County Political Conventions called

Girlwinds Get in Third, at Abernathy

Politics in Floyd county is given a shot in the arm this week by calls from the Democratic and Republican county chairmen for county conventions of the respective parties to be held on Tuesday, May 4.

Both county conventions are called for 2 o'clock and both in the court house. Doubtless meeting rooms will be determined upon so that the two organizations will not interfere with each other.

Homer Steen is Democratic chairman. E. E. Wells Republican chairman. The Democratic chairman is expecting several Democratic precinct conventions to be held on Saturday, May 1, especially at Floydada and Lockney, and hopes thereby to gain a grass roots expression on the presidential preference situation. What the result of these meetings may be, is a matter yet to be determined.

Wells County Meet

For the Republicans, County Chairman E. E. Wells took time out from the construction of his fine farm home near Ramsey to issue the following call for the county convention on the fourth of May. Says Mr. Wells:

The Republican County Convention of Floyd County, will be held at the Floyd County Court House in Floydada, at 2 p. m. on Tuesday May 4.

This convention will be composed of delegates and alternates elected from each voting precinct of this county. These will be named Saturday, May 1 in each precinct; at 2 p. m.

The precinct conventions will be open to all qualified voters, regardless of previous political affiliation, who believe in the principles of the Republican party, and will support in good faith, the nominees of its national convention. The various precinct chairmen will post notices of the places where these conventions are to be held.

The county convention of May 4th will send one delegate and the same number of alternates to the Republican State convention to be held in Corpus Christi, May 25, at which the 33 delegates and 33 alternates from Texas to the Republican National convention in Philadelphia will be elected.

Other west half games Lockney Longhorns suffered defeat at 8 to 2 in a heart breaking late by the Jackrabbits Tuesday. Losing to the FHS nine last night took their opening game 6 to 5.

Tomorrow's games to wind up the season in the west half will see at Floydada and Lockney at night. The Floydada - Ralls will be a battle royal but the Abernathy Lockney tussle should go to the winner as good as Floydada Tuesday and the least bit of luck on his side.

Information is available on the "F" ranch cowboys.

Merrell Funeral at Flomot Tuesday

Funeral for W. A. (Billie) Merrell, member of a Floyd county family, which took up residence here in the eighties, was held at Flomot Tuesday.

Mr. Merrell died at Leila Lake in Hall county Sunday. He was making his home with an old friend there when death came.

Born in San Saba county in 1873 he came to this county in his youth and for years after the family settled here was one of the "F" ranch cowboys.

J. B. Jenkins and Glad Snodgrass of Floydada were among long-time residents of the area who attended the last rites for the pioneer cowman.

Nice Shower Helps Wheat

A nice shower that varied considerably in amount but covered a wide area of the high plains of Texas late yesterday and last night gave Floydada 72-hundredths of an inch of gentle rainfall.

Heaviest rain reported was at Borger where 1.3 inches fell. The shower extended both westward into New Mexico and eastward into Oklahoma.

Lubbock reported 22-hundredths, Plainview 99-hundredths, Lockney 38-hundredths, Dougherty 21-hundredths. A bare shower fell at Cone, according to The Hesperian's information. East of Liberty a short distance one-half inch of rain fell.

Mr. and Mrs. D. T. Mayo left Friday for Madison, Wisconsin, where they will visit with their daughter and husband, Mr. and Mrs. L. H. Hodges.

Plenty of Water, City Says, as Irrigation Rates Go into Effect

Announcement of the summer irrigation rates for city water users yesterday is coincident with the announcement that the city's water shortage troubles are over for quite a spell.

This week all the tests and requirements of the sanitary code had been compiled with to turn the new well supply into the mains. City Secretary B. K. Barker said the supply is ample and there is no reason why the home owners can't put all the water they want on their shrubs, lawns and trees.

Long delays in getting materials and hooking the new water supply into the mains had begun to make some worries for the city fathers and the city water department in particular. But that is all behind now, think city authorities.

Not only will the supply be ample but pressures will be better, too, since the water in the new supply mains will "work against" the pressure from the tower.

New water facilities include enlarged mains in portions of the city where demand has shown heavy increase. Also a new storage tank of 250,000-gallon capacity has been finished at the water well site in southwest Floydada. Enlargements, extensions new storage tank, well and pump, together with extensions of power lines to the water well represent a cost to the city.

Ring Defrauds Farmers, Grand Jury Charge

Farm Bureau Meeting Called For Friday Night to Elect Officers

Ben Quebe, of Providence, has announced a county-wide meeting of the Floyd County Farm Bureau for tomorrow night (Friday, April 23) where in addition to adding new members to the rolls of the farm-ers organization, pledges of old members will be renewed. The meeting will be held in the court house at 8 o'clock.

During the evening officers for the year will be elected.

Efforts to carry on a campaign earlier in the year and hold county-wide meetings were hindered by continued bad weather, which held on for weeks during February and March. Tomorrow night's meeting will take the place of the county-wide meeting in February which was to have culminated the campaign.

