## MUNICIPAL CONCERT MEMBERS CAMPAIGN TO BEGIN MONDAY

The Municipal Concert associations has announced the dates for its annual membership campaign. The membership drive will begin Monday, July 31, and continue through Saturday evening, August 5. Headquarters for the campaign have been established at the American Legion hall.

in metropolitan centers. Preparations for our first annual concert season mark the forward progress of our town's social, entertainment, and cultural life. I am confident that the auditorium will be filled to capacity when the season opens for the first appearance of the brilliant artists who will perform here.

Season memberships may be secured by contacting the association's campaign headquarters located in the American Legion hall the week of July 31, to August 5.

## Scouts Gather Souvenirs For Jamboree Trip

Eighty three Scouts and nine leaders from the South Plains left at 7 o'clock Friday evening, for the National Jamboree of Boy Scouts of America in Valley Forge, Pa.

The boys, who finished a two day "shake down" camp at Reese Air force base gathered various material they would take. A collection of turtles, horned lizards, rabbits, bits, cacti, cattle horns and other samples of wild life and plants were taken by the boys to trade for souvenirs from other parts of the country. A fox is being taken by the Brownfield scouts. It is the mascot of the fox patrol of nine boys from South Plains, towns in troop 34, one of the Jamboree troops.

Seven in Floydada Delegation. Boys leaving for Valley Forge from Floydada included Billy Walker, Jack Henry, Glad Lynn Norman, Don Grigsby, Larry Glassmoyer and David Willson. The boys will arrive in Valley Forge June 27 and remain there till July 7. They will spend one day in Washington, and on return trip home, they will tour New York, and go to Niagara Falls.

During the Jamboree, they will go to Philadelphia and visit historic spots.

Mr. and Mrs. Ott Glassmoyer, Mr. and Mrs. E. A. Grigsby, Mr. and Mrs. Lewis Norman, Mr. and Mrs. Ed Johnson, Mr. and Mrs. Glad Snodgrass, Mr. and Mrs. Jack Henry, Mr. E. A. Hopkins, Mr. and Mrs. Grady Walker, and Mrs. Walker's mother, Mrs. W. A. Walker of Mission, were at the station in Lubbock to see the Scouts off. Mr. and Mrs. John Herd of Post were also there and Mrs. Herd made pictures of the group. Mrs. Herd is an aunt of Jack Henry.

## July Transfer Month

July is transfer month for pupils of the Floyd county schools, students and guardians and parents of students, are reminded this week by County Superintendent Clarence Guffee.

Those desiring their pupils to be transferred from one district to another should make application for the change during the month, Mr. Guffee said.

## BROTHER OF MRS. W. E. NEIL PASSES AT LOS ANGELES

Mrs. W. E. Neil of Floydada and her brother, R. M. Renfro, of Greenville, Texas are due to return to their Texas homes next Sunday from Los Angeles, California, where they went to attend the funeral rites for a brother, E. M. Renfro, 50, who dropped dead Saturday morning at his home there.

The funeral was held Tuesday morning and interment was made at Los Angeles.

Survivors include the widow and two daughters, a brother Guy W. Renfro and his mother, Mrs. Lizzie Renfro, all residents of California.

## Buying Cedar Hill

Land for oil in Floyd county continues sporadically as all companies and individuals become interested in the possibilities of development, one transaction being recorded for adjacent to Floydada last week. Three of the quite few not now under contract were the lease price was said to be per acre with a dollar rental.

The most activity has been in Cedar Hill where buying of land got under way two months ago. The price of the royalty on a tract of approximately eight sections of land has been sold at \$100 per acre with \$25 per acre being most of the royalty has been a 15 or 20 year, non-participating basis, and prices most commonly paid were \$40 to \$50 per acre. Dealers offices have been the places in Floydada for weeks as owners asked for abstracts and check-up on titles.

Report that a drilling contract had been let for another try in the area was not confirmed at local sources of such information. The Hesperian this week.

# Primary Election Ballot for July 22 Now Arranged

They Liked The Idea.—Youngsters of the area went in for the free movie shows in a big way the first Monday in June, as is indicated by this view through a staff camera of The Hesperian. In the foreground is Manager Jack Daskins of Palace theatre watching the juniors as they filed through the doors. The free shows are held morning and evening for the benefit of the parents of the children, the idea being that they can "park" the children for a pleasurable hour or two while the grownups get their First Monday shopping done. The shows are provided by local business interests. More than 600 saw the shows on June 5. The free show will be held again next Monday and on the first Mondays in August and September. Tickets are obtainable at most any business establishment in the community.

The Floyd county ballot this year in the July 22 Democratic primary will not be an unusually long one, and as a matter of fact the county and precinct lists of candidates appears to be somewhat abbreviated from many previous years.

The ballot will be different this year from former primary ballots because of the new secret ballot law. Every ballot will be numbered in duplicate, one number being in a perforated two-inch square in the right top corner. This latter number is to be torn from the ballot at the perforation, signed on the back and the same deposited in a specially sealed box or can. These special boxes are sealed with the seal of the district clerk and are to be returned to her custody without the seal being broken.

The list of candidates as their names will appear on the ballot is as follows:  
FOR GOVERNOR: Wellington, Abbey, Jr., of Harris County; Charles B. Hutchinson of Dallas County.  
Case March of McLennan County; J. M. Wren of Harris County; Allan Shivers of Jefferson County; Gene S. Porter of Harris County (Mrs.) Benita Louise Marek Lawrence of Washington County.  
FOR LIEUTENANT GOVERNOR: Cyclone Davis, Jr., of Dallas County; Fred Red Harris of Dallas County; Preston E. Smith of Lubbock County; G. C. Morris of Hunt County; H. B. McAshan of Kerr County; Ben Ramsey of San Augustine County.

## George Mahon Announces For Re-Election

George Mahon  
Announcement of his candidacy for reelection to the House of Representatives from the 19th District of Texas is being made formally through the press of the District by Congressman George Mahon. Mahon has met filing requirements in all the counties of the District. "It now appears" said Mahon "that Congress will be in session up to and beyond July 22, the date of the Primary, and I will have very little opportunity to visit and campaign over the District. I thus am taking this method of again presenting my candidacy to the voters of the 19th District." By virtue of his congressional tenure at the will of the voters, only 47 of the 435 members of the House are now senior to Mahon. By reason of congressional seniority procedure, this gives the 19th District a position of prestige possessed by relatively few areas in the country. Mahon ranks No. 3 on the powerful Appropriation Committee and is Chairman of the subcommittee handling appropriations for the Armed Services. "As your representative in Washington, I have been confronted with many difficult problems, as has been the case with you folks at home. You have cooperated with (See George Mahon, back page)

## County Board Meets Monday

Called meeting of the Floyd County School board is set for Monday afternoon, July 3, at 2 o'clock. It was announced this week by County Superintendent Clarence Guffee.

Board Chairman R. W. Smith, of Sterley, called the meeting to be held at the office of the county superintendent. Study of the consolidation of Liberty district with Floydada Independent School district made last year will be among other matters brought before the board, the chairman said.

## Progress on Court House Slow Down by Labor Shortage

Progress of re-construction on Floyd county's new \$300,000 court house, rising from the ashes of last year's highly expensive fire, was slowed in early stages due to inability to get materials, steel in particular.

Nowadays, however, since the steel work has been nearly completed, it is lack of brick layers which is slowing down the job, said A. T. Nesbit, construction superintendent for Dolph Construction company, Dallas concern which has the contract.

Promise of more brick workers is foreseen, however, said Nesbit, shortly after the Fourth of July.

## BARBER HOME FOLLOWING MAJOR OPERATION LAST WEEK

H. G. Barber underwent a major operation Wednesday last week, at the West Texas hospital in Lubbock. Mr. Barber was able to be brought home Tuesday, and is doing nicely but plans a six weeks rest, before resuming his duties.

## Shopping Made Easy Dollar Day In Floydada, Is Trade Report

Shopping in Floydada on First Monday—hits July 3 this time—will be made easy with quite numerous shops joining in the movement to make the day a good one for business people, while it is

## Thousand Boys Swarm Baptist Camp Grounds

At the Baptist encampment of junior boys of District Nine of the Baptist churches there were one thousand and ten boys for the Monday night meeting and at the Tuesday night meeting there were even more.

The ladies of the First Baptist church have been going down in the mornings at 6 o'clock and helping serve and cook the breakfast for the boys and the men of the church have been going down to the camp in the evenings to help serve supper to the boys.

The junior camp was over Wednesday noon and the intermediate boys moved in Wednesday afternoon to stay till Friday.

July 3 to 5 there will be a general camp which will be for the entire family and a big crowd is expected as it will be over the 4th holiday.

Mrs. W. B. Jordan who is church clerk at the First Baptist church here visited the camp along with others Tuesday night and reported the grounds still swarming with boys and at the services there were 49 conversions.

The camp is at the Plains Baptist Assembly camp grounds in Blanco canyon.

calculated to delight the crowds who are expected to throng the streets for the event.

To make it more easy for the people who will be on the serious hunt for values, the Palace theatre is being thrown open again for a free picture show, where the children of the shoppers will be admitted freely with passes that may be obtained at most any business establishment in Floydada. All the young fellow or his sister has to do is get one of these free tickets and in he goes—provided his age is not above 14 years.

