Election Party

The Hesperian has turned on the lights, got the marshal to rope off the streets, and write up the reports of the election for so many years that it is accepted fact the same will happen again this coming Saturday night.

And so note it be. The lights will go on, providence permitting, the returns will be written up on the board and there'll be a losing morning and a groaning intermixed with the happy exclamations of the winners.

Election judges of all the precincts will cooperate to their utmost to give full county reports as quickly as possible. The Hesperian is hoping to have all the precinct reports in full and complete by 10 o'clock p. m.

The lower bracket will take two nights to determine. Wednesday night Lunch Box won over REA in the opener and beat McCoy in the nightcap.

Thursday night, Lunch Box will meet Rudy's service, and that game winner will play Builders Mart Friday night for the championship and first prize money of \$50, and second place of \$30.

In the games played last week, Thursday night REA beat Ralls in an eight-inning thriller 10-9 in the opener, and Builders Mart cased by Lunch Box 8-7 in the final.

WEDNESDAY'S MARKET

Second Primary Vote Will Be Heavy, Reports Indicate

Saturday's Democratic run off primary election may quite likely see a vote within 15 per cent as heavy as the vote in the first primary in July.

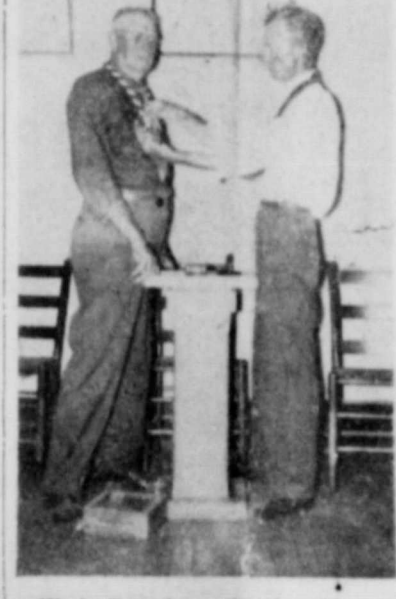

On the fact that growing interest has been displayed in the contest in Precinct No. One. Another important factor may have an effect also, namely that in many areas voters are not nearly so rushed for time as they were

thirty days ago. Substantiating this possible outcome is the heavy absentee vote. Tuesday night County Clerk Margaret Collier had 108 votes ready to mail to presiding judges and three additional voters called to cast bal-

lots after the usual business hours. This absentee vote is only 21 short of the absentee vote cast in July. This ratio would call for only 16 per cent less votes Saturday than were cast on July 22, or nearly 2600 votes.

EDITORIALS

One of the best things that could happen to us might be the attitude of the general public toward getting all of everything they can put away against the time when it will be against government policy for them to have it. A manufacturer who is selling all and more than he can make is going to speed up his production. This speed-up is what the country is looking for if we are heading for a war. Get everything for everybody that they can possibly want ahead of the government priorities and you have done the country a favor. You have the maker with a full complement of workers, you have his machinery of supply working in high. You have the people's surplus money spent for things they think they will want and need during a period of scarcity. The authorities may have been wiser than you think when they issued warning after warning to the people not to buy. Who knows but what they got the exact reaction they wanted out of you and me? It is an axiom that the public is going to do the exact opposite in matters that touch their personal and domestic lives to what the authorities warn. They'll even go into the gray and black markets! They have always and they will again.

From nearly every part of the county the report is practically the same. Many fields infested with leafworms, some bollworms, and nearly all being sprayed. In most fields the infestation is definite and alarming, in a few instances not nearly so bad. Mornings like Monday the worms were inactive, of course. But the warmth of the sun put them back to work again quickly. The toxaphene and DDT dust is said to be effective for seven days after it is applied. Commercial dusters with planes have had a busy time at least from Chillicothe west the past two weeks. The toxaphene poisons the worm as he eats it, while the DDT paralyzes him through the feet as he crawls from one juicy morsel to the next.

One form of scare buying is in the process of a flare back. This is in connection with automobile and other kinds of tires. The market for raw rubber zoomed to new heights in the 30 days after the Korean outbreak, and tire people were four days to a week just recording their orders, two or three weeks behind in filling the orders. Last week-end raw rubber had gone down 18 cents or more per pound, within a few cents of the price before the scare came up. People remember keenly their tire troubles during World War II and they stashed away a many a tire during the scare. No way of knowing, at that, they were not wise.

