### As A Farm Woman Thinks

(By Nellie Witt Spikes)

The heat of midsummer has descended on us this Sunday afternoon. The wind is still at times, but the tender new green leaves of the cottonwood trees shake and make one feel cooler. Farmers still have hopes of rain in time to plant cotton.

We look back over the dry years and shudder at the thought of this being like they were. We cling to hopes of rain around the first of June. Are almost afraid to see a cloud come up for fear it will hail everything to pieces.

As I write I am dreaming of the two grand days that will be this week. Days when pioneers gather to forget the present and enjoy the memories of the past. A day at Floydada and a day at Ralls. Life on the farm goes on uneventful and then all at once is overrun with days that shine and glow. Days of supreme happiness to put away with the rose-petal days that have had their shine and glow in the past.

Captain Brown, the new editor of the *Crosby Review* and *Ralls Banner* is very enthusiastic about the history of the county he has now adopted. My mind and heart was so full of the happenings of past times that I now wonder why Captain Brown did not hold up his hands for me to stop. He is giving his papers the personal touch that editors of long ago used when the people were so few that when they came to town it was good for two or three lines of news. Of course that was when we seldom went to town and it was an event.

Nothing was so fascinating when a child as watching Dr. Carter measure out the medicine he was to leave. All the children crowded around him and I wonder if I did not jog his elbow occasionally as we tiptoed to see. He took out his pocket knife, cut white paper in small pieces, then reached in his medicine case and took out a small bottle and drew out the tight cork. Then he measured the medicine with point of his knife onto the papers folding each so that the powder would stay in and gave instructions for its use.

In the mail, my son sent four tracks from England to add to my collection. Buddy Cox wrote his folks he had come for me from different parts of China. A hobby

grows with increasing interest. My sister writes that her son got to see that big pile of gold and art treasures in Germany. Letters from old schoolmates, another book from Aunt Mirtie. This book is "Consolation" by Mrs. Charles E. Cowman who also wrote, "Streams in the Desert and Springs in the Valley."

I got a copy of "Tempest and Sunshine," too, last week. It isn't the best place in the world to read while the milker is milking the cows, but I do pretty well and have read some eight or ten books that otherwise I would not have had time to read.

Margaret Nell and Wilda have been gone all week and things would have been pretty quiet around here if Carey and Joe had not been staying most of the time with us.

Poem of the week  
**The Lonely Way**  
I'll hide my heart where the white stars burn  
And the clean winds sweep the sky,  
That none may seek it out or learn  
Of the dreams that whisper by.  
For the great souls choose the lonely way  
Though tears are dew mist there,  
And the fierce white light of the searching day  
Lays the scars of the seared heart bare.

Oh, lone, and stark the white way streams  
Like the lash of a scourging rod;  
But the stars are there, and those whispering dreams  
Aye, and the heart of God.

#### TRIBUTE TO THE FERGUSONS

Several Texans, who have banded themselves under the name of Ferguson Memorial foundation, propose to establish a suitable memorial monument to the memory of the late James E. Ferguson. Doubtless, there are many Floyd county people who would like to share in this effort and contributions from these in any amount from \$1 up may be made by them. The address is Ferguson Memorial Foundation, P. O. Box 832, Austin, Texas.

Signed as a volunteer group to the letter are the signatures of C. R. Starnes, Gladewater, Roy Sanderson, Belton, A. J. Wirtz, Austin, Jerome Sneed, Jr., Austin, J. E. Vickers, Lubbock, C. C. McDonald, Wichita Falls, W. M. Glenn, Lufkin, L. M. Bickett, San Antonio, J. E. Winfree, Houston, and others.

There are no promises or strings tied in with the letter. It is assumed that the names signed guarantee the money will be spent to the best advantage. Perhaps you will want to help. In case you do, see above. In his heyday a lot of folks threw up their hats and holed Hurrah for Ferguson. Some doubtless, will want to reverse the memories of those days now gone forever.

Cardui, many women say, has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 2 days before "time" it should help relieve pain due to purely functional periodic causes. Try it!

# These men can tell you why the 7<sup>TH</sup> WAR LOAN is the BIGGEST yet!

YOU ARE being asked to lend more money than ever before—in the 7th War Loan.

These men can tell you why.

They can tell you of giant ships ready to slide down the ways this year.

They can tell you of a whole new air force in the building—huge new bombers and fast new jet-propelled planes coming off the lines by thousands.

They could show you why it is cheaper and quicker to give our Pacific Forces entirely new equipment sometimes—instead of shipping tanks and guns from Europe.

They can, in short, show you 101 ways in which your dollars are needed more than ever to bring America's might to its full strength—so that we may crush our foe the faster, make an end of killing, and bring our men back home.

## Will you tell these men "I can't afford to buy my share"?

THE GENERALS and admirals can show us why our money is needed—more money than before.

But other men can show us something, too.

