

BAPTISTS OF DISTRICT NINE POUR MEANS INTO BLANCO CAMP BETTERMENTS

Churchmen of District Nine, composed of eight associations and 180 churches, are realizing more than ever what a gem of a camp they have on Blanco canyon south of Floydada for their annual camp grounds. Accommodations have been pouring plans into improvement with money into improvement with energy this spring than ever.

Plans to greatly enhance the natural beauty of the grounds during the period of the next 12 months are said to be in the making at this time.

General Camp Held
The general Baptist camp for the whole family was held Monday noon through Wednesday noon with a large crowd in attendance, in Blanco canyon.

The singing was led by Pete Ford. An estimate of three thousand people was made at the Tuesday meeting.

Nearly all churches of the district have cabins or cottages there and the average price and cost of them is around \$1,500.00.

City Council See Competing Lights Burn

City Council of Floydada have received today two bids for their new street lighting standards and new style lights, bids for which are advertised to be received until tomorrow afternoon at 2 o'clock at the city's office.

It is not anticipated that service for irrigation will be offered prior to the completion date in November, reports L. W. Chapman, manager of cooperative, but it is expected that service will be available in time for the 1951 irrigation season.

The existing project is enjoying a few days "breathing spell" between construction programs; since South Construction Company is completing considerable extension to the cooperative system this week.

Court Refuses Writ of Error

In a decision handed down by the Supreme Court of the State of Texas on decision day, last Wednesday, the writ of error sought by the commissioners court and county judge of Floyd county in the case of Ralph Thayer and others was refused.

In this case, on appeal by the county from the Seventh Supreme Judicial district's findings in Amarillo, Thayer and sixty other taxpayers had asked for a restraining order to prevent the commissioners court of Floyd county from carrying out an agreement with the State Highway department in this agreement for the construction of a 25-75 road building project.

The trial court here in December held for the county. On appeal the Amarillo court held the commissioners court was without authority to expend the bond money for the mile of road. The Supreme court held that no reversible error had been made by the Seventh Supreme Judicial district court and refused the appeal of the Floyd (See Road Bond Case, back page).

CANDIDATE RALLIES

A candidate speaking will be part of the program tomorrow night, (Friday, July 7) at Starkey school house, which women of the Starkey Home Demonstration club are sponsoring.

A cursory study of the thinking that goes on in the mind of the Russian leaders gives one the impression that their thoughts are those of brigands who have been given the implements of modern war but with it still retain the old idea that neighbors are to be conquered, that fire and sword are good implements to use in fostering the welfare of a nation. To this has been added the infiltration technique of the Marxiam theory that lying, treachery and sabotage are good means to the end. Warped minds, of course, product of age-old hates and fetishes and the inferiority complex. Such minds comprehend force. They do not register to a suggestion that all of us must survive or perish in this one world in which we live, that a world of peace and mutual respect in commerce and industry could lift the people of the earth to a mode of living which heretofore has been unknown. For this reason America girds itself to meet the peril of the Russian bear. To us is committed the job of leading the way in meeting force with force. To us has come the responsibility, if need be, of quitting the field, the filling station pump, the bank counter, the printing press to do each what he can to cope with the dilemma. Years of experience with the brigands seem to establish the truth that we must give up the peaceful pursuit of happiness and ready ourselves mentally, spiritually and physically to battle the idea that might is right. Whether we acquit ourselves creditably, whether we win or lose, now is the only question.

