

# 1941 Resume Shows Accomplishments Of Club Women

## Wilson's Report Includes Many Activities

Editor's Note: Sheeps given a resume of the year's work as prepared by Miss Edith L. Wilson, demonstration agent of Floyd county, for the Commissioners' court by the Extension Service of College Station, gives an insight into the living condition of Floyd county homes, adding to the health and happiness of many individuals.

About 4.5 of the land in Floyd county lies above the cap rock and is level and unbroken. About 1/3 of the land in the western part of the county is irrigated. Wheat is considered the major crop, while cotton, red and sugar beets are raised also. The hundred thousand acres in the county are devoted to sheep and with a few sheep found on many small farms to produce wool in addition to the cash income. Many of the 1,823 farm homes in the county are very comfortable while others need repair badly as a result of successive years of poor crops.

Some demonstration work was started again in 1938 after an absence of about seven or eight years. Since that time both women and girls have done very good work. There are 16 women's and 12 girls' clubs with a total enrollment of 488 organized to carry on extension work in the county.

Because there is so much work to be done on production of food and good diets the women worked on the Home Food Supply demonstration. The other demonstration work of an was kitchen improvement. As a result of these demonstrations the women reported 72,458 containers of vegetables, fruit, and meats stored, cured, or dried; 17,656 pounds of meat, fruit and vegetables stored in the freezer locker; and 34 kitchens improved; 110 pieces of small equipment added and 60 made new kitchen curtains.

Girls Contribute

Because of the need of more land in the county the girls continued the farm fruit demonstration during 1941. The other demonstration worked on was bedroom improvement. The girls report hows that 94 bedrooms were improved in some way; 17 closets added; 35 pieces of bedroom furniture added; 23 pieces of bedroom linen added; 33 bedding protectors added; 38 bedspreads and 91 dresses scarfs added.

As a result of their garden fruit demonstration 886 trees and vines were planted; 310 bushels of fruit produced for home use and 2,259 containers of fruit canned.

Since 62 of the 178 girls were in club work for the first time this year the demonstration on "Making Grape Cuttings" was repeated. What to do with one year old cuttings was included in the demonstration for the girls who put out cuttings last year. At another meeting methods of setting strawberry plants were placed. Too much stress cannot be reviewed on planting low, bushy fruits in this section as they do better than many of the ones that grow taller.

Bedrooms Made Attractive

Lilo Joe Smith, demonstrator of the McCoy club helped her mother with the Home Food supply and also sold tomato plants to help improve her bedroom.

Mary Anna Nail of the Sand Hill club really did more work than any of the others. She moved into a house early in the year which was built by her father out of material of an old house.

A large closet about 4 x 7 was built in the room and was equipped with shelves, a rod, and other accessories a convenient closet needs. The home made dressing table draped with pastel colored cotton material

was made more attractive by adding a ruffie of the same material around the mirror. These, along with the curtains, bedspread, new paper, and the floor covering made a very attractive room.

Gene Edwards, demonstrator of the Lakeview 4-H club had a very attractive floor which had been varnished and then waxed. Cotton rugs which Gene had made, were placed by the bed and in front of the dressing table.

As a result of the bedroom demonstration the girls seem to enjoy keeping and making their bedrooms more attractive.

**Women Improve Kitchens**

The Home Improvement demonstration, emphasizing kitchen improvement, in the women's clubs this year because the women asked for it. "I'd rather have my kitchen improved than any other room because there is where I spend most of my time," was the expression heard of great many times by the yearbook committee. As a result, 34 women report that they have improved their kitchens; 110 pieces of small equipment added and 60 made new kitchen curtains.

Mrs. C. V. Ford, demonstrator of the Liberty club removed the partition between her kitchen and a back hall in order to make her small kitchen, which she also had to use for a dining room, larger. She built a cabinet across the north wall which was an improvement over the poorly constructed and poorly arranged one she formerly had. Her new stove, cabinet, refrigerator, along with attractive curtains and linoleum, made her kitchen a very attractive one.

Mrs. Ray Barnard, demonstrator of the Harmony club, completely remodeled her kitchen by repainting, adding a new stove and linoleum, building a cabinet, and adding an attractive breakfast nook, by using one end of the back porch.

**Council Activities Given**

The Home Demonstration council, which meets the fourth Saturday of each month in the county court room has had 10 regular meetings this year with a total of 271 present.

At the beginning of the year the chairman appointed a reporter and chairman of the following committees: yearbook, exhibit, expansion, finance, recreation, sponsors and education.

The chairman of the yearbook committee of the clubs met with the county yearbook committee early in November to compile suggestions for the new yearbook which they had received from club members in October. The Hesperian printed the book for the exhibit committee of Floyd and Crosby counties collected an exhibit of "cotton materials for the Plains fair home" for the South Plains fair in Lubbock in September.

