Could Save Billions: Mr. Hoover, the ex-president, says that billions could be saved in the government's executive branch by the introduction of some changes. Mr. Hoover is chairman of a two-party commission whose findings, one may hope, will not come to naught. It is a commission on "the organization of the executive branch" of the government named two years ago to report to the 81st congress. Not that it would be any different if a Republican congress had been elected. It is not in the cards for government expenses to be reduced, we fear. In fact, we fear the exactly opposite will take place.

Not for the purge: The Hesperian was not for a "purge" in 1928 when practically 60 per cent of the Democrats of Texas jumped the fence and voted for Mr. Hoover,—of all men—on account of their religious belief or prejudice. And we are not for a "purge" now that a few Democrats in Texas kicked over the traces and went over to the Dixiecrats. We are not sure the Dixiecrats knew what they were doing and also we are not sure the Democrats knew what they were doing. The fact is, in our belief, the Texas Democrats still can't be sure they are on the right track, except for one thing, namely they'll get more done inside the party than by flying to the camp of the opponent. The opponent is all right and a good man, no doubt, but he has the wrong slant on the people's needs. Assuming that the ruling crowd in the Democratic party is going to be wrong a lot of the time within the next 12 months is no reason for a Democrat or a Dixiecrat to try to get the results that are desired by trying to kick the president in the pants. The same is true for the president and the rampant left wingers. They'll get more done with sugar than with vinegar. Regardless of who you are, president, scavenger, left winger, right winger, Republican, Dixiecrat, Democrat, you have to have friends. You don't make friends by "purging" people.

Competition is intense: We get in the habit —you and I— of thinking of competition as the man down the street, or the fellow in the neighboring small city. The fact is, the way the world works right now, the small city man's competition is further away than around the corner or down the highway a dozen miles. This competition which you both face for the public's dollar is intense, nevertheless. It is "more intense" than you think, in fact. It is the big man with a long stick who is fighting you off —not necessarily unfairly at all— of the fruit which your short stick won't reach. He is in Lubbock, he is in Amarillo, maybe Dallas. He is a good, fair dealing fellow with the goods. He makes the customer you would like to have want to trade with him. He is greater in number than you are, stronger financially maybe, certainly with more prestige. What you have got to meet is that kind of competition if you live and do business in Floydada. You

have got to have more and better and bigger ability to give the public what it wants. No use to talk about trading at home. Your argument may be good, but the time you spend thinking up what somebody else ought to do might much better be spent thinking up what you can do about it. At this time people in what is known as "Floydada territory" are spending \$12,000 to \$20,000 a day in Lubbock for a hundred kind of things that they could spend it for in Floydada if you and we gave them what they wanted the way they want it. People do that way. It is useless to lecture them. Better spend the same amount of time thinking of some way to coax them. Better use more printers ink. Better have more of the things that Lubbock has for them. Better figure out a way to meet Amarillo. You and your layout are all right. You are good and sound. You know it and we know it. The public that comes to see you also sees the other town the same day and he spends his money where he can get what he wants the way he wants it. Is this true? Competition is intense. We have to meet it.

Matter of pronunciation: Armistice day last week reminds us that there is quite a bit of difference in the way various people pronounce "armistice." Some say it ar-mis-tiss, which we had always thought the way to say it. Others say "ar-mist-ice" (the last syllable like you say hard water). And others "ar-mis-tick." This latter pronunciation intrigues our fancy. Maybe it is "armistick", not "armistiss." We don't fall out with anybody's pronunciation of anything at all except the people who call a creek a "creek." Our impatience with these folks goes back perhaps to the battle at Shilo, or to Missionary Ridge, or something of the kind in the Mississippi and Louisiana and North Carolina background. You have a hard time liking the fellow who whipped your ears down, even if he was taking orders from somebody else and only whipped out across the ridge and shot your uncles and your cousins in order to win the battle and the war, and make it possible for Sherman later to march to the sea. Incidentally "Mister" Sherman (general some call him) passed up some good chances to have a fight just to show off that he didn't have to conquer that area.

Deaths as a result of motor vehicle accidents decreased about 4% in 1947. In 1946 the total was 33,411, in 1947 the total dropped to about 32,000. (Figures are from the National Office of Vital Statistics.)

It takes 21 feet to stop a car going 20 miles an hour on dry concrete, 26 feet to stop on wet concrete. That's if your brakes are in perfect condition.

In one out of every 5 fatal motor accidents, the driver's vision was obscured. About two-fifths of these accidents were caused by rain, sleet or snow on the windshield.

Floyd County 14 Years Ago

Taken from the issue of November 22, 1934

An average of one inch of rain fell over all the county last night. This morning the first freeze, a light one, was recorded for the season. George B. McAllister, John McCleskey, Frank L. Moore and Leroy McDonald returned yesterday from a successful hunting trip in Mason county.

The Floydada Whirlwinds played their best game of the season to puncture the conference hopes of the Spur Bulldogs last Friday afternoon on the local gridiron, 27-13. J. B. Shurbet of this city and Mrs. O. D. Wofford of Lockney, twin children of Mr. and Mrs. J. H. Shurbet, were honored with a surprise birthday dinner Sunday at the home of Mrs. Wofford.