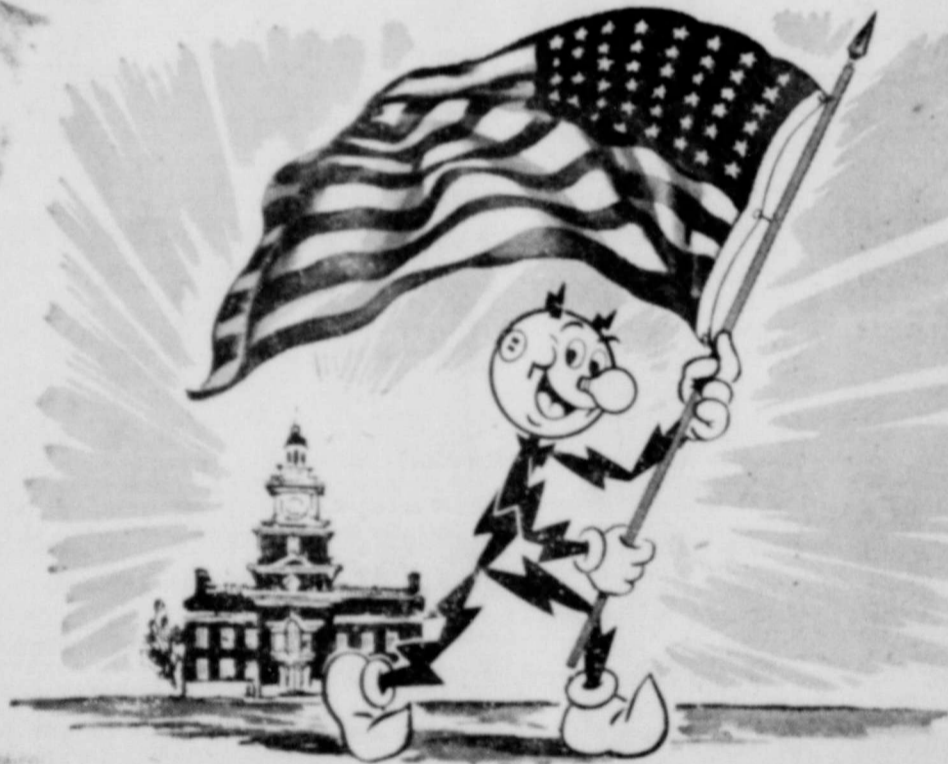

Private and not to be repeated is the reaction of the country printer to the 4th of July. Always it hits when you can't afford for it to come along. Every man, including the printer, must make a living we are told. When the 4th comes on the only day that many of your customers usually give you ad copy you might be on the side of your own country and still not too happy about the 4th of July. Mr. Washington, Benjamin Franklin, the Pennsylvania Jew named Morris have long since shuffled off the scene of action. They did not foresee the time when a holiday would cost a two by four outfit so much money that it would hurt. The founding fathers had no idea that Mr. Connally and Mr. Mahon would get the ball wound so tight that a minute or a day lost would make a problem for the people who pay the bills. Don't repeat this. Don't tell the senator or the representative in congress.

Keep the garden producing on a year-round basis. The surplus from the garden may be canned or frozen and by this method the family can enjoy fresh vegetables the year-round.

Since The Hesperian management would like very much to see Mr. Allan Shivers re-elected to the office of governor of our state would it be a bad thing if we spent all the money the law allows to work in the interest of his candidacy? And if another Floyd county man and one or more men in all of the 254 counties in Texas elected to do the same thing would it not be all right? Would anybody be violating the law which says that any candidate for governor's office cannot spend more than \$10,000 on his campaign? On the contrary would it be all right for The Hesperian or the management thereof to spend ten thousand (mercy me) to oppose the candidacy of Mr. Shivers or for the same office? The law says Mr. Shivers can't spend more than ten thousand although there are 254 counties in Texas. Nor can any of his organized friends spend over the same amount. But why can't his unorganized friends spend all they want to up to the same amount? And why can't Mr. March's friends do the same? The answer is they can and do, if they want to do so. Any man who runs for governor in Texas must be in position to spend 100 thousand dollars if need be. Everybody knows it, and everybody knows it still after he makes his report.

One thing the American people are going to learn in Korea shooting scrape, whether or not it is the beginning of a real war, is the lesson of whether they can listen to the brags of the air arm of the army, which has been alleging it can pin point this target and destroy that installation and just generally raise old billy with the "enemy." The air force is spending more billions than you and I can imagine, many a million of it to entertain and make life more bearable for the young men who have to offer their lives high in the air. Now, if the highly expensive air people will go ahead and get results that is fair enough. The money they waste for no reason at all can go along with the rest of it. But they'll have to shoot a good war as well as talk one to have the folks back at home satisfied. That is the opinion of many arm chair strategists who sure don't fight but who pay and pay for all the fool things that are being done and have been done. They are supposed to keep shut mouth but keep on paying and paying. There are many facets to every problem. One of them is that of the fellow who toils and toils and spends his substance trying to keep the government satisfied and himself out of jail.

