Road Bonds Lose Precinct One Votes Against

The proposed issue of bonds in Precinct One for hard surface improvements got thumbs down from the voting voters Saturday.

Every one of the voting boxes in the precinct, save one, voted heavily against the proposal, the net outcome for the whole precinct being four to one against the \$125,000 issue. A two to one majority for the issue was necessary to carry.

Although a most favorable financing plan was made available to the Commissioners court, by which the precinct could obtain financing for the venture at 2 1/2 per cent interest, voters questioned what definite work would be done and how it would be done. The petition to the court asked for the issue to construct a hard surface road from Highway 207 to the Hale county line toward Petersburg and hard surfaced roads or in aid thereof "throughout the precinct." General sentiment which prompted the petition appeared to be in favor of a hard-surface road to Barwise due west from Floydada and for the west from Floydada and for the Petersburg road improvement. The Petersburg road mentioned, for order of the court mentioned, for legal reasons it was explained, did not cover either of these projects specifically. The vote by precincts was as follows:

Farmers Start Drive

Launching Food Campaign

Texas Defense Chiefs—Civilian and farm defense chiefs conferred recently at Austin when Governor Coke Stevenson, left, chairman of the Texas National Defense Committee, and B. F. Vance, chairman of the Texas USDA Defense Board, discussed mutual defense problems. Following the conference, the food production campaign was launched in which Texas farmers are being asked to increase their production of foods needed for defense.

E. S. Price Injured Sunday Morning At Gainesville In Automobile-Train Crash

Next Two Games Of Whirlwinds On Local Field

Announcement was made here this week by Superintendent Walter Travis, chairman of the high school athletic council, that not only the Crosbyton conference game will be played here tomorrow afternoon as scheduled, but that the Spur game also will be played here on Thanksgiving, November 20.

The Spur game was originally scheduled to be played in the Spur stadium. The change was made by mutual agreement.

The Crosbyton game will be played in the afternoon tomorrow, beginning at 2:45, with Sammy Brian, Hale Center, as referee, Forrest Faulkner, Roaring Springs, as umpire, and Lother Stephenson of Meadow, linesman.

Floydada Whirlwinds will enter the game decided favorites over the Crosbyton Chiefs, the former standing at the head of the class in the conference while the Chiefs have been at the bottom of the heap since the opening of the season. The Chiefs have never been able to hit their stride during the season. The crowd is expected to be good, however, because the homefolks are going to want to see their team in action for the third time this year.

"We are not taking anything for granted up at the high school and our squad is not taking the Chiefs lightly," said Head Coach Murry. The fans, however, are counting on seeing some of the team's good substitute material in action during the afternoon.

The Spur Game in the Afternoon
The Spur game will be an afternoon game also. The agreed beginning time is 2:30, not 2:45 as is the case in the Crosbyton game this year. (See Next Two Games Back Page)

Everett S. Price, city water superintendent of Floydada, was gravely injured at Gainesville, Texas, Sunday morning at 5 o'clock when his car was caught and dragged on the cowcatcher of a Katy freight train at a street intersection.

His most serious injury is a laceration on the head, behind the ear, where he also has a severe cut, according to reports brought back from Gainesville Monday by M. H. Martin. Martin took Mrs. Price via air Sunday morning to her husband's bedside in a Gainesville hospital.

In addition to the head injury Price has four, possibly five, broken ribs, and other bruises and lacerations.

Yesterday it was thought the injured man could be brought home in an ambulance sometime this week, possibly Friday. Definite plans of the family are not known, however.

According to the Gainesville Register, the accident occurred on Throckmorton street when K-K-T freight train No. 372 struck Price's 1940 sedan. The locomotive smashed the entire right side and front, dented the body and broke windshield and window glass. Mr. Martin, who returned home late Sunday, said the car was as completely demolished as any he had seen in years.

Price was enroute on a hurried business trip to Denison, it was said here by friends, of whom he had asked to make the trip with him to keep him company, promising to be back quickly.

Home Guard Wins Third Place At Childress

Fourteen members of Company B Texas Defense guard made a trip to Childress Armistice day and came back third in the race for custody of battalion colors. Childress won first with Turkey second in the judging. The winning team made the best showing on records and in periodical contests.

The program consisted of a parade through town and on to the football grounds where the contests were held. A patriotic program followed. Dinner was served at the park and the judging and presentations were made in the afternoon, Captain J. C. Gilliam said.

Those attending from Floydada were Sergeant J. C. Tubbs, Lieutenant Harry Morckel, Sergeant Douglas Hollums and Floyd Fuqua; Corporal Billy Henry, Clyde Parr, Roy Nabors, Elvin Rainer, Corporal Hershel Swepton, Jack Johnson, A. B. Muncy, Jr., Sanders and Buck Sims.

FUNERAL HELD WEDNESDAY FOR MRS. JOHN BARNARD OF WICHITA FALLS

Last rites for Mrs. John Barnard 37, of Wichita Falls, were said yesterday morning at 10 o'clock at the family residence there. Mrs. Barnard died after a brief illness Monday afternoon. Burial was made in Rosemont cemetery at Wichita Falls.

Mrs. Barnard is a daughter-in-law of Mr. and Mrs. C. J. Barnard of this county, who were present for the funeral.

Turkey Market Closed; Quality Of Birds Good

Turkeys sold on the Floydada market this year are reported to have been better grade than they were on the Christmas market last year, a Floydada dealer reported.

The delayed farm work and busy season interfered with the number of birds sold this year on the Thanksgiving market. One dealer reported a check showed two-thirds of the crop still on the farms awaiting the Christmas market that will open around December 6.

Pledging Food-For-Freedom This Month

With their plans set to complete the Food-For-Freedom pledges in Floyd county by November 22, the county USDA defense committee this week has members and employees of the Agricultural Conservation committee working overtime in an effort to get all possible pledges at the office this week.

The office is being kept open during the noon-hour until 9 o'clock each night and will be until Saturday night, Paul Snodgrass, chairman of the committee said. Many have signed their pledges but many hundred remain yet to be seen, signatures pledge to increase the production of dairy meat and poultry products. A house-to-house canvass will begin when it becomes apparent that this must be done in order to complete the pledges by November 22.

Signing Food-For-Freedom pledges got under way in Floyd county last week when meetings were held to discuss the importance of meeting the goals which were set up by the State Defense Board and approved by the county Defense board.

On Friday, November 7, questionnaires were mailed to all farm operators in Floyd county requesting that they fill in the necessary information and bring same to the county office immediately in order that the production pledge in the Food-For-Freedom program might be added to the 1942 Farm Plan Sheet which will be used in mapping out the AAA program in individual farms for 1942.

The plan sheet is the official AAA notice of 1942 acreage allotments, yields, and marketing quotas for cotton, wheat and Irish potatoes.

"We have a job that must be completed by November 22, and we have requested the County AAA office to remain open from 8 a. m. to 9 p. m. through Saturday, November 15 for the convenience of our farmers in completing the information needed on the Farm Plan sheet," Snodgrass said. "We have enough people in the County AAA office to interview at least 200 farm operators per day without causing anyone much delay," he added.

The tabulation will include a report for every farm and ranch in Floyd county and the county USDA Defense Board, through Paul Snodgrass, Chairman, has issued an appeal to every farm operator to do his part in the Food-For-Freedom campaign.