Notice that the Floydada Gas office and plant for the third year out of four, is again winner of the first prize in the system of the West Texas Gas Company, for civic attractions, was received the latter part of last week by G. L. Kirk, manager of the Floydada division.

Roy L. Snodgrass and Bob Echols of Matador, spent last week-end near Fort Sumner, where they were guests of Roy K. Bruner on a two-day quail hunt.

Seven West Texas newspapers, among them the Floyd County Hesperian, seeded in the annual Press Day competition at the Texas State fair in Dallas this year. The Hesperian won first in the general excellence contest for weekly newspapers with a circulation above 1,500.

A cherry tree in full bloom on November 21 is the latest freak of nature in the freaky year of our Lord 1934 in Floyd county. The tree is in the orchard of Mrs. G. R. May who lives one and one half miles east of Floydada.

How's our railroad doing, young man?

"Is it making any money?"
"What are they paying for fuel these days?"
"Are you hauling much freight?"
"Do you like your job?"

The little old lady is not a busybody —she is merely looking after one of her investments.

She has some money in the Santa Fe. Maybe it's ten, maybe it's twenty, maybe it's fifty shares of Santa Fe stock.

She is entitled to attend a stockholders' meeting. She can get on her feet and ask our board of directors questions just like the above. She can compliment those gentlemen for their management, or she can bang her umbrella on the table and tell them off.

Alone, her few shares of stock

can't do a lot. Alone, she couldn't elect a president of the United States. But stockholders just like her — housewives, teachers, merchants, salesmen, laborers—can tell us how to run the Santa Fe, and they do. (Actually 29,178 Santa Fe stockholders are women, most of them holding only a small number of shares each.)

And that's the beauty of America —the voice of the people is the voice that runs things, whether it's operating a transcontinental railroad or putting a man in the White House.

Isn't it a wonderful country where so many can own so much? That's "Free Enterprise."

Santa Fe stockholders, just as those of any railroad, know that American railroads must be permitted to earn at least 6% (many other industries earn more) on their investment in order to maintain sound and progressive operations and to continue to provide shippers and passengers with the finest in rail transportation.

Diamond Gusher

An oil gusher made of diamonds represented Texas at the first na- tion-wide diamond exhibition, called Diamonds U.S.A., held in the Ritz-Carlton Hotel in New York. Shown here by SMU co-ed Jo Neal, the four-inch jeweled oil derrick was designed by Arthur A. Everts of Dallas, and contains 254 diamonds, representing all the counties of Texas. It is mounted on a map of the state, made of platinum and adorned with a diamond steer head symbolizing Texas' other great in- dustry, cattle. The sprays of gushing oil are of various colored diamonds.

Club Chooses Cast For Play

Following the election of Doyle Walls as president Monday night of last week, the Footlite club soon will begin rehearsals of "Angel Street" to be presented to the club in about six weeks and to the public at a later date.

Organized in September 1947, the Footlite club is made up of amateurs interested in dramatics. Since its organization, the club has presented two mystery-comedies that were well acclaimed by interested persons. The first was "Through The Night" presented in November of last year followed by "Arsenic and Old Lace" in April of this year. Olin Watson Jr., was the first president of the club.

Laid in London in 1880
Entire action of the forthcoming play occurs in a house on Angel Street in London in 1880. The play tells the dramatic story of the Mannings of Angel Street. Under the guise of kindness, handsome Mr. Manningham is torturing his wife into insanity. He accuses her of petty thefts he has arranged him- self; and since her mother died of insanity, the wife is more than half convinced that she, too, is really going out of her mind.

While her diabolical husband is out of the house, a kind police in- spector visits Mrs. Manningham and ultimately proves to her that her husband is a maniacal criminal. He is suspected of murder committed 15 years ago in the same house in which he is preparing to dispose of her. A game of trying to uncover the necessary evidence against Mr. Manningham is begun.

Cast for play chosen
The cast selected for "Angel Street" is Mr. Manningham, a tall, good looking man of 45; his manner has a touch of bitterness and mys- tery, played by Carl Minor, Jr.; Mrs. Manningham, a woman of about 34 with a haggard, frightened air, played by Mrs. Bill Brown; Elizabeth, the housekeeper and cook is a stout woman of about 50, by Mrs. Sam A. Spence; Nancy, the maid, is a pretty girl of about 19, by Donicee Cline; Rough, the detective, is a middle aged man with a warm, friendly manner, by Olin Watson.

Mrs. Carl Minor, Jr., is prompter and manager for the play and George Mize is in charge of the properties.

The next meeting of the club will be in the home of Mr. and Mrs. Sam A. Spence on Monday evening of next week at 8 o'clock. All mem- bers are urged to be present.

Mrs. R. E. Terry has returned home to Dallas after a several day visit here with her daughter, Mrs. J. M. Willson, sr.

