#### FORCING CAPITAL TO WORK

One of the things that Labor (note the capital L) may run into is the fact that there finally comes a time when you can't make Capital work unless it wants to do so. We do not mean that you can't pass laws regulating capital. The fact is you can, the same as you can pass laws regulating anything else, including labor.

But you can't pass a law keeping Capital from getting scared and crawling into a hole. They tried it in several of the European states which we are trying to imitate since world history began to be recorded. It hasn't worked yet. When you get a lot of money together it is the most scared thing there is, although it puts on a bold front. And when money quits working people get hungry regardless of what laws you pass or how short the work week may have been made by act of congress.

#### ENJOY THE PICNIC NOW

It is well that the labor leaders and their satellites enjoy their picnic now. Well, also, that they have the boys thinking they are "taking care" of them. Some of those days one of the numerous inexorable laws which are being violated will begin to put on the pressure.

It won't be necessary to pass any laws. In fact, any laws that are passed will look as silly a few years hence as some of the labor legislation that has gone into the hopper the past several years. While one nature will begin to bear down first is anybody's guess. We would say it might be mass hysteria that sometimes takes the form of a buyers strike. That is sometime distant, however, and some of the others may get under the wire first.

#### POLIO IN TEXAS

Floyd county has been remarkably free of flies this spring. The weather has not been right to multiply them as fast as usual. And because rainfall has been light the mosquito crop has been negligible.

But in other portions of the state this isn't true. Flies and mosquitoes have been more than usually plentiful. This fact, along with that other one that many more people are living in primitive, but crowded domiciles with a very considerable credit on the part of the medicine for the increase of polio.

It is said the exact nature of polio carriers is not definitely known nor by what means the germs get into the human body. However there is an association with flies and/or mosquitoes some way, somehow, and sanitation on a community-wide basis has been about the only answer so far.

Excess-state the scare has reached huge proportions. People sure dread the spectre of polio that strikes without warning and cripples or kills in so many instances.

Here at home the authorities are not crying "wolf" because luckily we haven't had any polio as yet. We can be hopeful that we won't but it would also be helpful to see to it definitely that your premises are not the ones from which the first case strikes.

Get the Want ad habit.

### As A Farm Woman Thinks

(By Nellie Witt Spikes)

At this time of year the meeting of Old-timers in their annual picnics, memories of those pioneer days rise and fog around us as dust rose from the slowly moving wheels of freight wagons. We catch sounds of fiddle music and of French harps and the smell of bacon frying, coffee boiling and sour dough bread baking on cow chip fires making us homesick for friends and days long gone by.

We can almost feel the soft folds of long muslin dresses, and hear the swishing of calico as mother moved swiftly from one job to another. We can see freshly washed clothes straining on the barbed wire from the prairie winds, hear the cool water flowing into the barrel and running on into the milkbox; through where butter and milk cooled. We can hear again the whirr of the prairie chicken as they rose to fly from the thick chimney, the staccato barking of the coyotes as we covered up our heads in our trundle beds. The call of the fat plover comes plain as day, and we feel the yellow velvet of the rose from Judge Murray's home. How pleasant are the days of yesterday! How sweet each one has become to us. How we treasure them and how good it is to meet with others who have those days put away, also to love and to treasure and for us all to meet and talk them over again and call one another by our given names and be young again.

Wilda and John and Margaret Nell have moved to the farm to make a crop and take care of things. It has been so hard for me to keep things going, even with help. Now I shall shift the responsibilities of farming and taking care of the stock. Our son, Wilson, has spent some time with us and it seems he is the same little boy who once lived here. We know he will soon be gone again, but the big ocean will not separate us.

A little rain fell last night which gives us hope for more. The garden is looking fine. Young potatoes are raising the ground, onions are spreading out flat, the first beans are beginning to put on runners. The dahlias are most all up, and the first poppies are holding up buds. The garden has not been hard work this year. The ground has not been hard and stirring the ground keeps the weeds down. Old shingles make good shades for plants just set out. They are easy to stick in the ground and can be left several days as needed. When I raised my own plants, I ran the water down a furrow and set tomatoes and pepper and never shaded them. Next afternoon I would run water for them and the next day would pull dry earth in around the plants.

Poem of the week by Lillie Looney, The Good Luck Bean  
I am a Mexican jumping bean  
And appear here with to amuse you;  
If your ears and eyes are really keen  
You may enjoy the things I now do.  
Chorus:  
Waggle in, wiggle out and quick-up  
Good luck comes if I fall into your cup.

### Knowing Meat Cuts Valuable To Homemaker

Ability to identify the many cuts of beef, veal, pork and lamb is of practical value to every homemaker—to every food buyer. No less important is a knowledge of the cooking method or methods best suited to each cut, since meat must be cooked according to cut for best results.

This chart will serve as a guide in selecting and cooking beef. The methods recommended were adopted following exhaustive meat cookery studies at state colleges and the United States Department of Agriculture.

