EDITORIALS

There is always something to spice life up, to make it more worthwhile to toil and strive and study and plan. Cottonseed is the current problem, the cottonseed price, to be exact. How much cotton seed has been helping to make a cotton crop profitable is realized more fully when you consider that the by-product of the fleecy staple sold for up to \$105 a ton at the gin for a year or more before the drop in the price last spring. This year the price for seed started out cold-shouldered at \$35 in the Valley. Before the movement of the crop had started in the plains areas support prices had brought the market back up to \$40 or better. Where facilities have been available and usable the loan support price of \$49.50 has made the cotton bring the producer \$46 at the gin, that is in the form of a CCC loan similar to the cotton loan. The spice is afforded to the cotton man by the fact that he wants that other \$4.50 and feels like he needs it, especially if he is a renter or has high priced lease land. To the ginner and the mill man the spice is afforded by the fact that he is between the farmer and the Commodity Credit corporation as the man who is going to handle the seed if it is handled under the loan and the further fact that it stands to cost him to afford this service the customer insists upon. The government men say the fee is adequate. Shrink due to loss in moisture content, also loss in handling is not covered by the fees and charges the CCC will allow. So say they. Spice is afforded the truck drivers who have made plans to handle a lot of cottonseed and spent their money to get ready for it and now are wondering if the haul is going to get away from them under the pressure for the government program to be put into effect.

Less than a week hence the voters of Texas are to pass on several proposed constitutional amendments, ten as a matter of fact. Some of the amendments are ratably high in value to the people of the state, to the common welfare, others are merely some things the do-gooders thought up. You will not be able to tell from reading the ballot what each amendment would do unless you have read the full proposals published all over Texas this summer. You could have read them, of course, in fact you still can. Even then you may not be able to foresee what the court will decide the legislature meant by the resolutions adopted. At any rate vote as intelligently as you can. Remember, your idea of what the amendments would be worth to your posterity is as good as that of the man who considers himself an authority on such things. We say this because we have come

to the conclusion that the mine run of citizens will come near doing the right thing for the general good in the long run.

Reports from the office of County Agent Robt. H. Gibson indicate that more damage than was anticipated has been done by wire worms this fall. The worms have made some bare streaks and circles in some otherwise very good stands of wheat. Mr. Gibson thinks the damage has been very considerable in some localities. Experiments now being made, two of them on Floyd county plots, are calculated to solve the wire worm problem if it is solvable. If the experiment proves successful a wheat grower will be able to "treat" his wheat for them the same as he has learned to do for smut. This is a matter still in the future for general use, however, and it would not be proper to assume that the solution has been found for wireworms. These attack the wheat crop in the fall as a worm that works under ground and in the cycle hatches out next spring as a slick black-backed bug resembling a small beetle, perhaps a "Model A bug," hardy and voracious and glad to see early young cotton sprouting out of the ground. Thus, if the solution is found for wire worms the specialist will have killed a worm in the fall and a bug in the spring with one "remedy."

Also a vote on the same day and at the same time with the same election officials on the choice of a member of the state board or commission of education which is being set up under the new school law. This law, or better said, these laws have a long name which has been adopted instead of Gilmer-Aiken. The man elected will represent a district which is to be bounded by the bounds of the 19th Congressional district. Candidates are J. M. Rankin of Crosby county and E. H. Boulter of Lubbock county. Rankin likely will suit some better but Boulter has the inside of wheels, et cetera, et cetera. Somebody, not this board, will be worrying some of these Every district will name a man and all of these when chosen, will put the re-arranged school system into working order, making all the cogs fit all the cogs in the wheels inside of wheels, et cetera, et cetera. Somebody, not this board, will be worrying some of these days about how to get the bills paid for all this spurge, but that isn't what you are going to pass on an election day, November 8.

Charles E. Kellog, chief of the Division of Soil Survey, visited with Mr. and Mrs. Glen A. Lindsey over the week-end.

Miss Ina Sims returned home Monday evening from Taos, New Mexico, where she has spent the past few months.

Button Collecting Is Interesting Hobby of Kentucky woman, aunt of Mmes. Barker, Chesnutt, Lyles

World and many are the hobbies of the people of Kentucky, but none is as fascinating or interesting as the button collection of Mrs. E. J. Newman, of Scottsville, Ken-

MRS. ETTA NEWMAN

...great aunt of Mrs. E. J. Barker, Mrs. E. B. Chesnutt, C. M. Beck of Dunas, Mrs. Newman, who marked her 87th birthday, September 21, 1949, takes delight in explaining the origin of the majority of her large collection and there are few buttons among them that she cannot tell you exactly where they came from and who the donor was.

For about six or seven years, Mrs. Newman has been collecting buttons, securing them from friends and neighbors, relatives and acquaintances throughout the world. She has buttons from England, France, Egypt, and most of the other parts of the globe where soldiers were stationed, during World War I, represented by a button, which she has the boys remembered to her. One of the buttons in this photo is made with arms from almost every branch of the armed forces that you could see. There are also many foreign army insignia in the group. Mrs. Newman prizes every one of the buttons sent her.