Killing Frost Saturday In Floyd County

Killing frost that reached practically all vegetation seared cotton and feed stalks, fell over Floyd county Saturday morning, with a new low temperature of 29 set for the season's temperature.

The thermometer reached 32 degrees at 5 o'clock, stood at 29 from 6:30 to 7:45 and started back upward past the freezing point at 8:15 the West Texas Gas company gauge showed.

Light frosts that preceded the cold together with mild frosts and clear weather that have followed, have made ideal conditions for more than a week.

PROCLAMATION

TO THE CITIZENRY OF FLOYDADA:

WHEREAS, It has been a custom of Long Standing that a Day of Thanksgiving be set aside each year for our people to Pause and Give Thanks for the Material Things which it has been our privilege to enjoy;

AND WHEREAS, the President of the United States has set aside such a day;

Therefore, the City Council of Floydada calls upon our Citizens to observe

THURSDAY, NOVEMBER 20

as that day, as proclaimed by the President, and in line with the plans of our schools;

That we render our thanks to a Divine Providence for the Good Things of this year;

That we make it a day of Rejoicing in the Liberty we have of joining with our Neighbors and Friends after our own liking;

And that we make it a complete day by attending Floydada Whirlwind Football game at 2:30 on Wester Field.

Tempo Picks Up For Induction Into Service

In addition to the call for four selectees to be sent to El Paso Induction station on November 17, the local board has a call for two men to go to Fort Sill, Oklahoma for induction December 1 and a call for ten men to go to Fort Bliss, El Paso, on December 8, indicating that the

Called for induction into army service at Ft. Bliss, El Paso, are the following four, who report to the local board on Monday, November 17:

- No. 639, Carl Thomas Campbell, Burk Burnett;
- No. 710, Reginald Bruce Ward, Floydada;
- No. 774, William Pleasant Hinton, Floydada;
- No. 797, Leonard Alexander, Floydada.

calls for selectees will be stepped up considerably from the way they have been running. The local board is necessarily calling more selectees in for physical examination and classification.

The operation of the 28 year age law has cut down the list of probable 1-A men, (men subject to physical examination) considerably, having removed approximately fifty selectees from the list of Class 1-A, and probably 1-A men. The percentage of men examined physically is still running about fifty percent disqualified for service, or qualified only for limited service, which cuts down the number of available Class 1-A men very noticeably.

"Men who have reached the age of 28, and who had already been inducted, are being released as rapidly as the army can turn them loose in an orderly manner, and every effort will be made in every community to see that these men find ready employment, either in their former jobs, or some work that they are fitted for," says a statement issued this week from the office of the Floyd county local board.

The State Employment Service office over the state are offering every assistance to the Re-employment committee that are working in connection with the local board to see that all men released from service, find jobs.

COTTON CROP ESTIMATE 11,020,000 BALES

Cotton crop estimate made Saturday by the U. S. Department of Agriculture forecast the yield at 11,020,000 bales.

Ginnings to November 1 were 7,964,325, dependent reports showed.

Durham Resigns Effective On March 1, 1942

E. C. Durham, member of the Floyd County School board for the past three years, has filed his resignation from that board effective on March 1 of next year, but since the date for the resignation is more than four months away no action to fill the vacancy has been taken by the board.

The resignation was presented at the regular meeting of the board last week here.

Aside from routine affairs and the Durham resignation, the board named W. M. Stovall as a trustee in Sterley School district to fill the place of G. A. McAda resigned, and appointed Joe Fortenberry as trustee at Cedar Hill to fill the unexpired term of H. C. Love, who has moved from the district.

T. R. ROSS VISITS HERE FROM CALIFORNIA HOME WITH SON AND WIFE

T. R. Ross, a former resident of Floydada, but for many years a resident of California, is here this week on a visit with his son, S. W. Ross and Mrs. Ross, having arrived Monday. He will visit here and at other points with relatives in the state.

1942 Farm Payment Rates To Texas Farmers Point To Conservation Needs

COLLEGE STATION, Nov. 13. — Rates of payments to Texas farmers under the 1942 AAA program are directed at greater conservation on individual farms, according to Fred Rennels, assistant administrative officer of the AAA in Texas.

Other provisions will assist farmers in attaining record production of commodities needed in the Food-For-Freedom campaign, he said.

Payment rates, based on normal yield of allotted acreages, include cotton at 1.25 cents per pound; wheat, 10.5 cents per bushel; rice, \$4.86 per barrel; and peanuts, 7.25 cents per 100 pounds. The rate on commercial potatoes, included in the program for the first time this year, is 2 cents per bushel.

In explaining the program further, Rennels said that farmers may earn two types of payments, one in connection with special allotments and the other for carrying out soil-building practices. Special allotment crops in Texas are wheat, cotton, rice, potatoes and peanuts.

Payments for complying with acreage allotments will be made in proportion to the degree with which

Dealers Handle Huge Tonnage Every Day

While cotton gathering and preparation of wheat land began to take on importance on many Floyd county farms this week, the gathering of the feed crop opened up with a swoosh, area-wide, as good weather returned to the plains section last week-end.

By Monday dealers in Floydada were handling tons and tons of heads and elevators receiving grain were crowded to capacity. Monday as an example dealers handled nearly 80 tons of heads and upward of 250,000 pounds of threshed maize, hegari and kaffir corn in a single day. While many fields were still too wet for feed gatherers a large number of feed gathering crews were at work with as many kinds of harvesters as were available.

In numerous fields combines are running this week, cutting the heads and leaving a stalk 15 to 20 inches tall. In other fields hands are heading maize, leaving the whole stalk for cattle.

Additionally, hundreds of row binders and broadcast binders are cutting bundles of cane, hegari and similar crops.

McCoy Cotton Earliest
Ginners over the county report cotton too green to gin good, and quality not so good yet. Several weeks of clear weather is needed to dry out the cotton and moisture from the damp ground.

Farmers Co-op gin reported 14 bales ginned including Wednesday's run. Fred Hall, assistant manager of Whitfill gin at Lockney reported 150 bales from the Aiken Gin, 40 bales from Lockney. "Things are beginning to look pretty good here," Mr. Hall said.

Scott Gin reported 10 bales ginned with 7 bales in the house. Reports from the Davis Gin 35 bales.

Around McCoy, where generally earlier planting was done this spring is the hot spot in cotton production at this time. Several farmers have crews in their fields of open cotton and McCoy gin has been busier than any other in the county, perhaps. "This area is similar to an area north and northwest of Aiken where some cotton growers had a chance to get reasonably early cotton in the ground.

Dougherty and Lakeview gins have had receipts about in proportion to the Floydada gins.

Where cotton is too green and sappy the ginners are using every effort to get their customers to store until the staple is drier.

Busy Below the Caprock
In that portion of the county below the Caprock while there is some complaint of dampness, the situation is much different. Cotton harvest is the general rule and gins are going day and night. Yields are good and cotton money is already much in evidence in business.

CCC Enrollment Up As Perryton Boys Transfer

Enrollment at CCC camp No. 3811, located in Floydada, increased markedly this week as a contingent of 39 young men were transferred from the Perryton camp on the north plains.

The company here this week had an enrollment of 165, Commander U. G. Knight said.

