Last day of grace on income tax reports comes the middle of next week. All the big taxpayers have already, or soon will have, their reports made. All the 1040A class are reminded to do likewise. Millions of people in the United States will have a refund coming on their 1943 withholding tax and probably will need the money to help pay off for 1944. Servicemen's wives who are working, as well as others, including young women who are working for the first time in their lives and young men who have been able to get in part time and have had wages withheld, should fill out 1040A form and mail it to Collector of Internal Revenue, Dallas, Texas. It will be months and months before you hear anything from it but the money will be forthcoming some of these days, if you are entitled to any.

Speaking of reports and taxes, this is also to remind you that an estimate of your income for 1944 is due at the office of the collector, same as above, on March 15. However, you can't make this report now. The government has swamped the printers with work for all the multiplied thousands of agencies of our Uncle Sam, and the report blanks can't be ready in time. So the Internal Revenue department is making a little law of its own giving 30 days of grace on this report. It is important to yourself that you watch out for one of these forms, fill out the estimate, and get it in to the collector within the time limit set. Holler all you want to but fill out the estimate and mail it to save yourself a penalty. It may cost you to do this but it will cost you more not to do it.

Back on the beam as to markets: Are we wrong in thinking maybe that there is some profit in raising hogs at the present swine prices and fattening them for the market with feed at the present levels? We recall a friend some years ago who fed \$1.77 maize to 10 cent hogs and thought he was getting rich. Two dollar maize and \$13 hogs ought to be about the same. Anyway, we had a man the other day to tell us privately he made more money than he ever made before in his life on hogs, buying feed and buying shoats at the right size and feeding them out. He must be using quite a bit of skimmed milk in his feed, but this is not an argument about the matter, like we usually get into and take the unpopular side. We are just relating what this anonymous friend said. We don't give his name so that those who don't believe it will not bother him. We relate the matter principally because we want it to be so.

Interpolating (good long four-bitter) a thought here: One reason why Monday is getting to be almost as good a business day in small west Texas cities, and maybe the big ones, too, for all we know, is because Monday is wash day. Believe it or not, if you don't live on the farm or in about two jumps of the farm like small town businessmen, wash day is the day folks come to town nowadays. Washing in the relative comfort of a helpy-self with running hot and cold water and soap and a good washer right at hand is a considerable better way of getting the job done than doing the same work out in the back yard over a smoky pot, with cold, chapped hands and with other inconveniences. Expense, except for gas and tires, is not much higher the new way.

As to the weather: We are forced by circumstances to take the position that it is going to come at least one more real cold snap before Easter. What the situation right now demands is at least six hours of temperature 20 or below. The biggest crop of Russian thistles, careless weed and lamb's quarter in all history has bristled out over the country. Lambs quarter is not in the fields much as yet, it seems, but the thistles and the careless weeds are there, so thick the ground almost looks red in the reflection of an early morning sun, such as some farmers offer see. The weather during February was so mild and damp that it encouraged the weeds to come out early. An early crop of weeds and a late crop of wheat sure doesn't add up to a good harvest this summer. Granted the freeze a few days before the wheat begins to stem out, the weeds will be killed by the trillion and the wheat permitted to go ahead and do whatever it is going to do. Wheat is so young and some of it so backward, it may have to have all the breaks to make an average crop. So we have ordered the real freeze for about March 20 or 25, and could take it as late as April 1. Just a frost won't do. It will be tough on stock and people who attend to stock for a day or two, but they'll just have to take it for the sake of the harvest later on. We ask all the better element to stay with us on this matter.

All the low down on crops, weather, markets: Note with interest the price of eggs is being supported by the big butter and egg men under a contract with the government, probably some kind of a subsidy arrangement, whereby the flood of eggs from the nation's flocks is being taken care of while there is an over-supply without the chicken man getting so little for the eggs that he has to quit because he can't buy the feed. At that the chicken man is not too happy. His price this time this year is three to six cents lower than it was at the same time last year and the cost of his feed is one-third to a half higher. Undoubtedly chicken men will hang on and in some instances make money, in other instances not. It sure is a thrill to gather up a crate or two of eggs and take along when grocery buying and wash days come along.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

Friday, March 3rd. Today Margaret Nell is six months old. A high March wind is blowing outside, bending the evergreen near the porch, whistling round the house, shaking doors and windows. Margaret Nell is becoming a person. She can sit alone and crawl, she stands up in her basket holding to the sides. Two teeth are through and two more almost. Try as we will, we cannot get even a tiny curl in her long dark hair. She looks like a little girl in her new blue dress, and we realize the helpless baby is gone.

"Onions have disappeared from the hamburger," so a news item says, "now pickles are getting so they can no longer be depended upon, mustard seed are getting scarcer and higher." I can imagine the face of the hamburger-makers as they realize the situation and wonder if they are saying, "Well, it may be a bum-burger I will have to hand over the counter from now on."