Very Size Shape and Color. There are buttons of every size, shape and color among the hundreds in the collection, and almost every mail brings this kindly Christmas lady another group to add to her growing collection. She is content with collecting buttons from all over the world. Aunt Etta also has a stamp collection, and she is an artist, also. She has a brush for her art and enjoys using it. She has beautiful paintings of "Rock of Ages," and other famous paintings. Mrs. Barker, art teacher of Floydada, enjoyed her art studio very much. She has many of the early paintings which hung in her home when she started housekeeping more than 62 years ago.

The Floydada party visited in the home of their great aunt Etta, in Scottsville, Kentucky, and were amazed at the rapidity with which she pointed out items in her collection and told them the date and place she first acquired them. Although she is 87 years old, Aunt Etta makes daily trips to town, does her own shopping, unless the weather prevents. She also does her own house work, for she is in excellent health. She took a vacation alone in September, and she visited in Indiana and some of the northern states.

Twelfth Night is the first Shakespearean play presented by Texas Tech students in at least 20 years. Mrs. Gresham Study Club Program Leader Mrs. McNeill Hostess

"Lifting Our Faces to Our Fellow Man" was the discussion Tuesday evening, November 1, when the 1934 Study Club met with Mrs. M. J. McNeill. Roll call was answered by "What I Recall about the end of World War II." Miss Anne Swepston presided over the business meeting in the absence of the president, Mrs. Jim Cleveland.

A collection was made for the "Penny Art fund" and plans were made for the next club meeting on November 15 when the club will entertain their husbands with a dinner in the Hotel Coffee shop. The meeting will be held at 7:30 in place of the usual time and the members are asked to notify Mrs. Robt. Crowell or Mrs. Ralph Johnston by Friday or Saturday previously if they are unable to come or do not want two tickets.

Mrs. L. P. Gresham was leader for the program and Mrs. Robt. H. Gibson gave an impressive "Eulogy to Floyd County Service Men," recalling the fields of service in which boys from Floyd county served. "Harmony Among Nations" was given by Mrs. Robt. Crowell in which she told of the United Nations and of the Junior U. N. in which children of the members of the U. N. were trained to play and act and give together. She also told of the Pan-American treaty.

Following the program the members were served from the dining room table that was attractively appointed with patriotic colors. Emblems of service were placed toward the front of the table and red, white and blue napkins decorated one end of the table. Mrs. Ralph Johnston poured from the tea service with Mrs. James Willson, Jr. serving sandwiches, and Mrs. E. M. Quebe serving dainty angel squares that were decorated with a United States flag. A flag was used as the centerpiece with streamers of ribbon coming out to emblems of the three branches of service. White tapers were used on either side of the flag.

Present for the evening were Mrs. E. M. Quebe, a guest and the following members: Mrs. John E. Hoffman, Mrs. J. S. Hale, Jr., Mrs. L. P. Gresham, Mrs. I. T. Graves, Mrs. Robt. H. Crippled Winds Lose in Crucial Longhorn Game

Before a crowd of Floydada fans and Lockney homecoming fans, numbering more than 3,000 combined, Floydada came out on the short end of a Friday night of mistakes, 38-13, last week at Lockney. Showing the power that has been a potential all season, the Longhorns had complete control of the ball game from the time of the kick-off to the sound of the ending whistle, showing only a very slight pass defense weakness.

Floydada on the other hand, fumbled, and in general showing for the second time in a row, a very uncoordinated effort.

Scoring started early in the first period, when after the Floydada kick-off, Lockney marched to the Floydada one yard line, where DeJuan Strickland plunged over and missed on point try.

The Winds bogged down on their offensive and kicked. Lockney also found a different story and kicked.

Floydada reserve safety, Hubert Ring, fumbled the Lockney kick over the Floydada goal, where left end Charles Crouch fell on the ball for a Lockney tally. Strickland running the ball over for the point.

The quarter ended, Floydada trailing 13-0.

The second quarter scoring started on the fourth play from scrimmage, when Strickland plunged over from the two and failed on run for point.

Floydada received the ball on their own 20 and in five plays, Capshaw went over the Lockney pay station on a pass play, Finley to Perry who lateraled to Capshaw from 11 yards out. Finley missed from placement, but an off-side penalty against Lockney gave the try over, Finley passing to Perry for the extra point.

On an exchange of the ball after kick-off, Floydada took over on their 19 yard line, threw four incomplete passes where Lockney took over and on the first play, Strickland passed to Crouch, who went over the goal standing. Pass for conversion went wide.

Scoring in the third period came mid-way of the quarter, when Capshaw fumbled a hand off from the Floydada 8 and Ferguson covered for Lockney over the goal for the Lockney T. D. Ferguson plunged for the point.

Fourth period scoring also started early when Ferguson crossed from four yards out and Strickland missed on run for point try.

About mid-way of the period, Robertson shook loose on a spread formation and circled left end for the score from 12 yards out. Finley missed conversion from placement.

Floydada and Lockney both took advantage of this free scoring to give young players experience.

