## Pioneers in Re-Union Gathering Saturday

### SESSIONS END FOR FLOYDADA SCHOOL YEAR

Sessions of Floydada Public schools for the year ended officially Tuesday night with the presentation of the graduating class of 31 girls and 29 boys in their commencement program at the high school auditorium.

Class work was finished last week and tests given, but the week-end and Monday and Tuesday saw teachers and student body completing the odds and ends and finishing their records.

Class and club picnics and parties were sandwiched in the last two weeks of the school year, and extra curricular activities, including musical recitals, made an interesting feature for several evenings.

Superintendent Graves said yesterday that in the midst of completing the record for the year just closed, plans are already being laid in anticipation of next year's work to be taken up in the fall.

At commencement Tuesday night the class gave their own program, using the theme "Facing Tomorrow." Following is the program rendered to an auditorium filled with friends and relatives and well-wishers.

Professional—Dorothy Bishop Invocation—Rev. E. A. Powell, Pastor, First Christian church, Floydada "Steer Right Onward"—Bradford Beedy "A Trust to Keep"—Hope McIntosh

Trumpet Solo—Gene Dale Jackson, accompanied by Roberta Garrett "Time Changes With The Oncoming Generation"—Ivy Pearl Simmons, Valedictorian

Trios—Gladys Roberts, Verna Laster, Jennie Chowning, accompanied by Roberta Garrett Presentation of Gift—Jon Parkey, President of Senior Class Awards—Principal A. E. Baker Diplomas—Supt. I. T. Graves School Song—Seniors

Recessional—Dorothy Bishop Rev. A. C. Durrant, of Garden City, pastor of the Cumberland Presbyterian church, preached at the baccalaureate of the class Sunday night, when an impressive program honored the graduating class.

On Monday night the eighth grade exercises at the R. C. Andrews Ward school were held at the high school auditorium.

### No Kitchen? That's Right at Lunch Box

Lunch box cafe, closed for 10 days until Saturday for a complete interior renovation, re-decoration and re-arrangement, has been re-opened by Preston Davis, the proprietor. Counter arrangement and serving tables have been revamped in particular to save steps in serving patrons and the usual kitchen has been eliminated entirely.

The preparation of foods as well as the serving of them are out in plain view of patrons. Davis featured an open house Saturday when coffee was served all comers.

## COOPER AND WOODRUFF PROBABLE BUILDERS OF CENTER-FAIRVIEW, AND CEDAR HILL ROADS

A telegram from Austin yesterday from an official of Cooper & Woodruff, road builders to M. O. McDowell, who is office manager for the firm here, gives high indication that this firm may build the roads from Silverton highway to Center and Fairview and from Silverton highway to Cedar. The two jobs total slightly more than 13 miles.

That telegram to McDowell said, "Do not start packing. Low on Floyd job." In practically all instances of satisfactory record of construction a low bidder gets the contract when bidders turn in their figures to the State Highway department. The letting was due to be held on Wednesday and the bid officially had been received here, so far as known in The Hesperian office late Wednesday.

**About Ready for Topping**—Meanwhile most of the dirt moving crew and the caliche crushing crew had left Floydada for Harde-man and Childress county, where Cooper & Woodruff have an even larger contract than the one they are now working on in Floydada. The caliche crew completed crushing all the caliche available in the

Paul Cooper, who lives north of Lockney on the Lone Star road, is a Floyd county farmer who is experimenting with various crops, as he carries along his usual farming operations, principally wheat, alfalfa and cotton. Here he is shown in a five-acre patch of flax, seed for which he brought back from South Texas in the winter. The picture was made by David Rasco of the Globe-News, Amarillo. Cooper has no idea how good the flax will do nor what he will do about it when harvest time comes. The crop seemed thrifty on the day the Soil Conservation tour was made. Mr. Cooper incidentally is among the Floyd county farmers who have taken heroic measures against Johnson Grass on irrigation ditches and lanes. "He thinks he is winning the battle against Johnson grass."

## Plans For A Sunday Afternoon Memorial Service Are Announced

Plans for a memorial service Sunday afternoon for Floyd county's service men of all wars have been made by McDermott post, American Legion, G. O. Holmes, commander, said this week.

With Memorial day on Monday and usually not observed as a holiday in this locality, the post chose Sunday afternoon for the rites. The hour is 2 o'clock p. m. when the memorial begins. Judge E. C. Nelson, jr., will represent the Legion in the eulogy for the dead. He is now of Amarillo, but was one time commander of McDermott post. The ceremonies will be held at Floydada cemetery. W. G. Collins is general chairman of arrangements.

The service of eulogy, will have a military flavor with color guards and firing squad. Members of the Legion will place a small American flag at the head of each grave and a spray or bouquet of flowers.

**Graves at Other Cemeteries**—Need for 60 sprays or more was indicated this week by Carl L. Minor, jr., who said that the post home would be open from 5 o'clock a. m. until 1 o'clock p. m. Sunday. A committee of the Legion auxiliary will be on hand to receive flowers which may be brought in and see that they get to the graves of the ex-service men.

Not only will the war dead in Floydada cemetery be remembered but Legionnaires will remember those also who are interred at Lakeview, Carrs Chapel, Cone or other cemeteries in the area. "We hope to contact Legionnaires in these various communities who will be glad to render this small service to the memory of these men, but if circumstances are such that it cannot be done otherwise then the post here will undertake to do so," said Adjutant Minor.

It is thought that the many beautiful gardens of flowers which dot the country will furnish a rich outpouring of sprays and bouquets for the memorial.

Floyd county pioneers, meeting here Saturday will be joined in their 2 o'clock parade by riders of good horses from Crosbyton, Ralls, and Lubbock, the latter to be represented by the Sheriff's Posse, and their chuck wagon pulled by stock-legged mules. So says O. L. Stansell, chairman of the parade committee, who announced the changed hour for the parade to 2 o'clock in the afternoon so as to have a larger number represented in the line of march.

Mrs. Bob Smith, president of the association, said that registrations will begin on the lawn of the court house square Saturday morning as usual, and that after greetings and salutations among old friends are made the dinner will be served at the usual hour. Eligibles will be guests of the association at lunch to be served by women of Floyd county demonstration clubs, several of which are banding together to furnish the meal.

The formal program will follow the afternoon parade, prizes will be awarded, the memorials said, and officials chosen. Judge E. C. Nelson, jr., a former county judge of Floyd county, a pioneer of the west for 40 years or more, will make the principal address of the afternoon. He will be presented by Glad Snodgrass who is chairman of the entertainment committee.

Yesterday it was indicated that attendance will be good. Mrs. Bob Smith, the president, forecast that a bigger per centage of old-timers from out of the county will be present than has been usual, unless the weather conditions are unfavorable.

**Dance on Outdoor Platform**—The old settlers in the late afternoon and night square dances will have the right-of-way on a large outdoor platform constructed by McDermott post, American Legion. The old settlers children and other youngsters will enjoy using the platform the evening before, which is tomorrow (Friday) night. They will also have a dance in the American Legion hall, which will accommodate a hundred couples or more Saturday night.

**Committee Men Are Named**—Following are the committees which have been at work making ready and planning for this year's meeting of the pioneers:

Finance Committee: George Pawver and G. L. Snodgrass, with Bob Smith and I. C. Surginer as a special soliciting committee.

Seating Committee: Lee Howard, Omer Parrish, V. C. Permittar.

Parade Committee: Oscar Stansell, chairman, Roy Childress, Cal- (See Old Settlers, Back Page)

Another effort to save W. Fred Jones from the death sentence imposed in Crosby county by a petit jury in 1946, proved in vain Wednesday of last week when the Court of Criminal Appeals at Austin overruled a motion for re-hearing. Jones was found guilty of the murder of H. C. Love, jr., at Floydada the night of September 27, 1946.

Application for permission to file a second motion for rehearing was due to be filed with the high court by this week-end. Failing this the defendant would be brought to Crosbyton before Judge Dan Blair of the 72nd district for sentencing.

The trial of the Floydada merchant at Crosbyton was the second. On appeal from the first trial, held in Dale county, the judgment of the court was reversed and remanded following which the case was transferred to Crosby county on change of venue.

## Abbott Reports new Vets Ag Class Will Start June Third

LOCKNEY—A Veteran's Agricultural class will start here June 3, it was announced this week by N. S. Abbott of Floydada, the co-ordinator of Floyd County Vocational schools.

W. D. Hancock of Jayton will teach the class and he was here this week making arrangements to move here. He is a graduate of Texas Technological college with a major in agriculture.

## In the Legion News

J. C. Covington, veteran of World War I, broke into the Texas Legion News unexpectedly this week, when that periodical listed and pictured him as a 100 member clubber.

Covington has signed up 160 members for McDermott post this season, one of the records in the state. He has been an enthusiastic member of the veteran's organization since shortly after his return to civil life from the military.

## F. C. TALKS ADD ZEST TO DRIVE FOR GOOD HEALTH CONDITIONS

A review of plans for the TB drive of the Texas State Department of Health beginning Monday, a study of sanitary conditions and health protective measures among the population of Floydada, and measures calculated to help control the spread of typhus in the state, were discussed at length at the joint meeting of Floydada Chamber of Commerce and the Junior Chamber Commerce Tuesday night.

Mayor F. C. Harmon was one of the principal speakers at the meeting. How the city is prepared to meet the challenge of flies and ticks in the control of polio and other diseases of epidemic type, DDT spray and other preventive measures was indicated by Mr. Harmon, who declared, however, that individual effort at maintaining cleanliness and sanitary conditions will go a long way in determining how well the community will fare. The mayor urged that citizens do not wait for "clean up" to fight filth and clean up their own yards.

The city is in position to burn hauled away that cannot be burned and the citizen is under obligation to do his part. Residents who clean up their lots but refuse to burn, burnable and all, the alley to make a problem of the sanitary department, have made the city much trouble and expense. In general cooperation has been most commendable, he said.