They're the men with twisted, crippled limbs . . . with clever iron hooks instead of hands. The blind men . . . the men with scarred, seamed faces. And perhaps worst of all, the men with blasted, darkened minds.

They can show us, clearly, how small is any sacrifice we make in lending money.

If you have an income, whether from work, land, or capital, you have a quota in the 7th War Loan. Find out what that quota is—and make it!

### Map Snipers Made Problem on Tiny Isles for SeaBees

NEW ORLEANS—Lorrain D. Britton, Chief Electrician's Mate of 517 Calif. St., Floydada, Texas was among 1400 Seabees, elements of seven construction battalions stationed at Guam, who docked at San Francisco recently and are on leaves home. Eighth Naval District headquarters has announced. All of the men have had more than 23 months in the Pacific. Chief Britton said the Seabees' first problem on the tiny Pacific island was clearing areas adjacent to camps and recreation centers of map snipers. Some casualties were reported by all the battalion groups from sniper bullets. All of the seven construction battalions hit the beach at Guam immediately after the invasion. "We went to work on the major field at Agaña," Chief Britton said "and 11 days after we started laying dirt we had planes landing on the strips." In addition to the airports, the Seabees constructed docks, wharves and barracks—everything that was needed to transform Guam from a bomb and shell-blasted island into a present headquarters of Pacific operations.

### The Home Front

(Edith L. Wilson)  
There are several small tasks in the Victory garden, such as thinning some leafy plants, which if tended to at once will improve production, says J. F. Rosborough, agriculturist for the A. and M. college Extension service. Thinning may be practiced probably with okra, squash and cucumbers. In the process, okra plants should be spaced two to three feet apart. If it is done now side branches will develop tender pods and thus increase the yield of each plant. Only the best squash and cucumber plants should be selected. These should be spaced at least three feet by removing all others, Rosborough says. Cucumbers especially must have ample space and plenty of moisture and fertility. Side dressing with two or three tablespoons of 5-10-5 commercial fertilizer per plant about the time the first blossoms appear will make the cucumbers smooth, crisp and tender. One pound of barnyard fertilizer per plant will give the same result.

### Settlers—

(Continued from first page)

L. Fawver, Mrs. George Smith, J. Blanco, and Jno. L. West. The last-named reported for his father, Miss Hester West, called by many, that she had left the day for New York City to meet the Board of Missions of the Methodist church. He indicated she would be used in a brief mission for other missionaries who are departing for work of the church around the world. Her innumerable experiences in China and the Philippines including internment and final liberation, will be passed on to others, when she again returns home for a time, he said.

The pioneers, always music-hungry, have not outgrown this characteristic of their early-day environment and the several numbers featured by a quartette of male members composed of Earl Rainer, M. Lyles, Lester Burgett and J. Gibson made a big hit with hundreds of pioneers and other settlers as they were given over to loudspeaker system.

Wood Floor, Too! In their heyday, the pioneer family could have dreamed that the day they would dance their bare feet under the shade of pine trees and on hardwood floors. But that is what they did. The lilt of the stringed musical instruments carried them back to more youthful days on floors which had been specially laid for the purpose on the lawn. The best plan was to hold the dance in an adjacent building but this idea was abandoned. It took several men only two days to lay and fit up the floor loaned by Fred Bell, among those who helped do this work were Jim Bennett and Jess Sandusky. The dance began late in the afternoon and was resumed to be carried

on at night under the stars after a brief intermission for supper.

### Boys Home—

(Continued from first page)

P. Collins, Jr., also of Floydada, is serving. Col. Jenkins saw Lt. Quentin Burgett one time during their internment. They were in the same camp but in different compounds. He saw Lt. Burgett in March of this year. Relatives of the latter confidently expect to learn of the latter's arrival in the states soon. An air corps man he was also shot down and captured over enemy territory. Col. Jenkins said in his compound there were no instances of the atrocities which are officially recorded by the American armed guard forces as having been done by the Nazis. "Every man had his own experience and each was different," said the veteran airman. "Thanks to the Red Cross we did not actually suffer grave want." He has a 60-day leave and will spend every minute of it he can with his parents and his sister, he said.

**R. C. Henry Story Different**

Attitude of the German military mind toward ranking officials and enlisted men is in marked contrast. Pfc. R. C. Henry, Jr., who arrived home Tuesday, underwent a great deal of privation. Cold and hunger often were the lot of men in his camp and when the allies began pushing in on the Germans there was a great deal of suffering among the prisoners as they were moved about over the country. He was a prisoner 18 months. He was liberated on April 27, reached the United States on May 24 and will have 60 days furlough, reporting back for duty at Hot Springs, Arkansas. He had gone through the campaigns in North Africa and was an ambulance man with the slim forces first pushed ashore at Salerno. He was one of many front line men captured when the Germans almost pushed American forces back into the sea.

