EDITORIALS

The Hesperian runs into little of the (vocal at least) type of criticism which this newspaper points at the pentagon and No. 1 defense authorities, including the president and commander in chief of the armed forces, for spending between \$40 and \$50 billion dollars for defense and then not being ready for defense when it came time. To us it seems that the taxpayers are looked upon as silly chumps from whom the authorities can take so many billions that you can't imagine it and then be chided for providing in such niggardly fashion for their country's armed forces. To us it means that the federal government spent the money for something else than defense. This may have been what Congressman George Mahon was looking at when he made the cryptic statement six months ago, "it presents a problem in democratic government." The congress appropriated for certain things which the president and the defense hierarchy vetoed by simply not spending the money, but spent it for something else, "housekeeping," it has been suggested. Now the shoe pinches and the country has been "niggardly" in providing only forty some odd billion for defense in four years. Just now how much would the pentagon consider liberal is our thought. This, we admit, does not seem to be a popular question. When the congress takes another ten billion off the myriad two by four business establishments (and others) of the country where will it be spent?

How to go about getting a fair shuffle and a square deal in the forthcoming legislative re-districting of Texas might well be the subject for study of Floyd county people and plainmen in general. For now is when the matter is being settled. We mean in the race for lieutenant governor. The telephones have been busy ever since first primary election night. The lieutenant governor will name the committee which will steer the redistricting measure through the state senate. Pierce Brooks and Ben Ramsey have been doing some tall competitive trading in the past week. Whichever one out-maneuvers in this preliminary competition may be the winning finalist and the man who says who gets what when re-districting day arrives next year. Floyd county is left flat-footed even before the preliminary sparring of the first round is over. Nobody in Floyd county is in position to offer on a guaranteed basis votes to anybody. But in organized areas there are guarantees being made, and when the time comes the winner will deliver. Nothing rotten about it, just plain, practical politics.

A lot of men miss their wives cooking every chance they get.

The first war tax bill is being written now. A big battle is going on as to who will get what in which business segment's neck. The rates will be increased, of course. One report says the withholding tax on corporate dividends and cooperative patronage dividends will be retained. Also to be retained is the taxation of business earnings of colleges, charities and labor unions, as has been written in the tax bill already about completed when the war scare broke out. The committee is said to be considering some provisions that will stop loopholes in the old law, among these the taxation of cooperatives. A good many taxpayers who are competitive with the coops have formed an organization, which makes the claim that while they paid war-time taxes up to 85 per cent the cooperatives escaped hundreds of millions in taxes. Their slogan is it must not happen again. No one, they say, should be allowed to make tax-free profits in war-time. The cooperatives probably have about a fifty-fifty argument on the matter of coop income tax payments; but if the congress makes a "corporate" withholding tax statutory it should also make a "patronage" withholding tax effective. A taxpayer is a taxpayer and income is income, regardless of who is the recipient.

One of the main troubles in a modern war are the hoarders. We have a friend who whipped out and beat them to 12 sheets and five sets of pillow cases last week. Our intentions are to head them off this week-end on a pair of shoes. Bids will be accepted on one pair with an option of two to and including Saturday night at 9 o'clock. Subject to acceptance or rejection depending on how many subscribers drop in and advance their subscription expiration dates between Thursday and Saturday at 4 o'clock. Office will be open for new and renewal subscriptions until a later hour for those who are tied up with their farming or other business operations. A man can't go barefooted through a whole war. Merchandisers who submit bids on the shoes should keep in mind that we'll be in the market later for some kind of footwear to take us through a hard winter.

The women of Floydada hung out their washings with confidence last mid-week—Thursday and Friday. Then it was that the radio weather announcer said abundant showers would "follow the trough." The women knew the trough had already gone by during the period the weatherman said there wasn't any trough, and it had rained out all the clouds. Empties rattling overhead do not drop moisture.

