Hijackers, Bank Robbers Quickly Turned in Jails

A taste of crime wave to the west and to the east of Floydada marked this week, with a daylight bank robbery Monday morning at 9:30 at Hale Center, Tuesday a robbery with fire arms at Matador Tuesday morning at 5 o'clock. Both were quickly squelched.

All the participants in both escapades were apprehended and all the loot has been recovered. Robbery of the First National Bank at Hale Center is charged against three Lubbock men, Charles Walter Royalty, 23, Grisham S. May, 32, and S. M. Willburn, 21. The latter protests his innocence, according to Sheriff Ted Andrews of Hale county and officers state that the first two named have been identified as the ones who entered the bank and forced R. A. Jefferies, president of the bank, to hand over \$2,215. Two hours later this money, the three men, a shotgun, a rifle and a pistol were taken at a road block seven miles south of Hereford. The men were taken to Amarillo and charges filed by complaint.

Willburn, who says he was innocent of knowledge of the robbery, is a taxicab company employe at Lubbock. He said he was hired "to go out in the country" and thought they were going rabbit hunting. He suspected robbery when his two companions came tearing out of the bank, where they had stopped "to cash a check."

Three Are Hurt In Crash at St. Intersection

Mrs. M. C. Smith and her two sons, Donald, 11, and Kenneth, 2½, miraculously escaped grave injury or death Friday morning last when the family car in which they were riding on East Lee street, was struck by a Santa Fe train at the intersection about 10:30 o'clock.

The car is practically a total wreck but one of the boys, Donald, escaped with no injury, while Mrs. Smith and Kenneth suffered cuts and bruises and shock. All are recovering normally this week. The trio were taken from the wrecked automobile by Conductor R. E. McReynolds of the Santa Fe train and H. T. Williams and hurried in the latter's car to Floydada hospital where they were examined and given treatment. Buildings obstructing the view, including the Davis elevator, kept railmen as well as the occupants of the car from seeing the imminent collision until it was too late to avoid, statements indicated following the accident. The cowcatcher struck the car just behind the center of the front left wheel and carried the vehicle and its occupants several feet. The automobile will have to be completely re-built before it is fit for service again it was indicated at Oden Chevrolet company, when it was taken following the wreck.

Bankers Hold Biggest Meet

Bankers of Texas held the biggest meeting in the history of the State Bankers association last week in Houston, said O. M. Watson, executive vice-president of the First National bank of Floydada Monday. Houston really is "going to town" as an industrial city, the development in the coastal city being recorded in transactions of hundreds of millions where other cities talk of millions.

However, the biggest impression for Watson on his trip was the devastation evidence at Texas city hard by Houston. He and a party who visited that port saw a town that was being re-built, with millions yet to go, although they were not permitted in the dock area.

Pioneers Meet, Rodeo Make Big Day

Rodeo Records Big Attendance

Although no final attendance or financial figures were available last night on the first full-fledged rodeo sponsored by the Floydada Rodeo association, Jack Johnson, president of the sponsoring organization, and other officials indicated they were well-pleased with the results of the club's maiden effort.

Crowds which filled the stands yesterday afternoon and night after the initial performance Tuesday night, gave evidence that the public had labeled the show as "good." Financial arrangement with Jones brothers, who staged the show and furnished the live stock for the event, is said to have been an even split of the net proceeds, after taxes and all expenses had been met. The show was an "approved" rodeo with entries from many points in the southwest. The list of winners in the events was not available last night.

Pleased With Colt Show
The list of entries and winners in the colt show and the reining horse contest held Tuesday also were not available yesterday. Carl Smith, who was one of the promoters of this event, said that the horsemen of the community were pleased with the show and with the work of the judge, Roland Moore, of Tulsa, an inspector for the American Quarter Horse association.

Many young colts, 60 days old and less, were shown in the one-year-old and younger classes which made the judging more difficult.

Bill Welch Dies At Flomot Home

Bill Welch, of Flomot, died Tuesday afternoon in the house in which he was born 53 years ago—his farm home three miles west of the twin peaks city.

