## Avalanche of Wheat Swamps Handlers

### Wheat Gathering, Wheat Stories Wheat Interest Dominates whole Section as Harvest Impact Felt

Its all wheat, all harvest, all 'combing' and unloading and what are you doing about it so far as conversation locally is concerned. Impact of the most stupendous grain harvest in a county used to big harvest rushes has resulted in a practically total lack of interest in anything but wheat in Floyd county. It simply never happened before and probably never will again. And although everyone predicted it would be this way, it is the topic of every conversation.

**Hail Damaged Fields**  
Even in some hail-damaged areas the interest has re-awakened by the fact that a "sucker crop" has come along to the soft dough stage and the weather man willing, will make a late crop. Cool nights, days with little burning heat, are adding to the promise. It may turn out that way after all for fields devastated early in the season.

For owners of late fields, whose crops were laid waste 10 days ago especially south and east, the story is now one of salvage. Yesterday Leonard Matisler, local restaurateur who has a farm boy background and doubles as a hay baler and wheat harvester in season, said he is operating a rake in a Crosby county field, salvaging five to 15 bushels of wheat per acre where hail had clipped the ripened grain to the ground. Any number of farmers suffering this initial loss have been making similar attempts to save something of the huge crop which they had made and then lost.

**On The Waiting List**  
One of the elevators which has had

much difficulty in getting a movement of grain started that at South Plains, where the box cars have been few and far between, and where little grain has been received since Monday when the bins filled up and the shutdown complete. The Fort Worth and Denver, in spite of fair warning, has been unable to give service approaching the need at South Plains and other points. Barwise on the Denver has fared somewhat better this season in contrast with unhappy experiences of the past.

What the probable total yield will be in Floyd county, and how long it will be until farmers, both of the dirt and windshield varieties, have their crops shoveled up off the ground and harvested, are moot questions. The yield is better in some fields than anticipated, poorer than expected in others. Generally on account of the late prolonged rains, fields with thinner "stands" have yielded better than those with "thick" stands.

A good many farmers are dogged by the problem of mature wheat that is falling in fields where there is a heavy "sucker" crop. The latter keeps the wheat man from marketing and he ends up dumping of the ground to have it all in one pile instead of scattered over over a field. It certainly will be up in mid-July before the whole story is told.

**Employment Office Busy One**  
Focus of all the men wanted and jobs sought activity in the county has been the office of County Agent (See Wheat Stories, back page)

### Plan for Visit by Gov. Jester; Bathing Beauty Revue July 4

#### Twenty Bathing Beauties; More July 4 Probably

With events of much interest contributing throughout the two days of the American Legion celebration, outstanding item for the afternoon of July 4th will be the bathing beauty revue where pulchritude of this and other communities, will compete for beautiful prizes which have been on display for several days.

BEAUFORD H. JESTER

know the harvest has got a lot of folks too busy who would help if they could. Probably there are those who can help whom we have not been able to contact." Colville and Commander Chapman, as well indicated they had no doubt that all the work would be done in a big way, but both would like to see some volunteer aides appear on the scene.

**Supervision Not Good Intentions Will Save Boys**  
Cal Farley, the retired Amarillo business man, says you can save a kid from ruin if you get hold of him early enough and give him a chance to turn around before he hardens into a pattern of transgression. Afterwards it is too late.

**Rodgers Doing 5th St. Next; Citizens Pat Him on Back**  
Fire Chief Carl Rodgers, who is re-doing the city street markers in his spare time, has been up and down Main and Wall and today will be getting over to Fifth street, he said last night. By the time you do this and that that goes with your regular job, you may get quite a bit done one day and not so much the next, on an "extra" such as he has undertaken, said Rodgers.

**Transfers Must Be Made by July 31**  
It's that time of year again - almost. And while you think about it, why not now? No need to wait until July 31 to make application for transfer of your scholastics from their home district to another. So thinks County Superintendent Clarence Guffee, who has issued a reminder to parents and guardians of children of school age. Here are the requirements:

**Today's Market**

#### Chief Executive Speaks Thursday Afternoon at 2

One week hence to a day Floydada's American Legion celebration will be well under way, with a large expectant crowd anxious to see and hear Governor Beauford H. Jester in an address which will be amplified and broadcast from the court house lawn to the street throng and to people all over the area.

**County Grows Up; State To Share Funds**  
Income to Floyd county road and bridge funds from fees collected on automobile and truck licenses passed the \$50,000-mark in May, and henceforth for this year at least, every time we take in a dollar in fees we get only one-half.

**Shoaf Doing Good Job at Quitman**  
Among the newspapermen at the annual meeting of the Texas Press association in Amarillo last weekend was E. S. Shoaf, of Quitman, who is editor of the Wood County Democrat.

**City Reservoir And Pump House Work Is Begun**  
Excavation started Monday noon for the city's 250 - thousand gallon water reservoir at the Highway 207 site, will have been finished today or tomorrow, representing the first work done on an \$85 - thousand waterworks and sewer improvement job.

**Hinsley Wins Wheat Prize**  
B. C. Hinsley, on Silverton Star route, last week qualified for a special \$20 prize in cash put up by Farmers Grain company for the first load of wheat to reach their elevator that tested 14 per cent or less of moisture.

**Nothing For This Summer**  
That the residents of Floydada will not be relieved of the danger of a water shortage for this summer has become apparent to the city officials. Early in the year it was hoped that construction might be finished this mid-summer. Yesterday Mayor Hermon said this hope had been abandoned. Water Superintendent Floyd Johnson added that while all possible production was being obtained from the wells now serving the city, a series of hot, dry days or weeks would result in similar conditions to those last year when the city had to ask for conservation of water supply to make it go as far as possible for all purposes. The demand for all purposes the supply in mid - summer Johnson said, will be a matter of "go easy" with the water supply and not one of rationing or cut off supplies. (See Water Works, back page)

### Humble Spuds In Test on Big Cedar Acreage

The bit in the Humble Oil and Refining company's Montgomery No. 1 test in Crosby county, north of Crosbyton, had no more than bit the granite last week at 9701, than company officials began making plans to move the rig to their big spread of acreage around Cedar and begin their test there.

**Leasing Little Town Lots**  
Residents of Floydada continue to be mystified by the activities of "lease hounds" here. With practically all small tracts they say they want taken at \$7.50 to \$25 per acre, two representatives of "major companies" were hunting down lot owners at \$5 per lot and signing them up as late as yesterday. Many owners were signing the "pool agreements" and taking the \$5 per lot, especially owners of vacant property.

### Routes 4 and 5 High Rating Rural Boxes

Routes No. 4 and 5 merit high rating for having the best number of boxes in excellent condition served by Floydada post office, it was said in a report released by Mrs. Barbara H. Smith, Floydada postmaster this week.

Under a rural route box to have a signal, have a firm lid, be on post firmly level and should be painted either aluminum or white paint, and the name of the patron inscribed in black letters on the front in height.

## ON CURRING VICE-PRESIDENTS

They used to speak of men who liked to talk long and seriously to a public gathering, but didn't have an awful lot to offer, as men who liked to spout. This old-fashioned definition still hangs on with the men who have to go to dealer meetings and sales pep rallies.

Those young men who are notified to be present, eat some of the company's special de luxe fricassée, quail on toast, or whatever is offered, generally not to their liking because it is not too well prepared, and then listen to a vice-president or two, a regional sales manager or so, make inconsequential speeches, which is one definition of "spout."

There is too much of this kind of thing in modern American life. There has to be a remedy for it if one can be found. These vice-presidents and things may be smart. They are smart, we are sure, they must be smart, because they are setting the pace for modern merchandising.

