## Farm Mobilization Answers Greater Production Demand

### Farm Machinery Repair Shop To Be Open Feb. 1

A farm machinery repair shop will be set up in the warehouse of the Surging building Monday evening, Feb. 1 and will be available free of charge to any and all farmers who would like to repair their own farm machinery and tools.

Lindsay Graham will be in charge of the shop and will assist and advise the men about tractor and machinery repairing. The tools are furnished free of charge and the farmer can repair or build anything that he needs so long as he bears the expense of the materials that he uses.

Farmers are urged to start repair work now in order to have their machines and tools ready when needed. If every farmer waits until he needs his machinery to repair it the shops will be unable to take care of the work.

The shop will be open every night from 7:00 until about 10:00 for five nights a week.

### Youth Is Severely Burned Sunday At Roaring Springs

Bennie D., 10-year-old son of Mr. and Mrs. Ben Dillard of Roaring Springs was seriously burned Sunday night while attempting to revive a trash fire near his home. Little hope was held for his recovery until Wednesday morning, by attending physicians at a Matador hospital where he was carried following the accident.

Young Dillard, with his 9-year-old brother had made several other attempts to revive the fire. He went to his home and returned with a can of gasoline and stumbled as he threw a small portion on the fire. As he fell, gas splashed to his clothing that was quickly ignited. All of his clothes were burned from his body with the exception of his shoes and a zipper on a sweater coat, his father said.

The more severe injuries are from his waist down, his father who is a former resident of Floyd county, said Wednesday afternoon.

### File Your Return, New Law Or Not, Says Collector

Regardless of the outcome of the talk in Congress about new plans for collecting income tax, returns must be filed before March 15, W. A. Thomas, collector of internal revenue, of Dallas, urged Saturday.

Many persons in the Dallas district are confused by the talk in Congress and are delaying filing returns on their 1942 income, Thomas said.

"So far it is just talk," he said. "But no matter what Congress does, returns must be made. Taxpayers should not delay."

"The number of returns this year will be double those filed last year. An impasse will result if people wait until the last minute to file."

### Wheat Elevator Burned Sat. At Lockney

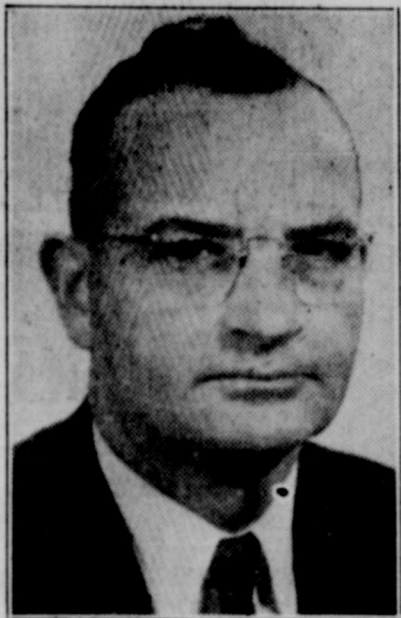

Patterson Wheat Elevator at Lockney and its contents were destroyed Saturday afternoon by fire. The loss was estimated at \$30,000 on the building and 1,270 bushels of wheat. Very little damage was reported on the wheat storage house nearby.

The fire was said to have been caused by an electric short discovered by an employee who was on the outside of the building when he saw the sparks flying. He called to his companion who was L. L. Carter on the inside of the building but Mr. Carter was severely burned before making his escape.

**Makes Record Run**

When it became evident that the Lockney Volunteer Fire department needed help, the Floydada volunteers were called to come to their aid. The truck driven by first assistant chief Carl Rodgers, made the run in 12 minutes and was pumping water in 16 minutes from the time they received the call. He was accompanied by Fire Marshal E. S. Price and they kept the engine pumping water for two hours and twenty minutes. The combined efforts of the two teams was credited with having prevented the fire from spreading to nearby buildings, thereby preventing additional heavy losses.

### On Committee

Selection of County Judge G. C. Tubbs of Floyd county to serve on the important legislative committee of the County Judges and Commissioners association of Texas was announced this week by Judge A. S. Ware of Brazos county, president of the organization. Tubbs will represent the 30th Senatorial district on the committee.

### Tubbs Appointed On Legislative Committee

Judge G. C. Tubbs, of Floyd county, this week accepted appointment as a member of the legislative committee of the County Judges and Commissioners association of Texas, representing the 30th Senatorial district on this important committee of the powerful organization.

Judge Tubbs was notified last week-end of his appointment by Judge A. S. Ware of Brazos county, from Bryan. One member from each senatorial district in the state comprises the committee.

"I am glad to have an opportunity to serve on this committee, although its meetings may be abridged by the fact of difficult travel temporarily," said Judge Tubbs, who pointed out that numerous advantageous reforms in county government can be effected in Texas only through enactments of the legislature. These reforms the judge and commissioners are in the best position to point out to the legislature to recommend for action, he declared.

### Kenneth Jeffers Purchases Drug Store At Matador

Kenneth Jeffers, associated with the White Drug Company as prescription and sales clerk for the past five years, last week purchased the Simpson Drug store of Matador from J. P. Bradford. Mr. Jeffers took charge of the store Thursday.

Mrs. Jeffers and baby son Cavin Jeff and her mother Mrs. R. N. Rigsby, who makes her home with the Jeffers, went to Matador Friday.

### Pvt. Eudy Transferred To Fort Lewis, Wash.

Mr. and Mrs. Geo. I. Eudy received word from their son, Pvt. Ben Eudy this week who is stationed at Fort Lewis, Washington. He has recently been transferred from Camp Barkley and writes that he likes the new location very much.

Pvt. Eudy is with the medical corps and enlisted for service four months ago.

### OPA Ruling Sets Hours For Stations

To reduce operating costs to Service station operators, an order from the region office of War Information has advised southwestern motorists to check with favorite filling stations concerning new operating hours to avoid difficulties in getting automobiles serviced.

The order, issued by Petroleum Administrator for War, Harold L. Ickes, on January 19, went into effect January 23. Service station operators must elect to stay open not more than 72 hours a week, and for not more than 12 hours a day; or stay open 24 hours a day for seven days a week.

Station operators who choose the 72-hour-a-week hours may select their closing day.

The 24-hour-a-day alternative will also permit truck stations to serve common carrier trucks and other "T" card holders. Continuous operation is requested of these dealers so as to effect maximum service from the stations.

If the dealer elects to remain open 24 hours a day, he must serve all customers for 12 consecutive hours for six days a week. Only "T" card holders may be served during the remaining periods.

Local stations are announcing their opening hours this week and motorists are advised to check the time of their favorite station.

**Credit Card Use Restricted**

In another move of interest to gasoline dealers, Ickes announced this week that Petroleum Directive No. 62, which restricts the use of credit cards, has been amended, effective February 1.

Under the amendment, retail marketers or suppliers, may not "grant or accept, or participate in the granting or accepting, directly or indirectly, of credit, in connection with the sale of any petroleum product."

Exceptions to the granting are: Federal, state or local government; commercial use of motor boats and motor vehicles displaying "T" ration stickers.

Dealers' coupons or script books may be used only when sold for cash.

