## First Political Event of Year At South Plains

First political rally of the year for candidates of Floyd county will be held at South Plains on Friday night of next week when the women of the South Plains Parent-Teachers association will give a supper and sponsor a speaking to which all candidates are being given an invitation.

Ticket sales for the supper have been encouraging today, the women of the club state. They are anxious for tickets to be bought beforehand so that arrangements can be made to serve the supper comfortably to all, Mrs. Bill Beedy said here Tuesday.

Several candidates have indicated an interest and attendance by them and by others is expected to be general, the committee thinks. The date is Friday night, March 29, and the hour 8 o'clock at the school. All proceeds will go to the school.

## Inspect Unit State Guard Monday Night

Federal inspection of personnel and equipment of Company G, Texas State guard, is set for Monday night, it was announced this week by Lt. Harry Morckel, who urged all members to be out at the army promptly at the regular meeting hour.

Demonstration last week here of heavy weapons and armored car unit, at which were representatives of units of Lubbock, Crosbyton, personnel of Company G, proved helpful in presenting the guard's problems to the public, said Lt. Harry Morckel, of the Floydada unit.

Major Walter F. Smith, of the West Texas Recruiting station, was among army men present with recruiting sound truck and public address system.

Lt. Tom C. Myers, adjutant of the 39th battalion, TSG, also was present and appeared on the brief speaking program.

Need for the state guard to stand by in readiness to serve during the period of transition from state to National administration of the Texas militia, was stressed by the speakers.

## Hays O'Neal Jack Deakins Buy Buildings

Hays O'Neal and Jack Deakins have bought the store building of the B. B. King Furniture company, 50-foot of frontage on north side square, facing Missouri street, and making merchandising plans, for which they will use the entire building.

This week Mr. O'Neal, who will conduct the business, said that the stock and fixtures as well as the building were included in the purchase. O'Neal indicated it would be several weeks in all likelihood before they could have the building done according to their ideas, the business being conducted meanwhile in the quarters as are.

Mr. O'Neal, a recently returned navy veteran, hopes to have some interesting announcements to make later in the year, he said.

## Registration Automobiles Up to 1,100

Registration of automobiles for 1946 plates had reached 1,100 yesterday noon at the office of Assessor-Collector Ethel Graham, with a considerable list to come in from Carl McAdams, who has the plates for sale at Lockney for the convenience of the people in that area. Three hundred sixty-five farm and commercial trucks had been registered at the same hour, Mrs. Graham's figures showed.

Midnight, April 1, is the deadline for payment of the license fee without penalty.

## Legion Box Supper Monday Night Is Attended by 75

Mrs. Jack Henry was in charge of the box supper at the American Legion hall on Monday night. Seventy-five guests were present for the party with dancing afterwards. Guests were from Floydada, South Plains, and Dougherty.

Colonel Seal served as auctioneer for boxes and nylon hose, proceeds to the women's auxiliary fund. Approximately \$130.00 was raised.

Cecil Hagood donated two pair of nylon hose, which were auctioned off to the highest bidder, each pair bringing about \$12.00.

## Mrs. Angus Home From Funeral Rites Held for Uncle

Mrs. E. L. Angus returned Sunday from Fort Worth where she attended rites for an uncle, Sam Steele, 70, held Saturday at Greenwood cemetery.

Mr. Steele died Wednesday of last week. Survivors include his widow, two sisters and two nieces, one of whom is Mrs. Angus. He was a retired grocer, having been in business at Fort Worth for 30 years.

## Cotton Crop Insurance Offered In County Beginning This Week

With the receipt of the county listing sheets in the AAA office this week, the office personnel is ready to accept applications for cotton crop insurance for 1946. The program is similar to the 1945 program with the exception of one major change.

It was revealed yesterday by the directors of the proposed cooperative hospital to be located here that a gift of a good site and \$20 thousand dollars in money has been offered the organization with no strings attached, if a total of \$80,000 in membership is raised within a reasonable time to construct a \$100,000 plant. Construction must begin within eight months, the endowment proposal sets out.

Calling a general meeting to discuss the matter for next week-end, John A. Lloyd, chairman of the organizing board, said the unusual offer had been made by W. M. Masste.

Memberships at \$100  
Rate of progress in getting members today was not indicated. The charter was issued late in 1945 and memberships set at \$100 each, according to its provisions. Numerous other cooperative hospital plans in the area set memberships at \$50. Whether this has made memberships in the Floyd County Memorial hospital more difficult to place has not been indicated. The announcement issued yesterday said:

Citizens of Floydada and of the area in and surrounding Floyd County interested in participating in the benefits of a cooperative hospital are invited to attend a general meeting in the District Court room in Floydada, Saturday 2:00 P. M., March 30th, to hear cooperative management discussed said John A. Lloyd here yesterday.

