The observance of National 4-H Achievement Week, November 7-14 will call attention to what has been accomplished by the 1,500,000 4-H members enrolled throughout the nation and only made possible because of the earnest efforts of all those who have cooperated on a community basis in encouraging the participation of rural boys and girls in the 4-H program.

When the final achievement figures are released on food production, tons of scrap collected, and many other ways 4-H members are helping to win the war, it can only mean a greater headache for those who would destroy our American way of life. Floyd county members will join in the National celebration by giving result reports, preparing window displays, presenting demonstrations, and conducting educational meetings.

4-H club work offers a great opportunity to the rural boy or girl who would like to do something to help win the war.

**Entered in State Contests**  
Achievement records for Billy Joe Bambricht, Kenneth Thornton, and Jackie Brock have been entered in state contests. Billy Joe was meat animal demonstrator for the Lakeview club, Kenneth entered home grounds beautification contest for the Lockney club, while Jackie is representing the McCoy club and contesting for a \$25.00 war bond in the 4-H Victory program.

**Hope for Higher Sugar Content**  
An analysis of the samples of sugar beets grown in Floyd county this year suggests the producers may expect a low sugar content. The percent sugar ran from 7.6 per cent to 11.1 per cent. Leaf spot and root rot were the two factors which reduced the sugar content in the beets.

Harvesting will start about November 1 and it is the opinion of beet growers that the sugar content will be much higher by that time. Sample beets were sent to the American Crystal Sugar company, Rocky Ford, Colorado for the following: Earl Norman, L. R. Collis, John T. Carthel, W. A. Carthel, C. A. Gloyna, W. J. Griffith, C. W. Ginn, C. J. Roach, C. J. Taylor and S. P. Millard.

S. P. Millard of Aiken community is producing sugar beet seed. Mr. Millard harvested 133 sacks of seed from 8 1/2 acres in 1942. He expects the net return will be 800 pounds of clean seed.

Earl Norman of Lockney community has planted 22 1/2 acres of certified Tenmar wheat for harvest in 1943. The Tenmar variety has proved its value in baking contests, resistance to leaf rust and yield per acre.

**Redent Man Coming**  
Destruction of rats for temporary relief and for keeping them under control in places where rat proofing is not possible or practical will always be necessary. The migratory rat is a community problem and organized effort has been found necessary for its effective control.

Information on poisoning, trapping and other methods of killing rats will be given in November when a representative of the Rodent Control Division of the Fish and Wild Life Service will be stationed in Floyd county to assist farm operators in a county wide rat eradication program.

The kitchen and food demonstrators met Saturday afternoon to discuss achievement events, which will be held some time between the first and 22nd of November. They decided that the demonstrators in each club should plan the sort of achievement day that would best fit the individual club and reach the most people.

**Kitchen demonstrators:** Mrs. W. D. Nance, Mrs. M. C. Nance, Mrs. Hershel Carthel, Mrs. J. V. Gilley, Mrs. Ray Horn, Mrs. Sam Green, Mrs. O. G. Glassmoyer, Mrs. Carrick Shodgrass, Mrs. Arch Muncy, Mrs. W. B. Jordan, Mrs. George Smith, Mrs. W. M. Knight, Mrs. D. D. Shipley, Mrs. P. O. Conner, Mrs. S. J. Latta, Miss Josephine Smith and Mrs. T. E. Cowart.

**Home food supply demonstrators:** Mrs. J. M. Allison, Mrs. Ben Brandes, Mrs. Herbert Meredith, Mrs. George Weast, Mrs. A. B. Colston, Mrs. Tate Jones, Mrs. R. B. Gary, Mrs. Raymond Rucker, Mrs. C. M. Meredith, Mrs. Ed Holmes, Mrs. C. W. Denison, Mrs. Joe M. Smith, Mrs. W. C. Sims and Mrs. Ed Thornton.

**Not a Lost Art**  
With present need of fats and oils for war material, the homemaker will want to use every precaution to make good lard from the meat animals that are killed. The making of good home rendered lard is not as hard as it is sometimes thought of. Good lard has these qualities. It stays hard in cold weather and does not

get soft and oily when the temperature goes above 75 degrees, it is snow white and almost odorless. It is a neutral fat that does not get rancid even after being stored six months or more. It is smooth and not grainy.

