## Dollars Get a Break Monday Trading

Monday, May 2, is the day that marks a new regime in merchandising in Floydada. It will be the day, Value day, First Monday, that have you. Name it what you like, but be sure to check up on the values that will be available in scores of business establishments.

Businesses are represented by big values in the columns of The Hesperian for the first Monday and it is expected that as more and more people get in the groove there will be more and more values and more interest in the day.

At the business establishments to do is to go along with the first Monday in the month—every month—is a day when merchandising house will do its utmost to present such an array of values that First Monday becomes a symbol of outstanding and a signal for loosening purse strings to take advantage of the bargains.

The idea has been working through the business community for some time and came to the point of accomplishment three weeks ago at a meeting at the Chamber of Commerce office. At that time it was decided that a First Monday program would be beneficial to business and to the public. It is popular with the public because it bears down in particular effort to give extra value and extra volume in traffic and in store's cash drawer.

The meeting, held early in the month, there was some divergence of opinion on what the day would be called. Value day, dollar day, Monday, trades day, were among the names suggested. But it was no disagreement on the part of the business community that the day an outstanding one month in the retail merchandising stores.

Experience in many towns of the state is so convincing there is no doubt that a day of whatever name you want to call it can and will be of immense interest and value to people who a community to serve," said Robert H. Wickel, manager of Floydada Chamber of Commerce and Board of Development at the meet-

ing when the final plans were given tentative blessing and the plan launched.

"Such a day gives the wide-awake merchant another goal to strive toward to give the public unusual values. He can buy against the probable needs of the people he serves because he has a day and a date to work to," said a prominent retail merchandiser.

Not only department stores but other retail establishments of the community and even some service houses are going along with the plan this coming Monday, and there are sure to be others who will get in step and join the parade, as time goes along. The public is sure to be better served as a result, is the belief of those who are urging the Dollar day idea. It is just the old, First Monday trades day idea carried along into modern merchandising. The whole world loves a bargain and that is the goal of the proponents of the plan.

Several advertisements in this issue of The Hesperian present the judgment of some of the better retail establishments on what constitutes a bargain as of this time when the nation is emerging from its spending spree and attempting a return to a better balanced business. Doubtless these advertisements will prove of more than passing interest to most people of the wide area which this newspaper serves.

## Rifle Contest for Club Boys Next Saturday

The Floyd County 4-H club rifle contest has been set for Saturday April 30, according to C. J. Murphy, assistant county agricultural agent. All 4-H club boys in Floyd county will be eligible to participate in this contest, and should meet at the county agent's office at 8:30 Saturday morning. The boys will be taken to the firing range where they will compete against each other to see who is the best rifleman.

The purpose of this contest is to give the boys some training on how to handle and care for fire arms. It will also give the boys some recreation and at the same time determine which boys will make up the Floyd County 4-H Club Rifle Team, that will participate in a district contest held in Lubbock in June. The four high scoring boys will make up this team.

Boys of 4-H Club age handle firearms, and we feel that they should have some training of this kind for their own protection as well as for the protection of other people and livestock in the county.

## Daughter In The Family Chamber of Commerce Manager And Sons Are Aglow About It

There is a daughter in the family of the manager of the Chamber of Commerce of Floydada now.

It sure looks like everything is fine in the first place and in the second place how do these families without any girls get along anyhow? Every family needs a daughter. Everybody knows that! Leastwise that is the way Bill Crowell, 9, and Steve Crowell, 2, look at things this week. They are mighty proud big brothers of Miss Barbara Anne Crowell, born to Mr. and Mrs. Robert H. Crowell, on April 21 at Floydada hospital. Mr. Crowell is manager of the Chamber of Commerce and Mrs. Crowell is manager of the manager of the C. of C.

Mother and daughter are doing nicely and the father and brothers are conducting themselves with high pride and utmost attentiveness. At this time it appears Miss Barbara Anne may have some difficulty growing up without being a wee bit spoiled.

## Softball Schedule Monday Night

Get your nine cents in hand and join the crowd for the opening of the Floyd County Softball league season in Floydada Monday night, May 2, 8 o'clock.

See your mayor, F. C. Harmon, or see your City Secretary Jake B. Watson swings, and hear the chug of the mighty heave into Catcher C of C manager Robt. H. Crowell's mitt if the batter does miss.

It has all been arranged except that the mayor may or may not throw a strike, the secretary may or may not knock a home run and the manager of the Chamber of Commerce may or may not catch the ball if the batter fails to connect. For the actors in the opening drama of the league won't be grandstand sitters. They will be out on the diamond.

**Five Team Schedule**

Opening night will see the Builders Mart Wildcats vs. REA, and South Plains vs. Lockney. This date is Monday night, May 2. It will follow immediately after the opening ceremonies.

On Tuesday night following it will be Farmer vs. Merchants of Floydada, and on the night of May 5, which is Thursday, the Builders Mart boys will play Lockney and the Merchants will take on South Plains. That will complete the bill for the next week. Schedule for the remainder of the month will be as follows:

May 9, Lockney vs. REA and South Plains vs. Farmer.

May 10, Merchants vs. Wildcats.