Funeral rites were held at the First Baptist church in Flomot Wednesday afternoon. Rev. Lee, pastor of the church, officiated.

Mr. Welch was ill for only a short time before his death, attributed to a heart ailment.

Survivors include his widow, a son J. A., two daughters, DeLores and Virginia, a brother, Henry, of Flomot, and three sisters.

Mr. and Mrs. W. F. Rogers, their daughter Cecelia Ann, Mr. and Mrs. A. C. Tyler, and Mr. and Mrs. K. Fair, were among the Floydada residents, who attended the last rites.

Wheat Estimate in Floyd County Is Given Boost

Wheat farmers in Floyd county sure do not want a major drought but they appreciate a minor sort of a dry spell. They estimate the wind and sunshine of the past five days may prove to be worth millions to Floyd county alone.

Response to sunshine of the wheat crop out in the fields, some of which is beginning to turn tan, has been nothing short of miraculous, says grower after grower. Big fine heads that had "nothing in them" Saturday, were juicy with the dough that hardens into grain when Tuesday came. Believe it or not nothing like it has happened before in at least 25 years of wheat farming in Floyd county. The whole story is one that is credited to sunshine. The wheat had pouted as rain pounded from May 6 to May 24 with cloudy overcast between rains. The response to sunshine was instant and approaching the unbelievable.

Season Two Weeks Late

On the other hand the weather is responsible for two weeks of delay in the harvest. On this date a year ago the whole wheat world of this section was poised for the harvest. Today the wheat men are counting it will be way up in June before there is even a start made.

A forecast issued this week by an Amarillo newspaper indicated the probable harvest in Floyd county at four and a quarter million bushels. This forecast said the probable yield would average 13 bushels per acre on about 320,000 acres. Local wheat men say the weather for the next 30 days will be the controlling factor. Present outlook is for a much higher figure than was set in this Amarillo report.

Gound Is New Assn. President

Floyd county pioneers who finished their celebration of the 57th anniversary of the founding of the county last night, with the dancing set in old-fashioned steps to the music of a daughter of an old master of frontier music, had a good day for it. Accordingly they made the most of the event.

And concurrently those who were rodeo-minded or too young to "wear a badge" took in the big rodeo performances at the grounds of the Floydada Roping club, staged by the Floydada Rodeo association. The "old settlers" and the rodeo were enjoyed hugely.

It was a big day for them, from the opening of the registration in charge of Mrs. S. W. Ross, to the closing "God be with you," led by a quartet composed of C. M. Lyles, Arch Gibson, Lester Burgett and Floyd Johnston.

W. A. Gound Is President

Elected to serve the association as officers for next year were: W. A. Gound, president; Mrs. Jeff Smith, vice-president; Mrs. Maud E. Hollums, secretary; George L. Fawver, treasurer, and directors, A. T. Swepston, J. T. McLain, Glad Snodgrass, R. C. Scott, Roy L. Snodgrass, Buck Sams and C. L. Anderson.

District Attorney John B. Stapleton gave the pioneers their principal speech of the formal afternoon session. Praising those who blazed the path he declared they had left a heritage of courage and fortitude which their sons and daughters would not falter in upholding. Himself a son of a pioneer physician, Stapleton said that the steadfastness which had characterized "the essential honesty" of early day men and women had been passed on in ample measure to their posterity and that the oncoming generation who are now taking their places in industry, commerce and society is resolved that the high standards set by their forebears shall not be abandoned. Stapleton cited many pioneer landmarks in personality and geography of the region to substantiate his remarks. (See Old Settlers, page six)

THE RAISE IN POSTAL RATES

Anybody can criticize and that probably is the reason that most of us do—quite often in a wholly uninformed way. Many who criticize reveal their ignorance with the opening shot but go right on through with an irresponsible mouthing that reveals nothing except a billious disposition and the fact that it isn't against the law to spew. Fortunate that such is the fact, whether or not it is good for the country. As long as we have no provision for an omnipotent judge to pass on earthly conversation and words that are put into print it is as well. There is a judge who will give these matters attention later but he has no vicerey to handle the matter in this temporary phase.