The proposed Floyd County Memorial Hospital has been endowed by a gift of property for its location plus a cash endowment of not less than \$20,000.00 by W. M. Masste, pioneer West Texan, with no strings attached, providing the hospital membership raise \$80,000.00 to erect a \$100,000.00 institution, the construction of which is to begin within a period of eight (8) months.

"You are cordially invited to bring your neighbors and discuss the possibilities of this fine institution," the board of directors urge, adding that memberships are earnestly solicited.

## Allen Opening Meat Market

Lee Allen, formerly associated with Piggly-Wiggly as manager of the market department, but who recently resigned to go into business for himself, will open his market this week-end, he announced yesterday.

Opening of the new market has been awaiting receipt of equipment and refrigeration, delayed considerably in delivery. It is located in the store with Patterson's and the new inclusive name of the establishment will be Patterson's Grocery and Market, the two, however, under different ownership and management.

## Troop 57 Adding Names to Roster

Troop 57 of the Boy Scouts has been reorganized recently with J. E. Reams of The Reams Electric Shop and R. D. Webb, jr., of Webb's Food store as Scoutmasters.

The Troop meets tonight (Thursday) and each and every Thursday at 7:30 p. m. at the Scout Hall, Mr. Reams and Mr. Webb said on Wednesday. Both are pleased with the increase in attendance having between 15 and 20 boys last week and are expecting more tonight.

Both Mr. Reams and Mrs. Webb are discharged service men, navy seabees and navy respectively.

## Ralph McCurdy Mt. Blanco Dealer

Ralph McCurdy is the new owner and operator of the general store at Mt. Blanco, succeeding T. R. Elder, veteran merchandiser there. Mr. McCurdy took charge in February after buying the business, while the Elders have moved to Floydada to make their home.

As a permanent institution of the government, and it is here to stay." The policy will continue in effect from year to year unless either party gives written notice to discontinue by January 31, except in cases of yield or rate changes when notices must be given by the closing date for signing applications.

Deadline for signing applications is April 25 or the date of seeding the crop which ever comes first. For detailed information regarding the insurance apply at the AAA office in the agricultural building, Floydada, Texas.

#### FEELS AND OELS

One of the prime needs of the world is time and oil, not only for industrial uses but for making soap and other domestic purposes.

However, it has been difficult for the government to get people to stay interested. War-time needs brought out tremendous quantities of fats from the kitchens of city, small town and rural people alike. Not so now.

One of the things that has contributed to the slow-down in spite of continued appeals through press and radio is the lack of local receiving places. By the time a woman carries two or three pounds of used kitchen fat around for a while and it made to feel silly at a few places she begins to loose interest.

#### THEY'RE HUNGRY, KILL EM!

There isn't any doubt about it, they're hungry, all right, the tens of millions of people in continental Europe, in Asia as well. It is logical and customary. America's decision to try to see them through with food and clothing, soap and DDT also logical and customary.

In India, in China, in the Russia and in the European states those who are in place to do so, manage to get food and clothing and power and riches, as well for that matter. A starving populace doesn't mean anything to them. It is a long way to an ideal world, but duty to his country is duty to humanity if your conscience tells you so.

So America reaches out to them. It is so well.

Ben Holt is a character in a song.

## Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—so simple at all and costs little. It contains nothing harmful. Just go to your drugstore and ask for four ounces of liquid Barcol (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose

#### THIS AND THAT PACKED ROOM.

Uncle Sam took another strong tug at the pocket books of his taxpayers on March 15 and their respective bank accounts are considerably lighter as the result. Paying for the war and a lot of foolishness that went along with it as well as a lot more that has followed and will follow on.

Most everybody feels right about paying for the war. How feel good about paying for the rest of the stuff.

#### RAVING IS ON THE WIND

We are told that a good many of the old radios will be out-moded when the new ones begin to come on the market in the course of time and the parts makers go into production on repairs for the new kinds.

Frequency modulation and other changes in radios occasioned by the application of electronics are the big developments in the radio world that will make the old machine less useable. This is somewhat speculative for a layman to say. Those in the know tell us also that a good radio repair man of six years ago will have to relearn his job within another year or he will not be a good radio repair man.

#### WHEAT IS AN ANOMALY

For a good many years we have wanted to use "anomaly". It is a good, well-rounded word, surer fills up the month even when you are reading to yourself. We see many of the letter writers fire down on "anomaly" just as confident as can be. We can't guarantee them.

