in such operations. However, the department, for some reason, insists on a canvas of the farmer population and pledges for more production. It may be just a flourish to impress the need on the people. Perhaps it has political significance, to impress the industrial areas with the part the farmer is playing in the defense program. At any rate the canvas won't hurt anybody and if it will help impress the producer with his own importance in the national scheme of things that will be worthwhile.

WOULD YOU fight another guest for a seat at a party? Would you push the person ahead of you at a wedding reception? Would you shout at a woman to get out of your way on a dance floor?

Of course you wouldn't. Your manners are better than that. And the Texas Safety Association says if you were just as courteous on the highway, there would be a lot fewer accidents.

Here are six ways to show good motor manners:

1. When some driver insists on the right-of-way, let him have it.
2. Watch out for the driver who tries to beat the traffic light. Let him risk his life to save a few seconds, but don't risk yours.
3. When a driver passes on a hill or curve, or misjudges the distance ahead, slow down and let him get back in line.
4. If a driver behind is over-anxious to get around you, pull over and let him pass before he takes a chance and involves you in an accident, too.
5. At night, dim your lights for approaching cars.
6. Don't expect the right thing from the other fellow. Always give him a break, even when he's wrong.

A clipping, picked up a good many years ago out of the Kansas City Live Stock Reporter, and found again the other day: George Coverdale, Coffeyville, Kansas: If a young man at 20 would start in the cattle business, and stay with it until he was 80, he would be broke when he died, unless the last year happened to be a good one."

Without an international police force, I do not believe that peace or justice among nations can be obtained—any more than it could be obtained in Dallas, Birmingham, Atlanta, or Raleigh, without a police force.—H. G. Hastings, Fulton County, Ga.

As A Farm Woman Thinks

Hellie Witt Spikes

The very first thing the farmer and his wife do when they rise just before the dawn these autumn mornings is to look outside and see what the weather is doing. Is it cloudy? Can we work today? Will it ever stop so we can gather our much needed crop? This morning, Monday, is thick cloudy, misty, and we see silver lightening in the far west. Will we lose another week?

I have always longed for red velvet curtains. This has been a symbol of the greatest luxury. Always in the novels I once read, (sometimes paper backs,) the beautiful woman pulled back the red velvet curtains and gazed at the glittering stars or she tapped a silver bell and a soft-footed servant pulled together the hangings of the thick rich material and set a small table with lustrous china and gleaming silver. It seems like now, as the rain falls and the bad news of the war pours in over the radio and the daily paper, if I could pull the soft folds of red velvet over the windows of my soul, the bad could be shut out.

But it is my power to pull the red velvet curtains that hide the past and sit in the beautiful room of happy memory and live again some bright days of the long ago. I am again a little girl with long plaits of hair. I lie on the rag carpet at my great-grandmother's home in Weatherford. The fire burns bright on the hearth of the big fireplace, making pictures that delight a child as she listens to the talk of the grown folks.

The Civil war is not far behind, the talk still is on battles, retreats, and hard times during the war. I shudder as the talk turns on Indians, still such a tragic memory in the hearts of Parker county people. I slide to my mother's chair and touch her skirts. They laugh and tell about the time my grandmother got an Indian scare and took her children down in an old dry well and stayed so long. And how Tom Franklin ran so hard whipping himself with a whip as if riding a horse when his brother, Felix, scared him so.

Grandma Hunter tells of how embarrassed she was when the preacher caught her drinking coffee from the coffee pot, a favorite way with her during the day. The folks draw their raw-hide, bottomed chairs closer to the dying fire the smell of clean straw under the rag carpet blends with that of the wood smoke as another log is put on the dying fire. The talk grows dim, sounds like the murmur of the little stream that passes by our little house in Weatherford where the tall water oaks spread their leafy boughs. It grows louder as I awake

at the talk about mad dogs. I raise up and ask mother if there are any mad dogs around. At her assurance, I slip down on the good carpet by the fire again, close by the table made of rope and broom sticks that holds the big Bible with all the family names, deaths, marriages and births. I doze and wake. Now the rustle of starched petticoats as the women arise to go to bed, the sweet voice of my mother calling me as she stoops and draws me in her arms to carry me to the fat feather bed. Oh would you pull the curtain of yesterday back, or would you sleep always on in the soft feather bed at your grandmother's house?

I wonder how the women in Parker county could sit placidly tacking rags together when deprecating Indians roamed the county, killing men and women, taking off children and horses. Mostly drab rags these frontier women had, grays and browns and blacks, but the gay red and the bright blue rags were carefully hoarded and made bright spots in the somber yards of the carpeting. Bright spots in the lives of these pioneers were made by going to church and to quilting and log rolling bees. Corn shellings and horse raisings. These made the pattern of somber days bright as did the red and blue colors in the rag carpets of that day.

The visiting of the preacher was looked forward to by every member of the family. I remember how Aunt Tex Tubbs, that was a Spikes told of looking for the presiding Elder when her little boy was only six days old. She laughed as she said, "I knew the colored girl could do most of the preparing of the food, but her pies and cakes were not to be compared with mine, so I got out of bed and made them." Strong men and women who had to do hard labor and dangerous Indians.

Hear the other day: My balky horse always chose a deep sandy place in the road to balk. Wonder if that is the way folks do sometimes.

END OF THE TRAIL

(In memory of Uncle Henry Smyer and other old time freighters and cowboys) Your last long trip has ended, Your wagon is in the yard; The mules turned out in the pasture, You're home to stay, old pard.

The long, long trail to the city You'll travel it never more; No more you'll make your campfire On the river's sandy shore.

Old pard, you've been so faithful, To your friends you gave your best, Your life was full and busy; You've earned this final rest.

And in a day that's coming In a fairer, greener land, Your friends will gather 'round you, Old pard, and shake your hand.

MAPLE SILVER AND GOLD Your silver-lined leaves that tremble in the sun Represent summer beauty lingering for awhile; Your leaves of gold prove that autumn has won In the race for color that may the eye beguile.

Soon frost and wind will cause both, silver and gold, From your gray stems to the earth softly shed; But memory of you and the meadow larks hold Will linger through snows and gray skies overhead.

HER MAJESTY THE CAT

My cat is a queen in every sense, As she sits upon her mundane throne, Gently stroking her velvet coat A beautiful, ageless, indolent drone. She preens her body day by day, By simply washing her hands and face, No mud packs nor facials bother her. She knows she's a picture of sleek-est grace. Her furry coat is soft as silk, Her velvet paws are cushions rare.

Her eyes are emeralds in the sun, Her whole lithe beauty fine and fair, She even has a music box That plays when pussy knows no fears.

A gentle stroke starts the sound, Contented music of the spheres, A vision of reserve and grace, My cat sits quiet and shows me how I stare at her with puzzled frown, I'm half inclined to scrape and bow —Gertrude Friend Scoggins.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. THERE GOES A TIRE!

...but why junk the car?

Any car can have a blowout in a tire. But you wouldn't junk the car. You'd just fix the tire—or replace it.

