## WATER BY THE MOONLIGHT

With accent on the over-demand for water and nearly all kinds of businesses discommoded during business hours, the householders exasperation at an insufficiency of water pressure to keep his lawn pretty is one that can be remedied with a bit of management and somewhat late hours.

Water is pouring through the city's mains at a rate never before equalled, with pumps going two and three shifts, but all the hydrants are wide open in the day time. Twice as much water would have to be furnished to take care of the demand. The City has simply outgrown its water system. Extensions on mains now being sought would make another one-third increase if the volume of water were available.

What the shrubbery and lawn water could do would be to take advantage of the night hours. If a hundred or so night users would start their lawn sprinkling about 9 o'clock in the evening and forget to turn on the lawn hydrants in the day time they'd get good pressure and do their lawns more good, and the City would sell more water.

## HOW EASY IT WOULD WORK

One can imagine how much more pleasant it would be to water the lawn in the cool at about 11 o'clock at night than to be tossing in bed and clawing chigger bites picked up on the fishing trip the day before. It has been estimated that one out of every ten persons living in Floydada is away from home somewhere every day on a picnic, fishing trip, visit with the home folks down in Texas or something of the kind. If everyone of these would come in home about 9 o'clock at night and begin watering the lawn between dosages for the chiggers, mosquitoes or what have you they'd have a lot better looking lawns and their neighbors would have more water to use the next day trying to keep up with those who sprinkle their lawns at night. There is something to that kind of talk.

## NO RELIEF REAL QUICK

As to the water supply in daylight hours there is no relief in sight right quick. Everybody is in the habit of using water when as and if they want it in plains towns. They don't know how to do without. And on account of this attitude you'd be surprised how many offices and shops in Floydada have to close down in the forenoon early and just wait. Dentists, beauticians, wash and grease racks are among these. There are others, of course, including all of those who use a considerable amount of water for cooling power plants.

But the only relief is a good general rain and that for only a few days at a time.

The thing began back in 1940. The city could have—and hindsight so good—should have done something about it. Everybody knows that now. The minimum job would have cost less than half. But the city had been through a considerable bit of financial difficulty for several years. The fact is, quite likely, too, that the administration at that time could not have gotten an okay from the taxpayers, who were leary of any more debt. The price being paid for this bit

of failure to see into the future is kinda heavy in dollars and cents and inconvenience as well. It is at the least months before the City can do anything about it.

## THINGS DO COST MORE

One added worry, if you'd call it that, about the cost of the water improvements and other things the city is forced to carry on now is the fact that the high has not been seen. Practically no contract you can make but has an escape clause in it. Thus the City of Floydada is due to absorb at least 10 per cent more that the original estimate on the pipe it is to put in water lines and extensions. Pipe has gone up and supposedly will go up some more, what with coal and steel prices rising, and not only the city but the contractor will take some loss from this fact. In this instance the escape clause was one in which the city shares the loss only up to a limited amount. That's the only kind of contract that could be let.

Another illustration of rising costs is the problem of the municipal swimming pool which so many of the citizens want for "somewhere for the kids to go to swim." City council were voted a fund of \$25,000 but it wouldn't do what they had hoped it would do, and as time goes on the rising costs make additional funds practically a necessity. Twenty-five thousand dollars doesn't do anything in a way of public improvement any more.

This, in turn, will be a temptation to the city, with the first easy money on hand it ever had, to ride on out deeper and spend money they may wish they had not. If you can foretell the times as to weather and crops and markets and costs the next few years you can do the city council a favor by giving them the information.

## As A Farm Woman Thinks

(By Nellie Witt Spikes)

Your life can be beautiful, beautiful, Reflecting the Master's face.

So sang the quartette from Beeton as we laid to rest our friend Mrs. Si Smith of Rails.

Yes her life had been beautiful and as I gathered the flowers she loved from my garden, I selected the snowy white ones for the purity of her life. The glowing, brilliant red ones were for her courage when she came from her home and loved relations in Kentucky to rear her children and make a new home on the western plains. As I cut the long stems of the soft pink minims, I thought of her beauty and her gracious manners. "Your life has been beautiful" rang over and over in my ears as they sang on. "You have reflected the Master's face in your good life." "Now your ears, the earth deaf here on earth can hear the singing of the angels of glory Your busy hands, still lovely, now will rest on your breast, will find new work to do."

"Sleep on" dear friend and may we together meet in the gardens of heaven and gather the flowers we love so well. May the beautiful words of the following poem be a comfort to the loved ones Mrs. Smith left behind in my prayer.

Mother was tired and weary,  
Wore with toil and with pain;  
But by her glasses and rocker,  
She will not need them again.  
Into Heaven's mansions she's entered,  
Never to sigh or to weep;  
After long years with life's struggles,  
Mother has fallen asleep.

Rest the tired feet now forever,  
Dear wrinkled hands are so still;  
Blast of the earth shall no longer  
Thro' our loved on a chill.  
Angels through Heaven shall guide her,  
Jesus will still bless and keep;  
Not for the world would we wake her,  
Mother has fallen asleep.

