EDITORIALS

Everybody in the newspaper business from The Hesperian on the outer fringe to the Wall Street Journal right in the middle of America that thinks they make the wheels go round and everything would stop right quick if they quit, was giving Mr. Truman advice last week about how to take out gracefully. A week before, this newspaper was wistfully hoping that the courageous man called inept would win out somehow and pointing to the fact that time was in his favor. Anybody who reads The Hesperian knows what we said so there is no point in re-printing that. But since nobody who amounts to anything in Floydada reads The Wall Street Journal for fear of what their neighbors may think, we re-print this sage advice from that sheet:

"We can see no situation where either Mr. Dewey or Mr. Truman will lose prestige. . . if they put aside differences and take steps to make the change in administration as smooth as possible."

Also, we assume that if there is no change in the administration there is no situation where the Wall Street Journal could find it consistent to make the same kind of belly talk. Or is this asking too much of the official part of America?

Not Tumble Bugs: The Hesperian is in a sort of a tra-la-trala-la-la about some things that happened last week on election day: Mr. Gallup, who calls himself professor, Mr. Crosley, and others, are thoroughly discredited. We do not like them, we never liked them. We have felt that they are half-million dollar a year parasites or impostors. We do not want to be insects to be inspected and analyzed. We may be insects. Certainly we are not official. We have been unhappy because grafters have come along and said they had analyzed us and found that we would do so and so and would not do so and so, in the manner you'd interpret a tumble bug.

Also We are Happy: New York and Pennsylvania and New Jersey gave their vote to a man who was not the successful candidate. It does not make any difference that he might or might not have been our man for the office. We are used to being beat. Mr. New York now cannot say he did so and so, Mr. Pennsylvania has to keep his mouth shut. "Official" America didn't have a damned thing to do with the selection of a president.

But while we celebrate the fact that a Democrat miraculously has been returned to the White House, we do have this sobering thought: Mr. Truman has this FEPC in

mind as a part of his program for the alleviation of the ills of humanity. Also Mr. Truman thinks a 30 or 37 hour day or some such would be good for the country and a minimum of some certain figure, per hour would be a good thing to have by law. Also he is for taking the tidelands away from Texas in the face of a definite commitment by the federal government a hundred years ago that these tideland boundaries would forever be inviolate. This is sorter sobering. This explains why some of our people just could not go along. If he insists we'll have to resist. The fact is we know he is going to insist and we know that we are going to resist. But that is part of the pattern. We had rather resist, and hadn't you, somebody in our own household, than to fly to the camp of the "enemy" and resist after going there for protection? Mr. Truman is all righter than a less humanitarian person would have been in the white house. And that is the story so far as we are concerned.

Since we are talking about the general election we'll go ahead to say the fact that official America didn't help elect the president we have it is quite possible that official America will be a bit balky, too somewhat like a mule that you have to build a fire under. This means, in a way, that what we call Wall Street may not go along all the time. They have had the advantage for 80 years or so, and have the money. They may not want to sign the checks that are presented. They may, they quite possibly will, not want to do all the things they are supposed to do. They are in the family, all right, but they are the heads of the family. They give orders or have done so, all along. They may not like it for junior -- as represented by the wild jackasses of the plains -- to tell them instead of asking. So look for a bit of trouble along. This is not to say that Pennsylvanians and New Yorkers are not as patriotic and as much for their country as anybody. They have good reason to be more patriotic than any of us. They have had more of the good things of the abundant life. They are just a little spoiled. They'll make it tough for awhile and then get good if they find out they have to be like the rest of us.

WILL PIPES BURST?
Of course we all know when it freezes and pipes aren't protected, they will burst but there is a way to stop this expensive winter happening.

- Shut off and drain the water in your pipes at night when freezing weather is reported.
- If you can't drain your water when it is shut off install a stop and waste, its cheaper in the long run.
- Wrap outside faucets and pipes.
- Use good common sense and save needless plumbing repairs.

AN ECONOMICAL LUXURY

IN THIS SECTION where winter weather usually gets unpleasant, you'll find a home laundry dryer an economical luxury. Just think, no more bundling up to go out to the clothes line, no more waiting for "good drying weather". Just put your wash, fresh from your washing machine, into your home dryer. A gentle stream of warm air will toss your clothes to dryness in just a few minutes. Your family's clothing will last longer, with no bitter wind pulling at them, no burning sun bleaching them.