Advantage of Low Heat Thousands of carefully controlled tests have shown that from 15 to 20 per cent more meat is provided when it is cooked at low temperature. Furthermore, the meat is more tender, is juicier, more uniformly cooked and more flavorful.

OLD WORDS—NEW MEANING A "square" man has always been one who is "on the level." The two popular phrases of approval have been practically equivalent. But applied to farming, they have taken on a shift in meaning in recent years, and are used as terms of contrast in a popular publication by the U. S. Department of Agriculture "New Landmarks of Soil Conservation."

Farming "on the level" remains a phrase of approval. It refers to the type of soil management in which plows, cultivators, and other farming equipment are kept operating on the level; that is, the rows follow the contour lines of the field.

"Each row and furrow along the contour helps to hold the water where it falls," says the booklet "and enables it to soak into the soil or run off slowly and safely."

In "square farming" it is just the opposite. Rows run according to the compass, not across the slope. The result is that each down hill row or furrow forms a watercourse along which the surplus from rains can flow, picking up soil and concentrating the muddy water into rills and streamlets that grow into gullies—as well as favoring the sheet erosion of "washing" that accounts for the loss of so much valuable topsoil.

In farming "on the level" the good manager often breaks his sloping fields into comparatively narrow strips and alternates row crops that are truly "on the level" with bands of close growing crops such as mixed hay, alfalfa or clover. Then if a heavy rain causes some runoff from a cultivated strip, the silt-laden reaches the protective strip of sod water flowing down the slope soon where the soil particles are likely to be filtered out and held by the stems of the grasses.

The booklet, issued by the Soil Conservation Service, is illustrated and the text is simple and easy to read. Page by page, it contrasts

### \$2 per Capita For Schools

Receipt Monday of \$2 additional per capita from the State School fund to go into the county available fund was announced this week by Clarence Guffee, county superintendent.

With receipt of this money the total appropriation lacks only \$3 of being completed. It was stated in a dispatch this week from Austin that this \$3 additional would be remitted to schools in the month of June.

Mr. and Mrs. Chas. E. Neil, sr., in company with Mr. and Mrs. Chas. E. Neil, jr., spent Sunday and Monday in Amarillo. Charles, junior, is considering locating in Amarillo instead of returning to California.

We can deliver a few nice Butane Space Heaters from our stock right now and we anticipate that we can deliver quite a few this summer.

Peculiar thing about Heater buying—people do not get into the market until the cool weather warns. This year, however, we are warned that those who get heaters will be those who buy NOW. That is what we had to do and it may develop that is what others will have to do.

Anyhow, why not buy a nice heater from us now and have it when you want it?

### Lockney Calls for Paving Contract

Lubbock for 28 blocks of paving within the city of Lockney. The paving will be paid for by residents on each side of the streets to be paved, with the city paying for the intersections and alleys.

Streets to be paved are:

The street running in front of the high school building from the southeast corner of the school campus to the G. H. Phenix corner.

The street running west from the Crager Funeral home corner to the high school.

The street running west from the Methodist church to the high school.

The street running west from the First National bank to the high school street.

The street running south from the West Side Church of Christ to Fred Hall's home.

The street from Pylan's grocery east to the City auditorium and thence north to connect with the highway.

And the street west from the Arthur Barker residence two blocks.

Where the residents did not pay for the paving running by their property the city contemplates levying against the property to pay for the paving, one member of the city council said.

A dinner was given Sunday in the home of Mr. and Mrs. Bill Switzer of Cone honoring Mr. and Mrs. A. L. Chambles of Valley View, Texas.

Those present for the occasion were Mr. and Mrs. Clarence Reddy and Lewis, Mr. and Mrs. Steve Patterson and girls, Mr. and Mrs. Ray Switzer, Mr. and Mrs. G. W. Switzer and Don, Mr. and Mrs. Griggs Hulsey, Mr. and Mrs. L. L. Switzer and Thelma, Mr. and Mrs. Bill Switzer and children, Miss Betty Griggs Wendell Johnson, and the honorees Mr. and Mrs. Chambles.

### AMONG HONORED STUDENTS

LUBBOCK, May—Miss Avenelle Moss, daughter of Mr. and Mrs. J. P. Moss of Floydada, was among 1940 women students honored at the 15th annual recognition service on the Tech campus May 14. Awards were made only to those women students who have maintained a high scholastic average and who have shown leadership in campus activities.

Miss Moss is a sophomore chemistry major.

During the second decade of our life we taste more lustily, hear more sharply, see more acutely, and have finer control of our muscular co-ordinations than during any other decade.

### Side Lights From Washington

(By George Mahon)

This is being airmailed from Washington Saturday afternoon, May 18th. An 8c stamp is required for this purpose today, but the odds are very heavy in favor of a 5c airmail rate within a few weeks. The House passed unanimously this week a bill establishing a 5c airmail rate—a program which some of us have favored since V-J Day. The 5c spread between the regular mail and the airmail rate has retarded airmail. There is little doubt but that the Government will make more revenue out of the 5c rate than the higher rate, on account of increased volume.