Taxpayers Ratify Bond Assumption, Maintenance Tax

Following the consolidation of a portion of the Fairview "dormant" school district in June, taxpayers of the consolidated district July 24 ratified the action of the county board by voting "for the assumption of the payment of the bonds," "for the bond tax," and "for the maintenance tax." Fifty-eight votes were cast, all for the three issues.

In the consolidation the board placed 56 sections of the Fairview district with Floydada district and 15 sections with Dougherty district. The votes which have followed each successive consolidation effected by the board are to make the debts of the consolidated district, together with taxes for bonds and for maintenance, apply equally to all of the area.

First of the Fine Cars in Value

Even Wiser than He Seems

PLAINLY, here travels a man wise in the ways of fine motorcars.

You know that, by the four Ventiports and the rich sweep of chrome which mark his car as a ROADMASTER.

You know it, should you trail him on the highway, by the smooth lift of the big Fireball

power plant at his toe's command, by the obvious levelness of the ride he enjoys, the swift ease with which Dynaflo Drive solves his traffic problems.

What is not so plain from what you see is that here also is a man very wise in what today's dollar should buy!

For this man has all that a fine-car owner can ask for—brilliant performance, a ride without equal for gentle softness, finger-easy handling, abundant room all around him, styling that is easily the most distinguished on the highway.

Yet he paid considerably less than comparable merit costs elsewhere.

He found fewer extra charges in his delivered price, with such things as Dynaflo Drive, foam rubber cushions, windshield washers, electric clock, even non-glare rear-view mirror included in the price.

If you know fine cars, it won't take fifteen minutes behind a ROADMASTER wheel to see that here is one of the finest.

If you have inquired about prices, a single glance at the delivered figures establishes this as the big buy of the field.

Why not make both checks—especially since your Buick dealer will be glad to arrange a trial run in a ROADMASTER any time you care to call on him?

Only BUICK has
Dynaflo-DRIVE*
and with it goes:

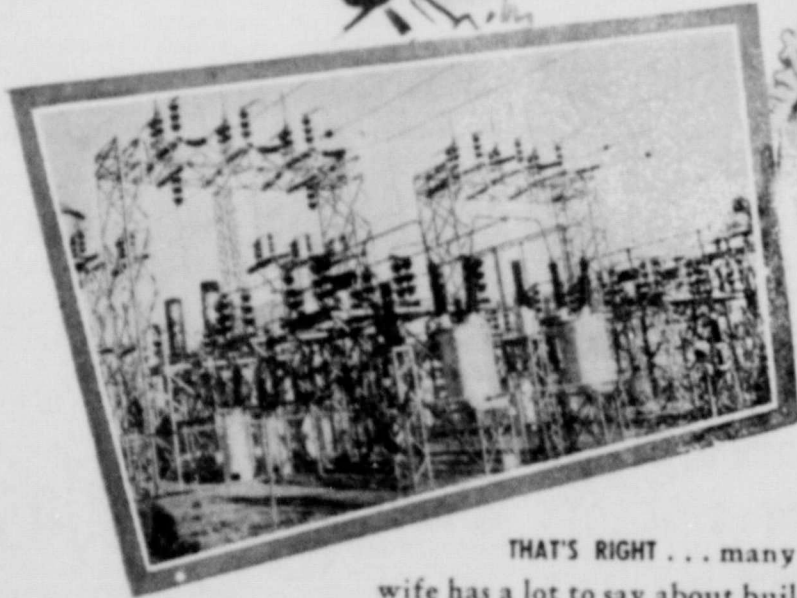

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

I help build
Sub Stations?

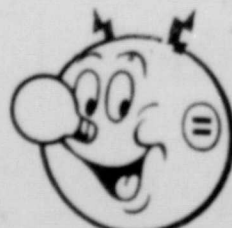

THAT'S RIGHT... many a housewife has a lot to say about building your Public Service Company.

How? Through her investments, of course. Whether it be a sub station or a service car, our company is truly "owned" by the stockholders—ministers, doctors, lawyers, teachers—yes, even you or your neighbor... and no one of them owns more than 2% of the total stock.