The pretty yards and lawns in Floydada are the talk of visitors far and wide and a source of pride to their owners. The lack which we see most pointedly is the added touch which many do not have -- the lack of curbs and a paved street. If a third of the people who spend their money for newer and better automobiles would spend one fifth as much for one year on their curbs and streets Floydada would be paved and curbed and guttered from end to end in the next four or five years. Peculiarly in this particular community the residents are lukewarm toward street improvement so far as spending their own money is concerned. Is it that they are waiting for the city or state to do it for them?

The general application of poisons of one kind or another may bring some interesting developments in weed growth in the next few years, especially the synthetics that are used to kill weeds. It is a mighty handy trick to use poison to kill a crop of weeds instead of the rotary hoe, or the manually applied-kind, especially the latter. Also it is as cheap or cheaper, but since the poison does things to plant growth it may be anticipated that there will be developments which nature will attempt to meet the situation. Nature is contrary, obstinate, as note by the repeated efforts of the worm to spread out from the warm regions at every opportunity.

It will be gratifying to the West Texas friends of Judge Meade F. Griffin if he is returned to the office of associate justice of the Supreme Court of Texas to which he was appointed 15 months or so ago. He is up for the August vote, paired with a Dallas man. Judge Griffin has a great background for the office in which he aspires to continue. His experiences have run the scale of human endeavor, he has served in two world wars and has practiced as an attorney for a quarter of a century or so. Lawyers say he is quite, quite capable in his chosen profession.

Some guesses are that next Saturday's vote in the run-off primary will be light. A few estimate the interest as at a higher pitch than appears to us to be the case. It is an axiom that people are careless about their exercise of the power and responsibility at the ballot box unless there is strong feeling involving personalities. Note the interest in the usual school tax election or the selection of a school board member when there are no personalities involved.

You can send a message around the world in one seventh of a second; yet it may take years to force a simple idea through a quarter inch of human skull. Chas. F. Kettering

help keep electric power "on the line"?

YES! Through investments made in your Public Service Company. Our stockholders are in reality the "owners" of Southwestern Public Service Company. Their dollars are behind generators, substations... transmission lines... all the equipment that helps keep low cost electric power "on the line". Many, many folks... you, your neighbor... the minister down the street... all help run our company. Yet no one of them owns more than 2% of the total stock.

Money from your savings account, or your life insurance policies more than likely has been re-invested in your Public Service Company. So you see, this company really belongs to the people... works for the people. American business is actually run by you... the American customer!

25 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

It's a *very* satisfying feeling

YES, it's good to slip into a truly fine automobile and sense its richness, its comfort, its room.

And there's a great thrill in touching off the waiting power of a great-hearted straight-eight and feeling its swift response at any speed.

It's fun to count the quick, admiring glances thrown your way.

It's nice to have a car that parks easily, for all its inches. It's very pleasant to do away with gear-shifting and clutch-pedal pushing, and know in its stead the utter smoothness of Dynaflo Drive's silken transmission of power.

And still that doesn't probe the depths of a ROADMASTER owner's secret satisfaction.

For while he knows he has a fine car, by its look, its feel, its appointments--

While he has performance at his command that needs play second fiddle to no other on the road--

While he enjoys a very special measure of creature comfort in the quite matchless gentleness of ROADMASTER's ever-level ride--

He knows too that he has made

an exceptionally wise investment. He has spent his money for the things that make a fine car fine--and nothing simply for show.

He has paid the lowest price per pound in the fine-car field--he has the very satisfying feeling of knowing his dollars have given him solid merit, and solid merit alone.

We'd like to have you try ROADMASTER in honest comparison with the highest-priced cars to be found. We'd like to have you try to match it for room, for comfort, for finish, for handling ease and for ability on the road.

Then check the prices--and see if your own sense of value doesn't advise signing up right now with your Buick dealer for a Buick ROADMASTER.

Autos Damaged But No Casualties In Traffic Clashes

Three traffic clashes in the vicinity of Floydada, two of them on North Second street, one each Thursday night, Friday night and Saturday afternoon, resulted in considerable property damage but minor physical damage to the occupants of the cars.