We believe we have found it one. And here it is: Thirteen Floyd county wheat bins completely surrounded by wheat fields. It isn't an anomaly it sure is something. Ask your farmer. Maybe he has looked it up.

#### ESTIMATED WHEAT ACREAGE

Estimated wheat acreage in Floyd county this year is 220 thousand acres, slightly less than 1944 when the county's crop made history in Texas.

Today an abandoned acreage except few spots where wire worms or some other insect got into the field while the ground is still bare.

## As A Farm Woman Thinks

(By Nellie Witt Spikes)

WHO SERVES A GARDEN Douglas Malloch

Whoever makes a garden has never worked alone. The man has always found it. The sun has always shined. The wind has blown across it and helped to scatter seeds. Whoever makes a garden has all the help he needs.

Whoever makes a garden should surely not complain. With somebody like the sunshine, and someone like the rain, and someone like the breeze to do him in his will, and someone like the Father Who gave the garden soil.

Whoever makes a garden has, oh, so many friends! The glory of the morning, The dew when daylight ends, The wind, and rain and sunshine, And dew, and fertile soil, And he who makes a garden Works hand in hand with God.

After the high wind of yesterday, Sunday, the quietness about seems so good. Joe Ellis was pretty sick again, but is doing alright now. Jerry and her children have been over for a nice visit. We are wanting to see Wilson so very much. This is going into the fourth year he has been overseas and sometimes it seems the ocean gets wider and wider, keeping him across on the other shore.

He has a place that is needed for him in all very much, but we get to wanting him to come home so that we cannot even cheer up one another saying, maybe it will be long now.

Every year the pear tree burst on our delighted sight with a new shining beauty. We are enchanted with its beauty and fragrance. Every little blunt twig is full of soft blossoms, and the trunk of the tree is hidden with the wealth of blossoms. We say to one another, surely it was never so lovely as this time.

The fatilla bulls have come in. I ordered early this year so as to get the kind I wanted before the stock was gone. There are a few hardy kinds that I know are good. I do not care for the larger types as much. I want the flowers for cutting. I want a whole row down through the middle of the garden, so there will be plenty to give away. We have learned how to make a

and made this stand. These are as few as to be almost negligible, looking at the crop as a whole.

Since the crop is stemming up considerably and this is only slightly past mid-March. Heavy freeze damage is still possible. Likewise, of course, there must be another good rain or two. But always, as far, when wheat comes out of the winter with a good bottom season there has been some wheat made—and sometimes a tremendous lot of it.

#### new pie, or it is new to us.

We think it is delicious and very easy to make.

Crust one cup sugar with 1/2 cup butter. Add heated yolk of four eggs. Add one cup corn, we like the red better, one teaspoon vanilla then fold in the well beaten whites of four eggs. Pour in this filled with crust and bake in a slow oven all time. This makes two big pies.

Every where we went in Floydville last week someone mentioned the loss of Brother Taylor. His honest, his integrity, his clear and sweet in the mind and liver of the one who knew him. He will be sadly missed, I know.

Well all is done and my last word is said. And ye who love me murmur, "He is dead". Weep not for me, for fear that I should know. And sorrow, too, that ye should sorrow so.

When all is time, say not that my day is over. I know that, though night I seek a dinner's rest, I say, rather, that my day has just begun. I greet the dawn and not the setting sun. When all is time.

This is such a lazy, sleepy afternoon, I find my mind wandering, first to one thing then another not thinking about anything much in particular. This does not make for easy writing of this column. The stock made advantage of a warm sunny day like this and in the sun, so lay to even out.

There were a bunch of plumes over the house a while ago. That is it sounded like a good many and after I went out and looked I could not see them. They must have been higher than the wind blew it.

Wonder if plumes will ever get so common that one will not try to see them. It is time for the mail and if I get this in time for this week's paper, I had better quit and hurry to the box. See you next week.

## Floyd County 14 Years Ago

These news items taken from the Floyd County Hesperian published 14 years ago.

Issue of March 14, 1931

Floydville High school's volleyball team of girls captured three straight games in a series played at Crosbyton with the Crosbyton High school team Wednesday.

## Re-enlistment Rule Permits MOS Held To Govern Grade

Men who have been honorably discharged from active army service or released under honorable conditions on or after May 12, 1945, may, provided enlistment is accomplished on or before June 30, 1946, be enlisted in the grade for which they were qualified in conjunction with their M. O. S. held at the time of discharge.