Fish Are Added To County Lake Population

The number of fish in Floyd county lakes jumped considerably this week when a representative of the Game Fish and Oyster commission brought a second consignment of crappie, perch, bass and channel cat from the state hatcheries and turned them into the water holes of the area.

Upward of 3,000 small fish were delivered to 14 farmers in this general vicinity, County Agent J. O. Gordon said. An earlier consignment is already growing in some lakes.

Of some 60 or 65 applications yet pending several will be filled but some received later are likely not to be, on account of exhaustion of the supply, Mr. Gordon said the department indicated.

Jeff Williams Floydada Date December 2

Definite date for the visit of Jeff Williams of Chickasha to Floydada has been set for Tuesday, December 2, it was announced this week by Richard F. Stovall, president of Floydada Rotary club, which is sponsoring the visit of the south-west's most humorous orator.

For more than a year the Rotary club has been making an effort to get Mr. Williams to promise to visit Floydada and make an address, and the members are elated that they are to have him in December.

MRS. HOFFMAN ILL

Mrs. John Hoffman was carried to a Lubbock hospital Thursday suffering from the flu. She was improved and able to be brought home Saturday night.

Her condition grew worse again and she was carried back to Lubbock Tuesday night. Mr. Hoffman reported her condition somewhat improved Wednesday night expressing the hope that he would be able to bring his wife home the latter part of the week.

Lefors Most Probable Winner In District 3-A Conference; May Have Three-Way Tie

While Floydada fans are counting their chickens before the egg hatch, Lefors is going to bowl over two opponents in a row. Lefors High school in District 3-A is scheduled for the second kind of a fight for conference championship against the Wellington Skyrockets.

However, if the Lefors Pirates win from Wellington Friday night they will be undisputed winners in 3-A and will have two weeks for rest and recuperation and the perfection of

plays against the winner in this district. Should they lose the situation in District 3-A will be badly scrambled. A three-way tie will result. Lefors, Wellington and Shamrock will be tied for first place. Shamrock and McLean teams have weak conference competition to brush aside, and both are expected to come through successfully.

The Lefors game Friday night will be played at Wellington. Wellington has lost one game, Lefors none.

EDITORIALS

Which shall it be, which shall it be? Are you going to observe Thanksgiving No. One or wait around for a week for Thanksgiving No. 2? A lot of people who like to do things like that like everybody else does are wondering. The president has, or is going to, proclaim November 20 (Thanksgiving No. 1) we are told and on the same authority it is said the Governor of Texas has already issued his proclamation for November 27. At the same time it is announced from executive offices in Washington, D. C., that next year the Fourth Thursday will be set by executive order and proclamation. The story of the change made by the president has been often told, of how retail business interests felt that two holidays so close together in the midst of the biggest buying season could well be set one week further apart to their advantage and as well to the advantage of the public. But tradition would not have it and when the president took the retailers' cue and set the first Third Thursday he stirred up a tempest that will not quiet. Probably the president does not care a lot one way or the other. He might have preferred, for his own self, the old style Thanksgiving. The general public would not know his personal reactions. But the hornet's nest was his, willy nilly.

The line of thought on Thanksgiving came about in view of the near approach of the Thanksgiving season. If it is to be November 20 that is only one week hence. If on November 27 then only two weeks away. Look-around we find that most of the business establishments would "like to do like the rest of them do," but when you get out around town and in the country there divergence of opinion begins. Over at the courthouse employes there are to have November 27, according to the forecast. Down at the school house it was settled last summer that November 20 would be the day. The school had to make up some schedule or other and the 20th fits the teachers' state-wide meeting. Most of them attend every year. Families on the other hand which have boys and girls in colleges will observe, or most of them will, the fourth Thursday because most of the colleges have the fourth Thursday on the calendar. We intend to try to do justice to both dates. One of them we will close up, go home and eat hen with the family, the other we will take out long enough to go eat turkey with one of our wealthier neighbors. Forethoughtedly as usual, we have been having a running conversation with them and they're almost duty bound to ask us. If it works out as good as we expect it to do we shall continue to be on both sides in the matter. Two dinners for one is good business.

Apology is here and now offered by this writer for the inconvenience caused some of the people of our county who depended too fully on our forecast of the first killing frost or freeze. The fact is that some of the women customers laid out their heavy dresses for to don on the morning of the seventh, expecting the extreme temperature, and some of the men put on their long handles expecting the change before the end of the day. These, of course, would not want to suffer the discomforts incident to too light clothing with wintry time at hand. When it became painfully apparent that no freeze actually was at hand on the seventh and it was a full 18 hours late that the frost and freeze came—notably on the morning of the eighth—then the irritation became apparent. The irritation of the men was real enough to be scratched, while that of the women was just in their minds. Be that as it may, our care-

lessness last September in forecasting the date of the first killing frost, is inexcusable. We should have hit the date squarely. It was just plain carelessness.

It is a notable failing of newspapermen to be careless. Throwing adverbs, adjectives and other forms of speech together with considerable abandon, carelessness gets to be a habit, even as to periods and commas at times. Carelessness as to figure of speech, too. And careless abandon goes on to careless arithmetic—digits, decimal points and things of that kind. Thus we go back to our study of nature made early in September. Adding up the sum total of the moon phases, the tarantula tracks, the Indian signs, the broom weeds and first norther of the summer, we note that we dropped two decimal points away back there. Projected out into the future that way two carelessly dropped decimals mean a lot. And that's how it came about. Just plain carelessness.

Always anxious to please, always having in mind that a home man has got to hit the nail on the head, we still fool around and mess things up that way. Of course, we beat the scientific forecasters a lot, but anybody can beat a scientific man doing anything that has to do with the matter of fact life we live, so that's no credit to us.

But now we are on the trail of old man winter. We want to know just what Old Boreas has in store for us in December, January et seq. Will we get lots of cold, insect-killing weather or are we going to have to spend all we make next spring and summer putting out bait, spraying poisonous vapors on trees, shrubs, cotton and potatoes, dipping our seed in this and that to keep away wire worms and things of that kind. In this research we appeal to the down-to-nature folks who study things of that kind. We would like to have the opinion—and the reasons therefor—of one or two women who know that asafetida is a good thing for babies worn at the end of a good stout string about the neck. We would like to know what some of the men have observed as they went about their business of doctoring for the screw worms. We would like to have this information for the public, which has tired of some of the kind of forecasting they've been dish-ed out by the well-meaning but mis-guided fellows who sit in a soft chair in an air-conditioned office and actually draw down a salary for it. A tarantula or a tumblebug in the right mood can tell you more in five minutes, than one of those fellows can in a whole season about things of nature. Now, we may just be wrong about this. We may be doing the scientists an injustice. We strive to be fair, so far as our prejudices will permit. We are sure they just went off to college or something of that kind, got tripped up on a formula, possibly an equation, and just never got back on an even keel again. However, that is off the track. What we are after is the facts of the business. Our customers need to know and we need to tell them. Worrying along with this frost business we have not had a chance to get out and see for ourselves. So, if you can help us out, you folks who wrestle with nature every day of the world, we'd appreciate it.

Tuesday, Wednesday, and Thursday are good shopping days because stores are less crowded than on other days. Saturday afternoon is never a good time to shop. Mornings are best for shopping.

