

Surprise Victory For Whirlwinds Over Bulldogs

Within a period of four minutes after the beginning of the game and again in a like period at its closing. Floydada High School Whirlwinds lashed out to whip the Bulldogs of Spur high in their first clash of the season 15 to 0 at Westfield Friday night.

By so doing the Green and White clad squad took tenuous hold on the top rung of the District 4-A ladder, pending their tussle with the Matadors here Friday night.

Slick Ball Spells Trouble

Opening the game with a strong breeze at their backs the Winds breezed off to Spur and play opened kicked off the Spur 18 yard line. A shower of five minutes before game time had slicked the ball and the field with water. Spur failing to gain Draper punted on fourth down, a high ball that bounced bad and fast into the end zone where it was covered in the scramble by a Spur man. A safety—2 points for the Whirlwinds.

Back in play with Spur carrying on their 20, another bad kick gained only two yards net and Floydada had the ball on the Spur 22. Dudley made two yards through the line, Billy made four more and Dudley grazed through the field for 16 yards for the touchdown. Allen kicked true for extra point. Score Floydada 9, Spur 0. Elapsed time four minutes.

See-Saw Battle Ensues

A see-saw kicking battle with line plays by Spur helping to net some yardage, completed the quarter with the ball on the Floydada 35-yard line.

In the second quarter Dudley's improved kicking was a mighty help as the Whirlwinds played a careful game against the wind, and the nearest to pay dirt the Bulldogs could claw was the 20-yard line. Two punts out of bounds by Dudley against the wind, one for a gain of 25 yards, another for 27 yards, indicate how his toe education is progressing. The half ended with an intercepted pass by DuBois on the Floydada 30-yard line. The offense had been taken by the Spur lads but the Whirlwinds fought them away from the goal line successfully. The two touchdowns needed, as the wind aided them, were not forthcoming in the third quarter either, when time was called and the ball rested on the Spur 48. Ball, Rumbold and Draper had made good gains through the line but their end sweeps and passing attacks had been met and beaten down.

Second Touchdown Play

Opening the third quarter Draper got a kick downfield but Johnnie Collins, playing safety, made a whirlwind return to the Floydada 44 from whence George Allen called for another punt.

The line of scrimmage formed at the Spur 20, an offside Floydada, a fumble Spur and the ball was on the 21. Thence Draper kicked to the Floydada 37, no mean yardage, but the next play Dudley had the Bulldogs on their 20-yard line again. An attempt by Spur to pass for needed yardage was intercepted by Boteler at the Spur 32. Thence Allen around end to the 15, Allen off-tackle to the five and Dudley over in two tries for the score through the line. The kick was no good and the game was all but over. Score Floydada 15, Spur 0.

As Floydada kicked off to Spur time was called and the game was through.

Line Play Improves

Material progress in the line play of the Whirlwinds was noted by the fans in the week since the Lockney game. Big, fast Marion Parrish learned a lot at left tackle in two quarters and did a good job in the third and fourth. DeWinn Pyffe, star center last year, out of right tackle this season, also quit being shoved around at mid-game time. George Mize, kicked in the side early in the game, is learning his new position in the line. His relief, George Tyler, was a whiz on defense. Whirlwind blocking was very spotted, say the sideline quarterbacks, but they now look for the Winds to take Spur and the district in November 12 at Jones' stadium in Spur, if Coach Murry can keep them chugging.

Few injuries, all minor, were noted by Coach Murry, when scrimmage was resumed Monday afternoon.

Mother's Day

(somewhere in Europe)

...She was taking her little boy down to the milk depot.

A low-flying plane, marked with a Swastika, found her.

She is dead now. Mother's day is done.

What will happen to her little boy?

Who'll hold him and comfort him when he cries?

Will he find something to eat?

Where will he sleep tonight?

It's up to you. Through our community fund and the National War Fund, your contribution...your generosity can help this child and others like him in the shattered countries of the world. And it can help war-shattered families here at home...provide visiting nurses...combat juvenile delinquency.

But that's not all your giving will do. Maybe there's some mother's boy...a prisoner...behind barbed wire in a prison camp. He needs help. Maybe you have a boy away from home—in an army camp—or on patrol—far out at sea. He wants books...a game...something to help ward off loneliness. Your giving will help him because some of the money goes to the U S O.

This year many of the war agencies, to which you gave last year, have joined in the National War Fund, which with your local welfare agencies seeks one generous gift from you in place of many small ones. It is united giving for a united cause...on three fronts...the home front, the military front with our armed forces, and the United Nations front.

So look deep into your heart—dig deep into your purse...and give generously... Once for All these. Add up what you gave last year...then double it!

