## MY TURN

By Carol Ellis

**NOBODY EVER SAID** life was going to be all sunshine and roses, but neither did they warn us about all the things people say that we don't want to hear.

For instance, when you were a teenager and your prom date met you at the door with "Oh, gee! Were we supposed to dress formal for this?"

And it keeps on going:

You know you're having a bad day when your hairdresser takes the curlers out of your new perm and you hear her say "Uh, Oh!"

The home repair person climbs down off your roof and says "I hope your homeowner's insurance is paid up."

Your little precious person says "Mom, you weren't saving that cake in the kitchen for anything special, were you?"

You know you're going to be walking to work for a long time when your auto mechanic says "You can't drive it this way. We're going to have to order a part from New Jersey."

You're in for years of animal care when your little person whines "Can I keep him, huh? Can I, puh-leeceeeeee? He won't eat much and I'll clean up after him. I promise."

That same little person grows up and phones home to say that he's met the love of his life. Then "love" turns out to be a large tattooed female named "Moose."

You feel a little ill when you're discussing last night's family outing with your best pal and she says "The Health Department closed that place down awhile back. How was your meal?"

You know it's going to be a long drive home when the highway patrolman leans into your car window and asks "Do you know how fast you were going?"

You know you need to lose a few when you climb upon your talking bathroom scale and it screams "Ouch! Get off! You're hurting me!"

You know you're in for a long wait when you hear "This is your captain speaking. There will be a slight delay. We'll be remaining on the ground while the barber does a few hair cuts."

You get an instant headache when your mother-in-law shows up on the day you are packing to leave on vacation and she says "They're building a freeway through my property. I'll have to stay here for awhile."

Don't you love it when your golf partner checks your score card and asks "Are you sure this isn't your bowling score?"

You know you're going to be broke for a long time when a voice behind you says "Give me all your money!" and it turns out to be your college kid heading back to school.

You know you're in for a long recovery period when your doctor says "It's a real simple procedure. We do two or three hundred of these every year."

Then you know it's going to hurt like heck when the nurse says "This may make you a little uncomfortable for awhile."

*(A little editorial comment here: We're all really proud of our Parmer County Community Hospital and the personnel are just the greatest! We understand that there is a shortage of nurses. So if you know of anyone in this profession who would like to relocate to a really friendly little hometown, please send them in our direction.)*

And now back to the foolishness at hand:

Why is it that anytime you go fishing, the fellow at the bait shop always says "Gee, they were really bitin' around here last week."

Isn't it irritating that, no matter how old you get, your mother still says "You ought to know better than that!"

But the worst...the absolute WORST, is when your spouse says "Sit down, honey! There's something I've got to tell you."

## Letter To The Editor

Dear Bill,

The Texas Legislature is still scrambling to propose a successful solution to school finance by June 1. The Texans Against Robin Hood organization has a plan and voters may wish to write or call Senator John Montford or Speaker of the House Pete Laney with suggestions or an endorsement of this plan?

1. Dedicate lottery revenues to property-poor districts.

2. Have the legislature define the minimal standards for a constitutionally efficient system, with the state ensuring that the basics are funded.

(This constitutionally efficient system would be first through twelfth grade at a minimum. It would require funding for principals, teachers and minimal administrative overhead. This legislatively-defined efficient system would set forth the basic required courses and basic electives for students to take, as well as paying for the instructional materials needed for those courses. The state would be responsible only for making sure that the basics are funded. School districts could decide what "extras" to include, and fund those programs or services at the local district level, utilizing local property taxes. This "no frills" approach to education by the state should end any dispute in the courts about substantially equal access, since the state would ensure that even the poorest districts would be able to provide a basic education to their students.)

3. Reduce a bloated educational bureaucracy that stands in the way of implementing a truly efficient system of education in Texas.

Area legislators listed below.