That's very much like a situation that exists in the retailing of beer. Beer retailing has its "flat tires," too—retailers who disobey the law or who permit unsavory conditions.

To protect your right to drink good beer, we of the beer industry want to eliminate the few "flat tire" retailers. Here's another reason: Right here in Texas, beer has provided employment for 31,165 persons, supports an annual payroll of \$22,076,182 and paid \$2,273,968.64 in state taxes last year.

The state, too, has an important stake in the beer industry's purchases—for material, equipment and services—from more than 100 other industries.

Those benefits are worth preserving. You can help us preserve them by patronizing only the reputable and legal places where beer is sold and by reporting any law violations you may observe to the duly constituted authorities.

The Allen Club Hostess Center Home Demonstration club met Monday, October 13, with Mrs. Oliver Allen as hostess.

Mrs. Sims presided and after reports from the financial and expansion committees, roll call was answered by each member telling what demonstrations or programs she would like to see in our next year book.

Mrs. Bagwell conducted the games. Miss Wilson gave the demonstration on attractive kitchen tips. She first gave some lines that each woman should think of when planning her home-made clothes, then she displayed aprons from the dairy ones to wear for serving to the spacious overall type for every day use. Everyone enjoyed the demonstration very much and resolved to make some of the aprons for their own use and for Christmas gifts.

A lovely refreshment plate of salad, salted crackers, cookies, and cocoa was served to the following members: Mrs. E. R. Crabtree, Mrs. C. M. Meredith, Mrs. W. T. Lightfoot, Mrs. J. B. Jordan, Mrs. J. L. Montgomery, Mrs. H. B. Manions, Mrs. Clyde Bagwell, Mrs. O. B. Mayfield, Mrs. Mitchell, Mrs. Layton Derrill, Mrs. W. B. Jordan, Miss Ethel Wilson, and the hostess, Mrs. Oliver Allen.

The next meeting will be Tuesday October 28 with Mrs. J. L. Montgomery when Mrs. R. S. Wilkinson will give the book review for our club. All members are urged to come at 2 p. m. so we can have our business session and be ready for Mrs. Wilkinson at 2:30 p. m.

Mrs. E. F. Stovall went to Burk Burnett, Friday where she will spend ten days with her daughter, Mrs. H. C. Sullivan, and family.

Judge and Mrs. Alton B. Chapman left Tuesday for Kansas City where they will attend a livestock show.

Forty Million Dollars Lost To Cream Producers Last Year Through Slack Practices

Henry S. Scott, district butter maker and inspector for Armour Creameries was in Floydada last week end inspecting the local plant and giving instruction in the making of butter.

According to Mr. Scott the farmers of the United States lost over \$40,000,000 in 1940 because of their slack methods in caring for their milk and getting it to market while it is still a marketable product.

Mr. Scott quoted from a bulletin issued by the Texas Dairy Products Association on October 13, giving these facts from their records:

Dump Unfit Butterfat

"Neglect has already taken the profits out of many a Texas' dairy farmers operation," says M. E. McMurray, manager of the Texas Dairy Products Association. Qualifying the statement McMurray says "Since May 1 creameries doing business in Texas have dumped 7,240 cans of unfit cream in the sewer or returned it to farmers or buyers. This condemned cream would have made more than 8 carloads, or \$57,195, worth of butter. Credit to the loss side, also 7,500 pounds of milk returned by Texas' cheese factories to farmers as unfit for use, based on present market values, represents another loss of \$168,750. This milk if used would have accounted for 39 carloads of sadly needed cheese.

The total loss represents all the milk that 3,249 cows would give in one year with an additional loss of time, feed and wasted effort. Coming as it does when there is a distinct need for every ounce of dairy products for defense use, it is a severe indictment of the dairy farmer.

Texas is not alone in this dilemma of carelessness. Practically no state in the union is exempt. The national loss from poor quality cream and milk is estimated as high as \$40,000,000 annually which makes quality improvement the No. 1 issue facing the dairy industry. The government agencies will accept no half-way methods. The dairy industry is faced with cleaning up or getting out. Observance of Federal regulations covering milk production does not involve any elaborate lay out of equipment for sanitation. On the contrary, the principle requirement is a little more attention, hard work and hot water.

Three Simple Rules

"Three simple rules will solve all of this industries difficulties from a quality standpoint." Mr. Scott said. "None of them cost anything except special attention and a little extra work."

Some manufacturers are already making a 5c spread between 90 score 88 score cream. The price of cream is based on the price of butter on the Chicago market. Because of this market situation manufacturers are forced to buy on a graded basis. Some are even going so far as to state they do not intend to buy any 88 score cream next year. Following are the three rules to follow in producing the highest score cream:

Sanitation—Clean milk, clean cream, clean utensils, a little extra work and taking precautions regarding the washing of milk pails, cans, strainers, cream separators, etc. Thoroughly cleaning, sterilizing and sealing these utensils and keeping milk and cream clean is the No. 1 problem on every farm. It matters not whether the farmer is selling milk or cream.

Temperature—Milk and cream must be cooled to the lowest possible temperature which conditions on each farm will permit. If a sufficient supply of cold water is not available wet sacks can be used. Milk and cream must be kept cool until it is marketed. Warm cream should never be mixed with cold cream.

Time—Milk should be rushed to factory as early as possible every morning. Cream should be delivered to the market three times a week in the summer and never less than twice a week in the winter. In the case of sweet cream it should be delivered every day.

Methodist Church

"My Church"

By John Bunyan Smith
"My church is where the Word of God is preached, the power of God is felt, the Spirit of God is manifest, the love of God is revealed, and the unity of God is perceived."

"It is the home of my soul, the altar of my devotion, the hearth of my faith, the center of my affections, and the foretaste of heaven."

"I have united with it in solemn covenant, pledging myself to attend its services, to pray for its members to give to its support, and to obey its laws."

"It claims the first place in my heart, the highest place in my mind, the principal place in my activities, and its unity, peace and progress concern my life in this world and in that which is to come."

"I owe it my zeal, my benevolence and my prayers. When I neglect its services I injure its good name, I lessen its power, I discourage its members and I chill my own soul."

"I have solemnly promised in the sight of God and men to advance its interests by faithful attendance, by reading the Holy Bible, by never neglecting its ordinances, by contributing to its support, by meeting with my fellow members, by watching over their welfare, and by joining with them in prayer, praise and service, and that promise I this day renew, before God my Father, Christ my Redeemer, and the Holy Ghost my Sanctifier."

"This church bids you welcome to all its services. Bring a friend."

Quarterly Conference Tuesday evening at 7:30 o'clock the district superintendent, Doctor L. N.

Lipscomb of Plainview, will hold the fourth session of the quarterly conference. All the officers of the church will be elected for the coming year, which begins immediately after the session of The Northwest Texas Annual conference to be held November 12-16 in Big Spring. A delegate and a reserve delegate to the annual conference will also be elected at the session of the quarterly conference Tuesday night.