### Sugar And Coffee Stamp Deadline Approaches

January 31 is the deadline for obtaining three pounds of sugar with Coupon No. 10 in the Ration Book No. One. One week later, February 7 is the last day for obtaining one pound of coffee with Stamp No. 28.

Ration Book No. Two will probably be distributed the middle of February. W. Edd Brown, War Price and rationing board chairman said this week. District meetings are scheduled to be held February 11 to familiarize merchants with the new books and make arrangements for the distribution of Book No. Two to the consumers.

### A & M Graduate Home Awaiting Service Call

Jack McIntosh, who was a member of the mid-winter graduating class at A & M college of Texas, has reached home for a visit with his parents, Mr. and Mrs. B. F. McIntosh, following his induction into the army at Houston the first of the week. He anticipates being called sometime in February.

At the graduating exercises and parade review held at College Station, Mr. and Mrs. McIntosh were present last Friday and Saturday. The class was the first "streamlined" class turned out by the college under new schedules, finishing a half-year earlier than normal.

### WAAC Recruiter Here All Day Tomorrow

Sergeant Harvey M. Gist, U. S. Army Recruiting representative for this district will be in Floydada on Friday, January 29, to interview all women in the Post Office building from 9:30 a. m. to 4:30 p. m. with information and applications for the Women's Army Auxiliary Corps.

"There is no obligation in seeking information," said Sergeant Gist, "and I would like to explain to all women how they can be of service."

There are more than 100 trades in the Army where a woman can relieve a soldier for active duty. Pay for the WAACs is the same as for men in the army.

All women between the age of 21 and 44, inclusive, are eligible for the WAACs, including married women provided they have no children under 14 years of age.

### Marriage Licenses Issued

Marriage licenses were issued by County Clerk Margaret Collier, on January 22, to Malvin Jarboe and Flo Ella Jackson.

### Board Examining Married Men With No Children

With a call for 50 men early in February already on their calendar and the likelihood that they will have a heavy call in March, the Floyd County Selective Service board last week began the examination of married men without children.

As this process continues the board also has the wheels turning to prepare the 18-year-olds (since July 1, 1942) for induction soon. Questionnaires, both selective service and occupational, have been mailed to the 42 boys who registered in December.

**21 Men in January**

Sixteen selectives and five volunteers made up the assigned quota of 21 men from the county who have gone to Fort Sill reception center on the January call. The selectives forwarded last Thursday, after a few days furlough spent at home, with the exception of eight who went direct from the induction center at Lubbock, are as follows:

Dorcie Warren, Leonard Finley, Billy Joe McPeak, Robert Warren, Kenneth Burgett, Kenyon Gregory, Dwan Hatley, J. D. Morrison, Ralph Jones, Floydada.

Exceptions to the board, George Harrison, Robert J. Davis, Lemuel Alton Compton, Louis Ray Stapp, Doy Wesley Eiland, Oscar E. Clark, Lockney.

The board has been scraping the bottom of the barrel for some weeks in an effort to keep their quotas up without taking married men. Numbers of men, for whom applications for deferment have been made on occupational grounds, have been passed up by the local board to appeal boards to determine their status.

### Sgt. Brotherton Commissioned 2nd Lieutenant

Sgt. Marvin G. Brotherton having successfully completed his three months course at the Air Force Officer Candidate school at Miami Beach, Florida, has received his commission as 2nd Lieutenant in the Air forces of the Army of the United States. His duties will be to direct administrative and supply operations of the rapidly expanding Army Air corps ground forces, thus relieving trained pilots for full time flying duty.

As a civilian, Lt. Brotherton lived on Route one, Floydada.

### Billy Brown, Volunteer In Army Reserve To Enter Service Saturday

Billy Brown, Junior student of Texas Tech college, Lubbock is scheduled to report for service Saturday at Lubbock for induction in the army air corps.

Billy, who is a member of the enlisted reserve corps, volunteered three months ago for immediate service and continued his studies at Tech until notified last week-end.

The son of Mr. and Mrs. W. Edd Brown, he is spending this week with his parents.

### Returns From College To Enter U. S. Army

David Kirk, a sophomore student in West Texas State college, Canyon, came home Friday to visit his parents, Mr. and Mrs. Ohmer W. Kirk, until February 4, when he will enter the service of the U. S. army.

David has the honor of being one of the 10% highest grade pupils of the college, according to information released from the college this week.

### Olin M. Watson, Jr. Receives His Degree From Tech College

Olin M. Watson, jr., will receive his B. B. A. degree this week from Texas Technological college. He is a member of the enlisted reserve corps of the U. S. Army and will be here with his parents, Mr. and Mrs. O. M. Watson, until he is called to service.

He returned home Wednesday following his graduation from the college.

### Sgt. Lyn Roy Weathers Writes From Pacific

A letter received this week from Sgt. Lyn Roy Weathers who is stationed in the Pacific, was received by his aunt, Mrs. S. W. Ewing. He stated he was well and doing fine but "would like to see a real West Texas sandstorm," his aunt said.

Sgt. Weathers is the son of Mr. and Mrs. Hop Weathers of Lockney. He volunteered for service in the tank corps two years ago.

### 1943 Automobile License Tabs, Miniature Of Old Plates, Are In Hands Of Assessor-Collector

A bit of steel plate only one inch by four inches in size, applied over your 1942 license plate will be the visible evidence you have paid your license fees for the year of 1943.

The little orange on black "tabs" were received last week at Assessor-Collector Geo. B. Marshall's office to be in readiness when the "season" opens. Owners of automotive vehicles cannot pay the license fee and get their plates until February 1 and must pay not later than midnight April 1. The "tabs" are the same size for all types of motor vehicles, manufactured at Texas State prison and distributed by the State Highway department to collectors. The "tabs" will bear the same number as the official receipt issued showing payment of the fee. Little or no change has been made in the cost of the plates to the vehicle owner. The smaller plates are used to conserve steel for the war effort.

Having only one hole with which to apply over the old plate to the vehicle, the little plates apparently would be easy to lose unless securely attached.

Should you lose one of your "tabs" a replacement will cost \$1 and with it you must present to the collector the mate to the "tab" and also the receipt originally issued for the set of "tabs." A tab and 1942 plate replacement will cost \$2. In the case of a newcomer to the county the collector is required to furnish a set of 1942 license plates and a "tab" at the regular license fee.

### Resigns Office

John Stapleton, who has been out of civilian life for eight months, has resigned the office of County Attorney of Floyd county. His formal return of the office to the people was made in a written resignation submitted to the Commissioners court. He is a lieutenant in the army and leaves this week for El Paso to report.

### Stapleton Offers Resignation As County Attorney

Lieut. John Stapleton of the U. S. Army while on leave last week-end here tendered his resignation to the Commissioners court of Floyd county as county attorney. It is due to come up for consideration this week at the hands of the court. He was named to succeed himself while absent from home last November.

"I have appreciated serving the people of Floyd county as their county attorney for the past four years, and am deeply grateful for the confidence shown in me," Lieut. Stapleton said following his resignation. "I am aware of the fact that I cannot serve the people in two capacities, and realize that until the job of winning the war is completed personal ambitions must be forgotten."

