A. C. Goen: "There is more 'free' land in Floyd county than in any time in its history since land sold at \$5 per acre, in my judgement. Panics and depressions come when people are in distress."

O. T. Williams Chief of Korean Soil Service

F. A. Cunyus, a veteran soil conservationist, of Lockney, who is stationed at Amarillo, gives The Hesperian the news this week that O. T. Williams, former teacher of vocational agriculture in Floydada Public schools and area soil conservation worker in this area, is now chief of soil conservation work in Korea, where American army forces occupy the south two-thirds of the island.

Williams went over as soil conservationist for the Korean Military government. The job was known technically as CAF 11. Williams is now CAF 12. Cunyus announces with pride in the fact that Williams has a deserved promotion with a \$1,000 raise in pay, and "sure that all his friends in Floyd county will be glad to know."

Mr. Cunyus, who doesn't give his present status with the Soil Conservation service, says he spent one year and six months as chief auditor of the Civilian Supply section for Korea, which checked all civilian supplies for the years 1945-46-47. "Pretty rough living in Korea these days," he says, "with comforts of the U. S. totally lacking."

The United States is wasting quite a bit of money on Korea in the judgment of Mr. Cunyus who did not have an opportunity to give a bill of particulars in his brief communication.

Should any friends of Mr. Williams like to write him a note or letter his address is APO 235-2, Care Postmaster, San Francisco, California.

Showers Mix With Overcast Drizzle, Fog

Still without that deep season for a big spring jump off for a crop, Floyd county is suffering this morning from several days of overcast, fog, drizzle and showers.

Rains which have fallen in flood proportions in many areas downstate have not reached this area in quantities to produce overflowing bar ditches and swimming lakes. But the season has gradually worked down into the earth and the situation is fair to promising for the big small grain crop of the area should favorable weather follow.

The icy condition also has been lacking in this section and highway travel has been little impeded except for fog, although slowed down. Rising temperatures have occurred in the week since Sunday when a low of 21 degrees was recorded. Monday the low was 34, Tuesday 38 degrees and Wednesday 33 degrees.

Official rainfall in the period since Monday morning was recorded at city hall at 15-hundredths of an inch. Weather bureau forecast is for clearing skies this afternoon.

Keizer talked of "pre-emergence" control of weeds in beet crops. He said that some success—quite a bit in fact—had been experienced in the control of weeds—heading off the stop—by this pre-emergence process. You fit the land and just before the emergence of weeds you plant. Then before your broad leaf sugar beet plants merge, you destroy the weeds with the new war-discovered processes.

'Winds Tackle Tough Dimmitt in First Game

Luck of Floydada High School Whirlwinds turned a shade rough in the pairings for Regional play at West Texas State beginning Friday, when they drew the Dimmitt Bobcats and will play in the opening game at 2:30 Friday afternoon.

According to team records and newspaper speculation Dimmitt should battle it out with Levelland or Sudan for the Regional crown. Thus the bluntly-stated prospect is that the Whirlwinds ought to be through and done and back home shortly after the Dimmitt eager get through with them tomorrow.

District 3-A gets credit for being the weakest in basketball of any of the four in Region One-A. If this be true the "Winds won't have a lot to do when the first game is over except to gather up their gear and say their adieus.

They Played Good Saturday
But the Whirlwinds played a tremendously good game Saturday night against the Spur Bulldogs at Matador and they could be in the groove still when they get to Canyon for the regional tournament. Twice beaten by Spur in round robin play Coach Gresham's Whirlwinds took the play-off series two games to one. The Saturday night clincher score was 58-42. Coach Gresham and his boys are admitting nothing until the score is in.

Rails is the District Three winner with only one defeat, that by Floydada early in the season, against them in the double round robin. Each district sends two teams to the Regional, the winner and the runner-up.

The Jackrabbits had practically as bad luck in the drawing as the Whirlwinds did. They drew Sudan in the stand-out in District Four, for their first game, due to be played beginning at 7:00 p. m. Friday. Sudan goes into the Regional with the prospect of battling in the finals.

February Permits For Building Lower Than for January

Business will have to pick up quite a bit in the building line in the two remaining days of February for this month to equal the record of January in building permits issued at the city office.

Yesterday permits had been issued by City Secretary B. K. Barker for only five permits, all dwellings or repairs to dwellings, with in the city limits in the month. Total value of the five was indicated nominally at \$7,475.

