'It's an Oil Well', Jubilant Report From Petersburg Byrd Test

"It's an oil well" is the jubilant report this week from Petersburg where General American Oil company's No. 1, A. F. Byrd, is making about 25 barrels of 41 gravity oil an hour.

The well is two miles northeast of Petersburg, 600 feet from the east and south lines of the southeast quarter of the northeast quarter of Section 17, Block K, TTRR survey. It is about 600 feet from the Floyd county, nearest approach of proven oil to this county.

The oil being recovered is on the pump but the well flows occasionally. It is filling storage with a good pipe-line run of oil, according to the reports received by The Hesperian from J. L. Suits, publisher of the Petersburg Journal. Suits says people of the area, whose hopes were dashed when Humble and associates abandoned the hole in 1941, are really jubilant once more. Humble abandoned the project in fluid and plugged the test after drilling to a total depth of 6,756 feet. Here is the story of the new test and how it came about:

Oil Is Recovered General American went into the old hole and cleaned out to 6,747 feet, drilling out a plug at 5,250 feet. Five and one-half-inch casing was run inside the old casing to 6,690 feet and cemented with 25 sacks.

Operator then perforated from 6,530 to 6,540 with 24 shots and ran a test from 6,500 to 6,540 with the tool open two hours. Recovery was 2040 feet of salt water.

District Soil Tour Set for May 6, Says Dunlap

The annual spring tour of the District Soil Conservation Society will be held this year on the first Thursday in May, it was announced this week by R. G. Dunlap, chairman of the Board of Supervisors of the conservation district.

To learn by seeing what Floyd county farm operators are accomplishing in soil saving and soil building, is the big aim of the annual tour. With each year it grows in importance in the mind of the public.

The plans for it, said Mr. Dunlap, the chairman said his board of supervisors is hopeful that the caravan of cars, which was five blocks long last year, will be much longer this year. They are particularly interested in getting local business men to see what is being done by Floyd county people in soil saving and in the growing of soil building plants.

Committees Do Red Cross Job Up Good

As in other years, going back in history for 30 years or more, Floyd county this March went over the top again on its assigned Red Cross goal. John W. Reue, fund chairman said that the total of \$3,000 asked of people of this county had been exceeded by more than \$800 when the final figures were made this week. Here are the figures by districts:

GUY GINN Now With McDonald Hardware

two years before he graduated from college. They have two sons, Vaughn, 8, and Pat, 5. He likes the utilities service business and he was popular in the organization which he has been serving. However, he was anxious to hit out for himself in some kind of a venture and the arrangement with H. M. McDonald is the result. McDonald has been outstanding in the community for 30 years, as a building contractor first, and later as a retail dealer in hardware. The firm has some of the outstanding franchises in home and farm dealerships in this area.

EDITORIALS

Note on misery likes company: Sunday's April 4 edition of The Amarillo Daily News reached Floydada dated March 28, 1948, a matter which makes a glow for the proof readers at The Hesperian office. With so many workers cluttering up their office the men and women step on each other's heels taking their shifts the Amarillo paper has no excuse, you'd say. But to be wrong on a proof-reading job all you have to do is to have your attention distracted for a minute and—presto, you've permitted a major error to slip by you. The Hesperian gets credit for being Number One in careless proof-reading and we are constantly on the alert to find something somewhere to comfort ourselves.

Office Closed Saturday: It's been many a year since The Hesperian office closed up for a day for some reason other than Christmas or Thanksgiving. It used to be that we'd feel sorter shame-faced closing all of both of those days, although the neighbors were doing it. Now we're hardened and we close up Christmas day as though it were the thing to do. The instance this time is different. We plan for all the working force of The Hesperian to spend two or three hours in a newspaper making clinic which the Panhandle Press Association is staging Saturday morning. Undoubtedly there will be some thoughts worthwhile that we can put to use in Floydada. We hope so and expect it to be that way. Meanwhile the home folks can have it said, as they have never been able to do before, that they were rid of the newspaper workers and printers for a day. The "clinic" comes Saturday morning. It takes an hour or so to get there and an hour or so to get back home and an hour or so to eat a bite. That practically uses up a day. The Hesperian's force is not the smartest in the country, perhaps, but at least quite persevering. And if there are any good ideas put out in the "clinic"—everything's a "clinic" nowadays, you know—somebody in the office will get a little bit of it, surely.

