Does God Feature In Wars, Discussed At Church of Christ

(J. G. Malphurs, minister)

"Is God in World War No. II?" was the subject for the sermon last Sunday evening. Excellent attention was given by the audience as the following points were brought out in answering the question.

1. If God is not in the war, then he is neutral. But consider: (1) He can not be neutral unless both sides are wrong. (1 Pet. 3:12). (2) If he is neutral when right is being invaded by evil, then evil is bound to win, because the great power of Satan is on the side of evil.
- (3) If he is neutral then he is not ruling in the kingdom of men during a time when he is greatly needed. (Dan. 5:21). (4) This war is not too cruel for God to be in it, as some think. (Joshua 6; 1 Sam. 15; Rev. 16).
- (5) Therefore, if God is not in the war he is neutral only for a while, that his people might be brought to their knees in penitence for their sins. (Joshua 7).
2. If God is not neutral, on whose side is he? Never was a war so wicked or uncalled-for but what its leaders claimed God to be on their side. This claim, though false at least half of the time, is comforting for: (1) God is never on the wrong side, and (2) His side is bound to win. (Psalm 145:17; Rom. 8:31).

God is on the side of the people that are with him. "Jehovah is with you, while we are with him; if ye forsake him, he also will forsake you." (II Chron. 15:2). It is not so much the question: "Is God on America's side?" as it is: "Is America with God?" We are afraid we have slipped. Wickedness is waxing "worse and worse." II Tim. 3:13.

3. We may have God with us by repenting of having deserted him, and emphasizing the spiritual needs of life rather than the material, carnal and licentious. "If ye seek him, he will be found of you." II Chron. 15:2.

You are invited to worship with us both at 10:30 o'clock and 8:45 "Take time to be holy," and it will abundantly repay you.

Revival To Start Sunday A. M. At Baptist Church

(Rev. L. A. Doyle, pastor)

We begin our meeting Sunday morning and hope that every member of our church will be present to get started off in a good way. A revival period is the most important time in the whole year's work and every thing possible should be put aside that every member could do his best.

We appreciate the fine cooperation that has been given to the work this year and feel that the membership can be counted on to give all-out support to the revival. We are counting on every member to be present for the Sunday school and to have service of the meeting. Rev. Roy Camp will be presenting for the Sunday services and Rev. P. D. O'Brien will be with us on Monday night.

We cordially invite the people of Floydada and surrounding communities to attend these services regardless of denominational affiliation. May we all unite in prayer and personal work that this may be a real revival.

FAMILY TIES BROUGHT TO MIND AS WIDOWER ENTERTAINS CHILDREN

Tom Hanna, white-haired widower and deputy peace officer who has made his home in the Dougherty community the past nine years, was refreshed with memories of Home Sweet Home recently when he entertained seven small children at his home.

The pleasure he enjoyed as a host to those neighbor friends was manifested by his broken voice mingled with joy and sadness as he related the story of how that group so well represented his own family in number and sex, four girls and three boys.

Mr. Hanna lives alone one block west of the Dougherty square. His entertainment was a well-prepared dinner for his guests. The compliments he received from his little friends brought memories of other days to his mind and a renewal of kindred ties that will long live in the memory of the host.

The children who attended were Frances, Dorothy and Doris Foster, Artie Mae, Harold and Leonard Hall and Jimmy Powell.

Gear Texas Oil, Transportation To War Needs

Pledging efficient operations of the Texas Railroad Commission in gearing Texas oil and transportation systems to the war effort, Beauford H. Jester of Corsicana is entering the final phase of his first primary campaign for the unexpired term on the commission.

"We are rolling along at a fine pace," Jester says in surveying the work which has been done in his less-than-a-month of political life.

It is the first campaign for public office for the Corsicana lawyer who was an infantry captain in the first world war and who has announced he seeks the railroad commission post to render a war time service to his State and nation.

"In these days when petroleum means so much to our fighting machine and when transportation is the real key to keeping our men at the front supplied with their necessary materials, the railroad commission's job is one of the greatest war services available," Jester declares.