Ten Permits in January

January started the year of 1948 off with a fair to good list of permits, 10 in all, two of which were for business establishments, and eight for dwellings. Total nominal value was indicated at \$34,300. Biggest January permit was for \$10,000, the least for \$800.

JC's to Honor Guy This Eve Preceding Talk

Floydada Junior Chamber of Commerce is making special plans for a dinner this evening at 6:30 o'clock to honor Chas. A. Guy, Lubbock journalist, who is in Floydada to

make an address on Germany and mid-Europe at the high school auditorium.

Mr. Guy's address will be heard at 8 o'clock under the sponsorship of the Lions, Rotary, B & PW club and Jaycees. There will be no charge for the evening's program. A general invitation has been given out to hear the newspaperman's factual report on conditions in Germany and get his interpretation of the situation in Europe as it is likely to affect American people.

Guy's report will be that of a trained reporter who visited men in high places and also went "out on his own" to see people in every-day walks of life and get their story as well as that of the Army of Occupation. He was one of 20 American newspapermen who went on invitation of General Lucius D. Clay with full permission to see and report without any restrictions.

The Lubbock newspaperman, writer of the plain-spoken "plansman" column in the Avalanche and Journal, and editorial policy-maker for these newspapers, was to have been heard earlier in the month but icy roads and lack of warmth incident to mid-winter cold prevented.

100 Plates to Be Laid
The dinner honoring Mr. Guy will be held at Fellowship hall of First Christian church, Guy Ginn, president of the Junior Chamber of Commerce, said yesterday. One hundred plates will be laid. Some but little speech-making will be heard at the banquet, which the Jaycees have arranged to honor the visitor and give numerous local people an opportunity to break bread with him.

Steel is a fair to good barometer of what is in the offing. Never saw a depression that was a real one, unless steel was begging for customers. At this time steel mills have orders piled up for at least a year and could stand for half of their orders to be cancelled and still be going full blast. This doesn't mean there won't be an early over-supply of a good many things and a consequent buyer's market in them.

Easily Taken in: The Hesperian was taken in, years ago, by the exchanges, the Commodity Exchanges, the New York Exchange and all the others. The result of this work of the devil leaves us thinking that exchanges cut business risks, lower costs of food to consumers, render an essential service to producers. Going further we do not think prices are fixed by the exchanges, we think they safeguard the consumer, make a more even market for the producer . . . and that they have just made a free market in contrast with a "gumint" market which finally gets around to market a la Russ. Over there the government giveth and the government taketh away. Here government regulates but does not control. The government cannot keep a lamb from getting himself fleeced on the commodity market any more than it can keep the lamb from getting fleeced on a sale of his land or his wheat—or on the purchase of the same.

What we would like to say to any who may read this: No government agency should be allowed to tinker with commodity margins. The government's role should be that of an umpire. The Grain Futures Act, for instance, is good because it was designed to guarantee that the markets should really be free—free of the suggestion that they are rigged or that prices are improperly influenced. New proposals of our government are of an entirely different stripe. In effect, they propose that the government go into the market rigging business. When you get down to it the sole objective is to try to manipulate prices by manipulating margin requirements. Is that not the fact? The Hesperian has, indeed, wandered off after the flesh and the devil!

Generally when as many as three men get in the race for an office there is another one or two to make it unanimous and generous, so that the state senatorial race, with three men in now, should attract another one or two who figure they can possibly make it into the run-off and then whip somebody in the single-handed contest that would follow for the majority vote.

Perhaps the job of senator in Texas, meaning state senator, is the most highly prized job in the state. In many respects a state senator has the prize job of the lot. Although his salary is low he certainly gets respect from all and sundry, including the heads of the scores of heads of bureaus and commissions that go to help make up the state's official personnel. When a man gets to be state senator he really has arrived somewhere. And the fact that he has been senator is an honor that stays with him as long as he lives. Whether it is that way in all of the states we do not know. But in Texas being a senator is being a senator!

The State Bar of Texas is on record as backing the fight of the states against the encroachment of the federal government as pointed up in the "Tidelands decision" of the Supreme court last year. "We feel a responsibility to the people of Texas to assist in informing them of the dangers inherent in this new philosophy of Federal-State relations," says a recent letter from the State bar written from capital station, Austin. We are glad the Attorney General of the state has this strong backing in presenting Texas' point in this matter which seems to us is extreme folly for the American people to permit. To us, as to the lawyers the opinion of the "paramount rights" doctrine "is so broad in its implications that under it the Federal government can appropriate for its own use, and without just compensation, any property, public or private, anytime it sees fit to declare or asset a 'paramount interest'." Unless we are much mistaken the principle involved is far and away more important than the immediate money consideration involved, immense as that is. We have been unable to "see" the other side in this matter.

