Ration Free Gas Makes Vacation Travel Increase

Release of gasoline from rationing was the signal for travel over the highways of West Texas to jump a hundred per cent last week-end and for vacation travel, especially to the mountains, to begin.

Vacation - hungry residents of Floyd county who had been putting off their trips all began making their plans and they were aided and abetted in this by Old Sol who "poured it on" until Tuesday. Although lack of good tires kept a few at home others wangled around trying to get in their trips before the school year begins.

Let-Down Not General

OPA, along with WPB and other government agencies, is making every effort to join in the general let-up on controls but some items, including sugar, are still too tight to permit complete release. Sign that tires are getting more plentiful is given by the announcement that all farm tires are now off the list. Passenger and truck tires, though still in only moderate supply, are easier to get certificates for than formerly. A number of processed food items were released, at least temporarily, this week. Demand from army and navy is due to slacken and will help in this respect, it was indicated.

Release of low-priced shoes in certain categories has made a rush to the shoe stores. Sensation of the week in women's circles is the announcement that nylon may be back on the market soon. (See Ration Free Gas, Page 5)

Showers Cool Atmosphere

Showers Tuesday morning and again Wednesday morning of this week cooled the atmosphere quite a bit, and were followed by a cool wave Wednesday morning that brought the thermometer down from a sizzling 104 last Friday to 86 at 10 o'clock Wednesday.

About one-fourth inch of rain fell in Floydada in the two showers, with approximately the same reported from most sections of the county. North and northeast the rainfall was heavier.

Late feed crops have been growing satisfactorily but a good rain not later than the first of September is needed to keep the fields under full growth in the race against the first killing frost. Early planted forage feeds are maturing and the few fields of cotton that got up and started at the usual planting time are fine and fruited from bottom to top of the stalk. The acreage in early cotton is limited.

Incomplete reports indicate the rainfall was heavier along the caprock on the east side of the county. Dougherty had about an inch of moisture and in the northeast area above the caprock a half to 3-quarters of an inch fell. A strip through Campbell and Fairview had half an inch of moisture.

West and southwest incomplete information gives the fall about the same as at Floydada. In most communities plowing was resumed after half a day.

SCS Station Wagon Found Near Lubbock

The wagon in the care of S. K. Stewart who missed it Tuesday morning when he started to work. The theft is associated with the jail break at Plainview at 3 a. m., the same morning when five men escaped. They were said to have sawed out of the jail. A Plainview Buick was left on the streets here shortly thereafter and at 5 o'clock five men were rolling Aaron Cartel's car off his driveway when the horn stuck. He waked and the men ran away.

HOW MANY NEW HOMES

How many new homes are needed in Floydada? How many will be built and how soon is it until good lumber and other supplies in ample quantities will be offered to the public once more?

Questions like this come to mind as the wheels begin to grind out the first problems of the Japanese surrender. It is well to take it that the surrender and the occupation of the Nip areas will not be the simple and easy process that one generally associates with the word surrender. And the Japs will offer a harder problem, largely because we will not so well understand them, neither will they understand us. So readjustment will come more slowly in that respect and the army will have to have some materials available. Also there will be a squeeze, or may be, due to the serious housing situation in England and in other portions of Europe. Our government is going to take the attitude, are they not, that we owe the homeless of Europe some consideration. Furthermore, there will be those abroad who look upon Uncle Sam as the original easy mark and will take advantage of the generosity of the American people in the materials market.

Furthermore, it is not going to be easy just to go out and find the kind of materials we want when we want them.

But there will come the time when building materials will be available. When this time comes we conjecture that at least fifty new homes will have to be built in Floydada to house the people who are here in homes that are not really homes and of others who would like to make Floydada their home. If these materials are available quickly this is going to be one way of helping solve the unemployment problem locally for the days that men are coming back home from the wars.

Most every family would be improved if the parents would get back on speaking terms with their children.

OLD AGE ASSISTANCE

Last week The Hesperian took occasion to mention the change in the constitution as proposed to revise the old age assistance set-up, indicating the belief that the proposal, if adopted, would be an improvement over the present situation.