Floyd County 14 Years Ago

(Taken from the files of the Floyd County Hesperian July 16, 1936)
A goal of 400 acres in spinach in the area around Aiken, with pledges already of 120 acres, was one result of Monday night's meeting of farmers in the irrigation district. The largest pledge was that of Derigo Dunnam, who already have sixty-five acres of vegetables under irrigation in that area. The spinach is expected to hit an off-season market and bring from forty to sixty cents a bushel. The yield should be 200 to 400 bushels per acre, it was estimated.
Mrs. Jeff D. Ayres fell approximately a month ago while visiting friends and relatives at Winnipeg, Manitoba, Canada. She remained in a hospital there until ten days or two weeks ago when she was moved to Pueblo, Colorado, to the home of her sister, Mrs. J. E. Humphrey. She is in care of a nurse at Pueblo. Mrs. Ayres will return home when the broken bones mend sufficiently to be moved again.

A red granite marker about three feet tall, placed on a concrete slab on the right side of the road about three miles northwest of the city limits recently by the Highway department, tells a brief story of the county's early history. On the granite slab is placed a bronze tablet about eighteen by twenty-four inches which says: Floyd County, formed out of Young and Bexas territories; Created August 21, 1876; Organized May 28, 1890; named in honor of Dolphin Ward Floyd, a captain who died at the Alamo. County seat Floyd City 1890, Floydada since 1892. On the front of the granite is a bronze disc bearing the highway department emblem with a star outlined in the center and the figures 1936.

Manager C. T. Scott of the Floydada club, announced the game this week. The teams played Sunday at Wake, the Floydada boys finally closing out a 6 to 5 victory in ten innings. Jordan was in the box with Price catching. Robertson was the opposing pitcher.

Books Opposes New Taxes in Texas

Wholesale Transfers

By Books, Dallas business man has opened his campaign for a new tax on the state's financial affairs until the state's financial affairs are put on a sound and sensible basis and waste and extravagance are eliminated from the operations of the state government. He declared in his opening address that the state is facing the worst financial crisis in its history.

He over-spending its prospective income at the rate of \$6,000,000 per month, he said, "and reports from Austin say that in addition to the \$500,000,000 the state is spending this year an additional \$100,000,000 in new tax money will be needed next year."

The Dallas business man candidly pointed out that the cost of the government has increased more than 500 percent since 1935, the cost of the federal government has increased more than 1,000 percent since World War II. He did not increase that much.

WARNING

After so much insistence from the public the city has put on one more police man to try to stop some of the reckless driving and poor parking habits.

We are spending your good money for your protection and are hoping that this money will not be wasted.

It is not your money for fines that we want and would much rather you would obey all rules of driving and parking and avoid the hard feelings that comes when one is called down and fined.

A red sign or signal light means to stop regardless of which way you are going; right or left or thru. Signal lights also mean that you cannot make a U turn.

Any one can be picked up for reckless driving regardless of speed if they show that they are driving recklessly.

Top speed limit within the city limits is thirty miles per hour. Down town is less.

Wherever you are you must drive at a safe speed.

There are many stop signs where streets enter the highway and accidents have happened at these intersections because they did not stop. Please observe them.

If you are picked up for any violation and fined please don't blame the City dads as the pressure has been brought on them to do what they are doing.

You may even be reported by citizen as done in Amarillo; Be careful.

What Happens When Atomic Bomb Explodes

Entitled "The Atomic Bomb," the document will be released about August 1, 1950. The advance Superintendent of Documents, Washington 25, D. C., is now accepting orders for 10 copies per copy. All proceeds from the sale of the document will go to the Government. Primary interest to persons in civilian defense and in the military service, the book contains previously unpublished details of atomic explosions. The damage done by the atomic bombs in Japan is examined with estimates of probable effects on American cities. The types of buildings which withstand the shock and the effects of various radiations are described and illustrated. The book was prepared by the Energy Commission from confidential scientific and technical information. It is the most authoritative and authoritative book on atomic weapons which can be published and is the most significant document to be published since the Smythe Report.

As A Farm Woman Thinks

By Nellie Witt Spikes
PRAYER FOR THE AGED
By Harriet Gray Blackwell

Most prayers are for the young, O Lord, but this is for the aged. Grant them growth of spirit To compensate for other things they miss. And give them inner vision for the merit Of quietude. Let them enjoy each day That comes as fresh to age as youth, a rose Unfolding to maturity, the way The sunset paints the sky before it goes. Give them some tack that only they can do, A niche to fill as long as life shall last. The strength of mind to trade old thoughts for new. Yet save a time for dreaming of the past; And more important, Lord, than all of these, Somebody who will love them dearly, please.

