WHEAT PRICE SUPPORT BASED ON CO-OPERATION OF GROWER

Wheat growers were put on notice today by the government that compliance with wheat acreage allotments will be necessary if they are to receive the protection of government price supports on their 1950 wheat crop.

According to Ray S. McEntire, administrative officer of the Floyd County Agricultural Conservation Association, an "eligible" producer will be one who will be "any individual, partnership, association, corporation, or other legal entity that has an interest in land, owner, landowner, tenant, or sharecropper in a farm on which the acreage planted to wheat for harvest in 1950 is not in excess of the farm acreage allotment."

Such a producer has an interest in more than one farm in a county, will be eligible for wheat price support if the total of his share of wheat acreage seeded for 1950 wheat does not exceed his total share of the wheat allotment or "permitted" acreage.

Volunteer wheat can be overseeded with other grains and qualify. However, volunteer wheat can be grazed and destroyed before maturity without affecting performance. All volunteer wheat reaching maturity will be counted against the allotment.

Cotton Growers Protected. According to recent Department of Agriculture announcements, Floyd County loans on 1949 Mid-land 15-16 inch cotton will be 29.14 cents. Loans will be available through April 30, 1950 and will mature July 31, 1950. Cottonseed will be price-supported at 90 percent of parity. The full details of this program have not been received.

Wheat for grain or seed. (4) If the small grains other than wheat seeded in the mixture fail to reach maturity and the remaining wheat plants are permitted to reach maturity, then such acreage shall be classified as seeded wheat and will be credited against the farm allotment in determining performance in 1950.

(When the first county-wide election is held Saturday, September 3, on the court house bond issue, the "Secret Ballot" law will be in effect. Below are the instructions given election officials, which will be interesting to voters. Note, please, that No. 7 does not apply to counties of the population of Floyd. --Ed. Note.)

1. The election judge shall check all ballots to see that they are properly numbered and remove any mutilated or unnumbered ballots.

6. The election judge shall place a notation on the list of voters showing that the particular person has voted, but shall not make any record of his ballot number.

11. The voter shall then deposit the stub in the stub box before he deposits the ballot in the ballot box.

12. The voter shall then fold his ballots so as to conceal the printing thereon and so as to expose the signature of the presiding judge on the back of the ballot, and then deposit it in the ballot box.

13. Unless the ballot is deposited in the ballot box and the stub in the stub box by the voter in person, the same shall not be counted as a vote in such election.

Summer Happenings: The honey flow this season has been immensely pleasing to the honey man in this territory. Bee men who have "grazed" their honey makers on Floyd county fields have been kept busy adding "supers" to take care of the situation. Funny how some insignificant thing can stop the honey flow though, when the season hits wrong. The bee man needs a good year like this to make up for the inadvertent things that may or can happen next season or the next. Query: Why do bees get hard to get along with when they are harvesting honey from certain kinds of clover? They are well left alone during such a time by the uninitiated. . . . Hog population has increased appreciably since mid February in these parts. . . . story has it that hog men are getting their young animals to market in great numbers now to avoid a falling market later, that is up north where the tall corn grows. . . . Finished beef has gone off \$100 per head or thereabout. . . . So far as we know, when the price trend or spiral or whatever you call it, starts downward the man with the raw product is the first man who gets taken off of. . . . or how would you say it to get a preposition off the end there. . . . August 28 was the right date to plant your rutabagas. If you didn't plant then you still can, of course, but you won't have as good luck as those did who planted on that date. . . . The new things in agriculture hereabout as demonstrated in the summer is the growing importance of grasses in the economy of the county, (on the way back to where we were when the drama began to unreal for this area) and the use of water from surface lakes to put back on the land to help make a crop.

Helpful Rains.—All through the east, northeast and southeast portions of the county nice rains fell last Friday night, partial to some communities, that have been most helpful to the loading cotton fields and to the forage feeds now in the maturing stage. These reports say half inch to one and one-half inches, and all give glowing reports of the prospect. Because of the unusual heavy fruitage of cotton the rain was needed to fill out bolls and give a good staple. Gin men, who have been lagging in their preparations to take care of the crop have been speeded up in their efforts to get ready for the early ginning season now in prospect.

POLIO EMERGENCY.—Reports have it that polio funds in the nation as well as in the local chapter are running so low that a special drive for funds is in the immediate offing, an emergency that most all the people of the area will meet in the best of spirit. Polio is tremendously dangerous. Also it is tremendously expensive to combat. Presumably everybody in the country and the area will do their utmost to help meet the situation. Organization for a drive that will, or most certainly may, be announced soon is now being made.

