The Floyd County Hesperian, Floydada, Texas, Thursday, June 3, 1943

EDITORIALS

118.

One of the most interesting advertisements you will read in sometime in The Hesperian is that one on another page of this issue addressed to the American people from the United States Treasury department. Read it. It tells two stories, one of how deadly in earnest our people really are about the war, and the other how tremendously big is the job of financing yet to be done. Having read, gird up your loins as the old battler King David did in historic times and get ready to help complete the financing job for this year.

Presaging the earliest ripe tomatoes in many a year, tomatoes in many gardens were blooming in the last week of May in nearly all parts of Floyd county. Dewy mornings have helped, but getting the tomatoes out early on the chance that it would not frost and kill them has helped more. Good chance well-taken, the women folks being responsible since they read The Hesperian and are considerably ahead of the men in Floyd county families. While early tomatoes do not go as good with cold biscuits out in the garden as late ones do, there is no reason why the early ones cannot be used to can and the late ones to eat a la cold biscuit, salted to taste. Indeed a fine prospect ahead.

-0-

Completion last week of the last leg of the highway north and south through the county now gives the county a highway east and west through its bounds and north and south. When Briscoe county and the Highway department get a plan worked out to complete a nine-mile stretch south of Silverton to the east and west highway through the county. all-weather outlets will have become available to all portions of Floyd. But this does not mean that all the highway construction in the county seriously needed has been finished. The northeast, the southeast, the northwest and the southwest portions of the county have wide areas that need to be in approximately near distances to good highways. How these will be obtained, following the close of the war, is a job of planning and working for now that lies ahead principally for the Commissioners court. Areas which get work done when war days are over are more likely to be those which have planned for it and gotten their names in the pot, so to speak. Those who do not plan ahead will be wondering why they can't get anything done in their counties, too. -0-

Pay off debts! Pay off debts! That is the burden of advice one sees from all sources where writers or speakers presume to have a knowledge of how people get along and forge ahead in their battles for financial independence. These people, not necessarily connected with the government or government agencies, point to the probability that things won't always happen right for a man. Some morning for Floyd county people it will turn off dry, some of our markets will go haywire or something else will happen to dry up the good source of income and there some of us will be-if we haven't taken advantage of the chance to clean up and get set for the eventualities. Howsoever much the great men shall plan for after-the-war and for security of all the peoples and for the elimination of suffering and want, one might as well remember that man proposes whereas God disposes. If you owe, keep this in mind: up with yet.

The season is good, the market is good, the demand is such as we never saw before. But it is all due to the world upheaval, the maelstrom of war into which events have dragged lishing Co., Inc., Floydada, Texas.

Whisper it. A grain harvest is right around the corner. Like Mr. Hoover's twocar garage for every family that did not happen, it may not get here. But that something must happen mighty quick, otherwise the harvest will be an extra good one. Harvest that will be the most nearly uniform even excepting 1937. Likely the individual As A Farm farm records of 1937 may not be equalled. but neither will there be the low spots like was recorded in that year when late wheat was hit by rust and other unfavorable conditions.

Religious freedom for all the peoples of all the nations as envisioned by the resounding phrases adopted by the president and the British prime minister in the Atlantic charter, will be the hardest of all the points to finally accomplish, harder even than that "freedom from want," spectre of mankind since the first vertabrate ventured forth from the primeval ooze. For real religious freedom calls for freedom for the Buddhist and the Mohammedan to worship as his conscience dictates in Floydada, as well as for the Christian to worship as he chooses in Afghanistan or on the Sahara. For next only to racial ties comes religious ties. Men have waded in blood throughout the centuries growth. Careless weeds there are them on through the county demonin religious wars-each according to his con- thriving and soon we cannot see the science which would not allow for the other's young trees. Too much to do for conscience as well.

PITY THE POOR GROCER

Lady, be good-to your grocer, because, no called. The Sea of Biscuit if named matter how inconvenient you may find the new point rationing system, it is many times more difficult for him than for you.