Folks in Early Texas Days were very fond of playing practical jokes. My husband's cousin tells the following. "Uncle Henry Carter had a long tailed black coat that he wore to church and gatherings. My father, Obe Erwin loved to prank. So one day while Henry sat, still and dignified listening to a sermon in the log schoolhouse. Obe stole softly by, reached through a crack in the logs and caught the end of a long coat tail and tied a cob in it on the outside of the crack. Henry never noticed anything wrong and when the congregation arose to sing, he jumped up, the cob held and the coat was torn off. Obe was the first one to sympathize with his friend and wondered who the rascal was that would do such a dirty trick and not for a whole year did Uncle Henry find out who really did it."

Way back in the early spring of 1900 we find some interesting things in the old yellow day-book of Witt and Spikes, General Merchandise at Emma. Winter still held on as we find Geo. Benedict buying cough syrup and J. C. Gwin purchasing quinine. Winter clothing must have worn thin, as I find many buying overalls, priced at one dollar, yet signs of spring are there too, as W. R. Blanchard is buying millet seed and J. C. Murphy pays for a pair of slippers, only worn by the ladies in the warm part of the year.

Aunt Dell Smyer has eight yards of dimity measured off, \$1.10, four yards lawn 75c and Mrs. Holt is fixing to quilt the tops she has been piecing the long cold winter months as she buys 54 yards cotton checks for \$3.25. Here is a bill bought by Will Blue that shows prices of staples in 1900: To flour 100 lbs. \$3.00—sugar 14 lbs. 1.00—beats 8 lbs. 50c—coffee 6 lbs. \$1.00—rice 6 lbs. 50c. Three men prominent in work of the Christian brotherhood in the plains area of Texas will be among those present here tomorrow night, March 14, for the banquet to be for adult members of the First Christian Church and invited friends. They are A. K. Scott, state church builder, for Christian churches, of Canyon, Jasper Bogue, district evangelist for the panhandle area; and Walter P. Jennings, pastor of the First Christian Church in Lubbock.

A smart little story inacted with a rare freshness and good humor and permeated with catchy song numbers makes "Lord Byron of Broadway" which will be seen at the Palace Theatre, beginning Sunday afternoon and running through Monday and Tuesday, a treat for both eye and ear.

After an absence of several months at Oklahoma City, Fred Jones is again in Floydada and is associated with his father in the grocery and market business on West California street.

Floydada's first Boy Scout troop was organized in 1915, under the supervision of a number of local business men who are still actively engaged in sponsoring this phase of boy's work it was pointed out by G. A. Linder, Rotarian, who spoke before the members of the Floydada Lions Club last Tuesday at the noon hour. Mr. Linder, on behalf of the Floydada Scout council in regard to a deficiency in the Floydada financial quota for the Central Plains Scout area.

Toney B. Maxey was named attorney of the City of Floydada by the City Council in their regular Tuesday night meeting this week.

R. E. Bost, missionary of the Floyd County Baptist Association, reached home the latter part of last week from Port Worth, where he had been attending a conference of Baptist workers of the state at the Theological Seminary.

Miss Inez Paschal, who is teaching school at Idalou, spent the week end at home with her parents, Mr. and Mrs. W. N. Paschal.

John Splawn, who suffered a serious injury to one eye recently may lose the sight in the eye, physicians tell him.

The Junior class met Friday afternoon to select the best all round girl. Ruth Rutledge was elected by popular vote of the class, as the best all round girl.

The Juniors also met Monday afternoon, and the yell leaders were elected. They were Helene Hay, Gywendolyn Snodgrass, and Mildred Welborne.

The Sophomore best all round girl is Alice Mae Pyffe.

And I know her large family now as they stand round her still form as remembering their childhood days when always with humming round while she worked, they said with tears in their eyes. They could recall the whispering of leaves in the cottonwood trees she helped set out. They could see her, a large creamy jar of milk in her strong smooth arms, going inside the grapevine covered rock milk house to set the jar in cool water that her family might enjoy; they could see her stirring great pans of cooking Indian peach preserves, the sweat on her brow; they could see her when they were sick and her soft touch and gentle voice cooled the fever.

On and on they kept seeing pictures of her, sweet as the Texas phlox that she loved and grew around her door, peaceful as the soft air of a summer night. Picture of her and her father in the seat of a wagon, the children in the back, going to church or to Emma for groceries or to a picnic or plum hunt in the canyon. They could see her standing in the door, shading the sun from her eyes with her hands, watching for her boys to come in home from the ranches or from school. They

Would your car take-off and fly with 100-OCTANE GASOLINE?

