The likelihood that the Cedar Hill and the Center-Fairview Farm to Market roads, including 13.4 miles of hard-surfaced road for the two, will be done this year became almost a certainty this week.

If this eventuality becomes a certainty for this spring Floyd county will have 42.5 miles of new pavement within the year. This will include: Harmony-Sand Hill, 15 miles, Lone Star 11.3 miles, and Sterley 2.6 miles, now under construction; and Cedar Hill 6.1 miles and Center-Fairview 7.3 miles to be let in May.

Monday afternoon Resident Engineer James F. Potts returned from a trip to the office of District Engineer S. C. McCarty, where he delivered the plans for the Cedar Hill and the Center-Fairview jobs.

Paving curb to curb on South Main street in Lockney is also quite probable during the present contractor's stay in the county. If the plans of the city authorities there work out, and only details appeared to be yet to work out, the curb to curb paving will be done on nearly six blocks of Main, leading to Highway 70 junction.

An interesting local development this week in connection with the spelling bees is the announcement that the congregation of the First Baptist church in Floydada will do some \$15,000 worth of paving on the street and alley adjacent to their church on South Main street.

A. J. Folley Resigns Associate Justice Supreme Court; Jester Names Meade F. Griffin to Place

Judge A. J. Folley last week resigned his place as associate justice of the Supreme Court of Texas, and announced he had joined an Amarillo law firm, which will be known as Adkins, Madden, Folley and Adkins. Herman Pipkin, sr., for many years a member of the firm, died a few months ago.

Following his resignation, Governor Beauford Jester Monday announced the appointment of Mead F. Griffin, veteran Plainview attorney to succeed Judge Folley. Griffin is engaged at this time in the practice of law with Lucian Moorehead in Plainview. He has a war record that includes service in both World War I and II. Following the last war he was a member of the tribunal which conducted the war criminals trials in Germany. At one time he was district attorney of the 64th Judicial district, which at that time included Floyd county.

Judge Folley will move to Amarillo and become active in the law firm there within a few weeks, it was stated out of Amarillo.

He lived in Amarillo and served on the Seventh Court of Civil Appeals before going to the Supreme Court, a job which took the family to Austin. I regret very much to leave the Supreme Court of Texas, which to me is the greatest in the land," Judge Folley said. But after more than 20 years of public service I feel that it is best for me and my family that I return to the private practice of law. I am offered an opportunity to join a great law firm in the country I know and love best. I am therefore coming home again to cast my lot with the good people who have had so great a part in any success I may have thus far achieved.

Judge Folley has lived most of his life in Western Texas. He was reared in Limestone County in eastern Texas. He holds A. B. and LL. B. degrees from Baylor University, Floydada in 1925. Later he served six years as prosecuting attorney in the 110th Judicial District and two and a half years as judge in the same district. He was then appointed associate justice of the Seventh Court of Civil Appeals and served six and one-half years.

Next he was appointed judge of Commission Appeals of the Supreme court. This commission was abolished a few years ago and commissioners became associate justices of the court. Judge Folley served three and a half years in that capacity before his resignation.

EDITORIALS

Everything in Floyd county is tied to the farm or has a background which stems from the farm. It was and probably still is that way in a good many northern counties of the nation, where farm conditions and farm interest prevailed. But growing population forced interest in other types of endeavor. People with the know how drifted into such things as manufacture, and now many a good farm in Ohio and Indiana and Illinois, not to mention other sevelar states, is despoiled by a plant of some kind, possibly a plant that belches out vegetation-killing smoke and smog and deals out pneumonia or some other type of disease that has to do with the unhappy situation in that badly placed portion of the world. The center of population is shifting and many Texas locations find themselves located suitably for these industrial plants. One such is in deep East Texas where there are times of the day when the populace find it distressing to live due to a terrific odor that goes with a "belching" of a processing plant for wood fibres. But they put up with it because it represents a new and more adequate way toward a livelihood. As men, like ants, crawl more thickly over the terrain, they despoil the land which the Lord gave to His people. The Indians, who loved the land for the land and the Great Spirit which ruled it and guided the seasons, planted the herbs, and stationed the buffalo for handy sustenance, may have sensed the kind of thing which the whites gradually are doing to beautiful America and for that reason may have fought more valiantly at Little Big Horn, at Tule Canyon, at Buffalo Wallow. Who could know?