Budget requirements, as well as declining inventories, will necessitate a slash of 500 workers from War Assets Administration payrolls in the five states of the southwest during March. The cut will mean that the agency will lose more than a third of its force of 1450 at the same time it must launch a final sales drive on remaining war surplus in the area.

To trim down the agency's load in disposing of remaining surplus by the end of the fiscal year, the armed forces have agreed to withhold further declarations of surplus property until after the June 30 deadline. Safety Talk Features B & P W Club Meeting Held Monday evening

The B. & P. W. Club met in regular session Monday evening February 23, at the Hotel Coffee Shop. The meeting opened with a dinner. Mrs. Jim Cleveland, president of the club, presided at the meeting. In the business meeting Mrs. Russell King, finance chairman reported plans for the club to raise money for the Scholarship fund and stated that the combination Radio-Record player would be awarded at the meeting to be held March 8, 1948.

Safety was the subject of the evening's program and Mrs. Otto Marshall, program chairman, was in charge. She presented J. F. Potts, guest of the club, who brought some interesting remarks on the subject and he then introduced the speaker of the evening, J. W. Hill, highway engineer with the Texas State Highway department, Insurance division, of Wichita Falls.

Mr. Hill discussed accident prevention, stressing particularly highway accidents and home accidents. He brought out the fact that most highway accidents occur on the best highways and under the best driving conditions; the reason being largely caused by the attitude of the drivers. He offered the theory that if the drivers of automobiles were as courteous on the road as they are in their homes there would be fewer accidents; also if drivers would observe and heed traffic rules much could be done toward cutting down the percentage of accidents.

In regard to accidents in the home Mr. Hill called attention to some of the hazards, and offered suggestions as to how many accidents in the home might be avoided if people would be more conscious of Safety and accident prevention.

Mrs. Margaret Fletcher, district director from Amarillo, was present for the meeting and spoke to the club on matters of interest to District Nine. She urged the club to have a full delegation in attendance at the state convention to be held in Fort Worth in April.

Out of town guests attending the meeting were J. W. Hill of Wichita Falls, Texas, Mr. and Mrs. Tom Fletcher, Miss Lillian Rogers, and Miss Margaret Ventress, all of Amarillo.

Spring Edition Texas Highway Map Is Ready

AUSTIN, Feb.—The spring edition of the Texas Highway Department's official travel maps is being released for public distribution, State Highway Engineer D. C. Greer has announced.

The new four color map incorporates all changes in the state road system through December occasioned by the Department's vast postwar road building program.

Except for revisions in the road system and the new pictures, the edition is similar to others issued since the war which have been acclaimed among the best of the state road maps published throughout the nation.

Standard highway warning and directional signs are reproduced on the map to familiarize drivers with road markers. Included also is a small scale map of the United States showing all state capitals and major federal highways.

Copies of the new spring edition are available to the traveling pub-

lic at the Highway Department's main office in Austin, its twenty-five district offices throughout the State, and its nine information bureaus operated at ports of entry into Texas.

Corbin Lashes Legislators Who Shift Allegiance

The people of West Texas stand on the threshold of the greatest era of prosperity in history. Kilmer B. Corbin of Lamesa, here recently when he visited here in the interest of his campaign for State Senator from the district.

Whether or not the people of that section are able to take advantage of the opportunity which this new era will offer will depend upon the strength of their State Government," Corbin said, "and I want to have a strengthening of that voice."

The 28 year old Dawson Countyman, now serving his third term as Judge of his home county at opposition, opened his campaign by lashing out at the politicians, who are tools of special interest groups, almost complete control of the State Legislature in Dawson County.

Senatorial aspirant, who was

reared on a Dawson County farm, educated in the schools there, Texas Technological College, and the University of Texas Law School, called on voters of this district to examine his record in both public and private life, and his actions and experience in county government.

Prior to his election as County Judge, he taught and served as principal in Dawson County Rural Schools. Judge Corbin is a lawyer, a member of the Lamesa Bar and State Bar of Texas.

"The need exists today more than ever before for sound thinking and constructive action in our state lawmaking bodies," Corbin said. "The people must awaken to the fact that too many state office holders owe their allegiance - their very political existence - to special groups who would dominate legislation in Texas. There are too many little men holding down big jobs at the expense of the farmer, rancher and small business man of Texas."