Announcement Party Reveals Approaching Wedding Date

An announcement party was given Tuesday night at the home of Mrs. L. D. Britton to honor Miss Anna Cates, daughter of Mr. and Mrs. J. C. Cates and bride-elect of Greer McCleskey, son of Mr. and Mrs. Ross McCleskey.

Co-hostesses with Mrs. Britton were Misses Margaret Hale, Flora Jeter and Frances Field. Guests were greeted and registered by Mrs. Britton. Misses Hale and Field served individual angel-food cake, nuts and coffee as the guests arrived.

The dining table was decorated with a centerpiece in pink and white. Christmas trees were used for the decorations that formed a circle around a miniature bride and groom. White candelabra burned on each side of the centerpiece. Pink and white streamers were placed throughout the entertaining rooms.

The announcement was concealed in tiny envelopes that were presented to the guests. They were made of pink linen and in blue ribbons and bore the inscription "It's a Match" fastened with a match and when opened the message "Anna-Greer, November 4." Games directed by Miss Field furnished entertainment for the evening.

Those who attended the party were Mrs. C. S. Sherrill, Mrs. Elton Olson, Mrs. J. N. Brown, Mr. Ernest Carter, Mrs. Bill Fowler, Clara Mae Jettison, Laurie Lee, Charlie, Mrs. Mary Thomas, Mrs. Elizabeth Snell, Margaret Beedy, Lovelle Ginn, Leone Helms, Maurice Burton, Yvonne Hale, Mona Blackman, Margaret Malone, Melba Pagan, the honoree and the hostesses.

Dorothy Giles Weds Clifford Helms Saturday

Miss Dorothy Giles, daughter of Mr. and Mrs. Horace Giles of South Floydada was married at 10:15 Saturday to Clifford D. Helms son of Mr. and Mrs. P. D. Helms of the McCoy community. The ceremony was held at the home of the bride's parents.

The bride wore a dark orchid dress with black and white accessories. She was attended by Miss Verene Gilbeath. Mrs. Helms has for the past month and a half been employed at Norman's Variety store as a saleslady. She plans to continue work this week.

Helms has served in the U. S. Infantry since February 1943 until two weeks ago when he was given a medical discharge. He was located at Camp Howe, Gainesville, Texas.

Mrs. Helms plan to leave next week for a defense center where they will make their home.

Supper Honors Cpl. Carl Parrish On His Birthday

Mrs. Omer Parrish honored their son, Cpl. Carl Parrish, with a birthday supper Wednesday night October 29. A beautiful cake was served with the words "Happy Birthday to You" on it. Gifts were given after supper.

Brother Killed In Action Hobby Heath Learns

First Lieut. Harold A. Heath, 29, of Plainview was killed in action in Italy, September 9, his brother Hobby Heath was notified last Wednesday, October 20. He was with an anti-aircraft unit.

Lieut. Heath's wife, who lives with her parents at Amarillo, was notified by the War Department late Wednesday of last week and informed the brother here and other members of the family at Plainview. The son of Mr. and Mrs. A. C. Heath of Plainview, Lieut. Heath had made a fine army record. He enlisted April 30, 1942 and on October 30, exactly six months later, was commissioned. He left Palacios, Texas soon after receiving his commission and landed in North Africa a few weeks later. He was promoted to first lieutenant in June after he was overseas.

He was a member of the national guard at Plainview. He graduated from the Plainview high school and attended Wayland college. He was employed in the grocery business in Plainview and Amarillo before entering the service. He had been married almost four years. The last letter his wife received from him was written September 3. Members of the family felt sure that Lt. Heath was killed in the fighting at Salerno.

The deceased is survived by two brothers in the service, Pfc. Hollis Heath, at the Amarillo air base, and Horace B. Heath carpenter's mate first class, somewhere in the Pacific also, Morris Heath of Amarillo, Hobby Heath of Floydada and four sisters, Miss Bobby Heath and Mrs. Beuna Roberts of Plainview and Mrs. Clayton G. Simmons, Mobile, Alabama; Mrs. O. C. Woolley, Fort Sumner, New Mexico.

Floyd county turkey producers should select their 1944 breeding stock early because present indications point to as large a consumer demand next year as this year. The parents of next year's crop should be chosen before the best birds in the 1943 block have been marketed. Those which matured fastest, made the best gains and fattened out early should be selected for breeding stock.

Walk the birds as the first step in the examination for the selection of breeders. The frame, compactness and body carriage are observed. Sometimes poor balance can be detected more easily this way than by handling the turkey. Select females which develop early, have good width of breast and deep body from back to keel. The keel should be relatively long and extend between the legs and the back wide and flat. The same consideration should be given in the selection of toms.

Such defects as weak hock joints, off-colored plumage, slipped or split wings and baggy crops also may be detected when the bird is walked.