But they can be homesome. In fact, they are homesome. They dish out platitudes on salesmanship and public relations, ad nauseam.

If only one such business messiah were operating it might be bearable. But their tribe is myriad.

We suggest another organization to meet the situation. How about an association of "we are tired of general managers speeches." One of the by-laws of this association would be, of course, that the food would have to be served away out in the country where there wouldn't be any chief to put sundry goose on otherwise possibly palatable food.

## WHY THOSE ENGLISH PEAS?

The discussion in this issue of The Hesperian on the regulation of meetings called by vice-presidents and general managers might have taken a bad turn. We might have initiated a movement to smother, choke or crucify every third one who arises and closes his throat. However, fortunately, we fall back on criticizing a less numerous tribe — the chefs and/or dieticians.

Even concerning those who speak discretely in a manner which we can take back quickly and with least offense. Concerning them we ask only one thing. What is that queer quirk in humanity which makes a man who turns to cooking or a woman who goes to college four years and specializes in things to eat—what is it that makes them put those 48-calorie English peas on the menu? We mean on every menu where more than six assemble to appose their hunger and make conversation.

In this manner do we spend our spleen.

against the speakers who have nothing to say. But we add seriously this opinion, namely, that if twice as many vice-presidents and general managers had half as much to say, it would be the prelude to the Golden Age. Would it Not?

## Floyd County 14 Years Ago

(Issue of June 28, 1933)

The Commissioners' court of Floyd county, under their guarantee to furnish 74 1/2 cu. ft. of water on Highway 70 through Floyd county, received instructions this week from the State Highway Commission to open the selected route west from Floydada.

That a further reduction of thirty per cent in the valuation for taxes on the state and county rolls should be made in the interest of the taxpayers of the county, was told members of the Commissioners' court sitting as a board of equalization Tuesday afternoon by a committee representing the Floyd County Taxpayers' league.

After effecting an entrance through a small window on the east side of the storehouse through Saturday night, the tax collector, J. E. Collins, took \$9.26 from the cash register at the Consumers Fuel association station at East Missouri street.

Mr. and Mrs. Walter Smith, of State 3111, returned home Wednesday night of last week from the World's Fair at Chicago.

Representatives of major utilities in Floyd county had reached a total of 2,200 kw. hrs. according to figures compiled in the office of Frank L. Wilson, tax collector.

Twenty showers that put new vigor in Floyd county are being held generally over the territory Saturday night, Sunday and Monday. Some sections reserved only for gentlemen, while in others as much as 500 couples of each sex were invited.

J. E. Collins, resident of Floyd County since 1917, died at his home Friday afternoon at 2 o'clock after a prolonged illness lasting over several months. Funeral services were held in the First Baptist church.

Floyd County has shipped 36 cars of 1932 wheat, a record of shipment and shipping points mark the Tuesday morning indicated. The quality has been good. Credit men over the territory estimate that the harvest is about 75 to 80 per cent complete. The local market this morning was 77 cents per bushel, having dropped from the peak of 81 cents reached Tuesday. The market is recent year.

Funeral services for Mrs. Edna Katherine of Mrs. Glad Stogdeman, Mrs. Edna Johnson and Mrs. Oba Johnson, who died at the home of Edna Johnson Friday morning at 10:30, were held Saturday morning at 10 o'clock, former home of the deceased. ## Sports Denote Women's Clubs Continue Active

Floyd County Home Demonstration Council had its regular Saturday afternoon, June 21 county courtroom. Mrs. Carr, president, presided, and four visitors were present. Recreation was given by the Home Demonstration Council under the direction of Mrs. Carr. Packages of chewing gum were given as favors. Archie Bybee, council delegate, was introduced as guest speaker. Mrs. Carr presided over the club reports. The Center club voted to send to the 4-H Club building a book program. The Lakeview Club canned three pineapples for their school picnic which they sponsor. The Valley club had a community picnic with lots of fun for all. The club had a picnic and ice cream supper for their members and families. They served lunch in town one day and cleared \$68 for their club treasury. The Starkey club quitted a quilt for a sick member. Four new names were added to Baker's club roll. The Starkey club voted to sponsor the school lunch room in their community. Other clubs reported having cooker clinics as well as their regular meetings.

Mrs. George Stiles, who has been appointed chairman of the Educational exhibit of the Women's division of the South Plains fair at Lubbock, asked that club members cooperate in the fair by taking exhibits. Mrs. R. B. Gary, marketing chairman, reported on the pineapple buying and also gave addresses for cooperative buying of sheets, wool bats and cherries. Mrs. O. G. Mayfield, Recreation chairman, announced that the Lakeview Home Demonstration club would be in charge of the recreation in July, and that the county picnic would be planned at that time. Mrs. A. M. Dorsey asked the clubs to send in their suggestions for 1948 year book programs. Other announcements were that the 4-H Club Girls' Dress revue would be held July 5, and that all clubs should elect their nominees to the state meeting of the Texas Home Demonstration association so that county delegates can be elected at the July council.

E. L. Adams, from the district Federal Security agency office at Lubbock, explained how Social Security works and how it benefits workers and their families. He showed a movie which emphasizes his statements. Visitors present were Mrs. Floyd Fuqua of the Homebuilders club; Miss Patsy Jean Pollan of Wichita Falls; Mrs. W. P. Groves of Memphis Tennessee; and Mr. Adams. Members present were Mmes. Carrick Snodgrass of Harmony, Woodrow Wilson of Center, A. M. Dorsey and Wesley Hay of Pleasant Valley; George Stiles of Friendship; O. G. Mayfield of Homebuilders; Earl Edwards of Lakeview; F. L. Brown and J. E. Tierce of Starkey; W. A. Lovell of Sunnyside; A. L. Robertson and S. L. Holmes of Starkey; A. G. Cardinal of Baker; and Miss Lella Petty, County Home Demonstration agent.

### TWO WEEKS REVIVAL BEGINS HERE NEXT SUNDAY NIGHT

Rev. J. M. Buck of Fort Worth will conduct a two weeks revival at the Assembly of God church, 329 West Virginia Street, beginning Sunday night, June 29. He will be assisted in the services by his wife and son, who will offer special music and singing. Services will begin each night at 8:15 and the public has a cordial invitation to attend, according to the pastor, Rev. Uncas Stephens.

### RIVER POLLUTION

Every year, from abandoned coal mines around Pittsburg, more than two million tons of acid drain into the Ohio river, according to Pathfinder news magazine. This seepage, health authorities say, causes widespread disease, not only in Ohio but in all six states fed by the river. They call it the nation's No. 1 pollution problem. It's almost as bad in other sections of the country, however. Pollution of the nation's waterways by raw sewage and industrial waste menaces the health of millions of people. Two new bills in Congress propose to end pollution by providing Federal police power in a clean-up campaign. First the states would be given a chance to do the job according to specifications set up by U. S. Surgeon General Thomas Parran. The bills set a time limit for action and grant up to \$100,000,000 to the states.—Ex.

### HISTORICAL MYSTERY

Archeologists probing in the hallowed earth of Roanoke Island, N. C. have a few more facts on the "Lost Colony" Sir Walter Raleigh founded 360 years ago, according to Pathfinder. In excavations near log Fort Raleigh at the island's Restored Village, Interior Department experts last month saw the outline of an ancient earthen fortification they believe to be the one from which America's first English colonists disappeared leaving only the carved word "CROATOAN" as clue. Discovery of the fort's location isn't new. But each detail the survey uncovers sheds more light on America's No. 1 historical mystery.—Ex.