To get this quality calls for fat from grain fed hogs. The fat should be cooked as soon as possible after the meat has been cut—at least on the same day. The membranous ruffe fat, the fatty tissue around the small intestine must not be added.

The fat should be cut in one inch cubes and started cooking in a cool kettle to prevent sticking that results in a burned taste. The fat is added a little at a time.

Slow rendering results in quality lard. Fat should be cooked until the cracklings float and are golden brown and until water bubbles cease to show on the surface.

The lard should be strained through several thicknesses of cloth. The sooner the lard cools the finer will be the grain. Lard must be stored in clean airtight containers.

To produce as nearly a neutral fat product as possible, a heaping tablespoon of soda to a 15-gallon kettle of lard may be added. This should be done just before the lard is removed from the fire. Stir it thoroughly before the grease is drawn off.

**4-H Girls Buying Bonds**  
4-H club girls have been doing their part in buying war bonds and stamps. A recent report shows that club girls have bought \$505.75 worth of bonds and stamps.

Providence girls have bought \$225.40 worth, this being the most bought by any one club.

**Union Service Is Planned For Thanksgiving**

In a called session Thursday afternoon at the pastor's study of the First Methodist church the Floydada Ministerial association made plans for a union Thanksgiving service. Other future services were also listed in the schedule for next winter and spring.

The Thanksgiving service is to be held at the First Christian church at 8 o'clock Wednesday night, November 25. Rev. A. C. Durrant, of Detroit, Michigan, who has recently been called as pastor of the Cumberland Presbyterian church was elected to bring the message. More detailed announcements will be made later, members of the association promise.

**\$24,100 Estate Left To George Lider By Sister**

An estate valued at \$24,100, including a residence at 617 North Carroll, was left by Mrs. Selma Van Eaton, who died October 18, to her brother, George A. Lider, Amarillo, in a will filed for probate Thursday.

In a will written April 8, 1944, Mrs. Van Eaton left the entire estate to her mother, Mrs. Emma Lider, if she should be living, otherwise it should go to her brother. In his application to probate the will Mr. Lider stated that Mrs. Lider was dead and that he was the sole heir.

Most of the estate is in cash or negotiable notes, the application said.

Mrs. Van Eaton had been ill for many months. Last rites were said for her in Dallas, where she had made her home practically all her life, except for a few years spent in Florida.

The Lider family were pioneer residents of Dallas, where both Geo. A. Lider and his sister were born and reared.

**NAVY RECRUITING MAN TO VISIT FLOYDADA SATURDAY MORNING**

For the convenience of Floydada men planning to enlist or who desire more information regarding the Navy, an officer from the recruiting station at Lubbock will be in Floydada each Saturday morning, headquarters at the Post Office. He will be in position to interview applicants and take applications on the spot, saving the men an extra trip to Lubbock, says an announcement this week from the Navy Recruiting service.

**STILES' RETURN HOME FROM FUNERAL OF AN UNCLE, W. R. HAMPTON**

Mr. and Mrs. George Stiles returned home last week from Hamilton county, Texas, where they were called by the death of an uncle of Mrs. Stiles, W. R. Hampton.

Mr. Hampton died at the age of 78 October 14 at Hamilton, and the last remains were interred at Evans cemetery following funeral rites held on October 16.

Mr. and Mrs. Lacy Martin and baby of Falls and Mr. and Mrs. Claud Hammonds were guests in the home of Mr. and Mrs. I. R. Grundy, Sunday of last week.

### Two Farm Sales Next Week Open Fall Season

Two farm sales the first of next week open the fall public sale season in this portion of the east plains, Colonel W. H. Seale, of the firm of Seale & McDonald, announced this week.

The first of these sales will be held Monday for W. H. Furrow of Pleasant Hill, who is featuring 26 head of bred Jersey heifers that will be offered along with other cattle at his farm.