May 12, Lockney vs. Merchants and REA vs. South Plains.

**Schedule of Farmers Dates**

First league contestant to journey to Farmer for a contest with that up-and-at-them team will be the REA boys on May 5. On May 12 the Wildcats of Builders Mart will undertake to subdue the Farmers, followed by the Merchants team on May 19, and the Lockney team on June 2, closing date of the first 30-day run. "They're good old boys over at Farmer who like to play ball win or lose and they've got to have some home games," said Mr. Hutchinson when he announced the schedule. Last year the Farmer team had the other teams in the area trying to figure out why it happened that way.

Game time Monday night at the Softball grounds in Floydada will be 8:15 o'clock. Charge will be nine cents. The high school band will play it is announced. And a good time is in store for all.

## Rural Electric Coop To Have Use Adviser

Members of Floyd County Rural Electric cooperative will have the advice of a competent adviser with background of farm life to aid in their problems of efficient use of electric appliances in their homes and farms beginning May 1, it was announced this week by L. W. Chapman, manager.

Mrs. Harry Morckel, presently employed as the secretary of the Floyd County Agricultural agent and the Floyd County Home Demonstration agent, will be this person. She will begin work with the federal power distributing agency on May 1. Mrs. Morckel was among those who attended the Saturday membership gathering of the rural electric coop. She has an excellent background for the type of work she will be engaged in, Mr. Chapman thinks.

Mrs. Morckel will have some weeks of special training after she begins her work and will be a year-round adviser for those who seek her aid. Her title will be electrification adviser. Her duties will encompass a power use program of demonstration and education in efficient use of electrical appliances.

**Capacity of Auditorium Taxed**

Capacity of the American Legion auditorium, borrowed for the annual membership meeting, was taxed to the limit with the large attendance of members from the five counties comprising the coop's area of operations. Numerous members were present for the first time, having in prospect early service from the agency after many years of waiting for materials to be available for construction.

After some delay Mr. Jenkins rallied and the operation was carried through successfully.

Mrs. Jenkins and the daughter of the family, Mrs. Van Wickel, were joined by a son, Col. Dan W. Jenkins of the U. S. Air force, at the bedside of the husband and father, Tuesday morning. Col. Jenkins is stationed at Washington, D. C.

## Lime Sulphur Treatment For San Jose Scale

Several persons have been to the county agent's office requesting information as to what is wrong with their peach trees, said Robert H. Gibson county agent.

Gibson upon investigation has found that numerous peach trees are infested with San Jose scale. In order to control this insect it is necessary to treat these trees with one pound of concentrated dry lime sulphur to five gallons of water.

Put the lime sulphur in the water and stir thoroughly then apply the mixture thoroughly to the limbs and trunk of the tree with a paint brush. This solution can be applied with a spray. However, wherever it contacts the foliage or fruit it will burn and cause it to drop off; therefore it is recommended that it be applied with the brush to avoid contacting fruit and foliage.

Precautions should be taken to avoid getting this solution on hands or face because it will burn.

The stockholders re-named Roy L. Pawver and Leo Prizzell as directors, the hold-overs being Tate Jones, president, G. L. Snodgrass secretary, and R. B. Gary.

## Three Nights of Carnival May 12 To 14

When the next school year rolls around the bands will need to be fitted in new uniforms. It is hoped that enough money can be derived from the carnival to meet this need and also have a little left over for incidental expenses of the Lions club including that of paying for the meals of several children at Andrews Ward school who otherwise might not be permitted to eat in the cafeteria.

The three night carnival, weather permitting, will be held in the street south of the court house. There will be plenty of eats including hamburgers, soda pop, cakes and pies, and plenty of games to furnish entertainment for everyone, said Edd Johnson, member of the Lions club.

What most educators suspected — that there will be a shortage of 20,000 Texas teachers by 1953, — is illustrated in a brochure the University of Texas is mailing to deans and counsellors in schools and colleges. Compiled by Hollis A. Moore, Jr., graduate assistant in the College of Education, the brochure contains results of a survey of elementary teaching positions in Texas, reports University of Texas News Service.

This business of forgetting to register is a chancey thing for Floyd county (or any county's) boys to be taking. The Selective Service law is the law of the land and a boy needs to get himself registered under its provisions on the day he reaches age 18 or within five days thereafter. The report made last week by Board No. 45 that some young men are failing to register means that they or their parents are being most careless as to the requirements of the Selective Service law. It is not proper perhaps to scold or admonish the youngsters and their dads but there will come the time when this failure will bring most unhappy consequences. The fact that few are being inducted into service does not keep the law from being fully active.

Nice rains throughout Texas and the report that the Reclamation department is considering quite favorably a big dam to impound waters for cities and towns of the plains and for other purposes; likewise the report that the War department has some important big dam business due to come to a head downstate soon — these things remind us of what more and more West Texans are beginning to believe: must surely be true, namely; That many little dams up the creek would be cheaper and more effective than one big dam down where the small stream has become a monstrous thing to call for millions and millions. It may not be practical but we still have to learn why it is not, to keep the small flood waters out where they are instead of waiting until, on the Brazos, for instance they get way down to Waco. The Reclamation department and the War department may be correct in their viewpoint, but we cannot believe that whoever has the final say in the policy-making has seen the overall picture correctly as to dams.

concerning the use of DDT as an insecticide, says a statement issued early this month by the U. S. Department of Agriculture, a statement in which the Federal Security agency joins. Says the statement, among other things: "The Food and Drug Administration has not prohibited the use of DDT in spraying barns and dairy cattle. . . There is no justification for public alarm as to the safety of the milk supply from the standpoint of DDT contamination."

