

## Pioneer Reunion Plans All Made; Date Is May 28

Come Friday a week and the pioneers of Floyd county will have their day. It marks the fifty-third anniversary of Floyd county and has been observed as a day of get-together by the early-day settlers for many years. The date is May 28.

Irvin Bennett, president of the association this year, has presided at two conferences of the old settlers' planning committees, and reports made to these meetings indicate all preparations have been or are being made.

In addition to the program of speech-making and the big dinner for the elders among the old-timers at high noon, features particularly interesting to horsemen are slated to take place. Among these is the parade in the forenoon, in which horsemen are asked to show off their fine horseflesh, along with the floats of old-timers, businesses of the communities, and various clubs.

The Old-Timer Tournament  
The old-timers are reaching far back into the old days to revive once more the ring tournament in which the competing riders use a staff while riding at full speed to impale rings suspended from poles on a track. Speed and accuracy determine the winners. Several other contests of horsemanship are being planned.

Other usual features of the old settlers annual get together will be observed, including the memorial for deceased pioneers and the square dance to begin late in the afternoon.

## Defense Guard Re-Named Texas State Guard

It is Company G, 39th battalion, Texas State guard now, not Texas Defense guard.

While the official change has not come down to the Officers of Floydada's defense unit, the new name is the law now, the measure having been signed by Governor Stevenson after passage by the legislature.

Company G Tuesday night had a special visitor in the person of their battalion commander, Major A. C. Jackson of Lubbock, and commissioned officers of the local unit attended a conference of officers in Lubbock last night.

This morning it was announced that all units of the 39th battalion will engage in maneuvers at MacKenzie State park on May 29 and 30. Harry Moreck reminds all members of the unit here to make their preparations to take part, if at all possible.

## Special Session District Court For May 31

District Judge Alton B. Chapman this week called a special session of District Court for Floyd county to make disposition of a partition suit in which Edgar Smith and others are plaintiffs and Floyd Smith defendant.

Property to be partitioned is that of the estate of the late John W. Smith of Flomot, who died on January 18 and whose will has been filed and probated in this county. In the will Tom W. Deen, A. B. Clark and R. C. Scott were named independent executors.

## Contract P. O. Quarters For 5 More Years

With considerable improvement and repair under way or contemplated, the renewal of the lease for the Martin building for post office quarters in Floydada for another five years has been approved, Mrs. Barbara H. Smith, postmaster, said this week.

## Local Needs Determining Factor For Floyd County Participation In New Farm Labor Program

Local needs will determine Floyd County's participation in a new farm labor program aimed at reducing the manpower shortage which threatens success of the 1943 food production program, County Agricultural Agent Jason O. Gordon said following his return from a conference held May 17 and 18 at Amarillo. Edith L. Wilson, County Home Demonstration Agent, also attended the meeting.

County plans for registration and placement of farm labor will be worked out by local farm men and women who are members of the County Agricultural Victory Council, Gordon said. Members of the council's executive and labor sub-committees will be called in to discuss the new program Saturday afternoon, May 22.

At the Amarillo conference, county workers of the Texas A. and M. College Extension Service learned that the college recently had agreed to accept supervision of the program upon the request of Chester C. Davis, War Food administrator. Funds for conducting the program in Texas will be apportioned to the college under legislation recently enacted by the 78th Congress. The agreement between the Texas A. and M. College Extension Service and the office of the National Food Administration related only to the recruiting and placement of farm labor within the state and the various counties and does not apply to the movement of farm labor across international boundaries or state lines.

Help Prevent Waste  
"We realize that farmers and ranchers in Texas will not be able to obtain the quantity and quality of labor to which they are accustomed, but we hope to be able to help them get enough workers to prevent the wasting of crops in the field and the dispersal of livestock," the county agricultural agent said.

In some counties where the need justifies and it is desired by the farmers, town and city boys and girls known as Victory Farm volunteers will be recruited and trained for emergency work on the farms. Many rural schools already have adjusted their schedules to free school children for work in the critical periods. In a few counties in Texas where farm labor situation is very serious, there may be organized local battalions of the Women's Land Army, the agents learned. In the nation as a whole, recruiting of a U. S. Crop corps of 3,500,000 workers for full-time, seasonal or temporary farm work is contemplated.

Gordon quoted Lt. Col. Jay L. Taylor, Texas rancher and deputy War Food administrator, as saying that "Ninety-nine per cent of this program will be carried on in the state and county and one per cent in Washington."

"The long hours and hard work of families now on Texas farm and ranches indicate their patriotism," local Extension workers said, "and the Texas A. and M. College Extension Service accepts its new wartime assignment with the hope that it may bring some measure of relief to the people who are working to produce more food and feed than ever before."

## County And State School Funds To Be Apportioned

A \$1.00 scholastic apportionment was received by County Superintendent Clarence Guffee this week, with a balance of \$1.00 yet to come from the state.

This makes a total of \$21.50 received today Supt. Guffee said. Also on Friday of last week \$4,154.50 or \$1.75 per capita was received from the county permanent school fund. This amount was deposited in the First National bank to the credit of the various schools of the county.

## WILLSONS IN ST. LOUIS; ATTENDING ROTARY MEET

Mr. and Mrs. J. M. Willson are in St. Louis this week where they are attending the sessions of Rotary International. Mr. Willson being there in an official capacity from Texas.

Before their return home the Willsons will make a brief trip to New York City.

## Judge, Mrs. Deen Are Home From State Capital

Judge and Mrs. Tom W. Deen returned home last week-end following the adjournment of the legislature at Austin. The representatives of the 120th district had been in the state capital since the first of the year.

Probably most interesting day of the session in the House where Judge Deen served, was the last day, when the clock was turned back repeatedly to permit the House to finish its job. Deadlocks on various issues, including enforcement of whiskey laws and old age assistance regulations, made the session last all night and until 10 o'clock the next morning after adjournment, the clock being turned back to make the actions taken be included in the final "day."