Deanne Clark and Rita McDaniel

- \*Governor Ann Richards, Room 200, State Capitol, Austin, Texas, 78711; phone (800) 252-9600 or (512) 463-2000.
- \*Speaker of the House Pete Laney, Box 2910, Austin, Texas, 78769; phone (512) 463-1000.
- \*Senator John T. Montford, P.O. Box 12068, Austin, Texas, 78711; phone (512) 463-0128.
- \*Senator Teel Bivins, P.O. Box 12068, Austin, Texas, 78711; phone (512) 463-0131.

The Chuck Wagon supper that was served by the local troop of Girl Scouts, at the Scout Hut, in the park on Thursday evening of last week, was well attended and pronounced a success by all who attended.

Mrs. Carrie Lillard has recently

leased the O.G. Turner building on the west side of Main Street, that was formerly occupied by the Friona Drug Company, and is preparing to open a confectionary and cold drink parlor there.

### 45 YRS. AGO--JUNE 4, 1948

Gary Lou Renner, 2-1/2, was pictured in his baseball suit, preparing to swing. The headline said, appropriately, "Play Ball!"

Ground was broken early this week for the concrete foundation for the business building, which will soon be under process of construction by the Maurer Machinery Company.

### 40 YRS. AGO--JUNE 4, 1953

Rev. Lewis Knight, recently called as minister of the Union

Congregational Church in Friona, will preach his first official sermon here Sunday morning at the 11 o'clock hour. His topic has been announced as "A Point Four Program."

Harris Dunn has been selected by the American Legion Post 206 at Friona to attend Boys State in Austin this month. For the second consecutive year the local Post has paid the expenses of a local high school student outstanding in all-around activities to make this trip. H.V. Rockey was the first to receive the honor.

### 35 YRS. AGO--MAY 28, 1958

Parmer County grand jury, in session Friday, placed two indictments against John Murrell Bussell, 42, of Friona. He is charged with cattle theft. He is alleged to have stolen four calves from W.D. Cooper north of Friona on April 16, and to have sold them in Memphis.

Plans have been completed for an open installation ceremony for new officers of the Friona Rainbows at 4 p.m. Saturday, May 30, at the Masonic Hall.

Friona's first try at having a federally-financed Head Start program for pre-school agers of low-income families is making a good start toward getting underway early in June.

### 20 YRS. AGO--MAY 31, 1973

What could have been a major tragedy for downtown Friona was averted last Thursday night, because fortunately, one ingredient was missing. If a 2,000 gallon tank that ruptured at Consumers Co-Op had been filled with highly volatile gasoline instead of diesel, much of Friona could have been reduced to rubble within a short time.

Friday night will be the first night the Elk Drive In Theater will be open for the summer, according to Bill McGlothlin.

### 15 YRS. AGO--JUNE 3, 1978

"They said it's a miracle." That is what doctors and electricians told three men who were electrocuted Tuesday when their pump truck mast hit electrical power lines. Two new patrolmen who have joined the Friona Police Department are John Spring and Paul Ramirez.

The first bad storm of the season hit the Friona area Memorial Day evening, with hail damage being reported, and residents being subjected to a tornado alert after a funnel cloud was spotted. The storm dumped 2.81 inches of rain on Friona.

## RC&D Program Gaining Support

The Resource Conservation and Development Program (RC&D) is a rural development program run by people who live in the area it serves. The Soil Conservation Service provides coordinators in these areas as well as limited financial assistance. RC&D was established in 1962 to help local units of government conserve and properly use natural resources in solving local problems. The program has grown to now assist rural people and communities improve their quality of life.

Parmer County has joined with 13 other counties in the northwest and central panhandle to form the High Plains RC&D area. Currently the High Plains Council has submitted an application to USDA in Washington to be officially recognized and considered for funding in the form of a full time coordinator to assist each county with projects.

Projects that are possible under RC&D include: economic development, wildlife/hunting, rural fire protection, recreation, waste disposal, education, erosion control, rural health, tourism and water systems.

