There is a good deal of indignation among the women of the homes of the country, joined less volubly perhaps by their husbands, over the official pronouncements last week that "there's nothing to worry about." Everything is coming along all right in the Korean "incident," was the implication. Meanwhile the news was filtering back home to the effect that the youngsters who had been sent out to Japan for occupation duty and knew little or nothing about a shooting war were being baptised in their own blood over in Korea. Every woman expects her son to have to fight when fighting time comes and there is no knowing to which lot shall fall. But for the kids to have to battle with insufficient backing or planning or ammunition and be shot or captured is something not nothing to worry about. So goes the thinking in the homes. The pentagon has spent literally billions but is short of ammunition for even a punitive or token expedition. Somebody better get on the ball if they want the women on their side!

**Scared Does It.**—Thousands of people in Texas and the United States in the past week have spent millions of dollars for things they think they must have within the next few years. Tractors, combines, plows, refrigerators, washing machines, homes to live in, are some of these. Also automobiles and automobile tires. Some of these the people have bought right down to the last nubbin. They are not going to get caught short this time, they think. Scared is the word, scared they'll get caught short. Scared they won't have machinery and can't make a crop a year or two hence. Scared there won't be any tires. The fact is that every war brings on new problems and new complexities. What the people expect usually never happens. It is what you do not expect that catches you with your plans down. Isn't that right. But anyway the scare has made a billion dollars worth of business for people in the retail trade unexpectedly. Foresight doesn't do any good in a case like that.

To our thinking America may be, most likely will be, at war for several years with no war declared. Our youth and our substance must be given over to meeting brute force with brawn and brain. Apparently there is no escape. And we must do it with an inefficient, bureaucratic government continuing to sap the vitality of our strength. You must work with what you have to work with when the crisis comes. The Kremlin-inspired swash-bucklers are only begun. What we will be and how we shall survive, the kind of government we will have to impose on ourselves

is only known to the future. It is not too kind a thought the way the fates have dealt the cards to a peace-loving people.

Presuming that the rainy season has run its course for the present, a brief look over the county finds an occasional community, like in the immediate vicinity of Floydada slightly lacking in enough moisture in the ground to take care of feed and cotton through a long dry spell. But for the most part of the entire east plains moisture up to five or six inches has fallen, there is some water in the lakes. In the extreme north part of the county and the southeast the rainfall has been heaviest. Last mid-week some cotton men were looking askance at fields that were covered with water and needing to dry out. Perhaps there was never a better prospect for a feed crop as at this time. Some forage feeds are far enough advanced that a fair crop is assured, and on the other hand there is some acreage where the grower has lost a crop in the water or the weeds and wonders what he is going to do with the land. In part of the Edgin country some fields were rather badly washed by the flash flood two weeks ago.

First primary election day is just around the corner — a week and two days, to be exact. This year the legislature has set Tuesday, July 25, only three days including one Sunday, for the county committee to have all the returns in hand and have them ready to certify local and mail state returns in to the state committee for checking and certification. This means the election holders are going to have to be kind to the county committee and have their official returns in quickly after the election is over. It also means some Sunday work for somebody doing a checking job. For not only has the time limit for making the official canvass been cut, but also the law in recent years has been revised to make it mandatory on the county committee in its pursuit of the returns to "include an actual checking and comparisons of the voting lists with the tally lists and return sheets, and a mere tabulation of votes shown by the return sheets shall not be deemed a compliance with this provision." The legislature was told that a considerable bit of laxity and carelessness has been apparent in recent elections. The effort to eliminate this sloppy way of doing business resulted in putting another bee on the county committee.

# Make Every Peach Count

PEACH STATION, July — Peaches are now being harvested in Texas, but the total crop is smaller than usual due to the unfavorable weather during the winter and spring. Louise Mattingly, nutritionist and director of the Texas A. & M. College, says that peach growers should bear this in mind and make the best use of the small crop that is harvested.

She says don't let that "skin on the peach" mislead you when selecting peaches. Taste peaches ripen from the outside inward and it is the poor varieties that ripen from the inside to the seed.