The finance committee, in working up the budget, asked that each club contribute \$2.50 to council funds and the plan was accepted by all clubs. With this fund the council chairman was sent to Short course and part of the expenses of the delegates to the meeting in Beaumont was paid.

The chairman of the recreation committee asked a different club each month to be responsible for 10 minutes of recreation at council meeting. They responded to this nicely.

**Mattress Center Sponsored**

Early in the year the expansion committee, in cooperation with the education committee, presented plans to council for giving demonstrations and showing exhibits at the mattress centers in order to encourage people to eat the right food and to produce more food at home.

About 175 people were reached by these demonstrations and 95 percent of them were non club members.

The club women sponsored four mattress centers and three comfort centers in the county where 1044 mattresses and 239 comforts were made.

The education and expansion committee presented plans to council for a county wide food for defense

meeting on August 6. The women prepared 32 attractive every day foods for this meeting which Miss Jennie Camp used to demonstrate how the foods we need can be served attractively. Mr. Rosborough was also present and gave demonstrations on varieties of fruits and vegetables suitable for this section and on making grape juice.

Nine women and two girls attended the short course at A & M in July. Three delegates were sent to Beaumont to the meeting of the Texas Home Demonstration association in September.

The club presidents and the county were guests of the Floydada Rotary club in August.

The Home Demonstration chorus, which has about 23 members, has appeared on two local programs this year. They presented a Christmas cantata "The Babe of Bethlehem" at the Methodist church December 14 and at the Baptist church December 21.

In November the education committee held December 11 at the Commercial hotel for the council members, their husbands, the commissioners court and their wives. The decoration committee was in charge of the artistic arrangement of the tables.

There are 15 women on the Land Use Planning committee. At the beginning of last year each club was asked to designate a member for this committee. Four women are serving with four men on a food and feed sub-committee which was appointed by the chairman. Two women have served on the sub-committee to work on plans for a proposed cooperative hospital in Floydada. Application for charter has been made.

**Marketing Considered**

The possibility of selling products cooperatively was discussed by the Home Industries Specialists to a group of Home Demonstration club presidents in April 1940. It was then brought up in the Land Use Planning meeting. A subcommittee was formed with about 20 members. They made a contract with a local firm to sell them eggs at 4 cents above market price. During last year this group sold approximately 10, 392 dozen eggs for \$2, 401.89.

Early in the fall of 1940 they lost their market because the eggs did not hold up. Then they decided they must improve the quality of their eggs so in April 1941 at one of their meetings they set up new rules on production feeding and handling eggs.

Ten of the old members signed these new contracts but were not successful in getting a premium for their eggs. In August Miss Murray met with some of the members and standardized the eggs from the flocks of Floyd Furna and Mrs. Charles B. Smith. During the past three and one-half months they have been selling eggs in 4-H cartons containing recipe folders to local grocery stores for a 3 cent premium. The merchants are very pleased and say that these two do not supply the demand.

**Farm Demonstrations**

There are four whole farm demonstrators in the county. Two of them are tenants and two own their homes. They are Mr. and Mrs. Herbert Meredith of Liberty and Mr. and Mrs. Charles B. Smith of Harmony tenants, Mr. and Mrs. A. H. Krets and Mr. and Mrs. Ben Quebe Providence owners.

Besides the demonstration given on planning the food supply demonstrations have been given to home demonstration clubs on quick breads, fancy quick breads and preparation of food for the freezer locker.

According to a report from the

A. A. office there were 1013 farms in the county growing vegetables for home use. There are 270 cold storage lockers in the county and 90 percent of them belong to rural people. This cuts down in the canning of meat and gives the rural family an opportunity to eat more fresh meat. Approximately 71,039 pounds

of meat were stored in lockers this year.

Mrs. Joe McCollum, Home Food Supply demonstrator of the Lockney club built a pantry, which is to be a ventilated one.

Mrs. Sam Hale also exhibited a very attractive ventilated pantry. In addition to a showing her pantry of

750 containers on achievement day she told the group that her family had an adequate supply of eggs, dairy products and meat. "Our calves pay our grocery bill," said Mrs. Hale. We raise one to eat and sell enough to buy the groceries we need."

Mrs. J. D. Eaves, demonstrator of

the Home Builders club for the second year has her containers well arranged on shelves in her cellar. "It looks like a grocery store," remarked a visitor. Mrs. Eaves has canned about 1800 containers this year for her family of 19. She has an adequate supply of dairy products, meat and eggs.

## West Texans Protest Flat 10 Per Cent Increase In Rates Proposed For Railways

Personal protest against a flat 10 per cent increase in railway rates was filed before the Interstate Commerce commission by wire Friday by the Freight Rate Equality League, of which J. M. Willson is chairman, and by the West Texas Chamber of Commerce at Abilene.