Whirlwinds Rip Chiefs 25 to 13

Floydada Whirlwinds sparked by Bill Jeter battered the slightly favored Crosbyton Chiefs 25-13 Thursday afternoon at Chiefman field in Crosbyton with Floydada scoring the first 83 yard. Holding Crosbyton 4 downs. They took the ball on Crosbyton 47, where a 25 yard dash by Bishop and a 6 yard drive by Finley set them up on the 16, where Jeter toted the piskin all the way. But Finley's conversion was no good. This time with Crosbyton getting a chance Simmons was thrown for a loss and then attempted to kick but was blocked by his own man and was covered behind the goal by Guthrie for their second T. D. Then Finley intercepted a Simmons' pass but did nothing with it and was forced to kick. Drives by Simmons and Hargis paid off when Simmons went over and made the conversion 12-7. White returned Simmons' kick to the 38, but a six yard loss set them up on the 32, which gave Jeter that much more to travel and he did, too, going 68 yards for Floydada's third tally, and making the conversion 19-12. This time with the Chiefs taking over, a long pass set them up on the 16, where Simmons, the Chiefs' sparkplug, drove all the way for their last tally and Simmons made the conversion 19-13. However, the "Winds were not through. Drives by Jeter and Bishop set them up on the five where Jeter drove through for the last score. The game which was a good one and a cold one was closer than even the score shows. I might say the Whirlwinds knew Simmons was in the game he ran, kicked, passed, and called plays, but you can't overlook some of the Floydada boys like left guard Don Boothe; right tackle, Reese Grubbs; center, Aubrey Guthrie; and left half and captain of the team, "Bill Jeter."

CONTACT! HIGH MORAL

Zip! Swish! It is a Whirlwind! the flesh-and-blood kind. He streaks through the upper hall of F. H. S. as if a pack of Bulldogs were behind him and a goal-post a-head. Twisting and dodging, he gains the end of the corridor. He flies down the stairs four at a time. In the lower hall he collides with the superintendent. That honored official immediately nabs him and marches him into the office. The door is closed. We mere students are not allowed to see what goes on in that awful room. We wait in an ominous silence. After an almost interminable time the hinges up on the door creak. Our hero emerges. What a metamorphosis has taken place! His face is green and purple with yellow polka-dots. He limps painfully down the hall and out the door.
Moral: Do not run in the halls. It's unhealthy!

WITH TEXAS PLANTED TO RUST-RESISTANT WHEAT THE MIGRATORY SPORES WHICH CAUSE THE RUST PROBLEM WILL HAVE NO PLACE TO SPEND THE WINTER.

GLE, GOVERNOR! IT'S FOR ME!

A MONUMENT HAS BEEN ERRECTED IN McFADDEN'S HOME TOWN, WEBSTER, N.D.

Edgar S. McFadden, agronomist for the United States Department of Agriculture, stationed at the A. and M. College of Texas since 1935, is credited with having done more than any other living man to feed this hungry world. Breeder of the first rust-resistant bread wheat, named "Hope," he has made it possible to grow wheat on millions of acres throughout the world where it could not be successfully grown before. His discovery is authoritatively credited with having saved American farmers \$400,000,000 a year during the past war and with having furnished bread for 25,000,000 people who would have died of starvation. His "Austin" wheat now grows on more than a million Texas acres and his new "Seabreeze" variety is spreading throughout the Gulf Coast area rapidly.

Band News

The Whirlwind Band presented a typical Aristice day program last Thursday, November 11.

Entering the field, by marching through its own ranks, the band marched down the field to the 50 yd. line. Here they did a series of maneuvers, including the difficult obliques. Then with a counter march the band returned to the 30 yd. line and went into the formation of U. S. While in this formation the band played "Tramp, Tramp, Tramp!" Then, under the direction of Mr. Kattner, the band played "The Star Spangled Banner." Returning to marching positions the band marched off the field playing "Westerner March."

The Hardin college Home coming, Saturday, November 13, at Wichita Falls was enjoyed immensely by everyone in the band.

Winds Cinch Third Place Mistice Day

Friday afternoon November 11, 1948, the Floydada winds rose in triumphant victory over the Crosbyton Chiefs, to place themselves in third place in the district 3-A.

Weather, as far as fans and spectators were concerned was a high wind blowing and a chill side to boot. How- ever, shivering and stomping feet fans witnessed one of the best games of the season. Floydada kicked first with the

wind as an advantage, and as proved to be the case throughout the game, the remainder of the quarter was spent on the north end of the field, due to the high south wind. Crosbyton took the ball but bogged down on their thirty eight and kicked into the wind to the Floydada forty six, where the 'Winds took over and proceeded to make themselves a touchdown. Bill Jeter carried the final time to cross the goal stripe from the fourteen yard marker and six points for the home grown eleven. Bishop found the going rougher and failed to pick up the two yards necessary for the extra point.

Six Point Bonus For 'Winds'
Luck beat the locals when after the kick off, the Simmons-sparked attack of the Chiefs bogged down again. On the fourth down, when Simmons attempted to kick from his own eight yard line, the ball hit his blocking back and bounced behind the goal where an alert Aubrey Guthrie pounced on the ball for another whirlwind tally. Again the 'Winds fell short of the extra point when Finley's attempt at placement failed.

Almost the same story was to be told again in the second quarter when the Chiefs had the wind to their back. Their first act of the second quarter was a quick kick from their thirty which went over the Floydada goal line and put the 'Winds in possession of the ball. Backing a strong wind, a situation that is undesirable to any team. Due to the wind it was hard to run, impossible to pass, and a dreaded thing to kick. Floydada bogged down and kicked twice for 19 yards both kicks. The longest kick into the wind was 22 yards and that was with a three yard roll, the second of which Crosbyton took on their 34 and pushed down to the five where Simmons ploughed it over. Their seventh point came on beautifully executed lateral, Moore to Hargis.