## OAA Meeting Called For Saturday 2 P. M.

A meeting of the Old Age Assistance Association has been called for Saturday, May 22 at 2 o'clock at the district court room, according to an announcement made this week by T. G. Black, chairman. Representative Tom W. Deen, who has just returned from Austin, will address the meeting.

## SEAMAN SANFORD SHAW TO RESUME ACTIVE DUTY FOLLOWING VISIT HERE

Seaman Sanford Shaw, third class gunner, will return to the west coast this week to resume his duties following a furlough visit at Dumas with his wife and at Floydada with his parents, Mr. and Mrs. W. A. Shaw. His wife accompanied him to Floydada.

On Wednesday of last week Seaman Shaw and Mrs. Shaw were honored at a dinner given by his sister, Mrs. Jno. Austin and Mr. Austin of Lubbock.

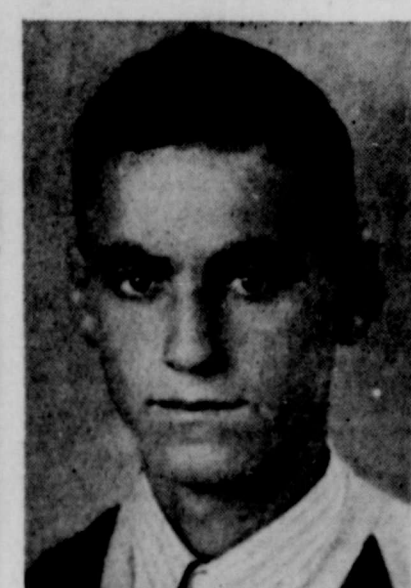

Those from Floydada attending besides the honorees were his parents, Mr. and Mrs. W. A. Shaw, Mrs. Virgle Shaw and Mrs. Glee Thomas.

## JOHNNIE MAE WILSON SOCIETY EDITOR OF "THE BELLS" AT MARY HARDIN-BAYLOR

Johnnie Mae Wilson, daughter of Mr. and Mrs. J. T. Wilson, Lockney, a freshman student at Mary Hardin-Baylor college, Belton, has been elected as Society Editor of "The Bells," the college weekly newspaper, for the 1943-44 semester. She served as reporter on the staff this year.

Miss Wilson, a journalism major was a member of the reception committee for the dinner given for Col. Oleta Culp Hobby, director of the WAAC, by the college. She has been elected reporter of her class and Young Women's Auxiliary for next year. She was vice president of the Ann Bagby Train-Maize union, and will be secretary of the union next year. She is a graduate of Floydada High school.

## Honor Students 1942-43 Graduating Class

Lead Big Class . . . These three members of the Floydada High School graduating class of school year 1942-43 have been named honor students, with highest scholastic rating, based on two-year average. They are LaJuana Leibfried (left), James Robertson, and Mary Helen Mickey (right). See story of closing of school year and other events in The Hesperette as presented by a staff of high school students.

## Basic Regulations Remain The Same, But Local Board Issuing New Cards For Registrants In Age, Dependency And Employment Groups

Due to recent changes in Selective Service regulations, it is necessary that the Local Board re-classify a large percent of registrants who have been in deferred classes since their original registration, and the following explanation is made with the intention of clarifying the different classification cards that are being mailed as rapidly as the Board clerk can get through the files:

Married men with child or children, with whom they are maintaining a home, are to be classified or retained in Class III-A, Dependency class, unless they are farming, in which case they are to be classified in Class III-C. If they are past the age of 38, they will have the letter "H" added to their classification, indicating that they are in an age group that the Armed forces have indicated they do not want considered for induction until such time as they might change their requirements.

Married men without children, unless they are engaged in farming, or some other occupation recognized as essential to the War effort, are to be classified in Class I-A. If they are in the age group 38 to 44 inclusive; if they are past the age of 38, they also have the letter "H" added to their classification, indicating they would be considered as available for Call if they were physically qualified, when the Army indicated they would accept men of that age group.

Married men without children, who are actively engaged in farming, if their farm production is sufficient to justify, are being classified in Class III-C, and will be retained in that classification so long as they are necessary. If they are not engaged in farming, and their occupation is not one that is absolutely essential to the war effort, and they are not key men in that occupation, they are to be called for physical examination, and possible I-A classification, if they have not past their 38 birthday.

Following is a complete list of classifications, as they were originally established, with very few changes, and as they are being followed today:

Class I-A—Available for Service; Class I-A-O—Available for non-combatant service, but opposed to combatant service; Class I-C—Member of the Land or Naval Forces (In this class are all men placed after their induction in some branch of the Service); Class II-A—Man deferred because he is necessary to civilian activity. This deferment is for not to exceed six months, to give his employer time to train a replacement, or the man time to replace himself, if self-employed; Class II-B—Man necessary to War Production. This deferment is also for not to exceed six months, and the man must be a "key" man, essential to the operation of the industry; Class II-C—Single man with dependents, engaged in farming, and essential to the operation of a farm that is producing the necessary number of units of farm products; Class III-A—Man with child or children, with whom he maintains a home; Class III-B—Man deferred by reason of dependency and engaged in farming; Class III-D—Man deferred by reason of dependency and engaged in farming (See REGULATIONS, back page)

## Alfalfa Cutting, First Of Year, Yield Is Good

Reports from the early alfalfa cuttings indicate that the first crop is not a tall one but that it is well-leaved and of good quality. Several farms in the irrigation area cut before the rains and most of them saved the crop. Others will begin their first cutting this year, or as soon as the ground dries sufficiently. Much or most of this first crops being sold in bulk.

## Bob H. Sisson Receives Commission As Lieutenant

Bob H. Sisson, son of J. D. Sisson received his wings and commission as second Lieutenant in the Air Corps last week at Waco, where he has been stationed for the past several months. Following his graduation he was granted a 10-day leave but got to spend only 36 hours here with relatives when he received orders to report for service immediately at Tucson, Arizona.