Value of the dollar has been shrinking in the past few months, but merchants are making a valiant effort to help patrons and clients stretch their greenbacks a wee bit further. Today their efforts seem to have met with success and the approval of the public. The Jung pre-harvest crowd in Floydada was probably the biggest to attend any of the series of First Monday events here.

It is believed that with the harvest almost if not quite out of the way the July Dollar day will see even larger crowds. At least that is what the dealers are hoping, and that is what they are trying to make worthwhile for the public, is report of the retail trades committee of the Chamber of Commerce, as reported by Robt. H. Crowell, manager. Hardly a retail business in Floydada but is joining in the free picture show plans for the kids, though many of them do not operate businesses which lend themselves to dollar day merchandising.

## POLITICAL DATES

At Dougherty the night of July 14.

## Hottest Hour of Many Years Recorded in Floydada As Thermometer Swelters at 110 Sunday Afternoon

The hottest day of many years so far was Sunday, June 25, when at 5 P. M. the recording thermometer at the West Texas Gas company office recorded 110° at 5 o'clock. It stayed at that mark for about 20 minutes, then dropped to 104 and then again at 6 o'clock it was up to 109.

At noon Sunday the thermometer was at 95 and gradually went up from 6 in the morning. The low mark of the week was at 73 Sunday night.

On June 25 last year the thermometer registered 96. Monday of this week it showed 101 at 1 o'clock and gradually went down. This reading lasted about an hour. Tuesday the reading was 99 at 2 p. m. Last Saturday the reading was 101 at 4 o'clock.

Only three days in 1949 registered over 100 degrees on thermometer. They were July 21, at 102; July 19 at 100 and July 17 also 100. However in September, 1948, the thermometer read over 100 for four days. Sep-

## 2 Non-League Games Matched on Rodeo Field

Standings in the Floydada softball league took a decided change this week when REA dropped from first place to fourth place. Lunch Box moved into first place from their former second place mark. Ralls moved from third to second place, and Builders Mart moved up one notch to third place. Both McCoy Jr. and sr. teams remained in their same positions.

Two teams, Lunch Box and Ralls have already won enough games to be in the Shaughnessy play-off, their wins and losses now only to be figured to determine their position in the play off.

As for the other two positions in the Shaughnessy, its anybody's at this time. All the teams are still in the race, some with pretty tough odds though.

In the games to be played next week, will see REA journey to McCoy to take on the jr. and in case the jr. should win they will be in fourth place, if REA wins, they will move into a tie for third place with Builders Mart.

Friday night Builders Mart will try the McCoy sr. at McCoy and Monday REA and Builders Mart tangle here.

There is no league game scheduled for Tuesday night, July 4.

In the games played last week, Ralls beat REA 12-5 Thursday night at Ralls. Friday night Builders Mart squeaked past McCoy jr. 6-5. Monday night the McCoy jr. beat their sr. 10-8 in 11 innings in one of the best games yet played in the league. Tuesday REA bowed to Ralls 9-3.

League Standings

## TALLEST BUILDING IN THE SOUTHWEST

One of the largest and finest office buildings ever erected in this country, shown above, will soon dominate the already impressive skyline of Dallas, the Southwest's great cosmopolitan city. The new Republic Bank Building, announced recently by Fred F. Florence, President of the Republic National Bank, will embody the most modern and advanced architecture, including every convenience possible for both customers of the Bank and tenants of the building. The tallest building in the Southwest, it will soar 440 feet in height. It will be the largest and most modern structure erected in the United States to include a garage and motor banking, together with banking quarters and office building. The main shaft of the building will rise 36 stories above the ground with an additional four stories below the street level. Its tower, extending some 160 feet further into the sky, will give the structure an overall height of 600 feet.

## Johnson Grass, Bermuda Grass Control Found

COLLEGE STATION, June 25.—When trichloroacetate spray is used to eradicate Bermuda grass or Johnson grass, it should be mixed at the rate of one-third to three-fourths of a pound per gallon of water, says M. K. Thornton, extension agricultural chemist of Texas A. & M. College.

About one gallon of the spray will be needed per 100 square feet of area, depending upon the size and density of the plants. If applied during the months of June and July, this amount of trichloroacetate will kill practically all of the Bermuda and Johnson grass on the land.

Thornton says that trichloroacetate, commonly called TCA, has been recommended for the control of Johnson grass, Bermuda grass, and other grasses for some time, but farmers are still unable to buy the compound locally. Many of the large chemical companies manufacture the product, but do not sell it to the public in small packages.

TCA is particularly useful for the eradication of Bermuda and Johnson grass from fence rows, roadways, small spots in fields, and areas that are inaccessible for machinery. However, the cost of the compound prevents it being used for eradicating grass from large areas.

Normally some dying of plants can be seen in about 24 hours after the spray is applied, says Thornton, and most of the plants that are going to die will be dead within a week after being sprayed.

Hot, dry conditions with a moderate amount of moisture in the ground are favorable for spraying with TCA. The compound is water soluble, and it penetrates the ground in addition to acting on the tops of the plants. If a rain occurs immediately after the spray is applied, some of the TCA will be carried away in runoff water, some will leach out through the soil, and the percent kill will not be as high.

TCA may affect the growth of plant life for 90 to 120 days after the date of application. The chemical action varies with different species of plants, and rainfall shortens the effective period of influence.

TCA proved to be very efficient for the eradication of Johnson grass in a test run at the Blackland Experiment Station, Temple, Texas, and in tests run at experiment stations in other states. At the Blackland station, sodium TCA gave a 90 percent kill in 21 days and a 100 percent kill in four and one-half months, at a cost of 41 cents per 100 square feet.

### More Meat Stays In West

The West is eating more and more of its meat—more pounds and a larger proportion. The West is increasing meat production, but there is less surplus to come East. In fiction, Americans have enjoyed "western" cowboys and sheepherders guarding herds and flocks that formed a vast reservoir of meat supply. In fact, the reservoir has been shrinking and is likely to keep on shrinking, says the U. S. Department of Agriculture. This view is the result of a study of "Shifts in the Trade in Western Livestock," a Research and Marketing Act study by the Bureau of Agricultural Economics and the experiment stations of the 12 western states, including Texas.

In the second quarter of this century, production of meat animals has increased about one-third in the West, but population has increased about two-thirds. The west is a meat-eating area, as well as a meat-producing area, and the rise in population has been keeping more and more animals at home, so there have been fewer to ship to the East.

As recently as 1925-27 the region as a whole was shipping out 3.3 billion pounds of meat animals a year. But by 1946-48 the study shows this had dropped to 2.5 billion pounds.

If population growth continues and buying power holds up, the study indicates that by 1955 the West will be eating 1.2 billion more pounds of meat than in 1948, and this would mean a further cut in supplies available for shipment to the East.

A main movement in the Nation's food supply has been shipment of range cattle and sheep eastward to the Corn Belt for "finishing" and reshipment eastward. Nowadays the shipments from the Intermountain area in particular go East or West.

If this trend continues, the study indicates that the Midwest and East will have to find new sources of supply. "If consumers are willing and able to pay high enough prices for meat, larger acreages of agricultural land in all sections of the country may be shifted to grass and feed crops which would be used to raise more meat animals.

## Young Baseball Team's Average of Season .500

The American Legion - Bishop Motor company sponsored baseball team in their first year of organization have a .500 average for games played to date.

Wednesday's game was played after the deadline for getting results in this weeks paper.

Schedule of coming games for the new team will be as follows: June 30, Floydada plays Earth at Earth; July 3, Plainview at Plainview; July 4, Olton at Olton; July 5, Littlefield here; July 7, Muleshoe at Muleshoe; July 10, Olton at Floydada and July 12, Amherst at Amherst.

The Floydada Legion team, though not expected to set the world on fire this year, will have a nucleus of players with experience and a larger representation of boys to choose a team from in the following year. With the development of pitchers as well as fielders they will

present stiffer competition as time goes by, say the sponsors and interested persons following the progress of the youngsters.

### BOYCE HOUSE "GIVES YOU TEXAS"

This is the story of a historic bell, told by Harry Putnam of the Cuero Record:

The bell originally was used on the steamer Reliance to sound the hour and to herald the approach of the little vessel into the harbor. It was in the summer of 1856 that the Reliance glided into the port of Indianola, then a thriving city on the Gulf coast of Texas. That night, fire broke out aboard the ship and it was destroyed, the bell going down with the charred hulk.

Lutherans of Indianola obtained permission from the ship's owners to try to salvage the bell, which was done, and it was placed in the steeple of the Lutheran church.

In 1864, three Union gunboats bombarded Indianola and captured the city. Supplies were seized and soldiers climbed into the belfry and tossed the bell to the ground. Then it was carried to the beach to be shipped north to be made into bullets.

But, that night, members of the organization, after obtaining permission from their pastor, slipped down to the beach, loaded the bell on a wheelbarrow, pushed it to a wagon and, after a journey, it was buried under the sand.

A terrible storm swept down on Indianola, in 1875 and, when a second disaster struck in 1886, the survivors decided to move inland and Indianola was abandoned. Many went to Cuero and when the Lutheran congregation built a church and it was found there was not enough money with which to buy a bell, George Wasserman told of helping to bury the bell 25 years before and offered to act as guide in its recovery. He led a party to the spot and the bell was dug up, and found to be only slightly tarnished.

It was placed in the steeple of Saint Mark's church, where it remained until 1894 when a member presented the church with a larger bell and the old one was used by the Cuero volunteer fire department. New equipment was installed in 1913 and the bell was consigned to the scrap pile.