"We are not questioning the need of additional railway revenues but the proposed 10 per cent increase is an unfair method of securing these revenues," said Willson's wire said, in notifying the commission that his organization would be represented at the St. Louis hearing. Continuing the wire pointed out:

"Due to rates in this territory being 50 percent higher on equal hauls than in the official territory, the proposed formula will result:

"First, in requiring Texas to pay 40 percent more proportionately towards needed revenues than other territories.

"Second, in increasing the spread in rate levels already existing in territories of the United States:

"Third, in defeating the territorial equality provisions of the 1940 transportation act:

"And fourth, in detouring the commission investigations of the commission into the inter-territorial rate levels.

"We therefore, respectfully request the commission to reject the proposed 10 percent increase formula, and in case additional railway revenues are needed we request the commission to prescribe a method of securing these increased revenues by a proportionate and equitable increase within and between all regions which will avoid increasing the discriminations now existing between the several regions of the United States."

### LEE HOWARD ANNOUNCES FOR SHERIFF

To the Voters and People of Floyd County:

I take this method of announcing my candidacy for sheriff, subject to the Democratic primary July 23.

I have been practically reared in this county, moving here with my parents in 1901, and this is my first time to ask for a county office.

I am now employed by the City of Floydada as night watchman and in this work I have had quite a bit of police and peace officer experience, which experience, I feel, qualifies me for the office for which I am asking, and if elected I shall try to perform the duties of the office to the best of my ability.

I shall try to see each of you between now and the primary, and your vote and influence in the coming election will be appreciated.

Respectfully,  
Lee Howard.  
(Political Advertisement)

### Bishops Hosts To Victory 42 Club Friday Evening

Mr. and Mrs. J. B. Bishop were hosts to the Victory 42 club Friday evening. A lovely refreshment plate was served preceding the games. Mr. and Mrs. R. C. Henry and Mrs. Dean Hill played guest hands.

Members playing were Mr. and Mrs. E. L. Norman, Mr. and Mrs. J. G. Wood, Mr. and Mrs. A. B. Clark and Mr. and Mrs. Bishop.

Mr. and Mrs. Wood will be hosts to the club Friday evening, January 15 at 7 o'clock.

### Muncy News

MUNCY, Jan. 5.—Mr. and Mrs. Gus Rader of Roswell, New Mexico visited her sister Mrs. H. S. Wood and sons, Thomas Jack and Max last Thursday.

Gerald Smalley and Benita Merle Tuff were absent from school last week on account of illness.

Mr. and Mrs. Harold Wood visited with her parents Mr. and Mrs. R. G. Sell of Lockney Sunday afternoon.

Mr. and Mrs. Bob Muncy spent Monday afternoon in Matador on business.

Those on the Honor Roll last week were: Trois Muncy, Mary Grace Muncy, Thomas Jack Wood, Betty Muncy and Dolores Smalley.

42 Party at Muncy Home

Mr. and Mrs. Edd Muncy entertained with a 42 party Thursday night, January 1. High score winners were Robin Byars and Mrs. Elmer Biggs. Refreshments of cocoa and cookies were served to Mr. and Mrs. Jack Harris, Mr. and Mrs. Elmer Biggs, Mr. and Mrs. Harold Wood, Mr. and Mrs. Robin Byars, Bobbie Muncy, Imogene Roy and Mr. and Mrs. Muncy and daughters Ruth, Nellie Jo and Mary Grace.

### Dougherty News

Dougherty News, January 7: Mrs. C. E. Bartlett visited from Sunday until Tuesday with her son R. V. Bartlett who is stationed at Fort Sam Houston, San Antonio, Texas. Mrs. Bartlett accompanied Mike Lowrance and Mr. and Mrs. Jeff Gregory of Cone. The Gregorays also visited a son stationed there.

Mrs. F. M. Dougherty and sons Bill and Sam, left Sunday for Dallas from where the boys left Monday night by plane for their schools at Yale and Woodbury Forest. Mrs. Dougherty is expected home this mid-week.

Mrs. J. A. Crone who has been ill the past three weeks has developed pneumonia and is reported seriously ill.

Mr. and Mrs. J. M. Brownlow returned home Wednesday from Grand Prairie and Burleson where they visited their children.

Helen Ring returned Sunday to Denton where she will resume her work at T. S. C. W. after spending the Christmas holidays with her parents, Mr. and Mrs. Claude Ring. Helen returned to Denton with Mr. and Mrs. George Finkner and daughter of Floydada.

Mr. and Mrs. Lindsey Graham and Mr. and Mrs. Rhoades of Floydada were Sunday guests of Mrs. Graham's sister, Mrs. G. C. Edwards and Mozelle.

Mrs. Lois Brownlow and sons of McAadoo spent Sunday in the J. M. Brownlow home.