Lieutenant Sisson was reared in Floydada and was graduated from the Floydada High school and later from West Texas State college, Canyon.

During his short stay here he visited his father, J. D. Sisson, his brother, Bill Sisson and his two sisters, Mrs. W. H. Jackson and Mrs. Bonnie Schultz.

## Wet Cold Ground Halts Farming In Area For A Week

Weather conditions for planting and for growing crops already in the ground unfavorable during practically the entire week, have been ideal for the development of the small grain crops. Farmers and dealers report this week.

Showers and overcast skies have kept plows and planters out of the field for the 10 days following last week's heavy rains and in some fields another two or three days of sunshine are needed before crop farming operations can be resumed. A few reports indicate early planted cotton doing satisfactorily, but in more instances the reports show that soil is hard, due to cold ground, has injured the stand and may make replanting cotton necessary in instances.

In the area of the northeast portion of the county the wheat appears to be practically ideal and in the southwest corner the crop is said to be the best in a number of years. Encouraging reports also are made from other sections of the county. A few reports of three-mesh heads are made and in some fields the grain is already in the stiff dough stage. Two-fifths of an inch of rain has fallen in the week, with sunshine limited to slightly more than a day in the period. Insect injury to wheat has not developed to a marked extent, although one report had a considerable number of army worms in the edge of a field of grain. Whether this is an isolated case or the infestation is general was not learned at The Hesperian office, but no general complaint has been heard.

Temperatures have been bracketed between a high of 85 for a short time Sunday to 45 for low yesterday morning, with mean temperature around 65 degrees, according to figures furnished at the office of the Rural Electric co-operative.

A thunder shower Wednesday morning had considerable hail in it to damage crops to some extent across the central portion of the county.

## Floyd County Has Boy Engaged In Attack On Attu

The bitter campaign by air, sea and land against Attu, the Japanese held island on the tip of the Aleutians, has at least two Floyd county families deeply interested, one with a son, the other with a brother in the campaign.

Of these Loyce Turner, son of Mr. and Mrs. E. W. Turner, has been in the Alaskan theatre of war for more than a year and is believed to be in the thick of the fight by air, being a member of the army air corps. Similarly, Cecil Fox has a brother who has been in the Aleutians for many months and the family knows that he is stationed at the outermost tip of American defense positions on the Aleutians. He pilots a P-38.

## 4 From Floydada Will Graduate From Wayland

PLAINVIEW, May 18.—Jeanne and Loma Simmons, daughters of Mr. and Mrs. W. S. Simmons of Floydada, Edith Shirey, daughter of Mr. and Mrs. G. N. Sautrey of Floydada and Victor Green, son of Mr. and Mrs. J. E. Green, of Floydada, are to be graduated by Wayland college Sunday, May 23. The class of 43 members will receive diplomas at the evening hour. President George W. McDonald will deliver the commencement address.

Ex-students of Wayland are staging a celebration and home-coming with a reunion by classes, on Saturday, May 22. A grand state pageant will be given Saturday night in honor of President McDonald.

Jeanne, Loma, Edith and Victor have made splendid records in Wayland college. They have successfully completed the first two years of college work and are preparing to enter the senior college or university with a junior classification, or to secure a teacher's certificate to teach, or go immediately into their chosen occupation.

## Crosby County Pioneers Meet On May 31

Crosby county pioneers will hold their annual re-union on May 31 at the Church of Christ in Ralls, Mrs. Nellie Witt Spikes said this week. The auditorium at Emma is to be moved so the meeting will be held in Ralls on that account. The basket dinner and talks by the pioneers at the meeting place will be followed by memorial services when the pioneers repair to Emma cemetery for the purpose.

## PORT BENJAMIN HARRISON, IND., MAY 13—Pvt. James Martin, Floydada, arrived at the Finance Replacement Training center here recently to begin basic training in finance. Upon completion of an intensive field program he will study army pay methods.

## JIM STILES, THREE RIVERS, WIS., VISITS IN TEXAS

Mr. and Mrs. Jim Stiles and their eight-month old son, of Three Rivers, Wisconsin, have been in Texas for several days, visiting relatives here—George and Marvin Stiles—and Lubbock—the family of Ed Stiles deceased—and at Hamilton—his parents, Mr. and Mrs. W. T. Stiles. Jim is employed with the Fairbanks-Morse company as welding superintendent in a war production plant.

The kindest things God ever made for a fevered world are flowers and shade. Somebody said it and they were ar right as right. Care for your flowers and trees will give you pleasure and likewise those who are your neighbors, whether just for the moment of passing your way or for days and years. The whipping trees and shrubs took during last December's ice storm in this vicinity has left its scars, but nature is doing a good job already. Naturally you must help along. You can even think of such work as a top wartime service and not be very far wrong.

More than 18 billion dollars is the record of the 18-day drive for the sale of Second War Loan bonds of the U. S. Treasury, according to the president of the Federal Reserve Bank at Dallas, R. R. Gilbert, who termed it "the most successful money-raising campaign ever conducted in the U. S. A. or anywhere else." The fact is that non-banking investors bought more dollars and cents worth of bonds than the treasury had hoped to obtain from all sources. This is a record of a billion dollars a day for the nation. Incidentally the sustained educational campaign conducted by newspapers is given a large share of credit for the results obtained.

The block of land which the Pure Oil company has about finished taking in Floyd county, lying north of Floydada—a little of it northwest, but mostly north and north east—is said to contain 40,000 acres. Said furthermore the company really plans to drill a test. All the area has been "geophysiqued" with gravimeters, torsion instruments and whatnot Floyd and Motley counties almost "have" to have oil somewhere under their soils to make the connection between the fields that lie in every direction, the oil people are said to think. Another of several tests will be watched with interest, when and if the leaseholding company begins work. Some say the test is an assured thing, to which others add that an oil well is just as certain "if they drill in the right place."