Information about the "secret" ballot, first of which will be cast here (county-wide, that is) on September 3, is contained in this week's Hesperian. We have no objection to the new form of ballot particularly. On the other hand, we are not enthusiastic about it. Luke-warm you might say, or somewhat indifferent. We can learn to tear off a corner and put it in the little box as good as anybody, we'd think. There may be portions of the state in which the "secret" ballot is needed, where there may be intimidation, or fear of it, or where the election officials take it upon themselves to be nosy about other people's affairs. But no doubt those who really seek to stuff the ballot box can do so like it is said has always been done and will always be done. The election law in Texas already is one that cannot be tracked by an election official, without the new wrinkle. The little mysterious can where you drop the number and signed two inch square tear off is not more mysterious at this time than was that original one, where the officials put spoiled ballots in one box, good ones in another, made out their certificates and everybody that had to do with it affirmed they had done a good, honest job — and then put their returns in the box that was not supposed to be opened for months, and lock them up, so that somebody has got to unlock them before the result can be tabulated and declared.

Club Ropers Making Good Contest Time

Floydada Roping club has had a lot of good luck and good roping the past two weeks, representatives of the club doing good jobs at the "Spur" Roping and Roping Contest last week, after winning their match the week before from the club here.

John and Bud Pope, roped for the Floydada club at the "Spur" against two men from Spur, Crosbyton, Post, and Matador, won the club championship belt with a combined time of 49.9 seconds on two calves. Johnson racking up 31.6 time on his two calves and Pope 37.3 on two calves. Their closest competition was 90 seconds combined.

100 Ropers At Rg. Springs

The open jacket roping at Roping Springs Thursday and Friday Floydada club had a high man

the first day in tie-down roping when Olin Bryant took low with 12.9 seconds. Bill Ware in this contest won fourth in ribbon roping.

Saturday afternoon and night, while Johnson and Pope were in the Spur competition, Bill and Raz Ware journeyed to Canyon where they entered the "amateur" rodeo, in which they teamed up to win the wild cow milking contest in both go-rounds and the ribbon-roping in one go-round.

The coming roper in the Floydada club is Raz Ware, club members are beginning to tell each other. Young Ware throws well and is getting better. He has remarkable speed getting off his mount and down to the calf after he tightens the loop. An advantage he has of many ropers is that he dismounts from either side of his horse according to the way the loop falls when he makes his catch. Jack Johnson said this week.

To Paducah September 10

Floydada Roping club will send a six-man team to Paducah on September 10. Mr. Johnson announced, re-paying the Paducah club's visit for the trip will be made on Wednesday night, September 7, Johnson said.

Floydada Couple Wed As Vows are Recited At Baltimore, Md.

An informal wedding ceremony was read Thursday morning, August 25, at 11 o'clock in the Mount Vernon Place Methodist church at the Washington monument in Baltimore, Maryland, to unite Mavis Louisa Willson, Floydada, and Dr. Robert Neff Arnold, U. S. Marine hospital in Baltimore. Rev. J. Artley Leatherman, minister of the church, officiated in the rites read in the presence of close friends and relatives of the bride and groom.

J. M. Willson gave his daughter in marriage. She was attired in a smart frock of light taupe wool with brown trim, beige beaver cloche and other accessories of brown satin. She complemented her ensemble with a blue silver mink scarf and a corsage of green orchids.

Prominent Couple
Mrs. Arnold, daughter of Mr. and Mrs. J. M. Willson, sr., of Floydada, finished high school in Floydada before entering Southern Methodist university, Dallas, for two years. Later, she completed her work on her BBS degree from Iowa State College, Ames, Iowa, and is a member of Chi Omega sorority.

The bridegroom is the son of Mrs. C. K. Arnold and the late Dr. Arnold of Floydada, formerly of Petrolia. He graduated from Floydada high school, Texas Technological college, Lubbock, and Texas University Medical college. Dr. Arnold is now intern in the United States Marine hospital in Maryland. He is a member of the Pi Beta Phi fraternity.

The young couple departed immediately following the wedding ceremony for a honeymoon trip to Atlantic City, New Jersey, and plan to return to Baltimore to establish residence.

For travel the bride chose an originally designed tweed suit having modern lines with petal point hemline in a slim gored skirt. She used all brown accessories and an

Many Friends Mourn Walter Griffith Death

LOCKNEY—Walter Griffith, a resident of Floyd county for almost sixty years, died Monday afternoon in Lubbock Memorial hospital following an operation later in the day. Mr. Griffith, who had been in ill health but not confined to his bed, for several months was admitted to the hospital Monday night.

Mr. Griffith had postponed the operation a few days in order to attend a Roberson family reunion at Plainview Sunday.

Funeral services were held at the West Side Church of Christ in Lockney Wednesday afternoon conducted by Elder Leland H. Knight and Elder Alvie Johnson. A large crowd overflowed the church for the services.