Perhaps you have a savings account—or a life insurance policy—it's pretty certain that some of those funds have been re-invested in your Public Service Company.

And so, you see, we really belong to the people. It's a working example of free enterprise... the system that has made America great and strong.

Yes, a penny's **BIG** money!

When you spend it for electricity, of course! That important little penny will do any one of these things for you . . .

- 1¢ ... vacuum clean 6 large rugs
- 1¢ ... toast 3 full loaves of bread
- 1¢ ... beat and mix 6 layer cakes
- 1¢ ... wash and dry 6 loads of dishes
- 1¢ ... bring you an evening of radio
- 1¢ ... light a 100-watt lamp more than 3 hours

It's amazing what your electric penny buys in comfort and efficiency and real living values. It takes a lot of skill and experience—yes, and sound business management—to keep electric service the biggest bargain in your budget today. (And this, remember, in spite of the rising costs of making and delivering electricity to you!) Truly, electricity does a lot for a little!

Bennetts Building Many-Room Home

LOCKNEY—A new, modern 10-room brick veneer home is now going up on the site formerly occupied by the old R. C. Bennett home three miles southeast of Lockney. The new home, containing about 3000 square feet of floor space, two and a half baths, and a double garage has an overall dimension of 61 x 83 feet. It will not be ready for occupancy for several weeks, according to Edwin Johnson, contractor.

Hardwood floors throughout, texton finish on the interior woodwork and a white trim outside feature the new home.

The old Bennett home had stood on the site for almost exactly 50 years, Mrs. Bennett said. Although it had been added to since the original construction, the major part of the house was built in 1900. Mrs. Bennett explained that she and Mr. Bennett lived in a dugout the first eight years of their residence here. He then traded some horses for a little two room box house which they occupied until they built their home in 1900.

James and wife left here last week for their home, where on Tuesday he was to report back for duty, as he is in the navy reserves. His station is unknown as yet.

Mr. and Mrs. John Lanier have returned home from a four week stay in Hot Springs, New Mexico, where they took the baths. They also visited in Ruidoso while away.

Mr. and Mrs. H. C. Love have been to Fort Worth, where they spent several days visiting their son, James A. Love and Mrs. Love.

Committee Checks First Primary Vote

The Democratic Executive committee of Floyd county last Friday morning, in a check of the first primary vote, found few errors in either the unofficial tabulation or in the returns made by the presiding officers and their helpers on July 22. The results were substantially as reported on bulletin boards Saturday night and Sunday following the heavy day of voting.

Only change made by the check in totals for local offices was in the race for county judge where one vote was added to the G. C. Tubbs total to give a final of 1103 instead of 1102, and five votes subtracted from the Frank L. Moore total to give 1298 instead of 1213 votes. Tubbs and Moore are paired in the only county contest slated for the August 26 run-off. The other local race will be in Commissioners Precinct No. One in which C. O. Spence and J. K. (Keller) Holmes are left of a field of five from which the Democrats will choose a nominee on the second primary.

Breaks Into Rhyme

Now, A. H. and Lillie Manning speaking: We enjoyed the day so much and just think, one of the bunch came 773 miles, not only to see dad, but to be present at our election party. Another came 423 miles, so you can see and know how they still think of dad, also Floydada, as they lived here long, long ago.

For some of their ages: oldest 60—two youngest (twins) 51. Five children, four girls and one well-spoiled boy. Oh, O grandchildren, you will have to guess, I don't know. Great grandchildren, more than a dozen. Great great grandchildren, not yet, so far as I know, don't hear from some of my folks for months sometimes.

Well, well, this mess of stuff, already too long, but I hope it don't hit the waste basket before print.

And now goodbye, until we meet again. May God bless and provide and protect you, until our next reunion, with our close kin and friends.

(Signed) A. H. MANNING.

July of 1951 Critical Date in Vet School

July 25, 1951, is a critical date in the education and training program under the Servicemen's Readjustment act, according to a letter received recently by the Floyd county Vocational school.