In Friday night's games Floydada dropped to Lockney 13-38, Crosbyton defeated Matador easily, 34-6, and Paducah pulled one out of the fire to come from behind a score of 8-7 and win from the Tulla Hornets, 13-8.

Promise of Fall
 People say, "Yes, fall is lovely. After all it is such a sad time. The leaves drop; most of the birds fly south and along comes winter. It is gloomy—Fall." That is a short view, and incomplete. It is like looking at a town and seeing nothing there but a small soft, eggshaped object. We have to look beyond the present. Ahead! The future will bring life and undreamed of beauty in the cocoon sheds its dull wrapper and blossoms forth as a butterfly. So it is with fall. Maybe we go away, it is true, but what is more important, they come back!

All sorts of miracles make ready to astonish the world in the spring. Buds live in drab overcoats in winter but spring finds them dressed in the gayest of finery.
 Fall is overflowing with the certainty of new life and beauty.

Junior Jamboree Last Monday Night

The Junior class gave the "Junior Jamboree" last Monday night, October 24. Various members enjoyed were the style show, composed of boys modeling girls' clothes; the baby show and various musical numbers including the Poster twins Anita Tooley, and Johnnie Owens; Elaine Snodgrass and Billie Newberry tapped. Edith Garrett twirled and Carolyn Kiker gave two selections on the maramba; Wanda Reed did acrobatics.

After the show an auction sale was held. A cake was sold in a Chinese auction.

FOOD FOR THOUGHT

Interested in making friends and influencing people? Here's a word from Arnold Bennett: "You will make more friends in a week by getting yourself genuinely interested in other people than you can in a year by trying to get others interested in you!"

MY FIRST DATE

I shall never forget him, Though I grow old and white, I shall remember everything We say and do tonight. Though he be dull and drippy My rapture won't abate, To me he's "Vannier" than Van Because he's my first date!

Do not talk all the time. Are not silly, but not too serious. Never giggle. Do not talk about past dates or other boys.

Are always neat in hair, teeth, clothes, etc. Are not nosy. Do not insist on taking all their girl friends on a date. Are always frank. Never make up excuses when turning a boy down. Do not run after boys. Will quit buying levis so that boys can find some. Wear their hair down. Never lie. Do not think they're too good for boys here.

Are not hard on a boy's pocket-book. Do not slap boys. Do not stand anyone up. Remain with the boy on a date instead of running off with other girls. Do not continually ask the time on a date. Go where the boy wants to go. Do not wear jeans on a date. Are sweet, not smart, and have a sense of humor, and paint, cause they make a woman look what she ain't.

When asked about her most embarrassing moment, she just laughed sheepishly and said, "It wouldn't do to tell."

Candid Camera

A black haired, changeable, blue-eyed gal, 5 ft. 4 1/2 inches tall, weighing 114 lbs. steps into the spotlight of the candid camera this week. She is none other than one of the P. H. S. cheerleaders of '49, Mary Alice Plumlee, who on the 12th of April in the prosperous little town of Graymule, Texas, in the year of 1933 was born into this happy-go-lucky world. Mary is a sweet sixteen-year-old and with her gleaming personality she produces a very nice picture for our camera.

To begin a perfect day for Mary, she would get out of bed about 10 o'clock, eat breakfast of eggs, bacon, toast, grapefruit, and milk. After breakfast she would go to town in her new Studebaker and buy about \$300 dollars worth of all kinds of pretty clothes. She would come home for lunch consisting of steak, gravy, potatoes, lemon pie and milk. She would spend all afternoon trying on the new clothes she bought. About 6:00 she would eat supper of red beans, cornbread, and onions. Around 7:30 her ideal would pick her up and they would go to Lubbock night clubbing. About 12:00 she'd journey to a slumber party up at Sheryn's, stay up all night, and get into meanness. The next day she would just S-l-e-e-p.

Mary's likes are the color green, red beans, bookkeeping, cornbread, Miss Cline, pep leading, football, Peggy Collier, skating, the Navy, Pretty clothes, shoes and Studebakers.

Cooked carrots, orange, Nashes, snooty people, and Lockney are her dislikes with a Capitol D.

She dreams of a sweet guy, 5 ft. 10 1/2 inches tall with dark curly hair, charming green eyes, a physique like Bobby Finney's, that dresses nice and is loads of fun to be with.

Mary swoons when she hears that lovely song titled, "Sweethearts." She says her favorite movie was "Knock On Any Door," and she loves John Devok and Elizabeth Taylor.

Mary's greatest of great ambitions is to pass her English IV this year. Her great weakness is pretty clothes.

During her leisure time she'd just eat, sleep, and take it easy. Bookkeeping is her favorite subject and her worse habit is calling people names.

When asked about her most embarrassing moment, she just laughed sheepishly and said, "It wouldn't do to tell."

Mary adores any kind of sports, but her favorites are football, basketball, volleyball, and baseball.
 Mary says she has never been so thrilled as she was last year at the football banquet when Jennie announced her pep leader.