Here it was discovered, some years later, by Joe Pannen, a member of the congregation. At his suggestion it was returned to the church as a gift and the old bell now hangs in the steeple of the handsome Saint Mark's Lutheran church.

### HISTORY TEACHES . . . OR DOES IT?

Solomon and Rehoboam have been on my mind for weeks.

Solomon was the original tax-and-spend leader. He came to the presidency of his country cultured, that he had the right to do as he pleased with the historic forces of his land. Under his program of tax-and-spend the appearances of prosperity were present but the heart of prosperity was missing.

The burdens of the people increased, and they were asked to accept them as blessings.

In due time Solomon died, and his son Rehoboam came in power. He spurned the advice of the elders of Israel. He listened to the young men who knew all the answers to all the social questions of that day.

The successor to Solomon increased the taxes and continued the program of wasteful spending. The result was the death of the nation. —Dr. Walter E. Courtenay, pastor, First Presbyterian Church, Nashville, Tennessee.

It's a lonesome washing that there's not a man's shirt in.

### Young People and Camps Ceta Glen

A number of Floydada young people attended Ceta Glen Christian camp this month. These camps for the younger age groups are held on a 100-acre tract of the Palo Duro canyon, about 15 miles northeast of Happy, Texas, and owned by the Christian Church of the Panhandle. Modern conveniences added to the natural beauty of the location, make this an ideal camp for fun and fellowship. The Fellowship camps were held for the 11 and 12 years old age groups. Ninety-eight youngsters registered at this camp on June 11. In addition, 12 faculty members and four women in charge of the kitchen. Dick Clayborne, pastor of the First Christian Church, was director. Those attending from Floydada were Ruth Maxey, Mrs. Dale Darden, Darlene David Badgett, Mrs. Fay Maxey and daughter, Linda Maxey. Youth attended conference week in June under the leadership of Cliff Ammerman, youth leader of the First Christian Church. Those attending from Floydada were Ruth Maxey, Mrs. Dale Darden, Darlene David Badgett, Mrs. Fay Maxey and daughter, Linda Maxey.

### THE CONSTITUTION

Often asserted now-a-days the younger generation knows more about the Constitution makers. We could have known more, had we been interested; in this framework of freedom created by our fathers, we have been busy building the special wisdom in the field of government left us free to do that. The blue print laid the foundations, erected the scaffolding and we have no means yet filled in that work of destiny and freedom. Our fathers knew better than we the specific temptation of government at all times—any government in an American government—is to become more powerful than is allotted it, or misuse the power that it has.

The land was stripped of any superior to the people, who were through the Constitution. The presidency was made subordinate to the Constitution. So was the Congress. So were the courts. It stands between us and the blasphemy that man is a creature of the state. Here is our crown, here is our master of our People the Constitution of the United States.

### Boyce House "Gives You Texas"

Do you know how the Brazos River received its name? The Brazos, by the way, is probably the twistingest river in Texas. One day a man sitting on the bank fishing caught a big one and in tossing the line over his shoulder, the fish got loose and fell in the river behind him—11 miles upstream! The Brazos sure does twist and bend. But as to how the river received its name: Brazos is Spanish for "arms". The tradition is that in the days when Spaniards got lost in Texas and wandered until they were about to die of thirst. They prayed for aid and pretty soon they caught sight of a river and of course drank their fill. One of the Spaniards said, "We have been saved by the arms of God—los brazos de Dios." Another said, "Let us name the river that Brazos de Dios." Later it was shortened to Brazos.

### SAFETY RULES COMMON SENSE

The background for National Farm Safety Week, to be observed July 23 to 29, is a picture blacker than it need be. It includes an annual 17,500 fatalities from accidents, and 1,500,000 disabling injuries. Also about 35,000 buildings are destroyed by fire. The annual loss, much of it preventable, is estimated at about one BILLION dollars. It is the preventable factor on which the 1950 campaign centers. The emphasis is on safety rules. These rules are applied common sense. If followed generally, they would reduce materially the number of accidents and fires. They are not imposed rules, but rather rules the individual is asked to adopt as his own, for his own safety and the safety of others. "Learn and Obey Farm Safety Rules" is the theme of the whole effort. Falls are the most frequent cause of farm accidents, analysis shows. Two of the safety rules that apply particularly to prevention of injuries from falls are: (1) Keep walkways and steps in good repair, unobstructed, and well lighted; and (2) Keep ladders in good repair and easily accessible in case of emergency.

### 61 In Attendance at Vacation Bible School This Week

At the colored vacation bible school, sponsored by the W. M. S. of the First Baptist church held at the colored school, beginning Tuesday and continuing through Friday morning, there were 61 pupils enrolled Tuesday morning. Mrs. Earl Allen is the principal and she is assisted by Mrs. W. B. Jordan, Mrs. G. N. Shirey, Mrs. Jess Patterson, Mrs. Carl Muench, Mrs. O. G. Mayfield, and the following girls: Katie Collier, Pat Fralin, Peggy Lanham, Floyd Jackson, Gail Carver, Velma Briggs, Ann Welborn, Armita Berry, Barbara Marshall. The girls had special work and assisted the ladies in many ways. The ages of the children registered were from 6 to 16 and they showed interest and were very happy to have the school. The ladies used the Colored Methodist church for part of the classes. At the close of the school Friday morning a commencement will be held and refreshments will be served. Visitors are welcome to visit the school and see how the school is carried on.

Mr. and Mrs. W. W. Holladay of Lamesa visited last week with Mr. and Mrs. J. W. Taylor and Mrs. Julia Holladay, Mrs. Claudia Hinkle and sons. They also visited in Lockney with Mrs. M. D. Lynn and family.

Did you know that there used to be a lake of oil out on the Gulf not far from the coast of Texas? An oil pond, the old-timers called it. It was a mile wide and several miles long and was down near Sabine Pass. Captains of ships said that in times of storms, they hastened to the oil pond and there found comparative calm and safety. The lake of oil had been there from time immemorial, said a sworn statement made by half a dozen ship captains nearly 50 years ago. But soon after the great Spindletop oil field was discovered and developed not far away, the lake of oil disappeared from the Gulf.

### Rev. and Mrs. Allen Fellowship Hosts

Thirty-five young people of the First Baptist church were present Sunday night for the fellowship hour, which was held in the home of the pastor, Rev. Earl Allen and Mrs. Allen. The hour began with a song service and Ted Lanham gave an interesting devotional on building, before the games were played. Fruit punch and cookies were served to those present by Rev. and Mrs. Allen. The fellowship hour is held each Sunday night following the evening preaching.

### NATURE AND FAITH

We wept—'twas nature wept—but Faith Can pierce beyond the gloom of death. And in your world so fair and bright Behold thee in refulgent light! We miss thee here, yet faith would rather Know thou art with thy heavenly Father. Nature sees the body dead— Faith beholds the spirit fled; Nature stops at Jordan's tide— Faith beholds the other side; That but hears farewell, and sighs This, thy welcome in the skies; Nature never sees thee more, Faith but sees thee gone before, Nature tells a dismal story, Faith has visions full of glory; Nature views the change with sadness, Faith can vision it with gladness; Nature murmurs, faith gives meekness. Strength is perfected in weakness; Nature writhes, and hates the rod, Faith looks up and blesses God; Sense looks downward, Faith above, That sees harshness, this sees love. But thou art gone, not lost, but flown. Shall I ask thee back, my own? Back to earth and sin? nay, rather Should I live in solitude? And not ask it if I could? But patient wait the high decree, That calls my spirit home to thee! — Anonymous (Dedicated to the memory of our son and brother Arlen Dean White.) The first United States Census was taken in 1790.

Judge and Mrs. Alton B Chapman and Mrs. Lucile Allred attended the funeral of R. E. Dickson at Spur on Wednesday morning at 10 o'clock in the First Christian church. Mr. Dickson died in the West Texas hospital Tuesday.

Mrs. Travis Ray and daughters Judy and Gayle of Grand Prairie are here visiting her parents, Mr. and Mrs. S. L. Powell and family. The first woman colonist came to Virginia in 1608.

## Chalk Up Gain In Methodist Youth Group

Tuesday evening, the young people's council of the Methodist church met to discuss plans for Youth Activities week. It was decided that the Floydada and Lockney groups would work together. The week is tentatively scheduled for the week of July 17-21.

It is to consist of class instruction, program training, recreation, fellowship, and a general good time for all. Aubrey Guthrie, president of the Floydada group is to head the committee from this city to work out plans in full with Lockney. The week of July 10-14 is the time for the Conference youth camp, to be held at Ceta canyon. This is for Methodist youth between the ages of 15 and 23. We hope to have several to attend this camp. A later camp for workers and officers of youth is scheduled for August.

Tonight is the night for the young peoples hay ride. Two horse-drawn wagons have been secured, and plenty of hay. The group is to leave from the church around 7:00 P. M. and go out to the Burke farm for recreation and watermelon. The cost is 25c each and a good crowd of young people from the whole city is expected. It should be a very pleasant evening.

Last Sunday, the group voted that each member should bring 45 cents for the purchase of new song books. The addition of these song books will be of great help in our singing program.

Every Wednesday night, now at 7:30, has been set aside for youth choir rehearsals. Anyone from 15 to 30, or thereabouts, is urged to attend these rehearsals. We had a fine rehearsal yesterday and it should not be long until we have a fine choir.