Mr. and Mrs. Harlan Cage spent Sunday with Mrs. Cage's parents, Mr. and Mrs. Jim Morrison.

Mozelle Edwards was a guest Sunday of Mr. and Mrs. Charlie Rhoads. Ruth Kreis returned Sunday to Austin where she is a Junior in State University.

Mr. and Mrs. Winford Robinson and children have returned home from Canton where they spent the Christmas holidays.

Mr. and Mrs. O. G. Glassmoyer and children were Sunday dinner guests of Mr. and Mrs. R. W. Lot-speich.

Helen Ring spent last Thursday with Faye Newell in Floydada.

Beth Newton, who spent the holidays with her parents, Mr. and Mrs. J. E. Newton has returned to Texas Tech, Lubbock.

Mozelle Edwards spent last Thursday in Plainview on business.

Rev. C. A. Hartley will be at the Methodist church next Sunday for his second Sunday appointment.

Those on the honor roll in spelling the past week were: Weims Norman, Winnie Sue Robinson, Francis Foster, Dale Emert, Marvin Crone, Dwina Glassmoyer, Francis Jones, Elroy Emert, and Kenneth Ring.

Tom B. Hannon visited Thursday and Friday with his daughter, Mrs. Georgia Brooks, who was seriously injured in a car accident and is now in a Big Spring hospital.

J. M. Brownlow and son, Price, spent Tuesday in Lubbock where Price received medical treatment.

In a massmeeting of farmers Saturday afternoon in the district court room, called by the Consumers Fuel association and the Firestone Tire & Rubber company, a study of the rubber situation will be made, especially with regard to keeping farm tractors, implements, trucks and pick-ups in operation.

Special attention will be given to possibilities of re-treading and how to care for tires.

CHILD'S FOOD MAKES THE MAN

Today—at long last—nutrition is recognized for the national and personal problem it is. Statesmen now consider the feeding of a country as important to making it strong for defense as are guns and ammunition. Strong and alert nations, they have come to realize, are built by strong and alert people. Strong and alert people are built by abundant and well-balanced diets. A child's food helps determine how strong and alert a citizen he will grow up to be.—Dr. Louise Stanley, Chief of Bureau of Home Economics, U. S. Department of Agriculture.

WOMEN'S MOTOR CORPS

Following scores of University of Texas men into khaki are 28 co-eds who have signed up for active duty in the Women's Motor Corps.

Approximately 29,000,000 acres of land were reseeded to grass by deferred grazing in the United States in 1940. To conserve water for livestock some 75,000 earthen dams and reservoirs were built, or more than twice as many as in 1939.

## Responsibility Of The Farmer Is Grave

"Every farmer of the nation faces a grave responsibility during this new year," declares W. H. Nelson, chairman of the Floyd County Soil Conservation district. "The nation is at war—a war for its existence as a free people. Every man and woman must be ready and willing to do his part in rushing the enemies that have attacked the United States. The farmers of the nation face the stupendous task of producing the food for our fighting men, for our allies, and for the civilian population," Mr. Nelson points out.

Goals for 1942 food production already had been set when war struck the United States on two fronts, Nelson continues. Every farmer in the nation has been called upon to pledge increased production of the needed foods—more beef for slaughter, more milk and eggs, more vegetables. With the nation at war the necessity for meeting and exceeding these food goals becomes all the more important, he says.

"With every farmer putting forth the greatest effort, these goals can and will be met and exceeded," Mr. Nelson declares. "And this job can be done without depleting our soil as was done in the first World War. Farmers throughout the nation now are aware to the fact that they cannot permit erosion to destroy the fertility of their land and still expect to produce good crops."

"This war, if it is a prolonged struggle, could put a terrific strain on the productive capacity of the land with further serious erosion probably resulting," Nelson believes.

"The patriotic farmers—and I believe all of them are—can make their full contribution to the 'Food for Freedom' program, and not only conserve, but also improve their soil. Through the use of soil and water conservation practices, many dangers of poor crops or crop failures can be eliminated; in many instances, yields can be increased, and the productive capacity of the land can be maintained and improved through the checking of soil losses by erosion," the Chairman believes.

"Technicians of the Soil Conservation Service are assisting farmers in every possible way to meet their food goals and to conserve their soil," Nelson points out. In the Floyd County Soil Conservation District 137 farmers already are being assisted in carrying out complete soil and water conservation programs on every acre of their land. Farm plans are being adjusted to meet the food requirements, and to include farm gardens.

"This is the time for farmers to gird for action," Nelson declared. "Plots for home gardens, if not already planned, should be selected and provisions made for supplying of the necessary water for irrigation by wells, diversions, or from ponds. Farm machinery should be placed in first-class condition in order that the big job ahead can be done with the greatest efficiency. Terraces and other conservation structures should be checked to make sure that they are ready for full service.