The resignation and possible appointment of a successor will be discussed at an informal session planned to be held today in Lockney, where the judge and the commissioners will visit at the bedside of Henry Roberson, commissioner of Precinct No. 2. Commissioner Roberson is ill and cannot attend a session of the court at this time.

Should the commissioners in their informal session arrive at a decision the other members of the body will return to their meeting place in the court house to hold a called session and adopt formal order in connection with the matter.

### Austins Purchase Home

Mr. and Mrs. N. R. Austin of the Center community recently purchased the A. J. Hamilton home, 400 South 8th street and will move to Floydada this week.

Mr. and Mrs. Hamilton and son Charles will move to the Norman home on West Virginia street.

### Hays O'Neal In Navy

Hays O'Neal left Tuesday night for Dallas, after having taken the examinations for the navy at Lubbock recruiting office.

He will be a pharmacist in the medical detachment.

### Sister Is Ill

Mrs. Fred Zimmerman, who is at the bedside of her sister, Mrs. W. L. Hawkins of Wichita Falls, was at home from Sunday until Tuesday.

Mrs. Hawkins is reported to be critically ill.

### Food Czar Urges Heavy Increase In Forage Feeds

Prompted by the urgent call of the nation's need, an upsurge of determination to meet the challenge of increased production in spite of handicaps, becomes more evident daily among east plains farmers.

Handicaps principally consist of labor and machinery shortages. If these two barriers to increased production can be hurdled Floyd county and other east plains farmers are confident they can successfully meet the call.

**Home Front**

Striving for a badly needed 7 or 8 per cent increase in food production, a plan to mobilize a voluntary "land army" for the planting and harvesting of record food crops for the war effort, was announced jointly by Food Administrator Claud R. Wickard and Manpower Commission, Paul W. McNutt at a press conference Tuesday.

The plan follows a demand from Farm state members of Congress that farm labor shortage be remedied.

**Dust Bowl May Be Drafted**

Secretary Wickard reported this week that a possibility of again cultivating the dust bowl may be necessary before the war is over. Demands for wartime crops now are taxing present cultivation areas and it is probable more will have to be put into cultivation, possibly this year, Wickard said.

**Sorghum Interest Grows**

A two-million-acre increase in grain sorghum, a great bulk of which is grown on the Great Plains, has been asked for by the secretary. The plan could be achieved by planting less wheat and utilizing more land not now in use, he said.

**Bonus Plan Revealed**

A new Agricultural program that included a huge appropriation that would be offered growers in "incentive payments" for expanded production goals has been outlined by Secretary Wickard, an announcement from Washington this week stated.

The new program will apply to soy beans, grain sorghum, flax, sweet potatoes and dried peas in an effort to meet the deficiencies in vegetable oils and proteins for animal feeding as well as human consumption. Growers of these crops will receive extra payment for each acre they exceed 90 per cent of the farm goals up to 110 per cent of the goal. The department is also developing a comparable program involving incentive payments for increasing milk production.

**Payments Listed**

Incentive payments announced included soy beans, \$15 an acre in excess of 90 per cent of the farm goal; peanuts, \$30 an acre; flax, \$10 an acre; dried peas, \$15 an acre; grain sorghum, \$18 an acre and sweet potatoes 50 cents a bushel on the normal yield of the acreage planted over 90 per cent of the farm goal.

### W. J. Browning Improving

W. J. Browning who has been quite ill the past two weeks is reported by his son Joe Browning, to be improving. He has been suffering from respiratory ailment and complications.

His daughters Mrs. John Finley, Mr. Finley and daughter and Mrs. Bill Debnam and Mr. Debnam daughter all of Bisbee, Arizona came Wednesday of last week to be with their father. Mr. Finley and Mr. Debnam returned home last week-end.

### American Legion Meeting Monday Night 8:30

A meeting of the American Legion is scheduled for Monday night at 8:30, to be held at the American Legion hall.

All members are urged to attend the meeting, the announcement stated.

### President's Birthday To Be Observed

January 30 marks President Roosevelt's 61st birthday—the tenth birthday dedicated by him to the conquest of infantile paralysis, and the first birthday of the establishment of the National Foundation for Infantile Paralysis under his sponsorship.

President Roosevelt has said in regard to this year's campaign: "I think that such a fight as is being waged against infantile paralysis or any other as yet uncontrollable disease is an essential part of the main struggle in which we are engaged—a struggle to make tomorrow's world a better world in which to live."

In order for the general public to contribute to the fund for the control of infantile paralysis, jars are being placed in all of the places of business this week by Boy Scout Troop 64, Garland Glover, scout master of the troop, announced. "In this way we hope to be able to help out a great deal in the March of Dimes," he said.

Additionally all of the churches of the city are planning to contribute to the "March of Dimes" by taking public donations at the Sunday services the past and coming Sunday, according to an announcement made this week by Phil H. Gates, president of the Ministerial association.

### Schedule For Basketball Games To Be Played During Coming Week Announced By Murry

For the second basketball game of the season the first and second teams of the Floydada High school will play the first and second teams of the Lockney High school at Lockney. The game will be played at the Lockney High school gymnasium at 8 o'clock Friday night.

On Tuesday, February 2, the Floydada teams will play the Ralls teams at the City Auditorium at Ralls, beginning at 8 o'clock.

On Friday, February 5, the Ralls and Floydada teams will play at Floydada at the Andrews Ward gymnasium.

As an explanation for the two

games being played at the same time, Coach Floyd Murry said it has been so arranged in order to cut down on the transportation and also to give more of the boys an opportunity for the experience.

**Game Results**

Results of the first games of the season played at the Andrews Ward gymnasium Friday night of last week were as follows:

Lakeview beat the Floydada freshmen 17 to 3.

Floydada's first team beat Lockney's first team 20 to 7.

Floydada's second team beat Lockney's second team 31 to 8.

# EDITORIALS

We go along with the major signs which say more weather. It may be January, February or March, or all three. Minor signs say no, but we are convinced that's all wrong. Old Boreas is chugging the meteorological heavens as he has never done before almost. There are going to be break throughs. The Canadian Polar front has the Gulf warm front on the run somewhat like the Germans at Veliki Luki a few weeks ago. But the battle goes on all the time, and east and west and north and south do not mean a thing to air currents. Wherever they've got the power massed they push through where the weak spot is in the opposing atmosphere. How nature's little creatures knew all this away last fall is more than we can even guess. The warm office prognosticators say they didn't. We gamble (conversationally speaking) that they did.

If you haven't written any of the bureau chiefs who now run our country and make laws that Congress never heard of—laws that do not have anything to do with the war effort as well as laws that do—if you've never written one, try your hand at it. Pick out a good, high-up one and write just any fool thing that comes into your head. Only make it sound reasonable enough that they don't send a man to examine you for the bug-house. Then sit back and wait for the answer. You can even say in the letter that you don't want them to waste their time answering you, that no reply is asked or expected. You'll get both barrels from somebody or other and a copy of the letter you get will go to a half a dozen places, more or less, including some addresses close to home. How necessary it is to win the war, how we've got to stay behind the boys on the fronts, and all that. You may have a boy or two in the armed forces that you pray for every night before you go to bed. But somehow or other Bureau Washington still thinks they've got a job of making the country believe, of getting us all pepped up. In other words, there is something a \$5,000 or a \$10,000 bureau job that dehydrates the humanity out of a human, that makes him forget that the war belongs to all of us the same. They even think the country would be in a hell of a fix (excuse the French) if it wasn't for them.