As A Farm Woman Thinks

Neille Wilt Spikes

A whole week of sunshine! What a news item here in the west that is supposed to be so sunny and usually is rather too sunny many seasons. Yes, that was the year it rained because we stuck in the mud and was late at Mary's wedding. So slip this year's memoranda of too-much rainfall in with that of 1934's too-little and perhaps they will help balance the lean and the fat of life.

Being so busy. I did not look up the date of Armistice and as usual I am a week late in getting my armistice program in my column. But armistice day has never gone from my mind. I remember the day was somewhat cloudy. My husband was hauling in the last loads of a short poor feed crop. The telephone rang. And all the world was ringing with the news. Armistice! The fighting has stopped. The boys will come home again. No, not all the boys for some were lying in France under a blanket of strange soil that was filled with tiny seed of red, red poppies. Oh, if we had only known! Armistice did not mean peace! It only meant a cessation of fighting until the men could arm and fight again. Tear up with guns the French soil that was growing poppies and grain again. Starve and kill the men, women and children that had hunted the ugly bombs and torn down the sticky barbed wire from the soil they loved. Sew hate and discord. Hurl threats and lies over the radio that should only have to carry music, knowledge and truth.

Oh, do you wonder why America dreads another war, while they go ahead to prepare to defend themselves from the same kind of horror they fought to stop forever? We remember the boys who did not come home. We remember the ones that slowly died from wounds and gas. We cannot forget the turmoil of the years that followed the war. We pray this time for peace. A lasting peace, not a cessation of firing till more bullets are poured from the ladle into the forms. My neighbor, Mrs. Dean thinks so too, for; Grant us peace, Dear Lord, Once more.

Let warring nations cease— And while the guns of battle cool Give us a lasting peace. Thou knowest the widow's lonely heart, Thou hearest the orphans cry, Thou canst stay the oppressor's hand 'Til every tear be dry.

Let wheat grow over the battle fields, Let men once more be free, Smile upon the earth, dear Lord, 'Til war, Is only a memory.

Of course, Mr. Steen was right. Wilma said all time he would be because that was the date she had set for the freeze. But I was not so sure and ten or so days ago I gathered and shelled all the fresh butter beans, put them in the refrigerator and well there were still so many fresh vegetables in the garden, I had to can the butter beans. Now I should have been more loyal to the editor of this paper than that. I should have calmly waited until the morning of the seventh and gathered in my garden sassa.

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

(Issue of November 10, 1927)

In one continuous blast of the Floydada High Whirlwinds, the Ralls Jackrabbits went down for a heavy defeat last Friday afternoon when they lost a hard fought grid battle 27-0. 187 points have been piled up by the Green and White players this season, and indications point to the probable repetition of last year's record of bi-district championship.

Into the wide open Gateway of the Plains were marching this Thursday morning the advance guard of the Legion of Peace—first representative arrivals of the West Texas Sheriff's association gathering for their quarterly session here Thursday and Friday. Sheriff P. G. Stegall and his deputies, hosts for the occasion, with their committees have completed all plans for entertainment. Peace officers are promised that every moment on their program cards will be filled with activity during their stay here.

Heading his own production company and bringing with him from Hollywood trained cameramen and three principal characters, G. M. Jack Armstrong, son of Mr. and Mrs. N. A. Armstrong of this city, this week began whipping properties and plans into shape for the production of a picturized drama of the growth and development of the Plains of Texas, which will require four to six weeks on a plains location, and will open the actual shooting of the stunts with a round-up on November 25 and 26, he announced. "The Coming of Dan Noble" will be the name of the six reel feature story.

Mr. and Mrs. Kenneth Bain and children spent Sunday near Turkey with Mrs. Bain's uncle, B. J. Polley and family.

In my rocks will not fade or dim as the cold nips the earth. Well, it seems that tapioca shall be absent from the tables this winter. Not a sigh from a single man I have heard. Give them a bread pudding or made from rice. Good old American dishes that stayed off starvation when the west was new. Sparkling cellophane will slip out of our hands to go into defense. Back to the plain things of yesterday. To use our old aluminum cooking vessels make us feel that we are not being very patriotic. Back to the good old black skillet and pots. Back to the good old plain thinking and plain ways, too. In many things might be the best for us.

Poem for the week, after seeing some lovely roses at Miss Jennie Sawyer's, still blooming on the bush only yesterday.

You love the roses—so do I. I wish The sky would rain down roses, as they rain down on the bush. From the shaken bush. Why will it not?

Then all the valleys would be pink and white And soft to tread on. They would fall as light As feathers, smelling sweet; and it would be Like sleeping and yet waking, all at once.

A MISER IN AUTUMN

A miser am I when cold winds blow; As they shriek and cry of the coming snow.

I hurry without and gather flowers. That I may keep them a few fleeting hours.

I gather pink roses and leave not a one; Cut spicy marigolds shining as the sun.

Soft velvet dahlias as gay as red wine; Gather bright blossoms from each bush and vine.

And then my home glows with rain-bows of light. I gloat o'er my treasures while dark the night.

A miser am I as autumn must leave So I grant my blossoms a short reprieve!

Mary Dean Waters.

CONCLUSIVE EVIDENCE

Only a sprig of lacy grass, Resembling ice crystals of a colder day; Grass of creamy white; we say alas! 'Tis autumn, warmer days are passed away.

BEST WISHES FOR THE BRIDE

If we who speed you on your wedded way, Might wish for you all that heaven could need. We would not want you to have gold Nor weigh you down by petty greed.

We would not want your life to be One long and easy road of wealth. We had rather wish you honest toil And a life-long measure of good health.

For we who are older know the worth Of working together side by side, Of teamwork alike thru smiles and tears, Of a fine, strong man and a lovely bride.

We would not ask for you a robe Of velvet purple, nor rings of gold. But rather that you live serenely, Loving each other—and so grow old.

We shall not wish for you far places For lonely hearts so often roam. We wish for you sweet peace and joy Beside your mate in a place called "Home."

Gertrude Friend Scoggins.

Mrs. Guy Ginn and son Vaughn of Hereford came Tuesday of last week to attend funeral rites for Mrs. R. C. Covington and spent the remainder of the week with the parents, Dr. and Mrs. George Smith.

WE THANK YOU!

THE Gracious response to our Opening last week was very gratifying to us. We thank each and everyone.

We hope to make Pitts Hospital a Continuingly useful Institution in this Community, justifying the Genuine Interest and Good Wishes you have shown.

Dr. and Mrs. Donald H. Pitts

and do be careful!

"Five mornings a week, nine months a year, we mothers of Texas get our children ready for school. In our home and a million other Texas homes, that's one of the first and most important duties of a mother's day. Sometimes Dad finds out what a job it is when he has to do it by himself."

All of us want our children to have the best education possible. Most of us look to the public schools for this.

Fortunately, Texas has the best public schools in the South. Helping to build and operate them is the Texas petroleum industry which pays 24 million dollars a year in taxes for school purposes.

These petroleum taxes pay an average of one-fourth the cost of educating our children. Altogether, they meet the entire expense of schooling nearly 400,000 Texas boys and girls.

In addition, oil has contributed substantially to the 70 million dollar permanent school fund. Oil is also responsible for much of the 30 million dollar permanent university fund, which has made possible the expansion of the University of Texas and A. & M. College.

Furthermore, taxes on petroleum products add another 11½ million dollars a year for the schools of our State.