It was hard to come inside this lovely Monday morning. There was some hard work to do, but the canna Mrs. Carr Surginer gave me glowed like a lighted candle. There was a tiny cucumber, the yellow blooms on the pumpkin vine, and the big leaves of the castor beans gave a tropical look to the place and I stopped from my work and just enjoyed the cool breeze and the smell of petunias. Mr. Steen asked me early in the spring if I would

plant beets or petunias. So I planted both.

Grandmother Jones was such a good gardener and a good cook. Could one ever forget the big deep pans of roast corn? I always loved the corner piece. It was so rich and brown. And cabbage with round green hot peppers. Long have I looked for seed of those tiny peppers that had such a wonderful flavor. Grandfather always cut out the hot veins so the smaller children could enjoy eating pepper. Slivered tomatoes, green beans. What a dinner, followed by a peach cobbler with plenty of thick sweet cream. We could hear the bawling of cattle coming in for a drink at the water tank. Then they would stand in the shade of the poplar trees and chew their cud and switch flies. The teakettle would be boiling on top of the little stove standing on its four sturdy legs. Sometimes it was heated with mesquite wood but more often with prairie coal. From its wide, deep oven cornbread and biscuits came piping hot for the meals. Salty bread and chess pies and delicious cakes. I can see grandmother, her Scotch face all red from the heat of the stove, her long sleeves of calico rolled up over her plump white arms, brushing back a wisp of hair with the tip of her long apron, serving her folks with the work of her hands and with the love in her heart. Sweet she was and kind and good. Honest and true. Her many grandchildren as well as her children rise up and call her "blessed."

We feel so at home in Floydada. We came here for supplies when we first moved to the farm in 1907. Then all down thru the years we have watched it grow. We have many friends here. When we came in the big Spaulding hack, we traded with Mr. O. B. Olson. Tired and cramped from the long ride the children ran the length of his store and we ourselves liked to walk about and just look at things and talk to Mr. and Mrs. Olson before we made our purchases. They are still our good friends. Mr. White's drug store was also a place we all liked to go. Whether Mr. A. D. White kept the drugs or a grocery, he made folks feel like they were at home and with friends. Grand people started these small towns on the plains. Grand people still keep up the hospitality and gracious standards set long ago. We feel we could be happy in most any small town on the plains for we love the "Little towns of Texas."

Mr. and Mrs. A. E. Bonner and daughters of Lockney were visitors in Floydada Sunday.

Mrs. W. H. Brock who has been in the Peoples hospital, suffering from fleabitis, was removed to her home last week. She is reported as better this mid-week.

Mark Twain's recipe for happiness: "Good friends, good books and a sleepy conscience."

First of the Fine Cars in Value

The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.

There is the all-important point about what a car does to you—and that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand—when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-

eight power plant—when you feel the smooth surge of its Dynaflo-cushioned take-off—

Man, then you know you've got a real automobile!

And don't overlook this:

That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.

Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.

There are a lot of good, solid,

dollars-and-cents reasons for making ROADMASTER your choice over any other car:

Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine. Dynaflo Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

FOUR-WAY FOREFRONT
This rugged front end (1) sets the style note. (2) saves on repair costs—vertical bars are individually replaceable. (3) avoids "locking horns." (4) makes parking and garaging easier.

Woman Stars In Unusual Sales Job

Outstanding success in an unusual field for women—selling trucks to large operators of automotive equipment—is the record of Mrs. Dorothy Dennis, fleet sales manager of a large Chevrolet dealership in St. Louis and believed to be the only woman in the country to occupy such a position in the automobile industry. Entering the highly competitive fleet business, Mrs. Dennis established a notable record in the sale of cars and trucks to owners of large fleets in the middle-west. Pictured above with two officials of the United Van Lines, Mrs. Dennis says the formula for sales success consists of hard work, enthusiasm and customer service.

Haynes' Deed 80 Acres Land To Girl Scouts

PLAINVIEW — Eighty acres of land in the canyons twelve miles east of Silverton has been deeded to the Plainview Girl Scout Council. John T. Haynes and his sister, Miss Billy Haynes, 227 South Alvarado, Los Angeles, California, gave the plot. Although the land was deeded to the Plainview Girl Scout Council, it will be available for recreation of all Girl Scouts, Mrs. C. E. McMan, president of the council, stated.

