Whirlwind-Hornet Game Friday Night

No Tie Football Games, District Committee Rule

Renewing their inter-district feud with the Tulla Hornets and playing their first at-home game of the season Floydada High school's football squad will perform Friday night or Western field beginning at 7:30 p. m.

There will be no tie games in high school football in District 4-A this season, the rules of the Texas scholastic league to be followed in determining statistics that will break ties.

In addition to determining the manner in which ties will be broken interscholastic games the committee also determined the manner in which two-way and three-way ties in district honors would be decided.

Price Raise Is Voted A slight increase in the price of admission to all games in the district was voted, due to increased expenses.

Other actions taken and decisions arrived at in the committee meeting included: All eligibility lists of the schools were surveyed and approved; Trophies will be awarded first and second place district winners, and membership fee of \$10 was assessed against each school.

Mrs. W. L. Whitt Of Lockney, Died

Remains of Mrs. Walter L. Whitt were interred in Lockney cemetery following funeral services yesterday afternoon at 2 o'clock in the church of Christ in Lockney, Elder H. P. Showalter, of Austin, officiating.

Mrs. Whitt died Monday, after having been in failing health for some time. She suffered a stroke last year and had grown steadily weaker since that time.

Mrs. Whitt was born November 16 in Snowville, Virginia, and had Lockney her home for many years.

Survivors include her husband and two daughters and one son.

Standard Test Within 100 yds. of Duncan Dugout

Standard of Texas No. 1 Leota M. Daniel, wildcat oil test to 7,500 feet staked on the Arthur B. Duncan pre-emption survey seven miles south of Floydada, will be spudded in within 100 yards of the dugout which the Arthur B. Duncan family moved into when they came to West Texas in 1887, and which is owned by Mrs. Maud E. Hollums, manager of Duncan Abstract company.

It is building road to the location Drilling will likely start within 30 days. Nearly Two Miles Stanolind No. 1 Hegl, one mile west of the town of Petersburg, in extreme Southeast Hale county, and 660 feet from north and east lines of section 7, block S, Stevenson survey, had progressed below 9,842 feet in an unidentified time and chert, and was continuing to make hole.

Stanolind No. 2 Fisher, northeast flanker to the lone producer in the Petersburg field, in Southeast Hale county, and 1,980 feet from south and 2,208 feet from west lines of section 5, block CL, EL survey, had reached 5,496 feet in lime and was drilling ahead. It is to go to around 8,000 feet, unless it gets production at a higher level.

One Car Pipe For City Job

A token of what the future hold for the city's extensive waterworks plant and distribution system is in Floydada at last. It is a carload of 10-inch pipe that Sherman Machine & Iron works, contractors have on the ground ready to be put in place when some three or four more cars of the same get here.

Fire Prevention Week October 5-11

Fire Prevention week in Texas this year will be October 5 to 11. The week was proclaimed last week-end by Governor Beauford H. Jester, who pleaded with his fellow-Texans to try to cut down the fearful economic and life loss attributed to fire.

Garden Clubs Announce Fall Flower Show for September 27

Reporting a growing interest in the forthcoming fall flower show on the last Saturday in the month, September 27, Mrs. Lon M. Davis yesterday said Our Home Garden club is joining the Floydada Garden club in the sponsorship of the event, which will be held in the Southwestern Public Service company building.

Jury Assesses Death Verdict to Negro Slayer

George Holland, 33, Ralls negro was found guilty of murder with malice in 72nd District court at Lubbock Tuesday afternoon by a petit jury, which assessed a penalty of death.

Holland was accused of slaying Sheriff J. J. Pierce, of Crosby county in Ralls on the night of August 2. The case was transferred to Lubbock county for trial when it was decided by the trial judge that a jury could not be obtained in Crosby county.

The case went to trial Monday morning and the jury reported their verdict was ready Tuesday afternoon at 4:45 o'clock. The state presented some 29 witnesses while the defense offered no testimony. Defense attorney asked for an instructed verdict of not guilty which the court over-ruled.

Rites Said Monday Afternoon for Mrs. Charles Simpson

Funeral services for Mrs. Charles Simpson, 47, were held Monday afternoon at 3 o'clock in the Church of Christ in Lockney, J. E. Black of Plainview and Jay W. Channell officiated. Interment was made in the Lockney cemetery under the direction of Crager Funeral home.

Mrs. Simpson became ill a short time ago and died Sunday in the hospital in Plainview. She was a daughter of the late Dr. and Mrs. D. J. Thomas. Dr. Thomas practiced medicine for a number of years at Lockney, where Mrs. Simpson was born in 1900.

Lockney Hi School Enrollment Rises

A fifteen per cent gain in attendance over last year was noted Monday morning when the 1947-48 term of Lockney high school got underway. 169 students have enrolled for the ensuing year.

Grade school opening was postponed a week due to the incompleteness of the building. It will be some time before the building is complete due to the fact that brick can not be obtained to finish the job. It will be near enough complete to justify opening Monday morning, said Superintendent Sidney Reeves this morning.

Dollar Funeral Held at Lockney Tuesday Afternoon

Last rites for J. F. Dollar, 82, pioneer resident of Lockney, were conducted Tuesday evening at 3 o'clock at the Baptist church in Lockney. Rev. J. Don Cobb officiated. Interment was made in the Lockney cemetery.

Eye Road Bond Plan Dramatic Change in School Outlook Recorded in Seventeen Yrs. by the States Educational System

The dramatic change the school system in Floyd county has undergone in the period since the peak of rural scholastics enumeration in 1931, was related last week to Floydada Rotary club by Clarence Guffee, county school superintendent.

In that year the total scholastics in the county amounted to 3,650 scholastics, with more than 2,000 of them, in rural school district and attending school in 32 rural schools. Mr. Guffee said, referring to the records.

In contrast the 1947 scholastic enumeration reveals there are 2,152 scholastics in Floyd county, divided almost evenly by thirds between Lockney and Floydada school districts and the rural schools of the county. Exact figures show 650 in Lockney district, 757 in Floydada

County Sends Scores to Begin Year in College

This week finds the last of the younger set settling back into the routine of school again. We're speaking of the college group. We already know that the boys and girls of high school age got eager and returned to dear 'ole Floydada High school the first of September, but then you'd expect the older youths to take it easy for another week or two.

Now that those last few weeks have past, many colleges in Texas and elsewhere will find students from Floydada and Floyd county on their rolls with Texas tech claiming the largest number of students from this section.

The colleges with the names of the students attending are as follows: Texas Technological College, Lubbock, Texas; Joe Rushing, Jean Edwards, Hal Ray Hall, Kelly Hagood, Bill Hale, Reva Thomas, Nadine Willis, Kenneth Willis, Martha Cudd Genell Hambricht, Billy Joe Hambricht, Mary Edna Finkner, Delmar Hartley, James Elliott, Royce McNeill, Marjorie Sue Morehead, Arthur Lee Rice, Henry Newton Jones, Barbara Moss, Ava Nell Moss, Jeanne Battey, Ted Bell, James Lovell, Gene Probasco, Clarence Guffee, Jr., Orby Tye McCleskey, Dwain Glassmoyer, Gene Collins, Billy Jack Eudy, Donald Cornelius, Betty Garrett, Lofflin Irwin, Lavone Kincheloe DeWinn Pyffe, Janice Fewell, Adickson Barker, B. Griffin to relate experiences in Nazi War Crime Trials. Some of the interesting experiences he had while serving in the judge advocate's department of the Army of Occupation in Germany will be related by Judge Meade P. Griffin of Plainview at tonight's meeting of Floydada Lions club.