Our candid camera was elected as Jr. class favorite last year, and she is certainly a "favorite" with everyone. May all the cherished dreams of a sweet and lovable gal come true. Here's the best o' luck to you always, Mary; ole P. H. S. will miss you when you're gone.

THUMB NAIL SKETCHES
 Loy Lee Trice: "40"-brown eyes, brown hair, tall, friendly, swoonful personality.
 Wayne Robertson: "30" - black hair, luscious brown eyes, football hero, goodlooking, good personality.
 Bill Smith: "41" - curly hair, gray eyes, lovely smile, fast, loved by all girls.

DE QUACKER

Well, after the trip to Wichita Falls, every thing is all right again and raring to get into this gossip, so here goes.

What happened to Mary Young and Don? They were not together Thursday night.

Mary Maxey certainly enjoys her dates with Don Pope. What about Dub, Ruth? ? ?

What's this I hear about Bobby Smith wanting to go with Anita Tooley? Gosh . . . What will that certain someone say? ? ?

What's this I hear about Joy going with David Willson? ? Thursday, Friday and Sunday nights. What about this, Bill? But by the way, what about Bill and Sherwyn Saturday night?

Hershal and Leone must really be in love. They're always together. Wonder what would happen if someone stepped in? ? ?

Dub Hodge and Clara really get along good together. Nice Romance. Maybe he is not waiting on Ruth?

Well, I guess Billy S. has gotten over Veva or visa versa. She was with Warren May Friday night at Matador. What about this, Billy? ?

Well, well, guess what, Ducklings? It's Opal Self and Lyndal Spears drumming up a romance in third period study hall, what about this Junior? ? ?

Deoris Blair, you're losing out on LeRoy Parrish, Jane Johnson seems to be taking over. But just until she finds someone better. Some girls are that way you know.

Eva Waller and Billy Mac Shipley would make a cute couple. Most everyone knows she would give a nothing to date him.

What's this I hear about Evans wanting to go with Gayle so much. Better watch him Chuck? ? ?

What's this about Carol Fulton and Myrna Wilson. Cute couple.

Keep the good work up, kids. Who was June Ware with the other night? Could it have been Carrol Fulton? ? What about David Willson, June? ? ?

I hear that Billy Carmack wants to go with June Ware. Is this true Billy, if so tell us more? ? ?

Frank Wiley and Wilma Jean Judy, Frank, I thought you were wanting to go with Gleva R.

What's this I hear about Earl wanting to go with Ray Nell Irby? Earl better lay off, I think Bearden has got her? ? Not sure, though.

Band Performs at Game, Goes To Wichita Falls

Friday night during the half of the Floydada-Lockney game the Whirlwind band performed. They entered the field, did a right flank, marched to the thirty-five yard line, then came to a halt. They formed a huge wagon and played "Home on the Range," while the wheels turned and the twirlers did a routine. After this they went into their regular positions, did a counter march, marched to face the west grandstand, and played "Indiana State Band" while in the formation of an "L." They came out of this letter, did a counter march, and marched to the west grandstand. Here they formed a "T" and played "Steel Kings." While the band was in these formations, the twirlers went through various routines. After coming out of the letter "T" they went into their regular positions and did a counter march, a right turn, and marched off the field playing "The Thunderer."

Spend Day at Wichita
Saturday morning the band members were early risers. They left for Wichita Falls at four o'clock. Wichita Falls was the scene of the Hardin college homecoming. A brief stop was made in Crowell for the band to eat breakfast. They arrived in Wichita at nine-thirty. There was a colorful parade of fifty-nine bands and many beautiful floats at Wichita Falls. Immediately following the parade the band went to Hardin college where a nice meal of barbecue, beans, potatoe salad, pickles, bread and cold pops were served.

See Exciting Game
After the barbecue and a tour of the campus, the bands were taken to the Coyote stadium where an exciting game between Hardin and Houston university was played. The Hardin band made a performance at the half which was very spectacular. The Homecoming queen for 1949 was crowned.

Following the game the band went to the Kemp hotel where reservations had been made. Here the band was split up some, but from all reports everyone had a very good time. Sunday morning the band met in the lobby, then went to the busses where they started home.

At Paducah a stop was made for gas and quick eats. At seven o'clock the band arrived in Floydada, singing as usual. The entire band enjoyed the trip very much and are looking forward to another even though they do lose a little sleep.

to be a habit, isn't it, Dean? Say that might be a pretty good habit?
Someone told me that Peggy Joe Hand wanted a date with Fred M. How about giving her a chance?
Tots, who did you go with while in Wichita Falls? It seemed that you were having a pretty good time.
J. A. Terrell has really been making good time with Mary Parrish. Does this mean that you two still haven't forgotten each other. Kids you've been seen talking in the hall quite a bit. And riding around together. Mary, be careful, Shirley is high tempered.
Who is this Dariynn Warren wants to go with so bad? He couldn't live at Fairview, could he?