Best of all, of course, is the fact that with electric service cheaper than ever before, your home laundry dryer will cost just a few pennies a month to operate.

GOSSIP!

Gossip! That evil thing when once it gets a hold never lets go. Forever its deadly sting it flings until in the cold grasp of death the poisonous flow from the tongue stops. It is silent. Only then does gossip stop.

Gossip! One never knows how one ill-spoken word may cut the soul of one who hears. Better goes the word if it's never heard. There stand like an unseen shield jealousy, bitterness, hatred in the rumor you repeat.

Gossip! Repeat it not, harmless though it may seem. It may impart sadness, dejection, a spot, a blight, a scorn, or a beam of envy to some poor heart. Gossip and libel bring sorrow to the guilty and the free.

DE QUACKER

Kids, I want you all to help me out this week and put in plenty of gossip. The more the merrier, you know.

It seems that Don Probaseo is really trading territory with Elayne Snodgrass.

Juanell, are you still letting Betty Louise beat your time with Louis Earl?

Jenny Hennessee seems to have a crush on Rodney Hinkle! What about this, Jennie?

Do any eyes deceive me or did I see Darlene Johnson with Keith Stansell Thursday night?

Ruth Maxey seems to be crazy about Johnny Lloyd. She asked him to be her escort so he would know she liked him. O. K. Johnnie, do something about it.

Joyce Myrick was with Charles Wilson last Saturday night about 12:00. What about this Joyce? What happened at Lockney?

The 6th period study hall must be a crazy place. Bradford and Wenona enjoy it anyway.

Lorena, where you with Billy Ray Foster Saturday, or was I dreaming? I thought you were simply "nuts" about Bud Turner!

Mariene Hollums said that she would like very much to go with John Moss or Jimmy Powell. It doesn't make the slightest difference which one. What about this, boys?

I hear that Billie Freeman would like to go to Memphis, Tennessee. To see Joe, I'll bet.

Dorothy Bishop and Johnnie Lloyd weren't doing bad at the ball game the other night!

Bobby Finley and Billie Chowning make a cute couple, don't they?

Christeen & Loy Lee Trice were really painting the town red Sunday night. Huba, Huba!

Francess Foster and Ann West were doing all right with Silverton Saturday night!

Carnival Was Raving Success

The carnival Saturday night, which was sponsored by the Band, Pep Squad, and Senior Class, was a raving success in every way. There was fun, food, and entertainment for everyone. Many of the mothers contributed very beautiful cakes which were used in the cake walk and for various other prizes. Due to the generosity of many of the businessmen, there were very nice prizes for the Bingo Game.

The fortune teller and the marriage and the divorce booth seemed to make quite a hit with everyone. For something different but still entertaining there were the penny pitching, the cat-rack, and the bottle stand.

For the enjoyment of everyone there were delicious hamburgers and hot dogs with plenty of ice cold cokes, coffee, and pie.

Directly after the carnival there was an entertaining floor show given by some of the talented students of F. H. S.

Brad Beedy acted as Master of Ceremonies and Don McGuire was the clown who added much humor

to the show as well as to the carnival. Barry Rosson was the sponsor and made several interruptions in the program to advertise his "moans" pills.

The program began with several numbers furnished by the orchestra. They were "Down the River of Golden Dreams", "Moonlight Serenade", "Tea for Two", "I Cried for You", and "Tuxedo Junction."

In the next part of the program the audience took part by answering questions about popular songs and the people who made them famous.

Next was Lee Hutchinson vocalizing on "Feudin, Fusin and Fightin" which was followed by a very graceful Ballet Troupe given by some of the football boys—Aubrey Guthrie, Stanley Conner, Reese Grubbs, Bill Jeter, Dan Hagood, and Johnnie Lloyd—in their football uniforms.

There was a pantomime next by Gene Jackson and Mary Maxey; Jackie Hutchinson furnished the romantic mood by singing "The Old Lamplighter."

Following was a monologue, "Jemimas Courtship," given by Ruth Rigles.

Next was a solo "Temptation" by Ruth Williams.

Last Carolyn Kiker played "The Anniversary Song" on her xylophone accompanied by Anita Tooley on the piano.

This varied program was enjoyed by a large crowd.

BEAT CROSBYTON!