Ripened peaches have a more pleasant flavor because the fruit has had an opportunity to ripen, adding the luscious taste that is just when the peach is before they are marketed. She says fruit that is harvested it is well matured never soft even when canned. Ripened peaches must be handled with care for they bruise easily and deteriorate rapidly. They should be, according to Miss Mason, eaten, canned or frozen as soon as possible after picking. If they must be held over for several days, keep them in cold storage at 36 to 40 degrees F.

She says the delicious flavor is reason enough for eating peaches but they also supply needed vitamins. At the peak of ripeness, they supply a fair amount of vitamin C, some vitamin B and yellow peaches contain vitamin A. They also contain needed minerals.

From a nutritional standpoint, Miss Mason says each person should get a serving of at least two fruits per day and peaches can be used to fill at least a part of the bill.

For breakfast, she suggests serving a bowl of prepared cereal with sliced peaches and cream; for dinner, a peach chiffon pie or an old-fashioned peach cobbler will taste mighty good to the family and for supper, you might try fresh sliced peaches and cream, frozen peach salad or a cottage cheese and peach salad. Canned or frozen peaches may be substituted for the fresh fruit, she adds.

Other suggested ways of serving peaches include, peach shortcake, peach ice cream, peach sherbet peach upside down cake, boiled custard and peaches, peach torte, peach tarts and on fruit plates.

She says be sure there are some canned peaches, preserves, peach pickles and peach butter on the pantry shelves for use when the fresh peach season is over and don't forget to stock the home freezer or locker box.

Miss Mason suggests that you visit your local county home demonstration agent if you need information on preparing and preserving peaches.

## As A Farm Woman Thinks

By Nellie Witt Spikes  
How Good Can A Little Town Smell  
By Elaine V. Emans

"How good can a little town smell," you said  
And I who love one, too, know what you mean.  
Sometimes the wind across a peninsula bed  
Is purple-sweet; sometimes upon the clean  
Crisp air of Main Street bakery smells comes down,  
Whetting the appetite; sometimes the burning  
Of leaf mounds in October wraps the town  
In one thin blanket of smoke. To each discerning  
Nose, various parks and streets are redolent  
With conifers or locust, basswood, plum,  
Around the year. And where else is earth's awakening so quickly  
As unto a small town . . .

We had planned such a sane holiday. Others might take risks. Not us. O, not getting out on crowded highways where cars whizzed by each moment. But later we wished for the cars . . . but let me tell you what happened. We went out to stay the night with Wilda and John on the farm. We would bring Dale Wayne back with us and they were to leave early to take Margaret Nell to Lubbock to get her tonsils removed.

At four the next morning dark clouds poured in from the north. I dressed hurriedly, got Mr. Spikes up, somewhat against his will, and started for the pavement. I drove fast and rain began falling. To the Come road we came and with thankfulness turned down it. Rain began falling in sheets. I should have stopped but it was only three fourths or so of a mile to safety. The road was covered with water in the middle but the sides looked black. Thinking I was still on the road, I gently slid down into the ditch and there we were, safe from being hit by another car or running into someone else. We were dry and warm.

How close the top of the road looked, but the wheels just could not make it. We got to see a good rain

### CARR'S CHAPEL WSCS

The Carr's Chapel W. S. C. S. met Monday afternoon July 3 at 3 o'clock in the home of Mrs. M. D. Ramsey. Mrs. M. Carr brought the devotional. Singing was led by Mrs. Donald Pinkner with Mrs. C. A. Williamson at the piano. Mrs. Wesley Carr gave an interesting talk on "A Story of Israel."

Those present for the meeting were Mrs. C. B. Lyles, Mrs. M. Carr, Mrs. Zant Scott, Mrs. Roy Hollums, Mrs. Williams, Mrs. W. Carr, Mrs. Finkner.

Mrs. Ramsey served refreshments carrying out the July 4 color scheme.

Leslie Surginer, of Washington, D. C., who has been here visiting his parents, Mr. and Mrs. I. C. Surginer and his grandmother, Mrs. C. Surginer, left Monday for Westaco, where he will join Mrs. Surginer. She has been here to attend the funeral of her mother Mrs. C. W. Gound.