The chances are that airmail will be expanded to the point where practically all first class mail except that which is local in character will go airmail. The more mail that goes by air, the more our aviation industry is supported and the greater the backlog of experienced pilots in this Country.

At present we have a large number of airmen who have been discharged from the service and who would like each month to have a way to get in a little flying time in order not to lose their ability to pilot an airplane.

The Army has a lot of surplus planes and there are many available air fields. General Carl Spaatz, who took General Hap Arnold's place as head of the U. S. Army Air Forces, will be before our Military Appropriations Committee Monday to ask us to put through an appropriation of one billion two hundred million dollars for the Air Forces for the coming fiscal year. I am going to ask him to expedite the Army program for reserve pilots so that these discharged veterans under a well-supervised plan may have an opportunity to continue to fly. I would like to see a National Guard Unit in aviation established in West Texas.

The National Guard will have a bigger and better program in the future than it has ever had in the past. The Guard was a great factor in the victory which we won in the war and it will represent a large reserve force for national defense in the future.

The Reserve Officer Training Corps in the schools is due for expansion. Texas Tech is slated for a bigger ROTC program than ever before, which will include, if desired, when appropriate plans are completed an ROTC unit in aviation.

The Military Appropriations Bill is scheduled to pass the House in June. Indications are now that the bill, for the first time in years, will

include no money for the purchase of horses and mules. The General Staff of the Army has decided to abandon the Horse Cavalry.

The Army is asking for forage for the 2000 horses and 1347 mules which it still has on hand in Continental U. S. The prize horses of the Army now are the horses that were captured in Germany and brought to the United States last October. These 153 animals are valued at more than one million dollars, and the Army is besieged with offers of purchase.

We approved in the House of Representatives this week a \$75,000 fund to be used in the investigating of un-American activities by one of the Committees of the House. This is the committee of the House supported by patriotic organizations,

which investigates and gives publicity to the un-American activities of individuals and groups within our Country. The measure was bitterly contested, but the final vote was 240 for and 81 against.

Dinner guests last Thursday in the home of Mr. and Mrs. L. A. Moore were Dr. and Mrs. George Smith and Dr. W. R. Moore, son of Mr. Moore. The dinner was in honor of Dr. Moore on his birthday. Dr. Moore is now in the Vernon hospital and slowly but surely recovering.

## Fatal Injuries Received by Two in Highway Crash

Two persons were fatally injured and two others hurt when two automobiles collided head-on two miles south of Lockney on the Floydada highway last Friday.

John T. O'Hearn, 67, of Lockney driver of one of the cars, died at a Plainview hospital a few hours after the wreck. He received head injuries and a crushed chest. He was manager of the Lockney office of Southwestern Public Service Co.

Miss Mary Jewel Huggins of Lockney, employee of O'Hearn, who was riding with him, died in a Lubbock hospital a short time later. She was first brought to Pitts hospital here and then taken to Lubbock.

Grover C. Fairley of Odessa was driving the other automobile, said Highway Patrolmen Calvin Silvis and Tom Majors, both of Plainview who investigated the accident.

Riding with Fairley was Roe McCleskey, Lockney. Fairley was taken to a Plainview hospital and McCleskey was taken to Pitts hospital, Floydada, then taken on to Lubbock. He has a broken leg and an arm injury as well as a wound in the head.

Officers said one of the automobiles was attempting to pass another when the accident occurred.

O'Hearn, a resident of Lockney for many years, was engaged in electrical contracting and was an electrical appliance dealer in addition to serving in the utilities company. Among survivors are his wife and a daughter.

**Witnessed Fatal Crash**

Miss Huggins and Mr. O'Hearn, who had been reading meter on irrigation wells, went to Muncy to check on some details and were returning to Lockney at the time of the accident. Rev. Cobb of Lockney was in front of the O'Hearn car. The accident occurred about a mile

## R. C. Ward School Graduating Exercises to be Held Tonight

The graduating exercises for the Andrews Ward school will be held this evening (Thursday), at 8 o'clock at Andrews ward gym.

Honor boy is Bobby Finley, son of Mr. and Mrs. Robert Finley, and honor girl is Sammy Shultz, daughter of Mr. and Mrs. Bonnie Shultz.

The theme of the program is "Time Marches On." Program will be as follows:

ed by Rev. E. J. Cobb.

Mr. O'Hearn was born April 18, 1879 at Ladale, Missouri. He was married to Miss Francis Summer-ville of Wellington in 1926. He is survived by his widow, one daughter, Mrs. Margaret Carley, and one brother, Harry O'Hearn of Lockney.

O'Hearn was manager of the Southwestern Public Service Co. in Lockney. He owned an electric supply house in connection with his work.

The body was carried to Ft. Worth Saturday night by Crager ambulance. Service was conducted Monday morning at 12 o'clock in the Guardian funeral chapel. Service was conducted by a priest. Interment was made in Greenwood cemetery in Ft. Worth.