This is prelude to the statement that the Post office department is not judged all-wise by many competent men, who believe that instead of a raise in rates the department needs a touch of efficiency added here and there to do away with its deficit. There are, indeed competent men who believe some of the rates could be cut in half and still show a margin of profit were the affairs of the department conducted after the manner of private enterprise. But hearings have been held and the rates are going up. Such newspapers as The Hesperian will suffer enough but least under the change, according to private reports on what is likely to happen when the Congress votes. This same report says that the larger magazines are due to be hit hardest. All will be hit hard enough.

It may be that second class mail should bear a larger proportion of the bill. This we are not in position to judge either. Since most of the newspapers have their businesses set up on the old basis, which has been effective for some years, and are now entering a period of black market prices on the paper they use, the change is due to upset publishers' plans and make some of them really look about for a way out. Second class rates have had the most exhaustive investigation and were most under fire during the hearings recently concluded.

THANKS FOR THE MOON CHANGE

Arrival of the dry moon the first of this week was a great relief to those of us who keep up with the true innards of things. When it gets wet and just stays wet on the plains of Texas and on the hills and the rolling prairies adjacent it is good for neither man nor beast. In this country it is supposed to rain just enough and not too much just barely soon enough and then turn off dry.

Those who scoff at the moon and its profound influence on things earthly are of the

same make-up as those who guffaw at grandma and the asafetida she tied on the string around the baby's neck and snicker about the fool Indians who found beneficial herbs in the forests and on the plains wherever their nomadic spirits carried them.

That the moon hasn't done right by us the past 30 days must be admitted. Its influences have been so peculiar as to be queer. But a better time in the calendar of the moon is superimposed on the sun calendar and we'll see its influence beginning this week most beneficially.

COMES A BIT LATE

Hewing to the line, however, we must admit that the moon change comes a bit late to be of the greatest aid to wheat, and there are people in Floyd county who will not make as much wheat as they have been expecting as they looked over the billowing waves of beautiful brackish tan green. Here is the low-down:

A wheat crop on the plains makes more wheat and ranch grain than it looks like it is going to make in a dry year. A wheat crop here makes fewer bushels to the acre and not as high in protein in a wet year. So, after counting off for the nicks and dents that hail has made around over the country, also take off a bit more for too much wet. Thus, if you expect to make \$15,000 worth of wheat, don't spend over \$13,500 before you get it into the elevator. The moon change has come a bit late and the money won't be available for that last \$2,000 gadget you intended to buy. Go ahead and buy a lot, you understand, get her spent, poop it off, but stop before the last final whoosh. And charge your disappointment to the moon.

The degree of acidity of the soil, and the kind of plants to be grown, determine whether or not the land needs lime. Soil acidity is expressed in terms of pH. For most legumes, soils which have a pH of less than .5 need enough lime to bring the pH to that figure.

The best insect control in the garden is obtained when control measures are started early; when the right insecticide is applied thoroughly; and when applications are repeated every seven to ten days until control is complete.

DON'T Overload

A "teen-ager" in the family is apt to "overload" your telephone. But that's not the only thing in your home that can be "overloaded."

You can overload your electric wiring system too if you don't have adequate wiring. When you add new appliances and lights to your home, and leave your wiring as it was installed years ago, you're apt to overload it, and receive less efficient service. Fill in the coupon and mail, or call your nearest Public Service office to find out from our specialist if the wiring is adequate in your home or place of business. The service is without charge and places you under no obligation.

We are acting only in an advisory capacity. We have nothing to sell but good electric service.