Mrs. Wanda Banker, of Dallas is here visiting her father N. A. Armstrong and her sister Mrs. W. D. Johnson and family.

fall which is something out of the ordinary. At four o'clock in the morning, Mr. Spikes got to give me plenty of advice as how to drive and act on muddy roads in the dark of the night. Anyway his sleep was not broken into as he always claims he does not sleep after four, but I am sure he had rather spend it in bed instead of a bar ditch. I tell you Mr. Les Tomme looked pretty good coming down with his tractor about seven o'clock to pull us out. So without further accident we got through another safe and sane Fourth of July.

Margaret Nell is doing fine. We miss Dale so much. He is only twenty months old but he acted much older while he was visiting us.

In the days when a palmetto fan was the only air conditioner on the market, when you drive to a man's house in the summer and the doors were shut, and in the winter when no smoke was coming out of the stove pipe, you knew at once there was no one at home. Not so these days. No smoke comes out in winter and the doors

are shut so the air conditioner will cool the house. . . .

This morning I was out in the yard at work when I heard, "grandmother, grandmother," and a tall boy came running across the yard and hugged me tight around the neck. Then Anne came and kissed me. Carey and Anne are our grandchildren who live in Beeville and they came in by plane yesterday to visit their father, Dr. Spikes. I had to look up to both of them and the three are having a grand time. Carey knows he can run the Ford tractor as well as Joe and is very eager to start trying.

Thanks also, Ivy Pearl Simmons for our gracious note of appreciation. Here are some quotations for you:  
"Poetry is simply the most beautiful, impressive and widely effective mode of saying things, and hence its importance."  
"It is an honest heart speaks to

a precious friend,  
And yet it sounds like purest poetry."  
"A vein of poetry exists in the hearts of all men."  
"Many are our joys  
In youth, but oh! what happiness to live  
When every hour brings palatable access  
Of knowledge, when all knowledge is delight,  
And sorrow is not there."  
In 1940 the U. S. census showed Hawaii's population to be 423,330.

### Hart Asks Citizens to Re-Name Him As Sheriff of County

TO THE CITIZENS OF FLOYD COUNTY: As you all know, the time for the primary election will soon be here, and to let you people know that I sincerely and earnestly solicit your vote in this election, I would like to briefly review some of the reasons why I feel like I can continue to make you a good sheriff: I have lived in Floyd county for the past thirty years, I spent two years in the army in the last war, and spent one year of that time overseas in the European theater. I have had experience in the law enforcement of our county, and if

you should see fit to re-elect me to this office, I will continue to enforce the law and do my best as your sheriff. Due to the work in this office, I have been unable to come out to visit each of you at your homes as I would like to have done; however, I hope that you will consider this a personal request for your vote and influence. In order that I could properly attend to all of the duties of this office, it has been necessary for me to employ clerical help, at my own expense, to be assured that all of the duties of this office are carried out, and for this reason, it has been my belief that the people of this county prefer me to stay on the job where I am needed.

Again, let me say that I solicit your vote and influence in the coming election on July 22.

Very Truly Yours  
Leland A. Hart

# Must Make Law Work, Speaker Tells Farmers

LUBBOCK, July—With petitions circulating throughout the county, Lubbock farmers are moving to form an underground water conservation district under House Bill 162.

They took the action July 6 at a meeting addressed by W. O. Fortenberry, New Deal ginner and president of the Lubbock and High Plains water associations; L. A. Howard, Lubbock lawyer; A. P. Duggan, Jr., Littlefield lawyer; and Raymond Lee Johns, Plainview representative of the West Texas Chamber of commerce.

Fortenberry told the farmers that the high plains water conservation and users association, which steered House Bill 162 through the 51st Texas Legislature, "Can't represent you again in Austin if you

don't make this law work." The conservation district law was substituted for legislation seeking state control of water. The present law guarantees private ownership and provides for a conservation program carried out by local, independent water districts. "This is our own program, we asked for it, and we must make it work or take the consequences," Fortenberry declared.