Parmer County currently has 11 sponsors of the RC&D program, which is more than any other county in the area. These include: Parmer County Commissioners Court, Parmer County Soil and Water Conservation District, Friona Chamber of Commerce, Bovina Chamber of Commerce, Farwell Chamber of Commerce, Rhea/Hollene Volunteer Fire Dept., Lazbuddie Fire Dept., Lazbuddie EMS, City of Friona, Friona Evening Lions Club, and Pioneer Heritage Chapel and Museum of Friona.

Pamela Miller of Lazbuddie is currently serving as president of the Parmer County council. Bill McCoy is vice president and Jacquelyn Ryan is secretary/treasurer.

Local meetings have been held quarterly to discuss possible projects and problems in Parmer County. Pamela is also serving as Parmer County's representative to

the High Plains Council which meets quarterly. At the High Plains council meeting each county representative shares project needs from their county with the council for consideration of fund seeking. All sponsors are invited to attend the annual meeting of the High Plains council which will be held in July.

RC&D opens the door to get projects off the ground. Most of the groundwork still must be done by the local people. RC&D puts people in touch with other people, groups, foundations, local, state and federal agencies to find sources of funding for projects.

Although not funded through the USDA at present, the High Plains council is moving forward by performing grant searches for sponsors and starting activities within the 14 counties. Look for great things to happen in the future as a result of RC&D participation. If you are interested in knowing more about the program or want to become involved, please contact the SCS office in Friona or one of the county sponsors.

## Some Of The Best Recovery Rooms Aren't Located In Any Hospital.

Simply put, there's no place like home. And increasingly, health care professionals are recognizing the unique advantages afforded by home health care.

In-home covered services include everything from Nursing and Physical Therapy to Medical Social Services, offering the best in both worlds. The comfort, convenience and familiarity of a home setting are irreplaceable in the recovery process. At the same time, these experienced professionals can provide a range of medical services which were previously restricted to a clinical setting. Best of all, a typical home health visit costs one-tenth the price of an average day in the hospital, making it an invaluable asset.

## Facts About The **BIBLE** BY JOHN LEHTI

**THE NAME OF THE GAME WAS--HOSPITALITY!**  
 IN THE ANCIENT BIBLE WORLD HOSPITALITY WAS REGARDED AS ONE OF MAN'S BEST VIRTUES. EVEN THEIR MANY LAWS REFLECT THIS CONCERN FOR THEIR FELLOW MAN. THE LAW RESPECTING THE STRANGERS IN THEIR MIDST (LEV. 19:33,34) MAKES THIS CLEAR, AND THE LAW CONCERNING THE POOR (LEV. 25:14) GIVES THE PATTERN OF CONDUCT THEY WERE TO FOLLOW. MANY PASSAGES FROM THE NEW TESTAMENT ARE IN LINE WITH THE TRADITION OF THE OLD TESTAMENT IN THAT WE ARE URGED TO "FOLLOW AFTER HOSPITALITY" (ROM. 12:13) AND TO ALWAYS REMEMBER ABRAHAM'S EXAMPLE (HEB. 13:2) AND "USE HOSPITALITY ONE TO ANOTHER WITHOUT GRUDGING" (1 PETER 4:9) SOMETIMES THE DEGREE OF HOSPITALITY WAS OVERPOWERING AS IN THE CASE OF ELIEZER WHO WAS COMMISSIONED BY ABRAHAM TO FIND A BRIDE FOR HIS SON ISAAC. ELIEZER FOUND A BRIDE, REBEKAH, AND WAS ANXIOUS TO RETURN HOME--BUT, NO WAY! THE EXTENT OF THE GENEROSITY OF REBEKAH'S FAMILY KEPT HIM VISITING WEEK AFTER WEEK UNTIL THE POOR FELLOW WORRIED THAT HE WOULD NEVER SEE ABRAHAM AGAIN.

### Chiefs Fall To Eagles In Playoff

The Friona Chieftains hooked up with the Canyon Eagles last Friday in bi-district play. The Chiefs were not overwhelmed by Canyon's number one ranking in the state, and made the Eagles scrap for their runs in their 10-0 win.