One prime difference in the present farm labor boom and that of and following the last war is that buyers are paying all or nearly all cash and do not have just small equities for a bad market or a few bad crop years to liquidate. If a man owns in fee and has some money to operate on, it makes a huge difference, with this exception: That he must make twice as much to make a farm pay that costs him \$50 per acre as to make one pay that costs \$25. Or is that just another idea we have.

Perhaps you read in the dispatches, without quite catching the significance, that the Germans for several days before the fighting was done in North Africa handed out promotions right and left in preparation for the final surrender. The point is that under international law the captured prisoners must be paid the same wages in the country holding him as are paid to men of equal rank in that nation's army. Thus, gaining 39,000 or

185,000 prisoners, is an expensive process for the country that makes the capture. Not only must these men be fed and clothed but they also must be paid—a captain a captain's wages, a sergeant a sergeant's wages, and so on—not the wages they have been getting but the wages they would get if they were in the service of the army of which they are prisoners. Figuring it out to a fine point the German and Italian prisoners of this country can save enough in a year or two to finance another war by the time this one is over. It would be a good joke on the German boys if it could be officially noted that they are captives of the Free French and get paid on that basis.

In these pages we said something recently about the Russians getting rid of their big landholders and getting the land into the hands of the patriots by the simple process of taking the kulak or landowner out for a ride from which he did not return. Having read quite a bit about the cruelty of those days in Russia we have wondered what kind of a yardstick the terrorists (patriots now) used. For instance, what we have a curiosity to know is whether it took 40 acres and a mule, four sections or forty sections or 10 farms to constitute a menace to the "party." Possibly, all the landowner had to do was to talk back to get his free ride. These are the same folks Mr. Roosevelt and Mr. Wallace are now telling there is no essential difference in our governmental viewpoint and sociology. Also Mr. Stalin is the same old Joe who got highly beneficial results by the simple process of taking out and shooting 2,700 and some odd of his brigadier and better generals. These, it is now claimed, had sold out to the Germans. Amplifying on the bravery of the Russian soldier and the exemplary strategy of the Russian command, it appears, does not call for our president and vice-president to hug and kiss the Russian dictator. The fact is that Joe has given the boys to understand that he is busy and does not want to be kissed.

Story about the want ad in The Hesperian that found and returned five \$20 bills to their rightful owner is noted, which reminds us that money found is the hardest thing in the world to be honest about. Any piece of money is mighty anonymous. Possession indicates ownership and that is all. It has no marks nor brands. Ofttimes founden money is claimed by persons not rightful owners, when the finder indiscreetly mentions it. Next to money comes suit cases and clothes way down on the low rung of the ladder of recoverable property. Easiest thing for a want ad to locate for an owner is a horse or a cow, then a hog. Something about lost dogs makes them hard to find with a want ad. But lost money—silver or bills—the advertising man almost hates to take the ad and usually warns the customer that it is a hundred to one shot.

Many victories are won by men who keep on a few minutes longer.

## As A Farm Woman Thinks

By Nellie Witt Spikes

The farmer roars into action on the battlefield of food production, this lovely May morn. Tractor chug down the contoured rows dropping fuzzy white seeds into the wet ground. Wilma and I have been planting the truck patch. I had better not tell just where, for we planted our watermelon seeds. If one were a dozen people this morning there would be work for all. So many, many seed to be planted and the weeds like hair on a pup's back. Clothes need to be washed and dried in the bright sunshine, the housework can go, all but the cooking and dishwashing. Will it all ever be done? The farmer anxiously watches the skies as he puts his costly cottonseed in the ground. So many things can happen, hard rains, or too drying winds, but he must go ahead, always gambling on the weather, mostly missing his best guess. Newspaper men should be able to sympathize with the farmer in planting time, as every week he has a scramble to get his paper in print.

Ye s, I went to the circus and you did too, for I saw you there. Of course one has to see a circus through the eyes of a little child, or the camels would look moth eaten, the zebras skinny the actors clumsy and the tinsel lacking its glitter. Since a small child when my parents took me to see a circus parade I have always wanted a balloon on a stick and the other day I promised myself I would have the pleasure of giving Joe one at the circus. Vainly I pointed to the swaying balloons of red and green and blue. He wanted a bird on a stick and got it too, then left it with me to hold all during the show. That is the way

of older people. I sadly told myself wanting the younger generation to have and love the things they did. And of course the young folks have other ideas and desires.

I had such a nice visit in town last Saturday along the evening sky. I go from here with Mrs. Campbell and her son who is a World War Veteran of the last war. Her daughter, Mrs. Jeff Reed, ended my anxieties about needing pins to pin my mattress together while in the process of making. She told me that upholstery tacks were really better around the porch. The fairies must have spread their lace bed spreads over the green elder bushes. The blue of Anchusa and the pink of honeysuckles might be their quilts. Anyway, magic has taken place and I am deeply moved by the beauty of blooming things. There is nothing prettier than the young unfolding leaves of the nandina, yes, a long slender grape vine twig with leaves from grown to ones just emerging from the bud. So green and pink edged. There is nothing prettier than the young unfolding leaves of the nandina, yes, a long slender grape vine twig with leaves from grown to ones just emerging from the bud. So green and pink edged. I go from here with Mrs. Campbell and her son who is a World War Veteran of the last war. Her daughter, Mrs. Jeff Reed, ended my anxieties about needing pins to pin my mattress together while in the process of making. She told me that upholstery tacks were really better around the porch. The fairies must have spread their lace bed spreads over the green elder bushes. The blue of Anchusa and the pink of honeysuckles might be their quilts. Anyway, magic has taken place and I am deeply moved by the beauty of blooming things. H. E. STRICKLAND  
of Dallas

He was high producer in volume of Life Insurance during the contest. Starting with the Great American Reserve Insurance Company in Floydada in March of 1942, he has been a resident of Dallas since August of last year. His production has been consistent and has increased in the same manner during the time he has been with the company.