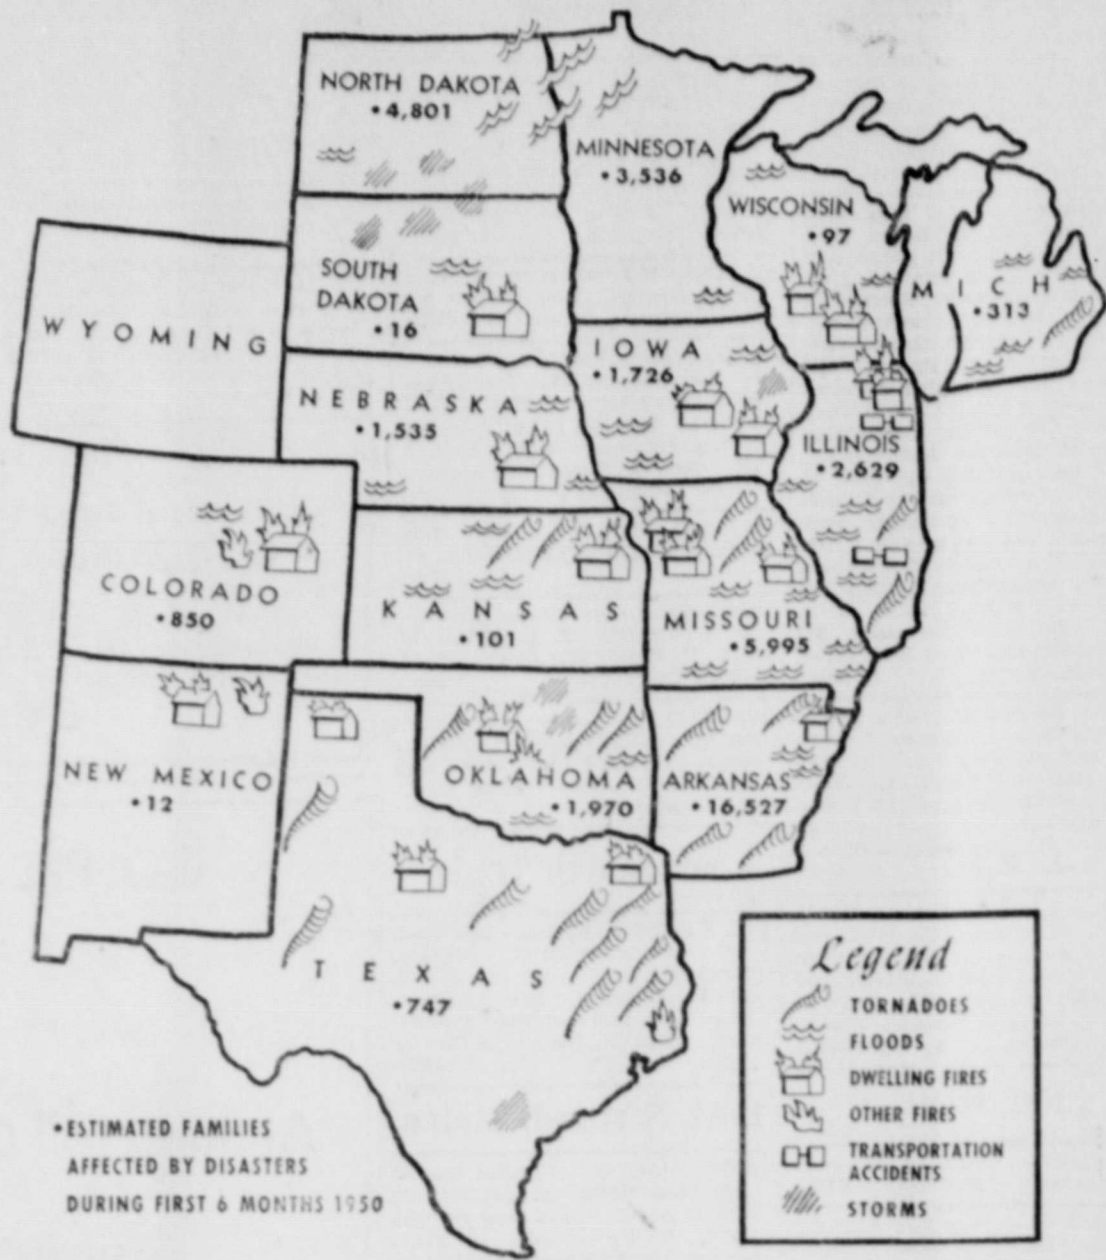

Veterans who are eligible for education or training and who have not undertaken such training under the Servicemen's Readjustment act, as well as those who have commenced but have not completed their course, may be vitally affected by the July 25, date. In order that all such veterans may be made fully aware of the importance of the date and of its effect on the education and training program, this regulation is promulgated at this time for the purpose of providing all such veterans with ample advance notice so that their plans may be made accordingly.

This regulation applies to all courses of education or training pursued by veterans on or after July 25, 1951, under the Servicemen's Readjustment act, as amended.

The law provides that a course of education or training shall be initiated before the termination of 4 years after the date of discharge or by July 25, 1951, whichever is the later, and that such education or training cannot be afforded beyond July 25, 1951, except for those veterans who enlisted under the Voluntary Recruitment Act of October 8, 1945. Therefore, a veteran otherwise eligible must have commenced and actually be pursuing his course of education or training on July 25, 1951, or the date 4 years after discharge, whichever is later, except where his attendance is interrupted because of the normal interruptions for summer vacations, or other reasons beyond the control of the veteran.

Please inform all veterans that you know of this information. Ask each veteran to contact the Floyd County Vocational school, Court House, Floydada, if he plans to receive training in this program. This is important since extra classes may have to be formed, teachers found, and many papers completed ahead of enrolling. According to this information each veteran must be in training by July 25, 1951 if he is to receive training under this program.

40,000 Families Affected By Disasters in 16 States, 6-Month Survey Shows—Floods, Tornadoes Cause Greatest Loss

ESTIMATED FAMILIES AFFECTED BY DISASTERS DURING FIRST 6 MONTHS 1950