In addition to service in both the First and Second World wars with the American army, Judge Griffin has a background of long service as a practicing attorney, and district attorney.

The meeting of the local club tonight has been designated at 100 per cent attendance night. The attendance committee anticipates the address of Judge Griffin will be of outstanding interest.

The meeting place is the Andrew Ward cafeteria and the hour is 7:30 o'clock.

Cotton and Feed Harvest Begins Over the Area

With little respite from blistering heat (90 degrees and higher) since the first of the month, dry land cotton in the area has been maturing fast, with indications that the harvest is going to be the earliest in a long time and finished without a long drawn out season, so far as Floydada gins are concerned.

So say the ginmen, who expect that thin burrs will also make for a turn out above the average. In Spotted around over the county are areas where the feed and cotton are as lush as in a wet year. In these spots the growers are beginning to "go to town", with yields in the making that remind you of figures and irrigation farmer talks. One of these pretty spots is in an area that embraces portions of Fairview, Liberty and Cedar districts. Another embraces a considerable portion of Campbell.

Shireys Find Son and Family Doing Well in Brooklyn

Mr. and Mrs. G. N. Shirey, who recently returned from their trip to Brooklyn for a 10-day visit with their son Gilbert H. his wife, the former Betty Newell, and their daughter Sue, enjoyed their visit immensely, said Mrs. Shirey this week. They found the junior Shirey family doing nicely.

Mrs. Betty Shirey and the daughter are expected to spend several weeks at home beginning October, when Gilbert, who is a boatswain's mate in the regular navy, will be on a cruise in Mexican waters.

Wayne Finley is substitute carrier on Route 5 and handled the rural letter carrier's job for Mr. Shirey while he was away from home.

Crowd Swarms Out To See Donkey Ball

Nearly like a circus was the attendance at the Donkey Ball games in Floydada Friday and Saturday nights of last week, sponsored by the J. W. Harrison post of Veterans of Foreign Wars.

Jaycees, Lions, V. F. W.'s and an assortment of volunteer helpers-out were teamed up in competition. There were no fatalities, but the poultice and milk-kie remedy houses did a good business over the week-end.

Eugene Macon, who staged the event, said his donkeys were from Sunnet, where there is a man who owns a herd or flock of 35 of the knotty little jackasses, once found plentifully in every county of West Texas but in more recent years, a rarity in the area.

EDITORIALS

The City of Floydada and its "street councilman," J. A. Patterson, have undertaken an interesting experiment in the attempt to get the unpaved streets in a "flat" town to drain themselves. With what men there are available and the money that is at hand this job will have to be a slow one, we opine, and the city is going to have to be mighty sure the street in any given block will flow off any accumulation of water. We speak of water mightily sure because, after all, the town is made to live in and the street to get into and up and down. The householder doesn't own the street and the city has the last word, as we all know, but the man has to go to and from his work or play and get into and out of his premises. If he can't get out the condition he finds the "bar ditch" in he'll go to doing things to it. Then the journey begins. What the citizens must do, is to go along with the city. There are ways and ways of getting a drive way entrance usable. The best one, that will leave the most people happy, is to use good material in the bottom of the ditch and keep it on a "level" so that water can flow. We speak of the city going slow, and one good reason they will have to do so is on account of men and means. Another good reason is that there are many streets, used for years, that need building up before they'll ever carry water. In some of these one will have to determine which is street and which is "bar ditch" by sighting. Out in the middle is street and on the side is the bar ditch, of course.

Everybody, including the newspaperman, always knows better than the man with the responsibility, how he ought to do his job. We say this so it will not be taken for granted that The Hesperian is not backing constituted authority both in letter and spirit. And always the man who is doing the talking has all the answers. Some of us come up with the answer as soon as the subject is touched off. We take all kinds of impossible "facts" as the basis for our deductions and get "hot as a pistol" about whatever it is that the man on the job is doing wrong.

Of course, the real answer to the street problem in Floydada is for some of all of this easy money we hear about to be spent on paving. A man with several thousand dollars worth of easy money will bog into his premises from a muddy street and park his car right on his own grass lawn during wet weather when, by working with the neighbors somewhat he could have a good street to drive up and down and give himself a chance to maintain the good looks of his own grounds. If you live in Floydada you'll have to admit there are not half enough paved streets, a part of the cost of which the city itself would have to stand, like across intersections and the like. And that is one of the reasons we are somewhat leary of the city going into debt for too many things on the side. For instance, the municipal swimming pool. Highly desirable as that project is and as anxious as many are to see it become an accomplished fact, the streets have got to be passable before the children can get to it. And if the city has spent all its credit on this and that how can it take the lead in getting the community out of the mud? Any town that is a good town goes in for paving and lots of it. Look around and see.

There are two points of view on the matter of private and public improvements at this time. There is the "wait for prices to come down," argument which they will, and don't think they won't—some of these days. And the other that you can't wait for needed improvements until hard times. When that kind of times get here the improvements won't be made because they are not needed. Like the man who couldn't re-roof his house when it was raining and had no need for a good roof when the weather was good. If you'll note the "big" folks are on the side of going ahead with whatever it is that really needs to be done. The Rural Electric administrator, spending millions to get light to rural homes, is an instance. The man on the street would be amazed if he knew how much more REA is spending per mile than it would be spending in "normal" times and during "normal" conditions. That's a government project and, without thinking, you begin saying "of course, of course, spending the taxpayers money." But there are plenty of instances of industry doing the same thing. The railroads with more than 100,000 freight cars ordered at an enormously too high price and "escape clauses" in the contract on top of that. Then the telephone company. They have a program of construction (including Floyd county) that calls for two and a half billion dollars that they would spend all in one year if they could get the men and material. And all the oil companies, the chemical companies, companies of one kind and another by the hundreds spending millions now, and more if they could get the materials and the manpower. In spite, too, of short hour weeks and uncalled for strikes, and sit down and feather bedding and weekly increases in cost of materials. Maybe the big folks are wrong but they are not in the habit of being.

Right away now, in a few weeks or months, America's "freedom train" will begin rolling. It will visit 300 cities of the country in a year. Of course, Floydada people will have to travel a few hundred, or scores, of miles to get to see it, the big towns already having put in their bids for a stop and the route already being set before the average man knows that the thing is in process of being arranged. The original notes on the Bill of Rights, that we take for granted, Thomas Jefferson's first draft of the Declaration of Independence with Ben Franklin's notes and suggestions for the final draft, and a score of other documents that have laid in Washington for a century or more, will be taken out to the people for them to see with their own eyes. The train the precious documents will travel in will be a marvel of precaution against fire, theft, damage by derailment, cranks and crooks. It will be as interesting to many of us as the documents themselves. Incidentally the "gum'mint" is not financing the 300-city, year long trip. It is being financed by good American citizens whom you are being taught to hate.

What this country needs is a good five-cent nickel.

Marshall Stalin and the Marshall Plan are still two worlds apart.

Floyd County 14 Years Ago

(These items taken from the files of the Floyd County Hesperian published fourteen years ago.)

(Issue of September 21, 1933)

Floyd Gullidge, driving an oil truck out of Big Spring, was killed in a crash with a truck driven by Roscoe Part of Silverton at a turn in the highway thirteen miles north of Tulsa Monday night.