A rough tumble of canyon walls and heaps of stone, accessible at present only by jeep, the site has an appealing style of natural beauty, say those who have viewed it. There are numerous springs rushing from the sides of the canyons and large cottonwood trees and evergreen shrubs add to the beauty. The land adjoins the Nancy Haynes Boy Scout site which was given by the Haynes several years ago.

Mr. McSwain said the first project in improving the site, named at the request of the donors "Camp Haynes," will be construction of road so cars can get to it.

The Haynes family settled in Silverton in 1893 and later moved to Briscoe county, acquiring vast acreage in the canyons around Silverton. The 80 acres given to the Girl Scouts is a part of a plot which had reserved for a son, Joe T. Haynes, who lost his life in World War I.

Mr. John T. Haynes is deceased.

POSED by the side of the house in his pajamas, after being persuaded to get out of a sick bed, is John T. Haynes, pioneer Briscoe county rancher, who with his sister, Miss Billy Haynes, shown left, of Los Angeles, has deeded an 80-acre tract of land to Girl Scouts. The tract, 12 miles east of Silverton, is part of a tract set aside for one of Haynes' sons, Joe Earl, a casualty of World War II. Photo by Teddy Hannah, of Plainview.

Four Fans Journey to St. Louis; See Bill Serena Play

Four Floydada baseball fans are enroute home this mid-week from St. Louis, where they spent Sunday through Tuesday and saw the National League Cardinals win three ball games.

The fans—Walter, Van and Bryan Collins, and Joe A. Arwine, Jr., in particular wanted to see Bill Serena, the former WT-NM third baseman, play for the Chicago Cubs. Serena did a good fielding job according to the newspaper reports and got a hit in each game. However, the Cubs lost a double header to the Cardinals on the Fourth of July.

On Monday the single game with the Cubs was rained out.

The Floydada men saw the Cardinals opposed to the Pittsburgh Pirates in a close game. They left Floydada Friday and hoped to be at home today.

Gainesville, Texas, is the center of an important farming and stock raising area.

Mrs. Tony Burson of Silverton, active for a number of years in Girl Scout work, assisted in consummating the deed for the eighty acres. Clarence Anderson, Silverton, husband of a niece of Haynes and Miss Haynes, did the legal work.

Miss Haynes is now visiting in Plainview with a sister, Mrs. Mary Daniels. Haynes has two sons, Jim, Eagle Pass and Jack, Lubbock.

League Announces Tournament For Softball Opening July 17

Fore-shadowing the Floydada league softball news this week, is the announcement by Gene Collins, president of the softball league, that the yearly invitation softball tournament will begin here July 17, with the prospect of being the biggest and best yet on the home diamond. Plans are being made at the present and there is nothing definite on the number of teams that will enter, although Mr. Collins said he wouldn't be surprised to see a 16 team tournament.

The play will get under way this year earlier than in previous years so that the teams will be through in time to enter other tournaments that will undoubtedly be held later. The date was set in a meeting of the managers of local teams last week, and plans were made to set the lights for higher efficiency, and possibly addition of more lights and a fence. Invitations are being sent this week to date four teams from Floydada have entered and as soon as the managers and players of the out-of-town teams have time to talk it over, more entries should start coming in.

This will be a double elimination tournament. Entrance fees will be \$12.50 and there will be prizes for the first four teams. First prize \$100.00, second prize \$75.00, third prize \$50.00 and fourth prize \$20.00. Each team is allowed 15 players and the roster will be closed when it is turned in before the first game. This week ends regular scheduled play in the Floydada Softball League, with only a few make up games to be played as agreed by the managers.

In the games scheduled this week and Thursday night (tonight) Lunch Box will try the McCoy jrs. here. Monday Lunch Box meets REA here and Tuesday night Ralls challenges Builders Mart here. Friday night Builders Mart has a double header scheduled here. In the opener, they meet Providence and in the second game they will try the Outlaws in a five-inning game. The first game is scheduled to start at 9:00 p. m.

In the games played last week, REA traveled to McCoy Thursday and nosed out the Jrs. 4-6. Friday Builders Mart beat the McCoy srs. at McCoy 12-9 and Monday Builders Mart defeated REA 9-1.