Beverly Thomas is in charge of the programs both morning and evening for this coming Sunday, and Pat Hennessee and Hope McIntosh have charge of recreation. Come to church Sunday and join with us in our services.

Mr. and Mrs. George Caven and daughters will be in Clovis, New Mexico, for the formal opening of the new office of the Clovis Public Service company for which Mr. Caven worked for several years. He will take part in the ceremonies and the family will visit friends. They will be away for several days. The opening will be Friday and ceremonies will continue all day at the new building.

## S. N. McPeak Trip Covers 6,349 Miles

S. N. McPeak is home from a journey recorded at 6,349 miles, which took him west from Floydada to the northern part of California, and thence through Nevada and Utah, and other intervening states to Nashville, Tennessee, where he was born and reared.

Mr. McPeak made his trip west and back to Nashville in company with Mr. and Mrs. Elmer Caruthers, who had been his guests here. To Boulder dam, thence by Barstow, California, to Salinas, where they were guests of Mr. McPeak's daughter, Mrs. W. F. McDaniel and Mr. McDaniel. Also they met there a granddaughter and her family, Mrs. D. G. Ridge. They journeyed northward on the coast as far as Sacramento before turning back east. Mr. McPeak was in a total of 13 states during his absence from home. At Nashville he had the pleasure of meeting again with numerous kinsmen. He came home by way of Dallas and Fort Worth.

Mr. and Mrs. Louis Newell and son, Bob of Denver, Colorado, spent the weekend with Mr. Newell's mother, Mrs. L. H. Newell and with Mr. and Mrs. R. O. Daniel and family of Lubbock. Mr. and Mrs. Newell were enroute to California.

### FARM CHURNING DWINDLES

The dairy farmer and his wife who used to take pride in the fine quality of the butter they churned and retailed to a favored list of discriminating buyers in town often at a good premium above the price of "store butter" are vanishing. All disappearing are the careless home churners who traded in low quality butter only too often dirty and rancid. The last quarter century has witnessed a continuing decline in this specialty and a continuing shift to "creamery butter," says the U. S. Department of Agriculture.

In 1947, farm butter produced for sale had dropped below the 50 million pound mark, and for 1948 it had dropped still further to about 41 1/2 million pounds, the Bureau of Agricultural Economics reports. This is less than one quarter of the 175 million pounds of farm butter marketed in 1924.

In only 8 States in 1949 was the total of farm butter marketed greater than 2 million pounds. Texas led with 5.2 million pounds, followed by Georgia with 4 million. North Carolina and Alabama farmers sold about 3.5 million pounds in each State. Virginia farmers sold about 2.7 million pounds followed by Pennsylvania with 2.5 and Tennessee with 2.4 million pounds. Maine farmers sold more than 2.1 million pounds. In contrast, Wisconsin, the No. 1 Dairy State, had a record of about 150,000 pounds of farmer butter marketed in 1949.

Wisconsin dairymen specialize in the sale of milk, either for cheese making, evaporated milk, or as fluid milk to supply city markets that include Chicago as well as Milwaukee, and other smaller markets outside as well as in the State. Wisconsin is the only State whose farmers sell milk to a total annual value of nearly 500 million dollars.

In the two neighboring States of Minnesota and Iowa, the emphasis is on the sale of cream as butterfat, and these two States are at the top of the butterfat suppliers. In 1949 each State marketed more than 80 million dollars worth of cream as compared with less than 10 million dollars worth sold in this form by Wisconsin dairymen.

Man boasts himself the lord of creation and we take great pride in the achievements of our athletes.

Olen Cunningham ran a mile in four minutes and four seconds, but an elephant can run a mile in three minutes; and the deer, greyhound, racehorse, whippet fox and Mongolian wolf are faster than the elephant.

A West Texas jackrabbit can run a mile in one minute and fifteen seconds, which is more than three times as fast as a man.

The gazelle and the pronghorn antelope I think there are a few of these latter out in the Big Bend can go a mile in one minute. But fastest of all running is the cheetah (whatever that is), who can travel at the rate of 70 miles an hour. Then take the running broad jump. Jesse Owens once leaped 26 feet, 8 1/4 inches, but a kangaroo can jump 39 feet.

And relatively speaking, considered, we could stand flat-footed and

the flea. If man could jump as far as a flea, size considered, we could stand flat-footed and jump over the San Jacinto battlefield monument.

The secret of happiness is not in doing what one likes, but in liking what one has to do.—James M. Barrie.

### ARMED FORCES' GADGETS

At major military installations throughout the country, the United States Armed Forces displayed before bigwigs and grats alike America's 1950 line of lethal devices—from guided missiles (bumper type) to the improved see-in-the-dark sniper scope; from the 60-ton 240 mm. howitzer to the Tiny Tim gun rocket.

Not all the equipment, however, was designed for destruction, points out Pathfinder news magazine. The Air Force contributed a pneumatic rubber building; the Army presented a portable ice cream plant; the Navy had a diesel-action pile driver. As for the Signal Corps, it stole the show with a video-phone hook-up that enables callers to see each other as they talk.

Asked what military use the invention has, the Corps' Col. James D. O'Connell quoted Ben Franklin: "What is the use of a newborn child?"

### BREAKS LAW BY OBEYING

More than 100,000 law-abiding businessmen, complained U. S. Steel President Benjamin F. Fairless, are potential crooks—in the eyes of Federal trust busters, says Pathfinder news magazine.

"If our businessmen obey the Sherman law," he told a Boston Jubilee audience, "he is probably violating the Robinson-Patman Act, and if he obeys the Robinson-Pat-

man Act, he is almost certainly violating the Sherman law."

"The only way a businessman is sure of obeying them all is to be included in melancholic withdrawal."

## Sunday Wedding vows Unite Miss Calahan And Delmar Turner

On Sunday afternoon, June 25 at 3 o'clock at the home of the groom's parents, Mr. and Mrs. V. D. Turner on the Matador Highway, their son Delmar Turner and Miss Catherine Calahan of Tribbey, Oklahoma were united in marriage, the Rev. R. N. Huckabee officiating.

The bride, who wore a white nylon street dress, white hat, shoes and gloves, with a corsage of white gardenias and red rose buds, was given in marriage by her brother-in-law, David J. Lambert. Her matron of honor was Mrs. Leroy Burns, sister of the bride groom. She wore a white afternoon dress with navy accessories.

The best man was Leroy Burns. The couples stood before an improvised altar of white gladioli and fern in tall baskets and the white candles in candelabra.

Miss Roberta Garrett played the wedding march and two sisters of the bride groom, Margie and Auden Turner, lighted the candles. Louis Warren and Doyle Turner were ushers.

The register was presided over by Mrs. Wilma Payne. Before the ceremony, Miss Garrett gave three piano numbers, "Because", "Always", and "Perfect Day".

For something borrowed the bride wore a strand of pearls belonging to Mrs. Wilma Payne and pearl ear rings from Mrs. Lloyd Queen. For something old she wore a bracelet belonging to Mrs. Melba Tate and something blue she wore a blue garter. After the ceremony, the bride cut the wedding cake which was a large pink and green cake with a miniature bride and groom on the top and was placed on the dining table covered with a lace cloth with a center flower arrangement of white gladioli and fern and feverfew.

A crystal punch service was presided over by Miss Joy Lambert and Miss Roberta Garrett.

Leaves on Colorado honeymoon. Pictures were made of the bride and groom just before they left on their honeymoon which will take them to points in Colorado. They will make their home in Floydada after their return, where the groom is associated with his father in the truck line business.

Mrs. Turner has been here with her sister for several months, Mrs. David J. Lambert, who has recently moved to Childress.

The guests at the wedding were Mr. and Mrs. E. W. Turner, Mrs. Bailey Barbee, Mr. and Mrs. A. G. Tyler, Louis Warren, Mr. and Mrs. W. H. Jackson, Mr. and Mrs. David Lambert, Joy Lambert, Mrs. Fred Rogers, Mrs. D. F. Rogers, Mr. and Mrs. Lloyd Queen, Mr. and Mrs. S. D. Medley, Mrs. Wilma Payne, D. F. Rogers, Jr., Chas. Keith Hatley.

### GUESTS HERE FROM DENTON

Mr. and Mrs. J. L. King had as their guests last week, their daughter, Mrs. J. W. Burgett and family of Denton. Rev. and Mrs. Burgett and daughters LaJuana and Mrs. Tom Ballard and Mr. Ballard had recently returned from a trip to Los Angeles and came by here on their way home to visit. Rev. Burgett is the son of Mr. and Mrs. R. N. Burgett.

## Bridal Shower Given Mrs. Dewey Parkey at Home of Mrs. Woolsey

A bridal shower honoring Mrs. Dewey Parkey, nee Floyce Jarrett, was given in the home of Mrs. L. Y. Woolsey, May 22.

Mrs. Jeff Gregory presided over the bride's book. A reading was given by Mrs. Dale Teague. The toast was given by Mrs. Harley Wright.

Refreshments of angel food squares and punch were served from a lace covered table by Ona Ruth Neff and Mary Wright.

Lovely garden flowers were placed in attractive arrangements entertaining rooms. Hostesses for the occasion were Mmes. J. W. Walker, Jessie Jamison, J. A. Jamison, W. C. Wright, L. Y. ### CHRISTIAN CHURCH COUNCIL FINISHES REVIEW OF BOOK

Members of the council of the First Christian Church held their last meeting in June in the home of Mrs. R. Fred Brown Monday of last week. Program for the day was the conclusion of the missionary study on Japan with Mrs. J. C. Wester reviewing the last chapter of Kerr's book, "Japan begins again."

