Cotton Fields Whiten; Grain Being Harvested

Cotton is popping open all over Floyd county this week and cotton growers suddenly realize they have a harvest ready to be undertaken, and not enough harvesters in the area to keep up with the 25,000-acre crop.

Not only is the dry land cotton opening up but many irrigated fields also are turning white. A few late are moving to the gins over the county and as harvesters become more plentiful the crop movement will become rather general by the first day of October.

This week cotton raisers were trying to get together on the price of cotton harvesting so they could advertise their needs and what they had to offer, but as late as yesterday no one appeared to be in position to state positively what the price would be. Most all of the cotton here will be snapped, with \$1.50 named as a fair price at one source. Another source said \$1.75, possibly \$2 per hundred would be paid.

Cotton crops, even dry land crops which have had practically no rain since being planted, is due to yield fair to excellent, with good staple and a high "turn out."

Maize Moves to Market
Meanwhile, maize has been moving to market from all sections of the county. Tremendous yields are reported from early fields of irrigated forage feeds and almost equally good yields from other favored areas where the crop caught two or three good showers.

Several fields where the crop had no rain after planting time report 1,000 to 1,500-pound yields of good grain that was made on the subsoil season in the ground when the crop was planted.

In some fields of late forage feeds the farm operators expect the crop not to reach maturity and have put binders into it to gather bundles. Other late irrigated fields are in a race with the frost deadline.

More Gins to Operate
Several more gins will operate in the county this year than last. The Aiken and Lockney gins will be in operation again this season as well as the Farmers Coop gin in Floydada. In addition the gin at McCoy the Newton gins at Lakeview and Doucherty and the Thornton gin at South Plains, and the Davis and Scott gins in Floydada are firing up this season. Final readiness was announced last week-end for the Scott gin and Lon M. Davis said his gin preparations were finished yesterday. Both of these gins had crews of men on the job for several days.

W. O. Jetton Dies
Funeral Saturday
Funeral services for William Oscar Jetton, 55, were held Saturday afternoon at 3 o'clock in the First Baptist church in Lockney with Rev. E. J. Cobb officiating. Interment was made in the Lockney Cemetery with Crager Funeral home in charge of the arrangements. Mr. Jetton died in the Lockney hospital from injuries sustained in a fall from a load of hay.

Mr. Jetton was born April 13, 1892 in Bell County, Texas, and moved to Lockney some 26 years ago. He was a former employe of Baker Hardware company in Lockney.

Survivors include his wife and four sons, Clyde, of Dallas; Dave, of Plainview; and Ray and Marvin, of Lockney.

Mrs. John T. Hopper Home
FROM MUSIC LEADER SCHOOL
Mrs. John T. Hopper recently attended the school for music leader of Baptist churches sponsored by the State Baptist Music department at Hardin-Simmons university at Abilene.

The school was conducted by Dr. B. B. McKinney and his assistant, Hines Sims, of the Sunday School board, and Jack Dean and Miss Frances Merle Coomer, of the host University music faculty. Assisting in the school were Mr. and Mrs. Riddle, Mrs. Lucille King and C. A. Booker, of the Texas Department of music. Forty-two churches were represented at the school.

While away, Mrs. Hopper visited her mother, Mrs. Mary A. Sparks and Horton Sparks in Abilene.

Footlight Club Names Officers, Choose First Play, Names Cast
To elect officers was the purpose of the meeting of the Footlight club Tuesday night of last week in the Andrews Ward school auditorium. Olin Watson, Jr. was elected president of the newly organized club. Serving with him will be Aldean Williams as vice-president; Jodie Wofford, secretary; Alice Bell treasurer; Doris Cornelius, reporter and corresponding secretary.

The play selected for the first production is to be a three act murder mystery, "Through the Night," by Florence Everson and Colin Clements. Expectations are that the play will be ready for production by the first of November.

At the regular meeting Monday night of this week, the following cast was selected to begin rehearsals as soon as the scripts arrive: Roberts, the butler, played by Randle King; Sayre Holbrook, a rich debu-

Club's Annual Autumn Flower Show Saturday

Saturday afternoon and evening, September 27, is the date for the annual Fall Flower show, which will be opened to the public at 3 o'clock p. m., and continue until 8 o'clock in the evening, at the Southwest Public Service company building, opposite the post office.

Floydada Garden club, of which Mrs. J. D. McBrien is president and Our Home Garden club, of which Mrs. Fred Zimmerman, Jr. is president, are joining forces in sponsoring the event this year.

Mrs. E. L. Norman, one of the members of the committee making plans for the show, said that the final details have been worked out and that entries will be received beginning at 12:30 p. m., when judging will begin. When the judging is completed the show will be opened to the public at 3 o'clock. Despite the fact that September has been unseasonably warm and that rains have been lacking the clubs hope to have a very creditable show.

The list that will be judged includes: Asters, algeratum, begonia, calendula, Coxcumb, canna, carnations, chrysanthemum, large and small cornflower, cosmos, dahlia, daisy, gladiola, golden glow, iris.

Lantana, marigolds, nasturtium, pansy, petunia, phlox, salvia, scabiosa, snapdragon, rose, verbena, zinnia dwarf and giant.

Also other flowers will be judged where there are as many as three entries of the variety. Containers for flowers will not be available at the show room and flowers should be arranged in containers provided by the exhibitor.

There should be three to five large flowers in each arrangement and nine to 11 of the smaller flowers.

A special exhibition of specimen dahlias and roses, will be shown during the show. Each container Rose will be shown in coke-type bottles and dahlias in milk bottles, containers provided by the exhibitors.

Another interesting special arrangement will be made with a table of indoor gardens and shadow boxes and odd collections of anything different.

Bulbs will be awarded as prizes.

District Meetings of Farm Bureau
A series of 23 Farm Bureau meetings will be held in Texas September 29 through October 14, it has been announced by J. Walter Hammond, president of the state organization.

In order that more farmers will be able to attend and take part in the discussions, two meetings have been scheduled for the District 2 area. One will be held in City Auditorium at Plainview on Friday, October 3; the other will be held in the District Court Room at Lubbock on Saturday, October 4. The meetings will start at 10:00 a. m. and W. R. Tilson of Meadow state director, will preside.

The Texas Farm Bureau will attempt to get a cross-section on the thinking of farmers with reference to continuation of the national farm program, which is in jeopardy at this time, a farm-to-market road plan, and many other critical issues, it is announced.

HOME AFTER 15-DAY TRIP
Mrs. E. R. Borum returned Sunday night from a 15 day trip, which took her to the mountains of Colorado, including Pikes Peak, to points of interest in Denver and Pueblo Salina, Kansas and Hastings, Nebraska. In Hastings, Mrs. Borum visited with her daughter, Mrs. P. L. Hansen and family.

Whirlwind-Bull Dog B Practice Tonight on Wester Field Offers Free Football Fare for Fans

An open date this week-end for both Floydada Whirlwinds and the Spur Bull Dogs has resulted in hatching up a scrimmage.

Fans of the territory tonight will have the opportunity of seeing a scrimmage game between the B terms of the Floydada Whirlwinds and the Spur Bull Dogs. It was announced the first of the week here. And it will be all free, under the lights, at 7:30 tonight.

An open date on both the Whirlwind and Bull Dog interscholastic league schedule makes the date possible. Fans will get to see some of the future first string material of the two teams work out, and can be sure it is Simon pure B material playing because the two coaches will take no chances on disqualifying any of their players on their 10-game schedule.

Other teams of District 4-A, with the exception of Ralls (open date will be engaged as follows, Friday night. Crosbyton at O'Donnell, Lockney at Friena, Paducah at Wellington, Matador at Dalhart;

Following is the schedule for the remainder of the season beginning next week, October 3: October 3: Phillips Black Hawks at Floydada; Ralls at Lockney, (conference game); Crosbyton open date; Estelline at Paducah; Matador at Amarillo against the Yarnigans; and Spur at Hamlin;

October 10: Floydada at Ralls (conference); Paducah at Crosbyton (conference); Lockney at Dumar Matador at Spur (conference);

October 17: Floydada at Abernathy Matador at Ralls (conference); Crosbyton at Lockney (conference); and Spur at Paducah (conference);

October 24: Paducah at Floydada (conference); Ralls at Lubbock against the Cowhads; Spur at Lockney (conference); Crosbyton open date; Matador open date;

October 30: Floydada at Matador (This is a Thursday night game with a special date) to keep from conflicting with other school dates of the Matador school;

October 31: Ralls open date; Crosbyton at Spur; Lockney open date; Paducah open date;

Col. Massie Helps Legion Fund \$3,000

McDermott post, American Legion feels a lot better about their building debt this week than they did last week. The worry about it is over.