Floyd County trees look ludicrous since they have been "dehorned" for spring growth. That December 30-hour deluge of ice gave the trees the worst whipping of many years and they will still be showing the effects of the storm years hence. Where owners have allowed the trees to stand in their melancholy ruin, with frazzled limbs hanging in all directions the trees are more pitiable than laughable. But it hits your funny bone in a way to see one of your old tree friends trimmed down to a nub, as shamed as a peacock who has lost his plumage. You feel sorry for the old boy, too, but know he will make another brave start when the sap begins to rise again this spring. And the houses! You see many of them which you had not seen really for years. The trees had become apart of the premises. Like humans, trees are, in this respect, with a little encouragement and the right treatment they come back, energy renewed, and restore themselves.

The Floyd County Selective Service board must be just about scraping the bottom of the barrel, so far as young unencumbered men are concerned. We assume this is releasing no information to Herr Hitler which he does not already have, since it is common talk. And in numerous counties they began some time ago taking married men without children. Probably the same is about to hit here since one of the biggest calls in recent months is said to be scheduled for February and a considerable number of youth went out

in December and January. Volunteers all the while also got into various branches of the armed forces. Axis authorities can take little comfort from the fact that all over the country there is much argument whether the army, navy and marine forces should number three, five, seven or thirteen million men. That is a way we have of doing in this country that the super-Aryans will not understand. When we get through, somebody has the last word and that is the way it is done. And whatever it takes, we are going to put out.

Farm people do not understand how the government expects them to produce and produce to the limit, while the strong young men are going to the armed forces, leaving those a little less active, older or younger, to do the task. The fact is the government knows we will not get as efficient farming, harvesting and marketing done as has been true of past years. What is sought is an all-out effort to get the situation met, with determination, and authorities expect to be satisfied, knowing that farmers will go the limit with what they have to do with.

Habit is hard to break. A man who has equipped himself to plant and harvest cotton wants to do just that. A wheat man knows how to handle wheat. He has the equipment to make a wheat crop, and he wishes it were wheat the government needs most. But wheat and cotton are not the "must" crops in the emergency. Chickens and cows and swine and castor oil and soybean oil and things of that kind are the farm bottleneck now. The country may be direly in need of wheat and cotton some other time, the same as a general might need infantry later in the battle but right now he needs cannon. In the emergency he gets cannon if he can at any cost. And the battle line extends all the way back to the cotton and wheat man who is being cajoled and exhorted by radio, press and public forum.

Not to be an alarmist, but to try to be realistic, a food shortage is on the way in America. We mean a food shortage in 1943. Not that anybody need to go hungry but that there are just not enough of the things to go around to all of us in the old way. For America is undertaking to keep seven battlefronts bolstered with food for the populations behind them. You might want to argue that the president in his grand style, covered a bit too much territory, when he waved his arm and in golden tones said our country would feed all the United Nations world. Be that as it may, the federal government is going to go as far as it can to do just that. It is good logic to do so. (But not to brag about it before you do it). Forgetting the rationing and the regimentation in store for us—forgetting for the moment whether the job is being done in the American way—the fact is a good, stiff rationing program will be good for the health of a lot of people of America whose stomachs are too evident and whose foundations, in sitting position, are too broad.

A year ago we wondered what we would be thinking at the beginning of the second year of war for America. It was said we would hardly be able to understand why we did many of the things we were doing then. And this year will see even more things. This year will see blood and tears increasingly for Americans, shorter tempers, tighter set jaws, practically revolutionized merchandising, more small businesses folded up, more people doing things they are not fitted to do, less tolerance, more money, more federal taxes, abridged liberty, and more unbridled license. A little blaze, when it becomes a conflagration, sweeps all before it.

Love, we are told, is blind... but it has a perfectly marvelous sense of touch.

## As A Farm Woman Thinks

By Nellie Witt Spikes

Nellie Witt Spikes January seems to have turned into a vast locker on the Plains. One feels like a piece of frozen meat every time outside work has to be done. It takes cold to kill bugs and worms, I feel pity for the pore critters. Old settlers tell that this is the kind of a winter they had to endure in early days when travel was made on horse back and in open buggies, their homes just almost as open except the dugouts. I suppose the young people of today will some day look back and tell what cold winters they had had in their youth.

The windmill has been out of fix ever since last week's cold spell. There is one satisfaction about being in the fixities. I do not have to help fix it. There was a time when I helped. My husband would get ready for me to put a wrench on the succor rod we had pulled out of its iron casing. Somehow I just could not make the wrench work. I turned it this way and that, my husband in a terrible strain. I never could understand much anyway about anything that looked like machinery. Finally the wrench held only to be as hard to get off. No wonder it is called a monkey wrench. Windmills will go on a long time, give no trouble but, when they do, look out for trouble and more trouble. You pull the succor rod, put on new leather, prayerfully let it down again into the well. Turn the mill loose, wait with growing anxiety for the pleasant sound of water pouring into the barrel which does not come. Get more help, pull the rod again and then begin on the long pipes. You wish you had not gone so deep for water, but had been content to stop at the second stream instead of the third you had always been so proud of because the water was so cold and abundant in supply. You find a hole in the pipe, or the cylinder has played out. A trip to town, another day's work on the mill. But when it is fixed and the water pouring forth one can go about other things and the mill will not trouble for a long time.

Have you heard about the worry cow? The worry cow might have lived till now. If she had saved her breath. But she was afraid the hay would not last all day. So she choked herself to death.

Mussolini made good roads in Africa, so did the dictators of old. But Paul and Peter walked over them preaching the love of God. Some day these roads made by a modern dictator will be used to carry messengers of God.

The kingdoms of earth go by. In purple and in gold, They rise, they flourish, and they die. And all their tale is told. One Kingdom only is Divine One banner triumphs still, Its King a servant, and its sign, A cross upon a hill.

Thought for the week by George Elliot: "I've been a great deal happier since I have given up thinking about what is easy and pleasant, and being discontented because I couldn't have my own will. Our life is deter-

(Issue of Jan. 24, 1929) The Water superintendent, members of the city council, and the volunteer fire department, were assisted yesterday in tests of the city's new American-La-France fire truck by W. E. Twitty, Chief of the Lubbock Fire Department.

## "Old Southern" Supper Given Club Members

Members of the 1934 Study club were entertained with a Southern supper January 19 at the home of Mrs. H. G. Barber with Mrs. Barber and Miss Marguerite Leonard as joint hostesses. To give a more realistic atmosphere of the old South, guests were greeted at the door by negro Mary.

Decorations and table appointments were in keeping with the southern theme with miniature negro mummies holding place cards for the guests.

The idea was further carried out in the program with Mrs. Walter Travis giving a review of the "Drivin' Woman" by Elizabeth Pickett Chevalier.