This is provided that the enlisted man was discharged in grade according to the M. O. S. number or higher. If the man has been discharged from the service with a lower grade than his M. O. S. qualification, he will be enlisted in the grade held at the time of discharge.

For full information contact T/Sgt. Joe F. Raindl, the recruiting officer who is in Floydada every Saturday between the hours of 12 noon to 4:00 o'clock in the evening. He can be contacted in his office in the County Court house in the Sheriff's office. Any questions veterans desire to ask on regular army enlistments will be answered by T/Sgt. Raindl.

## Conservation District News

A group of farmers living in the Starkey community met on the W. F. Ferguson farm last Thursday afternoon. Mr. Ferguson, chairman of the board of supervisors of the Floyd County Soil Conservation district, was in charge and was assisted by Guy Smith and Jim Wilman of the Soil Conservation Service. Mr. Ferguson discussed the organization of the district and how the District program and plan were drawn up. Mr. Wilman discussed the soil types found in the Starkey community and some of the practices recommended by the District on the different soil types. Plans of those farmers present who are now district co-operators were reviewed and changes were made as needed.

The District Supervisors received applications for assistance in soil conservation work during the past week for the following farmers: D. V. Whitfill, L. M. Readhimer, G. E. Assiter, M. A. Martin, D. L. Hall, V. C. Permenter, C. H. Origgs and J. S. McCulloch.

Arlon E. Miller of the Sand Hill community overseeded vetch on five acres of sorghum land last fall. The vetch is looking good now and will be turned under as a green manure crop when satisfactory growth has been made. This is being done in accordance with Mr. Miller's conservation plan to improve the fertility of the soil.

The Soil Conservation service assisting the Floyd County Soil conservation district ran lines during the past week for the following farmers to assist them in getting improved methods of water application established on their farms: A. K. Glover, L. M. Readhimer, R.

L. Baker, R. O. Wolf, T. J. Hudson, Jack Prizzell, Guy Ramsey, W. D. Colson, R. T. Spence, M. O. Peugh, and E. W. Turner.

## Lakeview Locals

LAKEVIEW, March 18—Born to Mr. and Mrs. Milton Harrison Sunday, March 17, a baby girl. Mrs. Harrison and the young lady, whose name we haven't heard, are in the Lubbock General hospital doing nicely.

**Be Quick To Treat Bronchitis**

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

**A Vital Message To Men Who Feel Old**

Why not regain the vim and vitality you once enjoyed?

If life apparently has lost its zest, you again may be able to enjoy life as you did in your youth. If added years have slowed down your vim, vitality and youthful pleasure, here is a simple method that may change your whole outlook on life. Just ask your druggist for CASSELLA stimulating tablets. Take as directed on label. Don't feel old and worn out at 40, 50 or more. Take these tablets regularly until you feel that you have regained the pleasure of living you once enjoyed. Why be discouraged? Why not try CASSELLA tablets and regain the verve and zest of a much younger man? There is nothing harmful in these tablets. They contain Celery seed, Thiamin Chloride, Fennel Flower, Iron. Ask your doctor or druggist about this formula.

### Tribute to Whom Tribute Is Due

In memoriam to Brother Tyler and dedicated to all people who loved him:

- Many were the Eyes that he has brightened;
- Many were the Hearts that he has lightened;
- Many were the Bins he put by food in store;
- Many were the Hours that he walked with God uphill;
- Many were the Deeds, the prayers, his mission to fulfill.
- Many were the Sprays and the wreaths, every sweet token;
- Many are the Befitting words, remembrances, spoke;
- Many are the Stars destined to shine in his crown;
- Many are the Saints and friends after this sun-down;
- Many are the Joys and sins all forgiven.

—Brother Tyler has bequeathed to Floydada a part of Heaven.  
—Lillie Littrell Looney March 11, 1946, with due regards to the beloved bereaved ones.

### COOP GINNERS MEETING

WACO, March—Plans are near completion for the first post-war convention of the Co-op Ginnners Association to be held here Friday and Saturday, March 22 and 23.

Now that we've made the world safe for Democracy, let's make the highways safe for pedestrians.

On Garrett street just north of the colt arena. Anyone on horseback or in a horse-drawn vehicle may be in the parade.

### Side Lights From Washington

(By George Mahon)

Some real progress is being made toward reducing Government spending and recapturing funds appropriated before V-J Day but not actually spent. This week the House passed a bill providing for the recovery of six and one-half billion dollars in unexpended Government funds in the hands of the army and navy and other government agencies. This brings the total sum of money recovered since the end of hostilities to fifty-seven billion dollars, a sum greater by almost one-third than we have ever collected in federal taxes in a single year.