## Floyd County Vocational News

The Floydada agriculture class has been experimenting with Sodium TCA as a spray in the controlling of Johnson grass, blueweed, and bindweed, said N. S. Abbott. Tests were made on the farms of Bill Ferguson, Clifford Helms, and Glenn Jarnagin. The spray was applied at the rate of 1/2 pound of chemical to 1 gallon of water per 100 square feet. Spraying was made June 22 and 28 with a 3-gallon knapsack sprayer in spot applications.

Also, the class has been making infestation counts in cotton fields for insects. In all of the fields checked there has been found thrips some aphids and fleahoppers. The class has been studying cotton insects; how to identify them and how to control them, said Abbott.

## Views on Farm Program Given by McDonald

Veteran Commissioner of Agriculture, J. E. McDonald, has definite views on a national farm program.

He believes in a two-price system for marketing agricultural products — a full parity price for that portion allotted for consumption in the United States, this allotment to be made in units such as bales, bushels or pounds and not in acres — and the farmer left free to produce in excess of American needs for sale in foreign markets at world market prices.

McDonald believes that each commodity should finance its own program.

"Cotton should finance the cotton program," McDonald explained, "wheat the wheat program, etc., making it unnecessary for Congress to appropriate funds out of the Federal treasury."

"This program would enable the American farmer to have purchasing power with which to live by American standards and, at the same time, place him in the best position to maintain and extend foreign markets for our agricultural products, which is so essential for full employment on the farm and in the factory."

"Any farm program that does not benefit other essential American groups as it does the farmer himself will fail and should fail," according to the Texas Commissioner of Agriculture.

"Statistics show that only with a prosperous agriculture can we have national prosperity and full employment," McDonald stated.

## Fagan Dickson Asks Supr'me Court Vote

More than seven years of fighting the people's battles against monopoly, waste of natural resources and public school fund raiders as a key member of the State Attorney General's office has earned him a promotion, says Fagan Dickerson of Austin and San Antonio, candidate for the State Supreme Court, Place One.

Three attorneys general appointed Dickerson to head departments. Jerry Mann made him chief of the land division. Grover Sellers made him head of the oil and gas division. Price Daniel made him first Assistant Attorney General.

Dickerson resigned as Attorney General Price Daniel's first assistant last year in order to make the race on his own time.

First of the Fine Cars in Value

**This one Telescopes your Timetable**

OF course you recognize it. Who doesn't know that those four Ventiports, that graceful sweep of fender-chrome, mark ROADMASTER—best of all the Buicks, unquestioned "big buy" of the fine-car field? But have you tried it? Have you matched this sweet-stepping bonny against the tall hills, and the call of the straight-away? Ever toiled it across town—and seen how Dynaflo's quick surge and smooth take-off slip you through traffic with minimum of foot-motion and maximum of timesaving? Ever known the good feel of a light and easy wheel, swinging almost at a finger's touch—the soul-satisfying lift in a big 152-hp Fireball engine just waiting for the release your toe-pressure gives it? Ever sampled that famous Buick ride—steady, level, unperturbed, soft with the special gentleness of coil springs on all four wheels, sweetly restful in both front and rear seats? There's no reason, really, to wait longer for such satisfying experience. There's a Buick dealer near you. He delights in showing off ROADMASTER. He'll arrange—unless all his demonstration cars have been snatched away from him by eager buyers—to put you behind a ROADMASTER wheel. Why not see him now—to find out what's finest in today's fine cars and how little it takes to buy one.

# Be Sure To Attend Church Regularly

**STOP!** That means you, and it means now, and it means right where you are. How difficult to do it! We are all in such a rush; but where are we going? You've got to stop before you can either look or listen. To stop means to do a little thinking, perhaps even to meditate or to reflect. That is almost a lost art among us. "Be still and know that I am God"; that is, stop to discover where you stand with reference to God and with reference to what you are living for; that is, where you are bound for. Who are we? Animals that must be fed and given bodily care? Or are we eternal children of God on the way to Destiny, and a Destiny beyond the stars? There must be "rests" in music, in order for phrasing and color; there must be a "pause" for that which refreshes the soul. Stop, then, for careful looking and for listening.