Reports of the committees regarding kitchen equipment for the new building were heard and discussed. Tall glasses of apricot cream frappe with black cherries on the plate were served the following:

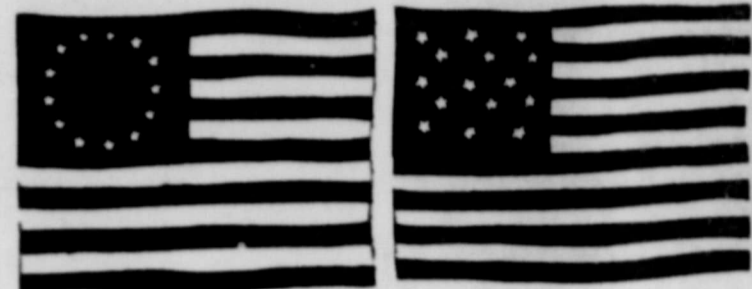

Mrs. Victoria Asher, J. C. Wester, L. H. Dorrell, Kinder Farris, Charlie Probasco, J. H. Buchanan, John Farris, D. Johnson, J. B. Jenkins, Geo. VanWinkle and Francis, Fay Maxey, and Mrs. Brown.

Miss Mary Maxey spent last weekend at Canyon, Texas, guest of Misses Betty Boteler, Floydada and Letta Dean Springer, Hereford, who are students at W. T. S. C. this summer.

## Picture Story of U. S. Flag

PRE-INDEPENDENCE FLAGS—Depicted above are banners carried by American patriots when they first took up arms in 1775. At the left is the blue flag with its white crescent which was nailed to the staff at Fort Moultrie by Sergeant Jasper. In the center is the Rattlesnake Flag of the Virginia minute men at Culpeper. At the right is one of the New England pine tree flags.

This is the first Stars and Stripes. The Continental Congress on June 14, 1777, resolved: "That the thirteen United States be thirteen stripes, red and white; that the Union be thirteen stars, white on a blue field, representing a new constellation." According to legend the five-pointed stars were designed by Mrs. Betsy Ross.

With the admission of Vermont and Kentucky to the Union two stars and two stripes were added to the flag following an Act of Congress in 1794. It was a flag of 15 stars and 15 stripes over Ft. McHenry that inspired Francis Scott Key to write "The Star-Spangled Banner." Congress in 1818 restored the original number.

## Floydada Garden Club Meeting Held With Mrs. Ross Hostess

Mrs. S. W. Ross was hostess to the Floydada Garden club Friday morning, June 23, at 10 o'clock. After a short business meeting presided over by the president, Mrs. Hollis Bond, Mrs. J. M. Willson, sr., introduced the guest speaker, Mrs. Albert Morrow of Morton, District 1, councilor Garden club. She gave a book review, the book being "Road to Survival" by William Vogt. This book is on soil conservation and revealed some startling facts of population and soil conditions of five continents.

Those present were Mrs. B. K. Barker, Mrs. Hollis Bond, Mrs. O. G. Glassmoyer, Mrs. W. E. Grimes, Mrs. R. C. Henry, Mrs. John Hoffman, Mrs. J. B. Jenkins, Mrs. D. T. Mayo, Mrs. L. C. McDonald, Mrs. E. J. Morehead, Mrs. G. V. Smith, Mrs. Guy Ginn and daughter, Jancy, Mrs. John Stapleton, Miss Leila Petty, Mrs. O. M. Watson, Mrs. J. M. Willson and Mrs. S. W. Ross.

## "Step Up... Sit Down... and Take Over"

### This New Leader of the Heavyweights

Here's a powerful Diesel that defies all comparison for comfort, convenience, and ease of handling in a big tractor.

See how easy it is to step on and off... look at its deep-cushion seat... its extra-large platform... its convenient controls... its clean-cut design. Extreme ease of starting and steering... hydraulic Power-Trol... direct engine-driven power shaft... hand clutch—these are just a few of its many operating advantages.

You bet you'll like to drive it—more than any other tractor you've ever had your hands on. But the biggest thrill of all is in owning it. Then is when all your worries—about adequate power to handle big equipment in your rough conditions, about getting through in time—will literally melt away. Then is when you'll know the true meaning of John Deere two-cylinder Diesel performance and economy. Then is when you'll say, "I wouldn't give it up at any price if I couldn't get another."

McCoy will have a pie supper July 5th at 8:30 in the school house. All women of the community are requested to bring a pie to be sold, with the proceeds going to help support the two ball clubs. The candidates are invited to attend the pie supper and make speeches if they so desire.

### E. Dickson Funeral Rites Wednesday A.M.

Funeral rites for R. E. Dickson, superintendent of the Spur station since 1914 were held here Wednesday morning at the First Christian church and burial was in Spur cemetery.

Dickson died Monday afternoon at West Texas hospital at Amarillo. He was stricken Wednesday at the home on the grounds of the station and was taken to the hospital on Tuesday. He was 65 years old.

Most farmers and stockmen on the rolling plains of Texas were in mourning for the loss of a pioneer of agricultural research in Texas. He was the author of many reports and co-author of many reports on the plains areas of Texas into the type of meat best suited to that section.

His outstanding research brought him numerous citations and awards.

Water and soil conservation were his special fields as well as conservation of plant material that can be used on the plains areas of Texas into the type of meat best suited to that section.

His research at Spur led to the present Soil Conservation service of the U. S. Department of Agriculture. The first bill creating this service was written at the Spur station and was used as the basis for bills introduced by the late Rep. Buchanan of Texas in 1913.

Mr. Dickson was a native Texan born in Armstrong county on June 1, 1889. He graduated from Greenville High school in 1907 and from Burleson college in Greenville in 1909. In 1912 he was the first graduate from the A. and M. college in the state for vocational agriculture.

After teaching agriculture for a number of years at the high school at Cooper, Texas, county, Dickson was made superintendent of the main experiment station at College Station, on May 1, 1913. From that position he was transferred to Spur May 1, 1914 as superintendent of the station. His family members include his wife and daughter, Mrs. Lillian Grace Dickson of Spur. A son preceded his death several years ago.

### Meeting Started in the Ministry

Mat Hale, of Ackerly, a brother of J. Sam Hale of Floydada, has been preaching for 45 years as a Baptist minister. Recently he reviewed his work, his retirement becoming effective March 5 of this year.

The story of how Rev. Hale got started in the ministry is told in his own words to the Baptist Standard.

Getting started in the ministry was really of God. I was following a preacher in West Texas, making \$1.25 a day; I don't mean \$1.25 an hour, but for eight hours, but from morning until sundown about 16 hours. I had preached a few times in the school house in the community. The time came for a revival and the preacher that had been invited could not come, so they asked me if I would hold a revival. I didn't know how to hold a revival, but I thought I would try.

We took a survey and found 15 people in the community. The meeting started. Every time I'd preach I'd be bankrupt. I was staying with an uncle. He had a cane patch and was plenty tall. I'd take to that patch and say, "Lord, what would I do if I had a text, brag on the name more, call for mourning, and one week's time we had 45 conversions and additions.

At the close of the revival I got surprised: one was that they should have paid me, (I actually should have paid them) and \$20. I thought I had struck twenty dollars for just one week. I was making \$7.50 per week; I mean they called me to be their pastor. Well the news spread what a revival Mat Hale had held. It came from Kirkland and spread. In 30 days' time I had 45 conversions. I was ordained Aug. 1, 1908.

I have heard preachers talk about a sacrifice they made to be a preacher; how much they have made in other lines of work. I have always had doubts about it. Just think of the sacrifice that gave up following that three-dollar-a-week salary.

During these glorious 45 years, I have gone from small town to city, from pastor and back again. I have received thousands into the fellowship of the churches. We moved 1,036 in eight years I was pastor at Magnolia Avenue Church. I have never received a salary, but we got along. Wife and I have only nine children so we are able to do on a small salary.

It is to blame for the small salary. I've kept the people broke in the church houses. I've had the joy of leading in building beautiful churches, two pastures repaired and several others modeled. We moved into our new church at Ackerly on March 1, 1949. It is the last word in the school board's designing the thing in any small town in the plains of Texas.

I'm retiring from active pastoral work. I thank God for joy of all these years of service. If it were to do it again, I am this young preachers with a that they may do it better than I have been able to do.

### Voice Appreciation

Mrs. Margaret Fernandez, laboratory technician at Peoples hospital, joins the civic groups of Floydada in thanking the public for their unselfish response to the blood typing program just finished.

Attention is again directed to the fact that the information compiled through such campaign is available to any person of the community, having need of it, without cost.

### Free Instructions Available for Teen-Age Golf Aspirants

Teen-agers of the community who are inclined to like golf or who would like to learn to be inclined, have an opportunity to get some excellent instructions during the summer months at the Carthel Driving range adjacent to the city limits.

First of the series of lessons were given Tuesday night, and tonight (Thursday) another date with the young people (boys and girls) will be held. The arrangements for the use of the driving range for an hour each Tuesday and Thursday nights from 7 o'clock to 8 was made by the Jaycees, who have inveigled Rex R. Brown and L. J. Welborn into giving the young golfers lessons without charge. Youths 10 to 17 years of age are included, open to all who would like to learn something of the ancient Scottish game.