We have not taken back from the Army and Navy certain unexpended funds required for rounding out the construction of bases in the far Pacific, but we have called for clearer policy and no duplication of effort in the construction of the bases. After the peace treaty is officially agreed to, it might be difficult to complete fortifications without the charge being made by certain foreign powers that we were making aggressive threats against them.

There will be further recoveries of funds from the War and Navy Departments and other agencies following additional investigations which are now in progress.

The reports which Senator Connally and Senator Vandenberg have made to the Senate following their return from the first meeting of the United Nations Organization in London have been well received here. They talked not of war but of peace. Their emphasis was upon better understanding among Nations. They spoke of tolerance and mutual respect, while advocating a firm and definite American policy.

The Senate has not permitted partisan politics to play a part in efforts which are being made to promote the success of the UNO. This significant fact was made clear by the report of Senator Vandenberg, the Republican leader in the Senate in foreign affairs matters. We cannot afford to fritter away a victory which was won at so great a cost.

The question of whether to permit the Navy to use 90 American ships in atomic bomb test in the Pacific was not an easy one for the House to decide. However, upon the insistence of the Navy, the House voted to permit the test.

Undoubtedly, it is very important to our security to have accurate knowledge at an early date as to just what an atomic bomb will do to naval ships. Naval officers point out that there is little comparison between the relatively fragile and inflammable Japanese cities and heavily armored ships of the Navy. The Navy insists also that a few modern ships be used in the test if necessary knowledge is to be gained. The argument was made that in the event of a future war the lessons learned from the tests might result in saving millions of dollars and thousands of American lives.

A bomb, other than atomic, will sink a single ship, but no one actually knows what an atomic bomb will do to a formation of naval vessels. Before proceeding with post-war plans, the navy wants to know if an atomic bomb will sink the navy. Naval officers apparently do not think so.

### DON'T leave your tires on the pavement!

When wheels are out-of-line — your tires suffer. Wheels that wobble and shimmy grind away rubber. These and other misaligned conditions eat the tread away. Thus every mile you drive, small particles of rubber are left behind on the pavement. You can save your tires — get more mileage and save money by having your wheel alignment inspected at our shop on genuine Bear Wheel Alignment Equipment. This service not only saves you money but offers greater comfort, easy steering and safety, too. Drive in today.

Identify our shop by this Happy Bear sign.

Imagine me giving myself a permanent!

# Cowboy Does Good Job as Coach at Flomot

The amateur Texas is a recent feature story told of the success of W. E. Harrison, an excellent coach at Flomot, when he beat the school which has been the outstanding rival in the area, winning from them a 10-0 victory.

There is no more story as told by The Times. This is the story of a coach who has added a new line of winning high school athletes and has won them a 10-0 record in his career.

He has, many, started youngsters to come from the 7-0 record of Flomot High School who were able to beat them 10-0 in the state.

Expansion of Teams: The new team which was built up by the school is a 10-0 team.

### GRAIN THIEVES ACTIVE FIRST TIME IN YEARS SAYS CROSBY CO. SHERIFF

CROSBYTON, March 15.—A warning was issued by Sheriff Roy Hillin this week to all farmers of Crosby County to be on the lookout for grain thieves as they are becoming active here for the first time in three years.

"In rounding up one gang of grain thieves last week, we found one farmer who had lost some of his grain and didn't know it until one of the suspects admitted to stealing some from that farmer's granary," declared the sheriff in issuing the warning.

Four Negro men and one white man were arrested and charged with theft in Justice of the Peace R. E. Karr's court at Crosbyton following arrests of the men last weekend. Three farmers were losers in the alleged acts of this group.

## How would you CHART YOUR COURSE?

Pictured here are the records of four "life lines" of our business—four things which largely control the destiny of any business, whether it be a farm, a factory or a store. They are Wages, Materials Costs, Prices, and Profits. Suppose these were pictures of what is going on in your own affairs. How would you chart your future course from these facts?

**What about wages?**  
Wages have risen steadily for five years. Before the strike which began on January 21 in ten of our plants and which has choked off nearly all farm machinery production, earnings of employees of these plants averaged \$1.15 1/2 an hour, not including any overtime. The Union demanded a 34 cents per hour increase and a Government board has now recommended a general increase of 18 cents an hour, which would make average earnings \$1.33 1/2 an hour. Weekly average would be \$53.40.

**What about materials?**  
No one seems to know how high materials costs will go. The Government has increased steel prices as much as \$12.00 a ton, with an average increase for all grades of 8.2%. Steel is the most important material we buy, but prices on other materials are also increasing.