Meadow Man Will Speak

Bill Tolson, of Meadow, will be the speaker at Friday night's meeting and refreshments will be served. Mr. Quebe, who operates one of the county's outstanding stock farms, points out that while other counties in this area have good farm bureau organizations and portions of Floyd county have good membership, interest is light in other sections.

"Farmers must organize in self-defense, or turn this government over to the control of those who are organized," Mr. Quebe said this week in urging attendance at the Friday night meeting.

Charges that a ring of truckers have been operating in Floyd County and this area of West Texas that have defrauded Floyd county farmers of many thousands of dollars are made in a statement issued yesterday by H. L. Stowe, foreman of the Floyd county grand jury. The statement bristles with charges of cheating in weights and other devious methods. No names are used. The report to the citizens of Floyd county says that a confession of one of the members of this ring admits a profit of 30 thousand dollars by illegitimate operations last season.

Many Honest Truck Operators

The statement issued by the grand jury foreman added that there are many honest truckers and these the grand jury does not want to hurt, but "unless you know your trucker you cannot be too careful in dealing with him, and we urge you to use every precaution."

The statement addressed "To the citizens of Floyd county" is in full as follows:

"Your grand jury has recently had under investigation certain alleged law violations by a ring of truckers who have been operating throughout Floyd county and this area of West Texas. While the evidence so far obtained is insufficient to warrant the return of any indictments against any particular person, it is sufficient to convince any reasonable man that the farmers of Floyd county have been defrauded of many thousands of dollars by illegitimate truckers within the past two years.

Declare Instances Numerous

"Many instances have been discovered where truckers have bought grain and hay in Floyd county and then trucked it several hundred miles down the State and sold it for the same price they had paid for it in Floyd county. We think it reasonable to assume that these truckers made their profit, and a good profit too, by cheating the farmers of Floyd county on weights.

"We had before us a confession of one of the members of this ring which told of one of these truckers (See Fraud Charged, back page)

Whatley Wins Match Roping From Albright

Red Whatley held his record of being undefeated in a calf-roping contest at Floydada Rodeo grounds last Sunday afternoon when he roped and tied 12 calves 70 seconds better time than Fred Albright.

The Crosby county cowhand had an average of 17.7 seconds for a total of 212.2 seconds. Albright roped and tied his calves in an average of 23.5 seconds for total time of 282.2 seconds. The men were roping for a purse of \$2,000.

Wins Jackpot Purse, Too

It was a profitable afternoon for Whatley. In addition to taking the roping match, he also led 37 entries in the jackpot roping. His time in the jackpot roping was 11.9. Jimmie Byrd of Post was second with 13.5 seconds; Dee Burrus, of O'Donnell, third with 14.6 seconds, and Leon Jones, of Lubbock, fourth 14.9 seconds. Total jackpot purse was \$470.

The contests opened the season for Floydada Roping club. Their next scheduled event is for May 27-28.

First April storm clouds that had any semblance of rain about them hit just as the crowd was gathering for the show and a large number of the onlookers departed in high wind and dust. The clouds squeezed out only a slight sprinkle, hardly enough to wet a man in his shirt sleeves. The first ropers roped in high wind and dust, and those who came last were seen by only a small part of the crowd.

Carl Smith is president of the Roping club. He said that big plans are being made for the May 27 quarter horse show when all halter classes will be judged. This event will be followed on the night of the 27th with a roping contest, and the roping will be continued on May 28, afternoon of the Pioneer Re-Union day.

Freak Accident Spoils Long Run For City's Plant

Sunday afternoon's rainless noise, blow and puff, spoiled the day for every city worker. The city light and power plant, Most everybody else on the high plains regretted the clouds didn't do anything. The light plant boys regretted that the storm did do something.

What it did to them was to break a record of eight years of operation since the lines were first energized in January of 1940, without material interruption. The plant records indicate that a total of three interruptions in city service have totaled less than five minutes. That was until Sunday afternoon when power was off more than an hour from 3 o'clock.

City Electrical Superintendent A. L. Fuch said the city's smen were after the trouble on short notice. What happened was that the wind had picked up an adjacent guy wire and blew it across one of the main distribution lines. When the free wire hit it fused to make an excellent "ground". It had to be cut free of the power lines before they could function again.

EDITORIALS

Bound volumes again: For sometime during the war we waited for binding of newspaper "volumes" to get "reasonable" again. We waited in vain. Finally, we began waiting to find somebody that would bind our volumes at some price. Then out of a clear sky, we had an offer. The outfit said they would do the job for a certain price. That pleased us very much. One of the things that the business world is unhappy about is that you can't find out what you want done is going to cost you. When somebody comes along that will tell you that a certain job will cost you a certain price you take him up more for the purpose of encouraging a definite price, without an escape clause, than for anything else. This means that we "took up" this concern on the price they quoted and now have some long overdue bound volumes in our files. They are not protected against fire and we just have to hope that nothing like that happens again any time soon. (The last time it happened to us was in 1912 or 1913 and we have no idea what the cost turned out to be.) We hope to have copies of these volumes in the county library of the superintendent's office and in the library of the Floydada High school. They have an actual value, like for research, of quite a bit.