**Plans All Made for Tests**—Floydada Chamber of Commerce and the many cooperating individuals and organizations of the community who are to aid in the TB drive next week, have all plans ready for the event, Robert Crowell told the meeting. Films being shown by Mr. Crowell. The health unit will move into Floydada Tuesday afternoon in readiness for the opening Monday morning, he said. Other briefs in connection with the campaign include:

**Pulmonary troubles** are not a problem in children under 15 and therefore children under that age will not be x-rayed;

It takes about two minutes for an x-ray;

Tuberculosis is not hereditary, but may be acquired from a person in the infectious stage;

Undressing for the x-ray examination is not necessary;

Information on x-ray results will be put in the hands of local doctors, who will make any further examinations deemed necessary.

Costs incident to the trip here of the mobile unit will be nominal and these costs will be borne by local organizations.

**Typhus a Growing Problem**—Rodent control problems in Texas in connection with the spread of typhus fever were told about briefly by R. H. Waldrop and V. A. Cross of the State Health department. Rodent control presents the principal problem in such diseases as bubonic plague, typhus fever, cholera, anthrax, trichinosis and infectious jaundice, the department is pointing out. Those present at the meeting voted without dissent to support the City of Floydada in efforts to be made to cooperate with the State Department of Health in preventive measures. Mayor Harmon expressed the opinion that an ordinance would likely be offered the city council for consideration in rodent control measures.

Mayor Harmon said that a problem which confronts the city as to sanitary conditions is that of the houses moved in or built within the city limits which have not been connected with the sewer system for sanitary purposes. He gave warning that health authorities are going to insist on eliminating this danger. "There are dozens and dozens of such residences in the city limits where the owners will be called upon to cooperate with their neighbors in eliminating this threat to the health of the community," he said.

## Consolidation Of School Districts Up for Vote Friday

Tomorrow, Friday, May 27, is the date that has been set by County Judge G. C. Tubbs, as the day for voting on school district consolidation of Floydada, Center and McCoy.

Petitions from Floydada, Center and McCoy were filed in the judge's office, in which they asked that the vote be called to determine whether the three districts want to consolidate.

Last month, Floydada and Starkey districts were consolidated by a practically unanimous vote.

## One To The Dogs For Sure Mamma Dog, 6 Pretty Puppies Left to Kindness of the Fireboys

Floydada Fire Department has one to the dogs, Carl Rodgers, fireman, said Monday morning as he discovered what would be done with mamma dog and six pretty little puppies, a day or so old left in the recreation hall while nobody was around.

Some chicken-hearted family raised the litter of puppies but were willing to take responsibility for disposal. Doubtless they hope fireboys will shoulder this responsibility and fix the little canines someday.

breeding and the puppies all take the ring-neck after their mamma. The mother dog seems to take what has happened to her as a matter of course and the fireboys take about the same attitude. The puppies were about a day old when they were dumped out in the recreation hall.

Somebody ought to be ashamed of themselves Mr. Rodgers thinks, but the fireboys will try to find homes for the pups just the same. It will be several days though because the day-old ring necks haven't adjusted themselves any too good to the world into which they have been introduced rather unceremoniously.

Mrs. Harry Moreckel, above, is the newly chosen home electrification adviser for the Floyd County Rural Electric cooperative, which serves an area extending over portions of six counties of Floyd, Hale, Briscoe, Swisher, Crosby and Dickens, and has 3,000 members.

Prior to accepting the newly-created job Mrs. Moreckel was secretary to the Extension service agents of Floyd county for six years. She is a farmer's wife.

## SET SUPPORT GRAIN RATES ON 1949 CROP

Floyd County farmers will be able to protect their 1949 grain crops through loans and purchase agreements at rates slightly lower than in 1948, according to G. B. Johnson, chairman of the Floyd County Agricultural Conservation committee.

Support prices are \$2.03 per hundred weight for grain sorghums grading number 2 or better, 73c per bushel for oats, and \$1.87 per bushel for wheat grading number 1.

The wheat loan rate is an interim rate based on April 15, 1949, parity with a deduction of 3c as a margin of safety. The final wheat loan rate will be established on the basis of June 15, 1949 parity and to reflect 90% of parity. Of course, this can not be announced until after June 15, 1949.

The support prices of oats and grain sorghums are based on 70 percent parity. All rates reflect the feeding value of these grains in competition with corn.

### CAREY GRIGGS ON VISIT

Mr. and Mrs. Carey Griggs, of Clovis, New Mexico, were in Floydada Saturday of last week on a brief visit with Mr. Griggs's sister, Mrs. Mary Davis. Mr. Griggs said it would be impossible for him to return for the pioneer gathering, and asked The Hesperian to give his regards to old friends and former neighbors who attend.

The contest of being kind to dumb animals is still going on between town and country. Country dogs which adopt some family out there multiply as is the fashion in this hemisphere, and town dogs multiply in the same manner, being in the same zone. The country folks being country folks just hate and hate to put a pretty little puppy "out of his misery" and so they bring him and his little brothers and sisters into town and turn them loose. There are so many little town boys and girls who want a dog. One of them surely will get together with a pretty little dog and all will be happy. Vice versa the town folks haul the little bundles of dog-dom out in to the country — away out they think — and dump them out. Surely some kindly person thereabouts will be kind to a dumb animal and find a faithful servant and helper in a pretty little ring-necked dog that could be named Ring or Colonel, Bozo or Shep. Neither has won out yet in this contest of being kind to a dumb animal. Later, of course, Bozo or Colonel or Shep or whatever his name may turn out to be gets to be a grown dog. Out in the country he runs sheep or harries the cattle or eats eggs or something. In town he scratches up newly-planted onions or bites the little boy that wools him around. And so it goes. No use to try to get people to be anything but chicken-hearted wherever they may live. They make a lot of trouble for each other doing that way, though.

Floydada Chamber of Commerce has huddled some trouble that they didn't ask for in the road building program for Floyd county. The organization has been working hard they say, and this seems to be true, at trying to keep from butting into the neighbors' business about where a certain road should or should not go, and now they are charged with trying to tell the Commissioners Court or the Highway Commission how to dispose of a surplus of seven or eight miles the county inherited from a fuss in some other county. The charge comes from The Lockney Beacon, a good newspaper which is generally sound and common sense. People believe in The Beacon and the charge puts the Chamber of Commerce on the defensive. How the organization may come out in this new development will be an interesting thing to watch. As in every town, the Chamber of Commerce by whatever name you may call it, needs to win friends and influence people. It needs to use common sense. Worst possible thing such an organization can do is to mix up in a squabble about whether the road goes here or there on any given section line or up or down or around any certain man's

property, or leads to or from any man's store or filling station.

Lots of rain means lots of mosquitoes and lots of flies. So watch for ensuing outbreaks that are almost sure to occur of encephomyelitis among horses and similar affections among other susceptible animals, including the two-legged kind. This should begin to occur soon in all likelihood. They called it blind staggers as of yore and the "sleeps" is the more modern slang among horse owners. Scientific men keep hedging on the question of whether flies and mosquitoes are carriers among humans and beasts of the blind staggers. They have not actually caught a fly or mosquito that carried the disease in any of its forms, so they won't say. A man out operating a farm or ranch doesn't have any reputation to maintain along this line, he has no connection with any particular type or slant of thought. And so he just puts two and two together and goes to watching out for the symptoms which he feels are likely to occur. It has happened that way before. It may do so again. Possibly with variations, of course.

In connection with a story from Public Affairs Committee, of New York, an organization which interests itself in the search for a cure for infantile paralysis or polio, this very idea of the possibility that flies and mosquitoes may have to do with polio spread is contained in a list of does for prevention of the disease, among them: "Keep garbage covered and screen the house against flies." Says Alton L. Blakeslee of the committee hopefully, "No one can predict just when the victory (over polio) will come, or in what way, but medical science is making such progress that there is real cause for optimism." The searchers even hope to have a successful vaccine for the polio virus at some time in the future.

If, occasionally, or with regularity, you are disgusted with The Hesperian, you are not any more so than the publishers and the people who work in the office. The makers of the paper start each day and week with the thought that this is going to be the newspaper that is positive proof of editorial sagacity and of the printers art. By the time the gods of mischance and ill fortune get through working on the printer he issues a newspaper with which he is heartily disgusted. When he gets a call from some person indicating displeasure he is all ready to agree with anything that is said. This is the truth, so help us.

## Floyd County 14 Years Ago

(Taken from the files of The Hesperian, Issue of May 23, 1935)  
Pioneers of Floyd county who celebrate the forty-fifth anniversary of the founding of Floyd county, will be welcomed by one of the early day nesters who settled near Irick and who has made his home in Floydada for many years, Judge W. B. Clark.

Memorial services will be held by the McDermott post, American Legion at the Floydada cemetery, Sunday afternoon, at 3 o'clock, Walter Collins, post commander, has announced.

"The swimming pool at the country club is ready," R. C. Scott, secretary of the club, announced this week, welcome news for the children of members of the club and their elders who enjoy swimming.

Announcement that service over the Q. A. & P. Railway east from

Floydada is expected to be resumed this mid-week, and that damage done right-of-way of the Fort Worth and Denver in the northeast part of the county would be repaired, was made this week as railway men were putting their routes back into shape following the heavy rain of the week.

Mrs. J. I. Pitts and Donny Piffer of Mexia, and Stokke Babin returned home Tuesday after spending the past several days with their father and other relatives.

Although graduation days at Floydada public schools were marked by extremely wet weather, the clouds, and water underfoot did not cool the ardour of the graduates themselves nor prevent the attendance at both Andrews High and Floydada High school graduation exercises.