Later in the season, Dr. John W. Kimble, who is a member of the Jaycee committee, says driving contests for distance and accuracy are planned.

#### A Few Irish Sayings

Young man, you'll be trouble till you marry and after that you'll never have rest.

Friend: "Don't you hate to be as old as 96, Uncle Joe?"

Uncle Joe: "Heck, no, lub—if I wasn't this old I'd be dead."

Plain "Ben" we called our pussy cat. (We thought it was a "Sir").

But when the little kittens came—We changed it to "Ben Hur."

The one millionth Studebaker built since the end of the war is driven from the company's South Bend, Ind., plant by Harold S. Vance, chairman and president, as he gets the "take it away" signal from P. O. Peterson, vice president in charge of manufacturing. Growth of the No. 1 independent among automobile manufacturers is reflected in the fact that it took from 1929 to 1942 to build 1,000,000 prewar Studebaker passenger cars and trucks. The postwar million was launched in late 1945.

#### BOYCE HOUSE "GIVES YOU TEXAS"

Did you ever attend a West Texas Chamber of Commerce convention back in the younger, rip-roarin' days of West Texas?

They had conventions in San Angelo, Brownwood and Mineral Wells, in 1924 and '25. I attended those in Brownwood and Mineral Wells.

Picture the sidewalks jammed and overflowing with tens of thousands of spectators with scarcely room for the parade to pass—decorated cars, marching delegates with ribbons, hat-bands and canes, and brightly costumed bands that boomed and

blared - 40 or 50 bands. It took an hour and a half for the parade to get by and then it broke up and the different units would put on separate programs of their own.

Imagine everywhere you turned hearing "The Old Gray Mare" or "Ain't What She Used To Be" or "It Ain't Gonna Rain No More." There were luncheons and barbecues and boating and golfing and trap-shooting and fellowship.

Some of the men even went to the convention and heard the speeches.

If they ever have another one, though, I'd like to attend—just one, because that would be about as many as I could stand. I've put on weight, too.

My friend, the late R. K. Phillips, Weatherford postmaster, used to run a newspaper in Amarillo in the early days and knew H. B. Gladden who, with Gladden, held one of the first patents on barbed wire. Much of the present city of Amarillo, Mr. Phillips said, is located on the Gladden and Sanborn Addition.

Another friend, Gayce Moore of Hearne, says that Thornton Patton Griffin, known as "Chief" Griffin, was elected marshal there in 1894 and was re-elected for 43 years, retiring in 1937.

me and placed your trust in me in matters of greatest importance.

We are now in a very dangerous and difficult time in the history of the nation, and as the representative from the 19th District, I am seeking as best I can to measure up to the terrific responsibilities confronting our government.

Mahon said that he wanted to thank the people for the wonderful support they had given him through the years and that he would continue to do everything in his power to do a good job in Washington for the people of the 19th District.

At this time, in addition to his regular assignments, Mahon is aggressively seeking to prevent passage of a pending proposal which would shift a large portion of the West Texas cotton acreage allotment to Central and South Texas in 1951.

Earlier in the session Mahon secured approval by the House of the bill he handles which provides funds for the measure and final agreement between the House and Senate cannot be secured until this is done.

### Pie Supper, Office Seeker' Speaking at Sd Hill Big Success

The pie sale and the candidate speaking at Sand Hill last Friday night was a big success. A large crowd was present and sale from the pies netted about \$94. Jackie Brock was the auctioneer and those present said Jackie had a new calling and would make a good auctioneer, if he decided to stop farming. The highest price paid for a pie was six dollars.

Tom J. Thomas received the quilt. Total amount received was over \$100 from the quilt.

The candidates present all made speeches.

## VERN EASTRIDGE AND FAMILY VISIT SICK UNCLE IN FLOYD

Mr. and Mrs. Vern Eastridge and daughter, who have been in Houston, Mississippi, to visit his mother, Mrs. E. F. Eastridge, came by Floydada last Thursday to see his aunt Mrs. H. O. Pope and Mr. Pope.

Vern has been in the army for several years and has been stationed in Havana, the Philippines, and other stations. He was on his way to California for a new assignment.

Mrs. W. B. Dublin and children, Ella Mae, Nell, Mary and Walter, of Denver City and Mrs. Irwin Benhall and daughter Wanda Brownfield, spent Sunday with their grandmother, Mrs. W. H. Finley.

Miss Marylyn Williams of Roswell, New Mexico, visited her grandmother Mrs. E. F. Stovall from Tuesday till Sunday and left for Midland for a visit before returning home.

Mrs. O. H. Johnson and Mrs. Paul Foster visited relatives here Saturday and Sunday and were in attendance with Mrs. Andy Jackson who has been ill in the Floydada hospital.

Miss Leila Petty, Floyd County Home Demonstration agent, is home from A & M college where she attended the 4-H Round-up. Miss Petty reports a nice trip.

Mr. and Mrs. W. C. Sims have returned from a stay at the Stovall Wells near Graham.

Mr. and Mrs. Allen H. Leach and son Michael of Borger recently visited her parents, Mr. and Mrs. J. E. Newton.

## Fry Is Qualified By Southwestern For Leaders' Group

Southwest Life Insurance Company qualified 124 agents as members of the Texas Leaders' Round Table, honor group of the Texas Association of Life Underwriters, it has been announced by Richard R. Lee, vice president and agency director of Dallas.

The Southwest Life group included R. E. Fry, representative in Floydada.

Mr. Fry has been invited to attend the annual meeting of the Leaders' Round Table, to be held in conjunction with the annual convention of the Texas Association of Life Underwriters at Dallas, beginning June 25.

Mrs. J. W. Talley and daughters, Wilda, Sharron, Sandra and Rudene of Sunset, Texas, who have been visiting her mother, Mrs. W. H. Finley and other relatives for the past two weeks, have returned home.

W. M. Woodson, Agriculture Engineer for Region 10 of the Rural Electric Administration Association, Washington, D. C. was a visitor of the local R. E. A. office Wednesday.

Mayor and Mrs. F. C. Harmon in company with their son, Dr. F. C. Harmon, Jr., and family of Paducah are in Red River, New Mexico, on a 10-day vacation trip.

George Washington Goethals was the American Army engineer who completed the Panama Canal.

## Blow Hazard Great, Says Ralph Cogdill

The blow hazard for Floyd County Soil Conservation district for another year is great according to Ralph R. Cogdill, Work unit conservationist. Approximately 100 thousand acres of land had a complete wheat failure or it this year. Almost this much more acreage has had a limited wheat harvest with little crop residue. Severe blowing usually occurs after years of crop failure.

Several things can be done to reduce the chances of blowing. The management of crop residue (stubble) not burning it. Planting sorghum on land when moisture is favorable. This is especially important for chalky and sandy soils or any other type that blows easily. Large blocks of summer fallowed land can be divided by planting sorghum strips. When sorghum crops are harvested a tall stubble of 12 inches or more should be left on the surface.

Early planting of wheat, if moisture conditions are favorable, will establish a good cover. Summer fallowed wheat needs more growth to protect the land from blowing than wheat drilled where a large amount of crop residue has been left on the top. A good cover crop of growing plants or stubble from past crops is the best protection against soil blowing. If these methods can not be applied, the land should be roughed up and kept in a cloddy condition. Emergency tillage is costly and has to be done when the weather is disagreeable. Getting a sorghum crop or an early planting of wheat should reduce the needs for it.

On irrigated land, the planting of vetch and winter peas on bare ground and cotton land makes a good cover crop. The land is protected from soil blowing and is more productive at the same time.

A small unprotected area can start a large area to blowing. Farmers should be prepared to stop the small areas before they become large by use of emergency tillage methods. Good cover crop of growing vegetation or dead residue will check the blow hazard and now is the time to plan to grow this protecting cover.

Mrs. E. A. Hopkins is visiting her daughter, Mrs. John Herd of Post and from there will go to San Angelo to visit another daughter, Mrs. Keith Arnold and family.

Mr. and Mrs. Malcolm Bridges and children Janet Ann and Ray, of Houston, are here visiting Mrs. Bridges parents, Mr. and Mrs. Lee Rushing.

Paisley Shawls were first made in Paisley, Renfrewshire, Scotland.

Ipsa Facto, a Latin expression, means "by the very fact itself."

# EDITORIALS

Fourth of July coming up next Tuesday is a reminder again of those stirring days that marked the last 30 years of the seventeen hundreds in America. People who colonized for various reasons early began to have visions of a republican form of government, in which the man as an individual would be served by people they chose as their officials. From dawn of time with a few bright exceptions, it had been true that the people were looked upon as servants of the government. The great idea which these colonists finally got a chance to put on paper and into practical use, began to take form on the 4th of July in a declaration of independence. Which makes it a really great day for the people to observe, possibly not so much as a holiday, although most all do, but as a day for re-consecration to the principle that man is an entity, and that the dignity of the individual must not be violated, lest we lose the things which the founders established for us.

It appears that as of recent date thrrips which despoil so many pretty rose buds can be controlled with reasonable ease. The same application that takes the thrip out of the cotton field will also work in the rose garden, it is reported. Summer days are particularly hard on roses on the high plains, especially when the heat hangs on and there is no morning dew. So that thrrips, when they begin work, have the advantage that the rose bushes are always having a hard time making their way and are in a weakened condition. Nothing prettier than a pretty rose garden. And nothing so demanding of attention on the high plains.