The nominating committee has been meeting and will have a full slate of nominees ready for the action of the quarterly conference. A few of the officials are to be nominated by the pastor and the district superintendent, and these will be made at the same time. All members of the church and any others who so desire, are invited to attend this meeting. All officials are expected to attend. New records have been received and all reports will be made in conformity to the new regulations and on accepted forms.

First Baptist Church News

Last Sunday was a good day in our church services. There were 311 in Sunday school and the building was filled for the morning preaching hour. The evening services were also well attended. We urge the membership to be careful to attend the Training service and the evening preaching.

Next Sunday should be a great day with us. It is "State Mission Day" and we will complete our mission offering for this convention year. We hope that our special mission offering will be a worthy one. Dr. Melton, our State Mission Secretary is asking that we make a "Birthday Offering," that is, give five cents for every year we have lived. The pastor and many of our members will observe this plan and recommend it to the membership.

For the evening service we have arranged a patriotic program honoring "Navy Day." All branches of the service will be represented by a speaker and we invite all the Ex-service men who are not attending one of the other churches of the town. It is not our purpose to interfere with the services of other churches. We also extend a special invitation to the officers and the boys of the CCC camp.

TRAVEL TO HOUSTON NEXT WEEK TO ATTEND NATL CONVENTION

Dr. and Mrs. C. M. Thacker will leave Sunday for Houston where they will attend the American National Dental convention. The convention will close Thursday, October 30.

Dr. and Mrs. Thacker will arrive home next week-end and will be at their dental office.

City Park Church To Observe Roll-Call Day Sunday

(J. G. Malphurs, Minister)

We wish to remind all the members again, that next Sunday is roll-call day at the City Park church. As was previously announced, we want to urge every member to refrain from visiting out of Floydada next Sunday, and plan to be present for the morning worship and roll call. We are desirous of having every member present for one time. Please make plans now to be present.

There will be preaching both morning and evening, 11 o'clock and 7:45 o'clock. All other worship and classes at usual hours.

We urge all members and non-members, to come and take part in the study of Revelation. Every child of God should make a close study of this important message from the Lord, to build up his faith in such a crisis as the world is now passing. This class meets on Wednesday nights at 7:30.

Auto Owners Are Warned Must Obtain Certificates Of Title Before Getting License Plates

It will be Feb. 1 before the office of tax assessor-collectors of Texas begin issuing new automobile license plates, but it will be longer than that before the public will have complied with requirements for buying them, it is likely. By which is meant that the legislature's insistence on the motorist's having a certificate of title, under the following conditions, likely will keep numerous persons from being issued licenses:

Must Have Certificate
Section 63, paragraph B. of the certificate of title act specifically provides that the department (state highway department) or any agent thereof shall not after the first of January, 1942, register or renew the registration of any motor vehicle, unless and until the owner thereof shall make application for and be granted an official certificate of title for such vehicle or present satisfactory evidence that a certificate of title has been previously issued to such owner by the department. This however, shall not apply to automobiles which were purchased prior to January 1, 1936. Under the provisions of section 63 it will not be possible for a person to file an application for title and register his vehicle at the same time, as this section provides that the owner shall make application for and be granted a certificate of title, and the filing of an application for certificate of title does not necessarily mean that a title will be issued.

Assessor-collectors have been asked by the highway department to advise through the press every motor vehicle owner to secure certificates of title on their motor vehicles immediately "as operation of their vehicles on the highways after January 1, 1942, without said vehicle being titled will be a violation of law."

Exemption Explained
Highway officials also explained, "We would like to call attention to the fact that the exemption under section 63 regarding automobiles purchased new prior to January 1, 1936, pertains only to registration and operation to these vehicles and that any automobile sold or encumbered in this state after Oct. 1, 1939, must be titled regardless of the date it was originally purchased."

Issuance of title is delayed not less than a month in 25 per cent of the cases where motorists make application for certificate of title, and such applications have to be re-

turned to the various county tax assessors-collectors and from them to the applicant for correction because the applications were not properly prepared before being submitted. As a general rule, when an application is returned for correction it means that the issuance of title will be delayed for at least one month.

Reasons Are Listed
He listed as some of the reasons for which applications are returned: Make of car not given, motor and number not given, year and style body not given, no license number, from whom purchased not stated, no mailing address of owner (or street address only) and no city or state, date of lien omitted, incomplete address of lien holder, application not signed by applicant, application not properly notarized, application not signed by tax collector or deputy, county in which application filed not given, signature of owner outside of block on application.

So it will be a headache for the motorist, any way he goes about it. If he wants one of the new license plates he should do one thing and that immediately—get his application off for a certificate of title. Then, perhaps, he will have it back in time to get his license by Feb. 1. Such licenses do not have to be on your automobiles until April 1.

Will Have to Walk
Hundreds of persons will pay no attention to the new law, naturally.

And they will be the ones who will have to walk or thumb a ride.

The new license plates will be black and orange. Tags already have arrived.

GROWS SOYBEANS
Soybeans, grown commercially the past several years in the United States have been grown little in Floyd county and an occasional field or even a row of them is a novelty to many people.

J. T. Kirk grew a row of the beans in his garden this year. They were quite prolific and a stalk filled with matured beans was brought to The Hesperian office several days ago for display. The beans will be in the window until Saturday.

Mrs. W. W. Kirk of Plainview returned to her home Tuesday after spending a week with her son, G. L. Kirk and family.

New Federal Tax Law To Affect Many Millions

The new federal income tax law calculated to raise \$3,553,400,000 and will require approximately 22,000,000 citizens of the United States and possessions to pay income tax.

The increase in the number of people filing returns comes from lowering the income exemptions from \$2,000 to \$1,500 for married persons and from \$800 to \$750 for single persons.

There will be a lot of complaints from some because of the tax. The following table shows what your income taxes amount to this year:

Net Income	Single		Married		Two Children	
	No Dependents	Dependents	No Children	Children	No Children	Children
\$ 750	None	None	None	None	None	None
1,000	23.50	None	None	None	None	None
1,500	76.50	None	None	None	None	None

FLORRIE CONWAY ON HOUSE COUNCIL AT BURLESON HALL

WACO, Texas, Oct. 16—Miss Florrie Conway of Floydada, senior at Baylor university, has been elected to the house council of Burleson hall, women's dormitory.

Miss Conway, daughter of Mrs. O. M. Conway of Floydada, is an officer in the Baptist Student union. She was graduated from Floydada High school in 1937 and attended Wayland college in Plainview for two years.

Mrs. Ama Smalley of Clovis, New Mexico, returned to her home Wednesday of last week after a visit here with relatives and friends. During her visit here she accompanied Mr. and Mrs. Oscar Stansell on a trip to Leonard where they visited Mr. and Mrs. Homer Collins and Bonham where they visited Dr. and Mrs. Clyde Neville. Mr. Collins is a brother of Mrs. Smalley and Mrs. Stansell and Mrs. Neville is a sister of Mr. Stansell.