The Kentucky Blue-grass plateau along the Ohio are the scene of this love story of a Virginia belle and a river-boat gambler. As portrayed by Mrs. Travis the story retraced the rise of the tobacco industry, which was followed by the epic struggle between the farmers of the South and the powerful industrialists of the East.

Two vocal selections "Lindy Lou" and "Ring, Ring the Banjo" were given by Miss Joye Ward. "Carry Me Back to Old Virginia" was sung by the group.

During the business session four new members were voted into the club. They were Miss Emma Lou McKinney, Mrs. J. P. Moss, Mrs. J. W. Kinard and Miss Jewel Lucez.

Those attending were Mrs. Jason Gordon, Miss Edith Wilson, Miss Louie Comer, Miss Sappho Ward, Miss Luzelle Bryan, Mrs. Floyd Murray, Mrs. Walter Travis, Mrs. Homer A. Poole, Mrs. W. B. Harris, Mrs. Laurie Carlisle, Mrs. Virgie Shaw, Mrs. J. W. Clonts, Miss Margaret Stuart, Miss Ann Swepton, Miss Emma Louise Smith, Miss Rita Rhodes, and Miss Joye Ward.

The club will meet February 2 at 6:45 o'clock with Miss Sappho Ward.

## Woman's Society Of Baker Met With Mrs. Stiles

The Woman's Society of Christian service of the Baker community met Monday afternoon at the home of Mrs. George Stiles. Mrs. W. H. Nelson, president, directed the business meeting.

Mrs. Stiles was leader of the program, assisted by Mrs. W. H. Bethel, Mrs. W. H. Nelson and Mrs. C. A. Hartley.

The society will meet in all-day session Monday, February 8, at the home of Mrs. W. H. Bethel. The morning program will begin at 10:30 o'clock. A covered dish luncheon will be served at noon.

The Bible study "Will a Man Rob God?" will be begun in the afternoon meeting.

**Mrs. Maurice Campbell, of Amarillo, a recent bride, was Miss Leona Peck before her marriage New Year's Eve.** Before going to Amarillo a short time ago she was employed for two years as secretary in the local office of the Farm Security Administration. ## 1942 Was Banner Year In Paying Debts On Land

HOUSTON, Jan. —The year 1942 was a banner year for Texas farmers and ranchmen in paying off debts, declared President Sterling C. Evans of the Federal Land Bank of Houston in connection with the bank's annual statement.

A total of 9,835 land bank and commissioner loans were paid off in full during 1942. "During the year," he said, "land bank and commissioner loans outstanding in Texas decreased from \$225,634,583 to \$206,437,302. This net decrease was despite the fact that approximately \$12,000,000 in new loans were closed."

"Future Payment Funds," created to provide a way member-borrowers can pay in advance on their loans, now total \$2,126,000 the year-end report reveals. Future payment funds draw interest at the same rate charged on the loans. In addition to this cushion, member-borrowers are accumulating reserves in War Bonds to make their future secure, Mr. Evans said.

Rev. C. A. Hartley of the Methodist circuit and Mr. and Mrs. Jim Wilson of the First Methodist church are expected home this mid-week from Dallas where they attended the annual Fonden lectures held at S. M. U.

Included in the program this year are lectures by Dr. Ralph W. Sockman, pastor of Christ church Methodist, New York City; Henry Sloane Coffin, president of Union Theological seminary, New York; and Dr. C. J. Harrell, author of "The Bible, Its Origin and Growth," and "Prophecies of Israel."

## Center Club Given Pointers On Home Cleaning Monday

In the absence of Mrs. W. B. Jordan, Mrs. J. B. Jordan gave the home cleaning demonstration for the Center Home Demonstration club meeting which was held Monday at the home of Mrs. A. W. Anderson.

The meeting was opened with the members repeating the club prayer. Mrs. J. B. Jordan was named parliamentarian. Mrs. Mayfield expressed her thanks to the club for the lovely bedspread which had been presented to her by the club in appreciation for her faithful service and regular attendance at the past year.

High points of the demonstration as given by Mrs. Jordan were as follows: Be sure materials are washable and use mild soap, preferably soap powder or flakes. Press before thoroughly dry.

In dry cleaning use Naptha. If it is to be warmed, use hot iron in pan of lapha or set in pan of hot water. Do not rub but squeeze gently but briskly. Roll in towel or old sheet, a ply under and over garment. Shake out and hang on hanger in air, preferably in the shade. Press while slightly damp on wrong side.

Clean before garment is too badly soiled. These are only the high points in the operation.

The club report was given and the new club books were filled out.

Refreshments of delicious mince meat cake and cocoa were served to Mrs. Clyde Bagwell, Mrs. C. J. McClure, Mrs. O. G. Mayfield, Mrs. Tom Jernigan, Mrs. J. B. Jordan, Mrs. Oliver Allen and the hostess, Mrs. Anderson.

### PROPERTY EXCHANGE

W. T. Robertson recently purchased the 100 acre farm from Paul Murff. The land located one and one-half miles east of Floydada. The land is commonly known as the Long place.

Mr. Robertson's father, who is 91 years of age will make his home with his son. The Robertson's are moving this week.

## Study Poultry At Meetings Held At McCoy

An extensive ten-day education program for poultry raisers, to help the farmers in the war effort to produce and conserve more food, was begun in the McCoy community January 18 and will be concluded tomorrow night. The meetings have been under the supervision of H. G. Barber, agricultural teacher of Floydada High school. The meetings have been well attended and much interest has been manifested.

Mr. Barber has been assisted by County Agent, Jason O. Gordon, Floyd Fuqua, successful poultryman and Miss Edith Wilson, Home Demonstration agent.

On tonight's program which will be held at the McCoy school, Miss Wilson will discuss "More Eggs and Less Meat." Mr. Fuqua will conclude the program tomorrow night with a talk on "Poultry Records."

In addition to the program at McCoy there have been two hog killing demonstrations in two other communities. The first one was held at the home of W. F. Ferguson in the Starkey community two weeks ago. At that time six hogs were butchered and twenty-one attended the demonstration. The second demonstration was held in the Sand Hill community at the home of L. A. Marshall Wednesday.

The first week's program held at McCoy was as follows: Monday "The Poultry Outlook for 1943," H. G. Barber; Tuesday, "The Outlook and Poultry Problems," H. G. Barber; Wednesday, "Culling Hens for Egg Production," H. G. Barber; Thursday, "Caring for Baby Chicks," U. S. D. A. Film, presented by Mr. Barber; Friday, "Poultry Parasites," U. S. D. A. Film, presented by Mr. Barber.

This week's program was observed as follows: Monday, "Poultry Diseases" was discussed by Floyd Fuqua; Tuesday, "Feeding the Laying Flock" was discussed by H. G. Barber; Wednesday, "Housing and Ventilation," County Agent, Jason O. Gordon.

### PEGGY WEEKS EMPLOYED AT ARWINE DRUG COMPANY

Miss Peggy Weeks of Lockney accepted employment with the Arwine Drug company and started work Wednesday as clerk. She accepted the place made vacant by the resignation of Miss Tella Jo Smart who will start work in the Floyd County Agricultural offices the first of February.