**Another Meany**—There was a man who lived by the side of the road and he sold hot dogs. He was hard of hearing so he had no radio. He had trouble with his eyes so he read no newspapers. But he sold good hot dogs. He put signs up on the highway, telling how good they were. He stood on the side of the road and cried, "Buy a hot dog, Mister!" And the people bought. He increased his meat and bun orders. He bought a bigger stove, to take care of his trade. He finally got his son home from college to help him. But then something happened. His son said, "Father, haven't you been listening to the radio?" Haven't you been reading the newspapers? There's a big depression on. The European situation is terrible. The domestic situation is worse. Everything's going to pot." Whereupon the father thought "Well, my son's been to college, he reads the papers and he listens to the radio, and he ought to know." So the father cut down on his meat and bun orders, took down his advertising signs, and no longer bothered to stand out on the highway to sell his hot dogs. And his hot dog sales fell almost overnight. "You're right, Son," the father said to the boy. "We certainly are in the middle of a great depression."

"The farmers who can achieve flexibility in costs and ability to make rapid shifts to new conditions are likely to be in the best position to take advantage of the opportunities that will come in the years beyond the horizon."

Flaxseed to supply linseed oil is now grown to some extent on every continent. The principal producing countries in 1948, says the Office of Foreign Agricultural Relations, were the United States, Argentina, Canada, India, and Uruguay, in order of importance.

← These are the people

THESE are the people who own your electric light and power company. Chances are you are one of this group, too.  
They represent a cross-section of America — housewives, doctors, teachers — industrial workers, craftsmen, farmers — mechanics and milkmen. Yes, people from all walks of life have put their savings into companies like ours. They're direct owners.  
But there are countless indirect owners, too — many who don't know they have a stake in the electric industry. They're people with life insurance policies and savings accounts. When banks and insurance companies accept your money, they must invest it wisely. And because business-managed electric companies have a long record of successful service, much of that money is invested in utility securities.  
So, you see, the electric industry is owned by the people it serves.

**Horse Show May 28**  
Next public activity of the local club, as at present planned, is set for May 28, when the quarter horse show will be held, with other features, probably a reining show and matched roping. This is the date of the old settlers associations reunion.

"We surely thank all the members of the club, and many others who helped with the show last week, as well as the sheriff's department, the highway patrol, Jay Wise who furnished the stock, and the contestants for making the rodeo an easy one to handle with everything moving off fine. If the crowd had been the good one we hoped for we couldn't have asked for anything else," said Calvin Steen, secretary in summing up the event.

## Death Claims H. M. Bainer, at N. Y. City

Many Panhandle farmers lost an old friend Saturday morning.

H. M. Bainer, 68 years old, general agricultural agent for the Santa Fe Railroad, died at 10 o'clock Saturday morning in Grand Central station in New York City.

He was en route to visit a daughter at Schenectady, N. Y., after attending a meeting of the American Railway Development association at Old Point Comfort, Virginia. The family home is at 1612 Taylor in Amarillo.

He was accompanied by his wife. They had just arrived in Grand Central station when he became ill.

Mr. Bainer was a native New Yorker. He was born August 16, 1880 at Ancram. Although he worked for a railroad, he was essentially a farmer, and his heart was with the men who till the soil.

He came to Amarillo in July of 1910 to work as an agricultural demonstrator of the Santa Fe. From the start, his programs were successful.

Mr. Bainer was deeply interested in 4-H Club Future Farmers work. He was twice awarded honorary membership in the Texas Future Farmers of America.

He introduced many new, and profitable crops to the soil of the Panhandle.

### Career Turned to Farm Life

In October of 1916, Mr. Bainer left Amarillo to become agricultural and industrial agent at Topeka, Kansas. He held that position for two years.

On a leave of absence in World War II, he became director of the Southwestern Wheat Improvement association at Kansas City, Missouri, and was with the association for ten years.

From 1926 until 1935, he was farm manager for the Missouri Bank and Trust company at Kansas City. In December of 1935, he returned to active duty with the Santa Fe as general agricultural agent. He held that position at the time of his death. Mr. Bainer was a charter member of the American Society of Agricultural Engineers and was a member of the National Farm Chemurgic Council, American Railway Development Association, Association of Texas Agricultural Workers and the Texas Farm Bureau Federation.

He was also a member of the Folk Street Methodist church and the Rotary Club.

Mr. Bainer's two sons are following in his footsteps. Roy is the head of the agricultural engineering department of the University of California, and Robert is a Fort Collins, Colorado, rancher.

## Willson Urges Purchases Of Savings Bonds

The people of Floyd county are being asked to invest a total of \$52,000 in Series E Savings bonds during the Treasury Department's "Opportunity Drive," May 16 through June 30.