**Lives at Odessa Now**

Mr. and Mrs. Grover C. Fairley, of Odessa, were former residents of Floydada and Lockney and were visiting Mrs. C. H. Rose in Plainview. Fairley was taking Roe McCleskey to Floydada at the time of the accident. Fairley was taken to a clinic in Lockney, thence to Plainview, and brought back to Lockney. Crager Ambulance car carried Fairley to his home in Odessa Monday. Fairley was badly bruised all over, but no bones were broken.

**ORAGENE WILLSON ACCEPTED AT WARD-BELMONT, NASHVILLE**

Nashville, Tenn.—Oragene Willson, daughter of Mr. and Mrs. J. M. Willson of 112 South First St., Floydada, has been accepted as a student for the Ward - Belmont school for girls in Nashville for the term of 1946-1947.

Miss Willson, who will graduate from the Floydada High school in May, has made an excellent scholastic record during her four years of attendance.

She will enter the college freshman class at Ward-Belmont next September.

## Red Cross Home Nursing Course Proves Popular

Mrs. Otto F. Marshall has announced the names of the women who have completed the Red Cross course of Home Nursing. The first class was held in Floydada in October, 1945 with certificates awarded to the following ladies:

Mrs. J. H. Tribble, Mrs. Clara E. McNeely, Mrs. A. J. Hamilton, Mrs. Kenneth Bain, Mrs. O. G. Mayfield, Mrs. T. J. Heard, Mrs. L. H. Blum, Mrs. C. W. Dennison, and Mrs. Tom Jernigan.

The second class was held in Lockney in November, 1945, with certificates going to Mrs. J. H. Cooper, Mrs. J. H. Candler, Miss Betty Lou Seeman, Mrs. A. B. Kennedy, Mrs. C. O. Roberts, Mrs. J. D. Huggins, Mrs. Johna Bulbey, Mrs. C. L. Anderson, Mrs. C. M. Stapp, and Mrs. M. L. Anderson.

Mrs. Marshall's third class was held in Floydada in January, 1946, and certificates were given to Mrs. S. E. Thurman, Mrs. Sam Lide, Mrs. W. H. Brock, Mrs. Lon Blasingame, Mrs. Mary Shaw, Mrs. George Sherrill, Mrs. S. J. Latta, Mrs. Claude Hammonds, and Mrs. R. M. McCauley.

Lockney was again the site for the fourth class held in February, 1946. Certificates were given to Mrs. O. J. Huggins, Mrs. J. P. Williams, Mrs. A. B. Muncy, Mrs. Beatrice Hamilton, Mrs. Marie Lawson, Mrs. Emma Lawson, Mrs. W. C. Wisdom, and Mrs. T. B. Mitchell.

The fifth class was started in Floydada in February, 1946, and was completed except for the last two lessons when Mrs. Marshall was forced to stop teaching because of illness. In May the Red Cross sent a field instructor to Floydada to complete the course and certificates will be awarded to:

Mrs. E. L. Norman, Mrs. J. D. McBrien, Mrs. John Stapleton, Mrs. Lucy Martin, Mrs. L. J. Welborn, Mrs. Clarence Guffee, Mrs. W. H. Hillon, Mrs. F. O. Connor and Mrs. Fay Moxey.

Mrs. Marshall says that she hopes there will be continued interest in this very valuable course and she hopes to start another class this fall.

## Funeral Monday for Lockney Girl Killed in Crash

Funeral rites for Mary Jewel Huggins, 22, were held Monday afternoon at 3 o'clock in the First Baptist Church in Lockney. Rev. E. J. Cobb, pastor of the First Baptist Church, Lockney, assisted by Rev. Oscar Bruce, pastor of the First Methodist Church, Lockney, and Rev. A. L. Shaw, pastor of the Baptist Church, Quitaque, conducted the service. Interment was made in Lockney cemetery.

Miss Huggins was fatally injured Friday afternoon when the car she was riding in collided with another car on Highway 70. She was carried to the Lubbock General hospital, where she died within a short time.

Miss Huggins was born and reared in Floyd County. She is the daughter of a pioneer couple, Mr. and Mrs. O. J. Huggins of Lockney.

The deceased is survived by her parents, two brothers, J. E. who is attending school at Texas Tech, Fred, who is in the Navy in California, and one sister, Emma Lois, who is employed as a technician in a Plainview clinic.

All the members of the family were present for the last rites.

# Greetings to the GRADUATES of '46

As one of this community's oldest business firms, we naturally look upon ourselves as the friend of every family. We have been with you and your fathers and mothers in good days and bad, and have watched many graduates grow up, get their diplomas, and get started in the business world. As history repeats itself again this spring, once more we come forward with our congratulations and good wishes to the boys and girls who have done so well in school and who are now about to embark upon new and important adventures. Please regard us as an old friend of the family, always at your service.

**THE HESPERETTE**

Now lay me down to sleep  
My time has come, that's why I weep.