It seems as if Ann Welborn and Ronald Traff sure do have a good time in fourth period English class. What could this be?
It looks like all the South Plains boys are after Peggy J. Now. She was with Charles H. at the football game Friday night. Some tell me that it is a three way tie between Dean S. Buddy S. and Charles H. How about this Peggy? ? ? Dean what will Billie Hand say?
All come back next week with more gossip for my little column.

PMA COTTONSEED PURCHASE PROGRAM ANNOUNCED

The following is a general summary of how the cottonseed purchase program works:

1. Farmers will deliver their cottonseed, if they wish to sell it under the purchase program, to any local ginner who is cooperating in the program.
2. The base price upon which payments to farmers will be determined will be \$49.50 per ton (90 percent of August 1 parity, and the same as the rate under the cottonseed loan program.) From this base price, \$3 per ton will be deducted to offset storage service and other costs which the farmer must assume under the standard storage loan program and which will not be borne by farmers who sell their cottonseed under the purchase program. Thus, the net price to be paid farmers for cottonseed will be \$46.50 per ton.

Gins cooperating in the program (as of Tuesday p. m.) are:

- Farmers Co-op Gin, Floydada, Texas
- Davis Gin, Floydada, Texas
- South Plains Gin Co., South Plains, Texas
- Lone Star Gin Co., Rt. 1, Lockney, Texas

At those gins not cooperating with the program, the PMA committee is placing trucks which will receive your seed and haul them to the concentrating points. You will receive the \$46.50 directly from the PMA Office on presentation of your gin ticket. But, the farmer must tell the gin that the seed are to be sold to PMA. (As of Tuesday p. m., trucks have been placed at the gins in Lockney.)

Mr. Farmer, if you are to receive the \$46.50 price support, you must tell the non-cooperating gin that you wish to sell to PMA or you must haul your cotton to a cooperating gin.

A to Collect Large Sum From Insurance

More than a half million veterans who owe the government as the result of overpayments of allowances or other benefits, or defaults on loans guaranteed by the Veterans Administration, may find all or part of their share of the forthcoming national dividend payment on National Service Life Insurance deductible to cover debts. VA has announced that D. G. Ayres, county service officer, this week.

VA estimates that somewhere between 20 and 30 million dollars of such debts may be collected from NSLI dividends.

All of the individuals concerned are aware of their indebtedness to the Government, and know that is

deductible from other VA payments to which they may be entitled," the Agency said.

Some 600,000 Veterans are currently indebted to VA for a total of about 70 million dollars. The bulk of this amount constitutes overpayments on subsistence allowances for Veterans taking educational courses or training under the GI Bill. Other types of indebtedness are overpayments on Pension, Compensation, Readjustment Allowances, and losses made good to lenders on defaulted GI Loans.

A considerable number of Veterans are now repaying their indebtedness by having deductions from their monthly checks. When the overpayment is wiped out, as it may be by the dividend deductions, there will be no further withholding.

South Plains News

(Too late for last week)

SOUTH PLAINS, Monday—Our community was made sad Sunday when we learned of the passing of one of our neighbors and businessmen. Art Willis passed away about 11:30 at the Peoples Hospital. He had been ill for about a week, but did not think that it was serious. He just passed away so quickly. It was a great shock to all of us. We will miss him in our midst so much. We deeply sympathize with Mrs. Willis, Rex and Jerry, and all of the rest of his family.

School was dismissed Tuesday for the funeral.

Mr. and Mrs. Geo. West were in Dallas for the Fair, Thursday and Friday and Saturday of week before last. They visited with friends in Grand Prairie Sunday and Monday.

There were about twenty of the club members who attended the party given by the Dougherty Home Demonstration club, at the lovely home of Mrs. O. G. Glassmoyer. We certainly enjoyed the book review Mrs. Charlie Smith gave us on the "Big Fisherman".

The Power that made Buick Famous

If you want to know what's "the newest thing" in automobile engines, look at the Buick engine pictured here, and you'll see the words "valve-in-head."

But it happens that this isn't new with Buick. As a matter of fact, the valve-in-head engine was invented back in 1902—U.S. Patent No. 771095—and immediately, Buick adopted the principle, which became the first in a long string of "Buick firsts."

Not everyone went for the idea—then. In spite of the fact that this engine "breathes" more freely—gets fuel in and exhaust gases out more easily—others hung onto their pet ideas.

Then came the airplane, with its

need for maximum power from every drop of fuel—and every maker of internal combustion airplane engines adopted the valve-in-head principle.

And more recently—with the hope that higher-octane fuels will become available—a lot of automotive engine designers are taking a new look at the valve-in-head idea.

But just for the record, we'd like to point out that Buick got there first.

And ever since, Buick has gone steadily ahead, building up a name as "valve-in-headquarters." Buick engineers reshaped pistons to put Fireball wallop in these engines. They stepped up compression

ratios as fast as better fuels came along.

So perhaps you'll want to remember, when you hear the term "valve-in-head," that this is the type of power that made Buick famous.

If others want to climb on the bandwagon, we say "more power to them"—and no pun is intended.

But Buick has been doing more with valve-in-head right from the start.

And—we might add—it stands to reason that Buick is not through making this type of engine better and better.