The answer is that for the \$3,000 deficit they had last week when they accepted the building from the contractor, they now have the money in the treasury to meet the bill.

Col. W. M. Massie, who had been telling the boys he would help them out a little did just that. He wrote a check for \$3,000 for the building fund.

Finance Officer J. C. Wester, who reported the gift of the real estate man to the local post, said that another \$10,000 would be needed to complete the whole plant including the Scout hut and the venerating of the old quarters, plus some finishing touches on the new auditorium and that is the goal the post is setting for further accomplishment as funds are available.

Meanwhile the aid of Col. Massie quickly solved their immediate problem.

Golf Leaders Come Up With Idea to Donate Winnings

Winners in the Floydada Country club's golf tournament recently have come up with an idea how to spend the prize money they won. Pooling the fund they found they had \$58 in prize money, \$45 of which they used to buy a rake to use on the club grounds. The other \$13 they have put in a pot to buy golf balls to use as prizes for the club's golfers who lower their scores on a per centage basis by the end of September 28.

No. 1 golfer of the club is Rey Brown who tours it way under par. Ed Johnson won second place in the tournament. Bill Hambricht tied, Billy Hambricht fourth, and E. C. Carter fifth.

Jeff Williams Talks at Meet For Teachers

Jeff Williams told Rotarians of Floydada and their honor guests, members of Floydada school faculty and board of trustees, last Wednesday night that people of the country need to think straight about the path they want their nation to follow, and that straight thinking among those who do think will be needed to keep the strange ideologies now quite prevalent, from gaining as the good way of life.

It was ladies night with the Rotarians and supper was served in picnic style to more than a hundred persons.

Williams is traveling up and down the length of the land, he said, following an urge to "fill his niche," and he urged that his hearers not follow off after "good offers" which did not conform to their own needs of service. Mr. Williams is a Chickasha attorney.

Len M. Davis served as the program chairman for the evening and Judge Alton B. Chisman presented the speaker. The honor guests were recognized. Superintendent I. T. Cedeno presented old and new members of the faculty and school board present.

Baptist Leaders of Association Meeting Today

Approximately 200 Baptist leaders, representing 30 churches in four counties are attending the annual meeting of the Floyd County Baptist association being held today with the First Baptist church in Crosbyton. Counties represented at the meeting are Floyd, Briscoe, Motley and Crosby.

The program began this morning at 9:30 and will continue through the evening session. Representatives from the different churches are reporting on the progress of their various organizations and departments during the past year and plans for the coming year. During the business session, new officers are to be elected for the coming year.

Included in the unusually talented list of speakers for the session is Dr. J. Howard Williams, state executive secretary. Dr. Williams stresses the importance of every church member's sharing in the world relief program soon to be outlined by the Executive committee of the Baptist World alliance. Recently returned from the World Alliance meeting in Copenhagen where he saw the dire need of the people Dr. Williams has said: "What all of our people can do immediately will not be enough to relieve the starving nations. We must not be selfish in days like these. We need the strength of character that comes from giving."

Dr. Williams urged the representatives of the Association to give emphasis to the stewardship campaigns being conducted in the Baptist churches of Texas this fall.

Other speakers scheduled to talk during the session are E. M. Collier, Hendricks Memorial Hospital of Abilene; Rev. Perry Evans, Buckner's Orphan home and Dr. J. W. Marshall, president of Wayland college at Plainview.

Delegates attending from Floydada are E. P. Nelson, W. C. Cates, D. I. Bolding, R. E. L. Muncy, Mrs. J. D. McBrien, Mrs. W. B. Jordan, Mrs. W. S. Simmons and Mrs. John R. Gray.

Former Floydada Residents Tell of Fair in Lubbock

Jason O. Gordon, J. W. Chapman and Louie F. Moore were among the Panhandle South Plains fair boosters in the caravan in Floydada Tuesday morning renewing acquaintances and telling about the fair opening on Monday next.

Gordon is now in the farm chemicals and live stock supplies business in Lubbock, Chapman is one of the more active realty dealers of that city and Mr. Moore is county clerk of Lubbock county. Moore visited for a short time with his brother, Frank L. Moore, while here.

The crowd rose in a chartered bus except for some of the entertainers and the Jaycees scout car which led the way. The fair, they declare, is going to be a good one this year. Floyd county, which won first place exhibit last year, will have an exhibit in the agricultural hall and one or more Floyd county Jersey herds will be represented in the Jersey show.

Dude Barton in All-Girls Fair Rodeo

Dude Barton, ranch-reared daughter of Wilbur Barton, of Flomot is one of the contestants in the all-girl rodeo in Amarillo at the Tri-State fair this week.

Entered in the calf-roping and wild cow milking contests as well as in the girls' sponsor contest and others, she has been in the money in a high per centage of the event's she has entered, according to press reports. There are entries from all parts of the southwest and the young women are staging a full fledged rodeo.

Petitions Circulate for Road Building

Although there are enough names already on petitions being circulated over the county to make a legal claim on the Commissioners court for calling an election, the petitions were still being circulated the first of this week, and none had been filed with the county clerk yesterday morning.

The petitions set out a proposal that the Commissioners call the election to vote on an issue of \$300,000 in bonds with which to construct roads in the county. J. M. Willson, Jr., one of the local petition circulators, said yesterday that there hadn't been a rush to get the petitions in the hands of the Commissioners court and an election called because "we would like to see the idea of what the county is up against on the road business to be discussed pro and con before an election is actually called."

The idea for the bond issue grew out of the fact that the State Highway department has proposed to help all counties in the state to finance farm to market roads. In order for Floyd county to participate funds will have to be raised by a bond issue since the county does not have \$75,000 available in cash. The present farm to market program will have ended when the road from Highway 70 south to Lakeview has been finished.

The resumption of a federally supported farm to market road building program will have to await action of congress. The State Highway department's proposal is made the Highway commission announced so that the state program could be continued uninterrupted. The state will pay one-fourth of the cost of construction and furnish engineering and all supervision work, and finally undertake to maintain the roads after they are built. This proposal of the department has been explained in talks made in some five meetings to date by Jas. P. Potts, resident engineer.

The Commissioners court is on record as indicating to the State Highway department the roads which are most needed immediately. The department's determination of the roads to get first attention will be based on traffic count, it has been indicated.

Grocerymen Object to High Prices

CO, Sept.—Grocers are victimizing the public in connection with present food prices, Rufus G. Moore, president of the Texas Grocers association, said here today.

"I said fresh fruits, vegetables and canned foods were cheaper than in 1946," Moore said. "You seldom hear of the lower prices on automobile household appliances, furniture and clothing," and asked: "Is this fair, when in many instances the grocer is operating on a profit of 2 or 3 per cent?"

Antelope Hunt In October First for Local Hunters under new Rule

Floyd county men are going on antelope hunt, come October and it is going to be in Texas entirely legal. In fact, advertised by the Texas Game, Fish and Conservation commission.

The hunt is Harry Morckel, Ward, N. B. Stansell, Her-Meady and Roy Hale. They already got their permits and will be hunting in Brewster county where limited areas are being plentiful in Texas—once after 30 years of protection for the first time last year and had a chance at the fast and speedy prairie antelope.