Floods, tornadoes, storms, fires, and other disasters this year have struck an estimated 40,000 families in 15 of the 16 states comprising the American Red Cross Midwest Area, shown by the above map. Red Cross officials in charge of aiding disaster victims in the area report a number of disaster operations continuing into the second half of 1950. Largest continuing operations are in the North Dakota-Western Minnesota flood area, where Red Cross has provided continuous assistance since the end of March, with operations complicated by recurring floods and blizzards.

Group Climaxes Activities at Tuesday Meet

Youth activities week, which ended Tuesday, was a big success. Reports the youth leader of the First Methodist church. There was an average attendance of thirty to thirty-five young people from the Lockney-Floydada area, with their sponsors and teachers.

This meeting was the climaxing event of the summer's work of Travis Jordan, youth worker and associate pastor for the Methodist church. Travis left the first of August for his home in Amarillo, and will resume his studies at McMurry college in September.

A survey of the summer's program shows it has been a successful one. The fine co-operation of the young people with their splendid counselor Mrs. L. L. Clark, jr., the pastor and youth worker has made this possible. Recently Mrs. Clark and Mrs. W. E. Grimes aided by the girls of the

senior class, served the Rotary at two meetings. Thanks to Mrs. Clark Mrs. Grimes, and all those who helped, the young people now have a substantial refreshment fund.

Bob Crowell, because of his move to Littlefield, has been replaced by Bob Collier as teacher for the senior young people's class. Friday night has been set for the final re-creation event of this month. It was a skating party for the Methodist young people and their guests. The group left the church at 6:45 p. m. for Plainview. Young people from Lockney were also there.

There is a fine program every Sunday morning and evening and everyone is invited to attend. Members of the youth group are urged to attend and help this growing department to do even bigger and better things in the months to come.