Mr. and Mrs. R. I. Grundy, Mrs. Lace Martin and little daughter Norma Ruth of Ralls spent last week-end at Wichita Falls with Mr. and Mrs. Robert Read.

J. W. Womack, who is employed at Grand Prairie in defense work spent the week-end here visiting friends and relatives. He returned to Fort Worth Monday.

Keep Long Distance VOICEWAYS clear for VICTORY!

The weight of war on the long distance telephone lines grows heavier every day. We can't build new lines to carry it because materials aren't available. We've got to make the most of the service we now have.

To keep our lines free for calls essential to fighting the war, we need your help and sympathetic understanding.

In general, of course, we are able to handle fairly easily calls over shorter distances. But remember always that if your call goes to a large city where war work is under way,

or must pass through such cities, it may add to an already dangerous congestion. This is especially true in the rush hours from 9 to 12 in the morning, 2 to 5 in the afternoon, 7 to 9 at night.

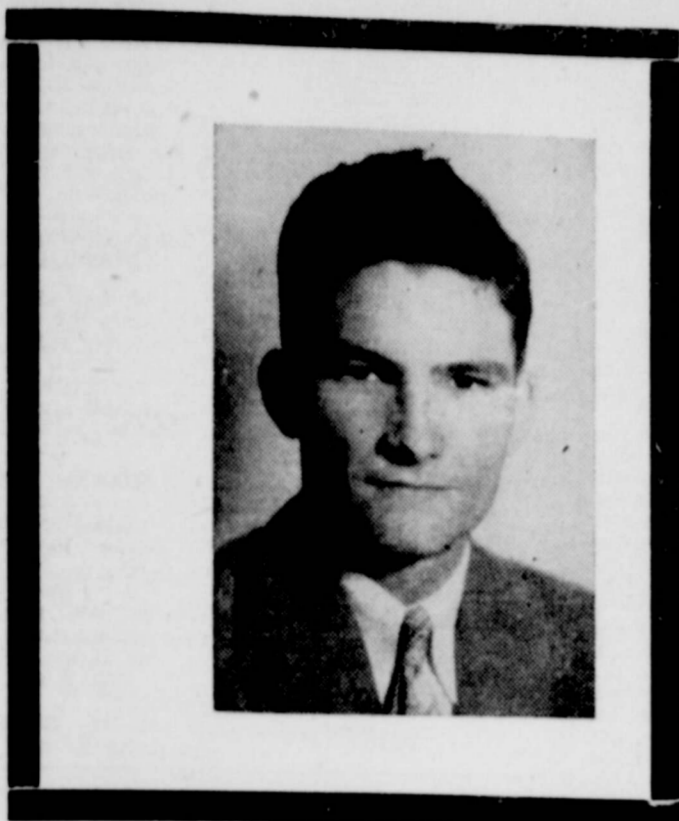

On calls to more distant points during those hours, we are sure you will feel that your personal interest must give way to official messages that constantly are flooding our lines.

By thoughtful use of telephone service civilians can help to win the war. And we know you're glad to help.

War calls come first!

AN EFFICIENT OFFICIAL IS A VALUABLE PUBLIC INVESTMENT!

Our Nation is at war, facing the greatest peril in its history. Every able man is needed to apply his strength where it will be most effective. Today, more than ever before, an efficient official is a valuable public investment. We cannot afford to pause that a new man may become acquainted with his job when an experienced, able and proven man is waiting to fill it. This is not the time to indulge in extravagance of valuable time and money to replace a proven efficient official.

In considering John Hamilton as a candidate for re-election, we, as citizens of the entire district, point to his record during the years he has served as District Attorney. He investigates his cases carefully and thoroughly that facts, and facts alone, will determine decisions, thus protecting the innocent and insuring trial of the guilty. As a prosecuting officer he has been fearless, vigorous and capable. He has proven himself fair and without prejudice.