Col. Ernest O. Thompson is a realist. He is chairman of the Texas Railroad commission and will go down in history—about a hundred years from now presumably—as one of the state's and the nation's really great men. He says the basic cause of World War II was the Persian Gulf oil supply. The western powers would have had to fight both Germany and Russia in that titanic struggle had Hitler and Stalin not fallen out over the rich grab they planned to make. As it turned out Russia helped destroy Germany. But the threat of Russia still remains. With the ideology of the Russians, as it is, power and more power is the only way America can keep that nation with perverted leaders from riding rough shod over the world. And in modern times oil is power. Col. Thompson says just don't take any chances. He has been over there looking around as the official (or unofficial) representative of America. The country will be a lot better off if it continues to listen to the red-headed Texan. This is the man whom Texans didn't vote for for governor a few years ago. Fortunate for the country as it turned out, but it does show how silly people can be, praying and voting for an O'Daniel for governor of their state when they didn't have to be taken in that way at all if only they had done a little looking and thinking. We do not owe Colonel (he got the title by laying down the world's most savage and complete machine gun fire in world history) Thompson anything. He doesn't owe us anything.

A negro won a Cadillac automobile in a lottery in Atlanta or somewhere down in the deep south not long ago and in the subsequent reporting of the matter, which created a real furore and was real news, when they wouldn't let the negro have the car but finally paid him an amount in money equal to the car's value,—in the subsequent reporting of the matter the postmaster at one of the country's big cities "warned" a newspaper of the city that it had violated the lottery laws of the country in reporting the matter, and that it must not do that again. Part of the penalty is revoking the paper's second class privileges, tantamount to putting the periodical out of business. Don't let it happen again or steps will have to be taken under postal laws and regulations, says the warning. The postmaster has no alternative but to do that when he learns the facts of the case. What the law (in principle at least) does is to make the postmaster a censor of the newspaper. Any newspaper with any extended background has been "warned," and a good many have been ruled out of business. Some newspaper people work up quite a lather about this. In contrast, there is a

common sense middle of the road way to look at it.

Once there was an instance we know about where the newspaper, possibly, and quite probably, in innocence, violated this postal regulation. The postmaster failed to note the violation, also quite innocently. And a citizen with whom both newspaperman and postmaster were unpopular had both on the mourner's bench for months and months. The newspaper was suspended for a time and the postmaster had to work things like all get out to keep from losing his job, too. Things like that will happen to you. One way to be sure to avoid taking chances of the kind would be to fold up, go dig a hole and crawl in it. You'd be in a bad way if a bear crawled in after you but the chance on this would be many to one, since the "gruv'mint" has hunters who go out and trail the predatory animals. Meanwhile, if you are a newspaper man, watch yourself and everybody in the office all the time about reporting forthcoming raffles, lotteries, the attendance prize, lists, the prizes offered at the bridge club—watch all of that. And watch, doubly, how you report or mention the results after it all has taken place. Usually where the casual reporter gets his boss into trouble is in reporting the results after it is all over and done. When that happens to a newspaperman, just a flat out and out violation, he quits what he is doing and goes to see the postmaster. And he is almost sure to get acquainted with one or more postal inspectors before he gets through.

Speaking of highways and changes in highways the routing of Highway 62 recently changed to run through Floyd county to Ralls from Matador, is not expected to make material change in travel except possibly within a few years. At present travel on the route is not to be influenced to any marked extent by inter-state traffic. All the business that the route through Crosby county gets anyhow is an east and west traffic almost in toto, says a Crosby report. The route west from Matador thence south is shorter by some 11 miles and is in better condition than the one south from Matador, thence west.

The average per acre yield of Texas cotton is only 134 pounds of lint; corn—only 17 bushels, wheat—only 10.5 bushels. Legumes and fertilizers can increase those yields materially.

About 600,000 building fires occur in this country each year. Half of those burned buildings are dwellings.

INTO A Mighty INDUSTRY

Carbon black produced in the area we serve dominates the industrial scene.

Only in this area—with its vast resources of natural gas—is the mass production of this vital material possible. "Sour" gas, once considered worthless (on account of its high sulphur content), has become the basis of a great industrial operation. The automotive, rubber, paint and ink industries are but a few of those dependent on carbon black.

We have so much confidence in the carbon black industry—and other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and better living—electrically—to everyone!

Box Supper Tues. Night At the Gym

Do you like to eat? You do? Well, here is your chance! A box supper is being held Tuesday night, September 30, at 7:30 in the Andrews Ward gym. Everyone, especially, is cordially invited to come and have fun.

EDITORIAL

BE GRATEFUL

We, the students of Floydada High School, are in praise of our school and rightly so. There are many improvements of which we should be greatly appreciative.

Our boosters, the band and pep squad, made an excellent showing in their new uniforms at both games. It seemed to have boosted the morale of the football team greatly. The looks of the scores. All the new football uniforms raised the morale of the fans as well as the acceptance of the new uniforms. The Whirlwinds presented to the band the Junior Chamber of Commerce. It was a very impressive ceremony with the band in their new uniforms marching proudly across the field.

Another of the added attractions of the school was sporting Friday night in the new stadium with its platform for the yell-leaders. We also were very proud of our new scoreboard at the south end of the field. It eliminated much controversy over the scores. The game was played by play over the P. A. system which was among the many installations of the Jaycees. The unusual performance at the game was enhanced by our school band.

The Homemaking Department is using the latest and by far the most beautiful of the five new sets. These are a great improvement to the department. The Agriculture and Band Departments are the possessors of new sets. These are metal folding sets and are much more comfortable than the old ones. Let us show our appreciation for these wonderful improvements to our school by making our school a more pleasant place in which to obtain our education. We are indeed grateful.

ads save money.

If you happen to be of the female species, bring a box crammed full of nice things to eat. If you are not come anyway and we will guarantee you a delicious supper, out of a box, that is.

We wish to issue a special invitation to the parents and the other citizens of the town.

The money goes for a worthy cause the Junior-Senior banquet, which is the most looked-forward-to event of the year.

Here's hoping we'll see all of you Tuesday night at the gym.

Band Takes Trip to Childress Fair

Floydada High School band took their first trip Wednesday, September 17, to the Childress State fair. The band members left Wednesday morning at nine o'clock to get there to march in the parade at one-thirty p. m. After the parade each band member was given a coupon book to the fair.

All of the different bands met at the football field at 7:00 p. m. to march before Colonel Arnold Ames, who is to send his criticism to the different bands.

The high school band lined up on the goal and after the cornets announced the coming of the band, began marching down the field playing "On Wisconsin". After hitting the last note the band fell into the "disperse march." Several round corners were then made and a C was formed in front of the judges. The drums stopped beating and the members yelled in cadence "Yeah Childress". Then flank movements were made in order for the band to get back in formation and march off the field.

Every member reported a very enjoyable and beneficial day.

Box Supper Tues. Night At the Gym

The Whirlwinds greeted an extremely large crowd for their opening game Friday with a win over the Tulia Hornets.

Tulia received the kick-off but a hard charging Whirlwind line allowed them only a few yards before forcing the Hornets to kick.

The Whirlwinds took over on their own twenty-seven yard line and continued down field where Jones, the workhorse of the seventy-three yard sustained drive, plunged over for the first tally. The conversion was wide and the score stood 6-0 at the end of the first period.

The Whirlwinds wasted little time in crossing the goal again. This time Grigsby took a forty yard pass from Hale, the man down under, and raced across. The conversion was blocked. The two teams made little progress until the half ended with the Whirlwinds out front 12-0.

The third quarter was a wild one although neither side scored, this period was one of continual fumbles, penalties, and punts. Tulia began to dominate play in the third quarter but were practically stopped by a fumble.

Tulia then turned the tables in the fourth quarter by recovering a Whirlwind fumble and began to drive for the goal. Starks' passer was moving the Hornets on down until Grigsby stepped in front of one, plucked it out of the air and proceeded on his way ninety-two yards for six more points. Grigsby outran not only all eleven Hornets but also the officials. The try for point was blocked and this was all the scoring for the night.

Tulia, not to be denied, received the kick-off and with passes by Stark and end sweeps by Ramsey and Sanderson promptly moved down field and were only two yards from pay dirt when the whistle blew.

The Whirlwinds punted very few times in the game, usually gambling and sending Hale tearing up through center on quarter sneaks. The Whirlwind forward line bottled the Hornets back up most of the night but occasionally Ramsey or Sanderson would sneak around end.

The final score of 18-0 by no means an indication of how even the game was fought throughout. Tulia's Hornets were good clean sports and it is a privilege to play such teams.