"Farmers of the Floyd County Soil Conservation District are going into action, and they're going to protect the soil that our enemies would like so well to have," Mr. Nelson concludes.

### SAND HILL NEWS

SAND HILL, January 17.—Buford Teal of Randolph field, San Antonio was here Friday visiting in the home of his sister Mrs. Albert Pricer.

Emory H. Cox, stationed at Fort Sill, Oklahoma spent the week-end with relatives here visiting in the home of Mrs. Lucille Cox and family.

Miss Anna Cates is home from Olton where she has been employed. Mrs. Pike Hanna and La Faun, left in company with Mr. and Mrs. Shorty Price and little daughter Barbara, for Dallas Tuesday. La Faun and Barbara will go through a clinic for a check-up following treatment there recently.

Vert Brown is reported to be improving from illness the past week. Marvin Shurbet is up after a case of the flu.

J. H. Barnard is able to be up after a severe case of flu. Pike Hanna, Hilery Shurbet and Burleson Holiday were in Lubbock Tuesday attending the livestock auction sale.

BAG 30 ANTELOPE

HOME OWNED AND OPERATED

**Shortest distance between two points**

Did you ever think of advertising as a short cut, a time saver?

As a matter of fact, that's all it is. It enables a store or factory with a lot of merchandise to sell to find a lot of people who want it.

The people who use advertising find it the cheapest way of doing this job.

Which helps to keep prices down.

### Keep The Home Fires Burning; F. H. S. Teachers, Students All Anxious To Help

It costs money to carry on a war, and government circles have estimated the cost of the on-coming war to be nearly \$150,000,000,000. That makes it easy to understand that we are not only going to fight with arms and weapons, but with a great deal of money. Many people, especially the young, seem to think that they can do their part at home, but if it were not for the people back home, backing the soldiers with food and clothing, and something to fight with, we would have no way of defeating ourselves.

And the students who are unable to help in the armed forces can help with their money by buying United States defense bonds and stamps. It is the only way we can put the extra dollars into submission, and with the arrangement that has been made anyone can do his share.

If you want to stay below the dollar-line, you can buy stamps, and eventually convert them into bonds. This is easy to do because one usually has a few extra dimes to spend.

Students on every campus in the nation will begin buying bonds and stamps in a few weeks, and F. H. S. should be 100 per cent strong in donating its support to the boys who will be at the front fighting for our freedom.

**F. H. S. Students and Teachers Want to Help**

The following expressions show the eagerness of students and teachers to help fight this war to preserve democracy. When they were asked their opinions about the school sponsoring a defense stamp campaign:

Mr. Travis: At our next assembly we have some definite plans for a defense stamp campaign. We certainly want F. H. S. to do its part in helping the U. S. win this war.

Arla Vee Bishop: I think it would be a very good idea.

Frances Keim: I think it would be helpful to national defense.

Eddie Wayne Conner: It would be helpful to national defense.

Sadie Holmes: I think it's all right.

Gene Loran: It's all right, but not right after Christmas.

Miss Sweepston: I think it's a good idea.

Mrs. Owen: I think it would make

our students conscious of the fact that we have a part in the national defense program.

Joe Rushing: I think it would be grand. We've all got to help.

Mr. Linder: I think it would be a good thing.

Floy Jean: Since other schools are doing it we had better too. After all we don't want to be slackers.

Dorothy Tye: I think it's a good idea cause then we would be doing our part.

Johnnie Mae Wilson: I think it's the best thing we could do.

Cleo Kirk: I think it's a fine idea.

Odene Huey: I think it's good.

Miss Shannon: I'm sure F. H. S. wants to do its part in National defense.

Miss Elliott: I think the time has arrived when we Americans should realize that our situation is serious and we need cooperation of all schools and public organizations.

I think that it would be a swell idea—after all we are Americans and we want to do our part in defending and preserving our privileges as American citizens.

**BAND NEWS**

The high school band, under the direction of Mr. Halliard, is preparing for the band concert which they will attend sometime in April.

"The Wanderer" and "The Glow-worm" are the new concert pieces they have been practicing. All other arrangements have been abandoned for the present.

Begin The Year Right . . .

## FIGHT FIRE

. . . Before It Starts

By being fully insured in a dependable Old Line Insurance Company. We invite you to come in and talk it over. We will be happy to explain the costs.

**G. C. Tubbs, Insurance**

**Nosey Reporter**

Here I am again, the greatest snooper-scooper that ever snooped a scoop. I'm ready to report on my snoopings so here's the beginning.

R. T., did you ever win that dollar? What's this about Joy being able to help you win it? I'll just bet she could, too!

Ruby Poore got a telephone call yesterday. Interesting, no?