It's the third straight year the Chieftains had to face the tough Eagles in bi-district, and the third straight 10-0 win by Canyon.

The Eagles scored two in the first, and two more in the third to take a 4-0 lead.

Friona threatened in their half of the fourth, when Chris Hanna led off with a single, went to second on a balk, and took third when Tony Cuevas grounded out. However, Canyon pitcher Michael Gaines bore down to strike out Britt Conklin and got Charlie Pope to fly out to right field.

Pope had singled to lead off Friona's second inning, but Gaines struck out Sheldon Burleson and Cory Hamilton.

"We're proud of the players and the way they've improved during the season. They have played some excellent baseball, as attested by their 7-3 district record and beating Littlefield 14-3 for the second seed in district," said first-year Chieftain Coach Curtis Cotten.

The Chiefs, who entered district play with a 4-10 record, ended their season at 11-14.

## Betty Louise Rector Is Artist For June

Betty Louise Rector is the Friona Art Association's artist of the month for June. Her art work will be on display during the rest of May and all of June.

She started painting with Phyllis Sanders in 1961 when she traded a quart of cream for a lesson a week, and Betty has been "hooked" on art ever since that time.

She enjoys oils, pastels, acrylics and a number of varied crafts, including her painted saw-blade clocks which are very popular. She has enjoyed taking workshops from Billie Long Homer and Ben Konis, among the many other southwest artists she has studied under throughout West Texas, New Mexico and Arizona.

She and her husband, Lloyd, do a lot of traveling and she says she tries to take lessons and workshops

from artists everywhere they go.

The Rectors are what is popularly known as "Snowbirds." These are people who come down from the north every winter to spend the cooler months at the "Snowbird" lodges around South Texas. For the past several years, the Rectors have been regular five-month residents of the Lakefront Lodge in Zapata, where Jay Turner and Jimmie Loflin are managers of the camp.

Betty Louise was engaged for eight years as the camp's activity director and also enjoyed painting murals on the walls of the lodge. This past winter she taught two and three-day workshops in painting to some of the other residents and says she really enjoyed the classes which were made up mostly of painting beginners in their 70s and 80s.

**LESLIE CHUMBLEY and ROY LEE APPLING** ....Bill and Mary Chumbley of Canyon and Lee Roy and Glennella Appling of Friona announce the engagement and approaching marriage of their children, Leslie and Roy Lee. ## Library Corner

By DARLA BRACKEN

One day, not long ago, when I was visiting Mary Rose, we were talking about this, that and the other when all of the sudden she said, "Darla, listen to those birds singing." As appreciative a type of person as Mary Rose is, she had still learned to value more such a simple, yet wonderful thing as a bird's song.

Mary Rose, though her stroke has left her unable to return to the library, will long be remembered and appreciated for the difference her presence and influence have made in the seven years she was assistant librarian at the Friona Public Library.

Her pleasant manner and willingness to help, plus her true concern for others, make her a hard act to follow. We love you, Mary Rose, and wish you continued progress in your recovery.

Though she may have some big shoes to fill, our new assistant librarian, Brenda Patterson, is the right person for the job. She is new, but she is also a very willing worker, and with her creative ability and caring manner, she will also be an asset to our library, and we want to welcome her with open arms.

In April, we loaned 2,637 items to 770 patrons. Story Hour attendance has averaged 23 children per session this year. The Story Hour children visited kindergarten on May 6.