The Whirlwinds have an open date this week in which to prepare for the Phillips Blackhawks who play here on October 3.

Roving Reporter

What is your criticism of the paper, good or bad? Roberta Garrett—I like it this year, 'cause it has more to it. I think it's real wonderful. Bob Jarboe—I like it. Connie Reeves—More craziness and it's o. k. by me. Billie Chowning—I think it's a swell paper but needs more De' Quacker.

Oh my, oh my, oh my! Me peeks into de lil' can. And oh -- what me did see! Juicy gossip from every fan!

Rose was seen lately talking in the halls to Bradford Beedy and Deral Young. Wonder what's going to happen to them? ? ?

Well Grace, you seem to like Aubrey pretty well from what I hear -- to bad we aren't having per rallies more often.

Dorothy Anderson has been seen with Douglas Beedy. How interesting! ? ?

What's this I hear about Jennie Chowning going with Charles Beedy and Edward Jarrett Thursday night. Jennie, what will Bobby Bishop think! ? ? ?

Don Boothe doesn't seem to be grieving over Barbara Terry very much. It seems to me he has been with Gladys and Lee lately.

David Nichols and Darlene Johnson seem to be getting along pretty well.

Randall Warren and Freida Powell were having fun Saturday night at you know where --

It seems that Barbara Dutton is doing all right in her classes -- and I don't mean her lessons.

Oh, Dorothy, what has happened to Pete lately? Losing interest? ? ?

I heard Dale Johnson ask Mary Alice Plumlee if she went steady or was she just stubborn. What else happened? ? ?

Could it be right that I heard Joy Bunch say Thomas Rucker was sweet? ? ? It looked like it Sunday afternoon in the car? ? ? Ain't love grand? ? ?

Ruth certainly is getting stuck or Gene Payne. Why don't you go to see him, Ruth? I heard he was in the hospital.

There seems to be a new romance in bloom. None other than Tom and Ruth Maxey. Huba!

La Juana McAfee and Don Probasco seem to be getting along okay in this period study hall.

June Britton and Evelyn Holder really go for the Lockney boys. They were seen with Ted Livesay and Calvin Pyles. What happened to Buddy, Evelyn? ? ?

June Dunford was with Kenneth Burgett the other day. Maybe a new romance blooming? ? ? I wonder? ? ?

There are a bunch of girls that have been swooning over Dub Threadill. Come on Dub, give the poor girls a chance.

There seems to be a false rumor running around. Stanley Conner went with Kate instead of Peggy My! My!

The Floydada boys are losing out Lou Reta and Joyce have found some cute Brownwood boys.

Norma Britton wishes she were in Ward School again because a certain Jack Hutchinson is there and is he cute!

Dorothy Clayton has given up the idea of going with Welms Norman

Gladys Roberts—Make gossip out of more people and it will be grand.

Thomas Amburn—Well, so far it's pretty good. Need more gossip, as long as my name's not in it.

Carlene Daniels—I thought it was good last week.

Betty Laster—Helps to keep up with school activities.

Claude Parrish—I think it helps school spirit 'cause kids are always looking forward to the paper coming out.

Junior Perry—Needs some good reporters, otherwise it's o. k.

Wade Payne—Well, it could have a little more of every thing particularly gossip-juicy gossip!

Leonard Grigsby—O. k. by me just like it is.

Billie Hopper—I think it's wonderful. Thumbail sketches are something kinda different. But as far as the paper goes, it's super!

Jennie Chowning—I think it's just pretty good.

Leslie Crabtree—I'd like to have more novelty poems and feature columns.

Dorothy Clayton—It should have more comedy in it.

Jane Johnson—I think you need to vary it. The same people are in it all time. And more gossip.

Class Meetings Pick Candidates Carnival Queen

The four classes had meetings the fifth period Friday to select class candidates for the Junior-Senior carnival queen. With much ado, the candidates were elected.

The Senior class nominated Ruth Elaine Harmon, Bessie Jean Bybee, Billie Hopper, and Betty Lou Tye. Ruth Harmon was elected. Chairman of the business committee is Thomas Amburn, and his assistants are Norma Carpenter, Rusty Rucker, Betty Tye, and Fred Corner.

Those nominated by the Junior class were Christine Jones, Hope McIntosh, Roberta Garrett, June Powell, and Jane Prizell. Christine Jones was elected. The business committee consists of Barry Rossen, Verna Laster, Roberta Garrett, and Welms Norman.

Of the Sophomore class, those nominated were Ruth Smith, Dorothy Bishop, Betty Laminack, Johnnie Rutherford, Sherwyn Pyffe, and Pal Hennessy. Ruth Smith was selected. Her business committee is made up of Sherwyn Pyffe, Peggy Collier, Sammie Shultz, Bobby Durham, Dorothy Bishop, and Molly French.

Floydada Aggies Are at it Again

The Floydada Aggies are at it again. They have extended the board walk out on the east stand enough to allow the pep-leader ample room for leading their yells for the football games. The Ag boys have given both stands some overhauling and have numbered the reserve seats.

The chapter is practicing for the Greenhand initiation which will take place next week.

Fashion of the Week

On the avenue, in the school corridor, in the ball room, everywhere you look it's legs and legs and more legs—but not on display, on the contrary. They are very well concealed by new length skirts. These skirts as you know must be from ten to fourteen inches from the floor to be in good style.

Boys, don't make too much fuss about the long skirts because to be in good style you must have your trousers four inches from your show toes. That is the latest account but if the trousers keep going up the young men may be wearing peddle pushers to church before long.

For the Freshmen class Mary Young, Katie Collier, Lee Hutchinson, Doris Dyer, Billie Newberry, and Ruth Massey were the nominees. Mary Young was elected. Her business manager is Katie Collier.

The race is on! Let's all get busy and help our candidate to win. It's up to you!

Jaycees Present Flag to the Band and Floydada High

In a very impressive service the Jaycees presented the color guard to the band Friday night. The band lined up on the goal line and marched down the field playing "On Wisconsin." With the last note, the band fell into the disperse march and came back in front of the stadium.

Mr. Guy Ginn, representing the Jaycees, presented the United States Flag and the Whirlwind Flag to the band and the school. Mr. Graver made the speech of acceptance. The lights were turned off, and a spotlight shone on the United States flag while the band played the "Star Spangled Banner." The Spotlight then shone on the Whirlwind Flag while the band played the School Song. The lights again flooded the field while the band marched off.

We want to take this opportunity to express our thanks for the beautiful flags given us.

Weaker Sex

Well, frankly speaking, girls are bad. They conquer happiness and make you sad. While all of us (boys) could do without.

We all have girls, there is no doubt. With this in mind, and knowing it too.

What is the stronger sex going to do? Well, frankly speaking, what's to do?

We stronger sex should try something new. But politely and gently say, "Best of greetings on this sunny day."

Working to classes is strictly taboo. Unless the sals have fallen for you. If this be the case, be not a fool. Walk about freely, while the weaker sex drool.

So let it be said, now and forever, While some boys gripe and say "never".

That other boys a chance given, Will love the weaker sex through fire and oblivion.

Make Platform for Pep Leaders

The platform on the new stadium for the pep leaders is the latest attraction at F. H. S. The platform was built by the F. F. A. classes and we take this opportunity to express our thanks to them. Also we wish to thank Jimmy Willson, who contributed the lumber.

The Pep Squad reminds all the fans to buy at the two new stands. The J. C.'s are in charge of them and a certain percent of profit goes into a fund for the annual banquet in honor of the football team.

Beat Phillips!

Candid Camera

If you think a girl could never fit this dream description, remember, please, the "cameras never lie." This week I have a model subject.

Long blonde hair, big greenish-grey eyes, with 5 feet and 5 inches plus 113 pounds of luscious curves.

I am speaking of the girl who has had our band into fame. Billy Francis Sisson. Better known as "Biff", she was born in Floydada on April 19, 1931. She is a remarkable girl, with a zippy personality and self-confident smile that is unforgettable.