Mr. and Mrs. J. M. Williams were in Borger Tuesday of this week where they talked before the Rotary club on their trip to the Orient.

## Tigers, Flowers, Fishermen and Kittens Who Lost their Mittens, And Rabbits, Too, Give Program

At the Andrews ward first grader's annual chapel program onlookers were greeted by what first seemed to be a tiger. On second look, the tiger turned out to be Scotty Lloyd, announced by Betty May, Ren-ette Hart, Judy Wilson and Cecelia Rogers dressed as flowers. Welcome to the guests was given by Billy Gaither followed by a piano solo by Billie Sue Duncan.

"Sunbonnet Sally and Overall Jim" was sung by several of the first grade students. The girls wore sunbonnets and the boys wore overalls. "Rock-A-Bye-Baby" was sung by the first grade chorus. The girls rocked their baby in the cradle, which was played by Larene Binns. "Oh Where Has My Little Dog Gone" was sung by the chorus while the fishermen was played by Larry Irby.

The audience was amazed when several little rabbits came hopping out on the stage. Mother rabbit was Fleeta Carthel, Peter Rabbit was Buddy Gaither, Flopsy was Donnie Donovan, Mopsy was Coy Grundy and Cotton Tail was Don Myrick.

The Rabbit scene was followed by the three little kittens who lost their mittens. The kittens were Jimmy Coldiron, Kenneth Lightfoot and Anthony Martin.

The three bears appeared on the stage as the chorus told the story in song.

Mother bear was Nancy Watson, father bear was Ben Marshall, baby bear was Pat Thornton and Goldilocks was LaJuana Williams.

Little Black Sambo was played by Mickey Carver, Mumbo by Frances Hopper, and Jumbo by Billy Van Cleve and the tigers were Roy Ewing, Gerald Gant, Scotty Lloyd, Jackie Barbee and Ronnie Blair.

"Dark Town Strutters Ball" was sung by several pickaninies followed by 8 puppets who talked, acted and sang for the audience. The puppets were Judy Wilson, Martha and Lucille Kinard, Martha Meek, Frances Hopper, Kenneth Lightfoot, Leo Smith and Danny Shipley.

The program was concluded with two numbers, "Mountain March" and "Skater's Waltz" by the rhythm band. Director of the band was Pete Muench.

First grade teachers are Mrs. J. W. Clonts, Mrs. Noman Hamilton and Mrs. Kathleen Stewart.

## Treasure Hunt Begins May 28 on Palo Duro

Governor Beauford H. Jester will snip a ribbon May 28 at two o'clock p. m. to start the 1949 Palo Duro Canyon State Park "Treasure Hunt." Just before the Governor cuts the ribbon, 10,000 numbered golden coins will be dropped into the Canyon from an airplane. One thousand of the coins—all those ending in the number "seven"—will be listed prize-winning coins. All other coins will be potential winners of such prizes as a Chevrolet car, an expense paid trip to Rio de Janeiro and two trips to Habana, Cuba via Braniff International Airways, a \$250 diamond ring, two registered quarterhorses from Glen L. Casey's famous herd, and other supplemental and grand prizes valued at over \$20,000.

The Kwahadi Indians and Will Rogers Range Riders will participate in the opening ceremony as will a Queen from the radio show "Queen for a Day." Exhibition square dances will be held the night of the opening.

On the agenda for May 29 is a spectacular horse show and parade at 3:30 p. m. by the Will Rogers Range Riders, boys from Boys ranch, and the Kwahadi Indians. Over 100,000 spectators can view this event, which will be held atop the mesa below Coronado lodge, from the rim of the Canyon.

The Treasure Hunt will last from May 28 through Labor Day, Sept. 5. All grand prizes and unawarded prizes will be awarded Sept. 11 at 4 o'clock p. m. at Coronado Lodge.

Usual gate fees will be the only admission during the Treasure Hunt season. Gate fees are 42 cents for driver and car, 24 cents for additional adults, and 12 cents for children.

### FUQUA-BARBER PRAISED FOR CUSTOM MIXING UNIFORMITY

Fuqua-Barber Farm Supply has won recognition for the accuracy and uniformity of its custom grinding and mixing service. The local firm recently received a Certificate of Mixing Accuracy following analysis at the Ralston Purina Company, St. Louis, Mo., of samples taken from regular mixes prepared for customers of the mill.

The Certificate will be on display at Fuqua-Barber Farm Supply as evidence of the ability of the local equipment to serve farmers with custom mixing that will help them achieve maximum production from their grains.

### LIONS DELEGATES NAMED

Delegates to the Annual District 27-1 of the Lions International were James Word, Enos T. Jones, and J. A. Currie, all of Floydada. This convention was held May 22-24, in the Hilton Hotel, Lubbock, Texas.

As the main feature of this event, an address was given by Dr. Eugene S. Briggs, president of Lions International. He is also the president of Phillips college, Enid, Oklahoma. The Lion district governor, W. R. Rutherford of Dumas, also attended the convention.

## Women Admire Pretty Homes Seen on Tour

Several people from Floyd County went on the tour of Lubbock County homes. Four homes were visited. All were new or recently remodeled. Arrangement of rooms, storage spaces, and decoration were of special interest to those attending. Beautifully landscaped yards were also admired.

The two-day tour was under the direction of Miss Clara Pratt, Lubbock County Home Demonstration agent. Demonstrations in various phases of home improvement have been carried by Home Demonstration clubs in Lubbock County for a number of years, and these tours gave the people in the district an opportunity to see the achievements.

Those attending from this county especially enjoyed the visit to the lovely home of Mr. and Mrs. Floyd Blankenship who live southeast of

Idalou. The Blankenships are former citizens of Floyd county.

Those going on the tour the first day were Mmes. L. V. Heim, Clyde Henderson, A. H. Kreis, George Stiles, O. G. Glassmoyer, John Lloyd, F. F. Bertrand, and Mr. Bertrand, and Miss Leila Petty, County Home Demonstration agent.

### STARKEY CLUB REPORT

The Starkey Home Demonstration club met with Mrs. G. E. Assiter May 20.

### America's Lowest-Priced Straight Eight!

Until they see the actual figures, few people realize that the big, beautiful Pontiac eight is America's lowest-priced straight eight. Not only does it undersell all other straight eights by a substantial margin, but it actually costs less than many six-cylinder cars!

The fact that the Pontiac eight gives so much for so little is the basic reason for the great and growing popularity it enjoys.

Pontiac has distinguished appearance, and distinctive Silver Streak styling. Its spacious Body by Fisher is handsomely upholstered and appointed.

And finally, it is powered by the world's sweetest engine—a great straight eight which is supremely smooth and quiet, instantly responsive to the accelerator, packed with power—an eight which gives peak performance and economy.

We honestly believe that no other car carries such definite assurance of really enjoyable performance at so low a cost. We invite you to come in and take the wheel yourself. We're sure you'll be very pleasantly surprised.

## Resume Farm Work Through-Out County

Resumption of farm work in Floyd county began on the extreme western and northern areas of the county Friday of last week and gradually extended eastward daily, until yesterday plowing or planting operations were underway in a high pressure manner throughout the county.

Some portions of some fields were too wet to go into with power machinery as late as yesterday, but these spots the farm operators were skipping with the idea of going back to them later.

Feed and forage crops were being planted to some extent but for the most part the planters were putting cottonseed into the ground. May 5 was the day most farmers wanted to put their seed into the ground, but practically no farming, except weed killing with synthetics, had been carried on through the month. In all instances of planting, so far as known, new seed beds had to be made and new seed put into the ground.

Biggest acreage in the history of the county in cotton is the prospect if the weather man continues to be kind.

Weatherman in Floydada, Carl Rodgers, said the official rainfall for May to Wednesday morning was 4.36 inches falling throughout the month. Many areas had much more rain.

**Wheat Crop Matures Slowly**  
Continued wet weather has had wheat maturing much more slowly than was anticipated on May 1. At that time the prospect that some wheat would be cut early in June was foreseen. It does not now seem probable in the opinion of such wheat growers and handlers as Henry Edwards that wheat will leave the fields in volume until well along in June, possibly the 20th of the month. The county has a good crop, Mr. Edwards says, if the farmers get to save it.

All the farm operators look askance at all passing clouds and have viewed with some alarm the continued overcast with not much wind. Practically all the wheat in storage in local elevators has been moved out, although a considerable bit of forage grains is said still in bins. Some 39 carloads of last year's wheat had left Floydada last week since April 30.

## Opens Curleys Cafe In New Building

Cleo Stephens, at the newly-built and newly-furnished restaurant at the corner of Georgia and Second streets, is carrying on the tradition of a Curley's cafe in Floydada, for that is the name his father gave his establishment when the family moved here from Burkburnett before World War I. With few intervals between times Curley's cafe has been in constant operation through the years.

W. A. Gound built the attractive 25 by 40-foot concrete and steel structure in which the new cafe is housed. The cafe opened for service Wednesday morning for the breakfast run with Mr. Stephens and Mrs. Stephens as operators. New furniture throughout and quite substantial time-saving and attractive equipment has been installed in the kitchen.

## HIGHWAY POST OFFICE

To speed the mail between points not served by regular common carriers, the government has ordered a fleet of these new highway post offices. Every facility of a railway mail car, sorting tables, pigeon holes, and bag racks are all a part of the complete facilities found aboard one of these modern mail coaches that travel the highways instead of the rails. The White coach shown at the top has just recently been put into service in the midwest. Engineers of The Tinkler Roller Bearing Company were called in to design the bearings that will enable the new post offices to roll with a minimum of maintenance.

The lower picture shows the interior of one of the new rubber-shod mail coaches with clerks sorting the mail enroute. The mail does go through and now it goes through faster to the communities served by the new highway post offices.