I wonder how Sammie Lee and Merle Barber are getting along since Christmas. They seemed to be doing pretty well. Chit and Florence Jones were seen talking together in the halls today. Could that mean anything?

It seems that Cubert Grey just can't get over his old heartbreak. He is still carrying the torch for Telia Jo.

Florence Lloyd has a new boy friend and he's plenty nice looking in my opinion.

Just as expected, Betty won and is going to the football banquet with LeRoy. Someone was certainly disappointed.

Frankie says that her ex-boy friend certainly is getting on her nerves.

Ludean Ray certainly enjoyed the show last Thursday night. Was it the show or was it (it was) that nice looking boy she sat by?

Kenneth D. and Johnny Ruth are going to the football banquet together. Might be some new ro-

**GAMMA SIGMA KAPPA PLANS ASSEMBLY PROGRAM**

In a meeting Friday afternoon the Gamma Sigma Kappa president, Maudene Moore, appointed a committee to plan the assembly program which the club will present on January 14.

In addition to the plan made for the assembly program, the year books were passed out.

The club also adopted a resolution to work together in better harmony the remaining term of this year.

manes started because of that banquet.

Dale King is going around with a lost look on his face. It must be because he's having trouble with Nancy.

Say, here is a new romance about to bloom. Donice and Robert. That's right. It's been under cover long enough.

There were a lot of high school sweethearts to see the old year out and the new one in together. A lot of them were at the midnight preview. Oh! yes, I was there and saw all that went on.

Odene Huey was looking blue. She just couldn't go with the boy she wanted to.

Frances is sure cute and Joe isn't the only boy that thinks so.

Say, who does Wayland go with now. We don't see him going out with girls like we did before J. D. and Arla Vee become such friends.

David Batty and Jean Nelson certainly have a lot to talk about in the 6th period English class.

Say, who is that boy Polly Cardinal thinks so cute.

Herschell Hanson seems to think that visitor from Oklahoma City is cute.

Johnny Hammonds and Lajuana Jo Sharp were seen walking down halls together.

The annual football banquet will be held Saturday night at 8 o'clock in the grade school auditorium.

High lights of the banquet will be the coronation of the football queen, Helen Young, the announcement of the '42 cheer leaders and football captains, and the presentation of the football jackets.

Plans are being completed this week and the gym will be decorated by the decoration committee Saturday morning. Decorations will not be so elaborate this year because the school is cooperating with the defense program by being thrifty and conserving all material.

The victory theme is to be carried out in the decorations.

Those who will attend the banquet will be the football boys, their dates, the band, and the faculty.

**CLOTHING DEPARTMENT**

In the first year Home Economics classes the girls have been making necklaces and bracelets. Some that have been made are: Chain and buttons, made of English walnuts, yellow macaroni strung on green wool yarn, corks strung on picture cord, matches strung on thread, varigated yarn and spools, ball and jacks strung on a ribbon, yarn and letters spelling "God Bless America," paper and capsule necklaces, paper clips painted with finger nail polish and strung on a ribbon, a paper necklace, matches strung on a ribbon, crocheted thread, measuring spoons and chain and painted jacks on Christmas wrapping.

These girls are to finish their units this semester by making notebooks. The subject was "Being satisfactory friends with children."

**Other Classes Make Notebooks**

The second year home Economics girls made their notebooks on "The pre-school child." The third year

### Visitors Praise Friendliness Of Floydada Hi

Floydada High has been praised lately for its friendliness and hospitality by the visitors and friends of its students.

Some of the visitors are: Glen Elmer Flinn, from Colorado Springs, Colorado, who has been visiting with Peggy Jo Bishop. He is a junior in high school and he is an active member of his class.

Sammy Thagard, visiting with her grandmother, Mrs. S. D. Greer, is from Oklahoma City. She visited school with several of her friends Friday.

Jonell Hartwick, from Anson, Texas, also visited in school. She is the guest of Thelma Doyle.

notebooks were based on the baby's layette.

The child's habits and nature were discussed in these notebooks. Their clothes were discussed and pictures of the clothes were pasted in as illustrations and described. Attractive covers, which suggested the nature of the notebook, were used by all the classes.

**SPEECHES FOR EXAMS**

The Speech I class gave long speeches for their six-weeks examinations. These speeches were on argumentative subjects, to be given before an indifferent or unbelieving audience.

Each speaker was graded by the criticisms given by the other members of the class. They listed his points, good and bad, under two divisions: (1) The contents of the speech, and (2) his platform appearance. The alphabetical letters, A, B, and C were used as grades and the speakers were rated according to the quality of their speeches. The judges were graded on their criticisms.

Merle Simmons had the undisputed title for first place. Her subject was "Present-day Fashions are Delightful."

She thoroughly convinced the audience that the ladies fashions are not to be laughed at.