We member and laugh at the ad defeats of all the yester- sometimes the sadness and of those early days on swept plains, may be the of all memories. So let's the limp, that our eyes are od. Oh, but we add, we can as far off as we always is our week, O. Pioneers, our week!

want a good laugh and me and enjoy yourself im- hop around to Hop's in just before the Man with Deep Voice begins his daily of radio personalities". No the Voice but I would recognized Wes Karr other- of course one would think him at him every day, he have a head of coal black perhaps a little curly, that he very tall and so on and he does not answer this on and you will have to go to meet him. Then the as you know only as voices struments, good ones too. on would show the man at po, who never, never has to the keyboard and see what ds are doing, the three sing- the mike, Uncle Henry, ould have a long white whisp

of a beard, and long skinny fingers, but does not, and the man who plays the big object which looks as if a cross between the fiddle and a guitar. Of course you would see Hop and Joyce, brother and sister, looking as if they enjoyed every minute of the program.

Roses have thorns, sweet is not without its bitter, and rain, well it is not without mosquitoes. I have donated several ounces of blood to them already and if I only stick my head out for battle, biting me on the nose and cheeks especially. I try kerosene oil and skelter skoot and no-mo, but if anything it only makes me more attractive.

If I do not get this column in next week, you may know that two days of being an old settler, was more than I could take.

If I had my druthers, I would druther we would not have rain for a few days till cotton had time to be planted and get up. But then it might not be a cotton year. May be a good thing we do not always get our druthers.

Our son, Wilson and wife Marjorie, have moved in the McGuire hospital. We have not been down to visit them yet, but will go tomorrow that is if it does not rain. Only five miles of mud after a rain are all we have to go, but that five miles!

He bought a ticket for the plane at the dairy show in Plainview several weeks back and had thought nothing of it until he was surprised by Mark Martin Sunday when Mr. Martin flew out to let him know he held the lucky ticket.

Just what to do with this new possession, Mr. Walls has not de-

cidated at this time. In commenting on his ride he said the town of Floydada and the surrounding country, including his own farm, looked mighty pretty from the air.

Doyle Walls also took a ride in the new plane.

People Chance Prescribing for Their Illnesses

AUSTIN.—"It is an unfortunate fact that some people are willing to risk their health -- possibly even their lives -- by prescribing for themselves and taking a drug that they have read about somewhere and which has been termed a "miracle drug" states Dr. Geo. W. Cox, State Health Officer.

"Although such drugs as penicillin, streptomycin, thioracil and sulfa drugs have been of great value in combating diseases that have heretofore been very difficult to control, nevertheless, they can be very dangerous products in untrained hands. They were never intended to be used promiscuously for self-medication," the State Health Officer asserted.

If a pharmacist refuses to sell a particular drug and explains that it can't be supplied without a physician's prescription the would-be purchaser should not become provoked. That pharmacist is giving sound public health advice and is also complying with the law. The State Health Officer declared that self-medication is never advisable, and even "miracle drugs" should be taken only when a doctor prescribes them.

Light Plant Improvement

The council's reasons for enlargement of the plant were very clearly set out in the Hesperian last week and is rather hard to enlarge on.

The plant was built to accommodate a town of twenty seven hundred away back in the thirties. Our population has grown to about four thousand and is estimated to keep growing to 5,000 by 1952.

We will have to have more power and more lines and more transformers.

More different kinds of appliances are being bought and more power to operate shops and mills must be had.

If this bond issue carries there will not be any more mortgage against the light plant. The bonds will be strictly revenue bonds and the city can NEVER be taxed to pay them. The present mortgage against the plant will be cancelled.

The thirty eight thousand that is frozen will be loosed and twenty thousand held in the treasury to insure two years payment on the bonds ahead. The other eighteen thousand can be used by the council as they deem best and some of it will probably be spent to buy a street sweeper and a street maintainer.

The council and the mayor are anxious to see the election carry and will appreciate the approval of the voters.

F. C. HARMON, Mayor.

Bond-A-Month Plan Urged For Floyd People

A nationwide promotion of the Bond-A-Month Plan will begin in July and continue through July 1948. The plan is being promoted by the established program of the Payroll Savings Plan, according to Mr. Willson, chairman of the U. S. Treasury committee on U. S. Savings Bonds. "Every bank in Floyd county and in the State of Texas has been notified of the Bond-A-Month plan and a great percentage of the banks have agreed to install the plan and back the program of managing the Treasury's promotion. Suitable explanatory inserts, have been made available to all banks. The plan is a part of the Treasury's program of managing the national debt on a sound financial basis which is vital to every citizen of the entire United States."