### Buckle up for safety

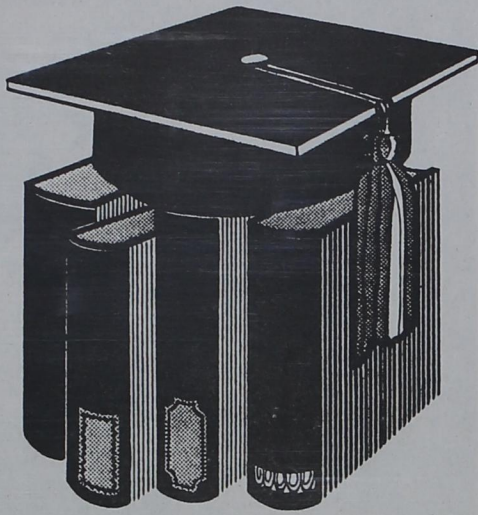

Texas has one of the strongest safety belt use laws in the country, and has almost achieved the 70 percent usage goal set by the National Traffic Safety Administration (NTSA). Texas was one of the first states to enact a safety belt use law in 1985. Now 42 states have such laws. Auto deaths in Texas have dropped from 22.5 per 100,000 population killed in 1985 to 17.3 per 100,000 in 1992.

# Peppers Come In Several Varieties To Suit Individual Taste Desires

By CARLA McKEOWN

One of my greatest weaknesses is spicy food. I don't necessarily like it so hot that it burns off my taste buds, but I do like a little bite to what I eat.

When we try a new restaurant--especially Mexican or Oriental--I tend to start with a not-so-spicy dish just to test the waters. On the second or third visit, I'll move up the scale and try something from the hot and spicy menu.

At home, we grow our own cayenne peppers, jalapeno and green chiles. And, I add peppers to everything! If a dish isn't spicy enough for my tastes, I just add a sprinkling of ground cayenne peppers.

The most common peppers in this area are:

\*Jalapeno, a hot thick-fleshed pepper about 2 inches long with a smooth dark green skin.

\*Bell, a large, mild pepper with green, red or yellow skin.

\*Anaheim, a long, mild green pepper often used in chiles rellenos.

\*Serrano, a small green or red pepper that is hotter than the jalapeno.

\*Fresno, a short green or red very hot pepper.

\*Poblano, a mild, dark green triangular shaped pepper that is known as ancho chile when it is dried.

All of these peppers are delicious in their fresh state, but for a variety of flavor, try roasting the chiles. Roasting chile peppers gives them a sweetly smoky flavor and tames the fiery hotness.

Any kind of pepper can be roasted, but bell, Anaheim and poblano peppers are the most frequently roasted. Chiles can be roasted in the broiler, over a gas flame or on an open grill.

To roast chiles, place the whole peppers in the broiler, directly on the flame of a gas burner or on the barbecue grill. Allow the chiles to cook, turning frequently, until they are charred and blistered--about 20 to 30 minutes.

Remove the peppers from the heat and place them in a paper or plastic bag or wrap them in a dish towel or paper towel for about 15 to 30 minutes to steam them and help loosen the skins. Remove the skins when the chiles are cooled. Do not rinse the peppers in water or you will wash away the distinctive taste.

Roasted chile peppers may be

used in salsas, soups, salads and any dish calling for peppers. The roasted chiles also can be stuffed with such fillings as guacamole, chicken or tuna salad, chunky fresh salsa, etc.

Try the following recipes calling for roasted chiles:

### ROASTED PEPPER SOUP

- 2 tablespoons butter or margarine
- 1 medium-sized onion, chopped
- 2 garlic cloves, minced or pressed
- 4 medium red bell peppers, roasted and peeled, deveined and seeded and chopped
- 2 tablespoons all-purpose flour
- 2 cups chicken broth
- 3/4 cup heavy (whipping) cream
- Salt and pepper, to taste
- Fresh basil

In a medium-sized saucepan over medium-low heat, melt the butter and saute the onion until transparent; add the garlic. Add the peppers and cook for 5 minutes. Stir in the flour and cook for about 2 minutes. Slowly, whisk in the chicken broth and bring the mixture to a boil. Reduce the heat and simmer slowly for 20 minutes. In a blender or food processor, puree the pepper mixture until smooth. Return the mixture to the saucepan. Whisk in the cream and cook until heated through; do not boil. Salt and pepper to taste.