Road Bond Case

county authorities to go into the matter and issue a writ of error. A revision of the agreement with the State Highway department is due to be made which will permit carrying out the plans for the construction of the roads but with funds other than the road bond funds for the particular mile covered by the restraining order of the courts.

Roads which are due to be built under the agreement of the Commissioners court and the State Highway department include: (1) Road south from Highway 70 at Lockney to Pleasant Valley school, and west two miles and a half mile south; (2) Road south from Dougherty to approximately Crosby county line. This mileage would be joined up with a state-sponsored construction job that would extend north from Sand Hill two and a half miles approximately, and west from Sand Hill to Barwise about three and a half miles. If the plans now on the board are carried out all of these pieces of road will be let in one contract not later than next spring.

Weather and Crops

Rains Wednesday night of last week through Tuesday night of this week have given Floyd county an ample season for all purposes in practically every area, and in a few spots, notably across the north and east parts the rainfall has been excessive and damaging to small plantings.

At Floydada 81-hundredths Wednesday night of last week, 18-hundredths Monday night and 95-hundredths Tuesday night. The extreme northeast corner has had 10 inches or more, Lone Star has had three to six inches. Every community in the county reports encouraging conditions and flourishing row crops, with wheat ground wetting down early for killing a volunteer crop.

Mr. and Mrs. W. L. Hallmark and children of Lamesa; Mr. and Mrs. Charles Ryals and children; Mr. and Mrs. Floyd Lawson and children; Mr. and Mrs. Gene Lawson and son were week-end visitors of Mr. and Mrs. Floyd Ballard.

BOYCE HOUSE "GIVES YOU TEXAS"

A happening that I read about in a newspaper when I was just a boy: A man wrote a letter proposing marriage, and the girl replied, accepting. But she did not hear from him further and, after several years, she married another man.

When she was an old woman with grandchildren and her former sweetheart had long since drifted west and disappeared, the post-office was being remodeled—and an ancient letter was found. It had slipped down between the mail case and the wall. It was the letter she had written—he had never received it.

How different many lives might have been!

The linotype operators who have set up this "column" each week may think they have it tough—but at least it comes to them written on the typewriter. Suppose they had to set up Horace Greeley's editorials, which were written in pencil and were almost undecipherable!

In an article, the famous New York Tribune editor Shakespeare's line, "Tis true, 'tis pity and pity 'tis, 'tis true." The printer did his best to read it and here is the way the line came out in the paper:—"Tis two, 'tis fifty, 'tis fifty-two, 'tis two."

Henry W. Grady was another who wrote a very poor hand, the reason being that the Georgian wrote with such rapidity. A letter addressed to "Mr. H. W. Crookedmark, Atlanta, Georgia," was delivered to him. And he was the man it was intended for.

Which reminds me of a story about Henry Ward Beecher. The great preacher was in the pulpit and, before beginning his sermon, was making the announcements. Someone handed him an envelope. He opened it and read aloud all that was written on the piece of paper, "The biggest fool in the city." The congregation laughed.

Beecher said, "My friends, I have often heard of people so absent minded they write a letter and then forget to sign their names but this is the first time that I ever knew of anyone signing his name and forgetting to write the letter."

SNAWS BACK FROM WEST COAST TO MAKE HOME AGAIN

The Tom Shaws are back from the west coast to make their home at Floydada once more. Mr. Shaw has been here for several weeks and Mrs. Shaw joined him here last week-end. They have bought the J. B. Bishop residence at 321 West Mississippi street, where they will be at home as soon as the Bishops can find a place to live and give possession.

A brother-in-law of Mrs. John Reagan and Ard Howard, A. G. Reeves of Lubbock, has been very ill in the Lubbock Memorial hospital for several weeks. He suffered a stroke about three weeks ago. Mrs. Reagan and her brother Mr. Howard have been visiting his bedside at various times. They were in Lubbock Tuesday to see the sick man.

During several years residence at Prosper Hill, Rev. Hill was pastor of a church there. Miss Rena Taylor and a friend, Miss Whitden of Portales, New Mexico, were in Floydada for a few hours yesterday. They had been to Dallas to visit relatives and were on their way back to Portales. Miss Taylor was the church secretary for the First Baptist church when the Rev. L. A. Doyle was pastor.