Candid Camera

Her majesty, Joy Jackson, queen of Floydada High school, is the prevailing topic of everyone's conversation this week. The very gracious senior who was crowned last Saturday night is a familiar figure of old F. H. S.

Joy has spent the greater part of her life in or around Floydada getting her first glimpse of this old world here.

Joy is a picture with short black hair, green eyes, and fair complexion. She weighs 128 lbs. which fits very nicely on 5' 5" figure.

She started her first year of her education at Campbell School and then came to Floydada her second year. When Joy was in the sixth grade, she moved with her family to Stratford. After living in Keyes, Oklahoma, Joy could not resist that old magic of Floydada so she moved back and has stayed here ever since.

She would like to spend her summer vacation months by eating and sleeping, and vacationing in Corpus Christi.

Joy is very active in various clubs, classes, etc. She holds the offices of vice president of Gamma Sigma Kappa and manager of the pep Squad.

A list of Joy's favorites would begin with the color blue, Tabu's "Real Pushia," Revlon's "Sweet Polk" and Tabu perfume, nuts, avocados, fried chicken, pecan pie, corn bread, red beans, onions, football, boxing, English, and book-keeping. One of her favorite pastimes is going to wrestling matches. She also enjoys bowling, going to football games, and sleeping. Her favorite expression is "Oh Shoot!"

Joy's dislikes begin with western shows, shows dealing with pirates, raisins, two-face people, and people who are continually changing their minds.

Joy's most embarrassing moment was one night when she had a date, her father decided that she had been going out too much. When her date came to get her, her father went in and told him that two or three nights of the week was entirely too much. Joy had not been going with the boy very long, therefore it made it that much more embarrassing.

Mrs. Cardinal and Miss Swepton are Joy's two ideal persons. Her ideal boy should be about 5' 9" and weighing 140 lbs. He should have brown eyes, brown hair, and a real wonderful personality. She said that she thinks she has found him.

Joy's ambition is to be an interior decorator.

In answer to the question "How does it feel to be a queen?" Joy replied, "It does not feel much different. I was so happy, I wanted to laugh and cry all at the same time. I wasn't very scared, but I was nervous."

Joy, the school is very proud of it's queen; your amicable disposition and charming personality has added much to our school.

Ruth Williams, it seems as if Billie Hopper is beating your time with Kelly. What about this?

Dale Sims seems to be wanting to go with Genelle. They seemed to be having fun last Saturday night.

What about Mae, Genelle?

Why was Ann West thrilled Saturday night at Arlene's party? Could it have been because Dale Johnson was there?

Dan Hagood sure would like a date with Frances Vickers. Come on Frances, give Dan a chance.

I hear Alive Frances, from Silverton, likes to go with Mary Dee Crosby. How is it with you, Mary?

Does Betty still like Buddy, or is she falling for someone else? ? ?

Fern S. and Fred N. seem to enjoy the bus ride home every afternoon. Could this mean a new romance? They do make a cute couple, don't they?

Jane Johnson and Junior Perry were at the ball game together the other night. Maybe Jane can help him get over his bashfulness with girls. Let's hope so.

Hope just couldn't make up her mind the other night whether to go with Arlen or David. One minute she was with Arlen and the next minute with David. OHHHHH my!

Lucille Rahn and David Rape were having a swell time Sunday night. New romance, no doubt.

Glass Jar Trouble In Reports

Many papers have recently published articles cautioning people to be careful in using glass water bottles. The glass alone is liable to shatter in the sun rays, and the water doubles its ability to cause a fire.

Another Similar Report

Another instance of the danger of glass jars in automobiles-- or set around the house or barn-- is brought to mind this week in a bit of blaze that was discovered in time to keep it minimized, as reported by W. D. Burke. A pick-up he borrowed from his father, D. W. Burke, had been hauling a water bottle all summer long. It had concentrated the sun's rays on a rock in the car during the whole time, until W. one afternoon last week on the A. S. Mize farm one mile south and one half mile west of Cedar Hill. Automobile belonging to W. T. Dorsey who lives in the Cedar Hill community caught fire from one of these bottles. Fortunately, the fire was discovered and put out before very much damage was done. The flames burst out in the back seat of the car and burned some cotton sacks, an intertube, and various other small articles.