History is peculiar, even perverse. Often and quite often the things that you and I consider important in the history of a community, a state or a nation are not the things that make the history of the times. It is often just one of those little, unimportant matters that grow large as time goes along. So we do not know what is history, what is only imagination of what would be history. We have in mind some things we are confident will be history in 1948, so far as Floyd county is concerned. One is a matter that has had little publicity so far as The Hesperian is concerned but which has been the question mark in more minds than anything else we have recorded thus far in 1948.

Speaking of bound volumes or consecutive history of a community we have no knowledge of any newspaper, with the exception of one, that takes our West Texas back to and ties in with the slaughter of the buffalo. Only three generations ago the story of Floyd county and all of this area was the story of the migrations of the buffalo. That was all there was to it. The Indians lived off of these roving bands of prairie grass eaters. When the buffalo hunters moved in and started the kill for the price of the hides they began to make history—they started a new era. The newspaper men followed them in and printed newspapers of the communities which they established. Many of these communities now have commanding posi-

tions in the state's commerce and industry. But there was a time when this was not so. Call the names of half a hundred county seats of Texas from the caprock eastward and you will have the names that were given by the buffalo hunters. Westward on the plains this is not so: We just happened, like Toby.

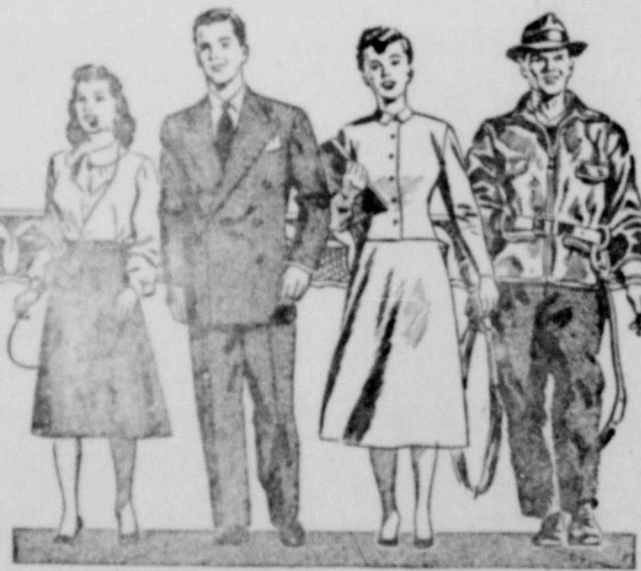

Like many newspapers still are, most of the newspapers of those buffalo hunters' days were pretty ordinary and the suggestion that copies of them be saved for posterity would have made most of the people laugh who lived then. A few newspaper people did keep these files but in flimsy shacks which served as offices and as they migrated these files were left to the vagaries of time and circumstance, says H. B. Martin, an Amarillo printer, who was one of the active news workers of those pioneer days. What happens to things left lying around, stuck back in pigeon holes and corners of the coal shed or the wood house, is what happened to most of these files. One that escaped was the Albany News. We have never seen this file but it is said to exist, intact, from the opening number, back in the seventies, right on through. This file had several narrow escapes, one time by minutes from being pitched into the furnace as trash at one of the schools or colleges where it had been sent for research. That is one of the stories that is told.

What Democrats of Floyd county may think of the political situation in Texas and the nation may be learned on May 1, when the presidential precinct conventions are held. The hour generally used is 2 o'clock in the afternoon, and that is the hour set in Floyd county's various precincts. "Grass roots" instructions, with big attendance and vote would be the ideal way for these political meetings to be held. That way party officials would learn what the average citizen thinks and be governed by this thinking. When less than a dozen meet and set the pattern you have no way of knowing because many have thus passed up their opportunity to have a part in the party policies. These meetings dates have been set by law for many years, but those who do not attend often speak of "manipulation" and "crookedness." There are two sets of precinct and county conventions in Texas in a presidential election year. The one that comes up this May (May 1 for precinct, May 4 for county) is the one that will have to do with the election of delegates to the national convention.

Consideration for others is one of the first signs of culture.

TELEPHONE "CAPITALISTS"

250,000 Telephone Employees
Are Buying Telephone Stock

They work for the telephone company and they are buying American Telephone and Telegraph Company stock through regular payments out of wages—in accordance with a special company offer.

All regular Bell System employees who had six months' service on August 31 were eligible to participate, except officers of A. T. and T.

More than 13,000 of these tele-

phone men and women work for the Southwestern Bell Telephone Company.

They have a stake in the business beyond their jobs. They are partners as well as employees.

These are the "capitalists"—hundreds of thousands of them throughout the United States—who help to make the telephone company a good company and America a great country. "It could only happen here."

Weekly SURPLUS NEWS WAA

The War Assets administration has announced a stop sign at all surplus industrial real property installations this week. The freeze on this type of surplus came as the result of a request by the joint army-navy joint board, which is engaged in reviewing the company's defense requirements in case of a national emergency. The stop-sale order does not apply to personal property generally does not apply to industrial real property. This order includes surplus camp buildings sold for individuals to remove from the grounds and convert into homes or other needed housing.