Adopt Bond-A-Month Plan
Mr. Willson also issued a statement from Nathan Adams, Dallas state chairman of the Texas Advisory committee on Savings Bonds. Mr. Adams stressed the need for continued participation in Payroll Savings plans and the Bond-A-Month plan. "The Bond-A-Month Plan is not new," Mr. Adams said. "It began in 1941 and has been adopted by many banks throughout the nation since that time. The Treasury's June-July promotion is an added step in the Treasury's program to distribute the national debt among the greatest possible number of citizens. Many thousands of persons in Texas do not have Payroll Savings plans available to them. The Bond-A-Month plan will make regular, systematic purchase of U. S. Savings bonds available to everyone who has a bank account. Owners of small businesses, doctors, lawyers, and other professional men and women will find the Bond-A-Month plan ideal for them."

Briefly, the Bond-A-Month plan is:

- 1-Usually prompts
 - 2-Usually thorough
 - 3-Always economical
 - 25 to 40 doses only 25¢.
- The bank offers to its depositor the privilege of buying U. S. Savings Bonds, Series E, F, or G, regularly and automatically. The depositor signs a card authorizing monthly purchases and deductions. The bank merely debits the depositor's checking account for the purchase price. Bonds are mailed to the customer in franked envelopes to be provided for this purpose through the Federal Reserve bank. Unlike the Payroll Savings plan the Bond-A-Month plan is not a partial payment plan. A single monthly deduction covers each bond or combination of bonds.

Floyd County Record

"The citizens of Floyd county and of Texas can be rightly proud of their thrift in 1946, the first full year of investment in Savings Bonds since the war," said Mr. Willson.

"Citizens of Floyd county invest \$204,600.00 in Savings Bonds. Texas invested a grand total of \$240,684,000.00. The small investor accounted for the greatest percentage of this total with 73% of \$171,000,000.00 of all sales in Series E Bonds. In regard to the number of bonds sold in 1946, 62% of the total issued were in \$25 bonds.

"The first four months of 1947 showed an investment of \$172,000.00 and with the June-July promotion of the Bond-A-Month plan it is expected that investment in savings bonds in 1947 will surpass last year's figures.

"This is a healthy sign for the State, since it shows that Texans are building a backlog of savings for emergencies and future needs," Mr. Willson said.

complaint with robbery with firearms. They were taken while asleep in their car on the Ralls-Lubbock highway near Lorena after robbing Roy Tipton, night operator of Magnolia station and café of 830. Two of the boys gave Tulla as their home the other said he resided at Goodlett. They admitted a trail of robberies and burglaries, naming Hart Dimmitt, Oton and Chillicothe among other towns as places in which they had committed crimes. Their effects included clothing and other loot as well as the \$80 they had taken at Matador.

Sheriff John Stotts of Motley county was on the trail soon after the boys left the café and had Floyd County Sheriff Hart on the highway east of Floydada waiting for the lads who were seen to turn west toward Floydada. The boys eluded these officers by turning into a pasture and waiting until the pursuing sheriff had passed their way, then proceeded by way of Dougherty and a cut-off to the highway in Crosby county. They became sleepy and were awakened in the morning by Captain Posey of the Highway patrol and Texas Ranger Raymond Walters near Lorena where the boys had turned off the road for a rest. The boys were brought through Floydada Tuesday morning. Their confessions are due to be studied by a grand jury at McAlester called to convene Friday morning.

stated his praise of the pioneers Stapleton was presented by Glad Snodgrass for the pioneers association.

Old Settlers Make Talks

About the old settlers and early cowboy who made talks were Walter Wood, Rev. R. E. L. Muncy, J. L. West, Mrs. Gertrude Arnold Amos Yates, Geo. L. Fawver, Mrs. R. H. Willis, Mrs. Edd Johnson Glad Snodgrass, Ham Smith, George Smith, Wm. McGehee, and others.