Speaking of the Clinic: The man who will conduct the "clinic" is a fellow by the name of Black, who, once upon a time, worked a few days in The Hesperian office. A smart young man who was reared in the printing production business. His father would have been a better man to have conducted the clinic, because he knew more than the "boy" about the mechanics of printing. Black, the younger, has some kind of a title, such as general manager, or production manager, in the Amarillo News back office. If Black turns out to be the kind that can shut off the talkers who like to pat themselves on the back, and can keep the running conversation or discussions on the subject, The Hesperian force probably will bring back something that will have been worth the day out of the office. But Mr. Black will have to be good. The urge that many printers have is the same as the urge that many others have in other lines, namely, to talk and keep on talking. Our folks are prepared to take that

chance. Anyway, it will be a day out of the office—and will that be something!

The people who took up the abandoned leases of the Humble Oil and Refining company on the Byrd land and adjacent acreage and are making a well out of the announced "dry hole into the granite" near Petersburg and just across the line from Floyd county, surely are not helping the Humble's prestige among the common people. Surely, Humble needs to make friends and influence people the same as any of the rest of us. Humble's (shall we say) Smart Ales now realize, doubtless, that the dirt farmers didn't believe them in the first place when they said the hole was a "dry" one. Reminds us of the fact that the only visit we had at The Hesperian office this year from anybody connected with the Daniel test made by Standard Oil of Texas (which belongs to Standard Oil of California, isn't that right?) was when the hole was abandoned. Two men who said they were the geologists came by to report how deep the well had been drilled to bite into the granite and that it was dry and plugged and abandoned. Meanwhile interested people, watching the proceedings, just positively "knew" there would be production. Most of these people still think so. An oil company can't help it if people don't believe in their integrity but they could at least not do things to aggravate the idea that they deal dishonestly. We like it because Humble got picked up on this particular error at Petersburg. That kind of thing makes some run-of-mine citizens want the "gum mint" to take over as to natural resources and things of the kind. It doesn't occur to them that the "gum mint" would do as bad or even worse.

Mr. Henry A. Wallace: Insisting that he is anything in the world but a communist and that he believes in the American way and he is not trying to appease the Russians and he isn't in their pay, this Iowa-bred fellow just keeps on doing exactly what the Russian tyrants want him to do. Iowa people a generation or two ago worked entirely too hard. They had wonderfully rich land to work in and it was infested terrifically with bind weed and similar things. They must have brought up their children to hate their way of life, to think of some way or other that somebody or other was to blame for the things that made their lives so hard. Anyway, the country is full of Henry Wallaces from Iowa. Most of them think that if the "gov'mint" would just take over and even this up and even that up we'd have the millennium before the time set by the bible. An outfit like The Hesperian that asks of the government only that it leave us alone, hasn't got any patience with the line that leads toward Stalinism. It is just two steps from the man who comes in and tells you what to do and what not to do to the man who knocks on your door at night—and let's the family find out by grapevine where you went and where you're working now.

The 21st annual convention of the Texas Junior Chamber of Commerce at El Paso on April 15-17, which will be attended by delegates from Floydada, will serve as a home-coming for two prominent young Texans who have attained high honors in that organization of young men. Acclaimed will be C. Taylor Cole, an oilman of Midland, and John Ben Sheppard, an attorney of Glade-water, Texas. Cole is finishing the year as president of JayCee Inter-

national, and Sheppard as president of the U. S. Junior Chamber of Commerce. "The program outlines received from the state headquarters of Jaycees indicates that there will be a great deal of serious business as well as the usual round of entertainment and recreation," said Guy Ginn, president of the Floydada Jaycees. "The Floydada chapter is qualified for five voting delegates at the business sessions." Of the 1,000 delegates and wives expected at the convention Floydada Jaycees will have J. M. Willson, Jr., and Fred Zimmerman, Jr., and their wives.