### THRIFT

A young man once found a two dollar bill in the road. From that time on, he never lifted his eyes from the ground while walking. In the course of 40 years he accumulated 29,516 buttons, 52,172 pins, 7 pennies, a bent back and a miserly disposition. He lost the glories of the light, the smiles of his friends, the songs of birds, the beauties of nature and opportunity to serve his fellow-man and spread happiness.—The Santa Fe Magazine.

Mrs. W. M. Romane of Crosbyton is here for two weeks in the home of her parents, Mr. and Mrs. Tray Leonard, while helping Mr. Leonard at the elevator during harvest.

### WHEN THE SHOE FITS

"Aunt Hattie," someone remarked to an old negro woman down in Alabama, "I can't help but notice that all of your younger children are much better trained than your oldest boy, Cephus. How do you explain that?" "Tight shoes, missy," Aunt Hattie replied. "Tight shoes?" "Yes, missy," explained the old darky. "It wuz dis way. Ah wuz a mighty proud young mammy when dat oldest boy wuz growin' up, and to make mah feet look small Ah wore powerful tight shoes. Dat Cephus would act up mean and Ah'd say 'Boy, Ah'm gonna take mah shoe to you!' But fore Ah could get mah shoe untied and off mah foot Ah'd git over my fret and forget what dat boy did. And then Ah'd fail to punish him." The old woman was silent for a moment, and then with a cackle of glee, she added, "But now honey, Ah ain't proud no mo', and Ah wears mah shoes loose, powerful loose. And when dem younger kids is mean Ah applies 'em, missy. Ah applies 'em!"—Ex.

## Assembly Plant Nation's Newest, Most Spacious

FLINT, Mich., June 24—The auto industry's first postwar assembly plant, almost 29 acres of car and truck assembly area devoted exclusively to the production of Chevrolet vehicles at the rate of 80 units per hour, was thrown open here today for a press preview of the nation's newest and most spacious auto assembly facilities.

Operating for more than a month at a gradually accelerating tempo as new processes were developed and the approximately 3,500 employees were trained, the new plant today represents the culmination of a quarter of a century of auto assembly plant design on the part of architect, engineers and contractors. Many war-developed construction principles have been employed.

Chevrolet is understandably proud of this new assembly plant, with its advanced construction and engineering principles," said Nicholas Dreystadt, general manager, Chevrolet Motor Division, and vice-president of the General Motors Corporation.

"This new unit in the division's nationwide network of manufacturing and assembly facilities will contribute its full share to our program of high-volume production of cars and trucks which have a deserved high-quality reputation."

A total of 10 buildings is situated on the 194 acres of plant property just outside Flint city limits. With a floor area of 1,250,000 square feet, including Chevrolet operations and those of the adjoining Fisher Body unit, vehicles are assembled at the rate of a car per minute, a truck every three minutes on the two passenger car and single truck assembly lines.

A unique operation, employed by Chevrolet for the first time among high-volume producers of motor cars, is the introduction of "suspended assembly" for the fabrication of car and truck chassis. Instead of the chassis progressing along the assembly line on a floor conveyor, in the

new plant it hangs from an overhead monorail-type conveyor, which according to plant engineers, brings the work to the employees at bench level and also permits right-side-up assembly of the chassis. Further, it permits free access to the chassis from all sides.

Nearly four and one-half miles of conveyors of all types are used in the new plant, with only approximately one-half mile of the floor type illustrating the degree to which this new plan has been employed.

## Tidwell Shows Outdoor Feature for Celebration

The T. J. Tidwell Shows and carnival under the auspices of the American Legion, will furnish the outdoor amusements in connection with the annual 4th of July celebration. The show will be located on the regular carnival grounds opposite the Court House square. They will be showing Monday night, June 24, and will give their last performance Saturday night, July 5. This is by far the biggest carnival to ever play Floydada and the Legion shows they will be a big drawing card for the celebration.

Tom Tidwell is on his 25th annual tour with a carnival. For over 20 years he has lived and wintered in the water. He has played Plainville, Lubbock and other towns in this area. Tom Tidwell is familiar and friendly known to many residents of this section as the "Old Showman." His carnival is noted for its cleanliness and merit. He always carries the latest rides, the latest shows and is constantly on the alert for unique features.

Tom Tidwell is the only western animal owner that has an elephant with him and Queenie is better known in some parts of West Texas than many of our officials. She has been ridden by thousands of them and never hurt one.

Gertie and Her Monkeys is the outstanding feature attraction among all the various amusements on the Tidwell midway. Mr. Tidwell

says he sells Fun and Gertie is his best saleswoman. She was reared and educated on his show and does unbelievable feats. She lives in a room with her trainers who have been in charge of her since infancy. At each performance Gertie plays with her toys, goes through a varied routine of acts, rides her tricycle, eats from dishes at a table like a human, dresses, says her prayers and retires like a good child. Gertie has no equal in captivity, the Tidwell show folks claim.

## Crosbyton's Huge Wheat Crop Rolls

CROSBYTON, June 26—Crosbyton's huge wheat crop has begun to roll. By Wednesday night local elevators had received from 75 to 80 carloads of grain, with about half of them shipped at that time. And the harvest has just begun.

Elevator men report that quite a percentage of the wheat is still too green and should not have been cut. Anxiety of growers over the weather and the fact that so many combines are waiting to begin threshing was given as the reason for the premature cutting.

Green wheat with too much moisture content was being docked in price and some that was too green to handle was dumped on the ground near the elevators to dry out.

## FALL BREAKS ARM

LOCKNEY, June 26—Francis Carthel of the Prairie Chapel community suffered a broken arm Thursday morning of last week when he fell from a trailer. The arm was broken between the elbow and shoulder when Mr. Carthel lost his balance and fell backward four feet to the ground.

## As A Farm Woman Thinks

(By Nellie Witt Spikes)

The following response given by Mrs. Temple Ann Ellis to the welcome by Mrs. Fullingim of Lorenzo is so good I would like for folks who remember Old Emma in the days gone by, to share it with me.

"Mr. President, Madame Secretary, Fellow Pioneers and Friends:

"More than fifty years have passed since the founding of Emma, the second County seat of Crosby county. No monument commemorates the trails blazed by rumbling old freight wagons that jostled along from the distances with supplies with which to feed those located in or near the old town. The many grassed-over ruts beside the paved highway, where these old wagons once rolled along are like open graves of the past while speed in wagons that need no neck yokes to hitch, has worn down the distance.

"Time's eternal change has taken the homes of old Emma, leaving only grass-grown paths, strewn with pieces of broken glass, and rusted hulks of long-emptied cans. Much of the land where the little village once stood, has been put to the plow. Today as a ghost town its beauty lies in the eyes of those who in memory live there again and meet and talk with those they have not nor will they ever forget and in moments of homesickness for the pioneer days they drink in the joys and trials of that time.

"I remember there were times when we were snow-bound for weeks the food ran low. Fuel scarce. There were the times when the hot winds blew incessantly for days, burning the sorghum to a nut brown. There were days so perfect, so filled with the lowing herds. Then there were days of wonderful calm that remembering makes the pioneer turn aside down memories lane and long to live those dear old days over again.

"There are few left here today who have watched the transition from the open spaces to the coming of the settler; the building of the little town to a sizeable county seat. Its final death and its land put into farms.

"With my daughter I rode through the place the other day and in memory I saw the people who lived there then. The school house I had attended. The court house, the business houses and homes. The public well. So often I rode by the public tank to let my pony have a drink of that clear, cool water.

"You pioneers who have come here today came because you want some one to look with you again into the past. Today is the time set aside

for us to renew old acquaintances when we meet those we have known and loved through the years in glad reunion.

"Time, indeed, has left its mark. Death, the great reaper, has taken its heavy toll. The steps of us who are here are growing slower but time nor tide can erase the glow in the eye of the pioneer when he grasps the hands of those who have gone through that period of a pioneer when friends were friends, indeed.

