RANDELL KING HAS TWO MORE MONTHS OF SCHOOL

Randell King, son of Mr. and Mrs. R. P. King of this city, who is in the navy, has just completed an advanced course in a torpedoman's school, and has drawn two months of school work instead of an assignment at sea, according to word received by his parents here.

Campaign Rids Streets, Alleys Of Stary And Vicious Canines

City Marshal Bob Smith's campaign against stray and vicious dogs in the community, principally animals without home or ownership, has resulted in the destruction of a very considerable number of undesired animals in the past two weeks, the marshal reported this week.

Claims that vicious dogs had attacked youngsters enroute to and from schools. None of the children were injured seriously, according to the reports reaching the marshal, but the continued threat made some action necessary.

Floyd county people take seriously their obligation to the men in the armed forces—their sons and husbands—to do everything they can to help.

Late yesterday the county's subscriptions actually paid in to the American Red Cross War fund had reached \$8,308, amounting to \$1,800 above the assigned quota of \$6,500, with five important communities not reported, although known to be raising money, and nine others with reports still incomplete.

Fund Continues To Grow

R. E. Fry, county chairman of the War fund campaign, said he would not be surprised to see the total paid in reach \$9,000 by Saturday night. The campaign continues throughout the month of March.

Mobilize Price Control Forces In The County

A drive to mobilize price control forces among retailers and consumers in Floyd County will begin March 20 under the direction of the local War Price and Rationing Board, W. Edd Brown, Board Chairman, announced today. Local board representatives will conduct a store survey of every food store of this area.

Price Survey Helpers

The following Floyd county people have consented to help in the price control survey in retail stores of the county, it was announced at the local War Price and Rationing board office.

Funeral For Aged Resident Held At Abilene Monday

Funeral for Mrs. Bethair Elizabeth Isom, 78, widow of Mr. and Mrs. Henry Martin, was held Monday afternoon at Drummond cemetery near Tye, Texas, 12 miles from Abilene.

and consumers join efforts to comply with the community protection program. This drive will protect us from the invasion of inflationary forces.

Vertical text on the left margin, including "ON VTS", "PFR FATS", "OUNCES", "would", "Army an", "itals wa", "small lo", "HELPS", "52c", "pefruit", "ound", "8c", "VATOES", "Points", "12c", "\$1.39", ".39", ".28", "\$1.44", "ABLES", "R K E T", "NIERS", "d 29c", "Meat", "sorted", "d 33c", "LEO", "SWEET", "d 27c", "DAST", "d 28c", "INS", "rket"

Campbell Pupils Select Museum School

of Campbell school in Floyd under the guidance of Mrs. McNeill, teacher, have as a very interesting collection of articles from 12 of the United States and five countries which the young people of their "museum", the range of running from stuffed liz- zard puppets.

idea grew out of a corres- pondence started by the children as part of their scholastic training. The collection is represented in the collection of Oklahoma, South Dakota, New Mexico, Florida, Illinois, California, Arizona, Wyoming and Arkansas, and the fore- eign countries include Hawaii, China, Switzerland, and Holland. A collection has been added

"Nature Club" or museum started the first of this school each time an article is added to the collection. The world books are to see what can be learned that particular thing. Those something interesting are an opportunity to tell the world. For example, when heard was brought in by a and put into a bottle of cyan- idine. It was very interesting learning to learn that there are in other parts of the world. The East Indian Archipelago are from ten to twelve and seven to eight feet in many islands. Such amaz- ing lead to the desire to read and the pleasure of reading the butterfly fly moth, facts along with the cater- pillar crystals has proved very interesting also.

To Other States has been a motive for writing. When the higher studies letter writing their letters to schools in asking of their club and asking donations. They were with the results, for many things were received. A motive for writing is

Expansion of Air Transportation Recommended

WASHINGTON, D. C., March 16 (Special)—Expansion of air transportation to the nation's smaller cities and towns, chiefly through establishment of area (feeder) airlines of the type proposed by South west Airways for serving Floydada, has been recommended by Civil Aeronautics Board examiners.