**LOOK!** What are other people doing around you? Who is travelling the highway, and how fast? Is he doing wisely? Do you want to be caught in the same traffic jam that appears in the distance? Has it ever been true that "broad is the way that leads to destruction, and many there be who find it"? Is it a wise policy to let the crowd do your thinking for you? Where so many do so little thinking and that too late, ought I to be more thoughtful, especially about the more important things? Shall I learn by the experience of the race? Is the end of the way fairly clear to those who will look?

**LISTEN!** There are warnings aplenty for those who will listen. What does the alcoholic have to say about the first drink? He knows; listen! What does the embezzler have to say about the careless use of another's property? What does the killer have to say about hatred in the heart? Listen! Then, on the other side, the wise teachers of the race, who have chosen the straight and narrow path, where too few were travelling, they add their counsel. Christians are women and men and children who have decided to listen to Jesus of Nazareth. This is a good time to read the Sermon on the Mount. Hear Him! Then choose the path along which He will walk with you.

## Miss Graves, Marvin Standefer Take Vows in Church Ceremony

Miss LaRue Graves, daughter of Mr. and Mrs. I. T. Graves and Marvin Standefer, son of Mr. and Mrs. A. M. Standefer of Lamesa, were united in marriage Thursday evening at eight o'clock at the First Baptist church, Rev. Earl Allen, pastor, performing the ceremony.

Preceding the ceremony, Mrs. Clement McDonald gave organ selections from McDowell, and for the ceremony she played, "O Promise Me," "Ave Maria," and "Meditation from 'Thais.'" For the exchange of vows she played "The Lord's Prayer." She also rendered the traditional wedding marches. Miss Molly June French sang, "I Love Thee" and "O Perfect Love."

The vows were exchanged in a candle light ceremony before an altar of feverfew, pinus and white gladioli, in tall white basket containers. Tall white tapers burned on either side of the arrangement.

Candles were lighted by Louise Herrington of Lamesa, niece of the groom and Gordon Tom Graves, cousin of the bride.

The bride, entering on the arm of her father, who gave her away, wore a bridal gown of white marquisette, designed with long sleeves tapering to points over the hands. A deep ruffle of marquisette framed a yoke of sheer marquisette giving an off-shoulder effect. A full skirt was gathered to a fitted bodice, and the long train was designed with matching ruffles of marquisette. Her veil was of imported English illusion, made with three tiers, the edges scalloped and falling from a itara of pearlized orange blossoms. For her bouquet, the bride carried a cascade bouquet of stephanotis, centered by a white orchid.

The bride's attendants, who were Mrs. Perry Bell of Canyon, her sister, matron of honor, Mrs. Richard Stripling of Lubbock, Miss Betty Denny, Iowa Park, Miss Betty Buchanan, Perryton, Mrs. Lane Decker, Miss Mary Eunice Hennessee, Floydada, and Marjorie Oden, Dallas, were gowned identically in white starched chiffon over green taffeta and carried colonial bouquets of lilac, maroon and feverfew and statia. The flower girl was Marilyn Boswell of Waco.

The groom's best man was Myron Kattner and the groomsmen were Glenn Woodruff, Matador, Richard Stripling and Harold Lambert, Lubbock, M. L. Standefer, cousin of the groom, and Owen Taylor, Jr., of Lamesa, and Fred Whitmire of Lubbock.

A reception was held in the parlor of the church, where the bride and groom assisted by their parents and their attendants received the guests.

Mrs. D. W. Douglas played organ selections during the reception alternating with Mrs. Clement B. McDonald.

Mrs. Henry Barber and Mrs. Jack Seale of Crowell presided at the wedding cake while Mrs. Clarence Guffee and Mrs. Grady Graves of Crowell were at the punch service. Guests were registered by Miss Doniece Cline. Also assisting in the

house party were Mrs. Ralph Johnston, Mrs. Earl Allen, Mrs. Alton Chapman, Mrs. J. D. McBrien, Mrs. J. V. Daniel, Mrs. H. S. Calahan, Jr., and Mrs. Jess Patterson.