"I had a strange dream last night," said the A-Card Driver. "Somehow I got a tankful of 100-octane gasoline; and when I left the gas station, my 1939 puddle-jumper had such fantastic pep and power that it took-off and sailed right over the head of the traffic cop."

Strange dream is right! Because strange as it seems, today's 100-octane aviation gasoline will not greatly improve the performance of today's cars. Your present engine was designed for the gasoline which was available at the time you bought your car, and 100-octane would add little or nothing to its satisfactory operation.

When victory comes, however, automotive designers will undoubtedly develop smaller, much higher compression engines which will deliver remarkable mileage and power with post-war super fuels.

When that day arrives, Phillips will be ready . . . because Phillips was one of the first, and remains one of the largest makers of high octane aviation fuels. Phillips present production of 100-octane gasoline could fuel

enough Flying Fortresses to drop 600 tons of bombs on Berlin daily. And soon the figure will be stepped up to an equivalent of gasoline sufficient to drop 800 tons of bombs per day on the German capital.

Actually, this American super fuel is not gasoline made by ordinary refinery processes. It is a true synthetic chemical, made by chemical processes which rearrange the petroleum hydrocarbon molecules.

That is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries, in addition to producing gasolines, lubricants, and fuel oils . . . are also gigantic chemical plants pouring out weapons for victory.

Time Extended For Filing Income Tax Declarations

The time for filing 1944 Declarations of Estimated Income and Victory Tax has been extended until April 15. These estimates of this year's income must not be confused with the final income tax returns on 1943 income, which 50 million people must not file not later than March 15. Returns on 1943 tax are required by law of all taxpayers, regardless of whether or not tax was withheld from their wages. Only a limited number of taxpayers are required to take the additional step of estimating this year's income, which has now been postponed until April 15. Originally, it was intended that both the 1943 Income Tax returns and the 1944 Declarations would be filed at the same time. However, the declaration forms were delayed versus Bill.

pending final action on the new Re-Collector Thomas said the new Declaration forms probably will be distributed late in March, and the first installment of estimated tax will not be due until the declaration is filed on or before April 15.

Sand Hill News

SAND HILL, March 6—Church and Sunday school was well attended Sunday. The Methodists met in the school house Sunday and conference was held. The presiding Elder preached. Sgt. Ralph Gee, of Camp Bowie, came Saturday night and stayed until Tuesday with his wife and son. Mr. and Mrs. Ed Holmes entertain with a 42 party Monday night. Mrs. S. E. Dickey and Mrs. Jewel Withworth, of Marshall, is visiting a few days with their daughter and sister Mrs. R. J. Weema. Flora Jeter spent the week-end with friends in Floydada.

Mrs. A. M. Cook and daughter, Glenda Ann of Kellytown, Mrs. Audrey Johnson, and son Troy Lee of Ft. Worth, and Miss Neoma Burgess of Lubbock have been visiting their parents, Mr. and Mrs. Lee Burgess the past week.

Center News

CENTER, March 6—We had a real March reminder Friday. We may expect plenty more of those kinds if this country runs true to history these two months just ahead. Our sympathy goes out to the Duff family in their recent bereavement. The S. D. Caldwell family visited Mr. Bill Caldwell in the Plainview hospital last Wednesday. The Rev. Muncy filed his appointment here Sunday for both services. We had the largest crowd out Sunday we have had in a long time. Hope we repeat the good work begun every Sunday both morning and evening.

Mrs. G. C. Bailey improves slowly. She seems to have had a rather stubborn case of flu that is hard to get over. She is up most of the time but no strength to go about her work. The 84 instead of 42 party met with Mr. and Mrs. Frank Dunn last Tuesday evening. Those enjoying the evening were Mr. and Mrs. J. R. Austin, Mr. and Mrs. Clyde Bagwell, Mr. and Mrs. Travis Lightfoot. Mr. and Mrs. L. H. Maggard visited Mr. and Mrs. W. B. Jordan Tuesday and Mrs. Maggard and small son spent Sunday afternoon and night with her parents. Mr. and Mrs. Leo Frizzell are driving a good looking car these days. We were glad to have Mrs. Elmer Williams and children out to church Sunday. We hope they decide to come regular.

Rev. and Mrs. Muncy and Mr. and Mrs. Floyd Anderson were Sunday dinner guests of Mr. and Mrs. A. W. Anderson. G. C. Bailey attended quarterly conference at Sand Hill Sunday P. M. News comes to us tonight of the marriage of Miss Modena Coldwell

and Weldon Cumble. We wish for them all that is good and lots of happiness. Last Friday evening Mr. and Mrs. A. W. Anderson entertained with a farewell party for their son Edwin who will soon go into the service of his country. Refreshments were served to Misses Lyndell Mae Simmons, Edna Mae Trusty, Willa Dean Rogers, Betty June Burleson, Mary Lou Wise and Marcileta Bradford; Messrs. Vervie Trusty, Joe and James Robertson, Elvis Warren, Billy Gene Warren and C. H. Wike. Rev. and Mrs. J. R. Gambrell and sons, Mr. and Mrs. Claud Carpenter, Mr. and Mrs. O. C. Vinson, Doris and Gerald, Mrs. Elmer Warren, Don and Margaret Green, Mr. and Mrs. Leo Frizzell and Virginia and the honoree Edwin Anderson. Eunice Welborn was to ill to attend church today.