Mrs. Len Fawver presented the report of the memorial committee at the instance of Mrs. James E. Green, chairman of the committee. Many members of the association vouched for the divide in the eventful year of 1946-47.

Flowers to Mrs. Hollums

Noting the absence for the second meeting in succession, due to illness, of their faithful secretary, Mrs. Maud E. Hollums, the association voted their hope for her early recovery and with it a basket of flowers to show their appreciation for her personally and additionally her faithful years of service to the association.

Rev. R. E. L. Muncy said grace when the pioneers assembled for their annual dinner. In better health and spirits than a year ago the pioneer minister thanked the Master for the bounty which He had bestowed upon His servants and bespoke His continued mercy and forbearance. Rev. Muncy also gave praise for the association during the afternoon for the memories which those who have passed beyond the great divide have left behind as a heritage.

Approximately 500 persons registered for the day. Ladies of eight of the Floyd County Home Demonstration clubs served the lunch at high noon for the pioneers. A carefully prepared menu delighted those who were privileged to partake of the luncheon. Some 200 persons were fed.

Presence of scores of horsemen here for the rodeo aided largely in making the parade a long and colorful one. Fleets of industrial nature and of clubs and organizations added to these made a parade more than half a mile long.

In the parade was a riderless horse a tribute to the memory of Ben B. Gully, who has been a steadfast friend of the pioneers association in years gone by. Mr. Gully died this spring after an extended period of illness.

Mrs. John Arnold, of Silvertown, daughter of one of the founders of Della Plain, was among those who appeared on the program. She gave one of her original poems. Mrs. Otis Reeves, of Plainview, her sister, also was a visitor for the event.

Mrs. Mae Garrett served as secretary of the association during the day, substituting for Mrs. Maud E. Hollums who was ill in a local hospital. Reports from the hospital indicated Mrs. Hollums is recovering normally from a severe cold, which was thought to be bordering on pneumonia.

High School Band Plays

Floydada High school band, under the direction of Clyde Haden, instructor, led the parade in the forenoon and played two concerts for the pioneers. The first of these was done before noon and the second as the association gathered in the afternoon. "Very good" was the verdict of the old settlers, who made a liberal donation to the uniform fund of the band to show their appreciation of the efforts of the youngsters and their leader.

Tea and Discussion of Leisure At Final Study Club Meeting

The 1934 Study club met recently for the final program of the year in the home of Flora McNeil for a tea and discussion on "Leisure with Dignity" led by Jettie Moss.

"We all spend part of our leisure hours reading, listening to the radio going to movies and visiting," said Mrs. Moss. "Some people have hobbies that are both enjoyable and profitable. Among the various hobbies mentioned was the one of Jack Partridge of New York who operates the world's one and only shop for just buttons. 'He discovered that' button collecting, which started out as a fad has assumed all the proportions of being a craze. Button collecting which has its own magazine and about 2000 registered hobbyists and unofficially a lot more now rates just under stamp collecting as a pastime. Among Partridge's clients are Ingrid Bergman, Edward G. Robinson and the Duchess of Windsor. Today one has to be a collector, said the speaker, or else be classed as a 'period piece'." At the close of the discussion each member told her hobby.

The tea table was presided over by Helen Patterson, Avis Muench and Jimmie Wiman.

The meeting was opened and closed by the President Mary Shaw. Members present were Corine Barber, Elizabeth Armstrong, Ruby Cleveland, Lella Pettit, Mary Shaw Margaret Ginn, Thelma Hoffman, Jimmie Wiman, Jettie Moss, Bernice Stapleton, Margaret Collier Mildred Harris, Ruby Evans, Bernice Hartzo, Helen Patterson, Avis Muench, Mrs. Relph Johnston, Frances Graves, and Visitors: Mary Helen McKee, Irene Sherrell, Mary Frances Hardin and Anne Willson.