Conference Football Picks Up Tomorrow

With six conference teams tied up in inter-conference play tomorrow, District 4-A football will present an entirely new picture Saturday morning.

Matador and Floydada have high rating of 1000 per cent but both have many obstacles between them and district honors at the end of the season. Matador still has Ralls, Lockney, Paducah and Floydada to hurdle—four of them—and Floydada has an even longer road to travel, with five conference tussles yet. Beginning with Paducah Friday night at Wester field the Whirlwinds must meet successively on week-ends Lockney at Lockney, Matador at Floydada, Crosbyton at Floydada and Spur at Spur.

The Crosbyton Chiefs have lost three conference games already and are certainly out of the running. Spur has lost two conference games and have only a glimmer of a chance at the district. But Lockney and Paducah, each with one victory in hand and one tie could tie or win the conference. Ralls with one win and one loss also are in shooting distance of the crown. The Jackrabbits, after their disaster against Floydada, is said to be coming along better than any team

in the district, except possibly Matador.

NEARER, NEARER comes ski weather. Overnight even now

your car gets steely cold. These mornings, as your starter prods the engine, the precious parts that you want to keep fit are rarin' to claw each other. But not after they're Winter OIL-PLATED by the quick simple change to your seasonally correct Conoco Nth motor oil. Its magnet-like effect holds OIL-PLATING clear up to the topmost piston rings, though your car may stand cold for days. Instead of all quickly draining down, Conoco Nth makes OIL-PLATING stay up on guard in advance—ready ahead of mere fast-flowing oil—to ease up the coldest starts.

Then when your engine's insides—even in Autumn and Winter—naturally warm up more than a brand new sunburn, your Conoco Nth oil shows you the type of economy that won the sensational Death Valley Death-Test—certified. 6 identical cars—6 widely advertised oils of quality, including Conoco Nth—were kept speeding over the desert, each on a different 5-quart fill—locked in—no oil ever added.

5 quarts of one big brand burned up—engine burned out—when the car with Conoco Nth still had the protection of 3.65 quarts! Even the runner-up's 5-quart fill was consumed, and the engine was junk, when the car with Conoco Nth still had 2.7 quarts in the crankcase. All impartially certified.

Get the printed evidence at Your Mileage Merchant's Conoco station. There's where to change to this popular-priced Conoco Nth oil that OIL-PLATES your engine for protected prompt starting. That's more than a promise. It's backed by something real . . . OIL-PLATING. Continental Oil Company

GAVE TWICE THE ENGINE LIFE!

This oil that OIL-PLATES gave its engine more than twice the life averaged by the engines using the other oils in the Death-Test.

In these times use your car prudently. And use oil that's great for engine life—changing regularly as recommended.

Good starting—good lubrication against all needless wear—helps conserve gasoline, too.

Lives Of Famous Women Reviewed For 1934 Club

Women who have made high-ways in the air was the subject of the program studied by the 1934 Study club at the meeting held Tuesday evening at the home of Mrs. Virgie Shaw.

The lives of two famous women were given with Miss Bernice Patton discussing "Anne Lindbergh." She said Mrs. Lindbergh had the most tragic life of any figure in American womanhood because of her family life and the contrast of the American ideals in the home in which she was reared and the present beliefs of her husband, Chas. Lindbergh.

Miss Imogene Roy was the subject of a very clever review of the life of "Amelia Earhart Putnam." The following officers were elected to fill the vacancies which have recently occurred because of resignations from the club: Mrs. J. W. Clonts 2nd vice-president; Miss Margaret Stuart, treasurer; Miss Betty Newell, secretary; Miss Rita Rhodes, parliamentarian; and Miss Imogene Roy, custodian.

Local Club Members Report Enjoyable Program During Institute Held At Levelland

One hundred and sixty women from Seventh District Texas Federation of Women's Clubs, including six representatives from Floydada clubs attended the institute held at the Methodist church at Levelland Friday.

Mrs. H. F. Godeke of Lubbock, district president, presided and the program was directed by Mrs. Pete Smith of Plainview, institute chairman of Seventh district.

Mrs. Joseph M. Perkins of Eastland, General Federation director, discussed National Defense and the general Federation, her topic being "The Joy of Living in America." She urged all members to read "The Federation News" and climaxed her talk with the following request "Be United in Our defense work, learn the art of co-operation. Learn to Value human lives in our midst."

Mrs. Perkins introduced her girlfriend, Miss Etta Mary Griffith of Loveth, Bulgaria, who discussed "The Bulgarian Woman of Today" and displayed a number of articles, including a typical costume, embroideries and robes.

Mrs. Godeke conducted a symposium on defense in which Mrs. Walton Hale, Americanization chairman of the district, was a member of the panel and made a talk in regard to her work. A parliamentary discussion also was led by Mrs. Godeke.

Mrs. J. W. Walker of Plainview, T. F. W. C. president, spoke on "What is the Federation in Texas Doing for Women?" and gave highlights of the approaching state convention which will be held in Dallas November 10-13.

McReynolds Gives Welcome Welcome was extended by Rev. J. B. McReynolds, pastor of the Levelland Methodist church and a former pastor of the Floydada church. Rev. McReynolds was given the privilege of returning to Levelland from here to direct the completion of a beautiful church begun while he was serving as pastor. Mrs. Jno. Hoffman a member of the local delegation said the church which was a beautiful structure was almost completed and Rev. McReynolds was very proud of it.

Following the talk by Rev. McReynolds, Mrs. McReynolds played a very enjoyable selection on the pipe organ.

Luncheon was served by the Levelland City Federation from tables artistically arranged and centered with bouquets of roses. Arrangements for the luncheon were directed by Mrs. Randell Alexander wife of a former Floydada young man, and daughter-in-law of Mrs. Della Alexander.

Following the luncheon Mrs. H. G. Stinnett of Plainview, and president of the Fourteenth district, Texas Congress of Parents and Teachers, made a talk on the subject of "Indian Welfare."

Those from Floydada attending the institute were Mrs. Jno. Hoffman, president of the 1929 Study club, Mrs. Walton Hale, Americanization chairman of Seventh district and Mrs. A. B. Keim, all members of the 1929 Study club and Mrs. Glad Snodgrass, Mrs. Edd Johnson, and Mrs. O. P. Rutledge all members of the 1922 study club.

Mrs McIntosh Delegate To State Meeting

At the regular meeting of the Andrews Ward Parent-Teacher association held Wednesday afternoon of last week at the school building, Mrs. B. F. McIntosh, president of the association, was elected delegate to the 33rd annual convention of the Texas Congress of Parents and Teachers which will be held at Austin November 4-6. Mrs. A. J. Jackson was elected alternate.

"The theme of the convention, 'The Home Rediscovered' will be considered by state and national authorities in education, sociology and child welfare as they speak and take part in panels and conferences. Mrs. J. A. Wessendorf of Richmond, state president, will preside throughout the convention.