This quota was announced Saturday by J. M. Willson, county Savings Bonds chairman, after he had received the figure in a letter from Nathan Adams of Dallas, chairman of the Treasury's advisory committee for Texas.

Announcement of quotas for this and all other Texas counties followed a dinner given in Houston Tuesday night by Governor Beauford H. Jester and at which volunteers from all sections of the state were honored for their work in the Savings Bonds program. Those attending from this county included J. M. Willson.

The Texas quota in the drive is \$36,950,000, and the national quota is \$1,040,000,000.

**Ideal for Individuals**  
"All quotas, including ours, apply only to the sale of Series E Savings bonds," the county chairman said. "In this drive we want to place more Savings bonds in the hands of average people, who, with the proceeds of their thrift, can enjoy opportunities and advantages not otherwise possible. At the same time, by their investments in Savings bonds, they are helping to manage our national debt in such a way as to more nearly assure a strong economy in this country. The Series E bonds—popularly called the 'people's bonds'—are ideal for individuals.

He said the Series F and G savings bonds would be sold as usual throughout the drive, but that their sale would not be counted against the quota. The Series F and G bonds, he explained, are normally preferred by business concerns, organizations and individuals of larger means.

"I urge the people of this county, and all of its communities, to participate in this opportunity drive to the limit of their ability," he said. "The county Savings bonds committee can always use citizens who can devote a part of their time to work in the drive, and I invite them to contact me. To others, I sincerely urge that they buy Savings bonds and, if possible, to do so regularly through the bond-a-month plan at their bank. This kind of thrift is the kind that pays dividends to the individual, the community and the nation."

### HOPE AND CROSBY ARE CAST IN ROLE "ROAD TO OIL FIELD"

DALLAS—Singer Bing Crosby and funnyman, Bob Hope, have a part in "the hottest oil play in Texas," says the Dallas news.

The News says they have quarter interest each in 1,626 acres in the middle of Scurry county, Texas, where oil fever has hit a high pitch. Their partners in the venture are veteran oilmen W. A. Moncrief of Fort Worth and Paul C. Teas of Dallas.

The four have started the wild-cat exploration on their holdings, 2 miles southwest of Snyder, county seat, plan to test if developments warrant.

### NOTE OF THANKS

## Ratliff Heads Attorneys Of Caprock Assn

Members of the five-county Caprock Bar association are in favor of keeping the judiciary system in the hands of the people but they are not exactly agreed on how this end should be accomplished. At Crosbyton Tuesday night they went on record as opposing the recent plan proposed by the Texas Bar association for the appointment of appellate judges, a plan similar in many respects to that now in operation in Missouri.

Secretary-Treasurer L. A. (Mike) Wicks, jr., of Ralls, reporting yesterday on the meeting said the members of the bar in the five counties went on record as favoring a raise in the salaries of the trial judges in the judiciary districts.

W. P. Walker, Crosbyton attorney, was the evening's principal speaker at the meeting held in the basement of the First Methodist church at Crosbyton. Mr. Walker's address covered a study of the judiciary in Arabia and the "east" where oil production is now the dominant factor in the economy of the desert country.

There were 17 members of the association present Tuesday night including from Floyd county District Judge Alton B. Chapman, District Attorney John B. Stapleton, County Attorney Ernie T. Jones, attorneys Ben P. Ayres, Kenneth Bain and Kenneth Bain, Jr., Richard F. Stovall, and W. E. Grimes, of Floydada.

L. D. Ratliff of Spur is the newly-elected president of the Caprock Bar association, Howard Traewek of Matador is vice-president, and L. A. Wicks, jr., of Ralls is secretary-treasurer.

The five counties in the association are Briscoe, Crosby, Dickens, Floyd and Motley.

## Jr. Senior Banquet on Saturday Night

Plans and decorations are being completed this week by the Junior class of Floydada High school for the annual Junior-Senior banquet to be held Saturday night in the high school cafeteria.

A tradition of several years is that the seniors do not know the theme of the banquet until the scheduled night arrives and this year is no exception. Sammie Shultz, Junior class spokesman and one of the untiring promoters of the banquet says that the seniors will be in for a pleasant surprise come Saturday night. One thing the Juniors okayed for publication was that an entertaining floor show is being planned in which there will be songs and dances well worth seeing.

Time of the banquet is 8 o'clock followed by the annual dance.

Junior class president is Junior Perry, ably assisted by Bobby Finley as vice-president.

"A number of statements have been published during the last several days which have misled and alarmed the public concerning the hazard of using DDT as an insecticide. . . There is no justification for public alarm as to the safety of the milk supply from the standpoint of DDT contamination."

## WEEDS AND PESTS TAKE A LICKING WHEN YOU USE A MASSEY-HARRIS NO. 2 SPRAYER

... and the result is clean, high yielding fields... crops that produce better because they're stronger, healthier. In the new Massey-Harris No. 2 low gallonage Sprayer you have a front-mounted tool custom designed to reduce weed, insect and cultivating expense.