## Quarter Horse Show Saturday

Old Settlers day in Floydada Saturday will be a regular holiday for the lovers of good quarter horse flesh. All except those who find themselves snowed under with work will be here for the quarter horse show that begins at 10:30 o'clock.

Arena of the rodeo association will be the scene of the show, to be judged in 10 classes, said Jack Johnson, president of the rodeo association. It will be an open show, with no entry fee in the halter classes and ribbons through fourth place, \$5 entry fee in the remaining contest, with money divided 50-30-20 in top three placings.

In the cutting horse contest the entry fee is \$5 with the same division of money for first three placings.

After the show the horsemen will join with the old settlers at 2 o'clock for their parade, and then late in the evening have a matched club roping and a \$5 jackpot roping.

## Check On Licenses, Weights Warning

Check on licenses and weights in Floyd county trucking operations this year is due to be thorough, according to a notice received by T. F. Hamilton, assessor and collector of taxes, from Jack Reeves, chief weight and license inspector from this district.

Two inspectors will be stationed here through the movement of the grain crop, and are giving warning to "under-registered" truck owners and others interested.

Mr. and Mrs. Fred Battey returned Friday from Amarillo, where they had been visiting since Monday with their daughter and family, Mr. and Mrs. Shelby Cook. They also visited in Borger with another daughter, Mrs. Julian Edmonson, Mr. Edmonson and family.

## UNDERNEATH ROOFING

Roll roofing unrolled on the soil under houses without basements, announced two years ago by the U. S. Department of Agriculture as a means of reducing moisture and preventing rot of floors and timbers, now proves to have other effects, including rust prevention, in preserving houses. Heavy roofing is recommended (55lbs. to 100 square feet or heavier). The method has been found desirable when adequate sub-floor ventilation would interfere with the warmth of the house.

According to Dr. J. D. Diller, forest pathologist of the Department's Plant Industry Station, evidence is accumulating that where the soil is covered, the air in the "crawl spaces" under houses is much drier. "Sweating" or condensation of moisture has not been found in a single case where this precaution has been taken. This means added protection, he says, against raising of steel, deterioration of insulation materials, the buckling of floors and the short-circuiting of electrical wiring that sometimes occur in moist spaces. These other values are by-products of the successful efforts of the pathologists to make the wood in houses last longer. He says that various Government agencies and house occupants have reported favorable effects from this simple moisture control, and its use is increasing. Occupants of basement-less houses are finding that the soil cover makes "crawl spaces" dry enough for storing garden tools, lawn mowers, lumber, and even surplus furniture.

Where the roll roofing is used, thus, Dr. Diller says it is not necessary in winter to have as many open ventilators as is usually recommended, a factor in keeping floors warm. In fact, he says where the soil is well covered with roll roofing the generally recommended amount of ventilators can be cut down possibly as much as 90 percent, according to a recent recommendation by the U. S. Housing and Home Finance Agency which has tested the method in a large-scale housing development.

## Lots of Good Music, Singing Sat., Sunday

A lot of good music and singing are in store when the Stamp-Baxter Westernaires, of Wichita Falls, are presented in concert Saturday night and again on Sunday at the Six County Singing convention in Lockney. The singing convention is sponsoring the Westernaires Saturday night in the City auditorium beginning at 8:15. The Westernaires will remain in Lockney through Sunday to be in attendance at the convention Sunday afternoon beginning at 1 o'clock.

B. R. Bassel, of Plainview, is president of the convention and says that the convention's proceeds from the concert will be used to buy new books. Miss Lucy Casey, of Flomott, is secretary.

## Floyd County Party Sees Famous Drill Of Ross Volunteers

Mr. and Mrs. Earl Edwards, Mrs. Bessma Hamilton and Mrs. Everett Collier were among the visitors at A. & M. College on parents and visitors day, May 7 and 8.

The Floyd county people viewed the exhibits of the various schools of the college and enjoyed a great parents' day program and a program that continued until 4 o'clock in the afternoon. Two of the features of this program was the review of the cadet corps in the early forenoon and the exhibition of special drill by the Ross Volunteer company in the afternoon.

Floyd county this year has two members of Ross Volunteers. This honorary military organization is the oldest student organization in Texas. Charles Ray Hamilton and Macy Orman are the members from this county. Mrs. Everett Collier is Macy's sister and Mrs. Bessma Hamilton the mother of Charles Ray.

A rotogravure that appeared in the Houston Chronicle of the Ross Volunteers was personally autographed by the dean of the college, the dean of men and the military commandant, with a written message of appreciation for the contributions the boys have made this year as members of Ross volunteers.

## Billie Wester Said Outstanding In Dental Class

As the school year drew to a close last week at Baylor University School of Dentistry in Dallas, Billie Wester, Floydada boy, son of Mr. and Mrs. J. C. Wester, was named as the outstanding freshman of the class.

A pin inscribed attesting his high scholastic record was presented to the Floydada student, Billie finished North Texas State last year and was one of the few out of many applicants chosen to be permitted to attend the Baylor dental school.

## VITAMIN VEGETABLES

Several of the yellow and the green and leafy vegetables have registered substantial increases in production for the fresh market the last two years as compared with average supplies for the previous ten years, a U. S. Department of Agriculture summary shows. The figures by the Bureau of Agriculture Economics, covering 25 truck crops, are for the fresh market and do not include crops for canning and processing. Recent nutritional research has emphasized the value in the diet of the yellow and the green leafy vegetables.

For the 25 crops the 1948 output of 8,337,600 tons was larger than for 1947, but not up to the 1945 and 1946 outputs, it was however well ahead of the 7,216,600 ton average for 1937 to 1946. Sweet corn production for the fresh market set a new high record of more than 115,000 tons compared with the 10-year average of 85,000 tons.

Other increases in 1948 as compared with the 10-year average in parenthesis are: Lettuce 1,185,000 tons (868,000); cabbage 1,334,000 tons (1,180,000); celery, 742,000 tons (582,000); cauliflower, 229,000 tons (176,000); cucumbers 159,000 tons (118,000); escarole 17,800 tons (11,000); green peppers 93,000 tons (69,000); and carrots 653,000 tons (542,000).

Decreases were reported for the following: Beets 51,000 tons (56,000); asparagus 56,000 tons (70,000); and green peas 56,600 tons (18,400). Tomatoes, lima beans, and snap beans showed no substantial changes from the 10-year average. Spinach with a production of 114,000 tons was down about 13 percent from the 10-year average of 131,000 tons. Recent research has revealed that spinach is not as valuable in the diet as some earlier findings seemed to indicate.

## Recipe of The Week

### Savory Pork Casserole

1/2 pound veal  
1/2 pound pork  
1 1/2 tablespoon lard  
1/2 pound fresh mushrooms  
1/2 pound noodles  
1/2 small can pimiento  
1 tablespoon grated onion  
1/2 pound American cheese  
1/2 small can cream style corn  
1 can condensed chicken soup  
1/2 teaspoon salt  
1/2 teaspoon pepper  
1/2 cup buttered crumbs

Finely dice meat. Brown in 1 tablespoon lard. Wash and slice mushrooms and brown in remaining lard. Cook noodles in boiling salted water. Drain and rinse. Chop pimiento, grate onion and cheese. Combine meat, mushrooms, onion, cheese, noodles, corn and soup. Add seasoning. Pour into casserole and sprinkle with crumbs. Cover. Bake in a moderate oven (350° F.) for 1 hour. Remove cover during the last 15 minutes. 8 servings.

## 97-TON ATOM SMASHER

THIS ATOM-SMASHING coil may also have its place in trucking history, too. After many months of controversy because of its weight—97 tons—the coil was delivered to Carnegie Institute of Technology's Nuclear Research center at Saxonburg, Pa. The coil was wound in Brooklyn Navy Yard as the Bureau of Naval Research's contribution to the atomic research program. But highway commissioners blocked overland delivery, forcing a 3600-mile water voyage via the Gulf of Mexico, the Mississippi, Ohio and Allegheny rivers. Despite claims of highway experts that such heavy loads would crush the Pennsylvania roads, Pittsburgh papers reported: "The coil, carried on 1-beams equipped with heavy-duty 1400x24 General tires, was trucked 33 miles from the Kittanning, Pa., locks to Saxonburg, Pa., without damage to the highways. Most of the highways traveled were secondary roads, at that." Navy officials, claiming this one of the largest hauling jobs ever undertaken by them, attributed the successful hauling to "proper sized tires and mechanically perfect equipment."

## Sts. of Laredo at Palace May 31 - June 1, 2

Film goes of this section are going to have an opportunity to see a brand new picture when "The Streets of Laredo" is filmed at the Palace theatre here on May 31, June 1 and 2. Additionally they will see some of America's most breath-taking beautiful country, never before filmed, says Jack Deakins, manager of Floydada theatres this week.

The picture is a Paramount technicolor, a western drama.

Word from Hollywood is that no production undertaking in years has surpassed Paramount's all-out search for never-before-filmed locations that took the Technicolor crews a thousand miles from the movie capital.

According to those who have already seen the picture, which co-stars William Holden, William Bendix, Macdonald Carey and Mona Freeman, "Streets of Laredo" boasts such pictorial natural beauty as has not been seen on the screen in many a moon. More than seventy-five per cent of the spectacular action

in the film was photographed outdoors, most of it in colorful, picturesque New Mexico.

Against this background of rare scenic beauty is told the exciting story of three friends, outlaws in young Texas, whose affection for each other was the only law they knew. Circumstances separate them, forcing Holden and Bendix to become Texas Rangers against their will, Carey continuing to flout the law and expecting his erstwhile partners-in-crime to work with him. What changes Holden and Bendix into good Rangers faced with the necessity of capturing or killing their old friend, and how the girl loved by Holden and Carey resolves their life-and-death problem, is said to make the "Streets of Laredo" one of the most thrilling outdoor adventures the screen has offered in a long time.