### Rally at Harmony Raises Big Part of \$6,000 Quota

At a rally in Harmony school house last Friday night citizens of that district subscribed a large portion of their \$6,000 quota of E bonds in the Seventh War Loan drive. Chairman D. S. Battey reported the first of this week. Subscriptions for the evening were \$156 net.

Probably of considerable influence in the generous response of the men folks to the call was a fine supper served by the ladies of the home demonstration club, Mr. Battey said. "We expect to meet our quota," he added.

### Don Shaw—

(Continued from first page)

Moresby back to the Philippines. The months of defensive warfare against a Jap invasion of Australia gradually turned into an offensive and young Shaw, an infantryman, was in several of the major battles as well as in many skirmishes and mopping up operations as the American forces worked their way north from the jungle land to the invasion at Leyte. His outfit was on Luzon in the vicinity of Manila when he was given leave to return to the states. The Jap is a most unpredictable adversary in battle. Lt. Shaw said yesterday.

His only trips away from the fighting area were brief stays in Australia for rest.

**New Guinea Far Behind**

New Guinea has been left far behind as the fighting has moved north, so far as American troops are concerned, Don said yesterday. The Aussies are doing all the mopping up in the far south, although numerous bases and contingents of American men are stationed at strategic points in that area.

Lt. Shaw has no idea what his new assignment may be.

### MRS. R. S. PATTON HAS OPERATION AT PLAINVIEW

Mrs. R. S. Patton, who underwent a major operation at Plainview Monday afternoon, was recovering satisfactorily from the shock this mid-week and is expected to continue convalescence there for several days.

Mr. Patton and a sister from New Mexico have been spending much of their time with Mrs. Patton this week.

### MRS. PIKE HANNA'S BROTHER REPORTED KILLED IN ACTION

Word was received here last week by Mrs. Pike Hanna that her brother, J. B. Reece had been reported killed in action. It had been previously reported by the War department that he was missing in action. He was killed in Germany on February 8th according to a telegram received by his wife in Plainview.

Besides the sister here he is survived by his wife and two small sons of Plainview; his parents, Mr. and Mrs. Ben Reece of Lockney; one brother, Loran Reece and one sister, Mrs. Charlie Cross, also of Lockney.

### SENATE JOINT RESOLUTION NO. 7

proposing an amendment to Article VI of the Constitution of Texas providing that any person in the armed forces of the United States, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter; providing that members of the regular Army, Navy, or Marine Corps of the United States shall not be permitted to vote; providing that other members of the armed forces shall be entitled to vote under certain conditions; providing the form of the ballot for voting on said proposed amendment; fixing the time for holding an election; directing the Governor to issue the necessary proclamations; and making an appropriation.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. There shall be submitted to the qualified voters of the State of Texas the matter of amending Article VI of the Constitution of Texas, by adding thereto a new section which will modify the present restrictions concerning voting. This new section shall be inserted between Section 2 and Section 3 of said Article VI, and shall be known as Section 2a, and shall read as follows:

"Section 2a. Nothing in this Constitution shall be construed to require any person, who at the time of the holding of an election hereinafter referred to is, or who, within eighteen months immediately prior to the time of holding any such election was, a member of the armed forces of the United States or of the Armed Force Reserve of the United States, or of any branch or component part of such armed forces or Armed Force Reserve, or the United States Merchant Marine, and who is otherwise a qualified voter under the laws and Constitution of this state, to pay a poll tax or to hold a receipt for any poll tax assessed against him, as a condition precedent to his right to vote in any election held under the authority of the laws of this state, during the time the United States is engaged in fighting a war, or within one year after the close of the calendar year in which said war is terminated.

Provided, however, that the foregoing provisions of this section do not confer the right to vote upon any person who is a member of the regular establishment of the United States Army, Navy, or Marine Corps; and provided further, that all persons in the armed forces of the United States, or the component branches thereof, not members of the regular establishment of the United States Army, Navy, or Marine Corps, are hereby declared not to be disqualified from voting by reason of any provision of subsection "Fifth" of Section 1, of this

Article."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state on August 25, 1945, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the following:

"For the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Those opposed to such amendment shall have written or printed on their ballots the following:

"Against the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Merchant Marine, or who

has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Sec. 3. The Governor shall issue the necessary proclamations relating to the publication of the foregoing Resolution, in the various counties of the state, and shall cause the same to be published as required by the statutes and the Constitution in connection with the submission of proposed amendments to the Constitution, to the people for their action at a statewide election. If it shall appear from the returns of the election at which the foregoing amendment to the Constitution is voted upon that a majority of the qualified voters have voted for said amendment, same shall then become a part of the Constitution of Texas.

Sec. 4. There is hereby appropriated out of the General Fund of the State of Texas, not otherwise appropriated, the sum of Fifteen Thousand Dollars (\$15,000.00), or so much thereof as may be necessary, to pay the expenses of advertising said Resolution in each county in the state and for such other purposes as may be necessary, or required by law, or by the Constitution.