"To you, Mr. President and Madame Secretary, and many of those we are deeply indebted for the day the bounteous dinner, the comfortable building. So it is with a well-filled and grateful hearts that we old timers say thank and God bless you."

Good thought for the week by Jeremy Taylor in Daily Strength for Daily Needs

"He that hath many causes for joy, and so great, is very much in love with sorrow and peevishness who loves all these pleasures, and chooses to sit down upon his little handful of thorns. Enjoy the blessings of this day, if God sends them; and the evils of it bear patiently and sweetly: for this day is ours we are dead to yesterday, and we are not yet born to the morrow. But if we look abroad, and bring into one day's thoughts the evil of many, certain and uncertain, what will be and what will never be, our loss will be as intolerable as it is unreasonable."

## FORECASTS MILK SHORTAGE

LUBBOCK, June.—Texas is apparently headed for another milk shortage this fall. L. G. Harmon, professor of dairy manufacturers at Texas Technological College, predicted following a meeting of dairymen from West Texas and other points over the state held at the college.

Worst shortages will probably be on the north and south plains areas and in south Texas along the coast, he said. The milk surplus which has been evident this summer in the area around Fort Worth, Dallas, Brownwood and Eastland will probably be eliminated in the autumn months according to the dairymen present.

## HANSENS HAVE A SON

Mr. and Mrs. Chris M. R. Hansen are the parents of a son, Jonathan Morris, born June 15 at Wood Hospital, Odessa, Texas.

Mrs. Hansen is the former Dorothy Brock, and Mr. and Mrs. W. H. Brock, sr., are the grand parents.

E. J. Brooks of Cumming, Georgia, is here for a while during harvest. He is staying in the home of J. N. Redd.

Mrs. A. J. Earp and children of Lubbock visited last week with Mr. and Mrs. Kenneth Rimmer.

## Wheat Harvest rolls On at Petersburg

PETERSBURG, June.—Combines trucks and so forth are buzzing around getting every thing well underway in the wheat harvest. Wednesday grain had really begun to roll into the elevators.

There are plenty of combines and trucks to take care of everything in this community when it comes to harvesting this year's crop, even though it promises to be one of the largest if not the largest, crops for this community.

Up until Thursday morning 38 cars had been shipped out and car sidings were being loaded and by Thursday night at least twenty more cars were ready to roll out.

Considerable moisture is being encountered in some of the wheat caused by farmers being just a little over anxious to get it harvested before another hail comes along.

Major Sherrill L. Powell, Jr., of Hill Field, Ogden, Utah, spent Sunday night with his parents, Mr. and Mrs. S. L. Powell, and his sister and family, Mr. and Mrs. B. J. Darden. Major Powell has been on a special assignment the past month at Craig Field, Alabama.

W. club conducted the installation program at which time Mrs. Ruby Cleveland took the oath for the office of president and with her, Mrs. Winnie Angus, vice-president; Miss Leila Pett, recording secretary; Miss Ruth Collins, treasurer; and Mrs. Ouida Britton as corresponding secretary.

Mrs. Cleveland appointed the following committees; education, Mrs. I. T. Graves, Anne Swepton and Louise Hamilton; finance, Barbara King, Mrs. Bill Norman and Mrs. O. G. Glassmeyer; health, Mrs. Otto F. Marshall, Ada Bailey and Mrs. R. G. Dunlap; international relations, Mrs. E. E. Hinson, Orel Blankenship and Mrs. Ethel French; legislation, Mrs. Edna Phillips, Frances Mitchell and Mrs. Mabel Foster; membership, Mrs. Russell King, Mrs. A. B. Keim and Miss Alice Bell; program co-ordination, Winnie Angus, Mrs. C. A. Caffee, Ruth Van Winkle and Polly Cardinal; public affairs, Mrs. Lewis Norman, Mrs. Ella Hudson and Mrs. Bill Finley. Publication, Mrs. O. W. Kirk, Mrs. Ruby Boteler and Mrs. Maud Burris; publicity, Maurice Burton, Mary Shaw and Mrs. Lorin Liebricht; notification, Mrs. Doris Covington, Thelma Jones and Mrs. T. T. Hamblin; house committee, Mrs. E. L. Norman, Mrs. P. W. Bell and Mrs. Garland Glover; and the sunshine committee, Miss Vera Meredith, Mrs. Oleta Pruitt and Mrs. Glee Thomas.

Other members of the Lockney club here for the installation were Mrs. Wanda Baker, Mrs. June Bybee and Mrs. Carl McAdams.

The next meeting of the club will be July 14 at 7:30 o'clock at the Legion hall.

## FOLK SONG HUNTER COLLECTS 10,000

For more than 30 years John A. Lomax has hunted down and captured on record the elusive folk songs of cowboys, southern Negroes, lumberjacks, railroad gangs and mountaineers. These songs, 10,000 of them, can be heard at the Library of Congress, Washington, D. C. which also sells duplicate records to private collectors, says Pathfinder news magazine.

John Lomax cannot remember why he started collecting ballads. As a boy, living in a two-room house beside Texas' Chisholm Trail, he went to sleep to the songs of the cowboys as they drove their cattle northward to Oklahoma and Kansas. When he could write he began to put them down.

Now 80, Lomax has written his autobiography, complete with the words of many of the songs he turned up in his unique and colorful career.

## BEDFORD TO BEDFORD

It was a lucky day for Bedford, England, when it got a tiny namesake in Westchester County, New York. Today, 367 years later, the New York village is urging 10 other U. S. Bedford's to help the flood-stricken British city.

"It's part of our responsibility to help all in need," says the Rev. John Carlomag of Bedford, N. Y. Pathfinder.

## CELLOPHANE KIDNEY

A Dutch doctor has devised an artificial substitute kidney. He is Dr. W. K. Kolff, and the pseudo-kidney he demonstrated recently at Mt. Sinai Hospital, New York, is made of cellophane! He claimed it had saved the lives of eight patients whose kidneys had rebelled and begun poisoning them. —Ex.

## Wedding Date Is Set

Mr. and Mrs. H. N. Powell of Dougherty announce the engagement and approaching marriage of their daughter, Joe, to Mr. Edward H. Wester, son of Mr. and Mrs. J. C. Wester of Floydada. The wedding will take place July 20 at the First Christian church in Floydada.

## CAROLYN SUE DURHAM HAS PARTY ON EIGHTH BIRTHDAY

Mrs. E. I. Durham entertained her daughter, Carolyn Sue, June 14 with a party on her eighth birthday. Ice cream, cookies and candy animals were served to the little guests.

Present and sending gifts were Gaynell and Wendell Holliday, Randy Hollums, Linda Hull, Bobby Christian, Keith Glover, Leora King, Frank Potts, Don Doyle, June Marble, Sherry Ann Hickerson, Nancy Thomas, Jane Tye, Patsy Gibson, Sue Penner, Sylvia Ann Carver, Rex Jones, Mary Katherine Ford, Beckie Potts, Kay Callaway, Pat Hickerson, Judy Jackson, Patty Janette Ford, Grace Ann Potts, Corynne Galloway, Lucy Lane White, Bennie Jean Bybee, the honoree, Carolyn Sue and Mrs. C. V. Ford and Mrs. L. J. Webber.

## BIRTHDAY DINNER SUNDAY

Mrs. J. C. Odum entertained her husband with a birthday dinner Sunday at their home.

Present for the dinner were Mr. and Mrs. Earl Pierce and family, Mrs. R. L. Pierce, Mr. and Mrs. J. H. Poore, Mr. and Mrs. Oran Self and family and Mr. and Mrs. C. E. Bartlett, who called in the afternoon.