We did not intend to leave the impression that the change would be all that is desired, nor to make it seem that we expect the constitutional change would settle matters. In fact, the considerable opposition to the proposal grows out of the fact that the amendment does not provide that \$20 per month shall be paid a pensioner, but that "payment from the state funds shall not be more than \$20 per month." On the other hand, if we read the proposal right it sets no limit on the amounts which may be paid to needy blind and needy children.

Also the objection is raised that the resolution leaves the matter of need one of a question of fact. This will or could call for numbers of investigators, inspectors, and so forth, a thing which has been the occasion of considerable complaint among the aged of the state for some time.

Also there are other objections but these are not sufficient to meet the fact to our mind, that the change would come more nearly doing what the voters of Texas started out to do, which was to provide for the old people. The change, we think, will help in this respect.

There isn't anything that can be done that will keep the old age assistance question in Texas from being a perennial or biennial, perhaps better said, political football. But we can provide for the aged a bit better as we go along.

LEST WE FORGET

(Editorial contributed by Flora Smith Dean, Route 1, Petersburg, Texas)

When the last battle is fought and victory is at hand, do not forget the dear ones who gave their all. When the soldiers return, and they march joyously through our streets, honor them, but do not forget the lonely graves on distant shores in the snow and ice of the Aleutians, the hot sands of the South Pacific Islands, in Africa, Italy, France, Holland and Germany. Remember too, the many brave lads whose last resting place were the waters of the mighty oceans. They are the ones who have made our victory possible. Our beloved ones sleep in every land. They are our price for freedom. Do not forget them!

Keep safe the precious things they fought for. We won the war but they are the ones who paid for it. You, whose sons return, think of those lonely graves there. But for the Grace of God lies my son and yours.

Mr. and Mrs. Robert Welburn and their daughter, Linda, of Ft. Worth have returned to Floydada to make their home. Mrs. Welburn is the daughter of Mr. and Mrs. George Sparks of Floydada.

Pvt. Marion Parrish, son of Mr. and Mrs. Creed Parrish, arrived home Wednesday, August 15, from Camp Wolters on a 13-day furlough. Marion will report back to Ft. Ord, California.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

The world around us is a huge oven this Sunday afternoon with the heat control turned on to baking heat. The wind stirs the heating even making it almost unbearable. The electric fan is turned on by Mr. Spikes but he is uncomfortable.

The clouds sometimes hang a white veil over the burning sun, but even that brings no relief. The edges of the young beans and the young corn are up starved blue stems. It is August and it is hot.

Under the swaying long green leaves of the weeping willow on the north side of the house it is somewhat cooler, but the flies have pre-empted that shade and bite anyone that dares to share it with them.

Mr. Spikes is slowly getting better. He will have to stay some three weeks more in bed and then he can try crutches to walk again. It is a long sentence to him but company, letters and cards help pass the time pleasantly and he does not suffer so much now.

When I was getting up to where I thought I was about grown, there was a picnic at Roaring Springs. I remember how thrilled the ones were who were getting ready to go. The boys and sheet had to be put on the wagon, the chuck box filled, the bedding rolled up. The Simpson family were getting to go but I was just an onlooker and wisher-to-go.

Days after the return of the picnicers who had gone that long distance from Emma to Roaring Springs Mary Simpson held the place of honor for did she not know all about the big spring that gushed from the

rocky little hill! And hadn't she seen people from all counties around! And hadn't her red satin sash stood out as she danced under the starlight!

On the longing the rest of us had to go to that beautiful place! Time passed on as time usually does. I married and moved nearer that wonderful place. Every year something came up and I did not get to go. This spring I told my folks I was determined to go to the picnic at Roaring Springs in August but I find I cannot go. My hair will get silver, I shall be too old for a red satin sash, the covered wagons have rolled away on their white wing-shoes, I will not be able to dance under the light of the stars, but I still aim some day to go to that wonderful picnic ground!

America

However great the hardships and the trials which loom ahead, our America will endure, and the cause of human freedom will triumph. Cordeiro Hull. Only those Americans who are willing to die for their country are fit to live. Douglas MacArthur. With confidence in our armed forces with unbounding determination of our people, we will gain the inevitable triumph. So, help us, God, P. D. Roosevelt. The American people never carry an umbrella. They prepare to walk in eternal sunshine. Alfred E. Smith. American liberty is a religion. It is a thing of the spirit. It is an aspiration on the part of the people for not only a free life but a better life. Wendell L. Wilkie.