A Practical Problem—Floydada municipality has a problem the citizens and officials need to solve, one which is pointed up and high lighted every two years at election time, but which we all forget or neglect as soon as election day is past. That problem is due to the fact that we put up the whole slate of officials—mayor, aldermen, secretary, marshal—for election all at one and the same time. This is not to say that there is any likelihood of choosing a bad set of men for these important but somewhat thankless jobs. It is to say, however, that it probably would be better to name a part of them once every two years, so as to have interlocking or staggered terms, so that at all times there is no danger of having a completely new set of officials with no background of knowledge of the affairs of the public's business. No doubt every type of endeavour, including a municipality, needs the introduction of new blood, as we speak of it. But if you can get the same result without the chance of a com-

plete set of minds unfamiliar with the task before them it would be better. Floydada is growing up. The problems of the community are getting more and more complex, and the need for a background of knowledge of municipal affairs more and more necessary. We hope the city will find a way to get its official personnel on a "staggered" basis once more. We assume there are no insurmountable legal difficulties.

WHY CUSTOMERS LEAVE HOME

Quoting Hubert M. Harrison: Now that the search for merchandise is over and the search for customers has begun, alert West Texas merchants will reevaluate the importance of store appearance.

In too many of our towns, Main Street is going to seed and the buildings need a face lifting job. Good lighting, new and attractive entrances, new paint, modern fixtures, the effective use of glass, will attract and hold customers who may be passing by the dingy store on a dingy Main Street.

Modernizing Main Street means more, however, than new fronts on stores. It means improvements in merchandising methods, expert salesmanship, a real interest in the customer's problems, and, of course, it could mean a community-wide revival in pep, progress, and teamwork for improving the town. Highways can be made to lead into your town as well as away from it. Customers would rather buy at home if they can get what they want at a fair price under pleasant, attractive surroundings.

Farsighted leaders in our cities want our small towns to prosper because the cities are built on the prosperity of small towns in their trade areas. Our small towns can be made more attractive with a little organized teamwork. In the competition between towns, attractive stores will play an important part.

Record food crops during 1948 have increased food supplies and improved the world food outlook. No slackening of consumer demand for food is in sight, unless the number on the pay checks drops sharply this year.

Spring Note: Thunder in February makes a frost in April, says the old-timers almanac. Also kildees on an early morning of a February day means an early spring. Both have happened in Floyd county this year.

The problem of rabies control is one dealing with human beings. And the solution to this problem is one part science and 99 parts human relations.

Departing Hartzogs Presented Farwell Gifts By Friends

Mr. and Mrs. A. L. Hartzog and their children, departing from Floyd county last week after completing three and a half years of residence here while Mr. Hartzog served as county agricultural agent, took with them mementos of their friendships here.

Presentation of the gifts was made at the county agent's office after Mr. Hartzog had turned the affairs over to his successor in office, Robert H. Gibson. A. H. Kreis made the formal presentation in expressing the regret of the people at Hartzog's decision to change residence and line of endeavor. The gifts consisted of a wrist watch and a service of six set of sterling silver. Funds for the gifts came from all parts of the county, hurriedly assembled in free will offerings. That their lot has been cast

among a most helpful and gracious people and deep appreciation of many good friends was expressed for the Hartzog family by the departing county agent.

The Hartzogs are undertaking a live stock farming enterprise near

Bovina and will make their home on a combination irrigation and dry land farming and grazing tract there. The family had been in the process of moving for several days, but hampered somewhat by showers and heavy roads.