On Wednesday following E. C. Hayden, who has sold his farm and is planning to move, will have a general farm sale, which Seale & McDonald will conduct.

"We are having good cash sales, reflecting the increasing supply of money in the country," Col. Seale said this week.

### Service Men Will Be Honored With Program Sunday

(R. T. Breedlove, pastor)  
Sunday night's service at the First Methodist church will be in honor of our service men. There are approximately 35 of them, now scattered all over the world.

The following program will be presented at 8 p. m. Sunday at the church: "The National Anthem"; "Onward Christian Soldiers"; Invocation; Girls' chorus, "Oh God, Our Help"; reading, Mrs. E. E. Hinson; vocal solo, selected; Candle lighting for service men as the roll is called.

Short tribute to service men: "America, The Beautiful"; Salute to the flag; "America"; Doxology, "God Be With You." A wife, sister, mother, grandmother or sweetheart of each man is asked to be present and to light his candle for him. This should be a sacred and meaningful service for all the membership of the church. In order to fitly honor and support our men who are in the service, please do not miss this privilege.

So far as we now know, we have lost no man from this church, but we cannot hope to keep that number intact. Come and honor them while they are yet living.

Please see that we have your son's name and address on the roll in the church. Check the roll Sunday morning and be sure we are right. We have been accurate as we can without your help, and no man's name should be left off our list. Their friends can get the addresses from the Honor Roll and write them. And as the addresses are changed, please notify W. L. Leibfried or Mrs. E. E. Hinson.

### First Baptist Church News

(L. A. Doyle, pastor)  
Our church spirit continues good and we had an unusually good crowd last Sunday even with the threatening weather. We still have many members out of service. You remember our goal is, "Every member an active member." Why be a church member if you do not intend to support the services and the program of the church?

We lack a little having our quota for State Missions and hope to finish that by Sunday. Sunday, we begin another convention year and would like to have all our members present to make plans for another year.

Faithfulness is one of the greatest traits of character and no Christian can mean much to God, his church or his own life without being faithful to the church program. Unfaithfulness to Kingdom work makes a pauper out of a millionaire, an ignoramus out of a Doctor of Philosophy, a failure out of a successful business man and a stumbling block out of a Christian.

Mr. and Mrs. Fred Battey returned from Amarillo last Tuesday where they spent the week-end with their daughter Mrs. Shelby Cook and Mr. Cook. Mr. and Mrs. Cook are the parents of a daughter, Janice Kay, born October 16. They also visited in Berger with another daughter, Mrs. Julian Edmonson, husband and baby.

Miss Beatrice Davis spent the week-end with her parents Mr. and Mrs. L. J. Davis at Plainview.

# COTTON IS MONEY

REMEMBER! During War Time we Share Responsibility for the success of Our Nation's Cause.

AGAIN KING COTTON ASCENDS HIS THRONE! . . . the Value, the Power of Cotton Gains New Prestige in the Pattern of World Destiny . . . Every pound is important, valuable.

Floyd County's Cotton Fields are white or turning white ready for the harvest that is due to see thousands of bales of the fleecy staple taken to gins and turned into Thousands of Dollars which will go into the hands of the Cotton Producers and their Laborers.

Because of the value of your staple and the great Spread between Different Grades of cotton on the market it Behooves every Grower to see that his crop has the Advantage of the best Ginning Service that Money can buy.

And this is where Scott Gin Company can be used by the cotton man to best advantage.

## Better Ginning Essential

And that is how our Modern Gin Plant can be of the Greatest Service to you. Capable Ginners, however they try, must have a Good Plant to Turn out a Good Sample. We have had access to the Best Cleaning Machinery that money can buy, we placed our orders early and we can assure you that the Best Grades your cotton will make will be turned out here.

Our Cleaners have been tried under every condition: The Mitchell cleaners with the new Auxiliary cleaners really get the job done and that is what you must have this season of Lumps and Spots that will hurt your sample if left in the bale.

We urge that you keep your staple as dry as possible and that you give us the chance to give you the Better Grade that is possible only when cotton is turned out dry. We will co-operate with you in every way possible.