To the citizens and taxpayers of Precinct No. 3: I am mighty grateful for the good vote in the July 22 primary in which you chose me to serve as your commissioner. I consider this expression of your confidence another call to duty in an important office and I will do my best not to fail you.

Mr. and Mrs. Clovis Myrick and family and Mrs. Joe Robertson Jr. and daughter Jolene, have returned from a wonderfully enjoyed vacation trip up to the snow-spotted Pike's peak in colorful Colorado, and onward to Cheyenne, Wyoming, Nebraska and Kansas City, Kansas, and Missouri. They also saw some of the wooded country in Arkansas, and came on through the oil capital state (Oklahoma) and to Blue Ridge, Texas, to visit with their brother, Gloy Myrick, and his family. The Gloy Myricks joined the party to come to good old Floydada to visit his parents, Mr. and Mrs. H. D. Myrick.

GLASS PULPIT FOR STEEL MILL

A safety-glass cage, or pulpit, as it is called, now shields rolling mill operators, at the Canton, O., plant of The Timken Roller Bearing Company, from the heat of passing white-hot billets and protects them against flying chips.

This safety measure allows an operator to concentrate on his work without the physical punishment that formerly was a necessary part of this job.

Electrical control switches on either side are arranged so the operator can move the enclosure up or down. Sliding panels permit an adjustment for ventilation. Controls were placed at the sides to permit full front vision.

Door Shock From a Switch Danger Signal

According to L. W. Chapman, manager of the Floyd County Rural Electric Cooperative, it is good advice and should be followed by anyone using an electric cooperative, the following:

Many times an electric shock may not cause any harm but the fact that it was unexpected causes the

a switch and gotten a slight, tingling shock? That is a danger signal which can only be ignored at your own risk. There is something wrong with that switch, wiring or appliance. What is only a tingling sensation can become a dangerous shock when the fault becomes greater or when you come in contact with it while your hands or feet are wet. Minor shocks should be treated as fortunate danger signals warning you to get something done at once. Not only will some repair work avert the danger; it will also get your appliance working efficiently without wasting power.

person to hurt themselves otherwise, such as falling from a ladder, jerking an arm into dangerous places, etc., Chapman pointed out.

COTTON COMPETITION

Any advantage that the United States may have held at one time in the natural and artificial factors of cotton production are not so important today, says P. K. Norris of the U. S. Department of Agriculture in reviewing a study of present conditions. As cotton specialist for the Office of Foreign Agricultural Relations, Norris finds that several foreign countries have now developed cotton production to the point where they are able to overcome some of the advantages long enjoyed by the United States.

"The question of the kind of cotton grown is an example," says Norris. "India, China, Brazil, Mexico, and several other countries, are now producing American Upland cotton. Much of this cotton is from varieties originally produced in the United States. A great deal of this cotton is ginned and handled as it is in the United States. In many cases, it is delivered to foreign spinners by merchants who deal in foreign as well as United States cottons. Only a few years ago some of these merchants were selling U. S. cotton exclusively. Today, they offer to their foreign customers American Upland cotton grown in many parts of the world."

Mr. Norris points out that the postwar outlets for United States cotton have been made possible largely by Government programs such as ECA, and that these outlets can be maintained as long as Government credits provided under such programs are continued.

After the present credits are discontinued," he says, "our outlets will depend to a large extent upon the volume of production above domestic requirements, the level of world demand, the supply of foreign cotton, and the amount of dollar exchange available to the cotton importing countries and the use they make of such exchange."

Mr. and Mrs. A. D. Cummings and daughter Rose Ann and son, Neal of Olney, visited his parents, Mr. and Mrs. A. S. Cummings the past weekend.

Grade and drainage work had been started on the south end of Highway 207. The steep Balco crossing was being cut down to make a "real" highway across the canyon. 96 men were eligible in the county to go to work on the job, a WPA project, sponsored by the State Highway department. Fifty-one men were put to work on Wednesday with pick and shovel, and probably 100 men would be working on the project later on.