Jaycees Seek Fund to Move Telephone Line from Airfield

Jaycees this week are taking pledges to raise a fund of \$975 with which to move telephone lines from the south boundary of Floydada Airport's landing field. The lines, belonging to Southwestern Bell Telephone company, extend along the field about 7-tenths of a mile. Their removal would be the same as increasing the length of the runways by 300 to 400 feet, says W. H. Tanner, manager of the airport.

Size of the field is too small to permit larger planes to land here unless the lines can be moved. Proposal of the telephone company to move the lines for the amount indicated is considered a liberal offer. Jewel Elza, treasurer, or Guy Ginn, president, of the Jaycees, will receive and account for funds tendered, should a donor not be contacted by the chamber's committee.

Still Owe Some on the Show Barn

The committee still owes some money on the Rodeo Association Show barn on East 12th street, reports O. L. Stansell, who gives the approximate figures at \$694.92, with an insurance bill of \$79 to be added soon, making \$773.92 that needs to be gotten out of the way. Stansell and Calvin Steen, who originated the idea for the barn, planned to spend Junior Live Stock day at work on raising the money but finally got to work only a short time. "The folks we owe are going to be wanting us to lay the money on the counter pretty soon. Those who have not helped as generously as they think they should and others who haven't helped any at all and feel the urge, can leave the money with me or with Calvin Steen, or with any of the officials of the Chamber of Commerce, the rodeo association, or at the bank," said Mr. Stansell.

Money IN A CHECKING ACCOUNT

PAYS REAL DIVIDENDS IN SERVICE and SAFETY When you pay bills in person "out of your pocket," you seldom have a reserve ready for extras or emergencies. On the other hand, a balance in a checking account gives you confidence, and it gives you the use of banking facilities of the utmost value to you. The service and protection that you get when you pay by check is worth more than any interest which you could possibly earn on your money these days. It's simply good business to pay by check.

DECLARATION OF INDEPENDENCE

When in the course of high school events, it becomes necessary for the students to dissolve the political bonds which connected them with an institution, a decent respect for the Laws of Texas requires that they should declare and enunciate the causes which impel them to the separation.

We declare these facts to be self-evident, that all students are created free and equal and endowed with certain inalienable rights; among these being freedom from homework and the right to choose their own hours to attend school. The history of schools in general is a repeated history of injuries and usurpations. To prove this, let facts be presented before a prejudiced audience.

1. They have imposed homework assignments upon us.

2. They have spurned our earnest plea that the school days be reduced to four hours with two hours off for lunch.

3. They have refused to grant us the privilege of leaving the classroom when the recitation becomes boring.

4. They have utterly disregarded our petitions suggesting a rest period in the middle of the afternoon.

In every stage of these oppressions, we have petitioned for redress in the most arduous terms. Our repeated petitions have been answered only by repeated unkindness and disregard.

We, therefore, the representatives of the students of Floydada High School do, in the name and by the authority of the good students of this school, hesitatingly publish and declare that they are free, free as the air that they breathe, and that all connections between them and F. H. S. ought to be and are totally

Library Receives Shipment of Comics

Mrs. Sudie Thomas, librarian, announces that the library has just received a shipment of five hundred new, interesting - looking comic books. Because of the great popularity of comic books, they may have to be placed on the reserve shelf.

"I have talked it over with several of the English teachers," states Mrs. Thomas, "and I feel safe in recommending that the students use these books for their outside reading in English. I sincerely believe that the adventures of Superman would prove far more intellectual and entertaining to F. H. S. students than—say—"Les Miserables."

"BABY" PARRISH HONORED ON SEVENTEENTH BIRTHDAY

Claude (Bab--y Face) Parrish, the soon chile of the low ninth grade class, was given a charming little party by his mama to celebrate his 17th birthday. Claude is reported to have blown out all his candles, but close friends of the honoree are spreading the horrid rumor that his mama helped him.