McCoy News

MCCOY, March 6—There was a good attendance at Sunday school and church Sunday. Mr. and Mrs. G. A. Tardy spent the week-end with Mr. and Mrs. Albert Parrish of New Mexico. Miss Volene Hulsey of Wichita Falls spent several days last week with her parents Mr. and Mrs. Willie Hulsey. Cpl. L. H. Smith and wife spent Saturday night with his parents. Mr. and Mrs. L. H. Smith, Mr. and Mrs. Virgil Martin and daughter and Mrs. Edward Smith and son took dinner with Mr. and Mrs. L. H. Smith Sunday.

Miss Alice Helms, of Lubbock, was home over the week end. The community was saddened by the death of Yvonne Young last Tuesday. Mrs. Claud Payne and girls of Lubbock spent the week end at home. The girls are in school at Lubbock.

Mrs. Robert Smith spent several days with her parents of Olton. Her mother has been sick. Our community welcomes Mr. and Mrs. Irving Graham and daughter into our community. Mr. and Mrs. A. Tardy visited in the home of Mr. and Mrs. H. A. Tardy Sunday evening.

Mr. and Mrs. S. W. Ewing and B. L. and family had as their guests their grandson and nephew Cpl. Leslie Ray Copeland for a few hours one day last week. Cpl. Leslie Ray Copeland son of Mr. and Mrs. H. A. Copeland is here on a fifteen day furlough from Salinas, California visiting his parents and other relatives.

Mr. and Mrs. Copeland have come back to their Tourist Camp Copes. Mr. and Mrs. Copeland have come camp cleaned and painted and ready for business. Many most of their cabins rented. They have had it leased out for several years. We hear that our soldier boys are beating a path to Berlin. We are north of Floydada and have the so all others, who come after will have a good chance of finding Berlin.

Mr. James Smith, Mr. Joe Cox and Mr. B. L. Ewing were in Lubbock Saturday on business. Farmers are waiting impatiently for the ground to dry out enough to start plowing. MORE

The first day of Saturday school was well attended last Saturday. There will be school on Saturday until some time can be made up that was lost due to cotton pulling. Mr. and Mrs. S. W. Ewing, who has been spending several days in Floydada, visiting their daughter, have returned home.

We wish to join our sympathy with Mr. and Mrs. T. L. Pittman and family over their recent loss of a loved one. Death leaves a sting that can not be healed by human hands, but if we will look above for comfort he is able to comfort our weary hearts in such time of trouble. Mr. and Mrs. George Smith returned Sunday from a trip to Louisiana where they were called last week by the death of J. R. Williams, a brother-in-law of Mrs. Smith's. Mr. and Mrs. J. R. Williams are former residents of this community.

MAYBE... future cars with Glareless Lighting

BUT... OIL-PLATING YOUR ENGINE is like outdoing the future—today

3,965,194 people bought the "latest" cars — mostly 1941 models. Twenty-odd million cars are still older. All the probable new car orders—even if dated today—won't be quickly filled. Then what future car improvement is likely to mean more than the instant improvement of your present car's health?

The least you can do for it is to have unsuitable scratchy Winter oil drained. But get more than an oil change; adopt the major advancement of motor oil that OIL-PLATES—by getting Conoco Nth oil for your indispensable oil change this Spring. Conoco Nth motor oil adds protective OIL-PLATING to working parts by "magnet-like" effect. This comes from the special modern synthetic in patented

Conoco Nth motor oil . . . at regular prices. OIL-PLATING defies engine acids. These infest every engine; they're part of every explosion. They tend to corrode metals most when your engine's driven little—not heated throughout—often re-started after full cooling. Yet even for more favorable postwar driving you'll want acid-resistant OIL-PLATING. Why not get it without waiting? Today! Simply change to Your Mileage Merchant's Conoco Nth oil for Spring. Jennings Makes Statement on Race For Representative

The Voters of the 120th Representative District:

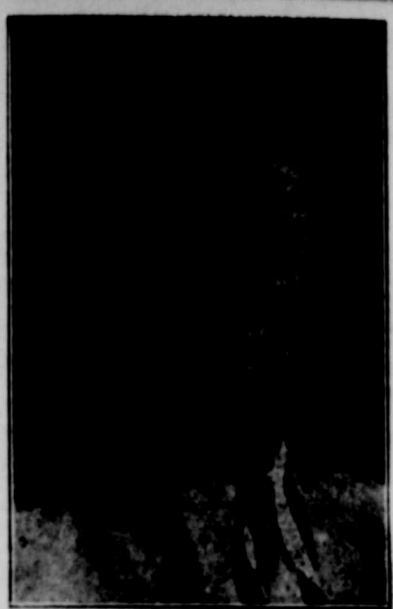

In announcing as a candidate for representative from this, the 120th legislative district, I do so with the fullest realization of the importance of this position in our state government and the duties incumbent upon our legislators. Of the three departments of state, the legislative is the most important in our government, since it is the legislature that formulates the policies of government and exercises full control over the state's financial structure, through the State Tax Board it fixes our tax rates and is responsible for the expenditures of the people's money; it enacts laws and repeals laws. On account of the broad powers of the Legislature it is more important even than the office of governor.

In these strenuous times of world conflict, with our democratic form of government and our American way of life at stake, my first thought is that of all other the war and of winning a just and lasting peace. The home front must be maintained regardless of the material sacrifices that we must make in order that our boys on the war front may be supplied with food, clothing, armaments and weapons with which to prosecute the war to a successful conclusion with a minimum loss of life. But in our zeal to win the war we must be alert to prevent permanent usurpation by ambitious, and possibly unscrupulous, politicians of the temporary dictatorial powers granted them in the emergency.

The reconstruction period that will follow the close of war will be a serious times, and to make the change from war production to peacetime pursuits will require careful planning in order to avoid a collapse of our industrial and agricultural economy; unwise interference by theoretical experts with the natural economic laws could seriously hamper, or prevent, an orderly readjustment of our post war problems.

In the beginning I wish to emphasize that I am making this race strictly on my merits and not on the merits of any opponent that I may have. It is my sincere wish that no mud-slinging will be indulged in in this campaign, and that no reign, inane or purely controversial issues will be injected. This is time to be haggling over impertinent questions, and it is my prayer that such things will not be indulged in by me.

I was born and raised on a stock farm in Caldwell County, Texas. I am a graduate in agriculture from Texas A. & M. College, class of 1911, managed a ranch in Bailey County from 1916 to 1918, and afterward moved to Lubbock County and ran a county agricultural agent for

seven years. For the past 15 years I have been farming in Floyd County, owning, living on and operating my farm. Since this is an agricultural country and its problems are principally agricultural I believe a dirt farmer who is otherwise

qualified can render valuable service in our legislature. Since my entire life has been spent in agricultural work I feel that I can render that service.

I believe firmly in government strictly within the limitations of our constitutions, both state and national. I believe in government of law and not of man, in "government of the people, for the people, and by the people." I am opposed to government by bureaus, boards and commissions with powers of law, court and jury. It is my firm belief that if the constitution is to be amended that such amendments shall be enacted as provided in the constitution.

I believe in the adequate support of our government of all of its necessary functions, but I am opposed to overlapping and duplicating boards and bureaus, and to those that perform no useful service to the public.

I believe in the independence of the legislative, executive, and judicial branches of government, and that there shall be no encroachment on the powers and prerogatives of one branch by another.

I believe in free and untrammelled courts, subject only to the limitations of the constitution, in order that justice may be done without bias or prejudice, and strictly within the purport and provisions of the law as interpreted by the courts.

I believe in the uniform enforcement of all laws so long as they remain on the statute books, with equal rights to all and special privileges to none, and the repeal of useful and unjust laws.

I am for the adequate support of our educational institutions, both the common free schools and the institutions of higher learning, and our eleemosynary institutions, the blind, the deaf and dumb, and the insane.

I am for the adequate support of the needy aged, the blind, the crippled and underprivileged children, but I am opposed to trying to create and maintain an Utopia for any class of our citizens. Self support and self preservation are still the first laws of nature. Industry and frugality must as ever be encouraged among our citizens, if we are to maintain a free, independent, and solvent government.

I am for a safe, sound, economical, and businesslike administration of our government, free from waste and extravagance. With the increasing demand upon our earnings to pay the cost of the war and to retire our national debt, state and local expenses must be held to a minimum in order to meet our obligations and to maintain a sound financial structure.

I am a firm believer in State's and individual rights with a minimum of interference and supervision necessary to proper government functions; also in the good old American system of free enterprises that has made of America the greatest and richest country in the world, subject only to necessary protection against monopolies and the oppression of the weak by the strong.

This is my first time to offer for elective office, and I have made no promise to any individual, clique, or clan, and, if elected, I promise to represent my district and my state as a whole to the very best of my knowledge and ability.