Says Boyce House:

There is no Texan about whom more stories are told than David Crockett, tho' most of them relate to his days in Tennessee before he came to Texas. Incidentally, while your radio columnist was in Crockett recently, citizens pointed out the tree under which the famous hunter camped while on his way to San Antonio where he died gloriously in the Alamo.

Davy moved into a new country in Tennessee when he was a young man. All he had to do on moving day was pour water on the fire and whistle up the dogs. He was made justice of the peace and as he said, "I got along pretty well. My judgements were never appealed from but it they had been they would have stuck like wax, as I gave my decisions on the principles of common justice and honesty between man and man, and relied on natural-born sense and not law-learning to guide me for I had never read a page in a law book in my life."

After serving in the legislature Crockett decided to run for Congress. His opponents were two dignified and solemn individuals who took themselves quite seriously and ignored the back-woodsman in his hunting costume who told jokes and discussed matters in a common-sense kind of way. When the vote were counted, he had beaten both of them out together. He had to borrow money to make the trip to Washington. On his way, he stopped at an inn and in trying to get to the fire he accidentally jostled a self-important chon who demanded, "Who do you think you are?" Davy shouted, "I'm Davy Crockett half horse and half alligator, a little touched with the snapping turtle I can wade the Mississippi, jump the Ohio, ride a streak o' lightning and slide down a honey-locust with out a scratch. I can whip my weight in wildcats and, if any gentleman please, for a \$10-bill, he can throw in a panther. I can hug a bear to close for comfort and I can lick any man that's against Andrew Jackson."

Mrs. Jessie Leaverton was elected first vice-president to replace Lella Pettit, who has transferred to the Floydada club.

"How are you today?"
"Can't kick."
"Oh, I heard you were not well."
"I'm not. I broke my leg."
Bride: I hid a \$5 bill in this dictionary and now I can't find it.
Groom: Have you looked in the V's, dear?
"I'm getting about four laps to the mile," said the sweet young thing as she righted herself after the bus lurched.

Joe Henson, 14, Skips 3 Grades, Is Graduating

DURANGO, Colorado—On three occasions when he was living in Texas, Joe Henson won double promotions in his school work. Consequently, Joe will take his diploma at May 29 commencement exercises as perhaps the youngest graduate in the 70-year history of Durango High school. He will not reach his 15th birthday until next August 13.

Joe is the son of Mrs. J. L. Henson, an ex-teacher, who operates the English auto court in north Durango. His father, a retired Methodist minister, died last year. The family came to Durango in 1945. After he finished the first grade at Lockney, Texas, Joe's teacher told his parents that she believed he would be wasting his time to take second grade work the following session. So he moved into the third automatically. By the same procedure, he cleared the fifth grade while at Avoca, Texas, and the seventh at Garden City, Texas.

*Joe's grades here have been very

good," said Supt. Elza Needham "and I can't recall the school's having a younger graduate."

He worked for several months at a Herald-Democrat carrier. This year he has been helping Mrs. Henson with the work at the tourist lodge.

Joe plans to take some post-graduate work in 1947-48, and to attend Bob Jones college in Cleveland, Tenn., the following year.

How Preserve Fresh Pineapple In Your Home

(With the time imminent when

pineapple shipments will be reaching Floyd county, the following suggestions for proper preserving of pineapple in the home is timely.—(Ed. Note)

(By Lella Petty, County Home Demonstration Agent)
CONTAINERS: Use plain tin cans or glass jars.

PREPARATION OF FRUIT: Wash the fruit with a stiff brush. Cut off stem end and twist out top. Lay the pineapple on its side on a cutting board. Cut 1/4 inch slices

Peel each slice. Some people prefer to can chunks rather than slices. Remove core and eyes. Barely cover the cores, eyes and other trimmings with hot water and simmer until pieces are clear. Strain the juice and make a medium syrup by dissolving 1/2 to 3/4 cup sugar to 1 cup of the juice.