With plans to make it one of the largest food service stores in Floyd County, announcement is made this week by J. B. Claiborne and Ashley Lawson, partners, of the opening Saturday of a Piggly Wiggly store on south side of the square Saturday.

The southeast part of the county led the procession this week in the beginning of the cotton harvest, fifty or more bales having been turned out by the Newton Gin company of Dougherty up to Wednesday night. Twenty bales a day were being turned out there the first of the week. Plans being made by the Martin Dry Goods company for their show of fall styles tomorrow evening in their show windows, include the presentation of fashion's latest dictates on live models. Some eight models of this city have volunteered their services.

Mrs. Durand Bishop, the former Clara Belle Gollightly, was named honoree at a lovely shower Thursday afternoon.

For October 13, it will be Happy High school vs. the Green and White of P. H. S. and with the exception of October 27, all dates are closed and the 1933 schedule has been completed.

Judge and Mrs. Wm. McGehee, of Lone Beach, California, former residents of Floydada, visited in Floydada Tuesday.

Staff for The Hesperette, student newspaper organization of Floydada High school, was organized Monday of this week with Maxine Fry as editor-in-chief and Emma Louise Smith as assistant editor.

Joe Breed is improving nicely following an operation in an Abilene hospital last week.

McDermott post and members of the Auxiliaries will hold open house at the Legion home Monday evening for the Legion and Auxiliaries and all eligible members in Floydada and adjoining communities.

CONGRATULATIONS, TEAM!!

The game you played was splendid. You brought attention not only to yourself but what you can do for Floydada High school. You would like to analyze you as a team. The game you played was not an easy one, even though you did win by a large margin. You fought for every score you made, and we could see you had not stumbled upon your victory by accident the day before.

With a roll of drums, our cheering, selling themselves hoarse, and the crowd went wild. One of the heroes' name was hard to realize that the team was not to him alone. We saw only a flash of green as the goal was reached. There was perfect teamwork as you moved down the field, blocking, tackling, and a path, until one broke through to the goal. We saw the fellow who made it. We have been looking later on, we have seen the sympathetic and "Better luck next time" for the fellow who fumbled. Lack coordination, contemplation and consideration to score. It

To Do or Not To Do, Is Major Problem of Class Notable

Sometimes it is hard to know just what is the right thing to do. Being a "class notable" isn't all honor and glory let me tell you. These are some of the complaints the class notable volunteered when we discussed this topic, and it left us all a little puzzled.

If I comb my hair or look in a mirror, I'm conceited and thin! I'm pretty. If I don't, I'm seedy and unkempt.

If I answer questions, I'm a smarty. If I just listen, I'm stupid.

If I speak to the opposite sex I'm flirting; if I don't, I'm a snob.

If I'm pleasant and cheerful to everyone, I'm "goosey" with sweetness. If I'm merely polite, I'm unfriendly and cool.

If I join in school organization I'm a nusher. If I don't, I've no school spirit.

If I play sports, I just want more publicity. If I don't play, I'm lazy.

So, if I get elected a notable, I've got pull. If I'm not elected, it was dishonest politics!

I ask you—what's a maid to do? Took teamwork. It took an interest in what they were doing, and a desire on the part of every man concerned to do his best. It took long hours of practice, not only of the stars but also of the bench-warmer to make our first game a success.

Without "teamwork" our team's work would have been naught. We can all take a lesson from them. Good work, team!!

"What kind of toothpaste do you use?"
 "Never use it. My teeth ain't loose."

Whirlwinds Breeze Through Crowell Wildcats 33 to 0

Green was the predominant color Friday night as Crowell knows. The Whirlwinds swirled around, over and through the Wildcats for five touchdowns.

After playing virtually at a standstill for one and two-thirds quarters Jones countered for the Wildcats through tackle for five yards and the first touch down. Conner converted, and the score stood 7-0 at the end of the first half.

Several minutes after the second half began, the Whirlwinds opened up and sent McGuire through tackle for thirty yards and another six points. Conner's kick was low, but the Whirlwinds led 13-0. After an exchange of punts Jones, the point number for the night, galloped twenty-five yards to yardline and increased Floydada's lead to 19-0.

In the fourth and final period a sustained drive paid off with Hart crashing through for the tally. Conner's conversion brought the score up to 25-0.

In the final minutes of play Hale dropped back and uncorked a pass from the fifty yard line to Grisham on the thirty-five where he took it dashed for the goal with the last touchdown of the game. Conner ended the scoring spree with his conversion and the final score was Floydada -33, Crowell-0.

The reserve team over and proceeded to show the crowd and Crowell, too, they were capable of playing football, too.

Floydada's line of Grisham and Parrish at ends, Mayfield and Nixon at tackles, Connor and Jarboe at guards, and Amburn at center looked good performing their job up front both on defense and opening up wide holes on offense. The six man backfield of Hart, Jones, Womack, Jeter, McGuire, and the brains of the T attack, Hale, made full use of gapping holes and sleeping safeties.

Something new has been added! Mr. Jack Cogdill and Mrs. Doyce Jones are sponsors of the Floydada High School Glee club. The meetings are held at 12:30 on Tuesdays and Thursdays.

The following officers were elected last week: Sammy Hale, president; Pat Kirk, secretary; Norma Carpenter and Ruth Harmon, custodians of Music; Doris Vinson soprano group I captain; Mary Maxey, soprano group II captain; Dorothy Bishop, alto group captain; Ted Lanham, tenor and bass group captain.

The club is looking forward to the arrival of fifty Robbins Chorus Books for four part singing. Plans have been made for quartets, trios, duets, and solos with chorus backing. The student body has responded enthusiastically to the club organization.

If birds could read, we'd post a sign like that. But they can't. So, we're doing the next best thing.

We're asking all hunters not to shoot at birds on telephone wires. One stray shot may break several wires, and interrupt important long distance calls.

Bradford Beedy Elected President of District FFA

The Agriculture department reported that there are 56 boys enrolled in Agriculture this year. There are no freshmen taking Ag. however.

Officers for the Plainview District F. F. A. were elected Wednesday night, September 10, at Plainview. Bradford Beedy, an F. H. S. student, was elected president. Robert Reeves, president of the local chapter and H. G. Barber, the district advisor, attended the meeting, also.

The local chapter officers have been elected, also, and are as follows: president, Robert Reeves; vice-president, Bradford Beedy; second vice-president, Johnny Lloyd; third vice-president, Charles Holmes; secretary, Bobby Kincheloe; reporter, Bobby Plumlee; treasurer, Garvir Beedy; parliamentarian, Billy Lathem; advisor, Dale Smalley; sentinel, Herbert Irwin; and historian, David Nichols.

Toast to a Freshman

A solemn toast I now propose (If that's the way the saying goes): To each and every Freshman in the school.

We kid 'em all, and call 'em green "The dumbest class we've ever seen." And try to make each one appear a fool.

But it's so easy to recall. Our start as Freshmen in the fall. And all the joys and fears that came our way.

The Freshmen party, football games. Our classmates and their many names. Are things we're well accustomed to today.

So, Freshmen's don't let it worry you. If seniors razz and hurry you. Just laugh it off, and take it in its stride.

'Cause after all is said and done, As classes go, we're really one. In scholarship, in honor, and in pride.

'S' Quacker

Gather round me everybody and catch up on the latest dirt. I have kept my little ole eyes and ears open and what I did see and hear, my 'Brace yourself for some juicy gossip and hold everything!!