On account of the gasoline and rubber shortage I know I will be un-

able to make an extensive campaign and, therefore, must depend upon my friends and others who would like to see me elected to assist in presenting my candidacy to the citizens of the district. Your vote and influence, I assure you, will be deeply appreciated.

Respectfully submitted,
J. W. Jennings,
Lockney or Plainview, Texas

WOODROW GOEN'S DAUGHTER BORN FEBRUARY 27

Mr. and Mrs. Woodrow Goen, of San Diego, California have a daughter, their first born, which arrived on February 27, at Mercy hospital.

The little girl has been named Melinda Ann. She is a granddaughter of Mr. and Mrs. A. C. Goen of this city.

Mr. and Mrs. Charles Brown and Linda Ruth of Stockton, California are guests this week of their parents Mr. and Mrs. R. Fred Brown and Mr. and Mrs. W. H. Simpson. Mrs. Brown and baby will remain here for a month's visit, while Mr. Brown will return this week to his job in a shipbuilding company in Stockton.

Mrs. Marine Dazey of Clovis spent the week end with her brothers Mr. and Mrs. L. T. Hickerson and Mr. and Mrs. Buck Hickerson.

John McClesky of Afton visited in Floydada Saturday with relatives.

Jim Simpson of Texas Tech spent the week-end with his parents Mr. and Mrs. W. H. Simpson.

MRS. ATTEBERRY HOSTESS FOR HOME BUILDERS' CLUB

The Homebuilders club met February 25 at the home of Mrs. Dick Atteberry. Mrs. O. G. Mayfield led the recreational period with a political song quiz. Mrs. Raymond Williams won the prize for the song contest.

Several members answered the roll call with ways of achieving new members; some suggested going by and taking new members and introducing them to all members of the club, and then writing them a card a few days before the next meeting.

During the business session the T. H. D. A. funds were collected. The finance chairman Mrs. Atteberry announced a miscellaneous auction sale March 24th at Mrs. J. J. Parr's home.

Club members were happy to make cookies for the U. S. O. in Lubbock which serves the soldiers on March 18.

Mrs. John A. Lloyd gave a demonstration on something to make. The hostess served a delightful refreshment plate to Mmes. C. J. Parr, W. A. Cates, O. G. Mayfield, Elbert Park, Raymond Williams, R. H. Teague, Floyd Fuqua, John A. Lloyd, P. F. Bertrand, and the hostess Mrs. Atteberry.

The next meeting will be at the home of Mrs. C. B. Smart on March 10 at 2 P. M. with Miss Wilson demonstrating reworking household articles.

Mrs. Morgan Wright accompanied her daughter, Mrs. Ray Crabtree of Tullia, to Lubbock to spend the week end with her husband, S. Sgt. Ray Crabtree.

Report to the Nation:

When the 4th War Loan Ended— Our Fighting Men Kept Firing!

News that the 4th War Loan goal of \$14,000,000,000 has been reached and passed will cheer American boys from Italy to the Marshalls. But they will hear the news not only over sputtering radios but over the din of battle.

For the war still goes on with ever mounting fury. And that means that our War Bond buying must go on unabated, too. To the millions who bought extra War Bonds in this drive, all America gives thanks.

To the 5,000,000 and more volunteer workers who contributed their time and abilities to help make the drive a success, your Government and your fighting men give thanks.

To the thousands of patriotic newspapers, magazines, radio stations and networks, members of the motion picture industry, the outdoor industry, advertisers and agencies, retail stores, banks, post offices, credit unions, building and loan associations, labor unions, fraternal organizations and farm credit associations, the Nation gives thanks.

Once again Americans have proved their determination to "back the attack" to the full.

But the attack goes on

Look at Italy. When the 4th War Loan drive ended at midnight February 15, the drive on Rome was still going on. American boys were still crouching in water-filled foxholes—clinging with bitter and bloody tenacity to a beachhead the Germans were equally determined to take back.

Thus on the same midnight that witnessed the end of the 4th War Loan drive, the hands of the clock met like shears to

snip the lives of scores of American boys engaged in the March on Rome. *And the fight goes on.*

Look at Japan. At the same hour that saw the end of the 4th War Loan, the "March of Death" that shocked all America to a realization of Jap brutality to American prisoners of war—*that march was still going on.*

To liberate those heroes of Bataan and Corregidor before it is "too late," other American boys stormed and took the Marshalls on the road to Tokyo.

But that March to Tokyo—still 2,000 miles away—*that march goes on.*

And we on the home front

—can we afford to stop now that the 4th War Loan is history, while our all-important job of supplying and financing this costliest war of all time still goes on? We have won a home front battle here, yes. But just as our boys continue even more vigorously once they have established a beachhead, so we must continue to build on the success we have already achieved.