The pump on the No. 2 is P.T.O. driven... small, compact, out of the way. Made of bronze it resists corrosion, lasts longer. You control pump and boom pressure right from your place on the tractor seat. Booms are specially toughened aluminum, 20 or 30 feet long, with nozzles spaced 20 inches apart. Nozzles are of all brass with removable tips and screens... the bases remain in the boom. Ample filtering capacity means reduced clogging, fewer stops in the field.

Stop in soon for complete details. Let's talk over this new method of applying 2, 4-D and D.D.T.

Special corn drops with reversible nozzle adaptors are available for spraying row crops with 2, 4-D or D.D.T.

## Sanitation In Eating Places Is Emphasized

AUSTIN, Texas—Emphasizing the importance of proper sanitation standards in public eating establishments, Dr. Geo. W. Cox, State Health Officer, urges the patrons of such establishments to insist upon cleanliness in the preparation and dispensing of foods.

The health authorities cannot maintain daily inspection of cafes and other food handling places, and if the public is careless in accepting insanitary conditions, dozens of infectious diseases can be transmitted to the public from insanitary food and utensils.

"Food handlers schools are being taught constantly throughout the State," Dr. Cox said, "and every cafe owner should take advantage of these schools to see that his personnel

is trained in the sanitary methods of preparing, storing and dispensing food to the public. If that is their profession, they should qualify themselves to do the work safely. This is the restaurant owner's responsibility to his patrons."

The public should insist upon a cafe being free from roaches, flies, and other insects; cracked dishes should never be used; tables and linens, as well as dishes and silverware should be scrupulously clean, and milk should be served in the original container, with the cap intact. They should note whether or not a cafe displays a placard stating that its standards of sanitation have been approved by local or State health officials.

"Obviously the best in sanitation can be had only through close cooperation between the public and health officials. As long as the public approves and accepts insanitary conditions in eating establishments, they will continue to exist," Dr. Cox warned.

## Woman Thinks As A Farm

(By Nellie Witt Spikes)

Fragrant the fertile earth After soft showers; and sweet the coming on

Of grateful evening mild, then silent night—so this finds us on the farm this 22nd of April, 1949. And are we grateful for the green growing things and for the grass, the handkerchief of the Lord, as sings Walt Whitman who goes on to say that "I believe a leaf of grass is no less than the journey-work of stars."

These are the days that birds come back and we thrill again at the first notes of our loved mockingbirds as they swing in the newly-leaved grapevines. Nothing builds my spirits up more than those sweet singers. Troubles and pain are flooded out of my mind by the clear soft notes as the singer begins, then the notes grow louder, more rollicking as he flies to another tree. He seems to know he has an audience. He puts on more airs than a leader of a band. He flies down and takes a peck at the cat, and leaves the cat, baffled and angry. We watch his tin; throat swell and ruffle out, and forget his garb is not so bright and gay as many birds. We listen entranced and let the biscuits burn. All summer long this bit of ruffled song will be out neighbor and we shall not mind if he gets some red cherries or blue and purple grapes, takes bits out of ripe peaches, for we are paid, well paid not in bank notes but in song notes.

Personal nomination for some very fine folks, Rev. Clifford Trotter, his wife, Irene and their baby daughter, Elaine. We are happy to have them at the Methodist parsonage at Cone.

Joe Ellis is getting along fine. He stuck a pitchfork in the joint of his knee, but he had a fine time in the hospital with gifts and friends visiting. When they took him to the Spikes hospital, Wilson, our son, told them that he would render first aid 'til "Mother gets here to smoke his knee with a wool rag". Yes, that is what I used to do and the children did not like it, either.

Uncle Jim Witt never passed a pin on the ground or floor but that he picked it up and stuck it tidily with other pins in the seam of his lapel of his coat when he had one on. I remember the rows of pins, some shiny, others as rusty as could be. But one was usually in the mouth of Uncle Jim, why I never knew. Uncle Jim loved his big fat horses and we knew when we rode in the wagon with him the horses would never get in a trot. Uncle Jim had a sorghum mill and made thick sweet sorghum. He milked cows. Butter and milk were always cooling in the shallow milk trough in the milk house. He set out a big peach orchard and sometimes we feared he kinda liked the Republican ticket altho voting the only kind the county had, the Democratic. He was short and pretty heavy and 'til the day he died he loved his old town, Ralls, altho he had moved near Lubbock. When anyone told of anything new or growing or being built at Lubbock, he always pointed out that Ralls had something just as good and fine if not a little better and finer. Uncle Jim loved beautiful things, I knew, for one Christmas he surprised me with a lovely pair of vases shaped like Easter lilies. My, my! I started out to tell about pins and have ended up with Christmas gifts.

Remember when "Straight Fronts" and Gibson girls were the fashion? Times Good: A friend asked a former colored woman helper to come again and do her house cleaning. The answer was like this, "Well, mam, I sure would love to but you know, I've having' my

own cleanin' done now."

A good rain is one that farmers and editors do not have to stretch about in the telling.

Poem of the week: Who has not found the heaven below Will fall of it above. God's residence is next to mine, His furniture is love. Bit of fun: I am very fond of the company of ladies, I like their beauty, I like their delicacy, I like their vivacity, and I like their silence.

work of their own. The main object during that period was to keep the projects going. During that time, playground equipment was added to the school grounds. Hot lunches at the school were served two years during the winter by the club. Later, the club sponsored movements for line in the court house, furnished the club kitchen at the school house and helped furnish a room at Peoples hospital.