Buried was the bloody hatchet; Buried were the war-like weapons; And the war-cry was forgotten. Then was peace between the nations. Longfellow.

And we pray our boys will soon be singing with Henry Van Dyke: So its home again, and home again America for me!

My heart is turning home again, and I long to be In the land of youth and freedom beyond the ocean bars.

Where the land is full of sunshine, and the flag is full of stars. Johnny Hammonds, son of Mr. and Mrs. John I. Hammonds, spent three days at home last week from A. and M. College where he is attending summer school.

In Memory

Marked only by crosses of grey weathered wood
On the mound of bare earth that covers each grave,
There where their comrades so reverently stood
As they paused in battle to bury the brave;

May they sleep unforgotten upon the wide plain,
Or deep in the jungle, on the high hill,
Far in the north lands, across the deep main;
The banner they carried is waving still!

Let's Modernize Our State Supreme Court

Texas' phenomenal growth during recent years has brought a heavy demand upon the state's highest court. The last legislature proposed an amendment to the state constitution which would make our court comparable to that of other states in the population bracket of the great Lone Star.

Vote for a

NINE-MAN SUPREME COURT

August 25

(S.J.R. No. 8—Third Amendment on the Ballot)

because . . .

It will give a voice to all nine judges who now hear arguments and write opinions, but upon which only three are empowered to rule.

It will require a majority of five judges for court rulings, instead of two as at present. It will require five for a quorum, instead of the present two.

It will prevent the possibility of two judges handing down an opinion which might be entirely different to that held by one of the present three judges and all six of the court-appointed appeals commissioners.

It will enable the people of Texas to choose all of the men who serve on this court, with election of three each two years for six-year terms. Today one judge is elected each two years, with two Commissioners being appointed at the same time for six-year terms.

We, the undersigned members of the Floyd County Bar, urge our citizens to vote for this amendment. Because we believe the people should have the added efficiency which the action would provide for the court, we recommend the adoption of this nine-man Supreme Court amendment.

Because PRESTO COOKERS are so remarkable, and because, up until recently, their manufacture was totally restricted for four years, the nation-wide demand for these wonder-working pressure saucers is tremendous. . . The production facilities of the manufacturer of these cooking utensils are great, but the needs of the Government for certain essential war materials must still be supplied. As a result, such quantities of PRESTO COOKERS as we are receiving now are, and will be, far too few to supply the demand, for some time to come. . . In fairness to all, requests for PRESTO COOKERS will be filled in the order in which they are received.

Wild With Joy at Geiger Field When War Ends

Reports indicating the reaction of Floyd county boys to the news of the victory over Japan have begun to come in from camps over various parts of the country. Most of these reports tell stories much in contrast to the disgraceful occurrence at San Francisco where mobs ran riot two or three days.

One of these came from Pfc. Gordon C. Bullard, son of Mr. and Mrs. M. Bullard, who was on the drill training at Geiger field, Spokane, Washington, when the big news hit. Here is his story of 25,000 boys as written home on the 15th of August, the day after the president's announcement:

**How Happy to Express
Glory! Glory! Glory!**
Well but I'm happier than I ever was, and aren't we all happy?

This is just another time that we don't even begin to express our person's feelings; I went over to the telephone office to call you all on Wednesday evening, and the line of boys extended out for 2 blocks; and the men never did get their line through.

It was 4:03 p. m. yesterday when I got news of the war being over, and about 300 boys, were out on the field—drilling. Of course all of the hats were thrown high in the air. I never heard such yelling, and I never saw shaking hands, and hugging anyone else. A bunch of proud boys got all away from home, and they hugged each other and got everything off our chests to each other. Some crying, some just yelling, and some thanking God.

Our instructors and drill sergeants didn't even try to keep us in formation, cause they were happy. We all finally wandered back to the barracks. Then Colonel [Name] made an announcement over loud speaker, for every squadron report to the parade grounds, and didn't matter whether we had on the Class A uniforms or not.