Floydada took the ensuing kick off and on the third play after one set back, Jeter found an opening off tackle, went wide and around the secondary and galloped the remaining distance of his 68 yard dash, to a T D. This time Jeter plunged the ball over and accounted for the only extra point the 'Winds made.

High Wind A Factor
After the half Crosbyton again had the invaluable wind to their backs. The value of the wind is demonstrated in the fact that only seven out of the thirty eight points were made into the wind.

With this wind advantage the Chiefs worked the ball down to the 'Winds three yard line, took a set back to the seven and lost the ball two plays later on downs. Floydada, working into the wind, also found the going rough, and kicked from their eighteen where the Chiefs took over on the Floydada 32 and in six plays had another, their last, touchdown to their credit.

The third canto found the wind in favor of its namesake and also favored them with enough help to make a 66 yard sustained drive to

ease Jeter over to pay dirt from five yards out, followed by a placement attempt by Finley that went wide.

Ends Show Up well
Boys of the green and white who turned in impressive services this time were ends, Trice, Perry and Galloway. It was gratifying to see them cut down the interference on attempted end-sweeps and break up the pass plays so consistently. Guthrie as a line backer did a bang up job breaking up plays and crawling from under a good percentage of the piles on the defense. Finley and Jeter both took a large percentage of tackles, and made in all the whole game was well executed with the exception of patches of raggedness, and our chances of taking the next contender, Spur, look much brighter as a result.

Good Start Is Made In Egg Laying Contest

Already a month old, the Texas Farm and Home Egg Laying contest is off to a good start, reports Ted Martin, extension poultry husbandman of Texas A. & M. College.

There are 394 entries in the contest with nearly 122 thousand birds on the records. There is no upper limit, but all entries must have at least 100 birds to enter. According to the entrance applications, the size of the flocks range from 100 to 7,500 birds. The average number of birds in all flocks is 334. Single Comb White Leghorns top the list of breeds with 268 flocks out of the 394 entered. The total number of Single Comb White Leghorns in the contest is nearly 95,000 birds. After the White Leghorns come New Hampshires, White Plymouth Rock, and Austral-White in the order named. There are several other breeds entered in the contest, but the number of flocks is small and there are very few birds per flock.

In recognition of her achievements, The Sears-Roebuck Foundation is providing Shirley with an all-expense trip to the National 4-H Club Congress, Chicago.

Preparing tasty, nutritious home meals is an art, well mastered by Dona Hendry, 16, Blackwell, who has been named State winner in the 1948 National 4-H Food Preparation program. Dona has prepared and served 4,889 meals and 2,217 separate dishes during her eight years as a 4-H member. She is now an assistant leader. The income from her 4-H projects amounts to \$4,500. As a recognition of her 4-H achievements, Dona was awarded

Expiration Date For Regulation W Statement Nov. 19

The Federal Reserve Bank of Dallas calls the attention of persons and firms engaged in the business of making installment loans and installment sales of "listed articles" that the period for filing the registration statement required by Regulation W will expire on November 19, 1948. For the purposes of Regulation W listed articles comprise the following items of consumer durable goods: cooking stoves, dishwashers, ironers, refrigerators, washing machines, combination units of any of the foregoing, air conditioners, radios or television sets, sewing machines, suction cleaners, furniture and rugs, and automobiles. Articles having a cash price of less than \$50 are exempted.

While a substantial number of persons and firms have already submitted registration statements, others apparently subject to the regulation have not done so.

Attention is called to the fact that such a statement should be filed by November 19, 1948, regardless of whether the Registrant had filed a statement under the provisions of the old Regulation W in effect prior to November 1, 1947. Persons desiring information or registration statement forms should communicate with the Federal Reserve Bank of Dallas.

ATTENDS CANADIAN BANK OPEN HOUSE ON ARMISTICE

S. F. (Buck) Conner, one of the contractors on the major rebuilding of the First National bank building at Canadian, was among those who attended the house warming and ceremonies incident to the completion of the remodeled business quarters of the bank there.

Conner has had a major part in the re-building of two other banks in this area since the close of the war. His first was with the First National of Floydada, followed by the job of the First State Bank of Matador, both of which called for major operations to completely modernize the banking offices.

Launch Drive For Increased Sale Of Bonds

Seeking to encourage farmers and ranchers to build financial reserves for themselves, a special campaign for the sale of U. S. Savings Bonds was launched in Floyd County on November 11.

This announcement was made by J. M. Willson, County Savings Bonds chairman, who explained that the effort will be a part of a nationwide drive having three objectives. These objectives are: To get farmers and ranchers to save money as they can; to increase the number of wage and salary earners who are buying Savings Bonds where they work; and to increase the number of participants in the banks' Bond-a-Month Plan.

"So far as this county is concerned, the farm and ranch objective is the most important because the welfare of our whole area is largely dependent upon the well-being of our farmers and ranchers," he said.

He said that the drive would continue through this year, and that an effort would be made to contact every farm and ranch family in the county.

RESEARCH POINTS TO NEW USES OF GROWTH REGULATOR

Basic research on the effect of growth-regulation substances on plants is gradually pointing to practical new uses for these chemicals, says Dr. John W. Mitchell of the Bureau of Plant Industry, Soils, and Agricultural Engineering.