John Hamilton's record proves that he has done his job well. He has never aspired to building a reputation as an aggressive prosecutor but conducted his duties with faithful, conscientious and efficient effort with the single goal of bringing about impartial justice.

John Hamilton is a native West Texan. He speaks our language and knows our people. There is no question of his ability, his fairness or sincerity. He is doing a good job and he is well-trained for it. We as voters and taxpayers believe he has earned the right to re-election. We urge your most sincere consideration. We ask that you consider the 70 terms of District Court in which he has represented the people of this district. We urge you to weigh his work and the decisions he has obtained.

Each taxpayer has a valuable investment in the training and experience of John Hamilton. That investment will not be lost if you re-elect him to office.

Fat Is Glycerine And Glycerine Is Gun Powder

COLLEGE STATION, July 23.—Waste fat homemakers save in their kitchens for the nation's salvage campaign may one day sink an enemy battleship or help crumble axis fortifications on fronts the world over.

Grease makes glycerine and glycerine makes gunpowder, explains Louise Bryant, specialist in home management for the A. and M. College Extension service. She explains that every 10 pounds of fat saved in the nation's campaign will produce one pound of glycerine for gunpowder or other explosives needed in winning the war. The two billion pounds of fat wasted in American kitchens every year would provide two hundred million pounds of glycerine. Uncle Sam badly needs, according to the Bureau of Home Economics.

Recently the War Production Board arranged with meat dealers to receive some of this waste fat from housewives and the A. and M. Extension service will cooperate with state and county salvage committees in helping every rural family in Texas know its part. Cooperation in the national fat-saving campaign is in line with the war-time extension program—the Victory Demonstration—to which thousands of rural Texans are pledged.

The homemaker's part in the campaign is to use grease wisely in cooking and take her surplus fats to her nearest meat dealer or freezer locker plant. She'll receive money—probably five cents per pound. Fat should be strained and poured into clean, wide-mouthed cans, such as a coffee can. "Keep the fat in the refrigerator or some other dark, cool place until you have a pound or more," the specialist suggests.

Using fat drippings in preparing food will help in the movement, since it will prevent drawing on commercial stocks of fats and oils. Every tablespoon used means buying less fat.

Some homemakers have mistakenly feared a soap shortage would make it necessary to save their fats for making soap at home. But soap is a by-product of glycerine, Miss Bryant explains, so large supplies will be available.

Farmers Urged To Buy Winter Coal Supply

Retail coal dealers of this territory are advised unless the consumer cooperates with the urgent request to buy coal now, a serious fuel crisis may not be averted. A shortage of men and transportation facilities may not be available later. The following summary of the more important highlights of the present coal situation was submitted by a local dealer:

Dealers, domestic consumers, industrial plants and the railroads have all responded marvelously to the urgent appeal of the government to store coal early as a matter of self-protection and to release railroad equipment later in the season when it will be needed for the greater transportation of war materials. The result has been that practically all mines have had an unprecedented booking and have been operating to capacity. Mines are still considerably behind on shipments, but wholesale dealers hope to have the demand taken care of before cold weather sets in.

Coal consumers of all classes should not be lulled into the belief that the emergency is past, as the indications are that it is only starting. There is a decided shortage of labor which is becoming more acute as miners are drafted into the armed service, or accept more remunerative work from governmental plants. Orders for late summer and early fall delivery should be placed now in order that producers, dealers and the railroads may plan deliveries in an orderly manner. Coal consumption for the duration of the war will be far in excess of normal with many factories operating to maximum production, with the railroad traffic at its peak, and as a result of the conversion of many plants from the use of gas or oil to coal. On top of all this the war industries and particularly the various army camps, are now just coming into the market with invitations to bid on extremely large quantities of fuel. If government orders are not taken care of and given preference, the War Production Board may resort to allocation or priorities in order to meet the federal demand. A careful analysis of the fuel situation by producers report, a fuel crisis can only be averted if everyone cooperates and maintains his storage stock at maximum capacity.