Claude, who is a sweet, young thing, was presented his first pair of short pants and a piggy bank full of Floydada City Bus tokens. (To be used when Floydada gets a bus.)

Claude Boy, who kept his thumb in his mouth during the party, says thanks.

FASHION OF THE WEEK

FLASH!!! APRIL FOOL jokes overruled F. H. S. The halls of F. H. S. were the scenes of many loud yelps of delight and frustration Thursday, April 1. The cause of these exclamations was the various and assorted jokes played on certain poor unsuspecting students. JOKES running from, "Your shoe lace is untied" and so has a broken lee" to "You're looking mighty pale today" and "How is your mother with her broken back?" have run amuck. It is the fond hope of the faculty that the students will outlast down in a month or two and that school will revert to its hum-drum way of life.

VOLLEY BALL NEWS

Thursday, April 1, the Ralls volleyball team journeyed to Floydada. The two teams started at 2:00 p. m. Two games were played by the first strings. The games were won by Ralls with scores of 15-11 and 15-13. Those that played from Floydada were as follows:

Gloria Ratjen, Joy McCravy, Carlene Daniels, Ruth Beedy, Margaret Green, and Rose Beard.

The second strings played three games of which Floydada won two. Those that played were:

Christene Jones, Margie Latta, Betty Johnston, Gleva Ratjen, Bernice Bybee, and Mary Parrish.

SCHOOL IS OUT

No more pencils,
No more books,
No more teachers'
Nasty looks.

Thanks to a little future chemist up in the lab who wanted to see if T. N. T. really works, the school has been abandoned for the remainder of the term. The students look forward to a year of loafing

late sleeping, and plenty of time on food.

Plans are being made for a new school. In the meantime for that good show down at Palace. It is nice dreaming isn't it?

Along with its large production of fruits, vegetables and agricultural products, including bananas, cane, tobacco and pecans, Floydada has large fishing interests, phosphate deposits, and is rated as the largest cattle producing state in U. S.

Best Plays on Floydada High Thursday Night

District contest of one-act plays will be given in the high auditorium Thursday night 8 p. m. There will be four plays presented by our Lockney, Floydada and Irvington, Kentucky, and Dawson Texas, have been plagued by his appearance. Last, but not least, Floydada was ruined by his presence. Bill's favorite colors are black and green. Floydada halves time with Dawson in being his favorite football team. The sport that is tops with Bill is football with Floydada Whirlwind Band playing at the half. To put Bill in a really dreamy mood, just play "Sentimental Journey." This is really the top song for Bill but most any popular music is good. Any music is much better if Jimmy Dorsey is playing it, or Dinah Shore or Bing Crosby is singing it.

Judging Team at Tulia Contest

Livestock Judging contest at Tulia recently, the Floydada entered a team. The team entered were Douglas Melvin Dunavant and Hambright. These boys won over last week. Livestock show held last Floydada, thirty-two P. F. entered projects. All the nice animals and received prize for each. The P. F. A. boys have been giving grain sorghums and hods and ways of seeding.

creature that the beat-up shuttered on this week is Bill Smith. Bill was not hatched. He was named Bill, nicknamed by his friends, happened on a rainy day in 1929. His Reverend and Mrs. Joe P. took one short look at him and then said "Bill come into the dumb-looking roof with

the IQ of an idiot, has hair. I suppose it could best be described as a dirty brown mop. He has two red, blue eyes, a red nose, and a few teeth. He wears, falsies too! He has a receding chin, which he says "comes in handy for eating corn-on-the-cob." He has six feet of drawn out skinny bones and 166 pounds of flabby muscles.

McKencie, Tennessee, was unlucky enough to have this monstrous born there. New London, Iowa Irvington, Kentucky, and Dawson Texas, have been plagued by his appearance. Last, but not least, Floydada was ruined by his presence.