Miss Edna Sullivan of Chicago who spent the past month here with her sister, Mrs. C. M. Thacker and Dr. Thacker, left Sunday for her home. Dr. and Mrs. Thacker accompanied her to Amarillo and spent the day visiting their daughter, Mary Lee, a student of St. Mary's Academy.

Tommy Griffin, who has been employed with Swift & company at Lubbock, has returned home to spend a few days vacation with his parents, Mr. and Mrs. Ed Griffin.

Miss Imogene Roy came Monday night for a visit with her parents, Mr. and Mrs. J. E. Roy. She is employed with the Consolidated Aircraft corporation at San Diego, California.

Mrs. Nora Cox and Mrs. T. W. Young of Amarillo spent Saturday night and Sunday with their brother, L. T. Bishop and family.

Miss Louella Ewing, daughter of Mr. and Mrs. S. W. Ewing is reported slightly improved following an attack of the flu.

Mrs. Tucker Teutsch and little son Tucker Burton of Dumas, spent the week end with her mother, Mrs. E. F. Stovall.

## Brotherhood Annual Dinner Held Wed.

Sixty-five, including members and several invited guests attended the annual Brotherhood dinner, sponsored by the Self Starter Sunday School class of the First Christian church Wednesday evening of last week at Fellowship hall. Mrs. W. Edd Brown is teacher of the class. "Humanity Hungers" was the theme of the occasion and the subject of a very stirring talk given by Rev. L. W. Bridges, pastor of the church and master of ceremonies for the evening.

Those attending were reminded by the speaker that Christian churches around the world were gathered around their tables in similar manner. "We should remember," he said, "to share with others in both physical and spiritual ways."

Preceding the program a bountiful turkey dinner was served including two large baby beef turkeys furnished for the occasion by Mr. and Mrs. Harry Morckel. Other food was prepared by the individual members.

The recreation period was directed by Mr. and Mrs. Walter Travis. Mr. and Mrs. W. R. Simon and daughters Phyllis Jean and Geraldine and son Charles Ray of Dimmitt, former members of the church were present for the occasion.

Mrs. Bob Starks of Rising Star is here visiting her sister, Mrs. R. D. Cox. While here she visited in the home of her friends, Mrs. Tobie Pittman, Mrs. S. W. Ewing and Mrs. Will Hulsey.

### FACTS AND FIGURES

Says the W. P. B.: The steel in a single average-size lawn mower is about enough to make one 100-pound bomb—An average miner will produce about 180 tons of coal every six weeks, which would supply enough energy to move a 20-car troop train from New York to San Francisco.—It takes 40,000 tons of coal to provide the power required to fabricate the steel for a 35,000-ton battleship, or a complete day's output for more than 6,700 miners—Russia is a nation of young people, according to a study by the Smithsonian Institution. More than 45 per cent of its almost 200,000,000 people are under 19 years of age.—If the whole world's stock of radium were tied up in one bundle, it would make only a two-pound package—but worth \$18,000,000.—Industrial eye accidents during 1941 are estimated to have cost 9,500,000 man-days of work, or enough to build 17 destroyers.

## SAVE YOUR SPOOLS

### From Used Typewriter and Adding Machine Ribbons

In view of the fact that Typewriter and Adding Machine Ribbons are now on Priority Purchase Lists, it is highly desirable that you save spools to turn in when you buy a ribbon from your dealer.

### We have a Reasonably Ample Supply of Ribbons at This Time

And have not been advised that shortage of this kind of supplies for the office exists.

### However, Manufacturers and Wholesale Distributors do advise us that unless ribbon orders are accompanied by empty spools, spool for spool, orders may not be filled.

Co-operation of our customers during the emergency has been deeply gratifying, and we want you to know that we appreciate your thoughtfulness.

Please keep it in mind—do not throw old adding machine and typewriter ribbons away, but save them to turn in when you ask for a new ribbon.

## ENGLISH SALVAGE BITS OF PAPER

The paper shortage in England has reached the stage where wasting paper of any kind is now a criminal offense. An interesting footnote on this shortage is an item which appeared recently in the English newspaper.

"The post office, in its search for paper for pulping, saves the tiny pieces punched out when stamps are perforated. 'Such tiny pieces of paper may seem useless,' said a post office official, 'but when we are printing over 7,000,000,000 stamps a year they make a large amount of scrap. Over ten tons of these minute bits have been sent away recently to be pulped. They are picked up from the perforating machine by vacuum and automatically bagged.'"

### MARS DRIVES HARD

"Scientific research does not proceed by fits and starts, nor is there any royal road to results," says Dr. E. C. Aughtier of the U. S. Department of Agriculture who is Administrator of the Agricultural Research Administration. "Results depend on the orderly, continuous accumulation of facts and the discovery of relationships between them. In a crisis, this accumulated knowledge, together with the technical skill by which it is developed, becomes a war chest of great value. Properly mobilized, it can be turned to the solution of emergency problems as fast as is permitted by scientific techniques."

"Processes and products developed for war needs will, of course, in many cases be useful long after the war is over. Even more significant, however, is the hard-driving, co-ordinated approach to scientific and technological problems developed by the war. Applied to peacetime problems, that approach can do much to further the building of a better world."

## Daily Devotional Books Offered At Local Newsstands

"The Upper Room," a small booklet published by International publishing houses of the nation, are being placed at news stands in Floydada where they will be offered free to anyone who will take them. The books are bought and donated by the Floydada Ministerial association that is composed of ministers of Floydada churches.

The association met Tuesday night at the First Methodist church to perfect plans and make arrangements for the donation of the books. The public is urged to take the books and read them, Rev. P. H. Gates, president of the association, said Wednesday.

The Upper Room contains daily devotional lessons, comments, short programs and prayers suitable for daily readings. "We want the people to feel free to call for the books at the local stands," Rev. Gates said.

We've noticed that some people know a lot more when you try to tell them something than when you ask them something.

Farming is the principal activity of the Prison system of Texas, with more than 45,000 acres in cultivation. It also includes cotton mills, brick plants, canning and other food-stuff factories, print shop, shoe shop, and a plant which manufactures all auto license plates distributed by the State Highway department.

Control of public education in Texas is vested primarily in local administrative units, consisting of approximately 998 independent and 5,381 common school districts.

In Oakland, Calif., 200 women were sworn in to serve as policemen in case of emergency. If nothing else they'll arrest attention.

According to Deputy Petroleum Administrator Ralph K. Davies, the 24 hour day alternative would permit so-called truck stations to serve common carrier trucks and other T-Card holders.

Other provisions of the order:

All service stations must post opening and closing hours in a conspicuous place.

If a dealer elects to operate for 72 hours a week, he must serve all customers for no more than a total of 12 hours in any one day. The 12 hours may not be divided into units of less than two consecutive hours. If a dealer elects to remain open 24 hours a day, he must serve all customers for 12 consecutive hours six days of the week. Only T card holders may be served during the remaining period. Davies said the 12-hour-a-day provision was intended to enable service station operators to reduce operating cost at a time of decreasing business.