Our children get a better education today because of the Texas petroleum industry.

Whirlwinds Mow Matadors Down 20 And 7

But Matadors Furnish Stiffest Of Season Competition

The Whirlwinds Friday night, with the rushing in the leading role as the Matadors on the other side, took the lead 20 to 7 before a large crowd of enthusiastic fans which filled the grandstands and overflowed on to the sidelines and into the automobiles that surrounded the field.

But it was a stiff, hard battle. The Matadors wouldn't give up. In fact, the Matadors were still trying to win when the closing whistle blew.

Punting Game Scores
A stronger forward wall meant the difference between winning and losing for Rushing and his cohorts. The Matadors could not make consistent gains through the line, but they did make an impressive passing offense had the Green and White boys on need-les throughout. It was with these passes that they scored their lone touch-down early in the fourth quarter. From their 18-yard line Quarter-back Burbin swept to the Floydada 40 and quickly passed on the next play to right end Phil Green on the Floydada 34. Followed another pass Campbell to Green who went the remaining distance for the touchdown. The kick was good for the extra point.

In the frequent exchange of punts the Matadors had the best of it, too. Durbin in the second quarter punting to the Floydada one-yard line and on another punt put the ball on the 9-yard line.

Some in Three Quarters
But the fact that the Whirlwinds made more consistent gains throughout the game is indicated in the fact they scored in the second, the third and the fourth quarters and were only cheated by Lady Luck out of a score in the first quarter by a fumble on the 2-yard line.

First Whirlwind score came when a pass from the Matador 40-yard rushing to Sparks, put the ball on the 4-yard line of Matador. Rushing in two plunges, through tackle and the center of the line scored. He kicked the extra point.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Co. Tax Policy Commended By Southwestern

A word of congratulation for the county judge and the commissioners' court of Floyd county, is contained in a letter of recent date from J. E. Allen, tax supervisor of the Southwestern Bell Telephone company, of Dallas.

So unusual are compliments for commissioners a reporter for The Hesperian rated this news as a "must" when the letter was shown him recently.

"Some courts were content to rest on the rate reduction given by the state," says the epistle from Mr. Allen, "and in many cases reduced this saving to their taxpayers by offsetting some of the state reduction with an increase in their own county tax rate. Your people should be proud of this action."

"With defense taxes multiplying the tax burden manifold on all of us, it is encouraging to see the administrators of local taxes doing all that they can to make the total load as light as possible."

OLDSMOBILE ADOPTS NEW PISTON MATERIAL FOR ALL 1942 MODELS
The adoption of Armasteel pistons in all series of Oldsmobiles for 1942, both sixes and eights, was announced in Lansing yesterday by D. E. Ralston, general sales manager for the Oldsmobile division of General Motors. Adoption of these new type pistons signalizes the release by Oldsmobile of huge quantities of aluminum to national defense uses.

It also dramatically illustrates how the development of an "alternated" material can result in improved quality and long life.

"Armasteel pistons have played an important part in the sensational records achieved by General Motors diesel-driven locomotives," said Ralston. "Designing and building a piston for these engines that offered extremely low wearing qualities, at the same time maintaining far greater tensile strength, was an achievement of the General Motors Research staff. Records show that as many as a million miles of continuous service was travelled by the General Motors diesel engines without need for Armasteel piston maintenance."

Hesperian Want Ads Will Bring Results

NICE QUESTION: Why can your skates skim over ice, but not on slickest glass? Because the stroke of the blade melts the ice slightly to provide lubrication.

And why can an ice-cold engine that's OIL-PLATED give smooth, lubricated starts, while lubrication that depends on fast flow alone can often mean harmful dragging starts? Because OIL-PLATING can be up to topmost piston rings before mere fast flow could begin to get there.

An OIL-PLATED engine is yours as you change to popular-priced Conoco Nth oil for Winter. Its man-made extra substance bonds OIL-PLATING—as if "magnetized"—all over inner engine parts. OIL-PLATING can't all quickly drain down. Then before the starter starts, OIL-PLATING can be ready against oil-starved Winter starting...

But what soon melts any snow on the hood? Yes, the air underneath gets hotter than hotcha. And then you want the sort of oil economy that took first place for Conoco Nth in the sensational Death Valley Death-Test. Along with five other great quality brands, Conoco Nth showed how long it could stand heat and speed. Each of six identical everyday cars got one strict 5-quart fill of some competing brand tested. All six brands were run alike, without one added drop, till each oil and engine gave out. The Certified Results:

- The 5-quart fill in Car No. 2 gave out when Conoco Nth was still up at 3.65 quarts
- The 5-quart fill in Car No. 4 gave out when Conoco Nth was still up at 3.55 quarts
- The 5-quart fill in Car No. 6 gave out when Conoco Nth was still up at 3.40 quarts
- The 5-quart fill in Car No. 5 gave out when Conoco Nth was still up at 3.20 quarts
- The 5-quart fill in Car No. 1 gave out when Conoco Nth was still up at 2.70 quarts

Save quarts—save battery—save engine. Change at Your Milenge Merchant's Conoco station today to Conoco Nth oil for Winter. Continental Oil Company

Deputy Grand Matron Of District Two

Mrs. Ruby Boteler who was appointed Deputy Grand Matron of District 2, Section 3, by Worthy Matron Viva S. Huffman at the close of the state meeting held in Amarillo, will pay her first official visit to Floydada Chapter No. 31 this evening at 8 o'clock at the Masonic hall. Four candidates are to be initiated.

There are five O. E. S. districts in the state with a district deputy for each. Each district is divided into sections with a Deputy Grand Matron for each. Mrs. Boteler's section is composed of seven counties, Castro, Swisher, Brisco, Bailey, Lamb, Hale and Floyd. These counties have eleven chapters which will be under Mrs. Boteler's supervision during this year.

She has been an active member of Chapter No. 31 during the past 20 years and has served in practically all of the offices including that of Worthy Matron.

Mrs. Boteler was installed at the concluding meeting of the 59th session of the Grand Chapter of Texas, Order of the Eastern Star, Thursday, October 30, in Amarillo, when other Grand officers were installed by Mrs. Floyd Easterling of Del Rio, past worthy grand matron. She attended the meeting as a delegate from the local chapter.

Another appointment of interest to local readers was that of Mrs. Mary Lawson of Post, deputy grand Matron of District 2, Section 4. She is a former resident of Floydada and her husband was associated with the Piggly-Wiggly grocery store.

'The Voyage' Given In Review By Mrs. Noel Troutman

The Sunny Side home demonstration club entertained the Pleasant Valley home demonstration club Friday, November 7 from 3 to 5 p. m. with a tea and book review at the home of Mrs. G. N. Shirley.

The guests were greeted by the president of the Sunny Side club, Mrs. Dessie Hill, who escorted them to the dining room where they were served tea and cookies. Mrs. Pete Kendrick, assisted by Mrs. Herbert Sims, poured the tea.

P. T. A. Carnival At So. Plains Big Success

SOUTH PLAINS, Nov. 11.—The P. T. A. sponsored a Hallowe'en carnival at the school building last Wednesday night. Road conditions were so bad that it could not be held Hallowe'en night as had been planned. Witches and spooks made their appearance just the same.