Recent U. S. Department of Agriculture studies, for example, show that relatively large amounts of growth-regulators tend to slow up physiological processes associated with the aging plant cells. This offers promise as a means of prolonging after harvest both the freshness and the vitamin content in fruits and vegetables.

Dr. Mitchell reports that some phenox compounds have marked effect in slowing up the rate at which after-harvest changes take place in green beans. He treated pods with varying concentrations of from 50 to 1000 parts per million of the compound. At the end of 17 days, the percentage of beans remaining plump and green was greatest at the higher concentrations used. Sixty-six percent of the bean pods treated with 1000 parts per million of the compound were plump and green, while the untreated beans were all shriveled at this time.

The study showed, moreover, that treated bean pods maintain a relatively high level of vitamin C for a longer period following harvest than do comparable untreated ones.

Two other companion cases resulted from the same alleged assault the same night. Trial of one charge is pending in district court and the other has been transferred to the juvenile court, the defendant being less than 17 years of age.

Also set for trial next week is the case of Floyd LeRoy Billington, 41, who is charged with the second offense of drunk driving. Billington was arrested in Amarillo and has made bail.

Steers Romp Over Dragons; 48-0 Victory

With their juggernaut in high gear the Lockney Longhorns steam-rolled the Paducah Dragons 48-0 last Thursday afternoon to the delight of hundreds of Lockney High exes and a stadium full of fans on Armistice home-coming day at Mitchell Zimmerman field.

Not only was it a delightful spectacle for the home-comers and a sweet morsel of revenge for the Longhorns over the Cottle county boys, it brought the district champ-

ionship to the north Floyd county school. The Longhorns now will rest until some adversary qualifies for a bi-district tussle.

Employing his first string long enough to roll up three or four touchdowns, Coach Curtis Kelly began throwing in second and third string boys to let them get experience. By the time the Dragons were so demoralized that, except for a brief rally late in the game, they were unable to stem the tide and the Longhorn substitutes rolled over the goal line for scores almost as freely as did the first string lads. The late Dragon rally was squelched when Kelly sent the powerhouse back in to hold the line on the eight for four downs.

Sandlin Goes Out of Game

Joe Ed Sandlin, in whose elusive ball totting were wrapped up Paducah's only hope for victory, went out of the game with injuries before the first half was up. His place

was taken by Rudy Rochell, who paced the thwarted Paducah effort, with Paul Sandlin, a good passer, and Keith Slover a hard runner as his principal aids. The hard-pressed, outweighed Paducah line, however, could not cope with the Longhorn power, and the backfield boys could not get their plays into execution in time to gain material yardage.

Conservation District News

Three supervisors of the Floyd County Soil Conservation district attended the state convention of district supervisors at Brownwood on November 9 and 10. W. H. Nelson went as a delegate and W. F. Ferguson and Cecil Purcell as members. They reported a nice, educational meeting, most of the program being from supervisors of various parts of Texas. The president of the National association of supervisors was in attendance.

H. R. Hartman of South Plains had some terracing done about a year ago with district assistance. Since then he has had some washing rains and has decided to terrace some additional land.

W. E. Terrell of Lockney reported that he made 90 bushels of Plainsman milo per acre on land that had been in alfalfa three years while similar land that had cropped in sorghum made forty bushels per acre.

The field crew of the Soil Conservation Service office has set well locations for W. F. Ferguson of Starkey, O. G. Mayfield, Floydada and W. G. Jones of the Providence community.

An election of a supervisor in the northwest part of the Floyd County Soil Conservation district has been set by the Texas State Soil Conservation board for Saturday afternoon at 2:30, November 27, at the Beacon office in Lockney. This election is to replace John Belt who has resigned. All landowners in this subdivision, which is the Northwest corner of the county lying within the boundaries of the Plainview and Silverton highways, are eligible to vote.

Purple Heart, Wee Bit Late, Reaches Veteran At Borger

Although it was 30 years late, James Austin Collum, of Borger, last week received a package from the War Department containing a Purple Heart with a commendation for his achievement during World War I. A member of Company H, 36th division, 142nd Infantry, Collum was cited as wounded on August 8, 1918, on the Campaign front in the Argonne forest. Under heavy German machine gun fire, a volley of bullets severely wounded Collum in the shoulder.

A Floydada veteran of World War I, Bob McGuire, trained at Fort Worth and was shipped over seas with the Borger man. However, Bob remembers the date as being October 8 instead of August 8 as the company had been at the front only a short time before going over the top on October 8 and stayed on the front 23 days and nights before being relieved by Frenchmen.

ELECTRONIC EYES FOR THE BLIND

The movement to employ handicapped workers is only one of the programs carried out by The Timken Roller Bearing Co. Donation of an electronic gaging machine to the Ohio Society for the Blind is the latest step by the company that employs partially or totally blind persons in six Ohio plants.

Originally designed to give employment to blind civilians and to aid in the employment of Timken veterans, the device, by means of sound of the normal reading dial, enables the blind operator to make a precision on precision bearing parts at a speed and degree of accuracy comparable to that of sighted persons.