Beautiful rest for the weary,  
Well deserved rest for the true;  
When our life's journey is ended  
We shall again be with you.  
This helps to quiet our weeping,  
Hark! Angel music so sweet!  
He giveth to His beloved,  
Beautiful, beautiful sleep.

My mother, Mrs. J. M. Witt, sister Josephine and her husband, Jack Wideworth of Lubbock visited us over the week end. We had such a pleasant visit. Wilda, John and Margaret Nell are visiting in Fort Worth. Seems odd without them. Things are just too quiet and still.

This is the time of year that blackbird peas follow one up. No matter where one goes they are on the dining table. And are they good!

My collection of rocks grows with each passing week. Mr. and Mrs. McCas of Grand Junction, Colorado gave me a sample of copper ore from their mine in Utah. It gives me a thrill to own pieces of metal ore and I hope some day to have more pieces in the collection. I now have iron, copper, gold, quick-silver, quartz, and crystal.

The pot plants are beginning to thrive and make new growth for winter. I am starting many of them to keep me company when the snow flies.

But that sets me to thinking: "Your mother is just killing herself trying to grow flowers," so many men say to their children. One would think that a few short hours a year spent with them is the only hard work the women do, if you listen to the men.

The other day Margaret Nell wanted to know "if the blooms on the garden vegetables were to be gathered or would they bloom into something to eat." Guess that, in the interest of men, flowers that bloom into something good to eat are not realizable that the flowers that only are to be gathered bloom into food for the soul.

LIKE INTERESTED IN BUILDING VENTURE AT AMARILLO, MOVING THERE

Mr. and Mrs. Geo. A. Lister this week were moving from Florida to Amarillo where they plan to spend an indefinite time while Mr. Lister is interested in a building venture as an official of the L. M. Construction company, which he helped organize in June.

The company will carry on all extensive construction and improvement programs in residence property Mr. Lister said.

## Floyd County 14 Years Ago

(Issue of August 10, 1933)

Mr. and Mrs. T. F. Anderson and children enjoyed a reunion at the family home, 408 South Main Street, Sunday, all the children including five girls and three boys, were present.

Funeral services for Mrs. J. H. Fondy, who died at her home one mile south of town Saturday afternoon, were held Monday afternoon in the First Baptist church.

Teachers and school officials interested in Hale and Floyd county schools gather here this afternoon to meet Miss Sue B. Mann, State Deputy School superintendent, who will go over the new laws governing schools and school work as passed by the legislature.

The training period for Floydada High school football squad will begin Friday, September 1, before the opening of school on September 4. Coach R. P. Terrell said this week announcing that suits will be issued on the afternoon of August 31 and two workouts will be held Friday and Saturday.

A survey and study of the financial affairs of the city of Floydada including its assets and liabilities, taxes, delinquent taxes and other matters that have a bearing on the debt problem of Floydada as a municipality, will be made by M. H. Smith of Dallas according to a contract entered into with him by the city council Thursday afternoon.

Repairs and improvements at the Starkey school are underway this week with S. F. Conner of this city in charge of the work. Three class

rooms are being repainted and general repair work done on the building.

## Stitch and Chatter Club and Husbands Hosts at Lawn Party

Mr. and Mrs. J. B. Turner were host and hostess to the members of the Stitch and Chatter club and their families Thursday night, when they entertained with a lawn party. Games, a picnic supper and ice cream were greatly enjoyed by the members and their guests. Present were Mrs. Pauline Faulkenberry and children, Darlene, Jay, Leonard; Mr. and Mrs. Stewart and son, Jim Dan; Mrs. Lola Price; Mr. and Mrs. Will Perry; Mr. and Mrs. L. G. Norwood and son, Harold; Mr. and Mrs. Harry McAllister, Mr. and Mrs. Elmer Norrell and son, James Lewis; and Mrs. R. L. Trice and son, Lee; Mr. and Mrs. Tom Norwood and son, Teddy; Mr. and Mrs. A. Campbell; Mr. and Mrs. Bill and daughter, Marie Ann; Mr. and Mrs. Lewis Jordan and daughter, Donita; Mr. and Mrs. Colvin and daughters; Mr. and Mrs. McCarty and daughter, and host and hostess.

**Meeting Held Wednesday**  
The Stitch and Chatter club met Wednesday of last week in the home of Mrs. Marie Turner. The afternoon was spent in piecing a quilt and visiting. Refreshment plates were served to Mrs. Campbell, Pauline Faulkenberry, Emma Gilbreath, Ruby Jordan, Nita Lee, Irene McAllister, Mae Moxey, Lola Price, Claudia, Robbie Stewart, Ethel Trice, Charlie Pope, Ollie Poteet, Laverne

McCarty, Donita Jordan, Nancy Jean Dial of Lubbock, Marie Ann Lee and Don Faulkenberry. Guests present were Mrs. Elmer Norrell and son and Wynona Faulkenberry. The club will meet August 13 with Claudia Porter for a luncheon and will quilt for the Sammann family. All members are urged to be present.