The brand new song hit, "The Streets of Laredo" by those "Buttons and Bows" composers, Livingston and Evans, is an additional entertainment feature.

**NAZERINE PASTOR TO SNYDER USUAL SERVICES PLAN HERE**

Rev. and Mrs. C. C. Calhoun will conduct a revival and vacation Bible school from May 29 through June 5 at the Nazarene church in Snyder. During the absence of the pastor, Rev. Bennie M. Rose will preach at the local church of the Nazarene Sunday night, May 29 and at both services on June 5.

## Claud Fawver Has Hereford Herd Started

Claud Fawver, of Baker, has the beginnings of a herd of registered Hereford cattle, with the receipt last week of seven heifers from W. M. Gouldy, an Amarillo breeder.

Fawver bought the bull which will head his herd at the stock show in Amarillo in March. The animal, a Lamplighter bull from Wheeler, was a year old in January.

Mr. Fawver will run the cattle on his stock farm. He expects the herd to be an interesting sideline for his regular farming and stockraising operations. "I think I am going to raise some mighty good looking Herefords," he said.

## Mrs. Hollums leaves On Sanderson Trip

Floyd County Pioneers, who think they can't have a re-union of the old settlers without Mrs. Maud E. Hollums, daughter of the county's first settlers, as secretary, will learn differently this year.

Mrs. Hollums, who had been hospitalized for two weeks and urged by the hospital authorities to continue a rest period, is doing just that. She had been wanting to visit her brother Mark for some time, anyhow, and so she left the latter part of the week for Sanderson where Mark lives, with plans indefinite.

She has been recovering satisfactorily, her son, Duncan Hollums, said this week.

Mrs. Hollums has been secretary of the Pioneers Re-Union association for the reason that she would accept the job and would take care of the extensive routine incident to it for several years.

Mr. and Mrs. A. N. Ward, for several years residents of Floydada, moved the latter part of April to Roswell, New Mexico to make their home. Mr. Ward will be associated in business with his son-in-law, O. W. Henderson. Ward had been employed at Higginbotham-Bartlett Lumber company in Floydada for some five years.

# Studebaker buying wave sweeps the nation!

Another all-time record in April!

More people bought new Studebaker cars and trucks in April 1949 than in any previous month in any year.

Studebaker sales in January, February, and March were the biggest for any quarter in Studebaker history.

Twice this year Studebaker has increased production in an attempt to meet this sensational upsurge in demand.

## Joy McIntosh Wed to J. Y. Jordan Sunday

Joy McIntosh, daughter of Mr. and Mrs. B. P. McIntosh, of Brownwood, and J. Y. Jordan, of Eastland, were united in marriage in a single ring ceremony read Sunday evening May 15, at 7 o'clock in the home of Rev. Brown C. Welch, pastor of the Cumberland Presbyterian church in Lubbock.

The couple's only attendants were Hope McIntosh, sister of the bride, and Welms Norman, of Floydada.

For her wedding, the bride chose a two piece blue and gold dress with white and gold accessories and wore a corsage of red roses.

Following her graduation from Floydada High school in 1946 and until February of this year, the bride was employed as an operator in the Floydada office of Southwestern Bell Telephone company.

The groom is a graduate of Eastland High school. He served in the army several years during the war. Since his discharge he has been employed with Southwestern Bell Telephone company.

The couple will live in Lubbock, where the groom will continue to work for the telephone company.

## Preserving of Strawberries and Pineapple

(By Lella Petty, County Home Demonstration Agent)

Usually one pound of sugar is used for each pound of fruit. If 1/2 pound sugar is used, the preserves will make a nice product, but the syrup will not be as thick. When less than the usual amount of sugar is used, or if corn syrup is substituted for sugar, it is necessary to seal the containers to prevent moulding or souring.

### A Standard Strawberry Preserve Recipe

1. Boil 2 cups sugar and 1 cup of water until it begins to form a thread.
2. Add 1 pint of strawberries and cook 10 minutes.
3. Add another pint of strawberries and 1 cup of sugar sprinkled over the top.
4. One tablespoon lemon juice added at this time helps retain color.
5. Boil continuously about 10 minutes, or until it reaches a jelly stage.
6. Remove them from the fire and shake the kettle gently until the foam collects in the center and can be easily removed.
7. Then pour into a flat container and let cool before putting into hot sterilized containers.
8. Cover with paraffin and seal at once.

### Freezing Strawberries

Use only sound ripe fruit. Wash, remove hulls and soft berries, wash again in ice water. Leave small fruit whole and slice large fruit. Use sugar syrup or dry sugar. Sugar syrup may be made by 2 cups sugar dissolved in 1 quart boiling water. Chill before pouring over fruit. When using dry sugar use three to five parts of fruit to one part of sugar. Mix sugar with fruit. Use only air-tight and moisture-vapor-proof containers. The size of the container should be suited to family needs.

### Freezing Pineapple

Wash, peel, and slice or chop pineapple. Use a syrup over firm slices. Dissolve two cups sugar in one quart of water. For crushed or chopped pineapple use 1/2 to 1 cup dry sugar mixed with 1 quart of fruit before packing in air tight containers. Leave head space in all containers to allow expansion.

## Lakeview News

LAKEVIEW, May 24—Those who failed to attend the eighth grade graduation exercises Monday night missed a treat in the commencement address given by Mrs. Willie Merle Hathcock, county Superintendent of Hale county public schools.

She took as her subject "The Real Person." Using each letter in the word "real" to stand for some worthy ideal in life she brought a message to the graduates and all present from which all received an uplift in life.

Clarence Guffee, superintendent of Floyd county schools, awarded the graduates, Mary Sue Dunford, Helen Amburn and Milton Dunavant, their diplomas.

Rev. G. A. Rowell gave the invocation and Wayne Russell the benediction.

Mr. and Mrs. E. H. Spears and children were in Lubbock Sunday where they visited in the home of her sister Mr. and Mrs. Jimmie McDonald and son, James Lee.

Mr. and Mrs. Marvin Williamson and children of Dumas, brother of Mrs. Grady Dunavant, were present Friday night at the school program.

The following were the honor students the last six weeks of school: 1st grade, Donald Neff; 2nd grade, Lourie Johnson and Anella Thurston; 3rd grade, Nell Polivadore, Wandell Russell, Alice Polasek; 4th grade, Mary Newberry, Nelda Boyd, Billy Joe Estep; 5th grade, Nellie Ruth Neff and Patsy Johnson; 6th

## Install New Officers Of 1934 Study Club

An inspiring installation ceremony and a review of the past year was the highlight of the 1934 Study club meeting held in the home of Elizabeth Armstrong, 312 West Kentucky street.

The program leader, Margaret Collier, reviewed the year's study of "Facing new Fronts", which included new fronts, "in the home, in the community, in the nation and in the world."

The officers for the 1949 and 1950 club year were installed in their respective offices in an impressive ceremony led by Bernice Stapleton, the retiring president.

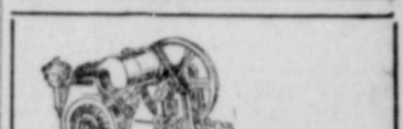

Those attending the meeting: Mmes. Bernice Stapleton, Mary Shaw, Frances Graves, Ruby Evans, Jettie Moss, Polly Cardinal, Corene Barber, Jessie Jones, Mary Helen Lackey, Gwen Cogdell, Flora McNeill, Ann Willson, and Misses Lella Petty, Ann Swepton, Margaret Collier, and the hostess, Mrs. Elizabeth Armstrong.

## Can Black-Draught help that dull, dopey feeling?

Yes, Black-Draught may help that dull, dopey feeling if the only reason you feel that way is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, sleeplessness, mental listlessness, bad breath—and if these symptoms are due only to constipation—try Black-Draught. ## Smith Urges Open Meetings State Boards

AUSTIN, Texas—The citizens of Texas have the right to know what happens at meetings of state boards and bureaus which spend state money and establish state policy.

That is the contention of Representative Preston E. Smith of Lubbock, who pointed out today that the people now do not enjoy such a privilege.

Smith is author of a bill which would open the meetings to the press and public.

The bill passed the House of Representatives in March by a vote of 118 to 4. It has since awaited action in the Senate. Last week the Senate voted down a proposal to suspend the rules and take up the bill out of regular order.

"Time is getting away from us," Smith said, "and there are going to be a lot of bills which will die for want of action." He continued: "I hope that this bill, which opens the doors of board meetings to the public, will not die."

"The people of this state put up the money for its operation, and when any group of officials gets together to talk about spending that money, the people are entitled to know what the officials say."

Smith suggested that civic-minded Texans might wish to tell their Senators of their interest in the measure, which is House Bill 428.

"I do not see how secrecy can be justified," Smith declared, "when those boards are discussing public policy and public funds. Too many times, controversial issues have been decided behind closed doors. That's not the way democracy ought to work."

There are teeth in the bill, Smith asserted: It makes it mandatory upon the attorney general to inaugurate quo warranto proceedings against offenders.

The bill provides that the 140 state boards which it governs must give to the newspapers written notice in advance of meetings.

"The House of Representatives has shown by its favorable vote of 118 to 4 what it thinks of the bill. Also, there has been widespread newspaper editorial comment for the legislation," Smith added.

"This is a bill that ought to be passed," he added.

Mr. and Mrs. Carter Andrews and Mr. and Mrs. Teddy Green are in Texas plains towns this week, guests of relatives and friends. Mr. and Mrs. Andrews are visiting in the home of Mrs. Andrews' parents, Col. and Mrs. W. H. Seale here. Both the Greens and the Andrews formerly resided in Floydada.

## Temporary License Granted Transients

A 60 day license has been authorized by the highway department for out-of-state vehicles engaged in marketing wheat and other grains in Texas.