Among Biff's innumerable like are all foods (mostly French-fries) long, low limousines, red, blue, and green, Revin's "Spring" and Mrs. Jones. In Biff's estimation, comfort and "skirts and sweaters" are synonymous, and Mr. Haden is an amazing person. Biff likes to be around people who have the kind of vocabulary that keeps you spinning in circles. Twirling is her combination of a pastime and hobby. Her idea of a good movie is "Little Mr. Jim" Guy Madison is Biff's conception of the "Dream Man" and Ingrid Bergman is the ideal actress (beauty and brains combined). "Pee O' My Heart" is currently Biff's favorite song.

To quote: "My most scardent moment was leading the band out on the field for the first time." Biff's biggest wish would be to go to George Pepperdine, every girl's dream college. To lead the F. H. S. Band down Fifth Avenue, New York City is Biff's secret desire. Take this description and match with the girl who is continually saying "Ah-ha", and that is "Biff" Sisson.

People who talk about other people and the color, orange, stand alone as Biff's dislikes.

"Six feet, two inches of mountains of muscles, blond hair, blue eyes, and just plain 'Hefty' is Biff's description of the perfect man. He must be athletic, not too intelligent but sufficiently so, friendly, willing to take a girl places, dynamic, but not dangerously so. All this and a flashing smile is enough for any girl. Yes, Biff has it all planned.

To get up at 10:00, eat very little breakfast, go horseback riding, lunch on steak and all the trimmings, an afternoon swim, and finally see the Whirlwinds beat Phillips is Billie Francis idea of a perfect day.

Biff is very proud to lead the band. In fact, she is just plain proud of the band for its remarkable improvement. Back of this is an eternal gratefulness to Mr. Hader for all he has done.

We say to you, Biff -- "You haven't done so badly yourself."

Can You Imagine?

Cardinals Date Baseball Try-Out Camps in Texas

ST. LOUIS, Mo.—Fair Park field Seymour, Texas, will be the scene of a baseball tryout camp Friday and Saturday, October 10-11, which will be conducted by the St. Louis Cardinals. At the conclusion of this camp, the personnel will move on to City park, Stephenville, for another two-day camp, Monday and Tuesday, October 13-14. These camps typical of more than 60 such camps already held by the Cardinals all over the country this summer, will be open free to all players who aspire to careers in professional baseball.

Fred Hawn, scout hawk of the St. Louis Cardinals.

Try-outs at Seymour will begin at 1:00 p. m. Friday and 10:00 a. m. Saturday. Both workouts at Stephenville will get under way at 10:00 a. m. The camps will be under the supervision of C. A. "Runt" Marr and Fred Hawn, veteran Red Bird scouts and former minor league players and managers. They will put the aspirants through drills in running, fielding, hitting and throwing. There will also be regular games played between teams made up of players in attendance.

Every boy in this vicinity who feels that he has what it takes to become a professional baseball player is invited to enroll for a tryout.

Players should bring their own gloves and baseball shoes, and uniforms if they have them, as the Cardinals do not supply this type equipment for their trial camps. All expenses incident to attending the camp will be refunded to any players signing contracts.

Be wise—Advertise.

Mrs. Harry Morckel and her mother, Mrs. J. H. Buchanan, returned last week from a vacation visit of the west coast. At Los Angeles, they were guests of an uncle, J. W. Buchanan and family. Misses Nancy and Karen Buchanan, who spent the late summer with the Morckels here, returned to California with their aunt and grandmother.

Floydada Edges Tulla Out 18-0

Floydada fans saw the Floydada whirlwinds turn in another winning performance this week in a thrilling game with the Tulla Hornets.

The game was much better than the previous one, which was a more or less one-sided affair. The game was one-sided in both halves, however it was a close game in the first half and Tulla in the second.

Tulla won the toss and elected to pass. Floydada elected to defend the goal with the wind in its favor slightly. Grigsby took the ball to the Tulla goal line where he returned it to the twenty yard line. Tulla couldn't get going after three plays were forced. Floydada took the ball on their own thirty two yard line and made a steady march down field to a T. D.

Jones Makes Touchdown

All the backfield deserve credit on this march as well as on their other efforts on their carried the ball making gains through the line. Jones was the ball carrier on a center plunge from the line. Conner found himself hindered on his attempt at conversion, which was blocked.

Grigsby kicked again to the ten yard line where Tulla took the ball and returned it to their own thirty yard line. After a few downs yardage gained, Tulla uncoiled a pass that proved to be so effective

throughout the rest of the game) good for 11 yards. A quick kick at this time that only went ten yards. Floydada took the ball and made some short gains, the quarter ending with the ball inside Tulla territory. Floydada had made 5 first downs and Tulla had made none.

The second quarter Floydada opened up with a lot of speed and within a few minutes after the opening play, Hale threw a 22 - yard pass to Grigsby who galloped the remaining 10 yards for the second touchdown of the game and the last for the first half. Conner again found himself rushed, and again his try at the extra point was blocked.

After the kick by Grigsby it was a different story. Tulla seemed to find it's timing for the first time and started a march that ended only after an interception on the 'Winds' eight yard line, by Jones. This showed to the stands as well as to the team that Tulla had a diversified attack and knew how to use it.

After taking the ball on their own eight, the Floydada eleven found it more difficult going and were forced to kick from their own thirty five yard line, the ball rolling dead on the Tulla thirty-five.

This ended the second period with Floydada making only two first downs and the Hornets making three. The score stood at 12 - 0 at the half time with a predominant "Green and White" half and a Tulla eleven coming back very strong in the second quarter.

Floydada received the ball on their own twenty yard line for their half starter. The very first play after the kick the 'Winds' drew a penalty from their own thirty two yard line back to the seventeen, for clipping a tough break. They came back strong to make another first down and were on the verge of making another when they drew another

five yard penalty for backfield in motion. This forced a punt from the thirty by Grigsby, which was blocked, to the thirty three yard line in Floydada's territory. Tulla covered the ball and started to go when the under man of the "T" was tackled and fumbled while trying to pass the ball.

Marfield covered the ball for the 'Winds, and gave them another try at offense, only to draw another penalty for offensive pushing, another fifteen yards. Grigsby kicked out of danger with a nice forty-seven yard kick, the ball ending up on the Tulla thirty-eight yard line after a short run back.

Tulla made one play and a first down when they fumbled and Floydada again covered the ball on their own forty-five yard line. They had only started their running attack for a few long gains when the quarter was over.

Tulla Goes on a Ramage

The first play in the fourth period Floydada fumbled and Tulla recovered on their own forty-five. From there it was a steady march, by the Hornets, over the line, around end and in the air to put themselves in a scoring position on the Floydada ten yard line. The next play, however, on a pass to the flat, Grigsby stretched and took the ball at a dead run, for ninety two yards to yard dirt, which not only netted Floydada another six points but also stopped a very serious scoring threat by the Hornets. Conner's try at the conversion was wide and the 'Winds' were now 18 to 0 which the Tulla Hornets could hardly expect to equal in the time remaining for play.

The kick off by Grigsby was taken on the eight yard line and returned to the ten. Again the Hornets were on the march and with the same timing and accuracy they opened their bag of tricks pushing the Floydada eleven back toward their own goal. After a long march of eighty five yards using passes, as well as sweeps and reverses, the game ended, and their most serious threat died on the Floydada five yard line.

The Tulla team looked to be in better condition than the Whirlwinds, and where the 'Winds' seemed to weaken, the Hornets seemed to grow stronger.

The Hornets, in the last half, had made one first down in the third period and ten in the fourth, to smother the 'Winds' three first downs in the third and none in the fourth.

"We" won the game, but we did learn that there are teams that can and will make us sweat, before we can say the game is ours.

Three Floydadans Leading Aspirants for Westex Squad

CANYON.—John N. (Johnny) Cardinal, Eddie W. (Ed) Conner and Bruce Womack are leading candidates for their positions on the 1947 West Texas State College football team. Duane Byars, of Lockney, has had a permanent berth on the first string squad since last season.

Johnny, Ed and Bruce are freshmen and have 4 more years of varsity eligibility left. This is the last season freshmen will be eligible for the varsity in Border conference.

During his long coaching career which started in the late 20's at Wayland college, Kimbrough gained a reputation for fielding versatile offensive teams.