Next on the schedule of WAA's surplus housing sales will be an offering of 207 Pampa Army airfield buildings. And people making inspection of the buildings with an eye to future dwellings will be aided by a new WAA brochure containing scale-drawn floor plans for the most conversion of barracks into two and three bedroom homes. The brochures will be distributed in the Pampa field and are also available on request at the Grand Prairie regional office. Inspection of the Pampa sale will begin April 27 and continue through May 3. Spot bidding will take place on April 4, 5 and 6 when the buildings will be awarded to buyers regardless of priority.

Shurbet Lambs Top Market at K. C.

PETERSBURG, April — Marvin Shurbet's 1500 lambs went to the Kansas City market last week and topped the market on quality for Texas clipped lambs. These were nice lambs and were fed out on Mr. Shurbet's stock farm east of Petersburg in the Almon community. He has finished a number of lambs each year for the past several years and this past winter has been the toughest he has experienced from the standpoint of bad weather, but they came through in excellent condition, he said.

Allen's Parmenter Flock Marketed as Profits Disappear

One of the best flocks of hens in the county of considerable size went to market this week, when the Oliver Allens made up their minds that present commercial price range of eggs and feeds couldn't be made to "figger out." Five hundred hens, sold to one of the local dealers, went to the San Antonio market.

The Allens are keeping a few of their hens to trapnest and "keep seed" until the price structure or something else changes that will make it profitable to get back in business on a considerable scale. Meanwhile, with 500 hens less to take

care of it seems as though they have nothing to do, Mrs. Allen said Tuesday.

Floydada Boys Fly Kites In Contest Held at Lorenzo

The Cub Scout Blanco district kite flying contest was held at Lorenzo Sunday afternoon, April 11, at 3 o'clock. There were as many as nine kites in the air at one time. Around 100 were present for the event, half of this number included adults.

The following boys receiving prizes were from Den No. 2 of which Mrs. Gene Collins is den mother and Mrs. Billy Grundy is assistant den mother: Gordon Joiner, for having the smoothest flying kite; Bobby Rainer, with the smallest kite; Jimmie Collins, with the highest kite. Consolation for unusual bad luck was given to Doyle Grundy, Billie Warren, Gary Don Carthel, Jackie Henry, and Walter Simmons.

Lona Jean House, of Lorenzo, entered her kite which was outstanding in several ways, but since all of the prizes were picked for boys,

she was recognized at the grounds and a prize will be sent through the mail.

Bill Postma, South Plains council executive of Lubbock, was present and expressed the hope that next year such a contest might put 40 kites in the air, having two classes, one for cubs and one for all comers under 12 years of age.

Judges for the event were O. H. Kemp of Lorenzo; B. A. Hood of Lorenzo; Mrs. George Sherrill and Mrs. Ed Johnson of Floydada.

The next District club activity will be a softball game to be held at South Plains on September 5.

The Cubs are anxious to have all boys between 9 and 11 years of age to register as cub scouts. If interested please contact Gail Mayo.

Sidelights From Washington

(By George Mahon)

Most West Texans will approve the action of the House of Representatives last week with respect to two important subjects, public roads and the U. S. Air Force.

The House approved a new three year public roads program to succeed the action of the House of Representatives last week with respect to two important subjects, public roads and the U. S. Air Force.

The bill approved by the House for the Air Force provides funds for a total of 2900 modern military aircraft. An additional 1500 planes are provided for the Navy. The number of additional planes for the Air Force is far in excess of the number originally requested by the President. This increase was provided in view of the unsettled world conditions and refusal of Russia to cooperate in our efforts to promote peace. I spoke in favor of the program for the expansion and modernization of the Air Force and served as a Member of the Committee which wrote the legislation and presented it to the House for action.

The passage of this legislation for an expanded and improved Air Force is one of the most significant and important steps taken by Congress since V-J Day. Undoubtedly the American people favor such a program. We had some difficulty in the House in securing passage of an important amendment but on final passage of the bill the House was almost unanimous, passing the measure with only three dissenting votes.

Fred Zimmerman, Jr. Jaycee President

Fred Zimmerman, Jr. was elected president of the Floydada Junior Chamber of Commerce at the meeting of the Jaycees held Tuesday night of last week in the Legion hall. Officers elected to serve the coming year with Mr. Zimmerman were John Kimble, first vice-president; Jewell Elza, second vice-president; Olin Watson, Jr., secretary; W. E. Garrett, treasurer and J. M. Willson, Jr., as parliamentarian.

The directors who will serve the second year of the two year term are Parnell Powell, Ed Wester, Billy Henry and Ray McEntire. New directors elected were Grady Walker, W. H. Tanner, L. F. Gresham, J. M. Willson, Jr. and Guy Ginn, who automatically becomes a director as a retired president.

At the meeting, the Jaycees took a definite stand to sponsor the moving of the telephone lines from the south boundary of the Floydada airport, thus increasing the runways by some 300 feet. This would enable the landing of larger planes at the airport. Donations for the project may be given to the president or the treasurer in addition to the committee.