Some of the other subjects were: "Present-day literature is a mixture," "Wars settle nothing," "Low-priced cars," and "The United States will win the war."

"Wars settle nothing" was the most popular subject. This was the first time speeches have been given for examinations this year.

### Journalists Buy Defense Stamps With Surplus

The journalism class unanimously voted to buy defense stamps with the surplus money which they earn by selling candy.

The money earned by selling candy has formerly been used to help pay for the pictures which appear in the Hesperette. These pictures will now be discontinued, however; the class will buy defense stamps in addition to them.

These stamps are to be cashed in on a bond at the end of the school year, and left to the journalism department to buy new equipment.

It is the intent of the class to cooperate in the present drive for the sale of defense bonds and stamps.

**MAGNOLIAS TOP LOG PRICES**

Magnolias brought the highest price paid for logs in Texas last year, according to preliminary figures, says C. W. Simmons, farm forester for the A. & M. College Extension Service. The price was \$16 a thousand board feet.

# Mass Meeting For Farmers

AT 2 O'CLOCK P. M.

## Saturday, January 10

### Court House, Floydada

Mr. Farmer, What are you going to do about Rubber Shortage and the Problem of how to keep your Farm Equipment moving?

Attend this meeting to discuss this problem and see an important Re-Treading Demonstration.

We must help Uncle Sam win the war by giving up Rubber; But we must help him also by keeping our Tractors, Implements, Trucks, and Pick-ups going.

It can be done if we all will work together and make the most of what we have.

Don't miss this chance to Help win the war by keeping your farm equipment moving.

This Meeting Sponsored by—

**Consumers Fuel Ass'n., Floydada**  
And  
**Firestone Tire & Rubber Company**

### Continue Tests Of Fertilizers In The County

Nine Floyd county farmers have filed applications with the Texas A. & M. College Extension Service and the Tennessee Valley Authority for 50,800 pounds of Calcium Meta Phosphate to be used as demonstrations to determine the direct and indirect values of applying this fertilizer, according to H. W. Schacht, chairman of the Floyd county T. V. A. committee.

Applications mailed from the

M.** On orders under \$1 a 15 cent delivery charge will be made. Complete Line Groceries, Meats and Vegetables. **JONES MARKET** Telephone 125

### Floydada-Lockney Basketball Game Friday Night Holds Top Interest In League

Friday night's basketball game between Floydada and Lockney High school cage quintets will highlight District 4-A Interscholastic league basketball interest this week. Apparently of about the same strength the two teams will take to the hardwood court at Andrew Ward gym at 7:30 o'clock before the largest crowd of the season. Floydada and Ralls, with three games each won and one game lost stand tied at the top of the district heap following Tuesday night's games. Floydada has won from Paducah, Crosbyton, Matador and lost to Ralls; Ralls has won from Spur, Floydada and Crosbyton and lost to Lockney. However, their positions at the top of the heap has not made the Floydada and Ralls teams favorites to win the district gonfalon. For Matador and Lockney have strong teams. Apparently these four will fight it out for first place. Floydada or Lockney, whichever wins Friday night, ought to have a distinct advantage in the running. Ralls should win from Paducah at Paducah Friday night.

### F. L. Moore Rites Held Saturday At Lockney

Funeral rites for F. L. Moore, 63 were held at the Moore home in Lockney Saturday afternoon. He died at 3 p. m. Friday after a brief illness. Mr. Moore was a deep-well driller and had been a resident of the county the past forty years. He is survived by his mother, wife and two daughters. The daughters both of Colorado were present for the funeral. Interment was made in the Lockney cemetery directed by the Cramer Funeral home attendants. Mrs. James D. Colville left Saturday for Claremore, Oklahoma, where she and Mr. Colville will make their home for an indefinite time and where he is employed in defense work. Their son John, a senior in high school will remain here with his grandmother Mrs. W. M. Colville until the end of the school term. Corporal Edmond Breeland, who is stationed at Fort Sam Houston, visited Friday, January 2 with his mother, Mrs. L. F. Taunery, and sister, Mrs. Ollie Emirt. He returned home last mid-week. John Kimble, a student of optometry at Memphis, Tennessee visited during the holidays with his parents Dr. and Mrs. Wilson Kimble. He returned home last mid-week. Mrs. E. L. Angus who has been confined to her bed since Christmas with the flu, was able to be up Wednesday.

Coach Wilson Head will bring a traveling squad of eight men to the fray here Friday night. He usually starts Red Childers and Milton Zimmerman at guard, Duane Byars at center, Jackie Myers and Johnnie Parrack or Elbert Dagley at forward positions. Don Pemberton works at center and Delbert Dagley alternates at guard. The boys are working out daily, are in good condition and are shooting at district honors. The loss to Ralls Friday night was a heart-breaker. The final winning score for the Jackrabbits came in the last second of play. The whistle blew for the close of the game as the ball settled in the basket to make the score Ralls 19, Floydada 19. The whirlwinds shot at the basket often than their opponents, both at long and close range but their sights were poor. They led all the way until the last minute of the game, when the Ralls boys put on a spurt of deception and speed that the 'Winds could not meet.