During the days of the Floyd county fairs, the club always had an exhibit. Some of the ways of raising money to finance the projects of the club have been pie suppers, a box supper, serving at the Old Settlers' reunion; finished and served meals to the Rotary club, put on a three act play and took it to neighboring communities.

The enrollment of the club has been an average of 22 members. Of those members, some have died, some have moved away. Among the young women who were members in the early days were Alma Montgom-

ery, now a housewife and mother, but still one of the members; Gertrude Lightfoot, now Mrs. T. C. Hollums, active in the Sand Hill club; Ruth Jordan, also married, and has spent the past three years on mission field in Colombia, South America, home on furlough at present.

Many of those have left the club, but several new members have joined and the membership still stands at 22.

The club work has been one time when all women regardless of religious faiths or no faiths have met together and worked together to the mutual aid of each and all.

What is a Bank? Daddy...

Well, son, a bank is a lot of things to a lot of people. A bank provides a safe, convenient way to save, and it grants friendly loans to reliable people and business concerns. A bank gives countless services to countless people. But most of all, son, a bank is the financial heart of a community. Know what I mean? Without a bank, it would be highly inconvenient to transact our business affairs.

## Brannan Talk Will Feature Demos Confab

Floyd county Democrats who anticipate giving more than lip service to the Democratic party's platform are expected to be out in representative force for the Texas Tech campus barbeque on Saturday night of next week, March 7, when Secretary Charles F. Brannan, of the U. S. Department of Agriculture, will be the principal speaker at a Jefferson-Jackson day dinner.

Goal of Floyd county chairman, Homer Steen, is 50 or more attend the barbeque. Plates will be \$10. Funds over actual expenses are due to go into party coffers to help replenish the depleted party treasury.

"The Democratic party is the little man's party, and we want every man who desires to have a chance to contribute his \$10 to this effort," said the local county chairman. "The dinner will be an informal outside barbeque and will be honoring Charles F. Brannan, U. S. Secretary of agriculture. We are particularly fortunate in having the secretary come our way, so he can be shown this great area and can be shown our primary problems which are those of agriculture."

At this time Texas enjoys an enviable position in national party circles, and Democrats of the area are being called upon to keep it that way in the usual fighting Texas manner.

Tickets for the barbeque honoring the secretary are on sale this week by Charles Bedford, secretary of the county executive committee, at the First National bank in Floydada, it was announced Wednesday by the county chairman, who said that "we cannot over-estimate the importance of a big contribution and a large attendance from Floyd county at this rally, where a thousand or more Democrats will be gathered."

The Floyd county list of Democrats who will attend the barbeque should be completed not later than May 4, when the list of those who will attend will be made up.

Precinct chairmen in the county are being notified this week and other party stalwarts notified.

## IOOF Open House

An open house tonight at the Odd Fellows hall on west side at which there will be speaking, a drill and supper afterwards will celebrate the 130th anniversary of Odd Fellowship in Floydada Lodge No. 34.

This program will be a component part of the national celebration. The program will open at 8 o'clock. Featured in the evening's program will be Elbert Reeves of Matador, who will talk on the history of Odd Fellowship from its origin. There will be other speaking and music, and a drill by the drill team of Rebekah lodge.

Finale of the gala evening will be a supper for all who attend. All Odd Fellows are urged to attend and the public is invited, said R. P. King, member of the lodge, yesterday.

## Rural Electric

(Continued from page 1)

Only one change was made in the board of directors for the ensuing year, Johnny Lackey who has been serving from northeast Floyd county for a number of years being succeeded by Clarence Ginn, the latter also of Cedar.

W. H. Rathel was re-elected from McAdoo, A. M. Battey, Mal Jarboe, and Lee Trice from areas in Floyd county with addresses in Floydada; G. B. Johnston, sr., of Lockney, representing a wide area in north Floyd county, and Walter Patterson Hale County, of Plainview. Officers this year are the same as for last year, namely, Mal Jarboe, president; Lee Trice secretary-treasurer; and Walter Patterson vice-president.

Encouraging Reports Heard In addition to the customary formalities of nominating officials, hearing of minutes read and other details incident to a membership meeting the members heard encouraging reports of progress and satisfactory financial conditions from Mal Jarboe president, from Lee Trice secretary-treasurer, and from L. W. Chapman, manager.

A forum discussion while the ballot count was being made was led by W. A. Ricketts and D. E. Jones of the REA applications and loans division. They are field men for this region.

The meeting was marked by a big display of electrical appliances for farm and home use by 13 Floydada concerns and distributors of electrical services.

Several hundred persons registered at the coop's office corner Fifth and California where coffee and doughnuts were served and visitors were shown through the offices and warehouse.