Using the T-System

This season Kimbrough will use the T-system, and has developed plays to best fit his material and to best fit his notion of fox football. Passing is utilized in the Kimbrough attack in such a way as to make spectacular entertainment for fans. His aerial attack is not the only weapon which strikes with lightning suddenness. He has added to and improved upon his ground offense which always has been replete with quick opening plays and slick ball handling.

When indications pointed toward a vastly increased attendance for this season Athletic Director W. A. (Gus) Miller set about to do two things so Buffalo and Kimbrough followers throughout the Panhandle could have opportunity to see game in Canyon.

Stadium Capacity Doubled

The first was to double the seating capacity of Buffalo stadium. This has been accomplished with the erection of permanent seats on the East side of the gridiron.

The second was to place advance

Schedule for the Week-end

The schedule Friday for the teams in district 4-A:

Floydada open, Ralls open, Crosbyton vs. O'Donnell at O'Donnell; Lockney vs. Friona at Friona, Paducah vs. Wellington at Wellington; Matador vs. Dalhart at Dalhart, and Spur open.

Last week's scores in district 4-A: Floydada 18 Tulla 0; Ralls 6 Leveland 27; Crosbyton 6, Muleshoe 7; Lockney 30, Abernathy 6; Paducah 19 Crowell 13; Matador 21, Turkey 7; Spur 6 Post 6. None of the conference games have yet been played and very few teams have had the same opponents making this third game one of the hardest to predict for any of the District 4-A teams.

Band Really Marching

At the half Director Clyde Haden's Floydada High school band showed the results of practice and work in its precise formations and marching. Stragglers and out of step marchers were noticeably absent. Their musical endeavors also are improving, and the heavy loss the band sustained in war years in bringing up re-inforcements for musical side of school activities is being made up for with the director crowding some willing pupils.

The Green Peppers of the high school pep organization, are well organized and did a valiant job.

Jaycees Present Colors

One of the impressive features of the display at the half was the presentation of a gift from the Junior Chamber of commerce to the school, the gift being an American flag and the flag of the high school. While the flags the color guard and bearers were spotlighted a brief presentation by Guy Ginn, president of the Jaycees, was responded to on behalf of the school by Superintendent I. T. Graves. The Jaycees boys used money they made this summer at the softball stands to purchase the flags. Members of the Jaycees gave many hours individually to this job and are carrying on again through the football season, working with the Pep squad. The added interest to the game through the Jaycees sound system announcements also were noticeable.

CHOICE is the keynote of today's career

Would you go to Europe, Japan or Korea? Or would you stay near home? Any man who has had prior service in the Armed Forces may elect to do any of these things if he enlists in the Army now for 3 years or more. He can choose to be assigned directly to duty in Europe or with one of five famous Infantry divisions in the Far East. Or he may choose to be stationed near home for the first full year of his enlistment (where there are vacancies). Men with or without prior service may choose one of the famous combat divisions in Japan or Korea.

Would you select a career in aviation? This you can do, and be guaranteed the training you choose before you enlist! Only requirements beyond regular physical and mental examinations are that you be a high school graduate, or that you are in the Air Force and can qualify. It's today's great opportunity to write your own ticket in the Air Force.

Would you want to learn to fly? If you are single, 20 to 26½, and have had two or more years of college education or the equivalent, you can become an Aviation Cadet with the U. S. Air Force. Nowhere else can you get better training, for nowhere else is aviation advancing as fast or as far as in our own Air Force.

Would you go to a leadership school? If you have qualities of leadership, would you want to develop them to their fullest? U. S. Army Leadership Schools are now selecting likely candidates from servicemen to take these valuable courses.

The Army and Air Force are doing everything possible today to help each individual develop along the lines that he picks for himself. Army and Air Force training is thorough and take-home pay is better than most civilian jobs. Opportunities for advancement are wide open to every man in uniform. Make your choice today at your U. S. Army and Air Force Recruiting Station.

Clothing Appeal For Overseas Relief

An urgent appeal is being made by church agencies for clothing and school supplies for overseas relief. The needs of people in Europe are staggering as the winter approaches. The First Methodist Church in Floydada is receiving clothing and school supplies during the present week and next week. The Women's Society of Christian Service is sponsoring this drive which will close October 5.

Only clothing that are clean will be accepted, and in so far as possible all garments should be mended and missing buttons replaced.

The women of the Methodist church will pack and ship these things to the church agencies which will distribute them in the countries where they go.

Garments should be brought to the Methodist church as soon as possible and none should be brought after October 5.

First Methodist Church Services

All regular services will be conducted at the First Methodist Church next Sunday, September 28. Sunday school for all ages is conducted beginning at 9:45. Morning worship begins at 11 o'clock with the pastor, Rev. Lloyd H. Jones, bringing the message. The pastor will speak also in the Vesper Hour which is conducted from 5 to 6 o'clock each Sunday afternoon.

The Plainview District officers of the Methodist Youth Fellowship are to meet with the youth council at 8:15 Sunday evening. The regular M.Y.F. Sunday evening meeting will follow at 7 o'clock.

IN NITA PA'S MEMORY

By Ivy Pearl Simmons

We loved her, and we miss her. She always had a smile. For any who chanced to pass her way; She has left us for a while.

Nita befriended all people; No matter of race or creed. Would cause her to cast them aside. She helped them if she saw a need.

Our Nita has gone to her Master; She was prepared, are you? When you hear the call of the angels, Will you be ready, too?

Revival Continues At Local Church

Evangelist Roy Sapp, assisted by his brother, Benny, is conducting this week at the Assembly of God Church, 323 West Virginia Street, when the new officers will be inducted.

The young evangelists have been on the field in the West Texas district for some time and are bringing soul stirring gospel messages in sermon and song as the revival progresses each night.

The public is cordially invited to attend these services, said the pastors, Rev. and Mrs. W. U. Stephens.

MULLIKIN RESPIRATOR WILL BE DEMONSTRATED

At the regular meeting of the members of the Floydada Fire department on the night of October 6, a representative of the fire department of Dallas, will be present and demonstrate the use of the Mullikin respirator. The respirator is similar in use to the iron lung owned by Floydada.

Mullikin respirators have been delivered to Crosbyton and Paducah Floydada citizens, who are interested in seeing how it works are invited to come and be present for the demonstration.

Mr. and Mrs. Homer Warren of Floydada and Mr. and Mrs. Robert Warren and son, of Lubbock spent the latter part of last week visiting in Dalmerfield with Mrs. H. M. Warren's parents, Mr. and Mrs. C. W. Pollan.

RUPTURE SHIELD EXPERT HERE

H. M. SHEVANN, widely known expert of Chicago, will personally be at the Hilton Hotel, Lubbock Sunday and Monday only, October 5 and 6, from 9 A. M. to 4 P. M.

Mr. Shevann says: The Zoptic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly no matter the size or location but it will increase circulation, strengthen the weakened parts, and thereby close the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume.

A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments. Mr. Shevann will be glad to demonstrate without charge.

6509 N. Artesian Ave., Chicago 45 Large incisional hernia or rupture following surgical operation especially solicited.

Millionth TELEPHONE IN TEXAS

Less than 10 years ago—in 1938—Texas had only half a million telephones!

On V-J Day—just two years ago—Texas had 750,000 telephones!

Thus, Texas has added as many telephones in less than 10 years as were installed in the previous 60 years! And despite postwar shortages, we've gained more telephones in Texas in the two years since V-J Day than were added in the 10 years preceding the war!

Yet—despite this record, 137,000 Texas families and business concerns are now on the waiting list for telephones. Although we're installing service several times faster than ever before, it has been impossible to connect telephones as fast as Texans are applying for them.

WE'RE PROUD to be growing with Texas. And, we're hard at work on the biggest telephone expansion and improvement program in the history of the state. We shall continue to do everything within our power to bring telephone service, as early as possible, to everyone in Texas who wants it.

INSTALLATION of the millionth telephone is a historic milestone and a far cry from Texas' first telephone, installed in 1878, connecting Col. A. H. Belo's office at the Galveston News with his nearby home!

Conservation District News

As yet the parts needed to complete the grass seeder, recently purchased by the Floyd County Soil Conservation district, have not been received. This has hampered in some respects, the seeding of pastures, and the Supervisors are hopeful of receiving these necessary parts in the very near future.