*During the Spring Sales Contest of The Great American Reserve Insurance Company—Presenting our new, complete protection health, accident, hospitalization, and life policy—these two, of whom all Floyd County should be proud were the highest individual producers in the state.*

E. C. CARTER  
of Floydada

He wrote the greatest percentage of Complete Protection, combination health, accident, hospitalization and life policies. Ernest started with the Great American Reserve Insurance Company in Floydada in June, 1940. He is one of the most reliable of producers and ranks among the top salesmen each year. Mr. Carter is special Representative in this area and lives in Floydada.

## To The Citizens Of Floydada And Floyd County—

We take this means of expressing to you our appreciation for many things, but for two reasons in particular. First, for the tremendous amount of insurance business—Accident, Health, Hospitalization and Life—that you have entrusted to this Company. We have a higher percentage of policyholders in your County than in any other County of similar size in Texas.

Second, but by no means least, your County has furnished us two of the finest insurance men we have ever known, with this or any other Company. During the past month, Ernest C. Carter, of Floydada, and Herwin E. Strickland, of Dallas, formerly of Floydada, led our entire sales force in the production of new business. This would have been a remarkable feat with any company, but considering the fact that our salesmen are among the highest average producers in the field, this honor was even more praiseworthy. (This recognition was not new to either of these men as both have been continuously among the top producers for the Company.)

Ernest Carter, in his first full calendar year, was second high producer on our sales force. 1943 will be Herwin Strickland's first full calendar year and at the rate he is producing now, he should end the year close to, if not in, first place. During the past month, these two men from Floydada wrote, between them, more than 100 Accident, Health and Hospitalization Policies, better than \$100,000 of Life Insurance and made above \$2,000 in total commissions. Since an insurance salesman is usually considered successful if he makes as much as \$200.00 per month, you can readily see why these men, comparatively new in the insurance business, have won such wide recognition. Such success as these men have achieved is evidence of not only ability and ambition but of tremendous effort as well.

We know that all Citizens of Floyd County join us in extending to these men our sincerest congratulations on their achievement and best wishes for their continued success.

TRAVIS T. WALLACE, President.

## Another Victory On The Home Front . . . .

Sound, Old-Line Insurance is an Indispensable Weapon on the Home Front of a Free, Intelligent People Fighting for the American Way of Life; another Invaluable, Integral Part of the Democratic plan that Provides For Freedom from Want, from Fear . . . from Death and Disaster.

### Shattering Southwest Insurance Records

Eighteen Field Representatives Wrote A Total of More than \$400,000 Life Insurance, in Addition to Health, Accident and Hospitalization, in One Month . . . A Record Unparalleled in the Insurance Business. We Appreciate the Confidence which has Made This Sales Record Possible.

Conservation District News

Among their other accomplishments, the District engineers have now qualified as expert (?) bull fighters. Roy Golden's two-year-old brindle jersey bull of doubtful disposition objected somewhat to the crew's mapping activities and went on the prod, on his farm in the McCoy community Monday.

Those desirous of testing out the foot-work and clod-throwing abilities of the District's toreadors, please file their applications with any member of the crew. Report has it that the bull, when last seen was in full and undisputed possession of the ring with two members of the crew applying for leave to sloan their charley-horses. Map work incomplete up the bull, Roy!

W. C. Hudson of Dougherty last week reported an excellent barley prospect on his terraced land when his untraced barley froze out completely. He feels the additional moisture held was responsible.

F. B. Trowbridge of the Harmony community sowed native grass seed secured through District supervisor a year ago, with no apparent results. He now reports a good showing of these grasses coming on. It is thought that the hoppers got those which germinated last year.

See your District supervisor if you need help with farm planning for soil and moisture conservation.

Churches who are participating in the school are Cumberland Presbyterian, Church of The Nazarene, First Methodist church and the First Christian church.

City Park Church

(J. G. Malphurs, Minister) We call attention to the importance of hearing the third sermon of the series on, "Rightly Dividing The Word of Truth," (2 Tim. 15) at 11:15.

The word of God is of tremendous benefit to the soul if it is used rightly, if it is correctly divided and each part taught as it should be; but a wrong division of the truth is the main source of denominational confusion.

Last Lord's day our sermon told how to divide the truth in answering the question how to be saved; next Lord's day we shall tell the audience how to divide the truth to a group of new converts desiring to know how to worship God.

Evening sermon at 8:45 Mid-week service Wednesday evening at 8:45. Come and worship God with us.

Miss Mary Shultz left Tuesday night for Dallas, where she will spend several days visiting friends before returning she will visit her brother, Joe Shultz and Mrs. Shultz at Fort Worth.

Mrs. Bedford Wigley of Wichita, Falls, visited her cousin, Mrs. A. J. Cline and family Monday.

Mrs. Frank Kapella, of Chicago, Illinois, who has been a guest of Mr. and Mrs. Jack Henry will leave Saturday for San Antonio where she will join her husband, Lieut. Kapella, stationed at Randolph field.

Mr. and Mrs. Grady Hall left Wednesday for Fort Worth to attend a State Undertakers convention that will adjourn today. They are expected home this week-end.

### Homemaking Club Working On Red Cross Project

The homemaking club is still working on Red Cross sewing and plans to continue through the summer. Approximately sixty girls have signed up for the work. On completion of this work each will have earned one-half credit. The work will be done by the girls individually at home through the vacation months.

Miss Margaret Doak, sponsor, will be in Floydada through the month of June. During that time the girls plan to meet one day a week, bring a covered dish, and do Red Cross sewing.

The club was organized last semester and elected the following officers: President Peggy Jo Bishop; Vice-president: Kay Sparks, secretary, Dorothy Tye, reporter, Arla Vee Bishop, parliamentarian, Gene Wester, pianist, La Juana Leibfried song leader, Faith Wood.

#### HESPERETTE STAFF

Editor—Dorothy Tye.  
Assistant Editor—Doris Cornelius.  
Reporters—Harold Sparks, Frances Keim, Faye Nell Ginn, La Juana Leibfried.

