Always in Action

Like a commando on attack, your Electric servant works in the dead of night — as well as the light of day — grim in determination to produce without interruption thousands of kilowatt hours that must be ready to go on split-second notice to help make materials for your sons and brothers on the battle front.

From Power Plant to consumer, the process of generating and distributing Electricity is made possible by many types of workers. There are firemen, turbine operators, electrical engineers, substation operators, linemen, trouble shooters, and others—workers of many skills—all doing their part to "pass the ammunition" to vital key war industries, business and homes 24 hours of every day.

WORKING for VICTORY ON THE SANTA FE

Through these hectic days and busy nights, troop trains, regular trains with troop cars, and freights loaded with war materials keep rolling along the Santa Fe.

Watch a section hand grab his pick a little tighter after a trainload of American fighting boys has rolled past. "We'll-get-'em-through" is his attitude these days.

Yet—he is only one of more than 60,000 employes on the Santa Fe who are doing their bit to "keep 'em rolling" all along the line...

moving millions of troops and millions of tons of materials needed for Victory, where and when they are needed.

They know that if you stop the wheels that move them, you stop everything that floats and flies as well!

And they never forget that thousands of boys in our armed forces came from Santa Fe ranks and from the families of Santa Fe employes, and these boys who are fighting for all of us have the toughest job of all!

You bet, we're backing them up in the best way we know—and that's by buying War Bonds, and seeing to it that movements essential to Victory come first on the Santa Fe!

Page Summarizes

His Attitude On
Father Induction

AUSTIN, Aug. 27.—General J. Wall Page, State Selective Service Director, Friday made public a digest of his remarks at a headquarters staff conference on the subject of the induction of fathers. He said:

"I am asked many times every day—and I know all of you are—about the drafting of fathers. If I could be given one convincing argument that the 18, 19 or 20 year old boy, unmarried, owes a greater moral obligation to fight for his country than the father of children, then I'd be glad to go over to the camp of those who think fathers should not have to serve in the armed forces."

"This is a young man's war. The older men cannot stand the terrific strain of present-day combat duty. The man in his thirties may stand up to the gaff for two or three or four days, but after that he is done and becomes a liability instead of an asset in the front lines. That does not mean, however, that there are not thousands upon thousands of other jobs in the armed services which can be handled by the older men."

Slows Up War Effort
"This drafting-of-fathers controversy, of which so much has been said, is a potent weapon in the hands of those who are most interested in slowing up our war effort through creating confusion and unrest among our people. It has even been used to strike a glancing blow at the heads of some of our lawmakers."

"We should analyze carefully the sources from which emanates all of this disturbing propaganda concerning fathers. The great hue and cry does not come from fathers themselves. From my personal observations I am convinced that the vast majority of the fathers feel it is not only their duty but their privilege to take their place in the armed services in this war to preserve everything which is precious to us. Thousands have already done so. If fathers should not be taken now, then what real right have we to retain in the services those fathers already there? What would the discharge of all fathers now serving mean? It would mean the disruption, in a greater or less degree, of our fighting teams—our fighting units; it would mean prolongation of the war; it would mean that many hundreds of boys who would otherwise come back to their homes will not come back—ever."

WITHERS, CLOSED A FEW DAYS FOR CLEAN-UP AND ADDITIONS TO CAFE

Addition of a new steam table to make quick, hot stews, chili, and similar foods easier to serve is among the changes and additions being made at Withers cafe this week, where a general clean-up from floor to ceiling is under way, to be followed with the paint brush.

L. G. Withers, the proprietor, said the cafe would be reopened as soon as renovation and improvements are complete, and not many days hence. He's strong in the faith that Floydada and Floyd county will continue to flourish and that people will still want to eat at a good quick lunch and cold drink place.

GEORGIA CLIFTON RETURNS HOME TO FIND HERSELF HUNTING FOR A HOME

Georgia Clifton, court reporter of the 11th Judicial district, returned home from a six-weeks absence in Chicago this week to find herself looking for a place to live. She had been making her residence with Mrs. A. J. Welch on South White street.

Mrs. Welch has sold the home to the Dot Hammonds family and was giving possession Monday. Mrs. Welch will live in her more modest residence on West Missouri street after it has been re-done and Miss Clifton will seek other quarters.

Miss Clifton's trip to Chicago was especially to take a modernizing course in a shorthand school, where she studied during her absence. Chicago was quite cool and pleasant during all of her stay there, she said.

Mr. and Mrs. Orville Poore of Amarillo visited from Saturday until Monday here with relatives. While here their daughter, Pansy, had a tonsil operation at the Floydada Hospital and Clinic.

Mr. and Mrs. J. H. Poore have been in Wizzard Wells, Texas, for the past three weeks taking the baths and treatments. They are expected home the last of the week.

Mr. and Mrs. O. E. Poore, now making their residence in Amarillo, were at home over the week end for a tonsillectomy for their eight-year-old daughter at Floydada Hospital.

Mr. and Mrs. R. C. Patton visited friends and relatives here Saturday and Sunday.

Mrs. Mary Lee DeLard of Lubbock spent the week end with her daughter Mrs. Audie Noland and family.

Proclamation

TO THE PEOPLE OF THE UNITED STATES

Proclamation

RECOGNIZING THE FACT that in carrying the war into enemy territory, we shall need greater amounts of money than any nation has ever asked from its citizens in all history, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do officially proclaim that on Thursday, the ninth of September, 1943, the Third War Loan shall be launched.

As Commander-in-Chief, I hereby invoke every citizen to give all possible aid and support to this Third War Loan drive, not only so that our financial goal may be reached, but to encourage and inspire those of our husbands and fathers and sons who are under fire on a dozen fronts all over the world. It is my earnest hope that every American will realize that in buying War Bonds in this Third War Loan he has an opportunity to express voluntarily and under the guidance of his conscience, the extent to which he will "back the attack."

The American people supported well the first and second War Loan drives and in fact did even more than was asked of them. Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask far more sacrifice, far more cooperation than ever before.

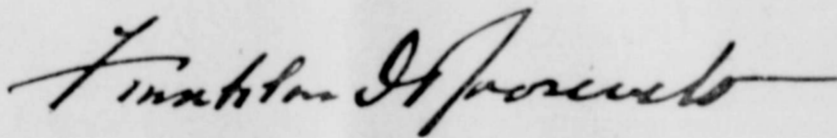

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington, this twenty-sixth day of July, in the year of our Lord nineteen hundred and forty-three, and of the Independence of the

[SEAL] United States of America the one hundred and sixty-eighth.

By the President:

CORDELL HULL
Secretary of State.