The temporary license to be issued only to non-residents of Texas, will cost one-sixth of the annual fee, E. J. Amey, motor vehicle division director said.

The license will cover trucks, truck-tractors, trailers and semi-trailers, Amey said. They should be obtained at the office of the county tax assessor-collector of the first county in which the vehicle is to be operated.

The department's action conforms with the provisions of Senate bill 75, passed recently by the legislature.

## Fairview News

FAIRVIEW, May 23.—We have had several days of sunshine, but it is cloudy and cool today. Farmers are watching the weather and wondering whether to start planting or wait until weather conditions are more settled.

BOYCE HOUSE "GIVES YOU TEXAS"

I see by the papers that the palatial home of the late Dr. John R. Brinkley at Del Rio is for sale.

Your columnist met the famous gland specialist twice. He was a handsome dresser, wore a huge diamond ring and was distinguished looking. He had a goatie.

The most striking feature of the home from the outside—(I was never in the mansion)—was a fountain. At night, different-colored lights alternated in changing the water from purple to red to green to gold.

More than one tourist, returning from a round of beverages on the other side of the Rio Grande, thought he was seeing things and "swore off."

The fountain was said to have cost several thousand dollars. It caused people to talk about Dr. Brinkley.

And that probably was the idea.

Dr. Brinkley moved to Del Rio from Kansas where he had made a strong race for governor. He had had run-ins with some of the newspapers there. So when he was introduced to the then Del Rio editor, Dr. Brinkley said, "I don't think much of some newspapermen." The editor, himself a forthright kind of chap, replied, "That makes us even—I don't think much of some doctors."

The two got along well.

The son of Dr. Brinkley is now attending Yale. When he graduated from Del Rio High a few years ago, this columnist delivered the commencement address.

A philosopher once said, "Some men in public office grow; others swell."

And an expressive remark, after someone has made some strong statement is the one with which the speaker winds up his unfavorable comments, "That's Sears-Roebuck talk." Meaning, if anybody doesn't like it, he'll take it back.

CRAGER WITH NAME BAND

LOCKNEY—Mr. and Mrs. Ted Crager of Lubbock, visited last week-end with their parents, Mr. and Mrs. Arch Crager of Lockney, and Mr. and Mrs. H. S. Hilburn of Plainview.

Monday, they left for Kansas City where he joins George Olsen's band as a first cornet player.

The summer tour will take this band to Omaha, Fort Worth, San Antonio, Galveston and Atlantic seaboard cities.

Crager was given special permission to take Texas tech examinations early in order to report to this assignment. He graduates with a Bachelor of Music degree with class of '49.

Mrs. J. H. Poore, Mrs. C. E. Bartlett and Mr. Otho Sanders went to Austin Tuesday to get Mr. Sanders' daughter, Martha Lee who is attending school for the blind.

Mr. and Mrs. M. A. Barton and grandson Joe Bob made a business trip to Amarillo Tuesday.

## No Liability Decree Sought In Church Loss

LOCKNEY—The insurance company, being unable to persuade the trustees of the First Baptist church to cancel out the policy and drop the matter, filed suit against them asking the federal court to declare that the company was not liable for the loss under the terms of the policy.

The church was destroyed when sleet last January piled up on the roof to the extent that it caved in, pushed out the walls, and otherwise demolished it. The church carried a policy with an extended coverage in the amount of \$18,000.00.

Work Starts On New Church

Preliminary work began Wednesday on the construction of a new Baptist church in Lockney. The new building will be built on the site occupied by the old one which was destroyed last January when the roof caved in from an overload of sleet.

The church has employed T. E. Verner of Meadow to supervise construction of the building. He is employed on a 110% cost-plus basis.

THE HOME BUILDERS CLUB HAS A NEW PRESIDENT

The Home Builders club met in the home of Mrs. Riley Teague Friday May 13. In the absence of both president and vice president, Mrs. John Lloyd presided. The resignation of the president, Mrs. J. D. Eaves as president was accepted by the club with regret, and Mrs. D. F. Mayo was elected unanimously to fill the vacancy. Mrs. P. F. Bertrand was elected vice president.

Miss Petty gave a demonstration which brought us up to date on the preparation of food for the locker or home freezer. Mrs. Harmon Roberts gave a quick demonstration on "Jiffy Refreshments with Cheese."

Members present were Mmes. P. F. Bertrand, J. E. Horton, W. A. Cates, D. D. Shipley, T. J. Heard, Floyd Fuqua, Harmon Roberts, J. P. Moss, C. J. Parr, O. G. Mayfield, John Lloyd, E. W. Turner, Raymond Williams, Miss Leila Petty, Mrs. Riley Teague, the hostess and Mrs. Martin a visitor.

The next meeting will be in the home of Mrs. J. P. Moss, at 2 o'clock Friday May 27.

FRID CHICKEN YEAR

Many balding men tremble when they were small looked forward to the July not only for fireworks noise but also because it was "son." The season was all in most families. But restaurants took advantage patrons for a longer season.

The contrast with today hazied by a report by the comments of Agricultural Economics growth of year-round production of year-round production since 1920's." Tender young chickens in season as a fresh market from one fourth of the next. There is a season of early-hatched pullets in market, but there is no same inducement to purchase as when those young were coming to market a few weeks in summer and

### The Wind Bloweth Where it Listeth Humans Mighty Helpless When Elements Take Over, Two Fort Worth Women Learn on trip here

Edna Coverdale Hart and Ethel Weathers of Fort Worth, Texas, who were on a business trip to Floydada, Texas, were caught in the path of a severe storm which struck the town here Tuesday afternoon. The women were on Highway 70 that they realized what they had driven into. "We talked earnestly to ourselves and the Lord," said Mrs. Hart, and Mrs. Weathers agreed that it looked like "that was it". She reminded herself she recalls, how she had always dreaded the thought of dying away from home. It was only for a few minutes, they fought the storm that picked their car almost or quite off the ground at times.

and at other times seemed to crush it toward the earth or whip it to one side or the other of the road.

Mrs. Hart is a daughter of the late George A. Coverdale, who at one time operated in the cattle business on a large scale here with N. A. Armstrong as a partner. Three farms which Mr. Coverdale left at the time of his demise are still the property of four surviving children. The farms are managed by R. A. Coverdale, who lives in California. Mrs. Hart was out on a seeing trip. Both she and Mrs. Weathers are "oil men" and thought incidentally they would see about the possibility of blocking some lease land in the territory. But principally it was to see the farms here they came.

"The four of us children still own the farms together, Reuben attends to them. Children are supposed to quarrel over an estate but we haven't yet," said Mrs. Hart.

When the couple were safely in Floydada, after the peril had passed, and they checked in at the hotel it was such a relief to pent-up nerves—they had a good cry. "Just like a woman," said the vivacious Mrs. Hart.

### Next Year League Debate topic Picked

AUSTIN, Texas—"Resolved, That the President of the United States Should be Elected by Direct Vote of the People" is the University of Texas Interscholastic league high school debate topic for 1949-50.

League members chose the topic and higher education, tidelands ownership, water and soil conservation, and unicameral legislation.

Results of the voting are announced in a bulletin to League members. The bulletin requests schools to indicate the number of bulletins of debate topic information they will require for their work, and asks them to indicate whether they would be interested in entering contests in interpretive reading, radio newscasting and original oration if those contests were added to Conference AA, A, and B next year.

### NUMBERED HESPERIAN PAGES WOULD SAVE FUSS A WEEK

Hereford, Texas.  
Editor, The Hesperian:

We always look forward to getting the Hesperian. I think your paper continues to improve each week. I have one suggestion that I would like to make for your paper and that is please number the pages.

When you have a wife and son and all three of us grab for the paper and start reading, I finish the front page and it has continued part on back page. I ask Tom to let me see the back page. Of course he has to tear the paper apart and he said "how do I know I have the back page?" Please number the pages and it will keep down a lot of fusses at our house.

Come to see us. We live 8 miles north of Hereford.

We sure have had a good rain and wheat could not look any better, also a wonderful season for planting.

Yours very truly,  
Roy L. Snodgrass

### Cowboy Jubilee Biggest Ever Spur Promise

SPUR, Texas—Bigger than ever preparations are being made for the 1949 Spur Cowboy Jubilee and rodeo, scheduled for June 2, 3, and 4, 1949, with four big performances.

President J. E. Swenson of the Spur Cowboy Jubilee has promised the biggest and best show ever held in West Texas. Performances will be held on Thursday afternoon, Thursday night, Friday night and Saturday night, the show to open with a gigantic down-town parade at 1:00 P. M., Thursday, June 2.

Over \$2,500 in cash prizes is being offered to amateur performers in eight divisions of the rodeo—Bronc riding, calf roping, bull riding, bareback riding, double mugging, cutting horse contest, old-time

ers roping contest and cowboy sponsors contest.

Stock for the show will be provided by "Goat" Mayo, well-known throughout this part of the country.

Citizens of Spur and Dickens county are taking on the "rodeo air" this week, and are be-decked in some time of western regalia to advertise the coming show. A booster trip to surrounding towns has been planned for the week of May 23. A special "jail" to be erected on Main street will take care of the non-conformers to the "dress western" edict issued by the Cowboy Jubilee association directors.

### MRS. LEIBFRIED ATTENDS HOUSTON MEETING HELD FOR ASST. SECRETARIES

Mrs. Lorin Leibfried returned recently from Houston, where she attended a meeting at the Federal Land bank for assistant secretary-treasurers of the National Farm Loan association of the Amarillo and Lubbock districts.

Lee C. O'Neil, regional manager of the Lubbock district and Osro Stephens, of the Amarillo district, were also in attendance at the two day meeting.

When you gotta stop  
-you wanta stop!

"I can stop on a dime," the salesman promised you, "—and leave nine cents change!"

And your Buick did—when it was new and brake linings unworn and everything factory-tight and fresh.