Quanah Seeks Discontinuance of Mail Train

Discontinuance of their passenger, mail and express train west from Quanah to Floydada is being petitioned for by the Quanah, Acme & Pacific Railway company in a hearing today before an examiner of the Texas Railroad Commission. Notice to communities interested that the request to the railway commission would be made for the discontinuance of the train was given some 30 days ago by Quin Baker, vice-president and general manager of the line, who said that losses from operation of the train had been approximately 2,800 per month for the past year and that no prospect of a change in this situation was foreseeable.

So far as has been made public locally there is due to be no protest from any of the communities affected. The train due to be discontinued, if the railroad commission gives its approval, is the morning passenger that is scheduled to arrive in Floydada at 9 o'clock and make the return trip to Quanah beginning at 10:15.

Tentative plans for the Post office department for mail service into Floydada as revealed to Floydada Chamber of Commerce officials indicate that the cities and towns on the Q & P which are expecting to lose railway mail service soon will not be penalized by the change, so far as mail is concerned.

Proposal of the department two years ago, which had the backing of Mrs. Barbara H. Smith, postmaster here, and other postmasters along the route, is the most likely one to be adopted, in the opinion of Robt. H. Crowell and J. M. Wilson, who recently had a brief conference with officials of the department at Fort Worth. This proposal, if made effective, will give seven-day service by motor truck from Vernon for all types of mail. Crowell is manager of the Chamber of Commerce and Wilson a director.

"The Chamber of Commerce had indicated to the railway company that no protest to discontinuance of mail and passenger train would be made in all probability," said Crowell, "in view of the fact that good service probably would be continued by using the truck service. It was to see how the probabilities lay in the Fort Worth office that we made our check-up. In view of the fact that the railway company has been cooperating with the community and needs to discontinue a service that represented a heavy monthly loss to them, particularly all local business people we have contacted consider it fair to acquiesce in their plans."

"However," Crowell continued, "we thought it wise to see beforehand if we would want to make protest instead of waiting until afterwards and be in the awkward position of howling about something we had previously given an okay."

Luther Cooper

(Continued from first page)

a carrier was received during the administration of Homer Howard as postmaster at Lockney and of William Howard Taft as president of the United States. His appointment is dated August 2, 1906. He took the civil service examination on June 22 of that year and was high man of six applicants. Postmasters whom Cooper served included Homer Howard, Mrs. Dell Fowler, C. J. McColium, and H. B. Machen.

Cooper began work at an annual salary of \$540 carrying the mail tri-weekly, inaugurating the first rural carrier service in an area of sixty or more counties in the plains country. Six months later he was making six rounds of his route weekly. First he used a horse and buggy for three years, thence graduated into the motorcycle (with side car) for four years then bought his first model T. Mr. Cooper used up as many as 20 automobiles in his forty years, possibly more. In the 40 years he has driven just a bit over a half a million miles to serve his patrons.

Not A Mile Graded

When Cooper began work as a carrier there was not a mile of graded road on his route while at this time all the roads on his route are graded and well maintained, and in the past year 10 miles of his

route has been paved.

Here are some briefs on what the retiring carrier recalls or is thinking:

The people I have served have been very nice and cooperative throughout the years, always ready to help me through the bad places;

Mail carrying has been made much easier in bad weather by the introduction of the Jeep;

There are 27 people still on the Route One now that were on the route when I first began work as a carrier;

The retirement law went into effect in 1928 and I have been contributing since that time. In retiring I will begin to get some of this money back;

I could continue as an active carrier for a number of years but decided to get out now while I still have good health;

I think the winters now are milder than they were 40 years ago;

I have missed comparatively few days on account of bad weather, muddy roads and sickness;

Once upon a time I could find time on the rounds to stop and make an occasional horse swap, one or two that didn't turn out too good.

Their Plans For the Future
Although Mr. Cooper is retiring from civil service and he and Mrs. Cooper are going to learn to go places and fish and things of the kind, they are not retiring from other business connections. The Coopers have been frugal, saved money and put some of it into Floyd county farms, which Mr. Cooper will give his attention. He will continue to farm a 140-acre home place just to keep his hand

in. They will, of course, continue to make Lockney their home. They will spend some of the winter months away from home, "try to learn to fish, especially try to learn how to tell a good fish story."

The Coopers were married on July 24, 1910. Before her marriage Mrs. Cooper was Mary Martin, of Erick. The couple have one living child, Agnes, who is a child welfare supervisor at Odessa.

Call Road Meeting for Monday Night

Everybody is mighty busy the past several days and membership in the Rural Roads association has not grown materially in Floyd county in that period.

Effort to whip up continued enthusiasm will be made, however, rural roads backer G. N. Shirey said yesterday.

"We've got to have the membership. They will, of course, continue to make Lockney their home. They will spend some of the winter months away from home, "try to learn to fish, especially try to learn how to tell a good fish story."

Rural 'Phone Bill Approved

Five years after it was first proposed, a rural telephone bill, passed in the last hours of the first session of the 80th Congress, was signed by President Truman on October 28.