Well now, what is this I hear about Hope going with Weims? I sound like it's going pretty strong but still Rusty asked her for Sunday night. Wow, Hope, you're not doing bad.

Is it true that Ruth Riegles went with Ed? He's Friday night? Maybe that will solve a lot of problems now.

Ted seems to be getting around pretty good these days. First he's dining with Valerie on the band, and next he's flirting with Patsy. What a mar... you should have seen what he looked like the other night. After the band Thursday Billie Honner not only spoke to James Finley but well you can imagine and Friday night she was with Lane Decker. Bobbie Hubbs!!

Bobbie Robertson seems to be attracting a lot of attention in the Civics class. Clara Pollen and Dorothy seem to be especially interested. Sounds exciting, huh??

We have some more steady this week. Mainly Ruthie and Thomas. A new glow to an old flame—Norma and Macel are still hitting it off pretty well too. Poor Norma, he left for college Monday.

I have heard of more things that happened on the band bus. Never a dull moment. A blossoming romance started then, too. None other than Darlene Johnson and Dale Johnson.

Barry and Sammie were having a lot of fun, too. Not a bad couple. Christine seems to be two-timing Melvin. From what I heard she went with James Finley last Thursday. What about it Christine??

Marv, do you like to keep the boys guessing or is it you don't know yourself. Friday it's Gene Dale and Sunday it's Leonard. Not bad if you can do it!!!

Pauline must like Lockney. From what I heard she was with Melvin Wednesday Sunday. What about it Dolly??

Wes and Elmer are still hitting it off beautifully. By the way, how do you do it??

What has happened to Tye and Tye lately? It doesn't seem right not seeing them in the halls together. Does Jim have more of what it takes. I wonder?

Trois Muncy and Chuck Holmer are cute together. We must see more of this!

Well Don, how do you like Lee Hutchinson? From what I hear it's pretty good!!

Tommy Amlter just can't keep away from dear ole F. H. S. Coulter Joy Bunch be the attraction???

June Powell went with Gene Probasco Friday night and Jim Simpson Sunday. My, these Juniors certainly do get around!

Have you seen Roberta and Jerrold together?? If you haven't you're missing something. Not a bad couple. Not bad at all!!

What's this I hear about Dera Young and Bob Reeves going with Plainview girls here?? How disheartening!!

Mary Young has done it!! She was with Bob Hartman and Mac Smitherman Sunday. How do you do it??

Another romance that has been going on strong is Pat Childress and Tommy Rucker. Bo-i-i-ha!!

These South Plains girls get around and I don't mean maybe!! Corlene Daniels was with Bob Reeves and Mac Smitherman Thursday Hubbs!!

Loena Willford was with Kenneth Burrett Thursday night at a party in South Plains. This is all!! That I heard, anyway!!??

Well Mary Young, now I hear you were with Charles Beedy Thursday night. These changeable women!!

Tom Bush, I know a good little girl who thinks you are very cute. Can you guess or had you rather? I says it's Verna?? Now I've done my part.

June Powell and Fred Conner seen together entirely too much in the halls lately. Something is liable to come from this!! Well??

Did I see wrong, or was Doris with the Peaches last Friday?? Which one was it, Doris??

Billy Scott is rather slaving the girls these days. Why don't you do something about it Billy?? Or are you already taken?? None not!!

Now be good little children and be sure to put all of your little noses in the can in Mr. Baker's room. S'long!!!!

"Are you positive that the defendant was drunk?"

"No doubt," growled the officer. "Why are you so certain?"

"Well," replied the officer. "I saw him put a penny in the patrol box on Fourth Street, then look up at the clock on the city hall, and shout 'Horrors, I've lost fourteen pounds!'"

Hobo: "Say, buddy, gotta dime for a cup of coffee?"

Man: "A dime? I thought coffee was a nickel."

Hobo: "Yeah, I know, but I gotta dime."

Mother: "Daughter, that husband of yours smokes like a furnace."

Daughter: "Yes, and if you don't keep an eye on him he'll go out at night."

Class Serves Delicious Banquet

The second year homemaking girls served the district superintendent's banquet Thursday night, September 11, at high school. This was their first banquet this year, and it was a success. Although they had never prepared any of the dishes before, the food was delicious and well served. The superintendent wish to thank the girls for the lovely banquet.

SET STRAWBERRIES IN SPRING

Planting strawberries in the fall is not, as a rule, a good practice, according to George M. Darrow of the U. S. Department of Agriculture's Plant Industry Station, Beltsville, Md. He gives several reasons for advising against it and for the plants they sell in the fall because most of the runner plants are not mature enough for use and wastage is great; in the second place, it costs more to handle fall planting, particularly north of the latitude of Maryland because mulching against winter injury is necessary for two winters instead of one; and finally, more expense is necessary for weed control sometimes an important factor.

There are some conditions, according to Darrow, when the home gardener who is prepared to do mulching and can set plants at home or nearby will find it an advantage to set strawberries in the fall. Plants set under these circumstances start making runners early in the spring and this is a decided advantage when the spring is wet or backward, which would delay planting at that time. Only rarely, he says, will commercial growers in the region north of Maryland, Tennessee, and Missouri

A BOILERMAKER'S DAUGHTER became royalty when Miss Pat Reaser, 17, of Denison, Tex., was chosen queen of Denison's Diamond Jubilee Celebration Sept. 1-6. Her father is a Katy Railroad boilermaker and the railroad sponsored her in the contest to select a queen. She will reign over the six-day birthday celebration for which Denison has converted its business section into a pioneer settlement, vintage of 1872.

wish to plant strawberries in the fall. Practically speaking, no fruit is obtained the following spring from the fall planted strawberries.

To obtain any important quantity of fruit from fall planting, says Darrow, plants should be set not later than August. But even so, the best possible crop is not usually more than half as much as can be obtained a year after an early spring planting. And fall planting requires that a lot more plants be set. When plants are set in August he says, it takes about 40,000 per acre compared with 6,200 when planting is done in the spring.

Winds Best Wild Cats of Crowell 33-0 in Opener

Floydada rooters are a happy bunch this week after seeing the Floydada Whirlwinds down the Crowell Wildcats 33-0.

This could, or could not have been an indication of the Whirlwind squad's strength in the coming season.

Some expected the 'Winds to gain in defeat, while others ex-

pected it to be the 'Winds in a close hard-fought game. We hope this is in indication. However, we could have overrated, in our own minds, as well as weakened from injuries.

The first quarter led everyone to believe the teams were evenly matched as it was nip and tuck with neither team gaining or losing more than the other and Floydada losing yardage in a punt exchange. Both teams concentrated on the line neither making any long gains. Floydada made three first downs to the wildcats 2. Crowell fumbled one time which gave Floydada an advantage that helped them to make their second quarter T. D.

Score in Second Quarter

The second quarter there was an exchange of running attacks with Floydada losing the ball on a fumble

once and the Wildcats punting on the fourth down. From there it was a steady march by the 'Winds to the only T. D. made in the 1st half. From the two yard line, Jones carried the ball through the line with Conner making good his attempt at the conversion.