### SPICY BROILED CHEESE

- 1-2 jalapenos, chopped
- 3 green onions, chopped
- 1 tomato, chopped
- 2 tablespoons chopped fresh cilantro

Condiments: chopped onions, chopped tomatoes, cilantro sprigs, red and/or green salsa, avocado wedges, etc.

In a 9-inch-by-12-inch serving baking dish, mix cheese, garlic, peppers and half of the chopped green onions. Cook the mixture, stirring occasionally, at 450 degrees until bubbly. Add the tomato and broil until golden brown. Sprinkle with the remaining onions and chopped cilantro. Garnish with condiments. Scoop the melted cheese into warmed tortillas or tostado chips.

- 6 Anaheim chiles, roasted and peeled
- 3 ounces cream cheese
- 1/4 cup grated Cheddar cheese

Stuff the Anaheim chiles as full as possible. Place the stuffed chiles on foil and place over a grill or in a 375-degree oven for 10 minutes until the cheese is bubbly.

Call 247-3681 With Your News Items

Friday was a very special day in the life of my good neighbor and friend, Randy Weatherley, who returned home from the Veteran's Rehab Center in Albuquerque.

He had been a patient at High Plains Baptist Hospital, Bivins Rehab Center in Amarillo or the Albuquerque Veteran's Rehab Center since October 26, when he was injured in an accident involving a horse on the Joe Bob Johnson farm north of town.

At the present time, he is confined to a wheel chair and is taking exercises to strengthen his leg muscles so that he may be able to walk again without aids.

"No one can ever know what it is like to get home after an absence of almost seven months," he said.

It will be necessary for him to go back to Albuquerque in six weeks for an evaluation.

Those of us who live in the 1300 block of Columbia, as well as a lot of other Frionans, are very glad to have him back among us and are grateful for the progress he has made.

\*\*\*\*\*  
Randol Allen, who has been a surgical patient at Deaf Smith General Hospital, in Hereford, returned home Friday. His wife, Peggy, reported on Wednesday that he was making satisfactory progress and has been advised to "take it easy" for about ten days.

\*\*\*\*\*  
A former Friona resident, Flossie Brown of Wichita Falls, Texas, who has been a resident of Christian Care Center there, has returned to her home and appreciates the expressions of concern she received while she was away.

\*\*\*\*\*  
A fish fry at noon Sunday in the country home of Geneva and Lester Stanley was a courtesy for Bud and Arvilla Elmore, who are planning to move to Comanche, Texas, where they recently purchased a home.

The Elmores were presented a serving tray as a going away gift.

Out-of-town visitors in the Elmore home this week have been Mrs. Dale Spivey of Comanche and Mrs. Mike Wrezniski and children, Lauren and Colton.

Mrs. Spivey is the former Dolores Elmore and Mrs. Wrezniski is her daughter.

This group arrived in Friona, Tuesday evening, and returned to their homes on Friday.

\*\*\*\*\*  
Dimple Hand returned home Thursday after spending about ten days downstate. She first visited in the home of her son-in-law and daughter, Dub and Levada Bush, who live in Duncanville.

Then, she accompanied Helen Cotton farther down in the state. These two spent several days at Canyon Lake which is near Austin.

She reported, "All the way from Duncanville to Canyon Lake, we observed wildflowers blooming in profusion. It was real difficult to determine which ones were the most beautiful."

Out-of-town visitors in the Floyd home this week have been Beulah Ivie and Donna Lou Campillo of Canadian, Texas and Richard, Frieda, Brandon and Barrett Dickson, who were enroute from Tipton, Oklahoma to Ruidoso, New Mexico.

The family's two pets, Maggie, a female Schnauzer, and Moammar, a large orange and brown tom cat, have taken up temporary residence in my backyard.

\*\*\*\*\*  
Jimette McLean, a 1962 graduate of Friona High School who is now serving as a Methodist minister in a church in Anchorage, Alaska, recently supplied some information about a trip she recently made to the southwest.