Interment was made in the Lockney cemetery under the direction of Carter Funeral home, Lockney. Pallbearers were Tom Wells, Lee Dea-

venport, Albert King, Bert Bobbitt, Robert Smith and Frank Roberson.

Real Pioneer of County
Mr. Griffith was a real pioneer of this county. He came to Floyd county with his parents, Mr. and Mrs. J. D. Griffith on April 27, 1891, when the county was very thinly settled and the town of Lockney did not even exist. He was born March 4, 1876, in Tennessee. The family moved to Ellis county, Texas, in 1882, to McLennan county in 1890, to Childress and then on to Floyd county in 1891. At his death, Mr. Griffith was still living on the same place his father settled on in 1891.

He had been a member of the West Side Church of Christ here for 43 years.

Mr. Griffith had spent his entire life farming. His neighborly spirit and friendliness had endeared him to everyone living in the Lone Star area.

He was married to Miss Annie Roberson in 1911. His wife survives as do five sons and three daughters as follows: Harold Griffith of Lone Star, Kenneth and Elton, both of Plainview; Chester and Herbert, both of Lubbock, Mrs. Kline A. Nail of Lubbock, Mrs. J. B. Harbin of Whitharrel and Miss LeNelle Griffith of Lockney and Lovington, New Mexico. Other survivors include four brothers, John Cleve, and Don all of Lockney, and Glenn of Casa Grande, Arizona.

Dear Sir:

We have about half a crop of peaches and will start picking about the first of September. They will be extra large. We also have Satsuma plums.

If you are interested, contact me immediately.

Yours truly,
John Ismay

We will have a load of this fruit in Floydada Tuesday Sept. 6th. Probably this will be as cheap a peach as you will buy this season. See your favorite grocer, fruit stand, or you can get them at. —

Motor Trucks Pay Heavily Claims Leader

Austin, July—The motor transportation industry was responsible for the expenditure of \$71,840 in Floyd county in 1948 for highways, schools and other governmental functions, says Motor Transportation Association.

"This was made possible by payment of license fees, motor fuel taxes and intangible tax" said Roy Sanderford, President of the association in releasing a statistical study of the motor transportation industry's share of the cost of state and local government.

Sanderford stated that these figures do not include city and district ad valorem taxes, franchise or unemployment insurance taxes. Floyd County's share of the industry's contribution to government was made up of the following: County portion of registration or license fees (commercial vehicles only), \$23,679; State highway construction, \$66,220; State highway maintenance, \$12,732; county and plus in road bond fund distributed district road debt paid, ---; surtax to county, \$9,280; per capita appropriation to schools, \$9,376; and intangible tax paid to county, \$553.

ANDREWS WARD STARTS FIRST SCHOOL YEAR OUT OF THE MUD

The people of Floydada are due hats off to the Junior Chamber of Commerce, the P. T. A. and to all who helped get Andrews Ward out of the mud. It is a completed job and thanks to Cooper and Woodruff construction company.

We feel in order to reduce the possibilities of traffic hazards still further there must be some systematic use of the streets. We suggest all cars bringing children to school travel west on Jackson street, then after unloading students, go south toward Sand Hill highway. At noon and after school the same directions are urged then all students will be to the right side of the traffic. It is especially asked that cars stay off Lee street and north of entrance to school ground so buses may use the bus loading zone and help them maintain their schedule and also prevent the possibilities of serious accidents. The space at the north end of the school building is not a parking area for cars.

Help save lives; don't be a wrong way Corrigan.

A. D. Pultz, principal, Andrews Ward school.

40 - Hour Week On Santa Fe

Santa Fe officials have announced that in compliance with the recent presidential fact finding board decision, the 40-hour work week will go into effect on the Santa Fe September 1 for non-operating employees.

Wherever station offices or other installations can be closed on Saturdays, they will be.

As the program goes into effect, Santa Fe officials said, shippers and receivers of freight and passengers at each local point will be apprised of new schedules, if any, for their locality.

Train operations will, of course, be continuous and services essential to train operation will continue on their present basis with relief employees required in many instances to maintain the continuous operation.

Railway staff officers have studied each location and situation on the Santa Fe individually to work out the details and determine the program for putting the 40-hour week in effect.

Approximately 49,750 Santa Fe system employees will have some change in their working assignments.

Mr. and Mrs. Henry Schacht and family returned recently from vacationing in the states of Oklahoma, Kansas, Nebraska and Iowa.

A Farm Woman Thinks

By Nellie Witt Spikes)

By 1673 the slave traders brought the slave from Africa. They also brought the cowpeas to fuel their tragic journey. They also planted the cowpeas in Jamaica. In the year 1800 the cowpeas reached Florida. In the year 1800 the Florida cowpea varieties were the same as the cowpeas of today. The cowpeas and cream cowpeas were first found in India, the land of its origin. It has 50 distinct common names. One Hindu name indicates the plant was on cultivation in India at an early date.