But brake linings wear—lights grow dim with time—tires can lose their bite and traction.

And with a whole summer's driving ahead, what better time than this to bring your Buick back to new-car peak in all those details that mean so much to safety?

Check your car---  
Check accidents!

Three great service and safety organizations across the country are alerting car-owners everywhere this month on safety-checking their cars.

They list ten vital question marks for you to think about—How are your Brakes? Lights? Tires? Steering? Wheel alignment? Defective glass? Rear-view mirror? Muffler? Windshield wipers? Horn?

Be sure your family rides in safety—ask your Buick service man to look over these check-points this month—and join the great drive for driving safety!

Our men, trained in Buick ways, will give you brakes that stop you as Buicks should, with new brake linings that are right in size and brake drums turned to perfect round.

They can replace sealed-beam headlights to give you new-bulb brilliance—and while they're at it, check battery, voltage, wiring and headlamp-aim to boot.

They'll check tires, switch them as needed, look into wheel alignment for easy steering.

In a word, they'll renew your Buick with the same care and interest they would lavish on their own—and do it at no greater cost than for just ordinary service.

So drop in. Get set for some summer fun that's up to lively Buick standard.

## W. E. Brogden 'Drifted Off' From Floydada

The Hesperian has an interview below with W. E. Brogden, one of the founders of Floyd county, who later "drifted away" and as so many did, wound up in Cherokee strip and the Sooner country of Oklahoma. The interview was obtained by Mrs. Robert Day, of Floydada, who was in Oklahoma a week or two ago visiting in the home of her niece, Mrs. Charley Sanders at Tishomongo. Mrs. Sanders told her aunt of a neighbor who "lived in Floydada years ago," and Mrs. Day thought what he had to say might interest present-day old-timers here.—Ed Note.

When I came to Floyd county, Texas, it was unorganized and was attached to Crosby county for judicial purposes.

When organization came there were two small towns in the county, Delta Plains and Lockney.

James K. Gwynn came with a plot and a tee pee tent, a barrel of whiskey, a barrel of sugar and a barrel of tin cups and said this is Floydada and of course Floydada was selected as the county seat.

A. B. Duncan was county judge, Dan Jenkins sheriff, W. M. Massie, county surveyor, J. F. Lackey, the

editor of the county paper, and I William Emory (W. E.) Brogden, as the "printer devil".

Cab Williams came with his saloon.

Dr. R. C. Andrews and his son, Dr. Varnum Andrews were the local doctors. Reverend B. A. Menefee, a Methodist minister, located in Floydada to become pastor of a church. Mr. Ainsworth organized a bank and J. I. Carter put in a drug store and Mr. Drake built a hotel.

With Raleigh Scott, Joe Harley and I went to the opening of the Cherokee strip and I drifted to what is now Tishomongo, Johnston County, Oklahoma, where I am still living with "happy memories" of my time spent in Floydada, Texas.

The name of W. E. Brogden still is initialed in the early history of the county as every land owner who has a map can testify. The W. E. Brogden survey, is an 80-acre preemption immediately east of the Davis survey on which the townsite of Lockney is located.

If any old friends should like to write him, Mr. Brogden's present address is Box 624, Tishomongo, Oklahoma.

## NW Tex Methodist Conference Being Held at Amarillo

The reading of the appointments Sunday afternoon will close the annual session of the Northwest Texas Conference of the Methodist church, in progress now at the Polk Street Methodist church in Amarillo. The sessions began yesterday and will continue through part of Sunday. Some 250 pastors and a number of laymen are expected to be in attendance at the conference.

Rev. and Mrs. Lloyd H. Jones, J. M. Willson, sr., and possibly a number of lay delegates from the local church are attending the conference.

### Floydada Club Girl to Make Awarded Trip

The Extension Service and the Producers Grain cooperative are sponsoring a cooperative plan to reward outstanding 4-H club boys and girls in the area served by the Extension Service. This area includes the counties of Floyd, Garza, and Glasscock. The plan provides for a 4-H Boy and one 4-H Girl from each district to be chosen for this award. These chosen become members of the Talent club.

The plan has two purposes: (1) to recognize the outstanding work done by 4-H club members, and (2) to interest this group of agricultural leaders in cooperative activities.

Hollums of this county has been chosen a member of the Talent club from District 5 of the Producers Grain corporation. The plan in the unique 4-H organization are educational trips for the members, as guests of the Producers Grain corporation of Amarillo. This year will be by charter trip this year to Lubbock, extending through Austin, San Antonio, Corpus Christi, and back to Dallas. The group will be supervised by Miss Kate Adele Hill, Extension agent, and Kenneth Loyd of the Producers Grain corporation.

The trip will be on June 6, 7, 8, 9, 10.

Lena is happy over the prospect of the trip she has won because of her outstanding 4-H club work. She has been a member of the club for over a number of years. Her projects include cooking, poultry, and dairy stock. She has won various awards such as trips to Lubbock, College Station, Dallas, besides the award of recognition in her projects. Of the 4-H medals and prizes, she says she is proud of the Gold Star awarded her by the Texas Extension Service in 1948.

### FREEZE DEMONSTRATION

## Stresses Great Value of Crop Residue in Soil

The maturing wheat crop has a big straw or stubble crop and crop residue management is one of the most important of all soil and water conservation practices in use today. According to R. G. DuBois, chairman of board of supervisors of the Floyd County Soil Conservation district, this residue should not be burned, but should be returned to the soil. The organic matter in or on the surface of the soil serves as a barrier to soil removal by force of water or wind. It also cuts down the rate of evaporation, serves as a protective cover against extreme temperatures and keeps the soil open for free movement of air and water. The advantages gained will more than offset any trouble that it may cause. Farm machinery has been improved and developed that permits the widespread use of residues. This method is rapidly becoming the accepted way of farming and is no longer considered an emergency measure or as a sign of "Sloppy" farming.

**Needed Moisture Drains Off**  
When soils are low in organic matter their porosity is poor and much of the water that should go into the land drains off. Soils that are low in organic matter do not have capacity for holding available moisture and crops will suffer in dry years. A cover of organic mat-

ter as most effective in controlling soil movement. Crop residue, managed, will not only help hold the soil in place but will increase the penetration of the moisture.

Without a protective cover of vegetation, either dead litter or growing crops, the wind takes its toll of productive soil. Even the heavier soils will blow if permitted to become depleted in organic matter and are left bare of a protective cover. The severe soil blowing last fall and winter was on land that was depleted in organic matter. Much of the finer particles, including organic matter, is sifted out of eroded soil and carried away, becoming a mass of individual soil particles, with nothing to bind them together.

**Growing Season Is Time**  
The time to prepare against erosion is during the growing season preceding the blow season and heavy rains. It takes very little effort each year to keep the soil built up as the crop is taken off, but if it is allowed to become depleted in organic material it takes a period of several years to restore this essential content. This fact substantiates the basic theory of the practice, especially in the drier areas, where gradual decomposition will take place if the material is left on top of or in the immediate surface soil. Crop residue left on or near the surface is recommended by the supervisors as one measure to take against all types of erosion.

Mr. and Mrs. Frank Pite of Abilene spent last week-end with Mr. and Mrs. Earl Edwards. Mrs. Pite is a daughter of the Edwards'.

Jo Muncy, daughter of Mr. and Mrs. Ed Muncy, Floydada, returned home today to spend the summer months with her parents. She is a student at Baylor university, Waco.

## Dallas Speaker For The Lions

Will Wilson, the Dallas district attorney, who was prosecutor in the "stomping" and "drowning" cases that had the headlines last year, was featured speaker last Thursday night at Floydada Lions club, when the meeting was held at the high school cafeteria.

Members of the local bar and others were specially invited to hear Mr. Wilson, who has recently gained some notoriety as the district attorney who has relentlessly prosecuted professional gamblers and racketeers in his district.

## As A Farm Woman Thinks

(By Nellie Witt Spikes)

Welcome, Pioneers, to visit with the ones of us who live here.

It is a privilege to get together once more and talk of the days long gone by. To tell of that "good ole cow pony which knew more than most men," up hanging on barbed wire fences.

Again we will go to the brakes and gather wild purple grapes and red plums for our winter supply of jams and jellies. We will remember when we did not cripple about on bad knees and stiff with rheumatism, eyes not so good that once could see across boundless prairies and ears not hearing quite so well as they did when we listened for creaking wagon wheels or hoof beats approaching company or some of our folks just getting in from the railroad or "Up-Trail."

Just for a few days we will be young again and hear the voices of friends who have moved far away. People will look and listen, some with amusement, some with interest at what we tell. But we will not pay them any attention. We are living in the past and the present with all its cares, troubles, joys and sorrows is a mirage, shimmering before us.

I am sure all of you old-timers will like a copy of a poem by Josh Lee, one time senator from Oklahoma. It is as follows.

I lived on the Plains in an old sod house,  
And I played in the sage and the mesquite grass,  
I found the bear grass and gathered its pod  
And I lived like a king in a mansion of sod.  
For life was great in early days  
Where wild antelope and cattle grazed.

You see, my father had staked a claim  
And brought his family to prove the same,  
Oh! the life was rough and sort o'-hard  
But we went on without regard  
To inconvenient western fare  
And built a home of gladness there.

Our house was built of native sod  
But the hearts within lived close to god.  
This palace contained a single room  
And just one window dispelled the gloom.  
But the souls within created the light  
And especially so on a wintery night.

With mother and father and cousin Jim  
Sister and brother, and the rest of them,  
Including Grandma, who furnished the cheer  
They kept things merry most of the year,  
It seems like a dream as I think of it now—  
We lived in a house we built with a plow.

The fireplace served as the altar of love  
For which we thanked the father above,  
Then from the Book a chapter he read,  
And after a prayer scampered to bed.