The Bonds we bought last week and the week before are today's exploding bombs and shells, and spent bullets can never be used again. We must provide for tomorrow, too. The need for new guns, planes, ships and tanks *goes on.*

For the war still goes on with ever mounting fury. So while all of those on the home front who have bought Bonds and have worked hard to make the 4th War Loan drive a success have earned the Nation's thanks, none of us can afford to forget that our home front job, including Bond buying, *also still goes on!*

Hasn't Come In!

Isn't it disheartening to be told time and time again that something you ordered weeks ago hasn't come in yet? Because of the war, deliveries are very slow. But, electricity is still reaching you on schedule. At the flick of a switch it jumps into action. War or peace we have made it our business to see that you have electric service available when you need it and in the quantity and quality desired. Even though there is plenty of electricity and its delivery is not curtailed, remember, it takes fuel, manpower and vital materials to make and use electricity, so don't waste it.

TARWATER SAYS HESPERIAN WANDERED FROM FACTS AS TO PLAINVIEW CREAMERY

Floydada Hesperian, Floydada, Texas. Some of your readers have recently called my attention to a publication in your paper, as they thought, criticizing the cooperative hospital movement, and this has brought to my mind anew an editorial "Plainview Creamery" (the Plains Cooperative, Inc.), in which you stated the "Plainview Creamery" was started or built, equipped and more or less maintained on large sums of free government money. Such a statement is just as far from the actual facts as it could be. The creamery opened for business in March, 1929. Not one cent of money from any government agency went into the original capital investment or in the equipment.

The money with which the plant was built and equipped to start on in March, 1929, came from the pockets of the farmers in Hale, Floyd and surrounding counties together with \$15,000 borrowed from the Plainview Building and Loan Association. To secure the loan from the Building and Loan Association, the board of directors of the creamery not only gave a deed of trust on the real estate, but the board of directors signed the \$15,000 note making themselves personally liable. Certainly these monies were not Government money or free money. The creamery as stated opened in March '29 just as the so-called financial crash was breaking on this country. All three of the local banks went out, but the creamery kept its doors open and did it on savings made by a group of farmers pooling their products and processing them in a cooperative, farmer-owner dairy processing plant, and did not use one dime of government money of any kind or character to build and start the processing plant.

B. A. L. Assn. Money
So far as I know, if you publish this letter, it will be the first time that any public statement has been made as to the Building and Loan Association money being borrowed. I might add that this loan was paid in full with the heavy interest charged for the use of the money, before the loan was due. In subsequent years we have obtained loans through the Farm Credit Administration district in Texas when it became necessary to do so, but not one dime of this money was free government money and has always up to now been paid in full out of savings made by a group of farmers pooling their efforts through a cooperative owned and controlled dairy processing plant. In other words the farmers pooling their efforts in the Plains Cooperative, Inc., have kept in their own pockets the savings made in the dairy processing plant and have kept this money in the locality where they live instead of seeing this money go to Chicago or such other place as the money invested in some other dairy processing plant may have come from. Out of these savings made by the Plains Cooperative Inc., (not free government money) the original capital investment put up by the farmers has been paid in full with interest and the Plains Cooperative Inc. has a net worth of \$215,926.14.

A. B. Tarwater.
(Ed. Note: Mr. Tarwater is former state representative of the 120th district, and is president of Plains Cooperative.)

SCHOLARSHIP AWARD GOES TO GREER McCLESKY

The American Institute of Chemical Engineers presented the annual chapter scholarship award to Greer McClesky, a member of the Student Chapter at Texas Technological College, who attended during his freshman and sophomore years, the highest scholastic standing of any member of the chapter.

The award was presented to Greer McClesky at the annual Engineers banquet held in the Hilton hotel, Saturday evening, March 4. Greer's parents are Mr. and Mrs. Roe McClesky, formerly of Floydada and now of Lubbock.

Jim Hammonds, Mrs. Hammonds and baby James, Jr. flew from Vernon Saturday to spend Jim's ten day leave here with his parents, Mr. and Mrs. John Hammonds. Jim is an instructor at Victory field, Vernon. He was doing much of the flying and barnstorming over Floydada Sunday.

Miss Ann McGlinchey of Fort Worth is here for a week's visit with her sister Mrs. Wilson Kimble and Dr. Kimble.

CARD OF THANKS

We express our grateful appreciation for the kind expression of sympathy given by members of the McCoy community in helping us in our time of need and sorrow during the illness and death of our child and sister, Eula Yvonne. Mr. and Mrs. B. L. Young and family.

CARD OF APPRECIATION

We are truly grateful and appreciative of the friends who were so kind and helpful during the illness and at the death of our mother, Mrs. M. J. Maxwell; also for the floral tributes and other evidences of esteem and sympathy. The Maxwell Family.