She wrote, "On the weekend of May 2, which would have been Pearl McLean's 76th birthday, her three daughters, Jimette Rose McLean, Luellen Wittenbach and Kathy McLean-Davis, met in McKinney, Texas, where Kathy is the associate pastor of the First United Methodist Church. Joining the sisters were Margo Pool and Lucille Tolle, who are our dad's only living sisters.

These five "McLean girls" spent Saturday visiting White-wright and Ector where our dad was born and raised and where the McLean family lived before they moved to the Black community in Parmer County in the late twenties.

On Sunday, we all attended church where Kathy preached. The next day, I flew back to Anchorage, the aunts flew back to San Antonio and Luellen drove back to her home in Chickasha, Oklahoma. We thoroughly enjoyed our unique reunion."

As a postscript, she added, "All three of us enjoyed our visit with our aunts. Aunt Lucille is 83 and Aunt Margo is 73. I had not seen

them in 15 years, although Luellen and Kathy have seen them more recently.

"They were full of stories about their childhood including the family's move to the Black community. Some of the families familiar to us which they remembered were those of the late Mr. and Mrs. R.E. Barnett (parents of Fern and Dr. Bud) and Mr. and Mrs. Clyde Hays."

She concluded her message with, "We had fun."

\*\*\*\*\*  
Joe and Marlene Mueller and Andre Duran accompanied Staci Mueller to Irving last week for the beginning of her study for a career in physical therapy.

Staci, a 1990 graduate of Friona High School and a 1992 graduate of South Plains College, Levelland, has also completed one year of study at Texas Tech University.

She has enrolled in a twenty-four month program at Southwestern Medical Center, Dallas, which is a branch of the University of Texas at Dallas.

Before returning home, the Muellers spent several days visiting in the home of his mother, Billie Mueller, who lives at Rogers, Texas.

\*\*\*\*\*  
Guanda and Ramie Cox of Lucerne, Colorado, arrived in Friona on Thursday of last week for a visit with her aunt, Martha Russell, who is a resident of Prairie Acres.

The couple visited in the home of Lloyd and Betty Louise Rector and Martha spent Friday out there with them. They returned to their home on Saturday.

\*\*\*\*\*  
J.D. and Vallie Humphries of Lovington, New Mexico arrived in Friona, Monday, for a visit in the

home of Lloyd and Betty Louise Rector.

These two couples went to Amarillo on Tuesday to visit with Jay and Bea Butler of Ute Park, New Mexico. Jay is a surgical patient at High Plains Baptist Hospital.

They also visited Jim and Floppie Campsey and Ray Nell Moore, who live in the Helium City.

All five of these couples are winter neighbors at Zapata, Texas.

\*\*\*\*\*  
My Friona grandson, Jason Floyd, his maternal grandmother, Captola Goodwin of Muleshoe, and I visited in the home of Gerald, Jana and Sarah Floyd, over the weekend.

We attended an awards assembly Saturday evening and commencement exercises for Elkhart High School, Sunday afternoon. Sarah and Oliver Reuss, the exchange student who has been living in the Floyd home, were members of the graduating class.

Other guests in the Floyd home were Dr. and Mrs. Terrence Cackett of Zurich, Switzerland. They are Oliver's parents.

Enroute home, I stopped for an overnight visit in the home of a brother-in-law and sister, Pete and Mary Bell Clements, who live west of Dalhart.

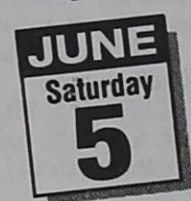

Early Monday morning, I learned that it can still rain in the Panhandle of Texas, even though we have seen very little evidence in our immediate area for a long long time.

Between two and three inches of moisture fell within a couple of hours and a draw similar to our Frio Draw, which had not had water in it in years, looked like a river at flood stage.

Maybe our time will come next.