I want to go back to those happy days,  
And sitting once more and stare in the blaze,  
I want to go back and chase the antelope  
And live once more in the old sod house.

Mrs. Bonnie Hiatt of Amarillo spent the week-end visiting in the home of Mr. and Mrs. George Mize of Floydada.

## Band Fund Aided and Lions Thank All Who Gave Help

The members of the Lions club would like to express their appreciation to the people for their cooperation during the nights of the Lions-Band carnival, said James H. Word, president.

The spectators had the privilege of seeing some of the prominent citizens of Floydada ducked into a tank about three or four feet deep. There were games of bingo and many other for all present. Also each night, the band gave concerts.

The biggest part of the proceeds will go to the band, (which is approximately \$300.00 out of the \$420.00 that was cleared) for the purpose of buying new uniforms and more instruments for the band.

## Honorary Official of Tri-State Fair

Homer Steen, of The Hesperian, was notified recently that he was appointed honorary vice-president of the Tri-state fair at the meeting of the board of directors in April.

He was selected to the position in order that the people of this area may be kept in closer touch with the activities of the fair according to John K. Boyce, president.

## Center News

CENTER, May 24—After several beautiful sunny days, it is cloudy this morning and a northerly wind is blowing. Tractors start early and plow late to plant the crop and to fight the weeds which seem to have a head start because we've had more rain than usual to date.

Rev. James McPartridge, a student of Wayland college, preached Sunday to a good crowd of home folks and several visitors. He took Sunday dinner with the J. E. Greens.

Mrs. Ida Welborn returned home last Saturday from a several weeks visit with relatives in east Texas and Oklahoma. She was accompanied home by her son and his family, Mr. and Mrs. Howard Welborn and children of Medford, Oklahoma. All attended church here Sunday.

Margaret Green, Velma Avant, Bobby Lou Casey and Leona Griggs—all students of Wayland college attended church here Sunday, and were dinner guests in the Green home.

Melvin Robertson and Jim Wilson, students at WTSC, Canyon, were week-end guests in the J. R. Robertson home. Melvin attended church here Sunday.

Mrs. Joe Robertson, jr., and small daughter, Jolene, were week-end guests in the J. R. Robertson home. Glenna Robertson was dismissed from the Peoples hospital Saturday after an appendicitis operation. She is convalescing at home.

La Juana McAda and Mary Alice Plumlee attended church here Sunday and were dinner guests of Eunice Welborn.

Mr. and Mrs. C. L. Ashton and children dined Sunday with the Joe Dunn family south of town. Jean Bradford called in the J. E. Green home Sunday afternoon.

Mr. and Mrs. Floyd Montgomery of Panhandle were week-end visitors of his mother and sister, Mr. and Mrs. Frank Dunn and family. We were glad to have them in church services Sunday.

Several from Center attended the graduation exercises held at Floydada high school Tuesday night.

Come to Sunday school every Sunday and bring somebody with you.

**BARBARA SUE, BETTY JOYCE NEITHER TARDY NOR ABSENT ARE INCLUDED IN THE LIST**

It seemed that everyone was happy Monday night following the Andrews Ward School graduation Exercise Except Barbara Sue and Betty Joyce Murphy. Following the presentation of the diplomas to the graduates, Principal A. D. Fultz awarded attendance certificates to students being neither tardy nor absent during the school year. Literally speaking "everyone" except themselves received a certificate so in their disappointment the girls called Mr. Fultz to let him know of the error.

Everything was immediately taken care of, the girls were reassured there was a certificate for them and their effort put forth not to miss a day of school was not in vain.

Be wise—Advertise.

## NOTICE — PLEASE

The question of the kind of trash barrels continues to come up and seems confusing to some people.

Your trash or burning barrel must have a bottom in it. It must be strong enough so that it can be picked up and contents dumped into truck.

If your barrel is past use it will be picked up and carried to the dump ground.

Out of 1250 barrels only half are fit to use. You will certainly be doing the sanitary department a big favor to always have a good barrel and have your trash all burned when the truck comes by.

## Club Round-Up Big Event In 4-H Year

COLLEGE STATION—The dates for the annual 4-H Club Round-Up on the campus of Texas A. & M. College have been set for June 14 and 15. Acting Extension Director J. D. Prewitt of Texas A. & M. College announced recently.

The Round-Up is the big event of the 4-H club in Texas.

For the first time since 1940 the boys' livestock judging contests and the girls' dairy foods demonstrations will be held in conjunction with the Round-Up, Mr. Prewitt said. Contests will be held June 13.

County quotas have been set at two boys, two girls and two adult leaders, with contestants in the dairy foods demonstrations and the state 4-H dress revue over and above the quotas.

The annual conference of Texas county agricultural and home demonstration agents will follow the Round-Up on June 16 and 17.

## Cap Wise Succumbs at Quitaque Home

QUITAQUE—The last, and eldest of the three Wise brothers who came to Texas from Louisiana in 1908 and settled at Quitaque, passed away at his farm home in Gasoline community at 11 p. m., Monday, May 16. J. F. (Cap) Wise, born October 3, 1878 was this brother.

Jim who was killed in a car wreck in 1945, was born in 1880 and Frank, born in 1883, died of a heart attack in February of this year.

Mr. Wise had been in failing health for a number of years. Three years ago, he made an amazing rally from a critical illness, and since that time he seldom left his home except for brief visits to town and to his doctor. He had been feeling badly for several days and told his family of hurting in his chest. Monday evening, about 8 o'clock the pain became acute, and in about three hours he died.

## FROZEN FOOD DEMONSTRATION

A demonstration on preparing food for the frozen food lockers was given by Lela Petty, County Home Demonstration agent at the meeting of the Sand Hill Home Demonstration club Wednesday of last week. Mrs. Richard Crow and Mrs. Alma Holmes were hostesses.

The attendance prize winner was Mrs. Will Hollums and the game prize was awarded to Mrs. Arlin Miller.

Present at the meeting were Mmes. Ed Holmes, T. C. Hollums, Buck Jackson, Turner, Wayne Billington, Jim Hollums, Claud Jones, Will Hollums, Arlin Miller, Eddie King, Walter Hollums, one visitor, Mrs. W. E. Thompson and the agent, Miss Lela Petty.

Next meeting of the club will be in the home of Mrs. Roy Hollums May 25.

Mr. and Mrs. Cholma Williamson and daughter went to Amarillo Sunday to visit L. A. Williams family and as they were returning they saw the tornado which destroyed the south part of Amarillo. After returning home they tried to call the L. A. Williams family. Being unable to get them, Cholma and Aidine Williams drove to Amarillo to see about their parents. They found them in bed asleep, and knowing nothing about the tornado.

## Claim Relief For Many In New State Law

Some 28,600 Texas employers covered by the Texas Unemployment Compensation Act, and an estimated 1,620,000 insured workers covered under the same Act will receive relief in many forms under the amended Act passed by the 51st Texas Legislature—the employment insurance through a reduction in experience tax rates, and the claimant for employment insurance through a boost in the potential maximum benefits he may receive, the Texas Employment Commission announced today.

Governor Beauford Jester signed into law May 11, the bill which extends these benefits, among others, to employers and claimants alike, TEC said.

Under the old law, experience tax rates called for a minimum of five-tenths of one per cent on employer payrolls. Whereas, the new law lowers the figure to one-tenth of one per cent. The maximum experience tax rate remains 2.7 per cent. This section will probably save employers some six to ten million dollars each year, according to TEC.

The new bill also graduates the tax table in one-tenth of one per cent steps as opposed to the old table which was graduated into five-tenths of one per cent steps. This, it was pointed out, provides a more accurate measurement of employer experience tax rates. The new law further provides that an employer entitled to an experience tax rate will not be charged with benefits paid to a worker who leaves the employer under disqualifying conditions when due to protest is made to the Commission.

Heretofore, under the old law, TEC added, and benefits paid to a claimant who was receiving an employer pension was reduced by the amount the claimant received under the plan. This provision was repealed on the ground that such pension plans usually represent an investment on the part of the worker as well as the employer, and that such investment should be treated in the same way that any other investment is treated.

Another provision of the new act provides in effect that when the Trust Fund exceeds \$200,000,000, every employer who is eligible for and experience rating shall receive an additional one-tenth of one per cent reduction in his tax rate for each \$5,000,000 in the Trust Fund. For this provision to be effective there must likewise be an eight per cent ratio between the amount in the Fund and the previous year's taxable wages. The present ratio is approximately eight per cent. The old law had no limit on the size of the Trust Fund, and no possible tax reductions could be made other than standard experience rating, TEC pointed out.

## QUITAQUE SOFTBALLERS SWAMP SOUTH PLAINS TEAM

QUITAQUE—Quitaque soft ball players journeyed to South Plains last Friday and defeated that team sixteen to three. According to reports, it was a one-man ball team, and Glen Edward Lewis was that man.

South Plains scored one run in the fourth inning and two in the sixth.

Visiting in the home of Mrs. Lula Moore Sunday were her daughter and husband, Mr. and Mrs. Bob Cole of Lubbock, and Mr. Cole's mother, Mrs. L. D. Ballard of Denton, Texas and his aunt Mrs. Lou Fisher of Cleveland, Ohio.

## H. L. McCandless Victim of Monoxide Gas at Plainview

Funeral services were conducted last Thursday afternoon in Blackburn-Shaw chapel at Amarillo for H. L. McCandless, owner of the Plainview Bus company and a bus line from Floydada to Childress. McCandless was found dead about midnight Wednesday in his parked car. A coroner's verdict of carbon monoxide poisoning self inflicted was returned by the Justice of the Peace W. J. Lewis, of Plainview.

Among survivors are the widow and a daughter, Barbara Ann, student at Texas Christian university.

Moving to Plainview from Big Spring in 1893, McCandless was manager of the Texas-New Mexico Bus company for a time.