This particularly is true since the rationing network spread, to include meat, cheese, butter and fats. Grocers who had spent hours working out the point system when it her and said "We had better get in Judge Tom Deen as master of ceretook effect for the rationing of canned goods, the chickens." And did we hurry and who had burned the midnight electricity marking cans for the convenience of custo- nearer peals mers, explaining the system to them, and or- thunder. We found two hens and a better day for meeting again? ganizing their newly complicated bookkeeping, found themselves deluged not only with a new flood of products to classify, but with lered till we were hoarse. At last many of the original products to re-mark as we rounded them up near their titled to sit at the long tables under changes in point values were announced.

They're leading a hard life, these grocers, and the customer may well feel a sense of personal gratitude to those who are manfully across the pasture, their silly chick- the vases of plains wild flowers or sticking it out, and keeping their stores open and their books straight, instead of throw-ing up the sponge and going off to the shipyards.

The housewife can lighten the grocer's load Floyd County by learning the point system for herself, by shopping early in the day and early in the week; by ordering her groceries in person and 14 Years Ago paying her coupons immediately instead of ordering by telephone and asking the driver to pick up the coupons; and by being courteous and patient with her grocer at all times. —Olympian, Tacoma, Washington. -0-

and loved. Many a bunch has wilted in hot sticky little hands bringing them to mother, and they knew the feel of a brown hand of a man bringing them to a sweetheart or a

hair, wet and hot turned down our | ing home, going over and over again Our clothes suddenly clung to us and our shoes squashed Chilly and tired we struggled with the good wishes and put them away

wet clothing. By this time the rain was over and all our work was needless and we turned the chickens out to dry in the sun.

foreheads.

I have just finished making two mattresses and as I got the last fat oll around the soft blue and white tick-enclosed cotton, I patted myself on the back and like little Jackie Horner I said "what a smart woman am I." But only for a moment did I feel so smart for I thought of a mattress I made long ago by my own methods. Because I thought it would be so much better I bought the best grade of feather ticking and sewed it up like a feather bed tick, leaving a small opening down the middle in which I tried to put the cotton. In vain my short arms tried to get to the corners with cotton. I crawled inside and padded

the corners, or rather wadded the cotton in with hard lumps. At last soil and I am sure almost suffocating with the lint, I the ground has got all the cotton in, not even knowing how much or how little and sewed the tick up tight. Not a place on the stiff smooth outside could sprouting seed one hold to so as to move that matcan not push tress. It would slide from one's

Now if you had been so smart, I More work, more told myself, why did you not think seed, probably how to make a tick the size and wasted also. Noth - | in the manner the home demonstraing deters the tion lady teaches, and how to put the weeds, tho, any cotton in sheets and beat till even kind of weather and smooth and why didn't you put on nice handles and make a roll around the outer edge? Thus I felt young trees coming along, looks like humble and thankful for the folks forest just starting into good who study these things out and pass strators throughout the land

> The Floyd County Homecoming day was just grand, and you can just ask any one who was there There was a parade of horses that looked as if the Indians had been on a raid and brought home plenty of ponies. And from the time one caught a glimpse of George Fawver's

red silk shirt, or did I see the fire wagon, to the sound of a dancing foot suddenly ceasing, late at night the picnic was on and everything

ran high and wide and handsome

monies was completely at home

the good times and gracious people I met during the day. Like a small with water while we turned the boy counting his pretty marbles or chickens back, at last getting them a little girl putting away her pretty in their coops, looking like they rainbow hair ribbons. I counted each had been scalded ready to be picked. minute, every pleasant greeting, all

in my heart.

A few lines from the last letter from my son in England: "I visited in a home on top of ahill about seven hundred feet high. It is a lovely house built of grey stone and set in a garden which is teraced to conform to the slope of the hill. Roses, dahlias and many other flowers are in bloom. They have a good many apple trees, some of them trained in a flattened shape, a custom which seems to be quite popu-. Perhaps it is to get lar here more sunshine. Another interesting thing was the tomato vines. They grow in pots placed on tables in green houses and are trained along wires just under the glass roof. So one just reaches up and gathers one's tomatoes." (Note to Mr. Steen this would be fine so you could walk around and eat tomatoes and cold biscuits.) "From the hill where we went last week, one can see for a considerable distance. Farms, a great many with rock fences, stone farm houses and a town or two Many of the houses in town are of red brick and have red tile roofs.

All in all it is a very pretty One that I don't think I would get tired of looking at." And as I read these lines, I thought never an Englishman would eve stop fighting for."