If I should die before I wake  
I did my duty, for goodness sake!  
Well, my little ducklings, this is the last time you will hear any squawks out of De Quacker. I want to say this much before I resign—I think everyone has taken the gossip as real sports, and I feel all the students knew it was all in fun. None of it was ever intended to hurt anybody's feelings, though I know there have been instances to cause lots of damage in the air and dust. But seriously, most everybody has got a big kick out of it all along. In fact, even parents have been ardent fans of this column, I'm told, and have read the Hesperette before they read anything else. Though something else may have been more worth-while that gives us some consolation. The ones that have tormented this gossip are those that saw very little fun in their days, and they expect us not to have any in ours. I may be wrong but I think our paper would have failed without any gossip for it is one of the fundamental things of any school paper. I hope there will be a gossip column next year and almost all the students will agree with me on that standpoint of view. Snuff said!

To lovers of poetry (9):  
Jean has so many fellers  
She doesn't know what to do  
And everytime a boy passes by  
She wants to wink and whistle too.

Ten fingers, ten toes  
Two ears, one nose  
Sounds like a human  
But it's just Sybil Roe!

Corky Guffee, Corky Guffee  
Is not a toughy nor a roughy  
But to girls, real polite and nice  
And he doesn't whistle twice!

Hughetta's name is "Babe"  
In case some didn't know,  
She's just a doll and awful smart!  
But don't tell Dale I said so!

Going around with Earl  
Was a cute little girl  
By the name of Nancy Brown  
Who, if you ask me, would knock anybody down!

Nanette, why does Don sing  
"Slouch City Sou"?  
We know your hair is red  
And your eyes are blue  
But maybe it's cause he loves you!

A smart and problem child was she  
High school kid she'll no longer be  
But a dignified senior now  
So, Mary Eunice, take a bow.

When Glenn's lips say no  
But her eyes say yes  
You're an awful fool  
To stop and guess!

Melton Smith: Nobody will be the wiser if I kiss you.  
Betty Griggs: Then don't. I'm after an education.

Straight from headquarters: Jimmie Hicks and Arthur Womack Jr. and Myra Nell Hall and N. E. Tyler, Jr. are officially engaged! Jean Warren and Howard Adams are still together in spite of so many people's attempt to bust them up including mostly Freshmen girls. Amid it all, Howard bravely comments to Jean in a note found: "Loving you always, Howard". It's true love that always counts they say... Almarene won't get any more phone calls in Miss Swepston's classes from Max. You should have limited your speaking to at least "ten" minutes, shall we say, and the teacher would not have got so suspicious... I still can't figure

it out. One minute Marjorie thinks Corky is the one and only boy, but I can't keep from being frustrated when Louis continues to go with her.  
Say, I better close this big mouth of mine and get out of this territory while I'm still alive. I needed a vacation anyway, don't you think!! In closing: My goose is cooked—I'm a dead duck, but boy, I can still quack. QUACK, QUACK, QUACK.  
If you happen to see a senior tomorrow night with crutches and bruises (mostly bruises), you'll know it to be De Quacker!

I left I saw Joy McIntosh looking  
prim going to the picture show.

**SPANISH CLUB NEWS**  
The second year Spanish class en-  
joyed an eventful afternoon at a  
picnic Wednesday afternoon after  
school. Due to unpreparedness we  
arrived without bottle openers  
knives, water, pans, and so on but  
everyone enjoyed "roughing it."  
The people with sharp teeth came in  
handy for gnawing limbs to roast  
the weiners on, and Lanell Teague  
proved to have been the best (Just  
call her "Eager Beaver"). Bobby  
McGuire got the Purple Heart for cut-  
ting his hand opening a chili can  
with a small pocket knife. Later on  
a water fight was started, and every-  
one got cooled off with ice water.  
Those enjoying the fun were:  
Lanell Teague, Billie Francis Sis-  
son, Barbara Moss, Valrie Burke,  
Geneva Knight, Bernice Hinsley,  
Joyce Porter, Dorothy Cantrell,  
Marlene Poote, Margaret Abbott,  
Patricia Kirk, Bobbie Gene Medlen,  
Sammy Hale, Bill Hale, Bobby  
McGuire, Pete McGee, Squirt Bis-  
hop, Kelly Hagood, Melvin Booth,  
Ted Bell, and James Finley.  
Due to illness Miss Swepston was  
unable to be with us, but Mrs. Col-  
lins and Miss Marr were our spon-  
sors.

The Spanish I Club were enter-  
tained Thursday afternoon by a  
picnic. They met at the home of  
Mrs. Arnold and then journeyed to  
their destination—the roadside park.  
Numerous games were played and  
sandwiches, cookies, and soda pop  
were the refreshments.  
Those present were Roberta Gar-

rett, Ted Lanham, Hope McIntosh,  
Clauden Goen, Mary Maxey, Al-  
marene Lyles, Joy Childress, Ivy  
Pearl Simmons, Virginia Odum,  
Orby McCleskey, Ruthie Harmon  
and their sponsor, Miss Swepston.