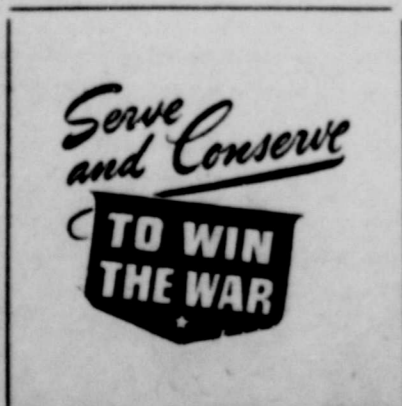

### Save Good Seed!

Our Storage Space for Seed Cotton makes it possible for you to store your better cotton and gin several bales at a time thus insuring the Purity of the seed you put away for next year's planting.

Our Gin Plant is in Perfect Condition . . . tuned to the highest degree of perfection to make the season's run. If you did not try us last year why not join the many satisfied cotton farmers who found profit in our methods and service? Your cotton Crop places a Mighty Responsibility in your care . . . cotton is a mighty Soldier in the World Conflict, providing Explosives, Food and Clothing for Nations and Armies. Economic Strength on the Home Front comes from its profits.

Here at Scott Gin Company we pledge to give you the very greatest quality that the bale you bring us in the form of seed cotton will Justify. We urge that you give us the opportunity to prove this statement.

We are operating, of course, under the Rules and Regulations laid down by the Federal Authorities as to our charges for the service we render. We do this as a Patriotic Duty and Will Strive to observe not only the letter but the Spirit of the Regulations.

## Winter Driving Hazardous; Cars Should Be In Good Shape, Local Service Men Warn

As winter approaches people who find it necessary to use their cars should take adequate precautions against cold weather. At best, winter presents many hazards to the motorists. Extreme temperatures, slippery roads, all add to the dangers of blowouts and engine troubles. Because of the fact that this section of the country usually experiences unusually cold winters, coupled with the shortages of parts, manpower and tire rationing, motorists of Floyd county are urged to do all they can to take extra care of their automobiles.

Floydada dealers and garagemen are pledging their best efforts to aid and offer suggestions on how to keep Floyd county cars running for the duration.

**Servicing Important**  
Brakes, lubrication, ignition and proper tire inflation are some of the major points of your car the merchants can offer help and suggestions on that will be vitally important to you in caring for your car. Periodic checking of those parts that are most susceptible to cold, is absolutely necessary, garagemen say. Windshield wipers should be tested and put into condition, fuel, oil and water pumps checked. Graphite in the door locks will guard them against freezing. Winter is almost here. Drive with care and be sure your car is in condition.

For the most part dealers report a reasonably good early season supply of anti-freeze solutions.

Sergeant and Mrs. George W. McMurray left Sunday for Big Spring for a short visit with relatives before returning to Tampa, Florida, where he is stationed. Sergeant McMurray came for Mrs. McMurray last Sunday and spent the week visiting with her parents, Mr. and Mrs. Ed Griffin.

Mrs. L. D. Britton returned home last Wednesday after spending a week with her husband, Electrician's Mate, First Class, L. D. Britton at San Diego, California. While in California, Mrs. Britton visited other relatives and friends.

Mrs. Lula Brown of Waco came last week for a couple weeks visit in the home of her brother and wife, Mr. and Mrs. Will Snell.

Pvt. Burl Hatley of Sheppard Field visited last week-end in the home of his parents Mr. and Mrs. Dewey Hatley.

## Dougherty Out Of Water As Repairs Are Made On Well

DOUGHERTY, Oct. 28—Rev. Tommie Allen, of Abilene filled his appointment at the Baptist church Sunday for regular services.

Immediately following Sunday school a service flag with 15 stars was presented to the churches by the Dougherty Home Demonstration club. The flag to be displayed alternately in the two churches.

Names of boys from this community for whom the stars represented were read. They are G. W. Lotspeich, R. V. Bartlett, William Hinton, Maurice Campbell, Oliver Emert, W. C. Hudson, Jr., Jimmy Peel, Willie Wisdom, Price Brownlow, Tillman Allmond, Roy Linch, Granville Brownlow and Roy Crawford. The club will add additional stars as other boys leave for armed service.