In a regular meeting of the board of supervisors on Tuesday of this week, the following applications for soil conservation work were approved: Barney Manning, James W. Cope, M. E. Latham, Homer Robertson, Roy P. Wilkes, Marion Tucker, Austin B. Meriwether, Bill Jackson, B. A. Robertson, R. L. Crawford, Guy Jackson, Sterling Cummings, A. P. Sanders, Paul Hays, W. C. Widom, Kendall Cummins, Z. C. Cummings and Ernest Lee Thomas.

Agreements with the local District were approved for the following: C. T. Pose, E. A. McLeod, J. C. Billington, Guy Jackson and J. C. Ginn.

Mrs. Fay T. Taylor, a district cooperator in the Edgin group has just completed a system of terrace where a diversion was used to divert the drainage from the road into the pasture.

Lloyd Allen, who operates the E. A. Grigsby farm in the Treadwell conservation group, has just completed construction of a system of diversion terraces. This system will not only help control erosion, but will also help Mr. Allen irrigate some of the steeper slopes.

Horton Howell, a cooperator in the South Sterley conservator group has just developed a new well on some wheat stubble. He was assisted in laying out a system by the local Conservation Service technicians.

W. M. Goode, who farms in the North Barwise conservator group has just overseeded some fairly good pasture. Mr. Goode is also getting ready to seed some improved pasture. The pasture already established in that district have furnished a lot of grazing this year, despite the fact that it has been so dry.

Bad Luck Shadows Football Reporter of Amarillo News

Residents of Class A and B football towns of the panhandle and south plains have been pleased with the play which their schools and football teams have been getting in the Amarillo News and Globe-New from Frank Godsoe, who has the assignment.

Floydada fans and the Whirlwind team as well were somewhat flabbergasted last week when Godsoe placed the "Winds" as the No. 3 team of the first 10 in the region and ever more so when he raised the team another notch this week and placed it in the No. 2 spot in Class A. However, his writing made interesting reading. The fans and the team are not so sure because three-year-olds of last year's team are not playing this season, the team considers it is not exactly enough and several shifts have had to be made to take advantage of reserve strength.

How to Utilize Small Tomatoes of Late Crop

There are a number of uses for small tomatoes. Chile sauce and preserves are two interesting possibilities and recipes for them are given by Miss Leila Petty, County Home Demonstration agent.

Tomato Preserves
1 pound ripe tomatoes
1/2 cup water
1/2 pound sugar
1 lemon
1 large piece gingerroot

The small tomatoes such as the yellow pear-shaped or red Porter are best for making preserves. Remove skins. Tomato juice may be used instead of water. Place sugar and water in large kettle and boil 5 minutes. Add lemon which has been sliced very thin. Boil 5 minutes, then add tomatoes and gingerroot. Boil until the tomatoes are clear and the syrup is about the consistency of honey (about 45 minutes to 1 hour). Remove foam and scum, pour at once into hot sterilized jars, and seal.

Chili Sauce
5 quarts peeled, cored and chopped ripe tomatoes
2 cups chopped sweet red pepper
2 cups chopped green peppers
1 1/2 cups chopped onions
3 tablespoons salt
1 cup sugar
3 cups vinegar
1 teaspoon cloves
1 teaspoon allspice
1 teaspoon cinnamon

Combine the chopped vegetables, the salt, and sugar, and simmer the mixture until it begins to thicken. Then add the vinegar and spices and cook the mixtures down until it becomes a thick sauce. Pour into hot sterilized bottles or jars and seal airtight. This recipe yields about 3 quarts of sauce.

versed in the first report and the Hornets given credit for winning the game in the News, an error easy enough to account for in the fact that the big news in Amarillo Friday night was the crucial baseball game in the WT-NM play-off. Saturday night the correction came through and that was fine.

But Monday morning when Godsoe's dope story broke he had picked up the Friday night score again and there he was in another mess so far as Floydada was concerned. Coach Gresham called the sports writer to commiserate with him and suggest a re-write, and others called the sports department of the News about the error.

Peculiar thing about folks. Godsoe gave the Floydada school and its starring end Leonard Grigsby a whale of a build-up Wednesday in the News. He knew the story went over good—because not a hummer from Floydada called him up.

Yelow Tomato Preserves

2 quarts small yellow tomatoes
1 lemon
3 cups sugar
1 teaspoon salt
4 tablespoons ginger root or thinly sliced candied ginger

Wash and dry tomatoes. Cut thin slice from blossom end and press out seeds. Put tomatoes into preserving kettle, sprinkle sugar and salt over top, simmer until sugar is dissolved then boil slowly for 40 minutes. Wash and cut lemon into wafer thin slices, remove seeds. Add lemon and ginger (cut in small pieces) and boil 15 minutes more. Pack while boiling hot into hot sterilized jars and seal immediately.

Chili Sauce
5 quarts peeled, cored and chopped ripe tomatoes
2 cups chopped sweet red pepper
2 cups chopped green peppers
1 1/2 cups chopped onions
3 tablespoons salt
1 cup sugar
3 cups vinegar
1 teaspoon cloves
1 teaspoon allspice
1 teaspoon cinnamon

Combine the chopped vegetables, the salt, and sugar, and simmer the mixture until it begins to thicken. Then add the vinegar and spices and cook the mixtures down until it becomes a thick sauce. Pour into hot sterilized bottles or jars and seal airtight. This recipe yields about 3 quarts of sauce.

Finns in Business Year This Week

This week marked the end of a year of business in Floydada for Ted and Dub Finn, operators of Finn's Service Station on Highway 70 east.

Speedy disarmament, demilitarization and campaigns against warmongers may be all right, particularly after the nation has gone through a war as costly and bitter as the last.

But it can be carried too far. When it reaches a point where an Army top-kick must wheedle and cajole raw recruits without resorting to the tiniest bit of profanity, the Army is in grave danger of becoming smug-pamby, Pathfinder warns.

For, according to a War Department order, profanity is out. Veteran non-coms can no longer pound a campaign hat into the dirt and roast the bristles of a yardbird with two left feet. And even worse, Ground Forces Gen. Jacob Devers who banned the nasty (but result-producing language) says that henceforth the cultural aspects of soldiering will be emphasized.

This can lead anywhere. As Deavers says, much can come from amateur theatricals, art classes, singing lessons and dancing.

The general may be right. But the thought of modern-ballet dancer Martha Graham taking over the morning's close-order drills may heap on Gen. Devers' shoulders more abusive language than an army of mule drivers might.

View 1948 Line of The Ford Trucks

DEARBORN, Mich.—District truck and fleet managers from 33 districts of Ford Motor company were given their first view of the new 1948 line of Ford trucks at a meeting in Dearborn, beginning September 15.

Plans for introducing the 1948 model Ford trucks to the public latest developments in the "Ford Trucks Last Longer" national advertising campaign, and the first section of the 1948 Ford \$300,000 truck sales promotion program were disclosed for the first time during the meetings.

Returning to their respective regions and districts the truck and fleet managers are arranging for series of dealer truck meetings to be held during November.

Not Incurable, Says Doctor Cox About Pyorrhea

ADSTIN.—Contrary to the popular belief that pyorrhea is incurable, this is only true in the most advanced cases. Dr. Geo. W. Cox, State Health Officer, advises those persons who even suspect the presence of pyorrhea to seek an early diagnosis from their dentist so that proper treatment can be instituted while the disease is still curable. "Early detection and proper treatment of pyorrhea represent the formula for a successful cure. This means that the dentist must have an opportunity to discover the presence of the disease at the earliest possible moment since the symptoms are often so vague that the patient is unaware of its existence," Dr.

Cox said. "Regular visits to the family dentist are therefore extremely important." The treatment of pyorrhea is not an involved procedure. In the average early case one of the main therapeutic features is the proper hygienic care of the teeth and gums as outlined by any reputable dentist. Carelessness regarding mouth hygiene is usually the basic cause for the condition.

The family dentist can usually remove the cause of the trouble, Dr. Cox said, and when this has been done, intelligent routine home care of the mouth by the patient will effect a cure in the majority of early cases.

Mrs. G. M. Pinkner spent last week in Amarillo with her daughter, Mrs. E. H. Lanier, Jr., and family. Richard Lanier returned with his grandmother to spend a week.