CREDIT CARD USE RESTRICTED

In another move of interest to gasoline dealers, Ickes announced today that Petroleum Directive No. 62, which restricts the use of credit cards, has been amended, effective Feb. 1. Under the amendment, retail gasoline marketers or suppliers may not "grant, or accept, directly or indirectly, of credit in connection with the sale of any petroleum product."

Exception to the granting of credit are: Federal, state or local government; commercial use of motor boats, and motor vehicles displaying "T" ration stickers.

Dealers' coupon or script books may be used only when sold for cash.

## J. W. Smith, Aged Fairmount Man Died Last Week

Quitaque, Texas, January 21.—Funeral services were held at 3 o'clock Wednesday afternoon at the home in Fairmount community for J. W. Smith, who died early Monday morning at the Plainview sanitarium. He was 88 years, 11 months and 20 days old, and would have been 89 on Jan. 28.

The service was conducted by Mr. Lindsey of Plainview. Interment was in a private family burial plot near the home where his wife is buried, under direction of Hardcastle Funeral Home.

Pall bearers were Elmer Tibbetts, Bill Welch, Henry Welch, Ruel Cates, Ira Tiffin and Olen Simpson. Flower bearers were Miss Bessie Bell Smith, Miss Joy Smith, Mrs. Floyd Smith, Jr., and Miss Ruth Skinner.

John Washington Smith was born January 28, 1854 and died January 18, 1943. He settled in Floyd county in 1891 where for a number of years he was employed on the F ranch.

On November 18, 1877 he was married to Miss Mattie Halbert Crawford who preceded him in death January 16, 1891. To this union 11 children were born, seven sons and four daughters of whom four sons and two daughters survive. He also is survived by twenty-three grandchildren and nine great grandchildren.

## Robt. Malone Died Last Week Age Of 93

PLAINVIEW, Jan. 25—Burial rites for Robert C. Malone, 93 years old, pioneer West Texas cotton grower, were held at 3 o'clock Sunday afternoon at the Abilene First Baptist church.

Malone died at the home of a daughter, Mrs. A. L. Putman, of Plainview, Saturday morning. He had been seriously ill the past three weeks.

At one time, Malone, who resided at Abilene 52 years, operated gins in 22 towns from Cisco west to the Plains. He retired in 1929, but was in good health and active until he was injured in a fall two years ago.

He had been a member of the Baptist Church 73 years, for more than 50 years at Abilene.

Dr. Millard Jenkins, Malone's pastor for the past 35 years officiated in the funeral services. Malone was the last of a family of eleven children. He was a lifelong member of the Abilene Masonic Lodge.

Malone led an active life for almost three-quarters of a century. Moving from Georgia to Mount Vernon, Texas, in 1872. At Abilene in 1892 he established his first gin.

**Built Many Gin Plants**

From the time he started his first gin until he retired almost 30 years later, Malone kept his business abreast of the westward advancement of cotton farming with installation of gins. In 1911 he built a gin here, the only one in Plainview at the time.

Malone was interested in the first electric plant in Plainview, the plant being operated by his sons, and serving Lockney, Hale Center, Abernathy and Plainview. The utilities plant which in Plainview was combined with an ice manufacturing unit was sold in 1916 to what is now the Southwestern Public Service Company.

Survivors are the following children: Mrs. W. E. Harvey, Ballinger; Mrs. O. P. Senquefield, Harrison, Ga.; Mrs. A. L. Putman, Charles A. Malone and Robert M. Malone, all of Plainview.

## On The Farm & Home Front

JASON O. GORDON  
County Agricultural Agent

EDITH L. WILSON  
Home Demonstration Agent  
Texas A. & M. College Extension Service

The United States Department of Agriculture reports that cattle grubs rob farmers of \$50,000,000 every year.

Uncle Sam is calling on farmers and ranchmen to open up a new home front and stamp out the heel fly which causes the cattle grub. The only way to do the job is to fight the grub with recognized killing materials that have proven satisfactory.

More milk, meat, and leather are needed in 1943. An experiment conducted in the state of Wisconsin revealed 33 1-3% more milk from dairy cattle controlling grubs—Texas stations show that it takes from 15% to 20% more feed to finish "grubby" steers—cattle grubs destroy enough leather to equip one million marching men.

At this season of the year when baby chicks are being purchased it is well to caution against overcrowding the brooder house.

Poultry troubles usually start with the brooder because we buy just a few more chicks in order to raise more laying hens.

Two chicks per square foot is recommended. Example: 12x12 house, 144 square feet, 288 chicks. You can crowd in more chicks than that but you can look forward to uneven growth, colds, cannibalism, and pullet mortality.

Don't be the poultryman to get in trouble by buying more chicks than your brooder will accommodate at one time. It will be wise to order two groups of chicks.

The Victory Demonstration will be the 4-H club program in the county this year. Method demonstrations have been conducted this month showing the proper method of sharpening and caring for kitchen knives.

A total of 189 boys and girls have signed the Victory Demonstrators' Pledge, and expect to live up that pledge for the duration.

## Pinner Funeral Rites Held Last Week At Lockney

Funeral rites for Coy E. Pinner, 67, were held at the Lockney Methodist church Tuesday afternoon, January 12, conducted by Rev. A. A. Bryan. He died January 11, at the home of his daughter, Mrs. Jewel Rexrode, who resides 15 miles northeast of Lockney.

Ten children survive their father. All were present for the funeral. They are Harvey Lee Pinner, Abilene; Miss May Pinner, Levelland; Fay Pinner, Lockney; Cecil Pinner, Lockney; Mrs. Rexrode, Lockney; Ray of Petersburg, Jim and Joe Pinner of the U. S. Armed forces stationed at Pampa; Mrs. Newt Ritchey, Albuquerque, New Mexico and Alvin Pinner of Levelland.

Interment was made in the Lockney cemetery under the direction of the Crager Funeral Home attendants.

## KEITH TYE, HAM SMITH JUNIOR AT NTSTC HAVE MAJOR ROLES IN ACTIVITIES

DENTON, Texas, Jan. 23.—Keith Tye and Ham Smith of Floydada were recently elected secretary-treasurer and vice-president, respectively, of the "Talon" fraternity for the 1943 spring semester at North Texas State Teachers College.

Tye, junior student, is majoring in government at NTSTC. Son of W. O. Tye, 130 Jeffie, Floydada. Tye is editor of the sports section in the college annual and is sports writer for the campus paper.

Also a junior, Smith, son of W. H. Smith, is majoring in physical education. He is active in NTSTC sport events, being member of the football, basketball, and track teams.

Mr. and Mrs. D. A. Peek and daughter Glenna Faye of Amarillo, were guests of Mrs. Peek's sisters, Mrs. Tom Holt and Mrs. Clarence Leatherman and their families Thursday and Friday.

Kenneth Hodge and Joe Wilson returned Saturday from San Antonio, where they spent several days with Mr. Wilson's brother, Winifred Wilson who is employed in defense work.

Pvt. Johnny McCleskey, a member of the army air ground forces, was transferred recently from the Lubbock Flying school to Sheppard field, where he is now attending school.

Mr. and Mrs. R. E. Keniston and Mr. and Mrs. M. J. Keniston of Plainview visited their daughter and sister, Mrs. G. L. Kirk, and family, Sunday.