The above quoted from the magazine of much interest. The magazine shows pictures and tells where vegetables were first found. (Indian corn) from South America. World's number one vegetable, the Irish potato, from Chilly, Ireland from South America. Tomatoes from South America. Cucumbers, squash, all American. Melons from Asia Minor. Melons from Africa. Mush Melons from Persia. (Bless the Persian for this melon, I love that melon.) Onions and carrots from Asia. Cucumbers and eggplants from India.

Mr. and Mrs. W. B. Jordan and Mr. and Mrs. J. U. Moss and girls called in the Green home Sunday afternoon.

Sam Reddell visited in the Green home Sunday and was a supper guest.

The R. C. Ross family made a business trip to Lubbock Tuesday afternoon.

We are glad to see many friends of the Fairview community and former Center residents at the services this week.

The Joe R. Robertson family returned Wednesday from a tour which included Dallas, Austin and San Antonio.

Don Green left Tuesday for Bay City to visit with friends.

Week-end guests in the home of Mrs. G. M. Bullard were Mr. and Mrs. J. C. Crabtree and children, Mark and Karen, Gordon Bullard and Mr. and Mrs. L. E. Crabtree, all of Lubbock, Grover Kelly, of Odessa, and Mr. and Mrs. L. B. Cozby and daughter, Mary Dee. Mr. and Mrs. Thurmon Perry and baby, Jan, and Mr. and Mrs. Chil McClure.

The Lawsons were accompanied to Frank Cloy by the Bakers for a visit with friends and relatives while in Missouri.

Claud S. Price returned home last week-end from South Dakota, after two months in the harvest. His "run" this year began late in May at Benjamin and he followed the harvest on through Colorado and Nebraska. In South Dakota he harvested for D. W. and W. D. Burke on the farm they bought last year.

Shots Thousands Phone Wires

don't shoot at birds on lines," is the plea of J. Cornell, manager of Southwest Telephone company, who says each year thousands of wires are broken by stray hunters during the hunting season. "In the meantime," he said, "all we can do is to ask hunters to be careful when shooting at birds near telephone wires."

bird on a wire, but I guess they just don't realize that a hasty shot might cause serious damage to telephone lines and disrupt long distance service."

Explaining the yearly dilemma, Cornell pointed out that each hunting season money, man-hours, and telephone calls are lost through gunfire damage to telephone lines. "It would help a lot," he said, "if hunters would be very careful when they are in the vicinity of telephone lines. Even if a bullet or shot only nicks the wire, when cold weather comes the wire contracts and the added stress may cause it to break."

One solution advanced by the manager was that telephone engineers might try to develop a type of wire that would move when shot at. "In the meantime," he said, "all we can do is to ask hunters to be careful when shooting at birds near telephone wires."

Mrs. Phil Merry and daughter, Linda, left Friday to return to their home in Denver, Colorado following an extended visit here with Mrs. Merry's mother, Mrs. Bob Smith and Mr. Smith. Linda had been here with her grandparents since the middle part of June and Mrs. Merry had been here since last month.

Petitions Ask for Blanco Dam

CROSBYTON — Assistance in Crosbyton's repeated efforts to build a dam in Blanco canyon came from an unexpected source this week. J. Roy McCoy, geologist of Lubbock, is circulating eight petitions in that city requesting the conservation of flood waters in Blanco and Yellowhouse canyons by the building of dams.

The petitions have been in circulation for only a few days now, and they already contain hundreds of signatures. "I haven't had any trouble getting names on the petitions," McCoy said, "because the majority of business men and residents I have contacted personally or who have seen the petition sign readily."

Ernest Smith, Crosbyton Chamber of Commerce secretary, went over to see McCoy Wednesday afternoon. He did not see Mr. McCoy as he was out of town, but found that many influential citizens of Crosbyton believe in the project. "The people are going out of their way to find one of the petitions so they can sign it," he said.

McCoy believes the water sands of Crosbyton's city wells, as well as irrigation wells can be recharged with water from the proposed reservoirs, as an auxiliary water supply and for recreation.

This is the first tangible assistance received to date from residents of Crosbyton in the efforts of the territory to secure a dam for Blanco canyon. Crosbyton, Spur, Floydada and Ralls banded together at one time in an effort to secure the backing of the Brazos River Authority in building a dam, but nothing has been heard from this source in recent years.

The petition reads: "We, the undersigned citizens and businessmen of the city of Crosbyton, respectfully request that you take such steps as you deem necessary to study and acquire land both in Blanco canyon and Yellowhouse canyon for the purpose of building dams to conserve the flood waters for use of the City of Crosbyton, as an auxiliary water supply and for recreation. If a reasonable trade cannot be arrived at, then acquire the land by condemnation, or otherwise, for we need the water and recreation."