During the meeting Wednesday Mrs. McIntosh urged all of the members to pay their dues before October 21 as the dues will have to be sent to Austin by that time. On account of the convention being held earlier this year than usual, the dues will have to be earlier," she said. October 13-19 was observed as membership week. Mrs. W. R. Simon, membership chairman, reported a total of 41 membership paid.

Motion Pictures and Children

Miss Rita Rhodes was director of the program for the afternoon. Mrs. Roe McCleskey spoke on "The Effects of the Motion Picture." "It is a well known fact" she said "That motion pictures have a great influence upon children. Therefore we should be very careful to see that the proper kind of pictures are shown." Good pictures do not occur regularly so you cannot set a certain night or nights a week to go to the movies. You should study the pictures and plan to see the good ones. Small children should be accompanied by their elders so that they can explain certain things in the show to them," Mrs. McCleskey said.

"Spare the Rod and Spoil the Child" was the subject of a very humorous talk given by Mrs. L. W. Bridges. In her talk she brought out that a fishing trip could be one of the best kinds of recreation for children "for children need adventure and an occasional thrill," she said. "On a fishing trip the parents may have the opportunity to point out many lessons to their children such as there are lots of things in life that get away from us. Great men listen to others who have had more experience, and everything that we use may become dangerous if we do not know how to use it."

Sharing Responsibilities "Of Course Its Easier to Coddle" was the subject of a talk given by Mrs. L. J. Welborn. "If we do not teach our children to work and share responsibilities they are the losers. Are we making our children self reliant? We know that the child that grows up needs to know how to work. Sometimes we see children who quarrel and make everyone miserable because they do not have anything else to do. The child in the neighborhood that has nothing to do is a menace and makes other children feel badly because they have to work. It isn't kind of us to shelter them. But no program of the home can be put over without the full co-operation of all the members in it" she concluded.

Sup. Walter Travis, Mrs. Bridges and Miss Ruby Norton were appointed as a committee to suggest some projects for the association at the next meeting.

Mrs. Mal Jarboe, announced that the finance committee still had canned peas and beans for sale. Mr. Travis explained that the W. P. A. had discontinued all library projects and had therefore discontinued the service of a librarian at Andrews Ward High school. Miss Dorothy Hoyle asked the association to consider some improvement for the library as one of their projects for the year.

Whirlwinds Take 19 To 6 Loss At Phillips

Floydada high's Whirlwinds took heads up advantage of a lucky break in the first two minutes of play against the Black Hawks at Phillips last Friday night to score their only tally of the game.

But before the evening was over they had had a good lesson in slam bang, helter skelter football such as only a regional football winning squad can administer to a less experienced crew. And the final score stood 19 for the Black Hawks, 6 for the Whirlwinds.

Tackles, ends and center of Floydada high took a good mauling during the evening and—the few local fans who made the trip though— took much too much roughing. However, that is by way of a side remark by the reporter and not an official holler.

The Whirlwind squad came through in excellent condition and went through their paces for the coaches Monday afternoon in preparation for Paducah tomorrow night with rest and pep.

Floydada Kicks to Phillips
Unlimbering themselves after the long journey to the north plains, the Whirlwinds kicked off to Phillips, out of bounds on the 30, the ball in play on the 35 yard line of Phillips. After whipping off two yards through left tackle and six yards through the middle, Foster, Phillips quarterback fumbled and Floydada recovered.

Rushing started offensive play for the Whirlwinds by bucking 8 yards through right guard and 3 yards in an off tackle play for a first down on the 26 yard line of Phillips. An off tackle play netted another 9 yards by Rushing. Loran fumbled and recovered with one foot to go for downs. On the next play Rushing through right guard for first down again and the ball set on the 14 yard line. Paking another tackle play Rushing pitched a pass backward to Loran who skirted the right end for the touchdown standing up. The kick was no good.

The remainder of the quarter was a see-saw game between the 25 yard lines with kicking honors about even and the ball on the last play was Phillips' on their own 23 yard line.

Early in the second quarter the pace set by the Black Hawks got faster, with end sweeps and off tackle plays netting 37 yards in three first downs. A long completed pass Foster to R. Jackson set the ball up on the 10 yard line of Floydada, from which a play through guard for 6 yards, a line buck and a play through tackle scored.

Passes and end sweeps well assorted again set the ball up quickly for a score by Phillips. Coach Murry of Floydada meanwhile having run in nine substitutions in an effort to give his first string men rest and time to think it over. At the half the Whirlwinds vainly hunted a winning combination for the last 25 yards to pay dirt.

Hit the Left Tackle
In the second half the punishment for Floydada's left tackle and end really began. The secondaries of Floydada got plenty of tackle practice as end sweeps and center plays were used enough to give variety to the slams through tackle, when a cut back toward center netted average gains of 5 yards to the play. From their 33-yard line the Hawks journeyed 63 yards in seven plays to the 4-yard line of Floydada. Fullback Waldrep picked up a yard through left tackle and Foster went for the last Phillips touchdown. The kick was good and the score stood Phillips 19, Floydada 6.

For the remainder of the game it was a battle of reserves against reserves. Every reserve squadman who made the trip from Floydada got a taste of the way the Blackhaws dished it out, little George Allen running the game for Floydada after Rushing retired. He got credit for two excellent kick outs, one for 49 yards that saved a touchdown. Pumbles and incompletes passes, line bucks, fakes and laterals for some 10 minutes and the game was over with the ball on the 50-yard line.

Early in the second quarter the Hawks appeared to catch on to the timing on the Whirlwind plays to smear tactics that won against Rails a week previous.

Enlisted Men Must Register As Discharged

Enlisted men who were in the registration age brackets on October 16, 1940, or July 1, 1941, and who have not already registered under the Selective Training and Service act must register when discharged from the military establishment, General J. Watt Page, State Director of Selective Service said today.

Although members of the regular military establishment are relieved from registration as long as they are in service, General Page said, they must register when they are released from the armed forces.

While the majority of such ex-service men probably are not liable for induction as selectees, the State Director pointed out that there are some men who are discharged from the Regular Army after completing one year of training and who, consequently, are liable for induction under the Selective Service law. The Selective Training and Service act of 1940, as amended, General Page declared, relieves from liability for peacetime training and service under the act only those regulars who have satisfactorily served as an officer or enlisted man for at least three consecutive years in the Regular Army, Navy, Marine Corps or Coast Guard, or any enlisted man honorably discharged from the Regular Army or the Coast Guard within six months prior to the completion of his regular three-year period of enlistment.

Editorial

Friday night Floydada will have its first guests of the football season. Everyone is waiting impatiently for the night when Paducah is to be here and, of course, every one expects to have an exciting time.

In the pep rally, which will be held just before the game, let's have every student in high school out there cheering! Let's leave an impression of indomitable school spirit that Paducah will never forget.

F. H. S. STUDENTS ARE VERSATILE IN ACTIVITIES

The seniors of Floydada High school are versatile in activities. Many seniors do jobs outside of school hours that give them various experiences for post school life.