In order that the pupils of Floydada High school may review the past year's work this last edition for the term 1942-43 is printed this week.

Due to war complications, the Hesperette was discontinued last semester.

### Allen And Tyler Co-Captains Of 1943-44 Squad

The football squad of 1942-43 ended a very successful season by placing second in district. Every conference game was won except the last with Spur. The score was tied but Spur won on first downs.

The members of the first string team this year were Harold Sparks, Roy Baxter, co-captains, N. E. Tyler, James Lovell, Dub Trowbridge, Kenneth D. Johnson, David Batley, George Allen, R. T. Furrow, De Winn Fyffe, Cubert Gray and Eddie Wayne Comer.

At the annual football banquet which was held February 20, the captains for next year were announced. N. E. Tyler, and George Allen are the captains of 1943-44 football squad, which is a very promising team and here's wishing them the best of luck with the new pep leaders: Arla Vee Bishop, Dorothy Jean Rushing and Ada Bell Snodgrass.

### Ideal School—Or A Private Idea Of Heaven

(This is either an ideal high school or a private idea of heaven.)

1. A place where you can go only when there is nothing else to do.
2. Free sodas (on the taxpayers).
3. A painless method for acquiring knowledge.
4. Elevators instead of stairs.
5. Teachers with a sense of humor.
6. Overstuffed chairs in all classrooms.
7. Amusing assembly programs at least twice a day.
8. Portable radios issued with books.
9. Indoor and outdoor swimming pool.
10. Plenty of handsome men and beautiful girls.
11. Dancing every other period.
12. No rules, no demerits, no detention, no nuthin'!

(All ideas presented in this article are purely fictitious and are not meant disrespectfully toward this institution. It would be nice though wouldn't it?)

#### GAS, TIRE RATIONING ELIMINATES THE ANNUAL SENIOR DAY PICNIC

Friday, May 14, the Seniors were given a holiday. The students did not plan a group picnic because of gas and tire rationing.

### Ag Class Have Nine In Roster Of Graduates

Nine Floydada Future Farmers will be in the graduating class on Friday evening, May 21, 1943. Those who will finish are:

President, Billy Bean; vice president, W. C. Trowbridge; and other prominent Aggies including Douglas Beedy, Odell Breed, E. S. Calahan, Jr. Charles Dudley, J. W. Permenter, Beal Ferguson and Fred Pope. The chapter held its last meeting under the leadership of the graduating seniors for the year. There was a brief business session and a short program, then refreshments were served to those present.

The next chapter meeting will be held in July of the next membership year.

### Toast To A Few FHS Seniors

To La Juana Leibfried, a sweet young lass,  
A charming character, the head of her class;  
To Harold Sparks, with a swell speaker's voice—scholastic, athletic the people's choice.

To Jacky Daniel, beauty blessed—Junior Carnival Queen, one of our best;  
To Dub Trowbridge, leader of any band—a remarkable fellow, he deserves a big hand;

To Doris Cornelius, whose cheerful smile brightens our halls in her friendly style;  
To Buster McIntosh we give applause—a boy of his word, all for the cause;

To Frances Keim we send a bright beam for being 1942's Football Queen  
To Roy Baxter, who gives us his best—energy unbounded, cooperating with zest;

To Mary Helen Mickey; she wins first place for the best set of brains—a scholastic ace;  
To Nadine Johnson, tried and true—"Miss Personality" to all of you;  
To De Winn Fyffe, tall, handsome, but shy—swell personality, a truly great guy;

To Helen Young, social club member—Number One, vivacious, studious, lots of fun;  
To Joy Ward—it's those like her you know, who help this school get up and go;

To James Lovell, a really swell chap, everyone likes him, so we'll tip our cap;  
To Dorothy Tye and her entire corps, editing this paper that you enjoy it more.

To the faculty, school board and P. T. A. may next year be bright, happy and gay;  
And may we, the students, lend a helping hand to help bring victory to our happy land.

Please mention The Hesperian when answering advertisements.

### Class Will

A graduating class just isn't a class unless it has a will or prophecy and this year we decided on a class will since it seems that about the only prophecy we could make would be whether the boys would be in the marines, the army or the navy and whether the girls would become WAACS or WAVES or just widows for the duration.

Gene Collins wills his meanness to J. B. Jameson.  
Virgil Williams wills his ability to talk so much about nothing to Eugene Wilkerson.

Billy Bean wills his bashfulness (if he is bashful) to Kenneth Willis. Harold Sparks wills his physique to Bill Du Bois.

Betty Jean Swepton wills her ability to make good grades to Ada Belle Snodgrass.

Helen Young wills her laughing spells to Peggy Jo Bishop.  
Buster McIntosh wills his ability to make good grades in geometry to Ervin P. Looney.

Roy Baxter wills his personality to Donald Finkner.  
Dot Tye wills her height to Betty Eakin.

Mildred Hicks wills her blond hair (it's real too) to Geneva Bradford.  
Cubert Gray wills his mustache (accident too) to Junior Cummings.

Doris Cornelius wills her dimples to Arla Vee Bishop.  
Fred Pope wills his purple shirt to Elmo Hall.

Ruth Hamilton wills her hair (which is always fixed) to Mary Jackson.  
Jeanne Edwards wills her neatness to Jean Crabtree.

Robbie Gene Johns wills his wisecracks to Johnny Patton.  
Douglas Beedy wills his loud voice to Tom Roy Snodgrass.

Faye Nell Ginn wills her finger-nails to Dorothy Nell Giles.  
Joy Ward wills her voice to Maxine Jones.

Sammye McCleskey wills her loud laugh to Mrs. Eva Lee Nickels.  
Bryan Meredith wills his cosmetics to Elvin Warren.

De Winn Fyffe wills his calmness to Albert Morrison.  
James Lovell wills his levity to Dale King.

Milton Wiley wills his "book learning" to Ralph Womack.  
David Batley wills his laugh to W. H. Eubanks.