Honoring her aunt, Mrs. Mattie Winn of Hamilton, who has been a guest in her home, Mrs. George Stiles entertained a number of neighbors and friends Friday afternoon at her home on the Matador highway. The afternoon was spent in handwork at exchange ideas. Dainty refreshment plates were served to Mesdames A. H. Kreis, R. H. Ashton, Taylor Leach, C. A. Caffee, Mal Jarboe, the honoree Mrs. Winn and the hostess Mrs. Stiles.

Dougherty is without water this week. J. E. Newton manager, is spending much time in Lubbock getting the parts repaired and hopes to have everything in working order at an early date.

All America Knows Budweiser... but Few Know This

## THE STORY OF BREAD

may well be called **The Story of Civilization**

Bread, the most venerable of prepared foods, has helped man, and man in turn has bettered the quality of his staff of life.

YEAST is the life of bread . . . and the story of yeast is the story of scientific research, uniform quality, mammoth production, modern refrigeration . . . and daily delivery to bakers in every city, town and village throughout the land . . . even by boat, by sled and by plane when other transportation is interrupted by floods and blizzards.

Anheuser-Busch is one of America's biggest sources of baker's yeast.

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentation and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

**Endless research in making the world's leading beer has led to other products**

**VITAMINS, B COMPLEX**—For manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.

**VITAMIN D**—Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

**CORN SYRUP**—many millions of pounds annually for America's candy industry.

**SYRUPS**—for food, table and confectionery uses and special syrups for medicinal purposes.

**STARCH**—for food, textile, paper and other industries—millions of pounds annually.

**VITAMINS FOR LIVESTOCK**—We are America's biggest supplier of yeast vitamins used to fortify animal feeds.

**REFRIGERATING EQUIPMENT**—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed Forces.

**DIESEL ENGINES**—Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.

### Defense Guard Gives Program At Assembly

F. H. S. had a very unusual assembly program last Wednesday. It was given by the Texas Defense Guard and proved to be very interesting. Chaplain L. W. Bridges gave a talk on the importance of the Texas Defense Guards, their duty on the territory covered by this unit. First Lieutenant Harry Mordek gave a talk on three different kinds of hand grenades and how each was used. He then showed his Thompson sub-machine gun and told some interesting facts about it. Then Second Lieutenant Douglas Hollums gave a talk on gasses. He told of the different kinds of gas, what to do in case gas was released, and the danger of gas. He had a gas mask with him and demonstrated how it should be worn, how to put it on, and the effectiveness of it. The student body enjoyed the program and learned some of the important things about war at home.

#### PERSONALS

Several familiar faces has been seen this week at F. H. S. Among these are: Maudeen Moore, Margaret Camden, Tresman Glover and Leon Handley. Windle Johnson, home on a furlough, was here for several days. He is in the Navy in San Diego, California.

### Gallant Stand Made By Squad At Phillips

The Floydada Whirlwinds made a gallant stand against the Phillips Blackhawks Friday at Phillips but lost 7-0.

Phillips has been undefeated for twenty-eight straight games and several people remarked that Floydada had given them the best game they had had. All the boys really played a good game.

### BAND AND STUDENT BODY HOLD UNUSUAL PEP RALLY

The band and student body met at the usual place at 7:30 down on the Old Martin corner. The band marched to the square where they played some tunes and the pep leaders gave some yells. Then they marched on to the bonfire and the band played and again the leaders gave some yells. Then they called on Coach Murry for a pep talk. As the fire was dying the band played the school song. Then they marched back through town in the snake dance.

### GOSSIP

I've never been dated  
I've never been kissed.  
They said if I waited,  
No man could resist.  
The lure of a pure and innocent miss.

The trouble is this—  
I'm fifty!

Neema, you should be more careful and not let your letters to George get away from you!

Wonder why Joseph Looney likes the second period civics class? Dorothy, you might be able to tell us the reason. Has Frances Keim lost her charm over 'Mush'?