A few turkey growers in Texas have been cooperating in a Turkey Improvement association and have been complying with certain rules that encourage the production of outstanding birds. New growers may purchase stock from these breeders and feel sure they have bought more than the individual birds. They have purchased years of breeding experience, careful selection of breeding stock and parent stock with high production and fertility.

Mr. and Mrs. David Battey of Harmony community are members of the Turkey Improvement Plan and follow the trap nest program in order to cull out profitable birds.

If we could realize the pain associated with the horn fly on livestock particularly cattle, we would resolve to do something about them. People get very angry when one small fly begins to bite. Infestations of 4,000 flies per head are common on cattle in Texas and frequently as many as 10,000 flies have been observed on one animal.

Seven meetings were scheduled last week to inform 4-H club and FFA members of the total food loss caused by horn flies. A total of 91 people attended the meeting and inspected the model horn fly trap which may be used to control this pest.

The damage caused by horn flies is due to the worry of the animal, the loss of blood and the production of sores which encourage screw-worm attack. Some investigators claim that during seasons of abundance the horn fly is responsible for a reduction of one-fourth to one-half of the milk production of dairy cattle and a considerable loss of flesh in all classes of cattle. The annual loss due to horn flies has been estimated at \$3,000,000.

Plans for the construction of a horn fly trap may be secured at the county agent's office.

Brian Hinkle began work Monday in the Brown Ship Yard at Houston. Mrs. Hinkle plans to remain in Floydada for the present.

Flake naphthalene or "moth flakes" is a protection against both mice and clothes moths but for different reasons. Mice dislike the "fragrance" of the flakes, while moths die from the fumes.

As the flakes evaporate, they give off a vapor which, if sufficiently concentrated, kills moths, say entomologists of the U. S. Department of Agriculture. So wool and fur are safe from moths if stored in tightly sealed trunks, chests, or closets or bureau drawers, even if they give off plenty of odor, will not disturb the moths.

Mice, on the other hand, have a keen sense of smell and particularly object to the "mothball smell" according to government biologists. As this time of year when mice from outdoors come into cellars and attics, flakes scattered over and around stored mattresses, upholstered furniture, clothes, books and bags of seed are good and cheap insurance against mice.

Dry beans and peas should be kept free from weevil. A good method of

protecting from weevils is to store the clean dry shelled beans in dry sterilized one-half gallon glass jars. Just before screwing down lid add 1/4 teaspoon of Carbon Disulphide or highlife in a small paper holder in each jar. Let stand 36 hours, open and remove paper holder, replace lid loosely; invert jar, let stand one week. Set upright and screw down lid. Store in cool, well ventilated room, as this aids in keeping the cooking quality of peas and beans. Watch carefully the first few days for any signs of moisture on inside of the glass. If moisture does occur remove the lid, tie cloth on top and place in direct sun until evaporated. Screw on cap and store.

Besides half gallon glass jars, coffee and syrup jars may be used. Tin press top buckets may be used for storing larger quantities.

Mrs. D. Y. Newman and children of Plainview spent the week end with Mrs. Kate Collier and daughter, Margaret.

Mrs. J. W. Womack left Tuesday for Monterey, California to join her husband who is stationed there.

How many boys from Floyd County won't come back?

NOBODY knows the exact number. Nobody. But—
The number who do come back—on their own two feet instead of in a flag-draped box—will be in exact proportion to the job we do here at home.

For every minute that we can help shorten the war will mean more lives saved. (213 Americans were killed in the final day of the last war, and 1,114 were wounded before the 11:00 o'clock Armistice took effect.)

Now one way all of us can help shorten the war is to tighten our belts and buy more War Bonds. Yes, still more. And . . .

If you think you're buying all the War Bonds you are able to, imagine—for a minute—that it's after the war . . .

. . . you're standing at the station . . . a bunch of home-town boys, still in uniform, climb off the train . . . one of them kisses his wife and grabs his kid in his arms . . .

. . . and then he turns to a young woman beside them, a girl who looks like his wife's sister, and you overhear him say . . .

"Catherine, I don't know how to tell you how sorry I am . . . it's such a shame about Joe . . . it makes me sick all over when I think how he'd be here today if the war had only ended a week sooner."

Think it over. Can't you buy a few more War Bonds to help end the war that week or month sooner? Sure, it may mean giving up something, but what's that compared to what they're giving up? And remember, always—The money you "can't spare" may spare a soldier's life!

Sale of Lot 14 in Block 58, in the original town of Plainview, to Josie Ely for a cash consideration of \$500 was approved, as well as the sale of 627 acres of school land, being Survey 26 in Block D1, Floyd county, to Jno. L. West, for a total consideration of \$13,774. Goen was appointed receiver of the property by the court in 1936.