For their wedding trip to points in Colorado, the bride wore a navy summer wool suit with bolero jacket trimmed in white pique. Her hat was of matching white pique, with white gloves and navy accessories. Her corsage was a white orchid.

Mr. and Mrs. Standefer will make their home in Floydada at 215 West Virginia street. Mrs. Standefer will teach in the Floydada schools next year. She taught at Rails this past year. Mr. Standefer is field executive of Blanco district, Boy Scouts of America, in an area of 13 counties. He is a graduate of the Lamesa High school and Texas Tech. college. He served for two years in the

### Lighter Side Bio Picture Commented On

State Health Officer Dr. Cox has turned the bright side of the heretofore gloomy picture of polio in Texas. He says that the state's 1000 cases since the year's beginning are a record among a population of 7 1/2 million people, the official Thursday deplored the incidence of hysteria that polio has caused in a community.

Dr. Cox didn't mean people should be concerned, the doctor commented, for a case of illness in any good reason for great concern.

Dr. Cox is talking about the fear that a person or a whole community has of polio. "Of each case of polio is an individual tragedy for the family and a wholesale public panic is not justified."

Dr. Cox doesn't want to encourage, however, the state health officer said, adding: "Every clear-thinking effort must be made to keep every home, every family, every vacation camp, every school, every public place, every place, personal and insect, and getting milk, water and food safe, approved sources in preventing a number of communicable diseases."

Dr. Cox said that, according to the figures, from 40 to 60 per cent of all victims recover completely and can do anything they wish.

Dr. Cox said that 25 to 40 per cent recover with only minor disability, and can lead very wide limits, lead normal lives. From 15 to 20 per cent are more severely handicapped and 5 to 10 per cent terminate.

Dr. Cox said that polio is a minor cause of illness, and that the state health officer said, adding:

and an even less significant cause of death, "when compared to certain other communicable diseases," the health officer concluded.

### Will Wilson Drives For Supreme Court

AUSTIN, July 8.—Texas has seen much of Will Wilson of late. The Dallas county district attorney, who is candidate for the supreme court, has campaigned vigorously in West and South Texas since he announced his candidacy in Austin the latter part of May.

Wilson returned from World War II service in the Southwest Pacific with a desire to enter public life. He was elected Dallas County District Attorney in a five-man race in 1946, and re-elected two years later by an overwhelming majority.

His drive in Dallas against organized crime has attracted national attention.

Mrs. E. B. Mayhew left Monday for Quanah, where she is guest this week of cousins and friends, and will make a round of visits in Texas, Oklahoma, Missouri and Arkansas before her return home the latter part of August.

At Oklahoma City Mrs. Mayhew will visit relatives and friends and at Tulsa, she will be guest of her only sister, Mrs. I. C. Casey. Next she will see the scenes of her old home at Bentonville, Arkansas, again and will be guest of a cousin there. Before her return also she will visit with a niece at Marshall, Missouri.

Mrs. Lucile Allred had her son, Renne Allred, Jr., visiting her for the past week. Renne has been stationed at Tucson, Arizona, but has received his overseas orders and expects to leave for the far east in about a month. Mrs. Allred and her son visited in Galveston the first of the week.

Mrs. Clarence Hill of Plainview, mother of Mrs. Clarence Guffee, Jr., had a major operation at the Lubbock Memorial hospital Tuesday. Mrs. Guffee has been with her mother for the past week.

### Newspaper Claims Ramsey Is Leading

Ben Ramsey, former Secretary of State and candidate for lieutenant governor, is moving into the favorite's position in the race, the Lufkin Daily News said in an editorial. As Ramsey completed another campaign swing in his whirl-wind

tour of the state, he reported that although the news from the Korean battlefields had overshadowed interest in politics, he was still encouraged by the pledges of support he was receiving across the state.

Mr. and Mrs. Bob Smith and Mr. and Mrs. Ham Smith attended the funeral of a life long friend, Mrs. John Price of Addington, Oklahoma, Sunday. Mrs. Price was ninety-three years of age.