Corbin is married, and the father of three children. Barry, age 7, Blaine, age 4, and Jane, age 3. He has long been active in several state organizations whose chief aim is bettering the condition of West Texas. He is a member of the Baptist Church, a 32nd Degree Mason, Past Master of Lamesa lodge, and a member of the Knights of the Pythias and a member of the Knights of Kaorassan.

Platform Is Constructive
Corbin's platform, which he hopes

Kilmer B. Corbin of Lamesa

to present to every voter of the district before election day, includes the completion of the redistricting of Texas' legislative districts in order that the people of West Texas will have an equal voice in their state government; a constructive program of soil conservation; a social security program for the aged, blind and dependent children of the state; a sound program for the building of a system of farm-to-market roads for Texas, which will be second to none; more and better aid for the schools of Texas, and a revision of the outmoded Code of Criminal Procedure of Texas.

A plan to pass a law to prevent large corporations from purchasing land for any purpose other than that for which the incorporation was accomplished will also be one of his main aims, if elected. "The wealth of the land belongs to the people," Corbin stated, "and I, for one, will work to see that the lands of West Texas are kept from the hands of monopolies."

"I am entering this race," Corbin said, "with the feeling that my background as a farm boy, a teacher, a lawyer, and a public official has

Conservation District News

Carl J. Muench, Engineer and Ralph R. Cogdell, Conservationist of the Floyd County Soil Conservation district, conducted a tour for the veteran trainees class of Ralph Johnston. The eighteen members of the class were shown several farms that have been terraced and one farm where terraces were under construction. The various methods of building terraces, spacing, farming terraces and other things pertinent to terracing were discussed with the veterans.

Line to irrigate wheat were run for Joe Brown and E. T. Pigg.

A profile line across a lake was run for Leonard Smith. He is interested in building an elevated ditch across the lake.

Technicians were on the Orlin Stark farm and the H. L. Standefur farm in the Edgin Conservation group making a preliminary survey prior to some terracing the last few days.

F. L. Brown Offers For County Judge of Floyd County

TO THE VOTERS OF FLOYD COUNTY:

After serious consideration I have decided to announce as a candidate for the office of county judge.

I think the county needs a strong business administration. I feel that I am capable of giving that kind of administration and if you should elect me I will give my time and bend every effort to do so.

I have lived in Floyd county 14 years, 11 years of that time on the farm and three as a real estate dealer in Lockney. I have served on various committees including four or five years on the soil conservation board, giving me a wide knowledge of Floyd county, its needs and acquaintance with the people.

I shall try to see every voter in the county if possible and assure you every one's vote and influence will be appreciated.

My candidacy is subject to the Democratic primary.

Whirlwinds Wear Bulldogs Down For 2nd Place

The Whirlwinds have won the honor to be one of the two teams that will represent district 3-A in the Regional Basketball tournament to be held at Canyon.

Last Tuesday the Winds went down in defeat as the Bulldogs from Spur put the bite on them 37-26. If the Winds had won, there would have been no need of a 2 out of 3 game series. Floydada received the tip-off and Bobby Finley, high point man with 8 field goals and one free throw, scored. Spur came back and tied up the score.

The scoring was neck and neck all the way until the fourth quarter and the Winds were in front for the second time. They just kept it for a short while as Spur came rolling back to tie the score and they won it as Simpson put in two free throws. Wilson was high for the visitors with 12 points. Half-time score, Floydada 29, Spur 23.

Second Stringers Win
The second stringers rumped over the Spur "B" team 31-28. Spur had defeated them once before. High point honors went to Lindsey with 10 points. Billy Hart was high for Floydada.

Win First Series Game
Wednesday night the Winds journeyed to Spur to open the 3 game series to decide who would win second place in the district. The Green and White won their first game from the Bulldogs and also the first game of the series. Floydada started from the start and was ahead at the quarter 14-3. Half-time score was 31-15. A last minute do-or-die attempt was staged by Spur as they pulled within 9 points. Final score was 42-33.

James Finley was high with 14 points followed closely by Bobby Finley with 13 points. Bingham was high for Spur with 11 points.

On Top all the Way
Thursday night saw the Winds playing host to the Bulldogs for the second game of the two-out-of-

three game series. Controlling the backboards and making 16 out of 21 free shots, the Bulldogs rolled to a 44-37 victory. Once Spur got the upper hand, they stayed on top. Half-time score was 21-18. High point man for the Whirlwinds was James Finley with 14 points followed by Bobby Finley with 13 points. Bingham was high point man for the winners with 11 points.