Red Whatley Challenges Roping Champ

CROSBYTON—Rodeo fans in this area will have the opportunity on Sunday April 17, of seeing Toots Mansfield, world champion calf roper of Big Spring, when he is matched against Red Whatley, Crosbyton contender for the title, at the Crosbyton rodeo arena.

Mansfield, in addition to amassing enough points last year to win the title, is also president of the Rodeo Cowboys association, a nation-wide organization of rodeo contestants. He is in demand at every big rodeo in the nation, as well as for matched roping events throughout the year. His presence always

attracts large crowds of rodeo fans. **Whatley Has Record**
Red Whatley, Crosbyton calf roper, also has an enviable record in the arena. He has won several of the biggest matches in the country, and has appeared in Madison Square Garden. The combination should draw a large crowd to the local event, which will be one of the first of the season in this area.

Rodeo Dates Are Set
Dates for the second annual Crosbyton Rodeo were set for the second time this week by directors of the organization. The affair will definitely be held on Thursday, Friday and Saturday, May 12, 13, and 14, according to Tillman Reeves, secretary. The rodeo was first scheduled for a later date in May, but the change became necessary because of a conflict with the Post Stampede.

This year all performances will be held at night, Mr. Reeves said, and there will be no Sunday show. The Sunday afternoon show last year was not a financial success and for that reason it was decided to change to all night shows.

The building will be 90 by 120 feet and will be constructed of brick and tile. A confectionery will be built on the west side of the front entrance, to be 25 by 50 feet in size. There will also be a three-room apartment upstairs, he said.

The station, similar to the Southwestern Public Service sub-station on the west city limits, is to be built on a small tract of land purchased from the county west of Ellinson lake. In a public sale Monday morning, the county received \$114 for the 70 foot wide strip, figured on a price of \$300 per acre.

Many Crosby county customers are so far from the Southwestern Public Service highline at Floydada that they are not receiving sufficient current for their needs. With the building of the sub-station here, these needs will be adequately filled, co-op officials stated.

Take care of your clothes Electrically

EVER stop to think of what a beating your clothes take when hanging on the line on a windy spring day?

That whipping wind tosses them, pulls them, twists them, detracting every minute from their future usefulness to you.

That can be easily avoided through the use of a scientifically designed labor saving home clothes dryer. In this economical machine, gentle puffs of warm air remove the moisture from your wash, leaving it to dry. You'll avoid, too, the trouble of bundling up to go out to "hang up clothes" and resulting colds and sniffles.

Put an electrical clothes dryer on your list of electrical needs... you'll like it.

Your appliance dealer will gladly give you a demonstration of the efficiency of the new automatic clothes dryers. See him soon.

Humble's Matador Test Is A Failure

Humble Oil and Refining company's east Motley county test on the Matador lands appears to be a failure. Last week the company was preparing to plug and abandon its No. 1-H Matador, 16 miles east of the town of Matador.

The official report on the well says that it was drilled to granite 8,616 feet, then made a test of a formation at 6,416 feet. A total of 6,000 gallons of acid was used and after treatment the hole filled with salt water.

Humble is under contract to drill two holes a year on Matador Land & Cattle company's lands in order to hold lease contracts on the huge ranch spread.

Mrs. B. F. McIntosh and Joy left Sunday of last week for Brownwood, where they will join Mr. McIntosh and make their home. Hope will continue to make her home in Floydada with her brother, Dr. McIntosh, until she finishes her high school work.

The district contest, will be the guest of that newspaper while there. The trip for the district winner with a chaperone to the national capital also will be a free trip.

County Superintendent Clarence Gufee thinks that several of the schools in the county plan to make entries in the contest. The date for the county oral spelling bee will be sometime in April, so as to give ample time for the winner to be certified.