Perhaps this little incident will help to caution careless people that there is danger in a glass water bottle, and that it does pay to be careful in such minor things as drinking water.

the rock for a half hour or so and then began smoking up. W. D. discovered the hazard in time to prevent serious loss. Examining the bottle and the rock he found the rock had a black spot on it that had been hot as a fire cracker several times doubtless, from appearances. So long as there is nothing to catch fire a glass water bottle is not hazardous. Put something in the way that is combustible and watch business pick up. That seems to be the story.

Glass bottles, especially gallon containers, are so easy to pick up at low cost that the temptation is to go ahead and make use of them. Experience seems to indicate this saving over a jug type container will come pretty high when used in the sunshine and adjacent to a material of some kind that will burn.

Lived In County Half-Century Ago

LOCKNEY, Nov.—The passing of another Floyd county pioneer is recorded in the death of Mrs. Chloe Light Key, 72, following a stroke in her home in Los Angeles, California Tuesday of last week. Mrs. Key had suffered from a heart ailment for many years.

A sister of the late Mrs. D. T. Thomas, Mrs. Key came with her father to the Starkey community in the early 90's. After her marriage, she lived in California a while but returned in 1917 to operate a photographers studio and the first beauty shop in Lockney. Since the early 20's, she had lived in Los Angeles.

Survivors are two sons, Valoy and Vebra Key, both of Los Angeles. Other survivors include her brother.

MOVING AFTER 40 YEARS FROM FLOYD TO DEATH

LOCKNEY, Nov.—After having spent the past 40 years on the same farm in the Lone Star community, Mr. and Mrs. W. B. Hatchett are moving this week to a place they recently purchased near Stephenville. They have sold their farm to their daughter and son-in-law, Mr. and Mrs. Bascom Baxter.

Mr. Hatchett said that he has retired from farming and that he will do nothing more strenuous than raise chickens on his new place.

Mr. and Mrs. Hatchett settled on the farm near Lone Star 40 years ago and had lived on the same place since.

Sixteen million women—1 out of every 3 over 14 years of age—will be at work, or seeking work by 1950. More than 1 1/2 million more will enter employment each year thereafter.

—From a study by Bryn Mawr College.

Will SHE HAVE TO GO TO WORK?

Will your widow have to go to work "to keep things together and make ends meet?" Will she be prepared to enter a lucrative profession . . . fill an executive's chair . . . start a business of her own? Or will she have to seek employment wherever she can find it, at whatever she can get?

More than 90% of all the women employed in our country work because they have to eat, or need the money to support others. (Women's Bureau, U. S. Department of Labor)

The thing nearest your widow's heart will be security. To her, security will mean more than investments, assets, money in the bank. Security—to her—will mean happy, contented human relationships . . . an unbroken family . . . a home safe against the darkness outside . . . a placid place to nurture children. And you can give her that security through Southwestern Life Insurance.

If you are 35 and your wife is, say, 32, by saving as little as \$13.50 a week you can assure her \$100 a month for life. If she lives until she is 52, she will get a total of \$24,000 in \$100 monthly checks. If she lives until she is 72—as many women do—she will get a grand total of \$48,000. One hundred dollars a month to her should you be taken out of life's picture . . . or \$100 a month for life for you, if you want it, to start when you are 65. Give your wife a financial nest-egg—a guaranteed income that she can depend on—an income that she will have as long as life lasts. Ask for a plan to fit your needs today.

Fight For Life Lost By Don Hill

LOCKNEY, Nov.—Little Kenneth Don Hill, 4 year son of Mr. and Mrs. James Hill, finally lost his fight for life against leukemia. The child had patiently fought the ravages of the dread disease for almost a year, but died Friday night of last week at the John Sealy hospital in Galveston.

At one time the child's parents had hope that he would survive the disease. That was when he was carried to the Galveston hospital and treated with a newly discovered drug. His condition improved immeasurably and he finally recovered enough to be brought home about three months ago. Later his blood count fell again and he was returned to the hospital for further treatment about October 1. This time the new drug didn't seem to be effective and death came on October 29.

Kenneth Don was born in Lockney on December 8, 1943. He had lived all his life in this immediate area.

Funeral services were held at the Lockney Methodist church Monday afternoon at 2:30 o'clock. Services were conducted by Rev. N. S. Daniel and Rev. E. J. Cobb. Arrangements were under the direction of Carter Funeral home and burial was in the Lockney cemetery.