Bill's favorite colors are black and green. Floydada halves time with Dawson in being his favorite football team. The sport that is tops with Bill is football with Floydada Whirlwind Band playing at the half. To put Bill in a really dreamy mood, just play "Sentimental Journey." This is really the top song for Bill but most any popular music is good. Any music is much better if Jimmy Dorsey is playing it, or Dinah Shore or Bing Crosby is singing it.

School does not have much of an attraction for Bill, but he enjoys Mrs. Graves study halls. In fact, Mrs. Graves is his favorite teacher and Speech is the best liked of all his classes.

When asked about his clothes, Bill readily replied, "Cowboy boots, Lee's cowboy shirts, cowboy hats, and a very loud tie." Bill also likes lipstick "just as red as you can get it, preferably raspberry flavor. Bill's favorite perfume is Tigress.

Not that Bill's tetchful but his favorite pastime is fighting with Mrs. King's rooster. Bill is forever black and blue and well scratched because of this pastime.

Bill isn't much of a reader, but his favorite book was "Seven Came Through" by Jimmy Doolittle. His two favorite authors are Lloyd Douglas and the ever-popular Thorne Smith. What Bill considers good reading material in magazines, to be explicit, is Walt Disney's "Donald Duck." Since we must have favorites in every paragraph the "Hesperette" was Bill's "reddy-teddy" reply in answer to what he would rather read.

Billy Tommy, which is Bill's complete name, loves movies, his favorite being "Thirty Minutes Over Tokyo." Jane Russell and Sonny Tufts draw Bill to the movies. Claud Parrish is Bill's favorite person. Why we do not know!

Bill's ambition is to be a sailor like his older brother. For Bill's favorite indulgence he chooses just plain strong Bull Durham, and if you are to be on Bill's mailing list you must either be, have or related to a green 1936 Ford with back-up lights.

We always thought Joe Walker had everyone beat as far as blushing was concerned, but we have to admit an error. Bill has Joe beat! Bill blushes very easily, when he laughs, when he talks, when he smiles, etc. As Bill was telling us about his most embarrassing moment, he was the most becoming shade of beet-blood red. He wanted to ask Alma Penick for a date and Billy Tommy was embarrassed! He said he had been flirting with her for days before he ever got up courage to say, "Whatcha doin' tonight, babe?" Then his heart failed him. He went home, called her on the telephone, and stammered "W-would you go with me tonight?" She calmly said "Okay" but Bill was embarrassed anyway.

Bill's most exciting moment was the time when his nephew, Tommy Cunningham, was born six years ago. Since then he has had two more exciting moments. Bill likes to eat, pretty cars, money, brunettes, luscious red lips, bowling, having dates, staying out late at night, loafing, sleeping, having good times, swimming, taking trips, selling Bibles, wearing pretty clothes and golden pheasants.

To be Bill's ideal girl, one must be five feet six inches tall and have

Tennis Elimination For District Meet

The Old Tennis club Thursday eliminated several members of the club in the bout to determine those members who will participate in the Interscholastic League meet. Those who survived the eliminations and who will play in the meet are: Senior Boys—Gene Dale Jackson, Sammy Hale, and Bobby Cline. Junior Boys—Aubrey Guthrie, Dan Hagood, Jerrold Vinson and Barry Rosson.

Senior Girls—Jo Anne Cline, Jo Muncy, and Gladys Roberts. Junior Girls—June Powell, Peggy Collier, and Sheryn Effe.

All of the above students are confident that they will win their matches and go to higher places in the field of tennis. (P. S.—April Fool!)

Baker Is Advocate of Poorer Grades

Mr. Estel Baker announced the other day that the students of P. H. S. studied too much and did not play around enough. He said that too many people made A's and lowered the standard of the school. He also stated that the teachers should not give any home-work and no more tests.

Half of the period must be given to the students to catch up on their gossip. The teachers must not enter in the conversation unless they have something interesting to offer. Students, do not ruin the reputation of the school; stop studying!!! APRIL FOOL!