F. F. Fuqua Attends Purina Feed Dealer Meet in Ft. Worth

Floyd Fuqua has just returned from Fort Worth, where he attended a conference of several hundred Purina feed dealers. Feed dealers from Texas and Oklahoma were present at the conference where they were told of the newest developments and trends in the feed industry and new ideas in scientific farm management.

L. C. Stevenson, of St. Louis, Missouri, Ralston Purina sales manager for the southern region, sounded an optimistic note for farmers as he reviewed the prospects for 1949. He pointed out that feed prices should be lower during the year while the demand and prices for meat, milk and eggs are expected to remain good.

The feed dealer conference was the first to be held since 1941. Since that time the commercial feed industry is reported to have increased its output from 13 million tons to 30 million tons a year, proof that farmers in this area and throughout the country are giving more attention to a scientific program of feeding, management and sanitation to produce more meat, milk and eggs.

Contract Let for Extensions to City Mains

LOCKNEY—The City Council let a contract for water and sewer extensions as voted for in the recent bond election. The contract was awarded to Sidney E. Lanier Haskell for \$56,587. The engineer's estimate for the job was \$60,000, Mayor G. M. Brunner said. Lanier's bid was the lowest one offered with other bids ranging from \$59,111.50 to \$74,749.30. The bid issue set up for present use was \$10,000.

The plans call for about 10,000 feet of sewer line, both new and replacement. Some of the replacement work will be taking up some trench mains and putting down trench lines, it was said.

As A Farm Woman Thinks

(By Nellie Witt Spikes)

March came in like the proverbial lamb and this sixth day of the month finds the air warm and strong with velvet fleece. Buds are coming on some of the trees and shrubs (thunder in February, breeze in April, our weather-minded friends shake their heads and say) and we had several spells of Thor's hammer, the last being the twenty-ninth, so we had better look out for "frost goblin" will git us the first of April.

The extra noises you hear these days are from little children shouting and calling outside after being confined in the house for several months.

I found the dahlia bulbs had kept in the garden through all the cold. Never did get around to digging them last fall. Mr. Spikes was warning off the garden yesterday. Told him I would dig the bulbs for ashle, before the garden was weeded. When I went back for them, he had cut off all the tops and I could not tell where they were only by raking and hunting which was not easy to do. Eve and Sam were not the only two who had spat in the garden.

Cows seem to be getting places in the news. A cow squeezed in a barn, another climbed the steps to the barn loft. The meanest cow I think I ever heard about, I believe, was the cow which ate up the years supply of soap the night after it was made. At least, that was the story as related to me. It was in the days of soft soap.

Old Patsy of Emma Day fame, is infamous as many found, made story. She calmly stood at bedroom windows, unscreened as in that day and chewed on a quilt which partly hung out. She jumped gardens she could go most any where that coal oil could.

Our good Editor of the Railsanner pokes quite a lot of fun out Old Emma. But Will Ewell says people that lived there can all go back. Of course Ernest is lively in fun and when the right time comes he hands many fine things to the pioneers.

It is terribly funny to see a dead man on the running board of bumper on the farmers car in town that he got to throw off unless the dead man is on your own car.

Genesis 8:22 "While the earth remaineth, seedtime and harvest, cold and heat, and summer and winter, and day and night shall not cease." Being a farming, I carry all minds and thoughts are turned to the coming sowing of the beans and fields. We know if we sow beans we shall reap beans all conditions favorable. The quality of the seed will tell in the harvest, the ground needs working, the water good. Prizes products are not harvested from poor seed and careless cultivation.

There are other seed to be sowed one leads a Christian life. The seed of the spirit that eventually sows into, "love, joy, peace, long-suffering, kindness, goodness, faithfulness, meekness, self-control" as Paul wrote. We sow the seed by living good thoughts, praying that

they will fall on good ground and bear rich harvest.