### Rainers Are Hosts At Family Reunion Christmas Day

Mr. and Mrs. Arel Rainer were hosts on Christmas day at a reunion of Mrs. Rainer's brothers and sisters, all of whom were present. This was the first time they had all been together in three years. Those present were Roger Hancock and Mr. and Mrs. Henry Hancock and daughters Marlyne and Blabeth of Tucumcari, New Mexico; Mrs. B. R. Lybrand and daughters, Juanita, Alma, Mabelle and Doris of Bentonville, Arkansas. Mr. and Mrs. V. E. Stewart and daughter Joyce and son Edward of Phillips; Mr. and Mrs. Billie Jean and Carolyn Sue of Morton; Mr. and Mrs. M. W. Nettles and sons Harold and Ronald and daughter Mary Nell of Meadow and their daughter Mrs. Aren Pendergrass of Lubbock. All of the relatives were present with the exception of one brother-in-law and one niece. Mrs. T. P. Collins left Sunday for Dallas where she will spend two weeks visiting relatives and friends and undergoing medical treatment. Mrs. Robert Abernathy of Lubbock returned home Tuesday after a visit here with her sister, Mrs. S. T. Harris. E. L. Norman made a week-end trip to Denton to take his son back to North State State Teachers college. Mrs. Wilson Kimble returned home this mid-week from Jacksonville, Florida where she visited in the home of her daughter Mrs. Don Harris and Dr. Harris. The daughter and husband visited here during the Christmas holidays and were accompanied home by Mrs. Kimble Wednesday of last week. Mrs. Kimble also visited a sister in Fort Worth while gone. Mrs. J. R. Maddox returned Saturday from Snyder where she spent a week visiting Mr. and Mrs. E. M. Deakins.

### Feed According To Production In Dairy Lot

Dairy cows must be fed a balanced ration according to production if an increase of 31,732 gallons of milk is to be realized in 1942, is the warning issued by Jason O. Gordon, county agricultural agent. On most farms there is an abundance of green pasture, but not enough dry bundles and grain mixture is being fed to stimulate production. First of all, the dairy cow must have all of the clean, warm water she will drink. This is very important as milk is 85 to 87 per cent water. Cold days and cold water is a sure sign the old cow will fall in her milk. "Get the water down a dairy cow and she will pay for it at the milk pail," the agent commented. A good grain mixture for cows running on oat, wheat, or barley pasture would be: 500 pounds ground maize heads, 100 pounds ground barley, 100 pounds cotton seed meal, and 4 pounds of salt. Allow the cows to eat all of the dry bundles they want. Feed three pounds of the grain mixture for each gallon of milk the cow produces. "We must realize the green pastures this year have a very high water content, and we must allow plenty of dry feeds to complete a good feed ration," Mr. Gordon remarked. The agent suggests the following ration for cows not on green pasture: 100 pounds ground maize heads, 100 pounds ground barley, 100 pounds wheat bran, 100 pounds ground alfalfa, 100 pounds cotton seed meal, 2 pounds oyster shell flour, and 2 pounds of salt. Allow free choice of ground bundles. Feed four pounds of the grain mixture for each gallon of milk the cow produces.

### NO TRUE 'DRY ROT'

There is no causal "dry rot" that attacks wood and causes it to decay. Wood must contain more than 10 per cent of moisture before fungi can grow in it. What is ordinarily called "dry rot" is caused by one of a few species of fungi that grow in rootlike strands that serve as pipelines through which they draw into dry wood the water they must have to live and to destroy the wood. These rootlike strands must reach moist soil or some other source of moisture if the "dry rot" is to decay of the wood. U. S. Department of Agriculture scientists who have studied the various forms of wood destruction. Wood kept dry, they emphasize, is a permanent building material. One way to prevent decay of wood is to inject into it preservative chemicals that prevent fungal growth. The other way is to keep it dry so that fungi can not live. Even the "dry rot" fungi can not develop if water can be kept beyond their reach. McAllen Monitor: "A future 'cattleman' born 10 years ago launched his business career recently when Shary Holmes, of McAllen, used his life savings to purchase four cows which will form the nucleus of his herd 'brand'. Shary purchased the four cows with his own savings." Title of champion rat killer of Texas has been claimed by Odel Cole, farmer living three miles east of Olney, (Young county). With three dogs and two neighbors' work in his barn recently, 829 large wharf rats, weighing nearly 1,000 pounds, were killed.