Assembly Of God **Church Lifts** Indebtedness

We are happy to announce that figure. the Assembly of God church has Mrs. completely lifted the indebtedness from their property. The church was built about four years ago. And with only a small band of faithful and willing workers and God's help we have cleared the debt. The women of the church have played a great part in making this possible, as they have cooked, served and sold many different things to help raise funds to enlarge our payments. We also wish to thank our many friends of Floydada and vicinity who have helped in this endeavor. We feel that our church, not the most ex-

pensive, is one of the neatest and has as clean and attractive grounds as any in the city. We trust it may be a blessing to all. Our dedication of the church was

held Tuesday, May 25th, with an all day service and a lovely dinner served to all present. The service was well attended with goodly number of visitors from Floydada and many surrounding cities. In the morning service, Rev. H. Paul Holdridge, our present West Texas district superintendent of the Assembly of God, preached an inspiring sermon using Joel 2:17a-"Let priest, the ministers of the the Lord, weep between the porch and the altar.

Then immediately after the noon hour, we enjoyed a time of worship in song and Rev. Harris, pastor at Paducah, Texas, favored us with stirring sermon, followed by a very touching sermon by Rev. H. E. Comstock, pastor of the Plainview Assembly of God church. The concluding sermon of the afternoon was brought by our former district super continues to be unsettled. Light rintendent, Rev. H. M. Reeves, who preached the dedicatorial sermon urday and Sunday and we are still after which we dedicated our church having high winds. The farmers are very busy getting their cotton and and premises to the glory of God and then burned the mortgage. The speaker at the night service was Rev. J. W. CALLS-THE LONG DISTANCE

sure. Mrs. E. O'

OPERATOR WILL SAY

"Please limit your call to 5 minutes.

Others are waiting"

Many Long Distance calls go through about as fast as ever. But sometimes there's an extra-heavy rush on certain circuits - especially to war-busy places.

Whenever that happens, the operator will ask you to limit your Long Distance calls to 5 minutes.

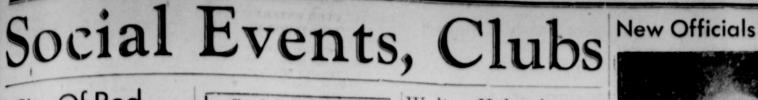

The idea is to give everybody a fair share of the wires. That gets to be more and more important every day.

5. J. McIntosh Commissioned; **Visiting Home** CAMP DAVIS, N. C., May 27.-

Resident of Floydada, Samuel J McIntosh received his commission as 2nd Lieutenat in the Coast Artillery Corps upon successfully com pleting the officer candidate course here today.

The newly commissioned officer will take up his duties in the Antiaircraft Artillery after a short fur lough with his parents here, Mr. and Mrs. B. F. McIntosh. The course at the Antiaircraft Artillery school is one of the most difficult of the officer candidate tests in the army Not only do candidates have to meet the high standards of leadership necessary to all officers, but they must be able to master and put int practice the complicated technical art of Anticraft Artillery. Their tudies and practical work invoive nainly the means and actions by which swift flying enemy aicraft can be shot down or kept from successfully performing bombing missions. In addition, A. A. officers must be able to put their guns to use in other artillery purposes, such as antitank.

Herbert H. Morrison, who was recently inducted into the army is now stationed at Camp Grant, Illinois where he will complete 11 weeks of schooling in the Medical corps. Mrs. Morrison is visiting her parents, Mr and Mrs. M. F. Childs before return ing to her work. She will join her husband when he completes his training at Camp Grant.

Kenneth Hodge, who has been a student of Tech College at Lubbock returned home last week and again has accepted employment for the summer months at Hagood's Department store.

B. K. Barker, II, returned home Wednesday from Lubbock where he completed his freshman year at At present, he plans to re-Tech. main here for the summer.

Dr. and Mrs. Joe P. Williams and daughters Joannan and Mary Lynn of Roswell, New Mexico were here the past week end visiting in the home of Mrs. Williams' mother Mrs. E. F. Stovall and other relatives

Uncle Sam!

