Lease Hounds Finish Leasing of Town Lots

Leasing agents for Stanolind Oil and Gas company, who carried on a small parcel and lot leasing campaign in Floydada for five weeks, today afternoon folded up their maps, put their lease forms back in the satchel and turned to other things to carry on.

They had orders to "cut off" after making scores, probably hundreds of small tracts including parcels as small as 25 foot frontage. While they were here they indicated their company is interested in making approximately four sections at an estimated cost of \$100,000. With four men working nearly half of the time they obtained "protection" in every portion of the city proper and when they finished had leased practically every small tract adjacent to the main street. In the last 10 days of the leasing campaign they took the leases directly in the name of Stanolind and said all the leases they had taken would go into the Stanolind's hands.

An "early" test could be several months in actual time since the mayor portion of the scores or hundreds of titles, presumably, would have to be checked before work begins.

Older Test Still Drilling
Meanwhile three tests in this general vicinity are of county-wide interest. Of these two are adjacent to Petersburg and both of these are to a crucial depth. Test on the Hegel land one mile west of Petersburg, was below 8,000 feet in line and shale section several days ago. The heard test north and slightly west of Petersburg 9 miles, approximately due west of Floydada, was below 7,200 feet at the same time. Log tests were being run.

The third well in the area which Floyd county people are watching with even more interest is the Humble test, known as the No. 1 Merriweather, a mile south of Cedar school road store, 12 miles northeast of Floydada. This hole was bottomed at about 6,000 feet last week-end. The official report described it as promising in dry anhydrite and dolomite. The permit calls for 8,000 feet total depth. The official log shows 690 feet from north and west lines of Section 31, Block D-3, L. survey.

4 From Floyd Graduating At WTS College
Four Floyd county residents are in the class of 72 students who will receive degrees from West Texas State college at Canyon at the end of the summer session, according to the announcement of commencement plans made last week. They are: Virgil L. Kelley of Lockney; Edith Johnson, David Layne Kirk and Jill Anna Dell Kirk, of Floydada, all of whom are due to receive bachelor's degrees.

Rotary Club to Welcome District Governor to Floyd Wednesday
The Rotary club of Floydada Wednesday will welcome J. F. (Jim) McCulloch, Governor of the 127th District of Rotary International, which includes 64 Rotary clubs in northwest Texas. Mr. McCulloch is a farmer in Stamford and is a member of the Rotary Club of Stamford. Mr. McCulloch will visit the Rotary Club of Floydada to advise and assist President Ray McEntire, Secretary S. W. Ross and other officers of the club on matters pertaining to club administration and Rotary service activities. He is one of the 173 District Governors of Rotary International who are supervising the activities of some 6,200 Rotary clubs which have a membership of 305,000 business and professional executives in 73 countries and geographical regions throughout the world.

Wherever Rotary Clubs are located, their activities are similar to those of the Rotary club of Floydada because they are based on the same general objectives—developing better understanding and fellowship among business and professional men, promoting community betterment, raising the standards of business and professions, and fostering the advancement of good will, understanding and peace among all the peoples of the world.

Houston Car Theft Ring Believed Broken by Special Agent as Two Floydada Cars, others Recovered

Confidence that the solution of the car thefts in Floydada and other West Texas towns in June has been found and that a clever method of operation by a ring headed up in Houston has been uncovered was expressed by local officials here this week.

District Attorney John B. Stapleton has the confession of one man who is expected to be tried here on car theft charge and two others are being sought who were implicated by the confession made by the man arrested. Stapleton said that Martin Koonsman, of Abilene, special agent for the National Auto Theft bureau, aided by state patrolmen and officials of several counties, unraveled the riddle of the disappearing car license numbers. Incidentally a 1941 model business coupe stolen from D. W. Pyffe on June 9, and a four-door sedan stolen from Dr. C. M. Thacker on June 16 are back in the hands of their owners. The Pyffe coupe has about 7,000 more miles on it than when it was taken but otherwise appears to be in satisfactory condition. The Thacker car came home with new tires, new seat covers, a new gadget or two, and all fender dents removed. Both cars came home on their own power but the Thacker car is in the garage for a view of its innards since it stopped ticking shortly after getting back on home ground.