I like 'The Tiller' Prayer by James Duncan:

"We lift our heart in gratitude to Thee, dear Father, who dost good. Guide and direct us all in the molding and shaping of our destiny. For this fertile soil, already teeming with life-giving energy, our thanks rise like incense to bless the coming yield of these, our fields.

"With faith in Thee, with faith in our own ability to till the earth, and with faith in the willing fertility of the soil, we set our hand to the task before us, knowing that Thou dost understand the need and the desire of The children that all may be bountifully fed and cared for. For faith, courage, strength and hope. For Thy gracious love that sustains and blesses us always, we now give Thee thanks. Amen."

Slick Lick Sells

Chick, Brings Dick

BELTON.—A slick lick with a new racket to sell chickens brought in the Bell county officers recently and resulted in the arrest of a Kentucky man who was charged with swindling.

Sheriff Buck Ray said the racket was a new one that had recently sprung up all over the state and he explained that the arrested man, Keith Share, alias P. J. Gorman, bought several lots of day-old-cockrels from a Temple hatchery.

Then, according to the charge filed against him, Share peddled the baby chicks in eastern Bell county, guaranteeing them to be 97 per cent pullets.

B. J. Patterson, a highway patrolman, arrested Share on information furnished by Sheriff Ray.

OUR BREAD LINE

Have you got one? If not, then why try to force one upon us? But few conditions are more destructive to our true American pride than to be forced into a bread line. Sickness, disaster, combined interests, ravenous greed, and an inhuman craze for authority forces the line upon us. Given human sympathy, a christian spirit, a comon brotherhood, and the need vanishes.

Almost half of our town people are uprooted farmers. They are here by force of circumstances and are subjects of our good will and helpfulness.

They had been hopeful, helpful, progressive self-maintaining people as farmers. Many brought their chickens, pigs, and cows as a part support for their families. The authorities ran the pig out of town and are now questioning the hens and the cows right to be among us. So long as they are a part support of the family, they are an essential part of the family, and until the city supplies a better way of getting family needs they commit what should be a criminal offense to deprive the families of such needs.

Before the pig, hen and cow are drifted out, the city should drift in and supply a better way to meet family needs.

You may argue the cost of production is greater than the finished product. Yes, much time, care and feed precedes the finished product, but time, care and feed are about half the cost of the finished product over the retail counter. Such animals normal years eat but little money and the time and care adds pleasure to a normal life. Much that would go to waste goes into the animals and back to use. Every member of the family needs something to come home to, something he has an interest in, something that involves his better nature, and growing things will do that.

Some say that they cause too much care, too much confusion among neighbors, cost too much money and should go from among us. Could they not say the same about the children of our town? Some say that they breed flies, are filthy, and hard to keep at home. Could we not say the same about the children of our town?

When your city authorities have been forced as near the Bread Line as ye scribe and ye editor and the families now with the hen and the cow, you will think seriously and act slowly.

Let's encourage thrift and home support, not dejection and lawlessness. When pride of the home is wounded and the confidence of authority lost, we can expect the worst.

Your city authorities consult the County Commissioners are you show the hen and the cow out and arrange for a lengthier Bread Line in Floydada.

Eddyne Wayne Conner Weds Joan Byars of Canyon in Beautiful Home Ceremony

A beautiful home wedding Saturday evening, February 26, Joan Byars, youngest daughter of Mr. and Mrs. L. L. Byars of Canyon, became the bride of Edwin Wayne Conner of Mr. and Mrs. F. O. Conner of Floydada. Vows were spoken at an altar flanked by nine branched candelabra and large baskets of white gladioli. Bows on the base were of wide pink and white ribbon. The gown was styled with a fitted bodice, long fitted sleeves which came to a point over wrists and full skirt which terminated into a cathedral train. Her finger-tip veil of imported illusion cascaded from a coronet of seed pearls. The dress and veil had been worn by both sisters for their weddings. She wore a strand of pearls given to her by her husband. Her bridal bouquet was of white gladioli.