## Mrs. Glen Armstrong Is Hostess for Our Home Garden Club

"Our Home Garden club" was the name chosen by the members of the Junior Garden club at the meeting with Mrs. Glen Armstrong Tuesday afternoon of last week. Mrs. Fred Zimmerman, Jr., president, called the meeting to order and each member answered roll call with her chosen topic with which which she will answer roll call during the year. After a short business session, Mrs. Jake Watson gave a "garden cutting", which was a short poem, a favorite of hers during the war. Mrs. Ralph Johnston discussed "Iris"; and Mrs. Guy Ginn brought to the meeting a basket of iris plants ready for setting out, which were given to those members who wanted them. Clever refreshments of coca-cola and cracker wagons carrying a load of tuna salad and a peppermint stick for the wagon tongue were served to Mesdames Hollis Bond, Alpha Boothe, Nell Clem, Robert Collier, W. M. Garrett, Guy Ginn, Billie Henry, Ralph Johnston, Charlie Lewis, G. E. Mayo, M. J. Mc-

## B & PW Picnic Mon. Evening at Home of Mrs. Jim Cleveland

The Business and Professional Womens picnic that was to have been at the park has been changed. The place of meeting will be at the home of Mrs. J. D. Cleveland, 505 West Virginia. The date is the evening of August 11. The time has been changed to 6:30 so that the group will finish with the program in time for those who wish to attend revival services in progress at the First Baptist church. There will be a short business session at which time the chairmen of the various committees will be asked to report the suggestions made for a club project for the current year. Each member is urged to come and bring a "paper sack lunch". Arrangements are being made for drinks for everyone.

## Baker Club Has Lawn Party Friday Evening

The Baker Home Demonstration club met in the home of Mr. and Mrs. R. L. Neil for a lawn party Friday evening. Various games, including "42" furnished entertainment for the evening. ## Diabetis Called Illness of White Collar Workers

AUSTIN.—Despite the fact that modern medicine can do much to help the diabetic live out a normal life span, nevertheless diabetes took a toll of several hundred lives in Texas during the past year, according to Dr. Geo. W. Cox, State Health Officer.

"While deaths from the communicable diseases such as typhoid fever, malaria, diphtheria, and smallpox are annually decreasing in this country, diabetes is still taking a tragic number of human lives each year, especially in the middle aged group," Dr. Cox said.

"Until recent years diabetes was not noted as a major health problem, but it became accepted as such in direct ratio to the development of medical laboratory procedures, which made the disease more easily diagnosed."

Dr. Cox said that diabetes is generally recognized as a class disease. It seems to attack the white collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions apparently are factors, since it seems a fact that those persons whose occupations call for manual labor and simple living are not frequently affected.

Dr. Cox stated that simple, wholesome diets, sufficient exercise and sleep are factors in the prevention of diabetes, and an annual physical examination, especially in middle aged persons is important so that

if the disease is present, competent treatment can be instituted while the disease is in its early stage.

### TWO MODEL PRICES UP

DETROIT, July 31.—Increased prices on Chevrolet station wagons and convertibles were announced today by Nicholas Dreystadt, general manager, Chevrolet Motor Division.

The price of the station wagon is advanced approximately \$100 and the convertible about \$75. Prices of all other Chevrolet models remain the same. Dreystadt pointed out that station wagons and convertibles incorporate a relatively high percentage of parts supplied by outside sources the cost has increased sharply in recent months. This plus the fact that both models are produced in low volume make these price adjustments necessary, he said.

### Vets Told Why Land Program Not In Effect

BAUSTIN, Texas, August — The Texas Veterans' Land Program, authorized by a constitutional amendment adopted by the people last November, has been delayed to the point of failure of enabling legislation to receive Senate approval, some 10,000 veteran applicants were advised today by Bascom Giles, Commissioner of the

General Land Office of Texas. The same information was given to all American Legion and VFW posts. Giles explained that he is notifying the veterans of the status of the bill because he is continuing to receive a large volume of mail daily from veterans lauding the program as one of the best offered in the nation and expressing a desire to participate.

"Many of them apparently believe the amendment adopted by the voters last November was self-enacting and cannot understand why they have not already been permitted to buy a small farm or ranch home from the State," he said. "I am explaining to them that while the necessary enabling legislation was passed in the house by a vote of 124 to 9, it failed to receive recognition for Senate consideration. Despite every effort to get it up for passage in the Senate, where we had been assured of a majority favorable vote, its supporters were unable to do so, even with the intervention of the largest veterans' organizations in its behalf."

As written, the bill would have permitted any World War II veteran to select his own land for purchase by the Veterans' Land Board and resell to him with ten per cent end and the balance to be paid in forty years at four per cent interest.

### Basketball Great From West Texas Supt. Boys Ranch

CANYON, August—Boys' Ranch at Old Tascosa, nationally famous for its work with underprivileged boys, has a new manager-superintendent. He is Morris "Hank" Decker, who took up his duties late in July.