Later in the afternoon, Virginia Odum and Jean Pierce entertained Mr. Odum with a birthday party in the Pierce home.

## YOUTHFUL TRAVELER AIR LINE HEADACHE

From the United Air Lines' passenger terminal in San Francisco came a story of behind-the-scenes perils of airline operation.

The peril in the case was 8-year old Don White, being sent to visit relatives in Denver, alone, via United while waiting for his plane, capgun toting Don: broke an adding machine; butted several employees when he ran out of caps for his guns; climbed behind the ticket counter and tossed hundred-dollar bills about like scrap paper; complimented a stenographer on her "stretcher-age"; pinched an executive's ankle.

Wired San Francisco to Denver after Don departed: "He is now four responsible under no circumstances let him out of your sight. . . Good luck!" —Ex.

## WIERD COSMETICS MATCH WOMEN'S ZANY HEADWEAR

Take cover men! John-Frederick, the man who creates some of the least inhibited women's hats, has conjured up some wierd cosmetics to match them, warns Pathfinder news magazine.

The new idea makes any blonde a bombshell. For her John-Frederick prescribes an opalescent powder, which gives off changing colors, and a rich blue lipstick. Or if she's up to fashion's peak, she'll paint her mouth an off-white.

Chocolate soda is the theme decreed for brunettes: tan powder and plain brown lipstick. But a redhead gets a real break. Hers is sherry powder and burnt cherry lipstick which take on a bright terra-cotta hue — just like her hair. And more important, in tune with her topper.

Mrs. A. J. Cline is improving somewhat from her operation at the Scott and White Hospital in Temple after a serious spell Saturday Mr. Cline has been with her since he was called to her bedside Saturday night.

Dr. and Mrs. James D. Wester and family and Mrs. J. C. Wester spent the week-end visiting with Billy in Denton, Texas, and also visited in Mt. Vernon with relatives.

FOR A SAFER TEXAS—Effective Sept. 5, some 3 million drivers and almost 2 million vehicles will travel under the Uniform Traffic Code of 32 states. Sponsored by the Texas Safety Association and endorsed by Governor Jester, the measure is signed in presence of its authors: Sen. Fred Harris, left, and Rep. Joe Kilgore, right. ## Barwise News

BARWISE, June 23—The wheat harvest have been keeping the elevator men pretty busy the last few days.

Hubert and Less Stringer and families are here from Wichita Falls for the harvest.

Roy Hill and son, Buford, went fishing Sunday of last week.

Odell Roberson's mother and sister visited the Harold Roberson family Friday evening.

Pfc. Archie L. Hill, stationed in Japan, reports in a letter received last week that it is a beautiful country over there in the spring and he hopes to be a T-Sgt. by the time he comes home.

Roy, Neil and Billy Latham and Loreta, Stenson and Billy Dale Stringer enjoyed a picnic in Palo Duro canyon Sunday.

Buford Hill started to Plainview Thursday to visit an uncle but was offered a job before he got there and worked a while for a \$1 an hour. He was unable to find a place to sleep, so he had to return home. The hay balers have been on a standstill, but hope they can get started soon.

Mrs. Homer Horn and children spent Sunday afternoon with Mrs. Roy Hill.

Homer Horn and Winston Hill made a quick trip to Plainview Sunday morning to get parts for the combine.

Billy Dooley of Wichita Falls is here for a visit with his parents, Mr. and Mrs. Bill Dooley. A daughter, Dorothy, employed at KVOP, Plainview, spent the week-end at home.

The elevators have loaded out all cars on tracks and are getting full up waiting for more cars. The feed is up and looking nice. Some farmers are still planting. We hope cotton chipping time is not too far away, as it is looking well.

## PETRIFIED FOREST DISAPPEARING

One thing most people think is sure to stay put: The Petrified Forest—that huge tract where mineral seepage has changed trees to stone.

But this wonderland of Arizona is disappearing. Interior Department reports. Cause of this disaster is none other than the much-courted tourist trade, according to Pathfinder news magazine.

It seems the Park Service lacks sufficient help to keep a sharp enough eye on the entire 92,000-acre National Park established to preserve the forest. Souvenir hunters aren't just taking chips these days. They're taking away whole trunks in trucks.

Mr. and Mrs. Newt Owens and children, Helen and David of Sulphur Springs visited the first of the week with Mr. Owen's sister, Mrs. Wade Warren and Mr. Warren.

## REAL DREAM BOAT

A one-piece dinghy, molded of glass fibers and a synthetic resin, promises to avoid most small boat troubles. It weighs eighty pounds, leak-proof, needs no painting, won't swell, dent or rot, and is impervious to salt water. It accommodates five and an outboard motor is easily attached. —Ex.

## BETTER GASOLINE

Automobile fuel improvements in the next ten years will be as great as those of the past decade. The big question confronting oil and automobile engineers: Will the public want this gain in the form of more power or cheaper gasoline? —Ex.

Visiting in the G. C. Fuller home last week were Mr. and Mrs. Charles E. Fuller of Houston, Mr. and Mrs. Charles Wiseman of Hartley, Mr. and Mrs. Silas Wheeler and daughter of Cone, Mr. and Mrs. Olon Poetter and children of Lockney and Mr. and Mrs. C. W. Foster and children of Floydada.

## Model Locomotive Tours U. S.

Guaranteed to attract the eyes of model train builders the world over, is this \$50,000, quarter-size model of a modern type 4-8-4 Timken Roller Bearing equipped steam locomotive.

The locomotive model was built, not as a toy, but rather as a graphic presentation of the rapid strides made in the railway applications of roller bearings.

Shown examining the model and the regular bearings used in full-sized locomotives, pictured along the sides of the exhibit, are Walter C. Sanders, left, General Manager, Railway Division, of the Timken Roller Bearing Company, and Lawford H. Fry, Director of the Steam Locomotive Research Institute.

## "Advance-Design" Chevrolet Trucks Make Bow

The trucks that will bring true postwar design to the highways of America, Chevrolet's new "advance-design" line of commercial vehicles, will be introduced to the trucking industry June 28 by Chevrolet dealers across the country. Incorporating a variety of new features that assure greater operating efficiency, load-carrying ability and highway safety, the new trucks are said to be more

rigged and durable than ever before. First units were built in Chevrolet's Janesville (Wis.) assembly plant and were appropriately hailed. Here the "Queen of America's Dairyland," Miss Betty Gene Gardner, Ridge-way, Wis., christens the new vehicle as Gov. Oscar Rennebohm, Wisconsin's chief executive (right), and R. W. Podlesak, Janesville plant manager, look on.

### Chevrolet Presents New Truck

Unprecedented improvements and advancements for the comfort and convenience of the driver are featured in the new "advance-design" line Chevrolet trucks and commercial cars which are being shown to the public for the first time June 28 by Chevrolet dealers across the nation. Shown above is a heavy-duty chassis and cab with a gross vehicle weight of 10,000 pounds and a payload capacity of five tons. The vehicle has a 120-inch wheelbase and accommodates bodies up to nine feet long. The cab is all-welded and will seat three men comfortably. New cabs and bodies, featuring new fenders, grille and hood, combine highest appearance standards with greater operating efficiency.

**1000 INDIAN NAMES**  
To make potato growing possible about putting up a continuous and expensive chemo-mechanical fight against disease is one of the principal objects of research leading to new varieties. According to Dr. F. Stevenson, potato breeder of the Plant Industry Station, U. S. Department of Agriculture, there is every indication that careful breeding work will create varieties with resistance to the important diseases combined with other qualities. Some of these other qualities are right time of maturity, good shape, adaptation to locality, shallow eyes, high yield, and good cooking characteristics.