Authored by Sen. Lister Hill (Ala.) and Rep. W. R. Poage (Tex.) the bill permits the Rural Electrification Administration to make loans, similar to those being made for rural electric lines, for the construction of rural telephone facilities.

Congress has authorized \$25,000,000 for loans during the present fiscal year, which ends June 30. Written into the law is a provision that during the first year no loans to new companies can be considered until all applications from existing companies already serving in the same area receive final action.

Judging by testimony from small independent companies and mu-

ture, when Congress was gathering testimony on the rural telephone situation, the need of small existing companies for loans is so great that there seems slight chance that any new companies will be able to secure loans during the coming months, unless the existing companies are slow in making application.

Although the loans are being made by the Rural Electrification Administration and rural electric cooperatives vigorously supported the bill, since telephone service makes the maintenance of electric service easier, at this time it does not seem likely that the rural electric systems themselves will build rural lines.

It is possible, however, that in some sparsely populated rural areas where economy is of utmost importance that some organizational arrangement whereby use of the same poles for electric and telephone service can be made. Such joint-use arrangements have been made in the past between rural electric systems and telephone companies. American Telephone and Telegraph, along with a few of the larger independent companies, bitterly fought the Hill-Poage bill in Con-

gress on the grounds that it would mean subsidized competition to them. Proponents of the bill pointed out that it permits loans only in areas where adequate telephone service does not exist or is not planned for the near future and that the loans are to be repaid with interest.

Congressmen supporting the bill also pointed out that some such assistance in furthering rural telephone improvement and expansion is a necessity, since rural service has not been developed in many areas during the past few decades.

Lakeview News

LAKEVIEW, November 1—The young people's training union group were honored with a very interesting Halloween social in the home of their director, Mrs. Wayne Battey, Saturday night. Mrs. Battey decorated her parlor elaborately, as her entertainment was another means of entertainment were enjoyed. The young people reported that it was one of the nicest parties of the year.

This community was "painted red" Monday night by Halloween prankers. Such crimes as piles of hay on the highway, tying down the gin whistle, "swiping" cars and trailers giving various vehicles a soap bath mysterious door callers etc.

The group visited several homes, demanding "treats or consequences." The result was that the group did not go hungry. In case someone wishes to push the case, I'm giving you the low down: Anita Tooley, Johnnie Owens, Mary Sue Dunford, Betty Sue Thornton, Ann Jones, Mary Lou Polasek, Genelle Gordon Hambright, Billy Joe Hambright, Wayland Jones, Melvin Dunavant.

MRS. DOYLE'S FATHER SICK IN MISSISSIPPI

Mr. and Mrs. W. F. Daniel went to Corona, New Mexico, last week to receive some cattle. Enroute to Corona, the Daniels stopped in Portales, New Mexico, to see the L. A. Doyle's, former residents of Floydada, and Miss Rena Taylor, former secretary to the Floydada Baptist church.

Mr. and Mrs. Daniel did get to see Miss Taylor, but the Doyle's had been called to Mississippi because of the illness of Mrs. Doyle's father.

Lewis Perfects Device to Test Well Efficiency

A new water well testing device, which gauges not only the flow of a well, but through a series of computations will reveal the percentage of efficiency at which a well is operating, has been perfected by Earl Lewis, of the utilization department of Southwestern Public Service's Plainview office.

The device, which actually is a simple arrangement, was put to test at several wells in the Plainview-Floydada-Muleshoe irrigation belts during August. Company officials announced that a testing service is now available to irrigation farmers, without charge.

The measuring device consists in

the main of a seamless aluminum tube, 8 inches in outside diameter equipped with a 6 inch circular outlet. In installing it for test, one end of the tube is slipped into the end of the discharge pipe on the pump and the joint made water tight with packing and clamps. The tube, a little less than eight feet in length, is equipped about two-thirds of the way toward the outlet end with a small pipe, about one-half inch in size and a few inches long. A few feet of rubber hose (flexible) is attached to the small pipe and the hose is secured to a brace pipe so it will be elevated, something like three feet above the outlet tube.

Height of water in the small side tube is used for computation of quantity of water from the well. Actually it is a velocity test, Lewis will explain, and rise of the water in the tube is sometimes influenced by turbulence or lack of turbulence of the stream coming from the pump. However, the test will average within two per cent of actual flow. Meantime, tests are made on water levels in the well, and total efficiency of the well is based on a series of computations not so complicated, but hard to explain in words, that are made from per minute outflow of the well, and static (pre-pumping) water level and amount of drawdown of the water level. Also included in the calculation is the amount of effort contributed by Reddy Kilowatt, the well known electric power gnome.

Mr. and Mrs. W. B. Jones, accompanied by R. T. Jones, visited Friday in Big Spring with Mr. Jones' mother, Mrs. R. T. Jones and his sister and husband, Mr. and Mrs. O. Z. Smith.

Center News

CENTER, November 1—This is a beautiful day. But Jack Frost came Saturday night and now tomato vines and some other things look black and dead.

Don Clark Green, Wellington, and Melvin Robertson of W. T. S. C., visited homefolks over the weekend and attended Sunday school here.