Following the ceremony a reception was given. A white satin cloth covered the serving table which was decorated with white and pink carnations flanked by white tapers. The red wedding cake was served by Mrs. Murphy White and the punch was poured by Mrs. Harold Erwin. Miss Frances Gooch registered the gifts in the bride's book.

For her going away suit the bride wore a light gray gabardine suit, a new hat trimmed with gray and pink roses, a pink blouse and gray accessories.

Mrs. W. H. Bethel named some quaint cities of Texas--for the program.

Beautiful Shower Party

One of the season's most beautiful parties was given Friday afternoon from 3 to 5 o'clock when Mrs. Edwin Wayne Conner, daughter of Mr. and Mrs. L. L. Byars, and the bride of Eddie Conner, was honored with a shower at the home of Mrs. L. S. Johnston.

Joint hostesses with Mrs. Johnston were Mrs. J. J. Wright, Mrs. B. A. Burrus, Mrs. C. O. Elkins, Mrs. Harold Byars, Mrs. Walter Graham, Mrs. Glen Dowlen, Mrs. H. G. Persons, and Mrs. Tom C. Gooch.

Mrs. L. S. Johnston, Mrs. L. L. Byars, mother of the bride, Mrs. Eddie Conner, Mrs. F. O. Conner, mother of the groom; and Mrs. James Murphy White and Mrs. Harold Erwin, sisters of the honoree; formed the receiving line to greet the guests.

Pink and white carnations flanked by tall tapers formed a centerpiece from which pink and white satin streamers lay across the beautiful silver and crystal appointed table. Hostesses alternated in serving coffee, cherry pudding topped with whipped cream, mints and nuts to the more than 60 guests who called during the tea hours.

Members of the house party wore corsages in pink and white.

Miss Bette Brown of Amarillo and Miss Frances Gooch presided at the bride's book to register the gifts.

Mrs. Lee Rushing of Floydada also attended the shower.

The beautiful gifts were on display in adjoining rooms.

Celebrity Visitor At Floydada High

The faculty and students of F. H. S. had a rare treat Wednesday morning, March 2. David Rubinoff, world famous violinist, played several numbers for the students. Besides rendering several very beautiful numbers on his violin, he offered some sound philosophy for young people.

Everyone thoroughly enjoyed the beautiful music given by Mr. Rubinoff and his pianist. The student body wishes to express its appreciation of the work and interest of the Jaycees in bringing such a talented person to the Floydada Public schools.

Aggie News

Three teams of Floydada Ag boys journeyed to the area contest at Lubbock, which was held Saturday, March 5. The teams were as follows:

Senior F. F. A. Quiz team, consisting of Billy Shipley, Douglas Whitfill, and Delton Waggoner, won fourth place.

The Junior F. F. A. Quiz team, Hubert Ring, Stanley Conner, and Rodney Hinkle, placed sixth.

The third team was the Junior Farm Demonstration, composed of Albert Whitfill, Roy Teague, and Gary Oden, which won third place.

The Ag Department had a new telephone system at high school Monday. One end of the system was in the Ag room, and the other traveled to Mr. Garves' office and to Mr. Baker's office. It is reported to have worked splendidly.

Candid Camera

What is it? Is it Superman? Can it be a comet? What have we done to deserve this? No, it's only the stork (Thank goodness for that).

Yes, this all happened on Aug. 13, 1931. However as probably all of you know now, that was Friday 13. Can anyone tell me, was the world blessed or disgraced that day when Gladys Jarahee Roberts was brought to the home of Mr. and Mrs. H. W. Roberts of Floydada, Texas?

Now after seventeen years of this wretched life, Gladys, better known as Happy or Glad, just whatever you want to call her, has brown hair brown eyes, a medium complexion, 5'5 1/2" in height, weight 122 pounds, wears 6 1/2 shoe, and she's proud of every foot of it too. Last but certainly not least of those million dollar figures! Glad is also one of those gals that are usually always on time but just barely! She sets her clock five minutes ahead of time and then when it strikes nine o'clock, she waits about two minutes and then leaves for school. Can you imagine anyone like her? ? ? Impossible!