Eleven recommendations in all were made public by the examiners, in a report based on material presented to them at the extensive series of hearings held recently. In expanding direct air service to the smaller communities, the examiners urged that new routes provide a combination of passenger service and air mail-air express pick-up. They clearly made known their decision that these should be operated by new, independent aviation companies.

The examiners recommended that hearings on applications authorizing use of helicopters be deferred until models suitable for commercial operations actually exist, term- ing them "still in the development- al stage." They also urged that the Civil Aeronautics Board refuse to allow surface carriers to operate air services, unless such operations are supplemental to their surface carrying activities.

Heavy stress was placed upon the need for economical operation of the routes, "to keep the cost to the government through the compensa- tion for the transportation of mail within reasonable limits." It sug- gested a maximum rate of 25 cents per mile for carrying air mail.

Southwest Airways in its testi- mony during the hearings, had stated that the routes proposed in its application now pending before the Board could be operated for approximately 35 cents per mile. Company officials predicted that the additional revenues from carry- ing passengers would make it possible to reduce a 25 cent mail compensation substantially, "with- in a relatively short period of time after operations are underway."

The examiners recommended that use of single-engine aircraft with a single pilot be considered satisfactory. Southwest, however, plans to use twin-engine aircraft, carrying from 10 to 12 passengers and from 800 to 1000 pounds of mail, staffed with both a pilot and co-pilot.

Next step is expected to be scheduling of hearings by the Board on actual area airline applications. It is anticipated this will be done as soon as Board members have had an opportunity to study their examiners' report.

Southwest Airways officials re- iterated their belief that their application would be one of the first to be considered, due to the first- portation needs of the areas they propose to serve. Collection of data proving Floyd County need for area airline service will begin "in the next few weeks," they stated.

Articles in The Museum

Items in the collection include rocks, shells, ores, petrified wood, moledium and other strange for- mations including volcanic rock, the floating stone, coral, gypsum rock, mica and formations from the Grand and Grand Canyon, also formation from Carlsbad cavern; Nuts, berries, acorns of many different types. Lizards (one common and one very unusual) large taran- tula and snake in alcohol;

A collection of butterfly flies, moths insects, caterpillars and the crys- tals.

Tappa cloth, band weaving, unique plaiting, an ornament made from a cocoa nut shell by a native of Hawaii, chop sticks, ivory seam marker used by a Japanese seam- stress, Indian arrows; also

An empty 50-caliber machine gun shell shot from a flying Fortress B-17, also several other empty shells.

Make Believe Radio Station

Another thing which has proved to be of great interest in the class work is a make believe radio station. It is called W H I S. There is one large microphone for the announcer and to be used in story telling. Also enough table microphones for each class which are used during the "Quiz Kid" programs.

There is a box to hold questions pertaining to geography, language, arithmetic and health. Each pupil writes an interesting question on a slip of paper with the answer on the reverse side for each- other's lesson and places it in the box. Then at a chosen date the quiz kid program is given.

The inland Dead Sea of Palestine is saltier than the ocean.

Friday, March 11
 Will increase
 on March 11

Wheat
 The wheat market is showing a steady upward trend, with prices for hard red winter wheat reaching a new high of 1.15 per bushel. This increase is attributed to a combination of factors, including a tight supply and strong demand from both domestic and foreign markets. The weather has been generally favorable for the crop, and the planting season is well advanced.

Grain
 The grain market is also showing a similar upward trend, with prices for corn and soybeans both increasing. Corn prices have risen to 45 cents per bushel, while soybean prices have reached 1.10 per bushel. This is due to a combination of factors, including a tight supply and strong demand from both domestic and foreign markets.

Oil
 The oil market is showing a steady upward trend, with prices for crude oil reaching a new high of 1.15 per barrel. This increase is attributed to a combination of factors, including a tight supply and strong demand from both domestic and foreign markets.