Most of us hadn't shaved, and were dirty and all, but that didn't matter as the Colonel was happy. The Post band played the best ever heard, or it sounded that way anyway, and when they played the "Star Spangled Banner"—the grand old U. S. A. anthem, and all snapped to attention and saluted—I dare say there were but a few dry-eyed boys there.

Not Restricted to Post
Then the Colonel gave a fine talk, everyone thought we would be restricted to the Post for 48 hours after we got the news of the war over, but the Colonel was so good, he wouldn't do that, and let all come to town if we wanted to. You should have heard the yelling when he announced that, and we were off duty all day and tonight, and of course, last night. The Colonel then called the Chaplain to the loud-speaker, and he made a wonderful talk.

Well I don't know what I'd do—to get a chance to see you all this morning. Would help so much if I could just call you, and I might do it yet—when things calm down a bit. Of course we don't know what our set-up will be now. So many boys, it will take time to free us all. Will sign off for now. I know all of you are fine, with that wonderful news, and take care of yourselves, and maybe it won't be long now till I can see you.

Main Avenue Blocked Off
The main avenue was blocked off from car traffic, and it was a mass of people, the whole length of it—two miles. They had a bandstand on ever block, and those bands were playing too—old familiar war songs and religious, too. Each of us boys from Lubbock, knew where we all had our bunks, so seven of us came to town together, and did we have a time?

The bands stopped playing about 11:00 last night, and look off, but, of course, left the pianos on the bandstand. That bunch of boys picks me up, and the first thing I know I'm sitting on the piano stool. Wasn't long till the bandstand was packed with boys and girls—singing everything we could think of. Guess I did all right, as the piano couldn't be heard after they all started singing anyway—My! but we sure had some fun! The boys took the whole top and front of that piano off, but still couldn't hear it most of the time. That lasted 1½ hours. I tried to get up several times, and they'd slam me back down again. Was sure tired when I got away—Besides having a little blood-blister on each outside of my thumb-nails, but it was worth it all. Every bandstand had a crowd like that.

5 Good Country Tricks for Saving More Used Fats

THIS year our domestic supply of fats and oils will be approximately one and one-half billion pounds less than last year. Right now, we are facing our worst fat shortage since the war began. To make up for this staggering loss, the government is depending on the women of America—and particularly women on farms and in smaller cities.

Every spoonful, every drop of fat is needed to help make battlefield and homefront essentials. So roll up your sleeves and do an all-out job, won't you? Clip this checklist and pin it up in your kitchen as a reminder.

- 1. FRIED SALT PORK**—with milk gravy. Salt pork yields so much grease, you won't need it all for gravy. Pour the rest into the salvage can.
- 2. DEEP FAT FRYING**—use the fat over and over, but when it's too dark and smelly to use any more, don't forget Uncle Sam wants it!
- 3. ROASTS AND CHOPS**—save all trimmings (scraps from plates, too.) Keep them in a small bowl; once a week melt them down.
- 4. SAUSAGES**—they're better if you parboil them first. Skim the fat off the cooking water—scrape the fat from the frying pan.
- 5. CHICKEN SOUP**—chill it before you use it. Scoop off the hardened grease (soup tastes better, too!)

When the salvage can is full, take it to your butcher promptly. He will give you 2 red points and up to 4c for every pound of used fat you turn in.

100,000,000 More Pounds of Used Fats Are Needed This Year

and daughter have been making their home in Oklahoma City with Mrs. Inman's parents.

For his service overseas, Lt. Inman holds two presidential citations, the Distinguished Flying cross with four Oak Leaf clusters, and seven battle stars.

Among the Floyd county servicemen who have gone to the Pacific or are enroute to that theatre of operations are:

Len M. Davis, jr., lieutenant USNR, who has been at Pearl Harbor for sometime and presumably was moving up to the fighting zone with a night fighter group when the surrender came, and;

Captain Watson Jones, U. S. army, whose outfit was training at Camp Gruber and has moved out. The first of the week Captain Jones' parents, Mr. and Mrs. W. O. Jones, did not know whether he had shipped out although he had a temporary APO.

Walter Oliver of Waco, Texas, left Tuesday for his home after a four day visit in the home of Mr. and Mrs. Homer Hambricht.