**PLANS FOR THE SUMMER**  
Miss Osborne: Going home to  
Kerville.  
Mr. Barber: Staying here and  
working with the boys.  
Mr. Graves: Staying here and  
taking a rest.  
Mrs. Jones: Maybe work in har-  
vest and later take a trip.  
Miss Swepston: Stay home.  
Mrs. Collins: Stay home and rest.  
Mrs. Graves: Stay home.  
Mr. Harris: Going fishing and go-  
ing to school.  
Miss Marr: Teach school.

**FASHION OF THE WEEK**  
To have been fashionable Mon-  
day and Tuesday you must have  
worn a wishful look on your face  
nervously handling a Blue Book and  
fountain pen and hopeful you  
would be in fashion Friday night  
by wearing a cap and gown with a  
red rose in your lapel and carrying  
a well-earned diploma.

Why they call money "dough" we  
don't know. Dough sticks to the  
fingers.  
"Tis said of Reuther, "He went to  
college, but he also has brains."

We know a fellow who shaves forty  
or fifty times a day—but he's a  
barber.  
Morning is that time of the day  
when the rising generation retire  
and the retiring generation rises.

You can't even get a black eye  
without fighting for it.

that was a perfect fit, but we've  
seen a lot that were concussions.

# POLIO

Fortunately Floyd County has not had a case of Polio reported lately, a record for which we are justly proud.

The recent excitement in San Antonio and Austin has reached a high pitch and thousands of dollars are being spent to stop the dreaded disease.

The source of the disease has been hard to locate but most Doctors are agreed that it probably starts from flies and mosquitoes.

Filth makes an ideal place for the breeding of flies and mosquitoes.

We, having, this in mind last year started a continuous clean up program and have been successful to a degree but there are a few places that does not meet the need of good sanitation.

Namely: Unkept cow lots, manure and burnable trash in the alleys. A few places are very, very unsight-ly, fly breeders and unpleasant to the neighbors.

The city is spending more money than ever in the history to do its part in hauling of the refuse but it is not the duty of the City to clean up cow lots and haul off manure and trash and limbs that can be burned.

We have tried to be easy on such matters, hoping not to make enemies of any one but it is the duty of the city officials to look after the health of the city regard- less of friendship in the future.

Good people, thoughtlessly disobey the laws of sanitation but it is time that they wake up and get their premises in order. Inspectors will be around soon and report all unkept places.

Let us get busy and clean up and stay cleaned up.

## Mounting Hiway Accident Toll in Texas Depleted

AUSTIN—State Highway Engineer D. C. Greer is making a strong plea to motorists, urging them to more strictly observe the highway signs and markings to help reduce a mounting highway accident toll which threatens to take more lives than war.

"There are many physical hazards on our highway system and thousands of miles of our roads are obsolete and unable to adequately and safely accommodate the growing traffic burden," he said. "These deficiencies can only be remedied by redesigning and reconstruction which entails expenditure of large sums of money."

"Unfortunately, the funds are not available, and will not be available for many years, to make our highways as safe as they can be made from an engineering standpoint," he pointed out.

"Many collisions also may be attributed to mechanical defects in the vehicle, but despite these defects and the physical hazards of the road, a cautious driver can usually avoid trouble regardless of the condition of the vehicle or the highway."

"Head-on collisions and side-swiping accidents on our highways would be virtually eliminated by observance of our center stripe system," he said.

This system of marking prohibits a motorist from passing another when the auxiliary dashed line is on his side. The continuous center stripe should not be crossed except when one vehicle is passing another.

Greer asked drivers to keep a sharp eye for the yellow caution series signs which are designed and placed to warn of approaching curves, crossroads, narrow bridges, and other danger spots.

"These are simple rules," he said "but hospitals and cemeteries are daily claiming too many people who have violated them or forgotten them."

Calling attention to the fact that any good traffic system will save lives if correctly followed, he said that the Texas system, developed from years of study by competent traffic engineers, is likewise of no value unless it is observed.

When they jerked a fellow out of a wrecked car the other day, he said that except for his marriage that was the worst fix he had ever been in.

Nature provides a compensation for the early decline of our physical forces by increasing our mental abilities with the advancing years.

## Discharges

Discharges recorded in the county clerk's office of Floyd County in the past few days include the following:

Luther Brown Stewart, Jr., electrician's mate second class discharged May 3, 1946 at USN Personnel separation center Camp Wallace, Texas;

J. C. Nelson, private, 353rd Infantry, discharged May 13, 1946 at separation center Camp Chaffee, Arkansas;

Gerald B. James, private first class, 85th chemical Mortar Battalion, discharged May 10, 1946 at Separation center Ft. Bliss, Texas;

Charles Edgar Neil, Coxswain (CB) discharged May 10, 1946 at Navy Personnel separation center New Orleans, La.