A big program was being arranged by the committee for the annual West Texas Old Settlers association in its two day gathering at the Hank Smith Memorial park on Thursday, August 13 and Friday, August 14. Hollums Turns Big Lease Deal

DALLAS. -- Another big ranch lease deal had been closed Thursday in the South Panhandle, an area which has seen extensive wildcat lease play recently as a continuing result of the older reef finds in Kent county and Terry counties. The latest deal covers the 65,000-

acre W. J. Lewis Ranch north of Clarendon in Donley county. With completion of title work, E. Van Arsdale, Sweetwater, and Douglas Hollums, Lubbock, who took the lease two months ago, now have turned it to a group of buyers including General American Oil Company of Dallas. Leases are commercial, and details of the trade were not reported.

Most of the recent buying has centered around the four counties of Donley, Collingsworth, Childress and Hall with buying spreading west to the New Mexico line.

Mrs. Ben Hill of Dimmitt and mother, Mrs. C. Snodgrass spent the weekend in Amarillo with relatives.

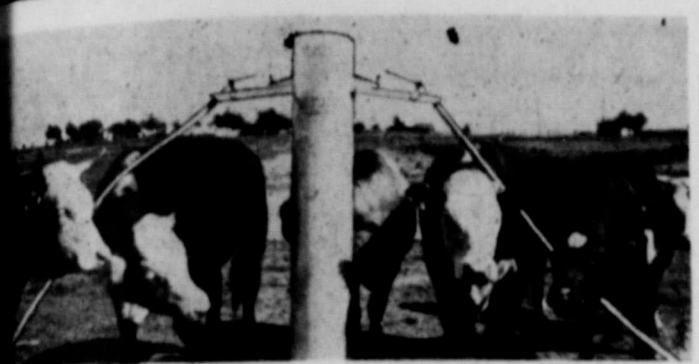

Mr. and Mrs. W. H. Simpson, jr. have a new son, born at the West Texas hospital July 28, in Lubbock. The young man weighs seven pounds and two ounces. His grandparents, are Mr. and Mrs. Tom Hall and Mrs. W. H. Simpson, sr. of Floydada.

Mr. Link Robinson, 519 Lindsey, is the most content and satisfied man in Newport, Ky. In fact, he says there isn't a thing in the world that can irritate or upset him now that he is on the HADACOL band wagon. If there ever was a man who thought HADACOL is the most wonderful thing in the world, it is Link Robinson, since he learned that his system lacked Vitamins B₁, B₂, Iron, and Niacin.

Here is what Mr. Robinson has to say about HADACOL, which is now supplying liberal quantities of these essential elements: "I have been a steel worker for over twenty years. When you are a steel worker, you have to do plenty of good, hard work, and you need lots of good, substantial food. But when a stomach is in as bad a shape as mine was . . . I couldn't eat, I had gas pains, stomach bloating and nervousness; well, I just couldn't eat the proper foods I needed. My boss told me about HADACOL and I started taking it immediately. After the second bottle I could tell a definite improvement. Now I can eat the foods I need to eat to really be on the job. In fact, I can eat anything I want to. I am not nervous anymore, either. Best of all, I haven't got those terrific gas pains and no more stomach bloating. HADACOL is the best ever. I recommend HADACOL to everyone."

HADACOL Is Different
Countless thousands are benefiting from HADACOL . . . even hundreds of doctors are recommending HADACOL to their patients whose systems lack Vitamins B₁, B₂, Iron, and Niacin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs, even to the eyes, hair and nails.
Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take—you get your money back. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50.

Junior Perry, All-District End To Play in East-West Classic

Junior Perry, of the Floydada High School Whirlwinds, voted an all-district end in last fall's campaign for football honors in District 3-A, is leaving this week-end for Childress where he will spend a week in training with a team representing the "west" to play on the night of August 11 against a team representing the "east." It will be the annual Greenbelt bowl football game.

There will be 40 stars from 24 towns and cities on the west team under the coaching of Dick Todd, former Crowell and A. & M. star, pitted against the east, coached by Ki Aldrick, famous TCU center.