Survivors include the parents, one brother, Mickey Charles; his grandparents, Mr. and Mrs. E. C. Blackshear, of Sunray, and Mr. and Mrs. Pat Hill, of Lockney, and a number of aunts, uncles and cousins.

Helping Build West Texas...

WEST TEXAS GAS COMPANY is constantly enlarging its facilities to take care of the increasing demand for natural gas.

In addition to our old customers, we will probably extend gas service to about 5,000 new homes and businesses this year.

West Texas Gas Company has been and still is busy building. New and larger pipe lines have been laid, city distributing plant extensions and improvements have been installed and several compressor stations enlarged. The above action photo is typical of work being done daily throughout the company's system.

LOCKNEY GAME NETS THE CLUBS \$694.44 EACH

Figures for the Whirlwind-Longhorn interscholastic football game, released by I. T. Graves, chairman of the district athletic council over the week-end, revealed that the two clubs netted each a pretty fair sum for their athletic needs. The figures for each, based on a 50-50 split of the proceeds after all actual and necessary expenses are paid, are \$694.44, Mr. Graves said.

Gross income of the game was \$1,766.25, indicating a probable attendance of 3,000 adults and students at the game. When the Winds and Longhorns tangle it always makes the cash box jingle and that doesn't make the often financially harassed athletic department unhappy.

From the gross the federal tax of \$294.37 was deductible and the cost of the officials was \$83, leaving a net as indicated above for each of the clubs.

Bi-District May Be Bigger
With the probable exception of the bi-district game, which District 3-A officials hope will work out for the fans of this area to view, the Floydada-Lockney game probably will exceed that of any game in the district for this season. Whirlwind-Spur or Lockney-Spur games probably would net as much in unusual years when a district championship is at stake, but just for catch as catch can district play Lockney and Floydada have been furnishing the high for the district so far as receipts at the box office are concerned.

Mr. Graves said the usual statement of income and expense of the football season would be released within a few weeks after the close of the football season, but he said he thought fans might be interested at this time in the big game of the season for the local club.

PROUD BEAUTY

The enjoyment of flowers comes naturally to young children. Wise parents foster this instinctive love of beauty by encouraging their children to care for flowers intelligently and to arrange them artistically.

National Flower Week will be celebrated throughout the nation this year during the week of November 7-14 to encourage an appreciation for flowers and of the pleasure they bring to daily living. During National Flower Week and throughout the year, mother, father, and children will enjoy a feeling of close companionship as they share their mutual interest in one of nature's greatest gifts—flowers!

Soldier Brother Of R. L. Haines Buried Thursday

R. L. Haines returned home Friday night from College Station, Texas, where he attended re-burial rites for his soldier brother, Paul G. Haines, Jr., whose body was returned home from Germany by the army for re-interment.

Paul G. Haines, Jr., was a first lieutenant in the U. S. Army. At the time he was killed he was commander of a tank company—C company of the 744th Tank battalion—on February 24, 1945. The company was up in Germany and had just seized a small city. He was killed by a ricocheting slug from mortar guns of the Nazis. R. L. had visited with his brother two days previously.

Parents of the deceased soldier, Mr. and Mrs. Paul G. Haines, reside at College Station, where the young man lived when he entered the armed forces.

The Floydada man made an all-night ride hurrying back to Floydada to be here for the arrival of his daughter, Mary Jean, born Saturday morning at 7:30 o'clock.

Youth Charged With Burglary Of Typewriters

An 18-year-old boy, Franklin Lefers, of Plainview, is charged with the burglary of the Floydada High school building and the theft therefrom of 10 good and new typewriters two weeks ago. The first of this week he was being held on the charge.

Meanwhile the school has recovered the 10 typewriters lost when a burglar or burglars entered the building by breaking two locked doors and the machines again are in use, according to Superintendent I. T. Graves, who received the machines from Sheriff Leland A. Hart last week. The machines were recovered over the week-end, five of them from Big Springs, and five from Lubbock, where they had been hidden. A young man is said to have confessed to the burglary.

Recovery of the machines came when they reached a Big Springs, Texas, dealer on Tuesday of last week. Offered the machines on a sale proposition, the dealer checked

a master list and found the machines might be those taken from Floydada. Sheriff Hart had broadcast the list to dealers and peace officers throughout the area in the hope they would be recovered in this manner. Superintendent Graves said the machines are in use once more at the school and the period of extreme shortage for typing pupils is over.