Mary Helen Mickey wills her ability to play the piano to Kent Kiker.  
Billie Ruth Love wills her jokes to Gloria Box.

Estelle Fuqua wills her height to Betty Jean Beard.  
Newton Jones wills his hair to Jimmy Laminack.

Charles Dudley wills his ability to dance to Verlon Wright.  
Kenneth Rogers wills his size to Marion Parrish.

Joseph Looney wills his artistic ability to Dewey Parly.  
Lofflin Erwin wills his motorcycle to Harold Norvell.

If you didn't get what you want, exchange will be cheerfully made.

# Fifteenth Annual Round-Up Sat. At Plainview

The fifteenth annual Pioneer Round-Up will be held in Plainview on Saturday, May 22, under direction of the Business and Professional Women's club. It will honor the early settlers of this section of the state.

Early that morning the old-timers will begin arriving and will spend the morning chatting about the early days when cattle, cowboys and ranchers were the principal inhabitants of this part of the state.

The Round-Up program will get under way early in the afternoon with a parade under supervision of

Miss Curtie Mae Rogers. Early-day conveyances and other reminders of pioneer times will hold the parade in the spotlight. Anyone with an old entry will be welcomed.

During the afternoon the pioneers will be honored with a reception under supervision of Mrs. D. H. Jerrill.

Doors of the city auditorium will be thrown open at 6 p. m. for the chuck wagon supper, an annual Round-Up feature. The usual soup-of-a-gun, sour dough bread, onions, beans and coffee will bring back memories of early days.

Miss Lucille Shultz and Mrs. Mary Watson Jones will be in charge of the supper. Tickets will be 50 cents.

After supper Miss Mary Cox will conduct a recognition period for the pioneers. Miss Della Ansley, who is in charge of the night program, says that it will be by and for the pioneers. They will be asked to participate in coyote howling and old fiddler contests and line up for an old-fashioned spelling bee with the old blue-back spellers as a text.

### PEOPLE ARE BUYING AND SAVING BONDS SAVINGS STAFF DIRECTOR

Treasury Department, Defense Savings Staff, Washington, May, 1943.

Gentlemen: I am writing to tell you about what I believe is a magnificent tribute to the patriotism of the American people.

As you know, there has been considerable speculation and talk concerning the effect that increased taxes might have on the sale and redemption of United States Savings Bonds.

You will be delighted to know that during March, when the first Tax installment fell due, bond sales were 6.4% higher than in February, and more than 65% ahead of March, 1942.

The story on redemptions is equally encouraging. From May 1, 1941, when U. S. Savings Bonds (Series E, F and G) were first offered for sale, through March 31, 1943, redemptions have been less than 3% of total sales. And redemptions during March this year were only eighty-seven one-hundredths of one percent of the total amount outstanding. That's a record that all Americans can well be proud of.

What it shows is that we as a Nation fully realize the privilege that is ours to do our part in helping to finance the tremendous cost of total war. It shows that as a people we understand the necessity not only for buying War Bonds but also for keeping them.

Many thanks for all you have done, and for your continuing efforts to make the War Savings Program successful.

Sincerely, Eugene W. Sloan, Executive Director War Savings Staff.

### FROM YOUR LOCAL LUMBER MAN ABOUT MATERIALS

The lumber mills are making about 20% less yellow pine than last year and I cannot see that the condition will improve yet the local people are asking 40% more this year.

Even though the government is using little less than last year yet the situation in the present basis must get more critical.

We expect more restrictions this year and soon from Washington as regards the 200 limitation on residences and 1000 on churches and other restricted construction.

It is my personal opinion that unless we change our attitude and save every available foot of lumber that even you farmers and stockmen who have been so much more fortunate the last two years in Floyd county will not have what it takes to bring this food to the nation and its demand for help for more meat and bread.

First help your lumber man to substitute materials that are not so critical. He can get many things now for you that will answer for your needs and if you will cooperate it will be more pleasant for the local lumber dealer.

Don't ask him to hold materials for you. It is very important that what he has for you must be taken out so that he may be able to handle where he stands as to his merchandise on hand.

Check over your neighborhood for old buildings that can be wrecked and salvage every bit of lumber you can find.

From this second hand lumber begin now to make farm storage buildings for the wheat and grain.

Just expect further restrictive regulations on nonessential uses of lumber and everything that can be put off for the duration of the war may mean that you are shortening the war and might save the life of some boy.

J. M. Willson.

### JUNIOR-SENIOR DANCE AT SCHOOL AFTER BANQUET MISTAKE, MALPHURS BELIEVES

The report has come to me that a part of the Juniors and Seniors of our high school engaged in a dance after their banquet of May 8 and that in the school building. I believe it was a mistake on the part of those in authority to have allowed it.

I say this because there are some taxpaying patrons that object to it because they believe dancing to be sinful, and dislike very much for it to be connected in any way with the school. All agree that a child can be highly educated without ever knowing how to dance, and all agree that those who want to dance can do so without connecting it with the school. Our children get enough dancing outside of the school; they must get their education in the school.

I believe I can say for those parents who object to dancing, that they would cease their opposition to it if the boys would dance in one room to themselves while the girls

## On The Farm & Home Front

JASON O. GORDON County Agricultural Agent Texas A. & M. College Extension Service

EDITH L. WILSON Home Demonstration Agent Texas A. & M. College Extension Service

A total of 58 boys who are serving as Victory demonstrators for the Texas A. & M. College Extension Service have agreed to participate in the National Safety activity program. These boys were enrolled from eight clubs in the county. A larger enrollment is expected when all club members have an opportunity to know about the program.

Official reports indicate there were approximately 18,000 accidental deaths of farm residents in 1941. About 7,500 of these were home accidental deaths, of the work accidents about 4,500 lives were claimed.

There is one further major aspect of the farm accident problem; namely, fire prevention. In 1941 farm fires are estimated to have destroyed approximately \$90,000,000 worth of property.

Should a 4-H club member approach you regarding some of the hazards he has found on your farm or in your home, please cooperate with him to correct the trouble.