5-Year Sentence Of Mac Williams Is Suspended

The five-year sentence assessed by a petit jury last week in Floyd county district court against Mack C. Williams, negro, was suspended on recommendation of the jury. Williams, a young negro, for whom it was claimed this was his first offense, pled guilty to burglarizing the Oxiel Chevrolet company office a month ago. Attempting to enter the safe forcibly the burglar loosed the contents of a safety container of tear gas which blinded the negro.

The NEW Winning of the West

The first unit of the Santa Fe System Lanes back in 1868

JUST 75 years ago this week, October 30, 1868, rail was laid on the first unit of the Santa Fe System Lines—a 17-mile stretch in Kansas from Topeka to Carbondale.

Today, Santa Fe System Lines are over 13,000 miles long, serving people and products from Illinois to California, and from Colorado to the Gulf of Mexico.

Looking Ahead

Farsighted men, even years back, began looking ahead to the Southwest and West not only as a land of enchantment and natural resources but as the coming theater of industrial expansion in this country.

The war has brought home the soundness of this vision—big things are happening today in the states of Santa Fe land.

States served by the Santa Fe

Thousands are flocking to Texas—great state of farm, factory and free enterprise—to man its booming plants, cultivate its soil, and ride its far-reaching ranges.

Kansas is becoming famous for its plane factories and munition plants, as well as its golden wheat fields.

Arizona is winning new fame in the fields of agriculture, live-stock, mining, and as an aviation center.

Oklahoma's oil is writing bright new pages in the science of war, and advances for the peace to come.

Freight cars are rolling out of New Mexico

loaded with essential copper, potash and zinc, as well as steers and sheep.

Illinois, Missouri and Iowa are saying it around the world with factory and food products.

The lead and silver and coal from Colorado's mineral-filled mountains are doing great things toward winning a war.

And in California, steel mills, shipyards, power dams, plane plants and lumber mills are working around the clock to supply more, more, and more of the sinews of war.

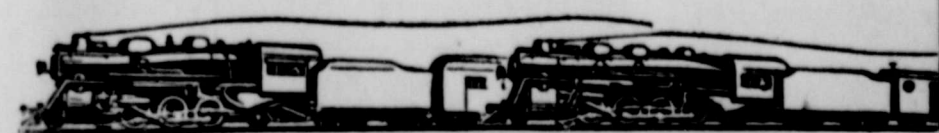

Santa Fe all the way for U. S. A.!

We of the Santa Fe are too busy "keeping 'em rolling" for Victory to take time off to celebrate the 75th anniversary of the laying of our first rail.

This is, however, an appropriate time to point out how important to the development of this New West has been the linking together of its States by Santa Fe rails. We are naturally proud to be part of this great development.

Carl Gordon, Jess Patterson Open No. Side Store

Carl Gordon and Jess Patterson this week are opening a fruit and vegetable store on north side square, the former location of the Rice hatchery.

The store, as indicated, will handle fruits and vegetables as they are obtained in bulk from all portions of Texas and the Rocky Mountain states.

Mrs. M. J. Maxwell Gravely Ill This Week At Home

Mrs. M. J. Maxwell, resident of Floyd county since the early nineties, is gravely ill at her home on West Mississippi street this week. She is suffering from the infirmities incident to age. Mrs. L. H. Smith, a grand daughter, said.

SHAW BUYS RESIDENCE ON WEST CALIFORNIA

Mr. and Mrs. W. A. Shaw recently bought the Ray Clements residence on West California street and will occupy it as a residence.

Their West Virginia street home they have sold to M. C. Fuqua.

Pfc. Lavern R. Huskey, stationed at Palacios, in the Fifth Tow Target squadron, will return to his base Saturday following a two weeks visit with his mother, Mrs. Lavern Husky of Lockney.

Mrs. Morgan Wright and Kris Wise spent the week end in Amarillo with her son, who is leaving for the army. His wife, the former Bernice Dallinger, and little baby will return to Plainview to make their home.

Frances Ruth Garrett and Eugenia Martin of Lubbock spent the week end with their parents Mr. and Mrs. Bob Garrett and Mr. and Mrs. J. G. Martin.

PROBLEMS OF RURAL SCHOOL RELATED BY GUFFEE IN TALK TO ROTARIANS

Down-to-earth problems of the management and financing of rural schools of Floyd county were presented in a talk to Rotarians at the club's weekly luncheon yesterday by Clarence Guffee, county superintendent.

Changing outlook in rural communities, the financing and management of schools, transportation buses, and the shortage of teachers, were detailed. Financing bonded debt on school buildings, many of them not now needed, takes nearly half of local school income, and the materials in the buildings can-

not be disposed of in any manner, said the superintendent.