The third quarter showed the 'Winds back strong, whereas the lack of experience was telling on the Wildcats. Where they had made one more first down in the second quarter they made none in the third. On the other hand The Whirlwinds made only four as compared to the five of the previous quarter. The 'Winds took to the air for large gains plus long runs that put them over lots of territory. After a bad kick by the Wildcats, that lost them yardage, the 'Winds marched to the 30-yard line where McGuire took the ball on an off tackle play, through a very nice hole to a T. D. Conner's attempt at conversion was wide making the score 13. A few plays later Jones carried the ball from the 70 yard line for another T. D. with Conner again missing the try for the extra point. This left the score standing at 19 to 0 at the end of the third and showing a downhearted Crowell that still couldn't believe it was happening.

In the fourth and final quarter the game had the Floydada fans in an uproar. After a fumble by Crowell and a pass interception by Finley the 'Winds were in position for their last two scores, the first ending in a plunge from the two yard line by Hart, and the second a twenty yard pass and 30 yard run by Hart to Orlinby. The two attempts at conversion by Conner were successful making it a total of 33 points for the team of our school.

Band Gives Good Performance

Floydada High school band made its first public appearance suited out at the Crowell game Friday night. Every one who saw the suits was well pleased with their appearance, which was even nicer when the band took the field to entertain at the half.

Their half-time performance consisted of a march from one goal to the other and then a counter march to the center of the field with June Powell, one of the twirlers, doing acrobatics while twirling, then to the winds, a difficult maneuver.

They then turned to face the stands at a signal from the major, ette, formed a "C" and gave a yell for Crowell. They had their lines very nearly perfect and all turned in a very good performance.

District 4-A Teams Win 4 of 6 Openers

Four out of six of District 4-A teams won their games in inter-sectional or conference class games last week, Floydada, Paducah, Matador and Spur taking their opponents while Crosbyton and Ralls faltered before strong A contenders.

Floydada won from a lighter and less experienced Crowell Wildcat squad 33-0; Spur Bulldogs bumped Haskell of District 11 by a score of 13-0; Matador won from a 2-E team of Quitaque 31-0; and Paducah's Dragons measured Chillicothe 20-6.

The Chiefs of Crosbyton lost to Tahoka, 6-A, 25-7, while Ralls was losing to Post 20-0.

Purina Certifies Mixing Accuracy of Fuqua-Barber

A certificate of mixing accuracy for 1947 has been awarded to the Fuqua-Barber Farm supply by the Ralston Purina company, St. Louis Mo., for the accuracy and uniformity of the custom grinding and mixing service of the local mill.

The efficient feeding of livestock and poultry depends largely on the proper mixing of ingredients, and the award of this Certificate was based on laboratory analysis of samples taken from regular mixer prepared for customers of the Fuqua-Barber farm supply. These samples may not vary more than one-half of one per cent in order to qualify for the Certificate. The Ralston Purina company certified that samples taken from the local mill varied only .08% protein in the samples tested.

The Fuqua-Barber Farm supply will post the Certificate in a prominent place as evidence of their ability to service farmers and feeders with custom mixing that will help achieve maximum production.

The chapter voted to send three dollars to the Canyon City chapter to help all the chapters in District 2, section 3 purchase a western hat for Bro. Frank Phillips, of Canyon, who is the Worthy Grand Patron of Texas.

The entire chapter is invited to Friendship night at Plainview to be held on October 3, at which time six Worthy Grand officers are expected to be in attendance.

At the next regular meeting night October 9, the chapter is to vote on an amendment to the by-laws concerning the dues and initiation fees. All members are urged to attend.

Postponed PTA Date Is October Seventh

Postponed date for the get together supper and program of the Andrews Ward Parent-Teachers association is Tuesday, October 7, it was announced yesterday.

The program for which plans had been made for several days was to have been held last night, but found to be in conflict with another date which could not be changed.

Dr. J. W. Marshall, president of Wayland college, will be the speaker of the evening at the PTA get-together, and teachers of the school will be special guests. The PTA is anxious for as many parents as are eligible to be present and meet members of the faculty.

KEEP INSECTS AWAY

When mosquitoes hum nowadays it is worth while to keep them at a distance with one—or a combination—of the new repellents, say entomologists. Protection may not be perfect, but the new synthetics have proved far more effective than the best of the materials available before the war. Oil of citronella was probably the most widely used, but had only limited protective value.

Civilians are now benefitting from the forced drive of wartime research to protect soldiers from malaria and from the pain and discomfort and loss of sleep caused by mosquitoes, chiggers, and other biting insects. Four synthetic organic compounds are listed by the Bureau of Entomology and Plant Quarantine as safe and effective and with little or no odor. These are: Rutgers 612; and dimethyl phthalate; Rutgers 612; and dimethyl carbate. They may be used separately or in combination.

Entomologists experimented with other chemicals, but found that many of the most effective and lasting repellents were too irritating to the skin. These four are not irritating to most persons if kept out of the eyes and nose.

Several formulas have proved effective and one or more of them can now be obtained at most drug stores. The Bureau gives parts of weight and suggests: Equal parts of Indalone and Rutgers 612 with either 1 or 3 parts of dimethyl phthalate; or equal parts of Indalone and dimethyl carbate and 3 parts dimethyl phthalate; or 2 parts dimethyl phthalate and one part of either Rutgers 612 or of dimethyl carbate. Any one of the repellents may be used alone if it proves effective against attacking insects. Diluting with alcohol or other solvent usually decreases the effectiveness.

The most usual way of using is to pour a few drops into one hand, rub the other hand in it and smear it in a thin film over any exposed skin. If insects bite through the clothing, coat the hands more heavily and rub over the areas where they

insects are biting. For severe exposure, the clothing may be sprayed thoroughly.

A warning: Most of the repellents are classed as organic solvents. Therefore, it is not safe to use them on synthetic textiles such as rayon, or on plastic watch crystals, fingernail polish, or other articles made of or covered with plastics. They do not injure cotton and woolen textiles.

A man in the insane asylum was fishing over a flower bed. A visitor wishing to be cheerful, asked, "How many have you caught?" "You're the ninth," was the reply.

NOTICE

The new traffic laws are now in force and the state expects the cities to enforce them, which we here in Floydada will endeavor to do.

Some think that some of these rules are wrong and useless but if you will study them sufficiently I am sure you will agree with the state every rule is beneficial and helpful for safe driving and parking.

To help you we offer the following information:

- When intending to make a right turn on red you must stop before proceeding and then when the pedestrian lane is safe and clear;
- If there is no stop at a pedestrian lane you must stop for any pedestrian in your way;
- All double parking is prohibited;
- Alleys are for loading and unloading and parking for any other reason is prohibited;
- Jay walking is dangerous and prohibited by the law;
- All No U turn signs must be obeyed;
- Parking at yellow curbs is unlawful.

There has been a lot of comment about the room used for cars between the lines. There are plenty of reasons for this; The ease of parking and unparking, the safety of your car and the safety of those who may be waiting to pass you. If you will park right and back out right traffic can go on in one lane. If you back straight out all traffic must stop.

There are many other rules that we must know in order to properly drive and save being fined.

We are going to do our best to enforce the law.

FASHION PREVIEW

THEY knew what they wanted this candid crowd featured in the September issue of Good Housekeeping Magazine. A plaid cotton with the "torso" look. A cotton-corduroy suit with a separate dickey embroidered "Me", and a cotton-corduroy jumper with rayon shirt that's good on tall, short, thin or plump.

OPPOSE RICE GROWERS

TEXAS rice and cotton growers have a battle brewing reminiscent of the old sheep-and-cattle wars, says Farm Journal.