Erwin is pictured taking the training, which, when completed, will enable him to become self supporting.

the Harmony Club room at noon. Each person brought a dish of food and the result was worthy of a Thanksgiving feast. Bread and coffee were furnished by the hostess club. A most pleasant social hour was enjoyed at this time. After noon a quick dish washing act was done by tucking the dirty dishes into paper sacks and the tour was off again, this time to the home of Mrs. Jim Barnard, living room demonstrator for the Harmony club. While the living room was admired the group also admired the rest of her charming house. She has a number of well chosen antiques which have been inherited or acquired by Mrs. Barnard over a period of years.

The home of Mrs. J. W. Day Jr., living room demonstrator for Starkey, was visited next. A partition had been removed from between the living and dining room which left a spacious room that Mrs. Day and her family enjoy much more. Refinished floors, new wall paper, and new draperies were other improvements made by Mrs. Day.

Re-Modeled Home Seen
Mrs. Harlan Day was food supply demonstrator for the Starkey club, but the visitors had the privilege of seeing all of her recently remodeled house as well as her well stocked pantry and half-bath at the back gave them ideas for remodeling in their own homes.

Mrs. Raymond Williams, living room demonstrator for the Homebuilders' club also has remodeled her house within the last year. A large living room with picture windows and a fire place, new draperies and slip covers, new wall paper and paint are now being enjoyed by Mrs. Williams. An exhibit of handwork by the members of the Homebuilders' club was admired by all.

Several pieces of refinished antique furniture were shown by Mrs. Kate Collier, member of the Lockney club, who lives in Floydada. Her work was an incentive to all. This was the final visit on Tuesday's tour.

New Garage Apartment
A garage apartment planned and decorated by Mrs. W. H. Hilton, member and demonstrator for the Sunnyside club, was the first stop made on Wednesday. Not only did Mrs. Hilton plan and decorate but she made every one of the over 2,000 cement blocks in it by hand. A lovely tea was served to the visitors by members of Mrs. Hilton's club and other friends.

Mrs. G. N. Shirey, living room demonstrator for the Sunnyside club, showed the visitors the various improvements made in her living room by changing doors, repapering and painting, and adding a fireplace. Another attraction at Mrs. Shirey's was the exhibit of handwork by her club members. A down comfort and much handwork were among the attractive articles shown.

The new home of Mrs. George West, living room demonstrator for the South Plains club, was the next place visited. Years of planning have gone into this attractive home on the Silverton highway. Mrs. West graciously showed all of her house to her visitors. Coffee, tea, and doughnuts were served the group by members of the South Plains club.

A partition removed, new wall paper, paint, and glass curtains have made a spacious living room for Mrs. Wade Deavenport and her family of South Plains, the fourth place visited on Wednesday morning. The family enjoys this large room very much, said Mrs. Deavenport.

Small House, Lots of Room
A small house with lots of room describes the new house belonging to Mrs. G. E. Patterson, living room demonstrator for the Sterley club who was visited immediately before noon. Mrs. Patterson did all the inside construction of the house which included sawing the frames for the windows and doors and all the finishing. Everyone agreed that Mrs. Patterson had used skill and taste in her construction and decoration. Seventy-four persons registered at noon in the Sterley club room where a delicious luncheon was served. Food was brought by each person as on Tuesday and the Sterley club members furnished coffee and bread. Handwork, which included a crocheted bed spread and table cloth and many other lovely pieces, were exhibited by the club members and admired by the visitors.

The living room of Mrs. W. T. Rankin of Lone Star, demonstrator for her club, was visited next. Mrs. Rankin began her demonstration last year when she removed the partition between two rooms which gave her a large living room. This year she has added a fireplace, a new rug, and some new furniture, which adds up to a pleasant room enjoyed by her family and friends.

Grade A Dairy Plant
Mrs. Clyde Farish of Lone Star showed the visitors their grade A dairy. The dairy barn and milk room were models of cleanliness. Mrs. Farish showed her living room also which has recently been improved. Some of her chairs just recently re-upholstered by Mrs. Albert King, also of Lone Star, were especially admired.

The home of Mrs. Ben Brandes, living room demonstrator for the Providence Home Demonstration club was visited next. New paper and paint and a beautiful carpet are some of the improvements made by Mrs. Brandes. She especially enjoys her carpet, she told the visitors. Lots of canned food and lots of room to store it in were shown by Mrs. Lynn Miller, food supply demonstrator for the Sarrat Hill club. Mrs. Miller has 225 containers of Mrs. Miller has shelves and they food on her shelves and they stay at a fixed temperature all the time. She has other vegetables and butter in her freezer locker.

The last stop was made at the home of Mrs. Robin Byars, Food demonstrator for the Pleasant Valley club. Her storage place is an insulated pump house which does not freeze in winter nor get hot in the summer. Added to the wide variety of canned food on her shelves, Mrs. Byars has 20 fridges in

her freezer locker as well as a supply of other meat.

Many new ideas for home improvements of various kinds was only one of the important results of the two day's tour. Seeing the county and the association of other club members made the time given quite worth while, according to those who made the trip.

Thanks For Your Co-operation We're Sorry You Were Inconvenienced

About 6:30 o'clock, Sunday evening, our gas pipe line serving Floydada blew out, at a point about 4 1/2 miles from town.

There was no possible way to prevent the "loss" of the town, so all meters had to be turned off.

Our emergency pipe line crew, city plant employees from several surrounding towns, and other employees, numbering altogether about 25, swung into action and worked steadily most of the night. They repaired the pipe line and commenced turning meters back on about 4 a. m.