WITH MALICE TOWARD NONE. Well, the year has rolled around to another issue of the "April Fool Hesperette." All through the year

Members of the Hesperette Staff

have been threatening critics with "Just wait till the April Fool Hesperette comes out. Then you'll find out what I really think of you." Now that April is here, we have forgotten all of our grudges. We ought to have stationed a box in the corner of Mr. Baker's office in which to put private peevish for future reference. Spring is here and the whole world looks rosy. So this fun sheet comes out with "Malice toward None."

Perhaps you've wondered why this edition is devoted to April Fool instead of last week's paper. The Freshman class was scheduled to be in charge of last week's paper; therefore the "April Fool Edition" had been postponed until this week. P. S. We hope you like it!!

SHO' NUFF, WE DO!! The Printer gets the money. The school gets the fame. The students get the paper. But the staff gets the blame!!

WHERE THERE'S A HOME - - there's security

More than anything else, your home means security to your family, especially to your wife. Even though you went in debt to get that home—as most folks do—it's the port of safety for your children, the haven of rest for you—a strong hold on the future for your wife.

The mortgage you placed on that home is the instrument that makes it possible for you to raise your family in pleasant surroundings... have a flower bed or two, and a garden. It's a kingdom of your own. Southwestern Life Insurance can make it possible for your family to continue to live there—may mean the difference between a debt-free home and insecurity for your family... may prevent a forced sale, and loss of equity.

A widow without income can't meet the payments on a mortgage. While you live, you plan to meet the payments on your home out of your earnings. Now, while you are earning, why not guarantee your wife that she will not have to meet those payments if death should interrupt your plans? Whatever you owe on your home—\$2,000... \$6,000, or more—there's a Southwestern Life Insurance plan to guarantee payment of the mortgage, and it can be patterned to fit your income. Without obligation, ask for a full description of a plan to fit your needs today.

All members of the Commission-ers court, except Fred N. Clark, who is ill, attended the hearing, asked for by the county. Commissioners present were Chas. Smith, Com-missioner of Precinct No. 2, W. C. Plumlee, commissioner of Precinct No. 3, and R. B. Calhoun, commis-sioner of Precinct No. 4. Other atten-ees of this and other counties pres-ent to back their court in the propo-sals were J. M. Backs North-South Road
The historically important route north and south from Borger to Post through Armstrong, Briscoe, Floyd Crosby and Garza counties also got the backing of the Floyd county officials and taxpayers. At this time, it was represented to the court, portions of the route which are not improved are in Armstrong, Briscoe, Crosby and Garza. The route has been urged for more than 20 years as a great convenience and money-saver in mileage to the people of the areas traversed. Judge Alton B. Chapman, who presented the argument for the six county dele-gation, estimated the annual sav-ing in highway traffic costs at hundred of thousands of dollars an-nually, aside from time saving.

Mr. and Mrs. Roe Jones, Mr. and Mrs. Travis Lightfoot and Mr. and Mrs. J. H. Moody, the latter of Mt. Blanco, spent the week-end in Ros-well, New Mexico, visiting with Mr. and Mrs. J. B. Jordan.

Mr. and Mrs. Carl Nelson and Troy Lee spent Saturday night in Shelly town with Mrs. Nelson's sister, Mrs. Merle Mercer and husband. They visited Sunday in Borger with Travis Burett and family. Mrs. Lee Bur-gett accompanied them home.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

All signs pointed the other morning to a high wind. I made all the trips outside that I had to make, went to the shack and got some feed sacks to wash and bleach. (don't see why feed companies have to letter all over both sides of a sack.) and prepared for a good sandstorm. With a shriek the wind rose ever high and higher, pushing the sand as if it were in its way. The big weeping willow north side of the house did not weep that day. The long slender whips, with blossoms and green leaves stood straight out and tried to leave the tree. The silk-white blossoms of the pear tree were soon hidden by dirt. The house shook and sand sifted in every crack and crevice, lay deep in bar ditches and hid the sun. Not much a housewife can do while the storm lasts only walk from room to room, muttering, why did I ever come to West Texas. But by the time next day she gets the sand out she is usually good and angry, or that night has to shake out all the covers before anyone can sleep. But by the time the house is all clean, the washing and ironing done, everyone's hair washed, the weather repents and brings such a lovely day, we are all encouraged to stay and hope that such a day of sand will not come again for some time.