Other than the warmth injected into primary election period by the commissioner of agriculture fuss, principal interest in the forthcoming election, in a state-wide basis is likely to grow out of the campaign for lieutenant governor, in which there are 12 candidates, practically every one of them power-politically. We mean whose service in the public eye has made them good names with vote-getting records. Except for an occasional "pocket vote" of small proportions Texas has not grown up to the Illinois or New Jersey style of politics as yet, and when we speak of the candidates being powerful politically we do not mean in the sense of bossism.

An expression we saw in print recently reminds us that America keeps trying to ape Europe in matters social and political, whereas our country became great because it broke away from the very things that have ruined that beautiful continent. The writer spoke of it this way: "the pathetic pattern of the socially and economically bankrupt nations of Europe."

Reports from the fields indicate that generally speaking the crop is coming along nicely. However, many fields do not have spare moisture and a continuation of a considerable period of heat might cause considerable deterioration, especially coming before the cotton has got a well-developed tap root. Where irrigation water is available

growers are putting on all possible pressure to keep their fields flourishing as mid-summer approaches.

The Texas Democratic committee has certified the name of Mr. J. E. McDonald as a candidate for commission of agriculture. The committee acted on behalf of the supreme court of the State of Texas. This they thought they would be ordered to do and everybody else thought they would be ordered to do, including Mr. McDonald himself. The state committee, reading between the lines, had made up its collective mind not to certify the commissioner of agriculture for re-election without an order from the court. The commissioner has been running on the democratic ticket for a number of years—10 or 20—and announcing with regularity that he would not support the nominees. The committee is pleased because they did not put the man's name on the ticket without a court order and the commissioner is pleased because he is getting on the ticket with a half a million dollars worth of publicity on the side. Everybody is pleased. It is our presumption he will go back into office with an easy win over his opposition.

We'd like to plug a bit this week with prospective vacationers for the automobile service people, and we are inclined to think that while we are at it we will be doing the vacationer a favor as well. So, getting two good people together on a mutually profitable arrangement might not be so bad. So here goes: The vacation check-up should be more than the customary oil change, lubrication job, tire, battery and radiator check. There are brake adjustments, wheel alignments, transmission and rear axle lubrication, spark plug cleaning. Then there's the air cleaner to be cleaned, the tires to be cross-changed, wheel-bearings packed, windshield wipers checked. Then, for safety's sake, the lights should be tested, windows and windshields examined, hose connections replaced if "soft." Don't neglect shock absorbers, wheel bearings and tire pressure. They count for comfort. And for all-around peace of mind and for saving in gasoline mileage, there is nothing like a motor tune-up for reassurance. Going on a vacation trip. Give your car a chance to get you there and back in comfort and safety and be a good automobile when you get home.

## Floyd County 14 Years Ago

Taken from the files of the Floyd County Hesperian July 9, 1936.

Floydada Country club will have their annual mid-summer picnic on Thursday of next week, July 16. R. C. Scott said this week. Charles Bedford is the newly-elected president of the club, succeeding Dr. V. Andrews.

Little Jim Dan Stewart, son of Mr. and Mrs. Jim Stewart of Boonville, Wise County and formerly of Floydada, won first prize in the baby show held at Bridgeport on July 4.

A. D. Cummings took over the office of president of the Rotary club at the weekly luncheon club Wednesday, and was presented the gavel by J. C. Wester, retiring president. He also gave a detailed description of his trip to Atlantic City where he attended the convention of Rotary International.

Pink L. Maxwell this week opened a plumbing shop in the rear of the M. & H. Cafe building on west side and is announcing the new enterprise in this issue of the Hesperian.

The Pandhandle-Plains Dairy association's view herd of Jersey cattle, which has been a part of the Texas Centennial show for the past thirty days, was brought home yesterday, J. K. Waddington having charge of the haul.

The cattle are being distributed

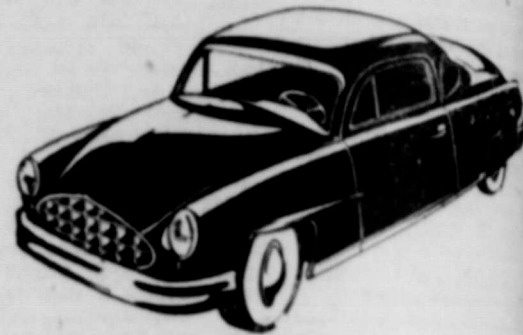

among the owners this week. O. L. Stansell, of this city, is owner of three of the cows shown in the herd. The plains cows were re-placed in the dairy show of the Centennial by a herd from South Texas, under an arrangement among the Jersey breeders of the different sections of the state to maintain a view herd in the Centennial during its progress.

### CORRECTION

In the last three issues of the Hesperian dated June 22, 29 and July 6, 1950, the ad for Elmore and Wagoner stating that the minimum income an FHA loan was \$300. The minimum income should have been \$235. This correction is made.

## Country Press Gives Results Says Pen-Jel

KANSAS CITY, Mo.—"The American home maker looks to her local newspaper not only for national and local news but for the vital information that will make her job of balancing the home budget easier and also provide a better standard of living for her family," Powell Williams, vice president of Pen-Jel Corporation, said today. He announced that a large share of Pen-Jel's record 1950 advertising budget would go into selected newspapers in 38 states where Pen-Jel, a powdered apple pectin product, is popular for home jam and jelly making.

"While national magazines and radio play an important part in food and food product advertising," said Mr. Williams, "Pen-Jel believes that housewives look for their biggest aid in their food purchases and preparation to their best hometown paper. This year Pen-Jel is conducting the biggest campaign in its history to tell home makers about the new, improved Pen-Jel and its new package containing 52 tested recipes. Therefore, we have carefully selected the most effective newspapers in Pen-Jel's market to carry Pen-Jel advertising."

The Hesperian is one of the 350 newspapers throughout the country selected by the Pen-Jel Corporation for its advertising this year. According to the Pen-Jel officials, on the proved appeal of its home-making and grocery pages to local housewives and on the market this special territory offers for Pen-Jel. ## Floyd County Vocational News

The bookkeeping class of the Floyd County Vocational school is continuing its work in bookkeeping, typing, and business law, said the instructor, Kenneth Bain, Jr. The past week the new students in the bookkeeping class have learned how to start a set of books; the differences in a journal and a ledger, and definitions of technical terms in bookkeeping.

The advanced bookkeeping group have been working on a practice set of books, with business papers, called "The Curry & Todd Practice Set". This practice set involves the business of a partnership, including the special journal entries posting to the ledger, the work sheet, the profit and loss statement, the balance sheet, and the adjusting and closing entries.

## New Instrument Aids Farmer

FORD TRACTORS now coming off the assembly lines at the Ford Highland Park, Michigan, Plant are equipped with the new Proof-Meter, an instrument which "takes the guesswork out of tractor operation." Actually five instruments in one, the Proof-Meter shows engine speed, tractor speed, power take-off speed, belt pulley speed and total hours worked by the tractor. The farmer in the picture is recording hours of tractor operation for use in determining his farming costs. In the lower right hand corner is an enlarged close-up of the Proof-Meter, which Dearborn Motors officials say is the first instrument of its kind to be made available on a farm tractor.

## Baptist Pastor Matador To Get New Home

ATLADOR—In recent conference the First Baptist church voted to build a new home for the pastor and his family. The present parsonage was built in 1919, has been in use for 31 years and was remodeled in 1948. The new parsonage will be built on lots west of the church on Dundee street. The three bed-room brick veneer will be built at an estimated cost of between \$12,000.00 and \$13,000.00. R. E. Campbell, sr., J. L. Campbell, and Parris Fish were named as trustees to negotiate the purchase of the parsonage, and the men named as a building committee. They are R. E. Campbell, sr., W. F. McCaghren, T. E. Long, and Littleton Rattan. Elmer Stearns will serve as chairman of the finance committee.

July 2 (first Sunday in July) has been designated as "kick-off day" starting the drive for funds. Rev. Frank E. Swanner, district missionary will be in charge of the services that day, according to an announcement made by the pastor, Rev. Clifford

and Mrs. I. J. Ardry were in town over the week-end to see their new grand daughter, Brenda who made her arrival on June 25. She is the daughter of Mr. and Mrs. C. M. Reynolds. Mrs. Ardry will be remembered as the Ardry.

J. B. Turner has as her guest this week her sister Mrs. George and her daughter Evelyn of Columbus, Missouri who are returning home from a visit to Los Angeles, California. They visited relatives while on the Coast.

Nell Irby, daughter of Mr. and Mrs. Raymond Irby has returned from the Plainview sanitarium, where she had an appendix operation last week.

The Wicka camp fire girls recently sold pies and cakes, the proceeds going for the purchase of personal jackets.

## As A Farm Woman Thinks

By Nellie Witt Spikes

"You can't forget a garden. When you have planted seed—And when you have watched the weather

And know a rose's need." Francis Bacon said that, "God Almighty first planted a garden." And another poet, Cecily Hallack, said,

"The kiss of the sun for pardon, The song of the birds for mirth,— One is nearer God's heart in a garden

Than anywhere else on earth." "How deeply seated in the human heart is the liking for gardens and gardening."

"Who loves a garden still his Eden keeps.

"Perennial pleasure plants, and wholesome harvests reaps."