Gene Loran clerks at Felton-Collins. Randolph Rutledge is in the grocery business at Star Cash.

Wayland Hale is learning toggery at Martin Dry Goods. Cleo Kirk is a beginner sales lady at Martins.

Bryan Collins is a "soda skeet" at Arwine Drug. Several girls help their mothers at home. Farm boys help their fathers gather the crops.

NOTICE: The Band Parents organization will meet November 4 instead of November 11 as previously announced.

Whirlwinds To Play First Home Game Of Season Friday Night Against Paducah Dragons

The Whirlwind-Dragon game scheduled for tomorrow night will mark the first game played on Wester field this season.

The Whirlwind's active backfield, powerful line and the co-operative spirit of each player will prove to be sufficient qualities for a victorious game on the part of the Whirlwinds.

Coach Murry's statement in part—"but on the field my boys are fighting demons," will prove to be a significant fact when the pig-skin sweeps down the field to the Dragon's defensive goal.

When the Floydada machine goes into action Friday night they will be in better condition than ever before.

In the Phillips game last week the Whirlwinds scored within the first five minutes of the game. The boys didn't click as well the last three quarters as they did the first quarter, but during all of the game the Black Hawks paid for every inch they pushed forward with the ball.

Patterson, Battey, Tyler, Baxter, Warren, Fawver, Boteler, Rushing, Morrison, Rutledge and Loran formed the starting line-up against Phillips.

Promising Pupil Goes Poet
Though try as you may
You can't get away,
I'll track you about
And find your secrets out.

Several girls find the skating rink a nice place to go. Could it be the handsome manager, we'd like to know.

The Halloween mask dance may give some romances their start. In these love affairs, we'll bet, R. T. and Billy Bean will have a part, for it's now the Piqua girls you see.

He may be a Pee Wee but he gets around, they're talking about the new girl he's found.

Corky Myers finds English class a fine place to write, could Polly Cardinal be interested, well—she might.

Some sweethearts find themselves in a sad plight, but not so with Robert Conner and Nancy Knight, they get along fine and are happy it seems; when she's around he simply beams.

Robert Morrison is one of the shy kind, or is there some other girl on his mind, these bashful boys we hate it terribly, but the girls fall for them almost invariably.

Attention, Lovelorn

Beginning next week, a Lovelorn column will be featured in the Hesperette. Anyone wishing advice will find a box in the principal's outer office where they may deposit their questions concerning love matters. These letters will be answered in the next edition of the Hesperette.

Your true name need not be put on the letter and no attempt will be made to find out who the author is.

Your letter will be answered by one experienced in such matters and the advice will be sincere. Don't hesitate to write, no one will know and you will find the answers to your problems.

The success of this project depends on the students who are willing to cooperate. Write now!

School's Biggest Rally Will Be Held Tonight

Tonight the students of F. H. S. will assemble for a pep rally before the Floydada Whirlwinds and the Paducah Dragons clash on Friday.

This is a conference game and promises to be a real bout. Paducah is one of our foremost rivals for district championships.

The band and pep leaders will be present with plenty of spirit to lead the rousing cheers.

Everyone is urged to attend this pep rally Thursday night, October 23 at 7:15.

NICKNAMES AND WHY

Many people have nicknames, but no one knows why a certain person has a certain one. Some nicknames are self explanatory; others have a definite meaning. Here are the nicknames of some of the high school students and why they are so called.

Jack Martin is called "Little Booger" because that is what a man in Plainview asked his friends to call him. This man did not know Jack, and neither did Jack know the man; and it seems as if it fits, doesn't it?

"Legs," the nickname given to Virgil Boteler several years ago, is self explanatory.

When Florine Cates started in Floydada, everyone pronounced her last name wrong. It was pronounced "Cats," by which she has been called ever since.

Arless Rainer is called "Pee Wee" because "When I was this little I slept with my brother who was this big." That makes him a Pee Wee, doesn't it?

Randolph Rutledge's friends found, once upon a time, that it was much easier to say "Randy" than Randolph.

"Flossie" is a cow's name but it really doesn't mean that Floy Jean Hale is a cow. It's just a nickname.

The membership cards for the Future Farmer's of America were received this week and have been given to those who are members of the local chapter. The membership cards serve also as identification cards and may be carried as such in the billfold.

Formal Initiation Of Home Economics Club Wednesday

The formal initiation of the Home Economics club members was held Wednesday night. The officers were dressed in evening dresses. As Nelda Fagan played softly a march, the old officers marched down the left aisle, while the new officers marched down the right aisle of the auditorium.

The auditorium beautifully lighted candles. Francis Keim and Joy Cardwell stood on each side of the stage with a candle while the old officers handed their candles and responsibilities to the new officers.

Retired officers were Mary Frances Jones, La Juana Leibfried, Evelyn Elliott, and Cleo Kirk. The new officers are Margaret Camden, Josephine Britton, Roberta Medlen and Odene Huey.

The new members, who were sitting on the first two rows, took a lighted candle, and said the pledge after Helen Young.

The mothers and members then went to the dining room where refreshments were served. The punch was served from a crystal server by Margaret Camden. The centerpiece was a big lighted jacklantern in the middle of the table surrounded by autumn leaves, Halloween Witches, cats, lanterns, and candles, were around everywhere for decorations.

Those present were: Mesdames Travis Corley, Wiley Rogers, V. H. Boteler, V. W. Hennessee, C. C. H. Hucksabee, T. J. Sparks, F. A. Smith, Warren Daniel, Doniece Cline, Betty Jo Sims, Lois Burgett, Florence Jones Mrs. Robt. Medlen, Mrs. J. B. Mr. Travis

Thumb Nail Sketch Gives His Wife Credit For His Good Humor

Every student of F. H. S. knows that the school superintendent is Mr. Travis and a person to respect, but many know nothing else about him. In order to complete their education the following facts are given.

Mr. Travis was born in Rogers, Texas, Bell county, on November 27, 1905. He received his first schooling at Cone, Texas. He completed eleven grades at Cone, Texas to finish his high school work.

After finishing high school it was necessary for Mr. Travis to work in order to complete his education. He spent one and one-half years working, then went to school as follows as his financial means would allow.

Mr. Travis attended West Texas State Teachers college at Canyon for one year, then spent one year in North Texas State Teacher's college in Denton. After this he again attended W. T. S. T. C., from which he received his B. S. degree in 1928. Mr. Travis received his Master of Education degree this summer at Texas Technological college.

In 1929 Mr. Travis did his first teaching in Crosby county, after which he moved to Floyd county. About this time Mr. Travis married the present Mrs. Travis. Perhaps she is the one who is responsible for his perpetual good humor, at any rate she is as nice a person to know as he. Mr. Travis taught one year at Blanco, then moved to Sand Hill.

At the beginning of his fourth year there he was appointed county school superintendent, in September 1935. He held this position until 1939 when he became superintendent of Floydada Public schools. Mr. Travis is still holding this position.