## EDITORIAL

Procrastination is the thief of time. How very true that statement is. When we have some important thing to do, we often spend more time thinking about it and less time doing the actual thing. We procrastinate; we put it off as long as possible. Once we get started, things usually work out all right. The thing is soon finished. "I just do not have time" is a common excuse. Did you ever stop to think that the person who does a most apparently has more time than anyone else? We all have twenty-four hours each day. That is why fellow just uses his time instead of wasting it. All of us are dreaming about our future. We must remember that dreams without action are worthless. Now is the time to make your dreams come true.

## Mid Day Enjoyed

## Jackrabbits Upset Whirlwinds 3 - 2

Floydada Whirlwinds lost their first conference game 3-2 to the Ralls Jackrabbits last Friday at Ralls. However the Winds still have a chance at district because they are in double round robin, and will play Ralls again. Wood was the starting heaver for the Ralls nine, allowing no runs until the fourth inning. He also was the hero for the game, batting in two runs to beat the Winds.  
 Hart was the starting pitcher for the Whirlwinds allowing only one run while he was in the game; after Jeter took over in the seventh inning and did the pitching allowing only two runs.

## Aggie News

Three boys from the Floydada Chapter of the Future Farmers went to Lubbock Saturday to judge livestock. They judged fat barrows, beef calves, fat lambs, breeding gilts, breeding ewes, and Hereford cows. The boys ate dinner at the Aggie grove, where they were served a free barbecue lunch.  
 Billy Shipley placed among the high men. He placed sixth out of about 130 boys.

#### Play Cast Guests At Little Theatre

The cast of "The Severed Cord" was highly honored by receiving an invitation to a dress rehearsal for "Years Ago", which was presented this week by the Amarillo Little theatre.

The cast accompanied by Mr. and Mrs. I. T. Graves, Mr. and Mrs. Perry Bell of Canyon, and Mr. Bill Beedy arrived in Amarillo about one o'clock. The group had lunch and then went to the City auditorium for the rehearsal. Mrs. Raleigh, director of the Little theatre, was on hand to welcome the Floydada group.

The rehearsal was equal to an opening production and proved to be very inspirational to the cast and director.

#### Assembly Program

The assembly program Thursday April 21, was sponsored by Mr. Johnson. First on the program were two ward school girls, Beth Walker and Barbara Hart, singing "You're Adorable" and "Red Roses"; then there was a monologue "That Funny Story," by Janet Lloyd. Next was a play, "And the Villain Still Pursued Her." The characters were as follows: Billee Newberry, Elayne Snodgrass, Ruth Maxey, Peggy Latham, Aubrey Guthrie, Dennis Wilkes, Dan Hagood and Lloyd Allen.

The program was concluded with several songs by the Foster twins. The Master of Ceremonies was Johnnie Lloyd, and the program was directed by Joy Bunch.

### FHS Ex Is Winner Scholarship Award

The industry and application of one of our exes, Kelly Hagood, was pleasantly surprised the other day when he was presented the Hilton Scholarship award of \$100, for making the highest grade in his division for the year of 1947-48 at Texas Tech.

He is to be given special recognition at the Parent's day program at Texas Tech on May 1. Kelly attended school last year aided by the Dunlap scholarship! Congratulations! Keep up the good work.

mence, no doubt.

Dale Johnson and Ruth Riggles are working up quite a romance. They have been together quite a bit, lately!

Eunice Welborn sure is interested in Rall these days! Tell us who he is, Eunice.

Hershel and Nell sure find a lot to talk about in typing these days. My, my, children.

Nell Reddy and Carol Fulton were really enjoying themselves at the F. F. A. party Thursday night.

Barry has finally hit earth since Nancy has gone oack to California, but she was cute.

Sammie Vickers is sailing around on a cloud since Sleepy is home. Better watch out and don't hit the ground too hard, Sammie.

It seems that about six boys went to Amarillo last Friday night in Johnny Lloyd's pick-up. I wonder if they were able to make their dates. It's a gay old life, isn't it boys!

Lee and Tommie were really having a gay time Saturday night with some out-of-town boys in a creme color Mercury. Who were they, girls?

Billee and Elayne were with their Plainview boy friends Saturday nite. This is getting serious.

Jennie C. has her a new boy friend now. A clown at the rodeo really went for her in a big way. Hershel Nelson and Lucille's friend were really having fun Saturday night. Cute couple.

### F. H. A. Party

Marlene Hollums directed the games. Refreshments were served by Clara Mae Jones, Loene Williams, Lucille Rahn, Gleva Ratjen, Hattie Boyd, and Nell Reddy.

Then Mr. and Mrs. George Lambert refugees of Latvia, showed some interesting pictures of their native country. They have been in the United States for eighteen months and are now students at Wayland college in Plainview.

Those present were Gloria Ratjen, Marlene Hollums, Doris Boliman, Mr. and Mrs. George Lambert, Anne West, Mary Dee Cozby, Nell Huckaby, Glynis Sparks, Carolyn McDonald, Nita Jo Day, Joan Edelman, Bobby Jones, Betty Stewart, Alice Latta, Judy Moss, Virginia Morris, Clifton McPeak, Leroy Graham, Jackie Alexander, Katie Fulton, Hattie Boyd, Carmen Graham, Edith Garrett, Peggy Lanham, Gleva Ratjen, Billy Joe Smith, R. ### Candid Camera

For this week's personality we have chosen one of those outstanding baseball players. Yes, when the ball comes directly over home plate, you will know that it is none other than Jerrold Neil Vinson.