The 30-year-old graduate of West Texas State College is widely known throughout the Southwest as a terror on the basketball court wherever the West Texas Buffaloes have played. His six-foot-four-inch frame was one of the reasons the Buffs have become noted as "The Tallest Team in the World."

His last season found him repeating his 1946 record as high scorer of the Maroon and White and he was 1947 recipient of the Kleinschmidt Trophy as most valuable member of the team.

Outstanding on the campus for his scholastic as well as his athletic prowess, Decker was a member of Who's Who in American Colleges and Universities.

Mrs. Jessie Brown left Sunday for Richmond, California, where she will visit with her daughter, Mrs. D. G. Ridge and Mr. Ridge and their sons. Also while in California Mrs. Brown will be guest of her sister, Mrs. W. F. McDaniel in San Francisco. She expects to return about September 1.

Mrs. E. M. Inman of Snyder visited last week in Floydada, guests in the home of her sister, Mrs. J. D. McBrien and Mr. McBrien.

Mr. and Mrs. R. M. Teague returned last week from a week's vacation trip to Fort Worth and Dallas.

Mr. and Mrs. Cecil Sluder of Lubbock were guests in the W. D. Newell home Friday.

Miss Eleanor C. Boyd has been named the new dean of women at West Texas State College and will assume her duties September 1. President J. A. Hill announces the appointment of Miss Boyd to succeed Mrs. Geraldine Green who will retire August 31, after 19 years in the capacity of dean.

### Side Lights From Washington

(By George Mahon)

The question of feeding and financing Europe with American taxpayers' dollars is becoming of increasing concern to Congress and the American people. There must be an end to it some time. It cannot go on forever unless we are to dangerously deplete our own country. There must be a new approach to the question. The Secretary of State has suggested the so-called Marshall plan.

In July the House unanimously passed a resolution, known as the Herter resolution, which provides that the Speaker of the House shall appoint a committee of 19 members of Congress to make a study of the questions involved in our overseas policy. The committee is required to make a study of the foreign situation and our domestic economy will undoubtedly be made.

Just prior to this writing I was notified by Speaker Martin of my appointment as a member of this Committee of 19. The committee is composed of 11 Republicans and 8 Democrats. A staff has already been appointed which is gathering information for the committee. Preliminary meetings will be held in this country and the committee will sail for Europe August 27. The first meeting will be held in London, after which the committee will make an on-the-spot check of the situation in Germany. The committee will then be divided into several sub-committees. I have been asked to go with the sub-committee which will make a study of the situation in Italy, Trieste and Greece. We are to make on-the-spot studies of what is happening to American dollars and efforts in these areas. This year we are spending 215 million to buy American wheat and other life-sustaining food for Germany. Under the law of nations the occupying country is required to prevent starvation in the area occupied.

Our food bill this year for the feeding of Italy, principally for American wheat, is about \$200 million. In both the Trieste area and in Italy we have the expense of maintaining American soldiers in addition to a food bill.

The situation in Greece and Turkey is more complicated. There we have in operation the \$400 million program which is designed to assist Greece and prevent Russian aggression. In Greece we are providing funds not only for food but economic recovery and military supplies.

It remains to be seen whether the study and recommendations made by this 19 member group will be helpful to our nation and to the world. I told Speaker Martin when I was notified of my appointment on the committee that I would cooperate fully and to the best of my ability.

This assignment has changed my plans for the Congressional recess as the work of the committee will require me to be out of this country from August 27 to early in October — about 6 weeks. I will still have time during August and after my return from Europe to visit each of the 25 counties in our Congressional district.

# Fried Chicken For Year Round Table Delicacy

COLLEGE STATION. — Fried chicken can be a year round food for the family table if some of them are saved for the freezer locker. Gwendolyn Jones, food preservation specialist for the A. and M. Extension Service, suggests.

She says the young birds are best for fried chicken and getting them ready for freezing is the same as for eating. But, it is easy to pick the chicken if it's dipped into a semi-scalding water for half a minute. This means the water should be about 128 degrees.

Suggestions on freezing include cutting up the chicken into pieces exactly as you would cut them for frying. The next step is to cool the pieces and pack into moisture, vapor-proof containers or wrapping paper. Put the amount needed for each meal into a package. Make the package as air-tight as possible.

Freeze quickly and store at zero or lower. If the home freezer is used the chicken may be killed in the afternoon and frozen that night. If a commercial freezer is used, the chicken may be killed in the morning and taken to the locker early in the afternoon.

## SKY GIANT ROLLS ON BEARINGS

The world's largest bomber, Consolidated Vultee's B-36, can carry an atomic bomb to any inhabited region in the world and return home without refueling, according to the AAF. The giant bomber carries 10,000 pounds of bombs for 10,000 miles, or its maximum bomb capacity of 72,000 pounds for a shorter range.

When the B-36 was designed, Timken Roller Bearing Company was asked to put its engineers on the task of designing bearings that would enable the six-engine, 139-ton bomber, to take off and land safely.