Someone once said that Mr. Travis would never have gotten his job at Sand Hill if the trustees had not eaten some of his wife's chocolate fudge. This may be true, but Mr. Travis has proved his ability by his capable work as county and city school superintendent.

CHEMISTRY CLASS STUDIES PROPERTIES OF OXYGEN AND HYDROGEN THIS WEEK

The chemistry class has been studying the properties of oxygen and hydrogen, learning how to bend glass, and studying compounds and mixtures, also weighing and obtaining percentage of oxygen in compounds.

In describing their work, one member of the class said, "more pretty colors."

The members of the class are Joe Rushing, Randolph Rutledge, La Juana Leibfried, Frances Keim, Mary Frances Jones, Roberta Medlen, Carl Lee Myers, B. K. Barker, J. C. Porter, James Bishop, Bud Du Bois, Nelda Fagan, Wayland Hale, Gene Loran and Florence Loyd.

BAND PARENTS SELL CAKES

Last Saturday afternoon the parents of the members of high school band conducted a cake sale in order to raise money for refreshments for the Band-Parents organization.

The band mothers donated cakes and these were sold for one dollar each.

The surplus of the sales will be put in the care of Mr. Travis and Mr. Linder until it is needed for something else.

The women in charge of the sale were Mesdames J. A. Arwine, L. T. Bishop, A. B. Keimand, H. L. Wilkerson.

Gene Dunavant, Virginia Middlebrook, Virginia Wilson, Francis Marie Bostick, Odene Huey, Cleo Kirk, Helen Young, Sammie Lee McCleskey, Betty Merle Boteler, Dorothea Smith, Georgiann Huckbee, Mary Lee Thacker, Maurine Medlen, La Juana Jo Sharp, and Betty Corley.

A THOUGHT

Perhaps one of the wisest thoughts ever stated was one given to the Journalism class by Mrs. Owen: "Wise people change their minds, fools never do."

There are many ways in which one can change ones mind and thus prevent being the fool therein implied.

For instance, a wise person with his mind made up to dislike school and all pertaining to school, will change that mind and profit by the resulting interest which will take the place of the old languor.

Of course, this is just a theory, but one could think about it.

The Floydada High School band went to Lubbock Saturday for "Band Day" and were guests at the Tech game that night when Tech played Centenary.

The band with about 15 other bands paraded through the business section at 4 o'clock Saturday afternoon. They marched down Broadway as far as Texas Avenue, then turned and went back up Main.

At 7 o'clock the band members met the bus and went to the football field. Several of the bands marched before the game started and at the half all the bands marched onto the field and formed a doubt T. They were then conducted in a mass band number "Booster" before they marched off the field.

Before leaving Floydada Saturday afternoon the band marched downtown to advertise the band cake sale which was held that day at Arwine Drug by the Band Parents organization.

Legal Notices

ELECTION NOTICE STATE OF TEXAS. County of Floyd.

To the Resident, Qualified Voters of Commissioners' Precinct No. 1 of Floyd County, Texas, Owning Taxable Property in said Commissioners' Precinct No. 1 and who have Daily Rendered the same for Taxation:

TAKE NOTICE that an election will be held in Commissioners' Precinct No. 1 of Floyd County, Texas, on the 8th day of November, 1941, on the proposition of issuing the bonds of said Commissioners' Precinct No. 1, in an amount not to exceed One Hundred Twenty Five Thousand (\$125,000.00) Dollars, pursuant to an election order passed by the Commissioners' Court of Floyd County on the 6th day of October, 1941, as follows, to-wit:

"AN ORDER Calling an Election on the Proposition of Issuing Road Bonds of Commissioners' Precinct No. 1 of Floyd County, Texas, in an amount not to exceed One Hundred Twenty Five Thousand (\$125,000.00) Dollars.

WHEREAS, there has been presented to this Court the petition of J. M. Willson and 53 other persons, representing themselves to be resident, qualified voters of Commissioners' Precinct No. 1 of Floyd County, Texas, who own taxable property in said Precinct and who have duly rendered the same for taxation, praying that this Court order an election in Commissioners' Precinct No. 1 of Floyd County, Texas, to determine:

"Whether or not the bonds of said Commissioners' Precinct No. 1 shall be issued in an amount not to exceed One Hundred Twenty Five Thousand (\$125,000.00) Dollars, bearing interest at a rate not to exceed 3 1/2% per annum, payable semi-annually, and maturing at such time as may be fixed by the Commissioners' Court, serially or otherwise, in not to exceed 25 years from the date thereof, for the purpose of the construction, maintenance and operation of unadmirred, graded or paved roads and turpines or in aid thereof throughout Floyd County Commissioners' Precinct No. One, and whether or not ad valorem taxes shall be levied annually on all taxable property in Commissioners' Precinct No. One sufficient to pay the annual interest on said bonds and provide a sinking fund sufficient to pay the bonds at maturity."

WHEREAS, heretofore on the 13th day of September, 1941, the Commissioners' Court passed an order fixing a time and place for a hearing on said petition and directed the County Clerk to issue a notice of such time and place of hearing to inform all persons concerned of their rights to appear at such hearing and to contend for or protest against the ordering of such election; and

WHEREAS, the County Clerk has heretofore duly executed said notice by posting true copies of said order of hearing in three public places within said Commissioners' Precinct No. 1, and another copy thereof at the Courthouse door of said County for ten days prior to the date fixed for the hearing, and said notice has also been published in a newspaper of general circulation published in said Commissioners' Precinct No. 1, namely, The Floyd County Hesperian, one time, on the 25th day of September, 1941, which was at least five days prior to the date fixed for said hearing; and

WHEREAS, this Court, having met at the time and place set for the hearing of said petition, proceeded to hear such petition and all matters in respect to the proposed bond election, to hear the contentions for and protest against the calling of such election, and it is found by the Court that the said petition is signed by more than fifty legally qualified electors who own taxable property in County Commissioners' Precinct No. 1 of Floyd County, Texas, and who have duly rendered the same for taxation, and that the notice required by law to be given of said hearing has been given; and

Whereas, pursuant to the hearing held on said date and from the evidence submitted at said hearing, the Court has determined that the proposed improvements would be for the benefit of all taxable property situated in such Commissioners' Precinct No. 1 and that it is desirable and necessary to issue the bonds of said Commissioners' Precinct No. One in the amount of One Hundred Twenty Five Thousand (\$125,000.00) Dollars to construct said improvements, and that election should be ordered; and

WHEREAS, the Commissioners' Court

further finds that the amount of said proposed bond issue, together with all outstanding bonds of the same nature heretofore issued on the faith and credit of Commissioners' Precinct No. 1 of Floyd County, Texas, will not exceed one-fourth of the assessed value of the real property of said District; and

WHEREAS, said Commissioners' Precinct No. One of Floyd County, Texas, has heretofore been legally created by an order passed by the Commissioners' Court on the 1st day of August, 1938, which order is of record in the minutes of the Commissioners' Court in Book 7, pages 355, et seq;