How THDA funds are Collected and Handled

Explaining how the funds of the Home Demonstration Association are collected and handled, Collins Walker, County THDA man has issued a statement for information of members and has answered most of the questions that arise in question and answer.

Says Mrs. Walker:

Each home demonstration club has a voluntary contribution equal to fifteen cents per member. The clubs are the unit of membership in this money should be from the club treasury, not from individual members. The president shall see that the money is transmitted to the treasurer of the county home demonstration council with a statement as to number of members in the club.

The Council treasurer shall make a check to the Treasurer of the Texas Home Demonstration Association and mail it to the vice-president for the district as soon after April as possible.

The checks are made to the Treasurer of the Texas Home Demonstration Association and not to an individual because this protects the funds of the association and at the same time provides that checks may be deposited if the person now serving as treasurer should resign or become incapacitated. They are sent to the vice-president for the district, who is the executive officer responsible, so that she may be informed about the contributions from her district and may do the necessary follow-up work and keep proper records. The letter transmitting the check to her should give the number of home demonstration club women in the county.

What does the vice-president do with the check?

Within one week after receiving them, she sends them to the State Treasurer telling her the number of home demonstration members in the county and the amount contributed. Copies of these letters should go to the president of the Texas Home

Demonstration Association.

For what are the funds of the organization used?

They are used to:

- (1) Pay the expenses of the Association.
- (2) Maintain a college scholarship for an outstanding 4-H Club girl.
- (3) Maintain a loan fund for a 4-H club girl.
- (4) To maintain a fund of \$100 for each district for 4-H work.

Disposition of this money is left to the district vice-president of the THDA, the District Agent, and the 4-H Extension Specialists.

How are the funds of the Association protected?

The state treasurer is bonded by a regular bonding company for an amount slightly higher than the total funds of the association are liable to be at any time. The constitution provides that the books shall be audited by a certified public accountant.

How is the money budgeted?

The Budget Committee is composed of the members of the executive committee which consists of the president and the vice-president at large, the secretary, the treasurer and one of the vice-presidents for the districts elected by the board. The vice-president at large is the chairman of the committee.

Money collected in any year furnishes the funds for the association for the following year. It is a point of honor that no outstanding obligations are left for the incoming administration. Usually if there is a surplus at the end of an administration, it is deposited in the reserve fund, the interest on which maintains a scholarship loan fund.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

This is the time of year when folks scan the heavens and almanacs for signs of rain till their eyes are sore. Yesterday a cloud came from the west on wings of dust and scattered a few drops, most of them fell on Mr. Spikes and I as we hurriedly made our way into the house from the garage. This morning I heard the weather man at English field Amarillo, say that there was some rain fell from the clouds yesterday but most of it was taken up by the dry atmosphere. Brother Haynes says this is a new alibi on the rain situation.

I have listened with great interest and much pleasure to Ted Malone over the radio and enjoyed his column in the magazines, also.

This is the way I imagined he looked. Kinda pale and dwindly, like a good-sized West Texas sandstorm would blow him away. He would have longish hair, a wistful expression, sad mournful eyes. His fingers would be long and tapering always holding a book of poetry. The other day I came face to face with him, exactly, but the big picture on top of a radio and all at once I found I was glad he was not a bit like my picture.

His eyes fairly danced with joy of living and his short hair was slick and smooth. A gay red and green striped necktie had not a mite of Byron-ish look. But his short, large fingers did not hold a book of poetry. They are hands that can do a man's work as well as hold books and I do not believe even the best or worst of West Texas sandstorms could blow him a foot.

There is no use for me to go to California now as I saw such a breath-taking beauty the other day at Park Floral. I stood and marveled at the sight of sweet peas higher than a tall man's head, covered with fairy blossoms of orchid and rose, white and orange. The crinkled leaves were as large as cottonwood little fans. Tender slim fingers held tight to the wires and strings. A cricket made the music inside the greenhouse and outside a mocking bird poured out his thanks for the fragrance and beauty near the apple tree.

I filled my soul with the beauty and turned to the snapdragons, tall and straight as lady soldiers. Soft yellow, deep rose and red were the colors of the uniforms. It was such a lovely day I watched to see if the snapdragons would not turn and march out the door, go down the green bordered walk, stop a minute where golden daffodils made a splash of gold, and stand at attention under the big shady trees.

I came away from the Floral, my hands full of sweetpeas given me and my heart full of friendly words and my thoughts on the beautiful wreaths of flowers going out to folks whose hearts were heavy from a deep loss of a loved one. I thought of big bouquets going to where folks were sick and needed cheer and comfort. I was glad to know that flowers would go to make parties brighter and people everywhere happier.

Every summer for some years I have looked forward to meeting a dear, sweet lady, Grandma Hankins. She came to visit as the flowers and the singing birds. I did not know her too well, I only saw her at church, but she added to my happiness as I shook her hand and told her it was nice for her to be back. This summer there was no answering reply to her friends. She came back but her snow-white spirit had gone on to its Heavenly Home and I know the angels were glad that Grandma Hankins was with them for eternity.