Thursday night in the bulge of wind and rain Kenneth Hart, traveling north of North Second, rammed the front end of his car into the rear of a pick-up driven by J. E. Tivis, with an estimated damage to the car of some \$300, and considerably less to the pick-up. Neither driver was hurt. Sheriff investigated the crash and reported on it to the highway department.

Friday night a car driven by Mrs. S. J. Latta was struck by a car driven by George Reid May, both traveling east on Highway 70 four miles east of Floydada. Sheriff Hart, investigating, said Mrs. Latta was enroute home from church in Floydada. May had pulled out of the lane to go around the Latta car when Mrs. Latta turned left to

enter the driveway at the Latta home. Mrs. Latta had a minor head injury, occupants of the May car being uninjured. Considerable damage to both cars was not estimated.

The Saturday afternoon crash resulted in some \$300 damage total to two cars, said Marshal Bob Smith, who made the report. A car driven north on North Second by Mrs. W. H. Hopson was struck by a car driven by Mrs. Kermit Terrell at the intersection of Jackson street. Neither of the women were seriously hurt.

Grass Planting Time Is Here, Says Soil Man

The planting time for improved pasture mixtures or irrigated pastures is here. Normally, fall plantings are more desirable than spring plantings, according to Ralph R. Cogdell, Work Unit Conservationist, Floyd County Soil Conservation District.

Usually, several grasses with one or more legumes are planted in mixture. This prolongs the growing season and a green plant is available for grazing for longer periods of time. Smooth brome, perennial ryegrass, orchard grass, alfalfa, and meadow fescue are the best grasses to plant. Crested wheatgrass is good for limited irrigation. However, if plenty of water is available, the other grasses produce more volume.

A legume in the mixture makes a better pasture. Alfalfa is the best legume but it may cause bloat if not managed properly. Birdsfoot trefoil will not cause bloat. Other legumes used are Madrid sweet clover, sweet clover, Ladino clover, vetch and Hubam clover. It is better to plant a legume that is not an annual. In some cases, a mixture of grasses without a legume is used.

The rate of seeding is usually 15 to 20 pounds of grass seed, plus 1 to 3 pounds of legume.

Around one-half inch is the best depth to sow.

Several cooperators of the District have had some bench leveling done which will be planted to the pasture grass mixture. The benching area will hold all the rainfall

and there will be no total water loss. To get the most out of the pasture mixture, it should be irrigated as often as alfalfa.

Management of improved pasture grass mixture is essential. The area should be divided into three plots for grazing rotation. One area is grazed while another is watered and the third one gets new growth. As soon as a plot is eaten down, the livestock should be moved to fresh pasture and that plot irrigated. By this means, uniform grazing is accomplished and the grass can recover.

If you are not going to manage the irrigated pasture, plant a straight seeding of perennial rye.

Carlene Daniel, Louis N. Johnson Take Vows in Church Ceremony

A pretty church wedding was held on the evening of August 11, at the First Christian church of Floydada when Miss Carlene Daniel, daughter of Mr. and Mrs. Carl Daniel of South Plains, became the bride of Louis N. Johnson, son of Mrs. O. A. Johnson of Floydada. Rev. R. C. Guest, pastor of the South Plains Baptist church performed the double ring ceremony.

MRS. LOUIS N. JOHNSON

Mrs. D. W. Douglas played the organ, while Mrs. Ralph McGuire sang "Because" and "O, Perfect Love" during the exchange of vows. She also played traditional wedding marches. Walter J. Burgess, of Dumas was the groom's best man and her sister's matron of honor. She was gowned in a ballerina style, orchid lace dress, made identical to the bride's dress. She wore lace mitts, her hair halo of matching carnations matched her bouquet, which was a shower of gathered pink carnations, trimmed with orchid maline and satin ribbons. Kenneth Clements of Childress acted as the officiant and the groom as best man and the ushers were Clifton Smith and Perry, both of Tell.

The bride, entering on the arm of her father, who gave her in marriage, was gowned in a white ballerina length dress, with matching long mitts. A halo for her hair of tiny pink sweetheart roses replaced the traditional veil. The bouquet was a cascade arrangement of pink rose buds, showered with streamers of pink satin ribbon. The candle lighters for the ceremony were Donnie Carol Young and Eugene Beedy.