Mrs. Wayne Gound and children of Big Spring, Texas, are visiting her brothers E. L. and Lewis Norman this week.

Mr. and Mrs. James Colville are returning this week-end to Floydada to make their home, after having been employed in war work in Amarillo, for some time.

Pfc. Bobby Colville recently returned from Italy after eight months service there, via a station in Virginia, to Amarillo. He will arrive in Floydada over the week-end with his father, James of Amarillo. Bobby is a grandson of Mrs. W. M. Colville.

Sgt. and Mrs. Russell A. Reed are visiting Mrs. Reed's mother, Mrs. Lena King of South Plains, and will later visit Sgt. Reed's parents at Dumas, Texas. Sgt. Reed recently returned from overseas service in Italy and will leave for another station the 13th of September.

Mrs. Wilda Ruth Pryer, who was taken to the Lubbock General hospital last Tuesday, is reported as being much improved, after two blood transfusions, one given Tuesday and the other Wednesday.

legged women without the benefit of bobby sock to protect their feet have watched longingly for the announcement that any kind of hose that look reasonably good will be in supply again, which makes the nylon story even more interesting.

Canning Sugar Situation

Issuance of sugar for home canning will stop August 31, Chairman W. Edd Brown, of the local War Price and Rationing Board announced today.

Original plans were to continue issuance through October, but the local Board has been advised to issue the entire allotment for 1945 by the end of August so that the home canning sugar program can be completed, he stated.

"This simply means that issuance will be speeded up and what we have for canning purposes will be issued by the end of this month," Mr. Brown said.

Most of the applicants in this county received only five pounds per person after the drastic cut in sugar rations was announced in the early summer, but after the county was put on a strict quota bases it has meant hours of planning on the part of the Food Board of which Walter G. Collins is chairman, to make it possible to even issue five pounds per person for Home Canning.

Serving with Mr. Collins has been Chas. Bedford of Floydada and Edgar Hays of Lockney.

All tractor and farming implement tires have been removed from the rationing list, it was announced yesterday by Mrs. J. B. Jenkins, chief clerk of the Floyd County Board. Official notice to this effect was received by the officer here Tuesday. Truck and passenger tires are still on the rationed list, the office was notified.

INSURANCE FIRE

FARMERS UNION from the national office on down believe in the Government's all crop insurance. In fact we think that without the support of the Farmers Union we wouldn't now have it in Floyd County. Personally I wish every wheat farmer in Floyd County would take this insurance and be safe. Then next year, if and when you get some good wheat growing, we will be glad to write 100% HAIL INSURANCE with NO 10% DEDUCTABLE CLAUSE.

Regardless of what the Old Line Boys had to say about we "might not" pay off, I say the record will show that "we did." The farmers, who had the hail losses, say we were fair in our adjustments and we paid all losses in full and paid Lewis Harber 100% Hail Loss. We think he is the only farmer in the county who collected a 100% hail damage.

Now about our Farmers Union Fire Insurance. It's new to Floyd County Farmers, but one out of twenty farm homes in Floyd County have now taken advantage of the 100% protection at less than one-half the premium rate.

John F. Lewis this week insured \$10,000.00 worth of Farm Buildings and Personal Household property in the Farmers Union at a saving of \$60.00 per year. No risk is too big for we have millions behind us, regardless of what "They Say."

H. H. Caldwell this week insured his tenant house for \$350.00 with up at a saving of \$3.50 per year. No risk too small to be appreciated.

You Farmers in Floyd County have some nice homes and we are on the up and up. You need this property protected 100% but you don't need to pay the double rate. Help develop another Co-op and let the madam spend the savings in your own home.

Floyd County Cow-Hog-Hen program sponsor awarded a registered Duroc boar hog to Melvin Dunavant 4-H Club member of the Lakewood community. The pig, Red Point III sired by Floyd Oison Ace Sissors an outstanding boar, was purchased at the Roy O. Wood Duroc sale Friday, August 11, at Plainview. He was top pig of the sale and his purchase price was \$11.00. The pig is a very nice individual and should be a worthwhile addition to the 4-H Club's program. Melvin, since the 4-H pig will not be exhibited in competition with the girls shown by other club members, hopes to make a creditable showing in the contest with his registered gilt.