West Has the Weight
If weight has anything to do with the final outcome of a football game, the West All-Stars may have an edge on the East All-Stars when they meet in the first annual Greenbelt Bowl game here August 11.

The average weight of the West line is 193 pounds, 17 pounds heavier than the East's line, and in the backfield the West's average at 163 pounds is one pound more than the East's backfield.

But all students of football know that weight alone does not decide any contest. Although outweighed, the speedy East team will have rough Don Fritz, Bob Penick and all-state Billy Bookout of Wichita Falls and all districts Johnny Crouch and R. C. Harris of Vernon will be on hand to deal trouble to the West All-Stars.

For speed the West team boasts speed merchants Bobby Crooks of Memphis and Melvin Eldridge of Sanford, while the East All-Stars will have the services of Rouse Todd of Crowell, Bookout and Danny Powell of Archer City. Powell is noted for his kicking, running passing and speed.

If the tilt turns into a passing affair the tossing of R. L. Gieseke of Matarador, Jimmy Jenkins of Clarendon and Kenneth Buckley of Childress will help the West team, while the passes of Todd, Bookout, Powell and H. C. Knox of Graham will aid the offensive of the East team.

The athletes will arrive in Childress Sunday, August 6, and will work out all week for the classic game.

Softball Slogs Back; Grounds Are Dry Again

Softball teams entered in the Floydada Tournament for \$200.00 in prizes got going once more as the rains let up last week-end, and the tournament was going full tilt again last night with Ralls bracketed against Caprock and REA crossing bats with Abernathy.

Tonight it will be McCoy vs. Post in the first game and Matarador vs the winners of the REA-Abernathy clash in the second game.

Furthering the eliminations the Friday night two - game schedule calls for Farmer to take on Builders Mart and the winner of the McCoy-Post game to play against the winner of the Ralls-Caprock fracas.

Friday night of last week Leveland won from McCoy 3 to 2. Bickley Electric which was to have played REA withdrew. Meanwhile Lorenzo had forfeited, leaving the field to 12 teams.

Monday night Farmer beat Matarador 10 to 6, and Ralls eliminated Rudy's 7 to 4.

Tuesday night's game was a thriller, when Lunch Box defeated Post 7 to 5 in 10 innings.

Thanks, Each One, Says T. T. Hamilton

I wish to thank each one of you who supported me in the recent primary election, for the office of tax assessor-collector, even though I had no opponent. I shall ever be grateful to you, and I am at your service any time you may need me.

Sincerely yours,
T. T. Hamilton

Thank You, Friends

I want to express my thanks to the people of Precinct No. 4 for their vote in my unopposed race for Commissioner. I am grateful for your hearty cooperation for the past two years in the many problems that have come up for attention, and will do my best in the two years ahead of us. Your help will be appreciated in the solution of the problems that are sure to arise.

S. V. Adams, all of Floydada; the daughters are Mrs. T. P. Moore of Amarillo, and Mrs. D. O. Murphy of Lockney. Fifteen grandchildren and five great grandchildren also survive. Mrs. Adams had been a member of the Church of Christ for 42 years.

Her two brothers, J. E. Harper of Mena, Arkansas and J. M. Harper of Willard, New Mexico, attended the funeral, but two half sisters, Mrs. Gertrude Strain of Mena, Arkansas and Mrs. Mamie Nell of Copeville, Texas, were unable to attend.

The funeral for Mrs. Adams was held Monday at the Lakeview school building, July 31, at 4 p. m. with Elder Omer Kirk and Elder W. H. Fox of Amarillo conducting the services. The pallbearers were Wayne Wright, R. L. Nichols, Walter Baxter, Bill Norris, S. L. West and Leo Dunford.

The following nieces and nephews of Mrs. Adams were present: Mrs. Doc Jones of South Plains, Mrs. Wiley Nance of Lockney, Mrs. Elbert Pool of House, New Mexico, Earl Mercer of Tulla and Clay Mercer, Lockney, and J. B. Mercer of Lockney.