So as I work in our little garden, the lovely sayings of poets make me appreciate more than ever the joys of growing things. We are having green beans, okra and squash now. Little tomatoes are getting large and soon we will have ripe ones. The zinnias are coming into bloom and the green blades of corn stand near the pumpkins. So many nice, happy things happen—some of the family come in, a neighbor calls over the telephone, a letter comes in the mail and at night,

"Close to my heart I fold each lovely thing

The sweet day yields

I have such a peculiar feeling when I am watering the garden and the wind stops blowing. For many, many years on the farm I watered from the windmill when it was turning, having to quit when the wind stopped. Now it is with almost a shock that the water keeps right on running.

Did you ever notice that all the radio programs you could get when going down the highway was not worth listening to, but when the end of your journey was almost ended the best program would come on?

Sparrows are not well liked but they are persistent in living near you anyhow. With all the bad treatment they get, they keep on bringing grass and weeds, feathers and straw, dropping most of it and making huge nests with the remainder. A couple has been trying to make a nest in the north eave

of our house ever since we have been here since March. About the time it is finished the wind will blow it down or I will take a long stick and punch it out, but they do not complain but keep bringing more and more material. Wonder if we would like the sparrow any better if he wore a gay red or blue coat?

When we moved here we got our mail delivered at the door twice a day. Now we only get it once. But that does not bother us. When we married and moved to the farm in Crosby county with a slice over in Floyd, we had to go to Cone for our mail. Only once a week usually. When Jeff did not go horseback I hooked Old Deck to the topless buggy, picked up a long whip for the horse was old and lazy and drove for the mail some five miles. There was a gate to be opened and shut and if you never tried to open and shut a cattleman's wire gate you have no idea how tight they were and how one had to tug and pull to get them closed and no one with any respect for his fellow man would leave a man's gate open in those days.

It was nice to sit at the store at Cone and read the letter from mother, the Semi-weekly News and the magazines could wait. We heard the latest news and told of the happenings on the new farm. Hot in the summer and oh so cold in

the winter. Soon there were three little children to make the trip with me when the weather would permit Old Deck was gone to horse heaven and Chocolate wore the collar and harness which with the tugs was all the harness I used.

Once when Mr. and Mrs. A. W. White just out from the city of Louisville, Ky., went with the children and I, the hame string broke and the harness fell into the cold waters of the lake we were passing through. Just as Mr. White, his knees shaking in the icy water got the hames ready to tie, they fell off again and he had to fish them up again. What he said about a man who would let his wife go off with such poor harness is better not told even now. We had a bucket of hot water to keep our feet warm while Mr. White's froze and our giggles now and then did not help the situation any. Then the great day when Uncle Sam brought our mail to the end of the pasture. A long walk but worth it. No, we do not fuss about going to the porch for mail once a day.

Miss Carolyn McDonald returned home Sunday from Olney, where she spent last week as the guest of Betty Gail Stewart.

Mr. and Mrs. J. G. Wood spent last week-end in Olney with relatives.

Mr. and Mrs. Don Zimmerman and daughter, Sandra of Galveston and Mrs. Zimmerman's mother, Mrs. T. Luedmann of Brenham were week-end guests of Mr. and Mrs. John Reue and family and Mrs. Reue's mother, Mrs. W. R. Johnke.

Mrs. W. H. Finley had as her guests last week-end, her sister-in-law, Mrs. Katie Finley of Abilene, her son and wife, Mr. and Mrs. John Finley of Plainview and her granddaughter and husband, Mr. and Mrs. Don Turner of Canyon.

Mr. and Mrs. Tom Babb of Springfield, Missouri, spent last week-end with Mr. and Mrs. J. E. Newton.

Mrs. O. L. Stansell is in the Lubbock Memorial hospital for a few days for a check up.

## Doc Cox Plugs for Family Physic In Biabetic Cases (At No Cost To Anybody In Doctoring Business)

**DOC COX PLUGS**—24  
AUSTIN.—Death rates from diabetes is three times as high in diabetics who condition was not discovered until after complications developed than for patients who illness was recognized and brought under treatment before advanced symptoms appeared.

Based on recently completed national studies, this was revealed Thursday by State Health Officer Go. W. Cox.

"Diabetes has not always been a public health problem," the health officer declared. "It became one when we found that the death rate is much greater when the condition is discovered late.

"Public education makes for lower diabetes death rate, and public education in such matters is a health department job."

Dr. Cox told this story about diabetes.

It used to be that many diabetic patients sought treatment only after having developed serious complications. A considerable number of all diabetics examined at autopsy

showed active pulmonary tuberculosis.

The discovery of insulin gave physicians a specific treatment for prolonging patients' lives, even before it was entirely clear what the disease was and what its effects were. Thus, event after event took place with insulin therapy, eventually leading to the realization that early discovery means longer life.

"Diabetes mellitus"—called sugar diabetes by some people—is a condition in which the body cannot properly process the sugar it needs. The result is chronic thirst, hunger, and weakness. Eventually, without insulin, the patient will literally starve to death. Insulin injection will correct the faulty body processes.

"In 1949, there were 739 diabetes in Texas," Dr. Cox said. "By comparison, that same year there were only 189 polio deaths.

"It's the family physician who is in the best position to discover diabetes or a pre-diabetic condition. That's just one more point in favor of regular medical check-ups," the doctor concluded.

"Additional taxes are not the answer to the rising cost of state government," he declared. "I am definitely opposed to any kind of a general sales tax, income tax or gross receipts tax.

# ANOTHER STRIKE

AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS

President Truman's **EMERGENCY BOARD** recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America.

• Notwithstanding the tremendous increase in their expenses involved, the

**Railroads' answer to Board is ...**

**YES!**  
**NO!**  
**Union leaders' answer to Board is ..**

In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25.

On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day.

Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues.

But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 cents AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries!

**Board Says Demands Unjustified**  
In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs.

Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling

strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified!

Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public!

In its report on this case, the Board made this statement:

"The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions."

Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against every body who uses the railroads.

**FIVE WESTERN RAILROADS AFFECTED BY THE JUNE 25 STRIKE**  
The five railroads affected by this strike, which goes into effect at 6:00 A.M. local time, Sunday, June 25, 1950, are:  
Chicago Great Western Railway Company  
Chicago, Rock Island & Pacific Railroad Company  
The Denver & Rio Grande Western Railroad Company  
Great Northern Railway Company  
The Western Pacific Railroad Company

It is time to put an end to such American tactics!  
The Answer to a Raw Attempt At Dictatorship is "No!"  
In the interest of the public who depend on the railroads every day, there can be only one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—

# Be Sure To Attend Church Regularly

## 1776 'till NOW...

Independence Day, the Fourth, the Glorious Fourth of July, that Great Day in the history of our Great Country—the birthday of our freedom! It's time to celebrate! It's time to rededicate yourself to God and Country!

In 1776, July 4 was a day of jubilee, bell ringing. A people rejoiced with all its heart because its Declaration of Independence had been adopted. Long had they struggled under the oppression of tyranny, awaiting the fullness of time that would bring leaders to guide their way to freedom. They had been plucky, they had been patient, but now their hour had struck. At last their claims to "certain unalienable Rights... Life, Liberty, and the Pursuit of Happiness" were no longer intangible dreams, but a living challenge across the sea "to a candid world." Those patriots knew the struggle would be hard, that it would mean personal sacrifice for each and every one... it was a preposterous assignment; it was a fearful task. Did they hang back and haggle as to the prudence of such daring? Did they talk of doubt and fear and mistrust of their leaders? They weren't made of such stuff. They were proud of their commitment. Like their leaders, they were ready, "with a firm reliance on the protection of Divine Providence," to pledge their Lives, their Fortunes, and their sacred Honor to support their Declaration of Independence. Their Spirit sanctioned every word. Their bells rang out in a grand "AMEN!"

This year July 4 likely will be gayer than ever. We will picnic, we will swim, we will go places. There'll be fireworks, parades, band-playing, speech-making. Again it will be a Great Day of celebration. But there'll be an undercurrent of solemnity; there'll be a reverent re-dedication to our country. We know that our nation stands today in grave peril; we are warned at every hand of the powerful tyranny which rides today unchecked, growing more threatening and more powerful hour by hour, day by day... Russia and her fifth column. We realize that the fate of our freedom is in our own hands. We must not be unconcerned. We must recognize the dangers. We must be ready to sacrifice. Like our forefathers, we must value our democratic freedom more than life itself... As we have done for nearly 200 years. Never have the people of America failed to rally in support of the principles set forth in our Declaration of Independence. We never will! Communism cannot take root in the Land of the Free. We have no desire for territory. We have no ambition for conquest and military glory. We want no loot. But we mean to have our freedom and independence, whatever the cost. In 1776, our forefathers made a bold Declaration against Despotism. Today, we stand ready to uphold that Declaration against any powers that be. The Spirit of '76 still lives. The right to freedom of worship must Prevail.

# MARINE AIR RESERVE MOBILIZATION \* 1950

41 U. S. MARINE AIR RESERVE SQUADRONS, based at 25 U. S. Naval Air Stations throughout the nation, are poised to make the two largest coast-to-coast mass air movements ever planned for American reserve air fighter units in peacetime. 21 Western squadrons will leave home stations (black arrows) simultaneously, July 8th, 1950, for maneuvers lasting to July 22nd at Cherry Point, N. C. 20 squadrons at bases east of the Mississippi (white arrows) will leave simultaneously August 5th, 1950, for maneuvers lasting to August 19th at El Toro (Santa Ana), California. Fast moving Marine mobile radar equipment will be set up in radar networks in the field to direct interception of "attacking" planes.