**BETTER MOVIES; FEWER**  
Moviegoers can look forward to bigger and better pictures, but fewer of them.  
To combat declining box-office lines and the rising prestige of British films, the multi-billion dollar motion picture industry has decided to reel in its film and concentrate on sure-profit, grade-A pictures.  
A backlog of 189 movies in 1946 is yet to be released. After that MGM cameras will produce only 18 films this year as compared to 39 in 1946. Paramount plans to cut last year's 20 features to 18. Twentieth Century - Fox will slice from 25 to

### Interim Loan Rate on Wheat \$1.77 in Floyd

The Floyd county rate on wheat loans, which is to be used until issuance of the final wheat loan rate is \$1.77 per bushel, Ray S. McEntire secretary of the Floyd County ACA, was notified Monday.  
For wheat shipped to terminal markets the wheat loan rate will be based on Galveston, \$2.08 per bushel.  
In making the announcement of the loan rate McEntire said, "Please understand that this loan is an interim loan and will be in effect only until the regular loan is announced. This loan can be expected during the early part of July." Mr. McEntire adds that if a producer desires a loan at the interim rate the county office is in position to give service. The usual fees for processing the loans will apply.

**Eases Wheat Man's Problem**  
Announcement of the loan rate now effective goes a long way toward easing the mind of the wheat grower, faced with quick decision on whether he would sell or store. This is due to the fact that he knows for a certainty that there is a floor under the market so far as the producer is concerned and does not leave his crop subject to possible violent fluctuations. It has the additional advantage of giving him an opportunity to market in a more orderly manner. Markets usually sag when sluggish with offerings. The grower has the added advantage of taking protein content premium, if any.

For wheat grading number 2 one cent per bushel will be deducted from the loan rate. On number 3 deduct 2 cents; number 4, 6 cents; number 5, 9 cents. For light smutty the loan will be 2 cents less and for smutty 6 cents less for all grades.  
**Protein Content Premium**  
Protein content premiums have been computed as follows for the purpose of the loan:  
13.0-13.9, one cent; 14.0 to 14.4 one and one-half cent; 14.5 to 14.9, two cents; 15.0 to 15.4, two and one-half cents; 15.5 to 15.9, three cents; 16.0 to 16.4, three and one-half cents; 16.5 to 16.9, four cents; 17.0 to 17.4, four and one-half cents. On 17.5 or over add one-half cent for each half over 17.4 per cent.

**IN PERSON**  
Bill Jones called in a plumber to fix an upstairs faucet and as he and his wife were coming downstairs they met the plumber coming up. Bill said:  
"Before I go downstairs I would like to acquaint you with the cause of the trouble."  
The plumber politely removed his hat and murmured:  
"Please to meet you ma'am." —Ex.

### Wash Hands Before Eating Urged as Polio Precaution

Parents should see that children wash hands thoroughly before eating as one precaution against polio, particularly during the summer epidemic season, according to the National Foundation for Infantile Paralysis.  
The National Foundation through its local chapter is issuing a series of six simple health rules that should be observed during the summer to help combat the disease.  
Scientific studies, financed by March of Dimes funds, indicate that the hands may be a means of spreading the virus infection through contamination of food, drinks or objects carried to the mouth.  
For this reason, a high standard of personal cleanliness should be maintained especially during the polio danger months—late June through September, the National Foundation cautions, adding that fresh fruit and vegetables should be washed well before eating.

Miss Richardson was teaching expression at Andrews Ward school at the time of their marriage. The family has lived in Dallas since 1928, except for short times spent in Wichita Falls and Amarillo. For the last several years, Mr. Butler had been associated with the Republic National bank in Dallas.

Survivors include his wife; two daughters, Mrs. Terry Sanders and Martha Ford Butler both of Dallas; two brothers, F. M. and W. T. Butler both of Amarillo; two sisters, Mrs. J. G. Martin and Mrs. J. V. Daniel of Floydada and a number of relatives living in Floyd county and other parts of Texas.  
Attending the funeral from Floydada were Mr. and Mrs. J. G. Martin Mrs. Jake Watson, Mr. and Mrs. J. V. Daniel and Mr. and Mrs. Flynn Thagard.

### RURAL HOME TIED TO FARM

Farm housing differs from city and suburban housing in several respects and particularly as to the basis on which it can be financed points out Raymond C. Smith of the U. S. Department of Agriculture, assistant chief of the Bureau of Agricultural Economics.  
In the field of finance, says Smith, the money available for building or maintaining a house on a full time farm is tied to the income from the particular farm on which it stands. This distinguishes it from the average city home which has a value of its own regardless of the particular source of income of the people who live in it. In the city if the income of the immediate resident proves to be small to support the property, that resident will have to vacate the house, and the property will have a chance at some other source of income.

### NEWSPRINT TROUBLE

### DIAPER SHORTAGE

Though there's no more queuing up for white shirts and nylons, babies will have to wait more than six months for an ample supply of diapers. Pathfinder points out.  
During the war years the diaper shortage was blamed on price controls. Mills switched their looms to more profitable fabrics. But now that OPA controls are off, it's hard for mothers to understand the diaper dilemma. Chief trouble: too many babies.  
In 1946 3,500,000 babies arrived. That meant 1,000,000 more square-pants customers than the year before. Thus, even though production may reach pre-war levels by fall, the supply won't cover the demand. —Ex.

McBrien presided over the meeting at which time Mrs. Fred Zimmerman, jr., was elected president and Mrs. Guy Ginn as secretary of the new club.

Mrs. Lon Davis presided at the register. Mrs. W. S. Poole and Mrs. J. D. Cleveland served punch and cookies to the members and guests. Junior club guests present were Mesdames Guy Ginn, Fred Zimmerman, jr., Billy Henry, Hollis Bond, Bob Collier, George Van Wickel, James Willson, jr., Charlie Lewis and Gail Mayo and John Kimble.

The Junior club held its first meeting this morning at 10 o'clock to further organize and elect the remaining officers.

## Paul Teuton Weds N. Orleans Miss June 1

LOCKNEY, June 20.—Paul Teuton son of Mr. and Mrs. Ed Teuton of Lockney, and Miss Lorraine Pellegrin, daughter of Mr. and Mrs. Pellegrin of New Orleans, La., were united in marriage at Homma, La., June 1, it was announced this week. District Judge Bobby Lottinger officiated at the single ring ceremony. The couple was accompanied by Mr. and Mrs. Joe Teuton, aunt and uncle of the groom.

Mr. and Mrs. Teuton have both been employed at Homma for some time. Mr. Teuton recently returned to his home here and purchased the W. R. Stone place one mile west of town. The couple will make their home there as soon as the house can be remodeled.

The bride was reared in New Orleans and is a graduate of New Orleans high school.

Mr. Teuton was reared here and is a graduate of Lockney High school. He served five years in the Army during World War II, 2½ years of that time was spent overseas with the cavalry reconnaissance. He was discharged with the rank of captain. The couple will be at home here after a wedding trip to Houston, San Antonio, Carlsbad, New Mexico, and Amarillo.

Claud Fawver: "You know, this wheat it turning out a little better than some of us thought it would."

## Home Demonstration Agent in Motley Weds Matador Man

Miss Mary Kathryn Cook became the bride of Albert E. Rattan Sunday, June 22, at the home of her parents, Mr. and Mrs. O. R. Cook in Post, Texas, beneath white satin streamers extending from the floor to the chandelier where a large bouquet of pink roses were tied. A single ring ceremony was performed by Rev. D. W. Reed of Post.

The bride, given in marriage by her father, wore a gown of white net styled with a fitted bodice and long pointed sleeves. Her veil was fingertip length. She carried a bouquet of pink roses.