Glad started to school in Hereford, Texas, but moved to Bovina when in the second. At the beginning of her fifth year, she was in school at Friona, Texas. Her freshman year began in Floydada but shortly afterward she moved to Rye, Colorado; then she began her sophomore year in Floydada and has been here since. (quite a gay life).

It was rather hard for Glad to decide on vacations and her leisure time, but after much thought she decided that first she would want a medium warm climate, not any particular place but where there was a swimming pool, horses, and more people available. (What does she mean by that? Outside of that just eat, play golf, and listen to clean jokes. (good joke kiddo!)

Glad probably doesn't know it, but she is one of those outstanding seniors. Her accomplishments are almost innumerable, but to begin with she was freshman and sophomore class queen; freshman vice-president at Rye; a member of the Annual Staff; member of Hesperette staff; Ag Sweetheart of 47-48; Orchestra leader 47-48; President of F. F. A. 47-48; Captain of Whirlgigs 48-49; member of social club and chemistry club; and one of those cute twirlers that parade up and down the gridiron.

Glad's favorite colors are red, blue, and sometimes green. Her favorite foods are fried chicken, chocolate pie, lettuce with French dressing, and just any kind of ice cream. She enjoys typing and chemistry in the way of studies. She says that her favorite pastime is playing tennis, but I really don't believe her. As you probably all know, her favorite expression is "Really!" For sports, she's crazy about football and tennis.

Some of her few dislikes are people that won't speak, boiled okra, and raw eggs and liver! (I wonder why she dislikes liver so? ? ?)

Glad spent her most pleasant vacation summer before last when she and her parents toured the north-eastern states, visiting all the larger cities and historical points. It was very hard for Glad to decide on which was her most embarrassing moment because she had so many! But after much thought, she decided that one of her most embarrassing moments was last week. She had her car loaded with boys and girls that were going to see the Rubinoff show. They were driving along Main Street when they saw a parking place on the other side. Someone said, "Hurry and turn around and get that parking place." When she started to, the car started jumping. She let out her favorite by-word which wasn't very nice. Then when Aubrey Guthrie asked her, "What if that had been your last word, Glad?" this really embarrassed her. (I suppose that we all have those moments Glad.)

Glad just couldn't decide on her ideal person because she likes different things about so many people. But it really wasn't hard for her ideal boy. This lucky guy has curly hair, blue eyes, is 5'10" tall, a good physique, friendly smile, swell personality, and well, as she says, just pretty good looking. But also there are some things that this young fellow would have if she had her way about it. He does have most of them but just to drop him a hint Glad does not want him to smoke, drink, of course. Glad never did just come out and say that she had found him, but take it from me, she has!

Her greatest achievement was making 100 on department. Outside of that she doesn't have one, she says.

Glad's life ambition is to be an old maid nurse and during her spare time to become a concert pianist. She says that she's afraid that she wouldn't like that but she might try it for a while and then settle down to business and get hitched.

Glad, it is people like you that have made F. H. S. a friendly place. Without your friendly smile,

swell personality, and wonderful sense of humor, times might have been dull. But putting all jokes aside, we wish to say that you are one more swell gal with a big future.

Young 'Ladies' Give Assembly Program

On Tuesday morning, March 1, an assembly program was presented to the student body by several young "ladies" who were visiting here that morning.

Included in the program were several speeches and readings and a song composed by J. Perry.

Those on the program were Jon Parkey, Tom Martin, Wayne Robertson, Gene Dale Jackson, Billy Hart, Gordon Hambright, and Ted Davis - pledges to the "F" Club.

The program, under the direction of Bobby Cline, was so well received, it was presented the second time.