Top picture shows the B-36 in test flight. The bottom photo shows a Timken Tapered Roller bearing being fitted on a wheel assembly. Some idea of the size of the plane can be gained by noting the size of the man compared to the wheels.

With an eye to the future, the AAF has ordered an undisclosed number of the bombers.

## Plane Opening New Markets for Farm Products

With aerial delivery of the daily newspapers spreading among rural communities, evidence is piling up that farmers as a group are the most die-hard aviation enthusiasts.

Typical of publishers in many areas of the country are E. M. Martin of the Beatrice, Neb. Sun; F. T. Anderson, Jr., who heads both the Telegraph and the News in Macon, Ga. and Carl A. Rott, of the Winfield, Kansas, Courier. They are using light personal planes to speed delivery to outlying communities.

Many Farm Pilots.

Aerial newspaper service is but one of the aviation developments pioneered in agricultural areas.

Among the first jobs performed by planes were agricultural weather flights and forest patrols. In succeeding years the airplane has become a handyman of the farmer, until now thousands are in daily use at farms and ranches.

In addition to the thousands of farm pilots more than 5,000 farmers serve as volunteer weather observers, enabling the Weather Bureau to accurately chart storms for military, personal and commercial pilots. Estimates on future farm use of planes run as high as 60 per cent of personal plane sales in the next five years.

## Herring Is Home From Fire School

W. M. Herring, drill captain of Floydada Volunteer Fire department, has returned home from A. & M. college, where he attended the five-day short course for Texas fire fighters held annually there.

Herring was the only representative of the Floydada department to attend this year, an expense which the city bears to increase the efficiency of the department and its members to gain increased knowledge of fire prevention and fire fighting. The course is made up principally of lectures and actual demonstrations of technique.

## Harris Family Well Situated at Groom

There is some fishing to be done in that country and W. B. Harris says there are plenty of fishing worms out in his garden up at their new home in Groom, so the new superintendent of the Groom schools has issued an invitation to the editor of The Hesperian to hunt worms freely at his place and try his luck in Lake McClellan nearby.

The Harris' are beginning to get situated in their new location and the outlook for a good school year has been heightened by a recent raise in tax support for the schools from \$1 to \$1.50 per \$100 valuation.

The people of the district are school minded and Mr. Harris believes the opportunity to put on a first class school program is a good one at Groom.

Mr. Harris gave evidence of ability as a school administrator while serving Floydada district as high school principal and is expected by Floyd county friends to make good in his first effort with full responsibility for the operation of a district school system.

**THANKS TO EVERYONE**

for your enthusiastic acceptance of our effort to give Floydada a homey, clean, eating place and good home-cooked food. If our first impression was a good one . . . it is only the beginning.

We intend to add new delicacies and dishes pleasing to the connoisseur of fine foods. We will need your continued support to arrive at this goal.

Come on out you early birds and see your friends at the Coffee Shop for breakfast.

Our private dining room would be an ideal place for committees, etc., to meet.

### HOTEL COFFEE SHOP

Determined to make Texas a national bulwark against invasion of the foot and mouth disease from across the Rio Grande, Gov. Beauford Jester's first days in office saw him call for, and receive, emergency action by the state legislature.

When Gov. Jester signed an emergency appropriation bill he set in motion a program engaging full resources of all available state agencies, and supported by all allied interests.

Realizing that such a program required full support from the national government, Gov. Jester immediately laid the problem before authorities in Washington, including President Truman, with an urgent request for quick action intended to forestall

an epidemic which would result in "an economic loss of millions of dollars if this disease gains a foothold in Texas."

Without waiting for assistance from Washington, all Texas agencies have been thrown into the critical fight against the threat of disaster to the nation's livestock industry.

Pictured above with Gov. Jester (seated) when he signed the bill are, left to right: Rep. O. E. Cannon, Corpus Christi; Rep. S. J. Isaacks, El Paso; Sen. James E. Taylor, Kerens; Sen. Jimmy Phillips, Angleton; Rep. Tom Martin, Fredericksburg; and Roy Loventhal, chairman, State Livestock Sanitary Commission.

## Pinch of Salt Helps Prevent Heat Cramps

AUSTIN, Texas.—If your work is such that it causes excessive perspiration add a pinch of ordinary table salt to each drink of water you take, to prevent heat cramps. This is advised by Dr. Geo. W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers, and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fog. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt of a mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Heat cramp is characterized by pains (cramps) in the abdominal region, headache, and in severe cases by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then the abdominal muscles begin to cramp.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating.

It is a wise precaution to keep the body supplied with salt, and thus avoid much suffering and loss of time from heat cramps.

## STARTS LAND RUSH

Perhaps the greatest land rush in U. S. history is in the making, in the State of Washington. There, in a few years, thousands of acres of land will be opened up as water from Grand Coulee dam pours onto what is now a desert, says Farm Journal.