Mrs. Daniel chose a street grey dress with brown accessories and corsage of gardenias and Mrs. Johnson wore a tan printed silk dress with brown accessories and corsage of gardenias, for the wedding. Immediately following the wedding a reception for the bridal party was held at the home of Mrs. and Mrs. George Beedy, South Plains, with the couple and their attendants making up the receiving line. Miss Kimbrough of Canyon was the guest register.

The table was laid with white cloth, and the center piece of the table was a large wedding cake mounted on a styrofoam platter and made of white gladioli, roses and achilles. A miniature bride and groom were under the wedding ring. The ring was set with garlands of gardenias.

Country Drive Scratch Dallas Sweeps State

The country boys' campaign to "scratch Dallas" in the August 26 run-off election is sweeping the state, Chairman Emmett Alexander of Marble Falls, said today.

The plan calls on Texans to vote against the four Dallas County candidates in the five statewide races, to elect their four opponents and to thereby strengthen representation of other areas in the government.

The reaction to our drive to decentralize the power held by Dallas county in state government has been more than satisfactory," Alexander said. "And we expect it to snowball into victory by Saturday."

Alexander said Texans in all parts of the state, especially in the small towns, were working for the "scratch Dallas" idea.

Alexander said an eight-member committee, including Mayor R. O. Smith of Marble Falls and M. C. Winters, Johnson City rancher and

merchant, vice - chairman, were pushing the "scratch Dallas" campaign.

IT'S TIME for BROOKS Because...

Something must be done now about the runaway cost of our state government — a cost which has increased more than 500 percent in the period between 1933 and 1950. Aside from the cost of World War II, the cost of the Federal government did not increase that much during the same period.

With the State plunging wildly towards a financial crisis, the Lt. Governor is a business man rather than a political office. It needs a business man with a business viewpoint.

Only by the election of a business man can the people of Texas be assured of direct and vigorous action on this runaway cost, waste, and needless extravagance in our State government.

Only a business man who has not been a part of the system which spawned the era of waste and extravagance can give the people that searching inquiry and impartial analysis now. Pierce Brooks is the man.

The next Lt. Governor of Texas should be above internal friction, beyond cross currents of political completely judicial — clashes of personalities among members of the State. He must be in a position to treat them all to be fair to each, and to be true to his obligations to the people. Pierce Brooks meets these tests.

Pierce Brooks is the candidate completely free from the entangling alliances, political obligations, cliques, clans and groups which grow up when men in office too long.

The Lt. Governor elected in 1950 should come from the conservative atmosphere of the State government, but direct to the people with a program for the people. Pierce Brooks is such a man.

In these crucial times the next Lieutenant Governor should be answerable to any group of special interests that has millions of dollars of taxpayers.

Pierce Brooks for Lt. Governor (POL. ADV. — Ben H. Lewis & Friends.)

Your uttered ignorance and morbid doubt.
 Talk health. The dreary, never-ending tale
 Of mortal maladies is more than stale;
 You cannot charm, or interest, or please
 By harping on that minor chord, disease.
 Say you are well, or all is well with you,
 And God shall hear your words and make them true.
 The two kinds of people on earth that I mean
 Are the people who lift and the people who lean.
 It is easy to sit in the sunshine
 And talk to the man in the shade;
 It is easy to float in a well-trimmed boat,
 And point out the places to wade.
 So many gods, so many creeds,
 So many paths that wind and wind,
 When just the art of being kind,
 Is all this sad world needs.
 We flatter that we scarcely know,
 We please the fleeting guest,
 And deal many a thoughtless blow
 To those who love us best.

This Monday morning is fair and bright. The little bit of fence is blue with morning-glories, (some one named them well). Dew sparkles on the green lawns. The click of a hoe as a neighbor cuts his weeds, which the recent rains made plenty for us all. Big trucks roar down the highway near and the sound of electric saws make us know our new neighbors will soon have pleasant homes. The scent of Mrs. Byars' angel trumpets is still on the air and as much as we dislike the hot weather it makes us sad to know winter is getting ready to blow down again from the frozen north. We must spend more and more time looking at the flowers and garden, holding their beauty close to our hearts to cheer us on cold days to come. Sometimes we are so taken up with the fears for the future we do not stop and spend time as it is now. We need to get every bit of good out of each passing hour, for it never comes again, and the future is always just out of reach. Live joyously and gladly today. Spend the pretty greeting card today, your friend may not need it if you wait.