Though now beyond earth's farthest

hills you fare,
Song-crowned, immortal, sometimes it seems to me
That if I listen very quietly,
Perhaps I'll hear a light foot on the stair
And see you, standing with your angel air,
Fresh from the uplands of eternity.

HOW TO GRADUATE IN JUNE

To be a senior is a symbol of many long years of work to most students. If you, too, want to graduate in June, you might find the following rules beneficial.

I. The first step is to get yourself a squirt gun. The administration likes to see students take an interest in something.

II. Get away with all the chemistry equipment possible.

III. Do your best to improve the running of your classes. Start by putting the teachers in their places.

A female figure used in architecture as a pillar is a caryatid.

Demosthenes was the most famous orator of ancient Greece.

IV. Find out how many witty sayings you can write in books.

V. Keep a record of how many rules you have broken each week.

VI. Borrow cars without the owner's knowledge.

VII. Have your father do your homework—teachers love to read essays on his love-life.

VIII. Eat candy and chew gum any time you wish in class.

IX. Be perfectly frank with teachers as to what you think of them.

X. Make just as much work for the janitor as possible. He may be able to do something for you someday.

XI. Be the life of all parties. This is accomplished by setting table cloths on fire, transporting mice and other of your intimate acquaintances on your person, putting ice down somebody's back, and, finally, reading up on all dirty jokes available and using same whenever an opening presents itself.

XII. Last but not least, sink all cash possible into pins, rings, etc. which you must promptly distribute liberally among members of the opposite sex.

This system, we are certain, will enable you to graduate in June, that is if you are not too feeble to walk down the aisle to the stage and if your beard does not interfere with your recitation.

FHS Whirlwinds Open Baseball Season with Win

Floydada High won their first conference game in their first try by bulldozing the Lockney Longhorns 19-7. Leonard Grigsby and Bill Hart gave up but eight hits, seven of them coming in the last inning to score six Lockney runs.

Grigsby allowed two hits, both by Logan. Hart allowed six hits.

Junior Golden started off for Lockney but was replaced in the second inning by Bobby Carthel after giving up seven runs. Bobby Carthel lasted until the sixth inning. He gave up five runs. Calvin Pyles relieved Carthel in the sixth inning, and Floydada scored six runs. Junior Golden came in the last inning and gave up another run.

Floydada's attack was led by Grigsby who had four hits in five times at bat.

The "Winds" play the Abernathy Antelopes Tuesday on their own home grounds and then journey to Ralls Friday to play the "Rabbits."

FHS Band Concert Next Tuesday night

The students of F. H. S. are going to be honored by a concert put on by their own Whirlwind band.

Yes, a cute little birdie told me this would take place in the high school auditorium April 27. There will be a small fee charged which will be announced later. The numbers will consist of marches, special attractions, novelty numbers, swing music, and overtures. Wednesday, April 28, the band will take the concert to Abernathy.

There will be several vacant spots in the band next year. Two of these are a twirler and drum major (preferably a boy); anyone who would like to try out please see Mr. Haden. Tryouts will be held in about three weeks. Mr. Haden prefers a boy for the place of drum major, but girls may also see Mr. Haden.

GAMMA SIGMA KAPPA

The members of the Gamma Sigma Kappa enjoyed a trip to Plainview last Friday night, April 16, for their annual bowling party. Those attending were Biff Sisson, Bobbie Gene Medlen, Jo Muncy, Ruth Harmon, Jennie Chowning, Joy Jackson, Chis Jones, Verna Laster, June Powell, Valrie Burke, Hope McIntosh, Gladys Roberts, Mary Maxey, Mrs. Ted Chowning, Fred Cardinal and the sponsors, Mrs. Cardinal and Miss Swepton.

EXTRA ASSEMBLY PROGRAM GIVEN LAST THURSDAY

The assembly program last Thursday morning was enjoyed by everyone. The program was presented by some members of the Senior class with the exception of one or two other students. First, a one-act comedy was presented. The characters were Carlene Daniels, Junior Perry, and Leonard Grigsby. Then a truth or consequences program followed. The seniors were unable to answer their questions, so they entertained the student body for about thirty minutes, as a consequence. The entertainment consisted of whistling, singing, and piano numbers. Pauline Denison whistled a very beautiful number accompanied by Pat Kirk. Ruth Harmon sang "The Missouri Waltz" and "Beg Your Pardon." The boys quartet Ted Lanham, Thomas Amburn, Sammy Hale, and Gene Dale Jackson, sang several negro spiritual numbers. They were accompanied by Dorothy Bishop.

Candid Camera

Something really exciting finally happened to Floydada. The day was September 17, 1931. People's eyes opened wide, because of the excitement that was going on in the McIntosh home. Everybody put on their Sunday duds and hurried out to see the little 8 pounds and 4 ounces of female, who had not yet opened her eyes. People fainted and others screamed. It was a sight to behold. The parents were sad, because such an animal as this was a sight to behold and a shame to own. They "hoped" she would grow up to be pretty; they "hoped" she would be sane; they "hoped" she would be something, so they named her Hope.