Despite the unfortunate interruption, West Texas Gas Company is still proud of its public service record in Floydada. This was the first interruption in service to users in Floydada in the 21 years that have passed since Gas was first turned on 'way back in 1927. Twenty-one years of uninterrupted service is a pretty good record, we think... but that doesn't keep us from being truly sorry that you were inconvenienced last Sunday.

No amount of planning could have prevented the pipe line blowout... it was just "one of those things." We commend our men for their capable work in restoring Gas Service to you just as quickly as possible, in line with their traditional faithfulness to duty and their responsibility for good service.

Handle Last Texas' Dust in Frontier

The Panhandle is featured in the November issue of Holiday as the last frontier, still proud of its tall stories and tales of "blow-down prosperity." The article is written by Lewis Nor-dyke, a well-known Amarillo news-writer, as part of the last of a series of articles in which the magazine has principally to Texas. The article is a single color photograph showing the Panhandle on the plain and cat-ting on the short grass. The Panhandle isn't a great thing, but it's a great deal better with the American's conception of it than the rest of Texas," says the magazine's 6,000-

000 readers. "It has what the visitor expects to find in Texas—the wind-swept plains, the short grass, big hats, cowpunchers and oil wells; it has the chatter of coyotes and the buzz of rattlesnakes; it is the coun-try of 45-caliber ranches and whop-ers of wheat fields; a place where the house is apt to be eighteen and one half miles from the front gate; it is where one old cowboy said: 'Feller needs some elbo room, 'bout forty mile or so,' and where an- other said he could stand on the schoolhouse steps and see straight ahead for three days."

Wheat Cattle and Oil
Wheat, cattle, and oil and gas are listed as the Panhandle's chief sources of prosperity. Four million acres in the Panhandle produced 75,000,000 bushels of wheat last year, and oil and gas have become a \$200,000,000 annual business, it is pointed out.
"Amarillo is the Panhandle met-ropolis," the article continues. Large-ly because of the war boom and farming and ranching prosperity its population jumped from 40,000 to more than 80,000 in the past ten years. Amarillo wears a big hat and likes a good story. It has a do-it-big complex and has been a con-tributor to the Panhandle's reputa-tion for exaggeration."

Author Nordyke continues: "Quite a chunk of this adoration for the mammoth come from Gene Howe, publisher of the Amarillo News-Globe. For twenty-five years he has roamed the residents with the notion that everything in the Panhandle is tougher, bigger, better or worse than anywhere else. He has con-tended, convincingly, that a Pan-handle coyote can whip a panther from any other place, and that a Panhandle skunk can smell miles farther than any other skunk and that the wind-blown legs of Panhandle women inspire even Yankees to let loose genuine Rebel yells."

Boys Ranch at Old Tascosa
Nordyke says the Panhandle's widely-known Boys' Ranch at Old Tascosa, is the region's "prize pos-session." The article continues: "Ten years ago Cal Farley, an Amarillo merchant whose hobby is helping luckless boys, hit upon the ranch idea. The late J. L. Bivins donated the Old Tascosa townsite, and the project was started with six boys. Now more than 100 have their own range, cattle, horses, farmland and equipment, poultry flocks and schools. The ranch has been so suc-cessful that fully a dozen cities in Texas and several other states are planning similar projects."
One of the Panhandle's most spec-tacular attractions, Nordyke tells prospective visitors to the state, is Palo Duro canyon, which is now a 15,000-acre park.

A Breath Taking Thing
"If for no other reason than sur-prise, the canyon is a breath-taking thing," he says. "The level plains drop suddenly into a deep chasm that looks like another world. Viewed from the rim, there are mount-ain-like scenes—all trees along streams and cedars on the hillsides. The canyon spreads into vast acre-ages; its precipitous walls, cut in weird patterns by erosion, are deli-cately tinted in colors that change with the slant of the sun. People of the treeless tableland can quickly get into woods, rocks and rills sim-ply by riding down a winding road."
The magazine's 18-page portfolio on Texas, illustrated by 54 photo-graphs, also features articles on a Texas cattleman, a wildcat, and El Paso. Author Frank Sullivan writes a fantasy on a tour of Texas by one who has never been there before.

New Schedule On the Denver

A new time schedule for the Fort Worth & Denver went into effect Sunday, November 14, and reverses the runs between Childress and Lubbock, through Quitaque and Turkey.

The morning trains which heretofore have moved out of Abilene and Lubbock-Plainview for Wichita Falls and Childress, respectively, beginning November 14th left from Wichita Falls and Childress, provid-ing morning service westward. The same will be true of the afternoon trains; instead of running west-ward they also will be revised to provide eastward afternoon service from Abilene to Wichita Falls and from Lubbock-Plainview into Chil-dress, connecting with thru trains both northward and southward at Wichita Falls and Childress.

Out of Childress, the morning train for Lubbock will leave at 5:55 A. M. to reach Plainview at 8:54 A. M. and Lubbock at 10:55 A. M. daily except Sunday; eastward this daily except Sunday, service will leave Lubbock at 2:10 P. M. and Plainview at 4:11 P. M. to reach Childress at 7:00 P. M.

"These changes generally will provide a much better service for United States mail delivery at all points served by the Burlington Lines in Texas, and at the same time will afford travelers faster and more convenient schedules throughout the entire territory," stated R. Wright Armstrong, of Fort Worth, vice president of the Ft. Worth & Denver City Ry. The Wichita Valley Ry. and Burlington-Rock Island Ry.