The Pyffe coupe was recovered at Melrose, New Mexico. It was traced through Abilene, Odessa and Clovis. The Thackers went after their car, first to Odessa, and thence to Brownwood. It had made Abilene and Cisco before getting into the hands of the loser at Brownwood.

The ring operated by obtaining certificates of title to wrecked cars. District Attorney Stapleton said. After getting the title the next step would be to find a model car that would fit. When it came in from out in the state somewhere new plates would be put on, the motor number filed off and a new one put on. These would correspond with the false title papers. Probably it would get a general brushing up, too.

According to the confession obtained by the special officer both the Floydada vehicles sold for \$800 each.

Street Paving At Crosbyton Started Again

The paving of Crosbyton's streets, which, according to the Crosbyton Review, has been a nightmare for the City commission there and the residents of the community, is being resumed and will be completed early in August, if nothing else goes wrong. Announcement of the adjustment of a bad situation was made by the city commission.

Clovis Contracting company, managed by W. T. Bankston who was a partner in the firm, closed down the local job July 15, because of lack of funds to complete it. But William P. Hardwick, of Clovis, N. Mex., a representative of the Clovis National bank, and a Clovis lawyer, assured city officials Tuesday that they would complete the paving here. Mr. Hardwick was Mr. Bankston's partner, and it is understood that he owns a chain of theaters in New Mexico.

The Commission, along with Judge W. P. Walker and Coleman L. Hasie of Lubbock, engineer on the job, were in session for several hours with the Clovis men. At the end of the meeting, local officials expressed satisfaction with arrangements that have been made and said they believe the work would be completed now.

Immediately after the closing down

of the job last week, city officials served an injunction on interested parties, prohibiting the removal of equipment until the work was completed. This injunction was issued just in time, it was learned, as creditors of the contracting firm from Albuquerque came to Crosbyton to get the caliche crusher being used. They observed the injunction, however, and all equipment is still in the city.

Contract on the highway job through Crosbyton which was also held by Clovis Contracting company will be sub-let immediately, Mr. Hardwick told the commission. It is understood that two or three construction men have signified they will take this contract at the price bid.

Several hundred dollars worth of cold checks paid employees on the job will be taken up out of payments due the contractor, the officials said. The new agreement also sets up a fund in the Citizens National Bank for the payment of labor, and checks must be countersigned by Crosbyton's city secretary. The amount of this fund will be governed by estimates of completed work furnished by the engineer.

Crosbyton merchants hold many of the cold checks issued week before last, they report. These will all be paid off within a few days and other local accounts made by the contractor on the job will be paid from the local fund.

Mr. and Mrs. H. L. Rafferty had visiting in their home last week. Mr. and Mrs. Clarence Morgan of Hill county.

Mr. and Mrs. Allen Bingham and baby and Mrs. Cleo Goins spent the week-end in Ruidoso, New Mexico.

Baptist Church Revival to Open Sunday, August 3

Announcement of an August revival to open Sunday at the First Baptist church has been made for which the church has been planning for several weeks.

Dr. Fred L. Fisher, of Hardin-

FRED L. FISHER

Simmons college, Abilene, will preach for the meeting which will continue through August 17, and Virgil Mott, of Pampa, will be the singing director.

Rev. L. A. Doyle, pastor of the church, has high hopes for a series of unusually good services. Both the preacher and singer are tops," said Bro. Doyle.

Schedule of daily services will be preaching at 10 a. m., prayer service 7:45 p. m., and evening preaching 8:15 o'clock.

St. Maintainer Bought by City Is Put Right to Work

Floydada City council wasted no time last week after buying a street maintainer. Completing their transaction with the Plains Machinery company Wednesday night they had the machine in dirt streets the next day.

What the city bought is known as a No. 8 American Patrol with leaning front wheels. Contract cost was \$3,843.02 with an allowance of \$150 for the city's old machine, making the net outlay \$3,693.02.