If you cared for something to eat, or something hot or cold to drink or the lunch room was open and you were readily served by Miss Billy Sims or Mrs. Lenton Lanham. If you wanted to know your future the gypsy pond was a real attraction. The fishing pond was a real attraction to the youngsters and in a short time Mrs. Blanche Phegley had to announce all fish had been caught and the pond was closed. Other features were the room where you could get an inside look into your neighbor's life. The guessing of the number of beans in a jar was also another feature. Then there was a Bingo room where many lovely prizes were available if you were lucky. A play was sponsored by Mrs. W. V. Hale after which Menard Fields successfully conducted an auction sale of a number of various articles.

Appreciation in behalf of the P. T. A. was expressed by Reuben Fisher, to all merchants and business men in Plainview, Floydada, Lockney, and South Plains who made the donations for the benefit of our school. The proceeds of the carnival amounted to \$57.42.

FSA Sponsoring Live Stock Program

The Farm Security administration is proposing to sponsor a more intensified livestock program on some ten or fifteen farms in Floyd county. Different sized and different types of farms will be selected and these two factors, along with the size of the family, or available labor, and the land tenure of the family, will determine the number of livestock set up for each farm unit.

The Farm Security administration will finance the purchase of the livestock along with sufficient buildings and facilities to care for the stock. Families with from 5 to 10 year land leases and land owners will be favored.

The purpose of this livestock program is to help determine the approximate number of cows, chickens and hogs that are necessary to provide a well balanced farm and livestock program that will provide a year-round income sufficient to meet all the farm and family expenses.

A meeting was held Monday night of last week in the county court room for the purpose of explaining this program. Nine farm families were present and great interest was shown. The importance of good breeding was discussed in relation to this proposed livestock program and possibilities for sire and boar co-operatives among these families was also discussed.

Arvid D. Hays, Supervisor, showed a number of colored slide pictures of animal and machinery co-operatives that are being successfully operated in adjoining counties and told of several which are also in operation in Floyd county of which pictures were made Thursday afternoon of last week.

HIGH TEST PHILLIPS 66 POLY GAS

STARTS COLD MOTORS FAST!

Before you buy your next tankful of gasoline, note well these three fast-starting facts:

1. Higher test gasoline starts cold motors faster.
2. Phillips is the WORLD'S LARGEST PRODUCER of natural high test gasoline.
3. Higher test Phillips 66 Poly Gas costs nothing extra.

Every degree the thermometer drops is an added reason for using Phillips 66 Poly Gas in your car, because every gallon is loaded with extra instant-firing elements. Ready to vaporize more quickly. Certain to give faster warm-up. More flexible response to the throttle. Smoother running.

If you're worried by the thought of starting trouble in cold weather, take a load off your mind... by faster starting with the lively power and faster starting supplied by Phillips 66 Poly Gas.

We sincerely believe it is this winter's best buy in cold-weather gasoline... at the Orange and Black 66 Shield.

New Phillips 66 Station Now Operating

Aaron Carthel, local distributor and retail dealer for Phillips 66 products in this territory has recently added another station to his business.

The new station is located on the Plainview highway just south of the CCC camp in Floydada. Mr. Carthel has improved the property and has plans for more improvements which will make the station one of the best in the city.

Mr. and Mrs. Amos Ritchey of Lockney will operate the station. The Ritcheys have been residents of this county for the past 15 years and have had much experience in this line of business. They are enthusiastic over their new location, and the prospects in Floydada.

"Phillips No. 2 station will be fully equipped and stocked with all Phillips products," Mr. Carthel says. Besides carrying the regular line of oils and greases Phillips 66 Poly Gas will be handled.

The No. 2 station will also carry a complete line of Lee tires, cragets, complete line of Lee tires, cragets, cigars, candy and cold drinks. Mr. Carthel's other Phillips 66 station is located in the 300 block on West California Street.

Ed Holmes: "I guess we live a little too far out to need a good road."

Harmony Home Dem. Club Names 1942 Officers

The Harmony Home Demonstration club met Tuesday, November 4, in a meeting that had been previously scheduled for October 23, in the club room with Mrs. Chas. B. Smith acting as hostess.

Mrs. Sam Hale presented the Red Cross work and the club voted to help with the cutting out of the Red Cross garments in Floydada November 11.

Plans for achievement day were worked out and the annual election of officers completed the business of the day. Officers for 1942 are Mrs. Chas. B. Smith, president; Mrs. Walter Hanna, vice-president; Mrs. Ray Barnard, secretary-treasurer; Mrs. Zant Scott, council representative; Mrs. David Batley, parliamentarian.

The program consisted of a book review given by Mrs. Truitt McClung of Sand Hill. The book review was "I Married an Adventurer" by Osa Johnson. A few years ago Mrs. McClung was a member of the Harmony teaching staff, which made an interesting review even more pleasant. At the close of the program Mrs. Carrick Snodgrass directed the recreational period.

Delicious refreshments were served by Mrs. Hanna and Mrs. Barnard presiding at the beautifully appointed lace covered tea table.

The next meeting will be at the club room November 13, with Mrs. Carrick Snodgrass as hostess. Miss Edith Wilson is to give us the demonstration on electrical equipment for the home.

Livestock Men Not Heeding Govt. Warning

Texas livestock men apparently have not yet heeded the request of Federal officials to increase their marketings. Shipments to interstate points declined in September in comparison with a year ago, the Bureau of Business Research reported last week.

Cattle shipments for September were down 8.4 per cent from last September, the smallest decrease. Sheep were down 42.9 per cent, for the largest drop. Average decline for all livestock shipments was 19.7 per cent, Dr. F. A. Buechel, Assistant Director of the Bureau, said.

Shipments for this year are off an average of 3.7 per cent in comparison to last year's first nine months. Smallest decline is in the cattle market, where only 3.6 per cent drop is noted. Hog shipments were up 22.3 per cent for the year, but sheep were off 14.7 per cent.

REX BROWN INJURED WHEN 22 CALIBRE RIFLE FIRES BY ACCIDENT

A painful though not serious accident occurred to Rex Brown while on a hunting trip last Friday afternoon. A 22 calibre rifle with which he was hunting fell from the car and set off one of the cartridges.

The bullet entered the calf of his leg about middle-way between the ankle and the knee coming out just below the knee cap on the front of the leg. Although painful the wound is not considered serious and Mr. Brown is able to be up and around with the aid of crutches.

Mr. Telephone will wear plastic TO SAVE METAL FOR UNCLE SAM

We're ready with a wartime telephone in which plastic and steel replace the more vital defense metals—zinc, aluminum, magnesium. It's not a makeshift telephone—it's a good telephone.

In the months ahead, however, you may find it hard to get one. Where all lines in our cables are taken up we can't add new customers quickly, because nearly all the additional cable we can get is required for vital defense construction.

We're making every substitution, salvaging every bit of usable equipment to keep up with orders as well as we can.

We hope that our record over more than 60 years is evidence that we will always be doing our best to keep your service as good as conditions permit.

Whirlwinds Crush Bullfighters; Crosbyton Next

With their perfect standing unaffected by the Matador game, the Whirlwinds are ready for their next opponent, the Crosbyton Chiefs.

The Whirlwinds second string is expected to play most of the game against the Crosbyton Friday night.

In their contest with the Matadors last week the Whirlwinds scored in the second, third and fourth quarters.