Although the Second War Loan Drive has been completed and its objective was more than accomplished, we'll keep on buying War Bonds! When the war is over, we can spend this money again. Every Bond we buy is an investment in our future happiness and security ... every dollar we put into Bonds will help bring our boys back sooner and safer! AND THEN ... all those marvelous new Electrical Servants we have been wanting will be ours ... INVEST IN WAR BONDS TODAY ... It is the surest way to Happiness, Peace and Security!

SOLDIERS EAT WAY TO HEALTH

It's a far cry from the "gold fith" and "canned willy" of other American armies to the present day ration of our modern Army. Specialized rations of compact, concentrated foods have been developed for paratroopers and men in the field: here are three typical meals of the Garrisch ration, representative of the food served in mess halls and camps through-out the nine Service Commands of continental United States.

URING the three weeks between April 12 and May 1, the American people tackled the biggest job of financing in the history of the world.

In these three weeks it was proposed to raise the sum of 13 billion dollars, or more than half as much as was raised by five drives in the first world war.

It was obvious that the task was hopeless unless the people of the nation were perately in earnest about the war. And it was equally obvious that here was, so to speak, a thermometer by which the fervor of the people could be measured with reasonable accuracy.

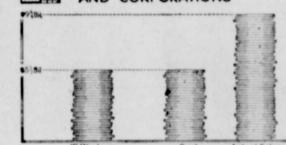

INSURANCE COMPANIES AND CORPORATIONS

FROM: The Secretary of the Treasury

A report on the most tremendous financing

task in history - - - the Second War Loan

TO: The American People

Who gets the credit?

The credit for the 2nd War Loan goes to the people.

It goes to the children who put dimes and quarters into war stamps. To everyone who bought a bond. To thousands of patriotic banking people. To advertising people who donated their creative talents. To patriotic merchants and companies who paid the bill for war bond messages. To radio stations, newspapers, movies, outdoor adver-

with 100 per cent attendance records | been applied. Just how much availn several of the departments, Rev. able phosphoric acid is in the plants W. Bridges, dean of the school can only be determined by chemical analysis

The cooperative school opens at 11:30. The average attendance for in the TVA program. the week has been eighty pupils. Rev. Bridges said.

Churches which are cooperating in school are First Methodist founders day last Friday church, Church of the Nazarene Cumberland Presbyterian church and the First Christian church.

An exhibit of the handicraft made by the pupis of the school will be on exhibit at the church at 8:45 o'clock Sunday night. Following the exhibit, the children will present a program that will include a summary of the past two week's train-

laxative is needed

This is why we believe you, as an American citizen, can take pride in this report. For it was written solely by you, the people.

The result, in dollars

Our goal was 13 billion dollars. Actually, the American people subscribed 18 billion, 500 million dollars.

This was 90% as much as was raised in all five drives of the first world war combined.

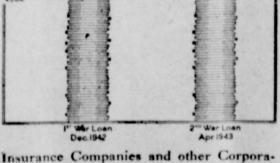

It was, I think, as much a victory for America and the free American democracy as any military triumph.

Where did the money come from?

You will be interested in where this 181/2 billion dollars came from - for every dollar invested in War Bonds is more than a purchase; it is a demonstration of faith.

The chart below shows the portion of the 181/2 billion that came from commercial banks. They were eager to buy more, by* were limited to set amounts:

COMMERCIAL BANKS III

tions know that there is no sounder investment than a U. S. Bond. The chart (top of next column) shows their purchases:

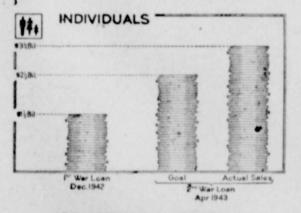

Actual Sales 2" War Loan Excludes Deolers and Brokers

Naturally, it was your money that bought the bonds in the two groups above - for you are the people who put your money in banks and invest in insurance.

But how about what might be called your "personal" money.

That is a very important question, for it is vital that Americans, as individuals, buy War Bonds with all they can spare.

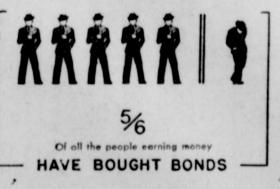

Our goal, here, was 21/2 billion dollars. The chart below tells the story:

50 million bondholders

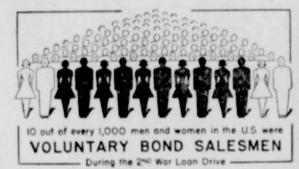

To review your record to date, almost half our entire population own at least one bond -including infants, children, the lame, the halt and the blind.