Jerrold was born in Harlington, Texas, on December 13, 1932. He began his school days at Lakeview, Texas, and continued the school there until his fifth year when he started to Floydada.

Jerrold is 5 feet 11 inches tall, weighs 145 pounds, and has brown hair and eyes.

When asked how he would like to spend his leisure time, Jerrold said "in bed" (not a bad idea!).

Some of his accomplishments are that he was vice president of Jr. class; vice president Ag. and has played tennis and baseball for two years.

Among his favorites are the color of blue, fried chicken, ice cream, no studies, sleeping and baseball. His dislikes are celery, girls, and those over-bearing, not good Brooklyn Dodgers.

Jerrold's most pleasant vacation was spent last Christmas down by the border of Old Mexico. While there he visited Old Mexico and had a gay time.

Jerrold is always quite embarrassed when he asks a girl for a date (I wonder why?)

His most ideal person is Stan

Musical, a player for the St. Louis Cardinals.

Jerrold considers his passing English 4 his greatest achievement.

His life's ambition is quite amusing but nevertheless a good one. He would like to pitch for the St. Louis Cardinals and beat Cline, who would be playing for the Brooklyn Dodgers (I bet that would be some battle!).

Jerrold we know that if you don't make the Cardinals first string you are going to be in the A field wherever you are. Good luck to a swell student.

## Tribute Paid Maggie Davis

tribute in memorial to Maggie Davis, wife of Lon M. Davis, Floyd County resident of a quarter century, is given in the lines done by W. Ed Brown, a friend of the family during years. Mrs. Davis died on 11 after an illness of many months.

As the earth was taking on life everywhere, with soft zephyrs scented with the perfume of life and red-bud kissed into life by the wind of Spring, our friend and friend of the Master's call came - rest from months of mental and physical pain.

Before drifting into sweet and peaceful sleep, in release from all grief and sorrow, she gave unmistakable evidences of an abiding faith in her savior whom she honored and served through life and steadfastly expected to meet face to face when she had crossed standing with her dear ones in the glory world of rest where there is no sorrow and pain and where will wipe away all tears from our eyes and cause every care to melt into joy and gladness.

Kind and tender hands bore her beautiful casket to the little church so dear to her heart. There she lay in state as hundreds of loyal and saddened friends gathered and silently marched by a last farewell.

Flowers in generous profusion, in the most exquisite, were banked throughout the church as a token of love and esteem of the sorrowing friends. To the strains of soft music the choir in subdued tones sang three of Maggie's favorite

hymns "Abide with Me," "Are ye Able," and "Does Jesus Care."

Brother E. A. Powell, her pastor, paid beautiful and deserved tribute in his gracious and sincere manner, quoting at the close, one of her cherished poems - "Crossing the bar."

The obsequies over, the body was placed in the flower laden hearse which led the funeral cortege to the little burying ground - "Dreamland" - situated on a lonely hillside two miles south of Canyon, Texas. There with friends and loved ones gathered about, heads bowed in sorrow, was laid to rest one who was friend to all and loved by all.

The budding trees and flowers keeping watch there in the city of the Dead, emblems of eternal life, portray the sincere remembrances and love for her which her friends solemnly pledge shall live forever. We'll miss your presence, as pass the days.

When the clouds of night swing low;  
We'll miss your counsel, wise and true.

That you gave since long ago;  
But since with you 'tis the Master's will,  
That your labors here shall cease,  
May He greet you in that better land.

With joy, and rest, and peace.  
To you, Dear Maggie, we say farewell until we meet again in that land of eternal bliss beyond this vale of tears.

Bright sun shining—new greenery showing—soft breezes calling you onto the highway—this is the season that Buick of yours was made for!

This is the time when you'll want to hear the sweet hum of its eager power, feel the lazy comfort of its easy stride, get the springtime feel of its thrilling action.

And you can have all that—with just a little attention to some simple things to shake the winter out of its bones.

For instance—the rusty sludge that has accumulated in your radiator should be cleaned out. Transmission and rear end may be low on lubrication, and should be checked. Crankcase oil should be changed to a summer grade.

The underside of your car has taken a lot of splashing on wet roads. Some of the chassis grease has been washed out, some of it fouled with mud and grit.

# Time to Spring Clean your Buick too!

So it's time to drain out the dregs of winter. Time for a little of the knowing, loving care every Buick gets at the hands of our Buick-trained men, armed with Buick-developed tools, Buick-established methods, Buick-engineered parts.

It doesn't take long, doesn't cost much. But it goes a long way toward making old Buicks step out again like lively spring colts. How about stopping in—this week—to see about a spring rejuvenation for your faithful Buick?

Check your car—Check accidents!

Driving is twice the fun when you have complete confidence in your car—when you know that tires, brakes, steering, lights and the like won't let you down.

Altogether, there are 10 points to be checked for safety on any car. Bring your Buick in to us for a thorough going-over before setting off on your spring jaunt. We'll take the worry and fuss off your hands—so you can be carefree of the wheel.