DE QUACKER

Hello Suckers. How's about helping me out this week and put plenty of dirt in the can. The more the better!

Oleta Neely sure thinks Gerald Smalley is cute. The lucky boy. Why don't you do more than flirt, kids? ? ?

Armita was very sad at Choir Practice Wednesday nite. Could it be because Corkey couldn't listen to her troubles, Armita? He took Mary Parrish home and I'd bet they didn't go straight home either. Jealous? ? ? Too bad, kid!

Why does Mary Dee get so mad when David Nichols calls her C. C.? Nell Reddy and Lonnie Cates were having quite an interesting conversation Wed. and Friday afternoon. What will Molly June and Nell's Lubbock boy friend have to say about this?

It seems from what I have heard and seen that Dorothy Clayton and another certain blond is just love sick over John Moss. John sure attracts the blonds, evidently.

Anita Tooley should give Duane Stephens a chance to go with her. He seems to want to very bad!!! Walter Anderson sure likes to flirt with Peggy Parkey in the 7th Period S. H. New romance beaming

-- huh !!!
 Juanita Huckabee sure thinks Marshall Irwin is cute. What about that Hershell? Lucky guy !!!
 Who was that girl I saw Charles Shultz with Saturday nite? ? ? It couldn't have been Lucille, could it?
 Don M. and Floy J. are sure getting up a case from the way it looks!

Edith, did you and Jack finally make up after your little quarrel Sunday nite? ? ?
 Juanel W. and Louis Warren were really having a swell time Sunday afternoon. It must be love !!!

Well, well, Evelyn caught her man; will you be next to get married, Gloria? ? ?

Kenneth Bishop and Clara Mae Jones were together Saturday nite. New romance? ? ?

Is a romance blooming between Hershell N. and Loene W. ? ? ? They seem to get along together wonderfully.

Dale Roberts and Lucille Rahn seem to like each others' company. They were doing all right Saturday nite !!!

George S. was with his "old flame" again the other night! What about this, George? Have you still got it bad? ? ?

Mayfield seemed lonesome Saturday afternoon. Where was Roberta, I wonder? ? ?

Instead of Mary P. being sad because Jimmy S. left the S. H. it seems to be Billie Newberry. From what I heard her say she's madly in love with him, and he just doesn't know it.

La Juana McAda sure got mad the other day in S. H. Why? because she couldn't sit in front of Kenneth Hollums?

Leroy Parrish sure would like to go with Mary Plumlee. Give him a

chance, Mary.
 Johnny Lloyd & Doris Blair sure do have a good time winking at each other in first period study hall; I hear Johnny wants a date with her. What about this, Doris? ? ?
 Carolyn Kiker was walking on clouds the other day. No wonder, Lavon Shearer came into seventh period S. H.
 "Happy" and Aubry are getting pretty thick again? What about Trav, Happy?

Margie Herring has been flirting with Floy Paqua lately. What about this, kids! ! !

Lucille Rahn & David Rape are making it regular now, ha, ha !!!

Well, well, What's the older generation coming to? First Roberta goes with Mack Hickerson and then Joy Bunch. I'd say that you were rocking the cradle! !

Don Pope and Eunice Weiborn are

making a wonderful couple. Hubba, Hubba.

EDITORIAL

THOROUGHBREDS

Consider your heritage and the heritage of your American neighbors. What is the blood that flows in your veins? Is it pure strain? Or are there many kinds and races? Undoubtedly your ancestors were of many nations. Perhaps now you cannot even tell which strain holds sway in your life. You may be a mixture of English, Scotch, Irish, French, German, Indian -- Physically speaking, you are not a thoroughbred.

But you can be a thoroughbred! Your speech, your actions, and your attitudes will determine your real standing in life. If you speak clean and helpful words, if you are honest and fair in your dealings with your fellowmen, if you look for the things you can get rather than the things you can give, you will indeed be a thoroughbred.