A new leaflet C-199, "Farm Machinery at War" has been released by the extension service to help farm managers check on care and repair of farm machinery before the equipment is needed. There are many helpful suggestions in the bulletin, and it is free for the asking.

The peak of the hatching season is over and the successful poultryman will check his flock for good layers and sell the "boarders." Old hens that want to set should be sold.

Feed is too expensive and scarce to waste on a hen which won't pay her keeps. Culling makes more housing room—and there is a good market price for hens not earning their board.

Many Victory gardens will soon be in the peak of production, but vegetables will not stay that way long. Families who have a temporary surplus but no means of preserving that food for the less productive months can serve the cause of victory by sharing with their neighbors. The patriotic gardener will not be willing to see a single plant go to waste.

Rabbit production has come into increasing importance as the so-called red-meats become more difficult to purchase. The livestock grower is concerned about the small operating margin from the "poor" to the "finished" animal, and the meat situation may become acute.

A new bulletin "Rabbit Raising for Meat" has been prepared by R. E. Callender, Game Management Specialist of the extension service. This bulletin discusses rabbit production in detail and includes some valuable suggestions to the person just starting the business.

You may have a copy of this bulletin if you call at the county agent's office.

Winifred Jones, Food Preservation specialist for A. & M. college Extension service warns against wrong methods of canning. She recommends only two methods of canning as ways of preventing spoilage and retaining the maximum amount of flavor texture and color. One method is to process in a pressure cooker meats and vegetables with the exception of tomatoes and pimentos. Then another method, the water bath of tomatoes and ripe pimentos. She says that the steam pressure cooker is the safest way to can meats and non-acid vegetables because it can maintain a higher temperature which destroys one of the most dangerous bacteria—the "botulinus."

### They Make Outstanding Record

H. E. Strickland

E. C. Carter

Two Floydada men, are being recognized this week by the Great American Reserve Insurance company of Dallas as two of the organization's outstanding salesmen. The recognition comes as result of the spring sales contest just ended.

During the contest, E. C. Carter of Floydada and H. E. Strickland of Dallas, were high ranking producers in the entire organization. Strickland, former newspaperman of Floydada, was first in sales of life insurance. Carter led in highest percentage of combination health, accident, hospitalization and life sales.

"These two men's record is unique in that in one month they wrote, between them, more than 100 accident, health, and hospitalization policies, over \$100,000 of life insurance and made above \$2,000 in total commissions," Travis T. Wallace, president of the company, states.

Remarkable Record of Growth  
Not only does the record of these two individuals compel attention, but the production and growth of the Great American Reserve Insurance company itself has been remarkable in insurance circles. In one month 18 salesmen wrote a total of more than \$400,000 life, in addition to accident, health and hospitalization, a record unsurpassed by so small a group. This success can be attributed to a number of minor things, but mainly to coordination of plan with effort by a select group of men. The Great American Reserve's sales plan was originated and put into actual practice by Travis T. Wallace, president and sales manager.

Mr. Carter became associated with the Great American Reserve Insurance company in June of 1940. In his first full year with the company he was vice-president of the Wallace club, honorary sales organization. This honor in recognition of having been second high producer for the year.

Mr. Strickland joined the company in March of 1942, having just finished his first calendar year. He at present, is leading the company in Life production insurance for 1943 and is among the high ranking men in total commissions.

### Floyd Co. Council To Sponsor Sale Of Waste Fats

"Secret Words" was the theme of the recreational contest used by Mrs. Floyd Fuqua at a meeting of the Floyd County council Saturday afternoon held at the county court room.

In the roll call, members revealed an answer to a project, the club is planning for Pioneer's Day in Floydada May 28 in which six other clubs will assist.

The expansion committee of the council gave a brief report of plans to aid the colored women of the county by demonstrations that have already been planned by several clubs of the county.

Other plans were formulated by the council in connection with furnishing the noonday meal for the Pioneers.

Another project that is being sponsored by the Floyd County council is the collection of meat drippings to be used in munition factories. Mrs. O. G. Mayfield and Mrs. O. G. Glassmover were appointed as a committee to receive and dispose of all grease turned into the council.

The next meeting of the organization will be June 19 at the court room.

### E. P. Brownlow, 44 Funeral Rites Held Wednesday

Funeral rites were held at 2 p. m. Wednesday at the First Methodist church for Eugene Price Brownlow, who died at the home of his parents Tuesday night at 7 o'clock after an extended illness. Services were in charge of Rev. Bob Jameson of White Flat, long-time friend of the family. Rev. Jameson was assisted in the service by Rev. C. A. Hartley, pastor of the deceased and Rev. Phil H. Gates of the Floydada Methodist church.

Mr. Brownlow volunteered for service in the U. S. Army 10 months ago and served as an air corps mechanic stationed at Jackson, Mississippi two months and later transferred to Miami Beach, Florida, where he became ill and was given a medical discharge February 16.

Born July 2, 1899 at Athens, Texas, the deceased came, with his parents, to McAdoo in 1918. He was married to Miss Lois Allen at Lamesa on August 20, 1920. To this union were born three sons. They are Pvt. Eugene Brownlow of Pampa; C. L. of Dougherty; and Billy Brownlow of Lubbock.

Other surviving relatives beside his wife and three sons are his parents, Mr. and Mrs. J. M. Brownlow, Dougherty; one brother, E. I. Brownlow, Dougherty; five sisters, Mrs. Eula Carmack of California; Mrs. U. E. Cook, Dougherty; Mrs. R. A. McNeese, Dougherty; Mrs. O. R. Sanders and Mrs. Raymond Holt of Grand Prairie. C. L. Lloyd, who has made his home with the family for many years is also listed with the survivors.

Interment was made in the Floydada cemetery directed by the Harmon Funeral home attendants. Pallbearers were Ott Glassmover, J. E. Newton, Tate Jones, Clifford Newberry, Roy Potts and A. L. Meadow of McAdoo.