THEREFORE, BE IT ORDERED BY THE COMMISSIONERS' COURT OF FLOYD COUNTY, TEXAS:

That an election be held in said Commissioners' Precinct No. 1 of Floyd County, Texas, on the 8th day of November, 1941, which is not less than thirty days from the date of this order, to determine: "Whether or not the bonds of said Commissioners' Precinct No. One shall be issued in an amount not to exceed One Hundred Twenty Five Thousand (\$125,000.00) Dollars, bearing interest at a rate not to exceed 3 1/2% per annum, payable semi-annually, and maturing at such time as may be fixed by the Commissioners' Court, serially or otherwise, in not to exceed 25 years from the date thereof, for the purpose of the construction, maintenance and operation of unadmirred, graded or paved roads and turpines or in aid thereof throughout Floyd County Commissioners' Precinct No. One, and whether or not ad valorem taxes shall be levied annually on all taxable property in Commissioners' Precinct No. One sufficient to pay the annual interest on said bonds and provide a sinking fund sufficient to pay the bonds at maturity."

Yes, Good Roads Do Cost Money...

But Bad Roads Cost A Great Deal More!

These pictures illustrate how farmers in other sections of Texas are meeting their transportation problems. In the first picture is shown a muddy, virtually impassable road, which in six months was transformed into a high speed, durable highway. Costly? Yes, but it is paying for itself many times over.

Taxpayers! Think On These Facts

In Addition to the investment that people of Precinct No. 1 have in their farms, they also have hundreds of thousands of dollars invested in Automobiles, Trucks, Pick-Ups, which are high and are getting higher. Good roads will bring a reduction in the cost of this machinery. All-year-round roads will reduce the cost of every farmer's haul, of every trip that must be made for Repairs, of every sale that you make of the products of your farm.

How Much in Repair Bills have bad roads cost each of us this year? It has been a tremendous sum. And how much last year and the year before? A lot of money, you say. And that is right.

Last Year, According to USDA, the farmers of the United States lost over Forty Million dol-

lars because their Butterfat was not Marketed when it should have been marketed. How much have bad roads cost the People of Precinct One because they could not get to market when they should have?

The Bond Issue Proposed is in the amount of \$125,000. It will run for not more than 20 years. The interest rate for the first 15 years will be 3 per cent, and for the last 5 years 3 1/2 per cent. The whole interest bill in 10 years will be hardly \$40,000. One community alone with good roads can save much more than that in Hauling Cost, in Expense, in Convenience, in Time and in Repair bills. Vote to save money! Vote to make an investment for the whole Precinct that will make the Whole Precinct Dollars where it will cost us dimes.

VOTE FOR THE ROAD BONDS NOVEMBER 8th.

This advertisement sponsored and paid for by L. R. Stringer and other Floyd County Taxpayers who believe that Good Roads will make the Taxpayers Money.

Pectin And Acid Necessary To Jelly Making

(By Edith L. Wilson)
The fall apples are about the only fruit left to answer the jelly maker's last call. Many home demonstration club members are taking advantage of these in order to complete their pantry shelves.

Two essentials a fruit must have in proper proportion if it is to be converted into jelly are pectin and acid. Both of these elements decrease as the fruit ripens, so for the best results a mixture of slightly underripe and ripe fruit may be used, the underripe to furnish pectin and acid and the ripe to contribute flavor and color.

Fall apples are best for jelly. They contain more pectin and the tart varieties supply the needed acid.

Wash the fruit and cut all blemishes or undesirable portions and slice, retaining skins and core. For each pound of fruit (about 1 pint) add one cup of water. Boil 20 minutes to extract pectin from the fruit. It is best not to use more than 8 pounds of fruit at one time. Four pounds will make a clearer jelly. Pour the hot cooked juice into a jelly bag. Let the fruit drip. When the dripping has almost ceased, press the jelly bag to obtain all of the juice. Re-strain through canton flannel bag that has been wrung from hot water.

Measure the juice and add 3-4 cup of sugar to each cup of juice. Boil rapidly until the juice "sheets" from the side of the spoon. Pour into hot clean jelly glasses. As soon as the jelly is firm and well set, clean the inside edge of the glass before adding a thin layer of melted paraffin.

Forgery Charge; Ralph Williams Gets 2 Years

Charged by indictment with forgery, Ralph H. Williams was sentenced for a period of not less than two years nor more than three years in the state penitentiary last week-end. The young man, recently returned home from the Marine base at San Diego, pled guilty to the charge and waived a jury.

Another young man, Le Royce Colline, brought here from Hall county, charged by indictment at the last term of court as an accomplice to burglary, was given a two-year sentence.

Two youths were given suspended sentences, both on charges of burglary, in trials before Judge Chapman. They are J. C. Jones and Eugene Redd, who are on probation for a period of five years each.

Final disposition of the complaints filed against M. D. Arterburn, sr. and jr., last summer was made this week, when they pled guilty to a misdemeanor in the county court and were dismissed. The complaint was signed by an insurance adjuster who claimed an assault was made when he visited the Arterburn farm to make an adjustment on a hail loss.

The grand jury, after three days session last week, adjourned. They filed five indictments with the court, three of them on felony charges and two on misdemeanor charges.

In the divorce suit of Mary L. Davis against A. B. Davis the plaintiff was given a decree of divorce and custody of the couple's 10 year old son.

W. T. Bacy was granted a decree of divorce from Olivia Bacy. Judgment for the First National company of Lockney was entered in the court's minutes against Albert J. Byars in a suit for foreclosure on note.

panies in the maneuver area. The statistics quoted above, together with the report made by the representative of the Quartermaster General of the Army, make evident the fact that maintenance and repair of motor vehicles in this division is on a high plane. Such superior results can not be obtained without the enthusiastic and intelligent cooperation of all maintenance personnel.

Major Mathews was commended by the General "for the leadership and administrative ability displayed in indoctrinating all organizations of this command with the necessity for thorough and continuing motor maintenance."

"The Division Commander feels that the mobility attained by the efforts of these officers and their assistants contributed must to the success of this division in the field," the order continued. "He desires that his commendation be published to the entire command in order that these praiseworthy acts may be set as a goal for all motor personnel."

Mrs. George Hulseley and little son George Haynes of Oklahoma City came Friday to spend a week with her mother Mrs. P. G. Stegall.

Tech Will Play Four S-Western Teams In '42

Members of Floydada Lions club and numerous guests totaling nearly 50 persons heard Burl Huffman, assistant coach of Texas Technological college Tuesday noon in a talk on football.

Included in the number were J. C. Wester, FHS' first coach, Floyd Murry, present coach, and co-captain Carleton Fawver and Joe Rushing of Floydada High school football squad.

A football program is an annual event with the local club each fall. Several minutes of the period was given over to questions and answers. Among other news the assistant coach told his hearers was that Tech will play four Southwestern conference teams—two of them on Tech field—TCU and Baylor — on next year's schedule.