Or, to look at it in terms of those best able to buy bonds, see the chart below:

tising companies, and publications.

But chiefly, perhaps, to those who turned voluntary bond salesmen - a loyal leg.on of patriots.

What lies ahead?

Yes, America's record is good. But we cannot become complacent - for our biggest financing job lies ahead.

In the first 4 months of this year, we raised 25 billion dollars. During the balance of this year we must raise 45 billion dollars more.

The war is costing us 100 billion dollars this year. Part of this will come from taxes, and the balance must come from War Loans.

You, as an American, can take pride in what you have done. You have shown the Axis that Americans on the home front, like Americans on the battle front, will do all that is required of them -- and more.

But our need is great. Dig as deeply as you possibly can and invest it in War Bonds now - either through the Payroll Savings Plan or through special purchases. Don't wait for "drives."

and with dollars. We who stay home in safety must provide the dollars - all that are needed. It is the very least we can do.

Of all the people cerning money HAVE BOUGHT BONDS _ Henry Morgenthan fr.

J. H. Tribble Home After Attending **Mother's Funeral**

J. H. Tribble returned home Friday from Dallas where he was called earlier in the week by the death of his mother, Mrs. Mollie Catherine Tribble Roberts, age 80 years who died Sunday at Harwood Hall, following an extended illness.

Funeral services were held Wednesday at the Edd Smith Funeral home at Dallas.

The deceased is survived by three children. They are P. G. Tribble of Hillsboro; J. H. of this city and Mrs. W. B. Benton of Dallas. All the children were present for the last rites.

Mrs. Tribble visited here many times. The last visit here with her son and family was made two years

Weather and Crops

Many acres of grain sorghum have been planted this week as farmers are vieing for time to get their crops in the ground and up before the busy season of wheat harvest starts.

Wheat harvest is predicted to open in the county within the next fifteen days and will probably be in swing by June 20, one grain dealer said yesterday.

Cotton in the county is late. Many farmers have had to plant over because of recent hard rains. Two such farmers are J. D. Smitherman such farmers are J. D. Smitherman Recent Bride the outcome of late cotton are turning their acreage to maize another dealer said. It remains to be seen. probably by the first of next week, what the estimate of cotton acreage in the county will be.

out the freshly stirred ground W. S. Poole around the emerging plants, cotton growers indicate.

The thermometer went soaring this week to reach a high of 94 degrees Tuesday and Wednesday.

The temperature was recorded at 60 degrees this morning, according to records of West Texas Gas company

Showers over the county last week end were scattered with .58 inch recorded here Saturday afternoon. ranging to 11/2 inches in some parts of the county

Pioneer Re-Union-

(Continued from page one) forget while we are here, to help each other all we can." Mr. McLain told of some early-day incidents that happened when he was a and Will Massie was schoolboy teacher.

R. E. L. Muncy expressed appre ciation for meeting with friends of days past. He said: "We don't care for the little side-shows but to shake the hand of a friend, and perhaps for the last time Deen Reads Greetings

Judge Deen explained the absence of Harley Sadler who was absent because he was called to Dallas. He read a telegram from Judge W. M. McGeehee of Dalhart, who expressed greetings to the pioneers and a regret that he was unable to be present because of gas rationing.

Mrs. Nellie Witt Spikes, although not a pioneer of Floyd county, explained that the reason she was wearing a pioneer's badge was because she knew the life of a pioneer, she knew what it meant to 'come west," live in a dugout and gather cow-chips in a tub and whenever the chuck wagon lid was let down, she felt eligible to be

counted as one of the hands. Mrs. Spikes, loyal to her child-

hood home town of Old Emma, said "Old Emma proved her greatness b) producing two towns, Ralls and Crosbyton. Other speakers were Joe Wilson

Glad Snodgrass, Mrs. Aura Adams Hollis, Gertrude Braidfoot Arnold Mrs. Arthur B. Duncan, Floyd county's first pioneer woman, who spoke briefly of her children when they were small; Mrs. Orlie Furgerson G. Black, Gulia Snodgrass, Howard, Mrs. B. C. Willis, W Mrs. D. D. Shipley.