PACK RAW AND STEAM: pack cans or jars full of slices of raw fruit. Pour the boiling syrup to within one inch of the top of the containers. To steam place uncovered jars of fruit in a water bath with warm water up to the neck of the jar. Cans without lids may be placed in a water bath with boiling water about 1 1/2 inches below the rim. Cover the water bath kettle. As soon as the water starts boiling and has formed a good steam, count time. A slow even boil is better than vigorous boiling because the water does not bubble into the containers.
Steam: Pints and No. 2 cans ... 5 minutes
Quarts and No. 3 cans ... 10 minutes.

PRESS DOWN AND SEAL: At the end of the steaming time remove one container at a time. Press the fruit down so that juices will cover the pieces, and the air bubbles will escape. If the fruit is not hot and the air removed darkening of the product and loss of vitamins will result.

Seal lids according to kind used.
PROCESS IN BOILING WATER BATH: After jars and cans have been sealed, they should be put back in the water bath and covered with boiling water. Count time when water begins boiling.
Process: No. 2 and No. 3 cans ... 15 minutes.
Pint and Quart jars ... 20 minutes.

COOL AND STORE: Remove from water bath. Cool tin cans in water immediately.

FREEZING PINEAPPLE: Pineapple is one of the most satisfactory fruits when frozen, slices, chunks or shredded pineapple may be used. Dry sugar (about 1 part sugar to 5 or 6 of pineapple) may be used for the chunks or shredded fruit while a sugar syrup is more satisfactory for the sliced. The usual directions for packing frozen fruits should be used.

Approximately 35 buildings, including barracks, huts, warehouses, a theatre, a hospital and a gymnasium, will be offered for sale for off-site use at Avenger Field four miles northwest of Sweetwater, Texas, beginning May 30. Priority groups will be served first after which non-priority groups will be eligible to purchase. Full information on the sale is available through the Office of Real Property Disposal of the Grand Prairie regional office of War Assets Administration.

Coop Organization Buys Two Elevators

PETERSBURG, May 23 — The farmers of the Petersburg community formed themselves into a Co-operative elevator organization recently and this week completed a deal whereby they purchased the two elevators of the Clubb Grain company owned by Albert Clubb.

Mr. Clubb retains the Alfalfa mill located on the property here at Petersburg and his elevator at Becton.

The Co-op will take charge of the elevators just as quick as preliminary matters can be disposed, in plenty of time to handle a share of this year's promising wheat crop. The elevators have a storage capacity of 70 thousand bushels.

TRUCKER MARKET DEMANDS HAY TO BE BALED DRY

LOCKNEY, May 23—Hay must be baled dry in order for truckers to buy it and haul it to other parts of the state, according to Bob Simmons, local contact man between alfalfa hay growers and truckers who come in to Lockney.

The demand for hay is not as great as it was last year when the truckers had trouble with the green hay molding in the bale. Hay, if stacked properly, will keep indefinitely, Simmons said. The bales should be stacked on the edge, not flat and the stack be loose enough that air can circulate to each bale according to Mr. Simmons.

GI in Greenland Sends Infantile Paralysis Money

Floyd County has a war veteran who got into Uncle Sam's army a considerable bit before the hostilities of World War II broke out who is still in our Uncle's military uniform, but who still remembers Floyd county, the place of his birth and rearing and likes to call it home.

Also he has a big heart and wants to be counted among those who help out on things. Especially is he impressed with the need for funds to fight infantile paralysis.

He is V. P. Switzer, jr., a technical sergeant in the 138th AAF battalion, stationed in Greenland. Reading in late April a Hesperian dated January 23 about the March of Dimes campaign he sat down and wrote "I would like to make a small donation for this wonderful cause" and sent the letter along with \$28 for the fund and \$2 for the paper subscription for a year.

"Have in Greenland we have finished a drive," he wrote, "and from the number of men we have here we have donated over \$2,000."

V. P. jr. has been in the army since 1939. He sends "lots of luck to all the people and hope the drive was a success." The money came through the regular mail in green-back with the letter.

The Hesperian is informed by Guy Ginn, county fund chairman, that although the regular March of Dimes is over, the money is being put in the county chapter's fund against the need for help in combatting polio.