The issue is 2-4-D. Rice growers use it as a dust, spread by airplane, to control weeds in their rice fields. Cotton growers complain that the 2-4-D drifts onto their fields and injures their crops as far away as 18 miles from the nearest rice field.

So far it is estimated that 20,000 acres of cotton in Wharton and Matagorda Counties have been damaged some severely.

Experts of chemical companies and Texas A. & M. College believe that most if not all of the cotton will recover. Within 10 days after injury was first noticed, some of the cotton was putting out new foliage. The yield, of course, is still unknown.

In an injury case in Harris County last year, a farmer who was prepared to sue for loss of his crop discovered at harvest time that the part of his crop affected by 2-4-D actually out-yielded the part not touched.

Meanwhile the cotton growers of Wharton and Matagorda Counties are on the alert. More than 1,000 of them recently turned out for a mass meeting to discuss the threat and County Agent Joseph H. Hall has appealed to Wharton rice farmers to suspend 2-4-D dusting.

BOYCE HOUSES 'TEXAS'

In Navasota, there is the Tumble Inn.

And the Meyer Hotel of Comfort urges, "Rest in Comfort."

And, speaking of signs, one of the oddest I ever saw was over a country store and it read, "Why go elsewhere to be robbed?"

In San Angelo, the B & H Grill has a sign, "Capacity 1,000 — 14 at a time." Also in San Angelo, there is this sign, "We will tan your hide." It is a leather shop, of course.

Coming into Seguin from Cuero I couldn't see a highway sign telling how to get to New Braunfels so I stopped, got the information and ate breakfast. I guess the State Highway Department figured I'd be hungry, anyhow.

And as I entered Fredericksburg there was no sign telling how to get to Mason. So I stopped again and got information at a bakery shop and bought some coffee cake. They bake mighty good coffee cake in Fredericksburg.

Mrs. Delbert Dillard arrived Monday from Tulsa, Oklahoma, where she will stay with her parents, Mr. and Mrs. Jim Hicks, until she and Mr. Dillard can move into their new home.

Mrs. V. W. Hennessee left Thursday for a visit with relatives in the state of Tennessee.

Gillham Is Called To Barstow; Leaves Crosbyton Oct. 1

CROSBYTON—Rev. T. M. Gillham, pastor of the First Baptist church of Crosbyton for the past three years, submitted his resignation to the church last Sunday to accept a unanimous call to the First Southern Baptist church, Barstow, California.

The pastor will leave Crosbyton October 1, to take up his new work. Mrs. Gillham and children Frank and Sue, will remain in Crosbyton for some time. The church at Barstow has been newly organized and both church building and parsonage must be constructed. Rev. Gillham said.

DEPENDABLY UNDEPENDABLE

"You can't depend on the weather of the Great Plains," says a new U. S. Department of Agriculture Bulletin by the Soil Conservation Service that gives farmers suggestions on how to cope with this hard fact. "You may get rain when you need it. You may get only high winds or hot winds when you want rain. Enough rain falls during most years to make a crop, but it doesn't always fall at the right time. In other years there may be almost no rain."

"There is one thing about the climate of the Great Plains, however on which you can depend -- sooner or later we will have another drought. Droughts have been coming to the Plains for centuries -- they will come again."

Mr. and Mrs. Edgar Duncan, of Hamlin, Texas, are the parents of a new daughter, born September 12. The baby was named Connie Jo. Mrs. Duncan is the former Mable Moore. The Duncans have a son, Jerry, age three.

Mrs. G. R. Strickland and granddaughter, Vanda Dale Carter, spent the week-end in Tulla with Mrs. Dale Strickland and daughter, Dale Ann.

Aiken-Providence Group Would Pave Providence Road

LOCKNEY—A representative group of people living along the Aiken-Providence road who met at the Aiken school house recently to discuss paving the road running north from Aiken to the Briscoe county line was strongly in favor of voting bonds in order to get the road paved. Joe Jennings was elected chairman of the group and A. P. Langfeldt was elected secretary.

The proposal was made that a road district be formed 5 1/2 miles wide and 12 miles long. There are approximately 46,000 acres in the proposed district and the cost to the district, providing the State Highway department participated, would be about \$47,000.

A committee composed of Joe Jennings, Bob Stewart, Ben Queb and Pelham Clements was appointed to work out the tonnage which travels over the road and other figures to present to the State Highway department for consideration.

TWINS BORN AUGUST 28

LOCKNEY—Mr. and Mrs. Johnny Johnson, of Amarillo, are the parents of twins born August 28. They were named Harold Wayne, who weighed six pounds plus and Carol Jayne who weighed five pounds. Mrs. Johnson is the former Fiedie Lee Marble, daughter of Mr. and Mrs. F. L. Marble, of Lockney. The twins have a sister and brother, Jan and Mike.

City Park Church Has New Minister

Otta Johnson arrived in Floydada last mid week to assume duties as minister of the City Park Church of Christ. The position was recently vacated by J. Loyd Rice, who moved to Melrose, New Mexico, to accept the church there.

Elder Otta Johnson

Minister Johnson comes to Floydada from the Seymour Church of Christ, where he had been for four years. The Johnson family including a daughter, Maidie Beth, aged eleven, are looking forward to meeting the people of Floydada and give them a cordial invitation to attend the services at the church.

Mrs. A. L. Garrett, who has been very ill for sometime, is in the Mule-shoe hospital for treatment. The Grubbs family have been spending what time they could with Mrs. Garrett there.

Eugene Wilkerson, of Vernon visited here with Bobby O'Bannon from Thursday to Monday. Leaving Tuesday the pair went on to Dallas where they are registering for the school year at SMU.

Mechanical Check Up Should Follow Vacation Period

A mechanical checkup of cars after long summer driving is recommended by E. L. Harrig, national service manager, Chevrolet Motor Division, as a safety measure with the end of the vacation period and the return of children to schools.

"Most people drive more in the summer, and many add considerable mileage by vacation trips," said Harrig. "It would certainly be wise for such owners to check their cars now, and be sure they are mechanically safe, particularly with the return of children to school and increased activity on the streets."

Harrig suggested:

1. Close examination of brakes and steering.
2. General engine, chassis and body inspection.

Safety and traffic experts point out more than 25,000,000 returned to school in September, and emphasize the necessity of extremely careful driving by motorists especially near school buildings.

Contract 12 Blocks Street Paving In City of Crosbyton

CROSBYTON—The contractor is getting everything in readiness this week to start the spreading of asphalt and rock on Crosbyton streets which are being paved. A total of 12 blocks have been secured under the contract.

A large concrete dip is being constructed at the corner of Sixth street and Emerald avenue. This dip became necessary because of the engineer's decision to drain the water north from Fifth street to Sixth street west of the alley and then north to the lake just northwest of the city limits. The property owners between Sixth and Seventh streets, who built curb and gutter under private contract, now find themselves with their curb underground because of the drainage incline back to Sixth street.

The highway department, which reportedly needs more dirt for it fill just west of the city on the Ellison lake, has been contacted in an effort to get the dirt excavated and hauled away.

Pfc. Billie Joe Grubbs, who was here on leave from Kessler field Mississippi, is returning this week after several days with his parents Mr. and Mrs. M. R. Grubbs.

Mrs. Maud Burrus has returned from Borger, Texas, where she spent a vacation of several days as guest of her son, James R. Burrus and Mrs. Burrus.

RAISE TAX RATE

CROSBYTON—The City Commission in regular session Monday night raised the tax rate for Crosbyton from \$1.00 to \$1.25 per \$100 valuation. The new rate will be in effect on 1947 taxes due by February 1, 1948, the Commission announced.