Kenneth W. Tate, technician fifth grade, Replacement Depot Adjutant General's Department, discharged April 22, 1946 at Ft. Bliss, Texas;

Owen D. Handley, private, 1st Ordnance Training Regiment, discharged Nov. 29, 1943 at Camp Stone-man, California;

Albert Glen Tyler, seaman first class, discharged from Coast Guard Personnel separation center Number eleven May 11, 1946;

Troy E. Cummings, technician fifth grade, 3769th Quartermaster Truck Company, discharged Feb. 6, 1946 at Ft. Bliss, Texas;

Leonard L. Ferguson, private first class, 4220th Quartermaster Service company, discharged Feb. 6, 1946 at Ft. Bliss, Texas;

Wayne H. Bybee, sergeant, 4287th Quartermaster Salvage Repair Company, discharged May 10, 1946 at Ft. Bliss, Texas;

William Samuel Ferguson, hospital apprentice first class, discharged May 18, 1946 from USN Personnel separation center, Camp Wallace, Texas;

Aubrey Clayton Weathers, Radioman third class, discharged May 16, 1946 at USN Personnel separation center Camp Wallace, Texas.

We read the other day of a lad who advertised his new-born pups for sale as "Republican Puppies." Then, two weeks later he sold them as Democratic Puppies—because they had their eyes open.

We read the other day of a man who visited the cemetery every day to mourn over the death of his wife's first husband.

Nowadays when you criticize the maid she ask, "Do you want to make the rounds of the employment agencies again?"

There would be a lot more guilty pleas in court, if we had all-women juries. Mere man can't fool one woman, much less twelve.

Two men were hospitalized in Syracuse, N. Y., recently, while attending a nylon sale. Mere man should know by now that it's a woman's world.

## SWIMMERS BEWARE!

Take it easy at the beginning of the swimming season, the National Safety Council warned swimmers today. The Council pointed out that a large number of drownings occur at the beginning of the season because swimmers overestimate their physical condition.

An average of 1000 persons are drowned each month from May through August, according to Council statistics.

Drownings lead all types of public accidents.

Met a fellow in the big city recently, whom we hadn't seen in ages. Had a difficult time recalling his name until he said we had slept in adjoining pews in the same church for ten years.

Every time we get mad we wish we had trained ourselves to be a spectator in an emotional situation instead of a participant.

We've decided that those beautiful illustrations in the seed catalogs are just to show you what the stuff would look like had it come up.

Our very best wishes for your success in the days which lie ahead.

## May 24 Oil Saving Demonstrations

of demonstrations showing saving methods, irrigation and pasture crops will be held in the Floyd County District by the county supervisors, beginning at 1:00 o'clock Friday, according to A. L. Hart, county agent. W. P. Ferguson, chairman of the Board of Supervisors, extended an invitation to farmers, business men and others to attend the demonstrations. The group will assemble at the office in Lockney and drive to various farms to observe various methods being used for soil improvement. Plans were made to visit the respective farms of Lloyd Wolford, Henry C. O. Roberts, Floyd Moore, Stanley T. B. Mitchell, D. D. A. E. Miller.

Agent said in discussing the matter this would be a fine opportunity for many interested persons to become familiar with the mixed pasture grasses being used as a means of pasture improvement throughout the irrigation area. Some farms other than those listed above may be visited should time permit and everyone is cordially invited to make the entire tour or any portion of it.

According to the agent and SCS authorities representatives from the local press and some of the leading agricultural magazines will be included in the group observers.

### NEW FIXTURES AT FIRST STATE BANK, SILVERTON

SILVERTON, MAY—Installation of a complete new set of fixtures at the First State Bank has been started. They are of the latest design and will give the bank a greatly improved appearance.

The fixtures were made to order by the W. D. Collins bank fixture company of Denison, and will have three teller's windows. They are of mahogany finish with French marble used at the teller's windows. There will also be a French marble baseboard.

Installation is under direction of F. W. Wintree of Denison.

Mrs. Frank Simpson and Mrs. Troy Wellmaker make a trip to Cleburne on Friday, returning home Sunday. Mrs. Mary Wellmaker, who has visited in Cleburne the past five weeks, returned to Floydada with them.

## TSCW Year Book Beauties 1946

TSCW Beauties—This year's Daedalian yearbook beauties at Texas State College for Women are Jeannette Hudson (upper left), senior from Ola, Arkansas; Gloria Jackson (upper right), sophomore from Gainesville; Margie Ann Lee (lower left), freshman from Brad (Palo Pinto County); and Gloria Hale (lower right), junior from Fort Worth. The four were selected from sixteen nominees, four from each class, in College Station last November by the entire Cadet Corps of Texas A & M College, but their identity was kept secret until their presentation at intermission of the Senior Prom Saturday night (May 4) in the ballroom of the Student Union by Sue Jones of Greenville, yearbook editor. Full-page pictures of the four will be featured in the beauty section of the yearbook.

### OCEAN BOTTOM FARMING

Food from the ocean floor may be the answer to our increasingly serious food problem.

Chinese and Japs have successfully farmed the ocean floor for some years, and this type of farming may be the answer to what nutritional authorities term "hidden hunger" caused by eating foods from soil which is deficient in the minerals elements we need to sustain life.