Under this new schedule the east-ward train leaves Lubbock 2:10 p. m., leaves Petersburg 2:54 p. m., leaves Lockney 3:27 p. m., leaves Quitaque 5:28 p. m., arrives Fort Worth 6:20 a. m.

The westward train leaves Fort Worth 10:30 p. m., leaves Quitaque 7:34 p. m., leaves Lockney 9:40 a. m., leaves Petersburg 10:12 a. m., ar-rives Lubbock 10:55 a. m.

at home this week after a would-be trip to Jacksboro last week-end which was terminated before it was half over. Instead of having enjoyed the week-end with Mrs. Williams' sister whom they were going to visit, they are recuperating from shock and injuries received in an automobile accident Saturday afternoon ten miles east of Olney.

Mrs. Williams received a frac-tured arm and minor cuts and bruises. Mr. Williams is recovering from minor cuts and bruises and severe shock. Both are recovering satisfactorily.

The accident occurred Saturday afternoon between two and three o'clock when Mr. and Mrs. Williams were traveling east. The other car involved which was from Wichita Falls, was driving onto the high-way from a side road. Disregarding the stop sign, the driver steered the car directly into the side of the Williams car, turning it over.

All of the victims were taken to an Olney hospital. Occupants of the other car received more severe in-juries than the Williams', but not serious.

Mr. and Mrs. Williams were dis-missed from the hospital Sunday when Aldine, Raymond, Chloma, and LaRue Williams, their chil-dren, went down after them. Mrs. Chloma Williams accompanied them. The injured couple were taken to the home of Mr. and Mrs. Aldine Williams at Harmony, and returned to their home in Amarillo Monday about noon.

The Wichita Falls couple has been charged with violation of traffic laws.

The Williams car was practically demolished, reports Raymond Wil-liams, and no plans are made to repair it.

Mrs. W. D. Newell, chief clerk at the A. A. A. office, has been ill for the past 15 days. She is recuperating rapidly.

Maize Harvest About Through, Not So Cotton

Harvest of forage feed and the rush of the crop to market is soon to be history in Floyd county, it appeared this week, as a very considerable majority of the farm operators reported they have finished the job. Upward of 300 carloads of grain had been shipped from Floydada, principally to Fort Worth, during the rush of the season.

Cotton Gins Covered Up
But while the freeze dried the maize crop and put the last of it in readiness for the harvest and the week has seen most of it gathered, the cotton gins of the county have been "snowed under" with cotton. The half-way mark has been passed in the cotton harvest, perhaps, but the runs have been heavy all this week and all cotton gin yards were full yesterday afternoon.

Gin crews have been operating at capacity this week. Many of the cotton fields are being harvested mechanically due to the shortage and high cost of hand labor. Under different conditions different machines are getting widely varying results, according to report. In some instances considerable waste of cotton in the fields is noted.

This chart shows the amount of liquified petroleum gas average Texas domestic consumers use each month of the year. Consumption in December will be almost twice November's, if the past two year's patterns are followed. Adequate storage has been advocated to spread out the impact of winter demand on available supply.

P. M. A. Ballot

(Continued from page one)

Edgin, Fairmount, Liberty, Fairview, Center, Campbell, Cedar Hill, and Hillcrest communities. The polling place will be Cedar Hill Store.

The Floydada ballot will be used by farmers living in Harmony, Sand Hill, Blanco, Floydada, Allmon, McCoy, Starkey, Baker, Antelope, Dougherty, Lakeview, and Pleasant Hill communities. The polling place will be County Court Room, Floydada.

All farmers in Floyd County are being mailed ballots which may be used by them in voting by mail, returning the ballots to the county office, or going to the polling place on December 6 and placing the ballot in the ballot box. Those who do not receive ballots because of the inadequate mailing list may secure them at the county office and vote

prior to the actual election or they may secure the ballot from the polling place. These various methods of voting have been authorized to take into consideration the fact that farmers are busy people and can not take time out to vote. These various methods will make it possible for each farmer to have the opportunity to vote for the farmer-committeemen who will administer the program for the coming year.

The apparent indication that important farm legislation will be forthcoming during the next year makes it more important that qualified men be selected to the farmer-committee positions.

If he were elected king was that the girl awarded the scholarship by the B. & P. W. club would be outfitted with a new dress and accessories. Sponsors for the "Queen and King for a Week" program were the makers of "Lubber Lip Lipstick", "Moonbeam Hair Creme", "Twinkle Teeth Tooth Paste" and "Culine", the miracle eyewash. George Caven deserves honorable mention for aiding the announcers by having cards with "applause" and "quiet" on them, helping the audience applause at the right time as in a large broadcasting station.

Following the presentations to Queen Henry and King Jones of more than \$600 worth of gifts donated by business firms of Floydada, the royal party was escorted to a waiting limousine and carried to the Hotel Coffee shop, where they were guests along with Mr. Monroe, the other candidates, members of the B. & P. W. club and their husbands, at a lovely dinner.

The Business and Professional Women presented the town hall meeting to raise funds to offer a scholarship to some deserving high school girl to attend a school of her choice. Last year the club presented a scholarship to Dorothy Anderson, a high school senior.