4-H Clubbers planning to attend the Annual 4-H Club convention at Ocala (Oct. 27, 28, and 29) consist of the president of their respective 4-H clubs and those with outstanding records of achievement in demonstration work who will represent the county as entrants in state and national contests. The convention, usually a three day affair, consists of a short course arrangement of lectures on timely subject matter of importance to farm boys accompanied with recreational features including swimming, life saving instructions, soft ball games and rifle matches. There are opportunities for those present to develop leadership and citizenship in keeping with the needs so badly felt among rural youth for such training.

W. T. Bradburn: "I am opposed to Texas in October. I think it would be a mistake to have a killing deal, before November 15."

Thursday, August 30, is the date of the picnic for Home Demonstration club members and their families. It will be held on the court house lawn at 8:00 o'clock. Club members are asked to bring a picnic supper, plate, fork, spoon, glass and sweetened tea for each of her family. She will also need to bring a table cover.

The Home Demonstration club women will serve punch and cake to the servicemen at the U. S. O. in Lubbock on Saturday, September 1.

News about housing and equipment received this month by Mrs. Bernice Clayton specialist in home improvement for the A. and M. College Extension Service, is brief, but it's mostly good.

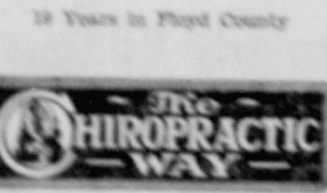

"Waitline rules hampering civilian production are being crossed off records giving manufacturers freedom to make almost anything they wish if they can get the necessary materials and manpower," says Mrs. Clayton.

The outlook for aluminum is bright. It was made available to manufacturers of civilian goods eighteen days before July 1st, the date previously set for permitting delivery to them. Limitations on the production of aluminum cooking utensils were removed, too, so chances are good that the pots and pans contributed to the scrap drive can soon be replaced.

Other restrictions revoked during the last 30 days are those on the making of enameled ware, vacuum cleaners, electric cords, bed springs, inner-spring mattresses, and studio couches.

W. T. Bradburn: "I am opposed to Texas in October. I think it would be a mistake to have a killing deal, before November 15."

Plans for mechanical refrigerators and washing machines are finally worked out. A program to manufacture 265,000 refrigerators and 350,000 washing machines between July 1 and September 30 has been set up, with production quotas and priorities assistance for materials to manufacturers.

Although there is no limit as to the number of machines that can be made if materials can be obtained without priority, there seems little possibility that any large amount of equipment will be produced out side the special program.

The refrigerators will be rationed to essential users; but the washers will be sold to whoever "gets there first."

Mr. and Mrs. Ernest Fowler returned Saturday from a trip to the mountains in New Mexico. They were in company with Mr. and Mrs. R. C. Ross of Lubbock.

Rheumatic Heart First as Cause Child's Death

STIN, Texas — Rheumatic disease is now the first cause of death among children aged 10 and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease its etiology is not completely understood. No vaccine such as those which prevent typhoid, diphtheria, tetanus and whooping cough has been developed for its prevention. We do know, however, that some of the danger signals with the physician's accurate diagnosis some of the damaging results of the disease may be prevented.

Pressure to frequent chilling, or overcrowded living quarters, a poor diet, an attack of scarlet fever, a bad cold or other infection caused by certain streptococcus germs are likely to be predisposing factors in the appearance of rheumatic fever.

Dr. Geo. W. Cox, State Health Officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows or wrists. The pain usually is felt in one of these centers and spreads it to the others. Often times a child will get irritable and cross without any visible signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be consulted at once in such a situation, for these symptoms may be the beginning of rheumatic fever.

According to Dr. Cox the best safeguards against this disease are to have each child examined at least once a year by a physician, to have the right kinds of food and plenty of rest. When the disease is suspected of being present, a doctor should be consulted at once, and if he prescribes complete bed rest, his advice should be implicitly followed.

CUDDS BACK FROM N. MEX.

Mr. and Mrs. R. W. Cudd and daughters, Martha and Mary Ann, returned home last Thursday from Albuquerque, New Mexico, where they have been visiting for the past few weeks with Mrs. Cudd's sister, Mrs. W. A. Cowan.