Mr. and Mrs. W. C. Whiteside, of Ardmore Christian college, Ardmore, Texas, visited Mrs. Whiteside's mother and father and family, the J. D. Kaves' here recently and Mr. Whiteside preached for the City Park Church of Christ on Sunday.

Barber Re-Union Held at Hereford

LOCKNEY.—A family reunion of much interest to the people of this area was held early in September when the seven surviving members of the family of the late Judge and Mrs. M. P. Barber met in the home of Mr. and Mrs. Frank Barber in Hereford. Several of the participants were either residents of Lockney or formerly lived in this county.

Overcoming time and distance the family met for the first time in many years and enjoyed association together again for a day. Those present included Mrs. Ther (Aunt Fannie) Griffith, of Sacramento, California; Mrs. M. L. Coleman, of Arlington; Mrs. E. W. King of Englewood, Colorado; Mrs. Eul-Merrill, of Nashville, Tennessee; Mrs. Virginia Cope, of Long Beach, California; Mr. and Mrs. Roy Barber, of Grand Prairie; Mr. and Mrs. Frank Barber, of Hereford; Mr. and Mrs. S. P. Barber and grandson Danny J. of Lockney; Mrs. Merle Newell and son, Milton, and Helen Ruth Barber, all of Hereford.

Report from Europe

By George Mahon

As reported from Washington several weeks ago, an act of the House of Representatives required the speaker to appoint a committee of 19 members to make a study and recommendation in regard to our program of feeding and financing Europe's foreign aid program. I was appointed as a member of the committee. There are 8 democrats and 11 republicans on the committee. It is headed by Christian Herter, a republican from Boston. The committee is working under mandate from Congress and is under great pressure to do a good job. The report of the committee may have a far-reaching influence on our future foreign policy at a very critical time in world history. The interests of the United States must come first and no aid to Europe should be recommended which will not also serve the best interests of America. The war has now been over for more than two years. What does Europe look like to a West Texan?

Food at Any Price

First about England. In going by train the 75 miles from the port of Southampton to London, I was struck with the intensity with which the land is cultivated. The grain was off the wheat fields but many other crops were growing. However they were not growing very well because England is in the midst of a terrific drought. I have since learned that most of Europe has been in a severe drought for about three months. This is making a marked reduction in the food supply. The clamor throughout Europe is for food, food! At home we complain at the prices of food but here the emphasis is on food at any price. I noticed in England that the victory gardens were still very much in evidence. In suitable areas the British are using such places as the right of way on the railroad for countless little gardens, and they are all well cared for. I went out in the country and met with what we would call the AAA committee for one of the counties. We looked at some of the farms. The farmers are doing a good job.

A farmer in England has to cooperate with the government program. If he fails to do so the government can take over his farm; but the farm committee explained that they had encountered no serious trouble in securing cooperation. England is far from being self-sufficient in food and the people are up against it. They are not producing enough manufactured products to sell abroad to acquire enough dollars to pay for the food from abroad which they need. They call this the dollar crisis. The monetary complications are hard to understand but the results are quite easy to see. The people are reducing their import of food and struggling to increase their exports, -- doing this to get dollars and prevent the collapse of the government.

In spite of the fact that more than two years have elapsed since V-J Day, the British still have a severe rationing system which apparently works much better than our OPA ever did. The severity of the program is indicated by the fact that each person is allowed only one egg per week and only twenty cents worth of meat per week. Gasoline is strictly rationed. Clothing and textiles are strictly rationed also, and while the British produce large stocks of clothing they are not released in quantity for local sale but are exported, the idea being to acquire more dollars to be used for the purchase of raw materials and food. The British are a sturdy lot. They are unwilling to admit defeat; they are determined to prevent the collapse of their country. This was the impression which I got in conferences which I held with officials of the British government.

Our officials feel that the collapse of England and Western Europe would mean Communism and the domination of all Europe by Russia. In that event the security of America would be seriously threatened. The most dynamic British official with whom we conferred in London were the Foreign Minister, Ernest Bevin, and the Minister of the Board of Trade, Sir Stafford Cripps.

Begin at Waist To Lengthen Skirts

LUBBOCK, Sept.—Women and girls who are making an effort to lengthen their skirts to conform with new fashions should begin at the waist rather than at the hemline, according to Miss Mabel D. Brown, head of the Texas Technological College clothing and textile department.

Thin fitting skirts will hang lower if side seams are let out a bit. Inserts in the waist of dresses to lower the waist line usually hold better than ruffles, pleats or bias pieces on the hem, she stated.

If sleeves on old dresses are sufficiently full, they may be removed and used for waist inserts and cuffs converted to jumpers, she suggested.

However, any alteration on a dress must be done very carefully, she said. Home Economics professor stated and a great many people would do better to go ahead and wear an old dress as it is, rather than to end making an unattractive home made looking affair.

You can't beat Mother Nature!

The Crude Is The Answer To Phillips 66 Fine Motor Oils

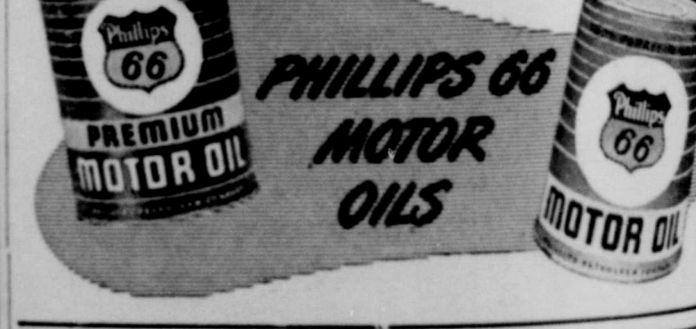

Mother Nature couldn't be beaten the day she made the Tiger Swallowtail butterfly—and she was doing a mighty fine job when she produced the crudes that go into Phillips 66 Motor Oils, too!

Then, Phillips special refining processes, Phillips practical skill and know-how, turned these exceptionally fine crudes into fine lubricants . . . lubricants that have what it takes to do an honest-to-goodness job of protecting your engine. Ask for Phillips 66 Motor Oil or Phillips 66 Premium Motor Oil.

Phillips 66 Motor Oil has made thousands and thousands of friends . . . and has chalked up an enviable record covering billions of miles of satisfactory performance!

Phillips 66 Premium Motor Oil is brand new! It cleans! It prevents bearing corrosion! It resists high temperatures and high pressures! In short, this oil is made especially for motorists who want something extra-special in lubrication.

You'll like them both . . . Phillips 66 and Phillips 66 Premium!

Texans Should Pledge Governor's Proclamation

JUSTIN, Sept. 22.—Commenting on Governor Beauford Jester's official proclamation of Fire Prevention Week in Texas from October 5 to October 11, Marvin Hall, State Fire Insurance Commissioner, said that it is of vital importance that each individual in the State heed the request of the Governor to actively cooperate in this program.

With a scarcity of housing, food and clothing, with the higher cost of living and a new high in fire losses in this country, Fire Prevention Week will carry a special significance this year, the Commissioner said.

Although Texans are enjoying the lowest fire insurance costs in the history of the State, Hall gave warning that if fire losses continued to increase that it would only be a matter of time before fire insurance would also rise.

The number of fires in Texas has steadily been increasing in the last few years. Hall pointed out, and has an all-time high. The same is true of the figures for the entire United States.

It behooves every man, woman and child in this State to promote fire insurance in the activities of their daily lives, Hall said, "and to continue to practice during the entire year, thereby accepting individual responsibility in helping to control the Enemy No. 1."

Stunt Man Has Diet of Razor Blades, Glass

Featured event at Central State Shows Friday and Saturday night will be Captain Frank Allen, who will be frozen alive in ice. Wearing only swimming trunks, Captain Allen will speak to the people over a microphone during the time he is being frozen. One show at 8:30 o'clock will be held Friday night with two Saturday night at 8 and 9 o'clock.

Captain Allen has an unusual show. During the week, he has been eating glass, razor blades and is Robert Ripley's hollow headed man. He takes the place of a lighter, having people light cigars and cigarettes from the flame coming from his lips. Another unusual feature of