Evidently one part of the deal was most unusual. The city paid cash and wanted a receipt. The salesman, so the story at the city hall goes, had never sold one that way and didn't know how to make out the "papers".

Pioneer Cowboy Is Back on old Range

MATADOR.—Things look different after 46 years. That is the opinion of Roy McClane, pioneer cowboy and wild horse rider, who worked on the Matador ranch from 1894 to 1901.

Mr. McClane returned to the old range last week for his first visit in 46 years. His wife, who was Miss Ora Criswell, before their marriage, is a sister to Mrs. R. P. Moore and Mrs. Homer Sheats of Matador and Mrs. Lena Davis of Lubbock.

Mr. and Mrs. McClane are visiting with Mr. and Mrs. R. P. Moore.

The veteran cowboy made three trail drives from Matador to Montana during the early days and was known as one of the top riders in Western Texas and New Mexico when a cowboy was exceptional to attract attention.

After leaving the Matadors he was foreman on the "Flying H" ranch near Carlsbad, New Mexico for many years and later went into ranching business for himself. He recently sold his ranch holdings and has retired.

We are happy to announce that we have just installed a new and completely modern lens laboratory, in which we now grind our own lenses and fill our own prescriptions. By doing this laboratory work in our own offices, we know each lens is ground exactly according to the prescription. The machinery and equipment in our laboratory represents the same high standard of efficiency and modern manufacture as the rest of our office and was installed at considerable trouble and expense to us, so that we may give a better and more complete service to our patients.

44 ways To get "Something for Nothing"

The railroads have received 44 "rules" demands from the leaders of the operating unions . . . representing engineers, firemen, conductors, trainmen and switchmen. They say they are seeking only changes in working conditions—NOT a wage increase.

More Money For Less Work

But what kind of rules are being asked for? Twenty-eight of them would compel railroads to pay more money for the same, or less work; 7 would require additional and unnecessary men to do the same work; the rest would bring about changes in operating practices at increased cost.

For Instance:

The Union leaders demand additional train and engine crews on Diesel-powered trains—one full crew for every power unit in the locomotive. A freight train hauled by a 4-unit Diesel would have to carry 4 engineers, 4 firemen, 4 conductors, and at least 8 brakemen, or a total of 20 men instead of 5.

"Made Work"—Sheer Waste

The Union leaders demand that full-length freight trains be cut to about half their length, even though such trains are most efficient for low-cost service to you. This rule would call for twice as many locomotives, would double the number of trains, and make accidents more likely.

Additional equipment, yards, and other facilities required to take care of these short trains would cost hundreds of millions. What the Union leaders really want is to make more jobs.

The Union leaders demand that when a crew in one class of service perform incidental service of another class, they will be paid not less than a day's pay for each class, even though all service is performed as a part of the same day's

work. The crew would get at least two days' pay for one day's work.

The Union leaders demand that the present basic day for passenger con-

ductors and trainmen be reduced from 150 to 100 miles, which would have the effect of increasing their pay 50%. Such a run often takes only two or three hours!

You Can't Afford This Waste

Demands like these are against the interests of the whole American people, who depend on railroad service for nearly everything they eat, wear and use.

These rules would cost a BILLION DOLLARS annually—a gigantic waste which neither the railroads nor the country can afford.

Railroad workers are good citizens and good employees, with pride in their calling. Their record during the war was outstanding. We do not believe they fully understand the "featherbed" rules which the Union leaders are demanding. We do not believe they understand the harmful results which these rules would have to the railroad industry, to the millions of men and women dependent on railroads for their livelihood, and to the shipping and consuming public.

The great strength of America is in production—an honest day's work for an honest day's pay.

For only through greater production can we hope to stop the steady upward surge of living costs.

Surely, if ever there was a time in our history when we needed to work, not waste, this is it.