Mrs. J. C. Odum and daughters Virginia and Mary Ann and Mr. and Mrs. O. E. Poore and children of Amarillo, spent the week end with Mr. and Mrs. J. H. Poore.

Mrs. Lula Moore left last week for San Diego, California, where she will visit for an indefinite with her daughters, Miss Maudine Moore, and Mrs. Norvell Rainer.

Miss Lillie Solomon who was quite ill during the past week following a severe attack of flu is reported to be recuperating satisfactorily.

Mr. and Mrs. I. D. Holligan of Lockney were guests of Mr. and Mrs. Oran Self Friday.

Yard Improvement is the other demonstration to be worked on in the women's club during 1943. There will be a yard improvement demonstrator in each club. The demonstrators and the clubs they represent are as follows: Mrs. P. F. Bertrand, Homebuilders; Mrs. Ema Bortz, Providence; Mrs. S. A. Cummings, Sand Hill; Mrs. J. H. Davidson, Sterley; Mrs. Robert Day, McCoy; Mrs. Menard Field, South Plains; Mrs. Hubert Frizzell, Lone Star; Mrs. Claude Harris, Pleasant Valley; Mrs. Mal Jarboe, Fairview and Campbell; Mrs. Sam Lide, Dougherty; Mrs. H. B. Mankins, Center; Mrs. Everett Miller, Harmony; Mrs. W. C. Sims, Sunnyside; Mrs. George Stiles, Baker; and Mrs. Luther Wofford, Lockney.

Each demonstrator will make a landscape plan which will be carried out during the year. The plan will include foundation plantings, walks, screen plantings, and wherever practical a windbreak as windbreaks protect shrubs and flowers about the homestead. The wind often mars the beauty of shrubs by distorting their shape and destroying their blooms. In addition to this, plants are hindered in growth or may be killed by the wind. A combination of trees or shrubs well adapted should be planted for a windbreak. Among those which have been used successfully for this purpose are desert willow, tamarix, or salt cedar, native pine, lilac and fruit trees. The Chinese elm is a favorite because of its rapid growth.

Take good care of your iron because you probably won't be able to get another one. In disconnecting the cord take the plug out of the wall first. Never pull on the cord to disconnect it as strain on the cord may loosen wires from their connection. Care should be taken to not bend the cord sharply. It should be coiled or loosely hung. Avoid touching the cord with the hot iron as this injures the cord.

To remove starch spots from the iron use a cloth rung from soap suds. If this doesn't work, try mild scouring powder. If a pinch of salt is added to the starch it helps keep the starched clothes from sticking to the iron.

## Africa Prettier And More Modern Than He Thought

(Editor's note: The following letter was written from Pfc. Clayton D. Cumble son of Mr. and Mrs. C. A. Cumble to his sister Mrs. Lockie Hood. It gives another Floyd County soldier's viewpoint.)

Somewhere in Africa, January 7, 1943

Dear Sister:— It has been quite a while since you have heard from me but I'm sure you understand the situation. I have thought of you often since I've been away and I'm sure you have thought of me. I am getting along just fine and hope you are too.

All I can tell you is that I am somewhere in Africa. It is much more beautiful here than I thought it would be and also more modern but of course it is lacking in many ways.

Our food here has been fair, some days good and some days not so good but anyway it serves the purpose, whether it suits us or not.

Did you have a nice Christmas? Ours was not so good, although our food was better than ordinary. Thanks for the billfold. It was my only present from home and I value it highly. We, the members of my squadron, got Christmas presents yesterday. I got envelopes, paper, shaving cream, matches, cigarettes, sewing kit and a pencil. Not bad! I really was glad to get them, not that I really needed any of them.

## Windows On New Worlds

Hair-splitting is no longer a joke with the new electron microscope, which makes visible a whole world that has previously been too small for scientists to study.

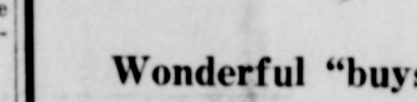

1. Using particles of electricity instead of light, the instrument makes a mosquito's stinger, 1/1000 the diameter of a hair, look like this.

2. Crystals, dust particles, disease-producing viruses can be enlarged to a million times to examine their nature and structure.

3. Portable, operating from ordinary power lines, it is expected to speed war research in laboratories of colleges and war plants.

4. After the war, it may be useful in many fields—for example, in searching for the cause of such diseases as the common cold.

### Brown Warns Users Of Coffee Stamp Deadline Feb. 5

Registration of institutional users for their February allotment of Coffee began on January 15 and will end on February 5, W. Edd Brown, Chairman of the Floyd County War Price and Rationing Board, reminded cafes and other institutional users today.

At the same time, Mr. Brown pointed out that with this registration of institutional users with the Floyd County War Price and Rationing Board, the allotment period for coffee will become one month for such institutional users, instead of two months as in the past. Thus, all institutional users will receive allotments for the month of February only.

"The February allotment percentage will be only 40 per cent of the base," Mr. Brown explained. "For example, if an institution used 400 pounds of coffee in September and 400 pounds in October, 1942, the base would be 800 pounds; and using that total as a base, the allotment for February would be 40 per cent of 800 pounds, or 320 pounds."

Another amendment to the Coffee Rationing Regulations also has

changed the basis for allotments for institutional users who were not in operation between September 1, 1942 and November 21, 1942. This basis has been decreased from one pound of roasted coffee for every 60 meals served to one pound of coffee for every 100 meals served.

"Coffee stamp No. 27 expired, so far as consumers are concerned, on January 3rd. Retailers had until January 13 to exchange the No. 27 stamps they had taken in from customers for stock replacement certificates. In a few instances, where replacement supplies of coffee were not available, the board still can issue an exchange certificate. Wholesalers have until January 23rd to make this exchange."

#### BEGIN NEW BIBLE STUDY AT MEETING MONDAY

The Women's Society of Christian service began a new Bible study Monday afternoon, entitled "Our Times or What Does Our Bible Say?" The meeting was held at the church with Mrs. P. H. Gates conducting the lesson.

The study will be continued when the society meets January 31 at 3 o'clock at the church. Mrs. Gates also will teach the second lesson.

Mr. and Mrs. A. T. Matsler of Plainview were guests of their son Leonard Matsler and family Sunday.

Rev. and Mrs. W. S. Whorton of the McCoy community moved this week to White Deer, Texas.

#### ENROLLS AT N. T. S. C.

Glenn Wallace Norman, who has been a student of Cameron College for the past year and one-half, this week transferred to North Texas State college, Denton, where his brother, Leeman is also a student.

He spent three weeks here with his parents visiting between semesters of the two colleges, leaving Floydada Monday morning.

Mrs. Sam Thurmon is able to be out this week after an illness of several days last week.

#### CHILD INJURES EYE WHILE PLAYING WITH SCISSORS

Larry Lane White, four-year-old son of Mrs. Mary Helen White, received a painful injury last week when he struck himself in the left eye with a pair of scissors.

The child was carried to Amarillo Friday where he underwent an examination and treatment for the injured eye. Examination disclosed that the child's eyesight will probably be impaired.

Miss Bobbe Muncy accompanied Mrs. White and sons to Amarillo.