We went to Plainview yesterday afternoon and visited with Mr. and Mrs. Paschall Kimbrew. He is a great-nephew of Mr. Spikes. With reverence we looked at the beautiful old, old furniture, which was hand-carved and polished like glass. The twelve big China dinner plates, cut glass bowls and glasses, hand-painted pictures on the walls and fine old framed mirrors. The hand-carved bed of pineapple design, old and lovely and nearby stood a beautiful chest. How busy my mind was, go-

ing back in the gracious days of long ago when living was not so complicated by so many things as now and people could sit near the fireplaces and talk and visit. I am so glad that Mary loves these things and passed on down that others might share and realize that the ones who lived before us knew and had gracious living too.

I raised so many pumpkins from four vines that I am almost afraid that you will not believe me when I tell you there were sixty - five that got ripe and yellow on the vines before the bugs got them. And we so love pumpkin pies.
 For George and Mattie McPeak who have lost their son:
 We have no clearer word for our heart's friend,
 For him who journeys to the world's far end,
 And scars our soul with going; thus we say,
 As unto him who steps but o're the way -
 "Good - by."

Donor of Camp For Boy Scouts Died Tuesday

Marvin Standefer and a group of scouts were in Silverton Wednesday afternoon to attend the funeral services of John T. Haynes, age 68, who passed away in the Lubbock Memorial hospital Tuesday morning. Mr. Haynes was a staunch friend of Boy scouting in the South Plains and had donated 80 acres of his ranch in the Palo Duro canyon for a permanent camp for the South Plains Boy Scout Council. For more than a generation, Mr. Haynes had a warm affection for the Boy Scout movement, having been an early day Scout leader at Silverton and kept an active interest in the organization until his death.

Only recently he gave another tract of land on his ranch in the Palo Duro Canyon to the Girl Scouts of the South Plains. He had hoped to see this camp developed as had the Mammy Haynes camp for the Boy Scouts but his health prevented his completing this project.

Mr. Haynes had lived in the Silverton area for more than a half century, and was a rancher. His wife died in 1922. He is survived by two sons, Jim Haynes, Eagle Pass, and Jack Haynes, Lubbock, three sisters, Mrs. Mary Daniels, Plainview, Miss Billy Haynes, Los Angeles, California, and Mrs. Kyle Holderness, Oklahoma City, Oklahoma.

The funeral services were held in the Silverton High school at 2 o'clock and burial was in the Silverton cemetery. The family requested that Scouts from all the scout troops on the South Plains take part in the services. Lubbock Plainview, South Plains, and several other communities in the area in addition to Floydada, had contingents at the last rites.

AMERICAN ARTILLERY GOES INTO ACTION IN KOREA—This photograph of 155-mm. howitzers firing on Northern Korean invaders on the firing line in Southern Korea was transmitted by radio-gram on July 10. The picture is remarkable when it is remembered that the photograph was made amid battle smoke and unfavorable weather conditions. (U. S. Army photo by Sgt. Turnbull.)

Whirlwinds Bid For Toughening Against Crowell

Floydada High Whirlwinds have been training hard this week, perfecting plays and blocking assignments in preparation for today's football scrimmage with Crowell.

Preston Watson, head coach, said that the practice game had been scheduled and that the "Winds" will not work out this morning so that they would be fresh for the out-of-town scrimmage. Mr. Watson says he will take the whole squad, consisting of some 35 players, and that the buses will leave here for Crowell around 1 o'clock.

Crowell high, according to reports, is a big, fast, experienced team and should give our boys a great deal of pre-season toughening and an opportunity to become accustomed to playing against strong opposition.

There will be no scores kept and no kick off, the ball being put into play for a given time and then switching to the defense for an equal time.

Far from being a finished product, the "Winds" are looking better in spite of their inexperience, and have suffered no injuries to date that would keep any man from playing.

Both coaches, Watson and Read, praised the team for their hard work and effort, and have hopes of overcoming the inexperience stigma.