Before going to Albuquerque, Mr. and Mrs. Cudd had been in Kansas since June 1 where Mr. Cudd had been working in the harvest. While they were in Kansas their daughters were visiting relatives in Denison, Texas.

Pvt. Tommie Goodson, of Camp Wolters, Texas, is here visiting his mother, Mrs. Maggie Goodson, while on furlough.

Methodist Notes, Aiken District

(By J. G. Walker, pastor)

We closed our revival at Carr's Chapel Sunday night. Just run one week. We had a good meeting. Not as large a crowd as we expected.

Brother Bruce is a good preacher and made many friends in that community. The pastor's brother, A. M. Walker from Whiteface lead the songs. It is mighty fine on the pastor to have some others to come in and do the work, and let him enjoy it all. Many thanks to all that helped to make the meeting a success. The pastor, preacher and singer were delighted with the hospitality of each home in which we were entertained.

The meeting at Bellview began Friday night, with Brother Howell a Baptist preacher from Kress, Texas, preaching and Brother Pickens, Methodist pastor of Hart, Texas, leading the singing. Five professions Sunday night, and a good attendance Monday morning. You come and help us and share the blessings with us. This meeting will close this Sunday night.

Brother Dunn, Methodist pastor at McAdoo preached at Aiken Sunday morning. He was delighted with the attendance and response; and the people were pleased with him.

If you live near Aiken, Bellview, or Carr's Chapel, come, you will find a welcome each Sunday morning, where you can worship God.

Mrs. J. C. Sparks of Lubbock visited last week in the home of her son and family, Mr. and Mrs. Alva Sparks.

Mrs. Maud Burrus visited recently in Borger with her son, Jas. R. Burrus and Mrs. Burrus.

Fairview News

FAIRVIEW, August 20 — Feed crops in this community need rain. The hot weather of the past several days has really dried out the ground.

The revival meeting at the Baptist church closed last night. Rev. Martin, pastor of the Friendship Baptist church near Post, did the preaching.

It is good to see some of our young men that are in the service back home on furloughs. Lt. Shirley Irwin has been here for several days visiting his parents, Mr. and Mrs. Clyde Irwin.

Bill DuBois arrived last week from Spokane, Washington, to spend a 10-day leave with his parents, Mr. and Mrs. Edell DuBois. Mr. and Mrs. Walls are expecting their son, Cpl. Warren D. Walls to arrive home within the next few days from Germany. He has been overseas the past 11 months.

Mrs. Clyde Bagwell returned home last Tuesday from Santa Ana, California, where she spent a month visiting her mother, Mrs. C. L. Joiner. She was accompanied on the trip by her cousin, Miss Elizabeth Thacker of Lubbock.

Mrs. Arthur Stewart and children left today for a vacation trip to Amarillo and Clovis, New Mexico. At Amarillo they will visit with Mr. and Mrs. Virgil Cheves and Mrs. G. A. Stewart and at Clovis they will visit her brother Zack Felton and family. They plan to be gone a week.

Mrs. T. J. Jarboe, Mrs. D. D. Tate and daughters and Miss Peggy Ruth Walls visited Sunday afternoon with Mr. and Mrs. E. W. Walls.

Mrs. Jim Stewart and Jim Dan, Mrs. H. L. Chewning and Vondel Butler spent Sunday afternoon in Mrs. W. B. Wilson's home.

Lee Burgett is visiting his mother, Mrs. L. J. Burgett at Ceres, California. He also visited at Wellton, Arizona, with his sons, Carl and J. B. Burgett enroute to California.

Mr. and Mrs. Grady Connor and children of Lawton, Oklahoma spent last week visiting his parents, Mr. and Mrs. F. O. Conner.

Mr. and Mrs. Carl Mooney and Mr. and Mrs. Granville Mooney and son of Roswell, New Mexico, spent the day last Tuesday with Mr. and Mrs. C. W. Payne.

Mr. and Mrs. Clyde Bagwell visited Mr. and Mrs. J. B. Jordan Sunday afternoon.

Those visiting in the Arthur Stewart home last Monday were Rev. Martin, Rev. Butler, Mrs. C. L. Bradford and daughters, Mrs. Walton Wilson and daughters and Mrs. Bob Cannon.