The probability of Floydada's and Le Furs' battle for Bi-district title becomes more realistic with Floydada's defeat of Matador, and Le Furs' unequal standing in District 3.

EDITORIAL

On November 11, 1941, the United States celebrated and we wonder if for the last time, the Armistice Day that in 1918 was a symbol of peace after four long years of war with Germany.

Men die, and as individuals are forgotten save from the loved ones whom they leave behind but their cause and deeds live on.

It is such as needed to destroy the elements of this ghastly horror the Armistice will readily be sacrificed.

So we are helping in every way possible, and if it should be necessary, the people of the United States will accept the November 11, as the last Armistice and forthwith go to the aid of their fellow countrymen.

Will Represent FHS In Press Conference

The class in journalism, editor of Hesperian and sponsor will attend the Press conference at Texas Tech Friday and Saturday.

Those who will go are Evelyn Elliott, Dorothy Tye, Odene Huey, Florence Jones, Ploy Jean Hale, Jennie Mae Wilson, R. T. Tyler, Cleo Kirk, Dorothy Ann Dooley and Mrs. Owen.

This group will go in cars and some of them plan to spend the week-end in Lubbock.

Dear Lovelorn: I am in great trouble. I have a ticking in my heart every time I see a certain tall, dark and handsome I wonder if it could be love.

Dear Fibber McGee: Couldn't be! However, if I were you, I would investigate the case more thoroughly.

Dear Lovelorn: I have a deep, dark secret to tell you. At the beginning of school I was introduced to a very charming brunette.

Dear Lil Abner: Of course you should reveal her identity. You would get absolutely nowhere by keeping it to yourself.

Dear F. and J.: To keep a football player interested is one of the master techniques of the day.

The Matador Pep Squad Gave a Spectacular Performance

The Matador Pep squad gave a spectacular performance before the halves of the Whirlwind-Matador game Friday night.

Dressed in red blouses and black skirts, they marched to the center of the field and formed a V. Then the girls knelt and as the lights went out each member lighted a sparkler.

So each did this scene impress the crowd that for a few moments it was very still; then it burst into cheers.

Then the Floydada band gave a formation "Uncle Sam in Review." The first formation was an Indian tepee. While the drums beat a tomtom rhythm, Indian dancers danced around the fire.

A church steeple was formed as the band played "God of Our Fathers" Pilgrims, Josephine Britton and Tresmon Glover, knelt at the base of the steeple while the band played "Doxology."

Reveille was sounded while the members marched into a firecracker and as they played the fire music chord, the fuse burned, and upon its explosion each member ran.

The flutes carried the part "The Girl I Left Behind Me" while they marched, limp step into a liberty bell and then played "Hail Columbia."

Florence Cates, the drum majorette ran from side to side, ringing the bell.

At the "Drill Call" the band formed two lines representing the North and South during the Civil war, then played "Yankee Doodle" and "Dixie."

The band next marched into a Red Cross as the cornets sounded "Taps" and Dorothy Ann Dooley, representing the Red Cross Nurse, stood by the cross.

"To the Colors" was played as the band marched to an American flag. "The Star Spangled Banner" was played as Topsy Dudley, representing the Statute of Liberty, stood in the background.

As the band played "Columbia the Gem of the Ocean" they went into regular formation and marched off the field.

The hearty applause and cheers voiced the crowd's approval of these patriotic scenes.

MY HOME TOWN AND DEFENSE

(This is the speech given by Dorothy Ann Dooly at the "My Home Town" contest during the W. T. C. C. convention in Midland on November 3-4. She won second place honors.)

In these turbulent times when the entire world is struggling in the grip of a madman every town and city in the United States must do its part to help build up the physical and moral defense of the nation.

No matter how small or how large the town or city may be it has its part to perform. Permit me to tell you what my home town is doing to help.

But first, let's take a brief glance at the history of Floydada.

In the fall of 1884 a covered wagon carrying the first white family to settle in Floyd county came to a halt in Blanco canyon, approximately six miles from the present town of Floydada.

In the years that followed other families discovered the fertile soil and the pleasant climate that are to be found around Floydada. In 1887 Caroline V. Price dedicated land for a

townsite. In 1890 a commission was received granting the right to build a post office and the post office was given the name Floydada.

Organizations such as the Masonic Lodge, Woodman of the World, Odd Fellows, Rotary Club, the Lions club and the Chamber of Commerce, and the American Legion have representatives in Floydada.

The population of Floydada as recorded in the 1940 census was 2726. Although not a large town, Floydada has always taken an active interest in national affairs.

Her interest in the recent defense movement has been no exception. My home town is prepared to do its part to help the national government in the gigantic defense program which is now underway.

As an example of the loyalty and patriotism shown by the citizens of Floydada, there is the amazing percentage of volunteers, who have joined our nation's forces.

The draft board in Floydada has registered 152 men for the army. Of these men, 115 were volunteers. Sixty-four of these volunteers were non-registrants.

Of the Fifty-one selectees sent through the board, 40 were volunteers. Floydada has the honor of being the home town of two majors in the U. S. army.

Several first and second lieutenants and five reserve officers. With the help of the Floydada Chamber of Commerce a home defense unit has been established and now boasts 60 members. Is this then not a shining example of the word "Americanism"?

Recently Floydada was selected as a site for the establishment of a Civilian Conservation Corps Camp. The camp has 120 men who are given a military drill each day. In fact many men are sent to C. C. camps to build up their bodies in order to make them eligible for the army. You can see that this project is doing its part in National Defense.

The women in Floydada have been doing their bit also. The American Red Cross has an office in Floydada, and on September 15 of this year this office sent nine huge boxes of clothing to the Red Cross in New Jersey to be forwarded to England.

These boxes contained 1380 garments which were made by the women of Floydada. Approximately \$15,000 worth of government bonds and stamps have been sold through our local post office.

My home town is ready to meet any demands the nation may call for. My home town has as its major aim the desire to aid in the downfall of dictators and the principles of promoting the American cause and all America will find Floydada ready to meet and uphold this responsibility in every way possible.

Funeral For Mrs. S. A. Guffee Wednesday

Mrs. S. A. Guffee, 64, of Campbell community, died at the family home Tuesday morning, and funeral rites were held yesterday afternoon from First Baptist church, Floydada, with Rev. L. A. Doyle pastor of the First Baptist church officiating.

Interment was made in Floydada cemetery, Harmon Funeral home having charge of arrangements.

Mrs. Guffee became gravely ill with pneumonia last week.

Her husband, one daughter, Mrs. R. C. Ross, Floydada, and four sons: R. T. of Hale Center, Clarence of Floydada, Edgar H. of Plainview, and Homer of Floydada, survive; also her father, Charles M. Hartsell, of Bridgeport; two sisters, Mrs. S. B. Gallion of Tennessee and Mrs. John Morgan of Lawton, Okla., and two brothers, Hugh L. Hartsell and Arthur Hartsell of Floydada. Several grandchildren, three half sisters and three half brothers also survive.

Funeral services were held at 2 p. m. at the home of Mrs. Guffee, with Rev. L. A. Doyle, pastor of the First Baptist church, officiating. Burial was in the cemetery.