**What about prices?**  
There has been no general increase in our prices since they were frozen by the Government in early 1942. Since then a few small increases have been allowed where particular machines were substantially changed in design.

**What about profits?**  
Risk is part of the American profit and loss system, so we do not, of course, ask either our customers or the Government to guarantee that we can be certain of profits each year. The chart tells the story of our profits during the war. Although Harvester produced more goods than ever before, it had no desire to get rich out of war, so our rate of profit has steadily gone down. What our 1946 profit will be is extremely uncertain.

**What is the next step?**  
As you can see, our present situation is that with frozen prices and declining profits, we are asked to pay higher materials costs and to make the biggest wage increase in the history of the Company. Can we do this?

Wages and materials consume all but a few cents of every dollar we take in. If our prices continue frozen, and cost of wages and

materials continues to rise, obviously our Company will begin to operate at a loss at some point.

The exact point at which operating at a loss would start is a matter of judgment. Government agencies and union leaders may have opinions as to where that point is. But if they turn out to be wrong, they can shrug their shoulders and say: "Well, it wasn't my responsibility. I didn't make the decision."

The management of this Company cannot and will not say that. It dares not gamble. It has to be sure. Continuation of our service to millions of customers, the future jobs of thousands of employees, and the safety of the investments of 39,000 stockholders depend on our making as correct a decision as is humanly possible.

**What about future prices on farm machinery?**  
The judgment of Harvester's management now is that we cannot safely make the huge wage increase recommended by the Government until the Government authorizes adequate increases in the prices of farm machinery to cover the resulting increased cost.

That is not a judgment that makes us happy. The Company does not want to raise prices. We prefer to lower prices, when possible, and we know our customers prefer to have us do that. We have produced at 1942 prices and hoped we could continue to do so. We have delayed seeking general price relief in the hope that it could be avoided. Now we are convinced that it cannot be avoided any longer. The price question must be settled. Until it is settled we do not see how we can settle the wage question. Until the wage question is settled we do not see how we can resume production and begin turning out the farm machines which we know our farmer customers need.

Because of the important stake which both farmers and city dwellers have in this controversy, we are bringing these matters to your attention. Through the cross currents of today's conditions, we are trying to chart a course that is fair to our employees, to our farmer customers, and to our stockholders.

### Make Your Cotton Planting Seed go Farther

Here is How

Let us delint your seed by the Kemgas Process then you can plant half as many seed and secure a better stand.

**Why is This True?**  
The Kemgas Process removes All the lint then recleans, grades, and treats the delinted seed with ceresan. Seed processed in this manner will germinate 3 to 5 days quicker than fuzzy seed. Tractors plant 25% more seed land in a day because there is absolutely no lint

to choke planter boxes and one filling of the planter box will run 3 to 4 hours.

**Planting Attachments**  
No special planting attachments are required—just an ordinary corn plate will plant these seed.

**Planting Seed Scarce**  
Good planting seed is scarce this year. Get the most out of your seed by letting us process them. We are equipped to do a first class job.

We are able to supply a limited amount of Kemgas Delinted Seed in the following varieties:

**Hi-Bred**  
Northern Star  
Macha (Storm Proof)  
Western Prolific  
D and P. L.

All these seed are first year from originator and are \$10.50 per hundred.

IN THE INTEREST OF  
**MILK PRODUCERS**

WE REPRODUCE HERewith SUGGESTED PLAN FROM THE TEXAS STATE HEALTH DEPARTMENT FOR CONSTRUCTION OF UNGRADED DAIRY BARN.

Recently there has been a general distribution of copies of regulations for the production of ungraded milk and cream at the dairy barn, as set forth by the State Department of Health. There has been much mis-interpretation regarding these regulations. Do NOT CONFUSE Grade "A" requirements with ungraded milk regulations.

Plan No. 7 For Ungraded Dairies

**NOTE:** This building is small, single wall, cheaply constructed building which can be built by the producer without outside labor. If only a two-stall barn is needed, only a little over 600 board feet of lumber will construct it. Considering the present cost of materials, the lumber in this shed should cost less than \$20.00 provided all new materials are used. If the producer has a well located close to the premises that can be converted into such a building, the cost would be much less. Used lumber may be used if it is smooth on the inside and painted. This plan is considered to be large enough for milking 3 or 4 cows, two at a time, and it is small enough that it can easily be moved by a tenant farmer if necessary.