Frances Ashton spent Saturday night in town as the guest of Virginia Presley.

The C. L. Ashtons were Sunday dinner guests of Mr. Ashton's parents, Mr. and Mrs. R. H. Ashton of the Campbell community.

Mrs. K. J. Matthews, who has been visiting in the J. E. Green home and at Mt. Blanco, left Sunday morning for her home in Phillips.

Rev. Hodges called in some homes of Center people Sunday afternoon. He reports that Jerry, who has been ill with pneumonia, is able to be up again.

Center was well represented at the bridal shower given for Mrs. Thurman Walls, nee Glenna Faye Robertson, in the home of Mrs. W. B. Jordan in Floydada on Thursday, October 27.

Mr. and Mrs. D. I. Bolding, city, visited Mr. and Mrs. J. E. Green Monday evening.

We sympathize deeply with the Lynn Fawver family over the loss of their wife and mother. Some of us have known Mrs. Fawver for a long time, and we shall miss her bright smile and pleasant voice. We enjoyed having her in our home demonstration club and other constructive activities. She was a member of a town congregation.

Busy Week for Club Women
Our club women have been busy the past week. They met in the home of Mrs. Burton Wednesday to work on their trays. Then they were entertained by the Sand Hill Home Demonstration club Wednesday, where all would have enjoyed going had it been possible. They all took part in the shower Tuesday, and then had a meeting with Mrs. O. C. Vinson Friday, where Miss Smith, a district Home demonstration worker was a visitor. The next meeting will be announced at a later date.

Bruce and Phil Horton visited their grandparents, Mr. and Mrs. Walter Sims, the first of the week. Sunday will be church day. Come and bring the whole family.

I would like to thank the nurses and Dr. Guthrie and my friends and neighbors for the nice things they did for me and my family while I was in the hospital.

Mrs. Dickie Atteberry
Huntville is called the "Mount Vernon of Texas" because it was the last home of General Sam Houston.

As A Farm Woman Thinks

Nellie Witt Spikes

This Sunday afternoon is cold and cloudy. At times drops of rain spatter. The fire is warm and the music comes clear and sweet over the radio. I think of a few things outside I have not done. Green tomatoes for ripening later, perhaps enough peas for one meal. I ran out while ago and got a bucket of ripe tomatoes and the green peppers, but the others will have to wait for a better day for gathering if frost leaves them alive.

We got busy yesterday and wrapped the pipes at the windmill. First I smeared thick grease over the pipe, then a wrapping of old sacks. News papers made a thick cover tied down with baling wire. Then I snugged sacks with wire tight as I could draw them. Glad I did that when it was warm and sunny.

When we passed the cemetery this side of Cone we noticed how neat it looked with work started and George Noble told us that money was needed to make this clean place for the ones who rest there and if anyone wanted to help in this most needed work if money was sent to him, post office Falls, Texas, he would turn it over to the Cone Cemetery association. We know many who live here and those who have left their loved ones in this little cemetery will be happy cleaning is done, it will not be so hard to keep the place looking well. So send some money that the grass the pioneers loved, that trees will know the nests of the mockingbirds that will swing and sing, that no one will be ashamed for the neglected look we all have allowed in our busy hurrying world.

The Ralls Rotary club entertained the pioneers at their weekly Friday dinner. Judge Wicks pointed out in his delightful remembrances that to one person a pioneer meant other than it did to another. For instance his father-in-law looks back to fire-places for cooking and wicks in lard for lights, as he was born one hundred and two years ago, and to his father. But when you say "pioneers" we mean the people who lived in dugouts, who burnt the cowchips, and hung their long handles on the barb wire fences. Thank you, Ralls Rotary for your interest and giving attention to us who remember other days, other ways. And special thanks to you, Walter Gilson, for asking us to be your guest.

Clairborne Pearson recalls meeting a friend and asking him what had hurt his hand. "Oh, I was butting in to my wife's business of putting up the stove and hurt myself."

LeToile Murphy came to the plains with her family in the eighties when as far as she could see the green native grasses waved in the wind, grazed by cattle from here to Amarillo. She enjoyed the cloud images on the blue lakes, the call of the kildoes and the whirring of prairie chickens. How she loved the picnics and the unpacking of her big loaded basket on the long spread cloths under the whisping cottonwood trees. She gave her time to the church work, was always a leader in the Literary society. Saw that Thanksgiving and Christmas times had a prominent place in the town's yearly calendar. Beautiful material was always on her bed, as she made dress-up clothes for women and girls. She always had time for the company that loved to go there. I liked to see her walk in the old schoolhouse at Emma, flushed from her long walk but lovely as a queen. LeToile, a lovely name of French origin, but a name she did not like. L. E. was what her husband called her and at last it was Aunt Ella to the ones who loved her gracious and beautiful life. Ready to go on a trip to California, but ready to answer her Saviour's loving call. Joyous and happy to the last and in the words of the poet:
Life is a mystery as deep as ever death can be;
Yet oh, how sweet it is to us, this life we live and see!