Lockney Couple Will Live Near Sterley

Miss Dorothy Welland, daughter of Mrs. Mary Wieland of Lockney and Kendall K. Cummings, son of Mr. and Mrs. Zack Cummings, were united in marriage Tuesday morning July 22 at 10 o'clock in the Baptist church in Lockney. Rev. E. J. Cobb performed the ceremony as the couple stood before an altar flanked with tall baskets of pink and white gladioli and fern.

The bride was dressed in a white linen dress with white accessories and carried a white Bible topped with an orchid and showered with satin ribbon knotted with fern.

Mona and Jean Cummings attended the bride as bridesmaids. Sterling Cummings served his brother as best man. Ushers were H. S. Callahan Jr., and Shelby Callahan, uncles of the groom.

After a wedding trip to Colorado the couple will be at home in Lockney. Mr. Cummings has purchased a farm near Sterley where they will move after January 1. Mrs. Cummings will continue her work at Truett Variety store in Lockney until that time.

A Statement To Our Customers About Resale

PRICES of PRODUCTS

Built by International Harvester Company

Here at Harvester we are concerned over the fact that a growing number of our products are appearing on the resale market at greatly inflated prices.

As manufacturers, we try to produce at the lowest possible cost. We cannot set the prices at which our products—tractors, motor trucks, farm implements, refrigeration, and industrial power equipment—are sold.

Our basic price policy was publicly stated in March, 1947, when we announced price reductions at the rate of approximately \$20,000,000 per year on our products.

\$20,000,000 Price Reduction. Our basic price policy was publicly stated in March, 1947, when we announced price reductions at the rate of approximately \$20,000,000 per year on our products.

Distribution to Dealers. But even record-breaking production is not sufficient to give your dealer—and other IH dealers—enough products to meet today's demand.

While it may take a little more time to get delivery, we urge our customers to consider all of the factors mentioned here, before paying more than the list price for any IH product.

Ft. Worth Pastor to Preach During Revival at McCoy

Rev. Aultman, from Englewood Heights Baptist church in Fort Worth, will conduct the summer revival at the McCoy Baptist church beginning August 8 and continuing through August 17. Oran D. Smith, of Plainview, will have charge of the singing. He will be assisted by his wife at the piano. Mrs. Smith is head of the music department at Wayland college.

Two services will be held daily beginning with the morning of August 9. Morning service will begin at 10:30 and evening services are at 8 o'clock.

Rev. Wayne Ehrlich, pastor, gives a special invitation to the people of the Starkey and Farmer communities as well as McCoy to attend these services.

Work is being done this week to beautify the church grounds and

provide more adequate parking space.

Harley, in red wig and bumpkin attire, appears in Tobey roles in each of the down to earth, heart warming melodramas. Absent from the road the past three years because he could not get the kind of talent he wanted, Harley is trying this summer to make up in extra entertainment for the visits he missed with his West Texas friends.

Two Farm Fires ---

from the house.

Vickers Burns Not Severe
In the fire at Baker Mr. Vickers and his son attempted to remove the stove from the kitchen but the oil burned so fiercely and the blaze scattered so fast they were unsuccessful. The whole house was ablaze so quickly Mr. Vickers said it was amazing. They saved little or nothing.

The windmill also was burned. Mr. Vickers was burned painfully, but not seriously, on hands, neck and one ear while attempting to get out of the house.

Band School ---

(Continued from page 1)
drews ward definitely will have a band next year with a regular period provided for it in the schedule. This band will be open to students of the 6th, 7th and 8th grades, Mr. Haden states. The plan at present is to use the old uniforms from

high school for the grade school band and have the grade school band perform at some of the school band.

Mr. Haden is bubbling over with enthusiasm at the prospect of a band in Floydada and thinks it is too long until the people of the town will have something really to be proud of. But, he points out, must be borne in mind that bands are not built in a few weeks or few months. It takes years of schools, says Mr. Haden, operating on the system of a five-year program for building their bands. This year, if plans materialize, the band will be announced later.

"It is my sincere belief," Mr. Haden declared, "that if we are able to carry on our program as planned, within five years, may be sooner, we will have at least a piece band in Floydada that will rank with any band in the state, plus a very fine band at Andrews Ward school."