**MILK ROOM**

The milk room should have at least one glass window which may be put on a slide inside the wall and which must be screened on the outside. A light wood floor will be satisfactory provided waste water is piped away from the milk room. The roof should join the walls high enough to exclude flies and dust. The floor should be about one foot above the ground surface. A dirt fill of about 4 inches under the floor will prevent standing water under the milk room. A pane may be cut from the top portion of a solid door and the opening screened. The pane removed should be fastened together with cleats and during bad weather may be placed back in the opening and fastened with wood bottom. This home-built door will serve the purpose of both a screen door and a solid door. The door should open to the outside and should be made self-closing with a spring. A storage rack built of wood 24 inches above the floor will serve as storage for cans, pails and strainer. Two valves or two tubs should be installed for cleaning and bacterial treatment of the utensils with a chlorine solution. Cooling facilities are required. This may be provided by piping cold water from the well by means of a pump or mill into the milk room and directly into a cooling vat or tank in which cans of milk may be placed. An overflow pipe should be so located that the water level would never be higher than the shoulder of the cans and this overflow pipe should drain into the

watering tank. A hoseless covering on the floor will assist in keeping it clean and 16 feet of roll roofing will provide a water-proof roof.

**DAIRY BARN**

The dairy barn may have a smooth dirt floor but it so, the front of the barn should face south and should be left open for ventilation and sunning. A poultry fence around an area of about 17 ft. by 11 ft. in front of the barn will keep out chickens, calves, etc. Feed must not be stored in the milk room or the milking barn. A separate feed room may be provided or feed may be stored in a nearby barn.

The job of producing milk on the farm throughout the year will be made easier, more convenient and more sanitary if it is done inside suitable buildings. The milker will be more comfortable and the cows will be more comfortable and will produce more milk on an average. Expensive buildings are not required. This small building is designed to comply with State Health Department regulations for ungraded dairies.

For further detailed information see Mr. W. J. Clark or Mr. F. P. Heneks, fieldmen for Plains Cooperative, Inc., at the main office, Pres Thorpe at Floydada Locker, or Foster Amburn, Milk Route man.

## THIS WEEK'S . . . PERSONALITY

We Freshmen have chose one of our class sponsors for this week's personality. She is Miss Alice Marie Osborne, one of the prettiest girls in school.

Miss Osborne was born in Brown- field, Texas. Her birthday is Decem- ber 17, ever year, but the first one was in 1922. She started to school here at Old East Ward, but Miss McKinney made her study too hard. She moved to Kerrville, where they didn't study so much and finished high school there Southwestern State Teachers Col- lege in San Marcos had the honor of her presence during her college career.

Her lovely clothes are evidence of her ability to sew, and sewing is also her favorite pastime. Other pet likes are: hobby—oil painting; food—cherry pie; song—"Folanise" show—"Christmas in Connecticut"; actor—Dennis Morgan; and actress—Greer Garson.

She still has the scar on her shin which she acquired when she fell off a car while hitching a ride. tsh, tsh. Didn't you know any bet- ter than that, Miss Osborne?

Last but not least, she is the sweetest and most patient teacher that anyone could wish for—I'm sure you'll agree.

## Junior Choral Club Girls Entertain

The members of the Junior Choral Club entertained guests with a dance in the home of Mary Eunice Hen- nessee Tuesday evening, March 12, at 7:30 o'clock.

After the dancing, the couples were served punch, cookies, and candy mints by Joy Lambert, Hazel Patton, and Beth Hinson.

Those present for the enjoyable evening were: Beth Hinson, Marihelen Lewis, Gloria Ann Shul- tz, La Veil Hall, Hazel Patton, Myra Nell Hall, Nanette Bishop, Valerie Burke, Ruthie Harmon, Marlene Foote, Marjorie Oden, Lovene Jones, Joy Lambert, Dwina Glassmoyer, Nita Patterson, Bobbie Medlen, Jo Muncy, La Rue Graves, Norma Car- penter, Betty Lou Tye, Sue Teague, and Barbara Moss.

Tom Ballard, Kelly Hagood, Elmo Hall, G. V. Hall, Fred Conner, Bill Hale, N. E. Tyler, George Tyler, Ovary Oden, Sammy Hall, Louis Lloyd, Gene Pharr, C. L. Berry, Pete McGee, Glenn Carmack, Melvin Robertson, James Elliot, Weims Nor- man, Bruce Womack, Kenneth Fin- ley, Travis Jones, Leonard Grigsby, Corkey Guffee, Orby McClesky, Bobby McGuire, and the hostess, Mary Eunice Hennessee.