Farm an Thinks

There is a relief and a bit of sadness in gathering the last of the garden. I picked the last green beans and butterbeans, all the green tomatoes and peppers and a few flowers the high wind did not touch. Every year I promise myself that the next year I will not make chow-chow when there is always some left over. I stick to it till the last, or almost. The green tomatoes and peppers simply will not be neglected and some more chow-chow. Look out next fall, tho. No more.

The little bud to heaven conveyed, And bade it blossom there.

Theme song for Roy Acuff. It is free: I ran for governor of the State of Tennessee. But the voters did not want me that was plain to see.

As a singer they think I rate Ace-high
So I'll keep on singing until I die.

Margaret Nell went to a theater that she did not like, evidently for she said, "Grandmother it had only wooden cushion in the chairs." She has learned something about dividing already. "Mother will have to wait on me half the time," she said when I told her mother had to wait on the new baby.

I am having a hard time this cold windy morning in getting this column written but after missing last week will try to finish. The clothes were hard to pin on the line in the wind and some of them have to be brought in as they dry. Hash had to be put to simmering for dinner, and it is almost twelve.

I know it would be of far more interest to you readers to have something in this space than wet clothes on a cold windy day, but I am shivery and my mind only thinks of a warm fire, dinner and rest.

However
No day has ever failed me quite: Before the grayest day is done I find some misty purple bloom Or a late line of crimson sun.

Fairview News

FAIRVIEW, Nov. 8.—Our weather for the past several days has been varied with high wind, sand, damp weather and beautiful weather all mixed up with some cold days and thin ice and light frost.

Cotton pulling is the work of the day around here now with most folks.

Those that have their telephones are really enjoying them while others are anxiously awaiting the day they will have theirs connected.
Wheat is still holding up, but sure needs a real good rain to give it a good start before cold weather.

A shower was held Friday night at the home of Mr. and Mrs. E. W. Walls for little Barbara Jan Perry, infant daughter of Mr. and Mrs. Thurmon Perry.

Cotton Harvest Heavy And Fast Around Petersburg

PETERSBURG, Nov.—The cotton crop around Petersburg is about 65 to 70 per cent gathered according to farmers, ginners and others that keep posted on such matters. It has been rolling from the fields to the gins rather rapidly the past ten days. Gin plants have been able to take care of all comers pretty nicely.

Up until noon Thursday, 6,266 bales had been ginned with the yards pretty well loaded.

It now looks as if the crop is going to hit right at eleven thousand bales for the season, which is very good considering the hail storms received over the area during the growing season.

odation of a considerable number of wells. The work there is going slow because of slow delivery of materials.

Projects of this sort in the future will be sub stations near Floydada, Harmony, and Crobytown. These will result in more efficient service for the members.

Arrangements have been made with Southwestern Bell Telephone company to cover rural areas with rural electric and telephone lines. While shortage of materials has been hindering this development to some extent, it is anticipated that this service will be available to all who desire it in the next few months.

The telephone known as the M-1 carrier operates on the electric lines. This service is possible only in those areas which do not have and are not expected to have in the near future more than purely domestic services.

Floyd county particularly is becoming well-covered with electric and telephone lines. Under construction are two tall lines crossing the county east and west. One is being constructed by Southwestern Bell Telephone Company and one by Stanolind Pipeline Company.

LOOK GOOD ENOUGH TO EAT

Photographs of beef in natural colors give a clearer idea than any description in words can be expected to give of the differences that govern the grading of the meat under Federal standards. Under the Research and Marketing Act, the U. S. Department of Agriculture has prepared an exhibit and a manual of photographs in color to use in improving its grading service. The pictures make clearer than words the differences in color, conformation and finish that are the basis for grading meat for quality as U. S. Prime, U. S. Choice, U. S. Good, or U. S. Commercial. The familiar purple stamp carries this information to the housewife buying the meat at the market. Matching meat with the photo-

TREES ALWAYS UNDER ATTACK

Trees are attacked by diseases from the time they are seedlings in the nursery or forest, until they are mature, says Dr. Lee M. Hutchins of the U. S. Department of Agriculture, who is in charge of the research on diseases of forest trees. These diseases, he points out, fall into two main groups, parasitic and non-parasitic.

The parasitic or infectious diseases are often highly contagious and are caused mainly by low forms