Rev. and Mrs. L. A. Doyle and family returned recently from a two week's trip to Mississippi, where they visited relatives in Cannon and Jackson. In Cannon, they were guests of Rev. Doyle's parents, Mr. and Mrs. J. R. Doyle.

Robert Arnold left last Thursday for Galveston, where he will resume

his studies at the University of Texas Medical School.

Fairview News

FAIRVIEW, Sept. 15—The cool weather the last few days makes u know winter is not far away.

Farmers have begun their fall gathering of the crops. Combine maize is being harvested on several farms, as well as some bundle feed being cut in the early patches.

Clyde Irwin is the owner of a new airplane, having purchased it last week.

Back to college is the event in the lives of our young people. Among those returning to college last week were Dean Walls, who left Friday for A. & M. college at College Station. He was accompanied to College Station by his parents, Mr. and Mrs. E. W. Walls, who will spend several days in that part of Texas visiting and sight-seeing.

Mr. and Mrs. C. M. Williamson, of Amarillo, attended church services here Sunday morning and were guests for the day of Rev. and Mrs. Bill Odell.

Betty Gail Stewart of Fairview spent Friday night with June Kathryn Payne.

The Intermediate B. T. U. group and their friends were entertained last Thursday night by their sponsor, Mrs. Bill Odell at her home. She was assisted in the entertaining by her husband, Rev. Odell. Ten young people were present.

L. D. Horton, of Plainview visited his parents, Mr. and Mrs. L. A. Horton Sunday. Other visitors to the Horton home were Mr. and Mrs. Walton Wilson and family and Doyle Walls.

Mr. and Mrs. Thurman Perry were Sunday guests of Mr. and Mrs. Charlie Perry, of Sand Hill.

Mr. and Mrs. L. B. Cosby and Mary Dee visited Sunday afternoon with Mr. and Mrs. L. E. Crabtree and family of Floydada.

We are glad to have Mr. and Mrs. Arthur Stewart and family out to church Sunday morning. Mr. and Mrs. Stewart are former residents of our community and recently returned to Texas from California where they have made their home for several months. At the present the Stewarts are staying at the home of her mother in Floydada until they get located. They visited over the week-end in the home of Mr. and Mrs. R. M. Cannon.

Marv Ann Wilson and June Hartline visited with Betty Gail Stewart Sunday in the Cannon home.

Everyone please take notice that the time for services at the Baptist church has been changed from 7 o'clock to 7:30.

For the benefit of those who might not know the pastor has erected a sign out in front of the Baptist church telling them the kind of building the church is. The sign is a very nice piece of work.

Onesie Hamilton and Mrs. Doris Cunningham of Amarillo spent Sunday in the home of Mr. and Mrs. T. T. Hamilton.

Amy Sue Way, Carl Lester Minor, Jr., United in Church Ceremony At Haskell, Oklahoma, Sept. 7

HASKELL, Oklahoma—An unusually pretty fall wedding marked by simplicity and quiet dignity was that of Miss Amy Sue Way, daughter of Mr. and Mrs. T. J. Way, pioneer family of Haskell and residents now of Jay, Okla., and Carl Lester Minor, Jr., son of Mr. and Mrs. Carl L. Minor, of Floydada, Tex., which was held Sunday afternoon, September 7, at four o'clock at the Methodist church here.

Rev. W. U. Witt of Muskogee read the double ring ceremony before an altar decorated with baskets of sunburst gladioli interspersed with fern against a background of palms and greenery.

Preceding the ceremony Miss Elizabeth Cooke of Muskogee, cousin of the bride, played a program of nuptial music, including the traditional wedding march by Mendelssohn. Miss Cooke also accompanied Miss Frances Pennington, soloist who sang "Indian Love Call" (Rudolf Friml), "Because" (Hardelot), and "The Lord's Prayer" (Albert Hay Malotte).

Escorted to the altar by her father, who gave her in marriage, the bride wore an afternoon gown of golden blonde satin, made with narrow skirt and shirred and draped long overblouse. Her crownless picture hat was of dark brown French felt with a satin ribbon bow at the front. She wore long brown gloves and shoes of matching color. She carried a white bible topped with an orchid.

Miss Jeanne Way, sister of the bride, was maid of honor. Her dress was of aqua blue crepe designed with narrow skirt and fitted bodice with a gathered peplum at the waist. She carried a colonial nosegay of yellow daisies surrounded with yellow net and streamers of yellow satin ribbon. She wore a half hat of brown and her shoes were brown.

Selected to be candle lighter was Miss Mary Sue Way of Seminole, cousin of the bride. She wore a dress of brown crepe made with fitted bodice and a flared skirt with a drape at the back. Her corsage was of pink and white aster mums.

William E. Brown of Floydada, Tex., was best man. Ushers were Howard Wav, Jr., of Oklahoma City, a cousin of the bride and Wayne Collins of Amarillo, Tex.

Immediately following the ceremony the bride's parents entertained at a reception in the home of Mr. and Mrs. R. S. Pennington. The bride's table covered with a lace cloth was centered with a bouquet of white asters and white candles in five branch candelabra which were entwined in green ivy flanked the bouquet. White asters, white candles and green ivy were used as decorations throughout the entertaining rooms. After the bride and bridegroom cut the three tiered wedding cake which was beautiful-

ly decorated in white, the top tier being in the form of a heart, Miss Peggy Ream of Muskogee served the guests cake.

During the reception Joe Cantrell of Cushing, played a program of piano music.

Miss Pat Harsha of Haskell presided at the punch bowl while Miss Jane Cooke of Muskogee assisted in the dining room. Miss Jeanne Hartman had charge of the bride's book.

The bride who received her early education in Haskell, is a graduate of the Wellington, Texas High school and is a junior at the Texas Technological college, Lubbock, Tex.

as. She was elected president of the Ko Shari, girl's social club, for the coming year.

The bridegroom is a graduate of the high school at Floydada and graduated with a B. E. A. degree from the Texas Technological College, Lubbock. He was vice president of Kemas club last year. Dur-

As A Farm Woman Thinks

(By Nellie Witt Spikes)

Autumn struck us with a chill this Monday morning, a chill of cold hands and bones, a chill of the heart for we know summer is beginning to gather up her frayed garments to leave us.

Summer must leave with some disappointment. She never had what other years have given to their summer months. No rain of any amount came to wash the dust and grime from off her flowers and trees. Folks grumbled because she had only the hottest of weather to hand out. Now I sigh as she leaves because I loved her with all the imperfections she had. I have loved the leaves that cooled me from the heat of the sun, I have loved the bright sunny days even though they had no rain. The garden has given me much pleasure.

My life's swift river widens to the sea.

The careless babble of the brook is past; A few late roses bloom still for me. But spring is gone and summer cannot last.

Thanks to Mrs. Ella Asister of Ralls for an interesting rock from Old Mexico.

Looking back I do not remember many real ugly dresses I had in my childhood days but mother and I the other day looking at an old picture realized I had on the ugliest one of all in that picture. It was long and made with a skimpy waist and a skirt gathered on with a few gathers, the style then, but the stripes of the goods! A wide black one, a dull red, a hideous yellow or was it orange?, a sickly blue and a white off color. Why did I make the dress out of that? Mother wondered, and why did I let you wear it to have a picture made?

My brother Joe of Amarillo was listening to me tell of my house plants for the winter.