Anyway that rainy day became a sunny one; years flew by. The female grew up. Hope was not completely hopeless, because now the little gal is 5 feet, 4 inches tall, weighing 114, with dark brown hair (almost black), green eyes, and features that, well, are just plain wonderful. Too, this little gal, even though she is not completely sane, has a very unique and exciting personality. Hope has won many friends by being just herself, too. She takes an active part in almost any and everything. Hope makes excellent grades (believe it or not). All the good things are true, but just forget the other remarks. They were all in fun.

Hope just loves carmel pecan pie and she usually smears her favorite lipstick. Tabu's Singapore Red while eating it. Hope's pet aversion is people who gossip and those who can't see their own faults. Hope swoons over "Now Is The Hour" and it's best when Bing Crosby or Peggy Lee sings it. Hoagy Carmichael is her favorite composer. Hope likes all types of music and she likes to hear Happy Robert's orchestra play it. Oh, yes, her favorite band is the Whirlwind Band. Danny Kay makes Hope laugh and Betty Hutton does a good job of it, too.

Swimming, tennis, and football are fun to watch and fun to do as Hope says they are her favorite sports. Hope loves to read, eat, and sleep in her pastime. Her favorite time of day is late in the evening from 7:30 to 11:00, but she didn't say why. Hope's most loved subject is biology and she likes the professor of it, too. Hope loves spring because everything is green and school is almost out. She also said that there are more things to do at this time. Maybe the old saying holds true. Hope likes the type of people who are silly sometimes, but not all the time. She likes honest and straightforward people. Her favorite stars are Cornel Wilde (because he has muscles) and Gene Tierney, who starred in her favorite movie, "Leave Her To Heaven." She just loves shorts with loud blouses.

Hope's nickname is none other than "Hopeless." (We won't say why!)

Hopeless' likes include movies, excitement, dill pickles, Thursdays brown eyes, black hair, tall people, high heels, long dresses, gay people and just any kind of food.

Her dislikes are pessimistic people two-faced people, dishonest people people who impose on people's good nature, conceited people who have no consideration for others, (people people) boiled okra, slaw, and hard alebra problems.

Hopeless' great ambition is to be a doctor, nurse, or business woman. Sounds exciting, doesn't it?

Speaking of exciting—her most exciting moment was her first date and her first date with Weims. Hope's ideal "dreamboat" has slightly wavy brown hair, brown eyes, real tall and slender (but with plenty of muscles), considerate, mannerly, courteous, polite, and owner of a wonderful sense of humor! Huba!

Hopeless' ideal day begins at 8:30 when she will get up and eat a light breakfast. Then she will go to school for about two hours (believe it or not), go home, and then eat lunch. After eating, she would enjoy an hour or so of reading followed by a refreshing swim. All afternoon, she will stay home and get ready for that big date, at which she will stay till 11:30, then, to home and to bed. Of course she'll still be with her ideal boy on that big date. I presume!

Well, Hope, you are a wonderful little gal and I don't know what ole F. H. S. would do without that bright smile of yours. We are very fortunate in having you as one of us. May all of your "hopes" and dreams be fulfilled, because you are a grand gal and we all love you!

Do' Quacker

Howdy Kiddies! I'm so glad to be here. To start the dirt I'll say—Billie Freeman was with C. D. Norvell Sunday night and I couldn't see who Evelyn was with, but they were enjoying themselves—so it seemed! Hi-yi-yi! Claud has taken a fancy to Lockney these days. None other than Glen Earl Norman. There've been

some changes made!

Leonard and Dorothy have gotten up quite a case lately. Spring has sprung!

Did my eyes deceive me or was it Joe Walker and Elayne Snodgrass together the other night??? And where was Joy???

Gladys and Trav are together constantly so it seems. Ain't love grand? Margie Herring certainly enjoyed math class the other day. Don Probasco seemed to enjoy himself, too. Couldn't be because they sat by each other—could it???

What's this about La Juana chasing Peanut down the hall the fourth period? Sounds bad!!

Jane and Garvin must really mean business or sumthin'. They must be sure now—at least it looks that way.

Eunice surely thinks that she has James Finley now!! What does he think? And what's more, what does Chris think???

Barry and Peggy would make a cute couple!! What are you waiting on Barry, or is Stanley in the way??

Beth Smith has been flirting lately!! Teh! Teh! First it's Jimmy Powell, then Johnny Lloyd! And what will Mary say to you??

Genevieve Norman is still going with Alfred Kennermer. I heard she "sorta" likes him!! Dew tell!!

Lee H. was seen talking to Jack Adams and Calvin Pyles Wednesday night. Be careful Lee—June and Darlene might not approve.

I heard Rusty would love to go with Billie Hopper, but now it appears she has her head set on a certain Ras Ware—and you know women!!

Carlene has been going with Bobby—Bishop—or else Bobby has been going with her—I can't decide which. But none-the-less—not bad!!

Rose and Pecos are still doing fine—Huba! Huba! Wilma and J. B. are just purty "true blue" to each other! Now, how do they do it? What's the formula?