Why is it Wilton Patterson likes Economics? It is because of Betty Jean?

He may be from Sand Hill; but Patsy Parkey likes to go to the show with Billy anyway.

Venita, what's this between you and 'Dicky Bob'? Teh, teh!

What's this between Eddie Ruth and Johnny Hammonds? Is it serious?

Glenn, who is that little ward school girl you have been taking to the show Saturday nights?

Who was that letter from, Betty Jean, Mary Helen and Mary Lee were reading in the hall the other day?

I wonder if Lucille hates to leave as bad as Marion hates to see her go?

Who is that boy in Kansas you write to, Charlene?

What do those smiles mean that have been passed between Ervin Looney and Jean Warren?

Could Bryan be trying to make a good impression on Daphene by using cosmetics? Bryan and Daphene haven't made up yet. Wonder why?

Pete was on his way to Phillips Friday night, but Evelyn Elliott seems to have held his attention in Amarillo. Oh boy!

What could Billie Durham have been doing with H. C. Love and Winston Brown last Wednesday evening?

Dorothy May has a good looking brother here from California. But Edna Earl ought to know though.

Mary Lee's wearing a 40-41 class ring with the initials R. W. on it.

What could Irma Tom mean? Making eyes at J. W.!

Reckon Faith will get lonesome now? Leon's gone you know.

Charles Dudley is quite this year. Wonder why? Or maybe we don't know the half of it!

Billie what was that you said to that sailor that made you blush so—were you dropping a hint?

Did you notice all those Floydada girls at Phillips wearing those Whirlwind football jackets? Every-

one of them had on one of the boys' jackets, and for some reason the girls seemed to yell a bit louder than usual too. Maybe that's a good idea, boys!

Staff Sergeant Clyde Wright and Sergeant Anthony Hanger, both of the Lubbock Army Flying school, spent last week-end with Sergeant Wright's parents, Mr. and Mrs. Morgan Wright.

Mrs. Geo. Finkner returned home last week from Fort Worth where she has been the past few weeks visiting in the home of her daughter and husband Mr. and Mrs. Houston Lanier and baby.

Pvt. Kenneth V. Rimmer, who is stationed at Lubbock, visited several days last week with his wife and other relatives.

Mrs. H. M. McDonald spent last week-end in Fort Worth visiting in the home of Mrs. W. D. Smith.

## Uncle Sam Needs Your

# SCRAP

## Before the Snow Flies

We've all heard a lot lately about the need for scrap metal.

Probably you've already done something about it.

But every one of us has got to do more. *Much* more. **AND DO IT QUICK!**

### Here's Why

This war is swallowing steel like a quicksand.

We need scrap metal to make steel . . . steel for *more* tanks . . . *more* planes . . . *more* ships . . . *more* guns . . . and *more* shells.

It's our job to supply our boys and allies with all these things they *must* have to smash the Axis on land, at sea, and in the air.

### Scrap Is Precious

Steel for tanks, planes, ships, etc., is made by melting old scrap metal with pig iron—about half and half.

The pig iron is made from iron ore that comes from mines.

But that precious scrap—THAT'S got to come from us folks here on the Home Front.

### What Is Scrap?

Scrap is ANY old thing, made out of iron or steel, that we don't absolutely need.

It is anything from a hairpin to a busted steam boiler . . . from a paper weight to a cracked rail.

It is old machinery, pipe, tools, flat-irons, auto parts, screws, nuts, bolts, bathtubs, lawnmowers, stoves, tanks, metal barrels, iron fences—and what have you.

### Where Is It?

This old scrap is everywhere. It is in cellars, attics, closets, alleys, auto graveyards, fields, garages, barns, and factories.

We've all got SOME, be it little or much.

A typical town family is said to have about 70 pounds lying about; a farm family, nearly 750 pounds.

In ten months after Pearl Harbor the Santa Fe scraped together 210,716,000 pounds of scrap. A pound here, a ton there. That's how it mounts up.