## HH-HAGOOD AND HALE Escort Bureau

Young man, are you lonely? Do you want a date, but are you too bashful to ask for one? For the mere sum of \$2, we will get you a date with a beautiful girl. Phone number 198-W or 35 between 5 - 8 o'clock.

Miss Marr: Jane how would you punctuate this sentence: "Mr. Baker, a handsome man, is one of our Freshman sponsors." Jane Frizzell 'D make a dash after Mr. Baker!

## De Quacker

HI SUCKERS! This week is Freshmen Week in FHS, and I am delighted to treat all the Frosh with a few juicy slants on news events of the past week. I've picked up some of the most interesting details about these and I've come to the con- clusion that for beginners in FHS these kids are really circulating. Now, if you're waiting for the low- down on these Freshmen, just help me pull back the rug and see what has accumulated, and confidential- ly it looks like "DIRT". . . . . the JUICY kind.

The Freshmen girls all regret to lose Weims Norman to Norma Car- penter, Soph. Golly, new romances are budding out all over. Duz Jane Frizzell know about this? Will it bloom out into the finished product?

You Freshmen girls are slipping. Don't tell anybody but I heard that Charles Hammit is trying to gain a Soph's interest and attention. Won- der what she looks like? Pretty, Charles?

Leslie Nixon, who wuz that girl that you were looking for Saturday night? I think you found her, didn't you? But did it do you any good? Why don't you ask her for a date? And by the way, there's a certain Junior girl that has been eyeing you. Could this be the girl? Richard Parrish seems to like red hair and Thada Lackey. But come to think of it, he has red hair too, duzn't he?

Bobby James Cline, and what about Mary Maxey?? Huh?? If anyone is really sad about La- Verne's moving, it's Dan Bishop. That's what I hear. He seems to be making up for lost time.

Billy Joe Johnston, that "IS" Ju- neel's identification bracelet you're wearing, isn't it???

Gene Dale Jackson made a busi- ness trip to South Plains last Mon- day night. Wonder what kind of business?? Isn't Arlene her name?

A whole bunch of little Freshmen seemed to be having fun the other Monday night. And after the party especially.

Everybody says Don Boothe and Hope McIntosh make the cutest pair. And I believe them.

"Now Wilma Hamilton is certainly cute", says Herman Galloway. Better not let Ted hear you say that.

Bobby Tiner and Evelyn Holder seem to enjoy each other's company. And what about Hope McIntosh!!

June Powell, in the note, did you get everything straightened out with a certain Junior girl? It sounded like a predicament to me.

Why can't Jerald Vinson and Christene Jones get any studying done in the SH?? Or is that a SILLY question to be asking?

Phil King, how come you just got five hours of sleep Saturday night?

## News of Freshman Members Voc Ag

There are twenty-seven Freshmen taking Vocational Agriculture. They are all classed as first year agricul- ture students and have received the greenhand degree.

These students are learning to operate farm machines, sharpen tools repair machinery, and make many useful things including rope. Such useful practices as running contour lines, pruning fruit trees, culling poultry, and selecting livestock are included in their course of study.

Fifteen freshmen attended the Fort Worth Fat Stock Show with the F. F. A.

All of these boys are working with three projects each, such as sheep, hogs, poultry, beef cattle, dairy cattle, and crops. Every boy is ex- pected to take active part in the chapter serving on different com- mittees, and every boy is on at least one committee to help put on a father and son banquet.

## GLAD RAG GIRLS PICNIC ON CANYON LAST FRIDAY

Willie Bradford was hostess to the Glad Rag club and dates with a picnic at the canyon Friday, March 15.

After several hours of hiking over the canyon, the lunch of hot dogs, potato chips, apples, doughnuts, and punch was served.

The guests were Kenneth Finley, Fred Conner, Kenneth Bishop, Thomas Wayne Amburn, and James Finley.

The members: Norma Carpenter, Ruthie Harmon, Jo Muncy, Marlene Foote, Willie Bradford, the hostess, and Evelyn Pittman, the sponsor.

June Powell: Bobby McGuire makes me tired.  
Joy Jackson: It's your own fault, dear. You shouldn't chase him so hard.

And don't tell me work wuz the reason!!  
Ted Lanham and Barbra Landers were flirting in the SH the other day. It looks like Jennie prefers eighth graders now. Is that right, Bobby Finley. Shame on you-taking your little sister's boyfriend.

Roberta, I guess you know about Ted and Wilma.  
Barr R. was really attracting the girl's attention and lipstick Monday night. Says Bobby B. "I wish I was a little like him."

Why is it that Hope M. knew so much about postoffice and nothing about the bank. Just a slip of the tongue.