## Six Good Reasons To Vote For Kay Bailey Hutchison For U.S. Senate

1. Her budget as State Treasurer is down by 8%, yet she still earned more for the taxpayers than ever in the state's history.
2. As a small business owner, she will fight taxes and push for more spending cuts.
3. Her #1 priority is reducing the federal deficit by cutting spending, not by raising taxes.
4. She's for across-the-board cuts in the \$300 billion the Federal government spends for overhead and has a plan to save \$1 trillion by limiting the growth of spending.
5. Kay is a strong supporter of term limits and reform of Congress.
6. She wants to stop frivolous lawsuits that clog our courts and drive up health care costs.

End of year reports were read by committee chairmen. Donna Mears, club secretary, read a letter of resignation, which was regretfully accepted, from Winifred Hurst. She had been a member of a federated club forty years.

**Mutual Fund Taxation**

Mutual funds offer many benefits to shareholders, such as reinvestment of dividends, automatic withdrawal plans and no-cost switching among funds. Unfortunately, all these transactions are taxable events.

The Internal Revenue Service (IRS) uses a simple principle for any security transaction: You pay taxes on the difference between the cost at which you bought and the cost at which you sold. Determining that difference, however, can be difficult.

Many shareholders unknowingly pay double taxes by not figuring the reinvested dividends (already taxed) into the cost of the shares sold. It is estimated that about 70 percent of shareholders do reinvest dividends, so this issue has become a major concern. For example, when your fund pays a dividend and you reinvest it, that dividend is still a taxable distribution. The reinvested amount then increases your cost basis. For example, if you invest \$1,000 and earn a \$40 annual dividend, which you reinvest, your cost basis is \$1,040.

Tax problems can also arise when you sell shares. Deciding to sell shares recently bought (with possibly only a small gain) vs.

**Gifted Students  
Are Recognized**

TIP, the Duke University Talent Identification Program, is sponsoring a recognition ceremony to honor some of Texas' most talented seventh graders. The ceremony will be held at 10:30 a.m. on June 10 at the University of North Texas' Music Concert Hall in Denton.

Sarah Campbell, who attends Friona Junior High, will be one of 627 students recognized for their academic achievement.

"Exceptional academic talent is a precious national resource that is often undervalued or ignored in our society," said TIP's executive director, Dr. David Goldstein. "For many outstanding young people, recognition from TIP is an important source of support and encouragement for their efforts."

All students attending the ceremony scored as well or better than the average college-bound high school senior on either the Scholastic Aptitude Test (SAT) or the American College Testing Assessment (ACT). These tests are administered as part of an annual Talent Search. In 1992-93, the program identified almost 62,000 seventh-graders, nearly a six-fold increase from the original Talent Search in 1980.

TIP's Talent Search identifies seventh graders in sixteen states in the Southeast, Midwest and Southwest who have scored in the top three percent on a national achievement test. Students participate by taking either the SAT or the ACT. TIP provides all

Talent Search participants with information about their abilities and about educational options open to them. TIP conducts recognition ceremonies in each of its sixteen states. These ceremonies are the largest of their kind in the nation with nearly 32,000 parents, students, and teachers attending in 1992.

Talent Search participants receive a variety of educational materials and publications. A results summary and counseling guide help students interpret their scores and provide suggestions for using their ability more effectively. TIP's publications help students find out more about academic opportunities and about the needs and interests of people like themselves. These publications include a guide to educational opportunities, a newsletter, and a magazine on college choices mailed

**About Diabetes  
And The Eyes**

Most of us think of diabetes as a sugar/insulin imbalance, an illness to be managed with diet and drugs where needed. What few people realize is that the diabetes

affects the entire body, and in particular, the eyes. A diabetic needs to take extra care of eyesight. Most basically, of course, blood sugar levels must be checked regularly and general diabetic diet and drug regimens followed. Eyes should be examined on a set schedule, every three months to every year, depending on need.

The optometrist will pay special attention to the diabetic's special eye concerns. Because there is a possibility of retinal changes to occur that will permanently affect vision, the eye doctor will check the retina often, even if the patient does not report vision changes.

Blurred vision may be a problem for diabetics, usually caused by a temporary blood sugar imbalance. This generally clears when blood sugar levels return to normal, if treatment is given promptly.