## Scrap Means Steel...Steel Means Victory Sell It or Give It...But Get It In

Steel is the only language those bandits in Tokyo and Berlin understand. Let's give them plenty of talk . . . *in their language.*

Every county, city, and town is having a scrap drive. Watch your local newspapers on how to get in it. Sell what you have, or give it away—but *get it in!* And now's the time, before snow flies!

Your scrap can save American lives and help shorten this war. Every pound you turn in helps.

## Red Cross Asks Immediate Help Of Volunteers

The need is urgent for volunteers for making Red Cross surgical dressings, according to Mrs. C. M. Thacker, chairman of instructions. A class is held daily at the Duncan building on South Wall street.

Volunteers are asked to contact instructors Mrs. Thacker, Mrs. S. W. Ross or one of the daily supervisors listed as follows: Mrs. Homer Steen, Mrs. W. L. Fry, Mrs. Henry Edwards, Mrs. J. D. McBrien and Mrs. A. J. Hamilton.

**Large Quota For November**  
The work is a 16 months' program with a quota for the month of November set at 26,200 dressings.

"We need help at once," Mrs. Thacker said and urged that women offer their service, and get the assignment for the day or days best suited to the volunteer.

**Rules Governing Volunteers**  
The following rules and regulations are given for workers:

1. Washable housedresses must be worn;
  2. Hair must be covered;
  3. No nail polish can be worn at the time dressings are made;
  4. No volunteer accepted with skin disease of any kind.
- Classes open each morning at 10 a. m. and continue until 5 p. m. Classes opened the first of the week but volunteers have not responded as they should and the supplies were delayed in reaching Floydada making a delay in this month's quota that is urgent, local representatives say.

## Gas Rationing—

(Continued from page 1)

point of delivery, or between one farm establishment and another. If this occupational driving requires more mileage than is permitted with an "A" and "B" book, he will be given a "C" book.

The "A book," which every passenger car owner is entitled to if he owns no more than five tires for each passenger vehicle, is good for 90 miles of personal driving and 150 miles of occupational driving per month. The "B" book permits 320 miles of occupational driving per month. If the two books together still do not take care of the farmer's needs, then he can apply for

the "C" book which contains 96 coupons worth four gallons each and is good for a three months' period. It may be well to point out that local boards can "fill" the books to fit the individual's approximate exact needs. This is done by tearing out coupons or extending the period of time for which a book of coupons is valid. The motorist may get "A" and "B" books, or "A" and "C" books but not all three.

The government's idle tire purchase plan caused many inquiries to OPA officials. It was emphasized that "A" books will be denied passenger car owners if they possess more than five tires for each passenger car they own. The Railway Express Agency is the official tire station. Excess tires are not included in the program but the government will buy them because they are needed badly. Truck-type tires are not included in the program but Uncle Sam will buy them too. Truck-type tires are marked as such on the sidewall of the casing. Tires actually mounted on the running wheels of passenger car trailers and similar equipment may be retained but no spare passenger-type tires are permitted for such equipment.

Although truck operation will be controlled under the over-all rubber conservation program, rules concerning them will differ from those governing passenger cars. Beginning November 15, trucks and other commercial vehicles will have to have certificates of necessity to enable drivers to buy rationed gasoline, tires and repair and replacement parts. Applications for the certificates have been mailed to commercial vehicle owners everywhere, but should any have been missed they should write immediately to the nearest Office of Defense Transportation district office for the necessary forms.

Owners already having received their blanks are urged to fill them in with care and mail them immediately to Detroit in the envelope mailed with the blanks. If blanks are held too long they might get in a mail

jam at the last minute and deprive a vehicle of its certificate by the effective date. As an assistance to farmers, County Farm War Boards have volunteered to help with the application blanks.

**Large Number Trucks Registered**  
Approximately 350 Floyd county trucks have been registered this week for certificates of War Necessity, prior to gas rationing.

Certificate forms were issued by the County Farm Transportation committee headed by Paul Snodgrass of South Plains. Teachers of the Floydada High school were conscripted to assist the clerical force of the AAA office in filling out the forms.

The ODT certificates are required in obtaining gasoline, tires or repairs and is a part of the National Program of the Office of Defense Transportation to enforce the conservation of rubber and automobile equipment.