A "pre-view" of that rush now is developing on the Roza addition to the Yskima irrigation project, only a few miles away from Coulee dam. There, this year, the Bureau of Reclamation will award 28 homesteads of 40 to 100 acres of irrigable land each, each one worth about \$10,000.

Although only World War II veterans with at least 90 days of military service and with farming experience are eligible, more than 2,500 applications have been filed for the 28 farms. Most came from Idaho, Washington, and Montana, but every part of U. S. is represented.

## BETTER AUTOMOBILES

Automobile makers are spending twice as much for research as in pre-war years. The main short-term objectives: automatic gear-shift and transmission, improved heating and ventilation, more efficient engine, lower manufacturing costs.—Pathfinder.

## SMART BOY

Teacher: "Who can name five things that contain milk?"  
Small boy: "Butter, cheese, ice cream and two cows."

"And now, among the fading embers, these in the main are my regrets; when I am right, no one remembers; when I am wrong, no one forgets."

The decrepit old car drove up to the toll bridge.  
"Fifty cents," cried the bridge-man.  
"Sold," replied the driver.

## TRAINLOADS OF FOOD

"Exports of all foods from the United States, if loaded on European boxcars, would make an unbroken train long enough to reach three times across the Atlantic ocean, from the shores of my country to the continent of Europe," said Secretary of Agriculture Anderson in reviewing the food situation for the last year before the Special Cereals Conference, meeting in Paris under sponsorship of the Food and Agricultural Organization of the United Nations.

## AIR ARMY A PROBLEM

Army chiefs estimate they will need 5,000 large transport planes on a minute's notice to meet a future emergency like World War II. Enormity of the production problem this would entail is shown by estimates of the producer of a huge new military transport.

Taking his own four-motored models as an example, this manufacturer finds it would take his own and 12 additional companies more than six years to produce 5,000 planes. If only one company produced them, it would take more than five years to turn out the first 300 planes.

## First Methodist Church Services

The pastor, Rev. Lloyd H. Jones, of the First Methodist Church, announces that all the regular services of the church will be conducted on next Sunday, August 10. Church School is conducted at 9:45 and is followed by the morning worship at 11 o'clock. The Vesper Hour is being conducted at 5 o'clock each Sunday afternoon.

The pastor will preach in both the morning hour and the vesper service on Sunday.

The Senior Youth fellowship will meet at 7:30 to continue their study of the life and teachings of Jesus under the leadership of the pastor. The regular monthly meeting of the board of stewards will be held Monday evening at 8 o'clock.

**Put the 'B' On  
 Bang's Disease**

**COLLEGE STATION**.—All Texas cattle that are tested for Bang's disease and found infected must be branded on the left jaw with the letter "B" and reported to the Texas Livestock Sanitary Commission, to conform with House Bill 525, recently made law by the State Legislature.

Dr. E. A. Grist, veterinarian of the Texas A. and M. College Extension Service, explains that it is now the duty of the veterinarians who do Bang's testing to place the brand on cows that react positively to the disease. A penalty will be fixed upon any person who refuses to allow the branding, or who sells or disposes of cattle for milk purposes when he knows them to be infected.

The branding of Bang's - infected cows will enable better control of the disease, says Doctor Grist, since control measures must be planned on the basis of individual herd problems.

In the fiscal year, September 1944 to August 1945, 133,891 head of cattle were tested for Bang's disease in Texas, with 9,435 showing up infected. Many of those reacting cattle probably found their way into other herds, says Doctor Grist. The requirements of the branding law will help hold down the spread of the disease.

## Tractors Flown to State Filing Order by Plane

DALLAS, Texas, July 30—The State of Texas has been assigned the first five new model 8N Ford tractors for public sale, the Floyd County Tractor Company in Floydada, Texas, Floyd county dealer for the Stewart Company, largest distributor of Ford tractors in the United States, has announced.

To be flown from Detroit by a specially chartered plane of Braniff International Airways, the tractors will be delivered to Governor Beauford Jester on August 7th on the grounds of the Texas Capitol in Austin.

For immediate use in the highway department's new road building and maintenance program, the 11,500-pound shipment of tractors is also the heaviest air movement of completed machinery units to be flown into the state. They will be transported in one of Braniff's C-54 cargo planes with the specially designed double loading doors. The Governor will accept delivery of the five tractors on the grounds of the Texas Capitol in Austin.

In commenting on the selection of Texas for first delivery of the model now on production line, Governor Jester pointed out that the equipment would not only be used on the farm-to-market roads over the state but also for improvement of the many miles of vacation highways.

"The rapidly expanding farm system under the direction of our Texas Highway Department makes it fortunate that Texas was selected to receive the first of the new-type tractors. Their diverse uses in road maintenance will aid our crews in the big job of keeping our 27,000 miles of paved highways in repair for the unprecedented traffic demands," the Governor stated.

"This additional equipment will help to make the good roads leading to our state's popular vacation resorts even more attractive for our out-of-state visitors as well as our own Texas travelers," he added.