A. S. Green Dies of Heart Attack Mon. in Lubbock

A. S. (Asa Shurley) Green died of a heart attack in Lubbock Monday, March 6. Mr. Green, a native Texan, was born September 17, 1887 in Quitman, Texas. He moved to Memphis, Texas in 1919 and to Allamore community in Floyd county in 1921. Lillie Sarah Thoma became the wife of A. S. Green February 29, 1908 in Canute, Oklahoma. The Greens had lived in Lubbock for the past 1 1/2 years.

The deceased is survived by his wife, four sons and a daughter all of whom were present for the services.

Children are Leslie Green, Clovis, N. M.; Rudolph Oklahoma City, and J. C. U. S. Army, stationed in Oklahoma City, Okla.; and Harmon Duane and a daughter Lillie Lou of the parental home.

Mr. Green leaves one brother W. E. Green of McClain, Tex. and three sisters Mrs. N. J. Burford, Quitman, Texas; Mrs. Susie McClester and Mrs. Leslie Horton of Mineola, Texas; and five grandchildren.

Funeral rites were said here yesterday at 2 o'clock at the First Methodist church with Rev. Illies, a Methodist minister and friend of the family of Vernon, Tex. and Rev. L. A. Doyle, pastor of the First Baptist church, Floydada, officiating.

The body was interred in the Lubbock cemetery.

Quitaque Winner Of Tournament At Silverton

Quitaque High School's basketball team won the invitation basketball tournament at Silverton Saturday, when they defeated Silverton high in the finals.

Floydada High's Whirlwinds drew Quitaque as an opponent in the elimination round and lost 21 to 35. Turkey beat Fomot, Silverton won from Lockney and Wayland took Ralls in the opening games.

In the semi-finals Quitaque won from Wayland college and Silverton from Turkey to go into the final contest.

4th War Loan

(Continued from First Page) vate sponsors as a patriotic service. Report to the Nation

The text of the Secretary's statement follows:

"News that the 4th War Loan goal of \$14,000,000,000 has been reached and passed will cheer American boys from Italy to the Marshalls. But they will hear the news not only over sputtering radios but over the din of battle.

"For the war still goes on with over-mounting fury. And that means that our War Bond buying must go on unabated, too.

"To the millions who bought extra War Bonds in this drive, all America gives thanks.

"To the 5,000,000 and more volunteer workers who contribute their time and abilities to help make the drive a success, your government and your fighting men give thanks.

"To the thousands of patriotic newspapers, magazines, radio stations and networks, members of the motion picture industry, the outdoor industry, advertisers and agencies, retail stores, banks, post offices, credit unions, building and loan associations, labor unions, fraternal organizations and farm credit associations, the Nation gives thanks.

"Once again America has proved their determination to 'Back the Attack' to the full.

Attack Still Goes on

"But the attack goes on. Look at Italy. When the 4th War Loan Drive ended, the drive on Rome was still going on. American boys were still crouching in water-filled foxholes — clinging with bitter and bloody tenacity to a beachhead the Germans were equally determined to take back.

"Thus on the same midnight that witnessed the end of the 4th War Loan Drive, the hands of the clock met like shears to snip the lives of scores of American boys engaged in the march on Rome.

"Look at Japan. At the same hour that saw the end of the 4th War Loan, the 'March of Death' that shocked all America to a realization of Jap brutality to American prisoners of war.

"To liberate those heroes of Bataan and Corregidor before it is 'too late' other American boys stormed and took the Marshalls on the road to Tokyo.

"But that road to Tokyo—still 2,500 miles away.

Must Build on Success

"And we on the home front—can we afford to stop now that the 4th War Loan is history, while our all-important job of supplying and financing this costliest war of all times still goes on? We have won a home front battle here, yes. But just as our boys continue even more vigorously once more they have established a beachhead, so we must continue to build on the success we have already achieved.

"The Bonds we bought last week and the week before are today's exploding bombs and shells, and spent bullets can never be used again. We must provide for tomorrow, too. The need for new guns, planes, ships and tanks goes on.

"For the war still goes on with ever-mounting fury. So, while all of those on the home front who have bought Bonds and have worked hard to make the 4th War Loan drive a success have earned the Nation's thanks, none of us can afford to forget that our homefront job, including Bond buying, also still goes on!"

Counts Gets Out Of Commissioner Race in No. Two

Hugh Counts, of Lockney, who recently became a candidate for commissioner of Floyd county, this week announces his withdrawal from the race for Commissioner of Precinct No. 2.

Thus the crop of candidates for office in the county grows smaller instead of larger.

Counts found that his candidacy would necessitate his resignation from the Selective Service board of the county, and also that it would interfere with other business plans.

"I don't relish the idea of resigning from the Local board at this time," said Mr. Counts. He was a candidate two years ago for the office of commissioner and it had not occurred to him at the time of announcing this year that there might be a conflict, he said.