"Nellie," said he, I had the fever one winter. It was both contagious and varaloid. But I have been vaccinated against having the fever of growing flowers in winter and hope I do not have it again."

Billy, my newest grandson can walk. Quite an accomplishment for nine months. And does he show off!

It was nice to meet Mrs. Linda Stewart last week. She is the mother of Mrs. Will Dunn of Crosbyton. I am sure we will have much in common to talk about when we have time.

Miss Roberta Dunn gave me such a nice compliment that I am going around with my nose stuck up in the air. Thanks a million for telling me, Miss Roberta, and may you have a wonderful school year.

Good thought for the week: **The Secret Depths**

There are depths in the ocean so profound that they are not affected by the most violent storms. Just so there are depths within each of us that cannot be disturbed. It is for us to find this secret place of the Most High. Go apart and say: "I am alone with God. I drop from my mind all care, all intensity. Divine love rules, quiets, imparts life, wisdom, love and power. I am still, still, and peaceful.

Thelma Doyle, of Albuquerque New Mexico, visited recently here with her parents, Rev. and Mrs. L. A. Doyle. Miss Doyle is employed at the State Baptist headquarters in Albuquerque.

Mrs. Clifford Helms and daughter Bonnie Dale, of Lubbock, spent last week visiting with Mrs. Helms' grandmother, Mrs. Lindsey Warriner and her parents-in-law, Mr. and Mrs. P. D. Helms, of the McCoy community.

Mr. and Mrs. Herman Seeds, of Huntington Beach, California, spent the week-end visiting with Mrs. Seeds' parents, Mr. and Mrs. E. E. Johnson.

Crossing on Blanco East of Crosbyton Needs Re-Building

CROSBYTON—The Crosby County Commissioners court and four representatives from Crosbyton were in Austin on Tuesday to fill an appointment with the Texas Highway Commission regarding the rebuilding of Highway No. 82 through Blanco canyon. Money for this strip of road has been allocated for some time, but bids received last spring were turned down because they were too high.

Members of the court attending were Emory Pieratt, county judge; Commissioners Leilan Caddell, Cecil Berry and Joe Jackson, and County Clerk Lewis Benton, who is ex-officio clerk of the court. Crosbyton's representatives were Ernest Smith, chamber of commerce manager; R. C. Wood, Jim Reed and Cary Lodal, businessmen.

Good Road Plans

(Continued from page 1)

Aiken and Providence, from Pleasant Valley, Center-Fairview, from the northeast part of the county, from Barwise. Since the highway department announces a plan to undertake the most traveled roads with the highest "travel count" and improve them first and the commissioners on the other hand must "distribute" the improvements in all four precincts as much as consistently possible, the resulting doubt arises. The roads which the Commissioners court are on record as favoring at the first to be undertaken under the two or three-year stop-gap construction would serve Sand Hill, Harmony, Lone Star, Sterley, Cedar, Lower Lakeview (a 2 1/2 mile stretch) to the Crosby county line and the rich Deagbert-Antelope area to the southeast part of the county, where a wide open space has long gone neglected. A dozen or so people went over the commissioners lay-out in Floydada Monday night and resolved unanimously to back it when and if it is presented for a vote.

Meetings have been held at Lockney, Lone Star, Sand Hill, Harmony and other meetings are due to be held in other communities of the county. There will be no going to calling an election, those who favor making a beginning point out, unless there is reasonable assurance that the plan will meet with approval of two-thirds of the people of the county.

Twenty-two counties of the state already have made funds available to the State Highway department for beginning road construction under the plan.

crop" to mention on dry land. The late fall heat and dry weather have caused the plants to throw off the late blooms and squares, even the smaller bolls. Production will be from one-fourth bale up on dry land. On irrigated farms the story goes that some fields will undoubtedly produce as much as two bales per acre.

Feed is Being Marketed
For the first time in a good many years forage feeds are reaching the markets of the area in volume before the cotton crop. Apparently it can be said that little or no grain sorghum will be held by the growers. It is being marketed on the present high market as fast as the elevators will take it. Trial runs are being made to begin harvest the first minute crops will stand the moisture test. A few fields have already been harvested. Few are holding any appreciable amount of grain for feeding operations. The growers consider the feed too high to put into live stock except on a limited scale even if cattle were not considered too scarce and too high for the average man to try to

Slaying Verdict

(Continued from page one)

ledged mistreatment, the state had taken untrue statements from some and had frightened many negro witnesses out of Crosby county and intimidated others to extent they feared to give information to the defense.

Pierce From Mt. Blanco

Sheriff J. J. Pierce, victim of an assassin's gun at Ralls the night of August 2, was in Ralls engaged in a raid of illicit liquor traffic when he was killed. He had left his home in Crosbyton a few hours earlier, telling his wife he was going to Ralls "on business." His body was found in a vacant lot not far distant from a negro cafe which had a bad reputation. Holland confessed to the crime after his arrest in Amarillo and returned to Lubbock for safe keeping.

J. J. Pierce was reared at Mt. Blanco, in southeast Floyd county where the family had been prominent for more than a quarter of a century. He was inducted into office on January 1. His death resulted in a demand that more officers be named in Crosby county to preserve the peace, a demand which the Commissioners court met speedily.

School Changes

(Continued from First Page)

schools which had unusual conditions and law-makers in Austin to go to bat for them did not suffer the past year but for the most part the independent school district taxpayer is at a distinct disadvantage in the allocation of funds for educational purposes in contrast to the set-up arranged for the rural high school system.

Questioned at the close of his talk Mr. Guffee said that regardless of handle. Some late fields in the vicinity of Floydada will have to crowd the frost date for maturity.

What feed for cattle is being held is in the form of immature bandler and alfalfa, although the latter is also being sold off closer than usual or held for later higher prices.

In the alfalfa fields the demand for mowing and baling crews indicates that the fourth and some fifth crops are maturing.

personal opinion the change has been made effective through the operation of economic, social and educational trends. Asked if he considered the rural pupil would receive better education for citizenship through the change, in view of the disappearance of "social life" in the respective communities served by the rural schools, Mr. Guffee said that was a matter to be determined by the process of time and change. However, he said there is reason to assume that a better prepared teacher with better facilities can give a child broader, better educational opportunities than a teacher not so well provided. One source of hindrance to the best performance of the new school system, at least in Floyd county, he said, is the bad condition of roads on the school bus routes in weather unfavorable to travel.

Tulia Game

national agriculture chapter have been at work this week putting the field and stands in order.

Spur Rates Very Strong
Spur begins the season with the strongest team in District 4-A and Crosbyton will be both faster and stronger than last season, a report from Crosbyton said this week. Paducah rates high and will be a contender, this report said. The report on Spur is confirmed by the shacking the Bulldogs gave their 12-A opponents last week-end. Spur's usually champion calibre team in District 4-A is in the habit of losing their opener against the District 12-A teams. The team that lost to Spur last Friday was Haskell.

Jaycee Has Sound System

A big break for fans at Wester field this season will be the play-by-play report on the progress of the games over a sound system which the Junior Chamber of Commerce is buying brand new as a public service, and at a relatively high cost. Friday night it will be tried out for the first time if present plans of the young men's organization carry through. Downs and plays and players, yardage, penalties, and all the things that many fans only know about hazily will be reported conversationally as they take place by A. H. Rainer, LeRoy Chowning and their aides, who will keep the crowds posted on identities on the field.