Baker News

BAKER, August 20—Baker school will open on Monday August 27.

A Sunday school picnic was enjoyed at Roaring Springs falls last Sunday by Mr. and Mrs. W. H. Nelson, H. Nelson, Jean Nelson, and Marie Higginbotham of Borger, Mr. and Mrs. Dalphus Blodgett, Mr. and Mrs. Sam Green, Mr. and Mrs. Ryburn Neal, Mrs. A. N. Bratton, Mrs. G. L. Fawver and Mary Lou, Mr. and Mrs. Herschel Green and family, Mr. Martin Green of Seagraves. We wonder if Ray Smith can still get into his new Florsheim shoes and if Ryburn Neal can still get into his Sunday best trousers after being soured under the Falls.

Mrs. George Stiles returned last week after a visit of several days with her father in East Texas.

Mr. and Mrs. Herschel Green returned Thursday after attending the bedside of a sister in Dallas.

At the August meeting of the Home Demonstration club Mrs. C. B. Lyles gave a report on market. Mrs. George Stiles reported on the Educational committee. Mrs. Sam Green gave her report on the Educational short course which she attended at Texas Tech. Mrs. R. H. Ashton will take the office of president following the resignation of Mrs. Sam Green. Mrs. Olin Lyles was a guest of the club.

GOOD REVIVAL MEETING AT MCCOY, PASTOR REPORTS

The revival at the First Baptist church of McCoy closed Sunday night after a good revival with nine additions to the church made by baptism.

Rev. Bob Smith of Amarillo was evangelist for the revival and E. Otis Allen of Norton, Texas, had charge of the singing. There was good attendance throughout the meeting, Sidney Johnston, pastor said.

HOME ON FURLOUGH

R. A. Birchfield, who has been in the navy stationed at Camp Perry, Virginia, the past few months, has been in Floydada this week on furlough, his wife having moved here from their Oklahoma home when he went to the service.

Birchfield is a seaman second class. He will report back to Camp Perry for assignment.

Hale Boys Meet On Phillipines

The Hale boys, J. S., Jr., and Wayland, keep being lucky in their Pacific War theatre assignments so that they can get together occasionally.

Their latest was on the Phillipine Islands, both having been transferred to that island from other assignments further south as the war moved northward. Luckier than his brother, Wayland is the one who has an assignment that he can get away from frequently on three-day passes. He flies transport-wise to see his brother.

Mrs. Ruthie Davis and daughter, Linda Lee, whose home is on the west coast have been here this week enroute from Boston on a visit with Mrs. Davis' grandparents, Mr. and Mrs. W. H. Seale. At Boston they had been making their home with their husband and father, and returned home after he was given an assignment on the high seas.

Frank R. Baker of Greenville, Texas, who was seriously injured in a car wreck here about 5 o'clock Sunday morning, died Monday night in the Plainview hospital, and his remains were laid to rest in the Plainview cemetery on Wednesday.

Mr. Baker was accompanied by Mrs. Baker and a Mrs. Rouse of Dallas, were on a visiting trip to Albuquerque, and were returning home when the fatal accident occurred. The car overturned at the curve on Highway 70 in the north-west Floydada injuring the group.

They were given first aid treatment at the Pitts hospital here, but due to crowded conditions, Mr. Baker was sent to Plainview by Hamton Ambulance service to Plainview, where he died Monday.

Mr. Baker's mother and a brother came for the funeral, leaving for their homes Wednesday. It was not learned definitely if Mrs. Baker accompanied his relatives to their home, or if she departed for the home of other relatives elsewhere. Mrs. Rouse who was only slightly injured left Monday for her home in Dallas. The Baker car which figured in the tragedy, is

still at the Oden Chevrolet garage in Floydada.

Sporadic Cases of the 'Sleeps'

Sporadic cases of the "sleeps", horsemen's slang for encephalomyelitis of horses are reported from some areas of the county this week to B. B. Gulley, local authority on such cases.

Similar to blind staggers the disease seems to be more prevalent in periods of considerable rainfall, rank grass and stagnant pools of water, such as "lakes." On this account mosquitoes and flies are suspected of being carriers of the disease.