The bride's three sisters were her attendants. Miss Johnnie Cook was maid-of-honor and Misses Polly and Josh Cook were bridesmaids. They were dressed in blue net gowns and carried nosegays of assorted flowers. A reception was held for the couple following the ceremony.

Miss Cook is Home Demonstration agent in Matador, where she has been since April, 1946. She is a graduate of Texas Technological college with the class of 1942 with a bachelor of science degree in Home economics, and is a member of the Beta Sigma Phi sorority. Miss Cook previously taught in the Post and Sundown high schools.

Mr. Rattan is connected with the Matador Butane company in Matador. He is a graduate of Matador high school and served five years during the war. He is the son of Mr. and Mrs. L. Rattan of Matador. The couple left for Ruidoso, New Mexico, on a few days trip immed-

ately following the reception. When they return they will be at home in Matador.

## Land Of Milk

## —AND MONEY!

There's no "three-cornered stool" in the dairy business today. Families used to "keep a cow" for the babies, but cows bring in BIG money today for many folks in our area. It's truly a "land of milk and money." Butter, cheese, evaporated milk—and all of the other dairy products that come out of our territory are making money for thousands of farmers.

We have so much confidence in the dairy industry—and all other industries we serve—that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to home, farm and industry and better living—electrically—to everyone!

## Wheat Straw Said Invaluable As Soil Saver

(Ed. Note: In a statement issued this week, while farmers are in the midst of the harvest, the Floyd County Soil Conservation district officials call attention to that invaluable by-product of the harvest, the wheat straw left on the ground. Below they urge some suggestions based on experience.)

The plains of Texas is in the midst of the greatest wheat harvest in its history. Immediately following harvest, farmers will begin the preparation of their land for another wheat planting. While in the process of land preparation they will be managing a valuable by-product of the wheat farming business. This by-product is the wheat straw which is left on the land after the grain goes to the flour mill. This by-product if properly handled can be the best insurance the plains of Texas can have against the return of the dust bowl days. If this straw is left on the surface of the land it will provide a blanket cover which will not only prevent blowing but will enable the soil to take up the rainfall faster, reduce evaporation from the soil and maintain a cooler temperature at the surface of the ground.

This valuable by-product can be easily destroyed. Most of the wheat stubble is tall enough and thick enough that a match flipped either accidentally or on purpose in the right place can easily destroy an entire field of this soil protecting cover and leave that field to blow away should a dry period return to the plains. Farm buildings, fences and machinery are in danger when fire starts across a field of wheat stubble.

Another way to mismanage wheat stubble is to turn it all under so that it has no chance to protect the soil. Results at the Amarillo Conservation Experiment Station for the three years, 1943, 1944 and 1945 show an average yield of 15.2 bushels of wheat per acre where sweeps were used in land preparation and all the stubble left on the surface. Where the stubble partially covered the field was 12.8 bushels per acre and all the stubble was turned under the yield was 10.1 bushels per acre.

By properly managing this by-product of the wheat farming industry by protecting it from fire and leaving it on the surface we will be protecting our own interests as well as that of those who come after us.

## G.I. Readjustment Allowances Are Not Vacation Pay

G. I. Readjustment allowances are not intended as summer vacation pay, J. S. Freeman, local office manager of the Texas Unemployment commission advised veterans today. The Texas unemployment commission cooperates with the Veterans Administration in administering the readjustment allowance part of the G. I. Bill of Rights.

Even if he otherwise qualifies, a veteran is not eligible for readjustment allowances for unemployment if he is receiving subsistence allowances for education or training under the G. I. Bill or if he is not available for suitable work, Freeman said. "This means," he explained, "that in between school terms and during vacation periods veterans should make sure that their federal government school allowance payments have been discontinued before claiming readjustment allow-

ances". Further, the veteran who is planning merely to rest and play between school terms is not eligible for readjustment allowances. Among other things he must be available for employment and seeking a suitable job during each period for which he claims a readjustment allowance.

The law provides that further rights to readjustment allowance shall be forfeited by a veteran who knowingly accepts an allowance to which he is not entitled. In addition misrepresentation and fraud are punishable by federal fines and prison sentences. In Texas many of the investigations have been handled by the FBI, he added.

## M. G. Moreland Is Supt. at Petersburg

Petersburg, June 26—At a meeting of the Petersburg Independent School district board of trustees last week, M. G. Moreland of Chillicothe was elected and has accepted the place as superintendent of our schools. Mr. A. C. Koeniger, of Plainview, had been previously elected to the place, but did not accept. However he did accept the place as principal.

Mr. Moreland comes to our school with a reputation and recommendation as one of the best school men in West Texas. He has been superintendent at Chillicothe for several years.

## July Revival Set At South Side Baptist

Rev. Jack Young of Tipton, Oklahoma, will conduct a revival at the South Side Baptist church beginning July 17 and continuing through July 24. It was announced this week by the pastor, Rev. Tom Warren.

Mr. and Mrs. Fay Hart will have charge of the song service each evening beginning at 8:15 o'clock.

Rev. Young held a revival at the church here last summer and was acclaimed as an excellent old time gospel preacher by those who heard him.

Rev. Warren extends a cordial invitation to everyone to come and enjoy good preaching and singing.

## Defective Brakes on 14 Million Cars

Fourteen million automobiles are being driven with defective brakes, according to indications in a cross country inspection of vehicles made for MoTOR, the Automotive Business magazine. This is approximately half the passenger cars in use. Many of these vehicles will be a menace to highway safety, the magazine states, unless repairs are made.

Dealer service stations and independent repair shops in a majority of states made the inspections for MoTOR, removing a front wheel on a large number of cars on which neither the drivers nor service men suspected anything wrong with the brakes. All the vehicles had been driven in for other kinds of service. The inspections showed badly worn brake lining on one car out of two, leakage in the hydraulic braking system on one out of three and scored brake drums on one out of three.

## FLOMOT GIRL WINS PRIZES

MATADOR, June 19.—Miss Dede Barton, representing the Cross-6 Ranch, Flomot, Texas, captured the honors in the cowgirl sponsor events at Midland rodeo, winning first place and a \$150 saddle in the regular Cowgirl Sponsor contest, and then winning the \$600 Hobbs trailer as the first prize in the cowgirl cutting horse contest.

The saddle was donated by the Blackstone Hotel of Fort Worth and the trailer by the Hobbs Trailer company of Fort Worth.

## Speaking on Holy Land Tonight At Methodist Church

Special attraction at the Methodist Church in Floydada on Wednesday and Thursday nights of this week is Rev. Robert L. Butler who is speaking on experiences he has had in the Holy Land. Rev. Butler has been a resource person on the nature, peoples and customs of the Holy Land in the Daily Vacation Church school at the First Methodist Church during this week. He has thrown much light on the background of Bible study from his experiences and observations while in Palestine.

On Thursday evening at 8 o'clock he will give the second of his messages in connection with the closing program of the Vacation Church school. Rev. Butler will wear one of the native costumes and display many objects of interest from that land. The public is cordially invited to attend this service.

Mrs. J. D. Cleveland spent last week-end in Lamesa with her mother, Mrs. J. M. Wood.

## Sees No Furniture Price Reduction

DALLAS, Texas, June—Retail furniture prices are expected to remain stable throughout the Southwest, according to a survey recently completed by H. E. Dill, secretary of the Retail Furniture Association of Texas and editor of the Southwest Furniture News.

The survey emphasized the fact that retail furniture dealers are now operating on a lower profit margin than they did under government price control, and that the only price reductions expected were reductions to balance inventories.