Veve Lee missed Billy Mac so much while he was gone. Bless her heart—time passed so slowly.

Poor Jennie can't make up her mind who she likes. Maybe she's playing the field! Wonder—wonder!!

Connie and Hansell certainly get along fine! Spring is in the air!! Sigh!

Rex and Joy are a cute pair!! They seem to enjoy being together too!! Now, ain't that convenient??

Jerry Thomas has been dropped short (or something of the kind). It seems Billie has decided she likes Stanley Conner. Oh—what's gonna happen, now??

Ruth Williams has recently fallen for Loy Lee Trice. Gossip!! 'Tis the last of the dirt fer this time so I'll say goo'bye!!!!

TENNIS CLUB NEWS

While the tennis director is battling his head against a brick wall over the defeat at Matador his aspiring pupils are still doing likewise with tennis balls. There will be more tournaments, and only to the ready comes the victory.

Only one thing is slowing down these ambitious athletes. Wind blowing over dirt courts makes it impossible for anyone to play successfully. Of course, nothing can be done about the wind, but it seems that the other element could be remedied somewhat.

BEGINNING OR THE END

Gosh, I've got troubles, don't know what to do, Bob asked me to the prom but Jimmy did too.

Bob's got the money, swell car and all.

But Jimmy's handsome and divinely tall.

They both have good manners' right out of the book.

They're full of "I thank you" and "How nice you look!"

If I had a penny, I'd settle it all by giving it one toss and then watching it fall.

Heads would be Jimmy, tails would be Bob.

But getting nerve to do it is the real tough job.

Somehow or other it doesn't seem right.

For a penny to decide whom I'd dance with all night.

After a great deal of thought and loss of much sleep.

I've made up my mind and this choice I'll keep!

Excuse me a moment, there goes the phone.

Bob's sick in bed and has to stay home.

I guess that leaves only one thing to do.

Besides Jim's better looking and more fun, too!

Or the shimmer of a sapphire in the early morning dew.

When sunrise defies nighttime and brings the day to you?

Perhaps you may have noticed The royal ruby's ray.

Emitting from the sunset At the deathbed of a day.

But the pearl in all her glory Presents a bright and dazzling wreath.

Biggest Coop Crowd in 10 Years At Annual Meeting and Electric Appliance Show Held Thursday

Perfect weather, farming operations not too rushing, and the prospect of seeing a nice display of electrical merchandise, combined to give the Floyd County Rural Electric co-operative the largest attendance ever experienced in their 10 years of operation. The meeting and show were held Thursday.

Beginning at 10:00 a. m., members and visitors were able to see

a display and demonstration of every ordinary electrical household device. Some 14 electrical appliance dealers cooperated to furnish Floydada with the best showing of electrical merchandise that Floydada has ever witnessed. With the exception of the business part of the meeting, the entire day was devoted to the demonstration and showing of appliances.

There was no official count made of those attending, but various conservative estimates place the figure between three and four thousand people.

The business session was attended by upward to five hundred members, from parts of a five county area served by the cooperative. The members made two changes in the board of directors to serve the cooperative for another 12 months. In District No. 1, W. H. Rathel, McAdoo was replaced by W. L. Keith, of the Wake Community. In District No. 5, T. E. Cowart, Lockney, was replaced by G. B. Johnston, sr., of Lockney. Those re-elected for the year were -- Mal Jarboe, Lee Trice, Walter Patterson, J. S. Lackey, and A. M. Battey.

After reports of the president, secretary-treasurer, and manager, the Capital Credits plan was discussed by Howard Helmers of the R. E. A. A resolution was adopted authorizing the board of directors at their own discretion to take action upon the Capital Credits plan.

After discussion of items of interest to Co-op members, the meeting was pleasantly ended with a drawing for the attendance award prizes.

Fraud Charged

boasting that he made \$30,000.00 by his illegitimate operations last season. Many others were able to buy big, fine automobiles and new trucks. This particular ring was making its illegitimate profits by cheating on weights, and the ways they have of doing this are so many and devious they cannot be outlined in this report. However, the only sure way a farmer can deal with a trucker who does not know is to go with him when he weighs his empty truck across the scales and then stay with him until he has weighed the loaded truck back across.

"We, know, of course, there are many honest truckers, and we would not want to hurt them, but our investigation convinces us there is a very high percentage of dishonest truckers operating in this area. Unless you know your trucker, you cannot be too careful in dealing with him, and we urge you to use every precaution."

Warn Against Checks
"Another matter we feel should be called to the attention of the farmers to be considered in dealing with unknown truckers is that of accepting checks. A great many hundreds of dollars were lost by farmers last year through bad checks. Our officers warn you that it will probably be worse this year unless the farmers use more precaution."

"It is just not safe to take checks from truckers who do not know. Find out before you load a man's truck whether he is going to give you a check, and if he is, ask him to accompany you to see your banker who can probably determine whether the check will be good."

"The Grand jury believes that honest truckers will not object to investigation. If a trucker objects to investigation, the wise thing to do is not to deal with him. This report is respectfully submitted in an effort to be of assistance to the citizens of Floyd county."