Most farm tractors are likely to go on being used and used until they are about 20 years old. After that, a tractor is likely to go to the junk pile. As it ages, a wheel tractor is likely to move from its first home on a large farm and may make one or more shifts to smaller

Hill Reunion First in Eighteen Years

Mr. and Mrs. W. H. Hill last week had all of their children for the first time in 18 years. The children are five sons and six daughters named:

A. V. of Beaver, Oklahoma; of Santa Fe, New Mexico; Walter of Floydada; Alton of Lubbock and Calvin of San Antonio.

The group spent Sunday, August 20, at MacKenzie park. It was a great day of enjoyment, and used themselves the youngsters in a great way seeing the swimming and playing.

The six families present were in number, 13 of whom were children of Mr. and Mrs. W. H. Hill, who are hoping for more such occasions.

properties. When an old tractor on a small farm it is likely to be the only one on the place. It may be one or more later models do most of the work, with the old kept for special jobs or to be out in rush times.

This kind of information needed as a by-product of studies tractor use and fuel needs of the Bureau of Agricultural Economics made with the aid of its volunteer crop reporters.

This study shows that of wheel tractors made in 1930 and 1935 were still working 10 years. Of the machines made 15 per cent had gone out of service. "The great bulk of tractors disappeared from farms from 22 years after the year of purchase," says the report. The average life of tractors has increased about 50 per cent since 1941 and the life of rent makes may be even longer. Rubber tires on current tractors reduce vibration and this will prolong years of service.

The demand for used tractors operators of small farms is an important factor in the long records of many tractors. A 5 years a tractor is likely to be a market value of about half its original cost. This puts it into the range of farmers willing to be it in repair. On a 10-year old machine" so "farmers with small are small," so "farmers with small annual use can often obtain cost power with used machines.

On Guard Under the Snow

The weather is still warm here winter snows blanket the mountains of the Northwest. Mosquitoes can begin their campaign for the control of snow-water mosquitoes that will not hatch until 1951. In the Northwest research on mosquitoes has encountered several problems not widely from those along the Atlantic coast. These include: (1) Mosquitoes associated with irrigation; (2) A serious problem of winter mosquitoes that hatch each season as western rivers—and particularly the River—go into flood stages; and (3) Snow-water mosquitoes that may prove pests in areas in the high

flood-water and snow-water mosquitoes, says Dr. E. F. of the Bureau of Entomology and Plant Quarantine, on which some successful control has been possible of some of the new insects applied the fall before the hatching season. DDT was used in this way against the

flood-water mosquitoes in the Columbia valley. More recently, laboratory tests and some field work has indicated that in some circumstances the newer materials; toxaphene, dieldrin, aldrin, heptachlor and parathion are even more effective than DDT. But DDT, methoxychlor, and TDE are among the most effective poisons at low temperature—even in the icy cold water in which mosquito pests will hatch. It has also been found that the youngest stages of the mosquito larvae are most easily killed with the chemicals. Some of the species require 10 times as much of the insecticide to kill a larva in its fourth stage as it would to dispose of it in the first stage.

In the control of snow-water mosquitoes in the high country, some excellent kills have been obtained with only a half pound to a pound of DDT to the acre, applied the preceding fall. The DDT remains under the covering snow, and when the mosquitoes hatch as the snow melts the slight quantity of DDT in the snow water proves fatal to the freshly hatched wrigglers. DDT is on the job before mosquito crews could get into the mountain areas in spring.

With so many new insecticides available, entomologists have not yet been able to make nearly all the field tests needed to check laboratory findings and to find out the effects of the newer insecticides on fish and wild life. Dr. Knipping

comments, however, that investigations may show that the choice of the most economical material may come to depend on the time of the year and the temperature of the water in which it is to be used.

Dillard And Love

Re-Union August 16

The annual Dillard and Love Reunion was held at Childress, Texas, in the city park, August 16. There were 217 people registered including the visitors. There were six ministers present.

There was a full day of interesting activities planned and carried out. The morning was devoted to a religious service and business meeting. The congregational singing was directed by Rev. C. A. Strickland of Crosbyton. Rev. Davis of Childress, and Rev. Bert Lane of Vernon each expressed words of appreciation for the occasion. The Reeves sisters of Littlefield and Elizabeth (Granny) Hammonds rendered special songs. Rev. and Mrs. V. F. Love of Colorado City, Texas, sang a special song after which Rev. Love brought the closing message.