Mr. and Mrs. J. L. Suits of the Petersburg Journal had a much needed rest at Presidio the past winter. They both look well, but say they do not want to go back to work. Mr. Suits complained he just could not stand the rush of an oil well coming in, a house afire at the same time and Big Shots rushing around in big shiny cars thick as flies and a sandstorm thrown in as an extra.

All the way to Petersburg the other afternoon we found hustle and bustle. Big wells running streams of water, big wells being dug, a crew putting in a telephone wire, another crew running in a REA oil well coming in, men working on three new farm houses. My it looks like the farmers are coming into their own.

The first cooker I remember was one mother bought when I was growing up. It was a round tall tin affair and had a whistle to blow when the water was running low. Then when I first was keeping house a neighbor went to Louisville, Kentucky, on a visit and brought home a fireless cooker. I simply had to have one. Of course I could have taken a deep wood box, stuffed hay in the bottom and round the sides with a deep hole in the center to put a cooking batch of beans, but I wanted one just like Mrs. White's so she ordered me one. Some fifteen dollars it was, but the lute box was shiny with dark varnish and two hinged lids opened at the top to put big aluminum vessels of cooking in.

First you started the food to cooking, and put a sand stone on the fire to heat. This was lowered into the deep hole by wire hooks and the boiling vessel put on it. Then the lid was let down and the food kept cooking and cooking while you went to the field to hoe, or run the binder. Rice and beans, puddings and fruit cakes simmered away in its depths.

But changes brought on other methods of taking all work away from cooking and one just had to have a waterless cooker of aluminum

Conservation District News

The District board of supervisors of the Floyd County Soil Conservation district held a call meeting on March 23. Among the business transacted was the approval of applications for assistance as follows: T. W. Ashburn, W. W. Buckner, A. J. McIlvain, M. O. George, A. W. Curb, E. O. Cates, Jack Trawick, Bud Casey, A. D. Schaffner, I. H. Pickens and Delbur Rose.

Agreements between the district and the following farmers were also approved: Welden Smith, L. D. Simpson, Marvin McSwain, Clarence Guffee, Sam A. Fowler, J. B. Smitherman and Hugh Marble.

The technicians assigned to the Floyd County Soil Conservation district set high points for irrigation wells for E. O. Cates west of Floydada and A. W. Curb of Petersburg.

Wesley Hay of Lockney and W. A. Campbell, west of Floydada, had lines run to water wheat.

Lines and row directions were run for Lon Davis, E. T. Baird and Bill Jackson in the southwest part of the county and Bud Leaverton, Leroy Durham and Judson Jones, farming near Lockney.

A ridge line was run for W. L. and cook a whole meal at one time on top of the range, discarding the once much desired fireless box. Then some one had a happy thought and the canner was on the market and every woman wanted one, putting away the waterless cooker. Now we are to cook whole meals and store them in a deep-freeze. What next, quien sabe?

I have lost my gardening job to Mr. Spikes. He does not see the use to plant English peas and every time I ask if he is ready to plant some, he says the ground is not ready, knowing soon it will be too late. "One mess is all you ever get," men argue and perhaps are mostly right, but oh, that one mess! How very, very good!

Billy was real sick with tonsillitis this week, but took penicillin shots as if they were a common thing to do.

Isn't it about time to start the sassafras tea to boiling to thin one's blood? I like it, do you, or have you never tasted? Charles Lamb said Sassafras wood boiled down to a kind of tea, and tempered with an infusion of milk and sugar, hath to some tastes a delicacy beyond the Chinese luxury.

Sassafras, oh, sassafras, Thou art the stuff for me. And in the Spring I love to sing, Sweet sassafras of thee.