Native of Tennessee
Born Venie Lou Hartsell in Tennessee on September 20, 1877, the deceased was married to S. A. Guffee on February 24, 1895. The family had resided in this county since 1927. One of the surviving sons, Clarence is county superintendent of public instruction of Floyd county.

Out-of-town relatives here for the last rites for Mrs. Guffee included her father, Charles M. Hartsell of Bridgeport, Mr. and Mrs. John G. Morgan and Olamaye Morgan, of Lawton, Oklahoma, Mrs. Maggie Barnett, Mrs. Pauline Tapp, Mrs. L. E. Allison, of Clovis, New Mexico; Mr. and Mrs. Robert Fisher, South Plains; Mr. and Mrs. Clifton Whitmire of Bula, Mr. and Mrs. Buck Ragsdale of Baileyboro, Mr. and Mrs. J. R. Holmes, and Mrs. Roy Burrows of Lubbock.

Claude Fawver Hurt Monday In Collision

Claude Fawver, prominent east Floyd county farmer, is in the Lubbock hospital this week, his back in a cast, following an automobile wreck Monday afternoon about 5:30 on the Matador-Floydada highway east of Floydada a mile.

His car and a car driven by Seaton Howard locked front wheels as Fawver was passing the Howard car. The Fawver car rolled over three times and was badly damaged.

According to reports received from the hospital a fracture that will require months in a cast to remedy was suffered by Fawver. He is not in danger otherwise, however, it was indicated by the report.

In the car with Howard were Archie Huckabee and Robert Warren. Fawver was driving alone.

CCC Camp Observe Armistice Day With Party

Between 450 and 500 people attended the party-dance held at the CCC mess hall Tuesday night, Commander U. G. Knight said. The program consisted of a band concert from 7:30 until 8:30 by the High School band.

A dance program followed with radio phonograph music furnished by the Radio Electric company.

CCC officials present who greeted the guests were Commander Knight, Sub-Altern F. H. Wicker and Educational Director J. B. Boynton. The guests were met by leaders and assistant leaders of the camp and directed to the entertainment rooms.

Refreshments of cookies and grape juice were served to the guests by the boys of the camp.

Methodists In N. W. Texas Conference

W. H. Henderson, delegate from the First Methodist church to the Northwest Texas conference, will leave Saturday for the meeting at Big Spring. Rev. R. T. Breedlove, pastor of the First Methodist church with Mrs. Breedlove left Tuesday and Mr. and Mrs. J. M. Willson left yesterday to attend.

Reports from the various phases of the church will take up most of the time from the opening day, Wednesday, until the closing service Sunday night when the appointments of the pastors will be read.

CARD OF THANKS

We wish to express our sincere appreciation to our friends who were a help and comfort to us during the illness of our loved ones and during the death of our dear wife and mother.

Our wish for you is that you may be rewarded with the same expressions of love and sympathy.

Delegates Home From Baptist Convention

Mrs. I. W. Hicks, Mrs. J. D. McBrien and Mrs. R. C. Henry and Lellafaye Hicks left Monday for Abilene where they attended the opening of the Baptist Women's Missionary Union that preceded the Baptist General convention on Wednesday, Thursday and Friday.

Rev. and Mrs. L. A. Doyle, local pastor and his wife and Mrs. Della Lloyd left Monday and are staying through the five days. Rev. Doyle returned home Wednesday to officiate at a funeral but returned to Abilene the same day.

Highlights of the Woman's organization meeting was the re-election of Mrs. B. A. Copas of Dallas, president of the W. M. U. Many talks by Missionaries were especially interesting at this time. Mrs. J. D. McBrien said. Of these were Mrs. Charles Culpeper of China and Mrs. Landcaster of Japan. Messdames Hicks, McBrien, Henry and Miss Hicks returned home Wednesday night.

Hon. Pat Neff was presented in an address Tuesday night and spoke on the subject, "Yesterday, Today and Tomorrow."

The climax of the convention will be reached when the reports are made of Foreign Missions and the plans for another year will be made. These will be announced on the closing day Friday.

Next Two Games

(Continued from Front Page)
coming Friday. The Spur game comes on Thursday (November 20) Thanksgiving No. 1, which is being observed officially by the two schools as Thanksgiving day.

Coach Murry said this morning he had no major changes in his starting line-up against Crosbyton in mind and will likely start the same squad as in the game against Matador, except that Lovell will probably go in at right tackle for Tyler. The latter has had to be absent from school this week and has had no chance to work out. Coach said he had no injuries and that the team is in good condition for the opening whistle Friday afternoon at 2:45.

The Crosbyton line-up was not available this morning.

J. T. Robbs, 93 Died Saturday At Home In Lockney

Funeral rites for 93-year-old J. T. Robbs was held at the Lockney Church of Christ at 2 p. m. by the pastor Elder Herbert Broadus. Interment followed in the Lockney cemetery beside his wife who died in 1936. He died Saturday at his home north of Lockney.

Mr. Robbs had been a resident of the county the past fifty years. He was a retired farmer and land-owner in the county.

The deceased is survived by the following children: Stokes Robbs of Ruidoso, New Mexico; Mrs. Elsie Crosswhite of Los Angeles, California; Mrs. W. B. Jones, Floydada and Mrs. Ollie Keene of Munday. All were present except Mrs. Crosswhite.

Pipe Set This Week On Test Oil Well

Drilling has continued slowly this week on the Montague No. 1 test well in Briscoe county for the Phillips Petroleum corporation. The crew has been busy setting pipe and spent the earlier part of the week until Tuesday completing this well. Last week the depth of the well

was reported to be 4,808, by Superintendent of drilling operations Clay Tyler.

The planned depth of the test well is 6,500 feet.

Call For Unity In Week Of Prayer Observance

The week of November 16-23 is being observed in many quarters as a National Week of Prayer. The movement, sponsored by The Great Commission Prayer League, is the crystallization of the desire and feeling that in this time of national emergency and defense preparation no sounder step can be taken than the invocation of God's guidance and wisdom upon every activity of the nation.

In war-torn England there has been wide public recognition of the value of the "days of prayer" as officially proclaimed by the King. Both the press and governmental leaders of England have attributed the miraculous evacuation at Dunkirk and the successful retreat from Crete to the fact of these days of prayer.

In America the need of prayer and spiritual awakening has long been felt by Christian leaders and membership in churches. No season is

more timely than the present. Therefore, the local Presbyterian church is inviting all Christians of the community and the county to fellowship with them in the observance of the Week of Prayer (November 16-23).

Prayer Objectives

The prayer services will be just that. They will be held each day of the week at 10 o'clock in the morning and 7:30 in the evening. The length of the services will depend upon the desires of those present. The following is the list of prayer objectives in this concerted effort:

1. For our President, his fam-

ily, Cabinet, and for all others occupying executive positions in the nation.

2. For all men in legislative and judicial offices in our land.

3. For the governors of our states, and for the mayors of our cities.

4. For all citizens and people of the country.

5. For the Christian church, her ministers, officials, and members.

6. For the unconverted in church and community.

7. For missionaries, home and foreign, and for all who work for

Christ among children and youth. "Righteousness exalteth a nation, but sin is a reproach to any people."

"If my people, which are called by my name, shall humble themselves and pray, and seek my face, and shall turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Mrs. McTavish (looking out of the window): "Mack, here comes company for supper."

McTavish: "Quick everybody, run out on the porch with a toothpick."