After the devotion a short business session was conducted by Rev. H. M. Reeves, the president. All the former officers of the past year were re-elected, H. M. Reeves of Littlefield, president, Mr. and Mrs. Charlie Dillard of Lockney, secretary and treasurer.

At noon a basket lunch was spread and everyone enjoyed the delicious food. The afternoon was given over to visiting and enjoyment. Everyone returned to their homes looking forward to another grand reunion which will be held the third Wednesday in August, 1951, in the Childress city park.

John R. Gray, Mgr.

G. C. TUBBS
COUNTY JUDGE, FLOYD COUNTY
FLOYDADA, TEXAS

TO THE PEOPLE OF FLOYD COUNTY:

This is a partial report on the activities of your County Judge for the past eighteen months that I have been your County Judge. When I took over the office on January 1, 1949, one of the first things I did was check up on the amount of insurance on the different properties of the county. I found there was only \$70,000.00 insurance on the courthouse building. I recommended to the Commissioners Court that the insurance be increased to \$200,000.00, which the court readily agreed to, and the policies then in force written with Frank Perkins and E. P. Nelson were endorsed to that amount. The Courthouse burned on March 11, 1949. As a result of the increase in the insurance the county recovered \$105,000.00 for the loss. We recovered approximately \$70,000.00 in insurance money more than we would have as it was originally written.

We have constructed 37 miles of paved farm-to-market roads. We now have under construction 10 1/2 miles of paved road. Plans are approved and now in the making, and contracts will be let soon for 24 more miles of farm-to-market roads. Other roads designated for improvement during the next two years amount to about 40 miles.

We have disposed of 111 misdemeanor cases, 11 civil cases, 4 mental illness cases, 63 probate cases, besides numerous probate orders, and juvenile matters, and innumerable minor matters constantly coming before the County Judge to be disposed of.

The Courthouse construction job requires considerable attention from the Commissioners Court and County Judge. The Commissioners Court has charge of all the business matters of the County. The County Judge presides over their deliberations and has no vote except in case of a tie. The County Judge hasn't had to untie a single vote during this eighteen months.

In view of the above record, I feel that I have earned a second term in this office, it being a custom of the Democratic Party to elect a man to a second term in any office unless he had been dishonest or incompetent in his first term and I have not been guilty of either. I solicit your vote on August 26, on my record which I am proud of.

Respectfully submitted,
G. C. Tubbs

Hamilton - Colston Vows Solemnized In Ceremony at Church

Before an arch of fern and white gladioli, four tall candelabra with lighted candles, placed on the rostrum of the First Baptist church, Sunday morning at nine o'clock on August 20, Miss Wilma Hamilton, daughter of Mr. and Mrs. T. T. Hamilton and J. B. Colston, son of Mr. and Mrs. S. R. Colston, repeated their nuptial vows, before the pastor, R. Earl Allen.

The steps to the rostrum were roped with white silk rope and white bows of satin ribbon. The candle lighters were Mrs. Lewis Anderson and Mrs. Kenneth Willis.

Miss Roberta Garrett gave an organ prelude of love songs, before the ceremony, and she played the accompaniment for Miss June French as she sang, "Because." Miss Garrett also played the wedding marches.

The ushers for the wedding were Kenneth Willis and Lewis Anderson.

The bride's maid, Miss Claudene Goen, wore a brown faille fall model dress with green hat and accessories. Her flowers was a shoulder corsage of yellow roses. The maid of honor, Miss Wenona Faulkenberry, wore a winter, pink wool suit with brown accessories and her flowers were dark pink rose corsage.

She wore green hat with short veil, and green shoes. Her rhinestone bracelet, necklace and ear rings, gift of the groom, made up her costume. For something old, she wore her mother's bracelet, something new was her wedding attire, something borrowed was the white bible belonging to Miss Christine Jones, and something blue was the traditional blue garter. She also wore a four-leaf clover in her shoe, for good luck, given her by Mrs. Harry Morckel.

The bridal bouquet was an orchid placed on the white bible with white satin streamers, white tube roses knotted in the ribbon.