Final and Deciding Game
Saturday night the Whirlwinds went to Matador to play the Bulldogs for the right to be one of the teams that represent district 3-A. The Winds blew through the Bulldogs to win the game and also second place 53-42. At the first quarter the game was a nip and tuck affair with Spur on top 10-9. The Winds passed Spur strong and the half time score was 31-15. The Whirlwinds controlled the backboards and scored off points doing it. High point honors went to Bobby Finley with 19 points. Simpson of Spur was second high man with 16 points.

Bob Hartman—Could be. Beats the heck out of why I could be one Dub Hodge—I imagine.
Floyd Jarrell—Gosh, I don't know. I believe I could be one if I wanted to had enough.
Joyce Jarrell—I am because I am so mean and crazy.
Bobby Kincheloe—That is beyond my intelligence to divulge information on such a subject.

Is Ruthie losing out with Thomas? It seems Bobbie Gene has stepped in the picture. Well, Well. Mary Young and Johnny Lloyd are going strong, once more, but Don Shurbet seems to rate with her, too.
Carroll and Armita are doing fine but what is this "husband and wife" stuff?
Verna says her knees were shaking when she asked "Him" to the Social Club dance. I wonder which one, Leonard or Bobby?
Deral and Ruth are checking right off. But they do make a cute couple, don't they?
Tom Bob, why not give Ruth a chance, but after all she's hooked Peeco. Oh, I'm so confused!!
Is it Doris or Dorothy? Bill Smith seems to flirt with both in last study hall.
Billie Newberry is getting along with "Shorty" Cardinal pretty good "Lucky Boy."
Is Connie Reeves jealous because Ann West went with Hansell Sanders Saturday? Could be.
Margaret, did you have a good time with Bobby Estep last Tuesday night? Hope so.
Dorothy and Dale Sims were at Church together in South Plains New romance??
Were Bob White and Lee Hutchinson having a good time in the office the other day??
Bobby Harless and Gloria Ratien really are doing nicely. She hasn't the nerve to ask him to let her wear his football jacket, though.
They tell me that Velma Briggs' mail box has been the receiver of many letters from Bob King of Bowie, Texas.
Harvey Dale and Johnny Ruthertford seem to swoon when they meet in the halls. Budding romance no doubt?
I heard that Gleva Ratjen really likes Billy Jo, well.
Veva, how many boy friends have you got anyway??
Is it true that Lorena Williford would like to go with George Spears? Well, George do something about it!

Meri Young—No, I'm not! Because "I" have teeth.
Bob White—I'll say I am. I guess I just look like one.
Bill Scott—Yes, because it makes me popular with the girls!
Charlene Patterson—No, because I'm happy.
Martin Peterson—I don't guess I am. I couldn't be one cause I'm good all the time.
Phillip Smitherman—I don't think I am cause I don't have any worts (A thoroughwort is a herb).

Anita Tooley was very sad when Dan Hagood didn't sit by her in Math class! Cheer up gal, it can't be that bad!!
Doris Dyer and Chuck Holmes have been seen together lately. How these two do get around!
Don Probasco has a faint crush on Jane Johnson and don't ask how I know.

Seems as though a lot of the boys are downhearted because Dorothy Clayton moved out of Math class. My, My, how she does rate!!
A little birdie told me that Ruth didn't like Trav anymore. Wonder why? Won't you tell us, Ruth?
Ann Jones hasn't missed any basketball games. Could Peeco be the reason?
Why wouldn't Bob McGuire ride with Bill and Claude Tuesday night? Was it because he wanted to pick Jo Muncy up??
Were Carrol Fulton and Jean Robertson together Sunday??
Dan Harrod surely would like to go with Mary Young. Take notice Mary!!
I hear Johnny Lloyd wanted a date with Betty Laster. Well, Johnny I've got you this time, for now

has Marlene on his mind a lot. Wonder who??
Why did Tye leave the Social club party so early the other night??
Who has Pauline been going with lately? Could it be Ronny Lucaas??
Sammy and Gladys are "Steadies" now! Leonard, are you left out???

What has happened to Gene Dale and Genelle? Gene Dale seems to be interested in Ruth Williams and Genell seems to be interested in some senior, and the senior seems to be interested in her too!!
Claud Parrish and Betty Laster certainly seem to enjoy each other's company in Study hall. What will Bobbie Gene think about this??