Of major interest to Texas and other farmers who have already placed orders for the 50,000 tractors

to be marketed the remainder of this year, is the announcement by Frank R. Pierce, Dearborn Motors president, that implements now in use with Ford tractors will operate with the new model.

An important feature of the new model is an improved hydraulic system permitting operation of tractor and implement as a single unit with automatic hydraulic control of the implement.

Other major improvements include an automotive-type steering gear, four forward speeds to give a higher speed, a new drawbar height control mechanism, combination running boards and step-plate a seat that can be tilted back, and a hinged radiator grille for easy cleaning of radiator core.

The hardware department is now under the management of Floyd Eaves and the stock is being rearranged since the implement parts business has been moved out. The opening between the grocery and hardware department has been closed. This department will be known as Eaves Hardware store.

## Paving Shoulders Lockney Main St.

LOCKNEY, August—Work was begun Saturday on paving the west shoulder of Main Street from the Lena Fae store south to the Lockney Methodist church.

The paving will be caliche with an asphalt top. County road machinery is moving the dirt away and the caliche is being secured from a pit near Plainview. The State Highway department will top the road.

The road shoulder is being paved from the west edge of the present paving on Main Street to the curb. The City made the arrangements for the paving and the property owners are paying the larger part of the cost.

PUZZLED

A farmer visited his son's college. Watching students in a chemistry class, he was told they were looking for a universal solvent.

"What's that?" asked the curious farmer.

"A liquid that will dissolve anything,"

"That's a great idea," agreed the

farmer. "When you find it, what are you going to keep it in?"

### BAD ERROR

"Yes," said the old man. "I had had some terrible disappointments but none stands out over the year like the one that came to me when 'was a boy.'"

"And what was it?"

"When I was a boy I crawled under a tent to see a circus and discovered it was a revival meeting."

Mr. and Mrs. R. E. Nace of Sibley City, New Mexico, spent the week end here in the home of Mrs. Nace's brother, G. G. Holmes and Mrs. Holmes.

Mr. and Mrs. Everett Moore and family of Pampa were here last week visiting with Mr. Moore's parents, Mr. and Mrs. J. W. Moore and other relatives.

### Routing US 62 through Plains Area Changed

State week's dispatches from Austin indicate that the routing on US 62 will be recommended for a change in this area and in the area west of Lubbock into New Mexico.

According to Associated press, the State Highway commission is studying the American Associations of highway engineers' proposed routing from Matamoros to El Paso via El Paso, Del Rio, San Antonio, Austin, Dallas, Fort Worth, and Houston. The proposed route is to go over U. S. Highway 70 to the Texas-New Mexico border at the Rio Grande, then to the west of Lubbock to the Texas-New Mexico border at the Rio Grande, then to the west of Lubbock to the Texas-New Mexico border at the Rio Grande.

The request notes that the proposed new location of US 62 is in good condition and is eight miles longer than the present route.

According to the location southwest and west of Lubbock the commission directed the state highway engineer to request concurrence of New Mexico highway Department in seeking to change location of US 62 from its present routing from Brownfield via Tatum, NM to Hobbs, NM.

The route this highway over State Highway 180 from Brownfield via Soaravies to Hobbs, NM is 180 from Brownfield to Hobbs. (Proposed location is paved, all weather facility 180 miles shorter than present route.)

Requests of the State Highway Department and inter-state arrangements as to routing are generally completed and agreed upon and are being carried out without further orders. A custom of several years standing.

**Qualifying Rounds Country Club Golf Begin next Sunday**

Gene Collins and Ed Johnson of the golf tournament committee of Floydada Country club yesterday said that qualifying rounds will begin Sunday afternoon. They have a fairly good list of entries but want more.

Accordingly, those who have not entered nor paid fees and still want to enter, will be arranged for when play begins Sunday afternoon at 2 o'clock. The date is August 10, to be sure.

The players will be bracketed in flights and the matches played off in the following week ending the afternoon of August 17.

Members of the committee hope to have 40 entered and are not barring those who play in high numbers.

**Sheriff Slain . . .**

(Continued from page 1)

oath of office January 1. He was born in Hill county but had lived in Crosby county, principally in Mt. Blanco community, most of his life. The family has many friends and acquaintances throughout Floyd county. The sheriff's pistol, used by the killer, was found about 4 o'clock Monday morning. The accused negro is said to have led officers to the place he secreted the gun under a pile of trash after fleeing from the shooting scene. Five empty shells were still in the chamber of the revolver, a reporter of the Lubbock Avalanche stated in an article written for that newspaper.

**Had Served Two Years**

After the shooting investigations made by officers disclosed that Holland, the accused negro had served two years of a three-year sentence for perjury in 1935.

Deputy Sheriff E. L. Haynes has charge of the affairs of the office of sheriff of Crosby county. He was the slain sheriff's chief deputy.

Sheriff Pierce's body was found lying in weeds on a vacant lot about 50 yards from the Continental Cafe, which is operated by George Holland. His car was parked on the highway three blocks away.