Best man for the groom was Edward Landers of Post.

For her daughter's wedding, Mrs. Hamilton wore a brown tulle faille crepe dress, with brown velvet hat, brown shoes and gloves. She wore a shoulder corsage of white gardenias. Mrs. Colston wore an aqua crepe dress with navy hat and navy accessories and her corsage was of white gardenias.

Immediately following the wedding, a reception was held at the home of the bride's parents. The bride and groom, and their attendants and their parents made up the receiving line. Mrs. Nema Hamilton met the guests at the door and Miss LaVerne Fowler registered the guests in the bride's book.

White gladioli in white baskets were on the piano, buffet and table. The table, laid with an Italian cut work cloth, held a three tier wedding cake, topped with a miniature bride and groom. A silver service, from which coffee was served with the cake by Misses Christine Jones, Nell Huckabee and Francis Foster.

Mrs. C. A. Massey of Tulla, Mrs. Cubert Gray of Amarillo, sister of the bride, and Mrs. Carl Muench assisted in the dining room.

Mrs. Gerald Holmes, sister of the groom, was in the gift display room.

The couple left for a trip to Colorado Springs. After their return they will be at home in a new home on the Matador highway, recently completed.

Wrong Brand of Experience Claims Brooks

Pierce Brooks, Dallas insurance executive, took his aggressive campaign for lieutenant governor into East Texas this week and told supporters that he was supremely confident of winning the Democratic nomination for lieutenant governor on August 26.

Brooks said he was greatly encouraged by the tremendous number of pledges of support he had received in East Texas. "The groundswell for Pierce Brooks which started out in West Texas has swept into East Texas," he said.

The Dallas county candidate pointed out the lieutenant governor's office is a business office and that the state's financial affairs, now at their lowest ebb in history, can best be solved by a business man.

"The political experience that has brought the state to the brink of its worst financial crisis in history," Brooks said, "is not the type of experience to get the state out of the present financial mess."

Brooks called upon all Texans

who believe in free and clean government to go to the polls on August 26 and vote.

In the kid show at the Top of Texas Rodeo and Horse show in Pampa Tuesday night of last week, Jay Johnson, 11-year-old youngster of Mr. and Mrs. Jack Johnson, rode out his first calf in public to win a tie for third place in the calf bucking contest.

Jack and his son took in a part of the big show that highlights north panhandle rodeo and horse show events. The Pampa Daily News played up little Jay as a tight sitter on an uncooperative calf.

QUESTIONS OF INSURANCE

Do you have insurance to cover your loss in case of Fire, Wind Storm, Lightning or Hail on your home and other buildings?

Do you have the men working for you covered in case of accident?

Are your guests covered should they have an accident while in your home?

Is your completely covered for fire Theft, Collision and Upset?

Is yours and your family's doctor bill covered should your car have an accident?

Suppose some one should sue you as a result of an accident with your car would that make any difference?

Of course none of these things could happen to you, but you might have a friend that would want just such insurance and you would be doing him a favor if you let us know about him.

Thanks

To The Voters And Citizens Of Floyd County

The race for County Judge of Floyd County is drawing to a close, I have enjoyed meeting the folks and asking for your vote and influence in the nicest way that I know how. This is the sixth campaign for public office that I have made in the County, all of which were conducted on the same high plane, no one has ever heard me abuse or defame the good name of any opponent that I have ever had. I realize that we are all neighbors and friends and I am glad that it is that way.

With the experience that I have had during the past 37 years I sincerely believe that I can make you a good County Judge, a Judge for all the people in all of Floyd County, capable of handling the County's affairs and finishing any building or building program that has already been started in the County. I will work at all times

to keep the expenses of the County down.

My opponent is now serving his eighth year as County Judge, don't you think it is time to give someone else the job? If elected I will do my dead-level-best to make Floyd County a good Judge, and will have no other business of any kind operating out of the County Judge's Office, but will devote my entire time to the affairs of Floyd County. Don't you think that you as Tax Payers of Floyd County deserve a full time County Judge?

Your vote and influence will certainly be appreciated, and thanks for the nice vote that you gave me in the July Primary Election.

Paul R. Moore

Candidate for County Judge,
Floyd County, Texas.