## HOWARD HOWELL ON LEAVE FROM DUTY WITH U. S. NAVY

Y3 Howard Howell, attached to Staff Command Air force, Pacific Fleet, has been in Floydada this week on a 25-day leave from the Navy visiting in the home of Mr. and Mrs. B. F. McIntosh and other friends.

Y3 Howell graduated from Floydada High school with the class of 1945 and immediately following graduation, moved with his parents, Mr. and Mrs. R. L. Powell, to Hutchinson, Kansas, where his father is employed by Armour Creamery, a position he held while in Floydada.

Howard has 17 months more time to serve in the Navy.

## WORD OF THANKS

We thank the people of the community for their contributions to help us following the fire which destroyed our household effects and personal belongings. We are deeply grateful also for the funds which came to us through the generosity of the congregation of the City Park Church of Christ.

Now, the best may be had by all!

We belong to a nation-wide buying group of Independent Memorial Dealers. We buy for cash, in car-load quantities direct from most modern, equipped quarry-manufacturers.

It has long been our ambition, shared by others in this group, to have the same designing skill and fine workmanship that distinguishes our larger monuments, exemplified in our smaller monuments and markers. Huge volume production under economies of newest methods, now makes this possible.

We want you to stop in whenever it is convenient for you. See these remarkable memorial values. You are always welcome.

Highest College Honors at Texas State College for Women went to Ella Margaret Taaffe, Foreman, Arkansas on graduation day for her outstanding artistic achievements while on the campus. Miss Taaffe was awarded the Pauline Bishop Leman Memorial Award for her original piano compositions and participation in Texas and Arkansas musical events.

Fe Railway company in northwest Floydada. Installed so as to be serviced either by transport truck or by railway tank car the new tank will make adequate supply of butane for domestic and commercial purposes more certain when unusual circumstances arise or demand is unusually heavy. Mr. Foote pointed out. An extension of the switch to accommodate the new storage tank by rail has been promised, Mr. Foote said.

### Handlers Swamped

(Continued from page 1)  
marks by irate truckers, have in turn been irked by the reports that the Santa Fe is furnishing cars at Crowell, for instance, where the distress period is past, and cannot furnish them at Floydada. The Santa Fe general office at Amarillo had some what wispish request that this information be amplified upon or disproven. "There is no understanding

the way a railroad mind works," one man remarked, apropos of his general disgust with the way things are happening. A similar attitude was indicated as to the Quanah route, reportedly furnishing cars to Paducah for grain while wheat piles on the ground by the tons in Floyd county.

**Very Good Natured People**  
Generally speaking the overflow of humanity in the local community, like that of the wheat, has disposed of itself amicably. An occasional tart remark and short retort, and a drunk or two, has been about the sum total of disturbances in a county where seven or eight hundred new men in search of quick profits have been thrown in strange surroundings and these from all points of the compass and as far away as the prairies of Saskatchewan. So reports the office of Sheriff LeLand A Hart. Little prowling, thievery or crimes of the hanger-on type have been in evidence.

### Wheat Stories

(Continued from page 1)

A. L. Hartog, who with his force has gone all out in an effort to get the jobs and the men together. Frantic wheat growers have been furnished many combines through this means. The number of fields ready for the combines as late as yesterday far exceeded the number of combines available. Several "syndicates" with a complete service of harvesting and hauling have moved into the county and these have been maneuvered around over the county for best results. F. L. Brown, of Lockney, and E. C. King, of Floydada, have been employed with the service as outside or field men from the county agent's office United States Employment service with headquarters in Plainview, has directed these efforts through the Extension service.

Report yesterday from grain dealers which seem to be pretty well representative of the whole country indicate that many more farmers are selling their crops as they are delivered than are marking their tickets for storage or for loans. Some are even taking a dock of 10 cents per bushel at one Floydada elevator for transporting to points downstate so as to make the transaction final and complete at the time of delivery.

The huge trailers which the farmers are trying to make use of to take the place of the broken down rail service, have capacities running up to 400 and even 500 bushels. Enough of them on the road will make the situation of the railroads much less acute. It takes only four to transport a carload of grain with ease a long distance overnight.

the United States and many foreign lands had reached Boys ranch since the publicity of the past six months in national magazines and through the cinema. And all the pleas come from cases where the pattern is the same -- lack of 24 hour supervision by a father.

### New President to Preside

Closing the club's meeting for the day, O. F. Rutledge retired from the presidency, yielding the gavel to his successor Ray S. McEntire, who takes over and will preside beginning next week -- the first meeting in July.

Neal on dances; and Jack Stantell, Walter Collins, Clinton Pyffe, and Adrian Fields on automobile donations.

One of the big jobs will be the construction of temporary stands and seating for the two days. M. L. Boling, John Cockrell, Earl Baker and J. A. Pawver, jr., have been named to direct this work.

### Three Dances Planned

Of three dances planned in the two evenings of the celebrations, two will be held on the night of July 3. At the Legion hall the outdoor floor will accommodate several hundred persons who will dance to the music of the Melody Queens, an Amarillo orchestra.

At the same time but on the court house lawn the old-fashioned dances will be done to the music of Mrs. J. L. Davis and a stringed orchestra which has been popular for years in West Texas communities. Mrs. Davis is a daughter of a pioneer ranch family.

The third and last dance will be on Friday night at the Legion hall where the Melody Queens again will furnish the music.

### Tidwell Shows on Midway

The biggest carnival which has ever visited Floydada has been engaged for the week of June 30 -- July 5 by the carnival committee composed of Edward Wester, Watson Jones and Leeman Norman. This is the Tidwell Shows, filling an engagement this week at Vernon and coming here directly from that place.

A conflicting date this week was cancelled with the D. S. Dudley shows due to have shown here under the auspices of the Fire Department. The conflict was quickly resolved by members of the two organizations and the two shows when the situation came to attention.

Entries in the beauty revue announced by the committee yesterday, with several others pending, are as follows:

- Doris Cornelius, sponsored by Kings grocery;
- Jean Cardinal, sponsored by Plains Equipment company;
- Nell Clem, sponsored by Willson & Son Lumber company;
- Betty Lou Tye, sponsored by C. D. Foote Butane company;
- Kay Sparks, sponsored by Miladles Show;
- Joe Ann Brownlow, sponsored by Higginbotham - Bartlett company;
- Edna Ehl Johns, sponsored by Stewarts Cleaners; and
- Melba Louise Smalley, sponsored by M. L. Solomon.

### Water Works

(Continued from first page)

thinks the water superintendent.

### New Lay-Out Good One

That the citizens will like the new lay-out when it is finished is the belief of Mayor Harmon and Water Superintendent Johnston. A 10-inch main will bring the water to the intersection of Ollie street and Highway 207 in Southwest Floydada. Thence one eight-inch main extending north will connect with the eight-inch main on West Mississippi at the intersection of Tree street. A six-inch main running east will connect with the six-inch main on Second street where it intersects Ollie. Other extensive ties to add main pressure are due to be made, to be followed by the extensions which have been promised residents who now have inadequate or no supply.

But all of this is in the future -- not for this summer -- probably this fall. Meanwhile the city is going to have to do the best that can be done under the circumstances and the officials are hopeful water users will be as considerate and helpful as they were last year, if need be.

Mrs. Ella Woods and son, Bobby, of Fort Worth are here visiting with friends and relatives.

### OPERATION PERFORMED

Mrs. E. E. Hinson, jr., of Lubbock underwent a major operation Monday at the Lubbock Memorial hospital.

Her condition was unsatisfactory at first, but she was reported resting well yesterday afternoon. Her mother-in-law, Mrs. E. E. Hinson, sr., who went to Lubbock visit her.

Mr. and Mrs. Worth Howe Roby, Texas are here, guests in home of Mr. and Mrs. P. Q. Hart.