The officer had been shot four or five times. Bullets which investigators believe were fired from the sheriff's own gun went through his head and body. One slug entered the head just below the right ear, a second entered the face a third struck the right cheek. Another bullet passed through the sheriff's right arm and into his right hand.

Powder burns on the face indicated that at least one shot was fired at close range. Investigators believed Pierce was shot several times

Found on the body were two pints of whiskey believed taken in a raid. Two other bottles of liquor were on the ground nearby.

It was believed Pierce was in Ralls to arrest Holland, who he described as "a known bootlegger."

The negro, jailed at Lubbock, said he has a dishonorable discharge from the army. He said he hasn't worked since discharge, living on money saved while a soldier. He is married, has no children.

Holland admitted conviction in Crosbyton in 1935 on perjury charges. He said he served two years of a three-year penitentiary sentence.

In his statement to Amarillo detectives Sunday morning, Holland claimed he left Ralls about 11 p. m. Saturday in his 1946 Plymouth coupe, the car which lead to his arrest. He said he arrived in Amarillo about 3 a. m. and went to the home of a friend, Laverie Preeney and asked to spend the night. Holland told officers he had advised the Preeney woman he was "in a little trouble," telling her "the laws" had found liquor in his place at Ralls. He told her "that was all."

Amarillo Officers J. G. Hutson, L. C. Howard, Bill Igels and Cecil Stallings spotted the Plymouth coupe at the North Adams home about 7 a. m. They entered to find Holland asleep on a divan. He awoke when they slapped on the handcuffs. He was unarmed.

Officer Howard said the negro identified himself but told them nothing else.

Pierce's pistol had not been found Monday. The officer ordinarily carried a .38 calibre revolver.

One story of the slaying, not confirmed by investigators, said Pierce had arrested a negro and was marching him across the street. The vague report said the negro walked in front of Pierce with his hands up when the sheriff paused to kick a box out of his path. Seconds later Pierce was dead.

**Officers believe the shooting occurred about 11:30 p. m., a half hour after Holland claims to have left town.**

The Lubbock sheriff learned of the shooting through a nightwatchman who was tipped off by Lewis Flowers, a negro living in Ralls and owner of the house in which Holland lives.

Highway patrolmen, liquor control officers, sheriff's deputies, and Lubbock police converged on the little wheat-and-cotton town Sunday for investigation of the slaying. Also on hand were three Rangers—Raymond, Waters and Redwine of Lubbock and W. E. Renfro of Amarillo.

Pierce's body was taken to King Funeral Home in Crosbyton. District Attorney Floyd Croslin ordered an autopsy.

The victim was serving his first term as sheriff. Before taking office on Jan. 1 he farmed near Crosbyton. He was a native of Hill county, born there Sept. 11, 1900.

**A. S. Hull Funeral Friday at Lamesa**

Funeral rites for Arthur S. Hull, 65, of Lamesa, were held Friday afternoon of last week at 3:30 o'clock at the First Baptist church in that city.

Mr. Hull, who was a brother of Alva T. Hull and of Mrs. J. D. McBrien, of Floydada, was a retired grocer. He died Wednesday night.

Mr. and Mrs. Hull and family and Mr. and Mrs. McBrien attended the rites.

Surviving the Lamesa man are his widow, three brothers, Dee of Lamesa, A. C., of Spur and the brother here; and three sisters, Mrs. Jack Inman of Snyder, Mrs. L. D. Stripling of Bay City, and Mrs. McBrien.

**Wall Street Church of Christ Meeting Starts on Monday**

The Wall Street Church of Christ will begin their revival meeting Monday morning, August 11. The meeting will be conducted by Evangelist Leland H. Knight of Booneville, Arkansas, and will last through Thursday night, August 21.

There will be two services daily starting at 10:30 o'clock in the morning and at 8:15 o'clock in the evening.

Brother Knight, who conducted the revival here last summer, has just closed a very successful meeting in Plainview at the 2nd and Beach Street Church of Christ in which 22 were baptized.

Everyone is invited to attend the services and to those who listen to the morning broadcast from KVOP Plainview, and wish to attend there, this will be their opportunity.

**Hoffman Funeral Held on Monday**

Last rites for Mrs. Amanda Hoffman, 91, were conducted Monday afternoon at 3:30 o'clock in the Harmon Funeral Chapel with Rev. R. C. Guest, of South Plains, officiating. Interment was made in the Floydada Cemetery.

Mrs. Hoffman had resided in South Plains for 20 years. She was taken to the home of her niece, Mrs. G. R. Boyd, in Crosbyton a week before her death. She died Sunday, after having been in ill health for four years.

Mrs. Hoffman came to Texas at the age of 17. She was married to S. Hoffman July 3, 1884, and was preceded by him in death on May 12, 1931.

Only survivors of Mrs. Hoffman are one son, William Jackson of South Plains, and the niece, Mrs. Boyd and children of Crosbyton.

Mr. and Mrs. C. C. Huckabee and daughter and Mr. and Mrs. C. C. Huckabee, jr., of Levelland left Sunday for a week's vacation near Rye, Colorado.