"Good virgin soils hold an abundance of the minerals essential to plant, animal and human health but those elements can be and usually are used up much more rapidly than nature or the farmer can put them back," an article by Rex Beach in the May issue of Cosmopolitan magazine states in part "They are mined out" by over-cropping, carried away by erosion washed out by rains."

While we suffer from "hidden hunger," biologists assert that millions of acres with heavy crops rich in minerals are unused. They refer, of course, to marine plants growing on submerged lands along our coastlines.

"The wealth of foodstuffs in the ocean prompts biologists to predict that "mariculture" may become as important as agriculture, and that it can quickly meet the menace of

### "CURES" FOR COLDS

SCHENECTADY.—Fantastic remedies suggested for the common cold 60 years ago were described here by Dr. Louis C. Jones of the State College for teachers, Albany, N. Y., in a G-E Science forum address over WGY.

"The Albany Times in 1886 suggested that, in the realm of preventive medicine, the best thing to do to ward off a cold was to take a bath in hot whiskey and rock salt twice a year," Dr. Jones said. "I suppose the rock salt is there so you won't drown."

"There are some less expensive remedies for colds that I am glad to pass on to you," the speaker, who is editor of the New York Folklore Quarterly, pointed out. "For example, it was 'discovered' down in Calcoen, N. Y., that if you take the skin of the leaf lard from the side of a pig, put it on your chest and keep it there, you'll be over your cold in no time."

"If that, by any chance, doesn't work and you are still able to get around despite your hacking cough you might try crawling through a double-rooted briar moving from west to east," according to old legends.

"nutritional deficiencies," the article states.

## INSURANCE FIRE

V. L. McNeill's home (1 Mi. West of Floydada) was a total loss from fire last week. (Watch those oil stoves). He had \$1,500.00 on the house and \$1,000.00 on his furnishings. Within 48 hours after I got the word of the loss, he had his Texas Farmers Union check for \$2,500.00. This is payment in full—no depreciation. This is possible because the money is there to pay losses and none to money lending stock holders in this or any other state.

Action speaks louder than words and that's why hundreds of farmers in Floyd County have insured in their own Texas company at the rate of \$6 per year per \$1,000.00. More are insuring every week as their other and "Double Rate" policies expire.

Don't let 'em kid you! The Federal Land Bank and all other Loan companies HAVE accepted our policies. So insure with your own Texas Farmers Union—keep half your money in your own pocket and the other half in your own company. You just can't get the most for your money in companies operated for profit where not even half your money comes back as losses! Now check the record? There is nobody against you but the man living off you.

You are welcome—and safe—and building something for you and yours when you insure in your own Texas Farmers Union company.

### Three Are Injured When Cars Collide on Matador Street

MATADOR, May 16—Three residents of Matador were injured late Tuesday when two automobiles collided near the P. B. Barton home in the north section of the city. Mrs. J. E. Russell, Mrs. Julia Cornett and Mrs. W. W. Bain were conveyed to the Trawek hospital after an automobile driven by J. E. Russell collided with an automobile driven by Bill Dirickson, belonging to his mother, Mrs. W. R. Dirickson.

Mrs. Bain did not recover consciousness until about one o'clock Wednesday morning. Examination disclosed her to be bruised and cut about the left eye and ear and on the head, also suffering undetermined internal injuries. Mrs. Russell sustained two broken ribs and chest injuries. Mrs. Cornett received severe arm and shoulder bruises and shock.

Neither Mr. Russell nor Mr. Dirickson were injured.

### Dougherty News

DOUGHERTY, May 20—Plans are being made for the vacation Bible school which will start June 2 and continue throughout the week. This will be a school for all children of the community and in addition to the two state directors, leaders from both Methodist and Baptist churches have been named to help with the work.

After the enrollment Sunday afternoon, classes will be held at the Baptist church each morning from 9 to 12.

All children from beginners through intermediate Sunday school grades are urged to attend the school.

**Club Meeting Held**  
The Dougherty Home Demonstration Club met Wednesday, May 15 with Mrs. Tate Jones.

A program was given on health with Mrs. J. T. Poole discussing the health of the family and Mrs. Claude Ring, the health of the community. Mrs. C. W. Dennison gave an interesting demonstration on planning and serving trays for the sick.

Mrs. C. W. Dennison directed recreation in the absence of Mrs. Al Edwards, recreation director. Mrs. Claude Ring and Mrs. C. A. Caffee received game prizes and Mrs. J. T. Poole the attendance prize.

The next meeting will be with Mrs. O. G. Glassmoyer, June 5. At that time Miss Edith Wilson will give a demonstration on summer desserts and salads.

Refreshments were served to the following: Mesdames Sam Lide, Lewis Blum, C. E. Bartlett, Orland Howard, O. G. Glassmoyer, W. S. Poole, Claude Ring, C. A. Caffee, J. T. Poole and the hostess, Mrs. Tate Jones.
